62ND YEAR

ELDORADO — SCHLEICHER COUNTY — TEXAS

THURSDAY, JANUARY 10, 1963

NUMBER 2

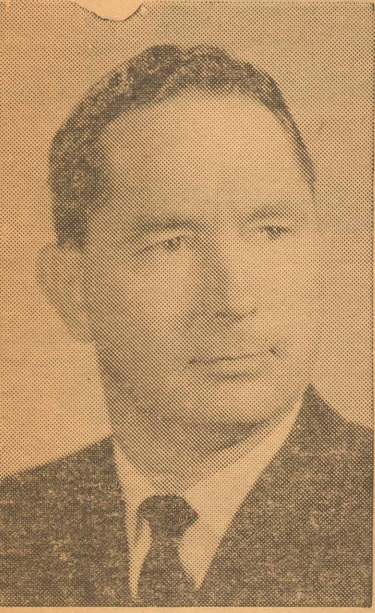

Schleicher County Bonds Paid Off In Full Before Due Date

In this issue of the Success there is published on page 7 the annual financial statement of the County of Schleicher, and there are several special features about it that are worthy of the taxpayer's attention. They are features that reflect credit on the Commissioners Court for their business like handling of the county's finances.

In the statement of bonded indebtedness you will find that four different bond issues have been paid off in full—and ahead of time. If you will check the statement you'll find that the first item is a bond issue for \$50,000 voted late in 1945 to pay the county's share of expenses for a new highway to Menard. The last payment of that series was not due until 1966, but it has already been paid and wiped off the books.

That was the first public project undertaken immediately after the close of the war. Right on the heels of this came a demand the

S. R. O. Greets New First Baptist Pastor

KENNETH VAUGHAN

There were chairs placed in the aisles when Rev. Kenneth Vaughan preached his first sermon at the First Baptist church here in Eldorado on Sunday morning.

The pastor expressed his appreciation for the fine turnout and for the large, active program maintained by the local congregation.

In taking over the pastorate here, 33-year-old Kenneth Vaughan is entering upon his third charge in 8 years. Born in Red River county July 29, 1929, he received his B. A. degree from Howard Payne in 1952 and his Masters in '55. This was followed by a Masters in Religious Education in 1956 from Southwestern Seminary in Fort Worth. His first pastorate was for two years at Brooksmith in Brown county from 1954-56, and then at Eden from '56 up to the first of this year.

Apparently a happy choice by the pulp committee, Rev Vaughan can be expected to continue and enlarge the busy program which has characterized the First Baptist and made it the largest church in Eldorado.

First National Bank Holds Annual Meeting

The shareholders of The First National Bank met in regular annual session Tuesday, reviewed the report of operations for a very satisfactory year in 1962, and re-elected the same directors, who are J. E. Hill, W. O. Alexander, George R. Long, Jo E. Hill, Sam E. Jones, and V. H. Humphrey.

The directors re-elected all officers and employees, elevating Mrs. Frances Peters to assistant cashier. The list of officials and personnel for 1963 will be: J. E. Hill, president; W. O. Alexander, inactive Vice-President; Leslie L. Baker, Vice-President; Raymond D. Hall, cashier; Mary Nell Harkey and Frances Peters, assistant cashiers. Other employees are Mrs. Donnie Ray Danford and Maudie Mitchell.

RECEIPT BOOKS, large desk size as well as small pocket size, for sale at Success Office.

SALES PADS for sale at the Success office.

following year for some kind of public improvement as a memorial to veterans, and the idea of a Memorial Building was born. A bond election for \$50,000 was called and approved by the voters. The last of these bonds was not due until 1966, but you'll see on the statement that these, too, have already been paid.

In 1950 bonds of \$40,000 were voted for the new Ozona highway. (We usually refer to it now as Big Lake.) Payments were set up to be paid annually until 1967 and the statement now reveals that they have already been paid in full.

Then in 1959 bonds of \$12,000 were voted for county fire fighting equipment. Due in November of 1963, they were paid in full in 1962.

So it's good to know that our county is in excellent financial shape and that its bonds are eagerly sought by investment houses. It should also be noted that our county taxes are the lowest of all the taxes we are called upon to pay.

Post Script

It was not an auspicious way to start of the New Year—we printed an error right off the bat.

We left out a zero last week and as a result located the new Whitten test nearly 2,000 feet from where it actually is.

Location is 2200 feet from the west line, but it came out in our paper as 220! Here is the correct description:

Location is 467 feet from south and 2200 feet from west line of Sec. 35, block LL.

I was looking out the window and saw it . . .

A new Chevrolet with automatic transmission was left at the curb in front of Parker's with the motor idling while the driver was in the store. Directly the car slowly backed out by itself, came around in a half-circle and came to a stop when it hit a car parked in front of Jackson Cleaners.

It was all done nice and gentle like—the rear bumper of one car coming in contact with the bumper of the other, and there was no damage done. It was a surprised driver who came out of the store minutes later to find her car moved 100 feet down the street. It had been left in reverse with the motor idling.

In another column we have called attention to our county's financial condition and to the fact that \$162,000 in bonds have been paid off in about 16 years—all of them before they were due.

Since the county is in good financial condition it seems that it would be in order for the Court to give some thought to some kind of a courthouse building program. Several offices up there are crowded. What used to be a jury room has been partitioned off and made into offices.

We were wondering, too, if this might not be the year for commissioners to lay out their precincts so that they will all four corner in the city of Eldorado. It's been brought up in the past but has never been made to stick.

Sixty voters can elect a commissioner in Precinct 2 or 3, while it takes about 600 to elect one in Precinct 1 which takes in all of Eldorado. While we have the highest admiration for our ranchers we don't think their vote should carry ten times as much weight as ours.

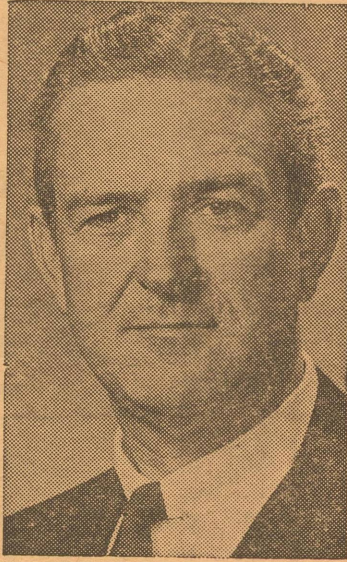

In an ad on page four you'll find that Alvin Farris is announcing a radio and television service.

Associated with him will be Toby Toburen.

Mikeska Gin reports 2785 bales processed up to 3:00 p.m. yesterday afternoon. It is estimated that there are about 200 bales yet to come. It's gonna be close to 3,000!

Poll tax sales continue to lag in the Sheriff's office. As of yesterday afternoon, the count stood at 339. Last year 750 poll tax payments were made.

Gov. John Connally to Be Inaugurated Tuesday

JOHN CONNALLY

Austin.—One of the most popular and colorful Inaugural Days in history has been forecast for Tuesday when John Connally and Preston Smith become governor and lieutenant governor.

The Inaugural Day festivities are unique because invitations or tickets are not needed to attend any of the four main functions of the day.

Despite this, a tremendous demand for souvenir invitations has completely exhausted the supply. More than 60,000 engraved invitations—containing the autographed prints of both Connally and Smith—were prepared.

That included a last-minute increase of 15,000. But it still was not enough and time is so short that no more can be engraved.

"We want to emphasize that everybody is welcome to all the Inaugural Day festivities," William C. Long said. He is general chairman of the Austin Inaugural Committee.

"No invitations or tickets are needed to get into any of the events," he said.

The day's activities begin at 8:00 a.m. in the Driskill Hotel with the Dedicatory Prayer Service. The principal speaker will be Dr. Billy Graham. Other activities will fill out the day.

