GERMANY'S PROPOSAL UNWELCOME; NEW ISSUE OVER CAPTIVE CREW

OFFICIALS THINK BERLIN INSINCERE IN ITS OFFER

By Associated Press.

Washington, Feb. 12.—The State Department today made public a memorandum presented by Dr. Paul Ritter, the Swiss minister, acting for Germany, proposing a discussion with the United States over the submarine campaign.

Germany proposes to negotiate for the safety of American shipping, providing the commercial blockade is not interferred with.

The American government has replied that it cannot enter negotiations unless Germany restores the Sussex pledges and withdraws the proclamation of unrestricted submarine warfare.

Officials admitted today that they regard the offer as an attempt to becloud the issue and weaken the government's position. They regard it as somewhat strange that Germany now should show a willingness to negotiate on a subject she put into effect without discussion with the country or any attempt to give the American viewpoint consideration.

Gerard And Americans Suffer Many Indignities

By Associated Press

Zurich, Switzerland, Feb. 11 via Paris, Feb. 12.—Most of the members of Ambassador Gerard's large party gave a genuine sigh of relief this afternoon when the Swiss border was reached, for the strain of the last few days had told more or less on the majority of the travellers.

Ambassador Gerard met cordially the horde of newspaper men who crowded about him at his arrival at Zurich, clamoring for interviews for newspapers all over the civilized world, but he kept rigidly to his determination not to speak for publication until after he had reported to President Wilson in Washington.

The strain of the situation for the Americans in Berlin had been heightened toward the end by the efforts of the German authorities to induce Mr. Gerard to open negotiations for an amendment to the Prussian-American treaty of 1799.

At the same time the German newspapers were flooded with reports of the seizure of German ships by America and with stories of difficulties and indignities encountered by Count Von Bernstorff.

Ambassador Gerard was refused permission to communicate in cipher with Washington and the authorities ignored all denials of the stories printed in German newspapers. Until an official message through the British embassy made it clear that the stories were false.

Prior to this Ambassador Gerard's telephone wires were cut and his mail and telegraph privileges stopped so that he could not even instruct the American consuls in Germany as to their course in the crisis.

The combined result was petty friction. The foreign office and military officials shifted the responsibility for the jobs from one to another. No American least of all Ambassador Gerard, could obtain any definite information.

It was pointed out to the officials in vain that their measures were only applicable to actual war and that the admiralty self restraint and politeness of the German people with the resultant good record was being jeopardized.

Delay followed delay and one excuse was made after another until Friday night when the foreign office suddenly announced its willingness to permit Mr. Gerard to depart the following day. The names of correspondents and other persons were added to the list but even then petty delays and uncertainties following until after the train was boarded.

Mr. Gerard's farewell was said in a friendly though formal manner. Many Germans were in the throng at the station which consisted partly of Americans who had not received permission to depart on the embassy train and must await the police notice before being allowed to leave.

The fact that it was not generally known that Mr. Gerard was to depart refused the demonstration at the Southern German stations to a minimum of curious crowds. The party was accompanied by two representatives of the foreign office and guarded carefully by men from the secret service. The customs inspection and other examinations at the border were relaxed to a mere formality.

WILL HOLD AMERICANS PRISONERS

GERMANY NOT TO RELEASE SAILORS UNTIL STATUS OF GERMAN CREWS IN THIS COUNTRY HAS BEEN MADE CLEAR

TO MAKE INQUIRY

Agreement to Turn Americans Loose Is Abrogated Until Some Official Declaration Is Received from Washington

By Associated Press

Berlin, Feb. 11 via Sayville Feb. 12.—Foreign secretary Zimmerman today informed the Associated Press that he had requested the Swiss government to make inquiry in Washington regarding the status of the crews of interned German ships in American ports.

Pending an answer to the 12 American cases taken by the German raiders and brought into the Narrowsburg whose release has been agreed to and being held in Germany, the foreign secretary stated.

During the past week recurring rumors have reached Berlin by way of London in which it was asserted that the United States had suspended the German visas and interned their crews. No definite official declaration having been received the government was prompted to ask the government of Switzerland to obtain specific information.

We could not consent to the release of the Yarrowdale prisoners which was taken to be agreed to a week ago. The release of the Yarrowdale prisoners was agreed to with Ambassador Gerard on the eve of the break in relations but the possibilities of the German crews being interned in the United States prompted the admiralty to rescind the orders for the release of the American prisoners.

Herr Zimmerman affirmed his previous statement that the Americans now in Germany will be permitted to move about unmolested and be perfectly free to leave the country whenever they desire.

MERCHANT SHIPS ARE FREE TO SAIL

By Associated Press

Washington, Feb. 12.—There are two Italian vessel German ships in American ports. Those interned are war vessels such as the Prinz Eitel Friedrich, Kron Prinz Wilhelm, and such naval vessels as the gunboats Cormoran at Guam, the Geier at Honolulu. The crews of the vessels, as well as the ships, being part of the German naval forces which have taken refuge in neutral harbors, are interned as prisoners for the duration of the war under provisions of international law and The Hague convention. The status of their crews. The merchant ships are not interned in any sense of the word, but are remaining in the harbors of refuge. They are free to put to sea at any time and take their chances with the enemy warships.

CARRANZA ASKS NATIONS NOT TO SHIP TO EUROPE

By Associated Press

Washington, Feb. 12.—General Carranza has sent a note to the United States, Argentina, Brazil and Chile as well as to all other neutral nations, asking them to join in an agreement to prohibit the export from their countries to the warring European nations of foodstuffs and munitions of war.

LITTLE OIL IS FOUND IN JACKSON BOYD WELL

A test of the new sand encountered in the Jackson Boyd well, on the southern edge of the Burkburnett field, was made yesterday. The six foot sand was found to contain some oil but not enough for pumping. Plans were being made today to drill the test still deeper.

NOTABLE PERFORMANCE OF GERMAN SUBMARINE

By Associated Press

Berlin, Feb. 12.—A German submarine has returned from the Atlantic where she sunk ten ships of an aggregate tonnage of 15,000, the Overseas Agency says. In addition she sank in the North Sea a British ship of about 3000 tons, the British trawlers Shamrock and Thistle and two other trawlers, one British and one French.

WANTS GUNS FOR ARMING STEAMSHIPS

FORMAL REQUEST IS MADE TO NAVY DEPARTMENT BY PRESIDENT OF AMERICAN LINE COMPANY THIS MORNING

MAY BE GRANTED

Navy Department Understood to Be Willing to Furnish Guns Instead of Providing Convoys Through German Submarine Zone

By Associated Press

Washington, Feb. 12.—P. A. S. Franklin, president of the International Merchant Marine, today made formal application to the navy department for guns to arm the passenger liners of the American line.

The request states that the company has been unable to find guns elsewhere. It is indicated that the navy department, while opposed for military reasons to the project of arming American merchantmen through the proclaimed submarine zones, favor furnishing such ships with guns for their own defense. The navy department it was stated officially has a considerable number of old model three inch guns and six inch rifles available for arming merchant ships but not enough for all American liners.

Official today were inclined to regard the latest offer of Germany to discuss means of preventing war presented through the Swiss minister Saturday only as an effort to split the United States, the appearance of open belligerents. Officials noted with interest both that the Germans and of neutral ships has sunk to the lowest level since the new campaign was inaugurated.

FEW OF AMERICAN SHIPS IN ATLANTIC

By Associated Press

New York, Feb. 12.—The arrival today of the steamship New York brought the number of American trans-Atlantic passenger ships up to four.

The American liner Kroonland docked here yesterday and the St. Louis and St. Paul of the same line are still at their piers, while their owners await news from Washington in regard to the orders recommended for American shipping.

The Kroonland left Liverpool Jan. 31, the day before the German declaration, and had an uneventful voyage. One day from port she witnessed the destruction of a Dutch freighter by gun fire from the submarine. The crew of the Dutch ship was towed away by the submarine in a life boat.

