The SDN Column

Speedy Moffett, the veteran baseball coach at Snyder High School, who will be honored between games of a doubleheader tomorrow at newly-named Moffett Field, is entitled to take some pride in his 438 victories on the diamond. But his teams attract attention off the field, also. Evidence of this came a few days ago when City Manager George Patterson received a letter from his sister, Allene Williams, of Plainview. Mrs. Williams is a part-time hostess at the K-Bob Steakhouse Restaurant there, and in the letter to her brother, she included the following:

"We had the baseball team from Snyder in the restaurant last week when they were in Plainview. I wanted you to know that of all the groups we served, the boys from Snyder were the best mannered and nicest of all. Even the restaurant manager commented about how cooperative the coaches and boys from Snyder were. Things were a bit hectic due to the number in the groups we were serving, but the coaches were very understanding of our problems. I think the conduct of the boys from Snyder reflected well on their school and their city."

★ ★ ★

Public school and college athletics have changed considerably during Moffett's career, but he has encountered success at all levels. He probably can tell, first-hand, more Obie Bristow and Pete Cawthon stories than anyone else around. He played football at Texas Tech under the legendary Cawthon, and he coached under Bristow, the All-Conference Fullback from Oklahoma who came down to Big Spring as head coach back in the thirties, and all but revolutionized the game at the high school level in these parts.

★ ★ ★

In this year of politics, few candidates at any level are likely to match the experiences of Bill Vestal, Snyder's new mayor. Vestal was elected mayor and acquired two grandsons within less than a week.

The series of events went like this:

March 29, the Rev. and Mrs. Jerry Vestal of Garland became the parents of a 7 lb., 9 oz., son, Named William Ator. The mother is the former Sharylon Ator, daughter of Mr. and Mrs. George Ator of Snyder.

April 2, Vestal was elected Mayor of Snyder in the city general election.

April 4, Mr. and Mrs. Fred Hegi of Houston became the parents of a son weighing 6 lb., 6 oz., named Peter Braxton. Mrs. Hegi is the former Jan Vestal, and her husband's parents are Mr. and Mrs. Pete Hegi, long-time residents of Tahoka.

Rev. Vestal is associate pastor of Axe United Methodist Church in Garland, and Fred Hegi is with Cooper Industries in Houston.

"On top of that, when I went to Garland to see the new grandson there, somehow I wound up in possession of a Bassett Hound," Vestal said.

Just goes to show you that when good luck gets started, sometimes it goes on and on. —— WACIL McNAIR.

Today In History

By THE ASSOCIATED PRESS

Today is Thursday, April 18, the 108th day of 1974. There are 257 days left in the year.

Today's highlight in history:

On this date in 1906, San Francisco was hit by an earthquake. The quake and fires destroyed half the city.

In 1775, Paul Revere made his famous ride from Boston to warn: "The British are coming."

In 1847 American forces captured Cerro Gordo Hill, the first point of resistance on Gen. Winfield Scott's march on Mexico City.

In 1942, in World War 2, an air squadron led by Lt. Gen. James Doolittle took off from an aircraft and attacked Tokyo and other Japanese cities.

In 1945, war correspondent Ernie Pyle was killed during fighting on an island off Okinawa.

In 1946, the League of Nations officially went out of existence.

In 1955, physicist Albert Einstein died in Princeton, N. J. at age 76.

Ten years ago: More than 10,000 doctors in Belgium ended a 17-day strike.

Five years ago: President Nixon denounced as unprovoked North Korea's shooting down of an unarmed U. S. reconnaissance plane in the Sea of Japan.

One year ago: Atty. Gen. Richard Kleindienst disqualified himself from the Watergate investigation.

★ ★ ★

The Weather

SNYDER TEMPERATURES: High Wednesday, 82 degrees; low, 51 degrees; reading at 7 a.m. today, 61 degrees.

Northwest and Southwest Texas: Partly cloudy and warm through Friday. Widely scattered thunderstorms in north and central Friday afternoon. Windy in north Friday afternoon. Low tonight 48 to 63 except near 40 mountains. High Friday 80 to 92.

North Central and Northeast Texas: Clear to partly cloudy with continued warming trend through Friday. Low tonight 61 to 65. High Friday 87 to 91.

South Central and Southeast Texas: Increasing cloudiness tonight and Friday with slight chance of mostly daytime showers Friday. Low tonight in 60s. High Friday 82 to 92.

Port Arthur to Port O'Connor: Winds southerly 14 to 22 knots Friday. Seas 3 to 6 feet, increasing tonight and Friday.

Port O'Connor to Brownsville: Winds increasing to 14 to 22 knots Friday. Widely scattered showers increasing Friday. Seas 3 to 6 feet, increasing tonight and Friday.

PLAQUES PRESENTED—Dan Cotton, left, and William J. Schiebel, center, received plaques Tuesday night for their service on the Snyder School Board. The plaques were presented by Dillard Teal, right, president of the board. Cotton has served over seven years on the board, while Schiebel is concluding his 15th year of service, believed to be the longest tenure in the history of the local school system. Neither Schiebel nor Cotton sought re-election this spring. (Photo by Paul Gilbert)

Argentina Asks Diplomatic Embargo On Cuba Lifted

By GEORGE GEDDA
Associated Press Writer

WASHINGTON (AP) — Argentina formally requested today that the Organization of American States lift the commercial and diplomatic embargo imposed 10 years ago against Cuba, according to diplomatic sources.

The proposal reportedly was made before a closed-door gathering of 25 Western Hemisphere foreign ministers who met at the State Department for a second day of talks on hemisphere trade, financial and political problems.

The Cuba issue was raised by Argentine Foreign Minister Alberto Vignes, whose government is one of six OAS member states which has unilaterally violated the U.S.-supported Cuba embargo.

It also was reported that the Mexican foreign minister will propose that Cuba be invited to the next meeting of foreign ministers, tentatively set for Argentina in October.

President Nixon served as host for a White House dinner for the ministers Wednesday night and pledged efforts to lower U.S. trade barriers with Latin America and said he will encourage American private investment in the region.

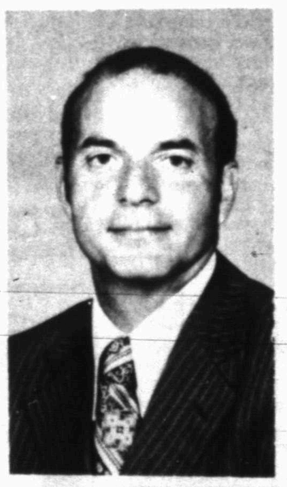
Nixon listed trade and private investment as two essential ingredients for overcoming Latin America's development problems.

On private investment, one of the most sensitive areas in inter-American relations, Nixon said, "we recognize that each government has the sovereign right to determine the rules for investors in its country, but we also believe that private investment is the richest potential source of technology, capital and organizational skills the developing world needs."

The ministers dined with Nixon after spending the afternoon in private, informal consultations with Secretary of State Henry A. Kissinger. The meeting is a prelude to the annual meeting of the Organization of American States General Assembly, scheduled to begin Friday in Atlanta.

Diplomats reported the meetings with Kissinger, which wind up here today, were extremely cordial. According to U.S. officials, Kissinger suggested that Latin American grievances over U.S. private investment might be alleviated if the hemispheric nations established ground rules governing foreign investors.

One discordant note in the conversations was a unanimous expression of support by the Latin Americans for Panama's demand to gain control over the Panama Canal Zone.



PETE NIKIAS

Nikias Heads United Way

Pete Nikias, Chevron Oil Co. Superintendent and SACROC Unit Manager, was elected president of the Scurry County United Way at a meeting of directors Wednesday.

Nikias succeeds Bill Gilliland as president of the local united fund-raising organization.

Other officers elected to serve for the coming year are Bassett Keller, first vice president; George Stewart, second vice president, and James Rosser, treasurer.

The United Way conducts a fund drive each fall to support the operations of several community agencies.

History Program On Hide Town Dr.

History Appreciation Week activities this evening will be concentrated on the banks of Deep Creek on Hide Town Drive (between Twenty-fifth and Twenty-sixth Streets).

The program, which is set for 7:30 p.m., will feature elementary school pupils in a setting that will include a buffalo camp set up by Boy Scouts. Also, there will be Indian dances.

The fifth grade pupils of Mrs. Elizabeth McCloskey at West Elementary School will appear along with other elementary school pupils in a skit written by Mrs. McCloskey and Mrs. Mary Lou Scott. Mrs. McCloskey's pupils will have roles as townspeople of Robbers Roost (an early-day name for Snyder). School children will be played by Mrs. Frances Groseclose's second grade class at West Elementary School. Mrs. Virginia Whitson's pupils from Northeast Elementary School will portray Camp Springs residents; while Gail will be represented by Mrs. Anniece Johnson's North Elementary pupils, and Ennis Creek residents will be played by Mrs. Joan Marble's pupils of Central Elementary School.

The History Appreciation Week celebration will be climaxed Friday night with a series of activities on the campus of Western Texas College. There will be music, a pageant, old-time movies, an art show and a chuck wagon dinner.

Hostages Are Held In Bank

HAMBURG, Germany (AP) — A gunman wounded a policeman during a bank robbery today, then grabbed several hostages and threatened to shoot one of them unless police gave him a squad car and driver for a getaway, authorities said.

Police estimated six hostages were being held in the bank, and the gunman indicated one of them was a policeman.

The gunman entered the bank shortly after noon, police arrived shortly afterward, and the gunman wounded one officer in a shootout that also shattered the bank's big windows, police said.

Police brought welding equipment to the rear of the bank and attempted to cut through a wall, but the gunman forced them to stop by threatening to shoot his prisoners.

Residents of nearby homes and offices were warned over police loudspeakers to close their windows and "protect yourselves against a possible shootout."

Russian Denial Sends Egypt Arms Shopping

By AHMED SHAWKI
Associaed Press Writer

CAIRO (AP) — President Anwar Sadat said today Russia has declined to give Egypt some of the arms it has asked for since the October war, that his military is looking for arms elsewhere, and that he wants to meet with the Kremlin chiefs.

