100-Mile Winds Add To Weather Woes In North

FOR THE FIFTH YEAR students of Lamar Junior High School have brought canned goods and toys to place around the school's Christmas tree. Well over 2,000 cans of food have thus been furnished to the Goodfellows during that period. Pictured with this year's donation are Bonnie Amos, Delia Guerra, Jean Craig, and in front, Jane Ilfrey.

The Goodfellows headquarters is a busy place this week.

Last minute donations of money, food, clothing, and toys are being received, and quickly sorted into their proper areas. Boxes are being packed.

But, even as the Goodfellows are busy, there are some folks who are not busy — and they wish they were.

Among the more than 200 family units whose names are on the Goodfellow list are many for whom the very best Christmas gift would be the chance to have a job and to work. Several women especially, would think of a job doing housework as a gift.

If a person wants to be a Goodfellow and give this gift of a job, he may call the Goodfellows at HI 3-7592. They have a list of folks wanting work.

Thugs Should Really Be Well Coiffed

FORT WORTH (AP) — Thugs took 200 women's wigs valued at $20,000 Monday night from the June Russell Shop.

More than half of the wigs belonged to customers and were in the shop for refurbishing — and therefore were not insured.

AT LBJ RANCH

Budget Gets Final Study

JOHNSON CITY, Tex. (AP) — President Johnson meets with Secretary of Defense Robert S. McNamara and the military chiefs today for a final review of the Pentagon budget.

Defense spending accounts for about half of all federal outlays. McNamara has predicted the defense budget will not exceed $50 billion and may even be a little less. This is about the same as in the current fiscal year and may determine whether Johnson holds spending for the year starting July 1 within the $100-billion mark.

The latest estimate of spending this year is $97.2 billion, but Johnson has said he does not know if he can keep next year's budget under $100 billion.

Other visitors to the LBJ Ranch for budget talks today included Secretary of the Treasury Douglas Dillon, Director James E. Webb of the National Aeronautics and Space Administration and Najeeb E. Halaby, who heads the Federal Aviation Agency.

NASA's spending this year is estimated at $4.9 billion. There has been some talk among government officials here that Johnson is considering cutting out some low-priority space projects in order to hold down the budget.

In conferences Monday, Johnson apparently completed work on the Interior Labor and Commerce department budgets. Although figures were withheld, they apparently stuck closely to this year's totals.

Secretary of Labor W. Willard Wirtz predicted his department will show a cut in spending from this year's estimated $511 million.

Secretary of Commerce Luther H. Hodges said, too, that his department will show a decrease from estimated spending of $779 million.

But Secretary of the Interior Stewart L. Udall said spending in his department would be up slightly from this year's estimated $1.7 billion. He attributed this to higher spending on water desalting and conservation projects.

GARBAGE ROUTE SLATE CHANGED

City garbage collection schedules have been changed this week to permit crews to take a holiday on Christmas Day.

Areas where pickup service usually is provided on Thursday will be covered on Wednesday this week, while routes usually made on Friday will be covered on Thursday.

There will be no pickup service on Friday, Christmas Day.

Two Injured In Boulder

By The Associated Press

One-hundred mile an hour winds roared through Colorado today and caused extensive, but undetermined, damage to the university city of Boulder. Two persons were hurt.

The gale-force winds blew off roofs, destroyed fences and knocked out power lines for several hours in Boulder and outlying areas. One wall of the University of Colorado cyclotron building was blown down. Jefferson Airport, east of Boulder, reported 100 m.p.h. winds. Denver also had high winds, but no damage was reported.

In Wyoming, a snowstorm moved into the western part of the state dropping up to 6 inches on the area. High winds up to 70 m.p.h. piled up huge drifts. Highways were impassable in Hoback Canyon, Atlantic City and over the South Pass, south of Lander. Visibility was poor.

Farther northwest, huge snow slides closed the main east-west route from Seattle across the Cascade Mountains as storms continued to thunder across the west coast from California to Washington.

The snow slides spilled down on the four-lane Snoqualmie Pass Highway near North Bend, Wash., but no one was hurt. The slides, believed to have been caused by a warm spell, hit on both sides of the 3,000 foot summit.

State Highway Department crews cleared several smaller slides west of the summit.

Whole gale warnings were up as winds of 60 miles an hour hit coastal sections of Oregon. Fifty families near Portland were forced to leave their homes as rain and strong winds lashed that area.

In the flood-stricken Eel River Valley section in Northern California, more than 2,000 persons were evacuated from their homes as heavy rains fell through the night. Ukiah, Calif., measured more than 4 inches of rain in 24 hours.

Three inches of additional snow were added to a 14-inch snowpack in Kalispell, Mont., and 3 inches of additional snow in the western Montana and northern Idaho Rockies were on the way.

Some 600 residents in the summer resort town of Weott, Calif., 50 miles south of Eureka, fled their homes as the Eel River rose toward a record crest. The community was under five feet of water. Weather Bureau officials predicted the river would reach 27 feet, nearly 10 feet above flood level. That mark was reached in the disastrous floods in northern California in 1955.

The Humboldt County sheriff's office, which reported the evacuations, also said 400 residents fled their homes in Pepperwood and about 300 persons were removed from Myers Flat. Phillipsville, a town of 150 residents south of Myers Flat, was isolated.

In other parts of the West, record-breaking snowfalls piled up in the northern plateau region. Heavy snows fell in northern Idaho and western Montana. Schools in many areas were closed.

T. A. Clark Dies; Rites Wednesday

Funeral services will be held at 2 p.m. Wednesday for Mr. Thomas Aubrey Clark, 91, at the First Assembly of God Church.

Mr. Clark, who had been in ill health since September, died at 10:45 p.m. Monday.

The Rev. R. C. Dearman, pastor of the church, will officiate at the services. He will be assisted by the Rev. D. [illegible], pastor of the Church of God. Burial will be in Snyder Cemetery under the direction of Bolger Funeral Home.

Born Feb. 26, 1873 in Washington County, Tex., Mr. Clark moved to Scurry County in 1880 with his parents, the late Mr. and Mrs. H. C. Clark. The family settled on the Nuhn Ranch in the northeast part of the county.

Mr. Clark is survived by one sister, Miss Mary Ruby Clark of Snyder, and by several neices and nephews who are the children of the late Carl Clark.

Pallbearers will be Sterling Williams, John D. Curtis, Sr., Clay Sullivan, M. E. Davis, F. R. Williams and John Bruton.

The family has requested that memorials be made to religious or church causes.

Scrivner Rites Set

Funeral services for Mrs. Annie Mae Scrivner, 58, of Dermott have been set for 2 p.m. Wednesday at the Bell - Seale Funeral Home chapel.

Mrs. Scrivner died at 11:20 p.m. Dec. 20 at Cogdell Hospital where she had been hospitalized since a traffic mishap Dec. 12.

Born at Wingate, Tex., on Jan. 2, 1906, she had been a resident of Scurry County from 1926 to 1938, at which time she moved to Lamesa. Married on July 29, 1958, to Mr. A. W. Scrivner in Olathe, Colo., she returned to the county at that time. Mr. Scrivner survives.

Also surviving are her father, H. T. Simpson of Olathe, Colo.; two daughters, Mrs. Velma Perry of Snyder and Mrs. Gilbert Merritt of Dumas; two sisters, Mrs. Ina Sturdivant of Olathe, Colo. and Mrs. C. C. Forrester of Winters; two brothers, T. O. Simpson of Amarillo and J. C. Simpson of Albuquerque, N. M.; and three grandchildren.

The Rev. Howell Watkins, pastor of the Dermott Methodist Church, and the Rev. Thomas Hall, pastor of the Fluvanna Baptist Church, will officiate at the services. Burial will be in Dermott Cemetery under the direction of Bell - Seale Funeral Home.

Pallbearers will be Fowler Mathis, Robert Jones, Marr Jones, Elton Greenfield, Elton Beck and Bert Sellars.

MISSION "HAY LIFT" IN ACTION—Airmen from Malmstrom Air Force Base use heavy tongs to get bales of hay ready for drops to starving cattle in southwest Montana. Flying 'boxcars' of the Air Force flew missions in attempt to save snowbound and starving cattle in the heart of Montana's ranchlands. Each of the planes carried five tons of hay. (AP Wirephoto)

S. Viet Commander Denies US Demand

By MALCOLM W. BROWNE

SAIGON, South Viet Nam (AP) — Lt. Gen. Nguyen Khanh, commander of South Viet Nam's armed forces, threw down the gauntlet to Washington tonight in an order solidly backing the young generals who purged the High National Council Sunday.

Khanh's order, in effect, warned against foreign intervention in Vietnamese affairs and made it clear he would not go along with American demands that the purge be undone.

"We make sacrifices for the country's independence and the Vietnamese people's liberty, but not to carry out the policy of any foreign country," Khanh said in a radio address to the nation.