Sudden Attack Proves Fatal to Mrs. A. G. Clark Sunday

Funeral services for Mrs. A. G. (Clevie) Clark, 48, well-known resident of Eldorado for 33 years, were held at 2:00 p.m., Tuesday at the First Baptist church, conducted by the Rev. Kenneth Vaughan. A church choir provided the music.

Pall bearers were: Glenn Parker, W. T. Parker, Palmer West, Lewis Whitten, Eldon Calk, Edwin Childers, L. D. Mund, and Marvin McAngus.

Interment was made in the Eldorado cemetery under direction of Ratliff-Kerbow Funeral Home.

Mrs. Clark was born Jan. 30, 1914 in San Antonio, the daughter of Mr. and Mrs. Henry Mercer. She moved with her family to Eldorado about 33 years ago. On May 28, 1931, she was married to A. G. Clark, who died in August 1959.

Survivors include two sons, Earl Dean Clark of San Angelo and Arnold Clark of Ozona; one daughter, Mrs. G. L. Adair of Lubbock; her mother and step-father, Mr. and Mrs. A. J. Halbert of Eldorado; six grandchildren; and three nephews.

Clevie, who had been in frail health for several years, and in and out of the hospital, passed away with tragic suddenness Sunday at a time when she appeared to be improving. She had been talking over the phone at the home of her mother, Mrs. Jack Halbert, Sr., when the instrument fell from her hands and she slumped to the floor. Apparently she died in her mother's arms. Doctors were summoned but were unable to restore a heartbeat.

When she was eleven years old Clevie figured in a rescue operation which brought her a Carnegie medal.

As related by her mother, Clevie was with a group of children playing in a creek not far from the family home in San Antonio. A rock thrown by someone on the bank, struck one of the girls on the head and she sank under the water. Clevie came to the rescue,

March Of Dimes Drive Is Now Under Way Here

The annual March of Dimes drive for the National Foundation is now under way in the county and it will be culminated the evening of Thursday, January 31st, with the Mothers March, a house to house canvass which has proved successful in past years.

C. J. Hahn announced plans for the March of Dimes drive. Anyone wishing to contribute to this cause may hand or mail his check to Mr. Hahn, or to Leslie Baker, treasurer. Or you may wait and give your contribution to the mother in your neighborhood who calls on you the evening of Jan. 31st.

Other local officers for the National Foundation are Dan Sebesta, county chairman; and Dr. John D. Blackburn, local medical advisor.

This year, 1963, is the 25th anniversary year of the March of Dimes which was started during the administration of the late President Franklin D. Roosevelt.

The National Foundation, which has long been known for its concern with polio victims and efforts to eliminate the scourge, has in more recent years branched out into birth defects and arthritis.

Type 2 Polio Vaccine To Be Given Friday At School Gym

Oral Polio Vaccine No. 2 will be given at the High School Gymnasium on Friday, January 11, from 12 Noon until 7:00 P.M. Everyone is urged to help stamp out polio by participating in this program of immunization. We would like to caution everyone that Oral Polio Vaccine No. 2 is not a booster for No. 1, but is immunization against a separate type of poliomyelitis. Even if you haven't received Vaccine No. 1, you may still take Vaccine No. 2, it was stated.

Infants under six weeks of age will not be given the vaccine, but NO ONE IS TOO OLD to receive it. Minor children must be accompanied by a parent.

Please bring your immunization record card which you were given with the first vaccine, it was stated by Dr. E. L. Dyer, Schleicher County Health Officer. Dr. Dyer's staff will assist him in the

immunizing tomorrow.

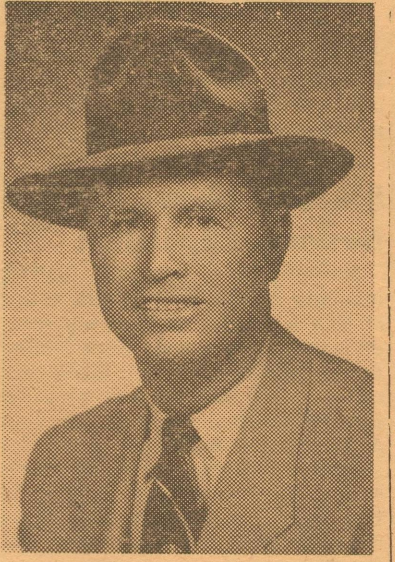

Children who had type 1 vaccine will not be required to have another certificate signed by parents. However, if a child did not take the first shot and wishes to take Type 2, he will be required to have permission from his parents.

As before when Type 1 vaccine was given, donations of 25c per dose will be accepted. Anyone unable to pay the 25c will be given the vaccine free.

A good percentage of Schleicher county citizens turned out during the Fall for the Type I vaccine, and an usually good, or better, turnout is expected tomorrow when Type II is given. As before, school officials are planning to cooperate in the immunization program by sending school students a class at a time.

Plans will be announced later in the Spring for giving Type III vaccine.

Stock Show Plans Under Way

Ed Meador, Pres. C of C

The Schleicher County Chamber of Commerce livestock committee, Gerald Hartgraves, chairman; W. T. Parker, Billy McCravey, W. F. Edmiston, J. H. Mace, and Gus Love, are actively engaged in getting the largest livestock show on its way to a successful climax, the showing and exhibiting of animals by some 81 4-H and FFA members. This year's stock show is set for Saturday, January 26.

There will be 38 youngsters competing for the champion lamb of the show, 25 showings for champion calves and heifers, 10 showing registered Rambouillet sheep and range ewes, and 8 competing in the swine division.

The division superintendents have worked and are well pleased that practically all classes in their division of the show are sure that spirited competition will be the order of the day.

The Fat Lamb superintendent is Billy McCravey, the breeding sheep division; John Williams, beef cattle division; Henry Moore and market swine division, W. V. Lux.

The show begins at 8:30 a.m. on Jan. 26 with judging of livestock. A free barbecue for show participants and guests will be served at noon. Auctioning of lambs will begin at 1:30 p.m.

Bookkeeper for the show will be W. H. Hale.

Details are being worked out this week and a complete report will be made next week.

Rainfall Was Short For The Year 1962

Total average rainfall for the year 1962 comes to 18.76 inches—just slightly over half of what it was the 1961 year.

The figures in the accompanying table have been supplied by the County Agent's office and the SCS office.

First Aid Course To Start Monday Night

If you were called on, could you administer safe, first aid right now? Have you had recent training to equip you to take care of one of your family, a neighbor or a stranger, in case of an accident? Do you have enough knowledge concerning first aid or safety to insure your actions to be automatic and right, in a time of excitement?

If your answer is no to even one of these questions you should be interested in a free course in First Aid and Safety which will be offered in Eldorado in January.

Bud Haynes, shift engineer for Northern Natural Gas and the man who conducts his company's programs, will teach a series of lessons for anyone in the county who is interested enough to give two hours a week to such an important activity.

The meetings are being sponsored by the County Program Building Committee on Safety. This committee is a part of the Schleicher County Extension Program.

The first meeting will be on Monday night, Jan. 14, at 7:00 p.m. in the Corral of the Memorial Building.

For the most effective teaching Mr. Haynes prefers a group of about 20 to 25. Call 24281, county judge's office, and make your reservation now.

If you don't call and decide to come Monday night, please do. What you learn could save a life.

Jr. Class Play Set 24th

"Seven Sisters," adapted by Edith Ellis, is the play being presented by this year's Junior class under direction of Bill Bowen. The play will be presented two weeks from tonight, on Jan. 24. Curtain time will be 7:30 p.m.

Mr. Bowen reports rehearsals going well. Class members have started an advance ticket sale for the play; the ticket sale will be continued during the two weeks remaining until the 24th.