"As a responsible man before my people and the Arab nations, I cannot stand handcuffed and remain six months doing nothing, without taking any action to give the needed protection and guarantees to the whole Arab cause."

In Washington, President Nixon arranged a surprise meeting with Egyptian Foreign Minister Ismail Fahmy. Details were not disclosed.

There has been a steady cooling of relations between Cairo and Moscow over the past few months.

"The Soviet Union has hesitated for the past six months to respond to some of our arms requests, and accordingly I have ordered the armed forces to look for arms sources from others and this has already been implemented," Sadat said.

He spoke before a joint meeting of the Arab Socialist Union and People's Assembly. The address was carried by Cairo radio.

Sadat described the Soviet failure to supply the requested arms as "a misunderstanding for which I find no reason. We still seek their friendship and want it but let it be known we base our friendship on our interests and principles ..."

Sadat added that "the misunderstanding with the Soviet Union may be caused because of our new friendly approaches with the United States.

"Our relations with the United States have improved because the Americans have changed their policy regarding the Middle East problem.

"U.S. Secretary of State Henry Kissinger has exerted quite an effort to settle the Middle East problem after the U.S. bias toward Israel."

Referring to improving American-Soviet relations, Sadat said, "If the two superpowers have decided to defend each other I don't see why we should seek the enmity of any country.

Lady Has Fourth Set Of Twins

RICHMOND, Va. (AP) — The fourth consecutive set of twins born to Mr. and Mrs. Howard Morris go home today to join their 11 brothers and sisters.

The odds of four sets of twins being born consecutively to the same mother are one in 65,610,000, a spokesman for the Department of Obstetrics and Gynecology at the Medical College of Virginia Hospital said.

Alethea Kish Morris and Theresa Danielee Morris were born a minute apart last week at the hospital. Each weighed 4 pounds 13 ounces.

Waiting to see their new sisters are Geraldine and Gerald, 2; Paula and Paul, 9; Howard and Harold, 12; Paulette, 13; Maxine, 15; Pauline, 18; Michael, 19 and Willie, 20. But the new arrivals are the only identical twins in the family.

Mrs. Morris, 39, said she was sure she was carrying twins again this time. "My husband didn't believe it and my doctor didn't believe me, either. But I could feel the babies moving on both sides."

Mrs. Morris delivered her first nine children at home. She says she doesn't plan to have any more. Her husband is a custodian at the Raymond B. Pinchbeck Elementary School near Richmond.

NY Bar Probes Nixon, Mitchell

By SUSAN EVERLY
Associated Press Writer

NEW YORK (AP) — The City Bar Association is probing allegations of professional misconduct against President Nixon and former Atty. Gen. John N. Mitchell.

The investigation could lead to their disbarment in New York state, according to John G. Bonomi, the association's chief counsel.

The probe is part of a nationwide investigation by bar associations into all lawyers allegedly linked to the Watergate case and related matters, Bonomi said.

Information for the probes has come from Special Watergate Prosecutor Leon Jaworski and the Senate Watergate committee, Bonomi said Wednesday in a telephone interview.

Also involved in the city probe are Gordon Strachan, a former aide to H.R. Haldeman, former White House chief of staff; David R. Young, former co-director of the White House "plumbers;" and an unidentified lawyer, Bonomi said. All are licensed to practice in New York.

John D. Ehrlichman, former presidential adviser; Herbert W. Kalmbach, Nixon's former personal attorney; and political saboteur Donald H. Segretti are the subjects of similar investigations in California where they are licensed to practice, he said.

Sirica Signs Subpoena Order

WASHINGTON (AP) — U. S. District Judge John J. Sirica signed an order today permitting the issuance of a subpoena demanding President Nixon turn over records and tapes of 64 White House conversations.

The sweeping subpoena had been requested by special Watergate prosecutor Leon Jaworski, who said he needed the materials for the Sept. 9 trial of seven Watergate cover-up defendants.

Two of the defendants, Charles W. Colson and Robert C. Mardian had joined in Jaworski's request, agreeing with him that the information is essential to a fair trial.

Sirica's order directed that a subpoena prepared by Jaworski be issued and made returnable before the court at 10 a.m. on May 2.

GNP Takes Nosedive

WASHINGTON (AP) — The government reported today that the nation's economy took a much steeper nosedive than expected in the first quarter of the year, while prices soared at a double digit rate.

The Gross National Product declined at a 5.8 per cent annual rate in the first three months of the year, the first drop in GNP since 1970 and the biggest drop in 16 years.

The decline was particularly bad news for the Nixon administration since it raised serious questions whether the country can avoid a recession this year, as President Nixon has promised.

Two consecutive quarters of decline in the GNP — which measures the total value of output of goods and services — is considered the technical measure of a recession.

The first quarter drop of 5.8 per cent compared with administration forecasts of a decline of from 3 to 4 per cent. The GNP grew at a rate of 1.6 per cent in the last quarter last year.

PATIENT PUP—This stranded dog will have to wait for flood waters to go down before he can get off his roof-top perch at Hattiesburg, Miss. Officials decided to stop rescuing stranded animals after several persons were bitten. They pointed out however that waters will recede fast enough before any harm could come to the animals. Don't call 'the other woman'—get help

By Abigail Van Buren

© 1974 by Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I have a problem which I have discussed with my married daughter, and she said I should write to you.

After many years of marriage, my husband has been seeing another woman. She's a young school teacher he met at church. [Her father is a minister.] The worst part of it is, I know he really does love her, but I'm afraid of what people would think if I let him go to her.

I admit that our marital relations have never been enjoyable for me, but I have done my duty and given him three children who are grown and married now.

I work full time, which my husband never liked, but it has provided us with lots of extras we wouldn't have been able to get as soon as we did.

Should I call this young woman and tell her I know the truth and she'd better stop seeing my husband or else? Should I call her father and tell him about it? Or should I keep quiet and hope they get tired of each other before too many people know about it? TROUBLED

DEAR TROUBLED: Don't call the young woman. And don't call her father. You and your husband should get some counseling and level with each other.

If you don't let him go to her [knowing that he really loves her] because you are afraid of what people would think, that's a poor reason. Add that to your feeling that you've done your "duty" and given him three children, and the picture becomes even more clear. You seem to be a reasonable woman. Counseling is the only answer.

DEAR ABBY: My husband and I have been arguing over a question that we would like you to settle for us.

I say it is bad manners to yawn in company, but if you can't help yourself, you should do it with your mouth closed.

My husband says he only yawns when he can't hold it back, and he can't yawn with his mouth closed.

Please give us your opinion. Thanks. MRS. B.

DEAR MRS. B.: Yawning with one's mouth closed isn't easy. However it can be done, but a squelched yawn offers very little satisfaction.

The ideal solution would be to go ahead and yawn, but cover your mouth with your hand. And apologize for it afterwards.

DEAR ABBY: In trying to decide what to give my son and his bride for a wedding gift, I have come to the conclusion that the best gift I could give them would be the treatment at a "stop smoking" clinic.

The treatment costs $350 per person, so I feel that it would be a generous gift, considering my relatively low income. My son has been warned by his doctor that he should stop smoking, and he has indicated that he would like to. However, there wouldn't be much point in giving him the treatment unless his bride takes it, too.

Under the circumstances, would it be proper for me to offer such a gift or would I be considered meddlesome? CONCERNED MOTHER

DEAR CONCERNED: I don't agree that there wouldn't be much point in giving your son the treatment unless his bride agreed to take it, too. However, unless you know for certain that they both want the treatment and would welcome it as a wedding gift from you, it might not be appreciated.

Hate to write letters? Send $1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212 for Abby's booklet, "How to Write Letters for All Occasions."

HOSPITAL NOTES

ADMISSIONS: Sammie Welch, 2202 O'Neal; Matt Allen, 3505 Fortieth; Steven Shoemake, 500 Thirty-third; Robert Doyle, Rt. 3; Kay Fulford, 1008 Twenty-seventh; Curt Shaw, Rt. 1, Box 90, Colorado City; Leon Vargas, 503 Thirty-fifth; Ruby Banks, 2809 College Ave.

DISMISSALS: Jan Buchanan, Carolyn Rinehart, Jewel Ellis, Mildred Hollis, Shirley Pierce, Marla Watkins, Minnie Sterling, Oma Dorman, Elbert York, James Skelton, Etta Haynes.

Elderly Pusher On Probation

NORRISTOWN, Pa. (AP) — A 76-year-old woman who came to court in a wheelchair and admitted selling heroin has been sentenced to six years of unsupervised probation by a judge who liked her cooking.

Judge Frederick B. Smillie, recalling fondly how much he'd enjoyed Blanche Smith's food when she ran a local restaurant, handed down the decision in Montgomery County Court on Wednesday.

"If it can be used for the vice president of the United States, it can be used for you," Smillie told Mrs. Smith, referring to the sentence of unsupervised probation.

Former Vice President Spiro T. Agnew was sentenced to six years of unsupervised probation by a federal judge after he pleaded no contest to charges that he violated federal income tax laws.

Mrs. Smith had pleaded guilty to charges of selling heroin to state police undercover agents.

State police said they raided her home three times in 1972 and each time they found heroin.

Briscoe Takes Dig At Sissy

By The Associated Press

Gov. Dolph Briscoe took a dig at Frances Farenthold, his opponent in the May 4 Democratic Primary, Wednesday and later told an Austin water conference that Texas may face a water crisis soon.

Mrs. Farenthold told a Pampa audience that "it is now clear that Dolph Briscoe is going to avoid any discussion of his record or a public confrontation which would point up the inadequacies of his leadership for the past 18 months."

The governor answered that Texas doesn't want "negativism and carping" but does want to be inspired.

Texans, Briscoe told supporters in Hillsboro, "are tired of decisiveness and negativism and carping among officeholders and political candidates."

