TUESDAY

THE SNYDER DAILY NEWS

VOL. 15, NO. 136 — SNYDER, TEXAS (79549) TUESDAY, OCTOBER 6, 1964 — TEN PAGES—PRICE 5¢

ABOUT 100 AIR TOURISTS walked the gold carpet and were welcomed to Snyder by the gold-coated Producers Club members this morning when they stopped here on the All-Texas Air Tour. J. C. Madwell of Palestine is shown being greeted. In addition to visitors from Texas, some of the tourists were from such points as New York, Indiana, Kansas and California. The airplanes left here at about 10:30 to go to Quanah. Today they will also visit Wichita Falls, Graham, Cleburn, and will spend the night at the Inn of the Six Flags in Arlington.

Auto-Labor Settlement Goes Slow

DETROIT (AP) —Slow progress was reported today in efforts to end a nationwide strike against General Motors Corp., despite tentative agreement on national contract terms with the United Auto Workers Union.

Only two new local level working agreements were thrashed out in the first 24 hours following announcement Monday that principals had reached understanding on economic and non-economic national issues.

The two settlements came at a Fisher body plant at Framinghain, Mass., and the Allison factory at Indianapolis.

This left unresolved 115 of 130 local-level working agreements which supplement the national contract. Workers are staying out to back up demands in these.

Both sides expressed hope everything could be wrapped up in a week, but neither predicted it would be.

Final settlement would send back to their jobs 280,000 of General Motors' 350,000 UAW-represented workers who were called out on strike 12 days ago to support the union's national-level demands. They remain out to back up at-the-plant union goals.

President Johnson said in Washington Monday night he was pleased that GM and the UAW have settled nationally and also was pleased with previous announcements by the Big Three auto makers — GM, Ford and Chrysler — they planned generally to maintain 1964 prices for 1965 models.

Chrysler and Ford reached virtual parallel agreements with the UAW ahead of General Motors. UAW President Walter P. Reuther estimated they were worth 54 cents hourly over their three-year lives.

US Military Attaches Accused Of Espionage

By HENRY S. BRADSHER

MOSCOW (AP) — The Soviet Union today accused three U.S. military attaches and a British attache of espionage in Siberia but the American Embassy rejected the charge.

The Soviet accusation "was not responsive to our serious protests against the violations of diplomatic immunity" of the attaches, the U.S. Embassy said, referring to an earlier protest that property of the attaches was seized.

The Foreign Ministry said it rejected the American and British protests.

The Soviet protest was made public a day after Washington and London announced protests against what they called "flagrant violation" of the attaches' diplomatic immunity.

In the Soviet far eastern city of Khabarovsk Sept. 28-29 Soviet government officials "forcibly entered" the attaches' rooms and seized some of their property, the Western statements said.

The Soviet protest said more than 900 pictures, material in 26 notebooks and other materials showed that the attaches were "grossly violating the universally accepted standards of conduct of foreign diplomats."

The four are Lt. Cmdr. Nigel N. Laville, assistant British naval attache in Moscow; Lt. Col. Karl R. Liewer, assistant American military attache; Col. George A. Aubrey, the American military attache; and Maj. James F. Smith, an assistant American air attache.

According to the U.S. State Department report, the men, on a train trip through Siberia, had taken two hotel rooms in Khabarovsk.

A group of 15 Soviet officials "forcibly entered" and "forcibly searched" the two rooms. The Russians took away some of their belongings, including a wristwatch. The incident lasted approximately four hours.

The Soviet note said it was established that the attaches were violating Soviet rules for foreign missions.

The attaches went by train from Moscow to the Pacific coast of the Soviet Union, then went by ship to Tokyo, and flew today to Hong Kong. They were scheduled to return to Moscow via New Delhi, India, within the next few days.

The Soviet note said the Foreign Ministry "reserves the right to return to the question of the possibility of the further stay in the Soviet Union" of the four.

In past cases of Soviet accusations that Western military attaches have engaged in espionage, the men have been declared persona non grata and forced to leave the Soviet Union.

The Foreign Ministry said the four attaches were engaged in intelligence activities that were incompatible with their diplomatic status.

A statement issued by the American Embassy after the Soviet news agency distributed the note said it was given to Malcolm Toon, acting deputy chief of mission, this morning. Thomas Brimelow, No. 2 man of the British Embassy, got a similar note.

"The U.S. Embassy representative did not accept the validity of the Soviet charges and pointed out that the Soviet note was not responsive to our serious protest against the violation of diplomatic immunity," the statement said.

Paper Says LBJ Cinch—Like Dewey

NEW YORK (AP) — The New York Times said today that exactly four weeks before Election Day Nov. 3, President Johnson is the most overwhelming choice to win the presidency since Thomas E. Dewey at the same stage of the 1948 campaign.

"Therein may lie a warning to the Democrats," the story said, adding:

"Yet, even Mr. Dewey never enjoyed the kind of lead that every reliable indicator now gives Mr. Johnson — and Mr. Dewey's upset by Harry S. Truman was a tame event compared with the shock that would hit political analysts, poll-takers and party officials if Sen. Barry Goldwater were to manage a victory this year."

The Times said: "Even the established gambling odds support the conclusions of the study. The latest established national betting line is 7 to 1 on Mr. Johnson."

The Times said that many analysts, despite the polls and the atmosphere of Democratic victory are reluctant to predict flatly a landslide for Johnson; many believe that in the remaining weeks of the campaign Goldwater may gain ground.

The story reported the situation that emerges from reports of Times correspondents, from a study of voter polls and from other data concerning 49 states and the District of Columbia. It said no extensive reports from Alaska were available.

Humphrey In Controversy Over Speech

ST. LOUIS, Mo. (AP)—Sen. Hubert H. Humphrey, thrust into a controversy over a planned speech to a Roman Catholic organization, arrived today amid preparations for the World Series.

The Democratic vice presidential candidate was to address the National Conference of Catholic Charities here today. He has been criticized for "putting the conference in the position of being used as a political platform."

Humphrey's chartered airliner, "The Happy Warrior," landed about an hour before the scheduled arrival of the New York Yankees, who will open the World Series here Wednesday with the St. Louis Cardinals.

DAN EDDY
... To Kick Off United Fund Campaign

United Fund Drive Starts Wednesday

All workers and officers of the 1964 Scurry County United Fund will officially start the general solicitations Wednesday following the kick-off luncheon.

Speaking at the luncheon will be Dan Eddy, Salvation Army executive from Dallas. Eddy, who is a popular speaker, is in constant demand as a speaker for chamber of commerce functions.

Eddy is presently Service Unit Director, Director of Public Relations, Campaign Director, and Associate Disaster Director for the Texas Division of the Salvation Army.

A native of Dallas, he was educated in the Dallas schools, the University of Texas and Southern Methodist University. Eddy was honored in 1954 by the Dallas Junior Chamber of Commerce as Dallas' "Man of the Year"; by the Oak Cliff Chamber of Commerce in 1955 as a "Man of the Month"; and also in 1955 by the Texas Junior Chamber of Commerce as one of the "Five Outstanding Young Texans."

During his work with the Salvation Army Eddy served in Mexico as a counsellor in public relations and fund raising, resulting in successfully establishing the Salvation Army in that country.

The speaker has directed or supervised more than 1,200 financial campaigns, and has aided in the organization of 92 Community Chests and United Funds, including the Scurry County United Fund.

Bill Seale, campaign chairman of the local drive, has urged all United Fund volunteers who can possibly do so, to hear Eddy when he speaks at the noon luncheon Wednesday at the Snyder Country Club.

In addition to Eddy's talk, other suggestions and instructions for the campaign workers will be given.

The United Fund this year has set a goal of $32,500. Sharing in this total are the Boy Scouts, Girl Scouts, Boys' Club, Salvation Army, Red Cross, and the Texas United Fund.

Seale said that since this was the first time in several years that the campaign will be held without the services of a paid executive director, he felt sure that everyone would make that extra effort to see that the 1964 campaign is a success.

WEATHER

SNYDER TEMPERATURES: High Monday [illegible] low [illegible] reading at 7 a.m. today [illegible] degrees.

North and Northeast Texas: Fair today and Wednesday, a little warmer late Wednesday. Low tonight 42 to 54. High Wednesday 73 to 82.

Northwest Texas: Fair and a little warmer today and Wednesday. Low tonight 48 to 55. High Wednesday 74 to 82.

Coast: Northeast winds 10 to 20 knots today, becoming variable mostly easterly 5 to 15 knots tonight and Wednesday.

South Central and Southeast Texas: Fair today and Wednesday, little warmer in afternoons. Cool tonight with lows 42 to 58. High Wednesday 75 to 86 except 75 to 82 in Southeast.

Southwest Texas: Fair and a little [illegible] Wednesday. Low tonight 42 to 54. High Wednesday 78 to 86.

Actress Mae West Hospitalized Again

HOLLYWOOD (AP) — Actress Mae West is back in Cedars of Lebanon Hospital, apparently still suffering from exhaustion.

The 69-year-old actress entered the hospital last month. At that time, the hospital said she was suffering from exhaustion. She was discharged last Wednesday but returned to the hospital three days later.

Calif. Buys That Place

HELL, Calif. (AP) — Hell didn't get into the datelines very often and this may be the last time you'll see it.

Hell has been bought by the state of California because it was cheaper to acquire its 300 acres and service station — for $75,000 — than to build an overpass for a freeway extension.

So Hell is going to be paved, with asphalt and good intentions.

One of Hell's claims to fame was that so many traffic accidents occurred in the vicinity. With no towns and virtually no crossroads, this strip of Highway 60 became a noted speedway.

Hell is — or was — about 50 miles west of the Arizona border in the Colorado desert. Charles Carr founded the town, consisting of a service station and his home, 10 years ago.

Daytime summer temperatures in Hell are well above 100 degrees and there are few places in the country that are hotter than —.

Court Opens Hearings On Civil Rights

By CARL P. LEUBSDORF

WASHINGTON (AP) — The Supreme Court opened its new term hearing arguments on two challenges to the constitutionality of a key section of the 1964 Civil Rights Act.

Dispensing quickly with opening-day formalities Monday the high court heard four hours of debate on the two cases. Both involve the section of the law which prohibits discrimination in such public accommodations as hotels, motels and restaurants.

One case was brought by the Heart of Atlanta Motel; the other, by Ollie's Barbecue, a Birmingham, Ala., restaurant.

The court gave no indication of when it may decide the cases. It called for additional, written arguments from the two sides within 10 days.

The public accommodations section is one of two whose constitutionality was questioned by Republican presidential nominee Barry Goldwater in explaining his Senate vote against the rights bill. President Johnson's administration considers passage of the law one of its prime legislative accomplishments.

Moreton Rolleston Jr., owner of the Heart of Atlanta Motel who acted as his own attorney, told the court that unless it declares the law unconstitutional, "there is no end" to how far Congress will invade personal liberties.

Rolleston challenged Congress' constitutional right to ban restaurant, hotel and motel discrimination under its powers to regulate interstate commerce.