The Spanish liner Andanta from Liverpool January 31, and the Italian steamer Guiseppe Verdi, from Mediterranean ports, reached their docks here today. The British liner Cedric which sails for Liverpool today with 1,000 passengers will carry 5,000 sacks of mail which have been delayed here for the past week aboard the St. Louis. The New York was the first American ship to leave Liverpool after Germany's war zone decree went into effect. She passed through the danger zone without passing war craft of any kind, her officers said.

The fourth ship under the American flag to sail from this port for a European destination since Germany's renewal of unrestricted submarine warfare, got away last night. She was the freighter Owego bound for Genoa. Her master and many of the crew are American.

SOME GERMAN CONSULS GO TO LATIN AMERICA

By Associated Press

Washington, Feb. 12.—Not all the German consuls who were relieved from further duty with the breaking out of diplomatic relations between the United States and Germany will accompany Count Von Bernstorff out of the country. It is learned that a number have been instructed by the German government to depart from their former posts to points in South and Central America.

VILLA FORCES ONLY 26 MILES SOUTH OF LINE

By Associated Press

Columbus, Feb. 12.—Villa troops have occupied Twin Windmills, 26 miles south of the border line gate and an intermediary base on the communication trail to Colonia Dublan, according to Carranza customs officials here. A Villa drive toward the border was reported from western Chihuahua.

A. & M. Bill Up In Senate; Much Opposition Voiced

By Associated Press

Austin, Tex., Feb. 12.—The West Texas A. & M. bill was favorably passed by the senate committee in the Senate late morning. When the Senate recessed at noon, until 2 o'clock no action had been taken on the measure which had been under discussion for two hours. Discussion was resumed at 2 o'clock.

The bill provides for a branch A. & M. college to be built at Stephensville, which has been offered to the state, has resulted in considerable opposition to the Metcalfe bill in the Senate and its passage was considered doubtful.

The House went into an uproar today when an amendment was introduced to the anti-race track bill which would allow members of the legislature to ride on passes. In addition it would allow the governor thirteen members of the board of regents of the University of Texas and the A. & M. college and the governing boards of other institutions also to ride on passes.

When the proper question had been ordered and a vote taken after an effort to strike out the enacting clause the vote was 76 ayes and 35 noes and the bill was passed to engross.

A bill was introduced today by Senator Cullmore providing for the creation of a state board and department of charities and corrections to be composed of three members without salaries.

The third public utilities bill to be introduced this session in the Senate was presented today to Senator Robbins of Athens. The Robbins bill changes the name of the railroad commission to "railroad and public utilities commission."

The House today refused to adopt the Martin resolution which called on the secretary to consider the German Americans of the United States before taking any further steps toward a declaration of war.

The Senate passed finally before the Senate bill by Dayton amending the law providing for county jail fees. This is the bill which makes effective the law and is recommended by the Texas State Labor Journal.

Senator Gulpeth today had recommended the bill for relief of railroads giving them more time in which to complete extensions.

DOCTOR SHOT BY STATE EMPLOYE

BRYAN PHYSICIAN PROBABLY FATALLY WOUNDED AT SAN ANTONIO

REASON NOT KNOWN

"He Abused My Confidence" Says Assailant; Victims Wife Was Near When Shot

By Associated Press

San Antonio, Tex., Feb. 12.—Dr. Emery of Bryan, Texas, was fatally shot and perhaps fatally wounded at noon today in the corridor of the train shed of the Texas Central & Great Northern depot. Dr. Webster was arrested and is being held on a temporary charge of assault to murder. Webster is a clerk in the controller's office at Austin.

The shooting occurred as Dr. and Mrs. Emery were walking from the train on which they had arrived in San Antonio through the train shed to the depot. Apparently neither Dr. nor Mrs. Emory saw the man who did the shooting.

"He abused my confidence," said Webster, at the police station.

DR. EMORY HAD BEEN WEBSTER'S PHYSICIAN

By Associated Press

Bryan, Texas, Feb. 12.—Dr. Emory who was shot in San Antonio today and probably fatally wounded, was a prominent physician here. He had left Bryan last night with Mrs. Emory friends here say they do not know what could have caused the shooting. Dr. Emory had been the Webster family physician.

WAR CREDIT OF OVER 2 BILLION DOLLARS ASKED

By Associated Press

London, Feb. 12.—The House of Commons will be occupied this week with financial affairs. The feature of today's program was the introduction of two new notes of credit aggregating seventeen pounds sterling.

INTEREST IN MEETING OF LIBRARY ASSOCIATION

Much interest centers in the business session of the Library association called for Thursday afternoon at 2:30 at the home of Mrs. C. W. Snider, president of the association, and she and the other officers are especially anxious that each delegate from the study and mothers club be present.

There seems to be some slight misunderstanding as to just who are members of the association and the president asks that it be announced so as to remove the doubt. Each study club has two appointed delegates, as have the mothers clubs and the churches have been asked to name delegates. The clubs are asked to see that their delegates are in attendance.

JURY IS BEING CHOSEN IN HARVEY HUGHES CASE

Examination of veniremen in the case of Harvey Hughes, charged with killing Matt Shelby, another negro on Christmas night in a fatal stabbing affray in the Capitol Saloon commenced this afternoon in the 30th district court but up to 3 o'clock no jurors had been secured. Lesley Humphries, district attorney and John Davenport, assistant county attorney are representing the state, and Martin A. O'Neal are representing the defendant.

SUSPECT CONFESSES TO SLAYING OF LITTLE GIRL

By Associated Press

Ord, Neb., Feb. 12.—Louis Kamerad, suspected of the murder of little Alice Barkof and who has been held in the county jail, has confessed his guilt after severe questioning, officers say. He was rushed out of town to avoid mob violence.

13 ARE MISSING IN HOTEL FIRE

SPECTACULAR BLAZE AT MINNEAPOLIS KNOWN TO HAVE CALLED DEATHS

SEARCHING IN RUINS

Fire Starts in Basement and Quickly Envelops Entire Structure

By Associated Press

Minneapolis, Minn., Feb. 12.—Thirteen persons are known to have been killed and a score injured in the fire which destroyed the Lumber Exchange building here early today. Police officials are searching the ruins for more victims.

The fire started in the basement and quickly enveloped the entire structure. Many of the occupants were trapped in the upper stories and were forced to jump to the pavement below. Others were rescued by firemen who climbed ladders to the upper windows.

FALLING OFF OF U-BOAT VICTIMS

ONLY ONE LARGE STEAMER REPORTED SUNK IN TODAY'S SUMMARY

NEW BRITISH GAINS

Ground Reported Taken Along Somme Front; Several Raids Are Made by French

The Associated Press summary of European war operations says as follows:

During the coming and going of ships today and one large vessel was reported a victim of the new German submarine campaign—the British steamer Netherlee. Two small steamers brought the total tonnage to loss for the period.

In the field of land operations the British are pushing ahead on the Somme front, according to their latest report which recorded a gain of ground along a front of more than three quarters of a mile north of Pozieres. Heavy fighting on the Ancre also is on. The French on their western front have continued their successful raiding operations several of which are reported by Paris to have resulted successfully.

Outpost attacks and surprises of forts in comparatively small areas are the only events along the line slain front recorded in official statements.

PLANS FOR REMODELLING KAHN BUILDING PREPARED

Plans for the remodelling of the Kahn building at Eighth and Indiana are now being prepared at the office of Staderie & Field with a view of letting the contract in the near future. The building is to be materially changed, both interior and exterior, and when the improvements are completed it will be one of the handsomest corners in the city. The special needs of the two new tenants, the Art Jewelry company on the corner and the Woolworth store on the north side, will be met by the plans.

FIRST ISSUE OF FORMERS' UNION ORGAN PUBLISHED

The first issue of the Farm Labor, the official organ of the Wichita Valley District Farmers' Union has been received here. It is published at Haskell, and George E. Courtney district secretary is the editor. The first issue contains quite a quantity of interesting matter and information for the members. The Wichita Valley district has about a third of the entire membership of the Union in Texas and comprises 24 counties in West Texas, Northwest Texas and the lower Panhandle.

