Willard Closes

WASHINGTON (AP) — The Willard Hotel, where presidents from Franklin Pierce to Warren G. Harding slept and "The Battle Hymn of the Republic" was composed, has closed its doors after more than a century's association with the nation's history.

Located on 14th and Pennsylvania Avenue, less than two blocks from the White House, the Willard survived as an institution the wear and tear of the Civil War, conventions and depressions since the first building went up about 1850. The original hotel was torn down in 1901 and the current structure replaced it that year.

But the Willard couldn't fight 20th Century economics and the prospect of urban renewal and its managers shut down the establishment last midnight.

It wasn't always that way. Almost as soon as the Willard Brothers moved from New England to the capital city and put up a hotel it became the focus of Washington social and political life.

The first of the long line of presidents to stay at Willard's Hotel, as it was known then, was Franklin Pierce. He moved in after his November 1852 election and stayed until his inauguration the following March 4.

They weren't all politicians, the guests who stayed at Willard's. Walt Whitman was there. So was Mark Twain, Victor Herbert, John Philip Sousa and Carl Sandberg.

Another guest, in 1861, was Julia Ward Howe. After watching the Union troops return after the disaster at first Bull Run singing the abolitionist tune, "John Brown's Body," she returned to the Willard to set new words to the melody. She called it "The Battle Hymn of the Republic."

Today In History

Today is Tuesday, July 16, the 198th day of 1968. There are 168 days left in the year.

Today's highlight in history: On this date in 1945, the first atomic bomb was exploded over the desert near Almogordo Air Force Base in New Mexico.

On this date: In 1683, 12 horses were landed at Quebec. The Indians called them "the moose from France."

In 1790, the District of Columbia was established as the seat of the U.S. government.

In 1951, King Leopold III of Belgium abdicated and was succeeded on the throne by his son, Baudouin.

In 1964, Sen. Barry M. Goldwater of Arizona accepted the Republican presidential nomination at a party convention in San Francisco.

Ten years ago — At the request of Lebanon, U.S. Marines landed in that Middle East country and took control of the Beirut airport. Rebels offered no resistance.

Five years ago — Rep. Carl Vinson, D-Ga., established a service record in the U.S. House of Representatives, having been in office 48 years, eight months and 13 days.

One year ago — 37 convicts burned to death in a fire at a state prison camp at Jay, Fla.

Military Experts Warn Reds Still Plan Attack

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — The ground war picked up south of Saigon Monday and today, with 192 of the enemy reported killed. But a senior U.S. officer said large enemy units had moved westward from the Saigon area, and the next, big Viet Cong offensive against the South Vietnamese capital is not likely before late July or early August.

The American source warned that despite the enemy withdrawals, the Viet Cong still plans to attack Saigon, Da Nang and Hue, the two major cities in the northern part of the country, also were considered likely targets for a general Communist offensive.

After a prolonged lull in the ground war, infantrymen from the U.S. 9th Division—protecting the southern approaches to Saigon tangled with an enemy force Monday 16 miles southsoutheast of the capital. The battle raged until just before dawn today. Then the American Command sent in dive bombers, artillery and helicopter gunships to pound the enemy.

U.S. headquarters said 76 Viet Cong troops were slain and 12 weapons captured, including six mortars. U.S. losses were seven killed and 21 wounded.

Forty miles farther south, U.S. and South Vietnamese ground, naval and air forces caught sizable Viet Cong units pressing in on a provincial capital in the Mekong Delta and reported killing 116 of the enemy in an all-day battle Monday. Seventeen Americans and two South Vietnamese were wounded, spokesmen said.

As many as 1,000 infantrymen of the U.S. 9th Division plus more than 1,000 South Vietnamese troops boxed the enemy in near Phu Vinh. U.S. Air Force dive bombers and Army helicopter gunships pounded the guerrillas, and South Vietnamese troops said they counted 61 enemy soldiers killed by the air strikes alone.

Government headquarters also reported that a large arms cache was seized, including 35 boxes of ammunition for automatic weapons, 16 rounds of mortars, 17 rounds of recoilless rifle shells, 22 rounds of bazooka-type rockets, 67 grenades and 50 mines.

The month-long absence of sustained battle was reflected in a casualty report for last week issued by South Vietnamese headquarters. The government said allied forces killed 836 North Vietnamese and Viet Cong troops, the lowest weekly toll of the enemy claimed since the first week of 1967, when 626 were reported killed.

The number of South Vietnamese reported killed —157— was the lowest in four and a half months.

American casualties for last week will be reported on Thursday.

The Viet Cong attack on Saigon had been expected this week, with the main punch coming from the west. The American source said regimental and larger sized enemy units to the west of the capital have pulled back, but he added that a mountain of intelligence information clearly showed the enemy still plans to attack.

Possible explanations were that the enemy troops had withdrawn to more secure positions to wait for reinforcements, or were feinting to lull the allies into believing the threat was over.

Despite the enemy withdrawal, allied troops were ordered to remain alert for possible small attacks to mark the 14th anniversary Saturday of the signing of the Geneva agreements that partitioned Vietnam.

One or two fresh enemy regiments were reported infiltrating northwest of Saigon to join the already large enemy force around the capital. U.S. B52 bombers flew four raids about 40 miles northwest of Saigon Monday in efforts to stop them.

Elsewhere in South Vietnam, government troops reported running into an unknown number of enemy troops just south of the demilitarized zone near the Gio Linh combat base and killing 24 of them.

The Viet Cong set 300 houses afire in a terror raid on An Duong village 300 miles northeast of Saigon, wounding at least four civilians, and shelled two allied targets.

