JACK DIAMOND IS SHOT

LIGHT WINES, BEER HELD AS A POSSIBILITY

MODIFICATION SEEN BY COMMITTEE OF LABOR CONGRESS

(By The Associated Press)

PHILADELPHIA, April 27.—Modification of the prohibition law to permit the manufacture and sale of light wines and beer is seen as a possibility at the next session of congress by labor's national committee for modification of the Volstead act.

A report of the committee, based on a congressional survey, asserts that there are only 17 "die-hard" prohibitionists in the senate and 43 in the house of representatives and that "victory is in sight if those who have voluntarily enlisted in this cause will make their wishes known to the senators and congressmen from their states."

To Be Submitted

The report was prepared by Matthew Woll, vice president of the American Federation of Labor, and J. M. Ornburn, president of the Cigar Makers' International union, for submission today to the national conference of organized labor's anti-prohibition group.

"Of the 96 members of the United States senate," the report states, "34 are willing to vote for the modification of the Volstead act permitting the lawful manufacture and sale of beer and light wines; fifteen believe that beer is non-intoxicating, but claim they are not justified in voting to change the present legislation; twelve admit that a majority of the people of their states are producers or consumers of illicit liquors, but claim that the organized church vote is of so much importance that they do not feel it good personal policy to oppose it; ten feel that both the Volstead act and the 18th amendment should be repealed and the entire matter left to each state for the people of the state to decide what they want to do, and eight refused to state their views.

Ready For Change

"Our survey of the house shows there are 144 members who are ready to vote to modify the Volstead act; that 54 believe the act should

Nearly 5,000 Here At Sunday Schools

Eight Lubbock churches and a Union Sunday school conducted in the Sander school totaled an attendance of 4,728 yesterday. Enrollments were as follows:

First Baptist, 1332; First Methodist, 1,158; Broadway Church of Christ, 571; First Christian, 410; Asbury Methodist, 407; First Presbyterian, 364; Calvary Baptist, 304; Church of the Nazarene, 182; Cumberland Presbyterian, 132.

BOYS' WEEK IS UNDER WAY

TOUR OF INDUSTRIAL PLANTS MADE HERE THIS MORNING

Assembly of more than 30 boys at City hall this morning to be taken on a tour of Lubbock industrial plants marked start of the second day of observance here of national Boys' week.

Today is industry day on the national program. Boys not attending school in the morning gathered at City hall to be taken through Lubbock offices and plants, including those of Swift & Co., McDonald Packing company, Stanton's elevators, Texas Utilities company, and the city electric plant.

J. T. Trigg is chairman of arrangements for the industry day program. A larger number of boys was to go on a similar tour this afternoon, after being divided into groups.

Tuesday is school day. M. H. Duncan, superintendent of schools here, has promised to arrange for observance in that connection, according to D. T. Jennings, South Plains Area Boy Scout executive. The Boys' week program is for all boys, whether or not they are scouts.

Sunday was boys' day in church, and some night sermons were devoted to boys and their parents. The Boys' week events will end next Sunday afternoon.

Youth Is Attacked By Infuriated Hog

TAYLOR, April 27. (AP)—Attacked by an infuriated hog he was exhibiting in the annual dairy and hog show here Saturday, Lawrence Pfluger, 18-year-old son of Mr. and Mrs. Louis Pfluger of Pflugerville, remained in a serious condition today.

The hog had been exhibited and was attacked by another hog while going back to the stall. Turning on the Pfluger boy, the animal buried its tusks in the youth's knee. Stitches were taken and tetanus serum administered.

IN "KISS" CASE

* * *

A Kansas City jury decided that Mrs. Bertha Thomas, 37, top, was not entitled to $5,000 damages which she sought for a kiss allegedly stolen by Rev. James Cornish, below, former pastor the First Christian church at Kansas City.

EXEMPTION OF HOMESTEADS IS VOTED

BOTH HOUSES APPROVE RESOLUTION ON AD VALOREM TAXES

(By The Associated Press)

AUSTIN, April 27.—Both houses of the legislature today passed resolutions proposing amendments to the constitution to permit exemption of homesteads from state ad valorem tax levies.

The house resolution proposed exemption of homes valued at $2,000 and under. The senate resolution would place the maximum exemption at $5,000.

Adopt Substitutes

Both houses adopted substitutes which would allow all homes to share in the exemption plan. All homes, under the house resolution regardless of their valuation, would be exempt to $2,000. The senate likewise adopted a substitute proposing to exempt all homesteads from taxation on the first $5,000.

The senate rejected an amendment by Senator Holbrook of Galveston which sought to lower exemption figures to $2,000. Holbrook said his amendment was in conformity with amounts carried in the house resolution.

Holbrook in opposing passage of the Hardin resolution, said he did not belong to a group which was catering to "bolsheviks". He characterized the resolution as a "dangerous thing."

Senator Deberry of Bogata, in taking Holbrook to task for his stand against exemption of homesteads, charged Galveston county with asking for remission of all taxes paid to the state.

HOUSE PASSES BILL THIS MORNING

MEASURE WOULD PAY BACK PINK BOLL WORM LOSSES

(By The Associated Press)

AUSTIN, April 27.—The house today passed a bill to appropriate $300,000 to reimburse West Texas farmers for losses sustained in 1929 and 1930 as a result of the pink boll worm quarantine. Vote was 79 to 35.

An effort to strike out the enacting clause was over whelmingly defeated without a record vote.

Motion Defeated

A motion by Representative Petsch of Fredericksburg to postpone consideration of the bill until after the general appropriation bill had been acted upon also was defeated.

Approximately 23 counties were in the quarantined area but only eleven counties will receive material reimbursements, according to Representative Metcalfe of San Angelo, floor leader for the bill. They were Howard, Glasscock, Dawson, Martin, Ector, Midland, Andrews, El Paso, Ward, Brewster and Crane.

Lockhart In Fight

Petsch claimed no other appropriations had been made until the legislature knew how much money would be left after the general appropriation bills had been passed. Representative Lockhart of Lubbock said Petsch's motion would defeat the bill and moved to table it. It was tabled, 64 to 45.

An amendment by Mrs. Strong of Slocum to appropriate $50,000 to reimburse Anderson county farmers for tick eradication work was held out of order. Mrs. Strong said she would try to have the appropriation included in the general appropriation for the livestock sanitary commission. Several East Texas representatives indicated they would seek similar appropriations.

Representative Satterwhite of Odessa said the federal government would be asked for an appropriation to supplement the state funds.

Motion Pictures To Increase Programs

HOLLYWOOD, Calif., April 27 (AP)—Fox Film and Radio Pictures corporations anounced plans today for production of 48 and 36 pictures, respectively, during the next 12 months.

LOCAL WOMAN DIES TODAY

MRS. LEWELLING WILL BE BURIED HERE ON TUESDAY MORNING

Mrs. Wilma Lewelling, 30, wife of Jesse M. Lewelling, Lubbock real estate operator, died at 3:30 o'clock this morning at a Lubbock hospital after a five days' illness.

Funeral services will be held at 10 o'clock Tuesday morning in the chapel of Bynum-Morgan Funeral home. Rev. J. O. Haymes, pastor of the First Methodist Episcopal church, of which Mrs. Lewelling was a member, will officate. Burial will be in Lubbock cemetery.

Mrs. Lewelling came to Lubbock with her husband four years ago from a ranch they had operated at Plains for 10 years. The Lewelling residence is at 1407 Sixth street.

Survivors include:

The widower; parents, Mr and Mrs. T. J. Blankenship of Plains; three brothers, Lonnie Blankenship of Tatum, N. M., Bill and Allen Blankenship of Plains, and four sisters, Mrs. A. C. Sanford of Tatum, Mrs. Clarence Travis of Floydada, Mrs. Rudolph Houston of Broncho, and Mrs. Clyde Perry of Hot Springs, N. M.

WOUNDED AGAIN

* * *

Jack "Legs" Diamond, notorious gangster, shown below, was shot and wounded early today for the second time in the last six months.

COURT BEGINS HERE TODAY

TRIAL OF CRIMINAL CASES SLATED TO START IN 99TH

Trial of criminal cases on the current docket of ninety-ninth district court was scheduled to begin at 1:30 o'clock this afternoon before Judge Clark M. Mullican.

Following appearance of states and defense attorneys this morning, Judge Mullican rearranged the week's criminal docket. Trial of civil cases was to continue this morning.

Theft Cases Set

Trials of Buster Johnson for burglary and Bob Robertson for chicken theft were scheduled for this afternoon.

C. C. Kenemore, charged with theft of an automobile by conversion and with perjury, and Hub Johnson, facing two charges of violating the prohibition law, are to appear in court Tuesday morning. Trials will begin at 9 a. m.

Disposition of civil cases will be resumed Wednesday morning unless preceding criminal cases have not been completed, Judge Mullican said.

Twelve persons are docketed for trial on criminal charges this week.

Typewriter, Hand Bag Stolen Here

Week-end thefts reported to police included those of a gladstone bag and a portable typewriter.

M. L. H. Baze, of 2514 Twenty-second street, said his typewriter was taken from an automobile on th Texas Technological campus Saturday.

L. N. Brown, owner of the gladstone, said it was stolen from 1908 Thirteenth street, Sunday night. It was a light yellow bag and contained a shirt, tie, and pair of trousers, Brown told police.

A 29-year-old negro was arrested in The Flats, negro section, late Saturday as a theft suspect. He is in city jail.

Amarillo To Seek W.T.C.C. Conclave

Amarillo will ask for the 1932 convention of the West Texas Chamber of Commerce at the thirteenth annual meeting of the regional chamber here May 14, 15 and 16, according to Maury Hopkins, convention manager and assistant manager of the West Texas chamber.

Mineral Wells, Sweetwater, and Dallas already had reported that they would bid for next year's convention.

GANGSTER CUT DOWN TODAY BY FIRE

HOODLUM CHIEF BADLY INJURED FOR SECOND TIME IN 6 MONTHS

(By The Associated Press)

CATSKILL, N. Y., April 27—Jack (Legs) Diamond, gangster, for the second known time, was cut down and seriously injured by the gunfire of unknown assailants early today.

The gang chief, who six months ago was shot and almost fatally injured in a New York City hotel room, went down today under the fire of buckshot sent into his back as he stepped from a Catskill mountain roadhouse near here. The shooting occurred three days after Diamond had been released in $25,000 bail, pending trial for a charge of assault.

Clothed In Mystery

Like the New York City instance, mystery clothed the shooting. The gangster himself could give no information and the companion who snatched his fallen chief back into the shelter of the roadhouse could only say the gunfire came from a distance about 20 paces from the building.

A hatful of empty shells, still reeking of the smell of freshly discharged powder and apparently fired from an automatic shotgun, were picked up between the glassed-in porch of the Arratoga inn and the highway. The gunman obviously fired in haste and fled. Of the nine shots fired, each carrying a dozen pellets, only one shell load struck Diamond.

Witnesses who said they entered the building a few minutes before the shooting told police they saw no strange car near the inn nor any sign of the man or men who did the shooting.

Held Not Critical

The fallen gangster, bleeding freely from wounds in the shoulder, back and arm, was hurried to an

Motive Is Sought In Brutal Murder

HAMDEN, Conn., April 27. (AP)—The slaying of Emily Kirk, 21-year old daughter of a Hamden farmer, remained unsolved today as police sought a motive for the brutal killing.

Her body was found in a thicket yesterday. There were four bullet wounds in the head and arms. The head was badly mutilated and a bloodstained rock lay nearby. Medical examiners, after an autopsy, said they believed the girl had been criminally assaulted.

Abilene And Dallas After Lions Confab

PORT ARTHUR, April 27. (AP)—Delegates from Abilene and Dallas were waging a heated pre-election campaign for the next convention as the 13th annual convention of the Texas association of Lions International moved into the second day today. Approximately 1,000 visitors from every section of the state were present.

The opening business session this morning started with Julien O. Heyer, first vice president, of Fort Worth, presiding. Delegates were welcomed by Mayor J. W. O'Neal following which reports of the district governors were given later in the day. John A. Erhard, past district governor of Dallas was to speak.

Seek Extradition Of Murder Suspect

SAN ANTONIO, April 27 (AP) — Sheriff John B. Lott of Atascosa county prepared today to leave for Austin to begin proceedings for the extradition of Alberto Sanchez, jr., from Nuevo Laredo, Mexico, to face trial for slaying Edna Merle Springer, 11, near Leming last week.

