THE SNYDER DAILY NEWS

VOL. 23 NO. 170 SNYDER, TEXAS (79549) TUES., NOV. 14, 1972 8 PAGES 10c

The SDN Column

Although it is no longer a national holiday due to Congressional action, Nov. 11 still holds special significance to many Americans especially those who served in this country's armed forces during World War I. In fact, many who served in World War II also look upon Nov. 11 as a special day, regardless of the new official calendar.

And so, veterans who assembled at the American Legion Hall here Saturday morning for breakfast had a few memories to talk about. For years, Nov. 11 was a general holiday, first as Armistice Day marking the official end of World War I and later as Veterans Day to include the ex-servicemen of World War II in the observance . There nearly always were football games. High schools regularly scheduled games on the holiday, no matter what day of the week it happened to be. And in most areas across the north half of Texas, Armistice Day also was associated with the beginning of the frosty season.

An accumulation of whitened dew on Nov. 11 always confirmed that Thanksgiving was not far away and that Christmas would soon be on the horizon.

★ ★ ★

Speaking of frost, the Old Farmer's Almanac for 1973 is off the press, and official publication announcement notes that it sells for 60 cents per copy on a lot of newsstands over the country.

Among the more popular features in the alamanac are the weather forecasts and the astronomical calculations.

For 1973, Abe Weatherwise, who claims to be more accurate than the U.S. Weather Service in predicting the weather, forsees 200 inches of snow in the New England Mountain areas this winter, spring floods in the Mississippi River Valleys, the hottest summer in years east of the Rockies and the beginnings of a severe drought in the fall.

★ ★ ★

Also, winters are getting shorter, according to the Old Farmer's Alamanac, but you are not likely to notice it. Last winter was the first one under 89 days duration in thousands of years, extending for 88 days, 23 hours and 58 minutes. This one beginning in December and ending next March will be exactly 89 days long, beginning at 1:13 p.m. Eastern Standard Time Dec. 21 and ending at 1:13 p.m. EST March 20. The 1973-74 winter is due to be a minute less than 89 days and then in 1974-75 it will be exactly 89 days again. However, the trend is toward shorter winters and by the year 3000 winter will be around six hours shorter than now.

This, of course, is not expected to affect the demand for coats, heating equipment for homes and businesses, etc., but it is of interest if you are an almanac fan. WACIL McNAIR

Today In History

By THE ASSOCIATED PRESS

Today is Tuesday, Nov. 14, the 319th day of 1972. There are 47 days left in the year.

Today's highlight in history:

On this date in 1935, President Franklin D. Roosevelt proclaimed the Philippine Islands a commonwealth and pledged full independence by 1946.

On this date:

In 1775, Colonial troops commanded by Benedict Arnold entered Quebec.

In 1856, James Buchanan was elected the 15th president of the United States.

In 1918, Thomas Masaryk was elected the first president of Czechoslovakia.

In 1940, German planes bombed the historic city of Coventry in England.

In 1942, air ace Eddie Rickenbacker and seven other Americans were rescued from a life raft in he Pacific, 23 days after their plane went down.

In 1960, a collision of two passenger trains in Czechoslovakia killed 110 persons and injured 105.

Ten years ago: Pope John XXIII issued a decree providing for the first change in the canon of the Roman Catholic Mass since the seventh century.

Five years ago: Screaming mobs of antiwar pickets battled with police in New York City.

One year a ago: Lady Fleming, widow of the discoverer of penicillin, was stripped of her Greek citizenship and forced to leave Athens.

BOTH SIDES OF DMZ

US Makes 500 Strikes

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — U.S. fighter-bombers and B52 Stratofortresses hit wide areas of Indochina Monday and today, flying about 500 strikes on both sides of the demilitarized zone, in Laos and in Cambodia to blunt the North Vietnamese supply buildup in anticipation of a cease-fire.

Below the DMZ, the South Vietnamese command said, nearly 700 rounds of artillery, rocket and mortar fire hit government troops operating north and south of Quang Tri City and south of Hue, and several firefights broke out. At least 32 North Vietnamese troops were killed, while government casualties were five killed and 34 wounded, the Saigon command reported.

U.S. Navy jets roared in from their carriers off the coast to support the South Vietnamese troops in one battle nine miles southwest of Quang Tri City.

The U.S. Command reported 220 fighter-bomber strikes in the southern half of North Vietnam and another 171 in the northern provinces of South Vietnam. Bombing in the Hanoi-Haiphong region and the rest of North Vietnam north of the 20th parallel has been halted to improve the atmosphere for cease-fire negotiaations.

Sources said U.S. fighter-bombers carried out more than 50 strikes in Laos and Cambodia.

The B52s made more than 60 strikes on both sides of the DMZ and in Laos and Cambodia, U.S. military sources said.

The U.S. Command announced the B52s today made their deepest penetration into the North since last April, attacking stockpiles of war material 59 miles below the 20th parallel.

North Vietnam issued another protest against the "savage" air attacks in its central and southern provinces. Hanoi's Vietnam News Agency claimed a number of civilians were killed or wounded and nearly 100 homes were destroyed in Ha Tinh and Quang Binh provinces by B52 "carpet bombing" Sunday.

There was no comment from the U.S. Command.

Court Bars Dual Roles For Mayors

WASHINGTON (AP) — The Supreme Court today barred small-town mayors from sitting as judges when the fines collected upon conviction are a major sources of village revenues.

The 7 to 2 decision in a traffic case frpm Monroeville, Ohio, will have an impact in 17 states with laws authorizing such dual roles.

Justice William J. Brennan Jr. delivered the majority opinion, which drew dissenting votes from Justices Byron R. White and William H. Rehnquist.

Brennan said a citizen charged with violating an ordinance is entitled by the Constitution's "due process" provisions to a "neutral and detached judge."

McGovern Asks Delay On Westwood Decision

CHARLOTTE AMALIE, V.I. (AP) — Sen. George McGovern, the defeated Democratic presidential nominee, urged his party today to delay a decision about replacing Jean Westwood as its national chairman.

Five Democratic governors, meeting in Washington, have called on Mrs. Westwood to resign on grounds that the party needs a "new sense of direction." Mrs. Westwood was chosen by McGovern to be national chairman.

McGovern, at a news conference in this island resort, also suggested that party leaders mark time before deciding to change party reforms that he helped make.

The South Dakota senator said the Democratic National Committee should have the final say in changing the party's leadership. If the majority thinks there should be a change, he said, then there should be one.

"But," he said, "I think it would be a mistake to do things so quickly before final assessments of the election are completed."

McGovern said he has not talked to Mrs. Westwood since the election.

The call by the governors came as both the public and private campaigns moved into high gear to oust Mrs. Westwood.

McGovern told his news conference that it appeared there might be some attempt to roll back party reforms he helped shape after the 1968 election.

"There is a certain group that never accepted the reform," McGovern said, mentioning specifically President George Meany of the AFL-CIO and his political director, Al Barkins.

McGovern said he could pinpoint no single turning point in his campaign, although he said, "I think the Eagleton affair was the severest single blow."

He referred to the revelations by his original choice for running mate, Sen. Thomas Eagleton of Missouri, that he had undergone treatment three times for mental depression in the past decade. Eagleton was replaced on the ticket by Sargent Shriver.

Decorations Are Going Up

New Christmas decorations are going up around Snyder square this week and plans are being made for a Christmas light preview, although Santa Claus will not make his official visit until Saturday, Dec. 2.

The preview will be Monday night, Nov. 20. At that time the lights in the new street decorations purchased recently by the city, county and Chamber of Commerce, will be turned on for the first time. The preview was originally scheduled for tomorrow night, but it will require more time to complete installation of the new decorations.

Meanwhile, the Chamber of Commerce Merchannts Committee has urged local stores to be trimmed for the Christmas season this week.

Following the official visit of Santa Claus on Dec. 2, local stores will be open evenings on Dec. 4 and Dec. 11 and all evenings from Dec. 18 until Christmas. Santa will be in his little house on the square from 3 p.m. to 6 p.m. on Dec. 4 and Dec. 11.

White House Is Satisfied With Pace Of Talks

By THE ASSOCIATED PRESS

The White House said today it is satisfied with the pace of discussions with South Vietnam and with the over-all negotiations to conclude a Vietnam settlement.

The statement by White House press secretary Ronald L. Ziegler came amid indications that presidential adviser Henry A. Kissinger was preparing to fly to Paris to meet again with North Vietnamese negotiator Le Duc Tho, already heading for the French capital from Hanoi.

Ziegler said again the United States had asked for another meeting between Kissinger and the Hanoi Politburo member. But he refused to say specifically whether such a secret session had been arranged.

"I'm going to tell you when there is a meeting between Dr. Kissinger and Le Duc Tho," Ziegler said.

In response to questions on Gen. Alexander M. Haig's just-completed mission to Saigon, Ziegler said: "We're satisfied with the pace of discussions ... with the South Vietnamese." He also said, "We're also satisfied with the pace of over-all negotiations."

Both Kissinger and Haig were at the White House this morning, Ziegler said.

Tho stopped over in Peking to confer with Premier Chou En-lai, the Chinese official news agency Hsinhua reported. There was no hint as to how long Tho would stay in Peking.

Tho also is expected to stop in Moscow for discussions with Soviet leaders before flying to Paris.

U.S. spokesmen said they could neither confirm nor deny that the private talks to end the war were about to resume as was widely anticipated.

