BAPTIZED IN FIRE.

THE

Chicago Phenix.

A UNIVERSAL NEWSPAPER.

Read the Following:

A popular weekly paper for the times, embracing the leading features of those journals destroyed by the terrible conflagration, and combining just such a corps of writers as will give the public all the news of the week, in a condensed compilation of the leading journals of the nation, and the world.

A TRUTHFUL RECORD.

The PHENIX will be the most truthful and reliable recorder of incidents and facts concerning the great fire, ever published.

ACCOUNTS OF THE FIRE.

It will contain only such accounts as are vouched for by reliable witnesses, and will correct the erroneous and fabricated statements of sensational writers.

CHICAGO AND THE NEWS.

It will, for a time, be devoted especially to the past, present and future of Chicago, besides being the most complete weekly newspaper in the world.

FIRESIDE COMPANION AND NEWSPAPER.

Its columns are devoted to News, Commerce, Science, Literature, Art, Drama, Music, Humor, Fashion, Poetry, Fashion, Society news, and enough of Romance to make it a most desirable fireside companion, as well as the most reliable and complete newspaper for the businessman in the counting room.

BEAUTIFUL ILLUSTRATIONS.

It will be illustrated with engravings taken from Photographs of the Chicago Ruins, instead of sketches "By Our Special Artist" who was not "on the spot," and thus give scenes of PERFECT TRUTH, not obtainable elsewhere, and the first number will contain the only correct map of the burned city.

HAPPY WORDS.

That beautiful literary journal, "Home," whose publisher was the first to issue a paper to meet the public demand, after the awful fire, has been merged into the literary department of the PHENIX, which will embrace the contributions of more than sixty of the best writers of the day.

A SPECIAL FEATURE.

The PHENIX will contain, as an especial feature, a more complete record of incidents and results of the late terrible fire, than can be found in any book, paper or other publication in the country. So numerous and inaccurate have been the accounts sent forth, that something reliable and readable is a desideratum at the times, and The PHENIX will fill the bill.

A PAPER FOR THE PEOPLE.

THE PHENIX is the cheapest paper in America, being an eight page, forty column weekly, at only two dollars a year; in fact it will be the paper for the people and the times.

THE FIRST NUMBER.

The first number will be issued on Saturday, Nov. 11th, and will be the paper wanted by everybody, as a record worth preserving or to send away, and for its accurate illustrations.

ITS BASIS.

It is a consolidation of other journals, and therefore, on a solid foundation, containing their former circulation.

NEW SUBSCRIBERS.

To any person who gets us three new subscribers, we will send The Phenix for one year free, or one of our beautiful prize, steel plate engravings worth $2.50.

PREMIUMS.

For the purpose of rapidly increasing our subscription list before the close of the present year, we will give to every person who subscribes for the Phenix during the month of November, a beautiful steel plate engraving, worth $2.50, half a dollar more than the price of subscription. No such opportunity was ever before given, and probably never will be again. Avail yourself of it. Engravings will be promptly and safely sent by mail or delivered at this office, as subscribers may wish.

SUBSCRIBE NOW.

Send in your names and subscriptions at once, and sustain this great newspaper enterprise.
Price of subscription only $2.00 per year.
Single copies 5 cents.
Agents wanted everywhere.

CONSTANCY.

Ever fond thoughts of thee, as dreams elysium,
Lightning with rapture, childhood's sweet recess,
Linger dear me, as some enchanting vision,
And round my path a chastened radiance throw.

Even 'mid the shock and din of life's commotion,
Thy hallowed presence, as a starry light,
Upon the bosom of the restless ocean,
Leads my fleet soul to realm of pure delight.

Let this (the) love increasing every hour,
O'er me exert its influence divine;
Comfort and bless me, with its soothing power,
Keeping my heart's devotion ever thine.

GOOD-NIGHT, MY SWEET.

O sweet, my love, the hour is late,
The moon goes down in silver state,
As here alone I watch and wait
Though far from thee, my lips repeat,
In whispers low, "Good night, my sweet!"

Somewhere beneath these gracious skies
My bonny love a-dreaming lies,
With slumber brooding in her eyes;
Go seek her, happy wind so free,
And kiss her folded hands for me.

While life is dear and love is sweet,
And young moons drop adown the west,
My lone heart turning to its rest
Beneath the stars shall whisper oft,
"Good night, my sweet!" though none may hear.

Texas News.

The Herald says last Sunday and Monday were the coldest of the seasons.

Central Railroad engineers are examining the route to McKinney.

Fine butter is made of the milk of cows fed on green wheat.

WAZAHACHIE, Feb. 3—The Democrat reports wood $3 a cord, eggs 25c. a dozen, butter 40c. a pound.

Every house in town is occupied, and every room rented.

Mr. Joel Davis, an aged citizen, is dead.

HEMPSTEAD, Feb 3.—John Kennedy, struck on the head with a revolver while resisting arrest, is dead.

Game of all kinds is abundant, deer, turkeys, geese, ducks, prairie hens and quails.

Burglars are at work in Marlin.

Weatherford has a fine new hotel

Thieves at Waco steal rails from around the cemetery.

A hook and ladder company is being organized at Marlin.

The Jefferson people are building a fine, large, new wharf.

It is said that there is no church in Hillsboro, Hill county.

Work on the railroad depot at Waco will soon be commenced.

Six hundred laborers are now at work on the Waco tap railroad.

A breach of promise suit for the sum of $20,000 is on the records at Houston.

The Gulf, Western Texas, and Pacific railroad is getting plenty of rolling stock.

A man in Sherman has this year put up ice, probably the first ever put up in Texas.

Over four thousand immigrants arrived at Galveston during the month of January.

The Constitution of the Republic of Texas was adopted the 17th day of March, 1836.

The Republicans of Navarro county are for the Houston Union a liberal support.

The Houston Union has been the publication of the laws of Congress passed the present session

A new town called "Forest Hill," has been started in the northern portion of Montague county.

It is estimated that Sherman pays more than one-fourth of the entire tax of Grayson county.

