BOYS' NICE SPRING AND SUMMER SUITS.

Read the ads, throughout the paper and you will find that every merchant claims the best and most stylish clothes for boys, but we stand ready to demonstrate that our collection of suits for little fellows and for larger boys is absolutely unrivaled in Goldthwaite. We believe we have every claim for superiority in boys' wear well backed up, and we await your judgment on what we claim to be the most meritorious showing in our little city. We handle Preis, Levy & Co's. clothing for boys, made in New York. : :

Smart Togs for Smart Tots a smart ways cheapest. There's no "four flush" talk in our ads. There's not the least element of chance in your dealings with us. Money back for goods back : : : : :

**You can borrow the key to our cash drawer** and take out the money you gave us any time you are not all smiles. We have faith enough in the Boys Clothing we offer you to invest our own dollars and we don't ask any more of you These clothes are made by people who spend 365 days in the year thinking about clothing for your boy. COMANCHE.

A. P Carson and wife of Goldthwaite are guests of Dr. Carson.

Bob Taylor lectured at the new opera house Wednesday night to a crowded house, the door receipts being over $400.

A very fine rain fell in nearly all parts of Comanche county Thursday night of last week, which put the ground in shape for planting cotton.

C. O. Bragg, of the firm of Nance & Bragg, druggists at DeLeon, died Thursday of last week, after four days illness with pneumonia and congestion.

The people around Mercers Gap and Democrat have already forwarded to Washington their petition for a rural delivery of mail route. The people living between here and Downing are getting up a petition for a route.—Exponent.

LAMPASAS

The committee is out with its subscription list to get money for the fireman to assist them in properly celebrating their anniversary.

Samuel Skaggs, son of Mr. and Mrs. J. C. Skaggs, died Tuesday at the family residence in the northern part of town. He had long been a sufferer from consumption.

Mrs. Wm Hodges of the Sage neighborhood, is reported as very low and is not expected to live. Her daughters, Mrs. Geo. Skaggs of Lampasas and Mrs. Dr. Smith from South Texas, are with her.

Dr. Greg McGregor and his friend Whitlow left Sunday night for Mississippi, where they will spend about thirty days visiting relatives and the scenes of their youth, after which they will return here and then go to their home in the Indian Territory.

Quite a large delegation of the local lodge Knights of Pythias went to Lometa Saturday night to install a new lodge, and to start the boys off to working properly. Ed Nevans was made the Chancellor Commander and J. L. Allen was made the vice-Chancellor of the new lodge, while S. J. Enochs was made Prelate and John W. Stephens was made the Keeper of Record and Seal.—Leader.

Thrift of time is as necessary as thrift of money, and he who knows how to save time has learned the secret of accumulating educational opportunity. If you have ten minutes in the morning, ten minutes in the afternoon and ten minutes in the evening, put them together by using them for one purpose and you have half an hour; put these half hours together and in the course of a week you have three hours and a half; and three hours and a half a week, patiently utilized, are sufficient for making the acquaintance of a great group of books or learning a language. Men who regard it as sinful to waste money, waste time with a prodigal's lavishness because they do not understand the value of short periods of time; society is full of people who might enrich themselves an hundredfold and make their lives immeasely more interesting if they learned this common-place truth.—Leonard Graphic.

VALUE OF A SMILE.

A kind smile is beyond price to the erring and repenting, and cheers them to struggle back to the path of right and duty, from which they have diverged in pursuit of pleasure and folly; while to the sorrowful, the desolate and the forsaken, it has the happiest effect, only comparable with that of the sun in dissipating the thick clouds and fog which sometimes entirely obscures a landscape. A smile is a token of warmth within; it shows the kind heart of a friend, the affectionate brother, the loving child, and of the happy husband. It adds a charm to the plainest face, it enhances the beauty of the most well-favored, and it makes the gentle, gracious woman appear a veritable angel in the eye of the man who loves her.—Ex.