Three civilians and five soldiers were wounded by a barrage that hit the capital of Vinh Long Province, 75 miles southwest of Saigon, and a nearby government training center. A shelling at the headquarters of the U.S. 1st Army Division at Lai Khe, 29 miles northwest of Saigon, did not cause any American casualties or damage to the base, the U.S. Command said.

Manhunt Centers In Scurry County Area

The search for a convict who wounded and escaped from a Deputy Sheriff from Hale County at Dermott early this morning centered in the Scurry County area with law enforcement officers from Snyder and surrounding counties joining in the search. Airplanes also are being used in the manhunt.

Taken to Cogdell Memorial Hospital by Snyder Ambulance Service for treatment of knife wounds in the lower abdomen and chest was E. L. Hatfield, 46, deputy sheriff of Hale County. His condition was described as good this morning after he underwent surgery. He also was treated for head wounds apparently inflicted with a hammer.

Sheriff's Authorities in Snyder said the convict, Hearne Edward Smith, 27, was taken to Plainview from the state prison on a bench warrant to face a charge of burglary. He was then carried to Lubbock in connection with another charge, and was being returned to Plainview when he escaped from the deputy.

They said he apparently overpowered Hatfield about 8 p.m. Monday south of Plainview. The deputy's car broke down later, according to authorities, and the suspect locked Hatfield in the trunk after hitting him with a hammer. After changing clothes with the deputy, Smith went to the farm house of Ben Cardenas near Southland and forced the farm laborer and his son to drive him and the deputy in their 1963 Model green and white Chevrolet.

According to the account given by local officers, this car also broke down at Dermott after the deputy was released from the trunk. A struggle ensued during which Hatfield was stabbed. The convict fled on foot at this time. The deputy notified a train work crew of what had transpired about 4 o'clock this morning and they summoned an ambulance. Neither Cardenas nor his son was injured.

A newspaper delivery boy from Post spotted the deputy's car abandoned near Southland and notified authorities in Slaton. The car was towed into Slaton.

Included among those participating in the search are Scurry County Sheriff's Authorities, City Police, Highway Patrolmen, Sheriff Troy Porterfield of Plainview, and Deputy Frank Lindsey of Plainview.

Two brothers of the injured deputy — Deputy Sheriff Pete Hatfield of Knox City and Deputy Sheriff W. A. Hatfield of Hale Center — also were in Snyder this morning. The train crewmen who assisted the deputy from Plainview were identified as Jerry Lee Hoover, Ronnie Ray Hoover, and Ronnie Ray Hoover, Jr., all of Post.

Rodeo Adds New Event

An exciting new event — matched bronc riding — will be added to the lineup this year at the 32nd Annual Scurry County Rodeo.

The event will match four of the best amateur bronc riders from South Dakota against four of the best in Texas. The two teams will compete against each other every night during the four - night rodeo, which is scheduled for July 17-18-19-20.

This means that members of the two inter - state bronc riding teams will ride eight head of the toughest broncs available each evening. They will be competing for a purse of approximately $1,000 on a "winner take all" basis.

Sloan Williams of Hungerford is the livestock contractor for the Scurry County Rodeo, which will feature the traditional rodeo events along with the matched bronc riding and specialty acts.

There will be a western dance at the pavilion at the rodeo grounds each evening following the daily rodeo performances. Music will feature Hoyle Nix and his West Texas Cowboys.

RAY PRICE

Ray Price At Coliseum

Ray Price, one of the country's foremost recording artists, will appear this evening in the Scurry County Coliseum in a benefit show for the Heart of Texas Chapter of the National Multiple Sclerosis Society.

A well-known country and western singer for two decades, Price more recently has moved into the "pop" field as well and with similar success.

Advance tickets have been going at $2 each for adults and $1 for children. At the gate tonight, the price will be $2.50 for adults and $1.50 for children.

This will be the big fund-raising event of the year here for the Multiple Sclerosis Society.

Letter To Czechs Red Ultimatum?

By WILLIAM L. RYAN
AP Special Correspondent

Reform-minded Czechoslovaks fired "2,000 words" into the ideological ramparts of the Communist world and evidently provoked a serious crisis in Soviet-dominated Eastern Europe.

Meeting in Poland, Communist leaders of the Soviet Union and four other countries on Monday drew up a "common letter" to Czechoslovakia. This has the ring of ultimatum. It suggests Big Brother is watching Czechoslovakia closely and will go to lengths to slow down, if not snuff out completely, the attempt to liberalize the Communist system there.

The "2,000 words" from Prague was a searing indictment of Communist rule in Czechoslovakia over the past 20 years. Published in the Prague newspaper Mlada Fronta June 27, it seems to have badly shaken other ruling European Communists.

Those leaders, led by Leonid I. Brezhnev of the Soviet party, are telling Czechoslovak party chiefs they are being subverted by "imperialist" influences and, by the example being set in Czechoslovakia, they are permitting the leading role of Communist parties everywhere to be endangered. Brezhnev indicates he will not put up with this. Perhaps he has it in his power to exert pressures which eventually will bring back to authority the "conservative" hard-line Communists now discredited in Czechoslovakia.

Violence Flares In NY Negro Section

YORK, Pa. (AP) — Sporadic violence flared in two predominately Negro sections of York early today, but subsided when police surrounded one of the troubled areas.

Police Lt. John C. Mueller said the incidents—largely firebombing and rock-throwing—were restricted to York's west and southeast sections.

It was the fifth day for such incidents.

SINCE SILVER REPLACED

US Rakes In Coin Profits

By JOSEPH R. COYNE
Associated Press Writer

WASHINGTON (AP) — The federal government has been raking in huge profits from the nation's coinage since it replaced silver with copper and nickel in hard currency.

