Marines In Dominican Block Off Safety Zone

More Men Are Landed

By LOUIS UCHITELLE

SANTO DOMINGO, Dominican Repubiic (AP) — U.S. Marines with five tanks at their command established an "international zone" of nine square miles in strife-torn Santo Domingo today.

Without incident, they set up their lines to protect American lives in a strip running three miles along the waterfront and inland for 15 blocks fo the U.S. embassy.

As the Marines moved into Santo Domingo, 1,000 troops of the U.S. 82nd Airborne Division were landed at San Isidro Air Base, 20 miles east of the city. U.S. officials said in all 4,000 will be landed, swelling U.S. forces in Santo Domingo to more than 5,000.

The Organization of American States was said to have sanctioned the international zone for the safety of refugees. Only eight blocks away, fighting was raging between the rival Dominican forces whose civil war is dragging Santo Domingo to the point of anarchy.

The two-day-old military junta appealed for intervention by American troops to help restore order, but U.S. officials said action other than to protect American lives and property would require authorization from the Organization of American States.

However, President Johnson's administration was authoritatively reported in Washington to be on the alert for action to meet any Communist threat to take over the Dominican Republic or plunge it into a Communist "war of liberation."

U.S. officials in Santo Domingo released a list of 52 members of Dominican Communist organizations who they said were believed to have played key roles in the six-day-old rebellion. Beside the name of each man was the Communist country where he was said to have trained — Cuba, China or the Soviet Union.

The rebellion was launched by a group of young army artillery officers seeking to return ousted President Juan Bosch to office. But U.S. officials in Santo Domingo and other observers believe no one now is in control — or could regain control — of the armed rebel bands, which include many young civilians.

Quake Area Counts Dead, Eyes Damage

SEATTLE, Wash. (AP) — Washington state counted five dead today and damage in the millions of dollars in the wake of the Pacific Northwest's worst earthquake in more than a decade.

In Seattle, the hardest hit area, Frank Brock, assistant superintendent of schools, said the loss to the system "should easily be in excess of $1 million."

Eight public schools were closed and two may not be back in operation for some time, he said.

Ensley Llewellyn, state Civil Defense director, said it was impossible to give an accurate damage estimate until reports from around the state had been compiled.

Llewellyn estimated damage to light fixtures and elevator shafts in the State Capitol building at Olympia at $200,000 and damage to a road and railroad in the area at possibly another $200,000.

Some roads heaved upward, others sagged downward; bridges swayed and some freeway ramps buckled as the temblor rolled through at 8:29 a.m. (Pacific Daylight Time) Thursday.

Raymond Haughton, 52, and Eugene Goulet, 40, were near a 14-story tower at the Fisher Flouring Mills when a 50,000-gallon wooden water tank atop the structure exploded. Torrents of water and twisted timbers cascaded down upon them. Haughton died in the debris, Goulet was injured critically.

Adolphus Lewis, 60, was hurrying in the bright sun to his usual morning breakfast of mush and tea at a restaurant near his downtown rooming house. A concrete parapet struck him down. A pile of bricks quickly covered the dead man.

Mrs. James Johnson, 56, of Seattle, died while talking on the telephone. Ethel Webb, 75, Tacoma and Zenola Lorenz, Olympia, were found dead. All were victims of heart attacks.

The earthquake knocked the needles off the University of Washington seismograph, but seismologists elsewhere said it registered 6.5 to 7 on the Richter Scale. The devastating Alaska earthquake of March 27, 1964, was rated at 8.3 on the Richter Scale. That one killed 113.

Just 16 years ago this month the Pacific Northwest was jolted by an earthquake that registered 7 on the scale. That temblor, on April 13, 1949, killed eight persons and did $25 million in property damage.

Wilson Tells Plans For Takeover

LONDON (AP)—Prime Minister Harold Wilson made public today a controversial government plan to take over the nation's steel industry. The move could bring down his Labor government after little more than six months in office.

Wilson presented Parliament with a white paper setting forth the Labor government's intention of nationalizing 14 giant steel corporations which control 90 per cent of Britain's production of iron and steel and employ 70 per cent of the industry's manpower.

The white paper, which is not the actual nationalizing legislation but a statement of intent, will be debated in the House of Commons next Thursday. The government at present has an over-all majority of four votes in Commons.

But two of Wilson's own Laborites, Woodrow Wyatt and Desmond Donnelly, oppose the wholesale nationalization of steel. If they abstain in the voting, the government's majority is reduced to two; if they vote against, it is a dead heat with the nonparty speaker of Commons casting the deciding vote.

If just one Laborite is absent when next Friday's vote is taken in Commons, tte government could be defeeated on an issue it regards as basic in its Socialist legislative program.

As there is no question of confidence attached to the white paper, an adverse vote on it would not automatically bring the government down.

The white paper said the 14 steel corporations will be nationalized through the transfer of their stock to a government-owned National Steel Corp.

Law Day Is Proclaimed In Snyder

The citizens of Snyder have been called upon to observe Saturday as Law Day.

In signing a proclamation, Mayor M. L. Broman noted that in many areas of the world today the principle of individual freedom and equality is being challenged. He commended the local Bar Association for their work in promoting interest in the system of representative government which we live, with its ideals of equal justice, equal opportunity, and protection of the rights of all citizens.

The purpose of Law Day is to emphasize the fact that the American system is built on laws of our own making, and administered by independent courts, and that the system depends for vitality and strength upon broad citizen participation and understanding.

The text of Mayor Broman's proclamation is as follows:

"It is especially fitting at this time that each of us, as citizens of this great nation, should reaffirm our faith in the rule of law and in the supremacy of government by laws rather than men.

"The Congress of the United States, and the President by official proclamation, have designated May 1 as Law Day USA. The basic aims of Law Day are to foster increased respect for law, for independent courts which uphold the law, and for a deeper awareness of the benefits and responsibilities of citizenship.