**Eldorado-Divide
Soil Conservation
District News**

Soil Management

A sound soil management program must provide three things:

1. The amount and kind of plant food needed for high levels of crop production.
2. A satisfactory state of soil tilth for the development of crop roots and for good water on and temperature conditions in the soil.
3. Protection against excessive soil loss and damage from erosion.

No single soil-management program will fit all of our farms. The best program for your farm will depend on the kind of soil you have, the amount of money you have or want to spend, the amount of risk you are willing to take, and frankly, one's ability as a farmer.

Any one practice in a soil program must be related to all other practices in that program and in your farming business. The kind of fertilizer you use, for example, must be related to the kind of land you have and the rotation you are following. Your rotation in turn must be related to the kind of livestock you have and the amount of labor and machinery you can use.

In case your soil lacks several plant-food nutrients, you must supply the right amounts of all to get the full use for any one.

These principles are only the fare for a soil-management program, not a program in themselves. To build a set of practices that make a program, you need to know your farm and your soil.

In all the talking and writing about various fertilizer systems, we sometimes overlook the importance of good soil tilth in soil management. Plant roots need water and oxygen as well as nutrients, and their ability to get them is strongly affected by soil tilth—the physical condition of the soil. In soils that are too tight or too compact, air and water move slowly. When this happens, roots also develop slowly, and the growing plant cannot make full use of the nutrients in the soil.

Soils in a good state of tilth are well aggregated, have a low bulk density, and resist packing. Such soils have moderate to high infiltration rates, good internal drainage, and enough large pores to permit the free movement of air.

To maintain good tilth, you need to follow a management system that:

- Supplies large amounts of organic matter to the soil.
- Maintains a vegetative cover over the soil for as much of the time as possible.
- Keeps tillage operation to a minimum, especially when there is considerable moisture in the soil.
- You must of course protect your soil from erosion if you are going to have a sensible soil management

Bride To Be Honored With Gift Tea Saturday

MRS. LOWELL WILKES

To be honored with a gift tea this Saturday afternoon, Jan. 12, is Mrs. Lowell Wilkes, the former Kathy Sauer. The tea will be held at the Memorial Building and calling hours will be from 3:00 to 5:00. Mrs. Wilkes is the daughter of Victor Sauer of Eldorado and Alma C. Sauer of San Angelo.

program.

Sound management must include those practices that check the runoff of water and help it soak into the soil where it can be used by the growing crops.

Such practices include the maintenance of good soil tilth and vegetative cover, contour tillage, a terrace system generally, and crop residue use. Especially where the danger of erosion is severe, construction of terraces and other special water control structures should be carried out.

For terrace construction your first guides are the slopes and practice limitations tables as used in all the soil conservation districts. You should check with the Eldorado Divide Soil Conservation District representatives or Soil Conservation Service technicians assisting the district before planning the water control system for your farm.

Remember that when you keep your soil in a high state of fertility, you are actually helping control erosion. Fertile soil means higher crop yields and these in turn mean more crop residues and better cover for the soil.

CARBON PAPER at the Success

BROWNIES MEET

Brownie Troop 153 met in the Corral Tuesday. Fifteen girls and one leader were present.

New officers are: pres., Janice; v-pres., Paula; sec., Lynn; treas., Linda; and historian, Melody.

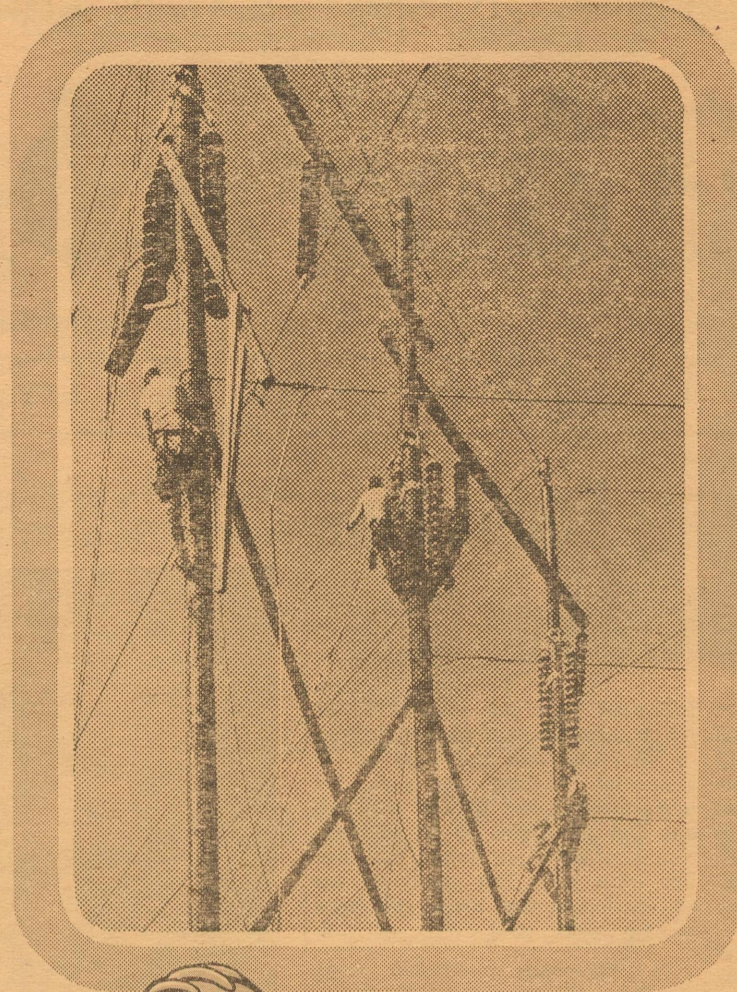

Our Sunshine Reporter was Sherwin. The girls played games. Refreshments were served by the hostess, Kathy. —Rep.

Mrs. F. M. Bradley and Mrs. R. L. Ballew visited with Mrs. W. B. Cobb in San Angelo on Sunday afternoon.

8% Gain Shown In Local Business Population

Recently, A. J. Hemphill, district manager of the Fort Worth office of Dun & Bradstreet, Inc., announced statement requests were mailed to 41 businesses in Schleicher county. He said figures obtained from a physical count of the Dun & Bradstreet Reference Book for January, 1963, totaled 41 manufacturers, wholesalers, and retailers in this area as compared with 38 in January, 1962—an increase of 8% for the period.

According to Mr. Hemphill, each January business concerns in all parts of the United States are asked by Dun & Bradstreet for copies of their financial statements. This year requests are being sent to approximately three million business concerns—to the corner grocery store worth a few thousand dollars as well as to businesses worth millions.

WTU's 1963 plans

are built upon the

solid foundation

of continued . . .

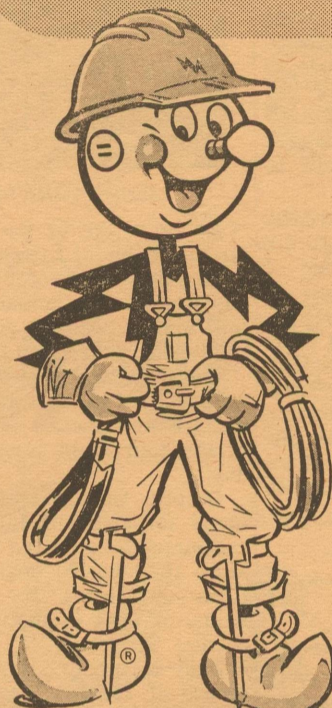

GROWTH

All the facts, all the figures indicate that the Southwest continues to be one of the fastest growing regions in the Nation.

Since our service area is the Center of the Southwest, we consider this to be the most vital factor in our planning for 1963.

