Says Chinese Endanger Red Goals

MOSCOW (AP)—Soviet Premier Khrushchev declared today the Chinese Communists "have created serious difficulties for the world Communist movement and placed it on the verge of a split."

At the same time, in a speech to a Polish-Russian friendship meeting in the Kremlin, he demanded a solution of the German question on the old Soviet basis — a peace treaty that would make West Berlin a "free city."

Speaking with rapid gestures, often smiling, talking very fast, the premier declared the Chinese are urging a revolutionary course which would lead to war.

Khrushchev said the Soviet system of advancing through economic competition was a better system than that of China.

"They say we are the revisionists," he declared, "but I ask, what do their people want —war or rice? I think they want rice."

He scoffed at the Chinese policy as likely to pose the question of whether the Soviet Union for instance, should make war on France in order to put the French workers into power.

"Who would die in that war?" he demanded. "Imperialists? No. The same working people would die as would die in China or elsewhere."

The meeting honored Polish Communist party chief Wladyslaw Gomulka and Premier Josef Cyrankieiwcz, who have been visiting Moscow since Monday.

Says Disease Not Hazard Of Orbiting

HOUSTON, Tex. (AP) — A space agency doctor says two cases of labyrinthitis contacted by two astronauts have no connection with each other or to outer space flights.

The illness, which settles in the inner ear and causes dizziness, varying loss of hearing and an upset equilibrium, canceled Lt. Col. John H. Glenn Jr. from the political wars in Ohio and may affect the future of Lt. Cmdr. Alan B. Shepard Jr., as an astronaut.

Dr. Charles A. Berry, Manned Spacecraft Center medical officer, said it would be many months before a final determination on Shepard's illness would be made.

The ailment first turned up in Shepard last June, although it was announced only Monday when the two Gemini space pilots were named.

Dr. Berry said it was believed Shepard was back to normal last October but the symptoms recurred about four weeks ago.

GEMINI PILOTS—Astronaut Virgil Grissom, gestures as he answers questions at a news conference at the Manned Spacecraft Center near Houston, Tex., after he and fellow-astronaut John W. Young, right, were named to pilot the first manned Gemini Spacecraft in a flight later this year. (AP Wirephoto)

Johnson Due Rail Report

By NEIL GILBRIDE

WASHINGTON (AP) — President Johnson gets a report today on the last-ditch railroad bargaining talks he arranged in an effort to avert a nationwide strike.

Johnson will hear from federal mediators what was originally scheduled as a report on "the progress and the effectiveness" of the first five days of the emergency talks following a 15-day strike postponement.

A highly cautious White House spokesman Tuesday refrained from even referring to it as a "progress" report.

"There is nothing thus far that in any way could be characterized as either progress or a set-back," he said.

The White House went to considerable pains to deny published reports that the talks could be described as optimistic.

"To characterize what is happening either in terms of optimism or pessimism is a disservice not only to the negotiations themselves but to accurate reporting," the spokesman said.

No specific time was set for the mediators' report to Johnson but most of the President's official morning schedule was routine and there was a big gap between 12:30 p.m. and 4:30 p.m.

This led to speculation that the mediators, headed by Secretary of Labor W. Willard Wirtz, might make their report sometime in the early afternoon.

"I want to make it clear that I do not know whether . . . the mediators will be able to say that progress has been made in the sense of 'we have moved within 10 feet of a solution' or 'we have moved within 13 feet of a solution,'" the spokesman said.

"I have no idea in the world, and I don't think the mediators would at this point, and I do not think the participants on either side would."

The negotiators and mediators were to meet in joint session at 9 a.m., the White House said.

The emergency talks are aimed at achieving in 15 days a settlement that the government, railroads and unions have failed to obtain in nearly five years of the dispute over wage structure and working conditions.

All other procedures under the law have been exhausted, and Johnson does not now have the power to order a halt or a postponement of a strike.

The President won the 15-day postponement just before some 200,000 engineers, firemen, switchmen, conductors and brakemen were to strike on nearly 200 railroads at 12:01 a.m. last Friday.

Although the White House is maintaining control of all official information on the talks, there are indications that both industry and union sources agree it is too early to predict the outcome.

The White House re-emphasized that Johnson wants today's report so he can determine if any other steps are needed to help the collective bargaining process.

Concert Assn. Membership List Grows

Reports handed in by the workers on the membership campaign of the Scurry Concert association today show that many new members have been signed. The success of last season's series which included the Jose Molina Bailes Espanol dance group has created added interest, said Mrs. Herbert Feather, general chairman of the association's membership drive.

The committee tries to vary the series as much as possible and next season the association will feature Caledonia - 22 singers and dancers from Scotland. Caledonia has been a smash hit throughout the United States and Canada. They made their television debut four years ago, in a program viewed throughout Great Britain.

The repertoire of Caledonia is extensive and includes every major facet of Scotland's folk music and dance. A special section of the program is dedicated to Robert Burns and includes songs set to his poems. The larger dance sequences feature the brilliant costumes of the Highlands.

The musical settings and arrangements have been created by Andrew MacPherson, artistic director of the group. The Singers and Dancers of Scotland, bring an additional treat; the colorful dress and costumes of the land. The stage springs to life with the vivid tartans worn by the women and the Royal Stewart kilts of the men.

The association is also considering the Rondoliers Trio for a second concert. This male trio offers something special in the field of concert attractions. Three outstanding young solo artists combine their talents in a distinguished and varied program of Art Songs, Operatic selections and Broadway Hit Tunes, with vocal arrangements by Charles Touchette.

The third concert will be chosen at the close of the campaign. As an added attraction the association will also present the Texas Tech Symphony Orchestra with Paul Ellsworth conducting, in the spring of next year.

Workers who have not handed in their reports today are urged to report tomorrow or Friday. Final reports must be in by Saturday April 18. Membership fees for the entire season are adults $7.50 and students $4.00—there are no other assessments. Further information can be obtained by calling campaign headquarters in the Community Room of West Texas State Bank - HI 3-9031.

Runaway Well Still Uncontrolled

CALUMET, Okla. (AP) — A runaway well that erupted with a roar Monday was still out of control today and spewing some two million cubic feet of gas into the air each 24 hours.

Billie Sol Is Denied Appeal Of Conviction Rejection Is Third

AUSTIN (AP) — The Texas Court of Criminal Appeals rejected for the third time today Billie Sol Estes' appeal of a swindling conviction but left clear the way for further appeals.

The court, Texas' highest for criminal cases, overruled a second rehearing request by the former West Texas farm financier.

However, a previous court opinion was reworded and this allows Estes to seek still another rehearing within 15 days.

The court in effect refused to alter its Jan. 15 ruling affirming the conviction and eight-year prison sentence assessed by a district court at Tyler in November, 1962.

The conviction was the first to follow the arrest of Estes in March, 1962, after executives from leading finance companies across the nation tried unsuccessfully for two days to straighten out his financial affairs at a Dallas meeting.

The arrest by federal officers was followed quickly by collapse of his multi-million-dollar fertilizer and grain storage empire.

The court's opinion denying Estes' first motion for rehearing was slightly rephrased to eliminate repetitious wording. The altered sentence dealt with a legal precedent and the change did not affect the meaning.

A court spokesman said that when an opinion is changed it automatically gives a petitioner one more opportunity to bring his case before the court.

Estes, 39 and now living in Abilene was convicted Nov. 7, 1962, on state charges that he induced a farmer to sign a $94,500 chattel mortgage on nonexistent fertilizer tanks.

The state contends Estes built his multi-million-dollar financial structure largely by discounting to finance companies the mortgage paper on fertilizer tanks leased from farmers who bought the tanks on credit. Estes' lawyers say he merely paid farmers a cash bonus for lending him their credit.

The conviction came after a 17-day trial featuring eight state witnesses and none for the defense.

Portions of the trial were filmed for television showing and pre-trial news coverage was so great a Pecos judge transferred the case 500 miles east to Tyler.

But the court affirmed the conviction Jan. 15, and one of the judges commented:

"The wheels of justice must not stop merely because an accused is of such prominence that he and his alleged misdeeds have been publicized throughout the state."

Estes asked a rehearing, again attacking courtroom television, and alleged juror prejudice. The court overruled him March 11. A second rehearing was filed April 8.

Estes has not yet argued another appeal, pending in federal courts, seeking reversal of an El Paso conviction and 15-year prison sentence March 28, 1963, for mail fraud and conspiracy.

The state attorney general's office has said it hopes to seek later this year a trial setting of its civil anti-trust suit against Estes and Commercial Solvents Co. of New York City. The suit alleges an attempt to fix the price of anhydrous ammonia fertilizer and asks $1 million in damages.

DRAFT LODGE DIRECTOR—David Goldberg, 34, Boston attorney who is field director for the Draft Lodge Committee, says the committee's pattern of campaigning in Oregon will be similar to the pattern used in New Hampshire. Lodge was an upset victor in New Hampshire. The Oregon primary is May 15. Lodge already is in first place among Republicans in some Oregon polls. (AP Wirephoto)

UN Troops Involved In Cyprus Clash

By HAL MCCLURE

NICOSIA, Cyprus (AP)—Scattered clashes flared on Cyprus again today and three Turkish Cypriots were reported killed. Canadian U.N. troops were shot at in two outbreaks and returned the fire.

Greek Cypriot sources said three Turks were killed during the night when Greek fighters overran an advance Turkish position in the Kyrenia Mountains. U.N. officers there are seeking to avert a pitched battle.

The Turks were among about 30 entrenched on a strategic hill 12 miles north of Nicosia.

U.N. headquarters said Canadian troops shot back after Turkish Cypriots fired on them in Trahonas, a Nicosia suburb, and in the Kyrenia Mountains. No Canadian casualties were reported.

Greek Cypriot authorities say the Turks must leave the hill because it overlooks a Greek-owned quarry and large farm on which the nearby villages of upper and lower Dhikomo are economically dependent.

In Nicosia, Lt. Gen. Prem Singh Gyani, the Indian U.N. troop commander, conferred for an hour with Turkish Cypriot Vice President Fazil Kuchuk, presumably about the Kyrenia crisis.

There was also scattered shooting during the night and this morning along the border between Turkish and Greek sectors in Nicosia.

A Turkish battle fleet sailed Tuesday from Iskenderun, 100 miles northeast of Cyprus, for a four-day maneuver. Turkish ships and troops have sailed out of Iskenderun repeatedly since the Cyprus crisis erupted, each time raising fears of an invasion of Cyprus.

Rift Widens Over Defense

By FRED S. HOFFMAN

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara permitted use of intelligence estimates to challenge Gen. Curtis E. LeMay because he wanted to kill at birth any myth about declining U.S. military superiority.

This was learned from defense officials today as the gulf widened between the strong-willed defense secretary and the equally strong-minded Air Force chief of staff.

Late Tuesday the Pentagon issued a statement stressing "the increasing military superiority of the United States." It came after publication of LeMay's February congressional testimony contending the Russians are narrowing the gap.

One high official familiar with McNamara's thinking said the defense secretary feels it is "dangerous to raise any doubts about our strength."

"He thinks it would be wrong to sit by and allow creation of a myth—and it is a myth in his judgment—that there is any lessening of our strength," this official said.

The Defense Department statement did not name LeMay. Authorities would not acknowledge it was aimed at the controversial Air Force chief of staff, who feels McNamara is placing too much reliance on missiles and waving the manned bomber to the sidelines too early.

Officials noted that there had been a spate of criticisms, including a new defense strategy paper spelling out the views of one of McNamara's strongest foes, Sen. Barry Goldwater of Arizona.

But Goldwater's paper dwelt mostly on the issue of missile reliability—which plunged him into collision with McNamara early in Goldwater's quest for the Republican presidential nomination. The senator is an Air Force Reserve major general.

Instead, the Pentagon blast was aimed clearly at disrupting questions raised "regarding the magnitude of our superiority and whether it is continuing to grow." LeMay's published testimony raised those questions.

Officials would neither confirm nor deny whether McNamara had initiated the statement, which was issued in the name of the Defense Department.

But they said it would not have come out "without the approval or knowledge of the secretary."

Waters Threaten To Isolate Ga. Town

NEWTON, Ga. (AP) — The rising Flint River is spilling floodwaters into swamplands surrounding the town of Newton and threatens to close the last remaining route out of this community of some 2,500.

Sheriff L. W. Johnson said all roads but one from the Baker County community are inundated. The river, however, is expected to recede rapidly after it reaches its crest at about 31 feet —7 feet over flood stage—today, and the isolation would be brief.

The floods were caused by several days of heavy rains in north Georgia.

Senators Search For Compromise

By JOHN CHADWICK

WASHINGTON (AP) — The behind-the-scenes search for a first-step compromise went forward today as the Senate's wordy floor battle over the House-passed civil rights bill moved into its 31st day.

Although President Johnson has called on the Senate to pass the bill without change, Republican Leader Everett M. Dirksen of Illinois said flatly there would be amendments.

But Dirksen, trying to thread his way through sharp differences among his GOP colleagues, was much less definite about what the changes would be.

Sen. Richard B. Russell, D-Ga., leader of the Dixie forces, refused comment on the amendments Dirksen is working on. "We haven't seen them yet," he told reporters.

A similar wait-and-see position has been taken by assistant Democratic Leader Hubert H. Humphrey, floor manager of the bill. He has made clear he will oppose weakening any essential features of the legislation.