"Liberty and equality for the individual are what distinguish our system of government from communism, under which millions of people today live in fear and tyranny. No better time could be chosen to call public attention to our great heritage of individual liberty under law.

"NOW THEREFORE, I, M. L. Broman, Mayor of Snyder, do hereby proclaim Saturday, May 1, 1965, as Law Day USA in the City of Snyder and call upon all citizens, organizations, and schools to recognize this day with suitable programs, ceremonies and educational activities."

A special program was held at the regular assembly meeting of Snyder High School Tuesday. County Attorney George Killam spoke to the students on the legal heritage of our country. Other civic organizations are planning special programs in connection with Law Day next week.

LAW DAY PROCLAIMED—Mayor M. L. Broman is pictured as he signed a proclamation designating May 1 as Law Day in Snyder. Watching the signing are Dan Cotton, president of the local Bar Association, and Tommy Mills, chairman of the Law Day observance.

Holidays Are Set By Merchants

Four holidays to be observed by the merchants of Snyder were set at a meeting of the Retail Merchants at a special meeting Thursday at the Chamber of Commerce office.

To be observed will be Thanksgiving, Christmas, New Year's Day and Independence Day.

It was noted that July 4 falls on Sunday this year, and logically the following day would be observed as the holiday. However, the merchants felt that it would be more appropriate to close on Saturday for the Fourth of July celebration.

That celebration has been extremely successful in years past, and the merchants felt that it would continue to be the outstanding community - wide celebration of the year. Plans are already underway for that observance.

It was also noted that Memorial Day falls on Sunday this year, and no holiday was planned for that special day.

In other business, committee members passed a resolution commending the city manager and the city council for their efforts in cleaning and beautifying Snyder. This program, they said, benefited not only the merchants, but the entire population of the city and everyone who shops here.

The committee also discussed plans for future city - wide promotions in which all merchants could join in giving special values to Snyder shoppers.

Jets Smash Red Depots

By MALCOLM W. BROWNE

SAIGON, Viet Nam (AP) — Carrier-based U.S. Navy planes hammered two of North Viet Nam's military supply depots today and a spokesman said both were smashed.

Rockets, 20mm cannon shells and 62 tons of bombs poured from 82 planes on the Thien Linh Dong army supply depot, 75 miles south of Hanoi, and the Phu Qui ammunition center, 45 miles farther south.

The Phu Qui depot drew two attacks in succession from the carrier Hancock—the first by 26 planes and the second by 31. Secondary explosions were reported there, suggesting direct hits on munitions magazines. Pilots said they also blew up a petroleum tank four miles from Phu Qui with Zuni rockets.

The carrier Midway launched 25 Skyraiders and Skyhawks against the Thien Linh Dong depot. They strafed and bombed the installations under light antiaircraft fire.

The spokesman said the attacks destroyed a total of 19 buildings, damaged 13 and knocked out four railroad box cars.

No enemy planes were sighted.

Spokesmen said all U.S. planes returned safely.

The strikes against the two depots came after several days of relatively fruitless attacks on North Vietnamese highways and bridges.

A U.S. Army helicopter gunner was wounded slightly during a combat assault 25 miles south of Saigon.

A U.S. military spokesman reported that the big infantry sweep through the swamps of Kien Hoa Province, in the Mekong Delta 60 miles southwest of Saigon, had turned up a large Viet Cong arms cache.

The 7th Division troops at last report had counted about 600 arms, including some American Springfield rifles and a ton of high explosives. Many of the arms were still coated with protective covering and were wrapped in heavy paper.

Shortly after the weapons were found, the Vir Cong launched a counterattack which apparently failed.

Mrs. Fred Korth Files For Divorce

FORT WORTH (AP) — Mrs. Fred Korth, wife of the former Navy secretary, has filed a divorce suit.

The petition Thursday said Mrs. Korth and her husband, who now operates a law office in Washington, separated in November 1963 after 29 years of marriage. The suit alleged "cruel treatment."

Korth resigned his Navy post amid the 1963 controversy surrounding the TFX warplane contract, awarded to General Dynamics Corp. in Fort Worth.

Doubts Uprising Is 2nd Red Front

WASHINGTON (AP) — Secretary of State Dean Rusk said today the bloody Dominican Republic rebellion may have "some aspects of a Communist movement" but he does not view it as a "second Communist front."

Rusk made the statements in a Capitol corridor press conference shortly after he and other key advisers discussed the Dominican Republic situation with President Johnson. Rusk, also reported on the situation at a closed meeting of the Senate Foreign Relations Committee.

Asked by newsmen whether he knew of any relationship between the Dominican Republic revolt and the conflict in Viet Nam, Rusk said "I don't think so." But he added that "there may be some aspects of a Communist movement" involved.

Presidential press secretary George E. Reedy would not go into the concern that the possibility of a Communist take-over in the Caribbean nation was a major reason for the gathering of key advisers at the White House.

He stood pat on a presidential statement Wednesday night that the purpose of sending American troops into the Dominican Republic was to protect American lives.

Asked whether Johnson is concerned over the possibility the Communists will capitalize on the situation, Reedy told reporters, "As I said, I am not going into temperature readings, or readings of a man's mind. You have the official statement."

The morning meeting, Reedy said brought together Johnson, Secretary of State Dean Rusk, Secretary of Defense Robert S. McNamara, Undersecretary of State George W. Ball, Undersecretary of Defense Cyrus R. Vance, Central Intelligence Agency Director William F. Raborn Jr., and Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff.

This, Reedy said, was for a complete report on a meeting here Thursday night of the Organization of American States, the Dominican situation, and an OAS resolution calling for a cease-fire and for permission for creating an international neutral zone of refuge.

LOYALTY DAY EVENT SLATED BY VFW POST

The public has been invited to a special flag raising ceremony at 7 a.m. Saturday at the Veteran of Foreign Wars Post Home in observance of National Loyalty Day.