The ex-premier pledged the continued support of the armed forces for civilian Chief of State Phan Khac Suu and Premier Tran Van Huong, but reserved the right of the armed forces to change governments if they felt things were getting out of hand.

This was a direct challenge to American demands that the Saigon civilian government have supreme authority over the armed forces, and that the armed forces should not have the right to upset the government whenever they see fit.

Khanh's speech presumably was broadcast partly to allay rumors sweeping Saigon that he had been arrested. Normally reliable sources reported earlier that Khanh had been ousted from his post as commander in chief and soon might be leaving the country. But indications tonight were that he was firmly in the saddle.

U.S. spokesmen had no immediate comment. Americans said privately it looked as if the shutdown had come.

American officials said the purge has stymied plans being worked out to extend the war against the Viet Cong outside South Viet Nam.

The United States had made plans to step up and to the Saigon government and for new measures against Communist infiltration. But these were contingent on the existence of a stable South Vietnamese regime.

American officials said that since the military dissolution Sunday of the High National Council, South Viet Nam's proposed legislative, a stable government has not existed and planning talks are indefinitely in abeyance.

The talks will resume only if the young generals who carried out the purge capitulate to the extent of creating some kind of legislature with real authority, the Americans said.

WEATHER

[illegible]

Cave-In Kills One Miner

WILKES-BARRE, Pa. (AP) — Three of four men survived a cave-in at a coal mine. The fourth, buried under one to 10 tons of coal more than 300 feet underground, was declared dead.

State mines officials said today workers would continue digging on a snow-swept mountainside near this eastern Pennsylvania community for the body of Lawrence Malachefski, 37, of nearby Plymouth. They estimated the task would take several days.

Malachefski was caught directly beneath Monday's rock fall, mines officials explained. The three others were some feet away.

Maiden Flight Successful For Controversial Fighter

By MIKE COCHRAN

FORT WORTH, Tex. (AP) — The sleek fighter plane which figured in the stormy TFX debate successfully executed an airborne test Monday although a minor malfunction cut short the maiden flight.

The supersonic F111, a multipurpose craft commonly called the TFX, made a 21-minute test hop from Carswell Air Force Base and its brief performance brought praise from many quarters.

Citations came from both the Air Force and the Navy, for whom the swept-wing aircraft was designed.

The test was scheduled for 40 minutes but was cut in half because the two-man crew was unable to retract the plane's wing flaps after takeoff.

Project directors called the malfunction minor and said a second test would come in a week or 10 days.

Test pilot Richard L. Johnson and copilot Val E. Prahl flew the craft at a top speed of 230 miles per hour. Plans had called for a maximum speed of just under 350 m.p.h.

The plane reached an altitude of more than 15,000 feet.

Despite the apparent success of the initial flight, there were reports that the project is encountering cost problems and that the Navy is disturbed about what it considers the F111's excessive weight.

Frank W. Davis, president of General Dynamics' Fort Worth plant, where the plane was assembled, said this was not the case.

"It's not as far as I'm concerned," he said. "We're just about on cost and we're 10 days ahead of schedule."

He said if the Navy is unhappy, "you'll have to talk to the Navy about that."

The Navy's project supervisor, Capt. Donald C. Davis, said: "It sure looked wonderful. I'd put 'Navy' on it right now."

Air Force Secretary Eugene Zuckert, describing himself as a "most happy fellow," declared: "This successful accomplishment of a milestone in a program of great importance to our national security is indeed significant.

"The versatility of this aircraft promises to meet the demands for mobility, supersonic performance and great striking power."

The F111 features a variable sweep-wing concept which enables the tactical machine to spread its wings for slow flight and tuck them in for high speeds. It is capable of flying 2.5 times the speed of sound.

Clues Scarce In Paterson Robbery

PATERSON, N.J. (AP) — A stolen car that may have been used by bandits in the half million-dollar cash robbery of a bank truck has been recovered, police said today.

Police said the car was found Monday night a few blocks from the church rectory where the holdup was staged Monday morning by three masked men.

The vehicle had been reported stolen more than a month ago, Police Chief Marinus Ritter said.

Until now, two jackets, a pair of pants and a ski cap were the scant clues police had to work with. The car was being checked, Ritter said.

Police said they had no description of the men — except that they were white and, in the words of a witness "appeared to be past their youth."

The clothing, identified by the victims, was found lying on a road on the outskirts of this city 10 miles west of New York City. The men, wearing Halloween masks, took over a church rectory during a church service, held four priests and a janitor at gunpoint, ambushed two bank messengers as they entered the rectory and escaped with $511,000 in cash from the bank truck and $1,700 in church funds.

Working swiftly and speaking rarely, the trio vanished less than half an hour after they drove up to the rectory adjoining St. Anthony's church about 8:45 a.m.

Deputy Police Chief William Ludwig said the robbery, considered the biggest in New Jersey history, was the work of professionals well-versed in the route and schedule of the bank messengers.

The armored truck, equipped with an alarm system, was on its normal morning run from the main office of the National Bank of Passaic County to deliver cash to three branch banks. The schedule called for stops at three churches to pick up Sunday collection money before going to the branch banks. St. Anthony's church was the last one.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Do you think a mother should have any say about how her 10-year-old son wears his hair?

HIS MOTHER

DEAR MOTHER: Mothers, it seems are constantly criticizing their teen-aged sons about something. They would be wise to save their prodding for more important things, such as integrity, cleanliness and insisting that their sons give their best efforts to their studies. When a boy expresses his rebellion in an off-beat and perhaps freakish hair style; if his hair is clean, skip it, Mother.

* * *

DEAR ABBY: Everyone I ask tells me something different and by now I am dizzy. Maybe you or one of your readers can help me decide. Should we sell our house? We've lived here 26 years and my husband and I are all alone now, having just married off our youngest daughter. My husband says we should keep the house so that when the children come to visit us with their children we will have room for them. He says that after living in a 14-room house we will never be happy in an apartment. I say if the children want to visit us, we can rent them an apartment in the same building or somewhere near us. The steps in this house are too much for me, we don't need a yard any more and it's hard to keep up. A big house is a lot of work to keep clean. It's expensive and, besides, now that the children are gone, it's lonesome. Any ideas?

NOT GETTING ANY YOUNGER

DEAR NOT GETTING ANY YOUNGER: (And who is?) This is one decision you and your husband must make for yourselves. I say, do whatever is easier for YOU.

* * *

DEAR ABBY: After 22 years of marriage my husband has left me. I have consulted marriage counselors, ministers, friends and relatives. In short, I've tried everything, but he still refuses to come home. He simply said he had been "thinking about it" for a long time, and he packed and left. As far as I know, he hasn't started any legal proceedings. I will not start them, and I told him that if he did I would fight him. People refer to our "separation." Technically we are not "separated." We are still legally married, only he left me. Why do respectable people invite HIM over for dinner, and entertain him for bridge week-ends, camping trips and parties? Everyone knows we are still married, yet they treat him as though he were a gay bachelor. Are they not condoning his actions by inviting him? My lawyer tells me as long as he pays the bills there is nothing I can do but wait. Is this fair? What do you suggest?

ALONE

DEAR ALONE: There is rarely "fairness" in the personal tragedy of divorce. Listen to your lawyer. And find interests of your own.

* * *

DEAR ABBY: I think the woman who signed herself "CONFUSED" has my ex-husband. There can't be TWO men in the world like that. Tell her that she isn't NUMBER THREE, she is NUMBER FIVE. When I married him I thought I was NUMBER TWO, but I was NUMBER FOUR. (I just got rid of him last summer, so I doubt if he could have married anyone in between.) Also, tell her they should stay out of Georgia, West Virginia and North Carolina, as he is wanted for felonies there.

NUMBER FOUR

* * *

Troubled? Write to ABBY, Box 69700, Los Angeles, Calif. For a personal reply, enclose a stamped, self-addressed envelope.

Carpenters For Christmas Rebuild Fire-Razed Church

By DON MCKEE

RIPLEY, Miss. (AP) — A determined band of college students worked hard today to put up the walls and roof of a Negro church in time for a Christmas service.

The "Carpenters for Christmas," most of them from Oberlin College in Oberlin, Ohio, started Sunday on their project of rebuilding the rural Antioch Baptist church, destroyed by fire last Oct. 30 after a civil rights rally in the building.

Two of the white students working on the project spent the night in an auto parked at the church site — a lonely place bordered by a cotton patch and a wooded area. They said they were taking no chances on anything happening to their work.

Student workers, aided by several Negroes from the nearby area, laid a concrete foundation Monday and began the task of setting concrete blocks to support the framework.

White residents of this northern Mississippi town, which is about seven miles from the church site, were somewhat resentful and puzzled by the project. There have been no serious racial troubles here and civil rights workers have held their program in the area without any major problems.

"There has never been any indication that the fire was set deliberately," said Mayor Lowrey Smith of Ripley. He said the townspeople did not understand why the Antioch church, which was not a clearcut arson case, was selected for the Oberlin project.