Russell said he will offer an amendment providing that the bill, if it is passed, will not become effective unless it is approved by majority vote in a national referendum.

"The people ought to be heard before we change our form of government," he said.

WEATHER

SNYDER TEMPERATURES: High Tuesday, 78 degrees; low, 48 degrees; reading at 7 a.m. today, 53 degrees.

North Central Texas: Fair through Thursday. Warmer tonight. Lows tonight 54-63. Highs Thursday 80-88.

Northeast Texas: Fair through Thursday. Warmer tonight. Lows tonight 50-59. Highs Thursday 80-86.

Northwest Texas: Fair through Thursday. Windy with southwesterly winds 20 to 35 miles per hour. Warmer tonight. Lows tonight 46 to 58 southeast. High Thursday 80-88.

Coast: East to southeast winds 8-18 knots tonight and Thursday. A few showers lower coast tonight.

South Central Texas: Partly cloudy and mild tonight and Thursday except mostly cloudy late tonight and early Thursday. A few showers extreme south portion tonight. Lows tonight 55-65. Highs Thursday 85-92.

Southeast Texas: Clear to partly cloudy and mild tonight and Thursday. Lows tonight 57-65. Highs Thursday in 80s.

Southwest Texas: Clear to partly cloudy and mild tonight and Thursday. Lows tonight 55-63. Highs Thursday 86-92.

EMERGENCY SETUP

Belgium's Seriously Ill Haven't Gone Unattended

By PHILIPPE NEURAY

BRUSSELS, Belgium (AP)—The seriously ill have been getting adequate treatment or better since the 15-day-old doctors' strike began, but those with minor ailments have to shift for themselves.

With most of Belgium's 10,000 doctors on strike against a new medical insurance law, there was general apprehension that many patients would die unattended.

Urgent cases on the whole have been taken care of under an emergency setup organized by the physicians and taken over three days ago by the government.

Premier Theo Lefevre's government issued a decree Sunday calling for mobilization of 3,600 army reserve doctors, and requisitioning civilian doctors attached to hospitals. It says it has mobilized about 5,700 physicians.

The situation in many parts of Belgium, however, is reaching a critical point, with hospitals overcrowded and the danger of epidemics increasing.

Strike leaders claim their emergency setup is collapsing since the government took it over. The Interior Ministry blames the strikers, accusing them of sabotage.

During the 12 days the doctors ran the emergency service, with 2,000 physicians on day and night duty, there were no reports of danger to health.

For the poorer Belgians who were emergency cases, medicine and treatment were free.

There have been cases of hardship, especially for patients who wanted to be treated at home.

Hospital wards are overcrowded and patients are sent home as quickly as possible. Personal nursing attention is becoming nonexistent.

Although 3,600 military reserve doctors have been called to active duty this does not seem to help. Many come on foot, without their medical instruments.

There was talk of nurses joining the strike. But one head nurse laughed: "We have too much work to go on strike."

Since the government ordered private clinics reopened Sunday, any patient can attend them free—for the time being.

Some low-income patients find themselves in $24-a-day suites in fashionable clinics.

Following strict military regulations, some doctors are sending patients to the hospital with the slightest fever.

Military hospitals have been opened to civilians but they are reaching the saturation point. Emergency hospitals have been set up in schools and other public buildings.

STATE SCHOOL SITE PROPOSAL TO BE HEARD

A member of the site selection committee for the proposed State School for mentally retarded children is scheduled to be in Snyder tomorrow.

James M. Osborne of Muleshoe, a member of the committee, is scheduled to make the visit here. He will be conducted on a tour of two possible local sites for the school, after which a detailed presentation of the Snyder proposal will be made. A number of West Texas towns are seeking the new school, which already has been earmarked for the West Texas area.

IN VIET NAM

SEATO Pledges To Resist Reds

By DON HUTH

MANILA (AP) — The Southeast Asia Treaty Organization expressed "grave concern" today about continuing Communist aggression in South Viet Nam and agreed that members of the eight-nation alliance "should remain prepared if necessary to take further concrete steps" under the SEATO treaty.

The SEATO ministers agreed that the defeat of the Communist campaign "is essential not only to the security of the Republic of Viet Nam but to that of Southeast Asia.

"It will also be convincing proof that Communist expansion by such tactics will not be permitted."

France, which has proposed neutralization of Viet Nam and recognized Communist China, said that "under the present serious circumstances it was wise to abstain from any declaration."

The ministers set forth their views in a communique summing up their three-day 10th anniversary meeting.

They agreed that SEATO has had, and continues to have "a most important stabilizing influence in Southeast Asia."

The communique said the SEATO countries — The United States, Britain, France, Australia, New Zealand, Pakistan, Thailand and the Philippines—have continued over the past year "to enjoy peaceful progress and national security."

It added, however, that the Communist threat remains.

"Despite the sharpening of the Sino-Soviet dispute," the communique said, "world domination remains the aim of communism and thus vigilance must not be relaxed."

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: We have a telephone and our next-door neighbors have none. When they first moved in, they asked if they could use our phone. Thinking it would be only a short while before they had theirs connected, I said certainly. It has been a year and they are still using ours. There are five of them who use it, including a teenager who makes one call after another, some of them lasting 30 or 40 minutes. These people can afford their own phone, Abby, as three in the family work. I've thought of taking the receiver off the hook and saying it is out of order, but I hate to lie. Can you suggest something?

B. S. M.

DEAR B.S.M.: Some people have so much gall they should be divided into three parts. Tell these clods that you have a ONE-PARTY line — and you are the party!

• • •

DEAR ABBY: What does it mean when your steady boy friend tells you that he thinks it would be best if you dated other boys, and he thinks he should date other girls? We didn't have a fight or anything like that, and I thought we were perfect for each other. We have gone steady for five months, one week and four days. Should I break up with him for good? He is 17 and so am I.

CRYING MY EYES OUT

DEAR CRYING: Dry your eyes and date others, honey. I think he has already "broken up" with you.

• • •

DEAR ABBY: Regrettably, the public doesn't know the difference between wild pigeons which fly around uncontrolled, making a mess, and the domesticated variety, which is kept under sanitary conditions and is not a nuisance to neighbors. Domestic pigeons do not carry diseases! During World War One and Two, carrier (or racing) pigeons saved thousands of lives, as they have in other disasters. Abby, if there is reincarnation, I am returning as a pigeon, and all those uniformed pigeon haters who condemn all pigeons had better watch out. You may print this, together with my signautre.

BILL (WILD) FRAME, MARION, INDIANA

• • •

DEAR ABBY: You would be doing a tremendous service if you would print in your column the answer to a question that has been the source of many harsh words in this household? What does "PERSONAL" mean on the envelope of a letter?

"D" IN TOPEKA

DEAR "D": It is a reminder that the letter is just that — "personal" — and not community property, as mail is regarded in some households.

• • •

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self - addressed envelope.

• • •

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

FIRST BOOK—Ed Phy, editor of the Travis Junior High School "memory book" hands the first copy to seventh grade student Jimmy Dale Vaught, son of Mr. and Mrs. H. A. Vaught, Jr. Jimmy was the first to pay for his book, and thereby became the first to receive one. The books were distributed to the students today.

LBJ Outdances Jordanian King

WASHINGTON (AP) — President Johnson outdanced 28-year-old King Hussein of Jordan, but he found they had something in common—a desire to get closer to their people.

In a champagne toast Tuesday night to the visiting Arab monarch, Johnson confided to 149 guests at a state dinner that Hussein "in his desire to be closer to his people has been known to disguise himself and drive a taxicab through the streets of his capital."

Johnson said he hasn't yet "found a successful disguise" for himself, though "the streets of our national capital are sometimes crowded with cabs."

"But," said the President, "I am trying to spend the weekends lately with the people of my country who are touring Washington."

Johnson has been out in the spring weather, walking on the south lawn and making occasional forays to see the sightseers.

He did it Tuesday after his noontime official conference with Hussein.

And, he confided at Tuesday's formal dinner that he means to do it "every chance I get."

The President and Mrs. Johnson invited the Dave Brubeck jazz quartet to provide after-dinner music for Hussein, a devotee of jazz. And, the east ballroom rocked with their improvisations and frenzied drumming by Eugene Wright.

Later, the whole party moved into the more intimate blue room, where Mrs. Johnson and the king started the dancing to "Fantastic," played by the Air Force Strolling Strings.

The circular room got crowded at times and some guests moved to nearby corridors to watch and sip champagne and after-dinner drinks.

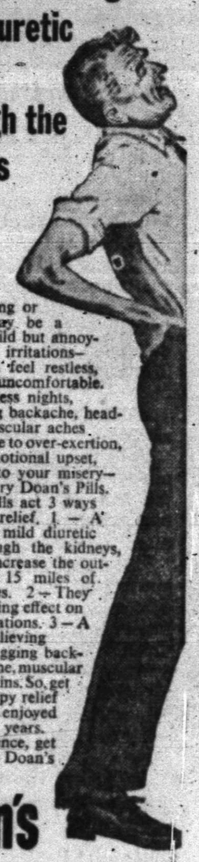
Johnson danced just about every dance, switching partners often in mid-tune. The king kept twirling, too.

But, at 11:15 p.m., the king said his goodbys, and the Johnsons took a break to walk him to the door. Other guests left, too. But the President went back for more dancing. He kept it up until shortly after midnight.

Among the late dancers was British economist-author Barbara Ward. The President said he had recently read one of her books and he cut in several times to dance with her.

Backache

relief pills bring mild diuretic action through the kidneys



Unwise eating or drinking may be a source of mild but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache, or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills.

Doan's Pills act 3 ways for speedy relief. 1 — A wonderfully mild diuretic action through the kidneys, tending to increase the output of the 15 miles of kidney tubes. 2 — They have a soothing effect on bladder irritations. 3 — A fast pain-relieving action on nagging backache, headache, muscular aches and pains. So, get the same happy relief millions have enjoyed for over 60 years. For convenience, get the large size Doan's Pills today!

Coal Miners To End Long Strike

WHITEWELL, Tenn. (AP) — Some 300 coal miners will return to work soon, ending southeast Tennessee's longest and bloodiest coalfield strike, a union official says.

It will be an economic stimulant for this Appalachian Mountain area's struggle against poverty.

Albert Pass, secretary - treasurer of District 19 of the United Mine Workers Union, announced Tuesday that five locals had signed contracts with operators who are subleasing land.

Stamper Collins of Oak Ridge, head of Whitwell Mining Co., said he had signed a contract and planned to hire 50 men initially. He said the dozen men who sublease land from him may have signed contracts also.

The strike began Dec. 26, 1962, when 600 miners walked out to back up demands for new agreements.

Violence has stemmed chiefly from operations of Grundy Mining Co., a small firm which has continued to operate with the help of court orders forbidding UMW picketing. The 150 Grundy employes are members of the rival Southern Labor Union.

Bombings, snipings and similar incidents were regular nightly occurrences during the past year. Violence reached a peak last summer when three men were slain.

Pass said the new coal mines had signed the 1964 UMS national contract. In negotiations prior to the strike, operators contended they could not pay the UMW's scale and compete with mechanized western Kentucky mines.

Famous Mexican Architect Dies

MEXICO CITY (AP)—Nicolas Mariscal y Pina, one of Mexico's most famous architects, died Tuesday after a long illness. He was 89.

He was dean of the National University School of Architecture and a member of the Spanish Plastic Arts School, as well as a score of other international organizations and colleges.

In addition to designing many of Mexico City's major buildings, he also wrote several books on architecture.

Death was attributed to a kidney infection.

Woman Nears End Of Solo Flight

OAKLAND, Calif. (AP)—Aviatrix Geraldine Mock headed for Oakland today, closing in on her goal of becoming the first woman to fly solo around the world.

The 38-year-old Columbus, Ohio housewife expected to land at Oakland Airport at 11:57 a.m. PST, 16½ hours after taking off from Honolulu in her single-engine plane.

Mrs. Mock disclosed her new flight plan when she landed in Hawaii, calling for her to fly back to Columbus from the West Coast—via El Paso, Tex. That would allow her to make the official around-the-world mileage she needs—22,858.8 miles.

Judge Gives Choice In DWI Conviction

FULTON, Mo. (AP)—If You are a drinking driver, and convicted in Callaway County, you can go to jail or clean up the litter on the highways—concentrating on beer cans and liquor bottles.

Judge Hugh P. Williamson offered Malcolm Dalrymple, 21, a student at Westminster College from Brentwood, Mo., his choice Monday when he pleaded guilty to careless and reckless driving while drinking.

Asks Mercy For Negro

AUSTIN (AP) — The State Pardons Board has under advisement today a plea that it recommend mercy for Lawrence O'Conner, scheduled to die April 26 in the 1962 rape of a Houston woman.

State Rep. J. Charles Whitfield asked the board Monday to recommend to Gov. John Connally commutation of the sentence to life imprisonment. He said he doubts the accuracy of the white woman's identification of O'Conner as one of several Negroes who assaulted her in a Houston school yard. The woman's male escort was beaten and robbed.

The problem of identifying a Negro by a white person, especially when he is in a group of Negroes is difficult, I think, even in broad open daylight. The problem of identification is, to me as one of the executioners, a haunting one." Whitefield said.