SCHOOL BILL EXPECTED TO BECOME LAW VERY SOON

Action by the Texas Senate on the new Wichita Falls school law is expected this week and before the end of March the bill is expected to be signed and put into effect. It passed the House last week and will probably come up Thursday or Friday in the Senate, where it is expected to pass promptly. As the measure carries the emergency clause it will be in full force and effect as soon as passed but will not help the school finances until next year, as the assessments for the current year have already been made.

IMPORTS FROM DANISH ISLANDS INCREASE MUCH

By Associated Press

New York, Feb. 12.—The importance of the recently acquired Danish West Indies as a land of export to American consumers is shown in figures made public here by Dudley Field Malone, collector of customs, covering imports through New York last month as compared with those in January totalled $195,4— against $201 in the previous January. The increase was greater that that shown on imports from any other part of the world.

GETTYSBURG SPEECH IS READ TO CONGRESSMEN

By Associated Press

Washington, Feb. 12.—The national capital today joined in the nation wide celebration of Lincoln's birth. Appropriate exercises were held in Congress and in public schools. In the House the program included the reading of the Gettysburg address by Representative Russell.

NEW MOTOR COMPANY CHARTERED AT AUSTIN

Special to The Times

Austin, Tex., Feb. 12.—The Wichita Motor company was chartered at Austin today with a capital stock of $25,000 by W. H. Cobb, J. M. McFall, F. H. Cobbe and Marvin Smith.

WATSON FORGERY TRIAL UNDER WAY

Son of Man Who Killed Brother Commissioner Faces Jury at Fairfield

By Associated Press

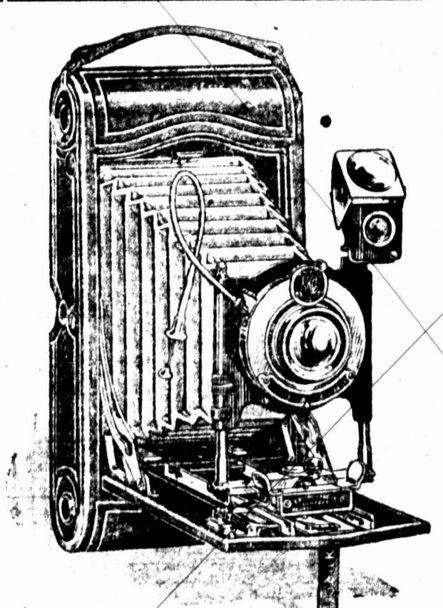

Waco, Tex., Feb. 12.—The trial of Ben Watson, son of Ben Watson, who killed his brother, Commissioner Frank Watson, in the latter's office here several years ago, was called in the district court here this morning. Judge Reuben Reese is presiding. Watson is charged with forgery in connection with the alleged forging of the name of Mrs. Frank Watson to a note for $1,000 which he had discounted at the First National bank here. Watson is represented by Attorneys Sleeper & Sleeper and Ben Critz. Attorneys Lon Harris and Ben Gibbs are assisting the district attorney in the prosecution.

BRIDGE LOCATION BEING CONTESTED

Electra Asks Location at Point Nearest Center of Population

By Associated Press

Austin, Tex., Feb. 12.—The application of the Wichita Falls & Northwestern railroad for a bridge across the Red river at Electra was heard by the railroad commission today. The bridge is to be located at the point where the railroad crosses the river. Electra asks that the bridge be located at a point nearer the center of population of that city.

WORLD'S NEED OF SAVIOR IS TOLD

"WE WOULD SEE JESUS" IS CHRISTIAN REVIVAL SUBJECT SUNDAY NIGHT

SERVICE EXPLAINED

Speaker Says Church Cannot Do Best Work By Keeping Closed Six Days in Week

The age long cry of the world "We would see Jesus" was the subject of the sermon last night by Dr. Percy G. Cross, who is conducting the revival at the First Christian Church. Dr. Cross gave a number of reasons why humankind earnestly desires to see Jesus and then outlined a number of ways in which gratification of this desire may be obtained.

"It is an age long cry," he said, "every heart has at some time or another voiced it. The sinner and the skeptic alike have had that yearning in their hearts. Why? Because He alone can answer the requirements of all kinds of men. Years before Christ was on earth, the Greek philosopher, Plato wrote of the world's need for a God inspired man who shall show us our duty and take away the darkness from our eyes."

"Christ stood at the conflux of three civilizations," Dr. Cross continued, "the Hebrew, the Roman and the Greek. He partook of all, yet He belonged not to any one. His was a vision that saw through the barriers of race and government. Why are the men of Europe hacking at each others' throats today and pouring out their hearts' blood on the battlefield? Because one man is a Hun, another is a dago, another is a Britisher, another is a French man, another is a Slav or a Serb. They lack the vision that Christ had and when that great vision really comes into the church, the walls that enclose us now will fall, and we will see eye to eye with Christ. God hasten that day."

Another reason why the world yearns to see Jesus, the speaker continued, lay in the fact that He possessed the admirable traits that distinguished each of the great Bible characters. He went on to speak of Christ as a greater leader than Moses, possessed of greater faith than Abraham, of more patience than Job, more enthusiasm than Paul, deeper love than John. Another reason, Dr. Cross continued, is that Christ was the sinless One, offering a challenge to every other creed, "He alone can save from sin."

Taking up the means by which mankind may see Jesus, Dr. Cross said:

"First you must make much of this book, the Bible. It has the real education of life. You may be possessed of knowledge in mathmatics, science, music, all the arts, yet if you do not know this Book you are an ignoramus. You must make much of prayer, praying alone in your secret chamber, you must make much of Christian fellowship, and of friendship with your fellow man. Fellowship can mean a great deal, and it doesn't mean silly society stunts. It doesn't mean card parties and things like that. Christian fellowship means the blood brotherhood of Jesus Christ and in the light of all that fraternal orders of the day are as a candle beneath the noon day sun.

"You can read of the tremendous growth of fraternal orders during the nineteenth century, and it was a remarkable growth. Do you know why? Because the church failed in its duty to the widow and the orphan and the lodge has taken care of these. The church that does not care for those in affliction and need is a religious club, nothing more.

"You have 101 traps of death in Wichita Falls and yet your church is locked up six days in the week. From ten o'clock Sunday night until nine o'clock the next Sunday morning, except maybe for prayer meeting, the church is no service whatever and all the chance that it has to serve is neglected. Some preachers and some church members are going to have to answer to God for the lives that they let slip. You're keeping the church plant idle nearly all of the time, and lots of the boys and girls are going to hell as a result."

The man who would see Jesus must work and finally he must obey, Dr. Cross said in conclusion. He gave instances of how becoming a worker in the church had made real Christians out of men and women who would have been indifferent, at best, had they not been employed.

A duet by Miss Agnew and John W. Bradley was among the several enjoyable musical features of last night's service. "The Begging of God" was the subject at the morning service. Both sermons were heard by large crowds.

Tonight Dr. Cross will preach on "Seven Things God Cannot Do." He is planning a special mothers' service Friday night.

The Leading Musicians of the City Proclaim the Sonora as the Highest in Tone Quality

A number of Wichita Falls' most competent musicians have given this as their unqualified opinion after hearing other talking machines and phonographs, and listening to the **SONORA.** Their verdict is confirmed by the Panama-Pacific International Exposition, in which the **SONORA** won the world's leadership in competition with every type of machine. Hearing is conviction. Drop in and hear the **SONORA,** and you will stay to listen with growing wonder and pleasure. You will enjoy its deep, rich, mellow tone, that no other talking machine has.

It is our pleasure to demonstrate this **wonderful and matchless instrument.**

THE SONORA IS MADE IN TEN SUPERB MODELS, RANGING IN PRICE FROM $45.00 to $1,000.00. SOLD ON EASY MONTHLY PAYMENTS.