Dispatches from Nuevo Laredo yesterday said Sanchez had made a statement that he killed the girl when she resisted an attempted attack. He had for several days been watching her as she passed the field where he was working, he said.

DENIES TAKING HER LOVER FOR "RIDE"

* * * * * * * * * * * *

Charged with taking her 200-pound sweetheart, Les Castell, for a ride, shooting him five times and dragging his body around a cemetery, Miss Helen Morgan, said to be of a wealthy Chicago family, has been held by police at Flint, Mich. She told police she shot Castell in self-defense when they quarreled after he called her a stool pigeon because of his arrest on an arson charge. Both are shown below.

Change In Birth Control And Divorce Codes Seen

(By The Associated Press)

NEW YORK, April 27—Changes in church codes are proposed in reports published today by official groups within the Protestant Episcopal church and the Presbyterian church in the United States of America.

An Episcopalian commission appointed six years ago recommended the adoption of virtually a new canon covering the church's attitude toward divorce and remarriage. A commission of the Presbyterian church, deploring the increasing divorce rate, gave its approval to birth control and suggested the establishment of courses for instruction in marriage.

The revised canon of the Episcopalian church advocated the creation of ecclesiastical courts to pass on problems of marriage. It would permit ministers to remarry communicants and divorced persons under certain circumstances, eliminate all mention of ground for divorce and remarriage, and define nine causes for annulment. Even

(Turn to Page 7, Column 4, Please)

LUBBOCK WOMAN MAY HAVE TWO HUSBANDS

Whether Mrs. Maria Lucita Barron of Lubbock has two husbands depends upon a decision by Judge Milburn S. Long in thirty-second district court at Sweetwater, according to a press dispatch from there.

F. E. Barron, Lubbock business man, is her husband. B. T. Owens of Presidio, from whom Mrs. Barron obtained a divorce at Sweetwater in 1927 possibly is another husband.

The peculiar tangle resulted from Owens' efforts to obtain a new property division, procurement of which requires that an entire judgment, included the divorce, must be set aside.

Taught At Slaton

When Mrs. Barron obtained a divorce in March, 1927, she and Owens had a home at Sweetwater, although she was teaching school at Slaton and he was practising dentistry there.

The divorced pair agreed to a division of community property and the agreement was included in the final judgment.

Owens' attorney contends that the judgment can be set aside because the divorce petition did not properly allege that Mrs. Barron—then Mrs. Owens—had lived in Nolan county six

Baseball Star Is Injured Seriously

COLUMBUS, Ohio, April 27 (AP)—After falling three stories from his room window in a hotel here, Percy Lee Jones, 32, Columbus Red Bird southpaw, was in a hospital today with injuries that will keep him from baseball the rest of the season.

Physicians said his condition was fairly good although the former National league star sustained a wrenched back, broken right leg and fractured left ankle.

FIVE PERSONS KILLED NEAR COMMERCE

PLANE, CAR CRASHES AND LIGHTNING IN STATE ARE FATAL

(By The Associated Press)

Fourteen deaths were counted as the week-end toll from accidents was taken Monday morning. Striking across the state with a wide swath, sudden death came to five persons when a train crushed an automobile at Commerce, one was dashed to death in an airplane at Dallas, one was killed at Pampa and another at McAllen in automobile accidents. Lightning felled one person at Giddings and two were drowned when a boat overturned near Texarkana.

The dead:

Clyde Jackson, 38, Bill Jackson, 5, Gafford Jackson, 12, Preston Beggs, 12, and Allie Hutchinson, 26, killed when a Cotton Belt passenger train struck their automobile at Granby, near Commerce Sunday morning.

Two Are Drowned

Miss Julia Wright, 21, and J. B. Christopher, 30, both of Deport, drowned when a boat from which they were fishing capsized near Texarkana, Sunday afternoon.

Albert G. Hiebert, 30, student flier killed when his plane went into a spin and crashed at Hampton airport, Dallas, Sunday afternoon.

Mrs. R. R. Vest, killed when she fell beneath the wheels of an automobile at Pampa.

Killed In Crash

H. R. Snell, of Weslaco, fatally injured at McAllen when he lost control of his automobile and crashed into a filling station.

Ruth York, 14, struck by lightning near Giddings during an electrical storm Sunday.

Tex Shelton, 20, fatally injured Saturday in an automobile accident in Cameron park, Waco. He died Monday in a hospital.

Ellen Sarah Perkins, 18 months

(Turn to Page 7, Column 7, Please)

COUNTY COURT GETS CASE

NO CHARGES AGAINST SHEFFIELD FILED IN ACCIDENT

Action in connection with the automobile accident in which 17-year-old Palimae Kelly was killed and a young man seriously injured Saturday night depends upon the county attorney's office, Burton S. Burks, assistant district attorney, said this morning.

Report of the attorney general's office that status of negligent homicide as a misdemeanor had not been changed resulted in the case being moved from the district attorney's office, Burks explained.

Records Furnished

Records made by the district attorney's office in investigating the fatal accident were turned to the county attorney's office, Burks said.

C. A. Sheffield, hotel manager, was driver of an automobile which struck Miss Kelly and Floyd Ward, 22, at the northern mouth of the Avenue H underpass. The girl's death was attributed to a crushed chest.

No Charge Filed

After making statements to authorities, Sheffield was released. No charge had been filed in connection with the case, William Evans, assistant county attorney, said at noon.

Ward's condition was "fairly good," attaches of Lubbock sanitarium said at noon. Ward suffered a compound fracture of the right leg, and body bruises and abrasions.

Funeral services for Miss Kelly were held at 3:30 o'clock Sunday afternoon at Bynum-Morgan Funeral home. Mrs W. T. Wilson of the Salvation Army officiated. Burial was in Lubbock cemetery. The girl is survived by her mother, a sister, three brothers and a half-brother.

Charge Two Men In Houston Kidnaping

HOUSTON, April 27 (AP)—Two men were under kidnaping and assault to murder charges today in connection with the alleged abduction of Walter P. Stein yesterday but the police were reluctant to discuss the affair. They indicated they desired a further investigation.

C. W. Keseling, 32, and George Ingram, 30, were charged.

Police reported they first learned of the episode through a call from a disinterested person who said there had been a "shooting."

STARS 40,000 TIMES AS RADIANT AS THE SUN ARE FOUND BY ASTRONOMERS

BY F. B. COLTON,
Associated Press Science Writer

WASHINGTON, April 27. (AP)—Discovery of stars 40,000 times as radiant as the sun and as much as 186,000,000 miles across was announced today before the national academy of sciences.

Dr. Harlow Shapley, astronomer and director of the Harvard observatory, told of the huge new stars in describing explorations into distant reaches of space that may shed new light on the "limits" of the universe and on mathematical theories about the nature of space.

He spoke at the opening session of the three day annual meeting of the national academy, whose members are chosen as a result of outstanding accomplishments in science.

Census Taken

Discovery of the enormous new stars resulted from a census being taken by the Harvard observatory of the thousands of remote galaxies, giant star clusters that contain tens of billions of stars and are thousands of light years across. The galaxies serve as distant "mile posts" in the night sky with the aid of which Dr. Shapley is seeking new knowledge of the universe.

The "boundaries" of space, or at least the boundaries of the

(Turn to Page 7, Column 3, Please)

BUTLER SAYS INTERRUPTION OF HIS RADIO TALK IS A CLOSED INCIDENT

(By The Associated Press)

PHILADELPHIA, April 27—Major General Smedley D. Butler said today that so far as he is concerned, the interruption of his radio talk Saturday night is a closed incident.

The general was cut off the air when he used the word "hell" while making an address over the privately-owned station, Howard Miller, considered the word profane and officials of the radio commission in Washington said he was within his rights in putting an end to the speech.

The indicent occurred while General Butler was telling the 312th artillery association of the capture of Fort Riviere, Haiti, by the marines in 1915.

He had reached a point in the story where he and two marines were flattened against the fort, firing through a hole. Snipers were shooting through it from the inside.

"I knew I should lead the way into that hole," General Butler said, "because I had brought the outfit up there. But I didn't feel a bit like going and looked at the sergeant in a helpless way.

"The sergeant saw that look and, I suppose, said to himself, 'Oh, hell, I might as well go in first.' And he did go in first. A private followed him and I brought up the rear."

When the speech was finished General Butler went to the control room to protest.

Picnic And Bridge Party Are Week-End Social Events For College Societies

Young People Have Week - End Affairs

College societies enjoyed several social occasions during the week-end and outstanding among these were a picnic and a bridge party.

Members of the Silver Key club at Texas Technological and their dates attended a picnic at Johnston's ranch Sunday afternoon. The group went to the ranch at 2 o'clock, a barbecue picnic dinner was served and a program of entertainment was provided by new members. As a feature of the latter, the young men staged a mock regular meeting of the Silver Key club.

Sponsors who attended the picnic were Mr. and Mrs. O. C. Corry and Mrs. W. M. Fulbright.

These Are Guests

Guests included Misses Dorothy Griffin, Bobby Grimes, Kathleen Harmon, Sarah Price, Mildred Price, Virginia Bacon, Ruth Norman, Eileen Graves, Milbria Pirtle, Sylva Wilson, Creta Herndon, Fay Foote, Jean Shelley Jennings, Mary Lee Jameson, Laverne Yowell, Gertrude Standefer, Jo Caraway, Sue Barton, Wanda Butler, Frances Dunn, Edith Sanders, Elinor Aycock, Tina Alexander, Dorothy Cushing, Blanche Bradley, Hazel Pigon, Kate Boyd, Cornelia McDanne, Emma Jean Martin, Janey Jones, Polly Barron, Christine Denney, Zona Stiles, Ruby Spurlock, Tora Adams and Leona Rodden.

Club men who attended were Dick Bond, Mose Witherspoon, Ben Geer, Whacker Barton, Wendell Poole, Seth Cox, Robert Huff, Dick Busby, Harold Busby, Lon Edwards, Bill Fry, Daw Gambrell, Ford Benham, Brooks Penney, George Cowan, Olen Purcell, Clayton Reed, Edwin Spacek, Clarence Spacek, Fenton Harding, Ed Harris, Jess Rogers, Felix Ballenger, Dr. W. J. Howard, William Evans, Lou Brown, Johnny Keathley, Ellis Forman, Guy Pogue, Ned Bradley, F. M. Coker, Harold Ammons, Claybourn Bell, Julius Craver, Merrill Craver, Albert Jenson, James Atcheson, Loftin Baugh, William Kline, Kenneth Rollo, J. W. Timmons and Conrad Clark.

In Black and White

Black and white were featured in appointments for a party given Saturday afternoon by Misses Maxine Clark and Wilma Parks for members of Las Chaparritas club and a few guests. The party was given in the home of Mrs. John A. Porter, 2206 10th street. Hydrangea and tulips were used in floral decorations.

Club members who attended were Misses Helen Blythe, Marjorie Ann Ainsworth, Voncile Gilkerson, Jean Shelley Jennings, Virginia Murray, Gail Quinlan, Camille Stobaugh, Sylva Wilson, Ruth Allen, Glyds Grimsley, Sue Barton, Dorothy Griffin, Ruth Norman, Harriett Roach, Polly Barron and Gertrude Standefer.

Other guests were Misses Edith Phipps, Wanda Butler, Madeline Hughes, Mary Florence Knox, John Anna Boyd, Pauline Yeager and Geniece Hardberger.

High score for club members was made by Miss Allen and Miss Hughes scored high among the guests. High cuts were made by Misses Quinlan, Yeager, Wilson, Boyd, Hughes and Barton.

Girls Have Parts On Slaton Program

A group of Camp Fire girls from Lubbock acted as pages at the County Federation meeting in Slaton Saturday and assisted with the program with a demonstration Saturday afternoon when Miss Margie Taylor, executive, talked.

These girls were Willie Merle Sumner, Ernestine Sumner, Addie Lee Terrell, Mary Margaret Carter, Margaret Marshall and Melzine Rockey.

Miss Myrtle Murray, district home demonstration agent, was in Lubbock during Sunday for a few hours. Miss Murray was returning from Dimmitt where she held conferences with home demonstration workers there.