Echols' execution is set for May 7.

Syria Declares State Of Emergency

DAMASCUS, Syria (AP)—Gunfire broke out in the central Syrian city of Hamah today and the government ordered troops to bombard houses harboring rebels.

Syria's Socialist regime sealed off the city, 125 miles north of Damascus, by ordering a state of emergency and a 24-hour curfew until further notice.

Mishaps Reported

The Snyder police department reported a minor 2-car mishap at 11:26 a.m. Tuesday at Twenty-sixth Street and Avenue W. Involved were a 1960 Rambler driven by Charlotte Dulaney and a 1964 Pontiac driven by Anna H. Schattel. Damage to the Dulaney car was estimated at $50 and to the Schattel car at $150.

The department also reported a mishap at 3:36 p.m. at Thirty-seventh street and Avondale Drive. Involved were a 1955 Plymouth driven by Beulah Crumly Starnes and a 1963 Chevrolet driven by Paul Lucian Browning. Damage to the Starnes car was estimated at $200 and to the Browning car at $70.

There were no injuries in either mishap.

Humble Is Challenged

LOS ANGELES (AP) — The Justice Department is challenging plans of Humble Oil & Refining Co. to take over West Coast operations of Tidewater Oil Co.

The government filed suit Tuesday to block the $329 million transaction, scheduled for completion April 30. It also asked that Humble divest itself of Monterey Oil Co., a Los Angles-based firm acquired in 1961.

Humble, with headquarters in Houston, is a subsidiary of Standard Oil of New Jersey, described as the nation's largest industrial concern in terms of assets.

A government spokesman said completion of the deal would wipe out actual and potential competition in West Coast petroleum marketing.

Conditional Aid Set For Brazil

By ARY MOLEON

WASHINGTON (AP) — The United States was reported ready today to provide substantial economic aid to Brazil if President Humberto Castello Branco adopts effective belt - tightening measures.

Castello Branco takes his presidential oath today. He has been given the most sweeping powers ever granted a Brazilian chief executive.

The United States, and other sources of financial aid, are holding up almost $500 million dollars in assistance to Brazil due to runaway inflation there.

Fiscal reform is regarded in Washington as one of Brazil's most urgent needs.

The United States and other sources held up economic aid last year when now-ousted President Joao Goulart failed to fulfill a pledged economic stabilization program.

Washington withheld $224.5 million for balance of payments support. The International Monetary Fund is believed to have rejected Goulart's request for $100 million last year. European countries and Japan were expected to produce an additional $100 million in aid but a Brazilian mission to Europe failed to get it shortly before Goulart's downfall.

Secretary of State Dean Rusk said at his last news conference the United States is ready to work very closely with the new government of Brazil in tackling Brazil's difficult problems of economic and social development.

China Grove News

BY MRS. N. F. HALL

Those attending the National Hot Rod drag races at the tracks in San Angelo Sunday were Mr. and Mrs. R. L. Hall and Wetonia, Rayburn White, Tony Castillo, Darrell Mize and J. D. Hall. J. D. was a participant and won first place, an 18 inch trophy.

Recent guests of Mr. and Mrs. Jess Brown were Mr. and Mrs. Dan Hall of Cisco and Mr. and Mrs. Johnny Brown and children of Colorado City.

Mr. and Mrs. Ivan Beazley of Snyder recently visited Mr. and Mrs. D. L. Cotton.

Jackie Hall spent the weekend visiting her grandparents, Mr. and Mrs. Reed Ashley and children of Snyder.

Mr. and Mrs. Sam Haggerton of Colorado City recently visited Mr. and Mrs. Everett Haggerton and family.

Jon Deuroan of Midland was a Tuesday night guest of Mr. and Mrs. Martin Murphy and J. B.

Mr. and Mrs. J. B. Oliver of Tahoka visited in the N. F. Hall home Friday.

Mrs. W. C. Wood visited Mr. and Mrs. Russell Dunn and children of Loraine over the weekend.

Mr. and Mrs. Tommy Jones of Lubbock visited Mr. and Mrs. Pete White and Rayburn over the weekend.

The public is invited to attend the Baptist Jubilee revival at the Buford Baptist Church this week. Evangelist Allan Cartrite, pastor of Greenhill Baptist Church of Snyder is preaching and Henry Hoyle is song leader.

Toperettes Hold Meet Tuesday

Snyder Toperettes met at Stanfield Elementary at 7 p.m. Tuesday with nearly all members present. A new member, Joy Early was present. Roll call was answered by amount of weight lost or gained.

Mrs. Alfred Lieb, president, discussed with the members, the club's present meeting time. Some had said they would like to meet later. It was decided to meet at 7 until school was out and then the time would be changed to 7:30 p.m.

Saturday in Lubbock was TOPS Recognition Day and the members that attended gave interesting talks on the various activities and events that took place.

There are two KOPS in waiting, they are Edna Holmes and Muriel Mapes. For the next three months they will have to be careful as to not gain or lose too much.

Visitors from Rotan were present at the meeting. The club's system was discussed and questions were answered.

Teenage Dancers Perform For Cancer Drive

The Shirts and Skirts Teenage Square Dance Club of Snyder went to Gail last Friday to put on an exhibition for a cancer drive.

Those attending were: Linda Schattel, Danny Stokes, Gene House, Brenda House, Danny Howell, Linda Tadlock, Patsy Rainwater, Jimmy Sawder, Jerry Lin Hudgins and Diane Ervin. They danced to "Walking to Kansas City," "Tie Me Kangaroo Down," and "The Schottiche."

The group was escorted by Mr. and Mrs. Leo Schattel, Mr. and Mrs. Bud House and Mr. and Mrs. Robert Erwin.

The club is having their teenage dance on April 24th. The public is invited to come out and watch. Bill Wood of Big Spring will call.

WOMEN'S CALENDAR

THURSDAY

Order of Eastern Stars will hold election of officers at 7:30 p.m. at Masonic Hall. Hostesses, Lorita Keller, Pauline Boyd, Helen Thornburg, Mae Brush and Vea Fulgrum.

Gamma Upsilon Chapter of ESA meets with Joan Waters, hostess.

Twilight Garden Club Spring Garden Show at Martha Ann Woman's Club. Theme "Raptures of Springtime."

Irá P-TA meets at 7:30 p.m. at high school.

FRIDAY

Duplicate Bridge at Country Club, 9:30 a.m. Open.

Family night at Snyder Country Club, 8 p.m.

El Feliz Club meets at 2:30 p.m. at Marth Ann Woman's Club. Mrs. Frank Wilson, hostess.

Should you get a speck of egg yolk in the egg whites when you are separating the yolks from the whites you can remedy matters by touching the bit of yolk with a moist cloth. The yolk will stick to the cloth.

Low Cost Laundering

If you're looking for two laundry appliances at the lowest cost, ask your dealer to show you a combination washer-dryer. Manufacturers point out that a combination model is less expensive than a pair of separate appliances of similar quality.

ALL ABOUT BABIES

A Public Service of the National Baby Care Council

HOBBIES FOR YOUNG MOTHERS —

By William L. MacMillan, Jr.
Executive Director
Hobby Industry Association of America, Inc.

When baby comes, mother automatically concentrates all of her physical and mental energy on him. She is alert to every sound and stir from the crib, and unconsciously showers all her love and attention in that direction 24 hours a day.

But, to follow the sound advice of both medical and mental health authorities, she would be doing herself and baby a genuine service by reserving time each day for herself, time out for a hobby. This should be a special part of every day, perhaps an hour during baby's nap or after he has been tucked in for the night.

Since mother's hobby is something she selects because she enjoys doing, it can become one of the most eagerly anticipated parts of her day, her personal reward for putting up with the dozens of little annoyances that could leave her unpleasant or irritable. Mother will find that while a hobby refreshes her outlook, it can yield practical and rewarding results too.

If she has a yen to brighten up the living room, she can make a set of mosaic tile ashtrays with candy dish and matching tile trivot for carafe; add sparkle to walls with paint-by-number scenes, a pebble or sand painting; or provide inexpensive accessories through a toleware serving tray, planter or magazine rack. And how proud she'll be when she tells admirers she did it herself.

If Dad has been feeling slightly neglected since baby arrived, the wise young mother will devote some of her hobby time to him. He would be pleasantly surprised with a leather belt or wallet, a copper and enamel cuff link and tie-clasp set, or an offer to help with the new scenery he wants for is model railroad layout.

Mother should be sure to use hobby time to make something she wants for herself, too. There are a number of interesting accessories or jewelry pieces to try; braided belts or earrings, lovely shell pins, a hand-tooled shoulder bag or soft moccasins.

Mother might devote hobby time to learning something entirely new. This could include anything from identifying the insects that attack her favorite roses to "what weather is all about," subjects she could have fun learning with hobby -science kits.

No matter which hobby project mother decides to try, the important thing is to choose something and spend time with it regularly. Both her life and baby's will be richer for it.

All The Kooks At Sea

THERE YOU ARE, BUT WHERE ARE YOU? By Robert Mirvish.

The old tub's name was the S.S. Flying Wind, but a more appropriate tag would have been The Floating Nuthouse.

She was a rusty old cargo vessel, pressed into merchant marine service in World War II. She was manned by a highly assorted crew of eccentrics, misfits, castoffs and screwballs.

Her skipper, Lardgrass, was a spouter of twisted cliches who had little faith in modern equipment or aids to navigation. Staffordson, the 80-year-old chief engineer, displayed a ghoulish glee in reading the obituaries of younger friends and acquaintances.

The radio officer, Sparks, had a thing about animals. On a visit to North Africa he solved his alarm clock problems by acquiring a scrawny little rooster, which he fed minced rubber bands, soaked in olive oil and other condiments. At another port he tried to bring a gorilla aboard, but the skipper broke that up at the gangplank. on the ground he had ship's papers for only one ape, "and which one of you is coming aboard?"

Then there was a young refugee from a laughing academy Motherford, who turned a Russian banquet at Murmansk into a shambles by offering a toast "to that great Russian leader, Leon Trotsky."

Skills Day For Girl Scout Adults

All adults in the West Texas Girl Scout Council are invited to share in the fun of a Skills Day at Camp Boothe Oaks on Wednesday, April 22, from 9:30 a.m. until 3:30 p.m.

The purpose of this special outdoor day is to teach Girl Scout adults how to use tools, the compass, how to lash outdoor furnishing, how to pitch and strike a tent, and how to make a comfortable unit home. These skills will be useful to troop leaders, assistant leaders, and troop committee members who plan outdoor adventures with their girls the year 'round —either in troops or in Day Camps.

The adult Skills Day has become an annual event in the West Texas Council; having new outdoor experiences at Camp Boothe Oaks is fun in itself. Also, those who come enjoy the opportunity of meeting women from other parts of the 16-county area of the West Texas Council.

All Girl Scout adults who would like to participate in the 1964 Skills Day are invited to come to Camp Boothe Oaks (8 miles southwest of Sweetwater off state highway 70) on April 22. Participants should bring a sack lunch, a pocket knife, and a compass (if they have a compass available).

Each should register for this outdoor training either by telephoning the West Texas Girl Scout Council headquarters (OR 3-7868) or by writing to the council at 304 Mulberry in Abilene, by April 18.

The 1964 Skills Day will be coordinated by Mrs. D. M. Costlow, District Adviser in the West Texas Council.

Lamesa Garden Club To Hold Yard Pilgrimage

The Dawson County Garden Club at Lamesa is sponsoring a yard pilgrimage to be held on May 3rd from 2 to 5 p.m. Eight yards, all beautifully done, are to be shown. One is a farm home with acres of landscaping, which promises viewers an enjoyable and profitable tour.

Mrs. Hoyt McClendon, club president extends an invitation to all local persons interested, and remarked that the club has enjoyed their visits in Snyder.

Tickets are 50 cents per person and may be obtained at 711 North Nineteenth. Persons entering Lamesa on either the Lubbock or Big Spring Highway, turn West on North Fourteenth, follow to Avenue G and turn north. Continue to North Nineteenth, 711 is on the corner.

Green Salad Plus

4 cups salad greens
½ cups thin strips Meunster cheese
½ cup thin strips cooked ham
1 cucumber, pared and sliced thin
French dressing and seasonings
1 avocado, peeled and sliced thin
Thinly sliced shallots or red onion rings

Gently toss together the salad greens, cheese, ham and cucumber. Toss again with enough French dressing to moisten and flavor, adding salt, pepper and seasoned salt if desired. Garnish with avocado and shallots or onino rings. Makes 4 main-dish servings.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: We have a telephone and our next-door neighbors have none. When they first moved in, they asked if they could use our phone. Thinking it would be only a short while before they had theirs connected, I said certainly. It has been a year and they are still using ours. There are five of them who use it, including a teenager who makes one call after another, some of them lasting 30 or 40 minutes. These people can afford their own phone, Abby, as three in the family work. I've thought of taking the receiver off the hook and saying it is out of order, but I hate to lie. Can you suggest something?

B. S. M.

DEAR B.S.M.: Some people have so much gall they should be divided into three parts. Tell these clods that you have a ONE-PARTY line — and you are the party!

• • •

DEAR ABBY: What does it mean when your steady boy friend tells you that he thinks it would be best if you dated other boys, and he thinks he should date other girls? We didn't have a fight or anything like that, and I thought we were perfect for each other. We have gone steady for five months, one week and four days. Should I break up with him for good? He is 17 and so am I.