Sheriff Wayne Mauney also said there was no evidence of arson in the church fire.

Members of the Oberlin group said that one of the main reasons they decided to rebuild this church was that some students from the Ohio college had taken part in civil rights activities in this area. Some of them attended the last rally in the church.

Burrell L. Scott, masonry contractor from Cleveland, Ohio, said the schedule called for completion of the foundation and the initial phase of framing Tuesday. He was pleased that the concrete and lumber suppliers had agreed to give discounts.

Five other students arrived Monday to join the 26 already here.

Windsors To Spend Christmas In Clinic

HOUSTON, Tex. (AP) — The Duke and Duchess of Windsor will spend Christmas in Methodist Hospital, where the duke underwent abdominal surgery last Wednesday.

This was disclosed Monday as hospital advisories reported the duke's recuperation continues without incident and his general condition is excellent. He remains on a liquid diet but has been strolling around the hall and has visited the duchess in her room.

The duchess said no interviews would be granted until after Christmas.

The former King Edward VIII of Great Britain was operated on for removal of an artery blister the size of a large grapefruit.

CIVIL RIGHTS PROGRAM

Humphrey Studies Plan With Eye To New Agency

WASHINGTON (AP) — Sen. Hubert H. Humphrey, who will coordinate federal civil rights efforts after he becomes vice president next month, says he hopes to know within 10 days whether the job will require creation of a new supervisory agency.

Humphrey said in an interview that he is conducting "a very detailed study" of existing federal programs in an effort to see how best to "assure prompt and direct action to those whose civil rights have been denied."

He meets today with Justice Department officials who have played a key role during the past few years in government efforts to bar discrimination in such areas as education and voting.

Humphrey said he met Monday with **Sargent Shriver**, director of the Office of Economic Opportunity, and earlier with officials of the Department of Health, Education and Welfare, and a number of sub-Cabinet officials.

Shriver's office, which seeks to implement what President Johnson has called a "war on poverty," is closely related to civil rights. Humphrey said because "the elimination of poverty will help greatly in relieving the social tensions that cause civil rights problems."

Since President Johnson designated him Dec. 10 to coordinate all administration programs in the civil rights field, Humphrey has been working mainly with his own staff in reviewing existing programs.

The Minnesota senator said he was "extremely pleased and gratified" that Burke Marshall, the retiring assistant attorney general for civil rights, has agreed to be a consultant. Humphrey called Marshall "the outstanding expert in the country" in the civil rights field.

Bills Rites Are Set Here

Funeral services will be held at 4 p.m. Wednesday at the Bell - Scale Funeral Home chapel for Mrs. Lela Elizabeth Bills, 88, of Big Spring.

Born June 23, 1876 at Sylvan Tex., Mrs. Bills died at 1 a.m. today at a Big Spring hospital following a short illness.

Mrs. Bills was married to the late Thomas C. Bills on Dec. 7, 1897. She lived in Snyder from 1919 to 1956 when she moved to Big Spring. Mr. Bills died in 1942.

She is survived by two daughters, Mrs. Alma Rhodes of Big Spring and Mrs. Lela Gruette of Roswell, N. M.; two sons, Dixon of Houston and Weldon of Snyder; 26 grandchildren; and 33 great - grandchildren.

Burial will be in Snyder Cemetery. Mrs. Bills was a member of the Church of Christ.

Rites Here Today For S. V. Martinez

Mass was said at 10 a.m. today at Our Lady of Guadalupe Catholic Church for Sesario V. Martinez, 61, of 809 Twenty - fourth Street who died Tuesday at Johnson Hospital in Lorraine.

A native of Mexico, Mr. Martinez had lived in Scurry County for six years.

Burial was to be in Snyder Cemetery following graveside rites at 4 p.m. Fr. Peter Vergauwen was to officiate at both services. Burial is under the direction of Bell - Scale Funeral Home.

Mr. Martinez is survived by his wife, Elvira Martinez; nine daughters; six sons; one sister; two brothers; and 24 grandchildren.

This Year Americans Really Mailed Early

WASHINGTON (AP)—Americans have shown "unprecedented public cooperation" in their Christmas mailing this year and 99 per cent of the cards and packages will be delivered by Christmas Eve, says Postmaster General John A. Gronouski.

The postmaster general said in a statement Monday that a record of 7 billion pieces of Christmas mail will have been delivered by Thursday night. Last years' figure was just under 7 billion.

Trucker Dumps Load City Hall Suffers

BUFFALO, N.Y. (AP) — "I had no place to put the load," said the driver after he dropped 1½ tons of rubble from his dump truck on the sidewalk in front of City Hall, police reported.

After dropping the load Monday night, William Giagnacova, 40, left his truck on the sidewalk while he went for a "cup of coffee," police said.

Giagnacova said he was protesting recent city action in closing a dump to private truckers. He was charged with violating the state mental hygiene law and taken to Meyer Memorial Hospital for observation, police said.

City workers cleaned up the debris. The truck was towed to a police garage.

By 1729 some 14 types of submarines had been patented in England and many more in other European countries.

ALWAYS THE RIGHT CHOICE...A PENNEY GIFT CERTIFICATE

CHRISTMAS PARTY—Santa made his annual visit Sunday afternoon at the Veterans of Foreign Wars clubhouse. The activities were enjoyed by a large group of children of the members and other deserving children. Santa listened to the desires of the children and presented each one with a sack containing fruit, nuts, candy and a gift.

Biography, Sympathetic Research

THE BARRYMORES. By Hollis Alpert.

Alpert has made a comprehensive project of this triple biography, gathering into his long, illustrated volume a very complete chronicle of the professional and personal careers of Lionel, Ethel and John.

It is a sympathetic account, in the sense that the author is dealing with three lives which often were torn by tragedy and disaster. And although he treats the Barrymores' weaknesses with candor, he also fills in their portraits with a full measure of their appealing qualities.

Alpert also emphasizes the paradox that although they came from an acting family, none of the three Barrymores really wanted to go on the stage — yet in the 1920s they became the reigning family of the theater, and later of the movies.

Because of his thorough research, Alpert's story of the three individuals becomes a major view of the entertainment world in which they lived, including many producers, actors, writers and directors.

Of the three, Ethel emerges as the most admirable, as the one who held the family together. Lionel's personal life was less disturbed than the others' but there is pathos in the way he sacrificed his career as an etcher. John, who was the villain of the family — trading fame for notoriety when he became a rake and a boozer — at least was a devoted craftsman in his earlier days.

A SURPRISE BIRTHDAY PARTY was given Sunday to celebrate the eightieth birthday of Mrs. L. F. Stirling, center, by her children, Jim Stirling of Snyder and Mrs. Vivian Cummings of Canyon. The party was held at Mrs. Stirling's home at 3805 Highland Drive, and many guests, including a granddaughter from Dallas, a grandson from Dalhart, and a nephew from Luling attended.

WHAT'S GOING ON

The Girl Scout Leaders and Assistants were entertained on Friday at the home of Mrs. Charles McCaleb, Jr. with a traditional glasses and fruitcake party. Seventeen guests attended. Two out of town guests, Mrs. Austin McCloud and Mrs. Pat Chann were present. There will be no more scout meeting until January.

Safe Parties

We remind people who are planning parties for the holidays that crowded, stuffy rooms are a major cause of colds and flu. Set the thermostat of your heating system at 68 degrees during a party. If the rooms get stuffy, open a window wide for a moment or two to let fresh air in. Flowers and greens in deep containers of water help to keep humidity in the room.

WOMEN

Fluvanna News

BY MRS. J. R. JONES

Mrs. Charlie Hunnicutt visited Mr. and Mrs. Dub Arnett of Colorado City Saturday afternoon.

Mr. and Mrs. I. N. Hataway spent last weekend with their daughter, Mr. and Mrs. Jack Westen and children of Fort Sumner, N. M.

Delmer Browning of Girard visited Sunday with his uncle, Mr. and Mrs. Lee Lavender.

Also visiting in the home were Mr. and Mrs. Earl McDow.

Mr. and Mrs. Rue Reeder and Mr. and Mrs. Ray Reeder of Dallas spent Saturday night with their mother, Mrs. W. A. Reeder. Mrs. Reeder returned home with the group to spend several weeks.

Mr. and Mrs. Hurston Lemons visited in Lubbock Sunday. They were met there by their son, Mr. and Mrs. Bobby Lemons and Dawn of Plainview.

Mr. and Mrs. Royce Summers and Ricky Don spent Saturday night with her parents, Mr. and Mrs. Clay Reeder. On Sunday Mr. and Mrs. Robert Jones joined the group for dinner.

Mr. and Mrs. Clinton Gregory and Vickie of Snyder spent Saturday night and Sunday with her parents, Mr. and Mrs. James Stansell, Bobby Joe and Sandra.