Democratic papers generally, are coming down heavy on the "Grand Army of the Republic."

Belton has a brass band. The editor of the Belton Journal ought to join, finding it already a good blower.

Davidson Burnett was the first President of the Republic of Texas, and Lorenzo De Zavala, the first Vice President.

The Chamber of Commerce at Galveston have Memorialized Congress, asking that the cotton tariff be refunded.

A little boy named Sheet, living near Elm creek postoffice, Bell county, went out hunting the other day and got lost, and has not been heard from since.

The Fairfield Ledger wants a Democratic State convention held early this spring. The Corsicana Observer wants the convention to assemble in Corsicana.

The steamer S. S. Austin, running from New Orleans to Rockport, was somewhat damaged recently by a storm. Some freight was thrown overboard.

The Sherman Courier thinks it both unwise and improper for Democratic newspapers in Texas to be discussing the claims of Governor Throckmorton as a prospective candidate for Congress.

The Rockport Transcript says that a Mr. Zane informs it that the steamship Fire-Fly left Philadelphia on the 23 ult., for that port, to engage in the trade of carrying refrigerated beef to the former port.

The Houston Union says the "Democratic papers are exulting over the demise of 'High Private's' paper, the Bryan Eagle, calling it a Republican paper; when, the truth is, it was a furious Democratic paper for six months before its death."

Our Railroads.

Our people as yet scarcely realize the importance of railways as thoroughfares of travel, as carriers and distributors of products, and as a means of developing the country. It has been estimated by a good authority, for instance, that the freight transported by the railways of the Union during the last year, amounted to over $12,000,000,000, or between four or five times the sum of the national debt at its height. The stupendous movement goes on with the regularity of clock-work, in all seasons, without regard to watercourses and other natural lines of intercommunication, and across even the most formidable barriers of travel. What an element of stability in production, distribution, and consumption we have here! The locality that was "out of the world" is pierced by the highways of commerce; the product that ate itself up with charges before it could get to market, arrives now and deposits a profit in all hands; and the area of perishable commodities and ephemeral transactions is indefinitely enlarged. Buffalo steaks in Boston markets, California fruit all over the country, innumerable centres drawing their supplies from other States more easily than they used to do from a circuit of half a dozen miles—these are among the indicative trophies of our railroad system, as yet in its infancy.—St. Louis Journal of Education.

A Cure for the Small Pox.

Now that the above disease is raging in various cities of the Union, and may be brought to our shores at any moment, we publish the following, taken from an exchange:

A lady in Clarksville, Tenn., writing to the editor of a Pittsburg paper, says: "I saw in a late paper that the small pox was raging in and around your city. For the sake of suffering humanity I send you a recipe. It is as unfailing as fate and conquers in every instance. It will also cure the scarlet fever. The ingredients are as follows:

Sulphate of zinc, 1 grain.
Fox glove (digitalis) 1 grain.
Mix with two tablespoonful of water,
When thoroughly mixed, add 4 ounces of water.
Take a teaspoonful every hour. The disease will disappear in twelve hours.
For children smaller doses.
If you value advice and experience, use this for that terrible disease. You need not mention my name, but I give it to you, that you may know who sends you this recipe."
The recipe may prove of value at some future time, and we advise our readers to clip and preserve it.

The Boston Traveller and Texas.

The Boston Traveller, in reviewing the year 1871, has the following to say of Texas. We hope all New England journals do not entertain the same opinion of our great State, or if they do that they will soon have reason to alter it:

A great victory was won by the Democrats of Texas, which State has fallen back to the position it held from the time it was "reannexed to the American Union to the year when it coolly seceded from that Union—after having received millions of its money expenditure of the greatest of the many great improvements made when the nation was "reconstructed," after the war, was involved in the failure to treat Texas as a conquered country, and to subject her to the entire rigor of the law of arms. She should have been made to know what her victors means, after the high Roman fashion. She should have been cut up into six or eight Territories, which in due time might have been converted into States. She was the most odious member of the Southern Confederacy, without even the most paltry of those excuses for her rebellion that the other members of that epileptic embryo could set up, and she furnished to the rebel armies the most scoundrelly scum, as well as the lowest lees, that ever belonged to a military service. An example should have been made of her, even when the other rebellious States were admitted to grace. She would rebel again, should occasion offer; and she would join an invading enemy gladly. Belonging to the class of Spanish American communities, and made even the worse of her class by the peculiar character of her original American population, she is no more fit for association on terms of equality with other States than is Utah. Should opportunity offer, she should be reduced to the condition of territorial vassalage. In any event, she ought to be partitioned into a number of communities, according to the terms on which she was admitted into that Union, which she had done her very worst to bring to destruction. There is no greater folly than the wasting of lenity on communities and men who are incapable of appreciating it, and who by their very nature can comprehend no law but that of force. Much intimidation was practiced at the late election and colored men were murdered to keep them from voting.

The Central Journal is not dead, as Democratic papers assert. It has changed hands and been removed to Zandt county. High Private's paper is dead. Turning Democrat is allied it instantly, as the exterminator does rats.

EDITOR EXPRESS:

I send you a few items to let you know, how we are getting on in Wilson. The election last October has for a time settled the ever mooted question of the county seat, long a matter of debate and strife between the rival factions, the rivarites (San Antonio), and the cronkites (Cibolo) which, is now happily ended for a time. Floresville is our county seat. The contract for building a courthouse was given to Messrs Maverick & Granger of your city the court room is to be finished, so as to hold the next term of our district court in, on the 4th Monday in March.

We have two stores in our burgh, both both doing a fair share of trade. Mr. H. de la Rosa Gerry is now running; it is open to free travel until the 1st day of March, when footage will be charged. We had quite a hail storm and very cold weather here on the 8th inst. Tuesday, but the last two or three days has been very pleasant. The past two weeks of cold, rain and sleet, has caused the death of a great many cattle, the river bank is covered with the carcases.

Yours &c. FLORESVILLE.

The Religious Amendement.