"People are not commerce," he argued. He denounced as "hogwash" Justice Department contentions that the measure is aimed at relieving the burden on interstate commerce.

Justice Hugo L. Black asked Rolleston how he could say interstate commerce is not involved since Negroes can find no motel accommodations in travels through the South. The attorney replied that after the Heart of Atlanta was ordered to admit Negroes, only three went there during August.

Solicitor General Archibald Cox arguing for the government, said Congress has the power to regulate even local activities when a burden is placed on interstate commerce.

In the Birmingham case, attorney Robert McD. Smith contended that the provision of the public accommodations section dealing with restaurants was irrational, saying it holds that foods once purchased in interstate commerce have an eventual serious effect on that commerce.

Ollie's concedes it is in violation of the law as worded but contends it is not in interstate commerce. The restaurant, owned by Ollie McClung Sr., and his son Ollie Jr., is located several blocks from the nearest interstate route.

Politics Delaying Baker Hearing, Says Bill Miller

By CHARLES DUMAS

WILMINGTON, N.C. (AP) — Rep. William E. Miller said today the chairman of the Senate Rules Committee put off new hearings in the Bobby Baker case because he did not want to turn up anything that might "in any way damage the political position of his good friend, Lyndon Johnson."

Opening a campaign swing in the South, the Republican vice presidential nominee hit at Johnson's former association with Baker and criticized Democratic Sen. B. Everett Jordan in his home state of North Carolina.

In his travels today Miller crossed campaign trails with the President's whistle-stopping wife, Lady Bird Johnson, who planned several appearances in North Carolina later in the day.

The New York congressman noted that Jordan had postponed a hearing in the Baker case Monday and was traveling on Mrs. Johnson's campaign train today.

"No longer can there be the slightest doubt," he declared, "That the Senate Rules Committee 'investigation' of the Bobby Baker case is an absolute fraud on the American people."

In a statement handed to reporters as he arrived at Wilmington, Miller said that, instead of "pursuing an inquiry which would have embarassed the Johnson Democrats and implicated the President," Jordan was taking a week off to campaign for Johnson.

Miller planned to hit hard at the Baker issue during his foray into North Carolina, largely because Baker is a native of Pickens in neighboring South Carolina.

Senator Neuberger And Cat Evicted

PORTLAND, Ore., (AP) — A half-Manx tabby cat which once dined at Chicago's famous Palmer House Hotel with Adlai E. Stevenson, was evicted from a Portland apartment with its owner, Sen. Maurine Neuberger, D-Ore.

Sen. Neuberger said Monday that she had rented the apartment in advance, but when the operators saw her 11-year-old cat, Muffet, they introduced a previously unstated policy: no pets.

Sen. Neuberger moved to another apartment for her West Coast stay.

Security Tight For Royal Visit

By MAX HARRELSON

CHARLOTTETOWN, P.E.I. (AP) — The royal yacht Britannia cruised slowly toward Prince Edward Island's capital today, bringing Queen Elizabeth II for a crowded program of public appearances at the start of her controversial Canadian tour.

The Britannia was to dock in Charlottetown harbor shortly before noon after a trip from Summerside, 45 miles away. The queen arrived by jet plane Monday at the Summerside Royal Canadian Air Force base for her fourth visit to Canada.

She was welcomed by Governor-General Georges Vanier and Prime Minister Lester B. Pearson, but guests at the brief air base ceremonies were by invitation only and consisted mainly of local dignitaries, air force personnel and their families.

Although the queen was probably not aware of it, the base was sealed off by tight security checks. All newsmen entering the gates had to show credentials and were stopped by security officers inside. Armed air force personnel watched from the roof of the huge hangar where the queen was greeted. Police cars cruised adjoining roads.

Crowds lined the streets of Summerside as the queen and her husband, Prince Philip, drove in a closed limousine to board the Britannia. At the dock mounted police guards in khaki coveralls patrolled in the background, with a police dog on a tight chain.

Authorities are primarily concerned over the Quebec segment of the queen's visit, which will [illegible] this city of 20,000. But they were taking no chances even in this friendly maritime province.

Extra measures are being taken in Quebec because of threats of violence from French-speaking advocates of independence for Quebec.

The queen's program included a 19 - minute drive through downtown Charlottetown. For security reasons the authorities ruled out an open car.

AS NATIONS PONDER

Tshombe Under House Arrest

CAIRO (AP) — Leaders of the nonaligned nations meeting in Cairo decided unanimously today to exclude Premier Moise Tshombe of the Congo, who was under virtual house arrest in a suburban palace.

They declared it would be inopportune for the controversial Congolese leader to take part in their conference, though they would welcome his chief, President Joseph Kasavubu.

A delegation carried the statement to the walled Aruba Palace in Heliopolis, to which Tshombe was escorted when he flew in from Athens, Greece, before dawn as an unwanted guest.

A cordon of Egyptian police guarded the palace.

Tshombe was visited this morning by Mohamed Faik, director of African affairs in President Gamal Abdel Nasser's office. Faik told Tshombe he would not be permitted to leave the palace, except to leave the country, before the conference reached a decision.

Tshomb's doctor said a report that Tshombe's health papers were not in order and he might have to stay under quarantine was ridiculous. The doctor said the premier's health certificate was in perfect order and necessary vaccinations and inoculations were up to date.

A majority of the conference members, over some opposition, first tried to dicourage Tshombe from coming by asking Congo President Joseph Kasavubu to come in his place.

When Tshombe persisted, Cairo Airport early Monday refused his charter jet permission to land and shunted it on to Athens.

But at 3 a.m. today, followed by an entourage of 20 persons, Tshombe stepped jauntily off a scheduled Ethiopian Airlines flight from Athens and into a scene of embarrassed confusion at the airport in suburban Heliopolis.

Many African leaders distrust him as a creature of white imperialists and accuse him of the murder of the Congo's first premier, leftist Patrice Lumumba.

They say his presence at the conference would sidetrack it from the main issues — talk of peaceful coexistence, colonialism, foreign bases and the economic buildup of the underdeveloped nations.

Lady Bird Starts Whistlestop Tour

By FRANCES LEWINE

ABOARD LADYBIRD SPECIAL (AP) — Mrs. Lyndon B. Johnson launched a Southern whistlestop tour today with a quotation from Robert E. Lee and urged Virginians to forget differences over civil rights and seek a unified nation.

With President Johnson at her side, the First Lady recalled to a crowd at her first stop in Alexandria, Va. — not far from Lee's Arlington home — the advice of the Confederate general to Southerners after the Civil War to "abandon all these local animosities and make your sons Americans."

To this, Mrs. Johnson added her own advice, urging fellow Southerners to seek "the ties that bind us together, not settle for the tensions that tend to divide us."

The President climbed aboard the Ladybird Special for the start of his wife's 1,682-mile foray into the South and rode with her to the first stop just across the Potomac River.

Later in the day Johnson flies to Raleigh, N.C., to meet a speechmaking date of his own and join his wife on the first overnight stop of her tour. He will campaign Wednesday in Iowa and Illinois.

Several thousand persons swarmed alongside the train at Alexandria. The crowd was enthusiastic and noisy, but there were a few unfriendly signs.

There were also a few Goldwater signs. But any heckling was drowned out by friendly cheers.

The President briefly outlined his own plans for campaigning in the next four days, spoke pridefully of the record of the past four years of Democratic administration and said he will do his campaigning "without tearing down any person to do it."

Johnson, who spoke only briefly, stood beside his wife as she delivered her first campaign speech.

Mrs. Johnson read the speech slowly and precisely, and received a warm response from the crowd. But her biggest cheer came when she introduced "the speaker in our family" — the President.

"I want to tell you from Alexandria to New Orleans that to this President and his wife the South is a respected and valued and beloved part of this country," Mrs. Johnson said in her prepared speech.

The First Lady pointed out that "the hard duty of assuring equal and constitutional rights to all Americans falls not only on the President of the United States but upon all who love this land."

Mrs. Johnson, born in Karnack, Tex., declared her own deep pride and love of the South. She talked of old customs, a special brand of gentility and courtesy, new economic growth, and a long line of famous statesmen, including 12 presidents and 15 secretaries of state from Thomas Jefferson to Dean Rusk.

She said she has always believed there is "more love than hate" in the South and was convinced of it by the way the passage of the equal rights law was received.

Flood Threat Mounts In Louisiana

By ROBERT ROWAND

NEW ORLEANS, La. (AP) — Louisiana, hit by its worst hurricane in seven years, stepped up efforts to return to normal today even while flood threats mounted.

Gov. John McKeithen flew on an inspection tour of several devastated areas Monday and described what he saw as "a terrible disaster."

Hurricane Hilda moved up through the Gulf of Mexico and struck Louisiana's coast Saturday. Hilda and the vicious tornadoes she set off killed 36 persons.

Damages may run to $100 million.

Hilda's might wore out over Louisiana. After colliding with a cold front over Georgia and the Carolinas, it pushed out into the Atlantic Ocean.

Repair crews fanned out over Louisiana to fix electric, gas, sewage, water and communication lines knocked out by the storm. Insurance companies beefed up their claims offices. Farmers began salvaging what was left of their crops. Stricken residents returned to their homes, — or what was left of them — to clean up debris.

While all this was going on, hundreds were forced to evacuate their homes in the Baton Rouge area because of rising waters in the Amite and Comite river basins. Officials expected them to crest three to six feet above flood stage today.

President Johnson earmarked $1 million in emergency funds for hurricane disaster relief in Louisiana.

The Small Business Administration designated all sections of Louisiana, Mississippi and Alabama hit by the winds and floods as disaster area.

McKeithen arrived at Larose as funeral services were starting for some of the 21 persons killed by a tornado which demolished or damaged about 70 homes.

State Rep. Richard Guidry of Lafourche Parish estimated the Larose damage at more than $4 million.

The governor also stopped at Erath where the storm knocked over a huge water tower onto the city hall, killing eight civil defense workers inside the building.

Rep. Hale Boggs, D.La., said 36 parishes were declared eligible for emergency aid.

He said steps were under way to provide experienced labor from Puerto Rico, Jamaica and the British West Indies to hand-harvest the downed sugar cane crop.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: I am 21 and my boy friend is 23. We both work and are saving for a spring wedding. We have gone steady for ten months and dated a year before that so we know each other pretty well. Recently "Tom" began telling me that he was playing cards with the fellows at night, so I took baby-sitting jobs while he went out. A few days ago I foundout that he had been seeing another girl. I gave him back his ring. He begged and pleaded and said he didn't know what made him go out on me. He wants a second chance. Should I take him back and maybe find out he still cheats after we are married?

DISTURBED

DEAR DISTURBED: If you have any doubts about his ability to keep his marriage vows, don't marry him! Forewarned is forearmed.