The local VFW post is urging all area business, firms, organizations and institutions to display the flag during the day and to participate in the ceremonies planned by the post.

The day, May 1, has been set aside as a day for all citizens to reaffirm their loyalty to the United States.

Gov. John Connally has issued an official memorandum urging all Texas citizens to set aside the day for public recognition of their heritage of American Freedoms.

LBJ HOLDS WALKIE, TALKIE BACKYARD NEWS CONFERENCE

WASHINGTON (AP) — The White House is sparkling in the spring and a peripatetic President has turned himself into a modern-day Aristotle—of sorts — with increasing frequency in the balmy, beautiful weather.

President Johnson likes to walk and talk, particularly to walk and talk at the same time. So he had another walkie-talkie tour of the back yard Thursday with perhaps 50 reporters in tow.

It was much like the days of the Greeks, when Aristotle lectured his pupils while strolling through the Lyceum Gymnasium in Athens. "Peripatetic" means walking around, and Aristotle founded a peripatetic school of philosophy.

LBJ founded the peripatetic press conference.

These take place with no regularity, any more than do any other presidential press conferences. But they seem to have more appeal to the President in the spring. This one took a small detour from the customary route, into the new east garden named for Mrs. John F. Kennedy.

There was another new feature — a Secret Service man edged through the throng of reporters surrounding Johnson, whispered in his ear, and the President hurried over to a telephone on the wall of the rear portico, a telephone usually used by the White House police. He talked for five minutes or so and returned to the parade route with not a word on what it was about.

But this was a man who has cause for concern about fighting involving American troops in areas a hemisphere apart — in Viet Nam and the Dominican Republic. Whether the call had anything to do with either arena, there was no way of telling.

And perhaps the walk served as a means of showing that there was no lack of confidence and no presence of alarm in the presidential bearing. Johnson seemed to be at ease and not too perturbed about anything.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: If a man wants to date a widow or divorced woman with several small children, shouldn't he include the children on the date?

I am a widow with four small children and I am very hesistant about dating any men before I see how they act towards my children. If a man is not going to be a good father to my children, I don't want him. No man is that important to me.

DEVOTED MOTHER

DEAR DEVOTED: I appreciate the fact that you are a devoted mother, and I respect you for it. But, unless you are equally determined to be a devoted wife, you had better forget about remarrying. If a man is interested in dating you, make it a twosome at first. And if he shows further interest, invite him to your home to meet your children. No man wants to feel that he is being "used." And if all a woman has in mind is finding a home for herself and her fatherless brood, she won't fool the man long.

• • •

DEAR ABBY: My husband is the cleanest man in the world. Every time he turns around he washes his hands. Abby, I believe in being clean, but I think he is carrying it too far. When I tell him that it is not necessary to wash his hands so many times, he tells me that nobody can be TOO clean. Is there something the matter with a man who acts like this? Or is it me?

GETTING WORRIED

DEAR GETTING: Mysophobia (fear of dirt) is an affliction characterized by compulsive hand - washing. Perhaps your husband should see a doctor. On the other hand — perhaps he DOES dirty his paws often.

• • •

DEAR ABBY: A mother wrote to you because she didn't know whether her child was just "slow" or if something was "wrong" with him. Your advice, "Take him to a child psychiatrist," was the best in the world. We know. Our child was "slow." At three he wasn't toilet-trained, refused to play with other children and had a very limited vocabulary. Our friends assured us that they had known children who were even slower. I realized later that they were only trying to make us feel better. Finally, one real friend suggested that something might be "wrong" with our little boy. This broke my shell of complacency and I took him to a child psychiatrist. He sent us to a clinic at one of the major hospitals. After extensive testing they found the child was emotionally disturbed. They recommended us to a school for such children. In only four months the change in our child has been a miracle. They are also treating my husband and myself to get to the root of the problem, as it seems we were partly responsible for it. This school charges a lot, but we can afford to pay, but it doesn't begin to cover what they are doing for us. For the rest of my life I will thank my old friend who had the courage to tell me the truth even though she, too, thought it might have meant the end of our friendship.

Pleas Are Heard In Courts Here

Johnny Lee Wortham of Snyder entered a plea of guilty this morning in district court to a charge of theft.

The case involved the theft of a tool box and tools from Gail Nail, and were taken from a pickup owned by National Tank Co.

Wortham was given a two-year probated sentence contingent upon his paying $100 for the stolen goods.

In county court Thursday afternoon Eddie Reed of Snyder entered a plea of guilty on an illegal possession of alcohol charge, and also changed an earlier plea of not guilty on an illegal transportation charge to a plea of guilty

He was fined $200 plus costs and sentenced to 15 days in jail on each of the charges. Both charges were filed by the sheriff's department.

Boston Pair Held On Dope Charges

FORT STOCKTON (AP) — State patrolman John Koonce stopped to check a car minus license plates and wound up arresting two men on dope charges Thursday.

The prisoners told police they are Ronald Taylor, 29, and Thornton Barrow, Jr, a Negro, both from Boston and members of an unnamed religious sect.

They went to jail after failing to post $4,500 bond each on state charges of possessing marijuana and narcotics paraphernalia illegally.

Koonce said one of the men tossed a package from their car window, which was parked beside U.S. 290, and he found it was half filled with marijuana cigarettes.

After obtaining a search warrant, the patrolman opened the car trunk. He confiscated half a pound of marijuana, six ounces of morphine, a drug he identified as LSD, a hypodermic needle and a pipe for smoking hashish.

Koonce said the trunk also contained assorted religious and philosophical pamphlets, a ceremonial garment which the two men claimed was a prayer rug, a flute, record albums and other items.

The patrolman said his prisoners told him they were members of a sect which originated in India and holds beliefs similar to Buddhism. He said they claimed to be en route from San Francisco to visit relatives in Houston.

Arrested For Assault

KERMIT, Tex. (AP)—Police jailed Dorman Anderson, 26, of Los Angeles after his estranged wife was forced to leave her hospital job at gunpoint and held for 45 minutes Thursday.