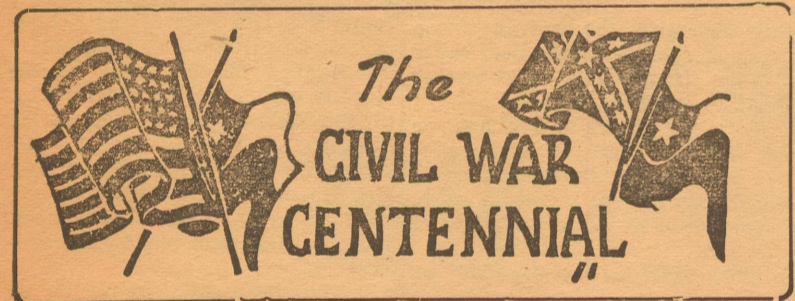

As your local tax-paying partner in the economic development of this community, we are ambitiously continuing to promote its business and industrial advantages.

For ourselves, our plans are designed not only to keep pace with area growth, but to stay ahead of it; to work with you and for you in developing GROWTH UNLIMITED.

YOUR LOCAL TAX-PAYING PARTNER IN THE ECONOMIC DEVELOPMENT OF THIS COMMUNITY

By Dayton Kelley
Mary Hardin-Baylor College
Beton, Texas

The new year literally started off with a bang for Texas Confederates of a hundred years ago. The "bang" was the sound of the opening gun, a cannon fired personally by Gen. John Bankhead Magruder, of the Battle of Galveston on January 1, 1863.

The new year was only minutes old when that first shot was fired but before the day was over, the Confederates had recaptured Galveston from the Federals in a tragicomic battle that was to have an inspiring effect on the South and whose outcome would have repercussions all the way to Washington.

The citizens of Galveston set aside the entire week of January 1 to observe what they called the "Battle of Galveston Centennial Week" with all sorts of activities including New Year's eve victory balls, a retail merchants' Battle of Galveston bargain week, and a Civil War book review luncheon.

Other activities included a Galveston Heritage Day honoring churches, schools and hospitals which have served the city continuously for 70 or more years and who still are using their old buildings. Members of the Texas Civil War Centennial Commission held one of their open meetings and invited the public to attend and hear historian Alwyn Parr of Austin speak on "Gulf Coast Civil War Fortifications."

Several old Galveston homes were open for inspection and a number of historic homes medallions and a Civil War marker were dedicated by the Texas State Historical survey committee. The week long activities were climaxed with a huge Battle of Galveston Victory dinner in the Hotel Galvez.

By all rights, the victory in Gal-

veston that New Year's Day should have gone to the Federals. But earned or not, the victory put new spirit into the Confederacy and soon after the battle, old Sam Houston wrote to General Magruder to say, "You, sir, have breathed new life into everything." Texas governor Francis R. Lubbock and Confederate president Jefferson Davis also applauded Magruder and his handful of men.

Union officials in Washington were understandably upset by the loss and G. V. Fox, the assistant secretary of the Navy wrote that "the disgraceful affair at Galveston has shaken the public confidence in our prestige." And one Union commander, Col. A. J. H. Duganne, wrote later, "Weak and disastrous as our subsequent campaigns against the Texans have turned out to be, their miserable results may be traced back to that unhappy New Year's Day of 1863."

Recommended Reading For This Week: For Confederates—Probably the two best-known and influential periodicals of the Civil War years were Harper's Weekly and Leslie's Illustrated magazines. Not quite so well-known but quite influential in the South during those years was DeBow's Review, published in New Orleans and edited by J. D. B. DeBow who was superintendent of the first modern census taken in 1850.

The story of DeBow and his magazine are told in fine detail by Otis Clark Skipper, who was born at Thorp Spring, Texas, in "J.D.B. DeBOW, MAGAZINIST OF THE OLD SOUTH," published by the University of Georgia Press.

For Yankees: A little-known member of President Lincoln's cabinet during the Civil War was John Palmer Usher, secretary of the interior, whose biography Elmo P. Richardson and Alan W. Farley have written for the University of Kansas Press.

The Dun & Bradstreet Reference Book lists those manufacturers, wholesalers, and retailers who seek or grant commercial credit but it does not include some of the service and professional businesses such as beauty and barber shops, security dealers and real estate brokers. Therefore, the figures for total business in the United States would be higher than the three million quoted above.

During the past year, Hemphill added, 32 changes were made in the Dun & Bradstreet Reference Book Listings of Schleicher County businesses, including 9 names added, 8 names deleted, and 15 changes in the ratings of continuing businesses. The changes occurring in Schleicher county are about even with the rest of the

country where a change of business significance is counted about every five seconds.

When the owner or officer of a business enterprise, or his accountant, fills in and mails his financial statement to Dun & Bradstreet, it becomes a part of the credit report on his business and a factor in determining the credit rating of his business. Mailing the statement, rather than waiting for the Dun & Bradstreet reporter's call means a concern's important suppliers will quickly have the latest facts on which to make credit and sales decisions. When the Dun & Bradstreet reporter receives a business man's financial statement in advance of his periodic call, he can make a more detailed analysis of the financial condition of the bus-

ness and discuss its operation more intelligently.

Back of each listing of a business in the Reference Book is a Dun & Bradstreet credit report. The report includes the following: a history of the business (who owns it, who runs it, and how long it has been operating); a description of what the business does and how it does it; a financial section which usually includes the latest financial statement; and a record of how the business pays its bills.

While credit reports are primarily used by business men who want to evaluate the credit risk of a business before shipping or selling, insurance underwriters also use credit reports to review risks, rates and coverage for fire and other types of insurance.

Each home is backed by the F-G warranty against faulty materials and workmanship.

FOXWORTH-GALBRAITH 

FORD ADDS MORE MODELS TO THEIR 1963 LINE OF CARS

Ford Division of Ford Motor Company today announced a line of 1963 1/2 sporty performance models to be introduced in dealer showrooms next month.

Featured among the new models are two new "fastback" Ford sports coupes, two "fastback" hardtop Falcons, plus a convertible and "fastback" hardtop Falcon Sprint. New power and performance options are a 427-cubic-inch engine, the most powerful passenger car engine ever produced by Ford Motor Company; optional V-8 engine in all Falcon models, except station busses; and a 283-cubic-inch high performance V-8 engine and 4-speed manual transmission for the Fairlane.

The Sprint is a sporty, Falcon-based performance car that features a powerful 260-cubic-inch V-8 engine, bucket seats, a 6,000 RPM tachometer, 10-inch brakes, heavy-duty suspension and an optional 4-speed manual transmission.

In announcing "the most significant mid-year new car introduction in Ford history," Lee A. Iacocca, Ford vice president and general manager of Ford Division, said, "these new sporty cars are in the finest tradition of the American automobile industry. They have been engineered and crafted to make possible, on a volume basis, the personalized, sporty performance car previously associated with European car manufacture."

Edw. Jackson Appointed To Livestock Committee Of San Antonio Show

San Antonio.—Chosen to serve on the General Livestock Committee of the 1963 San Antonio Livestock Exposition is Edwin M. Jackson of Eldorado, serving on the Wool and Mohair division as chairman.

The appointment was announced by Mark L. Browne, chairman of the General Livestock Committee and Vice-President of the Show to be held February 8th thru 17th at the Joe Freeman Coliseum.

Along with other committee members selected from leaders in Texas' livestock industry, he will assist in encouraging livestock breeders and rural youngsters to participate in the '63 Exposition.

Statistics Revealed By Dept. Of Public Safety

Deaths and injuries showed a decrease, but there was an increase in property damage resulting from accidents, in Schleicher county during 1962, as compared to 1961. Statistics were revealed recently by the Texas Department of Public Safety.

While this county had 5 deaths in 1961, this declined to 2 this past year. Injuries were down from 12 to 10. But property damage, which amounted to \$10,295 in 1961, jumped to \$24,316 in '62.

