Proposed Rockport Maritime Museum Gets Qualified Approval

By Pat Blair

Rockport will have a Texas Maritime Museum on Navigation District land — provided the Rockport-based museum association can come up with the money and "proper plans" in the next three years.

The decision to give the Texas Maritime Museum Association a three-year option to lease Navigation District property in Rockport came during a two and one-half hour session of the Aransas County Navigation District Tuesday night, March 3.

In other action during the meeting, District commissioners voted to call a combination workshop-special meeting at 6:30 p.m. Tuesday, March 17, to discuss lease rates at Cove Harbor.

The maritime museum request, presented by Bill Christian at Tuesday's session, met initial opposition from members of the Aransas County Recreation and Planning Association, several of whom expressed concern that the proposal would interfere with a pending grant application for $200,000 to fund recreational facilities on Rockport Beach.

The Texas Maritime Museum Association proposes to locate a 6,000-square foot museum building on Navigation District property adjacent to the Chamber of Commerce building — site of the old Wee Putt golf course in Rockport.

Christian told those at Tuesday's meeting that the museum association plans to make this facility "a showplace." We are trying to become 'the' Texas Maritime Museum," he continued.

In a letter which he presented to the District, Christian said the museum would contain articles and documents of historical value as well as exhibits of present-day maritime activities in Texas.

Christian emphasized this would be a Texas museum with exhibits and artifacts relating only to

IT'S SPRING!

And look at all these flowers! Two-year-old Rebecca Gaedtke is enchanted by all the bluebonnets that seem to have suddenly sprung up all over the place. Sunshine, balmier temperatures and the appearance of wildflowers are sure signs that winter is coming to an end in South Texas. Rebecca is the daughter of Brad and Tammy Gaedtke of 605 North Kossuth.

Fire Razes 1500 Acres In County

By Pat Blair

A brush fire that started when "burning tires got out of hand" swept an estimated 1,500 acres of land in the south part of Aransas County Wednesday afternoon.

No one was seriously injured, but six persons were treated for smoke inhalation and a gasoline-powered tractor and small boat were lost in the flames, according to Aransas County Sheriff Bob Hewes.

Hewes said an earlier report that a mobile home was destroyed was incorrect. "They though they'd lost it," he said, but it was later learned that the flames somehow missed the structure.

Hewes said the cause of the blaze — which kept firemen from seven departments busy for most of the afternoon and into the evening — was burning tires.

"Somebody was burning some tires at the west end of 16th Street," he said, "and it got out of hand because of the wind."

He emphasized that no one should try to burn anything in the county at this time of year without first getting permission from the fire marshall.

"He would not have given permission yesterday," Hewes added, "because of the wind."

Volunteer fire department units from Rockport, Fulton, Lamar, Holiday Beach, Copano Cove, Aransas Pass and Ingleside responded to the fire alarm that first went out about 3:01 p.m.

In addition, Hewes said, two Emergency Medical Service (EMS) units, four units from the Aransas County Sheriff's office and

Child Attacked By Dogs

An 11-year-old boy was treated and later released from Coastal Bend Hospital in Aransas Pass after being attacked by three dogs Tuesday, March 3, on Highway 35 South near Bart's RV.

The child, Shawn Hudgins of 1200 North Commercial, was apparently riding his bicycle in the area just north of Bart's RV when he was attacked by two German shepherds and a pit bull dog.

The boy was admitted to Coastal Bend Hospital Tuesday afternoon where he was treated for some 12 to 15 bite wounds to the legs and four other areas of the body.

Shawn was discharged from the hospital Wednesday afternoon.

The owner of the dogs is reported to be Linus (Cooney) Miller, who resides on property just northwest of Bart's RV Deputy Lee Wagoner who investigated the incident said he contacted Miller Tuesday evening and at that time the whereabouts of the three dogs was unknown.

Miller reportedly told the deputy he would locate the dogs then notify the sheriff's office so the animals could be quarantined.

The three dogs are alleged to have attacked livestock in the area prior to the attack on the child.

1500 ACRE FIRE

As flames approach, a fireman pours water onto the dry brush in an effort to halt the blaze that broke out at the west end of 16th Street in Aransas County Wednesday afternoon, March 4. Units from seven volunteer fire departments responded to the alarm that came about 3 p.m. The fire — attributed to a tire burning that "got out of control" — swept 1,500 acres in the county. County To Consider Grant Application

Aransas County is considering application for a $400,000 grant which will, ultimately aid the Aransas County Navigation District in expanding present industrial harbor facilities.

The County using the funds from an Energy Impact Grant, would purchase an area of Navigation District Land north of Cove Harbor which the District had originally purchased to expand the Harbor, but can no longer use in that capacity due to environmental regulations that specify that area as wetlands essential to the conservation of many species of fish and birds.

The county would then give the land to a state or federal agency, as yet unspecified, and the District would use the funds for expansion on land south of Cove Harbor.

The commissioners' court, meeting on Wednesday, February 25, heard from Navigation District spokesman Ken Faulkner who asked the County's aid in obtaining expansion land with the grant funds, which the Navigation District, badly in need of expanded industrial harbor facilities,

Romero Assessed Fine, Probation On Rape Conviction

Camillo Romero of Rockport was fined $10,000 and given a 10-year probated sentence after a district court jury found him guilty of raping a 67-year-old Rockport woman.

The jury came in at 10:30 p.m. Tuesday, March 3, with the guilty verdict, then began deliberation on punishment at 10 a.m. Wednesday.

The fine and probated sentence was announced at 4 p.m. Wednesday.

The offense for which Romero was convicted occurred on September 29, 1980.

14 Seek City Council, School Board Posts

Fourteen persons are seeking election to nine positions on the Rockport and Fulton city councils and the Aransas County school district board of trustees.

Absentee balloting will begin on March 16 in all of the city and school elections, with regular election date for all three set for Saturday, April 4.

Candidates for contested positions on the Rockport city council and the county school board drew for their ballot positions Thursday morning, March 5. There are no contested races in Fulton.