He added that "every day I have been in office" that he has tried "to bring people together and to inspire them to work for the common good."

In warning of a water crisis, Briscoe told a meeting of state water agency heads, legislators and others, "It is essential that we secure a supplemental water source outside Texas, particularly for the great agricultural areas of Northwest Texas ...

"If the energy crisis teaches us nothing else," he said, "it surely must teach us that America could have escaped the serious shortage had we only started work on planning 10 years earlier."

Lt. Gov. Bill Hobby told the water men he hoped a workable, constructive water plan can be offered to the Texas Legislature when it convenes in January.

Cutting Red Tape Backfires

CARTHAGE, Tenn. (AP) — A man who decided to cut red tape by seeking flood damage relief straight from President Nixon was directed by a White House aide to an agency abolished in 1972.

Robert W. Austin of Carthage said when he called the White House and asked for the President, his call was transferred to a presidential assistant. Austin said the unidentified assistant referred him to a Gen. Lincoln, director of the Office of Emergency Preparedness.

Austin said the aide told him Lincoln "was very close to the President."

Austin said that on a follow-up call to the President's office, he was told that the Office of Emergency Preparedness was dissolved two years ago and Lincoln has since retired.

"If a man so close to the President and an entire department can disappear for two years and not be missed by presidential assistants, then the rest of us are in a whole lot of trouble," Austin said.

Austin, a geologist with a zinc company, said he was finally referred by a secretary in the President's office to the Department of Housing and Urban Development. He said HUD did seem to be the office to contact and a re-evaluation of flood damage his home suffered in January is now a possibility.

Bond Set In Aliens Case

SAN ANTONIO, Tex. (AP) — U.S. Magistrate John Giles set bond at $10,000 Wednesday for two brothers charged with operating an apparent stop on an "underground railroad" for illegal aliens.

Charged with concealing and harboring four illegal aliens are Bernardino Ortiz, 33, and Trinidad Ortiz, 31, both of San Antonio.

Federal records show 38 aliens were arrested in connection with the case by Immigration Service officers during the past three weeks.

About 40 other aliens passed through a house belonging to one of the accused men and were on their way northward from Texas, records indicated.

GOVERNOR DUE HERE FRIDAY—Gov. Dolph Briscoe will visit the Western Texas College campus Friday morning. He is due to arrive at around 8:30 a.m. and will remain until about 9:15 a.m. He will be in the WTC Student Center for an informal coffee during his visit to the campus and area residents have been invited to join students for the session.

Farabee Has Plan Of Representation

Ray Farabee, Democratic candidate for the 30th district Texas Senate seat, flew to Snyder this morning. He spent the morning on the campus of Western Texas College and then participated in the Candidates Forum sponsored by the Snyder Chamber of Commerce in the Scurry County Coliseum.

While in Snyder, Farabee outlined a six point program of representation that he would implement if elected to assure Snyder adequate representation in Austin.

The Wichita Falls businessman and attorney outlined the following points: 1) A visitation program with public 'Listening Sessions'. These visits would be in addition to trips to Snyder related to special events. 2) Employment of a staff member from the Snyder-Big Spring area during the legislative sessions. This will provide closer communication and provide reliable contact with the Snyder area. 3) Establishment of a communication center in Snyder so that residents will have a method of quickly reaching their state senator without the necessity of a long distance phone call or trip to Austin. 4) Legislative reports when the legislature is in session so citizens will have knowledge of what is being introduced and be given the opportunity to respond before laws are passed. 5) Periodic reports on the activities of state agencies that administer programs that have potential benefit for the Snyder area. 6) Specific allocation of time and assistance to industrial development and transportation problems of the Snyder area.

Farabee complimented Snyder on its educational facilities with special praise for Western Texas College. He noted the importance of oil and gas production to this area and praised Snyder as the type of community many Americans desire to live in as life in large metropolitan cities gets more complex and less pleasant.

From Snyder, the candidate traveled to Quanah where Governor Briscoe was dedicating Copper Breaks State Park. On Friday, Farabee will be in Sweetwater to speak at a candidates rally sponsored by the Nolan County Farm Bureau-Young Farmers organization. He will return to Snyder next week.

Two Mishaps Are Reported

Minor damage resulted from two motor vehicle mishaps here yesterday.

City Police said an unidentified motorist fled the scene after his vehicle was in collision with the parked 1969 Model Chrysler of Winifred Ann Poyner, Box 1326, Snyder, on the parking lot at Everybody's Grocery at 5:24 p.m. Wednesday.

The other mishap occurred at Twenty-fifth Street and College Avenue at 9:43 a.m. Involved were the 1971 Model Ford or Enedina Geruante Martinez, 403 Thirty-fifth Street.

Legislators Traveling At Taxpayers' Expense

By DAVID C. MARTIN
Associated Press Writer

WASHINGTON (AP) — While Congress is in recess, nearly four dozen senators and representatives are traveling overseas at taxpayer expense — "feeding at the trough" as one State Department official put it. Many are accompanied by their wives.

The legislators are members of delegations to international conferences in Romania, Malaysia, Korea and Taiwan.

Their itineraries also include stops in Paris, Athens, Istanbul, Singapore and Hong Kong. They travel in Air Force planes, and at each stop are eligible for $75 a day spending money.

On two of the trips, the congressional delegations will meet with legislators from other countries to "talk and pass resolutions on international topics of the day," said the State Department official who asked not to be named. A third group will look on as observers while outgoing Treasury Secretary George P. Shultz participates in the annual meeting of the Asian Development Bank in Kuala Lumpur, Malaysia.

On all three trips, some wives are going along "for protocol reasons," said an aide to Rep. Melvin Price, D-Ill. Price and his wife are part of a 50-person delegation headed by House Majority Leader Thomas P. "Tip" O'Neill, D-Mass., attending interparliamentary conferences in South Korean and Taiwan.

The State Department handles arrangements for most overseas trips but refers all queries concerning itineraries to Capitol Hill.

Asked why the State Department would not release unclassified information relating to travel at public expense, one department official explained that "their first allegiance is to the congressmen, and you don't want to be running around advertising that your principals are feeding at the trough."

Members of the O'Neill delegation are stopping off for two days in Hong Kong, with the option of a side trip to Saigón, on the way to South Korea and Taiwan. Rep. Morris K. Udall, D-Ariz., and his wife went along because "Mo thought it'd be a fun trip," an aide said.

The group of 19 senators and congressmen, plus wives and staff members, attending the annual meeting of the Interparliamentary Union in Bucharest, Romania, are going by way of Greece, Turkey and Bulgaria, a memo to the Senate Foreign Relations Committee says, and will fly to Paris for the weekend before returning home.

Members of the House and Senate Banking committees left Monday aboard the plane carrying Secretary Shultz and will spend time in the Philippines, Indonesia and Singapore before arriving in Kuala Lumpur next week for the two-day meeting of the Asian Development Bank.

The cost of the foreign travel will remain largely hidden from public view. Flights aboard Air Force planes disappear into the mammoth Pentagon budget while the State Department absorbs much of the cost incurred by various U.S. embassies charged with entertaining the visiting congressmen.

Letter To Editor

To The Daily News:

Did you ever get the feeling that the world was all topsy turvy? You go to the grocery store and the price of milk, eggs and all meats are still beyond your budget. In your newspaper every day you read about the dairyman quitting because he can't break even. The cattle, hog and poultry men are quitting business on account of the high price of feed.

There was some talk of bread going to one dollar a loaf. Mr. Earl Butz said that would mean a wheat price of thirty-three dollars a bushel. There is not a farm in Scurry County that will break even this year. Cotton goods are out of sight in price. Yet with the high price of supplies, land, and dry weather, it will be almost impossible to show a profit on thirty-eight cent cotton.

The price of oil and gas is too high for the average man to use. Yet the stock price of Gulf, Texaco and Mobil are at a ten-year low. About six years ago when I got the annual company reports, on the directors list were such names as the Goulds, the Vanderbilts, Rockefellers and J.P. Morgans. The last few years those names are being replaced by Arabs, Japanese, Chinese, Russians and other foreigners. The American people are leaving the stock market in droves. The foreigners are quietly buying shares in American companies. Is it for investment purposes, or is it a conspiracy to gradually absorb the assets of the United States?

Americans, you had better wake up and face the facts. I don't claim to be smart, but I have a smart friend. He claimed he saw the oil shortage coming three years ago. Yet, three days before the oil embargo, he bought a new Cadillac car.

I have a little doll dish that has stamped on the bottom "made in occupied Japan," which makes it a collector's item. Some of us may live to see another collector's item, "made in occupied U.S.A."

Chas. S. Hardy

Old Bottles Likely To 'Pop'

By JAMES GERSTENZANG
Associated Press Writer

WASHINGTON (AP) — The longer a glass soda pop bottle sits on a grocer's shelf, the more likely it is to go "pop," according to a physics professor.

Isay Balinkin told the Consumer Product Safety Commission on Wednesday that the structural weakening of glass containers is a continual process "with a gradual decrease in the ability of glass to withstand internal pressure."

"If internal pressure passes the point of stress which the glass can withstand, then explosion takes place," he said.

Balinkin testified at a hearing considering glass bottle safety standards.

"Whenever I buy a bottle of carbonated liquid, I ask the store manager how long it was on the shelf," he said. "After a year I would be cautious."

Lawrence Kushner, a commission member, was quick to point out that soft drinks rarely remain in stores more than 30 days.

After a consumer advocate related three incidents in which bottles exploded spontaneously, a panel from Worcester Polytechnic Institute of Massachusetts said bottles were weakened by, among other factors, scratches on outer surfaces.

Inadequate testing and poorly manned inspection systems tend to contribute to the failure of bottling companies to keep defective products from reaching consumers, the panel reported.

The Glass Container Manufacturers Institute, Inc., said that "one injury occurs in approximately 10 million exposures."

"This is not an unreasonable level of risk," it said.

Streaks At Wedding

FORT WORTH, Tex. (AP) — The bride and groom stood solemnly before the altar, family and friends gathered around to witness the nuptials.