Advertising is an investment. Like an investment in bonds or stocks or anything else, it is expected to bring in returns; but, like them all other investments, is accompanied with some risks. The risk is mostly a matter of judgment in matter, method and medium. Too many advertisers figure advertising as expense, however, and are more interested in getting it down as close as possible than in figuring it as investment and trying to see how much they can get out of it. The advertiser who is anxious to see how much space he can get for a little is pretty sure to neglect the more important matter of putting the proper things into that space to make it profitable. Not that advertising should not be bought as economically as possible—space should be bought as carefully as anything else—but, unlike merchandise, which being well bought, is half sold. Advertising space may be bought ever so cheap and yet be next to worthless because its true value is not made use of —Sacramento (Cal.) Bee.

The people of Goldthwaite sympathize with Mrs. J. W. Butz because of the death of her mother, Mrs. Athy, which occurred in Dallas last Friday. Mrs. Butz was at her mothers's bedside when the end came and has since remained with her father in Dallas. She is expected home today.

Since last report County Clerk Smith has issued marriage license to N. E. Virden and Miss Lula Shaw, L. L. Landers and Miss Hattie Lee Jarrett, A. M. Faulkenbery and Miss Sallie Karnes.

Derangements of the teeth of the horse very frequently lead to grave difficulties, both local and constitutional The teeth often become decayed, holes form in them and toothache is a common occurrence. There is no such thing as blind teeth, as is often termed, it is either a rotten or a long tooth. Ninety per cent of the horses that are fed condition powders to recuperate their health, need nothing but their teeth repaired.

THE INFLUENCE OF HOME.

When a mother takes a child into her arms she little knows the possibilities that lie within it, to be developed by careful training through the cultivation of the conscience and those virtues and graces that make up Christian character and form the genuine purpose of life. A child who has been well born and well reared has to start with an education and culture that transcend every form of knowledge The moral bias given in those early years will so root itself in life and character as to almost be unchangeable. The last impressions are received at home. It is there the seeds are sown that germinate and develop either into a noble and self respecting purpose, or into a life of lawlessness, dissipation and crime.—Selected.

# The Country Drug Store

Is now well into the 9th year of its existence—and as owner and proprietor of same, I am glad to say that my appreciation of the patronage of my store continues and increases as the volume of my business does. My 8th year's business was more than double my first year's business—but we can only be glad of the past and hope as well as work and pray for the future. My store has never been as well supplied as it is now with such lines as Paints, Oils, Wall Paper, Patent Medicines, Pharmaceuticals and various other things usually kept in a first class Drug Store My Instructions and every effort is to treat everybody so as to merit as far as possible, with human imperfection, your trade. The constant invitation is to come and make yourself at home at The Country Drug Store. My effort is to keep or get anything my customers call for. I will have some things to tell you of—some new goods, etc.—in a few days.

### MILLS COUNTY MOURNS.

A GOOD CITIZEN AND POPULAR OFFICER DEAD.

Mr. Henry J. Crockett suffered a stroke of apoplexy Wednesday afternoon about 1 o'clock which caused his death in a few moments. Mr. Crockett was in good health and spirits up to a few moments before his death. He ate dinner as usual and smoked a cigar, after which he walked to town from his residence in the northern suburbs of the town. Just when the depression that preceded the stroke was felt by him is not known, but it is known that he realized that he was seriously effected, his idea being that he had inhaled some of the fumes from bisulphate of carbon, or "high life" as it is commonly called, which he had burned to destroy an ant bed on his premises. The report gained considerable circulation that the fumes from the burning drug had caused his death, and it was generally believed. However, it would have been almost impossible for him to have inhaled enough of the fumes to kill or even seriously injure him and had the injury resulted it would have been instantaneous, besides, a physician who examined Mr. Crockett and is well qualified to give an opinion, states that there was every symptom of apoplexy and no symptoms of anything else.

Mr. Crockett had served as county treasurer for the unexpired term of the former treasurer and had been elected for one term and was a candidate without opposition for a second term. He was a man of many virtues and was universally esteemed and honored as a Christian gentleman and model citizen. He was a faithful member of the Methodist church, also of the Masonic fraternity and Jeff. Davis camp of Confederate veterans.