In Rockport, W.B. Allen is the sole candidate for the Ward 1 council seat now held by Charlie Garrett. Garrett opted not to seek re-election.

In Ward 2, Brad Steiner is seeking election against incumbent alderman, Burt Mills.

All three positions on the school board are contested.

Candidates, in the order in which their names will appear on the April 4 ballot, are Nelda Lee and Polly Bracht for Place 1; Danny Adams and Jerry Brundrett Jr. for Place 2; and Sue Casterline, Ottie Mundine and James Metzner for Place 5.

In Fulton, candidates for city council are Elgin M.C. Dietz for Place 1; Katherine McLester, Place 3; Isabel Gutierrez, Place 4; and Lucille (Pat) Loftin, Place 5.

Dietz is running to fill out the unexpired term of Ray Patterson who resigned last year. Dietz has been serving as an appointed member to the council for several months and, after the April election, will serve until 1982.

At that time, whoever is elected to Place 1 will serve a full two-year term.

Absentee balloting for all three city and school elections will continue through March 31. Absentee voting is limited to those who will be out of the county on the regular April 4 election day or who is age 65 or older.

Absentee voting will be in City Hall in Rockport from 8 a.m. until 5 p.m. weekdays; at Travel Trailer Haven from 9 a.m. until 5 p.m. weekdays for voters in Fulton; and at the school administration building from 8 a.m. until 5 p.m. weekdays for the school board elections.

Filing Cabinet, $2,100 Taken

A filing cabinet containing approximately $2,100 in cash and checks was taken when a trailer belonging to G.E. Wilkens was burglarized this past Monday or Tuesday.

The trailer, behind the Fulton Bakery on Highway 35, also contained personal check books, deeds, insurance papers and bank notes, according to the victim.

The burglary occurred sometime between 5 a.m. Monday, March 2, and 10 a.m. Tuesday, March 3.

Wilkens told deputies the trailer was locked prior to the burglary and was unlocked when he discovered it later.

Five Arrested For Public Intoxication In Incidents

Five persons were charged with alcohol-related offenses in two separate incidents in Rockport early Wednesday, March 4.

Doyle K. Burkhalter, 35, of Hattiesburg, Mississippi, was charged with public intoxication and unlawfully carrying a weapon after he was arrested about 6:41 a.m. Wednesday at the intersection of South Church and Hackberry.

Two passengers in the car Burkhalter was driving — Donald Spencer Walker, 23, also of Hattiesburg and James Hubbard Scott, 24, of San Francisco, California — were also arrested for public intoxication.

All three pleaded guilty to the public intoxication charges and were fined $53.50 each. Burkhalter was placed under $500 bond on the weapons charge.

In a separate, earlier incident, Ozella Goza Adams, 48, of Aransas Pass and a passenger in his car, Charles Robert Rugh, 45, of Freeport were charged with public intoxication.

Both men pleaded guilty and were fined $53.50 each after they were arrested about 4:16 a.m. on Highway 35 North at Pirate Drive.

2 men share credit for wilderness idea

Aldo Leopold, a U.S. forester, is credited by some with being the "Father of the Wilderness" because in 1922 he proposed that a sizable portion of the Gila National Forest in New Mexico be set aside as a "primitive area."

Other historians say Arthur W. Carhart, the first landscape architect employed by the U.S. Forest Service, made plans for and applied the wilderness concept in Minnesota and Colorado two to three years before Leopold's proposal.

Ballerina Pavolova was a bird collector

Anna Pavolova (1882-1931), the only child of an exceedingly poor family in St. Petersburg, Russia, is considered the greatest ballerina of all time.

She greatly loved birds, especially swans, which swam on a small lake she designed for her home in London. She also kept flamingos, a peacock and an aviary for smaller birds she had collected on her travels.

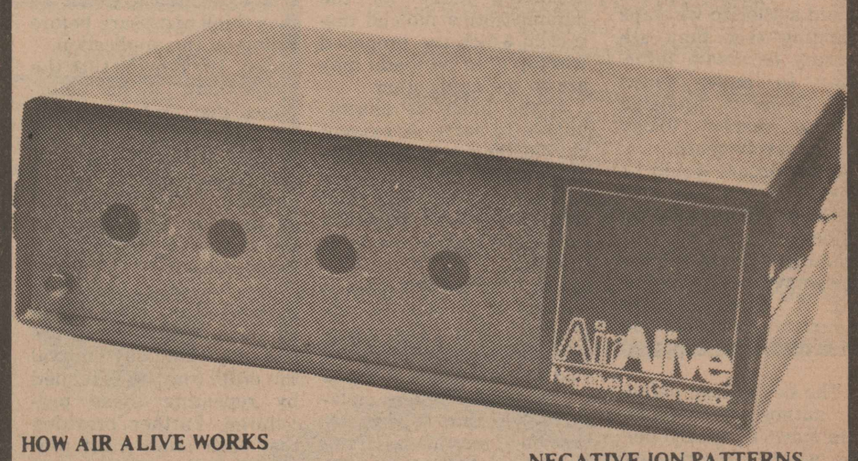
Air Alive

Negative Ion Generator

The Amazing Ion -- Nature's Own Air Cleaner.

The ion is an important part of the natural forces at work in the air we breathe. The air by the ocean or in the mountains is naturally cleaned through the process of "ionization." As the air passes through the sunlight and over the water it takes on a slight electrical charge. These charged air molecules circulate and discharge themselves on airborne pollutants and draw them harmlessly to earth keeping the air smelling fresh and free of pollutants. This process continues as long as the ionized air is produced faster than the pollutants. In today's modern urban environment, where tons of pollutants are dumped into the air every day, the balance of nature is destroyed. The natural cleansing ions are used at a much faster rate than they can be produced. The air becomes stale and dirty. The same is true in the modern household or commercial environment where cooking odors, dust, pollen and other particulates foul the air. Aerosal perfumes, humidifiers and air conditioners do very little to freshen the air the way nature intended it. Only the amazing ion can rebalance and purify the air. Air Alive is designed to restore the delicate balance of ions that give you clean fresh air naturally.