CRYING MY EYES OUT

DEAR CRYING: Dry your eyes and date others, honey. I think he has already "broken up" with you.

• • •

DEAR ABBY: Regrettably, the public doesn't know the difference between wild pigeons which fly around uncontrolled, making a mess, and the domesticated variety, which is kept under sanitary conditions and is not a nuisance to neighbors. Domestic pigeons do not carry diseases! During World War One and Two, carrier (or racing) pigeons saved thousands of lives, as they have in other disasters. Abby, if there is reincarnation, I am returning as a pigeon, and all those uniformed pigeon haters who condemn all pigeons had better watch out. You may print this together with my signature.

BILL (WILD) FRAME, MARION, INDIANA

• • •

DEAR ABBY: You would be doing a tremendous service if you would print in your column the answer to a question that has been the source of many harsh words in this household? What does "PERSONAL" mean on the envelope of a letter?

"D" IN TOPEKA

DEAR "D": It is a reminder that the letter is just that — "personal" — and not community property, as mail is regarded in some households.

• • •

Get it off your chest. For a personal, unpublished reply, write to ABBY, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

• • •

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

FIRST BOOK—Ed Phy, editor of the Travis Junior High School "memory book" hands the first copy to seventh grade student Jimmy Dale Vaught, son of Mr. and Mrs. H. A. Vaught, Jr. Jimmy was the first to pay for his book, and thereby became the first to receive one. The books were distributed to the students today.

LBJ Outdances Jordanian King

WASHINGTON (AP) — President Johnson outdanced 28-year-old King Hussein of Jordan, but he found they had something in common—a desire to get closer to their people.

In a champagne toast Tuesday night to the visiting Arab monarch, Johnson confided to 149 guests at a state dinner that Hussein "in his desire to be closer to his people has been known to disguise himself and drive a taxicab through the streets of his capital."

Johnson said he hasn't yet "found a successful disguise" for himself, though "the streets of our national capital are sometimes crowded with cabs."

"But," said the President, "I am trying to spend the weekends lately with the people of my country who are touring Washington."

Johnson has been out in the spring weather, walking on the south lawn and making occasional forays to see the sightseers.

He did it Tuesday after his noontime official conference with Hussein.

And, he confided at Tuesday's formal dinner that he means to do it "every chance I get."

The President and Mrs. Johnson invited the Dave Brubeck jazz quartet to provide after-dinner music for Hussein, a devotee of jazz. And, the east ballroom rocked with their improvisations and frenzied drumming by Eugene Wright.

Later, the whole party moved into the more intimate blue room, where Mrs. Johnson and the king started the dancing to "Fantastic," played by the Air Force Strolling Strings.

The circular room got crowded at times and some guests moved to nearby corridors to watch and sip champagne and after-dinner drinks.

Johnson danced just about every dance, switching partners often in mid-tune. The king kept twirling, too.

But, at 11:15 p.m., the king said his goodbys, and the Johnsons took a break to walk him to the door. Other guests left, too. But the President went back for more dancing. He kept it up until shortly after midnight.

Among the late dancers was British economist-author Barbara Ward. The President said he had recently read one of her books and he cut in several times to dance with her.

Backache

relief pills bring mild diuretic action through the kidneys

Unwise eating or drinking may be a source of mild but annoying bladder irritations—making you feel restless, tense, and uncomfortable. And if restless nights, with nagging backache, headache, or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills.

Doan's Pills act 3 ways for speedy relief. 1 — A wonderfully mild diuretic action through the kidneys, tending to increase the output of the 15 miles of kidney tubes. 2 — They have a soothing effect on bladder irritations. 3 — A fast pain-relieving action on nagging backache, headache, muscular aches and pains. So, get the same happy relief millions have enjoyed for over 60 years. For convenience, get the large size Doan's Pills today!

Coal Miners To End Long Strike

WHITEWELL, Tenn. (AP) — Some 300 coal miners will return to work soon, ending southeast Tennessee's longest and bloodiest coalfield strike, a union official says.

It will be an economic stimulant for this Appalachian Mountain area's struggle against poverty.

Albert Pass, secretary-treasurer of District 19 of the United Mine Workers Union, announced Tuesday that five locals had signed contracts with operators who are subleasing land.

Stamper Collins of Oak Ridge, head of Whitwell Mining Co., said he had signed a contract and planned to hire 50 men initially. He said the dozen men who sublease land from him may have signed contracts also.

The strike began Dec. 26, 1962, when 600 miners walked out to back up demands for new agreements.

Violence has stemmed chiefly from operations of Grundy Mining Co., a small firm which has continued to operate with the help of court orders forbidding UMW picketing. The 150 Grundy employes are members of the rival Southern Labor Union.

Bombings, snipings and similar incidents were regular nightly occurrences during the past year. Violence reached a peak last summer when three men were slain.

Pass said the new coal mines had signed the 1964 UMS national contract. In negotiations prior to the strike, operators contended they could not pay the UMW's scale and compete with mechanized western Kentucky mines.

Famous Mexican Architect Dies

MEXICO CITY (AP)—Nicolas Mariscal y Pina, one of Mexico's most famous architects, died Tuesday after a long illness. He was 89.

He was dean of the National University School of Architecture and a member of the Spanish Plastic Arts School, as well as a score of other international organizations and colleges.

In addition to designing many of Mexico City's major buildings, he also wrote several books on architecture.

Death was attributed to a kidney infection.

Woman Nears End Of Solo Flight

OAKLAND, Calif. (AP)—Aviatrix Geraldine Mock headed for Oakland today, closing in on her goal of becoming the first woman to fly solo around the world.

The 38-year-old Columbus, Ohio housewife expected to land at Oakland Airport at 11:57 a.m. PST, 16½ hours after taking off from Honolulu in her single-engine plane.

Mrs. Mock disclosed her new flight plan when she landed in Hawaii, calling for her to fly back to Columbus from the West Coast—via El Paso, Tex. That would allow her to make the official around-the-world mileage she needs—22,858.8 miles.

Judge Gives Choice In DWI Conviction

FULTON, Mo. (AP)—If You are a drinking driver, and convicted in Callaway County, you can go to jail or clean up the litter on the highways—concentrating on beer cans and liquor bottles.

Judge Hugh P. Williamson offered Malcolm Dalrymple, 21, a student at Westminster College from Brentwood, Mo., his choice Monday when he pleaded guilty to careless and reckless driving while drinking.

Asks Mercy For Negro

AUSTIN (AP) — The State Pardons Board has under advisement today a plea that it recommend mercy for Lawrence O'Conner, scheduled to die April 26 in the 1962 rape of a Houston woman.

State Rep. J. Charles Whitfield asked the board Monday to recommend to Gov. John Connally commutation of the sentence to life imprisonment. He said he doubts the accuracy of the white woman's identification of O'Conner as one of several Negroes who assaulted her in a Houston school yard. The woman's male escort was beaten and robbed.

The problem of identifying a Negro by a white person, especially when he is in a group of Negroes is difficult, I think, even in broad open daylight. The problem of identification is, to me as one of the executioners, a haunting one." Whitefield said.

Echols' execution is set for May 7.

Syria Declares State Of Emergency

DAMASCUS, Syria (AP)—Gunfire broke out in the central Syrian city of Hamah today and the government ordered troops to bombard houses harboring rebels.

Syria's Socialist regime sealed off the city, 125 miles north of Damascus, by ordering a state of emergency and a 24-hour curfew until further notice.

Mishaps Reported

The Snyder police department reported a minor 2-car mishap at 11:26 a.m. Tuesday at Twenty-sixth Street and Avenue W. Involved were a 1960 Rambler driven by Charlotte Dulaney and a 1964 Pontiac driven by Anna H. Schattel. Damage to the Dulaney car was estimated at $50 and to the Schattel car at $150.

The department also reported a mishap at 3:36 p.m. at Thirty-seventh street and Avondale Drive. Involved were a 1955 Plymouth driven by Beulah Crumly Starnes and a 1963 Chevrolet driven by Paul Lucian Browning. Damage to the Starnes car was estimated at $200 and to the Browning car at $70.

There were no injuries in either mishap.

Humble Is Challenged

LOS ANGELES (AP) — The Justice Department is challenging plans of Humble Oil & Refining Co. to take over West Coast operations of Tidewater Oil Co.

The government filed suit Tuesday to block the $329 million transaction, scheduled for completion April 30. It also asked that Humble divest itself of Monterey Oil Co., a Los Angles-based firm acquired in 1961.

Humble, with headquarters in Houston, is a subsidiary of Standard Oil of New Jersey, described as the nation's largest industrial concern in terms of assets.

A government spokesman said completion of the deal would wipe out actual and potential competition in West Coast petroleum marketing.

Conditional Aid Set For Brazil

By ARY MOLEON

WASHINGTON (AP) — The United States was reported ready today to provide substantial economic aid to Brazil if President Humberto Castello Branco adopts effective belt-tightening measures.

Castello Branco takes his presidential oath today. He has been given the most sweeping powers ever granted a Brazilian chief executive.

The United States, and other sources of financial aid, are holding up almost $500 million dollars in assistance to Brazil due to runaway inflation there.

Fiscal reform is regarded in Washington as one of Brazil's most urgent needs.

The United States and other sources held up economic aid last year when now-ousted President Joao Goulart failed to fulfill a pledged economic stabilization program.

Washington withheld $224.5 million for balance of payments support. The International Monetary Fund is believed to have rejected Goulart's request for $100 million last year. European countries and Japan were expected to produce an additional $100 million in aid but a Brazilian mission to Europe failed to get it shortly before Goulart's downfall.

Secretary of State Dean Rusk said at his last news conference the United States is ready to work very closely with the new government of Brazil in tackling Brazil's difficult problems of economic and social development.

ALL ABOUT BABIES

A Public Service of the National Baby Care Council

HOBBIES FOR YOUNG MOTHERS —

By William L. MacMillan, Jr.
Executive Director
Hobby Industry Association of America, Inc.

When baby comes, mother automatically concentrates all of her physical and mental energy on him. She is alert to every sound and stir from the crib, and unconsciously showers all her love and attention in that direction 24 hours a day.

But, to follow the sound advice of both medical and mental health authorities, she would be doing herself and baby a genuine service by reserving time each day for herself, time out for a hobby. This should be a special part of every day, perhaps an hour during baby's nap or after he has been tucked in for the night.

Since mother's hobby is something she selects because she enjoys doing, it can become one of the most eagerly anticipated parts of her day, her personal reward for putting up with the dozens of little annoyances that could leave her unpleasant or irritable. Mother will find that while a hobby refreshes her outlook, it can yield practical and rewarding results too.

If she has a yen to brighten up the living room, she can make a set of mosaic tile ashtrays with candy dish and matching tile trivot for carafe; add sparkle to walls with paint-by-number scenes, a pebble or sand painting; or provide inexpensive accessories through a toleware serving tray, planter or magazine rack. And how proud she'll be when she tells admirers she did it herself.

If Dad has been feeling slightly neglected since baby arrived, the wise young mother will devote some of her hobby time to him. He would be pleasantly surprised with a leather belt or wallet, a copper and enamel cuff link and tie-clasp set, or an offer to help with the new scenery he wants for is model railroad layout.

Mother should be sure to use hobby time to make something she wants for herself, too. There are a number of interesting accessories or jewelry pieces to try; braided belts or earrings, lovely shell pins, a hand-tooled shoulder bag or soft moccasins.

Mother might devote hobby time to learning something entirely new. This could include anything from identifying the insects that attack her favorite roses to "what weather is all about," subjects she could have fun learning with hobby -science kits.

No matter which hobby project mother decides to try, the important thing is to choose something and spend time with it regularly. Both her life and baby's will be richer for it.

All The Kooks At Sea

THERE YOU ARE, BUT WHERE ARE YOU? By Robert Mirvish.

The old tub's name was the S.S. Flying Wind, but a more appropriate tag would have been The Floating Nuthouse.

She was a rusty old cargo vessel, pressed into merchant marine service in World War II. She was manned by a highly assorted crew of eccentrics, misfits, castoffs and screwballs.

Her skipper, Lardgrass, was a spouter of twisted cliches who had little faith in modern equipment or aids to navigation. Staffordson, the 80-year-old chief engineer, displayed a ghoulish glee in reading the obituaries of younger friends and acquaintances.

The radio officer, Sparks, had a thing about animals. On a visit to North Africa he solved his alarm clock problems by acquiring a scrawny little rooster, which he fed minced rubber bands, soaked in olive oil and other condiments. At another port he tried to bring a gorilla aboard, but the skipper broke that up at the gangplank, on the ground he had ship's papers for only one ape, "and which one of you is coming aboard?"

Then there was a young refugee from a laughing academy Motherford, who turned a Russian banquet at Murmansk into a shambles by offering a toast "to that great Russian leader, Leon Trotsky."

Skills Day For Girl Scout Adults

All adults in the West Texas Girl Scout Council are invited to share in the fun of a Skills Day at Camp Boothe Oaks on Wednesday, April 22, from 9:30 a.m. until 3:30 p.m.

The purpose of this special outdoor day is to teach Girl Scout adults how to use tools, the compass, how to lash outdoor furnishing, how to pitch and strike a tent, and how to make a comfortable unit home. These skills will be useful to troop leaders, assistant leaders, and troop committee members who plan outdoor adventures with their girls the year 'round —either in troops or in Day Camps.