He lived in this county for fifteen years, having moved here from Lampasas county. He left a wife, seven sons and two daughters. His wife and one son lived with him in this city and one of his sons and a married daughter live near Mullin. Several of his children live in Lampasas county and one lives in the Indian Territory.

His remains were interred in the Odd Fellows' cemetery Thursday afternoon under the auspices of the Masonic fraternity and the funeral was attended by a great portion of the citizenship of this town and many from Mullin and other communities of the county

A disordered stomach may cause no end of trouble When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys congested, causing numerous diseases, the most fatal of which are painless and, therefore, the more to be dreaded. The important thing is to restore the stomach and liver to a healthy condition, and for this purpose no better preparation can be used than Chamberlain's Stomach and Liver Tablets. ## GOOD SPIRITS.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Blue Grass state could not remedy a bad liver or the hundred-and-one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the greatest of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over thirty-five years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. At all druggists.

## CURES COUGHS AND COLDS.

Mrs. C. Peterson, 625 Lake St., Topeka, Kansas, says: "Of all cough remedies Ballard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." 25c, 50c, $1.00 bottle. Sold by J. H. Logan.

## DISC CULTIVATORS.

It may appear strange, yet it is a fact that no other factory has been able to make a satisfory Disc cultivator except the Janesville, although nearly every factory in the country has tried to make them. The Janesville is a grand success. We have them with shovel and calf tongue attachments.

HURLBUT HARDWARE Co.

## A DANDY FOR BURNS.

Dr. Bergin, Pana, Ills., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends, as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are especially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, $1.00 bottle. Sold by J. H. Logan.

## DISEASE AND SICKNESS BRING OLD AGE.

Herbine taken every morning before breakfast will keep you in robust health fit you to ward off disease. It cures constipation, biliousness, dyspepsia, fever, skin, liver and kidney complaints. It purifies the blood and clears the complexion. Mrs. D. W. Smith Whitney, Texas, writes April 3, 1902: "I have used Herbine, and find it the best medicine for constipation and liver troubles It does all you claim for it. I can highly recommend it." 50c a bottle. Sold by J. H. Logan.

## UNIFORMLY EXCELLENT.

It is a matter of continued and pleasant surprise to us to note the invariably and uniformly excellent standard reached and maintained by that best—and really the first—of Texas high-class magazines, The Crest, of Dallas. The Crest is "a weekly book of events;" and upon all matters of interest to the ladies of Texas, in every department which can concern the intellectual and refined, it has never had an equal or second in this state; and has no superior elsewhere. In every department, we should have said, save fashion Even that, we suppose, can be made a matter of interest and concern to the intellectual and refined. But we are glad to note that The Crest is willing to leave it in the hands of Demorest's and the Delineator, and the like. And we sincerely hope the editors of this excellent magazine will continue to do so. Not that it would not be a pretty addition to its dainty pages, but the Crest simply hasn't room for it. There is not a spare page in the whole exquisite magazine. In matters of music, however, and the Drama; and of social affairs of the state; and women's clubs; and of well-written editorial comment; and of delightful word-clippings; and pretty illustrations, it is something to be charmed with and wondered over. If the ladies of Texas do not unanimously support and encourage the praiseworthy and remarkable undertaking, they will miss the first and best opportunity which has ever been offered them, or ever likely will be, to establish in this state a bond of union and a medium of communication between the very best element, so widely separated by distance, but so indissolubly bound by common taste and common feeling; both which taste and feeling could not be better represented than is done in the inimitable pages of The Crest. And we do, indeed, hope for this well conceived and admirably produced magazine the fullest measure of success to which its merits entitle it; and such measure will give it circulation in every refined and artistic household in Texas. And we do indeed look for the not-far-distant day when the answer to the question, "Do you take in The Crest?" will decide the social status of every lady of any social pretention in this fair state.