This profit, called seigniorage, shot into the hundreds of millions of dollars the past three years. It is expected to exceed $200 million in the current fiscal year.

Seigniorage is the difference between the face value of a coin and the cost of the metal from which it is made.

Metal in a quarter, for example, now costs the Treasury Department about one cent but the coin goes on the government's books as 25 cents, thus yielding a 24-cent profit.

During the fiscal year which ended last June 30, seigniorage ran to about $380 million but it rose above $834 million the year before when the Treasury turned out coins in record numbers to overcome a shortage.

The reduced profit expected for this year results from the cutback in the number of coins made because the shortage has eased.

The windfall profits began with the Coinage Act of 1965 which took all silver from dimes and quarters and reduced the silver content of the half dollar from 90 per cent to 40 per cent.

This reduced the cost of coinage metal to the Treasury.

In the past, profits from coinage went into the government's books as added revenue just like tax collections.

Now it is figured as a means of financing the federal deficit under the new unified budget which went into effect last January.

Seigniorage represents cash in the Treasury's hands and reduces the amount of money the department must borrow to pay the government's bills.

Officials assume this change was made to eliminate from the revenue side anything which might resemble a gimmick. The Commission on Budget Concepts which drafted the new system tried to eliminate gimmicks and make the budget more understandable.

Before the new sandwich coins were minted, seigniorage was a relatively minor part of the government's income, although it increased substantially after the Treasury stepped up coin production in 1964 and 1965 to end the shortage.

Ray Appears In Court

LONDON (AP) — James Earl Ray made another brief and routine appearance in the Bow Street Magistrate's Court and was sent back to Wandsworth Jail for another eight days. Another court appearance for him was set for July 24.

Ray's British lawyers have indicated they will file their appeal Wednesday against Chief Magistrate Frank Milton's order on July 2 that Ray should be extradited to the United States for trial on charges of murdering Dr. Martin Luther King Jr. A hearing on the appeal is tentatively scheduled for July 29.

Hearing Set For City Budget Plan

The Snyder City Council passed on first reading the proposed budget for the 1968 - 69 fiscal year at a special meeting held last night in the City Hall. The council then set August 5 as the date for the public hearing on the proposed budget.

The proposed budget for the fiscal year which begins Oct. 1, is about $50,000 more than the expenditures of the preceding year. The actual operating budget is very similar to that of the current year, but several capital outlay items that need immediate attention are added.

In other action last night the council passed on first reading ordinances that would up the minimum water rate 50 cents and the minimum sewer rate 50 cents. The additional revenue from these two rate increases should bring in nearly enough to cover the budget increase, with the remainder expected to come from additional advalorem taxes and sanitation fees. The advalorem tax rate will remain unchanged, however, as it has been for the past 10 years.

Some of the major items in the proposed budget include intensified street maintenance and repair, standardized traffic control signs, mercury - vapor street lights, additional dumpmaster garbage containers in residential areas, and three new police patrol cars.

Also provided in the proposed budget are new fire hose and equipment, a new tax billing and bookkeeping machine to replace a nine year old machine, and funds for salary adjustments and merit increase for city personnel.

DEAR ABBY: I feel like a prisoner. I've been married for 11 years, have 10 children, and I'm not yet 30. I thought I was in love when I got married, but all that is changed now because my husband has changed. He made sure I had a baby every year so I wouldn't "run around." Abby, I never was the run-around type, and he knows it.

He is so jealous I can't take it anymore. I have consulted professionals about this, and they all tell me I should leave him, but he has threatened to kill me if I do. I have already informed the police about this, but what good will that do if he makes good his threat? Then our children will have no one.

I'm so nervous I can hardly write this. I could take my children to my Daddy's farm, but I'm afraid my husband would follow us.

If I knew someone who would take 10 children, I would end my misery tomorrow with a bullet. Sign me,

DEAR "PRISONER:" Your husband sounds like a very sick man. If he refuses to get professional help, add my name to those who advise you to leave him. DEAR ABBY: I have been dating this young man for two months quite steadily, and he hasn't even asked to kiss me good night, yet.

I wait patiently by the door after thanking him for the lovely evening, and he doesn't do anything about it.

Don't tell me to grab him by the lapels as he wears nothing but turtlenecks.

NO KISSES

DEAR NO: He has all the earmarks of a real turtle. So grab him by his turtleneck.

DEAR ABBY: I read "Concerned's" letter and had to write. "Concerned" had a fit because her brother's widow took motorcycle riding at the age of 61. I say more power to the widow. It's a lot better than sitting in a bar some place.

I am a woman who is 69 and I've been riding a motorcycle for years.

It keeps me in good health to go sailing thru the air out of doors. I'll bet "Concerned" is just jealous because she hasn't got the get up and go. Or perhaps her get up and go has got up and went.

Sign my name if you wish.

Sheriff Keith Collier and his deputies were summoned to the scene shortly after the breakdown of Cardenas' car and they launched a search immediately, later putting out a statewide bulletin.

The suspect remained at large at noon today, although authorities still were checking out leads. They warned that Smith is armed and considered dangerous. He was described as being about 5-7½ in height, 155 pounds with dark blond hair and green eyes. He still may be wearing the deputy's clothing, including his hat, badge and boots.

Smith has 3½ years to go on a sentence for burglary, according to authorities, who said a warrant will be issued here, probably charging attempted murder.

Grand Jury Indicts 7

Eight criminal indictments were returned against seven Snyder residents yesterday afternoon by the Scurry County grand jury.