The adult Skills Day has become an annual event in the West Texas Council; having new outdoor experiences at Camp Boothe Oaks is fun in itself. Also, those who come enjoy the opportunity of meeting women from other parts of the 16-county area of the West Texas Council.

All Girl Scout adults who would like to participate in the 1964 Skills Day are invited to come to Camp Boothe Oaks (8 miles southwest of Sweetwater off state highway 70) on April 22. Participants should bring a sack lunch, a pocket knife, and a compass (if they have a compass available).

Each should register for this outdoor training either by telephoning the West Texas Girl Scout Council headquarters (OR 3-7868) or by writing to the council at 304 Mulberry in Abilene, by April 18.

The 1964 Skills Day will be coordinated by Mrs. D. M. Costlow, District Adviser in the West Texas Council.

China Grove News

BY MRS. N. F. HALL

Those attending the National Hot Rod drag races at the tracks in San Angelo Sunday were Mr. and Mrs. R. L. Hall and Wetonia, Rayburn White, Tony Castillo, Darrell Mize and J. D. Hall. J. D. was a participant and won first place, an 18 inch trophy.

Recent guests of Mr. and Mrs. Jess Brown were Mr. and Mrs. Dan Hall of Cisco and Mr. and Mrs. Johnny Brown and children of Colorado City.

Mr. and Mrs. Ivan Beazley of Snyder recently visited Mr. and Mrs. D. L. Cotton.

Jackie Hall spent the weekend visiting her grandparents, Mr. and Mrs. Reed Ashley and children of Snyder.

Mr. and Mrs. Sam Haggerton of Colorado City recently visited Mr. and Mrs. Everett Haggerton and family.

Jon Deuroan of Midland was a Tuesday night guest of Mr. and Mrs. Martin Murphy and J. B.

Mr. and Mrs. J. B. Oliver of Tahoka visited in the N. F. Hall home Friday.

Mrs. W. C. Wood visited Mr. and Mrs. Russell Dunn and children of Loraine over the weekend.

Mr. and Mrs. Tommy Jones of Lubbock visited Mr. and Mrs. Pete White and Rayburn over the weekend.

The public is invited to attend the Baptist Jubilee revival at the Buford Baptist Church this week. Evangelist Allan Cartrite, pastor of Greenhill Baptist Church of Snyder is preaching and Henry Hoyle is song leader.

Lamesa Garden Club To Hold Yard Pilgrimage

The Dawson County Garden Club at Lamesa is sponsoring a yard pilgrimage to be held on May 3rd from 2 to 5 p.m. Eight yards, all beautifully done, are to be shown. One is a farm home with acres of landscaping, which promises viewers an enjoyable and profitable tour.

Mrs. Hoyt McClendon, club president extends an invitation to all local persons interested, and remarked that the club has enjoyed their visits in Snyder.

Tickets are 50 cents per person and may be obtained at 711 North Nineteenth. Persons entering Lamesa on either the Lubbock or Big Spring Highway, turn West on North Fourteenth, follow to Avenue G and turn north. Continue to North Nineteenth, 711 is on the corner.

Green Salad Plus

4 cups salad greens
½ cups thin strips Meunster cheese
½ cup thin strips cooked ham
1 cucumber, pared and sliced thin
French dressing and seasonings
1 avocado, peeled and sliced thin
Thinly sliced shallots or red onion rings

Gently toss together the salad greens, cheese, ham and cucumber. Toss again with enough French dressing to moisten and flavor, adding salt, pepper and seasoned salt if desired. Garnish with avocado and shallots or onino rings. Makes 4 main-dish servings.

Toperettes Hold Meet, Tuesday

Snyder Toperettes met at Stanfield Elementary at 7 p.m. Tuesday with nearly all members present. A new member, Joy Early was present. Roll call was answered by amount of weight lost or gained.

Mrs. Alfred Lieb, president, discussed with the members, the club's present meeting time. Some had said they would like to meet later. It was decided to meet at 7 until school was out and then the time would be changed to 7:30 p.m.

Saturday in Lubbock was TOPS Recognition Day and the members that attended gave interesting talks on the various activities and events that took place.

There are two KOPS in waiting, they are Edna Holmes and Muriel Mapes. For the next three months they will have to be careful as to not gain or lose too much.

Visitors from Rotan were present at the meeting. The club's system was discussed and questions were answered.

Teenage Dancers Perform For Cancer Drive

The Shirts and Skirts Teenage Square Dance Club of Snyder went to Gail last Friday to put on an exhibition for a cancer drive.

Those attending were: Linda Schattel, Danny Stokes, Gene House, Brenda House, Danny Howell, Linda Tadlock, Patsy Rainwater, Jimmy Sawder, Jerry Lin Hudgins and Diane Ervin. They danced to "Walking to Kansas City," "Tie Me Kangaroo Down," and "The Schottiche."

The group was escorted by Mr. and Mrs. Leo Schattel, Mr. and Mrs. Bud House and Mr. and Mrs. Robert Erwin.

The club is having their teenage dance on April 24th. The public is invited to come out and watch. Bill Wood of Big Spring will call.

WOMEN'S CALENDAR

THURSDAY

Order of Eastern Stars will hold election of officers at 7:30 p.m. at Masonic Hall. Hostesses, Lorita Keller, Pauline Boyd, Helen Thornburg, Mae Brush and Vea Fulgrum.

Gamma Upsilon Chapter of ESA meets with Joan Waters, hostess.

Twilight Garden Club Spring Garden Show at Martha Ann Woman's Club. Theme "Raptures of Springtime."

Ira P-TA meets at 7:30 p.m. at high school.

FRIDAY

SMOKE GETS IN YOUR EYES!

General Not Criticized For Defining US Defense Line

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—In 1950 Secretary of State Dean Acheson talked on the American defense line in the Pacific and got denounced for years afterwards. Republicans made him a punching bag.

It was one of the twists of history — or politics — that Gen. Douglas MacArthur 10 months before drew exactly the same defense line but this went unmentioned by Acheson's critics and defenders.

Among the critics were Sens. Joseph McCarthy and Robert A. Taft and Gen. Dwight D. Eisenhower. Even when MacArthur died April 5, what he said in 1949 must have been long-forgotten. This writer found no mention of it.

This was the background. In 1949 the Chinese Communists were smashing Chiang Kai-shek's Nationalists on the China mainland. Formosa, an island 100 miles off the coast, belonged to China.

On March 1, 1949, MacArthur—in an interview with an English newspaperman, Ward Price—discussed the American defense perimeter in the Pacific. The interview was published in the New York Times March 3.

MacArthur said the Anglo-Saxon "line of defense runs through the chain of islands fringing the coast of Asia." He listed them, from the Aleutians to the Philippines, through Japan. He left out Formosa.

In December 1949, Chiang and what was left of his army fled to Formosa. But by then the United States had given up on him and on Jan. 5, 1950, President Harry S. Truman called in newsmen to make a statement.

He said the United States would take no action to defend Chiang and his forces on Formosa, that it was a Chinese problem. This was an administration policy decision.

On Jan. 12, 1950, Acheson supported Truman and explained the decision in a talk at the National Press Club.

Repeating what MacArthur had said 10 months before, Acheson put the American defense line in the Pacific off the Asian coast and in the string of islands from the Aleutians to the Philippines. He, too, omitted Formosa.

He then went further than MacArthur and seemed to answer the natural question raised by his statement: What about protecting other areas in the Pacific and Asia from attack.

Acheson said: "It must be clear that no person can guarantee these areas against military attack. But it must be clear that such a guarantee is hardly sensible or necessary within the realm of practical relationships."

If such an attack did occur, he said, "the initial reliance must be on the people attacked to resist it and then upon the commitments of the entire civilized world under the charter of the United Nations which so far has not proved a weak reed to lean on by any people who are determined to protect their independence against outside aggression."

While Acheson didn't commit the United States to the defense of any country attacked in Asia, he didn't say the United States wouldn't try to defend it. He left the door open for an American decision later.

A would-be attacker could construe it either way. But the United States had just gone through an experience with Chiang whose government and forces had frittered away American help.

On June 25, 1950, the North Korean Communists attacked South Korea. Truman acted at once: He sent American forces to the defense of Korea, under MacArthur. The United Nations quickly joined in. And Truman defended Formosa from Red Chinese attack.

Seven days after the attack started McCarthy denounced Acheson for "telling the world" before the war began that the United States would not intervene.

On August 7, Taft said "we invited the attack" because Acheson "announced last winter that we would not defend Korea and Formosa."

And during the 1952 presidential campaign—MacArthur was keynote speaker at the Republican convention which nominated Eisenhower — they also denounced Acheson along the same lines.

Superstition Always Has Flourished

By HAL BOYLE

NEW YORK (AP)—Sidewalk comments of a Pavement Plato:

Do you knock on wood three times to avoid bad luck?

Do you carry a silver dollar or some other object in your pocket to bring good luck?

If your answer in both cases is no, then you aren't a believer in the two most common American superstitions. But that by no means is proof you aren't superstitious.

Many people go through life without becoming religious, at least to the extent of adhering to a formal creed, but hardly any of us escape becoming devotees, consciously or unconsciously, of some of the thousands of superstitions that exist in the world.

Since the universe is large and man is small, he has sought since the dawn of his time to find some way of being less uneasy and feeling more comfortable and secure in that universe. Superstition was his first answer—the taking of some step that would either get the dark forces of destiny on his side, or at least keep their anger from destroying him.

"If you can't be for me, please don't be against me," cried ancient man—and knocked three times on a tree to placate the spirits he felt dwelt therein.

Today we still knock on wood three times at moments of possible peril, and we do it mockingly as if we were joking. But the main thing is—we still do it.

Childhood chants are full of superstition. Can't you recall skipping along the pavement as a youngster and saying "Step on a crack, and break your grandmother's back"? And when you did step on a crack, weren't you half - afraid that you have brought bodily disaster to that dear old lady?

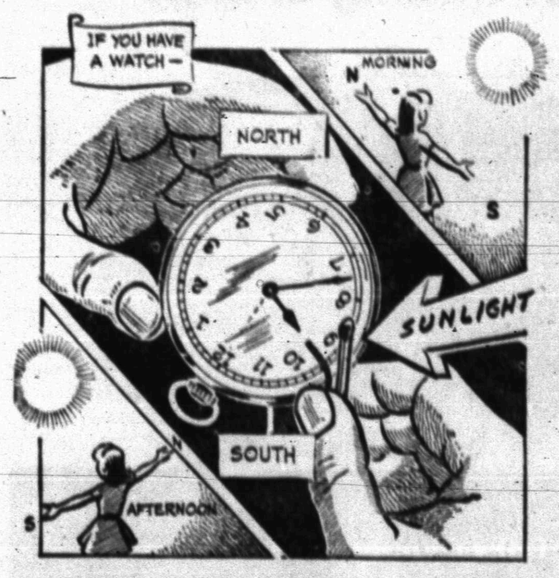
As we grow older many of us make up fresh superstitions of our own out of the rituals of living we acquire along the way.

I know of one man who is sure everything will go wrong the rest of the day if he nicks his face while shaving. I know another who has similar premonitions of bad luck if he turns off the alarm clock with his left rather than his right hand.

Man may someday take the superstition out of science; science will probably never quite take the superstition out of man.

At about 14,000 feet, Mt. Kilimanjaro divides in a six-mile long saddle. On one side Mawenzi rises some 2,000 feet out of volcanic rubble. From the other side thrusts the higher, snow-covered cone of Kibo.

Junior Editors Quiz on DIRECTIONS



QUESTION: How can one find direction without a compass?

• • •

ANSWER: A compass shows north, south, east, wes. and the various points between and so helps us to find our way in case we don't recognize our surroundings. There are several ways to find these directions without a compass. If you have a watch and the sun is shining, use the method shown in the main part of the picture. Hold a match or thin stick against the edge of the watch. Now move the watch around until the hour hand lies along the same line as the shadow of the stick. Halfway between the shadow and the number 12 will show the direction south. With this determined, it is easy to see that north lies just opposite south on the other side of the watch, and then you can figure east and west. Without a watch, use the method the two little girls are demonstrating.

If the sun isn't shining, you can often find north by studying moss growing on tree trunks, for this is thickest on the north side of trees. At night, look for the familiar big group of stars, the Big Dipper, which looks like a large bent handle with a dipper on the end. The last two stars on the outside of the dipper point toward the Pole Star, the one star which stays in place as the others revolve around it. This star always shows the north.

• • •

FOR YOU TO DO: Try out each one of the direction finding methods we have mentioned and be sure you understand them. If you ever did get lost, they might prove of very great value.

(Tom Rathbone of State Line, Pa., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash, for this question. Mail yours on a postcard and you may win the weekly grand prize of Compton's Pictured Encyclopedia.) 4-15

SPORTS

Koufax Has Usual Form

By The Associated Press

When Sandy Koufax was interrupted last fall . . .

That's right, the Dodgers dandy took up Tuesday night where he left off last season, turning in one of his shutout specialties as Los Angeles opened defense of its National League championship by whipping St. Louis 4-0.

