Larry Minks Shows Grand Champion Steer

Burglary Suspect Charged

Billfold Is Clue

BY DAN MUDD
BRAND STAFF REPORTER

A billfold found at the scene of a burglary at Cooper's Market in Hereford Thursday morning led to the arrest of a 26-year-old man frequently tagged as "the number one hoodlum in Fort Worth" by authorities in that city.

Investigating the burglary, in which about $9,000 in cash and checks were taken from a floor safe, Hereford police Thursday found a wallet containing the social security card and various other papers bearing the identification of Garrett Milton Ramsey, 26, of Fort Worth.

The billfold was found almost directly underneath a hole which had been cut through the super market's roof.

Arrested by the sheriff's office in Fort Worth, Ramsey was brought to Hereford at 4 p.m. Friday by Hereford Police Chief Henry Aycock.

Ramsey waived examining trial before Justice Of The Peace C. B. Miles at 5 p.m. Friday. Judge Miles set Ramsey's bond at $10,000.

Two attorneys from Fort Worth made bond for Ramsey at 10:30 a.m. Saturday, and Ramsey was released from Deaf Smith County Jail, where he had spent the night.

The stocky and polite-mannered man claimed that he had lost his wallet a few days before the local burglary was committed, and he told Police Chief Aycock he didn't even know where Hereford was located. He said he had not notified authorities that he had lost the billfold.

Ramsey, who was acquitted in the Aug. 20, 1958, in the slaying of Bobby Ray Foote, was charged with burglary by complaint warrant filed by Chief Aycock a few hours after the burglary was discovered.

Ramsey has been free on $25,000 bond in the June, 1960, slaying of Royce Herd. Aycock said the well-known police character has been to felony court five times, and has been acquitted as many times.

Hart Boys Take Barrow Titles In Stock Show

Hart FFA chapter members walked off with the Grand and Reserve champions with a pair of lightweight Poland China barrows Friday during judging at the 15th annual Junior Livestock Show in Hereford.

John Smith took first place in his lightweight division and then had the Grand Champion barrow for the show. Teammate Ralph Myrick of Hart placed second in the lightweight and showed the Reserve Champion.

And the boys really are teammates in lots of ways. Immediately after receiving their trophies, they left for Hart to play basketball Friday night.

Boys from four different towns took championships in the lamb judging. No grand or reserve champion was named in this division.

A record number of entries, 399, kept the judge, Dr. M. V. Callihan of Texas A&M, busy from 8 a.m. until 7 p.m. Friday. The show is sponsored each year by the Hereford Rotary Club for 4-H and FFA entries from Deaf Smith, Castro, Parmer and Oldham Counties.

Following are the results of the class judging:

Light Berkshires: Edward Allison, Hereford FFA, first; Ricky Bob Coon, Friona FFA, second; and Gene Irlbeck, Hart FFA, third.

Heavy Berkshires: Galen Hester, Boys Ranch FFA, first; Mike Reed, Hart FFA, second; and Dickie Geries, Farwell FFA, third.

Heavy Poland: Ricky Bob Coon, Friona FFA, first; Gene Irlbeck, Hart FFA, second; and Craig Coon, Friona FFA, third.

Light Poland: John Smith, Hart FFA, first; Ralph Myrick, Hart FFA, second; and Jerry Felders, Hart FFA, third.

Heavy Hampshire: David Irlbeck, Hart FFA, first; Wilburn Brooks, Hart FFA, second; and Drew Kershen, Hereford 4-H, third.

GRAND CHAMPION steer in the 15th annual Junior Livestock show was entered by Larry Minks, 13-year-old son of Mr. and Mrs. Norman Minks. The 935-pound calf won over a record number of entries in the three-day affair at the Bull Barn.

Jim Shearhart Wins Reserve

Larry Minks, a 13-year-old boy from the Walcott area of Deaf Smith County, showed the Grand Champion steer in the 15th annual Junior Livestock Show here.

His 935-pound Hereford won first in the heavyweight division of the show then quickly was tapped by the judge as the Grand Champion. Showing the Reserve Champion, another Hereford, was Jim Shearhart, son of Mr. and Mrs. Harold Shearhart.

It was the second win in rapid order for Minks. He showed the Grand Champion in the Sandhills Calf Show at Odessa. That animal sold for $3,100. The calf that won for him Friday night had placed second in the Odessa Show in its weight class.

Minks is the son of Mr. and Mrs. Norman Minks. He got his calf from the Dameron Hereford Ranch stock. His father is herdsman for the Dameron Ranch.

The tall, slender eighth grader at Walcott School had his blocky, red calf in perfect shape for the show, with every hair in place and no sign of temperament.

Minks has been in the Walcott 4-H Club four years and currently is its president. He also serves as editor of the Walcott school paper.

Jim Shearhart took reserve honors after taking both top places in the lightweight division of the show. Dr. M. V. Callihan of Texas A&M, judge for the show, commented upon the closeness of all the top animals.

Third place in the lightweight division went to Eddie Sharp of the Wildorado FFA. Placing behind Minks in the heavyweight were Jim Higgins, Hereford 4-H, and Sandie Thomas, Hereford 4-H.

Medium weight winners included Debbie Thomas, Hereford 4-H, first; Dan Thomas, Hereford 4-H second; and Tommy Tatum, Friona FFA, third.

Minks succeeded Jim Higgins with the steer championship after Higgins had won for the past two years.

Showmanship award was presented to Craig Coon of the Friona FFA chapter. A junior at Friona High School, he is the son of Mr. and Mrs. Nelson Coon. He took fifth place with a lightweight Hereford, showed the first place heavy Duroc barrow and the second place lightweight Berkshire barrow.

With auctioneer Jack Howell of Dimmitt chanting, the following animals were sold during the annual sale Saturday afternoon:

Floor on the lambs was sold to Dick Dozier of Clovis, N.M., for 16.5 cents. Swartzman Packing Co. of Clovis set the floor for the barrows at 17.5 cents. Floor on the steers went to

Herd Tries Dumas Here On Tuesday

Hereford and Dumas clash at the Whiteface gym Tuesday at 8 p.m. in a meeting of the giants of 1-AAA basketball.

Both squads are undefeated in district play this year. At the end of the 1959-60 season, they ended up as co-champions with Dumas winning the playoff game.

It will be the first of two regular meetings between the two schools in the double round-robin of conference play.

Dumas has whipped Levelland and Phillips, while Hereford was beating Phillips and Littlefield.

The Demons are coached by Don Haskins, in his first year as head coach at Dumas. He has directed his crew to an impressive 14-4 record, while Hereford has won 11 and lost eight.

Dumas has lost one-point decisions to Pampa and Tascosa, an overtime game with Dimmitt and to Borger by a lop-sided margin.

The Demons came back this year after losing all its starters from last season's squad. Pacing the Dumas club on the scoring column are Larry Tiner, 5-11 guard, and Jimmy Morgan, 6-4 senior center.

Other members of the cage powerhouse are Glen Staggs, 6-4 senior; Dick Rector, 6-1 junior; Royce Taylor, 5-11 senior; Joe McCormick, 6-0 senior; and Mike Wendele, 6-2 sophomore.

