Another Herd Of Antelopes Coming

By Wendell Tooley

Another herd of Antelopes invades Wester Field Friday night. This time it is the Abernathy Antelopes. The last bunch of Antelopes left Wester Field victorious . . . . the Post Antelopes.

However, the Whirlwinds are a completely different, highly improved football team since Post, and feel like they are ready to beat the Abernathy Antelopes . . . bringing their district record to a perfect 3-0.

Abernathy is 4-3 for the season and 0-1 in district play. They were defeated 35-0 last week by Idalou. Abernathy looked good earlier in the season when they beat Slaton 25-20. They also defeated Tahoka, Hale Center, Friona and lost to state ranked Olton 12-10. Senior Wayne Riley is again quarterback of the Antelopes, he is six foot, weighs 150. The big running back for the Antelopes is 175 pound junior Ken Davenport. He runs from the slot formation. Riley likes to throw passes to Mickey Davis and outstanding defensive players are junior linebacker Todd Thompson and Davenport.

There are some big Antelopes on the line . . . 220 pound left tackle Ruben Cuevas, right tackle Jimmy Smith weighs 229 and center Kent Snodgrass is a solid 182 pounder.

FLOYDADA

It seems that Leslie Soto may be out this week with the flu, otherwise the team seems to be in good physical condition. Coach Wilson said the hard fought game at Tulia really tested the team's physical fitness. "Of course, when you come out of a hard game like that victorious, you don't feel as tired as if you had lost the game," coach Wilson said.

Eighth Breezers District Champs!

The Eighth Grade Breezers clinched the district championship as they literally blew idalou off the field Tuesday evening 66-0. They have a perfect 8-0 record and only Tulia scored upon them this season.

The last game of the season will be against Slaton here next Tuesday. Slaton is non-district and should be plenty tough as they have lost only one game.

The Breezers didn't get up much steam in the first quarter as they had only one touchdown when Ray Mercado scored from the one yard line with 5:09 left in the quarter; the try for point after was no good.

In the second quarter a 24 yard pass play from quarterback Troy Marquis to Neal Becker was good for a touchdown with 1:59 left in the quarter. Jr. Arredondo scored the extra two points. Then with 36 seconds left in the quarter Henry Gonzales made a touchdown on a nine yard run. The extra two points was a pass from Troy to Tracy Womack.

It was 22-0 at halftime.

The second half kick-off was returned some 66 yards by Henry for another touchdown. PAT was no good.

Then with 5:39 left in the quarter, Troy ran 54 yards for a touchdown and Ray ran over the two extra points.

With 3:28 left in the quarter Troy passed a 26 yard pass to Danny Nutt for a touchdown. Jr. made the two extra points. With 1:24 left in the quarter, Jr. ran a 29 yard touchdown. Troy made the two extra points. The score was 52-0.

In the fourth quarter with 4:59 left in the game, Jr. ran a 40 yard touchdown, PAT was no good.

In the closing seconds of the game, Troy threw a beautiful pass to Danny for 59 yards and the last touchdown of the game. Ray Mercado ran over the two extra points.

Coach Mark Vinson said he couldn't keep the score down because he didn't have his second squad . . . he had only three reserves. The second squad will be playing Valley today at 5:30 p.m. In praising his defensive team, he said they only allowed Idalou within 17 yards of the goal . . . Keith Nixon recovered two fumbles, David Wellborn recovered a fumble . . . and the defense team was "just great."

SEVENTH BREEZERS

The Seventh Breezers lost their game to Idalou 16-0. This puts them 4-4 for the season and they hope to come out 5-4 next week with a win over Slaton.

A MASON FOR 50 YEARS . . . The Floyd Philosopher

Working On What To Do With New York If The City Is Allowed To Go Under

Editor's note: The Floyd Philosopher on his Johnson grass farm wrestles with the problem of New York again this week.

Dear editor:

Congress no doubt will -- as it has in the past for England, France, Germany, Japan, Russia, Portugal, Sweden, Belgium and many more I could name if I knew more geography -- bail New York out of its financial crisis, but the thought that it might not opens up a lot of interesting speculation.

For instance, say the city did go under, was abandoned when it was finally realized there really wasn't much point in having 10 million people stacked on top of each other on such a narrow strip of land where nobody has room to keep a milk cow. Can you imagine where all the brains would scatter to?

Take television. I can hear it now: "This is the NBC Nightly News with John Chancelor in Washington and David Brinkley in Floyd County.

Now that might be all right but there are more serious problems. Take those Broadway plays. I'm not sure some of them would go over here in Floyd County. Or take Wall Street. The last thing we'd need around here would be a bunch of financiers who were so busy handling money they didn't know their city was going broke. New York reminds me of the young man who woke up one morning and realized his monthly payments for his car, television set, furniture, boat and power lawnmower totaled more than his monthly salary, with nothing figured in for groceries. No, Wall Street would be more at home in Washington.

