## The SDN Column

If you think the busy season is here, consider the schedule of J. D. Smith, choral music director at Snyder High School.

Here's what he has lined up during a nine-day period: Helping head up arrangements for the annual Children's Symphony Concert at 1 p.m. Thursday in the Scurry County Coliseum.

Hosting the West Texas State University Chorale at 8 p.m. Thursday in the Snyder High School Auditorium.

Directing "The Messiah" to be presented Saturday night in the SHS auditorium by high school choir members and adult vocalists from the community, accompanied by a 20-piece string orchestra from Texas Tech.

Coordinating the annual All-School Christmas Music Festival set for Dec. 11. All of this of course, in addition to the school routine.

★ ★ ★

Reports from Fort Worth indicate that Mike Campbell, Darrell Royal's right hand man at the University of Texas at Austin, tops the list of prospects for the head football job at Texas Christian University.

Campbell, a graduate of Ole Miss, is known as a firm disciplinarian, and of course he has the winning habit as one of the tutors of the No. 1 team in the nation.

Many observers believe that Rice will have a tougher time landing a proven coach than will TCU.

★ ★ ★

Unless Bill Montgomery of Arkansas gains over 268 yards Saturday against Texas, SMU's Chuck Hixson will be the first man to win three total offense championships in the Southwest Conference since Bobby Layne did it in the mid-forties.

Ed Marsh of Baylor apparently has repeated as punting champion of the SWC with an average of 40.4 yards, below his national championship average of 43.6 of last year. His total of 88 punts ties the SWC record set in 1965 by Phil Scoggin of Texas A&M. A high number of punts usually indicates a feeble offense, and that has been the case at Baylor during Marsh's career. The Bears have not been noted for high scoring in the past two years, giving Marsh plenty of footwork.

— WACIL McNAIR.

## Today In History

By THE ASSOCIATED PRESS

Today is Wednesday, Dec. 2, the 336th day of 1970. There are 29 days left in the year.

Today's highlight in history:

On this date in 1823, President James Monroe made a speech in Congress in which he outlined the U. S. Monroe Doctrine against European expansion in the Western Hemisphere.

On this date:

In 1804, Napoleon Bonaparte crowned himself Emperor of France.

In 1805, Napoleon's armies were victorious in the Battle of Austerlitz in what is now Czechoslovakia.

In 1859, John Brown, the abolitionist who had led the historic raid at Harper's Ferry, Va., was hanged at Charles Town, W. Va.

In 1927, Henry Ford put his Model A on sale. The sticker price for the roadster was $385.

In 1956, Fidel Castro began the Communist revolution in Cuba as he landed with 82 men on the coast of Oriente Province. Most of his followers were wiped out, but he escaped to the mountains.

In 1964, Pope Paul VI flew to India on the longest trip a Pontiff ever had undertaken until that time.

Ten years ago: In the Congo, deposed Premier Patrice Lumumba was captured, four days after escaping from his guarded house in Leopoldville.

Five years ago: President Lyndon B. Johnson predicted another record year for the U. S. economy.

One year ago: Arrests were being made in the murder of actress Sharon Tate and six other persons in the Hollywood hills.

## THE WEATHER

SNYDER TEMPERATURES: High reading Tuesday, 73 degrees; low reading, 37 degrees; reading at 7 a.m. today, 41 degrees.

Northwest Texas: Clear to partly cloudy and little change in temperatures tonight and Thursday. High 78. Low tonight 32.

North Central Texas: Partly cloudy tonight and Thursday. Warmer west portion tonight. High 84. Low tonight 58.

Northeast Texas: Partly cloudy and warm tonight and Thursday. High 82. Low tonight 62.

Southwest Texas west of the Pecos: Continued partly cloudy with warm afternoons and cool at night through Thursday. High 83. Low tonight 28.

Southwest Texas east of the Pecos: Continued partly cloudy with warm afternoons and cool at night through Thursday. High 85. Low tonight 35.

South Central Texas: Continued partly cloudy and warm tonight and Thursday. High temperature 85. Low tonight 59.

Southeast Texas: Continued partly cloudy and warm tonight and Thursday. High 84. Low tonight 58.

Brownsville to Port Arthur: South to Southeast wind 8 to 18 knots through Thursday.

SNYDER AN ALL-AMERICA CITY

SCOUT DISTRICT OFFICERS — Officers were installed at a dinner meeting of the Lone Buffalo Boy Scout District last night in the Fellowship Hall of the First Methodist Church. The group includes, from left to right, Jerry Rottler, district executive; Ronald Foy, district commissioner; Bill Nixon, Order of the Arrow adviser; Burt Runnels, district advancement chairman; Wayne Griffin of Colorado City, neighborhood commissioner; Ather Ellis of Colorado City, district vice chairman; Steve Odom, scout executive of the Buffalo Trail Council; and, Bill Hood, district chairman. Not pictured are Frank Miller, district training chairman; George Willis, scout round table commissioner; Roy Meador, publicity chairman; Hubert Cargile and Lyle Deffebach, council board members; E. W. Schrader, district finance chairman; and, Buddy Whittenburg, neighborhood commissioner.

AWARDS PRESENTED — Frank Miller (center), training chairman of the Lone Buffalo District, Boy Scouts of America, presents leader training awards to Harold Kornegay, Scoutmaster of Troop 35, and to Mary Wright, Den Mother Coach of Pack 36. Not pictured is Eva Fleming, Den Mother Coach of Pack 61, who also won a leader training award.

## US Air Attack Policy Changed

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON (AP) — The Nixon administration has expanded its policy on air attacks against North Vietnam in what appears to be a deliberate strategy of increasing pressure on the enemy while continuing U.S. troop withdrawals.

Officials report a toughening attitude by administration leaders toward North Vietnam over the past months. The reasons appear to include frustration over lack of progress in the Paris Peace talks, the prisoner of war issue, and a determination to prevent Hanoi from taking advantage of declining American troop strength in Southeast Asia.

The United States ended bombing of North Vietnam Oct. 31, 1968 and until earlier this year air strikes against the North were explained as retaliation for attacks on unarmed U.S. reconnaissance planes.

In recent months, however, Defense Department spokesmen have expanded the reasons to include "protective reaction" against North Vietnamese rocket batteries firing at planes over neighboring Laos, interdiction of supplies moving down to South Vietnam, Cambodia or Laos and retaliation for terror shellings of South Vietnamese cities.

Furthermore, officials privately confirm the policy of expanding retaliatory strikes when possible to include other targets in the general area to destroy supply buildups.

Officials have also made clear that American combat planes flying protection for bombers operating against enemy positions in Laos can fire at missile bases in North Vietnam when they detect enemy radar locking on the bomber.

Neither President Nixon nor his spokesmen have pulled all these reasons together into any formal new policy statement on bombing the North.

### Agnew In Dallas

DALLAS, Tex. (AP) — Vice President Spiro T. Agnew swept into Dallas Tuesday night for a meeting with Dallas Morning News and WFAA executives, chatted briefly with newsmen at Love Field then departed for his hotel suite where he was to remain for the night.

### One Winner In Contest

The final contest of the season produced a single winner for the first time in several weeks as the Snyder Daily News Football Contest closed out its 1970 season last week.

Submitting the top entry was Mike Jones, 208 Thirty-sixth Street, who missed only four selections.

Three other contestants share second place honors, missing five selections each. They are Naida White, 2301 Avenue I; Vera Bagwell, 2703 Avenue Q, and Sybil Jones, 208 Thirty-sixth Street.

## Red Gunners Have Big Night

By RODERT TUCKMAN
Associated Press Writer

SAIGON (AP) — Communist gunners unleashed a series of shelling attacks up and down South Vietnam Tuesday night, firing rockets and mortars into three air bases, three provincial capitals and two district towns.

It was one of the biggest nights for the enemy gunners in two months. Allied military spokesmen said over-all casualties and damage were light. But an unspecified number of Americans was killed at the big Cam Ranh Bay air base 8193 miles north east of Saigon, and more Americans were wounded at the Phu Ca air base 100 miles up the coast from Cam Ranh Bay.

Enemy rockets also hit Holloway air field in the central highlands, where both U.S. and South Vietnamese personnel are stationed; the provincial capitals of Pleiku City and Ban Me Thuot in the central highlands and Quang Ngai on the central coast, and two district towns in the Mekong Delta.

A South Vietnamese spokesman sad there were no casualties or damage at Hollolay field, but two Vietnamese civilians were killed and 16 were wounded in the attacks on the cities and towns.

Nearly 100 enemy rocket and mortar attacks have been reported in the past four days, the heaviest such assaults since early October. A U.S. spokesman said the North Vietnamese and Viet Cong apparently were taking advantage of the current moonless nights.

A U.S. spokesman reported that a U.S. Air Force F4 Phantom jet fighter-bomber crashed today in the lower Laotian panhandle; presumably it was bombing the Ho Chi Minh supply trail. The spokesman said both crewmen were rescued in good condition but the cause of the crash was not known.

The U.S. Command also announced the crash of an army helicopter 29 miles northeast of Pleiku, with four Americans killed. The cause of that crash also was not known.

South Vietnamese infantrymen advanced through mangrove swamps and bamboo thickets on the edge of the U Minh forest today in a new sweep into the Viet Cong'e longtime lair in Vietnam's deep south.

## German Counsul Is Kidnaped

SAN SEBASTIAN, Spain (AP) — Basque terrorists kidnaped the honorary West German consul in San Sebastian and are holding him hostage for 15 Basque nationalists who go on Trial. Thursday a French Basque organization reported today.

The Basque Anai-Artea, or Between Brothers Association, in Bayonne, France, said it had received a message from the Spanish-Basque ETA organization that 59-year-old Eugene Beihl is "in its hands."

The message reportedly said Beihl's fate depends on what happens to the 15 Basques at their trial.

Witnesses told police Beihl, who represents several German industrial firms in San Sebastian, drove into his garage Tuesday night, then drove out again with several other men in the car. Police said a red car with French license plates followed Beihl's sedan.