Dumas beat Levelland 62-36 and whipped Phillips 50-25. That game was a strange one as the score was tied 7-7 at the end of the first quarter. Dumal led 15-13 at the half, but Phillips got in front 21-20 midway through the third period. But Dumas got hot and scored 30 points while the Hawks were getting just four.

Saturday night, Dumas was to entertain the Littlefield Wildcats.

The Herd beat Phillips 59-42 and Littlefield 91-44.

Hereford coach Cuby Kitchens probably won't name his starting line-up until shortly before game-time. He has used various combinations for the past few games, looking for a high-scoring team that can play tough defense.

Probable starters include Carl

Jack Meredith Of Panhandle Hired For Grid Coach Post

Jack F. Meredith, who has been head football coach and athletic director at Panhandle High School since last fall, Friday morning was appointed head football coach of Hereford High School.

Meredith, who has been coaching high school teams since 1951, was hired by unanimous vote of Hereford Rural High School District board in special meeting.

He will fill a vacancy left by the resignation of Bobby Williams earlier this week. Williams had been Hereford High's head football coach and athletic director since 1958. W. H. "Cuby" Kitchens, head basketball coach, this week was named new athletic director by the trustees.

The new football coach was hired after being recommended to the board by Kitchens and Superintendent of Hereford Schools Paul Stevens.

During his head coaching career, Meredith has chalked up 40 wins, 17 losses and three ties.

Since 1954, he has served in positions as head football coach at Happy, Crosbyton and Panhandle high schools. He was an assistant coach at Floydada High School for three years following his graduation from college.

During the recent season, Meredith's Panhandle team was in the process of rebuilding when it won two and dropped eight contests. However, the team had lost 17 consecutive games in past seasons before Meredith took the head coach's slot.

Meredith received his BA degree with a major in education from Daniel Baker College at Brownwood in 1951. He was halfback and end on the college's "Hillbillies" team, lettering three years.

Immediately after graduation, he was appointed assistant football coach at Floydada High School, a post he held until 1954. He was assigned to line coaching duties all three seasons.

Around Town

We were amazed with the quality of livestock shown during the 15th annual affair here at the Bull Barn. It improved greatly over previous years. And it becomes more interesting when you realize that the show was about 50 per cent larger. And the judge, Dr. Callihan of Texas A&M, really did a wonderful job for more than ten hours. He gave each animal a thorough going-over as all the judging was done in one day. Previously, the judging had stretched over parts of two days. Next year, the show probably will have separate judges for lambs and barrows to speed things up.

Jim Wiman says the Whiteface Booster Club needs a big turnout for its meeting Monday night. The club is going to go all-out to back the Hereford High School basketball team to a vital victory over the high-flying Dumas Demons. The meeting is scheduled for 7:30 p.m. in the Community Center. As an added attraction, films of the 1959 AAA state championship basketball game between Hereford and Smiley of Houston will be shown.

Junior Coffey, by the way, gave Dumas a lesson in basket-

30 Enroll In Short Course

About 30 persons attended the five-night Beef Cattle Production short course, sponsored here last week by the Hereford Young Farmers.

Bill Oliver, instructor from Texas A&M, said that the group had the largest enrollment of any of the 35 courses he had taught.

Oliver covered such points as cow and calf illnesses, herd bull selection and feeder and stocker cattle.

Last Wednesday, a group of those taking the course visited the R. L. Cocanaugher Ranch, where Oliver pointed out way various types of bulls should produce better calves than others.

Tuesday night a short meeting of the Young Farmers was held before the class started. Layton Sawyer presided at the meeting.

It was decided the group would have a social for their families on Friday, Jan. 27, at 7:30 p.m. in the Flame Room of the Pioneer Natural Gas Company building.

The next meeting of the group is slated for Feb. 21.

Victory Class Has Tuesday Meeting

The Victory Class of the Avenue Baptist Church met in the home of Mrs. Louis Hagar Thursday afternoon.

Mrs. Louis Shirley opened the meeting with a prayer, followed by the distribution of yearbooks.

Mrs. Gaylon Bryan brought the devotional.

Plans were made for the upcoming Sweetheart Banquet and for adopting a family for class sponsorship.

Those attending were Mesdames Louis Shirley, Billy Wall, Gaylon Bryan, C. E. Coleman and Louis Hagar.

The meeting was closed with the class joining in the friendship circle and singing "Blest Be The Tie That Binds." and a closing prayer, led by Mrs. Billy Wall.

Money Management Discussed By Class

The home of Mrs. Gerald Martin was the meeting place for members of the Homemakers Sunday School Class of the First Baptist Church Monday night.

Mrs. Leon Billington, class president, presided over the brief business session and introduced the special guest, Mrs. Argen Draper, County Home Demonstration Agent.

Mrs. Draper presented an enlightening program on "Money Management."

Each member brought a gift for the "adopted girl" living at Buckner's Orphan Home in Dallas.

Those attending the monthly meeting were Mesdames Glenden Sanders, Don West, Joe Henry, Joe Thames, Jom Wiman, Argen Draper, Leon Billington and the hostess, Mrs. Gerald Martin.

Burglary...

(Continued from page 1)

Hereford Friday afternoon, he was dressed in a sports suit, and his wavy, black hair was neatly combed. His appearance showed no indication that he had just completed a trip from Fort Worth to Amarillo by commercial plane, and a 50-mile jaunt by police car from Amarillo to Hereford.

He only laughed when a police officer told a reporter that a Fort Worth paper had run a list of the ten mosh undesirable citizens in the city, and that he (Ramsey) headed the list.

Local police termed the method by which the floor safe was cracked as a "real professional job."

The safe contained some $9,000, about $3,300 of which was in cash. The rest was in checks.

The two-level type safe which was cracked was equipped with a three pin combination lock on the top level and a two-key lock plate covering the lower level.

A twelve-inch trench was chiseled in the concrete floor at an angle leading to the pin lock opening on the east side of the cylindrical safe. The pins were then punched out.

A small, blunt tool allegedly was used to open the lower section key locks.

Entry to the building was gained through the roof over the refrigeration room at the northwest corner of the market. Exit was through the rear door of the building.

Local authorities Saturday morning were continuing their search for Travis Mason and Jack L. Meeks, both of Fort Worth, for questioning in connection with the burglary.

The burglary was reported to police at 7:40 a.m. Thursday by Dale Barkley, assistant manager of the market.

A police officer discovered the wallet on the floor of the refrigeration room while investigating the location of the break-in.

Ironically, police found a clipping of "My Answer," a column written by Billy Graham which had been published in the Fort Worth Star-Telegram, while investigating contents of the wallet.

Ramsey told a reporter that he operated a used car business and wrecking yard in Fort Worth and that he was a high school graduate.

The safe is located in the southeast corner of the super market, just to the right of the exit door at the front of the building.

On Thursday morning Hereford police, Deaf Smith County Sheriff's Department and Texas Highway Patrol officers scanned roadsides in this area hoping to recover checks taken from the safe. None of the safe's contents had been recovered Saturday morning.

Grady Haire of Fort Worth, who retired recently as a detective and is now a sheriff's investigator, arrested Ramsey Friday.

Custody of Ramsey was turned over to Police Chief Aycock of Hereford at 10:30 a.m. Friday. Aycock and Ramsey arrived in Amarillo by plane at about 3 p.m. Friday. Police Capt. L. B. Bartlett of Hereford had a squad car waiting at the Amarillo airport.

said.