Officers charged Anderson, who identified himself as a Los Angeles policeman, with assault with intent to murder. He was held in lieu of $5,000 bond.

Investigators gave this account:

Anderson went to the Winkler County Hospital here and asked for his wife at the reception desk. When she appeared, he produced a gun and ordered her to leave with him.

Police, summoned by a hospital staff member, arrived as the couple was departing. They made no effort to stop the pair for fear of harm to the woman.

Arresting officers followed the couple to the home of Anderson's father, engaged him in conversation and finally persuaded him to surrender.

Fugitive Found In Carlsbad

CARLSBAD, N.M. (UP) — A Carlsbad mechanic who was a friend of sheriff's officers here has been charged as a fugitive of 36 years from a Texas prison.

He is Terry Cochran Sr., a 62-year-old grandfather who "always provided for his family."

Cochran surrendered Tuesday to Sheriff Carl Hawkins after a warrant was issued. He was released on his own recognizance pending possible extradition to Texas on a fugitive complaint.

Hawkins described Cochran as "an ordinary hard working guy" who is putting one of his two children through college. The other is married and has several children.

The sheriff said he didn't know how Texas officers found Cochran living here but they sent a letter stating Cochran may be J. R. Blaise, who escaped a Texas prison Dec. 14, 1929.

Hawkins said Cochran came to his office at once and, when asked, readily acknowledged he was an escaped convict.

"He's worked on my car many times," the sheriff said. 'I' guess we've sat down to coffee together about a thousand times."

Texas officials said a man known as Blaise escaped the Ferguson prison farm near Huntsville after serving slightly more than two months of a two-year sentence from Houston for forgery.

GRACE T. STEVENSON . . . Librarian for 45 years.

Finds Glamor In Library

By ED KITCH
Associated Press Writer

CHICAGO (AP) — If you are searching for a challenging career, consider the librarian.

A modern - day librarian has grown far from the image of a sweet - faced lady, with a hair bun on top of her head, who tiptoes through study halls calling for quiet.

Instead, she is usually a pert, trim, alert, educated woman who has chosen the library profession because she thinks it is glamorous as well as interesting.

So says Mrs. Grace T. Stevenson, deputy executive director of the American Library Association (ALA); who has been in library work since 1920 and has been with the ALA for 14 years.

It's Challenge

Calling attention to National Library Week, April 25 to May 1, Mrs. Stevenson says:

"I don't know why anyone would not want to work in a library. There is no better place to satisfy your intellectual interests. It's a challenge, and an opportunity for your intellectual growth through the people you meet.

"Most people think the library is a monastic existence. It isn't. All kinds of people come to a library. It's a community center and many things happen there. If there is something big in the news, right away people go to a library to learn more about the person, the place or the thing that's in the news."

But, says Mrs. Stevenson, there is a big shortage of trained librarians. The ALA estimates that 100,000 are needed now. A person needs a master's degree. Starting salary is from $6,000 to $8,000 a year. Administrators for large libraries earn up to $25,000 to $35,000.

Book Shortage

Also, there is a shortage of books in some libraries, and a shortage of library facilities in many communities, Mrs. Stevenson says.

ALA figures show that about $352 million will be spent in 1965 for library buildings, or additions, and for books to equip them.

In 1964, the federal government provided $55 million to aid libraries. It was based on a formula of matching local funds. But still, about 29 per cent of public schools have no libraries.

The American Library Association, founded in 1876, is supported by dues from 30,000 member librarians. A Carnegie endowment in the early 1920s and grants from various foundations also help.

Hopes To Retire

The association established efficiency standards which are guideposts for libraries. They are based on service rendered in an area, the books and facilities available and the quality of personnel serving the reader's needs.

Before Mrs. Stevenson became an ALA officer she worked in a settlement school in Hindman, Ky., was in the extension department of Evansville, Ind., public library, was in the Alamitos branch of the Long Beach, Calif., public library, as assistant supervisor of school libraries in Seattle and was director of personnel in the U.S. submarine base at Hunter's Point, Calif.

She hopes to retire this year "and read a book."

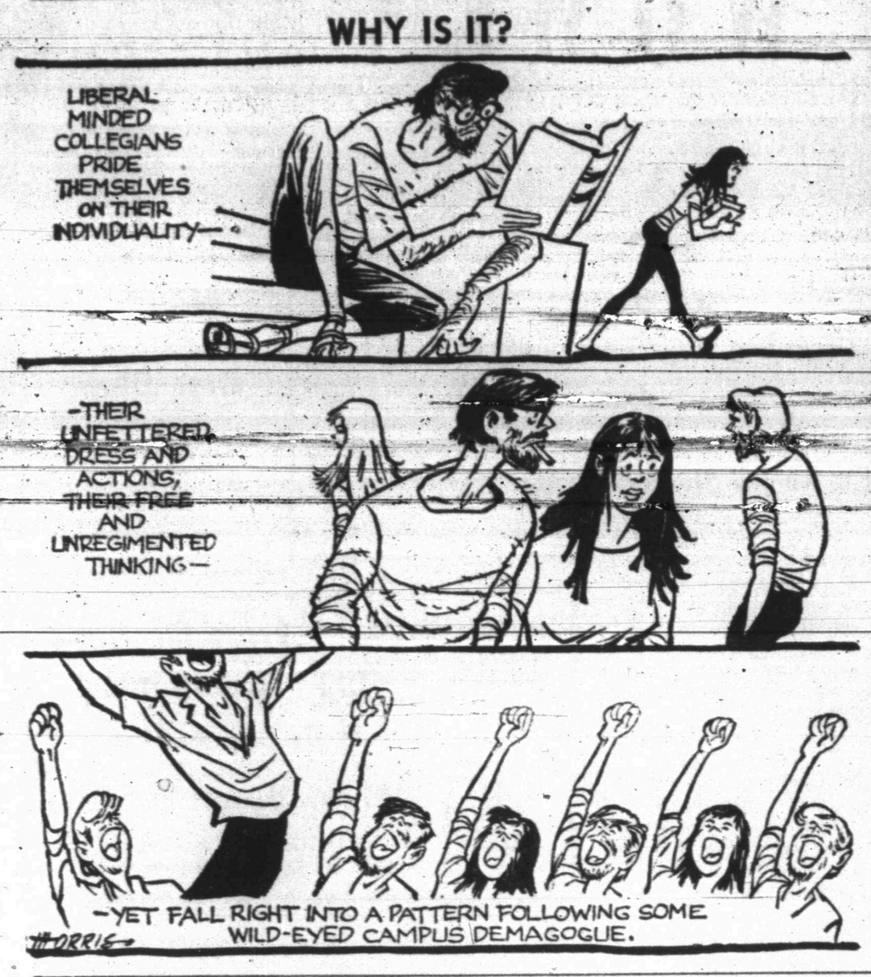
WHY IS IT?