LAST OF LAYMEN'S ADDRESSES HEARD

H. L. Hunter Speaks at the M. E. Church on "Why I Should Join the Church."

"Why I Should Join the Church" was the subject of H. L. Hunter at the First M. E. Church Sunday night, this being the last in the series of laymen's talks at this house of worship. Mr. Hunter, who is an active worker in the M. E. Church, told of the benefits that had come from the series, and advanced some forceful reasons for church membership. He said in part:

A good many reasons might be assigned as answers to this very important question and if I were to select only one of the many it would very naturally be one in which I could cite a personal advantage to be gained and in this I would doubtless only express a common reason. We are too selfish in religious matters, as we are often prone to be in business and too many of us join the church for the "loaves and fishes" and when the food supply is exhausted we become discouraged and think that the supply of "quail and manna" should be continuous, having been led to believe early in our religious career that salvation was free and these were legitimate attachments.

The selfish nature exerts itself early in Christian life as it does in worldly affairs unless the individual adheres very closely to the golden rule. If this is done he will try to be helpful to others while he is being helped. Church membership cannot fail in this respect if we keep this in mind. To be benefitted spiritually, socially and in worldly affairs through church membership is worthy of attainment but I want to treat these three subdivisions of the one reason which are more or less selfish with other reasons having a broader scope in purpose as "no man liveth unto himself and no man dieth unto himself."

This statement implies that a man cannot successfully live the Christian life as a recluse that he must live for others as well as himself. In the discussion of the value of churches to Wichita Falls by Mr. Johnson, secretary of the Chamber of Commerce, he laid particular emphasis on the number of beautiful church edifices and the splendid congregations as a potent factor in the development of the city and by reason of these factors many of our present population had been induced to become citizens.

Beautifully constructed buildings do not constitute churches, but rather the converted, consecrated men and women "who have washed their robes and made them white in the blood of the lamb" and such men and women as Peter referred to as being "added to the church daily such as should be saved" and who have associated themselves into societies called "churches." Were it not for the fact that these societies have been formed of the men and women possessing these qualifications and ample provision made for places in which these could worship, "and none dare hinder or make afraid," and where others are continually being invited to enter the broader sphere of life, our citizenship would be one of which we would not feel proud to mention. Through the sacrifices of time and money we speak of our churches with pride, because others have been helped and made to feel glad. To be helpful to others is a reason why I should join the church.

It was a regret that Mr. Donnell could not speak on the topic "Why do I Need the Church" as it opens up a field for thought full of interest, and without attempting to usurp anything he might have said on the topic I simply state that my individual need of the church is that it supplies my spiritual nature with "seasons of refreshing in the presence of the Lord" and where we can renew our spiritual strength from day to day through the grace given us, so "that we may run and not grow weary and that we may walk and not grow faint." Another selfish reason why I should join the church.

In discussing the topic "Why Should I go to Church" Judge Martin very beautifully and feelingly set forth many reasons among which was that it is a place where good people meet for the worship of Almighty God and the influences radiating from such places were conducive to Christian living. If such influences are radiated from these places and men are helped thereby to be better citizens if not better Christians then it seems to me only a service I should render and another reason why I should join the church.

Judge R. E. Huff reviewed some of the gains to be had from the church, both as individuals and as a city and in the discussion of his topic as well as others who addressed us on other topics which I have referred to, the paramount thought in each of these addresses was that without the church, our civilization would not be worth while. This is generally admitted to be true, hence the conclusion that it is the duty at least of all men and women to join the church who profess to be followers of the meek and lowly Nazarene in only that others may be helped to lead the better life and realize what the Saviour of men meant when he said "inasmuch as ye did it unto one of the least of these my brethren ye did it unto me." Helping to make civilization better is a duty incumbent on every good citizen, more especially Christians and this I assign as another reason why I should join the church.

"Why Should I Become a Christian" was treated in a clear and concise address by Mr. Reid and while many reasons could be assigned, my belief is that too many people have the wrong conception of Christianity and become Christians primarily with the thought of escaping future punishment, rather than of enjoying future happiness. To be good and true is a duty incumbent on all men everywhere and church membership as generally understood means that the individual is at least a good man. But he should be more. He should not only be good but should be willing to serve and help others to be good. He should be able to give a reason for the hope that is within him and willing to confess that whereas he was once dead in trespasses and sin, he is now alive unto God and lives to serve, rather than be ministered unto.

Men should not join the church with the thought that it is a convenient route to Heaven or flowery beds of ease, for they are certain to be disappointed and find that those who secure the abundant entrance will be those who have come up through trials and the sustaining grace vouchsafed to us by the Saviour of men.

I would not deny that it is possible for a man or woman to live the Christian life outside the pale of the church, but to say the least of it it is not advisable to attempt it. "By their fruits shall ye know them." I should join the church because it is a safe thing to do. I should join the church because it is a sane thing to do. If I might be permitted to condense all I have said on this topic into one sentence as a reason why I should join the church it would be "to get good, be good and do good."

PLANS FOR ESTABLISHING NATIONAL HOME FOR LEPERS

By Associated Press.

Washington, Feb. 12.—President Wilson has signed the act establishing a national home for lepers and the public health service is drafting regulations covering the apprehension, treatment and detention of inmates. The location of the home has not been determined upon.

FARM AGENTS WILL INSPECT DAIRIES

Meeting February 22-23 to Devote Much Time to Milk and Butter Industry Development

The development of the dairying industry in Northwest Texas is expected to figure extensively in the discussions by the agricultural agents of Northwest Texas who will hold their annual meeting here February 22 and 23. Several speakers will talk on dairying questions and problems and a visit to the dairy plants of J. A. Kemp, B. B. Woodall and others in this section will be a feature of the meeting. The inspection trip will be made in automobiles furnished by the Chamber of Commerce. The completed program follows:

First Day.

Opening at 9 a. m. sharp. Roll call. Remarks by chairman, William Ganzer of Denton.

Welcome address—R. E. Huff, president of Chamber of Commerce.

Response by Hon. T. O. Walton, assistant to director, extension service.

"My Experience in Organization Work and How to Profit by It"—N. R. Tisdal, Vernon.

"How the Terrace Work Helps to Conserve Moisture, Increases Fertility and Greater Yield"—Sam Williams, Memphis.

Ten minutes recess.

"Farm Dairying"—G. L. Crawford.

"How I Combine Animal Husbandry Work with Demonstration Work in Childress County"—H. H. Holtzclaw.

"Results of my General Demonstration and Stock Farming Work in Wichita County"—J. W. Campbell.

Dinner.

"How I work and Organize Club Work with the Young People and Schools in Tarrant County"—W. R. Nisbet, Fort Worth.

"Boys' Club work Discussion led by C. C. French, College Station.

Home Canning and Girl's Club work—Miss Shackelford.

Address by O. B. Martin, Washington.

"What the Demonstration work has done for the South in the past and what we can expect from it in the Future"—W. D. Bentley, Washington.

"How to Make a Survey and Map out the Different Activities in my County"—H. M. Means, Fort Worth.

Ten minutes recess.

"How to Care for an Orchard and Combat Insects and Fungus Diseases"—M. E. Hays, College Station.

By invitation of Chamber of Commerce auto rides over Wichita Falls to visit modern sanitary dairy plants, etc.

Second Day.

Meeting called to order at 8:30 a. m. Roll call.

"How I Systematized my work in Lubbock County"—R. O. Tackett, Lubbock.

"My Experience in the Demonstration Work and how to Apply it in Donley County"—L. A. Kennedy, Clarendon.

"Dairy Industry and Care of Dairy Cows to get Best Results"—R. L. Pou, College Station.

Ten minutes recess.

"Enlisting Cooperation of Business Men"—A. T. Chaney, Mineral Wells.

"Crop Planning and the Cotton Situation in the South for 1917"—Col. Clarence Ousley.

"Sweet Potato Warehouses"—Dr. R. M. Harkey.

Dinner.

"What the Demonstration work is Doing for the Farmers and Boys in Collingsworth County"—L. T. Hunter, Wellington.

"The Beneficial Results on Land from Planting Legume Crops"—E. Gentry, district agent.

"How I Systematize my Demonstration work in Baylor County"—J. T. Egan, Seymour.