* * *

DEAR ABBY: My wife and I recently moved to California from New York State. We bought a nice little home in the San Fernando Valley. Most of our neighbors are about our age (30ish), but right next door lives a retired older couple. Whenever I am outside doing anything in the yard, the man comes out to "help" me. He is a pleasant, but talkative, guy and an expert on everything. Gardening, building, repairing. Name it, and he has the tools and the know-how. He saw me building a wall for our barbecue pit and he ran right out and took over. Every time I got to work on it, he came out to "help" me. He finally finished the job while I sat on the ground like a moron. How can I let him know that some people do things for the exercise and enjoyment of it, and not just to get them finished? I wouldn't want to hurt his feelings. He is old enough to be my father.

NEWCOMER

DEAR NEWCOMER: And perhaps someone ought to let YOU know that some people "offer to be..." not because they want to see the job done, but because they are lonely and want company. Be firm, but kind, in your refusal to let him take over, but let him hang around and talk because that's probably all he wants. (P. S. One day, YOU may retire.)

* * *

DEAR ABBY: We have a dear little girl who was horribly disfigured through an unfortunate accident. We plan to have plastic surgery done on her face as soon as the doctor advises that she is ready for it. Lately she becomes hysterical at the mere mention of returning to school. It will be her second year. Her first was tragic because very young children just do not understand, and they made fun of her. What shall I do, Miss Abby? It is a very fine, modern public school with a staff of just wonderful and efficient teachers. I hesitate to complain about the children, but our little girl is our first consideration. Should I talk with the principal? How would I go about it?

MRS. LILLIAN S.

DEAR MRS. S.: You should discuss your problem with the principal right away. And if a psychiatrist is available, you (and the child) should get help in coping with it. The child's emotional scars need treatment just as the disfigurement does.

Javits Undecided On Election Choice

SYRACUSE, N.Y. (AP) — Sen. Jacob K. Javits, R-N.Y., says he has not decided how he will cast his ballot in the presidential election but "I am not going to leave it blank."

"I cannot and do not support the Goldwater ticket for election," Javits told Syracuse University students Monday night. He added: "I am not prepared to support President Johnson."

He said that, if election results do not show a "great rank-and-file support" of Sen. Barry Goldwater's position, "there will be a great effort by the moderates to win back the (Republican) party and I will be part of that effort."

Firemen Extinguish Blazing Tank Truck

The Snyder fire department was called out at 5 o'clock Monday afternoon to extinguish a gasoline transport truck.

The truck, which is leased to Western Transport Co. of Ft. Worth, was reportedly unloading into some tanks at scene of the four-lane highway construction 13 miles north of Snyder when the fire started. The driver moved the burning truck away from the storage tanks.

Both the cab and the tank-trailer were damaged heavily.

Says Navy's Gun-Power Deficient

By FRED S. HOFFMAN

WASHINGTON (AP) — The nation's top Marine said today there is "a deficiency" of naval gunfire to support over-the-beach landings and "remedial action is essential."

Gen. Wallace M. Greene Jr., Marine Corps commandant, discussed what he called a "gun gap" with The Associated Press following indications that the Navy is studying how to beef up its shore bombardment capability.

Not much has been said publicly, but both the Marines and the Navy amphibious forces have been concerned for some time that that capability has been reduced by the switch from conventional guns to missiles in the armaments of many warships since World War II and Korea.

In a little-noticed passage of a recent speech, Greene said "the days of the 16-inch guns of the battleships are gone."

"Missiles have largely replaced the guns of the cruisers and destroyers," he said.

"Progress is being made in this area but it is slow, and we are anxious to have what could some day be a serious deficiency corrected before it becomes a serious reality."

Youth Identified In Police Lineup

FORT WORTH (AP)—Sheriff Lon Evans said Monday that a woman has pointed out Charles Roy Hefley, 16, as the individual who shot at her Aug. 26 after trying to halt her car.

Hefley has admitted raping Mrs. Carolyn Adams and drowning her two baby sons in the Trinity River here Sept. 10. Mrs. Adams was stabbed and beaten, losing an eye in the attack.

Guilty Pleas Heard

Joe Lewis Carrisales and Lusiana Rodriquez pleaded guilty this morning in county court to a charge of malicious mischief.

The pair was accused of slashing the tires on a car owned by Adam (John) Vila.

Each received a sentence of six days in jail and was assessed court costs of $26.35.

CORONET 550 2-DOOR HARDTOP

For those of you who are undecided between the comfort of a full-size car and the savings of a compact, congratulations. You've done it again. Talked Dodge into a brand-new car that's just your meat. Coronet. As much stretch-out room inside as a lot of cars that cost a lot more. Easy to drive, easy to park, and easier to own than any full-size Dodge in years. If you buy a car on style, take a look. If you buy a car on value, take a list. Coronet gives you a choice of 7 engines, bench or bucket seats, console, four-on-the-floor, sedans, wagons, convertibles, and hardtops. Any one will give you more than enough room and plenty of action. Unlimited taste? Limited budget? Dodge that problem with Coronet. The hot new Dodge at a new lower price.

Dodge comes on big for '65. Dart • Coronet • Polara • Custom 880 • Monaco.

4-H CLUB WEEK—Linda Wiggins, chairman of the county-wide 4-H committee watches as Mr. Marion Dabbs, county commissioner of Precinct 1 signs a proclamation naming Oct. 5-11 County 4-H Club Week. Mr. Dabbs acted in the absence of the County Judge, who was out-of-town.

Proclamation Signed For 4-H Week

OFFICIAL MEMORANDUM
BY
MARION DABBS
COUNTY COMMISSIONER
ACTING IN THE ABSENCE
OF THE COUNTY JUDGE
SNYDER, TEXAS

GREETINGS:

The development of responsible citizens and leaders for America is a high purpose in 4-H Club work.

The 4-H program stresses the four-fold development of Head, Heart, Hands and Health as well as teaching the latest practices in Agriculture and Home Economics.

Since the 4-H program was inaugurated by the United States government in 1914, the 4-H movement has spread across our nation and built bridges of understanding to more than 76 foreign countries. Members of 4-H Clubs learn by conducting projects and participating in 4-H activities. By putting into action what they learn, club members improve their homes and communities.

More than 16,000 voluntary adult leaders working with club members provide a key to the success of 4-H in Texas. Parents and Friends of 4-H give support and encouragement to club members. The Agricultural Extension Service of Texas A&M University, through county Extension agents, directs the 4-H Club Program.

The opportunities offered to 4-H Club members to grow in citizenship, leadership and practical skills are especially valuable to them, the State of Texas and the Nation. The 4-H Clubs are a proving ground for the training of future leaders.

THEREFORE, I, Marian Dabbs, County Commissioner, acting in the absence of the County Judge, do hereby designate the period of October 5 - October 11, 1964, as

4-H CLUB WEEK
in Scurry County

In official recognition whereof, I hereby affix my signature this 5th day of October, 1964.

(S) Marian Dabbs
County Commissioner, acting in the absence of the County Judge.

WOMEN

WOMEN'S CALENDAR

TUESDAY

Art Guild Study Club, 7:30 p.m. at Martha Ann Woman's Club with Mabel Brock, hostess.

W. W. Club meets at 7 p.m. with Neva Greenfield, 4012 Avenue S.

SUNDAY

Buffet luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 5 p.m. Saturday.

Beef Brisket Is Popular

Brisket is popular among men folk because its very tasty and tender, too, when cooked slowly.

Brisket may be purchased fresh or corned. The latter process deepens the color so the brisket of corned beef is a bright pink when cooked. Fresh brisket is braised or cooked in water while corned brisket (corned beef) is cooked in water. If there are leftovers, it's wonderful for sandwiches.

School Menu

WEDNESDAY

STABBED AS HUNDREDS WATCH—Joseph Zaia, 28, winces as he receives first aid for stab wounds from his wife, Sandra, 26, in print dress, a policeman and passersby in New York's Times Square. Hundreds watched, but offered no aid to Zaia, as he was repeatedly stabbed by an assailant who had tried to force his attentions on his wife. Zaia, who was stabbed at least five times in the neck, chest and abdomen, was reported in fair condition by hospital officials. The couple live in the Queens section of New York. (AP Wirephoto)

Ecumenical Council OKs New Program Of Meets

VATICAN CITY (AP) — The Vatican Ecumenical Council voted approval today of an unprecedented new program of common prayer and public meetings between Roman Catholics and other Christians.

The council, a gathering of Catholic prelates from around the world, agreed that Catholics everywhere must undergo a "conversion of heart" toward others to further the goal on Christian unity.

Council fathers meeting in St. Peter's Basilica also approved a declaration that the church must be ready to reaffirm itself where errors may have occurred, and another declaration that Catholic teachings — both for priests and laymen — must conform to the principles of the Christian unity movement "to keep minds open to others."

Approval of these measures came in voting on the second chapter of the schema 'de oecumenismo" (on unity), a fundamental goal of the council.

Passage of the provisions in the chapter, the second of three in the schema, was another major triumph for forces within the church working to overcome the barriers that have divided Christians for centuries.

The first chapter, which outlines principles of unity, was approved Monday 1,926 to 300 with 200 others in favor with reservations. That chapter states that the church must share in responsibility for the discords that have split the Christian world.

The provisions and votes today were:

—Unity is a matter of concern for the whole church, and the church must be ready for self-reform where necessary. 2,120 to 46.

—Catholics must undergo a conversion of heart. Unless a new mental attitude to remove suspicions and misconceptions occurs, the ecumenism movement will not make great progress. All Catholics 'in some way have responsibility for the sins of disunity." 2,076 to 92.

—There is "absolute need" for public and private prayer for Christian unity and the possibility of common prayer with the separated brethren. 1,872 to 292.

—Catholic training must conform to unity principles and Catholics should cooperate with Orthodox, Protestants and Anglicans in all fields of public life to give "a common Christian witness to the world. 2,099 to 62.

The proposal for common prayer in itself represented a giant step forward toward better inter-Christian relations.

Pope Paul VI, in his meeting both this year and last with the non-Catholic observers at the council, said the "our father" prayer with them. Catholics and non-Catholics at unity meetings elsewhere have joined in this prayer.

But never before has the church gone on record as officially approving a program of common prayer.

It would be left to the various national bishops conferences to decide when, how and in what circumstances there could be common prayers between Catholics and other Christians in their countries.

The chapter also calls for more public meetings "on an equal footing" between Catholics and non-Catholic Christians — Protestants, Anglicans and Orthodox — to pursue the dialogue for closer mutual understanding and respect.

Irate Mom Gets Revenge

By EDDY GILMORE

LONDON (AP) — A mother took a long, hard look at the new tattoo marks on her 14-year-old son's arm, then went out and smashed the tattooist's windows.

"I don't particularly like what I did, but young boys must be protected," said Louise Stone, 40.

"I did what every mother should do if she found her son marked for life."

Mrs. Stone pleaded guilty Monday to a charge of willful damage to property and was fined $56.

She told the court:

"It's wrong that a tattoist should be able to disfigure children the age of my son John. I broke the windows to draw attention to the wrong."

She said John is "terribly humiliated" at what she did, but "the humiliation is his punishment."

The tattoo pattern showed a pirate gripping a sword between his teeth. Mrs. Stone said she hoped to have it removed by plastic surgery, paid for by the government's National Health Service.