South's Conservatives Lose Power In Senate, House

By JAMES MARLOW
AP News Analyst

WASHINGTON (AP) — Southerners in Congress hold more power positions today than in President Truman's time, 15 years ago. But their actual power has been dented and, on civil rights, broken.

The two main reasons — besides the obvious ones of new times, attitudes and faces — are the Supreme Court decision of 1954 and conservatism's smashing defeat in the 1964 election.

This shows the irony in the Southerners' predicament:

In 1950 Southern Democrats held only 40 per cent of the prized Senate committee chairmanships, or 6 out of 16. Today they have 62 per cent, or 10 out of 16. It's similar in the House.

Yet, in the Truman years, when their power position was smaller, they could stop him and Congress dead on any attempt to put through a civil rights bill. They had one big weapon, the filibuster, and one priceless ally.

This was the much more conservative attitude of the Congress of those days, which meant lack of enthusiasm or perhaps even interest in civil rights or choking off the Southerners.

Then some of the most important figures in Congress, all of whom had lived through the depression but refused to adjust to the new era ushered in by the New Deal of the 1930s, were conservatives.

Their only difference was in party labels. This made a tacit alliance with the Southerners — to the extent of not frustrating them on civil rights — a lot easier and more natural since the Southerners were conservatives, too.

At the same time the old Supreme Court decision of 1896 — saying it was constitutional to segregate Negroes — still stood and thus put a respectable constitutional cloak over those in both parties not fighting for civil rights.

The great change began with the court's 1954 ruling which overturned that of 1896 by declaring the very principle of segregation unconstitutional. This deprived all forms of segregation of legal blessing and congressional inertia.

It broke Southern resistance, although it took many Southerners a time to realize it, since they put on a show of defiance, and took the spirit out of it.

Within three years, in 1957, Lyndon B. Johnson, then Senate Democratic leader, was able to pilot the first civil rights bill of this century to passage.

Southern resistance in Congress couldn't stop it, and it has been growing weaker since. The result: Two more civil rights bills, in 1961 and 1964, were passed.

Now, under President Johnson's prodding for a strong measure to protect Negroes' voting rights, Congress will pass another civil rights bill and this time Southerners haven't even planned a filibuster.

But other forces were at work to reduce conservatism in Congress. The big example came last year in the presidential race between Johnson and Sen. Barry Goldwater.

He made conservatism versus liberalism such an issue it gave the country its first clear choice on this since the 1936 race between President Franklin D. Roosevelt and Gov. Alf Landon of Kansas.

Goldwater not only suffered shattering defeat but carried his Republican party to disaster. The election gave the Democrats 68 Senate seats to 32 for Republicans and 295 House seats to 140.

Now Republicans must adopt a more liberal look to restore their fortunes. This means they can't line up with the Southerners, particularly on civil rights. A good insight came recently from Sen. Everett M. Dirksen of Illinois.

This Republican Senate leader, who backed Goldwater in 1964 after the latter voted against civil rights legislation, says now in support of Johnson's civil rights bill:

"We're thinking of people with dusky skins who for 100 years have been denied the right to vote." Dirksen himself voted for the 1964 civil rights bill.

Latins Develop New Language

By ROBERT BERRELLEZ

BUENOS AIRES, Argentina (AP) — You know how to say "Slide, Kelly, slide' 'in Spanish?

"Slide, Pedro, slide."

That's how.

It may be stretching the point to use this baseball phrase as a sample, but the truth is that from Tijuana to Tierr del Fuego the natives are putting bits of English to their Spanish.

The result is a jivey "Spanglish" that has saddened purists. They blame it all on what they call "el snobismo."

The creature of lightning-swift communication of new cultures, ideas and expressions, English-accented Spanish may be more than just a passing fad. It seems to be giving the mother tongue a flexibility to meet the communication needs of Latin America's younger generations.

One day in 1960, while haranguing against American influences in Cuban life, Fidel Castro suddenly — and uncharacteristically — seemed at a loss for the right word to describe the extent of counterrevolutionary activity in the country. He finally blurted out it had become a "hobby."

Because of their proximity to the United States, Cuba and Mexico are believed to have pioneered the injection of simple English expressions into the language.

Television and movies have been major vehicles in recent times.

Today there's hardly an English word that doesn't fit or gets thrown in somewhere in everday Spanish.

Some examples:

Housing — the important question to ask is how big is the "living" (room is deleted) and does the apartment come with kitchenette (spelled "quichenet" in some countries). You may be told it has an ample "hall" and that the rent can be discussed in another "interview."

Clothing — The young girl looking for a shorty negligee needs only ask for "un baby doll." Bikini is common, as are "shorts" for bathing trunks and "sweater."

Travel — The only way to go is "por jet," making certain to take "muchos travelers checks." The resort is certain to have quite a few "whiskerias" and "bar grills."