"What is the Aim of the Boys' Club work in Texas"—H. H. Williamson, College Station.

"How I Succeeded in my work in cooperation with the Business People and the Stock Farmers in my Four Counties"—Harmon Benton, Amarillo.

"Organizing work in Four Counties"—W. M. Midkiff, Dalhart.

Short addresses by the other district agents present.

GERMANY NOW USING ROUMANIAN SUPPLIES

By Associated Press.

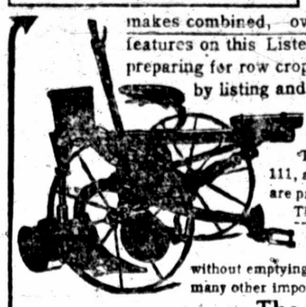

Berlin, Feb. 12.—Enormous amounts of supplies captured in Roumania are now being transported to Germany, Austria and Hungary, says the Overseas News Agency. More than 400 steamships and 2700 tugs are carrying corn, wood, leather and other war materials up the Danube. There also is heavy traffic down the river, notwithstanding the fog and flood. The river is used extensively for the transportation of troops.

75 YEARS OF KNOWING HOW 1842 P & O 1917 BACKED BY AN UNQUALIFIED GUARANTEE

The P. & O. No. 111 Lister

This lister is known to farmers wherever sold as P. & O. No. 11, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined, over 2,000 sold by one dealer in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy loam lands of the West. The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel coverers. This Lister embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

We manufacture the most complete line of Two Row Implements on the market. Ask your dealer and if you cannot be supplied through him, write us for circular and special introductory offer.

DALLAS, TEXAS

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whittaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 68

At the Theaters

The Gem.

A western story of somewhat unusual type is "The Bad Man of Cheyenne" in which Hrry Carey, Universal actor famed for the portrayal of western parts, is featured at the Gem today. A beautiful collie plays a part only second in importance to that of Mr. Carey and there is also a juvenile actress who plays her small part charminyly in the well written, directed and acted story.

The Majestic.

The conjunction of two favorite stars gives brilliancy to the new Triangle-Fine Arts feature, "The "Microscope Mystery" which will be shown at the Majestic today with Wlifred Lucas and Constance Talmadge in the leading roles. The kind of a screen play that a Poe or a Conan Doyle would enjoy having written is unfolded in this unusual drama. Lucas whose work in "Rummy" and "Hell to Pay Austin" is remembered with joy, takes the part of a whimsical country doctor who solves an absorbing murder mystery with the aid of a microscope and thus clears an innocent girl, to whom the circumstances seem to point unmistakably. Miss Talmadge lends her well known sincerity and charm to the girl's part.

BELL-ANS

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

CARLYLE BLACKWELL AT EMPRESS TUESDAY

Despite the unpleasantness of his surroundings in prison, Ford (Carlyle Blackwell) conducts himself bravely and manfully. In defending an old negro against the brutality of the guard, he incurs the enmity of that official and in revenge the guard has him whipped by the negro Sampson. This is merely one of the many incivilities the hero is submitted to in "Broken Chains" after being sent to prison for a crime he never committed. Ethel Clayton who plays the trusting and lovable heroine, has always been a big favorite at the Empress where this feature will be shown Tuesday.

EMPRESS THEATER

TODAY

MAE MURRAY

—IN—

"THE PLOW GIRL"

The most brilliant work which even the versatile Mae Murray has done on the screen is that which she gives her audience in her splendid presentation of an English girl who has been forced into slavery by a brutal Boer farmer.

Among the many menial duties which she is compelled to perform there is the driving of the oxen in the fields during the plowing season.

The story itself is a powerful one which carries the spectator from the broad, South African veldts to the drawing rooms of the most aristocratic of British social leaders. In it Miss Murray has excelled the notable work which she did in "To Have and To Hold," "The Dream Girl," Sweet Kitty Bellairs" and "The Big Sister."

5c and 10c—PRICES—5c and 10c.

TOMORROW

CARLYLE BLACKWELL

AND

ETHEL CLAYTON

—IN—

"Broken Chains"

These two stars have never appeared to such good advantage as they do in the unfolding of the master plot of this story. Almost every scene from start to finish holds an unexpected thrill, and the final denouement is as welcome as it is unexpected.

5c and 10c—Prices—5c and 10c

RECIPE FOR FRUIT PUDDING

By Miss Lucile Doke

One cup of pecans, chopped, one cup of raisins, one cup of prunes, one cup of sugar, two egg whites. Cook prunes and raisins until tender, remove seeds and mash to pulp, add chopped nuts and sugar, folding in beaten egg whites. Brown in oven and serve with whipped cream.

U. D. C. MEETS WITH MRS. R. L. MILLER

Meeting in regular monthly session the United Daughters of Confederacy Chapter W. R. Scurry, Saturday held a most interesting meeting with Mrs. R. L. Miller. Following the business session a round table discussion of the early land grants and settlements of Georgia was held and two papers were given: "Indian Affairs, Mrs. M. M. Gaffney; "Georgia During the Confederacy," Mrs. J. L. Jackson. Mrs. Mary Ligon Christenson of Houston, formerly member of the local chapter was a guest and told very interestingly of the work of the Robert E. Lee Chapter, the Houston organization which is one of the most active chapters of the state. A social time was enjoyed, the hostess serving a tempting refreshment course to: Mesdames Christensen and Youngblood, guests; Mesdames Anderson, W. C. Bell, W. P. Polding, Carter, Gaffney, Jackson, D. J. Carithers, Malone, Miller, MsElroy, Peery, Pogenpohl, Stone, Wiley Robertson and Misses Young and Cobb, members.

MISS CRAIG HOSTESS TO SENIOR DINNER SATURDAY

Miss Katherine Craig was hostess to a dinner party at the St. James Hotel Saturday evening following the performance of "Macbeth" at the Wichita Theatre, her guests being the members of the senior class who had made up a party to attend the Shakespearean perfarmance. Miss Craig had as guests of honor, Mr. Kellerd, leading man and Miss Georgianna Wilson his leading lady in Saturday's performance. Covers were laid for 37 and an elaborate five course menu was served. The affair was characterized as one of the most enjoyable hospitalities of the year for a class that has been much entertained.

The party was chaperoned by Mr. and Mrs. John Craig, mother and father of the hostess, Mr. and Mrs. Bert E. McGlammery and Miss Day and included the following seniors: Myrtle Morris, Coyla Shoemaker, Lester Leucke, Lodelle Haynes, Jewell Hale, Eunice Musgraves, Goldie and Aileen Alverson, Gladys Wilson, Patsy Lou Koonce, Irene Danielson, Mary Sypert Clark, Dollie Hull, Henry Akin, Alfred Burnside, Ruth McKenzie, Alice Bonner, Blanche Erwin, Fitz Hickman, Florence Tyson, Estelle Friberg, Beulah Walker, Henry Davis, Margaret Burnside, Lucile Henderson, Louise Leicham, Patsy Lou Koonce, Charles Williams.

MESDAMES BEAN AND MOORE CONCLUDE SERIES SATURDAY

Saturday found the society bridge players partaking of the hospitality of the B. J. Bean home on Tenth street, the charming mistress being hostess jointly with Mrs. Mark Moore, both well versed in the art of entertaining. The close at hand Valentine time of hearts and cupids and tender verses was paid tribute to in the decorations with the floral touch added by vases and baskets of carnations in rose, crimson and white. The lights were veiled in clouds of maline caught with hearts in the varying shades and rose pink ribbons and wherever consistent with beauty and taste the Valentine touch was observed. The refreshment sandwiches in heart shape, pink ice cream, moulded in hearts made the refreshment plate exceptionally attractive, the menu including the sandwich course with olives, mints and coffee and the ice with cake. The prize for top score, a dainty camisole was won by Mrs. T. T. Reese, the low score favor, a hand made combing jacket fell to Mrs. T. J. Leicham and the cut prize, a cut crystal flower basket went to Mrs. Wade Walker. The players included: Mesdames Kahn, H. A. Allen, Harry Cravens, Dent, Walter Robertson, S. H. Burnside, Dunn of Fort Worth, T. B. Smith, Thorburn, Maupin, Montgomery, Darnell, Wiley Blair, Carver, W. B. Shepherd, Eugene Sherrod, Frank Griffin, T. B. Smock, Morris Marcus, Abe Marcus, Marchman, Fred Gates, Harry Weeks, O. E. Maer, T. T. Reese, R. H. Delaney, Claude Woods, W. M. McGregor, Waller, Fred Weeks, Harry Baum, Newton Maer, Merrill, T. B. Smith, C. H. Scott, Larkin, Cohen, Straus, Loeb, T. W. Roberts, R. L. Taylor, Whitney, Staniforth, Fred Couper, M. M. Walter, T. J. Liechham, Curtis of Denver, Cunningham of Henrietta, Misses Carrie Dent, Nira Dent of Chicago, Willie Mae Kell and Kathleen Stonecipher.