Suddenly, the bride's ex-boyfriend streaked nude among the family, the friends, attendants, the bride and groom and dashed outside the church into the car of a woman companion.

The woman driver wrecked the car down the road, however, so the naked intruder leaped and streaked to another car driven by a man.

Police were in hot pursuit all the way but lost the streaker when they wrecked their patrol car.

Police said Wednesday that may not be the end to it.

Police said the bride's irate father has inquired about how to file a civil suit against the unnamed streaker.

"I think he'll do it. He was just mad enough," said one investigator.

Participants in the weekend wedding were not named.

Firemen Are Called Twice

City Firemen answered one call yesterday and one today.

They extinguished a fire at the Elfie Nobles residence, Huffman Avenue at Avenue P, at 7:10 p.m. A pan of grease on the stove caught fire.

At 4:30 a.m. today, firemen were called to Go International one block southwest of Hillcrest Lodge. A fire of undetermined origin caused considerable damage to a truck, a car and a body shop at the firm.

DRAMATIC PERFORMERS—A dramatic presentation of excerpts from "In Search of the Buffalo" will be presented Friday evening at 8 p.m. and 8:45 p.m. at Western Texas Fine Arts Theatre. Pictured at rehearsal are Lamar students who will perform. They are, seated, left to right, Dane Witherspoon who is narrator and portrays J. Wright Mooar; Jerry Martin, Chief Whirlwind and standing is Pat Dryden who will portray Dirty Face Jones.

TOPS Have Big 'Losers'

TOPS No. 57 held their regular meeting Monday at 1 p.m. at the Boys Club.

Leni Wells was top loser losing 6¼ pounds. Jo Cotton was runner-up. Only two people gained and one K.O.P. was present. Six lost over 12 pounds.

The club would welcome visitors and prospective members.

Naumburg Piano Prize Given

NEW YORK (AP) — Andre Michel Schub, 22, born in Paris, a graduate of the Curtis Institute in Philadelphia, was awarded the first prize in the 1974 Naumburg Piano Competition following the finals at Town Hall.

The prize consists of a Tully Hall recital here on May 9, a cash award of $2,500, an appearance with the Aspen Music Festival in Colorado in the summer and a second Tully Hall recital next season.

A second prize of $1,000 went to Edith Kraft, 25, born in New York and a graduate of the Juilliard School here and a third prize of $500 went to Dickran Atamiam, 19, born in Chicago, who is at the University of Texas in Austin.

Gardeners To Hold Pilgrimage

The Twilight Garden Club will hold their flower pilgrimage this Saturday at 2 p.m. at the Snyder Nursery. It will be under the direction of Mrs. W.E. McMillan.

Mr. R.C. Eoff, owner, will conduct the tour of the nursery and the program will be on a question and answer basis.

The session will include the bedding plants, for sun or shade; terrariums and dish garden plants; hanging baskets plants and containers. The tour will include shrubs, roses and trees and places to plant, size, location and for what purpose, whether for beauty or camouflage; sprays, mulch and fertilizers to be used at this time of year and summer months; care of potted house-plants and their part in the decor of the home.

Pictures will be taken and would appreciate everyone's being punctual.

Just how much milk does one dairy cow produce in a month? In 1972, the average cow produced 771 pounds of milk. In 1973, the figure was 765 pounds monthly. That was the first time in 30 years that there had been a decrease in per-cow milk production figures.

The Weeders Guide

By EARL ARONSON
AP Newsfeatures

People living in the Caucasus Mountain range on the eastern shore of the Black Sea have one of the world's best longevity records and Russian scientists believe diet is the most important factor. They eat mostly vegetables.

In that particular region of southern Russia, there are an estimated 5,000 persons more than 100 years old. The oldest is believed to be almost 170 years old.

The Russians reported that 70 per cent of the caloric intake of these healthy senior citizens is of vegetable origin, particularly lettuce, cabbage, beans, spinach, corn, celery and parsley. Corn mush seems to be part of every meal, eaten with a red pepper sauce, we are told. Fresh green vegetables also are a large part of every meal.

Also cited as areas of longevity — a high number of centenarians — are Vilacamba in the Ecuadorian Andes, South America, and the Hunza Region of Pakistan.

In those two areas fresh vegetables are even more important. The report is that meat and dairy products constitute only 1.5 per cent of the total diet in both regions. The rest comes mostly from vegetables.

Of course, there are other important factors for a long, healthy life: daily exercise, (largely farming); lack of tension — and a good disposition.

Dormant Sprays

To control many scale insects, aphids, mealy bugs and mites on your trees, apply dormant sprays after the severe cold of winter ends and the temperature rises to 40 degrees and higher. This also controls some tree diseases.

The oil spray should be applied just before buds show green and break. Don't use an oil spray unless the temperature is between 40-65 degrees. Injury could be caused above or below those levels. Spray on a dry, sunny day and don't drench a tree. Cover all twigs with a fine fog or mist. If you apply it really well your tree should need only one such bath.

Don't use oil spray on fir and spruce or such thin bark trees as beech, sugar and Japanese maple, walnut or butternut. And remember drift from such sprays may burn pachysandra and barberry.

Safety Measure

If you want to set plants on outside window sills for the summer, hammer a long nail part way into the wood sill, at the point you intend to place the clay pot. Slip the drain hole of the pot over the nail, fill in gravel for drainage, and soil. Then plant in regular way. This will keep a sturdy pot from slipping or toppling in strong wind.

Coffee Grounds

If you have a garden, don't throw away coffee grounds. They have valuable humus and will benefit many plants that like acid soil. Among these are rhododendron, azaleas and laurel. The grounds are an inexpensive substitute for more costly mulches. The color is good, they spead evenly, have a fine texture for even spreading and are heavy enough so they will not blow away.

Here's what you get — approximately — from coffee grounds: 2 per cent nitrogen, .4 per cent phosphoric acid and .5 per cent potassium. The grounds rot quickly. They help plants with an iron deficiency.

Rebekahs Hold Regular Meeting

The Rebekah Lodge No. 294 Snyder held its regular meeting on the second Monday of April. Eppie Grain, noble grand, presided.

A letter from the World Eye Research Center and bank was read by Winnie Poyner, secretary. At the end of the regular business, Emona Lee Lanier, lodge deputy, gave a school of instructions.

Refreshments were served to eleven members.

The grand master and wife made a visit to the West Texas I.O.O.F. and Rebekah Association held in Rotan on Monday.

The semi-annual association No. 1 includes Callahan, Taylor, Jones, Nolan, Mitchell, Haskell, Fisher, Stonewall, Scurry and Shackelford Counties.

Henry McIntyre, grand-master, was featured speaker. His wife, Connie, is a member of the State assembly.

Those attending from Snyder were Mrs. Pearl Sellars, chaplain and Mrs. Bessie Shipp, past noble grand, of No. 294, Rebekah Lodge.

HAVE YOU WRITTEN A BOOK?

A publisher's editorial representative will be in Abilene in May. He will be interviewing local authors in a quest for finished manuscripts suitable for book publication by Carlton Press, Inc., well-known New York publishing firm. All subjects will be considered including fiction and non-fiction, poetry, drama, religion, philosophy, etc.

If you have completed a book-length manuscript (or nearly so) on any subject, and would like a professional appraisal (without cost or obligation), please write immediately describing your work and stating which part of the day (a.m. or p.m.) you would prefer for an appointment and kindly mention your phone number. You will promptly receive a confirmation for a definite time and place.

Authors with completed manuscripts unable to appear may send them directly to the representative (address below) for a free reading and evaluation. He will also be glad to hear from those whose literary works are still in progress. Please adress:

OUR MAN ON BROADWAY

Dick Maurice

"Marilyn," NORMAN MAILER's glossy biography of MARILYN MONROE, may be recycled as a Broadway musical. Simon and Schuster publishing executive Dick Snyder has purchased an option on the Book's stage, screen and recording rights and plans a $1 million budget for the stage version due this fall. Mailer will receive 1.5 per cent of the weekly gross until the musical breaks even, and 2 per cent thereafter.

"I've always had a weight problem," admits actress LYNN REDGRAVE and in a way she's built a career on it. In her award-winning protrayal of the graceless "Georgy Girl", Miss Redgrave gained 14 pounds and the sympathies of millions of moviegoers. Now the British comedienne is back onstage as "My Fat Friend", a tormented 200-pound book-seller who turns herself into a glamorous, model-thin extrovert. The transformation, however, is strictly special effects. During the show, the size-10 actress sheds 60 pounds of padding including a water-filled bra. But the "former food junkie" remembers the problems of shedding weight offstage. "I'm still obsessed by fat," says Lynn. "I never go anywhere without my bathroom scale."

JACKIE GLEASON will fly to London to tape a television special with JULIE ANDREWS (first flight in 30 years)....

JERRY LEWIS may do commercials for a toy firm...

MARLON BRANDO who obviously ain't on no diet knocked this off lately in a London pub: soup, steak, fried potatoes, four vegetables, side order of spaghetti just so he shouldn't fall away, two rolls, butter, salad, cheese and crackers, coffee and pie a la mode and probably a shot of alka seltzer on the way out.

STEVE McQUEEN and PAUL NEWMAN will co-star in "The Towering Inferno" - and who'll get top billing?

JIMMY STEWART owns a macadamia nut ranch in Hawaii.

JOHN WAYNE making the rounds of whatever it is he makes the rounds of without the estranged wife, Pilar. Naturally, but with two of his huge, giant, grownup sons hanging off each arm. Those are his dates.

NATALIE WOOD's new john in her new house has a new tub which, along with the whole cotton-pickin' wall, is covered from faucet to drain to ceiling with flowers.

PAUL ANKA told me he plans to retire on his 40th birthday.

Hey, did anybody know or even care the HENRY WYNBERG who was escorting LIZ TAYLOR in between her Burton-Burton-who's-got-the-Burton split was once an apartment-mate of Frank Calcaginni who is currently wining and smooching with the ex MRS. DEAN MARTIN.