HOW AIR ALIVE WORKS

Air Alive's cleaning action is extremely gentle.

Bringing an Air Alive into a smoke or dust filled room will not instantly clear the air. However, in 15-30 minutes the air will be clean and fresh with no lingering odors.

Air Alive cleans the air in the same way nature cleans the air, with a negative ion which is the electron part of an air molecule. These negative ions attach themselves to dust, pollen, etc. causing them to fall harmlessly to the ground.

Air Alive "manufactures" negative ions by putting a high voltage charge on a plate inside the unit. The negative ions (electrons) are transmitted into the room via the plated steel needles where they "live" for about 35-45 seconds — negative ions are merely an energy source with limited life. The internal voltage is completely safe and is less than a color television set operates at. The current coming from the needles is very low (less than 50 microamphers) and cannot produce a lethal shock.

Anti-Crime Package

Bill Sets Wiretap Authority

Editor's note: The 67th Texas legislature has been presented with an eight-part anti-crime package, drawn up by officials in the office of Governor Bill Clements. The Pilot is running an analysis on each of these eight proposed bills in an effort to better inform our readers.

Background Information

This bill is intended to assist in eliminating Texas' disporportionate share of the illegal drug traffic.

In this regard, Texas, with 644 miles of coastline and 1,200 miles of border with Mexico, has become a major transshipment state in illegal trafficking in controlled substances. Two of every three kilos of heroin smuggled into the U.S. enters through Texas. The illegal traffic in Texas is estimated to amount to at least $3 billion annually.

Without wiretap authority, law enforcement is unable to move against the "king pins" in the illegal drug traffic since the financiers typically have no direct contact with drug smuggling operations and insulate themselves from law enforcement authorities through several layers of middlemen.

This bill closely tracks the federal wiretap bill which was enacted in 1968 and which has been upheld by the Supreme Court of the United States.

However, it is much more limited in scope than the federal wiretap bill and contains numerous safeguards to prevent abuse by law enforcement which are not contained in the federal act.

Careful safeguards against invasion of privacy are written into the bill, which includes these key provisions:

—Only the Department of Public Safety (DPS), a state agency subject to close legislative oversight, could install, operate and monitor wiretaps, and the officers in charge must be designated in writing by the DPS director.

—Only nine judges in the state — a judge in each of the nine administrative judicial districts named by the Presiding Judge of the Court of Criminal Appeals — could authorize wiretaps on finding that they are necessary to obtain information to make cases where there is probable cause to suspect felony narcotics involvement.

—Court orders would be limited to a 30-day period of surveillance, and could be extended for 30-day periods. Judges could require progress reports to determine if wiretaps are accomplishing what was set forth in the original application.

—The designated judges who authorized wiretaps would have to notify persons whose communications was intercepted within 90 days after termination of the surveillance. Where an application for a wiretap is denied, the designated judge would be required to notify within 90 days after denial those persons whose communications would have been intercepted had the permission been granted for surveillance.

—Information obtained from an illegal wiretap would not be admissible in any state or federal court.

Similar legislation has been enacted in 24 other states, but this bill contains more safeguards than have been built into the legislation in the other states.

Purpose

To authorize wiretaps against illegal drug traffickers under very stringent controls and with strict accountability in order to catch the higher level individuals of those engaged in illegal drug trafficking activity and its related financing.

Section by Section Analysis

Section 1. A new Act is created to be designated as Article 18.20, Texas Code of Criminal Procedure, the provisions of which are:

Sec. 1 Provides definitions of the following terms: "wire communications," "oral communication," "intercept," "electronic, mechanical or other device," "investigative or law enforcement officer," "contents," "judge of competent jurisdiction," "prosecutor," "director," "communication common carrier," and "aggrieved person."

Sec. 2. Provides that illegal bugging devices discovered in the course of a lawful search are subject to forfeiture and/or destruction as currently provided by law.

Sec. 3 Provides that illegally obtained wire or oral communications are totally inadmissible as evidence in a proceeding of any nature.

Sec. 4 Provides that only nine judges in the state shall be authorized to entertain applications for a wiretap by law enforcement officials. These shall be nine trial judges (one in each administrative judicial district of the state) who shall be appointed by the Presiding Judge of the Court of Criminal Appeals.

Provides that only the appointed judge for the administrative judicial district in which the proposed wiretap is to be made may act on the application.

If the judge is absent, unable to serve or exigent circumstances exist, the application may be considered by the appointed judge in an adjacent administrative judicial district.

Sec. 5 Provides that a wiretap may only be authorized upon a showing of probable cause to believe that the tap would disclose evidence of a felony violation (other than felony possession of marijuana) of the Controlled Substances Act or the Dangerous Drug Act. Section 7 specifically excludes felony possession of marijuana as grounds for authorizing a wiretap.

Sec. 6. Provides that only the DPS may lawfully possess, install and operate a bugging device and that only those DPS officers designated in writing by the Director of the DPS shall have this authority. DPS may be assisted by an investigative or law enforcement officer in the installation, operation and monitoring of the wiretap.

Sec. 7. Provides that DPS director may, based on written affidavits, request a prosecutor to apply for a court order for a wiretap. A local law enforcement agency may, based on written affidavits, request a prosecutor to apply for a court order for a wiretap and that prior to making application, the DPS director must find in writing that other investigative procedures have been tried and failed or would be too dangerous if tried, that the application for a wiretap is feasible, is justifiable, and that the DPS has the necessary resources available.

Only after an affirmative finding on all these items may the prosecutor file an application for the wiretap.

Sec. 8. Provides that information obtained through a legal wiretap may be shared with other law enforcement authorities in furtherance of the proper performance in court proceedings.