South Vietnam, meanwhile, announced today it would agree to withdrawal of North Vietnamese troops from the South by stages instead of the total withdrawal at once that it had demanded earlier.

The Radio Hanoi broadcast today said North Vietnam, "to show its good will and seriousness," had agreed to "another private meeting between the United States and the Democratic Republic of Vietnam to solve the signing of the agreement on ending the war and restoring peace in Vietnam."

It said the meeting was proposed by "the U.S. side."

Kissinger and Haig conferred with Nixon for one and one-half hours at the President's Camp David retreat Monday following Haig's return from four days of talks with South Vietnamese President Nguyen Van Thieu in Saigon.

Both men next went by helicopter to Andrews AFB, which is a frequent departure point for official missions abroad.

There was no announcement on the details of the Camp David discussions, but U.S. officials in Saigon said Haig, who is Kissinger's top aide, had narrowed the differences in his talks with Thieu on the American and South Vietnamese positions on a cease-fire.

Haig carried a personal note to Nixon from Thieu, but its contents were not disclosed.

WTC Board Given Reports On Curricula

Most of Monday's meeting of the Scurry County Junior College District trustees was devoted to curricula reports.

Reports on instruction procedures in biology, art and history were presented by faculty members at the session.

In the only two action items on the agenda the board approved a college calendar for 1973-74 and payment of an $8,272.98 fee for the college architects, Parker-Crosston Associates.

Dr. Robert Clinton, Western Texas College President, noted that all state colleges and universities must be on the new calendar by 1973 which calls for a semester to be completed before the Christmas holidays. WTC will not have to begin its fall term as early as the senior colleges, however, since it requires less registration time.

The board set Dec. 4 as the date for its next regular meeting. The December meeting will be held at 5:45 p.m. in the board room of the administration building.

Eduador Seizes US Tuna Boats

QUITO, Ecuador (AP) — The Ecuadorian navy has opened the new fishing season with the capture of eight U.S. tuna boats within this South American nation's disputed 200-mile sea limit.

Officials said patrol boats apprehended the 830-ton Nautilus and the Freedom on Sunday and the 1,400-ton Denise Marie, the Gemini and the Polaris on Monday. All were taken in the same zone between 50 and 63 miles off Punta de Santa Elena, they said.

Later a boat owners' association in San Diego, Calif., said Ecuadorian gunboats also forced into port the Sea Quest, the Trinidad and the Clipperton, all California-owned seiners.

The Freedom's papers were declared in order and it was released Monday. The boat is owned by the Starkist Co. of San Pedro, Calif., but operates out of Peru and is licensed to operate in Ecuadorian waters, the American Tunaboat Association reported.

Hearings were scheduled to determine whether fines would be levied against the remaining vessels.

Fines and license fees totaling $2.2 million were levied against about 50 captured U.S. boats last year.

In Washington, the State Department issued an immediate protest against the seizures. The United States maintains that international law allows fishing jurisdiction to only 12 miles off shore. Ecuador is one of several South American nations that claim 200-mile fishing limits.

The seizures were the first since the new fishing season opened this month. They brought to 15 the number of American vessels captured this year.

The massive seizures of American boats last year led the United States to withdraw military aid to Ecuador, which protested to the Organization of American States and expelled the U.S. Military Advisory Mission from the country.

Believes Wallace Big Factor

BALTIMORE (AP) — Sen. George McGovern says the loss of Alabama Gov. George C. Wallace from the presidential campaign picture was one of the most significant factors in the South Dakotan's crushing defeat, the Baltimore Sun reported today.

Wallace, who was wounded during Democratic primary campaigning and withdrew from political activity while recovering, would otherwise have run as an independent taking a large bite out of the Republican vote which helped Nixon carry 49 states and poll 61 per cent of the vote, McGovern said.

"President Nixon capitalized on that opportunity with a candidacy that was really tailor-made to attract Wallace voters," McGovern said Sunday in a joint interivew with the Sun and The New York Times at a vacation spot in the Virgin Islands.

If Wallace had run "he would have gotten a whale of a lot of votes... Then I probably would have won the presidency. On that basis, we could have won," McGovern said.

McGovern said his own ambitions now center on re-election to the Senate from South Dakota in 1974. He said he had not made up his mind on what to do about the challenge to Jean Westwood's tenure as chairman of the Democratic National Committee but offered to act as a "reconciling influence" in any party disputes.

Biggest Frost Of Season Hits Area

The biggest frost of the season greeted Snyder area residents this morning as the thermometer dipped to 30 degrees.

The area has had frost several times, but the lowest thermometer reading logged prior to this morning was 32 degrees and it only touched the freezing mark briefly on the morning of Nov. 1. Today, the mercury was down to freezing or below for several hours producing heavy frost.

To bathe or not to bathe (cont.)

By Abigail Van Buren

(c 1972 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: In recommending that one bathe and change undies daily, you are contributing to both a water and power shortage!

I was surprised to learn that my physician husband, who is quite acceptable in polite company, bathed only once a week, which is proof of the adage, "What you don't know can't hurt you."

According to dermatologists, unless one's work creates excessive perspiration or exposes him to grime, unpleasant odors or contagious diseases, daily baths are neither essential nor recommended.

Madison Avenue hucksters have sold us the myth that daily baths, deodorants, soaps, and mouthwashes are necessary to life and the pursuit of happiness, when actually earthlings have survived remarkably well without them for thousands of years. In fact, they have come into general use only the last 50 years or so, along with the increase of divorce. Probably more dissension and divorces are caused by hogging the bathroom and appropriating all the hot water than by failure to take a daily bath.

CLEAN BUT NOT FANATIC

DEAR CLEAN: Perhaps I have been brainwashed by Madison Avenue, but I happen to believe that a man should bathe daily, and a woman can't bathe enough! Fifty years ago when one had to bathe in a tub in the kitchen in front of the coal stove, the Saturday night bath made some sense, but not any more. [P. S.: People with naturally "dry" skin should use a moisturizer.]

DEAR ABBY: My husband did something recently that worries me. He insisted that I sign a paper stating that if he should die first I would NEVER get married again. To tell you the truth I never gave it a thought one way or the other, but I signed it just to satisfy him. We aren't old. I'm 44 and he is 45, and I don't know why he is worrying about such a thing now. Far as I know, he's in good health.

I would like to know if this paper I signed is legal. I mean, can he hold me to it? BEWILDERED

DEAR BEWILDERED: After he is gone, he can't "hold you" to anything.

DEAR ABBY: I travel to and from work by bus and would like your advice as to how to handle two problems which I encounter quite often.

The first is when the person sitting next to me dozes off and starts slumping against me. I once had a man's head on my shoulder! And another time a lady was practically in my lap!

I never know whether to wake the person, ignore him or what. It's embarrassing. I can't change seats because the bus is usually packed.

The second problem is sitting next to someone who has a wad of chewing gum in his mouth. He's usually preoccupied with reading a newspaper and is most likely unaware of the noise he is making with his slurping, cracking, and popping. It is most annoying to me and, again, I can't change seats because there are none vacant.

This may seem trivial to you, but it's not to me because I usually arrive at work [or home] in an extremely agitated mood. I HAVE to ride the buses, so I hope you'll print this with some advice. TEED OFF IN D. C.

DEAR TEED: If a fellow rider slumps on you in his sleep, gently awaken him. As for the rude and noisy gum chewer, he may have a short fuse, so I suggest you silently recite a long prayer and thank the good Lord he is only a stranger you'll probably never see again.

Problems? Trust Abby. For a personal reply, write to ABBY, BOX 69700, L. A., CALIF. 90069 and enclose a stamped, addressed envelope.

Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."

CBS Cancels Two Shows

HOLLYWOOD (AP) — CBS will cancel two situation comedies, add a new detective show and shift the time periods of five other shows at midseason.

Robert D. Wood, president of the CBS Television Network, said Monday "The Sandy Duncan Show" and "Anna and the King," which stars Yul Brynner in the role he created on Broadway and in the movies, will be dropped.

An hour-long detective show, starring Buddy Ebsen and tentatively called "Barnaby Cobb," will premiere at 9:30 p.m. Sunday, Jan. 28. Ebsen previously starred in "The Beverly Hillbillies."

"Mannix" will move up to 8:30 p.m. Sunday and "The New Dick Van Dyke Show" to 7:30 p.m. Sunday on Jan. 27.

"The Carol Burnett Show," "Sonny and Cher" and "Mission: Impossible" will make a three-way switch of time periods. The Burnett show goes to Saturday at 10 p.m. on Dec. 16, "Sonny and Cher" to Wednesday at 8 p.m. on Dec. 20 and "Mission: Impossible" to Friday at 8 p.m. on Dec. 22.

Terrorism Conflict Intensified

UNITED NATIONS, N.Y. (AP) — The conflict in the U.N. General Assembly over terrorism gathered intensity today. The United States was pressing for concrete measures while a bloc of African and Asian countries prepared delaying action.

U.S. Deputy Ambassador W. Tapley Bennett Jr. told the General Assembly legal committee Monday terrorist violence involving innocent victims is spreading "like an unchecked forest fire" and the problem is too urgent to be put off for time-consuming studies.

He listed more than 20 international skyjackings, mail bombings and other terrorist acts committed since the assembly started meeting in September.

African and Asian delegates holding the balance of power in the world organization scheduled a meeting today to frame a common approach that would stress the underlying causes of terrorist incidents.