GLASS FACTORY NOT TO MOVE FROM HENRIETTA

Henrietta will not lose the glass factory recently established there, rumors that it would seek another location on account of the gas situation being unfounded. The factory had planned to resume operations within a few weeks, but owing to difficulty in obtaining soda ash, a necessary element in the manufacture of glass, the reopening will be delayed for some months. The management of the plant announces that it has no intention of moving from Henrietta.

MAN IS WOUNDED, WOMAN PRISONER

TWO MEN SOUGHT BY OFFICERS FOLLOWING SUNDAY AFTERNOON SHOOTING

NOT SERIOUSLY HURT

Shooting Takes Place at Hotel. Young Woman Held, But Two Men Make Escape

Mike Murphy, brakeman, was wounded in the right side of the neck Sunday afternoon in his room at the Arlington hotel by a 22 revolver in the hands of Emmet Puryear, repairer of sewing machines who was staying at the same hotel.

The shooting, according to the proprietress of the hotel was the result of a dispute between Murphy and a woman, Kathleen Cnaddick, the woman going to Murphy's room and accusing him of "snitching" on her and calling him a coward and other epithets. Murphy thereupon ordered the woman out of the room, whereupon Puryear made his appearance and took a hand in the dispute which resulted in the shooting a moment later. Murphy was only slightly wounded. He was taken to the General Hospital and the wound probed but the bullet was not recovered. Last night, however he was able to eat supper as usual and this morning had returned to the hotel.

Immediately after the shooting the actors in the scene began to put in mysterious disappearances in a fasion to rival a ten cent thriller. Puryear, who did the shooting, ran down Seventh street to the Denver yards, followed by Linn Hawkins, son of Sheriff Hawkins and a playmate named Hagel, who saw him catch a northbound Denver freight. He has not yet been apprehended. T. O. Crawford, roommate and companion of Puryear, and the woman were not far behind Puryear, leaving the Arlington and going to the Marion hotel. Here the woman was soon apprehended by Deputy Sheriff Bob McFall, who was not far behind them, but Crawford has not been seen since he entered the hotel and like Puryear is still at large.

A charge of attempt to murder has been lodged against the woman, who is in the county jail and who stoutly maintains that she knows nothing of the shooting affair. Deputy Sheriffs Bob McFall and Ed Carnes and City Officer Lenley Humphris went to the Arlington on being phoned by Linn Hawkins who heard the shots, but too late to catch either of the men. According to the hotel people Murphy has been here some time, coming here from Gainesville. He works as an extra brakeman for the Wichita Valley. Crawford, Puryear and the woman came from Abilene, about a week ago. Although they appeared to know each other, they did not seem to be together, the woman making her appearance about two days after the men. Both men repaired sewing machines.

The men were on the point of leaving for Stamford when the shooting occurred, their trunks having been moved down to the hall for removal from the hotel.

Before leaving, the leaves of the register on which their names appeared were removed by members of the party.

HIGH SCHOOL PUPILS TO BE INSPECTED

Medical and Dental Work Finished in Other Schools—Doctors Do Much Free Work

When the inspection of high school students commences this week the last lap of the medical inspection of the Wichita Falls public schools will be under way, dental and medical inspection having been finished in all but the high schools. Several of the classes of the high school have completed their inspection at the hands of the dentists and Lee Clark, superintendent of the city schools reports results of both inspections as very satisfactory from every standpoint.

The work of the dentists and physicians in giving their time free for the examinations was especially commended by Mr. Clark, who also stated that the movement has met in the most part with a gratifying response from the parents, who realize the important part good health plays in the life of their children.

There have been countless numbers of minor corrective operations performed on students as a result of these examinations as well as treatments given where defects were only slight and easily remedied, in numerous instances these operations have been performed free where the parents were not able to bear the expense and some of the patients have even received free hospital treatment.

Defects ranged from slight ear, eye, nose or throat trouble to spinal curvature and other diseases of more serious nature. Some mouth malformations were found by the dentists as well as numerous cases of decayed teeth causing headaches, bad eyesight and similar annoyances to detract from the general efficiency of the students.

The handicap under which the medical inspection has been placed this year, that of having the students go to the offices of the examining physicians will be removed next year it is hoped by Mr. Clark and the school board, as it is planned, if possible to establish clinics at each school and have one physician, paid by the board examine the student body. The physicians have done a splendid work in the examinations this year, giving up a large part of their time for which they received no compensation, Mr. Clark says, but it is more than should be asked of them, if it is possible for the board to pay for the inspection. In connection with the medical inspection a permanent dental clinic would be established. The dental inspections have been made at the school buildings this year, unlike those of the physicians, but the dentists services too have been gratis.

DOES RHEUMATISM BOTHER YOU?

Many Doctors Use Musterole

So many sufferers have found relief in Musterole that you ought to buy a small jar and try it.

Just spread it on with the fingers. Rub it in. First you feel a gentle glow, then a delicious, cooling comfort. Musterole routs the twinges, loosens up stiffened joints and muscles.

Musterole is a clean, white ointment, made with oil of mustard. It penetrates to the seat of pain and drives it away, but does not blister the tenderest skin.

It takes the place of the mussy, old fashioned mustard plaster.

Musterole is recommended for bronchitis, croup, asthma, pleurisy, lumbago, neuralgia, sprains, bruises, stiff neck, headache and colds of the chest (it often prevents pneumonia).

CONTRACTING OIL AT $2 PER BARREL

Deals Now Being Made at Flat Rate —Possible Effects of War on Market

While oil men in Northwest Texas and elsewhere are somewhat puzzled over the effect of the German crisis and the possible war upon oil prices, a number of production owners in this section are viewing the situation complacently as a result of twelve month contracts recently closed with some of the big companies, at the flat rate of two dollars per barrel.

Oil has already been selling at two dollars and more per barrel, as some producers and royalty owners have been receiving premiums above the market price, which has been $1.70 per barrel for the past month. These premium prices, of course, vary as the posted price varies, but the two dollar contracts will be independent of the posted market and the price will stand even if the general market should experience another rapid decline as it did last year. A comparatively small amount of Northwest Texas oil is being run at the posted market price, it is believed, most of the production being sold on premium contracts.

Local oil men, as a rule, believe that if war should come with Germany, it will not have any permanent effect upon the oil market. They think that there might be a slump at first, but that a quick recovery would follow, as war would in no way lessen the demand for petroleum products. Some local producers express the opinion that the present situation, if it should continue indefinitely without war would be more likely to put prices down than war itself would, as at present there is little tendency to ship petroleum to the entente allies, whose purchases have been a material factor in bringing prices to their present level.

VACANT RESIDENCE IS ROBBED OF WINDOW SHADES

Some time during the past few days a vacant house in Floral Heights, owned by C. C. Bunnenberg, was entered and stripped of all of its window shades, eighteen in unmber, of various sizes.

Neighbors noticed that the shades had disappeared and telephoned Mr. Bunnenberg yesterday, who drove out and found that all but one small shade had been taken. The shades were red on one side and pink on the other. Mr. Bunnenberg has placed a notice in The Times calling attention to the theft and asking that he be notified in case such shades are offered for sale.