She said that she felt the community would profit by a maternal and child welfare center within the mission.

"For many years," she pointed out, "the clinic, with the good graces of Hereford physicians, has been helping to solve problems of illness and disease at Hereford Labor Camp."

"Now that all my children are grown and on their own, I plan to devote myself to the mission's program," Dr. Edwards said.

She has four sons and two daughters. A son and daughter are physicians; a daughter is a psychiatric social worker; a son is studying to be a Graymoor Friar; another son is studying toward his master's degree in engineering; and her other son received his degree in business administration last June and is now serving for six months in the Army.

Dr. Edwards was appointed to the associate staff of Deaf Smith County Hodpital last Friday, when the medical staff for 1961 was appointed by the hospital board.

upset Phillips Blackhawks on a snowcovered gridiron in 19-52 and went on to enter regional play. The team was stopped by Childress in a regional clash, but had posted a 12-1 season.

Meredith was named mentor of Happy High School's Class A team in 1954 and stayed until he was appointed head football coach and athletic director at Crosbyton High School, another Class A school, in 1956.

He remained at Crosbyton High until he was appointed to the Panhandle school post for the 1960 season.

Meredith is originally of Archer City, near Wichita Falls. He was graduated from Archer High in 1947, having lettered in football, basketball and track all four years.

In addition to coaching duties, Meredith's classroom teaching has been in social studies and physical education.

He plans to have his family moved to Hereford in about a month. His family includes his wife, Ann, and three children, Chris Ann, 12, Jackie, 9, and Kathy, 3.

"I am really happy for the opportunity of being Hereford High's football coach," Meredith said. "Hereford has a fine school system, and I will do my best to give it a good football team. We're impressed with the town and the people, and are anxious to become a part of the community."

Williams has served as head coach at Hereford High for three years. During that time, his teams son six, lost 22 and tied one. Posting a 2-8 record in 1958, the team was winless in 10 outings in 1959, but came back strong to win four, lose four and tie one in 1960.

No changes in the present coaching staff have been made, and no other coaches in the school system have submitted their resignations.

The new coach was hired Friday morning during a special meeting of the board held in the Western Wheel Inn. Athletic Director Kitchens was present at the called meeting.

sion matches Thursday night were Dickie Eliott of Hereford, who decisioned Ranald Babione of Hereford in the 65-pound division; and Chester West, a local boxer who decisioned Ernie Watt of Levelland for the 70-pound final bout.

On Thursday night, Zeke Clements decisioned Ronnie Morton of Levelland on his march to the finals.

Flashy glover Donny Lesly of Hereford was decisioned by Kiddo Carrillo of Plainview in a 135-pound open match Thursday. Carrillo was state tournament contender from Odessa last year, and in 1959, he beat Richard Hodge of Hereford in state competition. Carrillo is a clinch fighter.

Wa Dee Hudson of Hereford Thursday night lost a TKO to Doyle Raines of Lamesa in 1:-50 of the second round.

In first night action Wednesday, Ronald Baitone decisioned Jim Bob Curtis of Amarillo Boxing Club and Dickie Eliott won a decision over John Radella of Levelland.

Hereford boxing coach Don McNeese said the boxers would be ready for the regional gloves tournament which begins Jan. 31 and ends Feb. 3.

ball Friday night as Dimmitt won its second straight from the Demons, 57-50. They beat Dumas earlier in the season in an overtime. Junior scored 32 points. Dumas was to play Littlefield Saturday night in another conference game.

If you like to see good basketball, we urge you to be at the Whiteface gym well before 8 p.m. Tuesday when Hereford and Dumas tangle. Seats are expected to be at a premium. The B game starts at 6:15 p.m.

Latest count shows 540 tickets for the annual Chamber of Commerce banquet have been sold. If you haven't gotten yours yet, you'd better hurry. The banquet is set for Friday, Feb. 3, with Paul Harvey the guest speaker.

Silver Anniversary meeting of the Hereford Texas Federal Credit Union will be held Tuesday, Jan. 24, in the Hereford High School auditorium. Reports and election of officers will open the program, which is to start at 7:30 p.m. Guest speaker will be Buford B. Lankford of Dallas, regional representative of the Bureau of Federal Credit Unions and a former Hereford resident.

The film on communist infiltration, "Project Abolition," will be shown to the students and faculty of Hereford in the high school auditorium at 10:-45 a.m. Tuesday, Jan. 31. The public is invited to the free showing. This is the film that attracted so much comment when it was shown here earlier in the month.

Hereford's chapter of the American Field Service will sponsor a chili or fish supper on Friday, Jan. 27, in the Hereford High cafeteria. Proceeds will be used to send a Hereford student abroad for a summer of study under the AFS summer program. Tickets are being sold by all homemaking students.

By Saturday morning, 778 poll taxes had been sold in the tax office. You have until 5 p.m. Tuesday, Jan. 31, to get one of your very own. Remember: No poll taxee, no votee!

In a brief chat Saturday morning with Jack Meredith, new head football coach, we were impressed with his sincerity and enthusiasm. He is a tall, slender young man whose face looks unmarked by the worries of his profession. I think Hereford will like him. . . and he already shows that he likes us.

Community Service. This was in support of a drive which ended in the selection of Hereford as the site of a home for the aged.

Publisher Jimmie Gillentine won an honorable mention in editorial writing for his comments on, "Somethings' Wrong When You Can't Afford to Take Free Groceries."

Society Editor Mona Jette won honorable mention in women's features for her story about Bess Werner.

Tuck also was given honorable mention for his story on a now-rare cattle roundup on the Reinauer ranch.

The Hereford Brand was the only non-daily paper in the state to place in any of the contests. In the various contests it competed with papers from such cities as Abilene, Big Spring, Midland, Greenville, Austin, Wichita Falls, San Angelo, Paris, Marshall, Tyler, Bryan, Brownwood, Kilgore, Denton, Victoria, Baytown and Texarkana.

Church Of Christ Scene For Byers - Bellows Vows

Mr. and Mrs. Jerry Bellows are at home in Vega after their recent marriage at the Vega Church of Christ. The Rev. Kenneth Wilson, pastor, read the single ring ceremony.

The bride is the former Patricia Byers, daughter of Mr. and Mrs. John Byers, 401 E. Third. The bridegroom's parents are Mr. and Mrs. Taylor Bellows of Vega.

Given in marriage by her brother, Dwain Byers of Amarillo, the bride was dressed in an airy frock of pale blue nylon chiffon worn over matching taffeta. Her accessories were white and she carried a bouquet of white carnations tied with white satin streamers and net.

Mrs. Ray Cargo of Amarillo was her sister's matron of honor. She wore a pink lace dress over a matching taffeta underskirt and carried a bouquet of white carnations.

Harold Tucker, a life - long friend of the groom, served as best man.

A reception was held following the ceremony in the home of the groom's brother, Leo Bellows of Vega. The refreshment table was covered with a white linen cloth and a three-tiered wedding cake, iced in white and featuring a miniature bride and groom on top, centered the table.

WOMEN OF INTEREST

Versatile Housewife Spends Time With Hobbies, Baking And People

BY MONA JETTE
BRAND WOMEN'S EDITOR

The soft slap-slap of rubber-soled shoes against the tile floors made a lonely night sound in the corridors of Deaf Smith County Hospital.