Indicted on charges of assault with intent to murder were Julio Prieto and Camillo Jasso. Another indictment for assault with a prohibited weapon also was returned against Jasso. In addition, Raymond Medrano, Jr. was indicted for aggravated assault.

Two indictments for receiving stolen property were returned against Windell Smith. Burglary indictments were brought against Shelby Chester Shannon II and Roy Cannon Burditt.

Sister Blames Fidel Castro

MIAMI, Fla. (AP) — Juanita Castro blamed her brother Fidel, Cuba's prime minister, for recent plane hijackings to Havana.

The self-exiled Miss Castro suggested a way to stop the hijackings—overthrow her brother's regime.

"Fidel has ordered his agents in various countries of the Americas to hijack airliners to Cuba," Miss Castro said in an article Monday for the exile news agency AIP.

"As long as the Castro-Communist regime exists there will be increasing insecurity for airliner passengers," Miss Castro said.

Mexico's Fiery Tequilla Moves North Of Border

MEXICO CITY (AP) — Tequila, Mexico's fiery cactus drink, is finding its way into more and more cocktail glasses north of the border.

Produced only in Mexico, tequila exports to the United States have increased 281 per cent in six years. Americans now buy 89 per cent of all tequila shipped abroad.

Mexico's National Bank of Foreign Commerce says total shipments abroad have increased 300 per cent since 1962, making tequila one of the country's fastest growing export items.

Heavy advertising campaigns in the United States and tourists, visiting Mexico in greater numbers than ever before, are largely responsible. Having tasted tequila sours, margueritas and the traditional tequila shot—straight with a lick of lime and salt from the back of the hand—the tourists want more of the same when they go home to Peoria, Walla Walla or Hoboken.

Tequila, a clear or light golden spirit, is distilled from the maguey cactus plant. It comes mostly from one region of Jalisco in central Mexico, although it is produced in smaller quantities in other dry, hot portions of the country.

Climate and soil give tequila its characteristic taste and aroma. At the end of 1967 there were 49 tequila distilleries in operation in Jalisco, mostly around Tequila, Arenal, Amatitlan, Tula and El Alto. Fifteen plants produce about 77 per cent of the total tequila output.

There are many different brands and several different types, depending on the distilling and ageing processes. All now measure up to official standards so choice of a brand is merely a matter of personal taste.

In 1940 Mexico exported only 21,621 kilos of tequila worth $3,211. By 1962 exports totalled 488,000 kilos and by the end of 1967 exports had surged to 2,015,000 kilos worth $1,408,000. Consumption inside Mexico has increased about 17 per cent a year since 1962 and production is up 24 per cent a year.

Almost all liquor stores in the larger U.S. cities stock tequila, but prices are double, triple or more than they are in Mexico. The low cost of tequila production is one reason the price stays competitive despite U.S. import duties.

So many Americans are buying tequila, the Foreign Commerce Bank reports, that in 1966 tequila formed 72.6 per cent of all Mexican liquor exports to the United States.

Beer Vending Machines Banned

COLUMBIA, S.C. (AP) — Vending machine sales of beer have been banned in South Carolina by the State Alcoholic Beverage Commission.

Officials took the action after receiving reports of the practice "in one or two golf pro shops." They said such sales would be difficult to control.

Governor Bans Annual Motorcycle Races

MONTPELIER, Vt. (AP) — Gov. Philip H. Hoff has ordered the Vermont Motor Vehicle Racing Commission to issue no more permits for events like the annual Grafton motorcycle races, which required National Guard troops to enforce a curfew last Saturday night.

The races were attended by about 6,000 cyclists and spectators.

Atty. Gen. James Oakes said Rockingham Hospital reported 28 outpatient admissions related to motorcycle mishaps.

No serious incidents were reported after the guard units appeared in Springfield and Bellows Falls Saturday night but on Sunday a Guard truck was fired on three times as it moved along Interstate 91 returning to an armory. No injuries were reported.

Center Opens For Migrants

EL PASO, Tex. (AP) — The opening of the first migrant service center for transient farm workers at Muskogee, Okla., was announced in El Paso Monday.

Sherwood Ross, publicity director for the project, said, "We want the migratory farm workers in Texas and those in the Wisconsin-Illinois area to know there is a center here for them, operated without charge, where they can get a bed for the night, a hot meal, and shower and crop information on their route."

Eventually eleven farm worker hostels will be operated by Migrant Service Center, a non-profit organization financed through the Office of Economic Opportunity. Ross said an estimated 15,000 to 20,000 farm workers following the harvest are expected to travel U.S. 60 between Texas and the northern farm states this year.

See more truck for the money!

Start with the Chevy pickup's frame. If the gauge of the steel seems extra heavy—it is. To make it truck-tough. And notice the solid, tight double walls of the cab.
Next: take a look at the truck-designed coil springs at all four wheels. A Chevrolet exclusive. And the independent front suspension for a ride that's just like a car's.
See how the fender liners are smooth as soup bowls inside. Road splash and dirt run right out.
And check the engine compartment. Power plants go all the way up to 310 horsepower. And Six or V8, they all use regular gas.
Pickups built this strong ought to be looked into. Your Chevrolet dealer's the man to see—today.

Nation's Pollsters Busiest With Consumer Information

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP) — The information most sought by pollsters throughout the year is not voting inclinations, as you might suspect, but consumer information.

The National Industrial Conference Board has 10,000 consumers surveyed every other month. The University of Michigan interviews well over 1,000 every quarter. Commercial Credit Co. questions 15,000 every three months. Sindlinger & Co. queries 1,600 every week.