Most of our readers are aware that a Convention composed of two hundred and fifty delegates, from different States, met recently in Cincinnati to secure a religious amendment to the Constitution of the United States.

Here we have a deliberate attempt made to open that Pandora's box of ills, viz: union of Church and State.

The founders of our government wisely refrained from inserting any such amendment, and the history of all countries where this union has prevailed, confirms the wisdom which prohibits it.

This is the first serious attempt that has been made to rob us of that priceless pearl, religious liberty, and it must be met and frustrated.

The following "conclusion" shows how far this amendment is intended to interfere with the law of the land:

In constituting and administering its government, then, a nation is under obligations to acknowledge God as the author of its existence and the source of its authority, Jesus Christ as its ruler, and the Bible as the fountain of its laws and the supreme rule of its conduct.

If the religious zeal of these would-be reformers is crowned with success we will have the wooden horse at last safely secured inside the walls of Troy.

But no tangible reason can be given for inserting in the Constitution any acknowledgment of spiritual authority.

Our republican institutions have been successful in all the storms and trials through which they have passed, but if we understand the tendency of this movement both civil and religious liberty will be endangered.

Does this not tend to create an aristocracy, who would deprive, if it were able, all citizens from office holding who were unable or unwilling to subscribe to a religious test?

The object of all true religion is to develop a mastery over the passions, and to inculcate a practical love for our fellow men, but these ennobling tendencies are always checked or destroyed when religious administration is dragged down to the level of politics.

The movement, which is intimately connected with the Sunday Law and Temperance agitation, will be defeated by the popular liberal sentiment of the nation.

Too much zeal and too little knowledge of constitutional law is what is at the bottom of this move, which would have been very appropriate 150 years ago, but for which the present times are not propitious.

Postal Reform.

Notwithstanding we boast loudly of our advancement and civilization our postal system is far behind that of any other civilized nation.

The irregularities in the arrivals of the mail, in this State, at least, are becoming more deplorable every day, so much so in fact, that a reform in the system has become imperative.

Mail-bags are continually lost or destroyed by careless or rascally officials, and as an instance to what an extent this abuse prevails, we notice in a New Orleans paper that a Texas mail bag had been found on Calliope street.

If contractors were compelled to carry the mails in a closed compartment, the key of which should be in the hands of the Postmaster, and if the same precautions were taken to transfer the mails from one depot to another, in closed vehicles, there would be less cause of complaint.

This is the European plan, and it would be well to adopt it.

IF there is anything contemptible in the actions of hot house politicians, it is their keeping up an eternal hubla-balloo, urging certain measures, censuring the administration for not adopting them, and then as soon as the friends of the administra- proposes these same identical measures, doing their utmost against them.

The Alabama, Cuba, Reform, Amnesty, and Civil Rights questions have developed a lot of individuals of that stamp.

They care nothing about these measures, as regards their intrinsic value—all they aim at is to spread themselves and creep into notoriety by their agitation.

As soon as their adoption is urged by the friends of our Republican administration, lo! Othello's occupation is gone, and these *gentry* do their best to prevent, retard or clog the passage of any measure calculated to benefit the people, so as to lessen the credit due the Administration for their inauguration.

The royal speech begins with returning thanks to God for the recovery of the Prince of Waler, and expresses gratitude for the sympathy of the people.

The relations with the foreign powers are in all respects satisfactory and friendly.

Joint Resolution.

Providing for the cession by the State of Texas of certain territory of that State to the United States for Indian reservations and other purposes, introduced by Mr. W. T. Clark:

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be, and is hereby authorized and directed to submit to the Legislature of the State of Texas an overture for the cession by the State of Texas to the United States of all that territory rightly belonging to the State lying and being situate north and west of a line drawn from the northwest corner of Hardeman county, on the Red River, to the mouth of the Pecos river where the same empties into the Rio Grande del Norte.

SEC. 2. That the foregoing overture by Congress shall be made upon the following conditions, to wit: first, that the Legislature of the State of Texas shall give its consent to the cession of said territory for the present purposes of Indian reservations, and also for the formation and erection therein of new States, under the Constitution of the United States, whenever the Congress may provide; secondly, that the United States shall pay to the State of Texas at the rate of fifty cents per acre for all vacant, and unappropriated lands within the said territory, payable in four and one-half per centum bonds of the United States, having not less than thirty years to run; to be executed and issued when the consent of the Legislature of Texas is duly filed in the office of the Secretary of State, together with certified transcripts of the maps and surveys in said territory, showing the amount of vacant and unappropriated land therein, one-half of the total amount of said bonds to remain in the United States Treasury to secure any indebtedness already, created by the laws of Texas, the balance to be paid into the State Treasury, and to constitute a part of the public school fund as provided in the constitution of said State; thirdly, that the third paragraph of the second section of the joint resolution for the annexation of the republic of Texas, approved March first 1846, providing for the formation of new States of convenient size, not exceeding four in number, be, and the same is hereby repealed, and the State of Texas placed on an equal footing with the other States, in regard to the formation of new States under the Constitution of the United States.

The following reference is made with regard to the Alabama claims: "The arbitrators appointed [illegible] Washington, not to the treaty [illegible] amicably settling the Alabama claims, held their first meeting in Geneva. The cases are laid before the arbitrators on behalf of each party to the treaty. In the case submitted by America, large claims were included which were understood on my part not to be within the province of the arbitrators. On this subject I have caused a friendly communication to be made to the Government of the United States."

Nothing further is said in regard to the Alabama claims, but in regard to the other provisions of the treaty of Washington.

It is stated that the Emperor of Germany has accepted the arbitratorship of the dispute in regard to the San Juan boundary, and that cases are now predaring for presentation. The mixed Commission appointed under the treaty is also in session.

An Ordinance

Concerning the running at large of horned Cattle and Swine.