There were 23 property damage accidents in 1962, as compared with 7 in '61.

Tabulation of rural traffic accidents is kept by the San Angelo Sub-District Area of the Texas Department of Public Safety, and takes in 13 counties, including Schleicher.

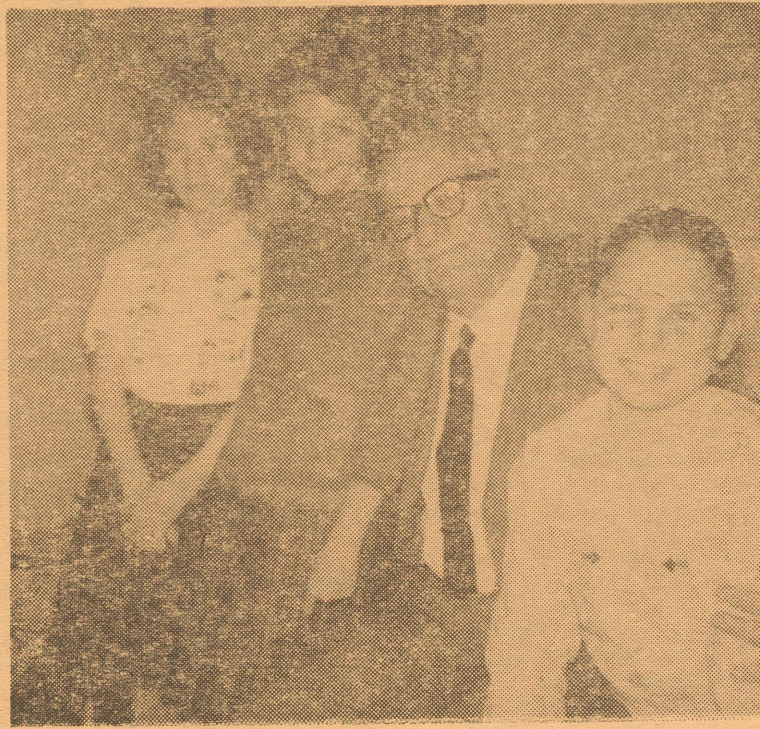

Inspection Stickers Are Now Being Sold For Cars

Austin.—Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, today urged Texas automobile owners to "do their shopping early" this year to reduce the last minute rush for inspection stickers.

All vehicles coming under the provisions of the Texas Vehicle Inspection Act must secure the 1963 inspection sticker by April 15, 1963. After that date, vehicles not displaying the new inspection sticker will be operating in violation of the law and the operators of those vehicles will be subject to arrest, Garrison said.

He reported that approximately one half of the inspection period has expired and about one fourth of the vehicles in the state have been inspected. Unless the number of inspections is increased appreciably soon, he added, long waiting lines will be forming at inspection stations as the April 15 deadline approaches.

ONE-DAY CLINIC CONDUCTED AT LOCAL MUSIC STUDIO BY DR. CLARENCE BURG

Left to right: Peggy Hill, Gene Newport, Dr. Burg, Walter Speck

On Saturday, December 29th, Dr. Clarence Burg, who was one of the judges of the recent Sorantin Award Contest in San Angelo, conducted a one-day clinic in the Eldorado music studio of Mrs. R. Q. Harris. During the day, Dr. Burg met with all the pupils of the studio, hearing them play and offering criticisms. Each pupil was graded individually on his or her performance, progress and potential. Many parents attended the sessions.

Saturday evening, a reception was given for Dr. Burg at the home of Mr. and Mrs. L. V. Newport, to which all students and their parents were invited. Special guests were Mr. and Mrs. Oliver Feele, Co-hostesses with Mrs. Newport were Mrs. H. W. Speck, Jr., and Mrs. John Stigler. Refreshments were served by Kathy Kinser and Billie Gayl Blaylock.

Dr. Burg spoke briefly and informally to the group and played five numbers: Etude in E Major by Chopin; the "Butterfly" Etude by Chopin; "Liebestraum" by Liszt; his own arrangement of "The Arkansas Traveler" and "The Music Box" by Lieblich.

In his remarks to the group, Dr. Burg stated that the group of students included a very high percentage of superior talents and would rank among the best anywhere, in any locality. He further expressed gratification at the above-average interest in serious piano study and that the parents, both mothers and fathers, showed unusual support of their children's music and that this was a large factor in their success. He stressed the value of the study of the piano in all endeavors of life, whether it was in further musical study in other fields, or as a "door opener" in business, cultural pursuits or new environments. He said he financed his entire education with his piano. He said he started teaching at the age of 12 and "if I could locate those people today, I'd refund their money!" In connection with the value of piano study he quoted a boy student of his who once said, "Yes, Dr. Burg, it's valuable and a help in church, in school—and with the girls."

He did, however, express disappointment and surprise that there are so few boys studying the piano. He said that in many communities there are more boys than girls studying and that "it is no longer considered 'sissie' for boys to play the piano. Some of the best athletes I've seen, as well as doctors, lawyers, etc., were also accomplished pianists," he said.

Dr. Burg expressed special interest in several 'exceptionally gifted' students and asked to be kept informed as to their progress.

Dr. Burg, Dean Emeritus of the Oklahoma City University School of Music, was for many years a private teacher and had his own school of music. His graduate thesis, "Problems of the Private Music Teacher" is still used by the piano

ELDORADO LODGE

No. 890 - A. F. & A. M. Stated meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

Historical Preservation Day Set January 19th

Over 2,500 members of County Historical Survey Committees in the 254 counties of Texas will meet with respective County Judges on Texas Historical Preservation Day on January 19. This day will be proclaimed by Governor-elect John Connally to kick-off the year's work of historical preservation and marking in the counties.

Texas Historical Preservation Day meeting of County Historical Survey Committees will include the election of officers and formulation of plans for the year.

The Texas State Historical Survey Committee, the official state agency for historical preservation, is the coordinator of preservation work on the local and state levels. Dr. Rupert N. Richardson of Abilene, president of the TSHSC, said, "Events of the past should be recorded, marked and preserved for the present and future."

"History is the number one tourist attraction in Texas," he explained. "For this reason, the current programs of the TSHSC are to acquaint the citizens of Texas and tourists about the unique story of the Lone Star State."

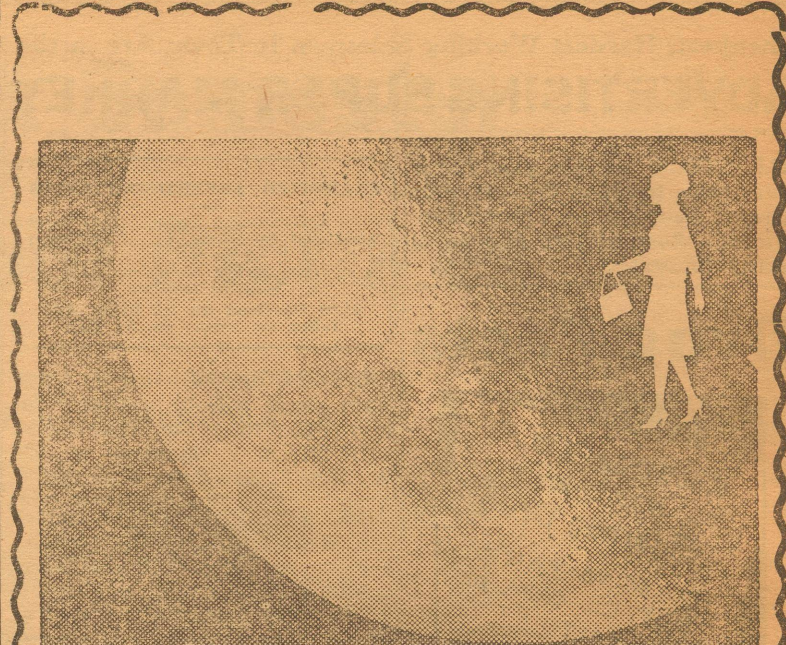

Current programs of County Historical Survey Committees include placing Medallions on historical structures and encouraging restoration and/or preservation, marking every historic site and landmark, marking all Civil War graves, developing or improving local history museums, locating, saving and recording archives, collections of letters, diaries and other papers and documents, and planning county histories, histories of subdivisions, schools, businesses, graveyards plus making recordings of historic experiences of people.