## NATO Allies Plan Increase For Defense

By FRANK CREPEAU
Associated Press Writer

BRUSSELS (AP) — Ten European members of the North Atlantic Treaty Organization announced plans today to spend about $1 billion in European defense over the next five years, in addition to the $24 billion a year they are spending now.

The 10 NATO members said their decision was made "on the basis that the United States, whose forces in Europe are of critical political and military significance for the common security of the whole NATO area, would for its part maintain those forces at substantially current levels."

The defense ministers of the 10 nations, presenting their plan to U.S. Defense Secretary Melvin R. Laird, called it a "special and wide-ranging European defense program."

A diplomat present at the meeting reported that Laird praised the plan. Laird said if the alliance maintains its efforts, negotiations with the Soviet Union will be possible.

Figures released by NATO officials forecast total military spending by European members of $24.4 billion in 1970, compared with $23.2 billion in 1969.

Also on the agenda for the meeting today of NATO's defense planning committee was a general defense plan for the 1970s—a new document known as AD-70—drawn to chart how the Atlantic alliance will meet the challenge of the Soviet Union and its allies during the decade.

As NATO's annual four-day winter meeting went into its second day, the leaders of the seven Warsaw Pact nations were gathering in East Berlin, seeking to agree on a common position toward the overtures of the West German government for better relations with Eastern Europe.

The extra effort agreed on by the 10 European allies, to be spread over five years, is only a start, NATO Secretary-General Manlio Brosio told newsmen. But the Europeans felt that the program at least displays a willingness to share some of the extra load being borne by the Americans. They hope it will give the Nixon administration ammunition to use against demands in the U.S. Congress for a reduction in the 295,000 American troops in Europe.

Laird said on his arrival in Brussels Wednesday night that he was not familiar with the entire package, but "we are very pleased our European allies are recognizing the importance of changes as far as the whole question of burden sharing."

### Santa Coming Here Friday

Santa Claus is coming to town Friday afternoon.

The Snyder Chamber of Commerce has made arrangements for the old gentleman to arrive by fire truck in the downtown area at 4:30 p.m. Friday.

He will return here Monday and will be on hand on Mondays and Fridays from 10 a.m. to 11:30 a.m. and from 3 p.m. to 5 p.m. until Christmas. He will make regular appearances at his little house on the courthouse square, and also will make visits to shopping centers.

### J. B. Pickle Of Big Spring Dies At 94

BIG SPRING—J. B. Pickle, 94, father of Congressman J. J. Pickle of Austin and a former Snyder newspaper publisher, died here Tuesday afternoon.

Mr. Pickle, a Big Spring resident for half a century, also was the father of Joe Pickle, editor of the Big Spring Herald and secretary of the board of the Colorado River Municipal Water District. He was a former mayor of Big Spring and was active in the Baptist Church as long as his health permitted.

Funeral arrangements were still pending this morning at the Nalley-Pickle Funeral Home here. It was reported that rites probably would be held Thursday, but no time had been set.

Mr. Pickle, a native of Tennessee, came to Texas in 1900. He established a newspaper at Roscoe in 1906 and then was co-publisher of the Snyder Signal around 1915. The Signal was a weekly newspaper and published daily for a brief period. It later was consolidated with the Scurry County Times, which, in turn, ultimately became the Snyder Daily News.

In addition to the two sons, Mr. Pickle is survived by two daughters, Mrs. Miller Harris of Big Spring, and Mrs. Jonathan Lancaster of Kermit; 12 grandchildren and 14 great-grandchildren.

### Mrs. Williams Dies; Rites Set Thursday

Mrs. W. G. (Pearl) Williams, 88, died this morning at 8:30 in her home at 3001 Avenue T. Mrs. Williams was born April 28, 1882, in Bosque County, and came to the Scurry County area in 1889 with her parents, the late Mr. and Mrs. Jeff D. Justice. The town of Justiceburg was named in their honor.

She married W. G. Williams, Dec. 13, 1903, at the Justice Ranch in Justiceburg. Mr. Williams preceded her in death in 1953 and a daughter, Mrs. J. B. Clark died in 1968. Survivors include a son, Wayne Williams, of Snyder, and three grandchildren, Mrs. John Reed, Mrs. J. W. Headstream and Billy Wayne Williams, all of Snyder; a brother Cameron Justice of Justiceburg and 7 great-grandchildren.

Funeral services are set for 2 p.m. Thursday at the First Baptist Church, where Mrs. Williams was a member. Rev. Raymond Hall, pastor of the church, will officiate, and will be assisted by Rev. W. F. Ferguson of Lubbock, a retired Baptist minister and a former pastor of the First Baptist Church. Burial will be in Snyder Cemetery under the direction of Bell Seale Funeral Home.

RECEIVES CHECK — Rev. John Gordon (right), president of the Goodfellows receives a check for $100 from Rev. Jack Riley, first vice president of the Kiwanis Club. The Club donated the money to the Goodfellows to help the needy during the Christmas holiday season.

## Goodfellows Drive Is Underway Here

The Goodfellows annual drive for funds, food and toys for the needy during the Christmas season got a boost in the arm yesterday when the Kiwanis Club made a $100 donation.

Contributions to the Goodfellows can be made at either the Snyder National Bank or the West Texas State Bank. Also, mailed donations can be sent to the Goodfellows in care of Post Office Box 661.

Applications for food, clothing and toys will be taken at the Goodfellows office at 1908 Thirty-seventh Street from Dec. 3 through Dec. 11. These applications must be made during this period so that the screening committee will have time to approve them.

Anyone wishing to do volunteer work at either bank should call Mrs. Malven Stevenson Sr. at 573-5893. The Goodfellows have sent out an appeal for dolls and coathangers, and they need volunteer workers at the Goodfellow office beginning next week.

The Goodfellow office will be open from 9 a.m. to 12 o'clock noon and from 1 p.m. to 6 p.m. Mondays through Fridays and until noon on Saturdays.

# Children neat despite a dishevelled parent

By Abigail Van Buren

(c 1970 by Chicago Tribune-N. Y. News Synd., Inc.)

DEAR ABBY: I have been married to a terrible housekeeper for 30 years and she thinks I'm happy because I love her. But no one can be happy with a slob but another slob. I've never been able to bring my friends home and I know that our children were also ashamed of the way our house looked. The daughters are married now and they are both very good housekeepers. How do you suppose that happened?

SLOB'S HUSBAND

**DEAR HUSBAND: First things first. You are not only 30 years too late with your complaint, but you're directing it to the wrong person. A husband doesn't have to hit his wife over the head with a broom to let her know the place needs a sweeping. Your daughters obviously regarded their mother's housekeeping as a "horrible example," and determined not to follow suit. Sometimes it works that way.**

DEAR ABBY: My husband had a heart attack and it took him several months to recuperate. Naturally, during that time I had everything to do inside and outside our home. [Don't get me wrong, I'm not complaining. I was glad to do it.]

Whenever I would run into friends while shopping, they would all ask, "How is John feeling?" But not one person asked, "How are you feeling, Marge?"

A wife also goes thru a great deal of agony when her husband is sick, and it would be nice for people to realize this and for one of them to ask, "How are you getting along?"

IN NEED OF SYMPATHY

**DEAR MARGE: How are you getting along?**

DEAR ABBY: A wife asked you what you thought of a husband who got up at four in the morning and took off for a long-anticipated hunting trip, and forgot his gun! You replied, "I think whatever it was he intended to hunt, he didn't intend to shoot."

I am surprised at you, Abby. I am sure you must realize that many athletes get pre-game jitters. My brother in law was a football player and he used to get diarrhea and throw up before every game. In high school, a member of our boxing team appeared in the gym in his warm-up jacket and a jock strap. He forgot his trunks. Even some of the more experienced entertainers will tell you they still get stage fright. Their stomachs are tied up in knots, and their hearts pound like a trip hammer.

Some expectant fathers, when the baby is due, have been known to start out for the hospital without their wives. Hunters are no different? Be fair, Abby, and print this.

HUNTER'S WIFE
PARKERS PRAIRIE, MINN.

DEAR ABBY: Why does every wedding announcement start out with, "Daughter of Banker Weds?" or, "Movie Executive's Daughter Marries?" Are they really announcing a nuptial or trying to promote the old man's business?

GEO, LEO & FRED

**DEAR G. L. AND F.: Papa's business adds a little interest to an otherwise dull announcement. "Daughter of Oil Tycoon Weds Parking Lot Attendant" says more than "Nancy Smith and Joe Doaks Exchange Vows."**

**What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.**

**Hate to write letters? Send $1 to Abby, Box 69700, Los Angeles, Cal. 90069, for Abby's booklet, "How to Write Letters for All Occasions."**

## HOSPITAL NOTES

ADMISSIONS: Maxine Norris, Snyder; David Jackson, 2803 Forty-seventh: Thomas Peek, 3007 Austin, Annie Green, 2005 Ave. L; William Glass, Roscoe; Eula Keller, 2700 Forty-sixth; Julia Pollard, 2800 Thirty-third; Maggie Wilson, 906 Sixteenth; Nellie Tate, 2507 Ave. X.

DISMISSALS: Mrs. Ramon Campos and baby boy, Virginia Varner, David Jackson, Artie Hazelwood, Lavasta Myers, Grace Dumas, Bertha Vineyard.

## BIRTHS

Mr. and Mrs. Weldon Lloyd, of Lubbock, are the parents of a 6 lb. 13 oz. baby girl, born at West Texas Hospital at 10:45 a.m. November 26. She has been named Shanna D'Lyn. Maternal grandparents are Mr. and Mrs. Bill Herring of Dermott and paternal grandparents are Mr. and Mrs. Raymond Lloyd of Snyder.

## Firemen Are Called Twice

City Firemen answered two calls yesterday.

They extinguished a cotton and trailer fire five miles east of town at the E. E. Hataway farm at 3:25 p.m.

They also extinguished a fire in a 1961 Model Ford in the 1900 block of Twenty-fifth Street at 5 p.m. Owner of the vehicle is Joe Doty.

# Bond Issue Planned By CRMWD

Financing of a probable expansion program will be the prime business of the Colorado River Municipal Water District directors when they meet Dec. 9 in Big Spring.