Most Arab and many African countries regard the antiterrorist issue as directed against the Palestinian liberation movement and other causes they favor.

U.N. Secretary General Kurt Waldheim asked the assembly to act against terrorism three days after Palestinian guerrillas massacred 11 members of the Israeli Olympic team at Munich in September.

The United States followed with a specific proposal for the Assembly to convene a world conference next year to adopt a treaty obligating signing countries to severely punish or extradite international terrorists.

Diplomats have predicted the assembly would stop short of such specific action, but that it might censure terrorists and keep the issue alive for next year's assembly.

Anik-1 Locked In Stationary Orbit

CAPE KENNEDY, Fla. (AP) — A communications satellite that will bring radio, telephone and television service to Canada's vast northland was locked in stationary orbit 22,300 miles above the earth Monday.

The 600-pound payload, named Anik-1 after the Eskimo word "brother," was launched from Cape Kennedy on Thursday by a U.S. rocket into a preliminary elliptical orbit ranging from 120 to 22,500 miles high.

Plea Is Entered

Wilbert Sonnier pleaded guilty in county court this morning to a charge of driving while intoxicated. He received a $100 fine plus court costs and a 30-day jail term. However, the jail term was probated for one year. The offense occurred Saturday, and he was arrested by Highway Patrolmen.

Announcing the scholarships is Dr. William F. Bennett, assistant dean of the College of Agricultural Sciences. (TECH PHOTO)

API Suggests Standby Oil Rationing Program

By MAX B. SKELTON
AP Oil Writer

CHICAGO (AP) — The American Petroleum Institute has suggested the federal government prepare standby programs for the rationing of oil products should serious oil-import disruptions develop.

The suggestion was made in an energy policy statement adopted Monday by the nation's largest oil trade group, which represents all segments of the domestic petroleum industry.

"Over one-fourth of the oil needed to keep the economy functioning is now imported, and natural gas supplies are already insufficient to meet demands in nearly every section the nation," the statement said.

The nine-page document said the United States still has a large potential resource base but that a substantial rise in the cost of supplying energy is inevitable whether the source is domestic or foreign, conventional or synthetic.

"Nevertheless, the American Petroleum Institute is convinced the nation's needs can be met at acceptable cost, and on terms which will not compromise either national security or the physical environment, given a national determination to support the necessary effort," the statement said.

In addition to a standby rationing program, the institute called for a national-security storage program that would provide flexibility in the event of import interruptions.

"A rise in oil imports is unavoidable," the statement added.

To bolster domestic explorations that have lagged since 1956, the institute said it is vital to strengthen, rather than reduce, tax incentives which encourage the discovery and development of energy reserves.

"It is imperative the United States adopt comprehensive and coherent national energy policies," the institute said.

About 65 federal agencies are involved in energy policy matters.

Rawleigh Warner Jr., the institute's chairman and the chief executive officer of Mobil Oil Corp., said today he believes the coordination of energy policy matters could best be accomplished within the executive branch.

"I am not urging the appointment of an energy czar," Warner said. "What I am suggesting is our country can no longer afford to drift uncoordinated and rudderless into an uncertain and perilous futures.

Warner's remarks were prepared for delivery at the final session of the institutes annual meeting.

Warner made no direct reference to a recommendation made last year by President Nixon that Congress establish a Department of Natural Resources. No actions was taken, but Nixon is expected to resubmit the suggestion to the new Congress next year.

The institute's board on Monday appropriated $2.65 million in new funds for its research projects for the improvement and protection of the environment. Combined with earlier appropriations, the institute now has earmarked $4.9 million for its 1973 research program.

Frank N. Ikard, the institute's president, said the 1973 budget includes $1.7 million for oil spill research and $2.5 million for automotive missions research.

Ikard also reported a new survey indicates oil companies, operating independently of the institute, will have spent $1.2 billion on environmental projects this year.

About $1 billion, Ikard said, has involved air and water conservation.

"Preliminary results from the survey indicate petroleum companies are spending an average of $3.3 million a day to protect the U.S. environment," Ikard said.

Joint Health Pact Praised

HOUSTON (AP) — A new cooperation between the United States and Russia to test drugs used to combat cancer will bring help—eventually—to many victims of the disease, a leading Soviet scientist said Monday.

Dr. Nataliai J. Perevodchikova, in Houston as part of the new sharing program, said, "Information and ideas will be freely shared between our two countries."

Perevodchikova spent Monday conferring with specialists at the University of Texas M. D. Anderson Hospital and Tumor Institute, one of the leading centers for cancer research in the United States.

She is one of three Russians making the first Soviet scientific tour of major American cancer centers under terms of a health agreement signed last summer by the two nations.

Perevodchikova is chief of cancer chemotherapy at the Institute of Clinical Oncology of the U.S.S.R. Academy of Medical Sciences in Moscow, where all her nation's cancer research is coordinated.

She said three Russian-made drugs shown to have good benefits against certain types of human cancer have already been sent to the National Cancer Institute in Bethesda, Md., for dispensing to several U.S. research centers for tests.

At the same time, three American-made drugs have been dispatched to the Soviet Union.

Asked if the sharing agreement can lead to faster progress against cancer, she replied, "It is very difficult to say any cures will be found, but we all hope to help find ways to better control these diseases."

The three Russian drugs sent to the United States are:

—Ftordopan, found useful in treating 74 Soviet patients suffering Hodgkin's Disease and a type of tumor of connective tissues.

—Diiodobenzotepa, a compound shown to be effective in treating at least 137 patients with cancers of the breasts, thyroid and urinary bladder.

—Asaley, which has been used to treat more than 200 patients with ovarian and breast cancer, Hodgkin's Disease and malignancies of the bone marrow.

HOSPITAL NOTES

ADMISSIONS: Earl West, 1106 Strong Ave., Ballinger; Johnnie Hoyle, 2101 Ave. M; Viola Bailey, 2811 Ave. X; Barbara Aycock, Leuders; Beatrice McDaniel, 401 Twentieth; Luther Bass, Rt. 3; Jennifer Allen, 310 Thirty-sixth; Johnnie Hurley, Rt. 1; Maria Rodriguez, 1011 Twenty-sixth.

3 Mishaps Are Reported Here

There were three motor vehicle mishaps in Snyder yesterday and all of them involved minor damage.

The first one occurred on the parking lot at Snyder High School at 11:55 a.m. Involved were the 1965 Model Ford of Cynthia Yvonne Cadena, 1911 Twenty-third Street, and the 1968 Model Buick of Sidney Wes Perry, Route 2, Hermleigh.

Another one occurred in the 2600 block of Thirty-fifth Street at 3:42 p.m. Involved were the 1972 Model Chevrolet of Evelyn Wilson Evans, 3403 Fortieth Street, and the 1970 Model Chevrolet of Dale Foy Lavender, 2403 Forty-first Street.

The other mishap occurred in the 1300 block of Twenty-fifth Street at 4:44 p.m. Involved were a 1972 Model Ford driven by Gracie Collins Degrate, Clairemont Route, and a 1967 Model Ford operated by Jesse William Everts, 3112 Avenue C.

The Pika, a small animal found in the Canadian Rockies, "throws" its shrill whistle to thwart hawks and other predators.

Guards Going To Puerto Rico

DALLAS (AP) — Four hundred National Guardsmen will be ferried to Puerto Rico Dec. 8 for a mass tactical parachute jump the following day.

They are members of the 1st. Airborne Battalion, 143rd Infantry and will be supported by Air National Guard equipment and personnel from New York, Tennessee, Minnesota, California, North Carolina and New Hampshire.

Lt. Col. James T. Dennis of Irving is commanding the maneuver, called Operation Amistad, which is the first ever conducted by the National Guard outside the continental United States.

PRESENT PLAY—Wanda Hudgins' fifth grade students at West Elementary will present a play Wednesday entitled "Treasure Hunt." The play, which will be presented for third through sixth grade students at West, will include two songs and scenes from "Alice and Wonderland," "Tom Sawyer" and "Little Women." The play is in conjunction with National Book Week which is Nov. 13-19.

Leaders To Address Convention Delegates

No convention is complete without speeches, conferences, luncheons, and time for delegates to vote on issues and problems facing them in their efforts in PTA, states the November Texas PTA Bulletin. Fort Worth will be host city for the '72 state convention Nov. 15-17 with headquarters in the Sheraton-Fort Worth Hotel. Texas PTA has 672,585 members. Mrs. Elizabeth Mallory, president of the National PTA will greet delegates at the first general meeting on Wednesday morning. Wednesday evening delegates will have the opportunity to hear Dolph Briscoe. And on the final day of meetings Dr. William J. Beeners, director of speech, Princeton Theological Seminary, will challenge delegates as they prepare to return to local PTA's with information and ideas.

Workshops are planned to challenge delegates. Nine subjects of vital interest to PTA volunteers and educators in Texas have been chosen for discussion at the group conferences set for the first day of convention.

Group I-School Finance. Delegates can expect to receive information bearing on some of the present complexities of this subject, particularly in light of possible implications steming from the Rodriquez vd. San Antonio ISD case now before the United States Supreme Court.

Group II-Career Education. This is a subject which has been much talked about in recent months and participants in this conference will have the opportunity to listen and to question panelists with first-hand experience in developing career education programs in public schools.

Group III-PTA Volunteer Programs. In this group, participants will be provided with an opportunity to share experiences with panel members in a real exchange of information about kinds of services that all of us in PTA are engaged with in one way or another. The new empahsis on tutor training is a possible subject for discussion.