Mrs. Punch Kennedy of San Angelo and Mrs. Lonnie Ball spent the first of the week with their sister, Mrs. Willie Minnick and Mr. and Mrs. Earl Wooten of Lubbock.

Brownie Troop No. 358 Has Christmas Fete

The Brownie Girl Scout Troop No. 358 met Wednesday at the scout hut for their final meeting before the holidays.

For the Christmas party the Brownies served coffee, punch and Christmas cookies they had made and decorated. Eighteen mothers present received gifts the members had made.

The Brownies sang carols and received their gifts.

Those present were Judy Bush, Denise Clark, Debra Davis, Ann Dowdy, Suzan Eime, Shirley Glasscock, Trinka Graham, Karen Greene, Sheila Hardy, Kerry Ann Holt, Beckie Kidd, Debra Knight, Kay Lockhart, Kathie Menges, Lesa Minor, Leigh Ann Roark, Candy Stokes, Jo Ann Thompson, Jeanan York and Rhana Yeilding. Leaders present were Betty Menges and Gerri Graham.

Deborah White was unable to attend.

Troop No. 358 will have their next meeting Jan. 6, 1965.

Present For Papa

A combination infra-red patio grill and heater will please the enthusiastic backyard chef. The infra-red burners are located in the cover of the grill. In the horizontal position, meat can be cooked without flame-up or smoke. Raised to the vertical position, the burner becomes a portable outdoor heater. This dual appliance is extending the outdoor living season in many areas of the country.

St. John's Childrens' Plans Told

On Wednesday, Dec. 23, St. John's Episcopal Church will have its Christmas party for the children at 3 p.m. at the church. Each child is to bring a gift for the Christ child, which later will be given to a needy family.

On Thursday the children will go caroling at 4 p.m. and visit the Snyder Nursing Home. The children will present the home with a candy house, made in the Sunday School Class of Mrs. Byron McKnight.

Get Together Club Has Party

The Get Together Club met Wednesday in the home of Alene Parks at 6:30 for their annual Christmas party.

Each member brought a salad for a delicious salad supper. Afterward, secret pals were revealed and new names were drawn for the coming year. To conclude an evening of enjoyment, games of cards were played.

Attending were Alzada Middleton, Fay Sims, Pat Stephens, Peggy Hardin, Catherine Allbritton, Mittie Foree, Ida Thurston, Irene Masters, Alene Parks, Bobbie Kizer, Betty Atkinson, Velda White and Beth Hicks.

WOMEN'S CALENDAR

TUESDAY

Ladies Golf Association meets at Snyder Country Club.

Snyder Toperettes meets at 7 p.m. in Stanfield Cafeteria.

Martha Ann Ladies game day will not be held. Next regular meeting will be Dec. 29, master-point day and luncheon at 10 a.m.

should you pamper a Princess?

Depends on which princess—the teenager or the telephone. All teenage princesses—so we're told—glory in a little pampering.

But the Princess® telephone is so well made and trouble free that no pampering is required. Just dust it occasionally or wipe it with a damp cloth.

That, plus a little care in handling, is all the attention any phone needs. And phones almost never need repair—but if something does go on the blink, we'll fix it promptly at no extra charge.

We think it's our job to keep right on improving your telephone service and making it of greater personal value to you.

SOUTHWESTERN BELL

Making telephone service better to serve you better

COULD BE TWO FALL-GUYS

Political Changes Imminent As New Year Approaches

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — In the wake of their election disaster, some Republican mourners are tormenting themselves over the new kind of life they want to lead.

If this seems melancholy, just before the new year, Republicans don't have a monopoly on it. Some Democrats in Congress are unhappy with some of their elders.

All this gives a sense of motion, suggesting change. But political discontents come and go, like enthusiasm for Elvis Presley, and in the end nothing may change much.

Some Republicans want to chase Dean Burch off the field as chairman of the Republican National Committee. He won't budge. They've tackled him, but he's still on his feet.

This is a post-season search for a new head coach since Sen. Barry Goldwater, who was the Republican standard bearer, said it would be a vote of no confidence in him if Burch is thrown out. He had handpicked Burch as chairman.

This is being realistic, since the issue is whether Goldwaterites are to remain in position to run the party and speak for it. But birching Burch isn't all that's troubling Republicans.

In Congress some of them are in a kind of soft-shoe revolt against their House leader, Charles Halleck of Indiana. There's a little irony in this for the 64-year-old Halleck.

The man who wants his job — Michigan's Rep. Gerald R. Ford Jr., 51 — only five years ago helped Halleck get the leadership away from Rep. Joseph W. Martin of Massachusetts who is now 80 and still in Congress.

Halleck, a conservative, has been criticized by some for what they called his "negativism" as a leader.

But if Ford should replace Halleck it wouldn't mean a change in ideology. Ford is a conservative, too, although he might give the Republicans a larger look of up-and-at-'em.

He was a football player, the athletic type. Halleck is roundish.

Meanwhile, liberal House Democrats, with their numbers swelled by the election to the point where they may outnumber the conservative Democrats, want to shake the House out of ways which seem fixed in cement like the Washington Monument and just as unbudgable.

For instance, they want to dilute the strength of the Rules Committee. Like all committees, it is composed of Democrats and Republicans. But this happens to be one of the most powerful and conservative on Capitol Hill.

It is sometimes one of the worst bottlenecks in the place because, under the House rules, it can keep a bill from going up to the floor to be voted on by the whole House.

The liberals want to make it easier to force this committee to act on legislation and get it moving.

They'd also like to change the rule of seniority under which committee chairmen get their jobs not through ability but through longevity, meaning: if a House member can stay on a committee long enough, until everyone ahead of him dies or retires or is defeated in an election, he becomes chairman.

But these chairmen are mostly oldtimers, know all the gimmicks, and have a lot of members beholden to them for favors. So the discontented liberals have a job on their hands trying to shake chairmen loose from their pedestals.

Fat Man Has Reasons To Enjoy Season

By HAL BOYLE

NEW YORK (AP) — Every person has a reason to enjoy the Christmas season.

But the fat man has the most reasons. It is his time of year. He basks in the shadow of the overpowering public acceptance of the plumpness of Santa Claus.

The week before Christmas and the week after the fat man is the symbol of plenty and joy on an earth that has never had too much of either.

The phrase, "Nobody loves a fat man" becomes the phrase, "Everybody loves a fat man." It is no longer un-American to be overweight.

The fat man becomes a kind of walking Christmas tree spreading gladness and contentment wherever he goes.

The people who used to laugh at him now laugh with him. Anything he says is cheery and jolly and funny.

They love to see the fat man's chuckle spread from one dimple across his wide facial horizon to the other dimple, then ripple down his three or four chins and echo back with a deep belly laugh.

Those who normally punch his protuberant tummy in ridicule now pat it with affectionate respect, for it stands for something they recognize as important: mankind having a good time in a sorry century.

And the fat man, the ambulant shaven image of Santa Claus, loves his role to the hilt.

"Pass me the mashed potatoes," he cries deliriously. "Where's the gravy? Be sure to save me two pieces of mince pie for dessert."

And strangers in the restaurant look up and smile and beckon to a waiter and tell him, "Send that fat fellow over there an after-lunch drink, and put it on my bill."

Yes, the fat man is the hero of the hour. All are pleased as Punch to see him waddling merrily by.

And what about the fat man himself? Does he really relish this unexpected bonus of adulation? Is he all that happy within?

No, sad to relate, he is only playing Pagliacci for the fickle crowd, hollering "Ho, ho, ho!" outside, while inside he is crying to himself, "Boo, hoo, hoo!"

During the Christmas season he stuffs himself more than he really wants to, he overeats to please the mob, because this is what they demand of him. He is an actor who must satisfy his audience. The show must go on.

But he knows that on the first of January the show will end. The season of overindulgence will be over. The fat man will again become for the next 50 weeks just a guy taking up too much space in a crowded world.

Junior Editors Quiz on PINEAPPLES

QUESTION: Why the name pineapple—since it's neither a pine nor an apple?

• • •

ANSWER: Pineapples do not grow on trees as do pine cones and apples. But they have the rough scaly look of the pine cone and the general shape of the apple, this combination being the reason for the name.

The pineapple plant is a native of tropical and sub-tropical America. Columbus, Sir Walter Raleigh and others found these fruits growing in the West Indies. Soon they spread to Africa and India, the crowns of fruit on shipboard being cut off and these later planted. Planting is also done by using suckers near the base of the stalks, slips at base of fruits and ratoons or bud roots. The plant has 30 or 40 stiff leaves spaced around a thick stem. A flower stalk appears with separate flowers of lavender color; then these fuse to form the fruit, which takes from five to six months to ripen. The best flavor comes when the fruit is allowed to ripen on the plant, which is the reason so much of our pineapple comes in canned form, preserving all the delicious original flavor. Our new state of Hawaii gives us most of our pineapple preserved in this way, although we also get pineapple from Florida, the Bahamas and the West Indian islands, and the Phillipines.