Male tarantulas mature at about nine years, females at 10. The male dies soon after mating, but the female often lives 20 to 30 years.

In 1905, a mine superintendent in South Africa noticed a glimmer in the wall of a mine and, after a few moments of digging, picked out a one-pound six-ounce giant, the Cullinan. The gem is set in the British Royal Scepter.

New Long Distance Precedure In Use

Persons who need numbers of out of town telephones in order to complete long distance calls will now be connected with the information operator in the distant city under a new procedure recently introduced by the telephone company.

Jim Brewer, manager for the Southwestern Bell Telephone Company said the new practice is an effort on the part of the company to speed up long distance telephoning.

"Under our old procedure," the manager said, "The Snyder long distance operator would get the information from the customer who was placing the call. She would then call the information operator in the distant city and relay this information to her. Then as soon as the information operator gave her the telephone number she would relay it on to the customer. This was a time-consuming process, to say the least."

The manager also said that many times it was necessary for the customer wanting the number to talk to the distant information operator to suggest ways in which the party might be listed. So, according to Brewer, the company made some tests to see if customers wouldn't prefer to talk directly to the information operator rather than have their conversation relayed by a third party. He said customers liked it, so the procedure has been introduced in Snyder.

"Actually it is much faster," Brewer said, "and we find that most customers like it better than the old way." He said when a customer wants a telephone number in a distant city all he has to do is to call the Snyder long distance operator and ask to be connected with the information operator in whatever city he wishes to call.

The local operator makes the connection and then leaves the line allowing the customer to converse directly with the information operator in the distant city. After receiving the information the customer should "flash" the Snyder long-distance operator by moving the "Hook" up and down.

The operator will then return to the line and handle the call in the usual manner. Brewer emphasized that there is never any charge made for connecting a customer to information service in a distant city, "even if the customer receives the number and then changes his mind about placing the call," the manager added.

Hermleigh Telephone Survey Set

Every telephone customer in Hermleigh will receive a post card from the telephone company in the next few days, asking for his comments and criticisms of his telephone service and the company that provides it, according to Jim Brewer manager for Southwestern Bell Telephone Company here

Brewer calls the project a post card canvass. "In making the canvass, we'll mail a double post card to each customer. The cards will be mailed next Wednesday so people will start receiving them about Thursday or Friday. We hope that everyone will take a minute to fill out the return half of the card and mail it to me.

"We're not seeking compliments," the manager points out. "If any of our customers have criticisms, we would like to know them. Comments like these help us give customers the kind of service they want."

Similar post card canvasses will be held in other towns where Southwestern Bell Telephone Company operates. The purpose is to find out what customers have complaints so that the company can try to remove the causes of these complaints.

"That's our most important job - giving customers the kind of service they desire," Brewer said. "We'll contact everyone who replies unfavorably and make every effort to clear up the source of his dissatisfaction."

Rep. Miller Heads South

WASHINGTON (AP) — Rep. William E. Miller heads into the South today on a campaign swing that crosses trails with President Johnson and whistle-stopping Lady Bird Johnson.

The advance word from the Miller camp is that the Republican vice-presidential nominee will point up the coincidence by launching a fresh attack on the Democratic president.

Although Miller and the Johnsons scheduled campaign appearances in North Carolina today, a direct confrontation is unlikely.

After addressing an airport rally in Wilmington, Miller listed a luncheon speech in Asheville and a dinner in Hickory. He planned to push on directly into Georgia.

Mrs. Johnson's itinerary is taking her to several other communities in North Carolina before she closes out the day at Raleigh, where the President will join her.

Denies Part In Newsman's Death

DALLAS (AP) — Ex-convict Larry Reno, 23, insists he last saw James Koethe when the Dallas Times Herald reporter let him out of a car after they drank beer together early Sept. 19.

Homicide detectives filed a murder charge against Reno after Koethe's body, covered by a blanket, was found in his apartment Sept. 21.

The ex-convict said Monday he had known Koethe, 30, about a year and had been to his apartment several times.

Investigators charged that Reno strangled Koethe and took a gun, watch and $50 from the apartment. Reno said this was not true.

Conference Play Begins Friday In District 3-AAA

Members of District 3-AAA will begin playing for keeps this week as 3 conference games are on tap involving six of the teams. Littlefield has an open date and will start its district play the following week.

All members of District 3-AAA have played 4 non-district contests. In general the district members did not fare so well against outside opposition, having won 9, lost 16 and tied 3.

The Sweetwater Mustangs are leading all other district teams at this point with 3 victories and only one defeat, and that was at the hands of the Abilene Eagles. The Mustangs are also leading in points scored with 60, and are in third place in the defensive department, having given up 37 points.

The Snyder Tigers are leading in defense, as they have given up 18 points. However, they are all even in the won-lost category, having lost their first two encounters and winning their next two.

The only other team that has won more than one game is Levelland, who has won two, lost one and tied one. They are in second place in the number of points scored and also in the number of points given up.

Although this coming Friday will be the first week of district action, most of the experts feel that the district champion will be decided at that time. The two pre - season choices for top honors were Snyder and Sweetwater, and those two teams will meet in Snyder Friday night.

There is a tie for the leading scorer and the two boys involved are from Snyder and Sweetwater. Leslie Brown of the Tigers and Danny Foust of the Mustangs have tallied 24 points each. A 3-way tie exists for third place among Benny Pace, the "do-it-all" quarterback for the Mustangs, C. L. Avants of Lake View, and Ronnie Davis of Brownfield. They have scored 18 points each.

STANDINGS

TEAM	W	L	T	Pts.	Opp. Pts.
Sweetwater	3	1	0	60	37
Levelland	2	1	1	59	28
Snyder	2	2	0	42	18
Lake View	1	2	1	41	130
Brownfield	1	3	0	35	95

Wittenberg Still Tops

By The Associated Press

The Wittenberg Tigers, apparently as strong on the gridiron as they usually are on the basketball floor, again are No. 1 this week in the Associated Press small - college football poll.

The unbeaten Tigers won their third straight by crushing Heidelberg 49-0 Saturday and retained their top perch in the voting by the AP panel of sports writers and broadcasters.

San Diego State, Lamar Tech and Prairie View each are undefeated in three games, too, but they didn't amass as many points and trail Wittenberg as the No. 2, 3 and 4 teams in that order.

The rest, in order after fifth-place Florida A&M, were Louisiana Tech, Susquehanna, Delaware, Los Angeles State, and Northwest Louisiana.

Others receiving more than five points included Abilene Christian, East Texas State, Sam Houston State, Southwest Texas State, Texas A&I and Texas Southern.

Cubs Nudge Colts, 24-0

The Cubs defeated the Colts, 24-0 Monday for their first victory in Boys' Club Pee Wee Football.

Bobby Burleson scored one touchdown for the Cubs, while Lewis Lloyd scored two. Burleson and Lloyd each converted for two points and Ernest Pinkerton made the two extra points after the other touchdown.

For the Cubs, Mike Glasscock was cited as the top defensive player. The Colts coaches praised the offensive blocking of David Sims and Ralph Troxel and the running of Mike Dennis. Defensively, Larry Thompson and Randy Wright were tops for the Colts.

LONG WAIT ENDED—Some of the more than 30,000 St. Louis Cardinal fans at Busch Stadium hold aloft a homemade sign reading "It's been 18 years," indicating the number of years since the Cardinals won their last National League pennant in 1946. The Cardinals won the pennant this year on the final day of the regular season. (AP Wirephoto)

Sadecki To Shoulder Tremendous Burden

By JACK HAND
Associated Press Sports Writer

ST. LOUIS (AP) — Ray Sadecki, a 23-year-old lefty with his first big winning year, will tote a tremendous burden Wednesday as the opening pitcher for the underdog St. Louis Cardinals against Whitey Ford, the New York Yankees' cagey veteran.

Ford's experience under fire is one reason why the Yanks are 17-10 favorites to take it all and 3-5 in the opener. It will be Whitey's 22nd Series start.

The Series schedule, which calls for a day off for travel after the second and fifth games, permits the first-game pitchers to make three starts if it goes the seven-game limit.

Because Johnny Keane, Cardinal manager, had to use Bob Gibson in relief in Sunday's final game to clinch the National League pennant, he is forced to start Sadecki, a 20-game winner who was knocked out of the box Saturday by the New York Mets.

It figures to be the Yanks' Big Three of Ford, Mel Stottlemyre and Jim Bouton against the Cardinals' trio of Sadecki, Gibson and Curt Simmons. Nobody else is likely to start.

Al Downing, normally a regular, probably will be in the Yankee bullpen which will be hurting without Pedro Ramos, the stopper of the last month of the season.

Ramos is not eligible for the Series because he was acquired from Cleveland too late to be placed on the list which closes Sept. 1. The absence of the handsome Cuban may be fatal to Manager Yogi Berra, who learned to lean more and more on Ramos in the stretch drive to his first pennant.

"It all depends on how things are going," said Berra in New York Monday after he sent the Yanks through a light drill at Yankee Stadium.

Tony Kubek, regular Yankee shortstop, and Julian Javier, the Cards' second baseman, were on the doubtful list because of injuries.

Kubek, in fact, very likely will miss the entire Series because of a jammed right wrist that has kept him out of action for two weeks.

Javier suffered a badly bruised left hip Saturday in a collision with the Mets' Bob Taylor. The Cards were optimistic about his playing but had Dal Maxvill ready. Maxvill, normally a weak hitter, came through with flying colors in the weekend games.

Phil Linz, the Yanks' harmonica-playing rascal, undoubtedly will start at shortstop. Linz has been getting key hits in the Yanks' late drive.

Speed will be on the side of the Cards with Lou Brock, their base-stealing whiz. Curt Flood and Javier the best of the lot. They will put pressure on Elston Howard, the Yanks' fine catcher, just as the dashing Dodgers of Los Angeles did last year in a four-straight sweep.

Both clubs scheduled tune-ups at Busch Stadium today with the Yanks, who were flying in, due to follow the Cardinals. Busch Stadium, with its pavilion in right field only 310 feet from the plate, provides a fine target for left-handed sluggers like Roger Maris, Mickey Mantle and Joe Pepitone of the Yanks and Bill White and Brock of the Cards.

It will be the fifth Series meeting of the Yanks and Cards, who split the first four.

Ralph Houk, whom Berra succeeded this year, was the first rookie manager to win a pennant. The Yanks won the pennant in 1961, his first year at the helm and also won under him in 1962 and 1963.

The last time the Cards won the pennant was in 1946. Eddie Dyer was a rookie manager that season and the Redbirds went on to beat the Boston Red Sox in the Series.

Olympic Session Could Be Stormy

By TED SMITS
Associated Press Sports Editor

TOKYO (AP)—The emperor of Japan declared open the full meeting of the International Olympic Committee today with customary pomp, but behind the scenes a full-scale donnybrook brewed.

Wednesday's working sessions will be stormy. Soviet Russia will probably raise the GAMEFO issue, East Germany wants full membership in the IOC instead of sharing a team with West Germany, and the election of the international president will be announced.