Group IV-PTA Involvement in the Schools. Participants to group 4 will have an opportunity to listen and to talk about real life projects that involve PTA in constructive working relationships with the school administration. The new interperation of PTA's non-interference statement will be of interest to delegates to this group.

Group V-The PTA and the Community. Conferees will get to hear and talk about some challenging projects with principal objectives lying in the community but related to schools since the schools are such an integral part of the community.

Group VI-What is Quality Education? This topic challenges us to put into words what we really mean when we use this commonly quoted term. We must be able to explain what we mean by the term well enough to identify education's goals and purposes.

Group VII-PTA Roles and Goals. Intended to be a problem clinic for active PTA leaders, this will, hopefully, provide constructive sharing of experiences related to everyday operations of our association, its problems, challenges, successes, and failures.

Group VIII-Court Rulings Affecting Public Schools. We must seek to underatand the court rulings if we are to lend public support to our school boards and school administrations in policy setting and execution on our school systems. We must be knowledgeable of the law in order to be law abiding.

Group IX-Human Relations. As community population grows, it is increasingly more difficult to know our neighbors as human beings just as we are. Your insights and experiences at this conference may be helpful to others and in helping others you may help yourself in the bargain.

Woman's Calendar

TUESDAY

Tops Club meets at 7 p.m. at Stanfield Elementary.

WEDNESDAY

Cosmorama Study Club meets at 3:45 p.m. at the Martha Ann Woman's Club. Hostesses are Peggy English, Diana Gary and Nonnie Ward.

Altrurian Daughters Club meets at 3 p.m. at the Martha Ann Woman's Club. Bill J. Hood, superintendent of Snyder Schools, will present the program. Hostess is Mrs. Borden Gray.

THURSDAY

Snyder Newcomers Club will meet at 10 a.m. at the Snyder Savings and Loan Community Room. The program, which is on Christmas crafts, will be presented by This 'n That.

Jaycee-ettes will meet at 7:30 p.m. at the home of Lee Bumbard.

Snyder Chapter 450 OES meets at 6 p.m. for the annual Thanksgiving supper. All men will serve as hosts with Blake Walker serving as chairman.

Ira PTA meets at 3:35 p.m. in the school study hall. The program, entitled "Know the History of Ira," will be presented by Myron Crawford's history students and the Historical Society.

AAUW meets at 7:30 p.m. in the home of Ramelle Parsons, 4507 Galveston. The program is entitled "We the People interested in the Constitution and what it means to us." Jay Guthrie is hostess.

FRIDAY

Altrurian Club meets at 3 p.m. at the Martha Ann Woman's Club. Hostesses are Mmes. L.D. Harlin, Earl E. Donaldson, Ross Blanchard, Alvie Dolen and A.C. Preuitt

SATURDAY

People Without Partners meet at 6:30 p.m. at the Inadale Community Center.

Ballads Read At Sorority Meet

Members of Beta Sigma Phi met Nov. 7 at the Martha Ann Woman's Club.

Mrs. Lynette Bridges presented an interesting program entitled "Verse Making." Mrs. Bridges read several amusing ballads by Pearl Bryan and James Harris.

The business meeting was conducted by Mrs. Mary Forehand, president. Members were reminded that the family Thanksgiving Dinner will be held at 6:30 p.m. Nov. 18 at the Towle Park Barn. Each member is asked to bring at least one item. Mrs. Forehand also reminded the members that the Nov. 21 meeting will be the pledge ritual for the new rushees an that all members should dress accordingly.

Several suggestions were made concerning a Christmas party with the husbands the latter part of December. A definite time and place will be announced later.

SCHOOL MENU

You're looking at one of the nice things about an electric dryer.

Drying a wet teddy bear, or other stuffed toys labeled "washable," is just one of many things you can do with a flameless electric dryer.

There are plenty of others.

Like dusting draperies.

Airing bed covers.

Fluffing pillows.

And many, many more.

Your instruction booklet is your best guide to the many unique capabilities of your electric dryer. Read it carefully and file for ready reference.

One of the big advantages of electric dryers is that you can get control features which automatically determine the temperature and drying time needed for various fabrics.

This fabric selector is particularly helpful in this modern age of care-free polyesters and other permanent press fabrics.

Versatility is just one more reason why flameless electric dryers are America's favorite.

DISAPPEARING ACT!

Male, Female Stereotypes Destroyed By Facts

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — We live in an age when myths are exploded like strings of firecrackers, unmindful that, before the echo is lost and the debris settles, we will have developed another set. While a new stereotype of women may be forming, for example, the old one still is remembered and, to some extent, even acted out by those who were brought up in its image.

This is revealed by an investigation of male-female job attitudes and beliefs, made at the University of Michigan's Institute for Social Research.

One conclusion, reported in the ISR Newsletter: "Much of the difference in attitudes and beliefs can be attributed to early childhood socialization which prepares males and females to fulfill different work and family roles as adults.

"But, additional social forces which act on men and women workers later in life, such as educational and professional training or the demands of the job itself, have some influence on job-related attitudes."

For the most part, however, the stereotypes were destroyed by facts. Among the stereotypes:

—"American women work just for pin money.'.. The assumption is that they are supported economically by men. But, say the researchers, the data prove it wrong.

"Two out of every five working women could not be regarded as economically dependent on a male wage earner, be he either a husband or a father. A third of the women in the sample were the sole wage earners...."

—"Women are less concerned than men with getting ahead in their jobs." The researchers found "no difference between men and women in terms of the importance they attached to having a job where the chances for promotion are good."

However, there is a difference, probably the result of conditioning. When asked of their present job, "Approximately when would you like to take on a job at a higher level?" many women said they never wanted to be promoted.

—"Women are more concerned than men with the socio-emotional aspects of their jobs." The researchers found only one basic difference between men and women on this score and, therefore, found the statement essentially correct.

The one difference was that more women than men said that it was very important to them that their coworkers be friendly and helpful. The researchers tended to discount even this difference and explained:

The source of the sex difference was really the fact that women are over-represented in jobs demanding interpersonal relations. "Without friendly and helpful coworkers, their job performance might be impaired."

Snow Storm Hits Midwest

By THE ASSOCIATED PRESS

The Midwest was walloped by its first major snow storm of the season today.

Lansing, Mich., was whitened by 3 inches of snow, while 8 inches accumulated at Waterloo and Des Moines, Iowa, and Omaha, Neb. Six inches piled up at Lincoln, Neb., and Ottumwa, Iowa, accumulated 3 inches.

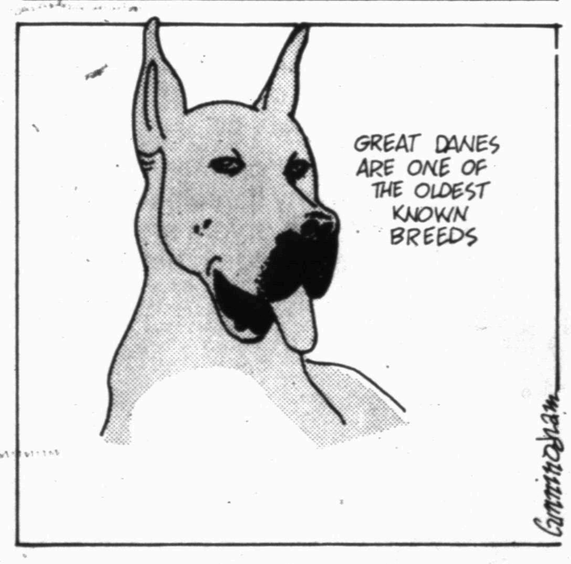
Rain, drizzle and fog dampened wide areas of the East. A storm center over Kentucky kicked off thunderstorms from the Carolinas to northern Florida.

The northern and central California coast was buffeted by high winds and locally heavy rains, with snow in the higher elevations of the Sierra Nevada. Gale or small craft warnings were posted from Port George in Southern California to the Mexican border.

More tranquil weather settled over the south central Plains to the Rockies. Skies were mostly fair from New Mexico to the Mississippi River Valley.

Temperatures before dawn ranged from 6 degrees at Laramie, Wyo., to 81 at West Palm Beach, Fla.

Junior Editors' Quiz on DOGS



QUESTION: *Can you tell me something about the Great Dane?*

* * *

ANSWER: The Great Dane is one of the most elegant and distinguished of all the large dogs. He is graceful and is admired for his handsome proud appearance. His disposition is good and makes him one of the most popular of dogs.

There are three varieties of Great Danes — the fawn, the brindle and the harlequin. The fawn comes in different shades of tan. The brindle is brown with black stripes. The harlequin is white with black spots and patches distributed irregularly all over his body. The Great Dane is about 30 inches high and usually weighs about 140 to 150 pounds. He is classified as a working dog, developed for hunting, and follows his prey chiefly by scent.

The Great Dane is an old breed, having originated in Egypt many centuries ago. During the Middle Ages, he was used to hunt the wild boars, savage animals that lived in the forests of Europe. There is no known reason for connecting Denmark with the origin or development of the breed. The Germans did the most in developing the breed and called it the German Mastiff. Today, the dog is used as a pet and watchdog.

11-14

(Colleen Murphy of Port Orchard, Washington, wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

Heart Transplants Thing Of Past

SAN DIEGO, Calif. (AP) — Heart transplants are almost a thing of the past, because new methods of repairing the heart are more successful, says Dr. Michael DeBakey.