FOR YOU TO DO: Here's a suggestion you'll like: For a tropical-tasting treat, try some crushed canned pineapple on vanilla ice cream.

(Blaise Baker of Spencer, Mass., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash, for this question. Mail yours on a postcard to Junior Editors in care of this newspaper, and you may win the weekly grand prize of Compton's Pictured Encyclopedia.) 12-22

Tigers Win No. 13! C-City Here Tonight

Hamlin's Pied Pipers fell to the Snyder Tigers for the second time this season last night, as the Bengals romped to an 81-63 decision in marking up their 13th victory in 14 starts.

They'll go after Victory No. 14 tonight in Tiger gym when the Colorado City Wolves pull into town to repay a season - opening visit.

Hamlin made a determined bid to keep themselves in the ball game last night, and they gave the Tigers trouble in the second quarter. However, Coach Ned Underwood's forces pulled steadily away in the third period to erase any doubt about the eventual outcome.

Snyder started fast, leaping out to a 12-3 lead early in the game. But Hamlin awakened and it was 24-14 at the end of the first quarter and 41-33 at half-time.

The Tigers bolted out rapidly in the third, scoring 27 points while the Pied Pipers were collecting 14. Underwood deluged the court with reserves in the fourth quarter, with first line performers seeing scant action in the final chapter.

The Bengals had three men in double figures, Jerry Vestal, the leader for the evening with 18 points, teamed with Leslie Anderson to keep the locals in front in the first half when other members of the team were having trouble finding the range. Anderson got 15 points for the evening, 10 of them in the first period. Vestal roped 10 the first half and 8 the second half. Then Leslie Brown, suddenly found the range in the big third quarter, hitting 11 points in that frame alone to wind up with 15 for his night's work.

In the first half both teams hit 50 per cent of their efforts from the field, with the Tigers connecting 19 times in 38 tries, while Hamlin hit 14 of 28. In the second half, Snyder hiked its percentage to 55 with 18 of 33, while Hamlin's pace lagged with 12 of 30 for 35 per cent.

There was a close battle on the boards, with Snyder pulling in 39 rebounds while Hamlin was claiming 37. Phillip Floyd was top man in that department with 9.

Big Mike Shivers was Hamlin's offensive leader. He connected on 11 field goals and five free throws for a total of 27 points.

In the preliminary game, Snyder B had an easy time in disposing of Hamlin B, 77-34. Rob Golden, with 13 points, was the only Snyder B performer scoring in double figures, but no less than 12 Snyder lads contributed to the scoring.

Tonight's action will begin with a B game at 6:15 p.m.

In their season - opener, at Colorado City, the Tigers dropped the Wolves 96-56, while Snyder B won a 58-37 decision.

Wolverines Back On No. 1 Perch

By BOB GREEN
Associated Press Sports Writer

Michigan's mighty Wolverines, bounced out of the No. 1 spot last week, bounced right back in again.

The Wolverines, who beat Wichita 87-85 in their only outing last week, were named first on 28 of the 42 ballots cast by a national panel of sports writers and regained the top spot among the nation's collegiate basketball teams today.

Michigan polled 387 points on the basis of 10 for a first-place vote, nine for second, eight for third, and so on. Wichita, which had replaced Michigan as No. 1 in last week's poll, slipped back to second with five first-place votes and 317 points.

There was a general shuffling of the top ten, with only sixth-ranked Duke remaining in the same position.

Unbeaten Minnesota and once-beaten UCLA and St. Louis all moved up one spot, to third, fourth and ninth, respectively. San Francisco, unbeaten at 5-0, slipped two spots to fifth while three newcomers—Illinois, Indiana and Davidson — moved into the top ten replacing St. John's, N.Y., Kentucky and Vanderbilt.

Michigan, like Wichita, now has a 5-1 record. The Wheatshockers rebounded from their loss to Michigan with a 71-60 victory over Drake in their only other outing.

Minnesota, unbeaten in five straight, moved up a notch on the strength of a convicing 88-69 romp over a good Utah State team while two other Big Ten schools — Ilinois and Indiana —also made the select list.

Illinois, now 6-1, won Kentucky's invitational tourney last week, beating the hosts 91-86 in the title game and gained the No. 7 spot, while Indiana, unbeaten in seven starts, took over No. 8.

The top ten, with first-place votes in parentheses, and points:

1.	Michigan (28)	387
2.	Wichita (5)	317
3.	Minnesota (4)	263
4.	UCLA	231
5.	San Francisco (2)	228
6.	Duke	161
7.	Illinois	129
8.	Indiana	118
9.	St. Louis	104
10.	Davidson (1)	68

SPORTSCUTTLE

In case you have wondered about the community benefits which accrue from sponsorship of playoff football games, nothing but good reports have emerged from three such ventures spearheaded here this fall by the Snyder Chamber of Commerce.

Tiger Stadium here was the site of playoffs on three successive weekends, beginning on Thanksgiving Day. The Thanksgiving Day event matched Denver City and Iowa Park, and before nightfall that day several local service stations had sold out of gasoline. There was other "business" such as lodging and meals for teams and meals for scores of visiting fans.

* * *

Moreover, there was a goodwill factor which local citizens should not ignore. Letters lavish in their praise of Snyder, its Chamber of Commerce, Jaycees, city officials and others came in from Denver City, Stamford, etc.

Typical was a letter from V. V. Vaughn, Denver City High School Principal, to Woody Forrester, manager of the Snyder Chamber of Commerce. Said Vaughn, "I know that I express the feelings of our sudents, football team and citizens when I say that we have never received a more wonderful reception than was extended by the citizens of Snyder. I have heard many fine comments from our people on the way that they were welcomed in Snyder. Certainly this is a credit to the work of your organization in sponsoring playoff games in your city."

There was a letter equally appreciative from Stamford.

* * *

However, another letter, which came quite unexpectedly, is thoroughly appreciated here. It came from Henry Black, mayor of Crowell, and was addressed Mayor J. Mark McLaughlin of Snyder.

"A group of citizens of Crowell were visitors in your lovely city Saturday to attend the football game between Archer City and Big Lake," Mayor Black wrote.

"We were greatly impressed by the spirit of friendliness and courtesy that was manifested by your citizens. Everywhere I looked there was a Snyder Jaycee doing some favor for someone. Truly your western hospitality cannot be excelled.

"I want to congratulate your city and your school on the wonderful school plant and stadium that you possess. It was a treat to be in it.

"Just in case your Chamber of Commerce might have doubts about sponsoring such events as you had Saturday, I might say that we met friends in Snyder from Hobbs, New Mexico, and Petersburg. We ate in Snyder and also bought gasoline. One thriving business will help the other businesses."

* * *

"Stuttering Sam," who filled a similar engagement here a few years ago, was the surprise guest speaker Saturday night at Big Spring's football banquet. Introduced as an assistant coach at Chickasha, Okla., he was supposed to be pinch - hitting at the last minute for J. T. King, the Texas Tech coach.

* * *

Ray Nagel, the bespectacled distinguished looking head coach at Utah University, whose Utes won the Liberty Bowl game last Saturday, is a lawyer yet. A graduate of UCLA, he formerly was on the staff at his alma mater and at Oklahoma University.

Royal Is Disturbed Over Longhorn Drills

AUSTIN (AP)—Texas has taken off from practice for the Orange Bowl with Coach Darrell Royal a little disturbed over the progress.

Huskers In Hard Drills

BROWNSVILLE (AP) —Coach Rob Devaney of Nebraska wanted it to be a little hotter today as he sent his Cornhuskers through their third and fourth workouts in preparation for the Cotton Bowl game against Arkansas Jan. 1.

It was 63 degrees Monday when Nebraska hit the field for two two-hour drills in which a little scrimmage was mixed.

There will be one hard, controlled scrimmage before the Cornhuskers wind up training here and depart for Dallas, site of the Cotton Bowl game, on Christmas Day.

It probably will come on Christmas eve when Devaney plans to have a public scrimmage. He originally had planned it for Wednesday night but changed the schedule.

Devaney wasn't satisfied with the condition of his squad and hoped for a couple of hot days "so we can get in shape a little quicker."

Indiana Marksmen Red Hot

By DICK COUCH
Associated Press Sports Writer

Basketballs don't bounce much back home in Indiana. They're too busy dropping through the hoop.

Indiana's unbeaten Hoosiers paralyed the deadly outside shooting of Tom VanArsdale and Al Harden into a 107-81 rout of upstate neighbor Notre Dame at Fort Wayne Monday night. It was the seventh victory for the Big Ten darkhorses, whose 93.6 points-per-game pace has carried them into eighth place in the Associated Press national ratings.

VanArsdale, one of the Hoosiers' 6-foot-5 twin-brother tandem, potted nine of 12 shots from the floor and took care scoring honors with 21 points. Harden came off the bench and hit six of seven field goal attempts, turning the contest into a runaway.