In one of the rooms of the corridor lay a small-boned woman, half-dead with a serious liver ailment. She lay in her narrow hospital bed, listening intently to the busy sounds as the nurses hurried on their nightly rounds.

And as she lay there, staring at the antiseptic white ceiling, the same thought kept going round and round in her head.

"What in the world am I going to do to keep myself from worrying about this illness?"

Eight years and five major surgeries later, Mrs. Leonard Click is one of Hereford's leading hobby enthusiasts. She does free style oil paintings, ceramics and dredsen-craft, makes jewelry, crochets and collects antiques.

Donnie had learned to crochet before she became ill and had also experimented with painting. But after her release from the hospital, she really took her painting seriously. She loves to china paint and had started to save her extra money for an electric kiln in order to fire her own work. But her husband, realizing how badly she wanted a kiln of her own, surprised her with one on her birthday in November.

Leonard Click shares his wife's interest in hobbies. In fact, he is an ardent "rock-hound" and furnishes her with the small stones she uses to decorate her crocheted purses.

"I don't know how I would have made it if it hadn't been for Leonard," confessed Donnie with a broad grin. "He's been wonderful throughout all this and it's certainly meant a lot to me."

But Donnie's illness has accomplished several things. Not only are her hobbies excellent therapy, but they have enabled her to make many new friends. She makes frequent visits to the Clinic for check-ups, and considers all the "girls" over there as her best friends. She remembers each of them at Christmas with a pretty donation from her collection and a mouth-watering home-made cake.

(Continued On Page 2)

MAKING HANDBAGS IS just one of the many things Mrs. Donnie Click can accomplish with a crochet needle. This particular purse is made from tan crochet thread and trimmed with small polished rocks called "tiger-tooth". She has branched out into other fields and plans to start working with glass-molding in the near future. (Staff Photo)

Mrs. Steele Is Speaker At Club

The Veleda Study Club met recently in the home of Mrs. Dale Young, 812 Ave. K.

Guest speaker was Mrs. Don Steele, who used the topic of "Practical Interior Decorating." Mrs. Steele told members to always be on the alert for a good buy, whether in a used furniture store or at a regular sale.

"Be a scavanger as far as 'cast-offs' are concerned," said Mrs. Steele. She described an old bird cage she had found, which was painted and hung as an attractive planter in the bathroom of her home.

EYES RIGHT

COLUMBIA, S. C. (AP) — The eye doctor pointed at a line of letters and asked six-year-old David Hodges if he could read them.

David shook his head. He gave the same negative response as the doctor traveled up the chart to the huge black letters that even the most myopic can generally read.

David's mother gasped with horror when, again, David said he couldn't read the letters. But she sighed with relief when her son added, "But I can spell any of them."

Donnie had considered putting in a little "Hobby Shop" but the idea was quickly vetoed by the "girls" and other good friends. They love to visit Donnie's home, where they can always find the coffee pot "perking" and the fragrant aroma of a freshly baked cake in her cosy kitchen. They are also allowed to "browse" to their heart's content.

Talented Donnie's home is full of exquisite examples of her work. She makes everyth ing from picture frames of dresden to china teapots, delicately embellished with rosebuds, pansies and forget-me-nots. Many of the local homes contain somethi ng Donnie Click has "made."

She is a frail person, with bright blue eyes and a habit of cocking her head to one side as she listens to you talk. And her fingers are always busy, either with a crochet needle or a paintbrush. Donnie is always interested in something new, something she hasn't tried yet. She avidly scans each new arrival of her hobby magazine, looking for new ideas.

The Clicks have one daughter, Mrs. Freddie Elmore, who lives in Modesto, Cal. And as you might know, she loves hobbies too. Some of Donnie's favorite jewelry, which features small ovals containing pictures of her family, was made by her daughter.

Donnie Click found something to occupy her hands and mind, thus keeping her from worrying about her tragic illness. In doing so, she has discovered new talents, many new friends and has even turned it into a money-making proposition. And in addition, she has won many converts to the "wonderful world of hobbies."

She is truly a fascinating person. Personally, can't you see her, standing at the Golden Gate with her coffee pot in one hand and a painting kit in the other? Standing in front of St. Peter, she suddenly cocks her head to one side, and with a merry gleam in her eyes, she says:

"Say, would you be interested in a hobby?"

Time, Energy Topic Of Program At Club

The Dawn Home Demonstration Club held its first meeting of the year recently in the home of Mrs. H. E. Hosten.

Mrs. H. S. Fuller introduced Argen Draper, County Home Demonstration Agent, who gave the program, "Time and Energy Management." She stated that the enemies of time were procrastination, indecision, undetermined and excusing our inaction."

"Enemies of Energy," she said, "are frustration, irritation, impatience and worry." Mrs. Draper also demonstrated making a bed in a manner to save time and energy.

The business session was presided over by the president, Mrs. J. B. Caraway, who volunteered to be Time and Energy Leader for the club. Mrs. Fuller was elected nominee for delegate to the district Home Demonstration meeting. She was also elected as nominee for T. H. D. A. chairman, a position she now holds.

Mrs. L. W. Tooley gave the yearbook committee report and the next meeting was announced for Jan. 27 in the home of Mrs. Leo Hoffman in Hereford.

Present were Mrs. J. B. Caraway, Mrs. L. W. Tooley, Mrs. H. E. Hooten, Mrs. Rea Cox, Mrs. H. D. Fowler, Mrs. H. S. Fuller, Mrs. R. F. Goiden, Mrs. R. T. Stewart and Argen Draper.

The last $15 in the fund was paid to Dallas Lyon of the University City animal control division. He snared a wolf. It was the 10th bounty payment of 1960 for the county, largely a sururban St. Louis area.

County Tax Equalization Will Solve Many Problems

The Commissioners Court last Tuesday took the initial step toward equalizing county and state tax evaluations when they contracted the services of a professional firm. The condition, once realized, will solve many problems for Deaf Smith County, and every man, woman and child within the area should appreciate the fact that the action was accomplished through a unanimous vote.

In addition, the court added a paragraph to their contract which could prove to be equally as important as the first. Specifically, we have in mind the policy which includes the training of a county employee whose duty will be to continue the evaluations system, once it has been installed. Taken over a long period, and seen through the eyes of benefit to Deaf Smith County and every citizen who resides within its boundaries, this particular feature is tremendously important. A tax survey which is not kept up equalizes taxes for two or three years, then dwindles into a general muddle.

Dollar-wise, Deaf Smith County wrapped up a real bargain with their $7,400 contract. This is due, in part, to the fact that they will be able to use survey material from the school district and city without additional cost to the county. Certainly, had the county conducted the survey through the local office, the cost would have been twice the $7,400 figure -- and the survey would not have been completed until 1963 or 1964.

There is no question about it, The Brand has been highly critical of the commissioners Court for the past several months. In fairness, it seems to us that their ultimate action and methods are well beyond reproach.

Once the equalized evaluations are placed in use, people can expect considerable varation in property evaluations, especially the first year. Some will be lower, others will be higher. In the overall picture, however, the county will require approximately the same money for operation in 1961 as in 1960. Taxes, in other words, will undergo practically no change -- other than being collected on an equalized basis.