DeBakey, who helped pioneer heart transplant surgery, said his team of physicians at Baylor University School of Medicine is now fixing hearts of patients "who would have been candidates for heart transplants" a few years ago.

After 12 transplants, he said only two of his patients survived longer than a year.

But DeBakey noted at a news conference Monday what he called the overwhelming success of the coronary by-pass operation in which small sections of veins are taken from the leg and used to reroute blood around clogged-up areas of the coronary arteries that feed the heart.

Boyle Learns From Mail

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

When you get to thinking how important you are, you might consider this: You are only one of several people on earth; the sun is large enough to *contain a* million earths; there are 100 billion stars like the sun in the Milky Way, and there are at least 100 million galaxies like the Milky Way in known space.

One out of eight Americans snores. And about one in every three who snores denies it.

Few who ever lived could have loved a garden more than Sir William Temple, 17th century English statesman and author. In his will, he directed that, while the rest of his body was to be interred in Westminster Abbey, his heart should be removed and buried near the sundial in the garden of his estate.

Quotable notables: "A conference is a meeting of a group of men who, singly, can do nothing but who, collectively, agree that nothing can be done." — Fred Allen.

Know your language: Many people think that the word longshoreman, for someone who loads ships, is descriptive of the robust appearance these men often have. Actually, it originated from "along the shore men," a designation of where they work.

Expensive surface: It takes 50,000 gallons of paint, varnish and lacquer to coat a battleship.

Sign in a Manhattan taxicab: "I love to be told where to go—but not how to get there."

Good advice, bad example: Horatio Alger Jr. never practiced what he preached. In more than 100 books, he assured young people that luck followed pluck and hard work always led to prosperity. But he liked to step along the primrose path, and he died penniless.

Strange deaths: Most men die uneventfully in bed, but all don't. Here are a few weird exits from life:

Aeschylus was killed when an eagle dropped a tortoise on his bald head.

Otway, a starving poet, was given a coin, bought a loaf of bread and died swallowing the first mouthful.

Francis Bacon contracted a fatal cold while stuffing a fowl with snow as an experiment in refrigeration.

It was Walter Bagehot who observed, "Men who do not make advances to women are apt to become victims to women who make advances to them."

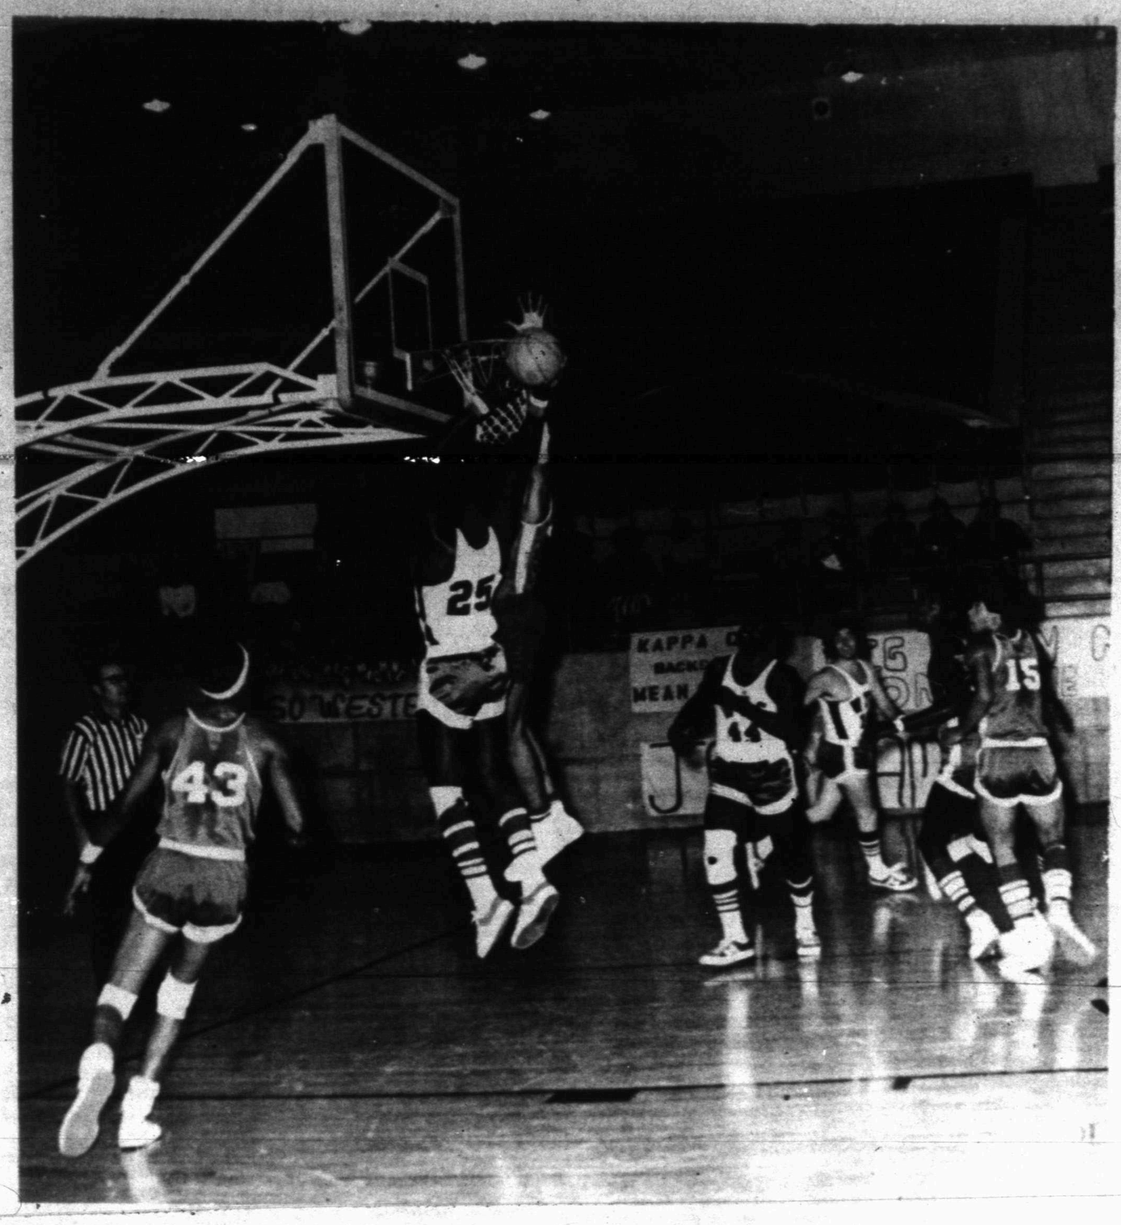
"It's really a four-day week — the boss plays golf every Wednesday."



TAKES SHOT—Western Texas College's Walter Hannibal (25) goes up for a crip shot against Southwest Texas of Terrell in the Scurry County Coliseum last night. Hannibal, a sophomore, netted 19 points and claimed 30 rebounds in the 102-82 victory for WTC. James Houston (44) is waiting under the boards while Johnny Neff (10) appears in the background. Southwest players in on the action are James Randell (43) and Ronnie Howard (15).

Bryant Says Bama Best

By THE ASSOCIATED PRESS

The best football team in the country is only No. 2 in the Associated Press college football poll, according to Alabama Coach Paul Bryant.

"The way I see it, the team that improves the most over a season should be No. 1," says Bryant. "And I think that we have improved tremendously."

Alabama, still second to Southern California in this week's poll, won the Southeastern Conference title Saturday with a 35-21 rout of sixth-ranked Louisiana State. Bryant thinks it proved something.

"It was a great win for a great football team against a great team," said Bryant, overflowing with superlatives.

Before Saturday's convincing victory over the Tigers, Bryant said he thought that perhaps Southern Cal and Michigan might be better than his team.

But not now.

"The polls have not been important until now," said Bryant. "But with the season coming to an end, they become very important—especially at the top of the list. As I see it, there's plenty of room at the top for us."

Southern Cal, Alabama and Michigan, the only major teams with perfect records, remained 1-2-3 in the AP ratings, released Monday.

Pacesetter since the first week of the season, Southern Cal received 42 first-place votes and 984 points from a nationwide panel of sportswriters and broadcasters. Alabama held onto second with five ballots for first place and 890 points. Michigan, the only other team to get first-place votes with three, was third on a total of 812 points.

Nebraska, most everyone's pre-season choice to maintain its No. 1 spot from last year, fell to fifth place as a result of Saturday's 23-23 tie with Iowa State. The Cornhuskers dropped out of the top spot after losing to UCLA on opening day.

Oklahoma, a 17-6 conqueror of Missouri this past weekend, rose from seventh to fourth. The rest of this week's Top Ten included: sixth ranked Penn State; seventh-ranked Texas; No. 8 Louisiana State; No.9 Ohio State and No. 10 Notre Dame.

The Top Twenty teams, with first-place votes in parentheses and total points based on 20-18-16-14-12-10-9-8-etc.:

1.	Southern Cal (42)	984
2.	Alabama (5)	890
3.	Michigan (3)	812
4.	Oklahoma	654
5.	Nebraska	527
6.	Penn State	450
7.	Texas	437
8.	Louisiana State	397
9.	Ohio State	365
10.	Notre Dame	339
11.	Auburn	273
12.	Iowa State	148
13.	Tennessee	141
14.	UCLA	129
15.	Colorado	88
16.	North Carolina	47
17.	Washington	38
18.	Arizona State	29
19.	Missouri	11
20.	Washington State	9

Cleveland Nips Chargers 21-17

By BOB EGELKO
Associated Press Sports Writer

SAN DIEGO (AP) — The trade that sent Cleveland Brown receiver Paul Warfield to Miami for a draft choice three years ago was greeted by cheers in Miami—and groans in Cleveland.