The district has been working with Eastman, Dillon, Union Securities of New York, fiscal agents, relative to issuance of nearly $7 million in revenue bonds for development of additional ground water supplies, and additional supply lines.

In the meantime, tests are being run on potential sources of supply, and O. H. Ivie, general manager, said he hoped to have more detailed information on this by time of the meeting.

Several successive years of abnormally low runoff on the Lake J. B. Thomas lake shed and subnormal years for Lake E. V. Spence the past two seasons has reduced lake reserves to the point that directors moved two months ago toward more well water as a hedge against continued light runoff.

The district has retained its A rating by Standard and Poore and BAA rating by Moody's on the impending issue. Officials made a presentation to the two rating agencies a fortnight ago.

## Furr's Meat 'Fresh-Dated'

To insure the freshest of meats for its customers, Furr's Super Markets today announced that all fresh meats in its counters would bear a "fresh date"...that is meats wrapped less than 60 hours. The announcement was made by Roy K. Furr, vice president of retail operations for Furr's, Inc.

Since the inception of self-service meats, great care and selection have been made by Furr's to insure fresher and better meats. The labels on Furr's meats were coded so that its market managers would know at a glance which meats had exceeded their counter time in order to remove them.

Now, the customer will be able to keep up on the dates of all Furr's Proten beef, pork, poultry and lamb. The "fresh-dating", will show the date it must be pulled from the counter.

"It's a big step for Furr's," Furr said, "and it's a bigger step in many ways for our customers," he said. "The date guarantees freshness...and now the customer will know it by the date!"

## Hereford Sale Saturday At Sweetwater

SWEETWATER — The Sweetwater Area Hereford Association has scheduled its annual sale for Saturday.

The auction will begin at 1 p.m. at the Nolan County Coliseum, with Col. Walter Britten, the auctioneer.

The sale cattle will be judged at 10 a.m. by R. H. Odom of Snyder. Trophies will be awarded following the judging.

Lunch will be served at the sale site by the Nolan County Home Demonstration Club.

A total of 41 bulls and eight females will be offered for sale. Consignors include J. Olin Amerson of Hamlin, Charles W. Creighton of Big Spring, Bob and June Gulley of Sanco, Jack Morton of Roby, J. Paul Turner of Sweetwater, Buchanan Herefords of Big Spring, Thomas A. Rosson and Son of Sweetwater, A. K. Treadaway of Colorado City, and Leland Wallace of Big Spring.

Dub Harvey is president of the Sweetwater Area Hereford Association, while Bob Gulley is vice president, M. B. Templeton is the secretary, and Paul Cain is the treasurer.

## Rosson Attends Law Institute

AUSTIN—Rep. Renal B. Rosson of Snyder is representing Speaker Gus F. Mutscher at the Texas Criminal Law and Procedure Institute beginning tomorrow and continuing through Saturday.

The institute is sponsored by the University of Texas Law School with a number of distinguished panelists and jurists participating, including Dean Page Keeton and the judges of the Court of Criminal Appeals. The meetings are being held in the Joe C. Thompson Conference Center on the University of Texas campus in Austin.

TO PLAY FOR SCHOOL PUPILS — The Texas Tech Symphony Orchestra will be in Snyder Thursday to present its Christmas program for elementary pupils for the third consecutive year. The program will begin at 1 p.m. in the Scurry County coliseum and it is for all elementary school pupils in the county. Anyone else interested may attend.

## Third Annual Symphony For Children Set

The third annual Children's Symphony Concert for elementary school children will be held at 1 p.m. Thursday in the Scurry County Coliseum.

The program is open to anyone who wishes to attend.

The 75-member Texas Tech Symphony Orchestra will present the program, and the Texas Tech Ballet Group will join the orchestra to present "Rodeo," by Aaron Copeland.

In the past, the Tech Sympony has toured the Southwest and Mexico, and the children's Christmas concerts performed in several cities, have become an annual tradition.

The program will include "This Is the Orchestra," by R. Nelson; "Rodeo," by A. Copeland; "Overture to Colas Breugnon," by D. Kabalevsky; and "A Christmas Festival," by L. Anderson.

Several local organizations and individuals have joined the Snyder Public Schools in sponsoring the program again here this year.

## Session Set On Range Management

The Texas Section of the American Society of Range Management is holding its annual meeting Friday, in San Angelo. The meeting will start at 9 a.m. and will be held at the Holiday Inn. The meeting will adjourn at 12 noon Saturday.

The keynote address will be given by Robert E. Williams, Chief Range Division, SCS, USDA, of Washington, D. C. Williams will talk on managing rangeland for multiple benefits of people. Other talks on Friday will be on Wildlife and Recreation Values of Rangelands, Managing Rangelands to Utilize and Improve Wildlife Resources, Esthetic and Environmental Values of Rangelands, and Pollution by Agriculture: How Much Factual? How Much Emotional?

On Saturday, Rick Anderson, Borden county rancher, will give the ecological history of a West Texas Ranch. Dub Waldrip, Mgr., Spade Ranch, Colorado City, will discuss management systems and crossbreeding on the Spade Ranch. Percy Turner will discuss intensified grazing management on the Turner Ranch.

You do not have to be a member of the range society to attend. Anyone interested in range management is urged to attend.

# Freeze Put On Water Projects

WASHINGTON (AP) — President Nixon has clamped a temporary freeze on some $107 million for dams, flood control and other waterworks projects contained in what he once called an overstuffed pork-barrel bill from Congress.

The freeze ties up most or all initial construction money for 56 projects across the country, including the controversial Central Arizona Project, and non-construction money for dozens of other projects.

Nixon's Office of Management and Budget said Tuesday the money is being held back only until the President decides in the next few weeks whether to continue the projects at this year's spending level in next year's budget.

The budget office pointed to Nixon's statement when he signed Congress' $5.2 billion public works money bill Oct. 7 that he was considering ways to minimize what he called the "inflationary and unnecessary" impact of 65 new projects the congressmen had added.

Nixon said he was deeply concerned about the bill's impact on future spending. He said the 37 new construction and non-construction projects he had asked ultimately would cost $1.3 billion while the 102 Congress approved would cost $4.5 billion.

Nixon said at the time he was considering deferring the projects added by Congress, as well as freezing funds for them. But administration spokesmen stressed Tuesday the President could decide to release all money for the projects after the temporary freeze or make only moderate cutbacks.

The President's budget office said the temporary freeze is on initial construction money Nixon asked for 19 new projects and on all money Congress added to the administration's request, for both new and old projects.

It said this totals about $70 million for Army Corps of Engineer projects, including flood control and navigation channels; $30 million for Bureau of Reclamation power, irrigation and municipal water projects, and $7.4 million for Tennessee Valley Authority projects.

## MGM Signs Holden For Role

NEW YORK (AP) — William Holden has signed to star in "The Wild Rovers," a Blake Edwards production for MGM, it was announced recently. Shooting for the film began in Tucson, Arizona on November 2.

# Behavior Study Is Completed

By WILLIAM L. CHAZE
Associated Press Writer

ATLANTA, Ga. (AP) — Two Emory University psychologists say the person most likely to succeed in life believes he has a measure of control over his own destiny.

Life's losers, on the other hand, tend to feel that luck is the compelling factor and that they can do nothing about it, say the psychologists, Dr. Bonnie Strickland and Steve Nowicki.

They based their conclusions on a year-long study of public school pupils in the Atlanta metropolitan area.

They submitted a list of 40 questions to the pupils and checked the answers against educational achievements. They called the master-of-my-fate types "internals" and the luck-is-all believers "externals."

Those who indicated they were internals, said Dr. Strickland, almost invariably were the better students and most likely to be class president, to belong to scholastic and social organizations and to be regarded as popular.

The passive externals, she said, drifted aimlessly along, believing that luck played a large part in their lives and that they had no control over their fate.

Results of the study, the psychologists said, may have implications for those trying to devise methods of teaching children who resist the learning process.

Nowicki said methods of reorienting children toward an internal approach might some day be used at the preschool level.

Dr. Strickland said the test, called the Nowicki-Strickland Personal Reaction Survey, might be used to help determine which students are more suitable for college.

Nowicki said the experiments generally show black pupils to be more externally oriented than their white classmates and that the gap widens with age and experience.

That finding, he said, is not surprising.

"The lower socio-economic classes don't have the money and the opportunities to make changes in the events affecting them," he said.

Instead of drawing sustenance through its roots, seaweeds synthesizes food from nutrients absorbed from the water. Giant kelp, towering up 125 feet tall, will grow a foot a day under the right conditions.

CHRISTMAS DECORATIONS — These ladies are busy decorating the 16 foot Christmas Tree at the Martha Ann Woman's Club. They are getting ready for this season's activities which will begin with the Martha Ann Woman's Club Membership Mixer and Tea Saturday, Dec. 5 at 2:30 p.m. Jerry Worsham's speech department of the Snyder High School will present the program. All members are urged to attend and bring a guest. Pictured are (from left) 1st row Verbilene Talbott, Marjorie Tyer, Essie Mae Davis, Mrs. Charles Shaw, (2nd row) Marilynn Nixon, Beth Teal, and Marsha Robbinson.

# The Origin Of Tree Lights

CHICAGO (AP) — Christmas tree lights have created a happy glow in the life of Albert V. Sadacca, who invented them 56 years ago.

As a young boy in 1914, Sadacca devised the first string of lights when he was faced with the necessity for moving large stocks of tiny clear bulbs from his father's New York City novelty shop.

"We lived in an apartment near the shop and I was the errand boy," he recalled in his office in the Merchandise Mart here. "I used to deliver little celluloid canaries that sat on a perch in a tiny cage and were illuminated by battery-powered bulbs."

At about that time he read that a number of children had been burned in a big fire caused by candles igniting a Christmas tree, and the idea occurred to him: "Why not Christmas lights that are electric?" His father had a big inventory of bulbs that he was anxious to clear from the shelves and Sadacca wired a set in series.

"The first sets didn't sell very well," continued the dark-haired, mustached Sadacca who is of Spanish ancestry. "But the next year we colored the tiny bulbs and they sold better. Electricity was becoming more and more popular in stores and homes. Then we decided to make a series set for use with 110-volt house current using a larger bulb."