The Myrtle Ducret Chapter of the Westminister Guild will meet tonight at the home of Mrs. G. D. Anderson.

Wichita Falls, Texas, Feb. 12, 1917

Closing up the flats has been comparatively an easy matter. The hard work is ahead in keeping them closed and keeping the women from operating in other sections of town. It can be done and should be done. Constant vigilance will be required, however, and citizens ought to give the fullest co-operation possible to the offices. The flats have been closed without persecution of the women, or it cannot be called persecution if they are not allowed to return.

James H. (Butermilk Jim) Lowery, in a fashion hint in the Honey Grove Signal says that last spring and summer fly-specked straw hats, holeful socks, trousers patched at the rear and coats with punctured elbows will continue the vogue for newspapermen and will also be affected by those who bucked the cotton market at inauspicious times.

The German government, at the brink of war with the United States, cannot say that this country as the greatest of the neutral nations made no response when the Teutonic powers suggested overtures for peace some weeks since, and that if war is to come between the two nations the United States is itself to blame. The influence of the U. S. government and personal influence of President Wilson himself has been exerted to the utmost in behalf of peace between the nations now at war and in an effort to avert war between the United States and Germany. If war must come the blame is upon Germany, not upon the United States. One reason for the unanimous support that is being accorded President Wilson in the present crisis is that the people know that this is so. The American people would be unwilling to see the country go to war before all honorable efforts to avert it had been resorted to.

One of the best ways to learn the character of a man is to find out his suspicions. A man is likely to suspect that others will do as he himself would do under similar circumstances. The man himself may not consciously reflect what his actions would be but unconsciously and involuntarily his suspicions about the other fellow will show what the man himself would have done. Nations are a good deal like individuals in this respect. If reports are true that the German government detained Ambassador Gerard until they could have assurance that safe conduct was assured Ambassador Bernstorff, it is altogether probable that had Germany been in the place of the United States, Bernstorff would not have been granted safe conduct. It is certain that Germany expected the United States to seize and confiscate the big German liners interned in American ports. On no other theory can the efforts to disable these ships by their crews immediately it was learned that diplomatic relations were severed between the United States and Germany be explained. The efforts of the crews to destroy the ships made necessary their seizure by the American authorities. Evidently these crews were acting under instructions from their home government. This is another instance when suspicion as to what the American government might do revealed what Germany would have done under similar circumstances.

THAT WICHITA BRIDGE PROPOSITION

To the Voters of Wichita County:

As I understand the situation, the reason that prompted the voters of this precinct to vote for the bridge bonds, was because they thought the town of Electra and surrounding country were to be benefitted thereby, and that a bridge south of our town was to be a reward for the showing of the voters of this precinct made at the voting polls. A bridge on the Wichita river south of Iowa Park would be of little material benefit to our precinct and it's people and at the same time the act of placing the bridge any other place than where the Electra people desire it would not be giving us our just dues. We voted for the bonds and in doing so expected to derive some benefit. By placing the bridge at or near the Nance neighborhood it will be of lasting benefit to our centure precinct.

Many times before this the other parts of the county have needed our votes and have asked for them in order to carry certain elections and it has not been often that precinct No. 10 failed to respond favorably, and it will not be long until we will be called upon again to help out in another bond election, but if we are defeated in this bridge proposition, our assistance may not be forthcoming. Fair play is about the size of our demands.

TWO ARRESTS MADE IN DOWNTOWN RAID

Is Third Recent Case of This Kind. Twelve Defendants In Police Court Today.

Two vagrancy cases which followed the arrest of a man and a woman in a raid of a place in the business district on Indiana by Night Chief McDonald and Officers Burns and Johnson last night, resulted in $10 fines each in the city court this morning. This is the third case of this character which has arisen since the closing of the flats, two cases having been uncovered by county officers before.

A total of twelve cases came up before Judge Whitelaw this morning, six of them being cases of speeding, turned in by Traffic Officer Mack Ashford. Fines in the ten cases in which fines were assessed amounted to $60. Two of the speeding cases were passed and the others fined $5 each. In one case running without a number was also charged in the complaint. Two cases of intoxication called for $5 fines, as did two cases of affray, growing out of a Saturday night saloon brawl.

FOOTBALL PLAYERS TO GET MONOGRAMS TONIGHT

Thirteen football players, the letter men of the 1916 high school football team will receive their "W. F's" tonight at the reception to be tendered in their honor by the Athletic Association of the high school. The affair will be held at the high school and the football teams with the members of the association will be in attendance. Rev. N. F. Grafton has been asked to make the presentation of the monograms and an interesting program has been arranged in addition to the presentation.

W. H. DUFFY LIKELY TO BE CANDIDATE FOR COUCNIL

Friends of W. H. Duffy are in behind a movement to seat that gentleman in the council this spring, and the prospects are very good that they will succeed. Mr. Duffy is a member of the Bricklayers Union having been secretary of the local union as well as secretary of the state organization. He is popular with all of his fellow craftsmen and also with a big majority of the union men of other trades and is well and favorably known to business men and citizens generally.

FRIENDSHIP SHOWN

Better Understanding on Situation Reached and Believed to Have Caused Abandonment of Plan for Precinct Bond Issue

Support from Electra for the proposed good roads bond issue, instead of opposition which had been rumored for the past few days, was apparently assured after a joint meeting between a committee of twenty from Electra and a committee from the Wichita County Motor Club at the Chamber of Commerce rooms this morning.

It developed that the wishes of the Electra people would be satisfied with the building of a two mile strip from Fluches' corner, where the road from Burkburnett swings south into Electra, to County Line, a community from which Electra draws a considerable portion of its trade. C. W. Reid, president of the Motor Club and Judge R. E. Huff, one of the committee, assured the Electra committee that the concession would be entirely satisfactory to Wichita Falls.

With the change of the road from Burkburnett to Electra which was originally planned to angle south into Electra after passing Clara, to continue due west through to Fluches' corner, about five miles north of Electra and then south and the lateral to County Line, Electra's chief trade territory which lies north, east and west will be served by the system outlined.

An entirely cordial spirit and a desire on both sides to reach a complete understanding on the proposition was evidenced at the meeting. Although they wished to be assured that their interests would be cared for, and were prepared to oppose the county bond issue and vote $250,000 precinct bond issue to build the roads they felt were needed by Electra the committee did not come to Wichita Falls in a spirit of opposition, said B. B. Greever of the committee in outlining their position on the matter.

"Wichita Falls is not advocating this system of good roads with the desire of drawing any of the local trade of any community," said Judge R. E. Huff, president of the Chamber of Commerce in outlining the position of the people here on the good roads question. "What we are doing is being done in entire good faith, the object being to build a system of good roads which will serve the needs of the whole county. As for ourselves, if we can't grow as a wholesale city we don't want to grow at all, for we are not after any of the trade of the other towns in the county."

Judge Huff stated that the Motor Club was handling the Wichita Falls end of the good roads matter, and assured the Electra people that the road they asked for would be entirely agreeable to the Motor Club.

C. W. Reid, president of the Motor Club and chairman of the executive committee in the good roads campaign, who presided at the meeting, stated that the system proposed was not laid out by a Wichita Falls man, but by George D. Marshall, an expert engineer in the employ of the Federal government, whose sole desire was to lay out a system serving the county at large, and whose decisions were not based on any local influence but on facts uncovered in his investigations. Mr. Reid stated that since he was here, Mr. Marshall had been promoted to a much higher position in the government service, and was now in the East in charge of important work there.

An intimation that the Electra people, although they wanted and expected to get, the road running through the county to the Wilbarger county line through Wichita Falls, Iowa Park and Electra, deemed it of greater value to Wichita Falls than to Electra was given by members of the Electra committee. C. H Clark, formerly of Electra and who has large business interests in the Electra community, expressed himself as believing that Electra would derive a great benefit from this road, more than they expected. He expressed the belief that it would result in a greater travel from Wichita Falls to Electra than was now the case, or would be without that road.