Did you know that RONALD ZIEGLER, President Nixon's press secretary worked at one time at Disneyland as a guide on a jungle ride. In many ways he's still working for Disneyland.

BILLIE HOLIDAY's husband LOUIS McKAY demanded an accounting from MGM for royalties saying "Lady Sings the Blues" must have earned another $250,000.

DON RICKLES claims that in all his years of needling, only one cafe patron ever objected to his clowning: "I made fun of this customer's moustache and almost got belted. That broad had no sense of humor."

Despite having appeared in 112 films, Actor ANTHONY QUINN, starring with MICHAEL CAINE and JAMES MASON in the adventure-thriller, "Vortex Conspiracy", says he still gets "butterflies" every time he starts work in a new picture.

If you're still making yourself miserable because you can't diet your size-12 figure down to a size 8, relax. Skinny is out of style. Fashionable women are going with the trend. PRINCESS GRACE, INGRID BERGMAN and CANDACE BERGEN, among others, have put on a few pounds and say they look and feel better for it.

JACK BENNY keeps telling us he's 39 but his real age is 80—guest who's older, JIMMY DURANTE or Jack Benny? Jimmy's older by 4 days.

New Uniform Meat Identity Program at Safeway

You'll notice changes in some of the names on meat labels in our cases. We have adopted a new program under which meat retailers will use uniform names for the different cuts of meat they sell. In addition to helping you identify cuts, the plan also aids in selecting proper cooking methods. If, for example, the label shows a cut to be a steak or roast from Beef Loin or Beef Rib, dry heat cooking methods such as roasting, broiling and frying are recommended. For most other beef, moist cooking methods such as braising or cooking in liquid are recommended. Some tender cuts of beef not marked Loin or Rib may be cooked with dry heat but it is best to check your cookbook on these.

Moffett Field To Be Dedicated Here Friday

Dedication ceremonies for Moffett Field will be held between games of the doubleheader with Lubbock Monterey Friday in Towle Park, and the public is invited to attend. The first game begins at 2:30 p.m.

County Commissioners recently re-named the teenage league baseball diamond in Towle Park after Speedy Moffett, veteran coach at Snyder High School. Speedy is the only baseball coach the Snyder Tigers have ever had and he's the winningest coach is Texas schoolboy history with 438 victories over a career that dates back to 1936.

Born July 20, 1911 in Bluegrove in Clay County near Wichita Falls, Moffett moved to Henrietta when he was six years of age. In 1924, he moved to Stanton where he graduated from high school in 1929. He lettered in football, basketball and baseball at Stanton.

Moffett graduated from Texas Tech in 1933. He participated in football and baseball at Tech, winning one freshman letter and three varsity letters. He was an All-Border Conference quarterback during his senior season at Tech. His coach at Tech was the famed Pete Cawthon.

The veteran coach's first coaching job was as a football assistant at Big Spring from 1933 to 1936. In 1936, he moved to Greenville as an assistant coach, but became the athletic director when the head coach resigned.

Moffett left Greenville in 1937 to join the Civilian Conservation Corps as an officer—a job he held until 1941.

"It was during the depression, and jobs were hard to find—I was really pleased with my salary," Moffett recalled.

Speedy met his wife, the former Pat Bentley, in Stanton. They were married in 1941 one month before he went into the service. During World War II, Moffett saw action in the South Pacific with the U.S. Army. He saw action in the Marshall Islands and was in on the invasion of Kwajalein in February of 1943. Moffett went to South America with the Army in 1946, and he was discharged as a captain.

Moffett was backfield football coach and head baseball coach at San Angelo in 1947 and 1948. In 1948, his baseball team went to the state tournament.

He moved to Snyder in 1949 as Athletic Director and head football coach. He was head coach until 1953 when he resigned to teach history and devote his attention to coaching the baseball team. Moffett is the only baseball coach Snyder High School ever had. His first season here as baseball coach was in 1950. For the past nine years, he's been assisted by Coach Albert Lewis.

Moffett's teams have won district championships 13 times, regional crowns four times, and been to the state tournament in 1957, 1961, 1962 and 1965. In 1965, the Tiger baseball team was runnerup at the state tournament. They were beaten in the finals by Nolan Ryan, who now pitches for the California Angels. At the time, he was an outstanding pitcher for the Alvin, Tex., baseball team.

Moffett has coached several father-son combinations at Snyder High School. Two members of this year's team—Tres Falls and Robbie Sterling—are following in the footsteps of their fathers—Tom Falls and Mickey Sterling. Moffett coached their fathers in Snyder High. Tom was a third baseman who was a member of the first Tiger team to participate in a state tournament. Mickey was a member of Snyder's first baseball team. Their sons are both outfielders.

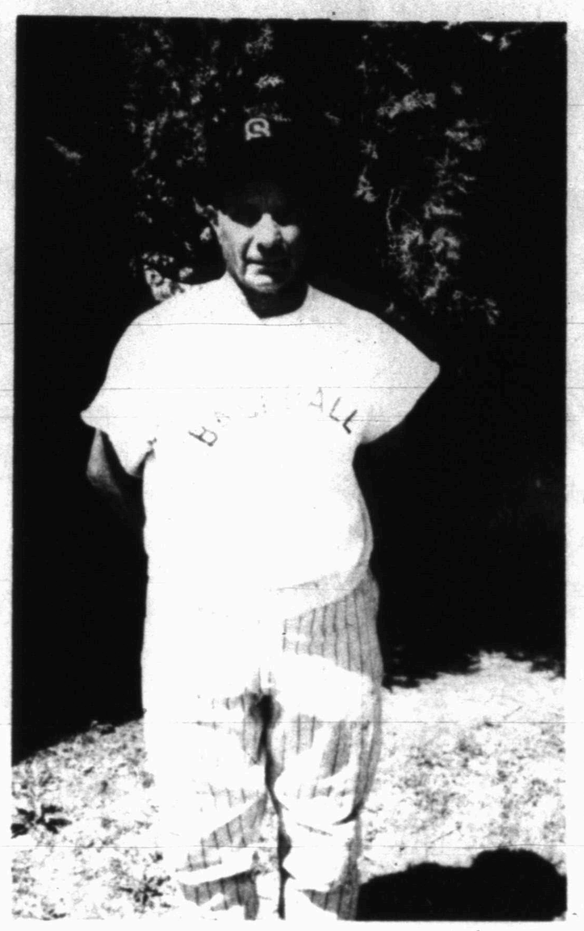
Other father-son combination is Bennie Sims and Stewart Sims. Stewart, after graduation, signed a contract with the Detroit Tigers.

Two of the baseball players that had Moffett as a coach made All-State. They include Kenny Drake, a second baseman, who made All-State in 1961, and Mac Galyean, an outfielder, who made All-State in 1965.

Asked what his biggest thrill in baseball was, Coach Moffett said, "Coaching my own boys." His two sons, Mike and Steve, both played baseball under their father. Mike, 32, now is a coach in Arlington. Steve, 25, is employed by Lubbock Electric.

Mr. and Mrs. Moffett also are parents of a daughter, Mary Ann O'Hara, whose husband is an Air Force pilot stationed at Griffis Air Force Base near Rome, N.Y.

Asked if he had any advice for youngsters today, the veteran coach said: "Put your heart and mind on what you're doing."



TO BE HONORED—Speedy Moffett, the only baseball coach Snyder High School has ever had, will be honored in special ceremonies Friday afternoon when the senior teenage league baseball diamond in Towle Park will be named after him. Moffett is the winningest coach in Texas schoolboy history. His teams have won 438 baseball games.

TOP BOWLERS—These ladies were outstanding bowlers in the Snyder Women's Bowling Association annual City Tournament this year. They are, from left to right, Sulinda Altman, Mary Helms, Zelma Irons, Barbara Sullivan and Barbara Scrivner.

Carter's Western Wear Wins City Keg Tourney

Carter's Western wear won first place in the annual city tournament of the Snyder Women's Bowling Association with a team score of 3,225.

Scores of other teams: Elite Beauty Salon 3182, Sundown Club 3141, Art Style Beauty Salon 3130, Hack's Grocery 3113, Roe's Furniture 3102, Kruse Service Station 3101.

Viola Randell and Sharon Stevenson won first place in doubles with a score of 1,296. Scores of other doubles teams: Rosa Walker and Pauline Lyle 1263, Betty Franks and Genny Brim 1233, Carolyn Fortune and Sue Womack 1219, and Dannie Pope and Barbara Graham 1208.

Janis Randell had the high singles game—a 663. Scores of other singles players: Jenney Ward 660, Juanell McMahan 658, Pauline Lyle 641, Rosa Walker 632, Kathy West 629, Shirley Jones 626, Chlo Lindsey 619, and Marie Calvert 615.

Barbara Newman had the high scratch series with a 583. Ellen Edwards had the high scratch game with a 235. Sulinda Altman had the high handicap series and high handicap game with scores of 768 and 272 respectively. Juanell McMahan was City Champion with a 1,561, and Janis Randell was all events champion with a 1,997.

Other teams participating: Lewis Shell Station, Grimmett Brothers Construction, Snyder Athletic Center, Bennett's Office Supply, West Texas State Bank, Southern Electric, McKinney Construction, E.D. Walton Construction, Red's Fina Station, Von Roeder Seed Farm, Dairy Queen, Snyder National Bank, Jim's Welding Works, Snyder Lanes, H&R Block, Rip Griffin's Restaurant, Caprock Materials, Snyder Janitorial Supply, Beauty Box Salon, McAlister Storage, Texas Electric, M&M Electronic, Brook's Oil Well Service, Triple A Exterminating Co., Ballard's Cafe, Mal Donelson Chevrolet, Borden Milk Co., Ira Electric, Deffebach Insurance, Neve's Service Station, Bell-Seale Funeral Home, Food Basket and the Lota Burger.