Why is this happening to Spanish?

In Argentina, at least, says a university professor, French influence is on the decline and English has become the second language. This could be true of the rest of the Americas, he added.

Junior Editors Quiz on MOON GODDESS

QUESTION: Why did the Greeks think of the moon as a goddess?

• • •

ANSWER: The ancient Greeks and Romans seem to have been so impressed by the mystery and beauty of the stars and other heavenly bodies, that they imagined them to be connected with the gods and goddesses whose worship formed their religions. Since the sun was the obvious source of light, it was natural to connect this with Apollo, the Greek god of light, who was also supposed to be skilled in music and poetry. According to some of these legends, Apollo had a twin sister, whose beauty probably suggested that she serve as goddess of the beautiful moon. This moon-goddess appears under different names. Sometimes she is Diana, the goddess of nature, wild animals and hunting, a statue of whom our artist used as material for his imaginative picture. In Greek legends, she is called Artemis, and sometimes Selene, or Mene. But when the Romans spoke of the moon goddess, they usually used the name "Luna," meaning moon. It is from this use that our silvery satellite acquired its poetical-sounding name. The same origin gives us the word "lunar," meaning connected with the moon. We speak of the lunar surface, the lunar month and so on.

• • •

FOR YOU TO DO: Some night when there is a moon, whether silver crescent or shining globe, look at it for awhile as if you didn't know any facts about it. Enjoy it for its beauty and the way it stirs your imagination. It may give you an idea of how the Greeks and Romans once felt. 4/30

Tigers To Host Cubs Here Saturday At 2

The Snyder Tigers, unbeaten through half of their District 3-AAA baseball schedule, will continue their battle for the loop title tomorrow when they host the Brownfield Cubs on the Towle Park diamond.

The Bengals, who turned back the Sweetwater Mustangs with a 5-hit shutout by Jerry Owens last Tuesday, are expected to send J. N. Wall to the mound in Saturday's game.

The locals expect to face Amalio Garcia, the Brownfield curve ball artist who hurled his team to the district title last year and then went on to earn a spot for himself on the all-state team.

The Cubs have been experiencing their troubles this year in an attempt to defend the district crown. In their latest expedition to the diamond they dropped an 8-4 decision to the Lamesa Tornadoes which dropped the Brownfield team to fourth place in the loop standing.

The Tigers, with a 6-0 won-lost record, are now 2½ games ahead of second place Lamesa, and it would be mathematically possible for them to clinch the district title with two more victories. However, that would be a big order, since second place Lamesa has suddenly leaped back into a strong position after a faltering briefly earlier in the season.

Saturday's game will get underway at 2 p.m. on the Towle Park diamond.

Little Olympians Have A Big Day

Scores of elementary school youngsters swarmed Tiger Stadium yesterday afternoon for the annual running of the Snyder Little Olympics.

Although they represent their respective schools, the Little Olympics compete solely as individuals and no point totals for teams are compiled.

Records were hard to come by in the meet, since top flight marks have been established over the years. There were no new records in the girls division, and only four in the boys division.

The new marks included a football throw of 117-6 by Morgan of West; a 6.6 50 yard dash in Group A competition by Bunch of West; a 29.5 in the Group A 220 yard relay by a West team, and a 28.0 in the Group B 220 yard relay by a West team.

Astros Fans Taking Club Seriously

HOUSTON (AP) — Some of the fans apparently are taking the Houston Astros seriously.

One has even asked for tickets to World Series games in the Domed Stadium, the team's new $31.6-million, air-conditioned, all weather structure.

A ninth-place finish is generally predicted for the Astros in the 10-team National League and they may follow the form chart but presently they are in third place, only a half game out of first. They have never finished higher than eighth in their three previous years.

They will be seeking their eighth straight victory when they open a four-game series with the Chicago Cubs tonight. The streak is the longest in the National League so far this season and the longest in the history of the Astros.

A variety of reasons have been advanced to explain the 9-6 current record of the team that never before has played .500 ball at this stage.

Some say they have simply been carried away with the elegance of their new surroundings.

Others of a more cautious nature point out the reason is barely two weeks old and, what's more, the Astros have placed only one team picked to finish higher than seventh — the Phillies — who whipped them three out of four games.

First baseman Walt Bond said the current success is due to "running."

"I mean we are running more," he said. "We are stealing bases, going from first to third on singles, stretching hits. Jim Wynn (center fielder) and Joe Morgan (second baseman) can fly. We're making people nervous."

Manager Luman Harris said he is not exactly sure what has caused the remarkable start for the club that finished a far ninth the past two years.

'But whatever it is," he added "it's wonderful."

Mrs. Jenny Rucker, who described herself as a "real fan" asked for two seats for "all the series games at the Domed Stadium."

An Astro spokesman told her since there still are 18 games to play the club will not be able to fill her request.

Last Crane Leaves Texas

WASHINGTON (AP) — The last of the non-captive whooping cranes has left their wintering grounds in Texas for the Canadian summer nesting area, the Interior Department said today.

The big black and white birds began leaving the Arnasas National Wildlife Refuge on the Gulf coast early this month.

None has been sighted thus far on their long flight to Canada, the Fish and Wildlife Service said, but it added this is not unusual.

There are 42 whoopers in the wild flock, including 10 young birds. Counts have been made regularly since 1938.

Eight of the birds are in captivity—seven at the Audubon Park Zoo in New Orleans and one at the Monte Vista National Wildlife Refuge in Colorado.

Track Team To Compete At Hobbs

The Snyder High School Track Team will get in its last competition before the state meet tomorrow at Hobbs, N. M., in a meet weighted heavily with relay events.

Coaches Jim Stehley and V. V. Shearburn had a tentative list of games mapped out this morning, but noted that these were subject to change.

Stehley is considering putting top relay strength in the medley mile, one of the features of the Hobbs meet. However, he would be reluctant to sacrifice any points if he should arrive on the scene and discover that the locals had a much better chance in the mile relay.