What to do with all those tall buildings has me stumped. The only thing I can think of is to just let them stand for a few hundred years till they become a tourist attraction as puzzling as the pyramids. In fact they'd beat the pyramids. You could stare at them without getting sand in your eyes.

What to do with all the editors, publishers and writers now stuffed into the city is another problem, but scattering them out over the country might be beneficial. It'd give them a chance to find out how different the country is from what they thought it was.

Yours faithfully,
J.A.

Floyd Citizens Want Two On Area Health Board

In a meeting last week, several Floyd county citizens expressed the opinion that Floyd county should have two members on a South Plains health board instead of one because there are two hospital districts in Floyd County.

A 15 county health board to approve all government grants, loans and other business that concerns hospitals, health units and medical doctors is to be set up in Lubbock. Plans call for a 45 member board, which, according to population of each county would give Floyd County only one member on the board.

The guidelines for the organization of the board and its functions are being organized under the National Health Planning and Resources Development Act. The act, which became law in January of this year, requires the establishment of approximately 200 health planning agencies across the country. Their mandate is to provide equal access to health care services at a price people can afford.

To achieve this goal, they will have the power to approve or deny applications for federal health funds. In addition, hospitals and nursing homes will have to "show cause," in effect, before being allowed to expand or moderate their facilities. This is designed to prevent duplication of services.

In order to make the HSA accountable to the people, the appointments to the board will be made by the South Plains Association of Governments.

Accordingly, Lubbock county would have 25 representatives, Hale County would have four, Hockley, Lamb and Terry counties would have two each. While the remaining ten counties would have one representative each.

In a vote at the meeting in the Floyd County courtroom, almost everyone voted in favor of increasing the size of the board to 84 so that Floyd County could have two members on the board . . . one from each hospital district.

The following persons were nominated for the SPAG board to consider for nomination to the 15 county board: John Campbell, Maria Mora, Bennie Anderson, John Peck, Parnell Powell, Dr. W. J. Mangold, Dr. Andrew McCulley, Billie Jordan, Dr. Tommy McIntosh, Bettey Baker, Martha Crouch, Paul Westbrook, Adolpho Garcia and Art Barker.

Museum Now Open Six Days A Week

Thanks to an increase in funds, the Floyd County Museum is now open six days each week. The museum is closed on Sundays, however, as it was adjudged by the board of directors there were not enough Sunday visitors to warrant paying a hostess to keep it open.

It was announced at the quarterly meeting of the board of directors by Bicentennial chairman, Mrs. Joe Taylor, that Floyd County Bicentennial Coins will be available after the first of the year.

Due to additional requests and checks mailed in desiring memorial plaques, board members voted to extend the memorial wall in the museum to the west side up to the ranch house replica. The south entrance wall in the museum holding the Pioneer Memorial plaques was completely filled during early summer. Directors voted to retain the same price as in the beginning despite the cost increase of stones and cutting, according to museum president, Mrs. Don Marble.

Auodad Sheep Season Delayed

MOST TEXANS COULD BE PAYING HIGHER TAXES BECAUSE OF EXEMPTIONS

Under PROPOSITION 5, (Article 8) of the proposed constitution, there is a question as to which Texans will be paying property taxes, as it provides, "the legislature may grant relief from residential ad valorem taxes by persons determined to be in need of relief because of economical circumstances." The legislature can also grant relief of residential ad valorem taxes because of age or disability. This could mean that the legislature could limit the amount of people paying residential ad valorem taxes considerably. It could inevitably lead to very high taxes on those residences left to pay taxes, as somebody is going to have to make up the taxes on these exempt properties.

Floyd County Cooks Asked To Submit Recipes

AUSTIN - Floyd County cooks are invited to submit their favorite recipes for publication in the winter issue of TDA Quarterly, a Texas Department of Agriculture consumer-oriented magazine.

Recipes unique to the Plains area and old-time specialities will be stressed. However, any good recipe will be considered, Agriculture Comissioner John C. White said.

Since cattle are important to the Plains area, a special look out will be kept for beef recipes.

In addition to recipes, old-time methods of food preservation in danger of disappearing will be printed. Anyone with tips from the past on preserving foods is invited to send them in, White said.

Deadline for submitting recipes and hints from the past will be November 21.

TDA Quarterly takes a look at a specific region of Texas in each issue. It began publication this year.

Recipes and tips selected for publication will be credited to the sender. They will not be returned. They should be mailed to the Texas Department of Agriculture, Information Section, P.O. Box 12847, Austin, Texas 78711.