RECIPE GIVES COFFEE ROASTER IDEA FOR PERFECTING FLAVOR

Applies Rule for Mixing Muffin Ingredients to Patented Roasting Process

Success in muffin making depends to a great extent on the care with which the batter is made. That is why most recipes state that the milk should be poured into the flour a little at a time rather than all at once. Such care prevents lumps from forming.

This rule, "a little at a time," is the basis of Controlled Roasting—a process patented and used only by Hills Bros. in roasting their coffee. By automatic control, coffee passes continuously through the roasters, a few pounds at a time. Accurately controlled heat is applied with the result that every berry is roasted evenly—to the degree that insures a rich, uniform, full-bodied flavor. The common method of roasting coffee is in bulk—just the opposite of Hills Bros.' process.

Hills Bros. Coffee is always fresh because it is packed in vacuum. By this process air, which destroys the flavor of coffee, is taken out of the can and kept out. Ordinary cans, even if air-tight, do not keep coffee fresh. Grocers everywhere sell Hills Bros. Coffee. Ask for it by name and look for the Arab—the trade-mark—on the can.

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

PERSONALITY PROBLEMS

DR. E. LEE VINCENT, psychologist of Merrill-Palmer school, Detroit, wrote a very sane article in the April issue of "Childhood Education," entitled "Personality Problems Before Seven."

To quote: "During the past five or ten years there has occurred a marked change of attitude about personality problems of young children. Two things are conspicuous in this change.

"First, from a confident assurance that given problems are invariably the direct result of specific and easily assignable causes, we have come to realize taht any given problem may be caused by any one of a number of circumstances, depending upon the particular case and on the other hand, that any specific defect of environment may result in any one of a number of problems of behavior.

"We have come from a feeling of specific cause and result relationship to one of more general relationship. In the past, lecturers on the subject were likely to analyze given problems with assurance, saying, for example, that thumb-sucking was always due to starvation of the love life, or that enuresis was always due to a negativism between child and parent.

"Similarly, in treatment food problems were always to be cured by a starvation process, or temper tantrums by ignoring the subject: stutterers were to be given hand work, emotionally dependent children were to be removed from their parents, and so on. Each difficulty having a specific and easily assigned cause had, therefore, a specific and easily prescribed treatment.

"This doctrine of specific causes and treatments is no longer popular with experienced practitioners but has yielded to the more general view of cause and result relationships.

* * *

"The second change in viewpoint is analagous to a similar change which has occurred in the consideration of physcial problems. In place of devoting our entire energy to cure, we have come to place a marked emphasis on prevention. Interestingly enough, these changes in viewpoint are closely associated.

"If we see that specific problems may be due to a variety of causes depending upon the circumstance of a particular case, and that any serious defect in environment may result in any one of a number of types of problems, we are much more likely to arrive at the conclusion that an all around sound environment is necessary if personality problems are to be cured and that, therefore, since it is so desirable to have every fundamental aspect of the environment right it would probably be worth the effort to keep them right in the first place."

* * *

Dr. Vincent here explains why no one can answer a parent by mail in a way to always prove wholly satisfactory. It should be added, however, that even when the psychologist can see the child and his parents, even checking on the home, there is no complete guarantee that the problem will be solved. After all, parents must themselves solve their problems. All any of us can do is to help them stand off and analyze their problems and think through ways and means of correcting them, though of course we can drop a few suggestions which they might find helpful.

Fashion Baskets For First Of May

May baskets were made by girls in the Sunowa Camp Fire group at a meeting Saturday afternoon in the club house, 2009 Broadway. These baskets filled with flowers, will be presented to elderly women on May Day.

Those at the meeting were Ruth Holland, Rozeltha Ann Smith, Jean Faye Bristow, Virginia Cook, Greta Marie Elmore, Virginia Elliott, Marjorie Johnston, Gwendolyn Hyatt, Helenoire Reynolds and the guardian, Miss Ethel Green.

Miss McCanlies Is Honoree For Party

Miss Zella H. McCanlies was named guest of honor at a party given by Mesdames J. P. Rhodes and E. L. Lanthrop Friday evening in the home of the former at 1803 Avenue J. Miss McCanlies is to marry Marvin Tisdale, of Council Bluff, Iowa, within a short time.

A short program was heard with Miss Ada Lou Cox singing a vocal number and Miss Charles Cox giving a reading. The honor guest was presented a shower of miscellaneous gifts.

Guests were Mesdames N. C. Gantrell, W. H. McDonald, M. G. Wilson, L. E. Fowler, W. J. Ferguson, H. E. Eaton, N. L. Benson, C. L. Potts, G. B. Hallmark, N. F. Minor, O. E. Turner, W. T. Milam, C. P. Cox, Mary T. Dickey, H. M. Kline, Lloyd Johnson, Ernest Dye, Misses Virginia Milam, Pearl Harrison, Ada Lou and Charles Cox, Beatrice Padgett and Estelle Smiley.

M. H. Huckabees Will Entertain Club

Mr. and Mrs. M. H. Huckabee 2305 16th street, are to entertain for members of the Coo Coo club Thursday evening in their home at 8 o'clock.

Officers Elected In Camp Fire Unit

Girls in the Debwewin Camp Fire group met Saturday afternoon at the First Presbyterian church to elect officers. Marie Bradley was elected president of the group; Marion Stevens, vice-president; Meda Craig Twitty, secretary-treasurer; Norma Parks, scribe; Meda Craig Twitty, song leader, and Florence Arnold, assistant song leader.

Mrs. Tom Everheart is guardian of this group and Mrs. M. H. Adkisson is assistant guardian.

Following the business meeting, Mrs. Everheart lectured to the group. Those in attendance, other than the officers were Shirley Tate, Anna Katherine McNeill, Mary Irene Gregg, Lillian Tate, Lucille Brown and Anna Bell Sumner.

This is a newly formed group.

Graves Decorated By U. D. C. Sunday

Graves of men who fought in the Civil war were decorated Sunday afternoon by members of the United Daughters of the Confederacy in a service conducted at the Lubbock cemetery. A large crowd attended the services and heard the program of talks and songs. Dr. Jack M. Lewis made the principal talk.

China expects a road-building boom.

Organize Club For 25 Rural Women

Twenty-five women in the Broadview community met Friday afternoon at the Northwest Ward school for the purpose of organizing a 4-H Pantry club which has been named the Garden club.

Miss Ruth Stockton, county home demonstration agent, was present and assisted in the organization.

Mrs. John L. Sears was elected president, Mrs F. M. Roberson is vice-president, Mrs. Allen Stokes, secretary-treasurer and Miss Audrey Anderson, reporter, of the club.

The group plans to meet on the first Wednesday in each month for a program. There is no opening for another home demontsration club at present, but when another club can be added to the roll of the eleven organized chapters the Garden club expects to apply for membership.

Their work will consist mainly of planting a garden and canning by budget in the fall.

PLEA FOR TAXES

ABERNATHY,—(Special)—A plea for payment of taxes due the city has been issued by F. W. Struve, mayor. "Unless the people pay their taxes we will be forced to discharge our marshal and discontinue the street lights," he said in his appeal to taxpayers for their help.

Alma Alexander Has Party For Club

Miss Alma Alexander, 2424 21st street, entertained for members of the Poca a Poca club Saturday evening in her home.

Games of bridge were played with Miss Josephine Leach, of Honey Grove, making high score and Miss Pauline Trammell making low score.

Misses Leach, Tina Alexander and Rue Eubank were guests. Club members in attendance were Misses Mercedes Lawrence, Hilda Lawrence, Mary Barnett, Edith Leach, Trammell and Wilma Brock.

Class Members Are At Early Meal

Members of the class in the First Presbyterian church taught by Mrs. J. C. Dunkin attended a sunrise breakfast at the City park Saturday morning. The girls hiked to the park and cooked their breakfast over a camp fire.

Those in the party were Mary Amick, Jean Clapp, Hallie Mae Eaton, Frances Fryar, Elise Henson, Peggy Hess, Laetitia Womack, Louise McMillan, Paulma Fern Stapp, Mary Alice Waln and Mrs. Dunkin.

Scotland is to have an "Annual Welfare Week," when kindness to animals will be stressed in all parts of the country.

Joe Boles Honored At Party Saturday

As a courtesy to Joe Boles, who is moving to Canyon with his mother, Mrs. Ethel Boles, where they will make their home, Dorothy Hopping entertained with a treasure hunt Saturday night.

Guests met at the Hopping home at 2429 19th street. A buffet supper was served at 11 o'clock and dancing was enjoyed until 12 o'clock.

Those attending were Geraldine Turner, Claudie Pauiger, Jack Quinlan, Kate Williams, Jack Boles, Ruby Seale, Howard Price, Clarice Adcock, Chessie Bell Taylor, Wallace Smith, Dorothy Hopping, Joe Boles, Hollis Payne, Beatrice Hendricks, Sam Henry, Lois Pollard, Carrol McCaslin, Evelyn Horton, Geraldine Lawrence and Bob Ragle.

Oleta Bates, 9, Has Birthday Party

Marguerite Bates entertained Saturday afternoon at the home of Mrs. T. A. Bates 2320 7th street, with a birthday party for Oleta Bates, who is 9 years of age.

Guests were Mildred Sue Foster, Lorena Alexander, Nancy Beth Laird, Eleanor Porter, Fritz G. Sandlin, Mildred Harrison, Louise Porter, James Earl Wilson and Dickey Hardin.

It is the mark of a considerate hostess, by means of the Humidor Pack, to "Serve a fresh cigarette." Buy Camels by the carton—this cigarette will remain fresh in your home and office.

CAMELS

Every CAMEL Package Now a Tiny Humidor

Switch over for just one day then quit Camels, if you can

All regular Camel smokers have noticed a significant change in the Camel package. Now their favorite cigarettes come air-sealed in moisture-proof Cellophane.

An improvement in appearance, true, but the reason for this change that cost $2,000,000 was not mere looks.

It was done to protect the fine mild quality of Camels until they reach the smoker.

The best tobacco loses much of its rich flavor and aroma when its natural moisture content is lost through scorching or evaporation.

That's why we have made every Camel package a tiny humidor—so that you may always be sure of getting Camels in fresh mild condition.

Camels are wrapped only in moisture-proof Cellophane with an air-seal.

Try a package today and revel in the luxury of a really *fresh* cigarette.

Factory-fresh Camels are air-sealed in the new Sanitary Package which keeps the dust and germs out and keeps the flavor in.

It is peppery dust and harsh dry tobacco that are unkind to a smoker's throat.

We vacuum-clean away the dust and keep the natural moisture in by the exclusive Humidor Pack.

Make the switch to Camels for just one day, then leave them—if you can.

CLEVELAND INDIANS FORCED IN AMERICAN LOOP LEAD

Collier Parris

SPYING ON SPORTS

Three cheers for Shreveport! She finally won a baseball game, beating Wichita Falls yesterday, 5 to 3. We know, because we listened to the play by play report over the roommate's radio. It was the first victory for the Louisiana club in eleven starts. Tuero's hurling did the biz.

* * *

Crip Golightly, varsity basketball mentor at the Matador institution, announces that championship games, or inter-league games in the Texas Tech intramural championship tournament will begin tomorrow. Champions in three leagues have been determined, and there has been a lively scrap in some instances for league titles. Two teams, the "fish" cagers of the Liberal Arts league and "fish" of the Engineer league, have come through the prelims with a perfect record, winning all games, and are likely to be in the finals for the campus championship.

* * *

It has been one of the best intramural seasons ever promoted here, and should compare with campus seasons everywhere else. Forty-eight of a scheduled 54 games have been played or accounted for. The records show that only one game was forfeited, which means that an unusual interest has been taken in the tournament. One hundred and sixty athletes have played during the season and the rivalry has compared with that of conference teams. It is a fine thing, this intramural business, when it can be handled and run on a sound basis, and Coach Golightly has certainly seen to it that the season has been a success.

* * *

The sophomores of the Aggie league are champions of that division, having won five games in half a dozen starts, and loom as strong contenders for the campus title of champions. The championship of the Independent league will be decided tomorrow night, the Army and Y. M. C. A. teams having tied for the championship.