Be it ordained by the City Council of the City of San Antonio:

SECTION 1. On and after the 10th day of February, A. D. 1872, it shall not be lawful for cows, or horned cattle of any kind, or swine, to run at large within that portion of said city included in the following described boundaries, to wit: Beginning on the San Antonio River at the Southeast corner of the property belonging to, and constituting the homestead of Thos. J. Devine, fronting on South Flores street, thence along his southerly line continuing in a straight line westward to Laredo St.; thence northward along and including Laredo street, to Center street; thence northward along and including Center street to the San Pedro Creek; thence across said creek to the southwest corner of property now occupied and owned by Hector and wife; thence eastward along said Hector's line, across North Flores street, along and including 5th street to the Upper Labor Ditch; thence along said ditch to 2nd Avenue; thence along avenue and inside of the homestead property of Nat Lewis to the San Antonio River; thence up said river to a point opposite 6th street on the east side of the same; thence across said river and along and and including said Sixth street, to the Alamo Ditch; thence down the Alamo Ditch to North Fourth street; thence and and including North Fourth street eastward to Pecan street; thence along and including Pecan street southward to Alameda street; thence westward in a straight line to Water street; thence along and including Water street to Mill street, and along and including Mill street to a point on the San Antonio River just below Gunther's lower mill; thence up the San Antonio River to a point opposite the place of beginning; and any owner of such animal, or any person having rightful possession or control thereof, either or both, who shall permit the same to run at large within the said limits, shall be fined for each and every offense, upon conviction therefor, before the Recorder, in a sum not less than one nor more than ten dollars and costs.

SEC. 2. The Mayor shall cause to be erected, before said date, two good and suitable pounds, one on the east side of the San Antonio river, to be called the Alamo Pound, and the other on the west side thereof to be called the San Pedro Pound, at such places as he may deem most convenient, and he shall, also, by and with the consent of the City Council, appoint for each Pound a Pound-keeper.

SEC. 3 It shall be the duty of each pound keeper to take up and impound any such animal known to him to be running at large on his side of the river, within the prescribed limits; and also, to impound any such animal taken up and delivered to him for such purpose by any person over twenty-one years of age, when such person shall certify to the pound keeper, over his signature, that the same was found and taken up by him running at large within the limits prescribed by this ordinance; and for each failure or neglect so to do, he shall upon conviction therefor before the Recorder, be fined a sum not less than five dollars and costs, and any person so authorized, who shall take up and deliver to a pound keeper any such animal, shall be paid by him, on delivery, the sum of fifty cents.

SEC. 4. Each pound keeper shall, under the direction and control of the Mayor, take proper care of, and furnish at his own expense sufficient subsistance for all animals impounded by him; and all animals not redeemed within twenty-four hours after the same are impounded, he shall forthwith advertise, by posting four, or more written or printed notices, one of which shall be at the Court-House door, another at his pound, another at each of the market houses, and another at one of the most public places on the side of the river where his pound is situated; and if the owner of such animal be known to him, from examination of the records of marks, and brands, required by law to be recorded in the office of the District Clerk of Bexar county, to examine which it shall be his duty for the purpose of acquiring such knowledge, or if the owner thereof shall otherwise be known to him, he shall serve, or cause to be served, either by delivering to such owner in person, if he be a resident of the said city, or by leaving at his or her residence or place of business a copy of the same, which notice shall be in substance as follows:

POUND NOTICE!

Taken up on (Alamo, or San Pedro) pound on the ——day of——187—, (here insert the description of the animal, giving marks and brands and name of the owner when known, or when conjectured, stating "believing to be the property of)———which will, if not redeemed before sale, be sold at public auction to the highest bidder, for cash at said pound, at the hour of ten o'clock in the forenoon, on the——day of ——18—

Pound Keeper.

And he shall sell such animal, unless the same be redeemed before the hour of sale, in accordance with the terms of such notices, on the third day after impounding the same, except when the sale day would fall upon Sunday, or a legal holiday, when the sale shall be made on the day following.

SEC. 5. Each pound keeper shall be entitled to fee of one dollar for each animal impounded by him, and to fifty cents for each day, or part of a day, the same may be kept by him; and when any animal shall be sold in pursuance to the terms of this ordinance, he shall be entitled to an additional fee of one dollar for advertisement; but he shall receive no fee on the sales of all animals sold by him, after deducting the legal fees, shall be paid at the end of each month into the City Treasury. Each pound keeper shall also render to the Mayor, at the end of each month, a full statement under oath, of all animals received into his pound, giving a description of the same with the marks and brands, the names of the owner, when known, specifying those redeemed, and those sold, giving the name of the person taking up each animal, and also the dates of each of his transactions, and also an accurate account of all monies received and paid out by him as pound keeper, which statement shall be copied from a record book to be kept by him, in which he shall enter, from time to time as they occur, all matters required to be shown by such statement, and upon which he shall take the receipts of the owners for all animals by them redeemed, and of the persons to whom any animal or animals may have been sold; and for all animals sold by him he shall give descriptive bills of sale signed by him as pound keeper, and reciting the material facts.

SEC. 6. At any time before the sale of any animal, the owner thereof, or his agent, may redeem the same by paying to the pound keeper in possession, such fees as he may be entitled to under the provisions of this Ordinance.

SEC. 7. No person shall purchase, or be interested directly or indirectly, in the purchase of any animal taken up, impounded, or sold by him; and any person found guilty of violating this provision shall, upon conviction therefor before the Recorder, be fined not less than ten dollars, and if a pound keeper he shall be in addition thereto dismissed from office.

SEC. 8. If any person shall hinder or obstruct any pound keeper or other legally authorized person engaged in taking to either city pound any animal liable to be impounded; or shall break open or shall aid, assist or advise the breaking open of any city pound, he shall, upon conviction therefor, be fined not less than ten dollars.

SEC. 9. Any person who shall drive, or shall cause or advise to be driven, from without, to any place within the limits prescribed in Section 1, of this Ordinance, any animal liable to be impounded, with the intent or design of having the same impounded shall, upon conviction therefor before the Recorder, be fined not less than ten nor more than fifty dollars.

SEC. 10. Any pound keeper who shall exact or receive from the owner of any animal he may have impounded, or from the agent of such owner, a sum in excess of his legal fees as provided in this Ordinance, shall, upon conviction therefor, be fined not less than five dollars and shall in addition thereto be removed from office.