There were 50,451 in Dodger Stadium — the largest of the opening day crowds—when Koufax began to whip an assortment of fast balls and curves out of his effortless motion. And when it was over, he had fittingly pitched the first shutout in the National League.

Koufax, a 25-game winner last year with 11 shutouts marked alongside his name, allowed the Cardinals only six hits, struck out five and walked none while winning his eighth consecutive game and recording his 18th victory in the last 20 regular season decisions.

But the 1963 World Series hero had to share some of the spotlight with towering Frank Howard, baseball's reluctant player. The Dodgers' main power-provider, Howard proved it by tagging a 420-foot, two-run homer that capped the victory.

In other NL openers, Willie Mays collected two of San Francisco's five homers in an 8-4 walloping of Milwaukee. Roy Sievers' three-run homer powered Philadelphia to a 5-3 victory over the New York Mets and Billy Williams' two-run homer in the 10th inning led the Chicago Cubs to an 8-4 triumph over Pittsburgh.

Houston and Cincinnati, who opened play Monday, were not scheduled.

In American League action, Minnesota edged Cleveland 7-6, Baltimore defeated the Chicago White Sox 5-3 and Detroit belted Kansas City 7-3. The Boston at New York game was postponed due to rain. Los Angeles and Washington were not scheduled.

The Dodgers scored in the sixth against Ernie Broglio when Willie Davis singled, tole second and scored on Ron Fairly's single. That was enough for Koufax, but Jim Gilliam singled home another run in the sevcnth and then Howard wrapped it up in the eighth.

Mays hit a two-run homer in the third and finished off Warren Spahn with a solo shot in the eighth that chased the Braves' 42-year left-hander.

Jim Hart, Orlando Cepeda and Tom Haller also homered for the Giants, who broke a 4-4 tie in the sixth off Cepeda's single, a wild pitch and a single by Haller. Juan Marichal, 25-8 last year, was the winner on a seven-hitter.

The Phillies pulled out front in the first as Roy Sievers hammered a homer off Al Jackson following a pair of walks. Bobby Wine's run-producing single in the second and a run-scoring double by rookie Richie Allen in the eighth closed out the scoring.

Texas Links Team Is Tied

DALLAS (AP) — Southern Methodist tied Texas 3-3 in golf Tuesday and it moved idle Texas Tech into first place in the Southwest Conference.

Texas now has a 12-6 record. Texas Tech is 13-5.

Southern Methodist has the distinction of playing a tie in every match to date and as a result has a record of 12-12.

Bobby Parks of Southern Methodist was medalist with a one-under-par 70 and beat Pat Thompson 2 and 1 in singles. But he teamed with Tommy Culp and lost 1-up to Thompson and Gene Mitchell in doubles.

Mitchell led Texas with a par 71.

Baylor beat Texas Christian 3½-2½ in another conference golf match. Baylor is 8½-15½ for the season. TCU is 13½-10½.

Tigers Edge Cubs; Tie For Loop Lead

BROWNFIELD — The Snyder Tigers maneuvered a run in the sixth inning to pin a 5-4 defeat on the Brownfield Cubs and move into a tie for the District 3-AAA lead here Tuesday.

The victory gives the Tigers a record of three victories and no defeats in league play, the same as the Colorado City Wolves. It also sets the stage for a battle between the league leaders Saturday afternoon on the Snyder diamond.

J. N. Wall, Snyder's big right-hander, hurled the first six innings for the Tigers, with left-hander Rob Hall coming to the mound in the seventh from centerfield. Wall and Hall figured prominently in a three - run splurge in the first inning. After Drew Bullard was walked, Hall lashed a two-bagger. Les Brown followed with another double and Wall polished off the outburst with a single to right.

The Tigers got another run in the top of the third without the aid of a hit. Bullard scored it after getting life on a Brownfield error.

The Cubs bunched their runs in the bottom of the third, with a home run to center by Gary Nunn starting the rally. Three more hits, all of them singles, produced as many runs before the side was retired.

Wall walked to lead off the Tiger half of the sixth, and Robert Foree came in as a pinch runner. Jim Marcum sacrificed the runner ahead, and after Nunn caught Jay williamson's fly, pinch hitter Bobby Kay delivered the game-winning blow, a one-baser.

The Cubs touched Wall for only five hits, while the Tigers were collecting seven safe blows.

Finley Absorbs Pair Of Setbacks

By HAL BOCK
Associated Press Sports Writer

The baseball season is just one day old and Charles O. Finley already has had two setbacks.

The American League torpedoed his "Pennant Porch" in Kansas City last week and the Tigers went to work on his ball club in Detroit Tuesday.

The results were the same. Municipal Stadium has half a porch and the Tigers left just about that much of the Athletic pitching staff intact after a 7-3 Opening-Day victory.

Detroit's new-look Tigers were something to see but it wasn't a pleasant sight for Finley. The key executioners were Jerry Lumpe and Dave Wickersham, who wore the Kelly green and gold Athletic uniforms a year ago.

Finley swapped Lumpe, an infielder, and pitchers Wickersham and Ed Rakow for slugger Rocky Colavito and hurler Bob Anderson during the winter and off the first day's results, the Tigers came out way ahead.

Lumpe stroked a single, double and triple as the Tigers punished three Kansas City pitchers with a 12-hit assault. Wickersham came on in the ninth inning as the A's staged a later rally. After an error and a walk, he got Gino Cimoli to end it.

Colavito, meanwhile, went 0-for-4.

Elsewhere in the American League, the Baltimore Orioles got long-ball power with three home runs to trip the Chicago White Sox 5-3 and the Minnesota Twins and Cleveland Indians staged a slugfest with the Twins winning 7-6. The Yankees and Boston Red Sox were rained out in New York and Washington and Los Angeles were not scheduled.

In the National League, the Chicago Cubs exploded for a four-run 10th inning and an 8-4 victory over the Pittsburgh Pirates while the San Francisco Giants clubbed Warren Spahn for five home runs en route to an 8-4 victory. In night games, the Philadelphia Phillies edged the New York Mets 5-3 and the world champion Los Angeles Dodgers shut out St. Louis 4-0 behind the six-hit pitching of Sandy Koufax.

Cincinnati and Houston had the day off.

Norm Cash and Bill Bruton homered for the Tigers and Jim Gentile and pinch hitter Manny Jimenez connected for Kansas City.

Boog Powell crashed a two-run homer in the eighth inning for the Orioles' victory over the White Sox. Starter Gary Peters was breezing until John Orsino homered in the sixth and pinch hitter Joe Gaines wiped out a 3-2 White Sox lead with a homer in the seventh.

Luis Aparicio's triple greeted relief pitcher Hoyt Wilhelm in the eighth and then Powell's homer won it for the Birds. Stu Miller was the winner in relief.

Phils' Allen In Sparkling Debut

By RALPH BERNSTEIN
Associated Press Sports Writer

PHILADELPHIA (AP) — One game as they say doesn't a season make, but if the 1964 success of the Philadelphia Phillies depends on their prize rookie, Richie Allen, the Phils are going to be mighty tough.

Many experts have written that if Allen, the 22-year-old Negro third baseman from Wampum, Pa., can perform half as well as his advance billing, Manager Gene Mauch's Phillies could win the pennant.

Some 21,000 fans came out to see the Phillies' opener at Connie Mack Stadium Tuesday night and most of them came away talking about Allen. He walked, singled and doubled, scored a run and drove in a tally. But more important, he didn't panic under some trying conditions.

The Phillies led 4-1 over the New York Mets in the fifth inning when Allen was put to the test. The first two hitters for New York got on base as Allen twice slipped in mud created by a day long rain. It was upsetting to a veteran, let alone a rookie.

But Allen didn't let it bother him even a little bit.

"Heck, if I could play at Little Rock there isn't anything here that's going to bother me," said the youngster.

Allen, of course, referred to his season last year in the International League at Little Rock where he received everything from the boos and racial insults to threats against his life.

He responded by leading the Triple A League in home runs, triples, RBIs and total bases.

Skipper Mauch described this cool rookie best after the 5-3 victory over the Mets.

"There isn't anything that is going to bother Richie Allen," said Mauch. "He's good and he knows it."

Allen slammed the ball down after his second mud slide. He said he was sorry about that.

"I forgot for a minute there were people watching," he commented. "It won't happen again."

Suffering Never Ends For Brooklynites: Duke Defects

Associated Press Sports Writer

NEW YORK (AP)—The suffering never ends for Brooklyn's orphaned baseball fans.

Old wounds, six years in healing after Walter O'Malley separated the faithful from their Dodgers, have reopened. Duke Snider, the pride of Flatbush, has gone over to the still-hated Giants.

Snider, 37, was acquired by the Giants—San Francisco vintage—from the New York Mets in a straight cash deal Tuesday. The silver-haired slugger may start alongside Willie Mays, another New York folk hero who went West, in the San Francisco outfield tonight when the Giants meet the Milwaukee Braves on the West Coast.

Old-line Dodger fans and "New Breed" Met rooters were dismayed by the second passing of the Duke. But Snider welcomed the move and the Giants, who have been after the veteran for some time, were equally happy.

"You're just what we need to win the (National League) pennant," Horace Stoneham, Giants president, told Snider via telephone after the deal was announced.

"Just the opportunity to play with a contender again should add a couple of years to my career," Snider said before leaving for San Francisco. "I think I can help the Giants. I think I can play quite a few games for them.

"I never rooted for the Giants before—except in a World Series, but I'm sure rooting for them now."

Snider came to the Mets a year ago after 16 seasons with the Dodgers in Brooklyn and Los Angeles. He appeared in 129 games in 1963, frequently as a pinch hitter, and batted .243 with 14 home runs and 45 runs batted in.

Snider has hit 403 career homers, 10th highest total in history, and takes a .298 lifetime batting average to San Francisco.

The Giants, loaded with right-handed power, plan to use the left-handed hitting Snider primarily in pinch hitting roles.

"With Snider available, opposing teams might not be so quick to switch to a right-handed pitcher," San Francisco Manager Al Dark, said Tuesday.

NOT TALKING MUCH—Gary Player, winner of the 1961 Masters Golf Tournament, isn't too interested in food offered him by his wife. He had his tonsils removed at Augusta, Ga., University Hospital after finishing the final round of this years Masters Tournament and will remain at the hospital several days. (AP Wirephoto)

Derby Berth Eyed For Blue Norther

LEXINGTON, Ky. (AP) — If trainer Wally Dunn can come up with a good excuse, his filly Blue Norther will become only the second of her sex in the past 19 years to run in the Kentucky Derby.

Folks around the race track just muffled their chuckles in the past when Dunn talked of sending the powerful filly in the rugged run for the roses. But it's Dunn who's doing all the laughing now.

Blue Norther has won all four starts this year. Her last victory was the $25,150 Ashland Stakes at Keeneland. She will most likely get her first chance at the name colts in the 1¼ mile Blue Grass Stakes April 23.

Dunn has said the daughter of Windy City II-Perfect Gem, by Royal Gem II, will go in the Blue Grass, the last distance prep for the Derby, if the run for the roses co-favorite Hill Rise does not go.

It's not that Dunn is avoiding Hill Rise. It's just that he wants Jockey Willie Shoemaker in the irons. If Hill Rise goes, then Shoe will ride him. Shoemaker says that Blue Norther is the best filly he has ever ridden.

The way things stack up presently, Hill Rise will go postward in the seven-furlong Forerunner at Keeneland Friday and will bypass the Blue Grass in favor of the Derby Trial.

But the Blue Grass would still give Dunn and owner Mrs. W.R. Hawn a chance to see how good Blue Norther is. Northern Dancer, co-favorite with Hill Rise for Derby honors, is considered a definite starter in the Blue Grass.

Twenty-nine fillies have started in the Derby but only one, Regret in 1915, crossed the finish line first.

Bob Swift, Pat Mullin, Stubby Overmire and Wayne Blackburn will coach under Detroit Manager Charlie Dressen next season.

Nicklaus Is Favorite At Houston

HOUSTON (AP) — For two straight years, big Jack Nicklaus has made a charge at the Houston Classic's gold and glory averaging 68.8 strokes per round for eight rounds, and averaging $3,400 per trip to the paymaster's window.

So on the eve of the big tee-off Thursday, the strong man from Ohio State has been established a 3-1 favorite to take it all this time as the $50,000 Classic moves to Sharpstown Country Club for the first time.

With both Arnold Palmer and Gary Player absent, Nicklaus was established the favorite over the defending champion, Bob Charles, the southpaw New Zealander who took the big bundle here last April with a record score of 268.

Charles is back for another run at the top money, but is bracketed at 5-1 with Houston's Dave Marr, Paul Harney, Dow Finsterwald and Bruce Devlin.

Nicklaus did not arrive Tuesday in time to join the rest of the field in a practice round, but was expected to make his appearance sometime today.

On the schedule today was the annual pro-amateur, which pairs a leading professional with three local amateurs.

In the field were 208 players.

Three SWC Teams Win

By The Associated Press

Three Southwest Conference baseball teams won games Tuesday with Texas A&M tying Baylor for the most games won.

The Aggies beat St. Mary's 9-1 for their 12th victory of the campaign and now have a 12-5 record.

Texas Christian broke a five-game losing streak by edging Sam Houston State 6-5. It also ended a five-game victory string for Sam Houston which now is 15-3 for the seasons.