As we have said before, no one likes to pay taxes. The only consolation anyone can have rests in the fact that others are paying on a basis as nearly equal as humanly possible.

WAS YOUR VOTE TOSSED OUT?

Recap Discloses That One Vote In Each 10 Was Lost In Deaf Smith

The recent ruckus over vote tabulations seems to have been accepted by most people in this area with a grain of salt. Now that the results have been approved in Washington, and Mr. Kennedy is about to be installed in office, eliminating all phases of prejudice, comes a report which indicates an overwhelming need for election improvements in Texas -- including Deaf Smith County.

In the first place, a total of 3639 votes were cast in this county in the last election, and 383 of these ballots were disquallified. This means that 10.52 percent of the votes were thrown out -- or that slightly more than one out of every 10 votes casts was not counted in the official returns. The disqualified votes appear as follow, tabulated by voting precincts:

	Number Voting	Number Thrown Out	Pct. Disq.
Precinct 1 --	779	88	11.29
Precinct 2 --	1392	221	15.87
Precinct 3 --	51	7	13.72
Precinct 4 --	67	11	16.41
Precinct 6 --	129	13	10.07
Precinct 7 --	88	1	1.13
Precinct 8 --	71	11	15.49
Precinct 9 --	16	1	6.25
Precinct 10 --	57	(3)	-----
Precinct 11 --	833	24	2.88
Absentee --	156	9	5.76

Only Precinct 10 failed to disqualify a single vote, and they offset the situation by reporting returns on 60 ballots, when only 57 people were listed as having voted.

The situation, in part, can be attributed to existence of two conflicting election laws. It was also emphasized this year by a strong write-in candidate in Deaf Smith County.

State-wide returns resulted in pretty well the same story over Texas, where as high as 63 percent of all votes were thrown out in one box in Anderson County. General opinion of most observers indicates that throw-outs and disqualified votes depend, in a large measure, on interpretation of various individual election judges.

Because we honestly believe that each of the judges in this county would be fair and impartial, coupled with the fact that per capita income and education levels in this county would stand far ahead of most other areas in Texas, it does seem that the time has come when we should seriously begin thinking about improving election methods all over the state -- including Deaf Smith County.

As one of the few nations in the world where people can still vote as they choose, we do quite a bit of flag waving on this particular subject. If only one of each 10 votes is to be counted, however, the story is suddenly given a complete new look.

Come to think of it, do you suppose one of those votes which was tossed out could have been yours?

License To Gripe Costs Only $1.75

As of this week, Deaf Smith County is running a good 50 percent behind the same period in 1960 on poll tax payments, and with January 31 as the deadline, only eight more days remain during which the tax office will be open.

The reason, according to tax collectors, rests chiefly in the fact that 1960 was an "election year," one in which state and national offices were to be filled.

This year, however, voters will have several opportunities to cast a ballot. Early will come the election of a U. S. Senator to replace Vice President Lyndon B. Johnson. Already, the City of Hereford has indicated a bond issue, and three candidates have filed for the post of school trustee to replace two retiring members. City residents will also vote on a mayor and elect two city commissioners.

All in all, the $1.75 will be well spent on the present line-up. Besides, if a fellow owns a poll tax, it sort of gives him a license to complain about the way things are going. If he doesn't even care enough to pay his poll tax, it fairly well removes his legitmate right to gripe.

No System Seen In Street Names

Most newcomers sooner or later express an interest in some of the rather unusual street names to be found in Hereford.

The streets in early Hereford were named for Spanish-American War heroes, due to the fact that this particular conflict was a high point of interest in the early 1900's. Our present Main Street is the one exception today, and that may be attributed to common usage. Originally, Main Street was called Dewey Avenue in honor of Admiral Dewey.

Schley, the hard to spell, hard to pronounce street, bears the name of Windfield Schley, another naval hero, whose squadron united with Rear-Admiral Sampson's fleet on July 3, 1871, to wipe out the Spanish fleet while it was trying to escape from the harbor in Santiago de Cuba. Sampson, of course, provides another street name, as do Lee, Miles, Roosevelt of "Rough Rider fame", (President) McKinley, aid others.

In fact, if you live in the original part of town, it is probable that your street got its name in this fashion. A quick glance at an encyclopedia will give complete information on the men these streets were named for and Little Junior, instead of wondering where his street got its name, can point with pride to its origin and, at the same time, soak up a bit of history of the side.

Later streets, of course, carry the names of many early settlers in the community, along with numerals in one area, and alphabet letters in one east-west area.

"Twenty-five Mile Avenue" is another street you will probably often hear mentioned, but cannot find. This street is now labeled Highway 385, connecting with Vega on the north and Dimmitt on the south. The original name was applicable, since the street reportedly covered a distance of 25 miles without a crook or turn.

All in all, we admit that Hereford street names are quite a capsule to take in one dose. Nor should the newcomer be too upset if he is unable to immediately grasp and follow the streets. The same thing is also true of many old timers who have lived here all of their lives.

The POWER of FAITH

by Howard Brodie

Faith plays an important part in the busy lives of Gov. Mark O. Hatfield of Oregon and his bodyguard-chauffeur, Bill newell.

Bill, a state policeman and former Marine boxer, not only drives the official car with a steady hand but scans the crowd during the governor's public appearances and examines suspicious mail.

Despite their many engagements and official duties, the two of them find time during trips for occasional roadside prayer or for religious discussions and Bible reading in hotel rooms.

"Following Jesus Christ has been an experience of increasing challenge, adventure and happiness," says the governor. "No matter what field we are in, we are called upon to give our complete allegiance to Him."

Bill tells me that faith has given him an inner strength "deeper and more complete" in every respect than before, and adds the quotation, "I can do all things through Christ which strengtheneth me."

Confessions Of Former Photography Swindler

(Editor's Note: According to the ex-salesman who submitted the following expose to National Better Business Bureau, the outfit described has crews working in all states. He tells of his participation in a nationwide confidence game via photography.)

Let me tell you about a very, very clever confidence game via photography on a wide scale, nationwide. So clever is this flim-flam that I was for six months a part of it before I discovered it was an outright swindle.

One day in Miami, Fla., I was approched by a salesman who sought to sell me a certificate which entitled me to a portrait of myself. He showed me a gorgeous portrait in natural color. It was 8" x 10" in size, and was a work of art. He said I could have one of myself for $3. I told him I was broke and looking for a job. Ten minutes later he hired me as a salesman. After listening to his pitch for a couple of hours, I was on my own.

THE COME-ON

I went house - to - house ringing doorbells. To the housewife I showed a gorgeous sample portrait of a child. I told her a dirty lie—that our company was going to open a studio in this neighborhood, as an introductory advertising offer, we were offering one of these family portraits for $3., etc. If she looked like she was falling for the pitch, I would add: it was $3 for the first person and a dollar additional for each person. Sometimes I would get $7, $8, $9.

What I collected at the door was my sole commission. So I would accept anything rather than walk away empty-handed. If she would NOT fall for the pitch, I would ask less and less. If I could NOT get $5; I tried for $4; if not $4, then $3. I have accepted as little as 50 cents. Thus, a believing woman would pay $9, while another could get the same thing for 50 cents.

If she fell for the pitch, we would agree on an appointment for the photographer to come to her home.

FOUR GIMMICKS

Gimmick No. 1: the sample I showed her was NOT the work of our company.