SEC. 11. The owner of any animal which may be impounded and sold in accordance with the terms of this Ordinance, shall be entitled to the proceeds of such sale, after deducting all fees, costs, and fines legally chargeable to him, upon application to the Mayor; who shall upon such application issue his warrant for such excess, to the owner thereof, upon the City Treasurer, for such amount.

Approved Jan. 24, A. D. 1872.

OFFICE of Chairman of Public Buildings and Grounds, Austin, Texas, January 9th, 1872.

Bids will be received at this office for the completion of the Artesian Wells in the Capitol yard, at the city of Austin, to a full supply of water, said bids to state the amount for which the bidder or bidders agree to remove the auger and shaft at present in the well, and clean it out to the depth already bored; and also for continuing the boring of the same from the depth already attained, until a full supply of water is obtained; bids to state the price per hundred feet, for the first hundred feet, and for each additional hundred feet to be bored. The well has been bored to a depth of some twelve hundred feet, more or less. There are some six or eight hundred feet of the pole or shafting attached to the auger remaining in the well.

Bids will also be received for the boring of an entirely new well alongside of the old one, such bids to state the price per hundred feet, for the first hundred feet, and for each additional hundred feet to be bored, until a full supply of water is obtained; the Board of Commissioners reserving the right to decide whether it will be most expedient to bore a new well or to clean out the old one.

Sealed tenders will be received until Thursday, the 22d day of February, A. D. 1872, and must be addressed to Hon. J. P. Newcomb, Chairman of Board of Public Buildings and Grounds, Austin, Texas, and endorsed "Tender for completion of Artesian Well." The Board reserves the right to reject any or all bids, and the party or all bids, and the party or parties to whom any contract may be awarded will be required to enter into a bond sufficient bond for the faithful performance of said contract, to be approved by the contractor.

LOCAL AFFAIRS.

ALEX. E. SWEET, Notary Public, Express office.

OUR thanks to our gentlemanly and obliging Deputy Postmaster, for appreciated favors.

McCLEARY has gone down into the bowels of the earth 275 feet, and finds them strongly impregnated with coal oil.

OUR young friend Mr. Ramon Fierro has established a fine billiard saloon on Market street, near Firemen's Hall, where he will be happy to see his friends.

VALENTINES.—Mrs. Jaubois, under the Plaza House, has on hand, besides her large and well selected stock of millinery goods, toys, masks, etc., a fine assortment of Valentines.

If the owner of the seven rickety hide-covered skeletons that browse around our domicil, will take them to the pound he will get 50 cents apiece for them, and make money by it.

JUDGE KLOCKE is making the assessments for the year 1872, of the State and County tax of precinct No. 1, and those who have not complied with their duty in this respect, should do so at once.

OUR town, as usual, is "dull," and local items very scarce, notwithstanding fine weather. Speaking from experience, we pronounce Horner's drinkables very drinkable.

Pardon the digression.

A gentleman called on us this morning, and asked us with a smile of excruciating blandness, not to mention his name in connection with a Sunday afternoon buggy smash up. As we don't know what his name is, we cheerfully comply.

RECORDER'S COURT.—Pancho Maquez slept like Jacob, with a paving stone under his head for a pillow, and finally wrestled unsuccessfully with a policeman, who bore him thence by the nape of the neck. $3 and costs were the consequences. Concepcion Diaz was fined for indelicate conduct $4 and costs.

The other day the Grand Jury released two Mexicans who have been in jail for sinning one another with butcher knives, and the consequence was that Policeman Zeigler arrested one of them for trying to carry off a number of articles from a respectable establishment over the San Pedro. He pineth.

A FINE bankrupt, partially filled with new law books, sets off the District Court room. Our legal friends have started a San Antonio Bar Library, and have already purchased 150 volumes, including the New York and Massachusetts Reports, and others will be sent for. We wish them success.

ST. VALENTINE'S day on Wednesday, 14th inst. Particularly as this is leap year, we have no doubt but our young friends of both sexes, will keep up the pretty, time-honored custom of sending forth to their respective friends of the other sex, some of those little white fluttering messenger-bearers, some comic, of which a fine assortment may be found at Mrs. Fowler's well known Millinery and Toy establishment. Don't forget St. Valentine—young folks.

SAYS the Muscatine (Iowa) Courier: We have done and are still doing business with quite a number of Advertising Agencies throughout the country, and have no fault to find with them, but it sets Geo. P. Rowell & Co. ahead more business than any other. Furnishing a large amount of advertising, and paying promptly, has put this house at the very head of Agencies, and has made them a name for honesty, reliability and promptness, which of itself is worth a fortune.

MESSRS. LEROUX & CONGDEN, the furniture and Stove dealers of our city, will, we are informed, continue to receive during the whole present week, from the North direct, enormous supplies of all kinds of goods in their line.

They are determined to keep on hand the largest and best stock of merchandise of the kind in the State, and have so arranged their price-lists, as to be able to sell at the lowest figure, and satisfy every body.

Messrs. Leroux & Congdon are merchants of energy and pluck, who deserve a large share of patronage.

On Saturday last a large detachment of recruits passed through San Antonio, consisting of seventy men for the 24th Infantry, one hundred for the 9th Cavalry, and ten for the 10th Infantry, in charge of Ridetski, 9th Cavalry, Lieut. Lott, 11th Infantry, and Lieut. Burbank, 10th Infantry. The recruits for the 24th Infantry are being directed to Fort McKavett, those of the 9th Cavalry to Fort Stockton, and those of the 10th Infantry to Fort Clark. Each one of these forts is the regimental headquarters, whence the recruits will be distributed to their respective companies and stations.

THE performance of the Harmonic Theatrical society on Sunday last was a decided success.