The Sadaccas — Albert V. and brothers Henri, Leon and Nessin — then launched into the manufacture of Christmas light outfits, as they were called. In the early 1920s they founded the Noma Electric Co., of which Albert became the first general manager.

Now in his sixties, he is president and chief executive officer of a successor company, Noma-World Wide, Inc., which is still manufacturing what he likes to call "festoons of lights." His son, Albert V. Sadacca II, 26, is executive vice president of the firm. He has already showed the family knack for inventiveness by creating a type of battery operated light to decorate women's formal gowns and elaborate hairdos.

The elder Sadacca also remains innovative in the field. He is now developing a wireless light system and is working on a way to produce Christmas light assemblies by machine instead of the intricate hand assembly now required.

"One of the important things in this business is that the truth of that old adage, there's nothing new under the sun,' applies to Christmas lights," commented Sadacca. "We started with little lights and they grew bigger and bigger. Now tininess is coming back. It started in Japan and Italy with the simultaneous development of the tiny elongated bulb.

"They were made for novelties and I decided to create a new light set with them," he continued. "So I made the first 110-volt string of lights using miniature bulbs and brought them to the United States. And the same thing happened as in our first effort. People were not accustomed to them. It was a flop the first year."

But the next year the firm produced 5,000 sets. A few years later, after Sadacca convinced several large retail chains to feature the sets, the idea took off.

"The use of miniature lights may displace the larger lights that have ruled the lighting roost for 35 years," he predicts.

"And possibly in a period of a few years they will be out entirely."

ENGAGEMENT ANNOUNCED — Mr. and Mrs. Buddy Neal Hertenberger of 405 East Fourteenth Street, Colorado City, announce the engagement and approaching marriage of their daughter, Jerrye Lyn, to Marc Wilson of Lubbock, son of Mr. and Mrs. Glen M. Wilson of Colorado City, formerly of Snyder. The couple plan to be married Dec. 31 in the First United Methodist Church in Colorado City.

# Veal Cooking Can Be A Fine Art

By TOM HOGE
Associated Press Writer

Prime young veal is as delicate a meat as one could wish for, which is why the French lean on it so heavily in their cookery. But veal which has passed the age of 14 weeks begins to turn into beef without yet acquiring the marbling of fat that makes adult beef tender.

And that is why the French have mastered the art of blanquette, or simmering doubtful veal thoroughly to make sure it won't be tough.

In Americanese, a blanquette is a white stew seasoned with cloves as a rule and thickened with egg yolks and creams with a few drops of lemon juice.

The trick is to poach the meat for more than an hour, then reduce it to below the boiling point when the egg sauce is blended in, or the whole mixture will curdle.

The French have a finer appreciation of veal than Americans, something nurtured over the years. On small farms in France, newborn calves are kept on a milk diet as a rule for at least three months; or during their vealhood. This produces the delicately flavored white veal that is a mark of the French cuisine. In the United States, the meat of the calf is more pink, because the animal generally feeds on grass and grain rather than on milk.

Veal has never become a universal favorite in America. In fact, many here seem to regard the meat with a wary eye. It has long been an attraction in New Orleans where the cuisine is continental in origin, and it has grown in popularity in New York and other eastern cities where interest in European food has grown tremendously since World War II.

Only a small portion of the population is reported to eat veal with any regularity in Texas and other states in the West, although most of our supply comes from the dairy states of Wisconsin and Minnesota.

For one thing, there is the economic factor. In a country like Italy where pasture land is limited, farmers slaughter their calves to save fodder and make a quick profit. But on the great cattle spreads of America where grass and grain are plentiful, the rancher lets his cattle grow to adulthood, since the meat yield is far higher and the profit correspondingly greater.

Curiously enough, however, veal inspired one of the famed chuckwagon dishes of olden days. "Son-of-a-Gun Stew" was a cowboy favorite for many years, and still is, I understand, in certain areas. It consists of the tongue, liver, heart, sweetbreads and marrow gut of the calf. A couple of onions are added with a little chili powder, salt and pepper. This dish is virtually unknown in the East, and frankly I have no great desire to try it.

Personally, I prefer to stick to the tried and true French variations of veal, like Escalopes de Veau Biarritz.

ESCALOPES DE VEAU

2 oz butter
8 thin slices of veal (about 1 lb)
salt and pepper to taste
4 oz boiled rock lobster tails
8 thin slices black truffles
about 7 oz Sauce Bernaise
tube of anchovy paste

Melt butter in a saute pan. Sprinkle veal on both sides with salt and pepper. Saute veal til brown on both sides. Place veal slices on warm serving plates. Cut lobster tail into 8 equal slices. Heat lobster and truffle slices in pan drippings. Divide lobster and truffle slices on veal slices. Cover with sauce Bernaise which has been warmed. Garnish each veal slice with a ribbon of anchovy paste. Serves four. Good with a Beaujolais.

# WOMEN

## ON THE HOUSE

By ANDY LANG
AP Newsfeatures

Wood shingles and shakes have been enjoying a resurgence of popularity in recent years. There are even some communities which, in an effort to preserve their rural character, have enacted regulations preventing builders from erecting houses that do not use shingles or shakes as siding.

Although there are some physical differences between shingles and shakes (the latter has a rougher surface made up of vertical grooves), they are maintained similarly. Some persons permit them to weather naturally, since they usually are made of one of the weather-resistant woods, such as cedar. But there isn't much doubt that the application of a finishing material lengthens their life and enhances their appearance.

For a long-time, using a stain or a preservative was considered the "in" method of treating shingles and shakes. Today, paint is being widely used, principally because modern formulations assure good results. Latex, alkyd flats or oil paints can be used, but never without the prior application of a primer. Also, it is wise to stay away from paint unless you have made up your mind that you won't change it in the future and decide to go back to a stain or preservative, both of which must be applied to wood that has not been painted.

Preservatives go deep into the wood and are especially effective in areas where conditions generally are rough on building materials. Stains provide color without hiding the wood grain, with the better grades containin some degree of preservative. Paint gives any type of appearance you prefer, but must be applied generously if it is to be only one coat.

There is still another way of treating shingles and shakes—with bleach. This is used when the intention is to produce a grayish weathering effect.

If you are purchasing a new house with shingles and shakes, the builder will often give you a choice of what type of finish you wish. Sometimes you can get a little cheaper price if you tell him to leave the siding unfinished, although in some cases he may have intended to do that anyway.

If you have a house with finished shingles and shakes, remember the principle that stain or preservative can be used over stain or preservative but not over paint; and that paint can be used over stain or preservative after first applying a primer.

(Sweating windows and walls, stubborn doors and windows, repairing brickwork and curing squeaky floors are among the subjects in Andy Lang's handbook, "Practical Home Repairs," which can be obtained by sending $1 to this newspaper at Box 5, Teaneck, N.J. 07666.)

## TSTA Meets

The Texas State Teachers Association met in the Speech-Arts room at West Elementary, Nov. 23, for its regular meeting. Mr. Claude Donalson, president, presided.

After a brief business meeting, Mrs. Gerorgene Galloway introduced the program for the evening. The Zata Lamba chapter of Delta Kappa Gamma presented a skit on teacher retirement. The skit, entitled "When the Roll Is Called Up Yonder" was composed of Barbara Bigham, Elwanda Nall, June McGlaun, Philomen Kelly, Georgene Galloway, Lanelle Rambin, and Dorothy Clark.

After the skit, Herb Frosh, a consultant from the T. S. T. A. Member Services, presented a very interesting program on retirement benefits.

## Women's Calendar

THURSDAY

The Board of Directors of the Martha Ann Woman's Club will meet at 10 a.m. at the club house.

Ladies Auxiliary of Snyder Fire Department will meet at the Central Fire Station at 7:30 p.m.

Snyder Garden Club will meet at 12 noon at the Martha Ann Woman's Club for their guest luncheon. The social committee will be hostesses.

FRIDAY

Altrurian Club will meet at 3 p.m. at the Martha Ann Woman's Club. Mrs. Travis Rhodes will be hostess.

The El Fleiz Club will meet at 2 p.m. at the Steak House. Mrs. C. D. Miller is hostess.

SATURDAY

Martha Ann Woman's Club Membership Mixer will be held at 2:30 p.m. Jerry Worsham and the speech department of the high school will present the program. Refreshments will be served.

People Without Partners will meet at 7 p.m. at the Hermleigh Community Center for 42 and games. Ladies will bring refreshments. Everyone is welcome.

## WHAT'S GOING ON

Thanksgiving holiday visitors in the home of Mr. and Mrs. W. R. Sterling Jr. and Paula of Ira were Mr. and Mrs. Kent Sterling and Trevor of San Antonio, Mr. and Mrs. Richard Sterling, Terry N. Sterling, Carole, Connie and Mr. and Mrs. Charles Bell and Bill all of Lubbock, Mr. and Mrs. John Sims of Happy, Mr. and Mrs. Marshall Cook, James, Wesley of Muleshoe, Mrs. Bob Spradlin and Jason of Fort Worth, Mrs. Ed Murphy of Abilene, Mr. and Mrs. Rudy Minor, Teresa, Lesia, Susan and Jeff, Mrs. Bobbie Cumbie, Mr. and Mrs. Robert Sterling, Mr. and Mrs Edwin Minor, Mr. and Mrs. G. S. Cook and Mr. and Mrs. Tommy Sterling and Kara all of Snyder, Mrs. Shorty Burney of Midland, Mr. and Mrs. W. R. Sterling Sr., Mr. and Mrs. Gus Sterling and Randy, Mr. and Mrs. Howard Sterling and Leigh, Mrs. Mack Kruse, Mrs. Gary Poe, and Mrs. Jack Burney all of Ira.

## Evening Snack

## Women's Comments

By THE ASSOCIATED PRESS

Some quotable quotes from women during the week:

"We all know what beauty contests are. None of us would compete if there was any question of being treated like cattle."— Maj. Christal Johansson, Miss Sweden, reacting to women's liberation supporters who denounced the Miss World contest as "a cattle market that degrades women."