Total numbers really don't tell the story. Some surveys are less sophisticated than others. Others are conducted by telephone and few questions are asked. A few, such as Michigan and Commercial Credit, conducts face-to-face interviews. And the interpretation counts more highly than the numbers.

These are among the most prominent investigators of the consumer mind on a regular basis. But perhaps many millions more calls are made throughout the year on a much narrower and irregular basis, usually in regard to the marketability of new products.

Why? Because just as it benefits political candidates to know what voters might do, it benefits banks, car manufacturers and food chains to know what the consumer might do with his money.

Once this might have been fairly well known, for the take-home pay of a family head left him few choices. With growing affluence, the consumer can now use more discretion: he can save or spend, buy a car or postpone buying one, take an expensive vacation or stay at home.

The pioneer in consumer surveying is Dr. George Katona of the University of Michigan Survey Research Center. Katona began in 1946 and since then has regularly and often very accurately forecast consumer behavior, based mainly on his expert interpretation of attitudes and sentiments.

Katona's methods are complex, and his reports are detailed. But basically he believes a consumer's discretionary purchases depend on ability to buy and willingness to do so.

In his most recent study, between May 20 and June 3, he found a continuation of a wait-and-see attitude. The ability to buy remained high, he reported, but willingness was depressed, largely because of Vietnam and inflation.

The Industrial Conference Board report, which is based on a survey conducted by National Family Opinion, Inc., stated in its July letter:

"At midyear the nation's consumers are less optimistic in appraising the likely course of business conditions than they were at this juncture in 1967." It found confidence lessened in the economy's immediate future.

To illustrate how complicated the analyses can become, consider this comment by Dr. Tom Juster, one of those involved in setting up the Commercial Credit program:

"There is a major defect in all buyer intention data. It's simple: Most people will not give you a definite 'yes' but they'll give you a flat no.' Most of the people who say no' do the purchasing."

Junior Editors Quiz on MOTHERS

QUESTION: *Why are mothers the best things in the world?*

* * * *

ANSWER: Our correspondent, Catherine Guerin, sent her own answer along with this question. It tells the story so well and is such a heart warming tribute that we quote it here. "On a cold winter day," writes Catherine, "while I was rocking on the rocking chair by the fireplace, my sister Joanne said, 'Why do you think a mother is the best thing in the world'? I said: 'She buys and makes clothes for us, and she cooks treats like cakes and cookies. She also buys things from the store like potato chips, popcorn, peanuts, etc. She helps us with our homework and tells us to study for exams so we won't fail. She washes and irons clothes for us and does most of the work herself so we can play outdoors all day Saturday. Sometimes she takes us out to the movies. She even lets us go camping over the weekend with the family. If you will think of things, you will know that our mother does most of them and that is the reason why out mother is the best thing in the world'."

Vacation Tales Larger Than Life

By HAL BOYLE

NEW YORK (AP) — This is the season to stuff cotton in your ears as soon as you get to work.

It is vacation time.

To the average American, going on a vacation is only half the fun. The other half consists in lying about it after he gets back home.

These vacation tales usually follow a pattern: they are larger than life. If the fellow enjoyed himself, there has been no revelry like it since Nero fiddled while Rome burned. If it rained, there has been no downpour to match it since the one that floated Noah's Ark.

Take the cotton wadding out of your ears for the next few weeks, and you'll probably hear from the following familiar vacation types in your own office:

Hank, the Hero — "So I took one of these two drowning old ladies under each arm and swam half a mile against a riptide to get them to shore. The beach was lined with cheering people." The truth is that Hank went wading and panicked when a wave went over his head. The two old ladies came out, punched him in the nose, then dragged him to safety.

Romantic Rosalind—"The third night out there was a full moon, and as we were sitting alone on deck, he silently slipped this diamond ring on my finger," she says. Actually, her aunt gave Rosalind the diamond on her 19th birthday, and Rosalind had it remounted a week before she left on the cruise.

Statistical Sam—He claims he averaged 800 miles on the road every day of his vacation. If you remark, "Aren't you spreading it on a little thick, Sam?" he whips out his gasoline bills to try to prove his tall tale. But all they prove is that if he was making 800 miles a day he was also getting 75 miles to the gallon.

Sportsman Sid—"He battled me like a tiger for a full half-hour, but when I finally reeled him in he turned out to be a 9-pound bass, the biggest ever caught at Lake Bid-a-wee," says Sid. The real facts: It was the largest minnow anybody at the lake had ever wasted time on, and it managed to wiggle off the hook before Sid could clip it into the boat.

Homeloving Harry—"I painted my house all by myself," is his brag, as he pulled out snapshots. But if his wife were there to hear him, she'd grimly let you know that she and the kids painted their cottage after Harry fell off the first step of the ladder sprained his ankle, and spent the rest of his vacation dozing in a backyard hammock.

The Great Man Himself—"Took so much paper work along with me I never even had time to go out and get a decent tan," the boss grumbles testily. But he's the biggest fibber of all. He didn't take any paper work with him, and the reason he didn't get a tan is that the sun doesn't shine on the indoor roulette wheels at Las Vegas, where he lost his shirt.

But it isn't polite to question the veracity of a returned vacationer as he limps up to your desk and begins to recount his fabulous adventures, full of woe, or wonder, or both. Simply press the cotton a little more tightly in your ears—and smile, smile, smile.

Massachusetts Bans Giveaway Games

BOSTON (AP) — Massachusetts Gov. John A. Volpe signed into law Monday an act banning giveaway games sponsored by major gasoline companies.

Frederick H. Moore, executive secretary of the Retail Gasoline Dealers' Association of Massachusetts, said that small dealers had been forced to pay 2½ cents for each card or envelope which they gave to their customers, with a chance to collect a cash payment or other award.