However, a "privileged communication" will not lose its privileged character in the event that it is accidentally overheard in the course of a wiretap. Further provides that in the event the wiretap discloses evidence of offenses other than those which law enforcement officials expected to find when they obtained the wiretap, evidence of these offenses will be admissible in relevant proceedings only after the issuing court finds that the wiretap was in accordance with this article.

Sec. 9. Provides for the application for the wiretap to be made in writing and to set forth all pertinent information as to where, when, and why it is needed and for the judge to require any supplemental information or evidence which he may think necessary before ruling on the application.

Sec. 10. Provies that the judge may, if he determines that probable cause for the wiretap exists and normal investigative procedures have failed, issue a detailed order which will specify his findings, and where and for how long the tap is authorized.

No wiretap may be authorized for longer than 30 days, although at the end of each 30-day interval the order may be extended by repeating these procedures. Further provides that each order must provide that the authorization to intercept be executed as soon as possible and be conducted in a manner that minimizes the interception of communications not otherwise subject to interception.

The judge may require periodic progress reports at times other than the 30-day intervals at his discretion.

Sec. 11. Provides for the preservation of any legally recorded wiretap for a period of at least 10 years under court seal and for the recording to be made in such a manner as to prevent it from being edited and otherwise tampered with.

Further provides that use of the recording for any purpose is unauthorized in the absence of a seal or a suitable explanation for the absence of a seal. Duplicate copies may be made to share between law enforcement officials.

Sec. 12. Provides that all applications for a wiretap and all orders authorizing a wiretap shall be preserved under court seal for at least 10 years and may be destroyed only by order of a judge of competent jurisdiction for the administrative judicial district in which it was made or granted.

Sec. 13. Provides that violation of Sec. 11 and Sec. 12 is punishable by contempt of court.

Sec. 14. Provides that the parties named in any application for a wiretap or order authorizing a wiretap shall be provided with notice as to the application or order within 90 days after the order is applied for and denied or (if granted; within 90 days after the authority for the wiretap has expired. If fairness requires it, the court may also give notice to third parties whose communications were intercepted through any wiretap installed.

Such notice shall contain disclosure as to the fact that the wiretap was applied for, whether it was granted, and whether any communications were intercepted. If fairness requires it, the judge may authorize inspection of the communication intercepted, the court order authorizing the wiretap, and/or the application for the wiretap. Upon an appropriate showing of cause, the court may delay the notice provided for in this Section.

Sec. 15. Provides that at least 10 days prior to the date of the trial, hearing, or other proceeding in which any intercepted communication is to be used in evidence, the prosecution shall give notice of the fact to the defendant who shall be given the opportunity to contest the admissibility of the evidence obtained thereby.

Further provides that the 10-day notice may be dispensed with only if there is no opportunity to give such notice and if the court finds that the defendant is not prejudiced by failure to receive such notice.

The court shall require whatever portions of the communications, order for the wiretap, or application for the wiretap be made available to the defendant that fairness requires.

Further provides that a motion to suppress the intercepted communication to be used must be made before the trial, hearing or proceeding unless there was no opportunity to make the motion.

Sec. 16. Required reports of activity under the Act to be filed by the issuing or denying judge and the prosecutor with the Administrative Office of the United States Courts.

Sec. 17. Authorizes civil damage actions by a person who is illegally bugged and provides for recovery of $100 per day so long as the violation continues or $1,000 minimum (whichever measure of recovery is higher) and provides for punitive damages, attorney's fees and court costs.

Further provides that a good faith reliance on a court order or statute is a defense to a law suit under this Section.

Section 2. A new act is created to be designated as Article 16.02, Texas Penal Code, the provisions of which are:

Sec. 1. Provides definitions of the following terms: "wire communication," "oral communication," "intercept," "electronic, mechanical, or other device," "contents," and "communication common carrier."

Sec. 2. Provides that a felony of the third degree is committed by the illegal use of bugging equipment. The offense is defined as including an attempt to illegally use bugging equipment and the solicitation of third parties to illegally use bugging equipment.

The offense also includes the disclosure, attempted disclosure, use, or attempted use, of information which the party using the information has reason to believe was illegally obtained through bugging equipment.

Provides for certain exceptions for communication common carriers, persons acting under color of law, and for consensual interception of a wire or oral communication.

3. Makes the possession, manufacture or sale of bugging equipment and related conduct a third degree felony.

Dear Mr. Carter:

Once again I'm reminded to be glad to call Aransas County my home. The County Commissioners Court's affirmative response to the "Dumping" problem and your front page editoral support of their position is typical of the "Can-do" attitude that makes Aransas County a better place in which to live.

None of us should need reminding that the natural beauty that attracted us to the area in the first place is an asset we need to protect vigorously. The awareness campaign and the reporting and prosecuting of the few violators who do dump their garbage in unauthorized areas will keep Aransas County the unique, beautiful area that God made it. Thanks for your help.

Sincerely,
s/Cam Leonard

Letter to Editor

My husband and I are very impressed with the insert on How To Get Your Child Off Marijuana which was in your paper last week. We have several friends with whom we would like to share this information.

If possible, please send us several copies of this insert or advise me where I could order it.

Thank you for your help.

To whom this may concern:

I am Jerry James Drinkard, and I'm incarcerated in the Aransas County Jail here in Rockport.

I have been filing with the Federal courts pertaining to my illegal confinement due to (not having a) speedy trial. I was charge with a felony on October 28, 1980 and I've still not been tried, and there is no formal waiveri waiving my rights to a speedy trial.

Now it has been brought to my attention your paper had a write-up due to speedy trials in the December 10, 1980, edition on page 1 and conclusion on page 8.

There are several listed county officials that have concurred to the fact that the speedy trial is enforceable and that a prisoner should be released by the federal standards after 120 days on any felony.

I know there are quite a few people that are concerned. Matter of fact, I told one to write your office and have you talk with me if you want a real story. I would like to meet with one of your writers and give the public the true side of the story of the courts.

Respectfully,
Jerry J. Drinkard

- - - O - -

Sirs:

I have been rereading some of the Pilot's past issues and I came across "COURTS" in the December 10, 1980, edition on page 8. This was a continuation from page 1.