Rice downed Texas Lutheran 4-1, winning the game with a two-run splurge in the sixth, scoring on an infield grounder and Russ Judd's sacrifice fly.

Wednesday night Southern Methodist plays its annual game with the Dallas Rangers of the Pacific Coast League.

Conference play resumes Friday and Saturday. Texas and Baylor, tied for the lead, clash at Austin. Rice plays Texas Christian at Fort Worth and Texas A&M meets Southern Methodist at Dallas.

The Washington D. C. International at Laurel is the first race in the world to lure Russian horses from behind the Iron Curtain.

Texas' Jack Cox Opposes Every Word Of Rights Bill

By PEGGY SIMPSON
ASSOCIATED PRESS WRITER

Republican candidate for the U.S. Senate, Jack Cox, said he opposes "every word, every comma and every title" in the civil rights bill before Congress.

Calling civil rights the top national issue, Cox said in Dallas that if the bill is enacted, he would work to have it repealed as senator.

Cox also criticized the Democratic incumbent, Sen. Ralph Yarborough, as not giving Texans the representation they deserve. "They need a man who is firm and who can be fair and who is reasonable," he said.

Yarborough, in a Galveston speech, hammered at the importance of more and better education for the state. At a dinner honoring state Sen. A. R. Schwartz, he said the Gulf Coast area is in a position to lead Texas to greatness because of what he called the progressive leadership such as Schwartz'.

Another Republican candidate for Senate, Robert Morris, told Austin newsmen he believes the key election issues are prayer in schools, proposals to regulate firearms ownership, and disarmament.

Morris said later in Victoria advocates of world government within the federal policy-making fold were getting bolder. "They're not even being subtle about it, anymore."

Gov. John Connally worked at his Austin capitol office Tuesday. His wife and his sister-in-law, Mrs. Merrill Connally, shared a coffee reception with about 300 persons at the Corpus Christi airport. They flew from Corpus Christi to McAllen for the night.

Connally's only Democratic foe, Don Yarborough of Houston, said in Bryan both the governor and senate aspirant Gordon McLendon "long ago deserted the Democratic party." In an interview, he said the two men aimed their campaigns at keeping Republicans from forming a two-party system in Texas.

In Lufkin, Yarborough said if elected he would try to enact an old age assistance system using California's maximum payment plan of $176 as a goal.

McLendon, Democratic candidate for Senate, outlined for voters a 12-point platform which includes opposition to the civil rights bill and the King-Anderson (medicare) bill. He proposed to limit the number and power of federal bureaus, end farm subsidy programs within 10 years, provide tax exemptions for parents of modest income financing their children's higher education, and require "an adequate number" of Spanish-speaking civil service employes when a need for them exists.

Another GOP Senate candidate, George Bush, said it was time to stop what he called a whittling away of the nation's military preparedness program by politicians.

Speaking in Borger, Bush said Sen. Yarborough said "one thing to distressed cattlemen in Hereford and another in Washington" concerning cattle imports. He said the Johnson administration and "its pawns like Yarborough has no intention of giving cattlemen in this country a break."

In the railroad commissioner race, incumbent Jim Langdon, democrat, said an arbitrary increase in Texas' oil production is not the answer to the state's oil problem.

Langdon said people who suggest "state quotas" based on proved reserves are, in effect, advocating federal control of oil regulation. He said the free world was obviously able to produce more crude oil than it needed and that Texans were reasonable in demanding a curb of excessive oil imports.

Langdon's opponent, Jesse Owens of Vernon, said "public distrust of the Texas Railroad Commission is at an all time high." He said he wanted action, not alibis, in doing something 'about the small allowables and big depression in the oil industry which aggravate the tax squeeze for home owners and workers."

Lt. Gov. Preston Smith, democrat incumbent, told the Nueces county medical society in Corpus Christi the state "is in the best shape ever to meet the needs of youngsters committed to state control by courts."

He said appropriations for the Texas Youth Council have increased from slightly more than $2 million in 1956-57 to more than $13 million for the current biennium.

Steel Mills Aid Economy Boost

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP)—Busy steel mills have played a big part in boosting today's economy to record levels. But some are now warning that the industry might be in for an early summer.

Output normally dips from June to September for a number of reasons, such as vacations that close more customers plants each year. But this time there are some added ones that might advance the timetable.

There are rumors that the auto makers are planning an earlier changeover to new models. That would mean closing down auto plants for a while and changing the schedule for delivery of steel. Demand for steel would then slacken a bit earlier than usual since less would be needed for this year's models.

Still more uncertain a prospect is how upcoming labor negotiations with the autoworkers union might affect dealers' buying of this year's models. There is some talk of a possible buildup in stocks as a hedge against the chance of a strike.

An auto strike in itself would affect the steel industry quickly and drastically, since Detroit is a major customer.

Steel salesmen also are increasingly up against new thinking by customers on inventories. Most users now are playing cautious and keeping stocks to a minimum. They know that steel shortages are most unlikely. They can wait to see how their own prospects look in the fall without putting in orders in late spring or early summer.

Thus it is assumed that most orders the mills are now getting, and that are keeping them going at a highly prosperous pace, are for use by the customers in the spring months.

And inventory thinking also is based on knowledge that if steel somehow should get hard to come by quickly, various substitutes are available for a large number of end uses.

Comanche Man Is Outstanding Farmer

MADISON (AP) — Bill Lane of Comanche, Tex., was named one of America's four outstanding young farmers for 1963 Tuesday night.

Lane, 35, was credited with beating a drought by converting his beef farm into a profitable dairy operation. He has 820 acres.

The winners were selected from a field of 45 state winners, originally representing more than 10,000 nominees.

Winners cited at the annual awards ceremony, sponsored by the United States Junior Chamber of Commerce, were selected by a panel of 12 agricultural specialists. They used production progress, soil and natural conservation, and community leadership as their guides.

Mother Gives Birth To Twentieth Child

WATERVILLE, Maine (AP)—Mauricette Hamlin, 39, of Fairfield, is a proud mother again—for the 20th time.

Mrs. Hamlin gave birth to a daughter, her ninth, at a Waterville hospital Tuesday night. Both are reported doing fine.

Mrs. Hamlin and her husband, Robert, 41, also have 11 sons. Their oldest child is 22.

Gemini Set For Many Experiments

HOUSTON (AP) — Twenty-three scientific and technological experiments will be tried during the next four Gemini spacecraft flights.

The experiments were chosen from almost 100 submitted by scientists and engineers at the various centers of the National Aeronautics and Space Administration, the Department of Defense and the scientific community at large.

No scientific or technological experiments were aboard the first Gemini flight last week. The major objective of this unmanned flight was to test the compatability of the spacecraft and the Titan rocket, the launch vehicle in the Gemini program.

The first technological experiment during the next unmanned Gemini flight this summer, will test several techniques to assure communications between spacecraft and ground stations during re-entry of the spacecraft.

For a brief but crucial period during reentry of the manned Mercury spacecraft, communications were blacked out.

The first manned Gemini flight will carry two scientific experiments. It is scheduled for from three to five earth orbits late this year.

One experiment will test the effects of radiation and weightlessness on human white blood cells. The other will test the growth of sea urchin eggs, some of which will be fertilized before launch and the rest during the weightless condition of space flight.

Four technological and two scientific experiments will be aboard the fourth Gemini flight. Both scientific experiments will be photographic, to record geologic structures and weather systems.

Technological experiments during the week-long flight will test the astronauts' ability to view and photograph selected areas with commercially available equipment.

Data also will be gathered about the total radiation dose absorbed by Gemini astronauts.

New Political Era Opens In Brazil

By ROBERT BERRIMAN

BRASILIA, Brazil (AP) — A new chapter, possibly one of the most significant in Brazil's recent political history, opens today with the inauguration of Gen. Humberto Castello Branco as president.

How strong a hand the military will take in running the country and the prospects for political peace should be determined during the 22 months the 60-year-old former army chief of staff heads the interim government.

The military leaders of the anti-Communist coup that overthrew President João Goulart have promised elections for a new president in October 1965, when Goulart's successor would have been chosen.

There was a marked lack of interest in non-official circles as authorities completed preparations for the inauguration.

No flags or banners flew in Brasilia's business district. Residents of the capital seemed to go about their tasks totally indifferent to the event.

Basically, Castello Branco's regime is intended to provide a transition from military back to civilian control. But his decisions could chart the course of the ailing nation.

The extent of military influence is expected to become apparent early. The composition of Castello Branco's Cabinet also should determine the degree of ultra-conservative sentiment in the government.

All this will undoubtedly determine the reaction of the sizable segment of the population most seriously affected by the recent coup. This is made up of voters who gave big electoral majorities to Goulart and his Labor party.

Left-wing extremists whipped this powerful force. But it also sought dramatic reforms in an attempt to bring Brazil out of its social and economic stagnation.

The military recently deprived this group of most of its leaders by suspending their political rights.

Castello Branco faces a need for drastic measures to halt whirlwind inflation that has brought Brazil to the brink of economic ruin.

Interim President Paschoal Ranieri Mazzilli, the Chamber of Deputies president who succeeded Goulart, warned in a broadcast Tuesday night that Brazil's deficit for 1964 will total 1.5 trillion cruzeiros—$833.3 million at the current exchange rate.

Jailed For Assault To Murder

HOUSTON (AP)—A disturbed service station attendant was in jail today charged with assault to murder after keeping his estranged wife prisoner in a locked bathroom nearly four hours, then shooting her in the cheek.

With five bullets still in the pistol, the man tried to put a bullet through his own head, but the weapon jammed.

While the man, Garner Brame, 31, yelled threats to kill his wife, himself and anyone who interfered, he kept at bay police, an Episcopal priest, his wife's parents and dozens of onlookers.

After nearly four hours of holding his wife hostage a shot sounded Tuesday afternoon and police in an adjoining apartment ran in and kicked open the bathroom door.

The wife, Mrs. Gail Brame, 27, lay on the floor, a bullet wound in her cheek. Her condition later was listed as fair.

Brame was charged late Tuesday night with assault to murder and carrying a pistol.

Plan To Purchase More Texas Crude

AUSTIN (AP) — Purchasers of Texas crude oil plan to increase their purchases 886 barrels daily next month to 2,559,794 barrels daily, the State Railroad Commission said Tuesday.

The U.S. Bureau of Mines predicted May demand for Texas crude will be 2.6 million barrels daily, an increase of 65,000 barrels daily over April.

Totals from both sources will be considered by the commission when it meets Thursday to set May production allowables.

PINT-SIZED PACKAGE—Sis Flagg IV, a three-month-old Indian elephant is fed a bottle of milk by airline stewardess, Linda Pearce, after arriving at Dallas Love Field on the last leg of her journey to Six Flags Over Texas. Sis IV will replace Sis III, who grew too large to remain a member of the baby animal section of the park. Miss Pearce is assisted by Bill Ellsworth, assistant supervisor of animals at Six Flags. Sen. Smith Shows Strong In Illinois

CHICAGO (AP) — Sen. Barry Goldwater's victory in the Illinois presidential preference primary shared interest today with a surprising show of strength by Sen. Margaret Chase Smith.

Charles H. Percy, who stepped into a president's post in industry at 29, captured the Republican nomination for governor at the age of 44.

Returns from Tuesday's primary gave these percentages of the preference vote: Goldwater 63, Mrs. Smith 26, Henry Cabot Lodge 6 and Richard M. Nixon 3, with the remainder split up among several others.

Sen. Smith, of Maine, came into the Illinois test after Goldwater had entered. She wanted, she said, to give the voters a choice.

Both traveled to Illinois twice during the campaign. The Arizona senator spoke Friday to 10,000 at a rally in the International Amphitheatre.

The lady from Maine was in the state at the same time. As on her previous weekend visit, she quickly made the rounds at colleges and small gatherings.

Her display of vote - pulling power was unexpected, too, when viewed in the light of her finish as a poor fifth in the March 10 primary in her neighboring state of New Hampshire.

Ice Cream Trucks To Sell In Alleys

PONCA CITY, Okla. (AP)—The City Traffic Commission has ruled that ice cream trucks this summer must take to the alleys to 'peddle' their wares. The aim is to keep children from dashing in front of cars on streets.

Houston Man Crushed

HOUSTON (AP)—Three 400-pound radiators fell on Jerry Ferguson, 21, and killed him Tuesday night. He was working as a mechanic at Cummins Diesel Sales Co.

Texas Cattle Quarantined For Scabies

AUSTIN (AP) — Texas cattle shipped to California, about 500,000 annually, must be certified free from scabies under a new California restriction that followed discovery of the disease Saturday in a West Texas feed lot.

The Texas Animal Health Commission received notification Tuesday of the quarantine. The commission said cattle scabies was discovered in a feed lot in Hart.

California-bound Texas cattle must have a permit from the California Division of Animal Industry, a certificate they are free from scable and have been dipped or sprayed within 10 days before their arrival in California, the commission said.

The commission said it is trying to discover the origin of the cattle in the Hart feed lot. It said it will require dipping of any herds found to be infected.

The psoroptic scabies mite causes animals to itch, and rub their hides against objects for relief. The mite damages sheep by causing them to rub off their fleece.

California imposed a similar quarantine about three years ago when a case of scabies was discovered in the Texas Panhandle. The restriction lasted in part for about two years.