Indiana shot just under 50 from the field and missed only two of 27 free throws in handing the Irish their third straight setback.

Another Hoosier backer, Purdue's Dave Schellhase, connected on 16 of 28 shots and nine of 11 free flips, pulling the Boilermakers from a 20-point deficit to a 79-73 decision over Ohio U. at Lafayette, Ind. Schellhase bagged 22 points in the second half as Purdue ran its season mark to 4-1.

Providence and Utah extended their winning streaks to seven but Morehead's 89-82 loss to Murray State in the first round of the Ohio Valley Conference Tournament at Louisville cut the major college unbeaten list to 10 teams.

Sophomore Dexter Westbrook scored 18 points and grabbed 18 rebounds, leading Providence past visiting Bowling Green 76-65. Utah edged Santa Clara 87-63 at Salt Lake City behind the Rail-hawking and 26-point scoring of 5-foot-11 Granville Nash.

SPORTS

Oilers Expected To Name Taylor

HOUSTON (AP) — The Houston Oilers were expected to name Hugh (Bones) Taylor, 41, their new head coach at a news conference today.

The conference was called for 1 p.m. EST.

Taylor is an Oiler assistant and former pass receiving star with the Washington Redskins.

Taylor had figured prominently in speculation ever since Sammy Baugh announced his resignation last Friday.

Baugh said he wanted to spend more time on his ranch in West Texas.

There also was speculation Taylor would name Baugh his backfield assistant and Lou Rymkus his offensive line assistant.

Rymkus coached the Oilers to the American Football League's first championship but Oiler owner K. S. Bud Adams Jr. fired him after his 1961 team got off to a slow start.

Wally Lemm, who succeeded Rymkus, led the Oilers to 10 straight victories to retain the championship.

Lemm replaced Frank (Pop) Ivy in 1962 with the St. Louis Cardinals and Ivy moved to Houston for two years.

He hired Baugh as an assistant last May. Two weeks later Adams abruptly fired Ivy as head coach and general manager and named Baugh as head coach.

When Baugh announced his decision, he said he would be an applicant under his successor.

Taylor, a native of Wynnee, Ark., became Oiler defensive backfield coach when Baugh replaced Ivy. From 1947 through 1953 Taylor was a favorite pass receiver of Baugh when they played for the Redskins.

Mickey Wright Top '64 Money Winner

CINCINNATI (AP) — Mickey Wright collected $31,920 in 1964 to become the the top money winner in the Ladies Professional Golf Association for the fourth straight year.

The Dallas, Tex., golfer won $29,800 in official tournaments and $2,120 in non-sanctioned tourneys, Leonard F. Wirtz, tournament director of the LPGA, announced Monday. She won 11 official tournaments.

Hermleigh JH Wins 2

IRA — Hermleigh Junior High basketball teams won by scoring from Ira boys here Monday. The Hermleigh girls took a 33-18 decision, while Hermleigh boys won over Ira boys 31-[illegible].

For Hermleigh girls Sharon Pepper had 13 points, Jan Averitt 10, Sherry Adams 4 and Jane Wall 2. Debbie James scored 14 for Ira girls, while Carolyn Rogers and Susie Rasco had 2 each.

Tom Cloyn paced Hermleigh boys with 14 points, Leonard Kuss had 8, David Grove 4, Gary Brannon 3 and Robert Patterson 2.

For Ira boys, Terry Sterling had 6, Richard Hester and Joe Williams 4 each and Doug White 2.

HOLIDAY Helper

There are so many, many things for the busy homemaker to do at holiday time, but one thing helps make them easier . . . your dependable electric service. Whether it's preparing holiday meals, cleaning house for company or tidying up afterwards, electric appliances help save your time and energy . . . leave you more hours to spend with your family and friends. During the holiday season, when electricity does so much to make your work lighter and the occasion brighter, electric service again proves to be the biggest value in your home.

Tiny Church Is Moved

COVINGTON, Ky. (AP) — The world's smallest church — the Monte Casino Chapel which has been on a hillside since 1878 — is being moved today.

It was hoisted onto a flat-bed truck for the four-mile journey to a new site in Kenton County where it will become a part of the new Villa Madonna College campus.

A monk, Albert Soltis, built the small stone church in 1878 as a retreat for his wine-making Benedictine brothers who founded a monastery here. The monastery has long been abandoned and the church is all that remains.

The church is four feet wide and six feet from entrance to back wall. Its steeple was removed to allow for clearance under utility lines.

Fred Riedinger of Lookout Heights became the owner of the church in 1957. He gave it to Villa Madonna as a memorial to his mother, Alma Riedinger.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — Glancing at the front page we note there is nothing unusual going on in the world. Just the run of the mill brush wars, uprisings, a threat or a warning by nations here and there and all sides apparently content that nobody will do anything about it.

Therefore let us turn to the psychological news and contemplate the advice of a group of mental gentlemen. They ask rather pointedly, "What will YOUR child be as an adult?

I did interview Mr. Sanchez, our neighbor across the street, on this matter and he replied, "I assume they will be grown up. What else is new on this bright and sunny morning?"

The psychologists, however, appear a bit more concerned about future generations. Maybe it is only curiosity they display because there is nothing else to investigate at the moment.

And after asking this question to which there is no answer, they launch into some complicated speculation about what your child COULD possibly be if you do or don't watch it.

When I was sporting flour sack underwear children were accepted as members of the family and raised by an outdated method known as common sense. However, that was before psychology was invented.

Even today in most rural areas of Mexico you find primitive parents who (unaware of the dangers of living) just go ahead and raise their offspring instead of sending them to psychiatrists to find out what is wrong. (At $25 an hour on the sofa, a snydrome or complex can always be found.)

Taking a quick rundown on our family, one daughter is about to become a doctor of chemistry. She is the one who can read and write. The others are studying to become bohemians.

Unfortunately, my 12-year-old copilot wants to become a writer so possibly he will need electro - shock treatment before long.

Then Miss Mary. She is almost four and obviously will be a lady wrestler which more or less settles that. Mr. Jim, at eighteen months, hasn't mentioned any ambitions yet but we assume he will bring up the subject when he is ready.

The real problem is that the Lady from Puebla read this article and has begun pestering me in all sorts of ways.

She wakes me up at 2 a.m. and says, "I've been thinking about that thing the psychologists wrote. What are you going to be when you grow up?

And I tell her, "Tired. For Heaven's sake go to sleep."

Then she asks, "How can I sleep being worried like I am? You are a fortyeight year old boy and will soon have to start making a living. You can't hang around newspapers all your life. What do you want to be?"

And I tell her, "What I want to be is left alone. Please sleep."

So she says, "Has it occurred to you that some of the children might be juvenile delinquents?"

My standard answer is, "The problem with the world is not juvenile delinquents. It is the adult delinquents who believe what they read."

Eventually she lets me alone for a while.

I decided some years back I would become a professional money spender when I am grown but I will never mention the matter to her. She would be bugging me constantly to find out where I will get the money.

So far, I haven't the faintest idea.

MAGNETIC BOTTLE—The new Multipole "Magnetic bottle," conceived and developed by scientists of the controlled fusion research program jointly sponsored by the Texas Atomic Energy Research Foundation, of which Texas Electric Service Co. is a partner, and General Atomic Division of General Dynamics. At the Multipole is Dr. Tihiro Ohkawa, co-inventor of the unique machine which is used to study the confinement of intensely hot deuterium gas (plasma) within magnetic fields of containment. The research has attracted world-wide attention.

Controlled Fusion Program Is Of World-Wide Interest

EDITOR's NOTE) — This is another in a series of articles on research being conducted in the controlled fusion program of the Texas Atomic Energy Foundation and General Atomic Division of General Dynamics at General Atomic laboratories in San Diego, Calif.

• • •

Original research, both theoretical and experimental, carried out under the jointly - sponsored controlled fusion program of the Texas Atomic Energy Foundation and General Atomic Division of General Dynamics has attracted worldwide attention.

Data developed by the scientists of the TAERF - GA program is closely studied in laboratories here and abroad, including those in Soviet Russia where controlled fusion research holds a priority second only to space exploration.

The scientists of the TAERF-GA program likewise keep abreast of the latest developments in the Russian research, some of which parallels the approaches being pursued in the General Atomic laboratories in San Diego. A two - way flow of controlled fusion information is maintained between the East and West, through international conferences and scientific journals.

Some of the fundamental plasma (ionized gas) theory, which serves as a basis for present-day fusion research throughout the world, was deveoped in the TAERF-GA program.

This worldwide interest in the Texas - General Atomic research — which ranks as the world's first and largest privately - financed program in the field of controlled fusion reactions — is exemplified by the almost steady stream of prominent scientific visitors to the General Atomic laboratories.

Foreign scientists, government officials and student groups from more than 25 countries of Europe, Asia, Africa, North America, South America, and Australia have visited the laboratories to witness the work at first hand, since the joint program was established in 1957.