The samples were purchased from an expert company. The samples were the work of the best photographers in the business. No wonder they were works of art. They were taken with the best cameras by the best technicians in studios under the best lighting.

But the housewife could NOT know this. Our pitch led her to believe that she was going to get a work of art for a mere $3 or 50 cents, whatever the case may be.

The "Famous Photographer"

Our "highly - trained," "professional," "nationally famous" photographer would make his appearance at her home at the appointed time. Then he took pictures of the family group; after that, he HAD to shoot each member individually - or not get paid for the sitting.

Gimmick No. 2: the housewife expected only a family group. But the Photographer HAD to shoot each person individually. Actually, the family group was the comeon. All this was a clever way to get pictures of EACH individual personally.

Gimmick No. 3: the photographer's equipment would consist

50 YEARS AGO

Early Irrigation Is Big Production Boon

The long experience of successful farmers who have irrigated in nearly every state in the Union, and the quick response of our soil with the application of water in our gardens should be sufficient to warrant at least a moderate outlay to equip a pumping plant. While it requires some knowledge of irrigation methods to carry on a large project, it does not require any more than the average intelligent farmer is able to command for small plants. Don't undertake to irrigate too much the first year. One man thinks if he has 20 or 30 acres and the most part of this in field crops he would be willing to take the risk. That it pays to irrigate is evident from the price of irrigated lands in Colorado, Oregon and California. From $200 to $2,000 per acre depending upon the state of development and the crop raised. The question should be placed in the negative to get its full meaning - Will it pay not to irrigate? 1911 should bring a good fruit crop. Those who irrigated their orchards last winter either by accident or intentionally had an abundance of fruit when the harvest came. Why? Those who watered their orchard grounds last winter agree that a through soaking chilled the ground and prevented the usual warm winter and pre-spring days from warming up the earth and causing the buds to begin to grow. The retarded budding and blooming escaped the late frosts or rather prevented winter freezing of the buds and thus the trees put on abundance of fruit. While this may not be true, many are trying the experiment this winter. They are turning their windmills loose and allowing the water to run wild thru the garden orchards. It would be well to plow two or three deep furrows between each row of trees and fill these with water. Flooding with a small stream from a mill is rather slow and does not cover the ground. Let every one who has an orchard try the water cure for frosted fruit.

SAVE PROBLEM DRINKERS

The public is invited to a special program on the relatively new Commission on Alcholism in Texas at the Antioch Baptist church. The Rev. Edwin Manning of the First Presbyterian church will preside. He is Public Education chairman of the temporary Dallam-Hartley Commission of Alcholism that is working toward establishment of a permanent Dallam-Hartley Commission. The Commission has no connection whatever with Alcholics Anonymous, the amazing nationwide organization that has restored to complete sobriety so many alcoholics, or problem drinkers. However, Alcholics Anonymous will work with the Commission or with anyone else, in attempting to reclaim and restore to soberness any problem drinker who sincerely wants help, and whose case is brought to the attention of AA by the Commission, by any club or organization, or by any individual. LOSE VOTE IN ELECTION

A total of 332 Moore County citizens failed to have their vote counted in the presidential election Nov. 8. The votes were disqualified mainly because the voters had failed to scratch out the Constitution and Prohibition Party candidates. This figure, representing some eight per cent of the total vote of the county and other statistical information pertaining to voting in this area released from Republican State Headquarters in Houston. The results of the study have been revealed in an effort to appraise Texans of the dangers of careless voting, and to point up "Peculaities" in our state election laws which have contributer to an abnormally high vote disqualification." The report states that there are two election laws which contradict one another. Art. 6.06 of the Election Code provides that the voter shall mark out the names of all candidates he does not wish to vote for, but that the failure to do so shall invalidate the ballot if the intention of the voter is clear in the opinion of the election judge. Art. 8.21 however, provides that no ballot shall be counted if the candidates for more than one party are left unscratched. Since apparently both laws cannot be applied which law is just. This inconsistency in the law has contributed to the irregular pattern of vote disqualification between not only countries, but between precincts within counties, the report claims.

The BOOTLEG —Philosopher

Editor's note: The Bootleg Philosopher on his bindweed farm discusses ignorance this week, something he may have first-hand knowledge of.

DEAR EDITAR:

I don't know about the rest of you, but there are too many countries in the world for me to keep up with.

Just this morning I was talking with a man in town who considers himself pretty well informed and after asking me how I was getting along he said, "Well how does the situation in Laos look to you?"

Laos? Thunder, how do I know what's happening in Laos when I don't even know what's happening in Castro County?

By the time I half-keep up with what's happening in Deaf Smith County, in Austin, in Washington, and on this bindweed farm, plus a few sidelights and headlines on Moscow, Cuba, and England and France and Germany once in a while, I just don't have any time left for all those other places, especially when at least half of what I learn about most of the places mentioned turns out to be unreliable anyway.

I figure if I learned enough about all the countries that have been in the news lately, such as Algeria, Laos, Belgium, the Congo, Guatemala, etc., to know what was happening, learned enough about them to know who was president of which and what side he was on, plus who was after his job, I wouldn't have time to do a bit of farming this year, and any time I get too busy to farm, I'm going to do it with something more interesting and satisfying than studying geography. I'd rather be too busy fishing to farm than too busy studying the Congo to farm. A man too lazy to find nothing better than Congolese politics to avoid plowing, is pretty hard-pressed to know what to do with his time, and deserves to plow.

I know this may be considered backwards in some areas, and it may be, and practiced universally might lead to world confusion, and certainly we don't want that, we're already trying it, but I found out long ago that there are lots of countries on this earth that are going to have to get along with me being ignorant of them.

I can't be expected to keep up with the internal politics of Laos when I don't even know the internal politics of Deaf Smith County.

Yours faithfully,
J. A.

of an ordinary 35 mm camera with Kodachrome film; the lighting was merely one light on each side of the camera. Any studio will tell you that such lighting is awful; it produces huge, ugly shadows. No studio would dare use such lighting. ANY HOUSEWIFE COULD TAKE SUCH PICTURES HERSELF WITH ANY 35 mm CAMERA.

Gimmick No. 4: in the daily papers, the studio is always advertising for amateurs or hobbiests in photography. These men get about 3-4 days training and are sent out on the road with a crew of bell-pushers. That is the sole experience of these "famous" photographers.

As you perhaps know, if you shoot pictures with KODACHROME film, you will get negatives in the form of slides in natural-color; from each slides the prints are made.

THE HI-PRESSURE BOYS

The photographer tells the housewife that a man will show her the proofs in 2-3 weeks. So she waits and waits. This is intentional. The studio feels this will make her all the more anxious. The more anxious she is, the easier a sucker she will be. She may wait 2, 3, 4 months.

One unhappy day a man comes to show her the proofs. She is now on pins and needles. The man uses a viewer which enlarges only moderately. This is intentional. The woman is all emotion now. She sees her little darlings in lovely color. Now comes the high-pressure, . pressure. . .Get one for grandpa! One for godmother! Uncle Joe in Korea! All the cousins! The in-laws! We ask ONLY (sic) $11.95 for an 8 x 10. The studio downtown would ask a lot more. And you do NOT have to pay all of it right now. Just put a one-third deposit and pay the rest C. O. D.