Golf Stars Practice For PGA Meet

SAN ANTONIO, Tex. (AP) — A field of some 170 golfers tests the narrow fairways of the Pecan Valley Country Club course today in preparation for Thursday's opening round of the 1968 PGA Championship.

Arnold Palmer drew a gallery of more than 100 for a practice round Monday. Booming drives put Palmer in good shape for the last few holes but his putting stroke was off, with most of his putts well short of the cup.

The golfing millionaire drew gasps from the tee and silence on the undulating greens of the 7-096-yard Pecan Valley layout, playing his practice round with Pecan Valley course superintendent Earl Jacobson.

Billy Casper and Jack Nicklaus are the cofavorites in the tournament, with Palmer another top contender for the title he has never won.

U.S. Open champion Lee Trevino of El Paso arrived here Monday, a big hit among a group of Lee's Fleas that will be crawling that course.

OVER THE TOP — Gary Player of South Africa is helped over a fence on edge of fourth fairway at Carnoustie, Scotland, as he went to retrieve ball in British Open golf tournament. Player won tournament by two strokes. (AP Wirephoto)

Sports, Dodgers Claim Jr. Tilts

The Sports nudged the Braves 5-3 and the Dodgers tripped the Bullets 3-2 in two exciting Junior Teenage League skirmishes in Towle Park Monday night. Both games were marked by excellent pitching.

Oddly enough, the teams that got the least number of hits won. The Sports rapped out only two hits — singles by Arnold in the 1st frame and Lincoln the last inning — while the Braves collected only three — singles by Morgan in the 3rd, Branson in the 4th, and Murray in the 7th.

Neal Starnes and Jackie Murray handled the pitching for the Braves while Larry Wall and Jim Waters took the hill for the Sports.

The Sports tallied once each in the 1st, 2nd, 3rd, 4th and 6th frames while the Braves managed single tallies in the 3rd, 5th and 7th innings. Morgan and Murray drove in runs for the Braves. All of the runs were unearned, however, since walks and errors figured prominently in the scoring.

That Dodger - Bullet clash was a real doozie. Tim Holder, the winning pitcher, gave up only two hits — singles by Randy Keller and Bob Tuggle — while Marvin McClanahan, the loser, was tapped for only one hit — a single by Albert Hernandez. Tim fanned 19 Bullets while Marvin put down 12 Dodgers on strikeouts.

Neither team scored until the 5th when Steve Northcott scored on an error for the Dodgers. The Bullets went ahead 2-1 in the top of the 6th on a couple of errors and a fielder's choice. The Dodgers regained the lead in the bottom half of the frame with Hernandez' single driving in Larry Brazziel and Bobby Weaver, both of whom walked to get on base.

LEWIS CRACKS GRAND SLAM

Nationals Overpower American Loop 11-2

The National League All - Stars walloped the American League All - Stars 11-2 in a playoff tussle held on the Little League diamond in Towle Park last night and won the right to meet Colorado City in the second round. The clash with C. City will be held on the same diamond at 7:30 p.m. today.

The Nationals used the big stick to do in the Americans, getting four of the five home runs that were clouted during the playoff.

Ralph Lewis was the man of the hour for the Nationals, putting his team in a commanding lead in the 3rd frame with a grand slam home run. Lewis scored the first tally in the 2nd inning. He doubled to right, took third on a passed ball, then scored on Greg Godair's hippety - hop grounder to second.

Then, in the 3rd, John Boren reached first on a fielder's choice with Randy Dryden being forced at second after he was hit by a pitched ball. Richard Gorman popped out to second for the second out of the inning. Then Jerry Webb reached first on a bobble at third with Boren going to second. Larry Beard cracked an infield single with all runners safe to load the sacks. Up stepped Lewis and he hit a 2-1 pitch over the right field fence to propel the Nationals into a 5-0 lead.

American pitcher Robert Braziel knocked one over the centerfield fence in the top of the 4th to cut the margin to 5-1.

In the bottom half of the 4th, Jerry Webb socked a home run over the centerfield fence, scoring Randy Dryden and John Boren ahead of him. Dryden and Boren had gotten on with singles. Larry Beard scored the 4th run of the inning. He took first on an error, then went all the way around on passed balls.

With a 9-1 lead, Dryden blasted one over the fence in the 5th for the 10th run. John Boren then cracked one over the left field fence to boost the count to 11-1. There were two outs when Dryden and Boren slammed their back-to-back homers.

The Americans added their other run in the 6th on a couple of errors and a fielder's choice.

National hitters rapped Braziel and Aaron Hartsfield for 10 hits.

Larry Beard turned in a sparkling mound performance for the Nationals, giving up only two hits — the homer by Braziel and a single to Benny Hollis in the 1st frame. He exhibited superb control and seemed to be most effective the few times that the Americans put men on base.

With two men on base after Barry Keller scored in the 6th, Larry bore down and fanned the next batter for the second out. Then he forced a grounder back to the mound for the final out.

Joel Loper, shortstop for the Americans, turned in several outstanding defensive plays, playing the position faultlessly.

Orioles Narrow Gap As Detroit Loses

By HERSCHEL NISSENSON
Associated Press Sports Writer

As the eminent Satchel Paige once said, "Don't look back: someone may be gaining on you."

If the Detroit Tigers want to indulge in any hindsight, the first thing they'll see is the Baltimore Orioles, who are looking very much ahead—like to this weekend and next.

The Tigers lost Monday night for the fourth time in five games since the All-Star break, bowing to California 4-0. Their American League lead was chopped to 6½ games—five in the loss column—as second-place Baltimore clobbered the New York Yankees 8-2.