Foreign scientists are attracted to the TAERF-GA fusion laboratories not only as visitors, but as active participants in the research.

A number of scientists from leading national laboratories and research centers overseas have come to General Atomic to serve terms as members of the controlled fusion project. Foreign scientists currently at the laboratories and their areas of special interest are:

Dr. Tihiro Ohkawa, from the University of Tokyo and the European Center for Nuclear Research (CERN) at Geneva, Switzerland — in charge of experiments with the new Multipole "magnetic bottle" of which he is co-inventor.

Torkil Jensen, from the Riso Research Laboratories in Denmark — experiments with Mirror machines for plasma confinement.

Dr. Fred Schwirzke, from the Institute for Plasma Physics, Max Planck Institute, Munich — anomolous diffusion experiments.

Dr. Masaji Yoshikawa, from the University of Tokyo — Multipole experiments.

Dr. Hans Fleischmann, from the Technische Hochschule, University of Munich — Mirror experiments.

The TAERF - GA research, both theoretical and experimental, has been the subject of some 150 papers and lectures before scientific gatherings, in this country and overseas, as well as numerous publications in scientific journals.

in ad controlled 3 col 36 joyce

In the seven years that the joint program has been underway, its scientists have played prominent roles at eight international conferences, beginning with the Second United Nations International Conference on the Peaceful Uses of Atomic Energy in Geneva in 1958, and — most recently — at the opening last month of the new International Center of Theoretical Physics in Trieste.

TAERF - GA scientists also have received major awards in recognition of their work.

For example, Dr. Marshall N. Rosenbluth, who holds international distinction for his development of plasma theory, was a 1964 winner of the coveted Ernest Orlando Lawrence Memorial Award for "meritorious contributions in the field of atomic energy." He was cited for "many brilliant contributions to the theoretical understanding of plasma." The citation described him as "one of the world's leading plasma theorists" and said: "His highly original work points the way toward achieving the stable confinement of a thermonuclear plasma which is necessary if a successful fusion reactor is ever to be built."

Dr. William E. Drummond, theoretical physicist who has been associated with the joint TAERF-GA program, recently returned from Trieste and the opening of the International Center for Theoretical Physics where he lectured on quasi-linear theory before an international audience.

At the International Center, Dr. Drummond has the opportunity to talk with Russian scientsits engaged in plasma physics work, and particuiarly those working in Dr. Drummond's specialized field of plasma turbulence, which is a field of major interest in the Soviet Union.

Dr. Drummond had met some of these Soviet scientists at the International Conference on Plasma Physics and Nuclear Fusion Research, in Salzburg, Austria, in September of 1961.

Dr. Rosenbluth, early in 1964, was one of ten U. S. scientists and plasma physics leaders who visited Russian scientific establishments on an official U. S. government mission.

At Salzburg, where Dr. Rosenbluth was selected to make the Conference's official closing summary of theoretical work, he told the delegates of the more than 40 countries:

"I may say from the heart that I believe the chances are very good that in 20 years mankind will have solved the problems of controlled fusion, if only he has not lost, in the meantime, the far more difficult struggle against uncontrolled fusion."

Other international conferences at which scientific papers from the TAERF-GA program were presented included:

Fifth International Conference on Ionization Phenomena in Gases - Munich, 1961; American Physical Society - Mexico City, 1961; Culham Laboratory Study Group on Plasma Instabilities-Harwell, England, 1962; Sixth International Conference on Ionization Phenomena in Gases-Orsay, France, 1963; Fontenay Study on Mirror Configurations - Fontenay - aux - Roses, France, 1963; International Symposium on Plasma Phenomena and Measurement - San Diego, 1963.

Scientists of the TAERF-GA program also have been selected to deliver many papers before U. S. scientific bodies, including the American Nuclear Society, American Physical Society, American Power Conference, and the National Academy of Sciences.

At the American Physical Society's 1964 annual meeting of its Division of Plasma Physics in New York last month (November), General atomic staff members played a prominent role with a total of 14 of the meeting's scientific papers.

Letters To Santa

Dear Santa,

My name is Tommy, and I am 5 years old. My Mommie is [illegible] for me. I guess I can't write yet. I [illegible] for you to bring me some toys and clothes. I guess I want a watch, gun and holster, rifle and some trucks. I love you.

Tommy Pettitt

• • •

Dear Santa

I have been a good girl. I want a Sweetie Pie doll and a watch. And don't forget my sister and brother and my father and mother and Missie my dog. They have all been good. I love you.

Lisa Krause

• • •

Dear Santa

My name is Mark Rhodes. I want Johnny Seven, O.M.A. an Army set, airplane, set of building blocks and a dump truck. Please remember everyone else in the world. I think I have been a good boy most of the year.

Mark Rhodes

• • •

Dear Santa,

We sure have tried to be good little girls this year, and know you will bring us just what we want. We want a doll that her hair grows and an electric train. We hope you will be good to all of the good little girls and boys and that you will bring them just what they want just like we know you are going to bring us what we want. We love you.

Pam and Uleita

• • •

Dear Santa

My name is Kevin Neyman. [illegible] New Mex[illegible] but would you please come to see me at Uncle Mickey's house. I want a gun and Chatty Baby Brother doll and just any thing you think a 3 year old boy would like. Don't forget where I'll be. I love you.

Kevin Neyman

P. S. We will bring you some cake.

• • •

Dear Santa

My name is Zane Todd Sterling. I am 4 years old and would like to have a football suit, a baseball suit and some guns if you have any nuts and candy I sure do like them too.

Santa, remember all the other boys and girls and don't forget my sister Melisa Anne and my brother John Robbie. Thank you Santa.

Zane Todd Sterling

• • •

Dear Santa:

We have been good this year. I want a Va-Room Motor, a gun and a bicycle with training wheels. My sister wants a Pata-[illegible] doll and a Barbie doll. Baby Jeff is a little baby. We try to mind our mother. We will leave you a carrot and a glass of milk.

Gail and Charlie

• • •

Dear Santa

I would like Baby Pamalamb, Patty Duke game and paints. [illegible] basket for my bicycle please. Thank you.

Waynann Montgomery

• • •

Dear Santa

I would like Miss Deep and some house shoes and two books and some skates.

Wendy

• • •

Dear Santa

I hope I have been pretty good this year. Please bring me a drink doll. I would like to have some clothes for me and my Barbies. Please bring me a game of any kind.

I am very, very thankful for all of the nice things that you brought me last year, too. I am also thankful for the nice things other people gave me. I am 8 years old.

Cecina Francis Henderson

Dear Santa

I have been a good girl this year. Please bring me a Charming Chat, [illegible] and some dishes. Thank you for the toys you brought me last year. I am 4 years old.

Keith Jean Henderson

[illegible] the Federation of South Arabia includes 23 sultanates, sheikdoms and emirates and the former British crown colony of Aden. The capital is Al Jitthad.

VIET NAM AREA

Importance Of War Stressed

By FRED S. HOFFMAN

WASHINGTON (AP) — The Army is telling its 970,000 men around the world that in terms of the issues at stake the war in Viet Nam is as critically important as any in history.

This statement is contained in a publication entitled "Our Mission in Viet Nam." Army officials said the 12-page publication is being distributed to Army men everywhere.

The Army is carrying a large part of the load in South Viet Nam. About 65 per cent of the 21,600 American military men there are wearing Army uniforms.

Most of the U.S. casualties have been sustained by Army men—171 of the 237 combat dead and more than 1,270 of the 1,400-plus wounded.

"Experience has shown that there is simply no other way to teach the techniques of effective combat to any army at war," the publication said in seeking to explain why American soldiers accompany Vietnamese formations in fighting operations.

The pamphlet, illustrated with a map and action photographs, traces the origin of the present crisis in South Viet Nam: Communists setting out to gobble up the country and the United States coming into the picture when South Viet Nam asked for help.

In answering the question: "Why are we in Viet Nam?" the troop information publication attempts to project the significance of the Vietnamese struggle beyond its present dimensions.

"South Viet Nam has clearly become a major testing ground for a comparatively new Communist strategy," the publication says.

This strategy was described as cloaking subversion in the guise of "wars of liberation," which is the way that the Communists portray the war in South Viet Nam.

"If the Communist strategy of subversion and guerrilla insurgency were allowed to succeed in Viet Nam," the Army said, "communism would be encouraged to exert similar efforts in other countries of Southeast Asia and eventually in other parts of the world.

By its "unflinching support" of South Viet Nam, the Army tells its troops, the United States is demonstrating "that we do not intend to stand aside and let freedom die in Southeast Asia or anywhere else."

COMPLETES TRAINING — Marine Pvt. Larry D. Ball, son of Mr. and Mrs. E. L. Ball, Route 3, Snyder, has completed recruit training at the Marine Corps Recruit Depot, San Diego, Calif. He has been sent to Camp Pendleton, Calif., for advanced infantry training.