The poor woman was thinking in terms of a family group for $3. Now she finds herself pressured into a $30, $40, $50 order! I have heard of a $125 order!

If she does NOT fall for the pressure and wants her one picture, she has a long wait - six months, maybe.

THE SWINDLE

1. The mother knows nothing about judging the quality of a slide. Her baby looks wonderful. All her darlings look magnificent. And she has in mind the gorgeous sample shown her.

2. To make good prints from a slide requires experienced help. And such help is expensive. But our studio is NOT concerned with quality. The slides are rushed through the dark-room as fast as cheap help can do it. So what if the enlarger is a little out of focus? So what if the solutions are several degrees off temperature? Just so the woman gets SOMETHING on the C. O. D. We gotta keep it legal, you know. As for quality, unimportant—she will not see the pictures until AFTER she has paid her good money C. O. D.

AFTER she pays the C. O. D., she sees her pictures for the first time. She probably cries when she sees what she bought. The kids look like monsters. Ever see a baby with a fancy green face? Did you ever see a family group with "pink eye?" (Ask any studio about "pink-eye.")

This is the swindle. She is shown a work of art as a sample. But when she has paid the C. O. D., she sees that she has fallen for a swindle.

Exchange Students Attend Houseparty

Heidi Rutishauser of Switzerland and Erik Okseter of Norway, both exchange students at Hereford High School this year, attended a houseparty last weekend in Amarillo.

The houseparty was held at the home of Dr. and Mrs. Edward McKay, 3410 Hayden, for the 12 foreign exchange students attending schools over the Golden Spread under the American Field Service program.

Mrs. McKay, district chairman of the American Field Service, turned her house over to the young people but stayed available for anything they might need. Susan Shaw of Amarillo, who lived in Europe last year under the exchange program. was co-hostess.

Heidi and Erik joined students from Amarillo, Tulia, Pampa, Memphis, Dimmitt, Petersburg and Borger for a weekend they will all long remember.

Home Management Creates Interest For Area Groups

BY ARGEN DRAPER

The Home Management programs are creating a lot of interest and discussion. Time is made of hours and energy. There are four kinds of energy—physical, mental, nervous and energy of the spirit.

Energy of the spirit is determined by happiness, attitude toward work and pattern of life. Just as time has two dimensions, so life has three aims: happiness, accomplishment, progress.

Our happiness, rather than money or position, is the true measure of our success in using our time and energy wisely, minute by minute, hour by hour, day by day, month by month, year in and year out.

A wise man wrote: "Success is a journey, not a destination." To which David Dunn adds: "Happiness is to be found along the way, not at the end of the road—for then the journey is over and it is too late."

We fall into the error of thinking of happiness as a condition by itself, which of course it is not. It is all wrapped up with our accomplishments and our progress. The test of whether we are using our time and energy wisely is how good a job we are doing each day at earning a living and providing for those dependent on us, and how much progress we are making.

Our progress might be characterized as the long-distance aspect of successful living. There is something of tomorrow in everything we do today. We are either storing up progress or we are living and working for too small a return on our investment of time and energy.

Just as in business, profit is measured by whether the businessman is able to take out more money than he puts into his enterprise, so in our personal lives our profit is the margin between the time and energy we invest in living and the happiness, accomplishment, and progress we enjoy as the days, weeks, and months slip by.

Measured by this definition many people are investing a great deal of time and energy unprofitably. None of us can escape some waste of time, for if we never risk time on projects that do not "pay out," we will not live very exciting lives. Nor will we accomplish very much. But if, over the months and years, we continue to put more into life than we take out in happiness, satisfaction, and progress, something is radically wrong with the way we are using our time and energy. It is time we came to grips with life.

A good starting point is to visualize the routine of daily living as having pattern. With most of us the pattern is something like this:

—Earning our living and supporting our dependents
—Making progress in our work
—Keeping abreast of the world
—Enjoying our family life
—Keeping in touch with our friends
—Doing our share in the community
—Making at least a modest contribution to the welfare or progress of the business, profession, art, science, trade, or calling which supports us
—Engaging in games or sports
—Saving for the future

HOME STUDY CENTER

Many sincere people regard the Bible as the sole authority for Christian belief. And they reject the teachings of the age-old Catholic Church because these teachings and forms of Catholic worship are not mentioned by name in Holy Scripture.

"Where," some will ask, "does the Bible say anything about the Mass or Purgatory? And how about confession to a priest, praying to Mary, and those seven Sacraments Catholics talk about. They're not in MY Bible."

Catholics say that their teachings are found in the Bible. She teaches nothing that is not found in Sacred Scripture. If you wish to know more about Catholic teachings, write for a free pamphlet explaining the Catholic Church. Write to: Home Study Center, Box 5644, Amarillo, Texas.

Watch It Secretary; British Are Coming

BY ANNE RUGGERI

NEW YORK (AP) — Up to now it hasn't appeared on any tariff list, but a new British import is making inroads on the American market.

British secretaries are being brought to the United States to fill well-paying executive secretary positions and the American girls aren't too happy about it.

"Why should British secretaries be hired for the good jobs we American girls pound pavements for?" one home-grown secretary asks.

The answer is simple, says David L. Wexler of the first employment agency to import English secretaries: "The demand for competent executive secretaries today is not being adequately filled by American girls. There are more jobs available than competent secretaries, so a firm hires an available British girl to fill the job."

The British girls are guaranteed one year's employment starting at an $85 a week minimum. They receive permanent visas and an option to become a citizen. They must have had one or two years in secretarial school or college plus three years' job experience before coming to the United States.

The arrival of English secretaries on the local scene has caused a disturbance ranging from the serious to the ridiculous:

The New York State Committee Against Discrimination has been investigating possibilities of racial discrimination in the importation of secretaries.

The State Department has been asked to investigate a possible violation of immigration laws. (It says the Immigration and Nationality Act does not cover secretarial imports.)

On Madison Avenue, public relations people are testing the reaction of American and British secretaries. One agency discovered, after a long investigation, that three out of every hundred English secretaries wear glasses—even though they don't need them—when interviewing for a job. They prefer the brainy to the beautiful look.

And, on a recent trip to the United States, Vera Sugg, head of an English employment agency, caused a national incident when she had a fashion designer design a dictation skirt for British secretaries. She wanted to make sure the British gals weren't showing their knees, she says.

The skirt didn't go over on the American market. "It's rediculous," one American secretary says. "I refuse to look dowdy. Besides my boss doesn't see my legs. I sit on the other side of the desk."

All this fuss is silly, says Wexler, "We bring all types of specialists to the United States to fill job shortages—machinists, tool makers, registered nurses—besides secretaries.

"No one is making a fuss about the imports in other fields — just secretaries. There are a million extra females in England and the class system often prevents advancement there. The girls are higher paid and have better opportunities in the United States and they are not taking any jobs away from the American girls.

"Many American girls are being paid $100 a week for sloppy work. The firms that hire British girls have looked in the home field and can't find what they want."

Some American secretaries believe the English girls are hired because "they add dignity to the office. They're hired to answer phones because of their accent."

"You can't understand them over the phone," another says.

But British girls have nothing to say about all the fuss. They just smile and pound away on their typewriters.