MOBILE HOME OWNERS SHIFT THEIR TAX BURDEN TO THE HOMEOWNERS

Under the proposed constitution PROPOSITION 5, (Article 8, Section 4) they have extended exemptions so as to even exempt mobile homes. It specifically provides that "personal effects not used for the production of income are exempt from ad valorem taxation." This means that a mobile home, regardless of value, will automatically be exempt from taxation, whereas a residence would be taxable. Also, under the new constitution the legislature may exempt from taxation property owned by a non-profit water supply organization which the voters of Texas have turned down several times in recent years, but here it is again in the proposed new constitution to satisfy a special interest group.

Management Area Qua

Hunts Scheduled

LUBBOCK -- Sportsmen in the Texas Panhandle and on the South Plains have an opportunity to hunt quail on five Texas Parks and Wildlife Department wildlife management areas located across Texas.

Two of these management areas of particular interest to northwest Texas hunters are the Gene Howe area located six miles east of Canadian in Hemphill county and the Matador area located 11 miles north of Paducah in Cottle county.

Quail hunting on the management units is by permit issued at the check station on the area. To help defray the cost of conducting the hunt, a fee of $1 will be charged for each hunter for each day hunted. Fees will be paid at the check stations when the hunter reports to hunt. These hunts are run on a first come-first served basis and only the Howe area will be restricted to the number of hunters allowed on any one day with 30 permits available with no repeat hunters after the first day unless the daily quota is not filled.

Only persons 12 years of age or older will be eligible to hunt on any of the wildlife management areas open to quail hunting.

The under seventeen participant must be accompanied by his parent or by a person twenty-one years of age or older who shall be responsible for the conduct of the minor. The "under age" hunter shall remain under the immediate supervision of his sponsor while hunting and will not be allowed to hunt alone. Failure to supervise the minor will be cause for forfeiture of permits of both sponsor and minor. An adult may sponsor only one "under age" hunter.

Area supervisors stress hunter safety on these special hunts and once the hunt is started, the management areas are normally closed to other visitors for safety reasons.

The Gene Howe area comprises 5,821 acres of prime quail habitat on the Canadian river an dates for the spe are November 1-2 ber 13-14, 1975, 10-11, 24-25, Feb March 6-7, 1976.

Buffaloes Facing NE Louisiana

CANYON – West Texas State's Buffaloes will be facing one of the best passers in the nation in Northeast Louisiana's Joe Bruner Saturday night, but the Buffs shouldn't make the same mistake as the Drake Bulldogs did a few weeks ago.

Drake, which lost to West Texas State 24-6 in the Buffs' last game, went down to Monroe with the idea of slowing down Bruner foremost in mind. The Bulldogs slowed him down all right, but Bruner called on a potent ground game to take a 38-25 win.

Nonetheless, Bruner should be the Buffs' biggest nemisis in Saturday night's game in Northeast's Brown Stadium in Monroe. Before last week's game with instate rival Southeastern Louisiana, the 6-4, 220 pound senior was ranked fourth in the nation in passing (14.9 completions per game) and 15th in total offense (164.0 yards per game).

"We really haven't seen too much of Bruner," Buff head coach Gene Mayfield said last week. "We had Drake's film of their game with Northeast Louisiana, but all Bruner did was hand-off. I was talking to Jack Wallace (Drake head coach) and he said they were expecting a big passing attack and they threw only nine times. He was never so surprised in his life."

The Buffaloes, after the 24-6 Homecoming win over Drake on October 18, watched from the sidelines last week. Mayfield sent assistants Jim Dawson and Ronnie Mankin to Monroe to watch the Tribe's contest with Southeastern.

While they were watching Bruner's latest assault on the record books, the Buffs had at least improved their own statistics sheet with the resounding win over Drake. Quarterback Tully Blanchard and halfback Richard Riggins were the stalwarts as the WT rushing maching ground out 345 yards against the Bulldogs, the team's highest total of the season.

Freshman fullback Bo Robinson continues to top the Buff ground game with 240 yards on 61 carries, but sophomore Anthony Dogan pulled up to second with 210 yards on just 38 totes.

As a team, the Buffs now lead the Valley in both rushing offense (199.3 yards per game) and rushing defense (191.3).

Following the Northeast Louisiana game, the Buffs will return home to meet New Mexico State. The November 8 battle will start at 1:30 p.m. in Kimbrough Stadium.

Card of Thanks

WE WISH to thank our friends and neighbors for the many prayers, phone calls, flowers, cards and visits during our stay in the hospital and since we have been home. To each and everyone who helped in any way during our illness, we take this means of saying a special THANK YOU.