Facing Bleak, Joyless Christmas, Young Mother Plunge From Bridge

SAN FRANCISCO (AP) — Isabelle Kaimoa, 30-year-old Oakland, Calif., housewife and mother of four, faced a joyless Christmas.

She should be separated from her youngsters on Christmas Day.

There was the chance she might be pregnant with a fifth child. She feared pregnancy could reactivate her arrested case of leprosy.

Early Monday morning she slipped out of the house while her husband slept, got into the family car, and joined the commuter traffic to San Francisco.

Mid-way across the Bay Bridge she stopped, got out of the car, climbed the railing, and plunged 232 feet into the chill, storm-whipped San Francisco Bay.

Six minutes later a Coast Guard boat on patrol near the bridge plucked her alive from the water.

Within minutes she was taken to San Francisco Hospital, still clad in her dripping, blood-stained housecoat. Doctors operated to repair a severe pelvic laceration and a broken pelvis.

Late Monday night she was in critical condition, but an assistant administrator at the hospital said she was responding.

Royal Kaimoa, 37, a big, black-haired mechanic, maintained a vigil in the emergency ward's waiting room. His eyes filled with tears as he told of the last few bleak days.

"We didn't do much about Christmas," he said. "She told me what to buy for the kids and I went out and bought the presents. I didn't buy a tree for us. We didn't even send out Christmas cards this year. She didn't want to be reminded about Christmas."

His wife, he said, has had leprosy since she was quite young—an arrested case that flared up again with the birth four years ago of their youngest son.

Two of the children, Royal, Jr., 10, and John, 4, live across the street with her parents because the disease is believed communicable only to children. Two older children were adopted by a family in Honolulu when the couple left Hawaii for the mainland in 1957.

She could watch through the windows when Royal left for school and came home again. On Sundays, with a U.S. Public Health nurse present, she could sit near John in a nearby park.

"But she couldn't kiss him," Kaimoa said. "There could be no physical contact."

"Last week she was afraid she was pregnant again," he said. "She thought the pregnancy would reactivate the leprosy. She told me she had an appointment with a doctor today. When I woke up she was gone."

Only one other person has leaped from the bridge and lived. In 1937 professional stuntman Ray Woods plunged from nearly the same spot. He broke his back and could not walk for three years. In 1942 Woods fell overboard on a quiet river fishing trip and drowned.

Lady Bird Celebrates Her 52nd Birthday

JOHNSON CITY, Tex. (AP) — Mrs. Lyndon B. Johnson observes her 52nd birthday today and a White House spokesman said she was expected to spend most of the day wrapping Christmas presents and decorating the Johnsons' ranch home.

Press Secretary George Reedy said there were no plans for a birthday celebration for the First Lady.

Texas Gins Busy With Backlog

AUSTIN (AP) — Farmers had a sizable backlog of cotton in gin yards before last week's blue norther hit the Panhandle, the U.S. Department of Agriculture says in its weekly crop-weather report.

Cotton harvesting is 85 per cent complete and even for the first time with last year's rate, the department said Monday.

Peanut harvest reached 94 per cent, compared with 96 per cent at this time last year, before the cold weather moved downstate.

Soybean combining neared completion, sugar beet digging passed the three-quarters mark and oat prospects remained favorable.

Unprotected livestock suffered from the norther, the report said, but recovered quickly with supplemental feeding and moderate weekend temperatures.

Low temperatures "did little or no damage to hardy winter vegetables" in the Rio Grande Valley, the department said. "Citrus was unhurt by the cold and shipments moved to supply the holiday market."

Texans Plant More Acreage In Wheat

WASHINGTON (AP) — Texas has seeded 4 per cent more acres to wheat this fall than a year ago, the Agriculture Department estimated Monday.

It predicted the acreage for the state would be 4,162,000 for a crop of 66,592,000 bushels.

The winter crop yield is expected to be 1,042,036,000 bushels, up 2 per cent over this year's crop.

An estimated 45,117,000 acres were planted to winter wheat for all purposes, compared with 43,241,000 this year.

Science Finds Answer To Spacemen's Weightlessness

By HAROLD R. WILLIAMS

HOUSTON (AP) — Taking a walk in a spaceship is a pretty hard thing to do.

Unless you're restrained by straps or harnesses, you just float around because of the weightlessness of space.

Finding room to take a stroll can be a problem too. Up to now, the spaceships developed by the United States barely have enough room for the astronauts.

But the Apollo spacecraft, which will take three men to the moon, has enough room for the spacemen to move about. In fact, two of them will leave the command ship to transfer to a moon landing vehicle for the actual lunar landing.

A big problem arose—how to keep the men from flying all over the space cabin without strapping the astronauts down so tightly they couldn't move.

Space engineers, ingenious at solving problems simply, looked at an innovation in women's purses—strips of a hook-and-pile fastener that mesh together, acting much like prickly plant burrs stuck to each other.

Why not put a strip of the tape on the bottoms of shoes, the engineers thought, and other strips on the spaceship floor? It worked.

Hardman Tool & Engineering Co. of Los Angeles developed the shoes. They were named "lunar loafers."

Weighing less than one-half pound each, they enclose the ankle, are padded, have ventilation holes and are made of moccasin-soft, royal blue thermoplastic.

The sticky patches of tape are attached to the heel and toe sections of the loafers, officially called "crewmen weightless restraint sandals."

The spaceship floor will be covered by opposite patches of the tape. As the astronaut walks, the myriad, hook-like tendrils of tape on the soles mesh with the burrs on the floor. They peel apart and fasten again with each step.

Sonic Booms To Begin

CHICAGO (AP) — A wide sweep of East and Central Texas can expect some sonic booms starting Jan. 1.

The Strategic Air Command said Monday it will use supersonic test corridors near the Gulf of Mexico and over Lake Michigan from January through March 31.

Bombers flying at speeds up to 1,300 miles per hour will make almost daily training flights, starting 20 miles southeast of Paducah, Tex., over Austin and ending near Shiner, Tex.

Radar bomb scoring equipment at Bergstrom Air Force Base near Austin will score simulated bomb drops.

The Illinois test will extend from the north tip of Lake Michigan over Chicago to a point east of Omarga, Ill.

SAC spokesmen said B58 Hustlers will cause sonic booms along the routes. However, they said the booms will be comparatively weak since the missions will be flown at altitudes above 35,000 feet.

Injured Airman Has Second Brain Surgery

SAN ANTONIO (AP)—Airman 2 C. Edward Hastings, who was shot three times in the head but had recovered enough to walk around the hospital, underwent brain surgery a second time Monday.

Wilford Hall Air Force Hospital doctors said he was in good condition.

On Dec. 3 surgeons removed three bullets from his brain in a seven-hour operation. Monday's hour-long operation removed bone fragments.

Hastings was shot Dec. 2 and found wandering in sub-freezing weather near Sheppard Air Force Base at Wichita Falls.

Two .38 caliber bullets entered the left side of his head just above the ear. The third struck directly in the back of the head.

Mishap Takes Two Lives

DALLAS (AP) — A new compact car carrying five high school girls jumped a freeway guard rail and fell 45 feet onto an old pickup truck Monday, and the accident claimed two lives.

Ben Woods, 76, Dallas Negro, died in his crushed pickup.

Teresa Peebles, 15, one of the car's occupants, succumbed to injuries four hours later. She was the daughter of Mr. and Mrs. Sidney Peebles.

Critical injuries were suffered by another of the girls, Mary Josey Rios, 15.

Police said Catherine Painter, 18, was driving the compact on the Thornton Freeway in a race with another car of high school students at speeds up to 90 miles per hour.

Miss Painter was dismissed after hospital treatment but two other girls riding with her were reported in serious condition. They are Rita Rains, 15, and Elvira Gonzales, 16.

Crude Production Off

TULSA, Okla. (AP)—Average daily production of U.S. crude oil and lease condensate declined 8,050 barrels last week, dropping to a daily total of 7,717,020 barrels, the Oil & Gas Journal said today.

Oklahoma production for the week ending Dec. 19 stood at 561,700 barrels daily, down 4,800 barrels.

Kansas production reached 184,700 barrels, an increase of 3,000. California produced 821,300 barrels, up 2,200 per day.

Production was unchanged in Louisiana at 1,634,000 barrels, New Mexico at 317,700 and Texas at 2,682,400.

New...Holiday Ideas in Cartons of Coke

See? (and Free!)

Happy holidays! And to help, you'll find a colorful free folder of bright new holiday ideas in every carton of Coca-Cola. Food ideas and decorating ideas — all kinds of ideas to make your holidays merrier. Holidaying goes better refreshed. And Coca-Cola, with its bright lively lift, never too sweet . . . refreshes best. Pick up a carton . . . and be sure to look for your free folder of holiday ideas!

Bottled under the authority of the Coca-Cola Company by: Texas Coca-Cola Bottling Co.