## A GREAT MISTAKE.

Most farmers are very particular in buying a plow and buy one suited to the soil they have. If they have black land they buy a black land plow, but some will buy any kind of cultivator and as a result in many cases, are disappointed at the results. A cultivator that does the best work in black land is not the best for sandy or mixed land, while other dealers usually offer one make for all kinds of work. We have given the cultivator business close attention and have found the New Eagle to be the best ever made for black land, while the New Ohio has no competition for mixed or sandy land. We also have special sweeps for these cultivators. Buy your cultivator of us. Let us know the kind of soil you have and we guarantee to give you, with the latest improvement, one that will do your work better than you ever saw it done before.

## ROBBED THE GRAVE.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them Only 50 cents guaranteed at R. E. Clements drug store.

## "DO IT TO-DAY."

The time-worn injunction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it today!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr Boschee's German Syrup, which has been in use for over thirty-five years A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble New trial bottles 25c; regular size, 75c. # "WHAT'S BRED IN THE BONE WILL OUT IN THE FLESH"

Is true of mankind as well as lower animals. We do not expect blooded stock from common sires, physical giants from dwarfs and midgets, nor well-developed, robust children from tainted ancestors and sickly parents. It is contrary to the laws of nature and heredity, which are inviolable, unchangeable and fixed.

Children not only inherit the features, form and disposition of their parents, but the mental and physical qualities, infirmities and diseases as well. That certain diseases are transmitted from parents to children, are bred in the bone and handed down from one generation to another, can not be denied, for we see evidences of it every where and every day.

SCROFULA, a disease almost as fatal as Consumption, is a disease of the blood, is bred in the bone and will out in the flesh in the form of glandular swellings, deep abscesses and sores, boils and eruptions. It affects the eyes and ears, weakens the digestion and destroys the red corpuscles and solids of the blood, resulting in emaciation, stunted growth and poorly nourished bodies.

RHEUMATISM is handed down from gouty ancestors and rheumatic parents. The acid poisons in the blood that cause the sharp, shooting pains in muscles and joints have been there may be from birth, and exposure to bad weather, night air, or cold, easterly winds only hastens the attack by exciting the acid blood. The blood must be purified and the poisons filtered out of the system in order to get relief from this painful disease.

CATARRH is something more than a cold in the head; the poison extends into the Throat and Lungs, attacks the Stomach, Kidneys and Bladder, and every part of the system. We inherit a predisposition or tendency to Catarrh, just like other blood diseases; it is bred in the bone and can not be reached with sprays and salves, but requires constitutional treatment and a thorough cleansing of the disease-tainted blood.

CONTAGIOUS BLOOD POISON is responsible for more suffering than all other diseases combined, and none is so surely transmitted from parent to child. Fearful ulcers and sores and disgusting skin eruptions often break out in infancy, and those whose blood is tainted with this awful poison are handicapped from birth, and unless the poison is eradicated carry the taint through life.

CANCEROUS ULCERS and old sores seem to pursue some families through generations, and in spite of washes, salves and ointments, continue to spread and grow because the taint is in the blood; is bred in the bone and grounded in the flesh.

Nothing but a real blood remedy like S. S. S. can reach these deeply rooted, inborn diseases. It goes to the fountain source of the trouble, uproots the old taint, drives out the poisons that have been lurking in the blood for years, and tones up the weakly constitution.

S. S. S. reaches diseases of this character that no other medicine does or can. It has been tested in thousands of cases during the nearly fifty years of its existence, and its reputation as a cure for chronic blood troubles is firmly established.

SSS

S. S. S. is guaranteed purely vegetable and suited to old and young and persons of delicate constitution. If you have inherited a predisposition or tendency to some family taint, the sooner you begin a course of S. S. S. the quicker and more certain the cure. The disease may develop in childhood or later on in life, but is sure to make its appearance sometime, "for what is bred in the bone will out in the flesh," as sure as you live.

Our physicians make diseases of the blood and skin a special study. Write us all about your case, and medical advice or any special information desired will cost you nothing.