Both reactions grew louder last year when Warfield helped the Dolphins into the Super Bowl and Cleveland's draft choice, quarterback Mike Phipps, didn't play often or well.

But Brown Coach Nick Skorich isn't groaning today.

"I think it was one of the greatest trades the Browns have ever made," he said Monday night after Phipps' 38-yard touchdown pass to Frank Pitts with 41 seconds to play gave the Browns a 21-17 victory over the San Diego Chargers. It kept the Browns' National Football League playoff hopes alive.

"We had to give up a super receiver but we got a great young quarterback in Phipps," Skorich said. "He'll play 15-18 years."

The victory, before 54,202 and a national television audience, was the Browns' fourth straight and gave them a 6-3 record, one game behind Pittsburgh in the American Conference Central Division. They meet the Steelers twice in the next four weeks.

The Chargers, 2-6-1, dropped their fifth straight game after taking the lead with 1:21 to play on Mike Garrett's three-yard run.

Phipps, who spent his first two NFL seasons on the bench behind veteran Bill Nelsen, said he had planned to set up a game-tying field goal when the call for a long pass came in from the bench.

"It's hard to score in less than a minute," he said. "You have to think 'field goal' in a situation like that."

On the winning play, Phipps said, "I thought the pass was a little bit out of his (Pitts') reach."

The veteran Pitts had a wrenched back and said he hadn't expected to play. But besides the final pass, he caught four others and also got the Browns moving late in the first half with a 13-yard run on a flanker reverse.

San Diego Coach Harland Svare said his team "blew pass defenses all day long."

"Everybody wasn't playing the same defense, particularly on that last series," he said. "It's downright silly to let them go that long, that fast for a score."

San Diego's mistakes weren't limited to pass defense.

The Chargers fumbled the ball away twice, once on the Cleveland four-yard line after a 73-yard march.

Garrett gained 89 yards and running mate Cid Edwards pounded out 91, also catching a four-yard touchdown pass from John Hadl. On the Cleveland side, Leroy Kelly rushed for 67 yards, Phipps one yard for a touchdown and Ken Brown two yards for a score. Brown also ran 19 yards with a swing pass, on the play before the winning touchdown.

Leaks Is Top Rusher

Dallas (AP) — The Southwest Conference statistics give a good insight into why the Texas Longhorns have clinched a tie for the SWC title.

Fullback Roosevelt Leaks, the bruising leader of the Longhorn ground game, increased his rushing lead with a two-touchdown, 162-yard effort against Baylor last Saturday.

He's now averaging 117.8 yards per game rushing and he also leads in tandem offense, rushing and pass receiving, although he has only caught two passes. His average in that department is 120.3 yards per game.

Leaks also moved into a tie for second in scoring at 6.3 points per game behind the 8.3 average of Southern Methodist's Alvin Maxson.

Texas replaced Texas Tech as the total offense leader with 371.1 yards per game to 370.2. Texas also increased its rushing offense lead over Tech to 290.9 yards per game against 253.4 yards per contest for the Red Raiders.

The Texas offense is averaging a touchdown for every 26.3 offensive snaps.

The Longhorns also threaten season-long leader SMU in rushing defense. The Mustangs are allowing 119.1 yards per game to Texas' 123.4.

Rice's Edwin Collins moved into a tie with teammate Gary Butler in receptions, both with 33 for an average of 4.1 per game.

Injuries Hit SWC

By THE ASSOCIATED PRESS

Injuries were the talk of the Texas and Texas Christian football camps Monday as they prepared for Saturday's important Southwest Conference tilt in Fort Worth in which the Longhorns can clinch their fifth consecutive title.

Texas Coach Darrell Royal was concerned about All-American offensive tackle Jerry Sisemore who suffered what X-rays revealed to be only a sprained ankle in the 'Horns 17-3 victory over Baylor.

"The side of his foot looks like my (black) shoe," Royal said. "Jerry's limping real bad. He can't walk. It's the kind of injury that usually takes two to three weeks to heal. We might be lucky if he's ready for Texas A&M."

Halfback Don Burrisk underwent successful surgery to repair his damaged right knee and will be lost for six months. Don Ealey and Mike Bayer suffered injured shoulders and may see only limited action against TCU.

In Fort Worth, Coach Billy Tohill said that senior defensive tackle Ken Steel would probably be lost for the season. Steel injured a knee in Saturday's 31-7 victory over Texas Tech.

"This is a blow to our defense and to Ken," Tohill said. He promoted 250-pound sophomore Tommy Van Wart of Garland to the first unit.

"Van Wart has seen a lot of action," Tohill said. "He started against Tulsa and has been our top defensive reserve. He's not exactly like a baby in there."

Tech Coach Jim Carlen promoted three freshmen to the varsity Monday. They are split end Willie Kent, tailback Rufus Myers and fullback Angel Berlingeri.

Carlen said starting defensive tackle Tim Schaffner, who underwent knee surgery Sunday, will be lost for the season.

Tech meets Baylor in Waco Saturday.

Baylor had its injury problems.

Defensive tackle Joe Johnson of the Bears was on crutches Monday and quarterback Neal Jeffrey had a badly swollen right elbow and defensive end Mike Black a sprained knee. Noseguard Millard Neely still had problems with a knee injury.

Bear Coach Grant Teaff also brought up three freshmen to the varsity—defensive end Tim Reid of Brownwood, defensive back Ken Quesenberry of Garland, and fullback Ralph Funk of Littlefield.

Westerners Whip Southwest 102-82

Western Texas College's Westerners blitzed Southwestern Christian College of Terrell 102-82 in the opening basketball game of the season for WTC in the Scurry County Coliseum last night.

Displaying deadly accuracy on shots and overall good hustle, the Westerners took an early lead. Southwestern caught WTC at 33-33 with 3:45 remaining in the first half. The visitor's rally came after WTC had built a 13 point lead.

Threatened, the Westerners went to work and slowly began to pull away with Walter Hannibal hitting an inside shot and James Houston connecting on two free throws. Western never trailed after that and built a 22-point cushion in the second half.

Hannibal broke his own school record for rebounds, pulling 30 off the boards. He collected almost half of Western's total of 67 rebounds and hit for 19 points. The old record in a single game was 27 rebounds.

As a team, WTC hit 43 of 93 from the floor for 46 per cent and 16 of 33 from the free throw line for 48 per cent. Harold Ward, freshman from Passaic, N.J., was the leading scorer with 22 points. Hanibal, who hails from Fort Worth Kirkpatrick is a sophomore.

Three other Westerners hit in double figures. Fred Allen, freshman from Little Rock Central, and James Houston, sophomore from Charlotte, N.C., each meshed 14 points and Danny McDaniel, freshman from Little Rock Central, connected for 13 points.

For Southwestern Christian, four lads were in double figures, led by Ronnie Howard with 17 points. Mark Scott, James Randle and Jefferey Calhoun netted 13, 12 and 11 points respectively.

Coach Sid Simpson of the Westerners said, "We'll have to have better team defense on rebounds. One man got almost half of our rebounds. And we need better blocking out on the boards and better inside defense."

Overall, Simpson said he was pleased with the Westerners' performance in their first game of the season. However, he noted the locals are going to have to cut down on turnovers. They had 24 during the game.

Southwestern was beaten badly on the boards. They collected only 41 rebounds compared with the 67 for WTC. WTC ran a smoother offense than the visitors. Southwestern frequently resorted to "run and shoot" tactics.

The Westerners next game will be here Thursday against Fort Worth Christian College.

Booster Club Meeting Set

The Tiger Booster Club will meet at 7:30 p.m. today in the high school cafeteria to see films of last week's football game with Hereford and hear a scouting report on Plainview, this week's opponent.

Dave Harlin, Jr., club president, urged everyone to attend.

Texas Wins Cross Country

COLLEGE STATION, Tex. (AP) — Texas placed five runners in the top 10 Monday to storm to the Southwest Conference cross country championship.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

The Gobbler Is Back

The Highway Gobbler is the driver who acts like he's the only one on the road. He always drives a little faster than the speed limit, passes to get a little further ahead or tailgates when he can't pass.

This Thanksgiving weekend, the Highway Gobbler is back. He really hasn't been gone. He's been there all along making his generous contribution to the toll of death and injury and property damage on our highways. But he's recognizable for what he is during the Thanksgiving holiday season.

There's no room for the Highway Gobbler—this Thanksgiving or any time of the year.

Driving Friendly Means not Gobbling

Economic Stabilization Questions and Answers

Internal Revenue Service

This column of questions and answers on the President's Economic Stabilization Program is provided by the U.S. Internal Revenue Service and is published as a public service. The column answers questions most frequently asked about wages and prices.

★ ★ ★

Q. What is the IRS doing to make sure landlords don't illegally increase rents for tenants receiving higher Social Security benefits?

A. The Internal Revenue Service has begun compliance audits involving more than 50,000 rental units which house high percentages of older persons on Social Security. In addition, expedited service is being given to the inquiries and complaints of Social Security beneficiaries. Thus, a person contacting the IRS with a rent inquiry or complaint should identify himself, or herself, as a Social Security beneficiary.