Elsewhere, Cleveland nipped Minnesota 4-2, Oakland bombed Boston 12-5 and the Chicago White Sox downed Washington 3-2.

In National League action, St. Louis turned back Los Angeles and Atlanta topped San Francisco by 4-2 scores, Philadelphia whipped the New York Mets 5-3 and the Chicago Cubs beat Pittsburgh 2-1 in 10 innings. The Houston-Cincinnati game was washed out.

The joint—Tiger Stadium, that is—should be jumping this weekend when the Orioles come to town for a four-game series. Detroit visits Baltimore for a three-game set the following weekend. In all, the two teams have 13 games left against one another.

Jim Fregosi and Aurelio Rodriguez backed George Brunet's five-hit pitching with two-run homers as California blanked Detroit and swept a two-game series. The Angels managed only three hits but two of them were the homers, both coming with two out.

In the third inning, Vic Davalillo got the Angels' first hit off Mickey Lolich, a double, and Fregosi lined his ninth homer over the fence in left.

Lolich appeared to be out of the fourth inning. But Al Kaline, playing first base, dropped a throw for what would have been the third out and Rodriguez sliced his first homer of the season over the right field fence.

When Earl Weaver took over as manager of the Orioles five games ago, he said his club was not out of the race. All five games have been victories and the Orioles are making Weaver look good.

Baltimore collected only nine hits Monday night but seven different batters drove in the runs. Frank Robinson knocked in the first with a triple and scored on Boog Powell's bunt. Frank scored again on a sacrifice fly by Brooks Robinson and the Orioles added three runs in the sixth.

It should be noted, however, that the five triumphs under Weaver have been against the Senators and Yankees and Baltimore is 20-2 against those two teams under the combined Hank Bauer-Weaver leadership.

Duke Sims' two-run homer in the third helped Cleveland—only 7 ½games back—build an early four-run lead and the Indians needed it as Mike Paul and Stan Williams put down a late Minnesota rally to preserve Sonny Siebert's 10th victory. It was the Twins' 12th loss in 15 games.

Oakland pounded out 17 hits, including home runs by Joe Rudi and Reggie Jackson, in beating the Red Sox and handing Cy Young Award-winner Jim Lonborg, appearing in relief, his third loss. Lonborg has yet to win.

The A's broke the game open with four in the seventh, three on Jackson's 15th homer. Rudi's homer in the fourth was his first in the majors.

The White Sox made it three straight under Al Lopez by edging the Senators, who have lost even straight and 23 of 29. Tommy Davis singled home two runs in the third inning and Buddy Bradford's sacrifice fly in the fifth droke a 2-2 tie. Luis Aparicio scored the winning run after doubling and taking third on a fly ball.

Allen-Led Phils Rip Mets 5-3

By ED SCHUYLER JR.
Associated Press Sports Writer

Forty-two ounces that's a lot. Maybe. But they've been hitting the spot for Richie Allen and the Philadelphia Phillies.

Allen, who wields a 42-ounce bat, crashed two homers, good for three runs, Thursday night as the Phillies beat the New York Mets 5-3 for their seventh straight victory since the All-Star break.

"He uses a very heavy bat," says Phillies' Manager Bob Skinner, "but he's so strong he can still whip it through the zone.

In the seven games since the All-Star Game, Allen has whipped his bat through the zone well enough to get 15 hits in 30 at-bats, five homers and 14 RBI. This spree has lifted his season average to .314, with 20 homers and 53 RBI.

While Allen was having a ball with New York pitching, St. Louis was topping Los Angeles 4-2, Chicago was eding Pittsburgh 2-1 in 10 innings and Atlanta was beating San Francisco 4-2 in other National League action. The Houston at Cincinnati game was postponed because of wet grounds.

String Golf Results Told

John Boren won the first flight with a hot 63 at the "string golf tournament" held over the weekend at Snyder Country Club.

Runnersup in the first flight were Cloyce Talbot and Joe Michie, both of whom carded 67's.

Second flight winners were Mal Stevenson and Finnie Seale each of whom carded a 66. There also was a tie for runnerup with John Reed and Gerald Beard each firing 67's.

E. L. Franklin took the third flight with a 66. Pat Patterson and T. D. Cramer shared the second spot with 72's.

SPECIAL DAY — Mayor Bobby McCormick (seated) signs proclamation designating today as "Multiple Sclerosis Day" in Snyder. The interested observers are Mrs. Dorothy Derr, regional director for the National Multiple Sclerosis Society in Abilene, and Bill Williams, Scurry County Chairman. McCormick urged all local citizens to support the MS Drive by attending the Ray Price benefit performance. It will be held tonight in the Scurry County Coliseum.

Pool Rites Wednesday

DALLAS, Tex. (AP) — Funeral services for Rep. Joe Pool, D-Tex., who fought communism and foreign aid with equal fervor, are scheduled for 2 p.m. Wednesday at the Tyler Street Methodist Church.

Several members of the Texas delegation in Congress are expected to attend, as are Dallas city dignitaries.

Pool, a member of the House Un-American Activities Committee, collapsed and died Sunday in Houston from an apparent heart attack. He was 57.

The Dallas Democrat, who served the Third District, was first elected to Congress in 1962. He previously had served three terms in the Texas Legislature.

President Johnson was among those who praised the lawmaker today.

"As a member of Congress and before that a member of the Texas state legislature, Joe Pool served with dedication and love of country," the President said.