Interested in preserving the historical heritage of Texas, Governor-elect Connally has assured the TSHSC of his support of laws for a comprehensive program. These include:

Authorizing the state, counties and cities to acquire by gift, purchase or condemnation, historical sites and buildings. Permit counties and cities to operate historical museums, mark historical attractions, and finance local historical preservation work.

Making it unlawful to damage, steal or deface historical markers, sites or artifacts.

"If this program is passed by

Woman Walks to Moon!

In her adult lifetime, the average American woman walks as far as the distance from Earth to the moon! Make you tired just to think of it? To avoid needless, extra steps when you're already busy enough, do your banking with us by mail—forms are free.

THE FIRST NATIONAL BANK

Eldorado, Texas

the Legislature," Dr. Richardson said, "Texas will have the best laws in the nation for saving and restoring the historic attractions."

Eagles Rap Junction Tuesday By 56-41 Score

Eldorado beat Junction 56-41 Tuesday night for their 11th win of the season; they have lost 3. The Eagles played as if they had too much Christmas turkey leading only 27-26 at half time. The last

half was played much better; the Eagles scored 29 while holding Junction to 15. Jackie Mackey and Tip Finley paced the Eagles with 13 points respectively.

The Eagles travel to Big Lake for their first district game Friday night. Next home game will be Tuesday January 22 against Ozona.

Mrs. Jimmy Doyle and boys of Ozona spent last week with Mr. and Mrs. Claude Doyle and other relatives. They returned home Sunday when Jimmy came after them.

NEED A GOOD HOME for a black and white border collie, strayed here during holidays. Friendly and gentle. —Palmer West, ph. 22291.*

In Those Days

Compiled From Success Files

ONE YEAR AGO

Jan. 11, 1962—Jo Ed Hill was elected to the directorate of the First National Bank.

Tissie Enochs, Verna Lux, and Linda Nixon were elected girls' basketball team captains.

The area was hit by a cold wave, during which the gas pressure failed, causing school to be turned out for an unscheduled three days of vacation.

FIVE YEARS AGO

Jan. 9, 1958—Service Pipe Line Co. announced plans to locate an office and warehouse here in the former Wm. Cameron & Co. quarters.

Funeral services were held for Emmett (Bud) Hall, 57.

David Holden returned to Navy duty, after spending two weeks leave here.

Mr. and Mrs. Gene Newman of Del Norte, Colorado, were parents of a new daughter.

Fambrough Chevrolet Co. observed its first anniversary in business.

Bill Bowen presented Dee Jay Garvin and Linda Jones of the school speech department, in monologs at a meeting of the Lions club.

Billy Van Dusen was elected FHA Beau.

12 YEARS AGO

Jan. 11, 1951—Lumber was delivered for the new football stadium.

Honored at the all-district football banquet in Ozona were Eagles Gerald Hicks, Roger Sofge, Truman Biggs, and Joe Ed Spencer, on the first team; and E. H. Nixon and John Phillips, named to second team.

Mrs. W. J. Humphrey was notified that her brother, C. R. Wilson, 26, had been killed in Korea.

Harold Wayne Grelle and Eugene Vernon Gibson, Jr., were called for Army physical exams.

The former Scout Hall was being rebuilt into a new Band Hall.

Paul Pena succeeded Ed Hicks on the custodial staff of the school.

Mrs. Fannie Fury of Christoval was recovering from illness at the home of her daughter, Mrs. Frank Van Horn.

Mrs. Edgar Sauer and new baby son, Hyman Dale, came home from a San Angelo hospital.

Mr. and Mrs. Chester Wheeler were planning to sell their residence here and move to San Angelo.

35 YEARS AGO

Jan. 13, 1928—The Morning Times, a new newspaper for San Angelo, will make its appearance on January 31. It will be published by the San Angelo Standard.

S. W. Mather was in Saturday and reported that his daughter, Nellie, had returned to her school at San Marcos.

West Texas Utilities is building a power line to Eldorado. It will be completed and serving local power users by April.

Caldwell & Caldwell of Nashville, Tenn., bought Sonora's sewer bonds for \$45,000.

Edwin Johnson returned to business college in Abilene last week.

Dr. Fred E. Baker will be in Eldorado in Dr. Newsom's office to fit eye-glasses, on Jan. 20. Among those he has recently fitted are Dr. Newsom, Mr. and Mrs. A. J. Atkins, Mrs. J. T. Johnston, Mrs. D. H. McCartney, E. W. Brooks, J. M. Christian, Mrs. H. T. Bird, Mrs. M. I. Thornton, Mrs. J. I. Smith, and Mrs. A. L. Isaacs.

Mr. Holt presented football sweaters at a school assembly. Those receiving them included Capt. Ratliff, Co-Capt. McClatchy, Wince and Prince Murphy, Taylor Wright, William McAngus, Lyonelle Ballew, J. T. Ballew, Jack Edmiston, Pat Finley, Haynes Graves, Roscoe Parker, and Cicero Swift.

Mrs. Hannah Emma Porter died at her ranch home 14 miles east of Eldorado at the age of 79. She was the wife of Jerome Porter and had lived on the ranch about 40 years.

Jack Wish & Co., auctioneers, will conduct a jewelry auction at Bush Motor Co.

Henderson-Ede Company, "Satisfactory Transportation for 18 Consecutive Years," with sales-room adjacent to the St. Angelus Hotel in San Angelo, advertises new Buicks as low at \$1195, f.o.b. factory.

Girls Hold 13-3 Record

The Eldorado girls entered the Lake View tournament this past week end but were unsuccessful in bringing home a trophy.

Friday morning at 8:00 they played Brady B team and won 42-24 as Jan Davis hit 27 points, her best of the season. Friday night the girls met Brady A, whom they had played on two previous occasions and were defeated in a thrilling contest 42-37. The first half the girls could not hit the basket and Brady could not miss.

As a result the score 21-8 at half time in favor of Brady. However Christy Moore connected on a set shot in the third quarter and the girls were off to score 22 points in the third quarter. They tied the score and then it was nip and tuck until Tissie Enochs and Linda Nixon fouled out leaving no height at guard. Brady manager to pull ahead and stay.

Coach Bell and the fine crowd from Eldorado were pleased at the great comeback effort show in making up an 18 point lead.

Christy Moore was high with 17 and Jan Davis had 13. Marsha Mund contributed 4 and Susie Scott 3. Joan Griffin pulled in 13 rebounds.

Girl Defeat Junction
Immediately before the Christmas holidays the Eldorado girls went to Junction and were victorious by a 42-27 margin.

Susie Scott hit 17 points, followed by a 15 point output by Christy Moore. Jan Davis and Morsha Mund contributed 8 and 1.

This last Tuesday night it was victory No. 13 against only three losses as the Eagles trimmed Junction 39-16. Junction managed only three field goals against 15 for Eldorado. Jan Davis, the only senior forward, led the attack with 26 points. Most of these were scored from about 20 feet out.

Susie Scott contributed 7 and Christy Moore had 6. Linda Nixon led the team defensively with 14 rebounds.

The girls next game is in Merton January 18.