At the same time the IRS has initiated this "rent watch," it has been granted new authority to administer sanctions and allocate penalties to landlords who illegally overcharge rent. Cases of flagrant violation of rent rules will be turned over to the Justice Department for litigation and possible prosecution. Finally, the IRS and Cost of Living Council are distributing materials designed to educate landlords and tenants about their rights and responsibilities under the Economic Stabilization Program. Free IRS rent publications are available from Internal Revenue district offices.

Q. Is all rental property covered by the rent regulations?

A. No. The regulations exempt many types of rental property. However, the regulations generally control most rented residences. Property exempt from the controls include:

1) All nonresidential property, including property leased for industrial, farm or commercial purposes;

2) Rental units which were completed and first offered for rent after August 15, 1971;

3) Rehabilitated dwellings (where the cost of rehabilitation is more than one-half the fair market value of the pre-rehabilitated property or the cost of that property) offered for rent for the first time after August 15, 1971;

4) Rental units where the owner and members of his family, do not own or control, directly or indirectly, more than four rental units; and

5) Units renting for $500 a month or more on January 19, 1972.

Q. If a Category II manufacturer wants to increase prices, what forms does it have to file and when?

A. Category II manufacturers--generally those with sales of $50 million to $100 million--must file a Form PC-1, "Report for Price Increases for Manufacturing, Services Industries and the Professions," with the Price Commission for the quarter in which a price increase has occurred. Along with the PC-1 form, a Form PC-51, "Report on Sales, Costs, and Profits," must be filed not more than 45 days after the end of a fiscal quarter or 90 days after the end of the firm's fiscal year. If a Form PC-50, "Base Period Income Statement," has not already been filed, it must be submitted at this time.

Smaller firms, which are not required to file with the Price Commission, may find these forms helpful in complying with Economic Stabilization regulations. Forms may be obtained at any IRS office.

Drug Traffic Estimate Upped

By DONALD M. ROTHBERG
Associated Press Writer

WASHINGTON (AP) — Federal narcotics officials are revising sharply upward their estimates of the amount of heroin that Southeast Asian countries supply to drug traffickers within the United States.

New official estimates from the Bureau of Narcotics and Dangerous Drugs (BNDD) say that 30 per cent of the 6.5 to 10 tons of illicit heroin entering the country annually originates in Southeast Asia.

In congressional testimony and in other public statements, federal officials previously have estimated that Southeast Asian countries accounted for between 5 and 15 per cent of the heroin sold to the 500,000 or more addicts in the U.S.

For example, in August, retired Marine Gen. Lewis Walt cited official estimates in reporting to a Senate committee that "Southeast Asian heroin accounts for no more than 10 to 15 per cent of the total traffic coming into this country."

Walt, a former commander of U.S. Marines in Vietnam, had been commissioned by the Senate Internal Security subcommittee to investigate world drug traffic.

He noted that Southeast Asia is one of the most important opium growing areas in the world and said the area "will become an increasingly important source of illicit opiates now that Turkey is phasing out legal production." Heroin is produced from opium.

On June 9, Nelson Gross, State Department coordinator for international narcotics matters, told a congressional committee, "We estimate that probably only 5 per cent and certainly no more than 10 per cent of the heroin presently flowing to the United States originates in Southeast Asia."

At about that time, Sen. William B. Spong Jr., D-Va., submitted a series of questions about international drug traffic to John Ingersoll, head of BNDD. After some prodding, the answers recently came through and included the far higher estimates for Southeast Asia's share.

The BNDD report said its figures on the sources of heroin sold in the United States came from identification of traffickers. BNDD said 60 per cent of the heroin sold to U.S. addicts originated in the Near East and another 10 per cent in Mexico.

GM Recalls Intermediate Size Cars

DETROIT (AP) — General Motors Corp. is recalling more than 155,000 vehicles to correct a design problem involving steering.

The recall involves intermediate size cars produced prior to Oct. 9. The cars recalled are the only ones on which major styling changes were made—Chevrolet Chevelle, Buick Century, Oldsmobile Cutlass, Pontiac LeMans, Grand Prix and Grand Am models, as well as Chevrolet El Camino and GMC Sprint trucks.

The steering problem could arise if the car's right front wheel was backed into a curb while turned fully to the left. GM said Monday this could push the steering linkage beyond its normal limit of travel, which would cause a "toe-in." The "toe-in," if not corrected, could cause a steering loss on the wheel which struck the curb.

However, GM said squealing front tires would alert the driver to the problem before the loss occurred. The problem will be corrected by installing a special bracket, at company cost, to keep the steering linkage from moving too far.

Although the firm has received 58 complaints—including a number from executives driving company-owned cars—a spokesman said the problem has caused no injuries or accidents.

Service Projects Heavy Mail Volume

WASHINGTON (AP) — The U.S. Postal Service has projected a holiday volume of nine billion pieces of mail this Christmas season.

The service made the prediction Thursday while issuing its annual plea to send Christmas mail early.

It said surface parcels within the United States should be mailed by Dec. 10 and surface greeting cards by Dec. 15.

Airmail parcels within the country should be mailed by Dec. 20 and airmail greetings by Dec. 21.

The service recommended mailing all packages to armed-forces personnel in Europe and Indochina by Nov. 20.

AND WELCOME CONNALLY BACK

Briscoe Says Demos Must Reorganize

HOUSTON (AP) — The Democratic Party must face a national reorganization, Texas Gov.-Elect Dolph Briscoe said Monday, adding he believes John Connally, who headed Democrats for Nixon, should be welcomed back into party ranks.

Briscoe made his first public appearance here Monday after winning the election last week by a squeaky 100,000 votes over Republican Hank Grover.

Asked if he saw a place in the party for Connally, Briscoe chuckled and said, "I tell you what, I think it's obvious we need to get a lot of people back in the Democratic Party. I think we need every Texan we can get."

The staggering defeat of George McGovern by President Nixon is proof the party needs reorganization nationally, Briscoe added.

"I think reorganization is essential. We need to move back to where the party represents the majority of the people in the party."

He declined to specifically say he thinks McGovern's hand-picked Democratic National Chairman Jean Westwood should be replaced.

Instead he said he wants to meet with all the Texas party national committee members and also go to a meeting called by Arkansas Gov. Dale Bumpers next month to discuss party reorganization before making a decision.

Asked if he would support Texan Robert Strauss, a one-time close associate of Connally, to succeed Mrs. Westwood, Briscoe declined to say but did add, "I have a high regard for Bob Strauss. He did an excellent job as treasurer of the national committee. He is a man of ability and integrity and, in my opinion, would do an excellent job in any position."

Briscoe also said in his news conference the No. 1 transportation problem in Texas today is the need for urban mass transit systems. He repeated his campaign proposal that the state should guarantee up to 30 per cent of the revenue bonds used to build these systems.

Briscoe was in Houston to speak at the 39th annual convention of the Texas Farm Bureau. The Uvalde rancher and banker, himself a member of the group, told them that agriculture is one of the greatest sources of strength this country has. "By proper utilization of the agricultural resources of this state, we can make Texas No. 1 in agricultural production."

He said that he will give top priority to a plan to import water from outside the state to help farmers increase yields.

Bans Christmas Tree Lead Tinsel

By JOHN STOWELL
Associated Press Writer

WASHINGTON (AP) — The Food and Drug Administration says that "not a single strand" of lead Christmas tree tinsel should be found on store shelves this Yule season.

"It's gone. We have assurances that not one ounce will be sold this year," said Malcolm "Mac" Jensen, director of FDA's Bureau of Product Safety.

Last Christmas the agency was accused of agreeing secretly with several lead tinsel manufacturers not to publicize an understanding that production would stop Jan. 1, 1972, but sales could continue through the 1972 Christmas season.

Jensen denies it.

"There was never any effort to hide it," he said in an interview. "The decision was made internally not to publicize it because we feared that many people preferring the lead variety would stockpile it."

After the charges of secret-dealing surfaced, Jensen said, "We got back to the industry and said, 'You haven't got a saleable product anymore. You might as well get out of the lead business.'"

At the same time, he said, the FDA asked customs agents to freeze any lead tinsel imports.

The FDA campaign is based on persuasion of manufacturers and importers following a conclusion by FDA in August 1971 that lead tinsel was an unnecessary risk to children with symptoms of lead poisoning. No absolute ban was imposed, Jensen said, for lack of medical verification to declare lead icicles a "health hazard."

Plant inspections have shown that no lead tinsel is being made in the United States, Jensen said, and customs officials have not reported any foreign products arriving here.

"We have assurances in writing from all manufacturers and importers that absolutely none will be distributed this year," he said.

Epidemic Reported In Havana

MIAMI (AP) — Cuban radio says 139 children have been treated in a Havana hospital following an epidemic of a disease which attacks membranes surrounding the brain.

Doctors and public health officials emphasized on the Miami-monitored broadcast Monday that the disease, called meningoencephalitis, was appearing in its milder stages. No deaths have been reported.

The health officials said the illness—producing fever, vomiting and recurring headaches—had stricken primarily children in the 5-14 age group.

They said the outbreak was restricted to Havana Province so far.

The disease is caused by poor hygenic conditions.