Track and swimming athletes who took part in the unauthorized GAMEFO — the Games of the Emerging Forces — at Jakarta, Indonesia, have been suspended by their international federations thereby keeping them out of the Olympics.

As a result, North Korea and Indonesia may not compete here at all, but observers believe the Russians may raise the issue in the full committee meeting and possibly seek to override the ban.

Russia, too, favors East Germany's full membership in the IOC but Avery Brundage of Chicago, IOC president who mediated the German dispute in 1952 and created a single, all-German team, has always considered this sports unification as one of the outstanding successes of the Olympic movement.

All the ballots in the contest between Brundage, seeking re-election as IOC president, and his only rival, Lord David Burghley, marquis of Exeter, are here under seal and all that remains is the announcement.

Brundage is a stern upholder of pure amateurism. The English nobleman is considered to be more liberal. Advance hints point to a narrow Brundage victory.

Virtually all the 8,000 athletes from the 98 nations expected to compete here are now on hand for the opening ceremonies Saturday, Oct. 10. The Games end Oct. 24.

Quarterback Club Meets Here Tonight

The Snyder Quarterback Club will assemble for its regular weekly session at 7:30 tonight in the high school cafeteria.

This will be the last session before the conference football season gets underway and among the major items on the agenda tonight will be a scouting report on the Sweetwater Mustangs. The Sweetwater team will play the Tigers here Friday night to launch the District 3-AAA campaign, and many observers feel that the game will go a long way toward deciding the district championship; since the Ponies and Tigers were picked early to battle it out for the title.

Coaches of all teams in the local school system will give their reports and the film of the Snyder-Kermit game of last Friday night will climax the session.

Bob Gibson Named Player Of Month

CINCINNATI (AP) — Bob Gibson, who is expected to start Thursday's World Series game for St. Louis, is the National League's Player-of-the-Month for September.

Gibson won six of seven games during the month as the Cardinals came from behind to take the National League pennant. He allowed only 45 hits in 62 innings and had an earned-run average of 1.89.

Art Parseghian is Notre Dame's 22nd football coach.

Navy, Southern Cal Plunge From Nation's Top 10 List

By TED MEIER
Associated Press Sports Writer

Hurricane Hilda didn't get north to the state of Michigan. No matter. The Michigan State Spartans and the Michigan Wolverines provided their own power on the gridiron and blew Southern California and Navy right out of the Top Ten in college football.

The Texas Longhorns retained today their No. 1 spot in this week's voting by The Associated Press panel of sports writers and broadcasters with a come-from-behind 17-6 triumph over Army.

But Michigan State upset Southern California 17-7 and Michigan walloped Navy 21-0 to give the Top Ten a thorough shaking up. As a result Southern California, No. 2, and Navy, No. 6, flopped right out of the rankings.

The new Top Ten is No. 1, Texas; No. 2, Illinois; No. 3, Alabama; No. 4, Ohio State; No. 5, Kentucky; No. 6, Notre Dame; No. 7, Michigan; No. 8, Nebraska; No. 9, a tie between Michigan State and Arkansas.

Illinois took over the No. 2 spot with a 17-6 triumph over Northwestern. Alabama moved up to No. 3 by blanking Vanderbil, 24-0 and Ohio State jumped a notch to No. 4 by slamming Indiana 17-9.

Kentucky, perhaps the surprise team of the season to date, jumped from nowhere to the No. 5 spot with a 20-0 upset over Auburn, a defeat that pushed the Tigers out of the Top Ten. It was the third straight for Kentucky's unbeaten Wildcats. They previously downed Detroit 13-6 and Mississippi 27-21.

In this week's games involving the Top Ten, it's Texas vs. Oklahoma; Illinois vs. Ohio State; Alabama vs. North Carolina State; Kentucky vs. Florida State; Notre Dame vs. Air Force; Michigan vs. Michigan State; Nebraska vs. South Carolina and Arkansas vs. Baylor.

The Top Ten with first-place votes in parentheses and points on a 10-9-8 etc. basis:

1. Texas (32)	430
2. Illinois (6)	390
3. Alabama (3)	366
4. Ohio State	263
5. Kentucky (5)	255
6. Notre Dame	244
7. Michigan (1)	243
8. Nebraska	38
9. tie, Michigan State	36
9. tie, Arkansas	36

No. 1 Teams Hold On To Positions

DALLAS (AP) — The No. 1 teams held their positions easily enough today in the Dallas News poll of Texas schoolboy football but there were some changes elsewhere.

Garland rolled on at the head of Class AAAA, Dumas in Class AAA, Phillips in Class AA and Hull-Daisetta in Class A.

Weatherford was a newcomer to Class AAA as Kermit, No. 9 last week, took a tumble out of the rankings.

West was dropped from Class AA although winning its game last week and Idalou, which took a beating, fell out of Class A.

Ozona was a newcomer to Class A, taking the 10th spot.

The rankings:

Class AAAA—1, Garland; 2, Amarillo Tascosa; 3, Victoria; 4, Galena Park; 5, Spring Branch; 6, Dallas Hillcrest; 7, Tyler; 8, Waco Richfield; 9, Pasadena; 10, Port Neches.

Class AAA—1, Dumas; 2, McKinney; 3, Vidor; 4, Pharr-San Juan-Alamo; 5, Clear Creek; 6, Brownwood; 7, Andrews; 8, Palestine; 9, Austin Lanier; 10, Weatherford.

Class AA—1, Phillips; 2, Ballinger; 3, Rockwall; 4, Hondo; 5, Crane; 6, Denver City; 7, Iowa Park; 8, Palacios; 9, Paul Pewitt; 10, Rusk and Gladewater tied.

Class A—1, Hull-Daisetta; 2, Petersburg; 3, Seagraves; 4, Big Lake; 5, Jefferson; 6, Clifton; 7, Three Rivers; 8, George West; 9, Hallsville; 10, Ozona.

Baylor Has Big Margin In Offense

DALLAS (AP)—Baylor hasn't beaten anybody yet but leads the Southwest Conference by a mile in total offense.

All except 18 yards of it is by passing, which can be taken by opponents of throwing the ball high, wide and handsome as an indication of something—maybe that you get beat.

Anyway, the Baylors have 312.0 yards per game in offense and 294.0 of it is in the air.

Texas is second with 285.3 with 199.3 on the ground. And Texas has won three games.

Baylor is a flat last in defense, which also can be taken as an indication of something—also that you get beat that way.

Texas, on the other hand, leads the league in defense by a mile, allowing only 168.7 yards per outing.

Arkansas is second with 204.3.

The statistical standings by categories:

Offense	Rushing	Passing	Total
Baylor	18.0	294.0	312.0
Texas	199.3	86.0	285.3
Arkansas	170.7	99.3	285.3
Texas Tech	156.3	66.3	222.7
Texas A&M	84.7	127.0	211.7
Rice	134.0	68.5	202.5
SMU	95.7	82.7	178.5
TCU	94.0	84.3	178.3
Defense	**Rushing**	**Passing**	**Total**
Texas	96.7	72.0	168.7
Arkansas	90.0	114.3	204.3
SMU	133.3	86.0	219.3
Texas Tech	107.7	125.0	232.7
Rice	150.5	95.0	245.5
Texas A&M	166.7	83.3	250.0
TCU	140.4	120.7	261.0
Baylor	192.0	106.0	298.0

Foldberg, King Speed Up Agony

By The Associated Press

At least two Southwest Conference coaches want to get the agony over with as soon as possible—the agony of winning the close ones or losing them.

Coaches J. T. King of Texas Tech and Hank Foldberg of Texas A&M worked out a system to save time and quit boring the spectators in their game last week and it's likely all the others will follow suit.

This season, in order to get a defensive platoon into the game in a punting situation, a plan of staying in the huddle 25 seconds to draw a delay penalty so an entire team could be substituted has been followed.

King and Foldberg, however, agreed with the officials in on it, that they would have their quarterbacks just call "automatic delay" each time and then bring in the platoon without having to take up time getting the delaying penalty.

It speeded things up greatly and Texas Tech won over A&M 16-12 quicker than under the old plan—and it relieved King of agony and did the same for Foldberg.

After getting that settled, the coaches then sent their teams through Monday workouts and checked on whether there were any injuries.

There weren't many and Texas Tech found all hands came out of the A&M game in good shape. Texas A&M found the situation the same.

Frank Broyles of Arkansas not only didn't have injuries to worry about but he took a chance of being thrown out of the coaches league for being cheerful.

"I don't know of anyone who did not have a good grade defensively," Broyles said of his team's 29-6 victory over Texas Chrisian last week.

Coach Abe Martin of Texas Christian obviously had a different view of his team's efforts because he changed his lineup. He brought two new faces to the first team—end Charles Campbell and guard Billy Snow.

And he warned about the strength of Texas Tech, whom the Frogs play Saturday.

Texas, which has won three games in a row, worried more than any of the others. Tackle John Elliott, end Dan Mauldin and end George Sauer were on the injury list and Coach Darrell Royal said he wouldn't know for a day or so whether they could play against Oklahoma at Dallas Saturday.

Rice didn't have anybody out of action for its game with Stanford Saturday but the coaches worried about beating the West Coast outfit. Especially after scout Nick Lanza said Stanford had a "real fine football team" and should have beaten mighty UCLA last week.

Coach John Bridgers said he would start Terry Southall, sophomore quarterback, against Arkansas at Little Rock Saturday night. Bridgers was satisfied with Southall's work against Oregon State. But he bolstered his defensive line by moving tackle Bill Ferguson from the offense.

There were no new injuries in the Baylor camp.

Southern Methodist had more injuries than anybody but since the Mustangs take the week off they expect to have all hands in shape next week when they open the conference race against Rice.

Oilers Are Leading AFL In Offense

NEW YORK (AP) — The Houston Oilers are the top offensive team in the American Football League. They also are last in team defense. Maybe that's a clue to why the Oilers are 2-2 and in third place in the Eastern Division.

The weekly team statistics released today show the Oilers with 1,429 yards gained in total offense for an average of 357.2 per game. The Buffalo Bills, co-leaders in the East, are second with 1,422 and 355.5. The Kansas City Chiefs, tops in the Western Division, are third with 1,052 and 350.6.

Great new taste: pipe tobacco in a filter cigarette!

You get pleasing aroma — and a great new taste! The secret? It's packed with America's best-tasting pipe tobacco — famous Half and Half! Smoke new Half and Half Filter Cigarettes!

Court Plunges Headlong Into Many Thorny Issues

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The Supreme Court, perhaps the most forceful in American history, after the narrowest kind of escape from rebuke by Congress has returned to work by plunging instantly into boiling water.

The nine justices traditionally do not answer their critics. And they observed the tradition this year although it was a year of intense attack.

Their decisions cutting across many fields over several years — particularly race, religion and politics — produced a hurly-burly between their critics and their defenders.

Out of all this naturally came a question: Will the justices now slow up until some of the storm subsides, be a little more restrained like many courts of the past, be less willing to stick their necks out?