BROWNIES
Brownie Troop No. 45 met Wednesday, Jan. 9. Twenty-one were present; none absent. Hostess was Leslie Martin and sunshine reporter for the week was Kathy Isenberg. We discussed plans for the cookie sale and we made safety posters. Kathy Isenberg will be hostess next week.—Leslie Martin, reporter.

BROWNIE TROOP 6
Brownie Troop No. 6 met Jan. 7 with 17 present. Minutes of the last meeting were read by Mona Waggoner and Susan Rogers collected the dues. Refreshments were served by the hostess, Peggy Hill. A song was led by Letha Parks. We played two singing games. For future project we are going to take part in the cookie sale.—Peggy Hanusch, reporter.

Tuesday night, Chief Palmer West attended the Del Rio annual banquet of the Del Rio volunteer fire department. Chief W. E. (Bill) Zorn of Del Rio is state Association president.

**Former Eldorado Girl
Receives Bank Promotion**

Mrs. Janice Ratliff, an employee of the First National Bank in San Angelo for 16 years, was elevated to the position of assistant vice-president Tuesday by the directors of that institution.

Mrs. Ratliff is the daughter of Mr. and Mrs. Leslie Baker of Eldorado and was born and reared here and graduated from EHS.

She lives with her husband, J. T. Ratliff, at 111 N. Emerson in San Angelo. He is employed by W. T. Schneider, San Angelo Guif Oil distributor.

It was the first time in any San Angelo bank where a woman was elevated to the position of assistant vice-president.

**Home Demonstration
Agent's Column**

By MRS. VIDA KREKLOW

There is nothing so over as Christmas. So, it's over. Now to get on to something else.

What else? Oh, living, doing, thinking, being, seeing, feeling, knowing, could be a part of what else. What would you like? Make your decision and take your choice. Only do this one thing—choose something to do or to be a part of which will be fun, which will be satisfying, which will add something to your life. This is still the beginning part of the new year, you don't get a chance like this every day.

Let's change the subject completely and check on a small winter hazard; namely, how to keep windows and walls from sweating during cold weather.

If you situation is bad enough you can do these things:

Put on storm windows.
Install a ceiling vent fan in the kitchen and bathroom to carry off moisture from cooking, washing, and drying clothes, and bathing.

Make a practice of ventilating the house by opening windows occasionally. This is the least trouble and costs nothing. Leave windows up an inch or so during a time when the house might be heated to an extra warm degree.

The secret of preventing wall and window sweating is to prevent the build up of humidity in the warm house, which condenses on areas which are not insulated against the colder temperature outside.

The makers of vaseline petroleum jelly sent me a whole pageful of uses for their product and I'm going to pass a few of them on—they are good.

A good way to pick up broken glass is this:

Cover a paper napkin with a coating of petroleum jelly and dab the coated surface lightly over the splinters. Repeat until all the glass particles have been picked up.

To renew artificial fruits, wash carefully and quickly with like-warm water and detergent or soap, rinse and dry well. Rub a small amount of petroleum jelly on hands and gently coat the fruit with a thin film by rolling between the fingers. This will give the fruit a natural and beautiful appearance.

Cooking grease spots are hard to remove from splash boards and stoves; apply a thin coat of vaseline to the surfaces you wish to protect—protects from grease spots.

Experts say that the ordinary person must be exposed to information 9 times before it really means anything to him. Here goes for the first mention of freeze-drying of foods. It's just developed and promises to be something big in the food world.

After all the Christmas cooking it's highly possible that the inside of the oven needs cleaning.

Use chemical oven cleaners; they put chemistry to work for you. Watch them though—they are hard on hands. Follow directions.

If you have household ammonia on hand it makes a very effective oven cleaner. Spray or dab ammonia on top, sides and bottom of oven thoroughly—the night before oven cleaning. A steel wool soap pad helps to finish the job.

Or—you can place a saucer of ammonia in a warm oven; close the door and let the ammonia fumes penetrate and soften the baked on grease. The job will be much, much easier.

A. M. Whitis was notified Monday night of the death of his brother, Emmett Whitis, who was a ranchman at Lampasas. Mr. and Mrs. Whitis left for Lampasas Tuesday to attend the funeral, which was held that afternoon.

Mr. and Mrs. Jerry Doyle of Lubbock spent the week end with Mr. and Mrs. Claude Doyle.

WHY give it house room if you no longer use it? Come by the Success office and place an economical FOR SALE want ad—and sell it, quickly and efficiently.

CHARGE PADS, stock forms, available at Success office.

**COUNTY AGENT'S
COLUMN**

by Tiny Godwin

Schleicher County Agricultural Agent

Carrol "Corky" Hodges, 4-H club junior leader, gave a top demonstration Saturday, January 5, at the 4-H and FFA livestock barn. Corky demonstrated proper fitting of registered ewe lambs, and ram lambs. He also demonstrated fitting and showmanship of fat lambs.

This was an excellent demonstration attended by 27 4-H club exhibitors. All points of fitting lambs and showmanship were covered by Corky in an excellent demonstration. Corky and his father, Sammie, Hodges, adult leader, will be working with 4-H boys and girls the next two weeks getting their livestock ready for showing January 26th.

William and Sue Edmiston showing registered Hereford heifers in the open divisions (adult division) placed 5th, 6th, and 9th. Most of the heifers shown were on their way to Denver, Colorado, to be shown.

The registered ewe lambs of William's placed 4th and 6th.

This is an excellent showing by these young 4-H'ers in the toughest competition statewise as they were competing against top breeders of Hereford cattle and Rambouillet sheep selected from show herds.

You have to hand it to the tax collector; otherwise, he'll come and get it—plus.

- People go:
1. From chain to spiritual faith.
 2. From spiritual faith to courage.
 3. From courage to liberty.
 4. From liberty to abundance.
 5. From abundance to selfness.
 6. From selfness to complacency.
 7. From complacency to apathy.
 8. From apathy to dependency.
 9. From dependency back to bondage.

PEOPLE MOVING:

Robert LaComb from Enochs house to own house.

Mrs. Hattie Warrick from Mormon house to Early house.

Elvis Parker from LaComb house to Turnbow house.

C. J. Zly and sons from Gus Love house to Alexander and J. R. Jones houses.

Thomas Baker is moving to his house here in town, from the place west of town.

NIGHT CIRCLE MEETS

The Night Circle of the Baptist W.M.U. met Tuesday night at the home of Mrs. Edgar Spencer. Sadie Davidson brought the mission study.

Refreshments were served to six members and visitors.

Recent visitors in the home of Mr. and Mrs. John Williams were Mr. and Mrs. John S. Williams and family of Corpus Christi and Mr. and Mrs. Jim Thornton and family of Odessa.

Miss Fern Parrent from 519 E. 10th Street in San Angelo visited her parents, Mr. and Mrs. W. F. Parrent over the week end. Miss Parrent is a nurse's aide at Baptist Memorial's Geriatrics Hospital.

Fire Chief and Mrs. Palmer West will be in San Antonio and Austin over the week end for an Executive Board and Fire Insurance meeting. They will visit the Gene Eubanks family in San Marcos

There are a number of livestock producers who have expressed the feeling that they have contributed or are being asked to contribute to a program in which they are getting none of the results.

This is not the case.

Sterile flies are being dispersed in the 80,000 square miles of Texas and New Mexico where native screwworms normally spend the winter, while winter temperatures are expected to kill them outside of the overwintering area. In all but a few abnormal years, screwworms do not overwinter in Schleicher county.

You could disperse millions of sterile flies in this county but would not accomplish a thing if you didn't eradicate them in the incubator of southern Texas and southwestern New Mexico from which they can move into the northern areas each spring. If sterile flies had not been released in the southern part of the state this past year, the screwworm cases experienced in this county would have been more numerous than they were. However, over all screwworm cases were 80% less than normal.