"He's still my little boy. This is the longest he's been away." — Mrs. Harding, 79-year-old mother of Warren Harding, after her son and Dean Caldwell took 27 days to become the first to climb El Capitan in Yosemite National Park.

"What a drag, always always having to worry about your looks. That's the trouble with acting—you have to worry about such small things. But it's been my life since I was a kid and I guess it'll keep on being that way."—Actress Marianna Hill, in an interview.

"This is the worst thing I've ever been through since I've been in Washington."—Martha Mitchell, wife of the U.S. attorney general, disturbed that she wasn't given credit by Mrs. Nixon's press secretary for sponsoring a luncheon for Cabinet wives.

"I lived in the country when I grew up. And there's something about waking up in the morning and seeing the sun shining through the window and the blue sky and going outside and smelling the fresh air. It makes life worth living."—Barbara Maltby, one of 22 volunteers recently certified as official smoke watchers by the New York State Department of Environmental Conservation.

RITUAL OF AFFIRMATION — Trina Taylor, a member of the Lambda Kappa Chapter of Beta Sigma Phi received her Affirmation ritual the past week in ceremonies held at the Snyder Savings and Loan community room.

RITUAL OF JEWELS — Mrs. Joyce Ann Pace and Mrs. Juanita Farquhar received the Ritual of Jewels degree in a ceremony recently held by the Lambda Kappa Chapter of Beta Sigma Phi.

# Home Interest Rates Rise As Others Drop

By JOHN CUNNIFF
AP Business Analyst

NEW YORK (AP)—Interest rates throughout most of the business world are receding today like an ebbing flood tide but it will be months before the badly damaged mortgage market can be put into working order.

For some obvious reasons, and some obscure ones also, the interest rates on home mortgages are among the last to fall in any rate retreat. And the pattern never was more clear than now.

The discount rate at Federal Reserve banks has fallen from 6 per cent to 5.5 per cent in one year. Some commercial paper rates have been halved. Some U.S. Treasury issues are down 2.5 per cent. Some banks loans cost 7 per cent now compared with 8.5 a year ago.

But, the average interest rate charged on new home mortgages in October rose—not fell—to 8.5 per cent, compared with 8.1 per cent a year earlier. In September, the rate had been down to 8.48 per cent.

A relatively few critics of the banking and savings and loan structures tend to feel that a conspiracy exists, but a look at the reasons why tends to dispel such notions, albeit without justifying the situation.

Moreover, most of the widely published economic analyses foresee mortgage rates joining the tide in the next year, primarily because of an expected influex of money from other areas.

In some states, for example, usury laws shut off the flow of money into mortgages. With yields of 8 per cent or more available in corporate bonds, commercial banks hesitated to invest in mortgages which laws limited to yields of 7.5 per cent.

Now, however, the returns on corporate bonds are becoming less attractive. Should yields fall to 7.25 per cent, large investors would be more tempted to invest in mortgages.

The flow of money into the mortgage market apparently already has begun. The Federal Home Loan Bank Board reported that in October some $1.06 billion was deposited with savings and loan associations, a tremendous gain.

A year earlier, by contrast, federally insured savings and loan associations experienced an outflow of $429 million.

Another factor supporting the high cost of mortgages is the enormous demand from families that have been forced for several years to postpone their housing plans because loans were unobtainable.

In fact, officials of the savings and loan industry, which is the major lender of housing funds, maintain that the average interest rate on mortgages would have been much higher if the forces of supply-demand were the sole determinant.

In other words, they say, the 8.5 per cent rate is really artificial or legislated. The hypothetical demand rate is still higher than that, they say, and won't fall much below 8.5 per cent for months.

There is little question that demand for housing is great, but sometime during the next year mortgage lenders might find that the ability of builders to meet demands rather than housing needs will determine the demand for their money.

## Junior Editors Quiz on COPRA

**QUESTION:** *How is copra made and what is it used for?*

* * *

**ANSWER:** The palm tree is well-named, for the coconut palm gets the palm among trees for usefulness, at least in the South Seas islands, where its graceful fronds wave above countless coral islands. Natives use the leaves for making clothing, mats, and thatching their houses. They drink the milk from the nut and use its meat in many ways. This meat has a special importance to them. Although these natives can live from the food found close by, they lack ways of working to make money. So they gather the coconuts (1), crack them to extract the meat which is dried in the sun (2). The dried meats, called copra, are then bundled into sacks which are sent to the outside world by trading vessels (3). Thousands of tons of copra are exported each year to Europe and the USA, to be used in soap making, for cooking fats and to produce various food materials such as margarine. In this way, the natives of the South Seas are able to buy some of the up-to-date manufactured goods which they are anxious to get, such as radios, bicycles, etc.

12-2

*(Todd Eastwood of Mont Clare, Pa., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)*

# Smith Supports Johnson

AUSTIN (AP) — Chairman Pearce Johnson of the Texas Parks and Wildlife Commission has received Gov. Preston Smith's backing in his fight against buying land for a state park on Mustang Island with federal funds.

The next step is up to the two commission members who outvoted Johnson on the issue but whose will was thwarted by Johnson.

A woman legislator who favors the park also said she is not through fighting.

Smith and state Rep. Frances Farenthold of Corpus Christi said they believed the commission could buy at least some of the island with $2 million in state park bond funds, despite Johnson's blocking of an application for a similar amount in federal money.

But Johnson and commission program planner Howard Lee said they thought the commission's 2-1 decision to buy the land was conditioned on receiving a federal grant.

Johnson, as state liaison officer for federal parks and recreation grants, had steadfastly refused to sign the application for money for the park, though he was outvoted on the commission 2-1.

The action was appealed to Smith, who appoints the liaison officer. Smith asked the Texas Conservation Foundation, a new agency set up to receive gifts of land, to investigate. The foundation voted 8-3 to back Johnson.

After receiving the foundation's report, Smith said he "fully supports" Johnson's decision.

## State School Leases Land

AUSTIN (AP) — The state school land board leased 68,438 acres of permanent school fund lands to oil companies Tuesday for $3,274,910.

Superior Oil Co. made the highest bid, paying $195,302 for rights to oil and gas development of a 200-acre tract in Ward County.

Mitchell & Mitchell properties made the second highest bid, $160,934 for 1,440 acres in the Gulf of Mexico in Chambers and Jefferson counties.

Total average price per acre was $47.85.

About 1,000 tons of meteorites annually fall on the moon's surface; they compose about 2 per cent of the lunar soil.

# Boyle Makes Resolutions

By HAL BOYLE

NEW YORK (AP) — While everyone else is out rushing around doing his shopping early to avoid the Christmas rush, I've decided to steal a march on them by making my New Year's resolutions early.

There are a couple of advantages in getting this done a month before the deadline.

For one thing you can make your good resolutions with a clear mind and a steady hand, which is not always true of those who wait to perform this chore until the morning of Jan. 1.

For another, you are free to pick and choose from a complete stock of good resolutions. There is nothing more pitiful than the harried, procrastinating fellow who comes late to the scene and finds the best resolutions have already been made—and has to settle for second-or third-rate ones.

The problem with most New Year's resolutions is that people who make them accentuate the negative rather than the positive. They vow to quit doing bad things instead of pledging themselves to do more good things. This year, for a change, I'm going to try to do both.

For example, I'm promising myself I will cease—

Oppressing women.

Burying dead horses.

Polluting the atmosphere with any more hot air.

Giving free advice to people who aren't worth two cents anyway.

Playing poker for keeps after midnight.

Opening savings accounts at banks just to get a free electric blanket or hearing aid.

Goring the other fellow's ox. Ox goring isn't much fun at best, and at the worst it can be terribly fatiguing.

Well, that's enough things I'm going to quit doing. On the more constructive side—the better things I'm going to start doing—I hereby resolve to—

Get more exercise by opening more junk mail.

Write down all the memorable things I hear said at cocktail parties and file them in my snuffbox.

Get an unlisted telephone number, so that all the people who never bothered to call me before won't be able to now in case they change their minds.

Punch anybody in the nose who greets me on Monday morning with such remarks as, "Tell me all about it. Were you in a train wreck over the weekend?"

Reread an old Bobbsey Twins book every month to restore my faith in the belief that neither sex nor money is everything.

Listen to the opinions of others—just to assure myself that my ideas aren't the only nutty ones on earth.

Bury all these good resolutions in a time capsule, then dig them up and use them all over again on Jan. 1, 1981.

## SWC Teams Break Even

By THE ASSOCIATED PRESS

Southwest Conference basketball teams batted .500 in the opening round of non-conference warfare Tuesday night with defending champion Rice jumping from the chute with a solid 98-81 victory over Abilene Christian.

Other SWC winners were Texas Tech 93, San Diego State 86, Southern Methodist 105, Austin College 76, and Baylor 82, Southwest Texas 72.

The losers included Missouri 80, Arkansas 78 in overtime; Florida Sate 80, Texas 78; Stephen F. Austin 89, Texas A&M 82; and Kansas State 79, Texas Christian 70.

The only game tonight finds SMU at Georgia Tech.

Tom Myer pumped in 26 points as the Owls riddled ACC at Houston in a rout for Coach Don Knodel's charges.

Gene Knolle was in mid-season form as he shredded the nets for 34 points in pacing Texas Tech to victory before a shouting throng of 8,500 fans in Lubbock. The Red Raiders held only a 43-38 halftime margin over the Aztecs.

Rugged William Chatmon caught fire for 19 of his 23 points in the second half as Baylor overcame a 13-point deficit to trip the rugged Southwest Texas Bobcats before 3,200 fans in Waco. Baylor held a thin 40-37 halftime margin. Sylvester Brown gunned in 25 points for the losers.

Gene Phillips missed his first seven shots then settled down for 25 points as Southern Methodist stampeded Austin College. It was the most points scored by a Mustang team since they beat Rice 112-89 in 1966.

The losers had their moments.

Texas trailed by 13 points with 13 minutes to go but pulled within a point before falling to Florida State. A bank shot by Texas sophomore Ralph Elliott rimmed the bucket with five seconds to play. Texas junior forward Lynn Howden set a school rebounding record with 24 to best the old mark of 21 set in 1955.