Judging from what they have just done it could be reasonably concluded they are determined to do what they think is necessary rather than what is comfortable.

Usually the court does no business on opening day. But when it began its 1964-65 term Monday the justices disregarded the usual and at once began hearings on one of the most controversial social and political issues.

This was on the Civil Rights Act, the strongest in 100 years, passed by Congress last July. The court was not asked to rule on the constitutionality of the whole act but on the sorest point in it:

This is the part outlawing racial discrimination at hotels, restaurants and other places of public accommodation. This part of the act has been a sore point in the South and an issue in this year's political campaign.

Since the campaign will end on Election Day, Nov. 3, the court could have made things easy for itself by deciding to put off a hearing on an appeal against the accommodation section until then.

But no matter what the decision, or when, this whole year will be full of thorny issues for the court, covering religion, communism, race, unionism.

The storm over the court began with a hurricane over its 1954 decision calling school segregation unconstitutional. From time to time the hurricane dwindled, and by the end of the court term this year had hurricane force again.

This came after decisions banning required reading of the Bible or the Lord's Prayer in public schools and its decisions that state legislatures' representation must be based on equal proportions of a state's population.

In Congress, both the House and Senate approved measures intended to slow down the reapportionment of legislatures — in essence rebuking the court.

The House and Senate, in the last-minute rush to quit and go home, couldn't reconcile their differences and the result was that both measures were scrapped and the court left unscathed.

The fact that the two houses had enough members willing to approve these measures, different as they were, could be taken as a warning light by the justices to go slow.

But the justices have a better perspective on the history of the court, and its trial and tribulations, down through the years than most politicians and most citizens.

From the very beginning the court has been attacked when its decisions jarred some region, some group, some faction.

It is no exaggeration to say that down through the years demands to curb the court or undo its decisions have become an almost fantastic multitude. But it has rarely happened. Another year has passed and it didn't happen.

Columnist Jumps At Conclusions

By HAL BOYLE

NEW YORK (AP)—Jumping at conclusions—and how many do you agree with?

Ever wonder why people will crowd around to watch a skyscraper's site being dug, but few bother to pause after the building gets above eye level?

The answer is simple—human laziness.

It's easy to look down into a hole. But you have to stretch your neck muscles to look up.

The less confidence a man has in himself the more credit cards he has in his wallet.

No matter how many colleges and universities we create in America some people will always continue to be impressed by what they see on billboards. They simply have billboard-type minds, and nothing can be done about them.

Skinny people eat more pretzels and salted peanuts at the bar than do fat people.

You can be fairly sure that if the letter comes special delivery, its contents are more important to the sender than to you.

An orgy is what the neighbors next door seem to be having when you haven't been invited to the party.

The most popular form of retribution in America is not to send a Christmas card this year to the fellow who didn't send us one last year.

The popularity of light-colored raincoats is partly explained by the fact their wearers have a romantic hope that bystanders will mistake them for an FBI agent bound on a secret mission.

Plump girls are the easiest to borrow money from. They're more likely to fall for a hard luck story.

Bankers and dentists are the members of modern society who yearn most to be regarded as hale fellows well met. They worry for fear that because of the nature of their jobs no one really loves them for themselves. Many ministers have this feeling, too.

After 40, the average man rarely notices when his wife buys a new hat. And he is unlikely to notice it at all if she changes the flavor of her lipstick.

Lawyers are never dull when they tell the truth. That is why it is more fun to listen to them when they're out of court.

You are bound to live longer if you drink a quart of warm water after every dry martini.

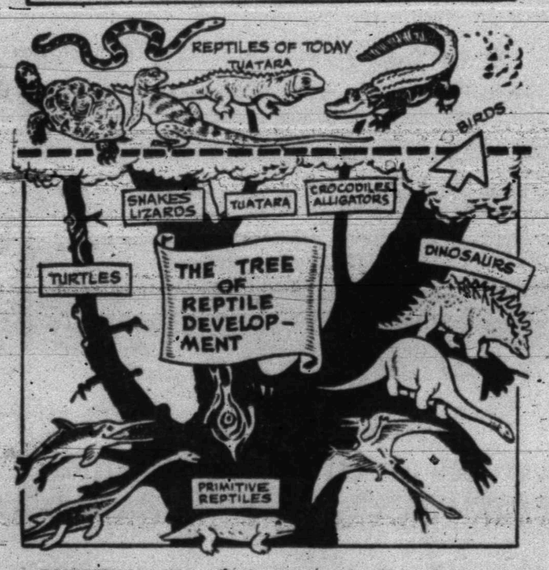
Val Verde Termed Disaster Area

WASHINGTON (AP) — The Small Business Administration has designated Val Verde County in Texas a disaster area because of floods last month at Del Rio.

Loan applications may be filed with the agency's office at 434 S. Main St. in San Antonio.

A disaster area designation permits owners of homes, businesses, churches and charitable institutions to apply for reconstruction or rehabilitation loans from SBA. Interest on such loans is 3 per cent.

Junior Editors Quiz on REPTILES



QUESTION: Were the dinosaurs related to today's reptiles?

ANSWER: Our artist has answered this interesting question by showing a kind of family tree of reptiles. Those above the black dotted line are of today; scientists believe they are developed roughly in the way shown underneath. The first primitive reptiles, at the bottom, are thought to have developed from amphibians—creatures with moist skins, who had to live near water. Acquiring a water-tight scaly skin, reptiles could live in many places. At the lower part of the tree are a number of highly-developed reptiles which in the end could not, apparently, adjust to changes in climate and so became extinct. Our artist shows these as dead branches. The dinosaurs, of two main types, are on dead branches to the right. Notice that the limb from which these come goes upward; from this limb the birds developed; notice, too, that crocodiles and alligators developed from this branch, while the other living reptiles came from separate branches to the left. We can say that all reptiles are distantly related through the first primitive ones, but that the crocodiles and alligators are more closely related to dinosaurs than are other living reptiles.

John Wayne Allows He's OK Now

By JAMES BACON
AP Movie-Television Writer

HOLLYWOOD (AP)—"I don't know what the hell I had, but the doc said whatever it was I licked it."

Big John Wayne was talking from his bed at Good Samaritan Hospital. He delivered the line Monday in the same matter-of-fact way that millions of movie fans have heard him speak on the screen just after putting down an Indian uprising at Ft. Apache.

Wayne, sitting up in bed, devoured a bowl of soup, a couple of pork chops and a salad, plus dessert.

"The only trouble we have with this patient is getting him to eat," quipped his nurse.

"I had a rough ten days in the intensive-care unit," said Big Duke. "They kept bringing in all those cardiac cases beside me. Finally, I told them to get me a gun — I was ready to shoot my way out."

Duke was moved to another floor quick. He may get out of the hospital this week.

"I had two operations in five days. That was the rough part.

"First they took that thing from my lung. Then I got to coughing later, coughed so damn hard that I busted a tissue. So they had to open me up again."

His son, Michael, described "that thing" as an abscess of the lung.

Pilar, Duke's pretty wife, said her husband suffered from edema — an abnormal amount of fluid in the lungs.

"He swelled out so much," said Mrs. Wayne, "that he looked more like Sidney Greenstreet than Duke."

The big boy says he is OK now.

"My only discomfort," he said, "is those cigarettes."

For 40 years Duke has been a five-pack a day unfiltered cigarette smoker. He gets none in the hospital.

Wayne entered the hospital for correction of an old ankle injury. The lung complication followed.

Duke spends most of his time watching television.

"I watch everything but old John Wayne movies," he smiled. "It's the first real rest I've had in 30 years."

Plane's Debut Said Early

WASHINGTON (AP) — The controversial TFX jet fighter will roll out of the General Dynamics Plant at Fort Worth Oct. 15, two weeks ahead of schedule, the Air Force said Monday.

The plane, permanently designated the F111, is a 1,650-mile-an-hour fighter intended to fill this country's needs of the future.

Air Force Sect. Eugene Zuckert said: "The program is on schedule with the rollout well ahead of the original target date of Oct. 31."

The plane was the subject of an investigation which sought to determine if Secretary of Defense Robert McNamara overrode military advice in settling on the TFX design over one submitted by the Boeing Co. of Seattle.

The Air Force expects to buy more than 1,400 F111A and the Navy more than 200 F111bs. The program's total cost is expected to be around $7 billion.

The F111 is designed for transocean, non-refueling flights and as a two-man tactical fighter. It has a ceiling of about 60,000 feet and can carry conventional or nuclear weapons.

Abilene Woman Shot To Death

ABILENE, Tex. (AP) — Gunfire killed Mrs. Helen Patterson, 31, at her home Monday night and left her husband Homer, 35, to a hospital in grave condition from a head wound.

A neighbor told of hearing shots and seeing a woman in front of the house firing into the air.

Police said this woman, who identified herself as Mrs. Patterson's mother, told them: "There's a madman inside!"

Officers then found both the Pattersons had been shot. They said she filed suit for divorce earlier in the day.

The couple moved here from Sweetwater about a year ago. There are four children in the family.

Siamese cats were first imported to the United States in the 1890s.

Gary Vice Is Promoted

WACO — Gary E. Vice, son of Mr. and Mrs. Archie E. Vice of 3301 Avenue A, Snyder, has been promoted to first lieutenant in the U.S. Air Force at James Connally AFB, Tex.

Lt. Vice is a navigator instructor in a unit that supports the Air Training Command mission of training airmen and officers in the diverse skills required by the nation's aerospace force.

The lieutenant, a graduate of Snyder High School, received his B.A. degree from North Texas State University at Denton and was commissioned upon completion of the Air Force Reserve Officer Training Corps program.

His wife, Nancy, is the daughter of Lewis Hatley of Forney.

Plans For Amistad Dam Proceeding On Schedule

By TEX EASLEY

WASHINGTON (AP) — Planning for construction of giant Amistad Dam on the Rio Grande near Del Rio, between Texas and Mexico, is proceeding on schedule with no unusual problems encountered.

This was reported today by Joseph Friedkin, U.S. representative on the International Boundary and Water Commission.

Friedkin, an engineer, said problems encountered thus far at and near the damsite are neither unusual nor unexpected.

"There have been reports in circulation to the effect that we had found crevices along the damsite," he said.

"This is just not so. It is an exaggeration. In this preliminary work we are grouting for the foundation. This is a common practice where a dam is to be constructed on a limestone formation."

This safeguard is accomplished, he explained, by drilling 3-inch holes 10 feet to 200 feet apart deep into the limestone formation along the axis of the dam site and then pumping in fresh mixed concrete until no more can be taken in.

A stretch of nearly a mile on the east side of the reservoir, about two miles from the dam site and along the reservoir rim, is also being grouted.

"There is no danger to the dam," added Friedkin. "The project is not in question."

He estimated the grouting job would add about a million dollars to the project cost.

He declined to estimate how much Congress would be asked to provide next year, and said this is the subject of the conferences which brought him here from his headquarters in El Paso. A total of $7.5 million was appropriated for use in the 12 months ending next June 30.