JV Whips Lubbock

LUBBOCK—The Snyder High School junior varsity baseball team thumped Lubbock High 9-4 here yesterday afternoon behind the 4-hit pitching of Randy Gressett.

Gressett pitched perfect ball for five innings and was working on a no-hitter going into the sixth when Lubbock tagged him for four hits and four runs. Snyder collected 10 hits off loser Santiago and scored single runs in the 2nd, 3rd and 4th frames, two tallies in the 5th, three in the 6th and one in the 7th.

Barry Blalock singled in the 2nd, stole second, and scored on a double by Bo Wright. In the 3rd, Randy Gressett singled and scored on another single by Kelly Ragland. In the 4th, Barry Blalock singled, stole second, went to third on a fielder's choice, and stole home.

A walk to Ragland and back-to-back singles by Phil Robinson and Richard Tovar accounted for three Snyder runs in the 5th.

Lubbock got its runs off singles by Stockton, Bell and Norman combined with a double by Sedeno.

Snyder's three 6th inning runs resulted from an error, a walk and singles by Gressett and Ragland. They added a final tally in the 7th off of two errors.

The junior varsity will meet Monterey in Lubbock at 4 p.m. Monday

Luis Tiant last season turned in four victories against both the New York Yankees and Baltimore Orioles.

Track, Golf Teams Enter Regional Meets

Two Snyder High School athletic teams—track and golf—will compete in Region I Tournaments at Lubbock Friday and Saturday.

The golf team won the District 4-AAAA championship. They will play 18 holes Friday and 18 holes Saturday. Coach of the team is Don Witherspoon. Representing SHS in the regional golf tourney are Steve Talbott, Bryan Hargrove, Jeff Richardson, Bernie Weems and Richard Towbow. Snyder is the defending regional champion in golf.

Coach Bill Hartsfield has two individuals in three events and one relay team. The regional track meet will be held in Lubbock Friday and Saturday.

On Friday, the sprint relay foursome of Charles Greenfield, Alvin Neely, Levi Hill and Welton Cobb will compete in the prelims at 12:30 p.m. Welton Cobb will run the 100 yard dash at 1:30 p.m. and the 220 yard dash at 2:30 p.m.

Saturday, John Miller will pole vault at 9:30 a.m., and the sprint relay team hopefully will bee in the finals at 12:30 p.m.

Coach Hartsfield has released a list of lettermen. Third year men include seniors John Miller, a pole vaulter, and Willie Smith, a shot putter. Second year men are juniors Welton Cobb in the sprints, Alvin Neely, sprints, and George Willis, sprints, and senior pole vaulter Regis Harper.

First year men are junior sprinter Levi Hill, junior high jumper Froilan Reyes, and junior sprinter Charles Greenfield, sophomore sprinter Dane Witherspoon, sophomore miler Lynn Guynes, sophomore hurdler Steve Green and soph high jumper Chester Cobb.

Manager of the track team is senior Douglas Scott.

In addition, Hartsfield listed 14 reserve lettermen. They are juniors Loyd Bachus (pole vault), Henry Dever (mile), Greg Gafford (880), Tracy Knipe (high jump), Joe Lile (mile, Bryan Littlepage (mile), and sophomores Ken Bailey (mile), Richard Balderama (discus), Mike Freeman (shot), Robert Garver (hurdles), Clavin Guynes (pole vault), James Smylie (shot) and Phil von Roeder (mile).

Brewers Triumph In 16 Frames 5-4

By KEN RAPPOPORT
AP Sports Writer

After 15 innings of Gaylord Perry, the Milwaukee Brewers were happy to see someone else. They saw Ken Sanders—but they didn't see him very long.

With Cleveland's ace out of the game at last, Bob Coluccio immediately seized advantage of the situation and hit a home run that carried the Brewers to a 16-inning, 5-4 victory Wednesday night.

"Perry had a good fastball and slider and an awful lot of guts," said Coluccio. "That was the best I've seen him. When a guy 35-years-old throws that kind of stuff for 15 innings, that's super."

Although pitching almost two complete games, Perry didn't want out. "I wanted to stay in," said the Indians' star. "I could have gone more."

Elsewhere in the American League, the Boston Red Sox nipped the New York Yankees 4-3; the Baltimore Orioles beat the Detroit Tigers 6-1; the Texas Rangers defeated the Kansas City Royals 4-2; the Chicago White Sox turned back the Oakland A's 5-3 and the California Angels trimmed the Minnesota Twins 5-3.

National League scores: Montreal 7, New York 4; Chicago 18, Pittsburgh 9; San Diego 6, Atlanta 1; Philadelphia 12, St. Louis 5; Los Angeles 14, Cincinnati 1 and Houston 3, San Francisco 2.

Coluccio not only delivered the game-winning hit on a 3-1 pitch leading off the 16th inning, he also broke up Perry's no-hit bid earlier.

Perry had held the Brewers hitless until Coluccio, after fouling off five pitches, singled sharply to right with two out in the sixth.

Despite the sour luck, Perry was pretty content with his night's work.

"I was mixing a fastball and a hard slider," he said. "The hard slider was rising and the fastball was sinking."

Red Sox 4, Yankees 3

Bernie Carbo and Bob Montgomery drove in eighth-inning runs, lifting Boston over New York. Pat Dobson of the Yankees fell apart after pitching no-hit baseball for six innings.

Dobson lost his no-hit bid and shutout when Carl Yastrzemski hit a home run in the seventh inning, when the Red Sox tied the game 2-2.

"I was throwing fastballs inside to the left-handed hitters all day," said Dobson. "Yastrzemski hit a high fastball that I got too far over the plate. I wouldn't have thrown that pitch with a man on base."

Orioles 6, Tigers 1

Baltimore jumped on Woodie Fryman for five runs in the first inning and Jim Palmer fired a five-hitter to lead the Orioles to victory over Detroit.

Fryman, 0-2, walked Bobby Grich and balked him to second to begin the outburst. Designated hitter Tommy Davis followed with a run-scoring single, then rookie Jim Fuller smashed a two-run homer, his first of the season.

Tigers To Host Monterey

The Snyder High School varsity baseball team will host league leading Lubbock Monterey in a doubleheader beginning at 2:30 p.m. Friday.

A highlight of the day will be the official dedication of the senior teenage league diamond as Moffett Field in honor of Tiger Coach Speedy Moffett. The dedication ceremony will be held between games of the doubleheader or about 4:30 p.m. County Judge Preston Wilson will present Moffett with a plaque, and Horrace Bostick, high school principal, will make a speech.

Monterey is leading the District 4-AAAA race with a perfect 12-0 record. The Tigers are 6-6 in district play but 2-0 in the second half of the race. For the season, Snyder is 17-9.

Coach Moffett listed probable starters for the Tigers, according to batting order, as follows: Randy Gressett rf, Kelly Ragland lf, Ralph Lewis 3b, Robert Braziel 1b, Ernie Simons c, Robert Alderete ss, Sid Perry 2b, Doak Witherspoon p, and V.T. Roberson cf.

Moffett said Ragland may be unable to start since he was injured sliding into second base in the last game. In that event, Richard Tovar, will open in left field.

CAUGHT IN AN AWKWARD SPOT!

GE, GM Fighting Critics With Blunt Accusations

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — Two of the giants of U.S. industrial life are showing their bruises from the energy controversy and are fighting their critics with unusually blunt accusations.

Says General Electric: "Appliances are not wasteful users of energy as the public has been led to believe." That belief, claim GE executives, is the result of "misinformation ... and downright bad advice."

General Motor's outrage is directed at what it feels are smears contained in a booklet distributed by a Senate subcommittee alleging, among other things, that GM destroyed thriving street railway systems. . "General Motors did not destroy street railway systems," the company said in a 67-page reply. "They failed everywhere because they were no longer able to give adequate service."

It adds that the publication, distributed by the Senate subcommittee on Antitrust and Monopoly, "is replete with additional false and deceptive statements."

Neither company is likely to change attitudes immediately, but their claims seem to open a phase of the energy controversy in which opposing views might be better analyzed and the objective truth distilled from them.

One of the popular assumptions about the shortage is that the proliferation of electric appliances, such as toothbrushes and self-cleaning ovens and the like are among the chief culprits.

But, says GE, a self-cleaning oven uses only slightly more electricity than a conventional oven.

A statement released here in March said:

"It is essential to recognize that the 300 million major appliances presently in use consume a small fraction of our total energy. Only about 5 per cent of the total energy supply is being used in the home ..."

GM's anger was made known to the subcommittee in the form of a request to suspend distribution of what it terms a false, misleading document. If that document is distributed again, it asked that GM's position accompany it.

The chief causes for GM's anger were assertions that:

—GM aided the Nazis during World War II through its subsidiary, the Adam Opel Co., After the German invasion of Poland, GM claims, it had little effective control of Opel decisions.

—GM helped supress rail transportation.

—GM helped destroy more than 100 surface rail systems, its motive being to promote the sale of its gasoline-using products.

The company's response was delivered to the subcommittee last week. A company spokesman said discussions were continuing with the subcommittee but that, so far as he could learn, no decision on GM's request has been received.

Mrs. Johnson Leaves Spain

PORT OF SPAIN, Trinidad (AP) — Lady Bird Johnson left for home after spending four days in Holiday Isle of Tobago.

The widow of President Lyndon B. Johnson hosted a dinner in her small cottage Tuesday night for Tobago Governor General Sir Ellis Clarke and Lady Clarke before her departure on Wednesday.

Pasadena Named In Law Suit

HOUSTON (AP) — A former Pasadena police woman filed a law suit Wednesday against that city, saying she had been fired because of her sex.

Camellia Ann Luprete said she had worked as a patrolwoman from January of 1973 but was taken off patrol duty in April. When she protested, she was fired, she said.

Dental Program Promising

CORPUS CHRISTI AP—A program with so much promise that the state dental society may copy it is near an end of its first full year in the Corpus Christi schools.