A&M led 60-59 with 11:01 remaining before S. F. Austin ripped off 16 consecutive points. The Aggies led 41-39 at halftime Hames Silas had 32 points for the Lumberjacks to pace all scorers while Steve Niles headed the Aggies with 15.

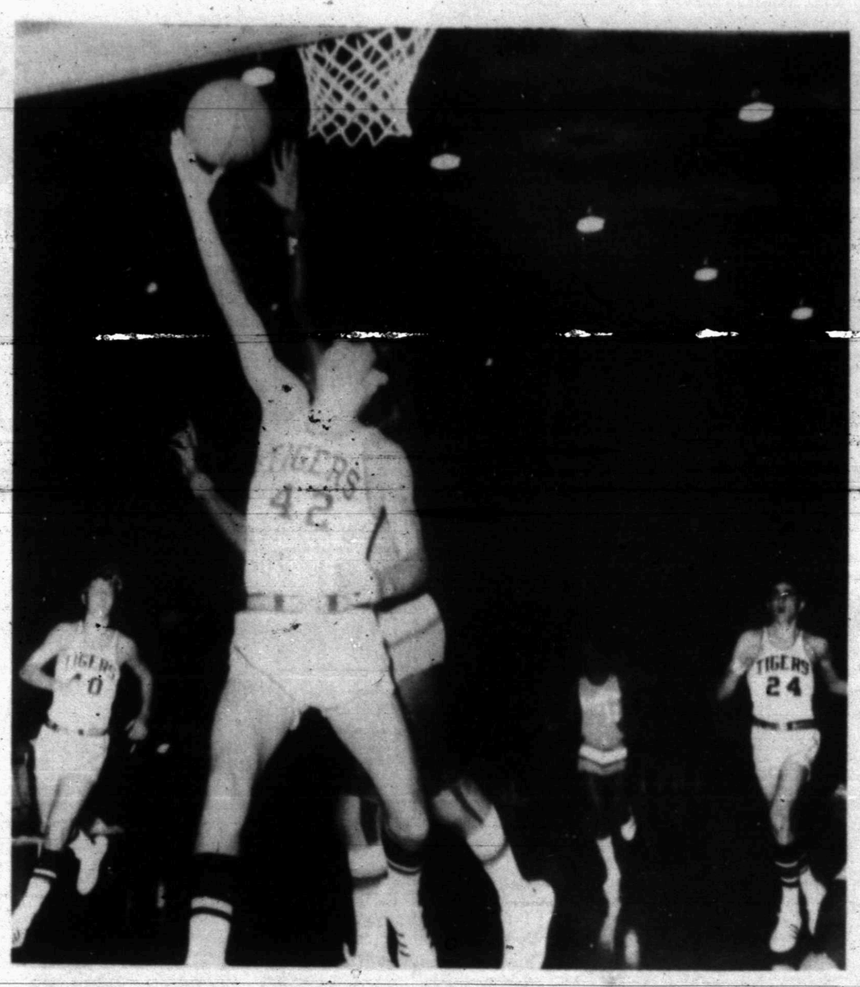
Simpson Degrate of TCU was the leading scorer with 18 although the Horned Frogs fell to the Big Eight Wildcats in Mahattan, Kan. Kansas State held a 48-33 margin in the second half but TCU rallied to make the final score close.

## Weaver Is Best Manager

WASHINGTON (AP) — Earl Weaver of the world champion Baltimore Orioles has been named Manager of the Year by the Washington chapter of the Baseball Writers Association of America, it was announced today.

Weaver will receive the Bucky Harris Trophy at the chapter's fourth annual dinner Jan. 19.

Previous winners of the award have been Dick Williams of the Boston Red Sox, Mayo Smith of the Detroit Tigers and Gil Hodges of the New York Mets.



GOES UP — Snyder's Dubby Preston (42) goes high for the ball at the same time an unidentified Odessa Ector Eagle tries to take possession. Heading towards the action are David Thompson (40), Ray Lewis (11) and Jerry Brooks (24). Preston scored 27 points to lead the Tigers, but Ector won the contest 73-70. The tilt was held in the Scurry County Coliseum last night.

# Fast Running Eagles Clip Bengals, 73-70

Only a sterling performance at the free throw line kept Snyder's Tigers in the game against Odessa Ector's Eagles here last night. At ... was, the visitors went away with a narrow 73-70 victory after thwarting a late Bengal rally.

It was a close contest for three periods with the score tied 18-18 after one period. Ector led 34-31 at halftime. It was tied again, at 48-48, after three periods. Then Ector began to pull away in the first half of the last period, but Snyder rallied in the last half of the closing stanza and nearly tied it up again.

Ector connected on 30 floor shots, compared with only 18 for Snyder. But the Bengals dunked in 34 shots at the line compared with only 13 for the Eagles. Snyder hit only 9 of 23 floor shots for 39 per cent in the first half and only 8 of 29 in the second half for 29 per cent. At the same time, Ector was meshing 13 of 21 in the first half for 62 per cent and 14 of 25 for 56 per cent in the second half. Snyder stayed in the game with 13 of 21 at the line for 62 per cent in the first two periods. The hosts hit an amazing 21 of 26 for 81 per cent in the final two periods. Ector hit 4 of 10 for 40 per cent at the line in the first half and 9 of 21 for 43 per cent in the second half.

Dub Preston hit for 27 points total. Thirteen of his points came in the fourth quarter. Tommy Washington collected 11 points, and David Thompson connected for 10. For Ector, four boys were in twin figures, led by Jessie Watkins with 16 points. Others hitting in double figures included Darrell Mithcell and Joe Davis, 13 each; and, Hobart Farris, 12 points.

Snyder had a good night on the boards, grabbing 34 rebounds, compared with 27 for Odessa. Three Tigers shared honors under the boards. Jerry Brooks, Dub Preston and Tommy Washington each grabbed seven rebounds.

In the final analysis, a fast break and a full court press by Odessa in the fourth period proved too much for the Tigers to handle. Joe Davis, who tallied nine of his 13 points in the last quarter, hurt the Tigers on the inside in the last quarter. He got open on the quick break several times.

The Tigers won the B team game by a 58-43 count. Tim Jones and Jimmy Don Dyess sparked the Kitten attack with 20 and 17 points respectively. Green led Ector B team scorers with only eight points.

The Kittens led 13-8 after one period and 31-21 at halftime. They increased the margin to 43-29 in the third period and kept a comfortable lead until the final buzzer.

The Tigers next contest will be at 4 p.m. Friday in the first round of the Irving Tournament.

# LAKER DEFENSE STOPS BALTIMORE, 97 TO 93

By THE ASSOCIATED PRESS

Basketball teams are always using offensive sprees to win games, but how many times do you hear of a defensive flurry?

That's what the Los Angeles Lakers used Tuesday night to beat the Baltimore Bullets 97-93 in a National Basketball Association game.

With the Lakers leading 95-93, first Wilt Chamberlain and then Jerry West came up with consecutive clutch defensive gems to save the game. Chamberlain blocked a shot by Earl Monroe and then West followed by blocking a shot by Kevin Loughery in the final seconds. Gail Goodrich then added two free throws to seal the victory.

On the offensive side, the Chicago Bulls scored 17 straight points and went on to a 107-91 victory over the Philadelphia 76ers, and the New York Knicks shot 68.2 per cent from the field in the first half and breezed to a 114-109 triumph over Seattle.

In other games, Boston squeezed past Buffalo 117-116 in overtime for its fifth victory in a row, San Diego turned back Portland 120-114 and San Francisco overcame Atlanta 113-106.

There were no games in the American Basketball Association.

The Bullets had trouble scoring earlier against the Lakers, going the first six minutes of the third period without scoring and falling 12 points back after holding a 51-50 halftime lead.

Monroe, who scored 33 points, helped bring them back, but West, who hit 37, and Chamberlain cut short the rally.

The Bulls were behind 59-52 in the third quarter before rattling off their 17 as Jerry Sloan and Tom Borwinkle each scored six points. Chet Walker topped Chicago with 28 points and Dennis Awtrey was high for Philadelphia with 17.

The Knicks shot into a 67-52 halftime lead and coasted to their six consecutive victory as the final score was the closest the Sonics got. Willis Reed had 35 points and 20 rebounds, Walt Frazier 23 and 10 and Dave DeBusschere 22 and 12 for the Knicks while Len Wilkens scored 29 points for Seattle.

Seldom used Art Williams came off Boston's bench to hit the tying basket with 30 seconds left and send the game into overtime at 107-107. The Braves, who blew an 18-point lead, then gave up a 116-112 margin when Williams hit a free throw, Dave Cowans a basket and then Williams the winner with five seconds to go.

Jo Jo White had 37 points for the Celtics and Bob Kauffman 28 for the Braves.

Calvin Murphy and Stu Lantz scored nine free throws between them in the last three minutes as San Diego withstood a late Portland surge. Elvin Hayes led the Rockets with 37 points and 23 rebounds before fouling out. Jim Barnett paced the Trail Blazers with 27 points.

San Francisco rallied from an eight-point deficit in the final period to top Atlanta. Jeff Mullins, with 34 points, and Nate Thurmond, with 24, supplied most of the swing impetus for the Warriors. Lou Hudson was high for the Hawks with 40 points, 30 in the first half.

---

On successive Saturdays this fall Michigan State bowed to Notre Dame and Ohio State by 29-0 scores.

## Collier To Retire

CLEVELAND (AP) — Cleveland Browns Coach Blanton Collier said Tuesday that his decision to announce his voluntary retirement at the end of this season was made to take pressure off his struggling football team

Collier publically announced his retirement Tuesday after telling his players of his decision after Sunday's 28-9 loss to Pittsburgh. He had told Browns' owner Art Modell and Harold Sauerbrei, the team's general manager, of his decision before the season began.

"I didn't tell them players at the beginning of the season because I wanted the team to win on its own merits," Collier said. "I didn't want them to have the extra burden of perhaps trying to do something for a coach who was retiring."

The Browns have posted only a 5-6 record this season, but are tied for first place with Pittsburgh and Cincinnati in the American Football Conference's Central Division.