* * *

W. B. Chapman, Lubbock High school's new head coach, is expected to inaugurate a short season of spring football training this week. He has made arrangements at Cisco, where he has coached and taught for nine years, for his classroom work to be handled by substitutes and will spend possibly two weeks with the Westerner gridsters. The Westerners recently concluded a season of early training under Henry Frnka, and are in shape for real exercises. Chapman's work will deal largely with fundamentals and his particular style of coaching, though he will cause the locals, more than likely to engage in some heavy work before the series is over.

* * *

The city baseball league is having a little trouble in getting started. Two teams have signified intentions of withdrawing from the league. One team which applied for league membership and was accepted, the Lubbock A. B. C., has definitely withdrawn, and the Lions club has decided to withdraw, according to rumors. The league was organized with eight teams, including the above mentioned, and it will now be necessary to make a six-team league out of it or call for volunteers.

* * *

The reason for the withdrawals seems to be the fact that the managers in the league voted to make the league an open organization, limiting the players to 16 on each team. By "open league" is meant the right to recruit players not directly associated with the various organizations taking part in the league's schedule. When it was decided to make it an open affair it became necessary to limit the players. The clubs mentioned above saw that they had no chance against open warfare and decided to drop out. Since there were no contracts signed, it is to be supposed that nothing can be done about the segregation. Had it been voted to make it a closed league, everything would have ben hunky dory, so to speak, with each club battling for the championship with teams composed of strictly club members.

* * *

The city league season is due to start on or about May 15, though it probably will be May 19 before any games are played, since the West Texas Chamber of Commerce convention will extend through May 15. It was so voted at the last meeting of managers of the various clubs.

* * *

It has been suggested that leagues be organized. It is likely that a league composed of the four civic clubs and the American Legion will be organized to offer baseball competition and diversion for those club members so interested.

Electrical experts have designed apparatus that photographs a human heart in action, showing any changes in the rate of pulsation and other features that may indicate disease.

CATS PACING TEXAS LEAGUE

YANKEES LOOK BAD IN THE PINCHES

ERRORS IN WEEK-END GAMES COSTLY TO NEW YORKERS

BY GAYLE TALBOT, Jr.
Associated Press Sports Writer

As if it wasn't bad enough to lose three of his best outfielders, including Babe Ruth, within a week's time, something even worse has arisen to make Joe McCarthy prematurely grey. His New York Yankees have taken to lapsing mentally in the pinches.

As the outright result of two rarely unintelligent gestures over the week-end, the Yankees lost the same number of ball games and dropped out of first place in the American league, a position they had held without a break since opening day. The Cleveland Indians, rained out both days, took over the top without a struggle.

Chapman Confused

McCarthy's boys pulled the first one Saturday when Chapman became confused on where to toss the ball at a vital point in the tenth inning and didn't make up his mind until after the Red Sox had scored the winning run.

But that was scarcely anything compared to the rare skit given by Lou Gehrig and Lyn Lary yesterday at Washington. Lary was on base when Lou smote one far into the center pavilion. Lary, rounding third, looked back in time to see the ball bounce back into a fielder's hands, thought it had been caught for the third out and headed for the dugout. Before they could steer him back on the base path, Gehrig passed by with a fine burst of speed and crossed the plate. There went two runs, the exact margin by which the Senators eventually won, 9 to 7. Chapman later hit one into the stands with a fellow Yankee on base and the whole team turned out to escort them safely past third.

Cooke In Hospital

Dusty Cooke joined the New York hospital squad when he fell going after Bluege's homer in the third inning. He will be out at least two weeks, physician said, the result of a displaced collar bone. Myril Hoag is the third Yankee outfielder on the shelf.

In the day's only other American league engagement, Detroit scored its fourth straight victory at the expense of Chicago, 8 to 4.

Two sparking mound peformances flecked a curtailed Card in the National league. Heine Meine gave only four hits in pitching Pittsburgh to a 1 to 0 triumph over St. Louis. It was the season's second defeat for the champion Cardinals and their first shutout.

Charley Root, veteran Chicago righthander, started, finished and won his third straight game in downing Cincinnati, 3 to 1.

Rain spiked the day's festivities at Brooklyn, New York, Boston and Cleveland.

Hoover Forces Are Being Organized

WASHINGTON, April 27 (AP)—Organization of the Hoover forces looking to renomination of the president by the Republicans next year is under way with Raymond Benjamin, San Francisco, a personal friend of Mr. Hoover, taking a prominent role.

Benjamin came to Washington last winter and has established a law office here. He has no direct relation with the Republican national committee.

However, his recent activity and conversations with Republican leaders close to the administration have given these party chieftains the understanding that Benjamin after the political fences of the president.

Benjamin, a veteran in politics, declined to discuss the subject other than to say he was interested in politics as a pastime and has no ambitions whatever for public office of any kind for himself.

A single lightning flash represents enough wasted electricity to light your home for 20 years or more.

BABE RUTH GOES HOME IN A WHEEL CHAIR; TO BE OUT FOR TWO WEEKS

NEW YORK, April 27 (AP)—The "great man" of baseball—Babe Ruth—left home last Tuesday full of vigor, with three home runs to his credit and hopes of producing a new record. He came home last night in a wheel chair.

Te Babe was discharged from the hospital in Boston yesterday full of optimism about getting back into the game. He wanted to get a crack at the Athletics this week, he said. But by the time he had completed the five hour ride to New York, the predictions of the physician who attended him, Dr. Francis C. Newton, that the Babe would be out of action two weeks appeared more fully justified. He appeared tired from the journey and much of his usual jocularity was missing. He felt "fine" except for his injured leg, he said, but he did not protest when Mrs. Ruth answered "two weeks" to all questions about how long he would be out of the game.

Goes To Home

The Babe went home as soon as he arrived. He was trundled to his car, hoisted in with some difficulty and started for a more comfortable place. He will remain under the care of Dr. Edward Kingsley, the Yankees' club physician, until he is able to play again. The swollen area on his leg, which bore the brunt of his crash into Charley Berry, Boston catcher, has almost disappeared, Ruth said. He is able to walk a little now.

GRADE GRADUATION

LITTLEFIELD, — (Special) — Approximately 95 grade school students will be promoted to the high school at the annual exercises to be held here May 11. Rev. Bruce Meador of the Methodist church will give the class address and J. E. Chilsholm, principal, will present the diplomas. Faye Foust is the valedictorian and Marshall Burleston the salutatorian. Ellarene Vause made the third highest grade.

TENTH INNING RALLY DOWNS STEERS

SHREVEPORT FINALLY BREAKS INTO THE WIN COLUMN

(By The Associated Press)

A three-run rally in the tenth inning gave the Fort Worth Panthers a 4 to 1 victory over the Dallas Steers Sunday and the Texas league pennant chase by a margin of one game.

The league leadership at stake, McCabe, for Fort Worth, and Murray, for Dallas, started the game. Both worked well and at the end of nine innings the count was knotted at 1 and 1. An error, an intentional pass and two hits scored three runs for Fort Worth in the tenth and Hansen, who relieved McCabe, held the Morsemen hitless in the Steers' half of the inning to get credit for the win.

Sports Finally Win

Shreveport, knocked about in every game since the season opened, finally broke into the win column at the expense of the Wichita Falls Spudders Sunday. After losing ten straight, the Sports, with Tuero on the mound, scored four runs in the eighth taking a 5 to 3 lead which the Spudders could not touch in the ninth.

Carroll was master of the Houston Buffs as the Galveston Buccaneers won 3 to 2, squaring the series with their rivals and at the same time breaking a four-game losing streak. Carroll struck out one Buff but kept Houston's six hits so well scattered that they netted only two runs.

San Antonio made it two straight over Beaumont, 4 to 1, with Cyrus Smith baffling the Exporters. He kept their nine hits scattered and aided his own cause by driving in two runs with a double and a triple.

Monday's schedule was unchanged, Fort Worth playing at Dallas, Wichita Falls at Shreveport, Houston at Galveston and Beaumont at San Antonio.

FINAL ROUNDS IN TOURNEY

TECH CHAMPIONSHIPS DECIDED IN THREE CAMPUS LEAGUES

With championships already decided in three of the four leagues the Texas Tech intramural basketball tournament enters the final rounds this week with four teams battling for the campus championship. The Army and Y. M. C. A. teams of the Independent league are tied at the top of that division and will play a championship game tomorrow evening.

Coach W. L. "Crip" Golightly announced the champions in three leagues this morning, along with the first round championship games. The Freshman team of the School of Liberal Arts league head all the sixteen teams of the circuits in number of points scored. The "fish" have a record of perfect standing, having won all of their six league games, scoring a total of 216 points.

Frosh In Lead

The frosh lead the Engineer league with six victories in as mnay starts and a total of 167 points. The sophomore team of the Aggie league has won 5 games, losing 1, for the championship, and will meet the "Fish" Liberal Arts tomorrow night at 8 o'clock in the first championship round game.

The championship of the campus promises to hing about the Fish Liberal Arts and the Fish Engineers, each team being undefeated in the two toughest leagues. The "Fish" Engineers will meet the winner of the Army-Y. M. C. A. game Wednesday evening, leaving the winner of that game to meet the winner of the Fish-Soph game in the championship contest.

Alaska Repeals Its Bone Dry Statute

JUNEAU, Alaska, April 27 (AP)—The Alaska territorial senate has passed a bill repealing the bone dry law by an unanimous vote, 7 to 0. An important amendment will send the measure back to the house, which also approved the proposal by a 10 to 5 vote last week.

In addition to requiring the signature of Governor George Parks, should the house concur in the senate amendment, the measure must be approved by congress because of the territorial status of Alaska.

No immediate change in the prohibition enforcement situation will follow, legislators explained.

STARS OF GAMES ON YESTERDAY

(By The Associated Press)

Carl Fischer, Senators—Fanned ten Yankees in Washington's 9 to 7 triumph over Yankees.

Jonothan Stone, Tigers—Hit fifth home run of season in seventh inning to break tie as Detroit defeated White Sox 8-4.

Rogers Hornsby, Cubs — Made three hits in five times up to help Cubs defeat Cincinnati 3 to 1.

Henry Meine, Pirates—Shut out Cardinals with four hits to win 1 to 0.

Raw asbestos is found in appreciable quantities in twelve countries, Canada leading in its production, followed by Rhodesia and the Union of South Africa.

"CALAMITY JANE" LIES DEFECTED IN GOLF BAG AFTER FAILING FOR JONES

BY PAUL ZIMMERMAN.

LOS ANGELES, April 27 (AP)—"Calamity Jane" lay dejected in Bobby Jones' golf bag today.

The famed putter, which aided the Atlanta lawyer in becoming the world's greatest golf champion, failed its master miserably on Wilshire Country club's rain-soaked greens yesterday, and therein lies a story.

End All-Square

It all happened in a best-ball match for charity, in which Jones and Leo Diegel, Agua Caliente pro, mudded through eighteen holes to finish all-square with California's Dutra Brothers, Mortie of Long Beach and Olin of Santa Monica.

The surprising thing was that it was Jones who had the highest score, a 75, Diegel and Olin shot 74s on the wet 69-par course while Mortie came out with the honors, a 73.

Even on Bobby's thirty-seventh putt, a dramatic 5-footer which had it dropped, would have won the match on the eighteenth, did Calamity Jane fail. Jones stepped ankle deep into a flooded barranca to explode his submerged ball almost into the cup.

Less Fortunate

Mortie Dutra and Diegel were in similar difficulties and were less fortunate in getting out, while Olin's third was 15 feet from the pin. Bobby took unusual precaution as he addressed the ball. It was no use, He explained it later.

"I knew the putt was lined up right, but after such a miserable showing on the greens, I had lost confidence, and pulled the shot slightly." The ball rolled 3 inches to the left of the cup, but allowed him to halve the hole, for Olin also was down in 2 for a 5.

Bobby took 38 strokes on the greens, whereas Diegel and Olin used 32 each and Mortie 30.

POSSIBILITIES

There Are Only 63,000,000,000,000 Billiard Shots

CHAMPAIGN, Ill., April 27 (AP)—If you think this game of billiards isn't full of possibilities for a lifetime of attention, just read what Prof. Frank G. Dickinson of the University of Illinois, has figured out.

Prof. Dickinson, originator of the football rating system which bears his name, loves numbers, and billiards is full of them.