China Mystery Radio Voice Forsees Anti-Mao Revolt

HONG KONG (AP) — A mystery Chinese radio station calling itself "Voice of the Peoples Liberation Army" has called upon PLA commanders and troops throughout Red China to prepare for a "true Communist" revolt against party chairman Mao Tse-tung, Defense Minister Lin Piao, and Mao's wife, Chiang Ching.

Violently denouncing the three for "usurping Communist power, lying to the masses, and cheating the PLA," the almost nightly broadcasts accuse Mao of initiating and Lin and Chiang Ching of helping carry out the "anarchism that has paralyzed and is destroying our country."

Lin is Mao's heir apparent.

Attempts to pinpoint the location of the station's transmitter have not been successful — at least so far as is known here — and there is considerable doubt as to whether it really is a clandestine army station operating on the Communist mainland.

It would appear from some direction-finding equipment to be somewhere north of Kwangtung Province, perhaps in the region of Changsha, capital of Hunan Province, or in Hupei's Wuhan area—the latter a hot-bed of anti-Maoist activities for more than a year.

Sophisticated equipment exists which can "bend" radio waves and there are some here who believe the transmitter may be located on Formosa.

Professional China analysts here tend to believe that the station is transmitting from mainland China.

They say areas of China are in such chaos because of Mao's cultural revolution purge that it would be possible to operate a clandestine transmitter in China.

They also point to the tirade of invective against Mao's wife, known to be hated by many long-time army veterans who fought the pre-1949 revolution that conquered China for the Communists and drove the Chiang Kai-shek government into exile on Formosa.

This, coupled with their feeling that Nationalist Chinese propagandists have, in one expert's words, "never shown themselves this effective," is inclining them to the belief that it is a clandestine operation broadcasting from the mainland.

Burglar Locked In

WALTHAM, Mass. (AP) — A burglar in the home of Richard W. Frizzell accidentally locked himself in the bathroom. Police said he tried to jimmy the door but fled through the bathroom window with $15, having overlooked another $25.

Mishaps Cost $1 Billion

NEW YORK (AP) — Traffic accidents in May cost the nation more than $1 billion, according to the Insurance Information Institute.

The economic loss was estimated at $1.092 billion or $30 million higher than the figures for May 1967. The rise was attributed to increases of 7 per cent in traffic deaths, 8.3 per cent in accidents, and 1.2 per cent in injuries.

Total economic loss for the first five months of 1968 stands $300 million over the loss total for the same period last year.

Loss figures include such factors as lost wages, medical expenses, property damage and the service cost of insurance, the institute said.

Defends Odd-Named Research

WASHINGTON (AP) — The Pentagon's chief scientist, says Congress shouldn't ridicule his research studies on the basis of strange-sounding titles.

Reacting to criticism by Sen. J. W. Fulbright, D-Ark., Dr. John S. Foster Jr. says it is "dangerously misleading" to single out odd-named studies and conclude that all defense research is suspect.

Fullbright recently poked fun in particular at a Pentagon-paid study called 'Witchcraft, Sorcery, Magic and other Psychological Phenomena in the Congo and Implications for Military and Paramilitary Operations."

That one, Foster said in a statement prepared for the Senate defense appropriations subcommittee, took one week, cost $522 and amounted to 11 pages gleaned from existing information.

It was conducted, he said, "because senior military officers have reported many incidences of dealing with military situations in developing nations where witchcraft, sorcery and magic have played a significant role."

"At best some titles do not describe an effort very well," he admitted. "At worst some titles are misleading and may suggest a silly or nonsensical effort to the layman."

One he submitted as an example: "Surface Waves on Symmetrical Three-Layer Sandwiches."

Far from having anything to do with snacks, this report described a basic phenomenon in solid state circuitry required for advanced computers.

Foster said a check by his staff showed that 40 to 50 per cent of the Pentagon's research reports have inadequate title description, and that critics shouldn't use them as ammunition for budget cutting demands.

Area Support Sought In War On Multiple Sclerosis

Mayor Bob Mcormick has urged all citizens of the Snyder area to support the current Ray Price benefit tonight at the Scurry County Coliseum for the Heart of Texas Chapter of the National Multiple Sclerosis Society. In a proclamation issued today and presented to Bill Williams, Scurry County chairman, the Mayor declared July 16 to be Conquer Multiple Sclerosis Day.

The Mayor noted that the MS Society was the only national voluntary health agency concerning itself with the total problem of MS, seeking the cause and cure through national and international research programs and conducting programs of services to patients and their families, and education of the professions and the public through the Heart of Texas Chapter.

Multiple sclerosis is a generally progressive, disabling disease of the central nervous system — the brain and spinal cord. It destroys patches of the substance (myelin) which protects and insulates the nerve fibers. Messages controlling several or all functions such as seeing, speaking, walking and balance may be distorted, sometimes even blocked. MS can bring total disability, although this is not always the case. Relief from symptoms, or remission, can be of short duration or has been known to last for years. Cause, cure and prevention remain unknown.

The National Multiple Sclerosis Society, founded by patients and their friends in 1946, has spent over $8 million on research projects and research fellowships since its inception. It now has Chapters in 49 states and the District of Columbia. The Chapters conduct programs of service to local patients including 69 clinics, clinical programs and centers where MS patients and their families may turn for diagnostic services, medical care and counselling.

Police Dog Defies Police

SEATTLE (AP) — Police detective John Dermody got into trouble with a police dog Monday when the German shepherd jumped into the open window of his car while the officer was away from the vehicle.

"I tried to coax him out," Dermody said. 'And when that didn't work, I ordered him out. That didn't work either. He just curled up a lip and remained in the back seat like he owned the car."

Finally the embarrassed police officers called Humane Society dog catchers, who took the police dog to the pound and called its owner.