"By the end of the year we can give a hard line evaluation" when all pupils have been checked, Dr. Kenneth Kyle, director of planning and assessment, told Thurma Hilton of the Corpus Christi Caller-Times.

Already, cooperating dentists of the Nueces Valley Dental Society and educators say the feedback they are receiving is encouraging. This includes comments from parents, pupils and dentists who recheck the youngsters' teeth.

The program began as a pilot five years ago, and this school year was started for all pupils from kindergarten through the eighth grade.

The program includes a two-week course on dental health taught primarily by teachers.

Dental society members go into the schools and check the student's teeth before and also after the unit has been taught to see what effect it has. They later do a long-term evaluation.

One dentist is assigned to each of the 54 participating schools. Dr. Paul Kennedy, specialist in children's dentistry, is chairman of the society's education program.

Mrs. Betty Whitt, elementary consultant who has been working with the program since it began, said the school system is at the point of integrating the dental health program into the "ongoing health program we have already in the cooperative teaching structure."

The dentists, assisted by hygienists, complete records on all pupils. Dr. Kenneth Kyle, director of planning and assessment, is in charge of completing materials to evaluate the program.

While dental society members donate their services, they also have contributed many of the materials for the dental health kits.

The program costs about seven cents a pupil. This compares with about $5 each in areas where services are not donated and dental kits must be purchased.

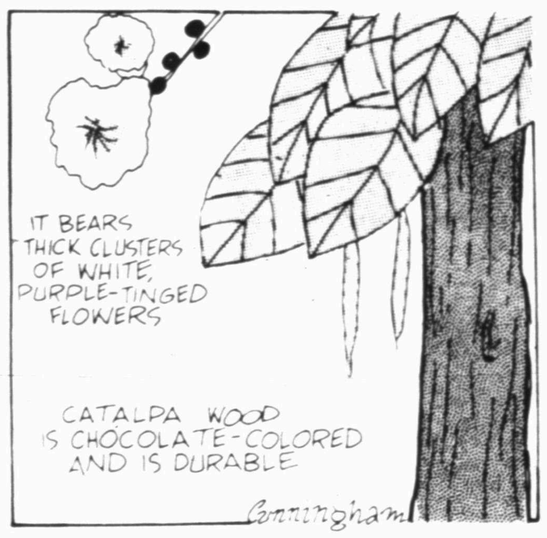
A long-range goal for the program is that dental health information will become common knowledge to the children after they have been exposed to it a long period of time, Kennedy said.

Dr. Joyce Freeman, secondary science consultant for the schools, attributes much of the success to the teachers. "It is designed for teachers by teachers," she said.

Teachers who worked with the pilot program helped put together the dental health kit. The dental society conducted workshops for teachers last fall.

Dr. Wilfred D. Whiteside, president of the society, echoed Miss Freeman's sentiments.

Junior Editors' Quiz on CATALPA TREES



QUESTION: *Can you tell me something about the catalpa tree?*

* * *

ANSWER: The catalpa tree is a member of the Trumpet Creeper family, comprising a large group of trees, shrubs and woody vines known for their large, beautiful showy and often trumpet-shaped flowers. Members of this plant family are found in the tropics and also in the North Temperate Zone.

Catalpa, often called Indian Bean, is an interesting tree. It has big heart-shaped leaves and, in late June, flowers pile up all over the tree in 10-inch mounds. The flowers and leaves secrete an abundance of nectar. Pods, resembling giant string beans, stream down in large numbers through the winter. They contain the seeds which are released the following spring. When the pod breaks, wisps of papery flakes fly through the air.

Catalpa is planted as an ornamental in the garden and is also used in street planting. It is a fast-growing tree, but despite its rapid growth, it has a coarse, durable wood. Railroads make ties of catalpa and the wood is valuable for fences, posts, poles and the like.

Sawhill To Focus On Energy Conservation

WASHINGTON (AP) — John C. Sawhill, designated Wednesday to head the Federal Energy Office, says the major thrust of his agency over the next 12 to 18 months will be toward energy conservation.

Sawhill promised when his appointment was announced to send the President a plan by Nov. 1, to make the nation self-sufficient in energy.

But in an interview before the announcement Sawhill said it would take several years at least to achieve any substantial increases in U.S. domestic oil and gas production.

In the meantime, he said, the nation's imports of petroleum will continue to increase — making it even more vulnerable to sudden interruptions of supply, such as the recent Arab oil embargo.

During the next few years, the only way to reduce the imports and the threat is to reduce U.S. petroleum demand, he said.

"My approach would be to pursue very vigorous conservation."

Sawhill's attitude should be welcome to the administration's top environmental advisers, Environmental Protection Administrator Russell E. Train and Chairman Russell W. Peterson of the Council on Environmental Quality.

Train charged Monday that energy conservation was mostly just talk so far and said he saw no great push in that direction by the Federal Energy Office, which has authority over energy conservation programs.

Peterson is urging a national goal of reducing the growth rate of energy consumption from its recent 4 or 5 per cent a year to 1.8 per cent.

Sawhill talks in terms of a 3 per cent energy growth rate.

But rather than setting an arbitrary target Sawhill says "we've got to put in front of the American people some of the difficult choices we have to make.

"Let's say we can build another Alaska pipeline but there are environmental and resource costs; or we can drive in smaller cars and maybe save enough gasoline to make the pipeline unnecessary. We've got to make that kind of choice," Sawhill said.

The FEO plans to hold public hearings this summer on the issues involved in the drive for energy self-sufficiency.

FACING SIMON

Inflation Top Challenge

By R. GREGORY NOKES
Associated Press Writer

WASHINGTON (AP) — The country's high inflation rate will replace the energy crisis as the number one challenge for William E. Simon, President Nixon's choice as his fourth secretary of the Treasury.

Nixon named the 46-year-old millionaire and former Wall Street investment banker to succeed economist George P. Shultz, who steps down in May after nearly two years at the Treasury Department helm.

Simon has served since December as head of the Federal Energy Office. The White House said he will be succeeded as energy administrator by his deputy, John C. Sawhill, 37.

Simon's appointment as Treasury secretary is expected to touch off a struggle among Nixon's economic advisers to gain a portion of the considerable influence over economic policy-making held by Shultz.

Nixon said he would take a more active hand himself in economic planning and will head the important Council on Economic Policy, a post previously held by Shultz.

Other positions held by Shultz that will not go to Simon include assistant to the President for domestic and international economic policy, which will remain unfilled for the time being, and chairman of the Cost of Living Council, a position of declining influence that will be filled on an interim basis by council director John T. Dunlop.

Sources say that Simon will face a difficult challenge in the international policy-making arena from Secretary of State Henry A. Kissinger, who Monday showed his interest in this field in an important statement on U.S. foreign economic policy delivered to the United Nations in New York.

But Simon is said by aides to feel the major problem facing him as Treasury secretary will be the country's worsening inflation rate, which saw consumer prices rise 8.8 per cent last year and at a 12 per cent rate during the first two months of this year.

Simon is said to generally support the approach to inflation followed by Shultz, including steps to increase agricultural supplies combined with conservative spending and money supply policies.

Like Shultz, Simon is cool to economic controls.

Simon likely will give additional details on his thinking on ways of combatting inflation when he appears before the Senate Finance Committee for confirmation hearings, expected early next week.

If U.S. families limited themselves to an average of only 2.1 children per family for the next 70 years — thus achieving zero population growth — the U.S. population in 2043 would be about 320 million. That is 110 million more people than in 1973.

PROCLAMATION SIGNED—Mayor W.A. (Bill) Vestal signs a proclamation designating April as "VD Awareness Month" in Snyder. Present for the signing were Helen Hatter, standing left, and Veronica Blanton of the Amitie Junior Study Club, which is promoting the special educational campaign here. Mrs. Hatter is incoming junior director of the Mesquite district of Junior Clubs.

'VD Awareness Month' Is Set

Mayor W.A. (Bill) Vestal signed a proclamation Wednesday designating April as "VD Awareness Month" in Snyder.

Special attention is being directed toward the veneral disease problem throughout the month by the Texas State Department of Health, and in Snyder the Amitie Junior Study Club is taking the lead in promoting the campaign.

The text of the proclamation follows:

WHEREAS, the Amitie Junior Study Club of Snyder, Texas, are civic members of our community, keenly interested in the health and welfare of our citizens and youth, and have undertaken a veneral disease education and prevention campaign during APRIL: VD AWARENESS MONTH; and

WHEREAS, members of Amitie Junior Study Club will assume a leading role in advising our citizens of the seriousness and dangers of **veneral disease and the** education, prevention, and treatment services that are available; and

WHEREAS, all segments of our community, especially our teenage youth, must no longer ignore the importance of the prevention of veneral disease.

NOW, THEREFORE, I, the Mayor of Snyder, Texas, do hereby proclaim APRIL as VD AWARENESS MONTH in Snyder, Texas, and urge the people of our city to educate themselves and their families **regarding veneral disease and to** support the Amitie Junior Study Club in this important undertaking.

W.A. Vestal

Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

Q. I've divorced and remarried. And I have custody of my child from the first marriage. My new spouse is helping to support the child. In determining whether or not I can claim the child as a dependent, do I count amount furnished by my present spouse as support furnished by me?

A. Yes. A divorced parent with custody who remarries is now allowed to consider support provided by the new spouse in determining who contributed over half the support for the child.

Q. My son spent his earnings from a summer job to buy a car. Does this amount count toward support furnished by him when I figure out whether or not I can claim him as a dependent?

A. No. Amounts spent to purchase a car do not count toward total support.

Q. I was out sick two months last year, but my employer paid me sick pay. The sick pay is reported on my W-2 form. Do I still have to use your form to compute my sick pay?

A. No. If you have sick pay and your W-2 form shows the amount, you do not have to fill out a Form 2440 with your return. Just enter the sick pay amount on your Form 1040 and attach the W-2 form to your return.

Q. How do I compute my sales tax deduction?

A. You may deduct the actual sales tax you paid on purchases, based on your records, or you can use the tables in your tax forms package.