Magnets Pick Out Tin Cans

NEW YORK (AP) — Discarded steel, or "tin," cans are being recovered from household refuse by magnetic separation in 16 cities at the rate of 2.4 billion annually, say latest figures from the American Iron and Steel Institute. Eleven more localities are expected to install magnetic equipment by the end of 1972, adding 1.6 billion salvaged cans to the total.

Reclaimed steel food and beverage containers now exceed all other materials in the solid waste stream that are recycled or reused by the industry. "The strong trend toward magnetic separation indicates municipal and regional systems will be recovering more than five billion cans annually by 1975," says R. Thomas Wilson, senior vice president of the institute. "Sanitation departments that employ magnetic systems report they are reclaiming fully 90 per cent of all used steel cans in their areas."

Panhandle Numbed By Cold

By THE ASSOCIATED PRESS

Freezing weather numbed the Panhandle and some other parts of West Texas today as bitter north winds spread a chill over nearly all the state.

Aside from the bitting winds, however, the weather calmed in all stations after tornadoes and vicious thunderstorms killed at least four persons and inflicted widespread damage a little more than 25 hours earlier.

Early morning temperatures dived to 22 degrees at Dalhart, 24 at Amarillo, 27 at Lubbock, 29 at Midland and 31 at Childress and Wink. Readings elsewhere ranged from the higher 30s into the 40s and 50s, holding as high as 52 at Corpus Christi, 53 at Laredo and 57 at Brownsville.

Monday afternoon's top marks, while the colder air was still moving toward southern areas of the state, went no higher than 38 at Dalhart while the mercury climbed to 83 at McAllen in the Lower Rio Grande Valley.

During the night and early morning, winds gusts close to 40 miles per hour at Galveston on the Upper Texas Coast and around 30 m.p.h. over much of East Texas.

Low clouds covered much of the north and east portions of the state. It was clear to partly cloudy in other sections.

Forecasts called for little change.

THIS 'N THAT—Rene Floyd, employe of This 'N That, 4002 College Avenue poses with a variety of eggs--goose, duck, chicken, turkey and guinea. You can select many gift items for Christmas at This 'N That. Just dial 573-8103 and you'll probably discover they have what you've been looking for.

Gift Ideas Are Plentiful At This 'N That Shop In Snyder

Christmas is just around the corner, and a good place to do your Christmas shopping is at This 'N That, 4002 College Avenue.

"We'll be glad to help you select something to make for a gift or select a gift kit so the recipient can make something," said Mrs. Edyth Jones, owner of This 'N That.

All of the personnel at This 'N That will be glad to help you in any way they can. The store manager is Ethel Head. Employes include Mary Jaquess and Rene Floyd.

"It also might be a good idea to send a gift certificate which can be used at our store," suggested Mrs. Jones.

Store hours are from 9 a.m. to 5:30 p.m. Monday through Saturday.

"It's not too soon to think about Christmas if you're going to make the gift yourself," Mrs. Jones pointed out.

She said the This 'N That shop has a wide variety of gift items, including Christmas ornament kits, glass-stained Look ornament kits, felt kits, a new shipment of goose eggs, and new miniatures and trim for decorating eggs.

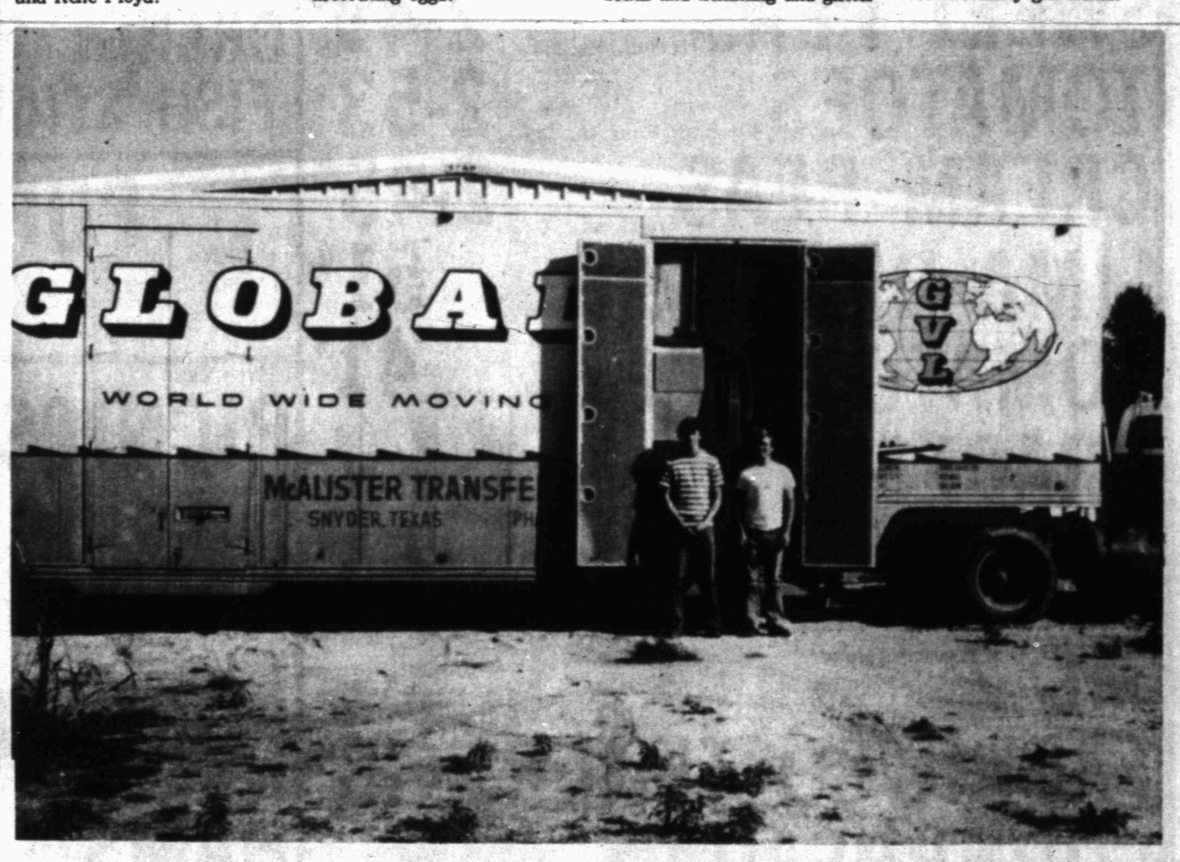
"We have dimension in nature kits," said Mrs. Jones, "as well as batik kits, new prints for decoupage and three-dimensional paper art."

This 'N That also has everything for candle making. Something new that people have been working with is moon stones, and This 'N That has mirrors for moon stones and plaster ovals for transfers and rubouts.

The firm also has some new colors in fake fur and gilt and gold leaf kits. They also have some new macrame cards and hand-crafted beads — sequins, beads and trimming and glitter for Christmas decorations and projects.

This 'N That is the only shop in the area to carry a line of Minwax wood finishes. They also have balsa wood that is handy for lots of projects as well as posters, patches, incense and burners and a complete line of art supplies, including Rapidograph pens. There also is a good supply of art plaster on hand.

"We also have a new Lily hand-weaving loom," Mrs. Jones pointed out. She welcomed anyone to visit the This 'N That shop to browse around and look over the many gift items.



PROFESSIONAL MOVERS—Jackson Brewster (left) and David Elledge, employes of McAlister Transfer and Storage, 103 Lubbock Highway, stand beside one of the huge McAlister vans that is used in moving families across the street or across the nation. Just dial 573-6337 for prompt service.

McAlister's Trained Personnel Take The Work Out Of Moving

Are you contemplating a move this winter? It could be cold, wet, dirty work if you do it yourself. Why not let the professional movers at McAlister Transfer & Storage, 103 Lubbock Highway, do the moving for you?

McAlister's personnel are all trained and experienced. They know how to move household goods without breaking dainty items, such as Chinaware and lamps, dishes. They have the latest equipment in the moving business and take special care with each load that they move.

McAlister vans are sufficiently large to hold most of the household furniture and property of the average size family. And the McAlister movers take special care with each item that they handle. Jeral Beard, owner of the firm, and his employes are all experienced in all phases of moving. No matter how near or how far, McAlister Transfer & Storage has the know-how to handle your needs regardless of how much household goods you have to move.

We can move you around the corner or across the nation," said Beard.

McAlister Transfer & Storage has large, clean trucks. It just takes one trip to get you moved into that new home.

Why not call in the professionals to do the work for you? You'd be surprised at how little they charge for their services at McAlister Transfer & Storage. The professionals know exactly how to load your articles so that they will not be broken in transit.

McAlister Transfer & Storage has offices in Snyder at 103 Lubbock Highway and in Colorado City at 1435 West Point. The Snyder telephone number is 573-6337. They will be glad to give free estimates on any move you are contemplating.

And remember, they're open 24 hours a day.

For prompt, efficient and professional moving service, call McAlister Transfer & Storage.

City's Take Small

OAKRIDGE, Ore. (AP) — The City of Oakridge, in Oregon's Cascade Mountains, is having second thoughts about the money collection boxes it put in Green Waters Park.

The take so far is 20 cents and a half pound of rice left over from a wedding.

How To Get Rid Of Roaches and Ants
Spray non-toxic No-Roach for fast, quick kill of roaches and ants. Apply Brushon No-Roach for long term control. Take your choice, or better yet . . . take them both. Johnston's No-Roach.
Available at:
Furr's, Safeway and other supermarkets. Dist. by Kimbell.