Hereford's Bees Take 59-34 Win

BY WAIN MILLER
BRAND SPORTS WRITER

Little resistance was offered as the Hereford Bees took win number 12 with a 59-34 decision over the junior Littlefield Wildcats there Tuesday night. Hereford Bees entertain the rugged Dumas Demons here next Tuesday at 6:15.

Randy Dowell paced the Herd with 16 points at Littlefield. Lynton Allred added 13 and Mickey Stevens netted 11. Maurice Wilcox racked up 12 points for the lagging Wildcats.

Paced by Lynton Allred's nine points, Hereford moved out to a 17-9 lead during the first quarter. Randy Dowell and Mickey Stevens totaled four apiece during the first period.

Increasing their advantage six points, the Whitefaces led 31-17 after the second quarter. Randy Dowell netted seven and Austin Hodges canned six during the third stanza as Hereford moved to a 44-23 stronghold.

Nine points were claimed by the Wildcats in the final round, but they came up on the short end of the 59-34 reading. Sophomore David Dowell sank four, Stevens three, and Dwight McGee two to close out the scoring columns for the Herd.

IN-THE-BOOTH-TRAINING

SHAKER HEIGHTS, Ohio (AP) — Youngsters at Woodbury Junior High School are given a chance to participate in a realistic election as part of their citizenship training.

Dr. Donald A. Wesley of the Social Studies Department explained in a recent issue of the Ohio Education Association's magazine that there is a residence requirement (a month) for new students, permanent registration to vote during all three years of attendance, voting booths furnished by the city, student election workers and close adherence to adult voting procedures.

Death Rites Inspire Great Musical Works

BY HUGH A. MULLIGAN
(AP) Newsfeatures Writer

THE REQUIEM MASS, probably because of the haunting appeal of death and judgement as a theme and the masterful poetry of the ages-old liturgy, has always fascinated composers.

From the earliest days of Gregorian chant, the booming solemnity of the "Dies Irae,Dies Illa. . ." (days of wrath and days of morning), the stately march of the "Kyries" (Lord, have mercy), the moving plaintive plea of "Libera me, Domine, de Morta Aeterna" (deliver me, Lord, from eternal death) and all the other magnificent passages in the Catholic burial rites have evoked some of the world's greatest music from composers of many religious and national backgrounds.

Writers as miles and styles apart as Berlioz, Bruckner, Brahms, Cherubini, Delius, Dvorak, Faure, Gossec, Mehul, Mozart, Palestrina and Verdi all have been inspired to write Requiems.

Two of the most famous Requiems, Berlioz's and Verdi's, have been the subject of recent recordings by several companies both here and in Europe.

Verdi, who detested writing music for special occasions and seldom was inspired to write anything without first receiving a commission, came to write his Requiem almost by chance. When Rossini died in 1868, Verdi hit upon the idea of having 13 Italian composers collaborate on writing a Requiem in memory of their famous countryman. Verdi himself wrote the "Libera me," the prayer which the priest says when he blesses the body at the end of Mass, but the whole idea fell through when a row developed over which composers should be selected to contribute the other movements.

Verdi, as it happened, was never particularly attached to Rossini but he was tremendously devoted to Alessandro Manzoni, the great Iralian novelist and patriot. When Manzoni died in 1873, Verdi was too broken up to attend the funeral of the man whom he constantly referred to as "a saint," but he was moved to complete his Requiem Mass. The work was first performed on the anniversary of Manzoni's death, with Verdi himself conducting. Music critic George Bernard Shaw called it Verdi's greatest work. Other critics regard it as the finest Requiem ever written.

Berlioz started out to write his Requiem in honor of his fellow Frenchmen who had fallen in the Revolution of 1839, but saw his chance to have it played at the funeral of Gen. Damremont, who was killed in the fighting at Constantine in Algeria. During the funeral, Berlioz hid behind the drums because he wanted to keep his eye on conductor Habeneck, a close friend of Cherubini who also had just completed a Requiem. At a crucial moment in a movement that required close coordination between orchestra and chorus, Habeneck suddenly dropped his baton and pecked at his snuff box. Berlioz, arriving like the cavalry, dashed out from behind the drums and gave the needed downbeat. Experts still argue whether Berlioz's version of the snuff box episode is a true one, but there is no argument about the magnificance of his Requiem.

Amont the recent recordings of these famous works, RCA Victor's "Verdi Requiem" is notable as the last recording made by the late Swedish tenor Jussi Bjoerling and for Fritz Reiner's inspired conducting of the tra. Capitol's excellent record- Vienna Philharmonic Orchesing of the same work features Tullio Serafin conducting the orchestra and chorus of the Rome Opera House and tenor Eugenio Fernandi.

Westminster's recording of "Berlioz Requiem" was made in the chapel of Hotel de Invalides, where the work had its premier, and features the Orchestra of the Theater National Opera under Herman Scherchen. RCA Victor's superbly mounted album of the Berlioz work is preferred mainly because it had the advantage of one of the world's great orchestras, the Boston Symphony under the baton of Charles Munch.

Beauty At Home

By Lynn Carter

Q. Please give me some of the "rights" and "wrongs" in dress for the hippy woman.

A. WRONG are darks tops, light skirts; right, straight,short skirts; and skirt trimming such as pockets, ruffles, peplums, horizontal stripes, and narrow shoulders. RIGHT are light tops and darker skirts; jackets or blouses in bulky fabrics; and above-the-waist interest such as portrait necklines and bulky jewelry.

Q. How can I prepare my own hair bleach at home?

A. You can mix this with ordinary peroxide and ammonia, but you'll do much better if you invest in one of the oil-bleach preparations. These keep the hair in much better condition, and help to avoid that harsh, brassy look you surely don't want. All these are color-controlled, and give you a choice of ash blonde, silver blonde, champagne, and other blonde varieties. Always be sure the peroxide you mix with them is 20-volume and guaranteed to be "live."

Q. What can I add to my bath water to promote greater body skin beauty?

A. A pound of epsom salts added to your hot bath water is a splendid skin tonic.

Q.What makeup technique will have the effect of subduing overprominent eyes?

A. Your eyes will seem to recede if you use brown or gray eyeshadow over the entire lids, beginning with a thin line near the lashes, and spreading up.

REMEMBER WHEN?

BY CHARLIE SEEDS

FIRST always make history. . .and the name of Florence Chadwick, a young girl from San Diego, California, is listed in the record books for her famous first.

Florence was a long distance swimmer. She had mastered most of the world's long distance swims. . .including crossing the English Channel from France. But other women had done these things before her.There was one remaining challenge . . .something no woman had ever done. . .swim the English Channel "the other way," from England to France, going against the tricky currents.

This was a challenge Florence couldn't pass up. So the day came when she slipped into the water at Dover and started across. For 16 hours and 22 minutes she fought the icy currents, until she finally dragged herself ashore at Sangatte, exhausted. . .and triumphant. She had scored her famous first.

There's a reason why HOMEMAKERS OVERWHELMINGLY PREFER GAS RANGES

ECONOMY...

The American homemaker is about as sharp a cookie as you'll find when it comes to dough (both kinds)! The more efficiently and economically she handles the family budget, the faster she can feed the piggy bank. When it comes to buying a new range, she knows she'll be 'way ahead with GAS because what other range gives such beauty and performance . . . for so little money? And when she can save more than $30.00 a year in operating costs over "coil-type" cooking . . . what else can a smart woman choose?