In this section there is a statement of a prisoner being held in custody in a county jail waiting trial and that, from the time of arrest, that under the Federal "Speedy Trial Act," a criminal defendant must be tried or formally waive speedy trial within 60 days of a class B or C misdemeanor within 90 days of a class A misdemeanor and within 120 days of any felony.

I know of a Jerry James Drinkard, who has been held in confinement since the date of October 28, 1980, and is still in the Rockport County Jail, and as of this date is being held past the federal guidelines for a Speedy Trial.

I have been an active citizen of this community and a registered voter of the Aransas County area for over 20 years, and also a taxpayer.

I have been an active member working with the American Red Cross, V.F.W. and various other organizations, most of them since I was 16 years old. I would still be working for the community, only my health won't permit this any longer.

I, along with numerous other taxpayers and voters of this county, like to know where our tax dollars are being spent, and in the past months, a lot of our money is being spent rather foolishly in the county jails.

I have known Jerry Drinkard and there have been three or more times that he has been arrested for illegal charges and anyone that knows Mr. Drinkard will tell the same story. But I won't go into this as the past doesn't pertain to the Federal Right to a Fair and Speedy Trial.

I can truthfully state that Jerry James Drinkard has not been tried within 120 days on a felony charge and also I can state there has been no waiver to formally waive this right to a speedy trial.

Take the Deason Case for example. He was found not guilty and this man should have never been taken to court, in my belief, and there are a lot of people that will agree with this fact. How many of our tax dollars were spent for the trial?

I have been to the county jail to visit with Jerry James Drinkard and I have found out he is filing with the Federal Courts due to his illegal confinement pertaining to his denial of a Fair and Speedy trial here in the Aransas County.

If Mr. Drinkard wins this law suit how many more of our Tax dollars will be spent.

I have talked with Jerry Drinkard and he stated that if your paper wanted to, it could use any part of his confinement in your paper pertaining to Speedy trials and their denials of such in this county.

Also he stated the citizens of this county had the right to know what goes on in this county, and that he would sign the necessary papers for release, and everything would be the truth.

I and others in this county do wish that your office would at least talk with Jerry James Drinkard. It would be time well spent, and a help to the taxpayers of this county, especially when it comes election time.

Respectfully,
s/Mrs. Esther B. Decker

"Low Down" FROM THE Congressional Record

By JOE CRUMP

(A Column for Readers Who Haven't Time to Review the Congressional Record Daily)

ALERTS UNLEADED GAS VIOLATORS

Representative Eugene V. Atkinson (Pa., ". . . The Clean Air Act Amendments of 1977 will soon require approximately 40 million automobiles in 29 states to be subjected to a mandatory inspection and maintenance for emissions of carbon monoxide and photochemical oxidants — ozone. This program will be quite costly. Each motorist will be responsible for the cost of inspection and for the cost of any repairs to the automobile emission control equipment.

"Each State will also have to bear considerable costs as a result of administering this program . . .

"Inspection and maintenance may be entirely unnecessary since the older cars on the road are already being gradually replaced with newer cars which contain factory-installed emissions control equipment. It is also doubtful that such a program would produce the desired effects. More than one automobile company has stated maintenance of the complex pollution control equipment by mechanics who are not company-training factory personnel could do more harm than good . . .

"To make matters more confusing, many of the vehicles which consumers purchase are already out of compliance. The Environmental Protection Agency only spot checks production line vehicles. According to the General Accounting Office, of the roughly nine million automobiles manufactures in 1978, the EPA only spot checked 332 of them and 25 percent of those were already producing emissions at levels above EPA standards.

"Today, Representative Bailey of Pennsylvania and I have introduced two bills, H.R. 1357 and H.R. 1358 to delay the provisions of the Clean Air Act Amendments which require the inspection and maintenance program. I respectfully urge that this legislation be considered. The atmosphere has change much since the enactment of the amendments. The air itself may already be approaching the goals set out in the amendments without the costly inspection and maintenance program."

* * *

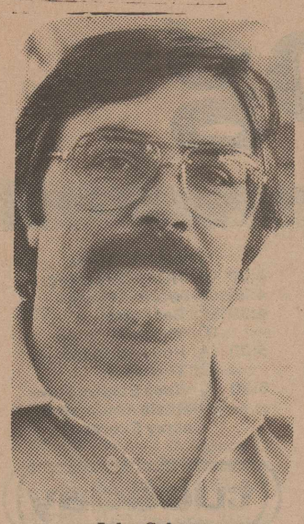
CRUMP'S GRASS ROOTS COMMENT

Because Regular leaded gasoline is cheaper, many motorists with vehicles equiped with catalytic converters changed from unleaded to leaded gasoline, and ruined the catalytic converter. Repairs will cost a "bundle." The mandatory inspection regulation should go the way of the Department of Energy's Emergency Temperature Restriction regulation, commonly referred to as the Thermostat Nightmare.

But violators of the Clean Air Act are still in trouble. The bills only delay the mandatory inspections.

Speaking Out

How do you feel about the illegal dumping problem here?



John Schutz
Rockport

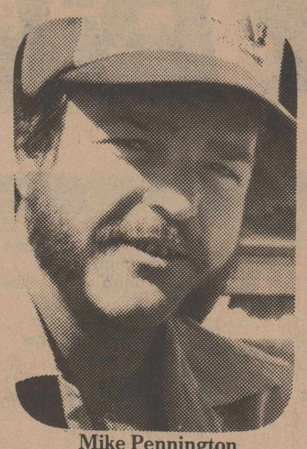
Part of the problem is we don't have proper dump facilities, but that's no excuse for dumping on the streets and in roadside parks. I don't care too much for going all the way to Gregory but I'll do that rather than dump trash here where its not supposed to be.

Lucretia Wright
Rockport

Well, I don't like it. I think people should dump in places that were intended for dumping.