If you use the sales tax tables to determine your deduction, you may add to the amount shown in the tables the sales tax paid on the purchase of an automobile, airplane, boat, mobile home and materials you used to build a new home.

Q. Can every individual participate in the Presidential Election Campaign Fund Check-off?

A. Yes. Every individual, other than a nonresident alien, may participate if he has a tax liability of one dollar or more. If you want to participate, designate $1 ($2 if married filing jointly) by checking off the appropriate box on your tax return. Participation in the check-off will not increase your tax or reduce any refund you may have coming.

Q. Are scholarships taxable?

A. If you receive a scholarship or fellowship grant, you may exclude the entire amount from your income if you are a degree candidate. If you are not a degree candidate, you may still exclude up to $300 times the number of months for which you receive amounts under the grant during the tax year. The exclusion for a non-degree candidate is limited to 36 months during his lifetime.

Payments under a grant are taxable if made to compensate you for the past, present or future services or to allow you to pursue studies or research primarily for the benefit of the person who granted the scholarship. For more details, see IRS Publication 520, "Tax Information for American Scholars in the U.S. and Abroad." It's available free from your IRS office.

Q. What kinds of losses are deductible as casualties?

A. Casualty losses include damage from a hurricane, tornado, flood, storm, fire or accident, damage to the taxpayer's auto from an automobile accident not caused by the willful act or willful negligence of the taxpayer, damage from a mine cave-in or sonic boom and certain losses from smog or vandalism.

Losses not deductible as casualties include breakage of china or glassware through handling or by a family pet, residential property damage to trees and shrubs as a result of disease, damage from progressive deterioration or moths or termites, expenses incident to a casualty, such as rent for temporary quarters, losses from reduction in value caused by a nearby disaster and the loss of future profits.

Storms Hit Texas

By The Associated Press

Violent thunderstorms raged in the Panhandle-Plains sector and over much of far West Texas during the night, and light showers fell early today in parts of North Texas.

It was at least partly cloudy over Central and most of East Texas this morning. Skies were clear in other sections.

The heavier storms lashed areas from around Shamrock to Littlefield in the Panhandle-Plains area, and a section including Pecos, Fort Stockton, Van Horn and Alpine in the far west. There was no report of damage.

Light breezes from the east and southeast kept warm, damp air flowing into the state this morning from the Gulf of Mexico. That tended to keep temperatures mild and the readings near dawn ranged from 71 degrees at Brownsville and McAllen in the Lower Rio Grande Valley down to 43 at Dalhart in the Panhandle.

Wednesday afternoon's top marks went as high as 85 at El Paso. Texarkana was the coolest spot with a maximum of 68.

Forecasts promised partly cloudy and mild weather throughout the state with a few showers dotting extreme South Texas.

Schools Urge Curbing Of Vandalism

Students and patrons of the Snyder schools are again being asked by school authorities for cooperation in lessening vandalism and accidental property destruction around all school buildings and especially around the new construction on the High School and Lamar Junior High School campuses.

Recently windows have been ruined by pellet and BB guns as well as rocks and bricks. Markings on the buildings have occurred. "Increased costs of repairs and replacements make **this always serious problem** even more serious," said Supt. Bill J. Hood.

With the addition of expensive air-conditioning units at the elementary schools, climbing to the roofs of the school buildings by children after school and on weekends should be absolutely prohibited by parents of such climbers. There has always been an element of personal danger and damage to the roofs by such action and now the cost of such "fun" has increased greatly.

While children and patrons should feel free to utilize the playground areas at the schools, playing in and around the school buildings should be discouraged and all citizens are requested to assist in this matter by reporting infractions to the police, school officials said.

The maximum life-span among animals is that of the giant tortoise — 190 years.

City Council Surprised By Love Statements

DALLAS (AP) — Most City Council members say they are surprised at the blistering statements accompanying U.S. Dist. Court Judge William M. Taylor's restraining order allowing Southwest Airlines to continue using Love Field.

The restraining order prohibits enforcement of an ordinance the council passed Monday which would have ended all scheduled airline flights at Dallas Love Field, including Southwest.

Judge Taylor said the ordinance came "right in the face" of his ruling last year that Dallas must let Southwest operate from Love Field as long as the facility is open as an airport.

"I don't think this type of conduct can be tolerated," the judge said during a 90-minute Wednesday hearing punctuated by criticisms of the Dallas City Council.

"This is a nation of law and we ought to follow and be controlled by it," he said.

He chastized council members for not living up to his confidence in them to abide by his earlier ruling.

After announcing the restraining order, Taylor added, "I'm not convinced the council won't take some other step burdening Southwest Airlines."

Councilmen passed the ordinance to force use of the new Dallas-Fort Worth Airport by all airlines.

Officials have claimed continued use of the old Love Field by Southwest and some of its competitors could cause financial problems for the new facility.

Several councilmen cited written assurance from City Atty. Alex Bickley in explaining their surprise over Judge Taylor's anger.

City Councilman Garry Weber said his vote to adopt the **airline ban was based solely on Bickley's advice.** "I am no lawyer," Weber said. "He told us the ordinance was legal and that we had a moral obligation to close down Love Field."

However, Mayor Pro Tem George Allen, one of two councilmen who voted against the ordinance, said he felt all along that Taylor would strike down the ordinance.

"I said Monday I wasn't about to violate a federal court order or my oath of office," Allen said. "I felt that, despite the letter our city attorney wrote to us, this ordinance would be in defiance of Judge Taylor."

Taylor has scheduled a hearing for a temporary injunction in the case for April 26.

The judge declined to extend his restraining order to protect all airline service at Love Field on an oral motion by a Braniff International attorney, but suggested Braniff seek to join the Southwest suit.

Southwest Airlines president M. Lamar Muse, who testified a move to the new airport would bankrupt his campany, said after the court session, "Whoopee! That's all that needs to be said."

It only takes 8.3 minutes for light to travel to the earth from the sun and 1.28 seconds from the moon.

Jacobsen Sticking To Testimony

WASHINGTON (AP) — Counsel for a key figure in the milk fund case says his client, Texas lawyer Jake Jacobsen, is sticking by his testimony that was challenged as false in a perjury indictment against him.

Lawyer Charles McNelis said Wednesday that a report by CBS newsman Daniel Schorr that Jacobsen switched his testimony to implicate former Secretary of the Treasury John B. **Connally in a $10,000 bribe is** "not so."

Schorr said that Jacobsen was trying to bargain with prosecutors for favorable treatment and had "changed his testimony and said he had given Connally $10,000 in two payments."

McNelis said Jacobsen is sticking by the testimony challenged in the perjury indictment that he put the $10,000 in a safe deposit box because Connally refused it.

The Associated Press has reported that serial numbers on the $10,000 appear to contradict Jacobsen's testimony because they indicate the bills were not in circulation when Jacobsen says he put them in a safe deposit box.

Columnist Jack Anderson has reported that FBI agents have uncovered evidence that Connally did take the money.

Jacobsen, who worked as a lawyer for Associated Milk Producers, Inc., drew the $10,000 from the giant dairy cooperative's treasury, saying he was going to offer it to Connally for help in getting milk price suports raised in 1971.

Both Connally and Jacobsen have said the money was offered to Connally to make political contributions but that Connally refused it.

East Pupils Sing For Kiwanis Club

Martha Fagin's 6th grade choir students at East Elementary School presented a musical program at the regular luncheon meeting of the Noon Kiwanis Club, held Wednesday at the American Restaurant.

E.T. (Pat) Patterson, club president, presided over the meeting. He named Hubert Cargile as the head of a committee that will nominate new officers for 1974-75. Gene Robertson was named chairman of a committee to make plans for the Twenty-fifth Anniversary celebration of the Kiwanis Club.

The program was introduced by Sam Kitching.

Talking Trash Can Invented

By HOWARD ULMAN
Associated Press Writer

BROOKVILLE, N.Y. (AP) — He talks, he sings, he makes slightly risque suggestions and he swallows garbage.

He's Arthur, the talking trash can.

His inventor thinks a kind word from Arthur encourages people to fill him with garbage rather than dump it where it doesn't belong.

Arthur is the brainchild of Charles Hamad, 24, of Danbury, Conn., a graduate student in psychology at C.W. Post College, and Dr. Jeff Corey, an associate psychology professor and Hamad's thesis adviser.

Arthur's voice is a tape cassette, activated when trash is stuffed into the 45-gallon can.

Hamad said he has five different tapes for Arthur. Several say, "Thank you," one plays music and another makes random noises.

And then there is what Hamad calls the "X-rated tape."

Hamad says it's "kind of corny, but says things like, 'Meet me up in your room in 10 minutes with a whip and a prune danish.'"

But Hamad says a simple "thank you" seems to work best.

Arthur is a standard plastic trash can. There is a face painted on the lid, with blond hair, blue eyes and yellow teeth. The teeth surround a plastic mouth attached by a hinge, through which garbage is deposited.

When the mouth is pushed, the cassette is activated.

Hamad says he placed Arthur in a college dining hall for about four hours one day.

For the first hour, the cassette was turned off, and only 20 persons stuffed garbage in Arthur.

For the next three hours, the cassette was turned on and "a few hundred people" used Arthur, Hamad said.

But Hamad says Arthur has been used only for about 15 hours and more data is needed to confirm his theory that people are more likely to use trash cans if the can talks back, and to determine whether the novelty will wear off.

"Basically it's an example of behavior modification, it's merely a mild form of reward," Corey said.

Hamad says some students have had trouble coping with Arthur, the gabby garbage collector.

"One person had keys in his hand and he thought it was a regular garbage can," Hamad said. "He was sort of taken aback by the response the can gave him. He dropped his keys in it and we had to take the whole thing apart to get his keys back."

Political Calendar

The Snyder Daily News is authorized to announce the following candidates for political office, subject to action of the Democratic and Republican Primary:

CONGRESS
(17th District)
Omar Burleson

TEXAS SENATE
(30th District)
Ray Farabee (D)