A good reporting job is essential to receive maximum benefits and at the same time eradicate the screwworm fly.

The 1963 Farmers Tax Guide is available at the county agent's office. These will be mailed to you soon but in the meantime you may call Mrs. Carlman or drop by the agent's office for your copy. Special attention should be paid to depreciation, page 7, self employment tax and other items that may save you money.

Ed Meador of Ed Meador Insurance Agency recently handed Gus Love a check for \$4,040 which constituted payment for the house, belonging to Mr. Love which recently burned near the airport. Maryland Casualty Company of Baltimore, Maryland, and San Antonio, Texas, was the company providing the coverage.

It wasn't such a fine New Year's Day for Jerry Love of Dallas, no relation to members of the area Love families. He smashed his late model Pontiac automobile into one side of the highway bridge by Jess Blaylock's, early New Year's morning some 10 miles north of Eldorado. His two companions were unhurt but Mr. Love sustained an injured hand.

Mrs. R. L. Ballew was pleasantly surprised Sunday night when she received a call from the E. K. Bauers, former residents here who now live in Niagara Falls, New York. Ernie and Zetta asked that they be remembered to all of their friends in Eldorado. The family moved from here about 5½ years ago.

United States Army Reservists in Sonora learned Tuesday night that there was still some doubt whether the unit would be deactivated on 29 February or 31 January 1963. Currently, preparations are under way to turn in all equipment by the end of this month of January. The Sonora Army Reserve unit has several members from Eldorado.

This Year's Student Council Officers: Standing are John McGregor, pres.; and George Draper, vice-president. Also shown are Beep Cain, parliamentarian; Jan Davis, recording secretary; and Betty Humphries, corresponding sec.

Governor-elect John Connally has picked seven men to fill key appointments in his administration. Oldest of the seven is Crawford Martin of Hillsboro, who will be Secretary of State. And he is only a year older than the 44-year-old future governor.

Youngest appointee, 27-year-old Larry Temple of Austin, will be an administrative assistant. Teamed with Tempe are 32-year-old Bill Fowler of Dallas, 38-year-old Frank Miskell of Austin, and 34-year-old Scott P. Sayers of Fort Worth. Howard Rose, 32-year-old Midland attorney, will be Connally's executive assistant. Bill Cobb, 38, will be budget director. He's an Austinite.

Two of the appointees are carryovers from the Daniel administration, to some degree. Martin served as state senator from Hillsboro for 14 years through 1962. Cobb was chief examiner for the Legislative budget board from 1951 until 1962, when he became assistant executive director of the Texas Industrial Commission.

Fowler, Mikell and Sayers worked on Connally's staff while he was campaigning for governor.

Board Replacements

Governor Price Daniel made numerous gubernatorial appointments at term's end. He has stated he will make no more appointments unless death creates a vacancy.

He named Milton Potts of Livingston, manager of the Sam Houston Electric Cooperative for the past 22 years, to the Texas Water Development Board, and he reappointed Marvin Shurbet of Petersburg to that board.

Daniel also appointed: Dan Melton, Lufkin insurance man, to the Neches River Conservation District board; Fred Mercer of Silverton and Arville Setliff of Turkey to the Upper Red River Flood Control board.

Jack Douthit of Sterling City, Dale Leddy of San Angelo and L. T. Youngblood of Bronte were reappointed to the Upper Colorado River Authority; J. W. Mullins of Coleman and Isaac S. Pate of Voss were named to the Central Colorado River Authority, and O. L.

Cheaney of Santa Anna reappointed.

Mrs. James P. Hart of Austin (wife of the former chancellor of the University of Texas), W. R. Beaumier of Lufkin, and Vann M. Kennedy of Corpus Christi were named to the Texas State Historical Survey Committee.

Turman Seeks Post

James A. Turman, who ran for lieutenant-governor last year and lost, wants to return to his favorite field—education.

The 35-year-old Speaker of the House quickly advanced in the field of education before he became a legislator eight years ago. He earned a doctorate in education, then became assistant professor of education and assistant to the president at Texas Woman's University.

He has asked the Texas Commission on Higher Education to consider him a candidate for its post of executive director.

Return Of Dignity

Speaker-elect Byron Tunnell of Tyler said he's going to restore dignity to the House, where legislation frequently resembles a trading boom at the New York Stock Exchange.

He warned legislators that they can no longer have secretaries work at their desks, and relatives will not be allowed to sit with them, except on very special occasions.

Worm Eradication Funds Short

The Southwest Screwworm Eradication Program—which succeeded in cutting screwworm cases by 75 to 90 per cent in less than a year—will be halted March 31, unless livestock producers raise another \$1 million by that date.

Charlie Scruggs, president of the Southwest Animal Health Research Foundation, made that announcement on behalf of SWAHRP's board of trustees.

The three-year eradication program, initiated last January, cost an estimated \$12 million. The federal government was to pay \$6 million, the livestock producers \$3 million, and the state \$3 million.

But so far the farmers and ranchers have donated only \$2 million.

Scruggs said, "The plan was based on 100 per cent participation and this has not been the case, although there have been commendable contributions in some counties."

Economic Health

Texas Bank Deposits are continuing to set records almost every-

where.

A survey of major cities was made after the state banking commissioner and the U. S. comptroller ordered condition reports as of December 28.

The December 28 date caught many banks by surprise. They were anticipating the call date to be December 31.

Some bankers said the difference in dates prevented them from reporting even higher figures. Last day of the year is usually a high mark for bank deposits.

School News

Supt. A. M. Whitis is in Austin where he is attending the Mid-Winter Conference of School Superintendents. He will study Accreditation Standards, Programmed Instruction, and Teaching Americanism in Public Schools. The conference started Wednesday and will continue through Friday.

Glen Matthews, band instructor in the Eldorado schools, accompanied seven bandmen to Abilene Saturday where they competed in the Regional Contests.

They were Linda Sauer with the flute, one of 50 entries; John Suggler with the clarinet, one of 80 entries; Linda Boynton with the bass clarinet, one of 20; Betty Humphries with the alto saxophone one of 34; Jim Pat Morris with the cornet, one of 45; Eldra Gibson with the baritone horn, one of 20; and Terry Phelps with the trombone, one of 39 contestants.

Linda Sauer, daughter of Mr. and Mrs. Clemens Sauer, placed sixth with the flute and was one of the 10 included in the all-region band.

VAUGHAN ADDRESSES LIONS

The Rev. Kenneth Vaughan, new pastor of the First Baptist church here in Eldorado, was speaker at the meeting yesterday of the Lions club.

W. R. Bearce presided. A guest was B. L. Blakeway.

The club voted to sponsor the Conservation Award in the county again this year. Also discussed was the club's again sponsoring the district Basketball Banquet, as was done a few years ago. The matter was referred to the Board of Directors.

Peyton Cain presented Granvil Hext the plaque for best-decorated business house during Christmas.

Mrs. Ruby Fowler visited here recently with the S. D. Harpers, the Lawrence Steens, the Ed DeLong, and other relatives and friends. She has returned to her home in El Paso.

School Menus

Monday, Jan. 14: Ground beef and noodles, green beans, carrot & cabbage & raisin salad, buttered rolls, milk, canned fruit.

Tues., Jan. 15: Turkey and dressing, giblet gravy, English peas, waldorf salad, cranberries, buttered rolls, milk, butterscotch pudding.

Wed., Jan. 16: Chili and beans, cheese strips, cole slaw, buttered rolls, milk, fruit cup, peanut butter cookies.

Thursday, Jan. 17: Fried chicken and gravy, creamed potatoes, spinach, peach halves salad, buttered rolls, milk, chocolate cake.

Friday, Jan. 18: Tuna croquettes, buttered rice, pinto beans, tossed green salad, buttered rolls, milk, gingerbread.