Dorothy Simpson
Flint, Michigan

We have a litter law in our state — Michigan. You have them here too but apparently they aren't enforced. They should be. We notice it more, since we don't have it at home. We wonder if that's typical of Texans.



Mike Pennington
Rockport

My opinion is that it was wrong to shut down the dump. We need to get it opened up — there's not too many places to take excess refuse and this time of the year, there's a lot of building and cleaning up going on. I don't think its right to dump the trash and create an eyesore for visitors to see, though. I'll drive to Gregory, but we should have something here so people don't have to resort to that.

Art Simpson
Flint, Michigan

We cured it in Michigan. That would work here, too — they ought to fine them (dumpers) — that would stop it. It looks terrible.

Katherine Hale
Brillion, Wisconsin

It shouldn't be done. There's no excuse one way or another. That way the water is really going to get fouled up.

State Of The Region

By Juliet K. Wenger
Coastal Bend Council of Governments

Increased use of local hospitals is expected to be one result of a regional emergency medical system.

Dr. Richard Davis, a director of one such service in the region, says that 95 percent of the patients an ambulance picks up can be treated at the hospital nearest to them.

This avoids a long emergency run to the regional trauma center, Memorial Medical Center in Corpus Christi.

It uses the local hospitals to their potentials, saves money and keeps the ambulances in service in their own communities, ready to respond to the next emergency.

There are 17 hospitals in the Coastal Bend. The Emergency Medical Services Committee of the Council of Governments is now inventorying the capabilities of those hospitals and categorizing them.

This information will be provided to all ambulance attendants so that they can decide quickly on their destination.

At the same time, the committee is developing standard procedures for ambulance attendants and emergency room staffs throughout the region. This will mean doctors, nurses and ambulance attendants can communicate rapidly with much less danger of misunderstanding.

This will be a step toward the goal of having equally good attention available wherever you are injured or become ill in the region.

An information management system is also being established that will show what care the patient received and the results. From this can be learned how more lives can be saved and disabilities prevented in the future.

Two services are moving toward advanced life support in the region, Aransas and Nueces Counties. This will mean telemetry providing doctors in the trauma center with information that will enable them to instruct Paramedics what action to take on the scene.

Paramedics have sufficient training to handle intravenous feeding and medication, monitor cardiac rhythms and evaluate patient needs.

The immediate goal of the regional system is to help all locally operated services which are not there now to move up to basic life support. This will mean attendants are Emergency Medical Technicians, qualified to perform Cardio Pulmonary Resusitation, stop bleeding, splint fractures, extricate persons from accident vehicles and transport patients.

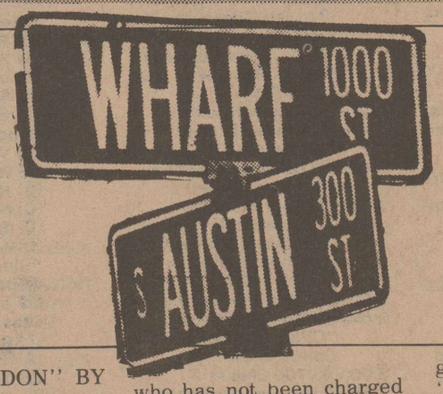
Training is a current emphasis. Paramedic training is being offered for the first year at Del Mar and discussions have been opened with Bee County College about the possibility of such courses.

Bee County College already provides training for Emergency Medical Technicians.

The Emergency Medical Technicians training is also offered by individual ambulance services who have qualified instructors on the staff, including Aransas County, Port Aransas, the Tri-County service in Aransas Pass and Ingleside, Refugio and Portland.

Most of these same services also offer Cardio Pulmonary Resusitation for the public. Dr. Jim Wideman of Rockport, who is medical director of the regional system, says that even at best, ambulance response time cannot be lowered by the necessary amount to save a life in many cardiac cases.

Six U.S. Navy ships were involved in the sea evacuation of440 people, including 200 U.S. citizens, from the Iranian ports of Bandar Abbas and Char Bahar, on Feb. 21, 1979.



Austin at Wharf

AFTER "LYNDON" BY Merle Miller was recommended to me I inquired and was told by one librarian that it hadn't been purchased. "There has been so much written about Lyndon Johnson that I felt one more would be too much."

Then looking at a list of recently published books she exclaimed, "But Merle Miller, at least there is someone who can write, write a biography."

I have just finished the book. It is worthy, deserves the attention of those who love and those who hate Lyndon. Not many, at least Texans, seem to have intermediate sentiments.

Miller's approach is a comparatively new form of writing, oral biography or history. It is a form of writing that is in large measure one that was not possible before the advent of the tape recorder. Not possible because no matter who a writer might quote, what later appeared in print was the writer's words and interpretation of the reply.

Off tape it becomes another matter. To illustrate, Norman Cousins, editor of the Saturday Review, is quoted: "Kennedy was a great listener. As he listened his eyes got larger, and he looked at you, and you knew you'd been looked at and listened to. Johnson sometimes squinted, and you couldn't be quite sure he was listening to you or staring off into space. But you always knew he was listening, because what he said later indicated that he had heard and understood every word. He would be sitting with his hand against his cheek, very thoughtfully."

The reader can be more than reasonably certain that that is exactly what Cousins said, word for word.

HERE AS A SLIGHT digression I might observe that there is scarcely a newspaper person alive who has not been charged with misquoting. Ah the blessed relief, the delight there is to play back a tape to an irate politician!

"LYNDON" IS A treasure trove of quotes from men and women of all degree — people who have known LBJ, praised and damned him. Miller the biographer has very little himself to say.

Instead he has used his skills to chronicle interviews in sequence that begin with the late president's boyhood until his final hours.

These circumstances combine to cause me to observe that any fair and thoughtful Texan who has praised or criticized the first Texas president owes it to himself to read "Lyndon". And here I might insert that I suspect LBJ will come off rather worse with the LBJ lovers and better with his detractors.

For my own part I have always remained on fairly neutral ground. I met him during his lifetime perhaps half a dozen times but do not claim to have known him and often, to my amusement, I have met others who knew him no better who liked to imply in conversation that they knew him intimately... "when..."