That young society is bound to succeed. During the pause the audience were treated to an interlude by Prof. Miller, who appears to be a musical genius of extraordinary ability. Imagine a lot of small wine glasses standing upon a small table, and the Professor producing upon them a couple of operatic tunes (the first a sentimental air from Martha, as far as we recollect) by simply slowly clipping his extended hands over them. The sound was one of great purity and power to the ear. We confess we do not know how that thing is done, but suppose it is based upon some principle of the laws of vibration not generally known.

WHO ever has had an opportunity of observing a first class dog fight, and viewed with amazement the playful pyramid of curs of all sizes and colors, writhing in inextricable confusion, each one assiduously chewing and being chewed by two and three at once, will appreciate our difficulty of ascertaining which was which in a case that was up yesterday in the Dist Court. The style of the suit was W. D. Mayes vs. Hewitt & Newton, and the property involved was a large law library, known as the Hewett Library, and worth about $3000.

The original suit is brought by W. D. Mayes, who claims to have purchased it. The next claimant is Judge Thomas Pasfual, the son of Judge J. A. Pasfual. It is also claimed by Maj. T. T. Teel, who alleges to have bought it of Mayes as administrator of L. A. Pasfual. But that is not all, it is likewise claimed by Mr. Pasfual, as administratrix of the Pasfual estate, and jointly by Mrs. Hewett, the widow of the original owner, who insists that it belongs to her, so it may not limit to execution.

We extend our sympathies to the jury.

We saw on the plaza, yesterday, a tobacco-chewing cattle thief, whose facial expression was made up of a singular combination of the smile of a dead snake, mollified by a pair of eyes that seemed once to have done service to a dead mackerel, hunting a dying ox over the nose with the butt of his whip, relieved by feeble efforts to indent his skull with the butt. As we gazed on the brute, we couldn't help thinking that the great lexicoler would not be a success, unless he were turned over on a broiling gridiron with a hot fork once every two or three million years.

We were gratified last Sunday evening evening by the receipt of a lot of magnificent fresh oysters (for which we have a weakness) from that young but already thriving and well known establishment, called a French Restaurant on Market st., with the compliments of the gentlemanly proprietor.

We heartily wish Mr. Sallet success, for by his constant delicate attention to the fastidiousness of the press, he shows that he knows how, and deserves, to succeed.

We cannot omit to mention, that the oysters constantly received at Sallet's, being pickled in ice, preserve fully their freshness and flavor. We have not eaten better ones on Chesapeake Bay itself, and invite the epicures of our town, to come they doubt our word, to go at once and convince themselves by the consumption of a few dozen raw.

We are suddenly threatened with epidemics from three different directions. By an advertisement elsewhere in our paper it will be seen, that proposals for water and work manship are solicited by the board of directors of the Gold, Western Texas & Pacific Railroad, and contractors will address Richard J. Evans, President, at Indianola.

By a late number of the Journal we are informed, that the Directory of the Inter National will begin to April to work on the road between here and that place.

Our fellow countryman, Mr. V. Giraud, who is in the employ of the Columbus road has arrived in town, and from him we have obtained some information in reference to it. Mr. Giraud is of the opinion, that proposals will be solicited for the building of the road for the distance of 75 miles from here, and for 15 miles from Columbus, which has been located and staked off. The party of engineers in charge of Mr. Angle have fixed the location of the road from here to the Guadalupe, which river it will cross about 10 miles below New Braunfels at Le-Anna. The road will cross Gonzales County going to the south. There will be a bridge of 250 feet across the San Marcos, besides 2000 feet of piling. This is necessary, as the high water mark is 20 feet above the level of the stream.

The greatest difficulty to be found in Gonzales county, where the road will pass through what is known as "the Iron Hills", which are composed of a kind of iron sand rock, which is very difficult to work in.

Mr. Foster has recently purchased the Harrisburg Hotel, and Steamboat saloon, and turned a new company, and is able to complete the road to the same proposed, and Mr. Giraud, who has had opportunities of ascertaining, firmly believes that he will.

SPECIAL NOTICES.

Guard Your Health and Life.

How unprepared is human nature to carry pestilence to prevent themselves against outbreaks in malignant diseases, often might to fortify their systems against disease in the most unhealthy. Thousands of dyspeptics are now languishing in sick rooms or hastily moving from one climate to another, who owe their further existence solely to a want of common prudence. For more internal than the weather, against whose attacks the timid are unprotected, are the morbid elements that permeate the atmosphere at the time of the year, and although it is an undeniable fact that Hostetter's Stomach Bitters afford a more perfect protection against this source of danger, than any remedy of offence yet offered against inclement weather, the sufferer continues to brave the danger with a premature infrequent within their reach.

Every day, long and the number of those is increased by their own want of foresight. Each succeeding season demonstrates more clearly the incalculable value of the Bitters, both as an antidote for the causes of disease, and a remedy for its consequences. The attacks of the prevalent periodic disorders, rheumatism and other physical disturbances, produce no effect whatever upon systems fortified against the potential agent of disease, and dyspepsia, nervous debility, intermittent and remittent fevers and all the maladies, which the Bitters, if taken in time, would prevent, are cured by the preventing use of the great remedy.

TO THOSE WHO ARE BOWED DOWN by nervous debility, and despairs of ever recovering the vigor and elan of manhood we earnestly recommend the Medicated CALIFORNIA VERMIFUGE BITTERS. Before they have finished the first bottle, they will feel the restorative principle at work in every portion of their bodies, their spirits rise and hope will spring up in their hearts. No case of dyspepsia, rheumatism, intermittent Fever, Biliousness, liver or kidney disease, can resist this compound vegetable tonic which is superseded by any distilled or fermented liquor. (1848

The Importance of Health.

In point of importance, bodily health is second to nothing earthly. Say a modern French philosopher has maintained, that to possess health—bodily health that is—is the main duty of man. This much, at any rate, is certain, that, whether or not the pursuit of health be itself virtue, the attainment and possession of health conduce to a degree most remarkable, if not to virtue, at least to clearness of thought, soundness of judgment and general prudence of conduct—which are responsibles much more noticeable than virtue is. Now the two great conditions of health are absolute Nourishment and unobstructed Excretion—the latter removing from the system that which is used up, the former replacing this. It is to accomplish with this principle that Dr. Hostetter's Celebrated Bitters exist. It stimulates the digestive and assistive process, on the one hand, and, pari passu, the excretory, on the other. Try it, ye dyspeptics, make trial!