The schedule which is being followed, the commissioner added, calls for bid openings Nov. 5 in El Paso and Juarez, Mexico, on major construction phases of the project.

Actual construction of the dam is expected to begin next January, and work is scheduled to progress to the point where conservation of water can begin early in 1968. The project is to be completed in 1969.

Total cost of the dam, not counting hydroelectric power facilities and rights of way, is estimated at $64 million. The United States' share of the cost will be 56.2 per cent and Mexico's 43.8 per cent. The division is based on the proportion of benefits to accrue to each country.

The dam will be a concrete gravity structure 2,200 feet long, with gated spillway in the river channel with a crest 254 feet above the river bed.

It will create a reservoir 74 miles long with an estimated capacity of 5,700,000 acre-feet, of which 2,450,000 acre-feet will be for flood control and 3,550,000 acre-feet for conservation and silt detention. An acre-foot is the amount of water needed to cover one acre to the depth of a foot.

Installation of penstocks and the excavation for future power facilities will be included in the initial construction work. The project has a potential power generating capacity of 300 million kilowatt hours annually on the average for the two countries.

Amistad is the Mexican word for friendship, and the project is being built under terms of the 1944 U.S.-Mexico Water Treaty.

Machines Need Trained Workers

By SAM DAWSON
AP Business-News Analyst

NEW YORK (AP)—Industry is calling upon educational institutions to help train workers to handle new and highly complicated machines. Many companies also are sending supervisors back to classes to bring them up to date so they can teach recruits to become semi-skilled or even highly skilled workers.

This tackles two problems at once: lack of job opportunities for the untrained that has kept unemployment high; and deficits of skilled workers that have curbed output in many new industrial fields.

Professional men also are being linked by closed-circuit television to get the latest word in their specialities, whether it be medicine, surgery, law, or insurance. And at the managerial level, many companies are linking their salesmen across the land to centrally conducted educational courses, using both television and the nation's telephone circuits.

Foremen of Jones & Laughlin Steel attended an in-plant seminar to learn both how to operate a new mill and how to teach subordinates. Now they are instructing nearly 200 employes who will work at the new $80-million electronic rolling mill in the company's Cleveland plant.

Eastern Stainless Steel's Baltimore plant gave 100 supervisors a course in handling employes as well as equipment. Now they are training workers to be more efficient—and morale is reported higher because of the psychological pointers the supervisors picked up.

Educational institutions are joining in the move on an increasing scale.

R. Lynn Kalmbach, general manager of the South Carolina Television Center, Columbia, S. C., sees courses designed to increase industrial potential as "far more exciting than the use of educational TV in formal education."

"A nation moving so rapidly its citizens must be retrained two or three times in a lifetime must develop the tools with which to do it," he adds.

Patrick R. Fischetti, director of Employes Development Services—EDS—Scranton, Pa., says, "Firms can't afford to wait until after the installation of costly, highly automated equipment to start training operators and maintenance personnel."

EDS, a division of the International Correspondence Schools, has trained supervisors for Anaconda Copper, technical personnel at a Western Electric plant, and 20 men to become aides to engineers at an Ohio metal fabricating plant, so the engineers themselves would have more time for other than detail work.

RFK Quizzed On Population Boom

NEW YORK (AP) — A student at Columbia University asked Robert F. Kennedy Monday night what he plans to do about the population explosion if he is elected to the U.S. Senate.

Kennedy replied that he did not know if he was the right person to answer the question.

His wife, expecting their ninth child, joined the laughter.

Kennedy, Democratic candidate for the Senate then answered the question seriously. He said it is a personal matter in the United States, but critical and demanding of a solution in certain other countries.

Frankie Layne Reported Recovering

HOLLYWOOD (AP) — Singer Frankie Laine, 54, was reported in good condition after prostate surgery Monday at Cedars of Lebanon Hospital. A spokesman for the performer said no malignancy was uncovered and Laine probably will be released in about 10 days.

Seek Better Cooperation Of Officers

By ERNEST STROMBERGER

AUSTIN (AP) — Gov. John Connaly and Atty. Gen. Waggoner Carr, determined to learn from mistakes which surrounded the John F. Kennedy administration, have agreed to seek better cooperation between federal and state law officers.

They held a joint news conference Monday after Carr presented a report on Texas' role in the investigation of the assassination.

Carr's report concurred with the Warren Commission findings listed three factors which hampered Texas officials and made two main recommendations.

"We would be foolish not to look back and see if something couldn't be learned," Carr said of his recommendation that newsmen and state bar officials work toward trial coverage ground rules to prevent recurrence of the "disorder and confusion" associated with news coverage of the event.

His report stated that "the news media . . . virtually took charge" of the city jail building after the assassination.

"Interviews and comments elicited by the news media from police officials and prosecuting attorneys" and news coverage of the Jack Ruby trial strained "the orderly procedures of the rule of law," Carr wrote.

Another drawback, the report said, was a deficiency in security measures partly resulting from Dallas police not being advised by federal officials of Lee Harvey Oswald's background and presence in Dallas.

"We don't feel the Dallas police can be justly criticized or should accept the full responsibility for the events of Nov. 22 because of the fact that the Dallas police had not been advised . . . by the FBI that Oswald was in Dallas and, indeed, was working in a building along the parade route," Carr told newsmen.

Connally added that the Texas Department of Public Safety has worked well with the FBI in the past but "there have been times . . . that it is something of a one-way street."

"It is our desire to . . . work out some feasible way to bring the recommendations into reality," Carr said.

He referred to a recommendation in his report that federal, state and local officers study ways to improve "coordination and exchange of information concerning criminal or subversive suspects" and to suggest "ways and means of improving security measures for the President and other officials.

Witnesses Presented Against State Judge

MUSKOGEE, Okla. (AP) — The government presents witnesses today trying to prove that state Supreme Court Justice Earl Welch evaded income taxes.

He is a veteran of 32 years on the state's highest civil court.

Names of former Supreme Court Justice N. S. Corn, indicted at the same time as Welch, and a one-time head of the multi-million dollar Selected Investments, Corp., came up in court before the jury was picked.

The defense asked U. S. Dist. Judge Roy Harper to hear N. S. Corn, 80, now serving 18 months on a tax evasion charge, and Huge Carroll, who served two years on a federal fraud count after Selected Investments went bankrupt.

Harper denied that motion

Surgeon Forsees Use Of Permanent Heart Pump

By FRANK CAREY
AP Science Writer

CHICAGO (AP) — A New York surgeon today forecast development within two years of permanent, auxiliary, heart pumps for human use — implanted within the body and powered by batteries carried by a shoulder harness.

Dr. Yukihiko Nose of the State University of New York's Downstate Medical Center, Brooklyn, said this possibility is suggested by successful experiments in dogs. These tests use a cigarette pack-sized, inflatable plastic bulb pump implanted in the aorta, the main pathway of blood from the heart.

Equipment for powering the pump's tiny motor and supplying compressed air is carried in a 3½-pound package attached to a harness worn by the dog.

Contraction and expansion of the bulb, aiding in pumping blood through the heart, is controlled by an electronically powered valve triggered by the animal's own heartbeat.

Dr. Nose told reporters about it at the 50th clinical congress of the American College of Surgeons. He was summarizing a formal report prepared for the meeting by himself and three colleagues.

After describing the experimental pump for dogs, the report said:

"Efforts are now being directed toward development of a similar device that will hopefully be used in treating chronic myocardial insufficiency (weak hearts) in man."

At the news conference Dr. Nose said "in one or two years, it may be possible to implant one in a human."

Study Use Of Radar On Moon

HOUSTON, Tex., (AP) — A $71,670 study contract has been awarded North American Aviation Co., Downey, Calif., to determine if radar can relay information about topography to a computer, which in turn would tell an astronaut what lay ahead on the moon.

The computer study is being run by Dr. Jack Green of North American on an area of extremely rough lava in Pisgah crater near Barstow, Calif., a Manned Spacecraft Center spokesman said today.

Frigid Air Grips East

By The Associated Press

An early season frigid air mass gripped the nation from the Rocky Mountains to the Atlantic Coast today.

The Weather Bureau said the icy chill was unusually potent for so early in the season. Chilly north winds whistled all the way across the Gulf into southeastern Mexico. There was scattered frost in many spots.

Temperatures dipped into the 30's as far south as Arkansas and Tennessee. Houghton Lake in north central Michigan reported one inch of snow on the ground.

In upstate New York temperatures were in the mid 20s and 30s with snow flurries expected in the Adirondacks. Albany recorded a 28 and Glen Falls and Poughkeepsie posted 27s. The record low for the area was Albany's 24 in 1958.

There were scattered showers and snow flurries across eth and snow flurries across the northern Appalachians and the Great Lakes.

Fair and warm air covered the Far West. Temperatures climbed into the 90s as far north as Oregon Monday.

Early morning readings ranged from the low 20s in the hills of New Hampshire to the middle 80s across the desert regions of the Southwest.

PILEUP—Tornado wreckage is piled high in Larose, La., which was devastated by an offshoot of Hurricane Hilda. A Coast Guard rescue helicopter hovers over the scene of destruction. (AP Wirephoto)

Industry Laments Shortage Of Skilled Steel-Workers

By SEYMOUR M. HERSH

CHICAGO (AP) — The steel industry, headed for its biggest year in history, is running out of workers in the Chicago-Gary, Ind., area, largest steel producing center in the world.

Two of the industry's giants, U.S. Steel and Inland Steel, reported today they are carrying recruiting drives for their busy Chicago area plants into the far corners of the Midwest and Pennsylvania in an effort to beef up overworked crews.

The problem, say industry spokesmen, is the lack of skilled labor in Chicago, traditionally a fertile source for the steel plants.

"We've advertised here and tried to work with employment services," said a Chicago spokesman for U.S. Steel, "but we are just unable to meet our requirements locally. We're having trouble getting skilled and even semiskilled workers."

The spokesman said U.S. Steel will conduct job interviews this week in many industrial areas of Pennsylvania, including Altoona, Johnston and Uniontown.

The Chicago area produces nearly 23 per cent of the nation's steel and industry officials estimate the nation will produce a record 125 million tons of ingot in 1964. Last month's production of 10.6 million tons of ingot set a new industry record for September.

"There's a big push on," said Phil Morris, personnel director for Inland Steel's vast Calumet Works. "When you get large steel companies looking for the same thing (skilled labor), there aren't enough top-flight people to go around."

In Chicago, Morris said "we're looking for people with high school educations or at least the equivalent. You just can't find them there.

"You hire a man as a laborer, but you want him to move up," Morris said. "The days of the pick and shovel are over in the steel mills."

As of this week, Morris said, there were 486 jobs open among his work force of 21,200. "And if I filled those I'd have to ask for some more."

Morris said Inland is recruiting workers in Duluth, Minn.; Green Bay, Wis.; South Bend, Ind., Evansville and Terre Haute, Ind., and Escanaba, Mich., among other cities.