"I let them players know about it on Sunday because I felt that it might take some pressure off them," said Collier, who has won 74 games, lost 33 and tied two in eight years as head coach. "I didn't want them to feel that they had to win games for me to save my job."

Collier, who will be 65 in July, said he had seen other coaches forced to retire and "I didn't want my coaches' clothes cut off me.

# Porkers To Look At Tough 'Horn Offense

By HARRY KING
Associated Press Writer

FAYETTEVILLE, Ark. (AP) — Charley Coffey, coordinator of Arkansas' defense, says that "by design, the triple option is the greatest offensive play in college football."

And, he says, Texas runs it best.

"Other teams run the triple option, but in the Wishbone the triple option with the lead back gives them (Texas) a chance to outnumber you," Coffey says. "It forces the defense to make mistakes. And Texas has made it work against every conceivable defense."

Coffey's defenders will get an close look at Texas' version of the triple option Saturday at Austin, Tex., in the "Big Shootout II."

To the winner goes the Southwest Conference championship, a Jan. 1 Cotton Bowl meeting with Notre Dame and a possible national championship.

The loser may be left out in the cold. All bowl spots are filled except a spot in the Orange Bowl that will be filled by LSU if the Tigers defeat Mississippi Saturday night. If the Rebels win, the Arkansas-Texas loser could meet Nebraska on New Year's night in Miami.

Last year, Arkansas "held" a Texas team that was averaging 483 yards a game to 368 yards. Almost 25 per cent of that total came on a 42-yard touchdown run by James Street and a 44-yard fourth-down pass from Street to Randy Peschel that set up the Longhorns' 15-14 come-from-behind victory.

This year, Texas is averaging more than 460 yards a game and Coffey said the Longhorns are better offensively than they were in 1969.

"They are running a more varied offense," he said. "They run about three times as many plays."

He says the Arkansas defense, which ranks second in in the nation against the rush, cannot afford to concentrate on fullback Steve Worster, halfbacks Jim Bertlesen or Billy Dale or quarterback Eddie Phillips.

"It doesn't matter to them who's carrying the ball or what the play is as long as they move those chains," Coffey said. "You get set to jump on Worster and Phillips and they give it to somebody else. You've got to stop three running backs and a quarterback and a good passing attack.

"Phillips does an excellent job of reading the defense and he's an accurate passer," Coffey said. "People don't give him credit for being able to throw the ball, but they can beat you with the pass. Texas will take advantage of any secondary which is playing close to stop the run by faking the run and throwing deep."

Arkansas' defense was suspect after the Razorbacks lost their season opener to Stanford 34-28, but some personnel changes and the recovery of some members of the the front four has changed the picture.

The front four includes tackles Dick Bumpas and Rick Kersey and ends Bruce James and David Reavis. Bumpas and James have already been named to some All-American teams and both started against Texas last year along with Kersey.

Despite giving up 34 points to Stanford, the Razorback defense has lowered its average to less than 11 points a game.

"Those figures really don't mean too much now," he said. "Our season has come down to this final game and it is our challenge to prove how good we really are."

## Wichita State To Get Fees

PASADENA, Calif. (AP) — The men who will officiate the Dec. 19 Pasadena Bowl Between Louisville and Long Beach State said Tuesday they will turn fees over to the Wichita State Emergency Fund.

"It is our pleasure to officiate the game with our fee being turned over 100 per cent" to the fund, said Jim Lineberger, spokesman for the 13-man crew from the Pacific-8 Conference Football Officials Association.

"Additionally," he said, "we would like to forego any receipt of complimentary tickets usually provided and instead would like to purchase these tickets to this charitable cause."

The game will be played as a benefit for survivors of players killed in the crash of the Wichita State team's chartered airplane.

# Red Sox Get Aparicio

By DICK COUCH
Associated Press Sports Writer

LOS ANGELES (AP) — Two rebuilding clubs have landed Luis Aparicio look-alikes at baseball's winter trade market, but the prototype shortstop belongs to the Boston Red Sox today and they're building a pennant dream on the new property.

The Chicago White Sox, cleaning house after a last-place finish in the American League's Western Division, dealt Aparicio to Boston Tuesday for second baseman Mike Andrews and 21-year-old shortstop Luis Alvarado. Chicago Manager Chuck Tanner promptly likened Alvarado to the 36-year-old Venezuelan bantam he'll try to replace in the White Sox' infield.

Meanwhile, the Baltimore Orioles reluctantly parted with Aparicio's countryman and protege, 21-year-old shortstop Enzo Hernandez, in a six-player swap that also sent pitcher Tom Phoebus to San Diego's National League expansion team in exchange for pitchers Pat Dobson and Tom Dukes.

In other major league transactions, Atlanta traded infielder Bob Aspromonte to the New York Mets for reliever Ron Herbel and Houston purchased catcher Jack Hiatt from the Chicago Cubs.

"Reports from our scouts compare Alvarado to a young Luis Aparicio," Tanner said after the White Sox swung their third deal of the two-day-old winter meetings.

"I'm not saying Hernandez is another Aparicio, but he reminds me a lot of Luis when he was a kid," said Orioles' skipper Earl Weaver following the world champs' second trade in brisk swapping that promises to mount at the winter meetings before Friday's windup.

While the White Sox and Padres envisioned future returns from their young shortstops and the pitching-rich Orioles looked toward Dobson as another potential 20-game winner, Boston's Eddie Kasko took the short view—and saw a championship flag flying over Fenway Park.

"We feel we can win the pennant with Aparicio," said the Red Sox' skipper, who plans to shift Rico Petrocelli from short to third base to make room for the 155-pound veteran of 15 American League seasons.

"I'm not concerned about his age, not if we win next year. By the time he's through, we'll have someone to take his place. I'm concerned about next year."

Aparicio, a superb shortstop who has led the league in stolen bases nine times, batted a career-high .313 in 146 games last season.

Andrews, 27, batted .253 for the Red Sox, with 17 homers and 65 runs batted in.

"He'll be the take-charge guy in our infielder," said Tanner. "We'll help stabilize Alvarado at short and Carlos May, who we've moving to first from the outfield."

Alvarado, the International League's Most Valuable Player in 1969, began his rookie AL season as Boston's regular third baseman but wound up dividing the year between the Red Sox and their Louisville farm club. He hit .224 in 59 games with Boston.

The Orioles, who traded veteran relief pitcher Moe Drabowsky to St. Louis Monday for utility infielder Jerry Davanon, gave up Phoebus, Hernandez and pitchers Fred Beene and Al Severinsen to get Dobson and Dukes, San Diego's biggest winner and second-busiest reliever, respectively, last season.

Phoebus, pitching sporadically behind Baltimore aces Dave McNally, Mike Cuellar and Jim Palmer last season, compiled a 5-5 record and a 3.07 earned run average. Hernandez batted .266 while Beene was 9-3 and Severeinsen, a relief specialist, 4-6 with the Orioles' Rochester farm club in the International League.

Dobson, 14-15 for the Padres with 185 strikeouts and an ERA of 3.76, went to San Diego from Detroit in a deal at last year's meetings. Dukes was 1-6, with 10 saves and a 4.04 ERA in 53 relief appearances.

Weaver said he had talked to Phoebus, a Baltimore native who pitched a no-hitter against Boston two years ago and had spent his entire career in the Orioles' organization, after completing the trade. "He's happy about it," the manager said.

"We would never have traded Hernandez if we didn't have Mark Belanger, Dave Johnson and Bobby Grich, who all can play shortstop so well," said Harry Dalton, the Orioles' front office boss. "Enzo is going to be a real good major league shortstop."

Similarities between Hernandez and Aparicio aren't coincidental. Hernandez has played exclusively for Manager Aparicio in the Venezuelan winter league in recent years.

---

Cesar Gutierrez, Detroit Tiger shortstop, made seven hits in seven at bats in Cleveland last June 20. His bat was sent to the Hall of Fame at Cooperstown, N.Y.

# OMB Struggle Delaying Farm Program Details

By DON KENDALL
AP Farm Writer

WASHINGTON (AP) — Government sources say a power struggle within the Office of Management and Budget (OMB) is responsible for the delay in getting 1971 crop program details into the hands of farmers.

The delay stems from disagreements within OMB—the White House team that directs spending policies—over how the new farm law, signed Monday by President Nixon, will apply to key crops next year.

Agriculture Department officials are frustrated and angry over the hangup. They had pledged that 1971 operating details would be announced quickly after Nixon signed the farm bill.

Moreover, the sources disclosed, the department's Agricultural Stabilization and Conservation Service—which administers farm programs—began months ago to work closely with OMB representatives in order to head off such a hitch that has developed.

All went smoothly. Operating regulations spelling out how much land farmers would take from production or "set aside" next year for crops of wheat, feed grains and cotton were developed cooperatively.

The ASCS believed there would be no problem getting rapid OMB approval of the final package and that details could be announced quickly.

But, the sources say, some factions in OMB objected vigorously to the cooperative plan developed with the Agriculture Department. One item that has caused the disarray is how much feed grains land farmers should "set aside" from production next year.

The department reportedly would like to keep the feed grains set-aside at roughly what farmers are required to divert under the program for 1970, or approximately 20 per cent of their crop base acreage.

But some in OMB who want to see feed grains production expanded greatly next year want a lower set-aside, perhaps only half of what the Agriculture Department had worked out.

Overriding the entire issue, another source said, is the power exercised by OMB over agencies such as the Agriculture Department. The White House team, the sources said, want the final say no matter what.

Agriculture Department officials say the fine decisions do not have to be made now. Instead, they say, program details giving "tentative" set-aside requirements could be announced immediately with the understanding these might be adjusted later.

The department would like to see what its special survey of 1971 crop planting intentions turns up before announcing final requirements. This survey will be made the last week in December and will be announced on Jan. 25.

Meantime, the department hopes to use the planting survey information for tuning 1971 crop programs more finely to reflect what farmers intend to grow next year.

The impasse thwarted USDA plans for outlining details to meetings here this week of state ASC officials. These are the people who will return to their states and instruct county officials on how to administer 1971 programs under the new law.