The medley mile is tempting because it is the only Snyder High record that has existed for a decade, and the only one on the local books that was set before Stehley became head track coach.

The SHS medley record of 3:38.3 was set in 1954 by Naxie Davis, Reagan White, Tommy Ivison and Keith Pitner.

A probable Snyder medley team would be composed of Tom Kincaid and Leon Smith on the 220 legs, Paul Tidwell on the 440 and J. B. Murphy on the 880 leg. In that case, the mile relay team tomorrow will be composed of Charlie Park, Leslie Anderson Jimmy Townsend and Murphy.

Other probable Snyder entries at Hobbs are the 440 yard relay team of Park, Kincaid, Smith and Tidwell; Anderson and Steve McMahan in the high hurdles; Ronnie Hardwick and Kincaid in the 100 yard dash; Tom Page and Jerry Kitchens in the mile run; an 880 yard relay team of Park, Kincaid, Smith and Tidwell; Teddy Brown in the 440 yard run; Anderson, McMahan and Sotero Reyes in the low hurdles; Townsend, Mike Tipping and Jerry Jackson in the 880 yard run; Jackie Rice in the pole vault; Phillip Floyd and Rice in the broad jump; Floyd and McMahan in the high jump; George Pena, Buddy Powell and Roy Taylor in the shot put; Powell and Taylor in the discus.

The Hobbs meet will be an afternoon and night affair. A dual meet between Texas Western and McMurry College will be run off simultaneously with the high school meet.

Bold Lad's Trainer Fears Stretch Runners In Derby

By KELSO STURGEON
Associated Press Sports Writer

LOUISVILLE, Ky. (AP) — There's no doubt in Bill Winfrey's mind that Bold Lad is the best horse in the Kentucky Derby, but he admits he can't stop worrying about two or three others in the field of 11 that have reputations as strong stretch runners.

"I'm not worried a bit about any speed horses in this race," the veteran trainer said. "Speed, of course, is a big factor in racing but I don't think that a horse like Flag Raiser can win it. He's just not a 1¼-mile horse.

"My concern is with the horses that will be coming from behind," Winfrey said. "I think I'm running the best horse, but . . .

"I feel as good about Bold Lad's chances as I did about Native Dancer's," he said. "The only difference in the two was that Native Dancer already had proven himself at distances up to 1⅛ miles, while Bold Lad never has won at more than one mile.

"But, as I have said before, I don't think the distance factor will make any difference,' he said.

This will be Winfrey's first Derby horse since he ran Native Dancer and Social Outcast as an entry in 1953. On that Saturday afternoon 12 years ago Native Dancer was beaten by a head by Dark Star for the only loss of his racing career.

Bold Lad was installed the 8-5 favorite for the 91st running of this historic racing classic at Churchill Downs Saturday. He will be ridden by Bill Hartack, the most successful jockey in Derby history and the man who has won this race on the last three mounts he's had in it.

With 11 starters, the Derby will have a gross value of $154,500, making it the eighth richest in history.

The winner will pick up a purse of $112,000, while $25,000 will go to the second-place finisher. Third place is worth $12,500 and fourth $5,000.

The Saturday forecast calls for fair and warm weather and the track should be lightning fast.

Post time is set for 4:45 p.m. EST., for the first jewel of the Triple Crown.

The race will be carried on national radio and television (CBS) from 4-5 p.m.

Bold Lad, running under the colors of Mrs. H. C. Phipps. Wheatley Stable, is expected to get his main competition from those stretch runners which are on Winfrey's mind.

Tom Rolfe, a bay colt from the Powhatan Stable of Raymond Guest, was listed by the official oddsmaker at Churchill Downs as the second choice at 4-1. Tom Rolfe won the Stepping Stone purse.

The third choice is Mrs. Ada L. Rice's Lucky Debonair at 5-1 while Florida Derby winner Native Charger, owned by Albert Warner, was listed at 8-1.

Another horse from which Winfrey expects trouble is Hail to All, who has been out of the money only twice in 18 starts. This bay colt, owned by Mrs. Ben Cohen, will be handled for the first time by jockey Manual Ycaza. Hail to All is listed at 10-1.

Flag Raiser, a colt with blistering speed who has won three straight stakes races, will open at 10-1. Flag Raiser is owned by Isidor Bieber and ridden by Bob Ussery.

Listed at 15-1 is Ogden Phipps' Dapper Dan, who will be handled by Milo Valenzuela. At 12-1 is Arkansas Derby winner Swift Ruler, owned by Earl Allen and ridden by Larry Spraker.

At 20-1 is Mr. Pac, owned by Mrs. Mary Keim and ridden by Jimmy Nichols. Rounding out the field at 30-1 are John W. Mecom's Narushua and Perne L. Grissom's Carpenter's Rule. Terry Dunlavy will be up on Narushua and Bill Harmatz will ride Carpenter's rule.

Hartack, who will be going for his second straight, won with Iron Liege in 1957, Venetian Way in 1960, Decidedly in 1962 and Northern Dancer. This will be Hartack's seventh Derby and a victory would tie him with Eddie Arcaro at five winning mounts.

Trojans Bow To C-City

Lincoln High's Trojans dropped a 15-6 decision to Wallace High of Colorado City in a baseball game Thursday afternoon.

Lincoln got only five hits but four of them went for extra bases. Vernon Clay got a double and a triple, while Brady Cobbs had a two - run homer.

Cobbs was the losing pitcher, giving up eight hits. Barry Campbell got a home run with nobody on for Colorado City.

Lincoln had district games with Hamlin scheduled for Thursday and Saturday of next week, but received word this morning that Hamlin will forfeit both games. That will give Lincoln a district record of three victories and four losses.

Los Angeles Angels pitcher, Bobby Locke, obtained from the Phils last October, recently received a beauty parlor operator's license in Pennsylvania, his home state.