For instance, there are possibilities for a mere 63,000,000,000,000 different shots. If one tried to make all of them he couldn't do it working day and night, in 2,000,000,000 years According to Prof. Dickinson's figures, there are 6,325 inches of usable surface on a championship table. If the table were lined off into one-eighth inch blocks and the balls were grouped in every possible combination, there would be more than 63,000,000,000,000 arrangements.

The professor says the problem may be considerably simplified by lining the table off into one inch blocks, then it would leave only 243,000,000,000 combinations.

ALEXANDER TO PLAY HERE

"OLD PETE" IS WITH HOUSE OF DAVID BASEBALL TEAM

Grover Cleveland Alexander, hero of more than one world's series and for fifteen years a pitcher in the major leagues, will appear here May 8 with the House of David baseball team from Benton Harbor, Michigan. The House of David team will meet a local aggregation in a night game here, the first to be played on the Plains.

Carrying its own portable lighting plant, an investment of $30,000, the House of David team will introduce to Lubbock the first outdoor night game of any kind. Night football has been played in West Texas, though it has never been attempted in Lubbock. The game here, beginning at 8:30 o'clock, will be the first night baseball game ever played west and north of Abilene. The lighting equipment was formerly owned by the Kansas City Monarchs, semi-professional negro team, that introduced night baseball to Texas.

"Old Pete" Alexander, who played with the Dallas club of the Texas league last season, recently was named manager of the House of David team. He is listed as starting pitcher in the probable lineup here.

The House of David club has been training this spring in Mineral Wells, playing professional and amateur teams of East and South Texas and making its first West Texas debut here May 8. The lighting equipment is carried by a caravan of eight large trucks.

A local team, managed by W. L. Golightly, Tech coach, will oppose the House of David team here, proceeds of the game going toward the purchase of furniture for the varsity men's club room on the campus.

Motor Adjustmnts Halt Record Run

MIAMI BEACH, Fla., April 27. (AP)—Motor adjustments temporarily held up Gar Wood's attempt to break the world speed boat record of 103.49 miles per hour today after he had made three early morning runs in the Miss America IX over the measured mile course in Indian' Creek.

All three of the runs fell short of the record, which was set in South America some time ago by Kaye Don of England.

The first trial, southward over the course, was timed at 102.281 miles per hour. The second, run northward, was 101.034 miles per hour, while the third, again southward, was clocked at 101.256 miles per hour.

NEW FLOYD ROAD

FLOYDADA,—(Special)—A new county road from Barwise to Harmony school, has been approved by the county commissioner's court. Cost will be less than $200. W. D. Edwards and others asked the court for the road.

Thought For Today

Be ye doers of the word and not hearers only, deluding yourselves.—James 1:22.

* * *

Deeds alone suffice.—Whittier.

Organized Crime

Shallow-thinking men have often pointed to Chicago as the most wicked city in the country. Watching the drama between society and entrenched gangsters, they have at times felt sorry for America's second largest metropolis. Such an attitude is not justified.

Chicago is fortunate. The citizenry is crime-conscious. The forces of law and order are gaining momentum, slowly it is true, but nevertheless effectively. Sooner or later organized crime must surrender.

The new mayor, Cermak, may be but an incident. If he fulfills his promises and wipes out gangdom he should be congratulated. If he fails, the drive will continue without him and, if necessary, despite him. The masses are fundamentally honest and with full realization that crime is a great problem they are going to solve it.

The Chicago Crime Commission, now more than 12 years old, is bringing intelligence to solve the problem. Honest lawyers are cooperating. Men like Judge Lyle are whole-heartedly back of any movement that will better conditions. Capone and all he symbolizes will eventually abdicate. Fearless leaders will demand it.

Now, before so-called experts start deriding lawless Chicago, conditions in other cities should be investigated. Many of them have more crime than the Illinois city. To arouse the people and make them aware of true conditions in their communities is a finer duty than knocking Chicago.

In many cases, where crime and corruption is rampant, the real state of affairs hasn't been fully exposed. Let the experts think that over. They can be of service.

Usefulness

It is quite possible that age has too much to do with our conception of usefulness. Sometimes it becomes a stark sort of ghost that walks along, just waiting for a good chance to step out and grab an old man or old woman who is still capable, but has been alive so long that the world thinks he should sit in a rocking chair in a corner somewhere.

That is the way it was with Mme. Helen Delpierre, a bookbinder in Paris. She was 101 years old but she was afraid that she would lose her job if she told her age. But the other day the new social insurance act went into effect and she had to face the official registration of workers. She told her age.

No one had thought that she was more than 60. Her work was swift, thorough, efficient. She earned her salary. Now there is a movement to secure a pension for her. She hasn't lost her job. No one can question her ability.

But if it had been known that she had reached a great-motherly age, years ago, in all probability everyone would have supposed that her days of usefulness were numbered. It is doubtful if she would have been given a chance to go on.

Age need not control our actions. Some people remain physically capable of self-support long after others. Certainly no one who is old and helpless should be forced to toil. But those who are still strong and who are happy when at work need not be deprived of this joy. The compensation acts for age can be studied from more angles than the financial side.

Walter Hampden, stage star, Called New York critics short-sighted when they gave unfavorable reviews of his performance. That's not the way to act, Walter.

Berlin scientists find that persons under the influence of liquor sunburn more easily than sober persons. This may explain why so many look "of-color" after a drunk.

What puzzles us is why more Scotchmen don't leave Scotland to settle down in the Irish Free State.

"Let's make toupee," as the bald-headed man said to the wig-maker.

The PLAINSMAN Says:

That Girl on Broadway says the smart woman builds her air castles next door to a delicatessen.

* * *

Mussolini is no occulist but that doesn't keep him from being Italy's "I" specialist.

* * *

THAT Amarillo gas war is getting to be plumb interesting. The Amarillo Gas Company and Mayor Ernest Thompson have been going 'round and 'round, with the result that the gas company, to protect its more than two million dollar investment, has whacked prices down from 38 cents per 1,000 cubic feet to 27 cents per 1,000 cubic feet.

* * *

Mayor Thompson worked up plans to bring in a municipal gas system with a top price of 23½ cents per 1,000 cubic feet and that's what started all the rumpus. The gas company cut from 45 cents to 38 cents, and when that didn't stop the Mayor they cut again to the present rate of 27 cents. Reports drifting in from the North Plains city indicate that the Mayor still isn't satisfied, and those in touch with the situation say Amarillo may get even cheaper gas than it's getting now.

* * *

The Plainsman isn't any prophet—and he doesn't believe in Santa Claus. But from the looks of things, the Amarillo rookus is going to rebound to the benefit of Lubbock and the South Plains and this column is ready to guess that there'll be a gas cut announced here before many more moons. In fact, The Plainsman will wager a good hat that Lubbock domestic gas users will not be paying as much next fall as they are paying now. The domestic rate is 67½ cents per 1,000 cubic feet here at this time.

* * *

FRANKLY, The Plainsman doesn't expect to see Lubbock get gas as cheap as Amarillo gets it. In the first place, Amarillo's volume is twice as great as that here—and it's around 125 miles closer to the source of raw gas. It doesn't take an expert in economics to see that the West Texas Gas company can't serve Lubbock at the same rate it serves Amarillo—particularly since the original investment has been paid out there and has not been paid out here.

But the general public will be glad to see a nice rate reduction here. In fact the concensus of opinion seems to be that Lubbock has earned a reduction. Certainly the city will have difficulty in competing with Amarillo for home-makers with a difference of 40½ cents per thousand cubic feet, as it stands now. The rate will have to be cut if Lubbock is to get anywhere near an even break with the metropolis to the north.

* * *

That Man on Avenue Q says just because his daughter is in charge of an information bureau is no reason to say she works in a questionable place.

* * *

THE Plainsman is more than casually interested in the plan of the Lubbock Lions club to sponsor band concerts in Lubbock throughout the spring, summer and early fall. There's nothing like the good, oldfashioned band program to interest people in the off hours—and, what is more, to keep their minds off their troubles.

* * *

Judge W. D. Girand, sr., and L. M. Drown, manager of Hotel Hilton, are two Lubbock citizens who saw the same plan work out to the advantage of everyone in Abilene. Mr. Girand testifies that the concerts in the Taylor county capital not only pleased thousands of towns-people, but also brought folks in from the rural sections and smaller towns in the Abilene area.

* * *

Mr. Drown's hotel in Abilene faces on the public lawn where the concerts were held. He tells The Plainsman that they were a decided hit and that he's so interested in seeing the idea go over here that he'll do anything he can to help the game along here.

* * *

MR. GIRAND, who promoted the feature for Abilene, says the plan is to have two concerts a week—one on Sunday afternoon at the county park and one on a week night on the courthouse lawn.

"The Sunday afternoon concerts were particularly popular in Abilene", he said, "and we found out that every traveling man in our territory who could so arrange his schedule came in to week-end in Abilene to hear those band concerts."

* * *

The Plainsman hopes the Lions club is successful in its project, which, incidentally will also be a spur to the high school band boys. The Lions should be congratulated on their oft-displayed interest in local affairs and for their policy in getting behind plans that will help make Lubbock a better place in which to live.

* * *

A Lubbock employer who belived in supporting all efforts to introduce a new spirit into industry had called his men together to place before them his plans for bettering working conditions.

"Now, whenever I enter the shop,"

he said, "I want to see every man cheerfully performing his task and therefore I invite you to place in this box any suggestions as to how that can be brought about."

A few days later he opened the box and took out a slip of paper on which was written: "Take the rubber heels off your shoes."

The Spring Overhaul!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

U. S. Sends Senators Abroad To Interview Leaders Of Foreign Countries In Move To End Silver Depression

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, April 27.—Three senators are going abroad to study the silver situation and add to a great mass of information and opinion which has been poured out in statements, official reports and erudite articles—none of which has prevented the price of silver from going down below 30 cents an ounce.

In February, at about the time silver was falling below 26 cents after previously declining from 60 cents in 1925 to 46 cents in 1930, the Senate adopted the resolution of Senator Key Pittman of Nevada which asked President Hoover to negotiate with foreign governments with a view to stopping government sales of silver and to promote an international conference to achieve agreements or understandings "with respect to the uses and status of silver as money."

Conference Not Called

No conference has been called, but the administration is actively interested in silver, along with statesmen, fiscal experts, economists and business men over the world. The subcommittee of the Senate Foreign Relations Committee which will now be interviewing foreign leaders consists of Pittman, Swanson of Virginia and Chipstead of Minnesota.

The important phases of the international silver depression, which have stirred up general interest in and discussion about the metal for the first time since the famous Bryan "free silver" campaign of 1896, involve the prosperity of India and China and the effect of low silver prices on exports to those countries, the effect on the mining industry in this country and other countries where Americans may or may not have large mining investments and the aggregate effect which most experts agree has been an important factor in the world-wide business depression of the last year or two.

Many Countries Affected

Silver is not the only depressing factor, but the great amount of study and discussion devoted to it is attributable to the fact that our own silver producing states are vitally affected, half a dozen important countries in Asia and the Americas which either hoard or produce silver are involved and many authorities seem to believe that something can be done about the white metal which will stimulate prosperity's return.

This is probably the shortest article ever written about silver, but some of the main facts may be pointed out as follows: The total world loss on silver supplies, with its accompanying bad psychological effects, will approach two and a half billion dollars, a decrease of more than half within 18 months. That meant about $1,200,000,000 to the people of India and about $800,000,000 to the Chinese. Our exports to China have decreased rapidly. China operates on a silver standard, the value of her currency depending on silver prices. India's people, although on a gold basis, hoard silver in vast quantities as a form of saving. Mexico, the largest silver producing country, has been hard hit because silver is among her most important exports; her two-year suspension of payments to holders of her external bonds was partly attributed to the silver decline.

Treasury Lost 100 Million

The U. S. treasury lost $100,000,000 on its silver reserves.

Governor Montagu Norman of the Bank of England and Secretary of the Treasury Mellon are said to have discussed silver at their recent meeting here, but no suggestion or proposal has been forthcoming as a result. Both the United States and Great Britain are understood to be willing to enter an international silver conference, but apparently neither country intends to call one.

Various proposals for government action here and abroad have not been getting anywhere because they are not convincingly sound or advantageous from the standpoint of those requested to act. Most of them involve some form of price fixing.