Agriculture Secretary Clifford M. Hardin left Tuesday for a two-week European tour. Before he left he told the state ASC officials that he hoped all the details would be available "before the end of the week."

"There are two or three more checks that have to be made before all of these can be announced," Hardin said, "but they're substantially ready to go and I think you're going to be pleased with them."

Hardin, however, left Washington before the matter was settled with President Nixon's budget and management experts.

# Highway Leads To Mexico

AUSTIN (AP) — Travelers to Mexico City can pick up Route 57 south of San Antonio and follow it all the way to the Mexican capital under a new highway designation.

The state Highway Commission announced that the route numbering committee of the American Association of State Highway Officials approved the designation of U.S. 57 to link with Mexico's federal Highway 57.

The two highways will join at the Rio Grande near Eagle Pass.

The route will extend from the Rio Grande northeastward over U.S. 277 to Texas 57, then over Texas 57 through Zavala County to a junction with Interstate 35 near Moore in Frio County.

Also announced was a single route number across North Central Texas. The U.S. 380 designation will be extended from just west of Old Glory in Stonewall County eastward along Texas 24 to a connection with Interstate 30 near Greenville.

The commission said this provides a new single east-west U.S. highway number bypassing the high volume traffic pattern in the Dallas-Fort Worth area.

# Cards Sold To Pay Postage

MARTINEZ, Calif. (AP) — "Joy to the World?" reads a Christmas card being sold by an organization raising funds to pay postage for thousands of letters to the government of North Vietnam urging humane treatment for American prisoners.

The card shows an emaciated man sitting on a wooden bench, an empty rice bowl at his feet.

The cards are being sold by "Contra Costa Cares," a group of about 80 persons in Contra Coasta County on the east side of San Francisco Bay.

"This is a cause that we believe all should care about no matter how they view the war in Vietnam," said Mrs. Richard Hauge of Martinez, director of the nonprofit organization.

Her brother, Lt. Ralph E. Gaither, 28-year-old Miami, Fla., pilot, was shot down and taken prisoner Oct. 17, 1965.

She has accumulated about 35,000 letters for North Vietnam's government from relatives and friends of the estimated 500 American prisoners of war, plus other persons in the San Francisco Bay Area.

It was the result of a "chain-reaction" of friends asking friends to write, and those friends asking other friends to do the same thing.

Mrs. Hague said she plans to mail 500 letters a day, "to impress upon North Vietnamese the concern of the American public."

Shelburne, 25 years; Porter King, 45 years;; Lyle Deffebach, 30 years; Brud Boren, 30 years; Bill Seale, 20 years; and, Renal Rosson, 20 years.

# Pollution-Fighting Agency Is Established

By STAN BENJAMIN
Associated Press Writer

WASHINGTON (AP) — The Environmental Protection Agency, a kind of federal gladiator in the war against pollution, was born today.

Unique in both scope and potential muscle, EPA is mandated to establish and enforce anti-pollution standards, administer financial grants and technical aid, conduct research, and help develop a national environmental policy.

That makes it the supreme federal pollution-fighter, and all the more so because it assembles under one roof existing anti-pollution programs formerly scattered among the Interior Department, Department of Health, Education and Welfare, Department of Agriculture, and Atomic Energy Commission.

EPA is the third new environment-related agency established by President Nixon in 1970—and the fourth cornerstone to a federal environment structure that greatly resembles the unfinished pyramid depicted on the back of a dollar bill.

One corner of the pyramid is the Interior Department, which retains jurisdiction over federal land, and a number of mineral and water resources.

The second corner is the Council on Environmental Quality, a three-member panel of advisers to the president.

The third is the National Oceanographic and Atmospheric Administration, a new branch of the Commerce Department established Oct. 3 to balance development with environmental safeguards in the oceans.

EPA completes the reorganization originally planned by Nixon, although further changes may be under consideration.

Even as EPA became a legal reality, William D. Ruckelshaus, director of the Justice Department's civil law division, was still testifying before the Senate, which has yet to confirm his nomination as director of EPA.

But Ruckelshaus has been installed at EPA's new offices in downtown Washington for almost a month now, working out the necessary organizational transition.

The new outfit, after all, must pull together some 5,800 employes and budgets, which totaled $1.4 billion in fiscal 1971.

While Ruckelshaus will not reveal details until he is sworn in -probably next week - EPA likely will be structured along traditional lines:

—A segment for water pollution, paralleling the Federal Water Quality Administration drawn from the Interior Department.

—Segments on air pollution, and solid waste management from HEW.

—Pesticide controls from the Agriculture Department.

—And environmental radiation from HEW and the Atomic Energy Commission.

The big question is just how forceful EPA will be in setting and enforcing standards of purity for the nation's air and water.

Ruckelshaus would like to achieve compliance by industry and others with antipollution standards by gentle persuasion, if possible, but he says he learned, during his days in the Indiana state attorney general's office, that you may have to prosecute a few offenders before the others can be persuaded.

# Texas Chief May Be Abandoned

CHICAGO (AP) — The Texas Chief, one of the Santa Fe's crack passenger trains, may be abandoned next year, the railroad's management said Tuesday.

However, they added, if the train is among facilities selected for service by a proposed National Railroad Passenger Corp., the Chief will continue.

The train operates from Houston, Tex., through Fort Worth, Oklahoma City and Kansas City to Chicago.

Santa Fe Spokesmen said they do not know yet whether the Texas Chief route will be included in the Railpax system. President Nixon is expected to announce Friday names of three to seven of the new firm's incorporators.

Transportation Secretary John Volpe has recommended that 14 cities in the United States receive passenger service under Railpax. Among the routes he suggested was a Chicago to Houston line.

RECEIVES COMMENDATION — David McIntosh, Sp5 who graduated from the Army's Enlisted Cooking Class 71-40 on Nov. 20 has received two letters of commendation. One letter, signed by Lt. Col. Gaylord E. Lutz, director of the subsistence and food service department, congratulates McIntosh for being the distinguished graduate of the school. The other letter, signed by Capt. Earnest L. Simmons, commends the Snyder resident for his "exceptional performance of duty as class president of the enlisted cooking course." Here, Sgt. Don Walser of the local National Guard unit, hands McIntosh copies of the letters.

# Out Of Staters Face Hike

SAN ANTONIO (AP) — Out-of-state students in the University of Texas system may soon be faced with paying double their current tuition charge of $200 a semester.

UT Regent John Peace, speculating on the possible tuition hike Tuesday, said he does not expect the regents to recommend an increase for resident students, however.

Peace pointed out that the present tution charge for non-resident students is $200 a semester, or $400 for the normal academic year.

He compared this to "a cost in academic instruction of $1,500 per student per year," adding: "Roughly $1,100 is subsidized by Texas taxpayers."

Asked about possible action on tuition rates by the regents, he replied, "I would speculate that we would make a recommendation as to out-of-state students but have none as to resident students."

The San Antonio regent indicated the approach would be to double the non-resident charge.

Tuition for Texas residents is $50 per semester.

Although Peace said the regents probably will not recommend a hike for resident students, he said this "doesn't mean they're opposed. It just means they don't have an official position."

Tuition increases have been recommended for both residents and non-residents by the coordinating board, Texas college and university system.

More than 4,000 non-resident students are among the 39,000 enrolled on the UT-Austin campus alone, Peace said.

He noted the UT system faces growing financial needs, including between $70 million and $90 million in construction, which he said will be presented to the next legislature.

The legislature, he predicted in an interview, will "look especially hard at out-of-state tuition.

# Make Money By Sewing

## Career Corner

by Joyce Lain

what job would you like to see explored in this column?

**Dear Joyce: I sew quite a lot and have several people ask me to sew for them but I never know how to charge for it. I would certainly appreciate any help. -- MRS. R.L., Troy, Mo.**

Sewing offers a number of money-making avenues to the woman who can create, repair or alter. Recently I visited the New York State Woman's Program, a government agency, and was impressed with the job they've done in devising career literature. One piece contains the information you and many other readers have asked for.

If you would like a single free copy of the GUIDELINE price list of what to charge for seamstress services (which I have reproduced from a N.Y. Woman's Program pamphlet), send me a stamped, self-addressed long white envelope at this newspaper. Write "Sewing" on your outside envelope, and mail within 30 days.

• • •

**Dear Joyce: My wife and I are considering opening a gift shop, perhaps specializing in souvenirs. Suggestions? – H.D., San Diego, Calif.**

Yes, again crediting the N.Y. Woman's Program as the resource. A "take-home treasures" shop should be just that -- not an offering of crudely-made junk having no true connection with the heritage of your area. Products should represent your state's history, folk lore and people, its craftsmen, industries and scenery. Libraries and local historical societies can help with facts.

Some of the stock can be easily obtained, some will require searching out, and some will have to be planned and ordered. In the first category -- easily obtained -- contact firms in your state which are nationally known for quality merchandise; ask your chamber of commerce for suggestions. (An example in N.Y. is Corning Glass -- products range from cooking ware to Steuben crystal.)

In the second category -- searching -- explore different areas of your state for articles made by local craftsmen (weavers, whittlers, ceramists, metalsmiths, wood workers, silversmiths, etc.). In the third category -- planning and ordering -- try to come up with ideas of your own and ask craftsmen to translate them into products.

Once your souvenir shop is open, your customers will find browsing and buying easier if you concentrate different types of products in different areas of the shop (men's, women's children's). With each item, there should be a label telling its complete story -- the material from which it is made, the name of craftsmen, and the history of the area. As for prices, keep them, as far as possible, within a top limit of 10 dollars, with most much lower. Expensive items could be grouped in an area frankly labeled "Luxury Lane" or "Bachelor Uncle Department."

**FOR GIFT SHOPS in general, the N.Y. Woman's Program has given me permission to reprint a helpful 4-page leaflet, "On the Joys and Sorrows of Running a Gift Shop." If you want a copy, send 15 cents for materials and handling, plus a stamped, self-addressed, long white envelope to me at this newspaper. Write "Gift Shop" on your outside envelope and mail within 30 days. DO NOT COMBINE requests for different leaflets because it fouls up the mail assembly-line and results in bad service to readers.**