Nicklaus' Fans Won't Give Up

By BOB MYERS
Associated Press Sports Writer

LAS VEGAS, Nev. (AP) — Arnold Palmer led the way into the second round of the $75,000 Tournament of Champions today, and to the dismay of his admirers, two-time winner Jack Nicklaus was eight long strokes back.

But as a well-known sage from West Virginia — golfer name of Sam Snead — predicted:

"When the curtain comes down, Nicklaus will be there — with his hand out."

The 52-year-old Snead, sitting in the press tent, reflected a moment, looked out at what he calls "those flippity-wristed kids" on the practice tee, and continued:

"Maybe Nicklaus had a bad night the night before, maybe the colic. He putts too good and hits too good. He'll be around at the finish."

Colic or whatever, Nicklaus had a first-round 74 and got only one birdie, and that belatedly at the 15th hole.

And Palmer, meanwhile, escaped the putting miseries that have baffled him for a year and shot a six-under-par 66.

Sunny weather — it was a high 90 Thursday — was promised as the field of 26 resumed play over the 7,209-yard, par 36-36—72 Desert Inn Country Club course.

Two strokes back of Palmer were Snead, who had only one disastrous hole; Bill Casper Jr., and young Dick Sikes.

Bruce Crampton, Chuck Courtney, George Knudson, Rod Funseth and Doug Sanders were tied at 69, and Bob Charles, Paul Harney and Chi Chi Rodriguez were deadlocked at 70.

Nicklaus, the 5-2 betting favorite to win the event for the third straight time, beat only one golfer in the initial round. Pete Brown of Los Angeles had a 78, along with a muscle spasm in the back that might put him out of action.

"That's the best I've putted in a year," said Palmer, who hasn't won a tournament in a year. He needed only 26 putts for the round.

What's the catch?
There isn't any.

Plunk $1691 into a salesman's hand and he'll plunk you into the seat of a new 1965 Volkswagen Deluxe Sedan. (Give him $30 more, and you'll be plunked into a Volkswagen with matching leatherette upholstery.)

Of course, you'll have to buy license plates and pay local tax. But that is it.

Sound a little too simple? Perhaps: But then the Volkswagen is a simple little car.

This Sunday is known as Good Shepherd Sunday. The title is derived from the selections of Holy Scriptures appointed to be read for the 2nd Sunday after Easter. The Epistle (1 Peter 2:19-25) concludes with the words, "for ye were as sheep going astray; but are now returned into the Shepherd and Bishop of your souls." The Gospel (St. John 10:11-16) is the beautiful passage of St. John where our Lord says, "I am the good shepherd: the good shepherd giveth his life for the sheep."

The thought of our Lord as the Good Shepherd is a natural one in Eastertide, when we have been thinking of Him as the Lamb of God, sacrificed as our Passover.

Be still

"Behold the kingdom of God is within you." St. Luke 17:21.

When not self seeking a jasper throne,
—that walks in love has been
Yet known
As a garden of light not set apart
But open to others within his heart.
Yet the way of self pity one can tell
Just opens into a personal hell.

Airman Commended For Reporting Error

A1C Norman G. Spurlock, son of Mrs. Willie Spurlock of Snyder, who is stationed at the Kanto Base Command in Japan, has been commended by his commanding officer and the base commander.

Airman Spurlock was commended for his "consideration for his fellow man after he had reported a $5 mistake in his favor after shopping at a base exchange. A Japanese clerk, who had come up $5 short had already made up the shortage out of his own funds when Airman Spurlock reported the error.

Those commending the airman said that his action reflected credit not only on the Airman but on his family as well.

Calls Lad's Recovery A Miracle

FORT WORTH (AP)— Something more than human medical skill enabled a 3-year-old Fort Worth boy to survive a shot through his brain, his doctor said Thursday.

It was six months ago that the youngster, Richard Baker, found a derringer, put the gun to his forehead and pulled the trigger.

"He was dead when I picked him up," the father, James Baker, recalled.

Baker said the child wasn't breathing and had no heartbeat when he scooped him up and ran out the door shouting for help.

On the way to the hospital the father remembered something he once saw a doctor do for the victim of a heart attack.

"I hit him on the side away from his heart as hard as I could," Baker said. "He gasped and started breathing and I could feel his heart beating."

Surgery was performed but doctors said even if the little boy lived, he would be a "human vegetable" because of brain damage.

Richard proved the doctors wrong. There are only two signs of the accident now—a slight dent in his forehead and a lack of control in his left leg which therapy is expected to restore.

Surgeons found the bullet followed a natural groove between the brain's hemispheres at the top of the head and thus failed to inflict lethal damage.

"There is no doubt about it —it is a miracle,' said the Bakers' doctor.

School In Andrews Is Destroyed

ANDREWS, Tex. (AP)—Nearly 100 firemen battled more than four hours Thursday night to control a stubborn blaze which destroyed the Devonian Elementary School in this West Texas oil town.

School Supt. T. A. Roach said the one-story building and equipment cost $573,000 and insurance covered 90 per cent of the loss. It was erected in 1957.

Low pressure hampered the firefighters, forcing them to haul water from neighboring towns They finally quenched the flames with chemicals supplied by oil well servicing firms.

Firemen from Odessa and Seminole joined in the battle.

Investigators said the cause had not been determined but they suspected a faulty electrical circuit.

ANCHORED

Do you have an anchor? Ships without anchors will drift. *People without anchors will drift too.* Do you know where to drop your anchor? Can you say, *"My heart is fixed trusting in the Lord?"* Psalms 112:7. Are you an anchor holding family and friends together? Is your anchor imbedded deeply in truth and righteousness? Phil. 1:28.

Every man must answer to God and to his own conscience. *The sins we do by two and two; we must answer for one by one.* If God holds your soul, your feet will never be moved, Psalms 66:9. Do right though the Heavens fall. Be true even if all others are false. The Church, the Bible and daily prayer are sure anchors for every man.