Texas Gets Funds For New Projects

WASHINGTON (AP) — The House Public Works Committee approved Tuesday plans for new buildings in Texas costing $3,908,000.

The plans are subject to approval by the Senate Public Works Committee.

The new buildings and cost are Big Spring, post office-federal office building $1,367,000; McAllen, Border Patrol, $760,000, and Pearsall, post office-federal office building, $271,000.

Republicans Believe Lodge Must Campaign Personally

By JACK BELL

WASHINGTON (AP) — Influential Republicans of all shades of opinion believe primary victories will not be enough and Henry Cabot Lodge must campaign personally if he wants to try to win the GOP presidential nomination.

A cross-section survey of party members who will have a voice in the choice of a nominee disclosed nearly unanimous opinion that the current boom for Lodge will flatten out if he remains as U.S. Ambassador to South Viet Nam until convention time.

Lodge has said he isn't a candidate for the nomination and can't participate in politics while he serves as ambassador. President Johnson said last week that Lodge is playing a very constructive role" in Viet Nam and is under no pressure to resign.

Irving Salomon, a close adviser, reported after talking to the ambassador on a recent Far Eastern trip he can't say whether Lodge will resign by June, but he cannot ethically be an ambassador and be involved in politics."

Lodge's current front-running status in national polls and his prospect of topping other candidates in the May 15 Oregon primary are attributed to various factors. One often mentioned is that of voter dissatisfaction with other presidential aspirants.

The surge for Lodge also is credited to his experience in the foreign affairs field, his remembered television image as a tough opponent of communism as U.S. ambassador to the United Nations and his lack of involvement in current GOP bickering over conservative and moderate views.

Listed Lodge liabilities include his tie to President Johnson's policies in Viet Nam, his defeats for the Senate in 1952 and for vice president in 1960 and what many though was his lackadaisical campaigning in 1960.

Strategists for Sen. Barry Goldwater, R-Ariz., and New York Gov. Nelson A. Rockefeller regard it as inconceivable that Lodge could win the nomination from Saigon. They believe his popularity would nose dive if he came home and subjected himself to questioning on the issues of the day.

Rep. Melvin R. Laird, R-Wis., named to head the platform committee for the July convention in San Francisco, said he thinks Lodge will have to come home by May 15 if he expects to be the nominee.

A former Republican national chairman, who didn't want to be quoted by name, summed up Lodge's appeal this way: This is the guy who is least undesirable to the voters at this point. They are disenchanted with everybody else."

But he added: Lodge is not another Eisenhower. He is going to have to come home and answer questions on where he stands if he expects to get the nomination. He's also going to have to show he can take the pace of vigorous presidential campaigning."

BIRTHS

Mr. and Mrs. Morris Browning, Fluvanna, are the parents of a 6 lb. baby girl born at 5:12 a.m. Apr. 14 at Cogdell Hospital.

Supermarket Burns

HOUSTON (AP)—A $100,000 fire destroyed the Dixie Lucky Seven Supermarket on Houston's southeast side early today. Sixty firemen battled the blaze.

Goldwater Is Victorious, But Not Overwhelmingly

CHICAGO (AP) — Sen. Barry Goldwater of Arizona won the Illinois presidential preference primary, but Sen. Margaret Chase Smith of Maine and other rivals cut up a large slice of the votes.

Charles H. Percy, who zoomed to a president's post in industry at 29, earned the Republican nomination for governor at the age of 44.

Returns from Tuesday's primary provided these percentages of the preference vote: Goldwater 64, Mrs. Smith 26, Henry Cabot Lodge 5 and Richard M. Nixon 2.

The remaining votes were scattered among others via write-ins.

Sen. Smith's showing was surprising and much better than had been expected, especially when viewed in the light of her finish as a poor fifth in the March 10 primary in her neighboring state of New Hampshire.

Only the names of Sen. Goldwater and Sen. Smith were printed on the Republican ballots. Others scored by the write-in method on both party ballots, although the Lodge and Nixon boosters did not specifically seek write-ins.

Percy, now board chairman of the Bell & Howell Co., made a successful start in his first try for public office by defeating State Treasurer William J. Scott, 37.

The winner also took a first step toward control of the GOP in Illinois. The triumph, in addition, gave him a position of influence among delegates to the party's national convention in July.

"I'm going to cast my vote with the majority of the delegates, and I must concede right now it is a Goldwater delegation," Percy stated.

The result of the preference primary is not binding on delegates.

Goldwater commented in Washington that the outcome demonstrates that "1964 can be a year of victory for our party."

Goldwater, coming through ahead in his first test in the Midwest, called upon all members of the party "to unite to work for the election of Republican candidates everywhere, from the state house to the White House."

Returns from 7,672 of the state's 10,256 precincts gave Goldwater 314,544, Mrs. Smith 129,669, Lodge 26,545, Nixon 14,373, Gov. Nelson A. Rockefeller of New York 1,208, Gov. George Romney of Michigan 275, Gov. William W. Scranton of Pennsylvania 992, and Harold E. Stassen 44.

Lodge won on write-ins—33,521 of them—in New Hampshire, where Mrs. Smith counted 2,812 on the ballot.

Returns from 8,126 precincts for the nomination for governor gave Percy 368,827 and Scott 223,124.

President Dwight D. Eisenhower, running against two opponents in the 1956 primary, compiled 95 per cent of the preference vote. The late Sen. Robert A. Taft of Ohio, competing against two entrants on the ballot and three write-in opponents gathered 74 per cent in 1952.

Separate small groups sought write-ins for President Johnson and Atty. Gen. Robert F. Kennedy for vice president.

Returns from 1,834 precincts gave Johnson 22,237 and Kennedy 363, and Gov. George C. Wallace of Alabama 116.

The Democrats had no major contests—a factor in the relatively light turnout of voters.

'SILENT SPRING'

Cancer Claims Famed Author

SILVER SPRING, Md. (AP) — Death by cancer has silenced Rachel Carson whose book "Silent Spring" created international controversy with its charge that man was poisoning the earth and himself by his efforts to control nature with chemicals.

Miss Carson, 56, a biologist who became a best selling author in 1951 with The Sea Around Us," died Tuesday afternoon at her home. She learned five years ago, apparently while working on "Silent Spring," that she had cancer.

Her book helped inspire a White House report last May calling for stronger federal laws on pesticides and new steps to regulate their control.

The book warned of the dangers of tampering with the balance of nature and argued for biological controls rather than massive and indiscriminate use of chemicals, such as pesticides and weed killers.

She wrote: These sprays, dusts, and aerosols are now applied almost universally to farms, gardens, forests and homes — nonselective chemicals that have the power to kill every insect, the 'good' and the 'bad,' to still the song of birds and the leaping of fish in the streams, to coat the leaves with a deadly film, and to linger on in the soil—all this though the intended target may be only a few weeds or insects. Can anyone believe it is possible to lay down such a barrage of poisons on the surface of the earth without making it unfit for all life?"

Miss Carson's book, which ironically also warned of the hazards of man-made cancer-producing substances, was criticized by some, including pesticide industry chemists, as presenting an incomplete picture. Manufacturers and trade associations defended the safety of pesticides when used as directed."

After learning of her death, Secretary of the Interior Stewart L. Udall heaped praise on Miss Carson in a statement. He said she was the kind of woman who makes men proud, a scientist of rare courage and ability, and a world-renowned author whose eye was trained to the destiny of generations she would never see."

Miss Carson first became concerned with chemical weed-and insect killers while working as a biologist with the U.S. Fish and Wildlife Service.

Born in Springdale, Pa., she received a bachelor's degree at Pennsylvania College for Women and a master's degree at Johns Hopkins University.

Miss Carson never married but adopted a grandnephew, Roger Christie, now 10. The only other survivor is her brother, Robert M. Carson of Silver Springs.

Chesapeake Roadway Opens Today

VIRGINIA BEACH, Va. (AP) —A roadway that spans Chesapeake Bay 30 feet above the waves—and twice dips to the bay bottom—opens today.

The bridge-tunnel erases the last major water barrier on one of the East Coast's main north-south arteries.

The $200-million, 17.6-mile long bridge-tunnel is the first direct link between Virginia's Eastern Shore and the rest of the state. The bridge-tunnel will eliminate a ferry service that can trace its predecessors to 1607.

Motorists using the Ocean Highway, main route from New York to Jacksonville, Fla., will find the new crossing clips 90 minutes off their travel time.

Gov. Albertis S. Harrison Jr. officially opens the bridge-tunnel at 2 p.m. (EST).

The project, which required 3½ years to build, was financed by $200 million in revenue toll bonds. It will be operated by the Chesapeake Bay Bridge and Tunnel Commission, a state agency.

The American Society of Civil Engineers has designated the new crossing one of the seven engineering wonders of the world," selected among 107 projects in 26 countries.

The crossing consists of 12 miles of concrete trestle; two tunnels, each a mile long; two steel bridges; four man-made islands that anchor the tunnels, and 1½ miles of earthfill causeway.

Traffic engineers estimate the new crossing will carry an average of 5,000 vehicles per day during its first year, compared to 2,000 daily using the ferries.

Beckwith Faces More Questions

JACKSON, Miss. (AP) — Byron De La Beckwith, accused of murdering a Negro integration leader, faces more questions today as his second trial nears an end.

The 43-year-old fertilizer salesman from Greenwood was questioned by Dist. Atty. William Waller for nearly an hour Tuesday. Waller said he was "nowhere near finished" when Circuit Court stopped for the day.

The prosecution charges Beckwith killed Medgar W. Evers last June 12 by shooting him in the back with a rifle. A first trial ended with a hung jury.

Defense attorney Hardy Lott handed him the 30.06 Enfield rifle found in a honeysuckle thicket near the scene and asked if it were his.

"This rifle is similar to several rifles I have owned," said Beckwith. "But I could not positively identify the rifle."

Beckwith said he never asked two Jackson cab drivers for directions to Evers' home or that he had even been in the city on June 8.

That is the day the cab drivers said Beckwith approached them, and the day other state witnesses testified to seeing a white Valiant automobile in the vicinity of the Evers home.

Beckwith drives a 1962 white Valiant, but he said it was never in the Evers' neighborhood.

Committee On Aging To Meet Friday

AUSTIN (AP) — Incomes and housing problems of the elderly are on the agenda when the Governor's Committee on Aging meets Friday.

Also scheduled for discussion, said Sen. Walter Richter of Gonzales, committee chairman, are ways to get funds from industry, foundations, individuals and the federal government to support Texas' programs on aging.

HOSPITAL NOTES

(It is requested that visiting be done only during visiting hours of 2 to 4 p.m. and 7 to 8:30 p.m.)

COGDELL HOSPITAL

ADMISSIONS: Margaret Hembree, Ira; Wade Stewart, 2210 Forty - fourth; Tony Thomas, Rt. 1; Dovie Berkley, 3011 Avenue C; Elsie Taylor, 205 Smith; Foster Watson, Hermleigh; Hazel Nichols, 417 Thirty - fourth; A. M. Roberts, Sr., 114 Peach; Janice Craig, 2905 Avenue X.

DISMISSALS: Kimberly Lemasters; Elizabeth Brinner; Vicky Villereal; James Smith; Herman Schulze; Bobby Burnett; Bertha Fennel; Carolyn Aaron; James Spivey; Carolyn Dennis.

About eight species of anchovy, a fish belonging to the Engraulidate family, are found in American waters.

Spacecraft Sends Back Wealth Of Information

By HOWARD BENEDICT

CAPE KENNEDY, Fla. (AP) — A spacecraft named Fire blazed back through the atmosphere faster than any previous space payload Tuesday night and radioed a wealth of information which could make manned trips to the moon safer.

The spacecraft, looking like a compact model of the Apollo moonship rode an Atlas missile more than 500 miles into space. As it plummeted back toward earth, a 10-foot-long rocket fired and increased payload speed from about 15,000 to 25,166 miles an hour.

The speed was slightly higher than that the Apollo craft is to attain in returning astronauts from the moon. It also was more than 7,000 miles an hour faster than the velocity recorded by any previous space vehicle re-entering the earth's atmosphere.

As the 200-pound payload made the meteoric dive, it radioed information on the heat that seared its blunt shield.

A great shock wave built up in front of the payload and temperature of gases within the wave reached 200,000 degrees. An observer at the South Atlantic tracking station on Ascension Island described the spacecraft as a ball of fire.

Herbert A. Wilson, Project Fire manager for the space agency's Langley Research Center, told newsmen he was very pleased with initial data from the 32-minute flight. A tape recorder stored heat data during the peak period of re-entry when extreme temperatures cut off radio signals.

The recorder made a full report on stored data before the craft plunged into the ocean 5,200 miles southeast of Cape Kennedy.

Body Found In Lake

BROWNSVILLE (AP) — A fisherman found the body of Jacob Camarillo, a Laredo cafe worker from Dallas, floating in a small lake here Tuesday. An inquest verdict was withheld pending police investigation.

Cuba Population At Record High

MIAMI, Fla. (AP) — Cuba's population was reported at a record high today despite a steady exodus of refugees.

The Cuban Economists Association in Exile said the birth rate has climbed so much that Cuba will have 7,700,000 inhabitants by late 1964.

Cuba's last census, in 1953, was 5,829,029. The figure was estimated at 7 million when Prime Minister Fidel Castro took over in 1959. More than 300,000 Cubans have gone into exile since then.