I dare say many of you have had the same experience. On the other hand I have been well acquainted with quite a few among those whom Miller quotes — the late Bob Jackson, editor of the Corpus Christi Caller-Times; Carroll Keach, publisher of the Robstown Record; even brother Sam Houston, and others. From Keach, who served on LBJ's campaign staff when he was a congressman, I have heard hours and hours of reminiscing.

IN RATHER LARGE measure, Box 13 in Duval County was an albatross around Lyndon's neck that never entirely departed. It gave him the nickname "Landslide Lyndon". There is no need to recount the stories. The numbers are legion even in print. There would be no way to count the "I was there" and "I know so and so who saw..."

The Miller account, I am convinced, is the best, the most authentic. He talked with the real intimates on both sides: the Johnson side, the Coke Stevenson side. Neither contender would apply for a pass to the Pearly Gates on the strength of his record in that 1948 election for the U.S. Senate.

On the other hand Texas politics were still pretty crude, rough and tumble in those days and so I must offer that if LBJ and Coke were to be damned to the fiery pit it must be certain and beyond doubt that on arrival they encountered every Texas politician since Reconstruction days.

But, to dispense with personal opinion, I suggest that Miller's sub-chapter "The Duke of Duval and Alice" deserves a special spot in Texas annals.

LIKE HIM OR HATE him, LBJ was one of the most overwhelming men ever to appear on the national political scene and his accomplishments (or misdeeds as some will insist) will never let him fade away as one of those obscure presidents, one of those whom the average citizen would be hard pressed to tell within what 50-year period he served.

The accomplishments of his Great Society — some of which many of us deplore — will never disappear. And here it might be inserted that those accomplishments might have been more extensive had it not been for the War in Vietnam, another albatross, one which he inherited. Johnson was a domestic animal and foreign affairs were of no more interest to him than circumstances demanded.

And so it was an ironic twist of fate that a man who loved people, had a complete and understanding sympathy for the unfortunate of the land (hadn't he been poor himself?) should be castigated by perhaps not the majority, but the most vocal youth of the land — "LBJ, LBJ, how many kids have you killed today?"

LBJ WAS KIND, HE was cruel, downright mean; he was a sentimentalist; he was a sophisticate and cornball, and vulgar, and he was everywhere called an "arm-twister," don't you know.

THE HEW — DEPT. OF Health, Education and Welfare — is one of those alphabetical bureaucracies I could just as well do without, so I'll end by quoting a one-time secretary: "Psychiatrists would say that your personality is always internally consistent, but I found Lyndon Johnson was a man of such tremendously different kinds of characterisitcs that it is difficult, perhaps impossible to grasp all his personalities.

"I went down to the Ranch in 1966 or '67 and after we finished our business we went out and rode around the Ranch. He started to tell us in the most vulgar kind of language about breeding cattle, referring to all sorts of sexual characteristics of the animals and people...I know nothing about cattle, so I just listened. But it was vulgar.

About an hour later as the sun went down we reached a hill and he stopped the car. We watched the sunset over the mountains, and he started talking what was pure poetry — about the land, about the Hill Country, about the sun, the seasons, about his hopes and aspirations for people. Pure poetry...He was a combination of Boccaccio, Machiavelli and John Keats."—ahab

Taxpayers Learn To Prepare Own Returns With IRS Help

CORPUS CHRISTI — Taxpayers can learn how to prepare their own federal income tax returns and receive helpful tax information by using the free self-help service at many local Internal Revenue Service offices, according to IRS Director's Representative Don Starkey.

The service in this area is available Monday through Friday, from 8 a.m. to 4:30 p.m. at the IRS office located in the Smith Building at 425 Schatzel Street, Starkey said.

In the self-help program, Starkey explained, taxpayers bring to the IRS office their tax packages and financial records, and then fill out their own returns, with an IRS assistor available to answer questions.

The service is designed for filing Forms 1040A or simple Forms 1040, according to IRS officials.

When the taxpayers are finished, the assistor reviews the returns for accuracy: Taxpayers then make copies of their completed returns for their records and for use as guides in preparing future returns.

Starkey offered the following suggestions to taxpayers visiting IRS offices for self-help service:

1. Bring the tax package received in the mail;

2. Have all income statements (Forms W-2, "Wage and Tax Statement," from all jobs and statements of earned interest income from saving accounts with banks, like Forms 1099-INT, "Statement for Recipients of Interest Income)";

3. Have records of income and expenses in the order they appear on the Form 1040 or 1040A.

4. Determine early if planning to itemize deductions, and categorize expenses accordingly; and

5. Bring a copy of last year's return.

Bill May Stop Dismissals

AUSTIN — Attorney General Mark White has expressed his support of a bill which would, in an indictment situation, require the defense to raise any technical problems in an indictment before the trial so that such non-substantive formal deficiencies could not be raised on appeal.

The bill would be introduced and co-sponsored in the Senate by Senators Peyton McKnight (D., Tyler) and Bob Glasgow (D., Stephenville), and in the House by Representative Neal T. "Buddy" Jones (D., Hillsboro).

White said that the February 25 decision by the Texas Court of Criminal Appeals to dismiss indictments against six people convicted of possessing cocaine because of legal technicalities illustrates the need for a change in the law.

Student News

SAN MARCOS — Linda A. Ammons of Rockport was among the 1,443 students whose 1980 fall semester grades earned them places on the Dean's List at Southwest Texas State University.

To qualify for the Dean's List, an undergraduate student must have earned a grade point average of at least 3.5 during the semester while taking at least 12 semester hours of course work.

GOD WANTED NO PUPPETS

It is called *freedom of will.* And it is one of the most exciting ideas in man's religious knowledge: we decide for ourselves what we'll believe and how we'll live.

It is not that God doesn't care about human beliefs and behavior. In the Bible and in the life of His Son Jesus, God had made vividly clear His LOVE and His WILL.