This subject continued next week under the head "How to have the good of our eating."

NO HUMBUG.

Consumption, Dyspepsia and Liver Complaint Cured.

Extensive experience enables me to offer two recipes which never fail to cure the above diseases. The medicine is harmless, can be used by anyone and can be had at any Drug Store. Enclose 50 cts. and I will send other Recipe with full direction for use or 75 cts for both.

THE American Washer Saves Money, Time, and Drudgery.
PRICE $5.50.
The Fatigue of Washing Day no Longer Dreaded, but Economy, Efficiency, and Clean Clothes, Assured.
In calling public attention to this little machine, when of the previous qualities, (not possessed by any other washing machine yet invented,) are here concentrated.
It is the simplest, most efficient, most portable, most simple in construction, most easily operated. A child can turn it, with a few hours' practice, and thoroughly comprehend and effectually use it. There is no adjusting, no screws to secure, no delay in adjusting. It is always ready for use. It is a perfect little wonder! It is a miniature giant, doing more work and of a better quality, than the most elaborate and costly. Household of the labor it fully saved by its use, and the clothes will last one-half longer than by the old plan of the rub board. It will wash the largest blanket. These shirts at a time, washing thoroughly! In a word, the solution of our future Clothes Question—Long Cambric or Cambric Handkerchief, are equally within the capacity of the LATTA GEM. It can be fastened to any tub and taken off at will.
No matter how deep rooted the prejudice may exist against Washing Machines, the modest this little machine is seen to perform its wonders, all doubts of its cleaning efficacy and utility are banished, and the doubter and detractor at once becomes the fast friends of the machine.
We have testimonials without end, setting forth its numerous advantages over all others, and from hundreds who have thrown aside the unwieldy, useless machines, which have signally failed to accomplish the object promised in prominent and loud sounding advertisements.
It is so perfect for washing as a wringer is for wringing. The price another paramount inducement to purchasers, has been placed so low that it is within the reach of every housekeeper, and there is no article of domestic economy that will repay the small investment so soon.
$5.50.
All that is asked for this GREAT LABOR SAVER,

Policy of the Administration.

In conclusion, I would sum up the policy of the Administration to be a thorough enforcement of every law, a faithful collection of every tax provided for, economy in the disbursement of the same, a prompt payment of every debt of the nation, a reduction of the taxes as rapidly as the requirements of the country will admit, the reduction of taxation and tariff to be so arranged as to afford the greatest relief to the greatest number, honest and fair dealing with all other people, to the end that war, with all its blighting consequences, may be avoided, but without dishonoring any right or obligation due to us, a reform in the treatment of Indians and in the whole civil service of the country, and finally to secure a pure, untrammeled ballot, where every man entitled to cast a vote may do so just once at each election, without fear of molestation or PROSCRIPTION on account of his political faith, nativity or color.

U. S. GRANT.

Newspaper Laws.

We would call the special attention of Postmasters and subscribers to the following synopsis of the newspaper laws:

1. A Postmaster is required to give notice by letter (returning a paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reason for its not being taken; and a neglect to do so makes the Postmaster responsible to the publishers for the payment.

2. Any person who takes a paper from the Postoffice, whether directed to his name or another, or whether he has subscribed or not, is responsible for the pay.

3. If a person orders his paper discontinued, he must pay all arrearages or the publisher may continue to send it until the payment is made.

4. If the subscriber orders his paper to be stopped at a certain time, and the publisher continues to send it, the subscriber is bound to pay for it if he takes it from the Postoffice. The law presumes upon the ground that a man must pay for what he uses.

5. The courts have decided that refusing to take newspapers and periodicals from the Postoffice, or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

THE

New York Tribune,

For 1872.

THE consolidation of Italy, so long fragmentary and impotent, into one powerful State, with Rome as its capital; the humiliation of France through a series of crushing defeats, ending with the siege and capitulation of her proud and gay metropolis; the expulsion of the Bourbons from the Spanish throne, and the substitution for them of a scion of the most liberal among royal houses; the virtual absorption of the kingdoms of Saxony, Wurtemberg, Bavaria, with Baden, Hesse, the Hanse Towns, &c., under the headship of Prussia, into the triumphant and powerful empire of Germany; and the arming of Russia to reassert her preponderance in the councils of Europe, or to prosecute her often postponed but never relinquished designs on the great city founded by Constantine and the vast but decaying and anarchical dominion of the Sultan, all combine to invest with profound interest the ever-changing phases of our tidings from the Old World. THE TRIBUNE, through trusted correspondents stationed at all points in Europe where great movements are in progress or imminent, aims to present a complete and instructive panorama of events on that continent, and to mirror the prolonged struggle between middle-age Feudalism and Ecclesiasticism on the one hand and Nineteenth-Century skepticism and secularism on the other. Recognizing a Divine Providence in all that proceeds and is, it looks hopefully on the great conflict we destined (like our own recent convulsion) to evolve from strife, disaster, and seeming chaos, a fairer and happier future for the toiling masses of mankind.

In our own country, a war upon corruption and rascality in office has been inaugurated in our City, whereby the government of our State has been revolutionized through an initial triumph of Reform which surpasses the most sanguine anticipations. It is morally certain that the movement thus inaugurated cannot, in its gross, be circumscribed to any locality or any party, but that its purifying influence is destined to be felt in every part of the Union, rebuking venality, exposing robbery, wrenching power from politicians by trade, and confiding it in these worthiest and fittest to wield it. To this beneficent and vitally needed Reform, THE TRIBUNE will devote its best energies, regardless of personal interests or party predilections, esteeming the choice of honest and faithful men to office as of all New Departures the most essential and auspicious.