Mr. Reid stated that this particular strip of road was designed as a connecting link in the Colorado-to-Gulf highway, which was travelled annually by an enormous number of tourists, and a link in a macadamized road from Fort Worth to the New Mexico border, which it was hoped would soon be connected up by the counties along the way.

An agreement on two other items which were mentioned by the Electra committee was also apparently reached. One was that a part of the bond issue be deposited at Electra. Mr. Reid showed that the deposit of this was governed by statute, and went to the highest bidder. As it could not be divided and the amount would probably be greater than any bank at Electra would want to take care of, he did not believe that they would care to bid on it. However, he expressed himself as feeling sure that any Wichita Falls bank which might be made the depository for the money would be glad to shift a part of the burden by making a deposit in the Electra banks. The other was that the Electra commissioner, H. H. Haynes, have charge of the expenditure of a portion of the money. Mr. Reid explained in this connection that of course the commissioners' court would have general charge of the expenditure of the money, but that the desires of Wichita Falls people were for the county to employ an expert engineer to have immediate charge of the work. No objection to this plan was evidenced by the visiting committee.

Wichitans, officials and members of the Motor Club who conferred with the visitors on this matter, included: C. W. Reid, president of the club; D. P. Tally, vice-president; John W. Thomas, secretary; Judge R. E. Huff and B. F. Johnson, president and secretary of the Chamber of Commerce, and C. H. Clark.

The Electra committee included: A. N. Richardson, B. B. Greever, Dr. J. Graves, J. A. Wise, S. B. Marchant, Edward Schlaffke, E. L. Chilton, A. Fisher, J. H. McMeman, A. L. Robb, J. L. Parker, H. J. Flusche, A. H. Flusche, Mat Wetstein, T. L. Eckelkany, Sid W. Smith, John D. R. Cooper, P. W. Detmer and Fred Lake.

TOMORROW

Fashion's latest and most exclusive achievements in the sphere of dress will be shown. Mr. and Mrs. Pennington, buyers for the P. H. Pennington Co., are now in New York City, where they can have first pick of the newest modes for Spring, fresh from the designer. Each day's express brings something new. With some of the latest arrivals came a beautiful collection of afternoon dress in Georgette Crepe, Crepe de Chine and Taffeta in all the leading shades of green, coral, mustard, blue steel, black and apple green.

STAND OF CHURCH ON AMUSEMENTS

Presbyterian's Position On This Question is Subject of Sermon Sunday Night

"If we of the churches paid more attention to the quality of the church members than to the quantity there would not be so much need of discussing this question" said Rev. N. F. Grafton, Sunday night at the First Presbyterian church. The question to which he referred was the stand of the church on worldly amusements, his subject for the evening, the matter having received much attention within the past few weeks since the ministerial alliance of the city issued the edict. As president of the alliance and in his capacity as pastof of the First Presbyterian church as well, Mr. Grafton has had many queries both as to what the stand of the church really is and his intentions in regard to the matter.

Even a number of anonymous letters had been received by Mr. Grafton on this subject and he there paid his respects to those who did the writing.

His remarks were prefaced by the statement that this was the last time he would open the subject of worldly amusements in his church, that he would read the articles of the general assembly of the church and that church members, Christians who desired to do right would find these articles their guidance, and would not object to being somewhat apart from the worldly throng. There must be a difference between the world and the church, he said, and Christians by their examples and deeds make this difference.

He went on to explain this action stand of the church was given by reading of the findings of the general assembly of the Presbyterian Church, both old and new school at different intervals since 1818. These pronounced promiscuous dancing, games of chance and indiscriminate show going against the laws of the church and proposed summary action against those who engaged in the pastimes, leaving action however, to the governing body of the church.

Mr. Grafton said that in answer to the oft repeated question to him, "What are you going to do about it?" he would answer now for all times, "Nothing at all."

He went on to eplain that this action would be left to the elders and the session of the church.

He concluded his discussion of the subject with the reading of a paper he had previously read before the ministerial association on the subject, "How We Should Deal With Worldly Amusements."

LOOK FOR DEFEAT OF OIL TAX BILLS

Local Delegation Returns This Afternoon Bringing Optimistic Reports

Although there is considerable sentiment among legislators in favor of both the tax bills now pending, the Wichita Falls delegation which went to the capitol Friday returned this afternoon with encouraging reports. They believe that there is an excellent chance to defeat both bills in the House, and that the Senate outlook is still more favorable.

The bills will come before the Senate committee Friday morning, and the Wichitans will have representatives there at that time to present their side of the case. The House committee had already reported the measures favorably, but some strong members of the House will open fight on the bills when they come up this week and it is considered probably that the bills will fail of passage there. In the Senate, the Wichitans will center their efforts on the committee hearing, in the hope that an unfavorable report will be brought in, which would almost make the defeat of the bills certain.

Dr. J. C. Guest, Roy Jones and E. P. Haney returned this afternoon. C. J. Shumake will remain in Austin several days. G. C. Wood left for Austin yesterday where he will likely remain until the question is settled.

WICHITA FALLS ONE OF FEW CITIES ON CASH BASIS

City tax collections on 1916 rentitions, and income from other sources this year, will be sufficient to meet all ordinary requirements of the municipal government, keeping the city on the strictly cash basis that has been the rule here for a number of years. In this regard, Wichita Falls is much more fortunate than most Texas cities, where the tax collections at the first of the year are usually sufficient to meet the overdrafts incurred during the year. A majority, probably, of Texas municipalities, are really hypothecating their tax collections nearly a year before the money comes in and are operating on narrow financial margins. City officials here take no little pride in the fact that Wichita Falls is an exception to this rule.

FOR SALE

Requisition papers for George Overstreet, arested at Ardmore recently on the charge of stealing a car belonging to Fred A. Smith of this place, have been received and Deputy Sheriff Lewis Jernigan will leave tonight for Oklahoma City to take them to Governor Williams, and secure Overstret. Overstreet refused to return with Sheriff Hawkins recently, without requisition papers.

VORTEX SANITARY SERVICE

Thousands of Vortex Purity Cups Await The Touch of Your Lips at Our Fountain—

The latest thing out in sanitary glasses for ice cream, cream soda, malted milks, and all milk and egg drinks.

The new cups are made of pure, white paper, and are the last word in modern, sanitary art—Tasteless, Odorless, Attractive. During service the cups are placed in handsome Silver Holders. Cups are used one time and thrown away. Patrons at our Fountain will have the satisfaction of being served individually—from cups that no other lips have ever touched.

OUR FOUNTAIN AND STORE HAS ALREADY BEEN SCORED 99 PER CENT SANITARY by Mrs. Smock, official inspector for the Health Department of Wichita Falls. But we are never satisfied of stopping short of the VERY BEST WE CAN DO.

MINISTERS HEAR FROM ENSIGN ROBB

Tells of Associated Charity Work in This City—Association Meets Today

Associated charity work in Wichita Falls at present was discussed in detail by the Ministerial Association meeting in regular session this morning. The report of Ensign Robb was given and the approval of the body passed on the proficient, accurate and tactful work of the ensign in handling the work of the association. Ensign Robb also brought up the need for a municipal employment bureau, this proposed charity measure receiving the unanimous endorsement of the association.

President N. F. Grafton was in the chair, the meeting being opened by devotionals by Rev. R. C. Miller. Dues for the coming year were paid and the regular routine of business transacted.

Rev. R. C. Miller and Ensign H. G. Robb submitted a report upon their conference with Sheriff Hawkins in connection with the closing of the flats.

We Have Protected Ourselves—

We have just closed contracts for enough green coffees to take us well into the new crop.

On account of the uncertainties that exist in ocean freights and the likeilhood that conditions may become worse, we have bought enough greens to protect all our brands for several months. These are all carefully selected, well aged and as fine selections as ever came to the markets of this county, and every pound is in the United States today. It is more than probable that a great many people will be forced to drink undesirable coffees in the next few months. We don't want our customers to be amongst that number.

WE ROAST COFFEE EVERY DAY.