It has been suggested that governments informally agree not to sell silver below a stipulated price, that they put more silver into their coins—most silver coinage having been debased—and that the United States absorb much of the oversupply. Senator Pittman has also proposed a silver loan to China, but neither Chinese nor Americans appear to be very interested.

Silver is a commodity affected by the laws of supply and demand and Undersecretary of the Treasury Ogden Mills pointed out last March that effort sto maintain commodity prices by withholding surpluses through agreement or government financing had not only not been successful but were factors contributing to the business depression.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE. Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 3 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1438 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are: "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

MARKS ON FINGERS

The finger nails and toe nails are, anatomically considered, a modified form of hair. The skin can change its structure so that outgrowths from it take various forms. In the classification of the zoologist—hair, nails, feathers, scales and the armour of turtles are all appendages of the skin. True horns also originate from skin, but only one animal has a true horn — the rhinocerous. Cows' horns are outgrowths from the bone covered with a layer of modified skin, true corneum. Deer's horns are entirely processes of the frontal bone. And giraffe's horns, if you car to know, are epiphyseal bones not connected with skull, and covered with hairy skin.

Dr. Clendening

But, to get back to man and his nails, the structure of nails shows them to be very thick, dense layers of the stratum corneum or surface part of the skin. The nail is firmly attached by strong connective tissues to the periosteum, or covering of the bone beneath, but they only grow from a small part of the nail bed at the base of the nail.

There are many peculiar things about the growth of nails. Like the hair, they grow faster in the summer than in the winter. They grow faster on the right hand than on the left in right-handed people and vice versa. The growth varies with age and with the person's occupation. The finger nails grow three times as fast as the toe nails. Sickness slows the rate of growth and it modifies the form of the nail, causing transverse ridges. If a limb is broken the nails on its extremities grow slower than on the other extremities for the period of the knitting of the bone.

The little white spots that sometimes appear in or under the nail are due to air which gets in between the layers or lamellae of the nail. How the air gets in I am sure I don't know. The spots are called "gift spots," and I don't know why that is either. I would like to know. Perhaps some of my readers can tell me, although I'm not sure I know what I'm going to do with the information after I get it. But it will be just as useful as what I know about giraffe horns.

The average rate of growth of finger nails is one-third of an inch a week, according to the anatomist, Quain, although this seems to be too much to me.

If you are a good detective you can tell about a person's past life by looking at his nails. That is, about their past for a few weeks. Any serious sickness makes a change in the nutrition of the whole skin, including the nail bed, which makes the transverse ridge mentioned above. If the illness is prolonged, as typhoid fever, this ridge is broad. If a person has had a surgical operation recently you can often tell the very day of the operation by a fine, thin depression on the nail. During certain constitutional diseases all the nails are shed, just as sometimes after serious illness all the hair comes out.

Longitudinal ridges, running from the base straight to the top, are not of any significance. They simply indicate a fold in the nail bed, and are often accurate marks of heredity. I know of a father and son who had exactly the same number of these ridges on exactly the same finger nails.

DELAY BOND ELECTION

WELLINGTON, April 27 (AP)—A bond election to provide funds for a municipal gas system was postponed until June 23 when citizens held a mass meeting and asked the city commission to further investigate the possibilities of getting the Northern Texas Utilities company, now serving the city, to reduce its rates.

American talking pictures are being produced at a studio in England.

DAILY ALMANAC

Cloudy

WEST TEXAS: Cloudy, local showers in west portion, warmer west and north portions tonight; Tuesday cloudy, local showers.

EAST TEXAS: Partly cloudy, warmer in northwest portion tonight; Tuesday partly cloudy to cloudy, local showers in west portion and on west coast, warmer. Light to fresh easterly winds on the coast.

OKLAHOMA: Increasing cloudiness, warmer tonight; Tuesday cloudy, local showers, warmer in east portion.

SWAN

In New York With Gilbert Swan

NEW YORK, April 27.—Life is like that—and also like this:

Maclyn Arbuckle was originator of the famous expression, "Nobody loves a fat man." Yet when he died recently, this extremely plump gent had just about as many friends as anyone in the theater business.

In one of the almost-all-night restaurants where the gay boys and play-boys go for their melted-cheese-on-toast after gadding about until dawn, the menu contains a long list of sandwiches named after celebrities.

There are several such, and each one concocts a slightly different combination under such titles as the "Earl Carroll delight" or the "Heywood Broun special" or the "Eddie Cantor double-decker."

The menus, apparently, haven't been changed in about a year. The other morning I picked one up.

Three of the people whose names were attached to dainty delicacies had died within the past few months.

• • •

For years a certain famous beauty posed as a photographic model for everything from Corsets to tooth paste. She was one of a few dozen demanded by scores of national advertisers. Her face, if not her name, was known to millions of people across the land.

Sometimes the pictures would show her in evening frocks and sometimes in the scantiest of attire.

She married a certain rich man—but her pictures, particularly those taken when she posed in the very-very, kept appearing in a certain type of publication.

The husband has bought up hundreds of copies to keep them from being ogled by young men who purchase such publications. The wife, quite naturally, thinks it's very funny. She posed for a living, and that was that!

But though demands for her services would bring her a neat fortune, she has promised never again to model.

• • •

No one in Manhattan had a higher-brow attitude toward music. Every night, after a day's work, he would go home and practice on the piano for hours.

Actually, he was a newspaper writer. One day he got a job writing a radio column. And each week he would lambast the syncopationists and make rough remarks about radio programs that went in for jazz. Then the paper on which he worked was merged. With scores of others he was tossed out of a job.

The other day he came into the office with a story.

He had become press agent for one of the "hottest" jazz bands in America.

• • •

A generation ago, so the story goes, he was a bum on the Brooklyn waterfront.

One day a cop came along and gave him the "move on" order. The cop was decent about it; in fact, he took the man aside and advised him to get next to himself.

"But I'm really broke" the man said to the cop. "I really need money. I'd go to work tomorrow if I could get work."

The cop believed him and gave him 50 cents.

The other day the Brooklyn cop—still a cop—got a letter. It was from a prosperous manufacturer in the middle west. It offered him a managerial job.

"You probably won't remember, but I'm the fellow you gave 50 cents to when I really needed it," the letter read.

PLACED UNDER BONDS

SAN ANTONIO, April 27 (AP)—Three men arrested Friday night at a tourist camp by city detectives when a counterfeiting outfit was seized were placed under temporary bonds of $1,500 each by United States Commissioner P. A. Lockhart to await grand jury action. The men gave their names as C. C. Daniel, O. P. Couch and Jim Johnson.

A total of 836 congresses, assemblies and exhibitions was held in Europe during 1930. Among the most unusual were the International Congress of Tramps, the International Congress of Lodgers, and a gathering of 20,000 herring fishermen.

Flapper Fanny

When reducing to music most women like light and airy tunes.

THE TINYMITES

STORY by HAL COCHRAN—PICTURES by KING

(READ THE STORY, THEN COLOR THE PICTURE)

That night the tired out Tinies went to quite a queer place. There they spent the night in restful slumber deep. The Travel Man just smiled as all of them jumped into bed. Said he, "Each one's a sleepy head! Nobody gets as tired, I guess, as any active child."

Next morning they were up at dawn. Said one, "The Travel Man has gone. I hope he will return real soon. I'm scared here, all alone." "Ha, ha," laughed Scouty. "How you rave! Why don't you try and be real brave? You wouldn't get so far, if you were put upon your own.

"The Chinese folks are very kind and they'd be nice to us, you'd find. But there's no need to worry. Our kind friend will soon return." And he was right. It wasn't long until they heard some footsteps strong. And in walked Mister Travel Man. Said he "You've lots to learn.

"I've walked around the town, and you, I'm sure, will want to do it, too. Queer sights that you have not seen yet are everywhere. I went down by the old canal. I saw a sight to fill you lads with awe. My little hike, I'll promise you, was really well spent."

And then they all insisted he would be as kind as kind could be, if he would lead them to the old canal. "All right," he said. "It isn't far and we can hike. The real fresh morning air you'll like. You surely have a lot of pep, you've been so long in bed."

They reach the old canal. "Hey! Hey!" cried Coppy. "It is washing day. Just look at all those people. They are scrubbing clothes up white." And then the Tinies gathered 'round and all sat down upon the ground. Said Scouty, "My, they work real hard. I guess they do things right."

(The Tinymites visit a famous gateway in the next story.)

Mussolini is reported to be an expert violinist. And yet there are some who insist he never rests his chin.

A new diet for tuberculosis has been attractign attention in Germany. It aims at limiting the amount of mineral salts and reducing the proportion of sugar and starch-containing foods in the diet, together with the addition of raw foods containing vitamins.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, April 27 (AP)—Active selling preceded the suspension of another stock exchange firm for insolvency today, but the market calmly received the actual news of the insolvency and trading became quieter after the announcement was made.

Early gains in the general list melted rapidly after the opening, although shares with which Otis Eaton interests have been identified, including Goodyear Rubber, Continental Shares and Republic Steel, maintained part of their initial improvement.

Standard Oil of New Jersey was conspicuously weak, losing 3 points. Other stocks down the same amount included New York Central, Johns Manville, Industrial Rayon, Union Carbide and Western Union. Texas Corp., Case, Du Pont, Air Reduction dropped 2 to 2 1-2 .U. S. Steel, Radio, General Electric and American Can, however, were relatively steady.

Call money renewed at 1 1-2 per cent.

Grain Market

CHICAGO REPORT

CHICAGO, April 27. (AP)—Wheat scored early advances today after a wavering start but corn touched new bottom levels. Upturns in wheat were influenced by relative firmness of Liverpool quotations and by frost reports from Kansas, Missouri and Nebraska.

Opening at 1-8 cent off to 3-8c up, wheat later gained all around. Corn started at 1-2c decline to 1-2c advance and subsequently underwent a general sag.

Cotton Market

NEW YORK REPORT

NEW YORK, April 27. (AP)—Cotton opened steady today at a decline of 7 to 9 points in response to relatively easy Liverpool cables and continued near month liquidation. The latter was absorbed by trade buying against sales of later months and there appeared to be good demand for May around the 10-cent level. There may have been some commission house buying of later deliveries on reports of continued low temperatures in northern sections of the belt or further showers in eastern belt sections. October sold off to 10.60 at the opening but later rallied to 10.64. May fluctuated between 9.99 and 10.01. The general market was holding about steady at the end of the first half hour.

Liverpool cables reported continental and Bombay selling in that market and a bearish sentiment in Liverpool with cotton cloth and yarn buyers cautions. Egyptian futures in Alexandria were 20 to 49 points lower and the Indian spot quotation in Liverpool 7 points lower.

The market eased later in the morning under continued near month liquidation together with some local and Wall Street selling which may have been influenced by the unsettled ruling of the stock market. May declined to 10.05 and October to 10.58 with the market showing net declines of 11 to 13 points at midday.

NEW ORLEANS REPORT

NEW ORLEANS, April 27. (AP)—Cotton here had an easy opening today due to very much lower Liverpool cables than looked for. The weakness abroad was attributed to uneasiness over the budget to be presented to parliament today.

First trades here showed losses of seven to nine points, July trading down to 10.26 and October to 10.60. There was a rally of three points later in the first hour on a little covering due to less favorable weather prospects.

Trading was moderate and at the end of the first hour the market was steady and at the highs.

The cotton market ruled easy nearly all morning, prices gradually declining owing to weakness in stocks caused by two additional failures in New York. July finally dropped to 10.17 and October to 10.52 or 12 points below the earlier highs and 16 to 17 points below yesterday's close.

Around mid-session, the market was a shade steadier and had recovered two points from the lowest of the morning.

Trading was rather sluggish.

NEW ORLEANS OPEN

NEW ORLEANS, April 27. (AP)—Cotton futures opened steady today.

May 10.01-bid; July 10.27; Oct. 10.60; Dec. 10.82; Jan 10.95; March 11.15-bid.

NEW YORK OPEN

NEW YORK, April 27. (AP)—Cotton futures opened steady today.

May 10.01; July 10.27; Oct. 10.60; Dec. 10.86; Jan. 1096; March 11.19.

STARS

Continued From Page One

space occupied by galaxies, apparently still are far beyond the reach of man's largest telescopes, Dr. Shapley said. The greatest distance the largest telescopes have been able to "see" is about 200 million light years. That is the distance light would travel in 200 million years at its speed of approximately 186,000 miles a second.