Smaller steel producers in the Chicago-Gary area also are pressed, but haven't announced any plans for recruiting outside the immediate area. There are nine major steel-producing facilities in the area.

Field Work Is Resumed

AUSTIN (AP) — Field work began again near the end of last week as soils started drying out from the soaking rains of the previous weekend.

The U. S. Department of Agriculture said Monday in its weekly Texas crop-weather report that cotton harvest was at a near standstill as areas with open cotton still unpicked, such as the northern blacklands and southern low plains, were too wet for picking.

Wheat planting reached 45 per cent of intended acreage, compared with 65 per cent at this time last year. Planting on the northern High Plains has topped 60 per cent.

New growth was seen on ranges and supplemental pastures, and livestock gained on new grass.

Sorghum combining moved slowly on the High Plains because of cool weather, heavy dews and fog that held moisture content above safe storage levels.

Carrots and lettuce made good progress on the High Plains. Good growth was registered by South Texas fall vegetables and early planted winter crops.

Royal Honeymooners Return To Hideaway

ATHENS (AP) — King Constantine and Queen Anne-Marie are back at their honeymoon hideaway after a trip to Athens. Constantine and his bride flew here Sunday.

Pasadena To Get Huge Acid Plant

NEW YORK (AP)— Olin Mathieson Chemical Corp. proposes to build what it believes will be the world's largest phosphoric acid plant at Pasadena, Tex.

This plant in the Houston suburb, the company said Monday, will be part of a $400 million expansion program.

Its 350-tons a day plant now at Pasadena will be dismantled when the new 500-tons a day plant is completed. Wellman-Lord Engineering Co. of Lakeland, Fla., has been awarded the construction contract.

Production from the plant will go to increase output of fertilizer for agriculture.

Would Send Ike To Viet Nam, Says Goldwater

By JACK BELL

With Goldwater In Pennsylvania (AP) — Sen. Barry Goldwater said today the overriding issue in the presidential campaign is "What period of America are we going to have tomorrow?"

The Republican presidential nominee, speaking at the Warminster shopping center in Bucks County, Pa., told a crowd estimated locally at 2,500 persons that he does not believe for a moment the American people are going to accept any form of socialism.

Goldwater began a swing through Philadelphia suburban areas on a crisp, sunny morning. He planned to return to Washington for a major address later in the day.

Before steering his campaign into Pennsylvania Goldwater said that if he wins he will ask former President Dwight D. Eisenhower to undertake a study mission to South Viet Nam.

Goldwater said he wants Eisenhower to head a team of experts to conduct an on-the-scene inquiry into the situation in the embattled Southeast Asian country, and seek a solution.

Goldwater unveiled the proposal Monday night in a move reminiscent of Eisenhower's own dramatic promise in the waning days of the 1952 campaign to go to war-torn Korea if elected president.

Goldwater's press secretary, Paul F. Wagner, who released the statement, said Eisenhower was not advised of it in advance. But Wagner said Eisenhower and Goldwater have discussed in general terms the role Eisenhower might play in efforts to find a solution to the situation in South Viet Nam.

At the general's farm at Gettysburg, a spokesman said Eisenhower had retired for the night after a "hard day" and would have no comment. The spokesman said that as far as he knew Eisenhower knew nothing of Goldwater's proposal.

While Goldwater takes the stump for four speeches in the Philadelphia area, Gov. William W. Scranton — who waged a sometimes bitter battle to wrest the GOP nomination from him — will be campaigning for Republicans and for the Goldwater ticket in New England.

In his Viet Nam statement, Goldwater said he would ask Eisenhower "to head up a group of qualified experts to go to South Viet Nam and report back on the situation in Southeast Asia."

U.S. forces are giving advice and aid to South Vietnamese troops in their jungle battle against Communist Viet Cong guerrillas.

"Only through a careful study by the best qualified experts this country has to offer can we meet the situation in South Viet Nam," the Arizona senator said.

The other man he mentioned for the task are former Minnesota Rep. Walter H. Judd, once a leading Republican voice in Congress on foreign affairs; retired Adm. Arleigh Burke, former chief of naval operations; and retired Gen. Mark Clark, a top U.S. commander during World War II and the Korean War.

Goldwater already has named Judd to head a six-man task force charting a Republican course on South Viet Nam and Southeast Asia.

"As this country's foremost military man and foremost statesman, Gen. Eisenhower is the man best qualified to fulfill this critical mission," Goldwater said in outlining his study plan.

"If I am elected I intend to come to grips with this vital question and at that time I want the very best and soundest advice available," Goldwater said.

The senator, who has made Johnson's policies in South Viet Nam a key campaign target, also said:

Six Americans Killed In Japan

YOKOHAMA, Japan (AP) — A U.S. Navy helicopter en route from Atsugi Naval Station to Yokohama Naval Base crashed and burned today, killing six Americans, the Navy announced.

The cause of the crash is being investigated. Names of the dead were withheld until next of kin were notified.

California Coeds Really Fenced In

SAN JOSE, Calif. (AP) — Housemother Sarah Hagerty reported that someone literally tried to keep the coeds boarded up at her San Jose State College boarding house.

An 8-foot-wall of cemented concrete blocks confronted her when she opened the front door Monday morning.

"It was college boys," she guessed, as she dismantled the still-wet wall.

Oil Production Drops

TULSA (AP) — Oil production dropped 22,180 barrels a day last week with declines in several states including Louisiana and Oklahoma, the Oil and Gas Journal said today.

Louisiana dropped 11,120 barrels a day, for a total of 1,516,430 daily. Oklahoma was down 8,000 for 537,900.

Production was up 3,300 barrels daily in Texas to 2,631,650. New Mexico at 306,530 was about the same as last week.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — Everyone is getting terribly excited about the face uplift of the Teotihyacan Pyramid City and people are writing asking all sorts of questions. Like, "Is it true the pyramids are being rebuilt?" and "When will the job be finished? We want to time our vacation with the opening . . ." and (honest, honest, honest) "Will it be possible for foreigners to buy a nice, colonial home in the pyramids after construction has been completed?"

Now if that last one means what I think it does, you should take up sword swallowing, lady.

So leave us explain things. This pyramid job is not a question of tearing things down and rebuilding them. It is merely a restoration project. Just like a lady gets home at 7 a.m. and barely has time to retouch her face before she pours a cuppa coffee in her ear and flees for the office.

It is a very ancient, religious city of some extinct parties. The government is restoring it so tourists can see how things operated in olden times. The government will stage authentic dances and rituals there for the benefit of tourists interested in antique cultures. The government owns this pyramid city, which is classified as a national monument, and you got the same chance of buying a "colonial" house (which came about 1,500 years later) there as you would picking up an apartment in the Lincoln Memorial. Nobody, including the government, knows exactly when the job will be finished. Best they can do is keep plugging and hope.

Anyone who can give information on house rentals in Guadalajara?

I'd suggest writing the Departmento de Turismo, Guadalajara Jalisco, Mexico. They have a list of many houses available plus prices. You will find rents in Guadalajara, Bangkok or Philadelphia are like everywhere else — depends on the neighborhood. The house. And what sort of gadgets it has.

* * *

When is Taxco Market day and is it worth seeing?

Every Sunday is the big outdoor market day in Taxco. And just about every market you could find in Mexico is worth seeing. Taxco specializes in silver, tin and copper items. Everything from rings and baby spoons to full service sets. Also I have seen some nice hand-woven blankets featured, along with some interesting furniture made around there. Get there EARLY in the morning, though. Markets are not afternoon functions.

* * *

Would appreciate a list of game animals and birds in Mexico, the seasons for hunting them and locations.

There are about 20 such fauna and fowl listed, practically all with different seasons and some with three or four locations. I think the Departmento de Turismo, Paseo de la Reforma, Mexico City can give you more complete information.

(Questions on Mexico. Write John Abney, Indianapolis 72, Mexico City 18, Mexico.)

Asthma & Hay Fever Sufferers Report Relief in Minutes

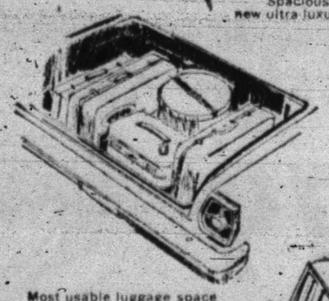
Remarkable Doctor's Formula Halts Sneezing, Clears Congestion Without Drugs or Injections

Amazing discovery by a respiratory Specialist. Relieves asthma attacks and sneezing due to hay fever so quickly first-time users are amazed. Opens congested bronchial tubes to restore free breathing without swallowing pills or liquids. Contains no sedative, hypnotic or narcotic drugs. Dr. Guild's Green Mountain Asthmatic Cigarettes or Compound sold without prescription at drug counters everywhere. Contains no tobacco. Ask for genuine Dr. Guild's Green Mountain Cigarettes or Compound. Get fast relief from attacks of asthma and hay fever. For FREE trial package of Asthmatic Cigarettes send name and address to: J. H. Guild Co., Dept. N, Rupert, Vt.

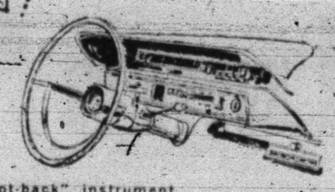
Only 17 cars (and they're all Fords) offer all these exciting new features for 1965!

Total Performance 1965 Ford Galaxie 500 LTD 4-Door Hardtop

Spacious interior of new ultra luxurious Ford LTD



Most usable luggage space ever in a Ford



New "swept-back" instrument panel provides more room. Optional Safety-Convenience controls previously available only on Thunderbird.

Unique reversible key works either side up

Only in Ford wagons: dual facing rear seats

You have 17 big Fords to choose from for '65—including luxurious LTD's and sporty XL's—the widest selection in the popular-priced field—with features you won't find on other cars at *any* price!

New body-frame-suspension system—Result: The strongest, smoothest Fords ever built. And the *quietest*—their all-new frame, body and suspensions virtually seal out noise and road shock.

New—automatic transmissions are all 3-speed—Smoother, more economical than the 2-speed automatics offered on some competing cars.

New 240-cu. in. Big Six—Gives you low gas bills, high performance. Bigger 6-cylinder engine than in any competing car.

New Safety-Convenience control panel—Has automatic door locks and lights which warn you when fuel's low, doors are ajar, and remind you that seat belts are unfastened.

New and bigger trunk—Generous room for various sizes and kinds of luggage as illustrated . . . or room for four big 2-suiters *upright*.

New dual-facing rear seats in Ford wagons—A Ford exclusive, ideal for families up to 10. Seats fold down for a lockable extra space below deck.

New reversible key—Works no matter which side is up.

New interior spaciousness—Lower transmission tunnel, new "swept-back" dash, and other interior changes make these the most comfortable Fords ever.

New array of courtesy lights—Illuminated doorways, ash tray, and interior. A real convenience for night driving.

Take a test drive—The list of new features could go on and on. The total result is something you simply have to see, feel, touch. Come in soon.

Test drive Total Performance '65... BEST YEAR YET TO GO FORD