The virtual surrender by the Democratic party of its hostility to Equal Rights regardless of Color has divested our current politics of half their bygone intensity. However parties may henceforth rise or fall, it is clear that the fundamental principles which have hitherto honorably distinguished the Republicans are henceforth to be regarded as practically accepted by the whole country. The right of every man to his own limbs and sinews—the equality of all citizens before the law—the inability of a State to enslave any portion of its people—the duty of the Union to guarantee to every citizen the full enjoyment of his liberty until he forfeits it by crime—such are the broad and firm foundations of our National edifice; and pallied be the hand which shall seek to displace them! Though not yet twenty years old, the Republican party has completed the noble fabric of Emancipation, and may fairly invoke thereon the sternest judgment of Man and the benignant smile of God.

Henceforth, the mission of our Republic is one of Peaceful Progress. To protect the weak and the humble from violence and oppression—to extend the boundaries and diffuse the blessings of Civilization—to stimulate Ingenuity to the production of new inventions for economizing Labor and thus enlarging Production—to draw nearer to each other the producers of Food and of Fabrics, of Grains and of Metals, and thus enhance the gain of Industry by reducing the cost of transportation and exchange between farmers and artisans—such is the inspiring task to which this Nation now addresses itself, and by which it would fain contribute to the progress, enlightenment, and happiness of our race. To this great and good work, THE TRIBUNE contributes its zealous, persistent efforts.

Agriculture will continue to be more especially elucidated in its Weekly and Semi-Weekly editions, to which some of the ablest and most successful tillers of the soil will steadily contribute. No farmer who sells $300 worth of produce per annum can afford to do without our Market Reports, or others equally lucid and comprehensive. If he should read nothing else but what relates to his own calling and its rewards, we believe that no farmer who can read at all can afford to do without such a journal as THE TRIBUNE. And we aspire to make it equally valuable to those engaged in other departments of Productive Labor. We spend more and more money on our columns each year, as our countrymen's generous patronage enables us to do; and we are resolved that our issues of former years shall be exceeded in varied excellence and interest by those of 1872. Friends in every State! help us to make our journal better and better and better, by sending in your subscriptions and forming your Clubs for the year just before us!

World-Renowned

'ELIAS HOWE'

&

SEWING MACHINES,

Are Leading all others.

Sales for 1870

LARGER THAN ANY OTHER SEWING MACHINE MANUFACTURED IN THE UNITED STATES.

THE

"HOWE"

SEWING MACHINES

Received the Cross of the Legion of Honor and Gold Medal at the Paris Exposition, in 1867,

AND THE GOLD MEDAL AT AMSTERDAM EXHIBITION, IN 1869,

And have invariably obtained the HIGHEST HONOR at all the great exhibitions; also, received, successively, the highest Premiums at our Texas State Fairs, in

1870 and 1871.

THE "HOWE"

Is the most durable, simplest, most complete in all its parts, uses the shortest and smallest needle, for the same sized thread, than any other Machine, which is far less liable to break; it is so perfect in all respects that with care, it will last a life time without repair.

THEREFORE SELECT

"ELIAS HOWE'S"

NEWLY IMPROVED

Family Sewing Machine,

Which for simplicity and superiority of mechanism, beauty and excellence of stitch, economy of thread, strength of seam and variety of work is unsurpassed by any other Machine.

It will sean, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, plain and ornamental, making a beautiful and perfect stitch, called the "Howe" Lock Stitch, which is formed by two threads, one upon each side of the material, sewed and locked together in the centre, forming an elastic seam, and presenting the same appearance on both sides.

A stitch of this character commends itself as especially appropriate for sewing woven material, and if suitable thread be used the seam will prove as strong and elastic as the fabric itself.

At the present time no less than 60 Machines are turned out daily, and each and every one is guaranteed perfect, and made of the best material.

We have constantly on hand a full assortment of these celebrated Machines.

Call and examine before purchasing elsewhere.

The great field crop at sesatis, Ho., at Xenia, Ohio, is the Summer of 1870, where "The Clipper" was used by judges including all the leading machine built, and was awarded the First Premiums and Gold Medals—proves that the proprietors have been able to sustain in the field their claims of superiority for The Clipper Machine over all others. Its extraordinary lightness of draft takes one-third of the labor of the team. The adjustability of the finger-bar, to cut high or low without stopping the team, is worth $25 on any machine. It is the only mower that has the true center draft in accordance with correct mechanical principles. It is stated to be the lightest, the most durable, the least complicated, the most perfectly constructed, the most symmetrical in design, of any implement of its class. Farmers THE CLIPPER is the Horses' Friend, and you cannot afford to ignore their welfare. Send for pamphlet—investigate—see or write to some one who has used THE CLIPPER. See the Machine yourself. NOTICE.

I have purchased of Jesse Campbell, on or about the 20th of August, 1871, his stock of cattle branded J bar and sub in the left ear, and sundry other stock in the exchange, the same being a fair exchange for the cattle he received of me. The cattle in question are branded AP connected; left ear slopes a way and right ear split.

Also, from Charles Gillespie, the stock he received branded GF, without ear marks.

The following are my own brands and marks: T and P with a half circle over it, with smooth crop of both ears, and a square crop of the left ear and a swallow fork in the other.

Any one disembarking or selling any of the above brands and marks, without authority from me, will be dealt with according to law.

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

D. WALKER'S CALIFORNIA VINEGAR BITTERS

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Rotten Liquors but are the Purest and Best Medicine made, gentle yet thorough in their action, combining Tonic, Aperient, Diaphoretic, &c., they are the Grandest Blood Purifier and a Gentle Stimulant when required, that will carry off all poisonous matter from the system and restore the patient to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar virtue of acting as a powerful agent in removing Congestion or Inflammation of the Liver, and all the Viscera Glands.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters take no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them a healthful influence in changing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring Worms, Scald Head, Sore Eyes, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative powers.

Cleanse the Vitiated Blood whenever you find it impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. For a full account of the injuries to health they are producing, we refer the afflicted to our Circular, Almanac, Testimonials, &c., to be obtained of our Druggists and Agents.