Not Uniform

Dr. Shapley said he had found the more distant galaxies do not seem to be uniformly distributed in space, and this may be significant in relation to mathematical theories concerning the universe.

Removing radio antennae from city roof tops and sending television and radio programs into homes over telephone wires was urged by Major General George O. Squier, retired, former chief of the United States army signal corps. He said the average telephone is used only eighteen minutes out of 24 hours.

Entertainment and radio programs similar to those now sent over the radio but free from advertising could be supplied by telephone companies for a monthly charge, General Squier suggested. Under his plan they would be broadcast from a central station, picked up by central receiving sets in cities, and transmitted over existing telephone wires to homes, which would be equipped with loud speakers and dials for selecting the desired program. Television could be sent the same way, he said.

Highway Meeting Is At Elk City Today

ELK CITY, Okla., April 27. (AP)—The past and the present were blended in pagantry here today.

Delegates arriving for the U. S. Highway 66 association meeting were greeted by Cheyenne and Arapahoe Indians who had arrived yesterday by wagon and set up their village for the celebration attending the meeting. Braves from the village were to slaughter a buffalo for the banquet tonight, following the business meeting and a pageant picturing the progress of transportation.

Prairie schooners, ox carts, chuck wagons and stage coaches were units in the pageant.

WINS SECOND PLACE

Leona Anderson, daughter of Mr. and Mrs. J. B. Anderson, Lubbock, Route 1, was awarded second place in the state with a theme on "What Pacific Means Should be Developed to Make the Paris Peace Pact Effective." This contest was conducted through the public schools in an international effort to promote world peace. Winners of first place from each country will be given a trip to the Hague and other parts of Europe.

SOCIETY NEWS

(Continued From The Women's Page)

League Rally Here Attended By Many

The Asbury Methodist Senior Epworth League was awarded the banner for being the outstanding league in the district Sunday afternoon at a business session which closed a two-day rally of leagues in the Lubbock Methodist district. The Asbury league was host to the assembly.

Sunday's program opened with a morning watch at 7:30 o'clock led by Virgil Gore, of Canyon, field secretary of the Northwest Texas Conference of the Methodist Episcopal church.

Mrs. C. A. Bickley taught a special Sunday school class for the young people at 9:30 o'clock, and Rev. G. P. McCollom, pastor, preached a sermon at the morning service.

A business session at 2 o'clock in the afternoon was followed by a consecration service ,which concluded the sessions.

There was an attendance which averaged between 350 and 400 young people for the rally.

CHURCH CODES

Continued from Page 1

though a minister should officiate at the marriage of a communicant and one divorced, the ceremony could not be conducted in a church edifice nor could the book of common prayer be used.

At present an Episcopalian minister cannot in any circumstances officiate at the remarriage of a guilty party in a divorce granted for infidelity, although he can remarry the innocent party with the consent of the bishop.

In giving its approval to birth control, the commission of the Presbyterian church said:

"Earnest Christian people are asking for the church's guidance on the subject of birth control. This subject demands attention today as never before. Economic conditions and a worthy standard of living make it wrong to bring children into the world without adequate provision for their nurture and proper consideration for the health of the mother."

If birth control is practiced, the report continued, "it should only be in fidelity to the highest spiritual ideals of the Christian home."

The Presbyterian report will be submitted to the general assembly of the church in Pittsburgh May 28. The Episcopalian revision will be presented to the general convention in Denver September 16.

MODIFICATION

(Continued from Page One)

be modified permitting the consumption of beer and light wines in the homes and each family limited as to the amount that may be purchased each month; that 35 congressmen admit the majority of their constituents are producers and consumers of illicit liquors, but are fearful that the organized dry influence, while in a minority, is so well organized that its demands cannot be openly flouted; that 55 members, mostly from grain and fruit producing areas, are unwilling to vote to modify the laws; that 34 others fear that with modification would come racial troubles in their districts, and that 67 members refuse to indicate how they feel on the question at this time."

LUBBOCK WOMAN

(Continued From Page 1)

months. As a result, the court has no jurisdiction in the case, Owers' attorney argues.

No Charges Possible

Should the judgment be set aside, Mrs. Barron would be married to both Owens and Barron. An annullment then would be necessary, according to Judge Long, although bigamy could not be charged.

Judge Long said he would withhold his decision until Thursday.

Mrs. Barron last March 22 was fined $200 and costs in county court here for aggravated assault upon 16-year-old Tita Licon, a Mexican girl whom she had adopted. When Mrs. Barron appealed, the state court of criminal appeals upheld the county court verdict.

First Sentence In Cochran Is Imposed

Law made another inroad into what remains of the old west Saturday at Morton when a penitentiary sentence was imposed for commission of a felony by Judge Homer L. Pharr for the first time in Cochran county history.

Judge Pharr passed a sentence of a year and a day against T. T. Storey, 55-year-old Bledsoe man, who was convicted in seventy-second district court late Thursday of transportation of liquor. Indictment also had included a possession charge, which the district attorney chose to eliminate.

Created in 1876, Cochran county was organized in 1924. The last federal census fixed its population at about 2,000.

M. W. Ellington was foreman of the jury returning a verdict against Storey. Motion for a new trial was overruled.

The Storey case was the ninth felony case in Cochran county and the first to be tried there.

LOCALS

Mr. and Mrs. J. W. Bush, of Carlisle, are the parents of a daughter, who was born Saturday at the Lubbock sanitarium. A name has not been selected for the baby as yet.

Thurman Morgan, of Anton, is visiting in Lubbock today.

Harmon Jenkins, Tech student, the son of Mrs. J. H. Jenkins, 2301 14th street, underwent an operation at the Lubbock sanitarium this morning.

Miss Anabel Stanfill, who has been teaching in the Wolffarth school this year, left Sunday for Abilene where she will enroll in Abilene Christian college. Miss Stanfill was re-elected to teach in the Wolffarth school for next year.

Frank White, jr., has returned to his home in Lubbock after a several weeks' business visit in Ozona.

Mr. and Mrs. Wade Biggers and their daughters, Etta Mae and Frances Wade, 2322 16th street, spent Sunday in Amarillo as the guests of Mr. and Mrs. C. W. Purr. They were accompanied by Miss Harriett Roach, who visited relatives there.

Lane Hutson and Sim O'Neal, Tech students, visited in Fort Worth during the week-end.

Charles Tuell, who is spending several days here on business, visited with relatives in Amarillo during the week-end.

Miss Lottie Drennan, home demonstration agent for Castro county, visited in Lubbock during the week-end.

Mrs. Frank Beavers, of Paducah, was a visitor here during the week-end.

Mrs. Julia Kelley, of Plainview, spent the week-end in Lubbock as the guest of her parents, Mr. and Mrs. S. H. Rush.

JACK DIAMOND

(Continued from Page One)

Albany hospital by two men, not immediately identified. While seriously injured, his condition was not believed to be critical.

Two state troopers were assigned to watch Diamond.

Diamond's history contains the official record of one previous shooting and the report that a still earlier incident had placed lead in his body.

His name appeared in Green County News from time to time until a week ago, when he flashed into front page prominence with his indictment by a grand jury. The indictment was based on the alleged beating by Diamond and a companion, of Jim Dalton, a Cairo truck driver who said he had been stopped by the men and tortured because he refused to account satisfactorily for a load of cider.

Carl Patton Local Golf Tourney Head

Carl Patton has been appointed local chairman of the golf tournament to be conducted here in connection with the annual convention of the Retail Merchants association of Texas and three affiliated groups, May 25, 26 and 27.

W H ("Joe") Bailey of Fort Worth is general chairman of the tourney committee. The golf event will be a handicap affair, all members of the Retail Merchants association and affiliated groups represented being eligible.

A loving cup, first presented by Bailey in 1928, will be offered. N. C Munger, 1930 winner, of Houston, is expected to defend his title.

LOCAL MAN HURT

M. R. White, about 25, of 2204 Fifteenth street, suffered a broken left ankle Sunday afternoon, and underwent treatment at Lubbock sanitarium.

PRESIDENT IS DRENCHED

HOOVER "ALL WET" ON WEEKEND TRIP TO POTOMAC RIVER

WASHINGTON, April 27 (AP)—President Hoover's third consecutive week-end away from the White House gave him an experience he probably will not forget soon. He rode for about 36 hours on the waters of the Potomac and Chesapeake bay and was thoroughly drenched in a rain that broke up the celebration climaxing the trip.

The president and his official party left Washington Saturday afternoon for Cape Henry, Virginia, to participate in ceremonies commemorating the three hundred and twenty-fourth anniversary of the landing of English colonists. From the capital to Little creek inlet he rode aboard the Sequoia, commerce department inspection boat.

Goes On Train

Then he took a train for the remaining few miles to Cape Henry, meeting Governor Pollard of Virginia, and others for the ceremonies.

As Bishop A. C. Thompson, of the Episcopal diocese of southern Virginia began the opening prayer, a torrential rainstorm burst. Hatless, the president sought shelter beneath a canvas but the wind drove the water under the covering.

Then the group went into the railroad station about a quarter of a mile away and had tea. Mrs. Hoover was just as wet as her husband.

After Governor Pollard joined others for the tea at the station, efforts were made to take the presidential party back to Little creek inlet by automobile, but it took some time to gather the scattered members. Lawrence Ritchie, a secretary to the president, and naval and military aides got a little wetter. Bishop Thomson, whose soaked robes clung to him, joined in the laughter and chatting.

Finally, though, the party was rounded up. A short time later the 18-hour boat trip back to the capital began.

New Migration Law Awaiting Signature

MEXICO CITY, April 27 (AP)—The newspaper El Universal Grafico stated today the new migrations law, which has been drawn up by government experts and is awaiting the president's signature forbids foreigners owning lands within a zone of 35 miles of the frontiers.

The paper says this is a "healthful" measure and will guard against repetition of such cases as the separation of Texas from Mexico.

The law will not require congressional approval, as congress recently vested the president with extraordinary powers to act in such matters.

No Clues Found In St. Louis Kidnaping

ST. LOUIS, April 27. (AP)—With the passing of a week since Dr. I. D. Kelley, wealthy eye, ear and nose specialist was kidnaped last Monday night, the police said they had nothing more tangible in the way of clues than last Tuesday when an eyewitness told of seeing the abduction.

The Globe Democrat said today it had "reasons to believe that he has communicated with his family and that his release from his kidnapers may be one of the eventualities of the next few days."

POLICE HAVE PURSES

Police have two women's purses which may be obtained by the owners upon proper identification, according to Chief of Police John Lemond. One is of black leather and the other of brown leather. Some automobile keys and a 50-cent piece are in the black purse.

ACCIDENTS

Continued From Page One

old, died in an automobile collision in Dallas Sunday afternoon.

B. F. Parkman, burned to death when an automobile caught fire in the garage at his Dallas home, Saturday.

SEARCH PRESSED FOR FIVE VICTIMS

OAKLAND, Cal., April 27. (AP)—A search was pressed today for five prominent and wealthy Piedmont residents believed to have drowned with the capsizing of their motorboat off Goat island. Airplanes augmented shore patrols.

The sixteen-foot outboard motor launch "Chickie" was found floating bottom up in San Francisco bay yesterday. It was discovered by John A. Johnson, Tugman, who towed the craft to the Oakland Yacht club.

The missing, for whom hope was virtually abandoned, are Gilbert Loken, Jr., San Francisco stock broker, Mrs. Mary Loken, his wife; Varl E. Jefferson, Oakland insurance man; Mrs. Lydia Jefferson, his wife; and Sheridan Hubbard, 34, manager of an Oakland building and loan company.

They had attended a dance at the Yacht club Saturday night and Hubbard invited them for a cruise.

Four airplanes and two coast guard cutters, besides privately owned crafts searched the bay without results.

TWO ARE CHARGED IN FATAL MISHAP

PAMPA, April 27 (AP)—Roy Vest and T. [illegible] McIntyre, of Tucumcari, N. M., today were charged with murder for the death of Vest's wife, killed instantly last night when she fell from a moving automobile and was struck by a passing car. In filing the charge, Sheriff Lon Blanscet alleged the woman was thrown from Vest's car through malice. The car was driven by McIntyre on a street here.

Mrs. Vest's neck was broken and her forehead crushed when her head was struck by wheels of a machine driven by R. A. Williams of Pampa, who took the woman to a hospital.

Vest and McIntyre claimed the body at a mortuary and hour later. Vest was bloody from a gash in the forehead which he told officers was made when his wife struck him with a pistol, en route to Pampa. McIntyre had severe scratches on his hands and arms which he said were made when the woman bit him while he tried to seperate her from her husband during an altercation.

Vest insisted his wife leaped from the car in a fit of angu.

ONE DEAD, THREE INJURED IN BLAST

OKLAHOMA CITY, April 27 (AP)—One man was dead today, three others underwent treatment for serious injuries and two 1,000-barrel storage tanks were in ruins as the result of an explosion and a fire in the Oklahoma City oil field yesterday.

Leo Wallace, oil field worker, was hurled through the air and fatally injured when a boiler exploded in the east end of the field, wrecking nearby buildings.

Three Trapped

The fire occurred within the city limits. The three injured men were trapped in an empty tank, which they were cleaning, when waste oil outside caught fire. Intense heat caused oil in two nearby tanks to boil over and soon both tanks were ablaze.

Six companies of firemen were called to prevent spread of the flames. Only two blocks away was the Wheeler high school. Firemen played sprays of chemicals on nearby wooden buildings and by nightfall the 2,000 barrels of oil had burned. An official of the British American oil producing company estimated the loss at $5,000.

The injured men were Theodore Saulsberry, 30; Lee Overby, 25, and T. M. Fisher, 25.

SCOUT SCHOOL SET TUESDAY

OUTDOOR INSTRUCTION TO BE GIVEN IN TRAINING HERE

Outdoor instruction and practise in woodcraft will characterize the sixth session of the Boys Scout leadership training school Tuesday night, according to D. T. Jennings, South Plains Area council executive.

Students will assemble at City hall at 5 p. m., with firewood and lunches, which should include a quarter-pound of beef and two potatoes to be cooked over an open fire without utensils.

The scout school group will go to Meadowbrook golf course. There, students will be instructed in use of the compass, in the scout's pace, tracking, types of fires, and second-class cooking requirements.

The last half of the 12-session course will be conducted in the basement of the First Presbyterian church, as charts to be used in the lessons are there and are too large to be moved easily, Executive Jennings said. Past meetings of the school have been in the First Methodist Episcopal church basement.

Three Prisoners In Hour-Long Mutiny

HOUSTON, April 27 (AP)—Three prisoners in the Harris county jail were in soltary confinement today after an hour-long mutiny yesterday when they barricaded themselves in a bathroom and defied guards with an iron bar. The outbreak was precipitated by the discovery that the men had sawed partly through a bar in their cell. When the men refused to surrender, a fire squad was called and they were subdued with a stream of water. The men were Harry Waller, convicted of robbery, Otis Holmes, charged with robbery by assault and burglary, and another whose name was not revealed.

Audit Of Highway Department Okehed

AUSTIN, April 27 (AP)—Governor Sterling today signed bills appropriating $12,900 for an audit of the highway department by the state auditor and $6,000 for repairing and reroofing the old land office building which houses the museums of the Daughters of the Confederacy and the Daughters of the Republic of Texas.

TWO DROWNED

TEXARKANA, April 27. (AP)—Two Deport residents were dead today as the result of the capsizing of a boat from which they were fishing with three companions yesterday. The dead were J. B. Christopher, 30, and Miss Julia Wright, 21. The other members of the party swam ashore.

Two And Three Colors In Your Bathroom Are So Much Smarter Than One--- Then They Blend

Advice to a lady who longs for new-home smartness — — who feels the urge to renew and refresh, but who knows the ban on extravagance. . . . Try this. Go after that correct but quiet bathroom of yours and let in new light, lend it character and charm.

And you'll be smart in other ways, too. Cannon towels are made for work as well as for swank . . . to dry the skin gently with sure tonic skill. Their material is a longer, finer, silkier cotton fiber. Their weave is close, even and firm. They serve better, last longer—and actually cost less.

Take Advantage Of This

SPECIAL DISPLAY

All This Week

BELIEVE CASE IS JINXED

SEVENTEEN YEARS IN COURT, SUIT STILL IS UNSETTLED

BROWNSVILLE, (AP)—People of this section are beginning to believe that the famous Ojo de Agua case, involving 10,000 acres of Valley land, worth $5,000,000, and at least 500 persons, is jinxed, and that it will never come to an end.

For seventeen years it has been in court, and everytime that the time seems ripe for its termination, something happens to delay it again.

Action Sought

Attempts have been made to avoid another long delay as a result of the change of district judges in Hidalgo county.

Attorneys requested that J. E. Leslie, who recently resigned as district judge in Hidalgo county, be named as special judge to decide on this case. He has heard testimony on it from time to time for the past three years, and announced recently he was ready to make a decision.

Then he resigned.

Similar events happened in the past in connection with this famous case. Judge W. B. Hopkins, before whom much of the testimony was heard, died while the case was pending.

Another Dies

Judge J. C. Scott of Beeville, who was appointed master in chancery in the case, and spent two years collecting data on it, and taking testimony of hundreds of witness, died before his findings were prepared and presented.

It has been delayed many times by the deaths of witnesses and some principals. Since it was filed 17 years ago the lineup has changed frequently, with different plaintiffs, and different defendants.

Judge Charles Thompson of Hidalgo county, newly appointed to succeed Leslie, will have to hear the case if Leslie is not appointed as special judge. This will mean he must wade through the volume after volume of testimony, and hear much of the oral testimony over again, before the case can be decided—probably another year or two added to its court record before it even gets through the trial court and is ready for appeal.

CONTROVERSY TO GOV. STERLING

HOUSTON, (AP)—A controversy with the state highway commission over the routing of the Old Spanish Trail cut-off here has been carried by the four county commissionerers to Governor Ross S. Sterling.

The county officials, asking the governor to "exert the power of your office and influence on behalf of good faith," claimed the highway commission had

"Disregarded the request of this county for a conference.

"Attempted to set aside an agreement on at least one road in Harris county.

"Refused to abide by an agreement made by yourself (Mr. Sterling) as chairman of the highway commission."

"Unless you take some action in our behalf," said the letter, "Harris county and all other counties will soon be at the mercy of a remote and arbitrary agency of government subject to no control beyond its own discretion."

Chicken Raising Is Promoted By Bank

CHILDRESS, (AP)—To encourage farmers of Childress county to keep flocks of chickens during the spring and summer, The City National bank has agreed to loan each farmer $6 on evidence that the chickens can be cared for properly.

It is estimated that 200 out of 300 farmers in the county are without poultry, having sold their flocks to buy necessities during the winter months.

FINISH FRAMEWORK

BEAUMONT, April 27 (AP)—The framework of Jefferson county's new 14-story courthouse was completed early this week, with contractors ahead of schedule. A revolving aerial beacon will be placed atop the roof of the courthouse.

A tractor, which can be operated on low-priced fuel oils was shown in Paris recently.

Mrs. McCormick May Wed Again

News dispatches stating that Mrs. Ruth Hanna McCormick, above, member of congress from Illinois during the last session, has been visiting at the home of Mrs. William Eels at Albuquerque, N. M., have revived romantic rumors in Washington. Mrs. Eels is the sister of Albert Gallatin Simms, inset, who had a seat in the house of representatives next to Mrs. McCormick. Both were seen much together in Washington social circles.

CHILDREN WHOSE WEIGHTS, HEIGHTS WRONG FOR AGES ARE GIVEN RELIEF

BY HOWARD W. BLAKESLEE,
Associated Press Science Editor

PHILADELPHIA, April 27. (AP)—Science has offered relief for mothers worrying over children who bring home school reports of having weights and heights wrong for their ages.

This relief is in a new set of growth tables presented at the closing sessions of the American Philosophical society by Dr. Charles B. Davenport, director of the department of genetics of the Carnegie institution of Washington at Cold Spring Harbor, N. Y.

Studies of child growth hitherto said Dr. Davenport, have been made chiefly by measuring about 100 children at a time from lowest to highest school ages. This has given a mass growth curve against which individuals were matched.

But there is a different story in growth curves of individual children which Dr. Davenport has been making for seven years. These individuals often fail to fit the mass curves. They have other periods of growth, sometimes ahead of the mass, sometimes behind, and even taking several different spurts. But they are normally healthy.

"When a child is growing four, five or six inches in a year," said Dr. Davenport, "It is quite probable that he is in a rather peculiar physical and nervous conditions compared with his time of slower growth. Yet the growth is likely to occur at a time when physical and mental demands are made upon him most heavily. It is question whether some special consideration should be given to a child at this fast growing period."

OPPORTUNITIES IN SOUTHWEST SHOWN

SAN ANGELO, (AP)—Something of the opportunities of the great Southwest was recorded at Sonora the other day when Roy Hudspeth, banker and ranchman, consigned a solid trainload of 24 cars of cattle to grass lands near Sedan, Kansas. It was just forty years ago, to the day, that Hudspeth rode into Sonora with only a $5 bill, a saddle and a cow pony.

The trainload of cattle included 1,000 cows and steers. They will fatten on Kansas grass and go on to the Kansas City market.

Forty years ago, Hudspeth recalled, there were only a doben houses and about four dozen tents making the village of Sonora. About half of the population wore sidearms and there were several rangers in the town.

Money was scarce, and when Hudspeth offered the $5 bill at the hotel, the livery stable and a saloon the proprietors could not make change. He secured a job on a ranch and has operated in the ranch business since within a radius of 100 miles of Sonora.

At this time, he has a 35,000-acre place in Sutton county in addition to holdings in Val Verde and Tom Green counties.

FIRES AT DIMMITT

DIMMITT,—(Special)—Two residences here were destroyed recently by fire. One was the home of W. Lile and the fire occurred just after Mr. Lile had started breakfast on an oil stove. The house and contents were almost completely destroyed but Mr. Lile saved his family from suffocation. The home of Bill Crane was also nearly destroyed, with the contents. The fire department was called in both instances but the calls came too late to permit much effective work.

SHARPEN APPETITE

Rebuild Strength

If you're tired, run-down, and don't feel or look yourself, start at once to throw off the cause and tone up the system.

Quinine is needed to drive out malaria . . . Iron is needed to enrich your blood with health building red corpuscles.

Take Grove's Tasteless Chill Tonic—the correct, pleasant tasting combination of Quinine and Iron—and you will quickly regain your appetite and health.

INTELLIGENCE TEST GIVEN TO YOUNG AND OLD RPOFESSORS IN 2 SCHOOLS

CLEVELAND, April 27. (AP)—Elderly men who hear all the talk about the young fellow being superior in ability, can mark up a point for their side.

Under a grant from the Carnegie foundation, Keith Sward, assistant professor of psychology at Western Reserve university, participating in research of Leland Stanford Junior university made a comparison between young and elderly professors at two of the leading Pacific coast colleges, using intelligence tests devised for superior adults.

Score About Equally

The young and old scored just about equally, he said today. The young were more speedy. Age, however, did not impair quality and accuracy and passed youth in knowledge of vocabulary.

Professor Sward examined two groups, forty-five men in each. In one group, ages ranged from 25 to 45 and in the other from 60 to 80.

Some of the questions were like this: "A is stronger than B, and A can lift as much as C and R together, and C is weaker than D. Is B stronger than C?" There were sentences with an artificiallang sentences with an articial language, like this to translate: "Aj lboana fregtl pristef." The vocabulary test had words like these: "Insouciant, absterge, apopemptic, sciolist, sapid and manumit."

"We found," Professor Sward said, "a close correlation between high standing on the tests and the background of the individual. The professors who had attained Who's Who distinction or were members of honorary societies like Phi Beta Kappa, Beta Phi or Tau Beta Pi made consistently higher scores than others. This was a good basis for the validity of the tests."

Southwestern Exes Inaugurate Drive

AUSTIN, April 27 (AP)—A campaign to raise $50,000 by June 1 to meet current obligations has been started among the 20,000 ex-students and friends and patrons of Southwestern university at Georgetown, according to announcement made by President King Vivion and W. A. Tarver of Austin, president of the ex-students association of Southwestern university.

Assets of the institution total $1,750,000, including buildings and endowment funds and the total indebtedness is approximately $300,000 they said.