But God wanted no puppets. So each of us has been endowed by the Creator with freedom of will. This way our faith is a vital response to God's love — not a mechanical reaction controlled by a puppeteer. And our morality is the real-life expression of our Christian convictions — not a wooden uprightness imposed by strings.

Remember this whenever God puts spiritual opportunity in your path. Like next week when you worship.

The Shepherd's Staff

By John R. Bradshaw, Pastor
First Presbyterian Church

Texas is the only state in the United States with a law that prohibits the use of state funds for the education of children who are not legally admitted aliens.

The other three states on the Mexico border have been educating undocumented children for some time. If House Bill 467 should pass, the Texas Education Code would return to its pre-1975 wording and allow undocumented children to attend public schools.

Just because everybody else is doing it is no reason that we Texans should also. However, we need approach this question, as all questions, from the perspective of our biblical understandings. The Bible has a recurring theme of insisting that the people of God have a special responsibility to transients in their area:

EXODUS 23:9 "Do not mistreat a foreigner; you know how it feels to be a foreigner because you were foreigners in Egypt."

LEVITICUS 19:34 "The stranger who sojourns with you shall be as the native among you and you shall love him as yourself."

JEREMIAH 22:3 "I, the Lord, command you to do what is just and right. Protect the person who is being cheated from the one who is cheating him. Do not mistreat or oppress aliens, orphans or widows."

ZECHARIAH 7:8-10 The Lord gave this message to Zechariah: "Long ago I have these commands to my people: 'You must see that justice is done, and must show kindness and mercy to one another. Do not oppress widows, orphans, foreigners who like among you or anyone else in need.' "

The New Testament continues the theme of justice which is concerned for the poor and the stranger.

In his first sermon, Jesus announced his ministry in the words of Isaiah 61:1-2. "The Spirit of the Lord is upon me, because he anointed me to preach good news to the poor. He has sent me to proclaim release to the captives and recovering of sight to the blind, to set at liberty those who are oppressed, to proclaim the acceptable year of the Lord." (Luke 4:18-19)

The Church — that's Christian folk like you and me — is to continue the ministry of Christ in the world today. It would seem that to deprive children of education is to make them captives of poverty and hopelessness.

All interested in this issue may get more facts by writing Texas IMPACT, 2704 Rio Grande #9, Austin, Texas 78705 and requesting a neat little booklet entitled: "Por Los Ninos: Education of Undocumented Children." Then share your convictions (pro or con) with your representative.

First Presbyterian Holds Lenten Breakfast

Set in the context of a "poverty breakfast" in Fellowship Hall, members of the First Presbyterian Church, Live Oak at Laurel, will participate in a special Lenten Worship Service Sunday, March 8, at 8 a.m.

Visitors will be welcome.

Those attending will have the opportunity to see what they can do about world hunger in a display prepared by Georgeanna Shenk and will be treated to an unusual breakfast prepared by Janet Langham.

The Rev. John Bradshaw, pastor, will lead the worship service.

Others participating as leaders in the worship will include Peter Booth, Jana Brown, John Brown, Jerry Brundrett, Lisa Cox, Dorothy Hrubes, Jim Hrubes, Barbie Mosier, Rob McMillan, Scott McMillan, Wade Taggart and Nancy Lang.

A five minute film, "A Hungry World," presented by David Tiner, contrasts the world scene with the plenty of our land.

In addition to the offering, the worshipper will have the opportunity to symbolically present his/her gift as part of the answer to world hunger: cards posted on a world map that express what each worshipper wishes to share with the hungry world.

Montgomery New Pastor At Holiday Beach Baptist Church

The First Baptist Church of Holiday Beach has a new pastor, George Montgomery, who arrived with his wife Geneva from Chattanooga, Tennessee two weeks ago and preached his first sermon on Sunday, March 1.

Pastor Montgomery had his own congreation for 18 months — the Calvary Baptist Church in Hooker, Georgia, right across the Tennessee border from Chattanooga — immediately prior to coming to the Rockport area.

His congreation at Holiday Beach is slightly smaller than his last one, but he expects it to grow. At this time, Montgomery says he "is still getting to know his people" but has plans for projects and special works in the future.

Girl Scouts Have Safety Program

A group of 37 Girl Scouts from four local troops attended a "Bicycle Safety Program" Thursday afternoon, February 26 at the Girl Scout Hut.

The program was presented by Chief Deputy Sheriff Don Wooddell.

After Chief Wooddell's talk, the girls saw a film on bicycle safety starring Bill Cosby.

Troop leaders present were Dale James, Gladys Tillison and Lou Simpson.

FIRST NATIONAL ARTIST OF THE MONTH

Ed Fickett is First National Bank's Artist of the Month for March. Ed, originally from Boston, Massachusetts, has lived and maintained his studio in Rockport since 1972. He teaches and paints in all media — watercolor, oil, acrylic, pencil and pen drawing — but watercolor is his favorite and most of his works are in that medium. His favorite subjects, quite evident in the bank exhibit, are maritime landscapes, seascapes and shore birds. [Pilot Photo by Becky Werhan]

Home And Garden Club To Hold Show

Members of the Key Allegro Garden Club will be among the guests when the Rockport Home and Garden Club holds an in-club flower show and salad luncheon on Thursday, March 12, at the Methodist Church.

The program will get underway at 10:30 a.m. with critiquing of displays. "Nature's Palette" is the theme for the artistic division, which includes all arrangements. The horticulture division, comprising hanging baskets, potted plants, cut pieces and vegetables, has "Season's Best" as its theme. The over-all show theme is "Spring is Busting Out All Over".

Special educational displays will feature bromeliads by Mrs. I.B. Fausey and foliage plants by William Griffith.

Exhibits will be judged prior to the beginning of the program. Judges are club president Mrs. W.D. Alley, Mrs. W.K. Thomas and Mrs. Fausey.

All displays must be in place by 9 a.m. on the day of the show. They may be brought the previous afternoon or between 8 and 9 a.m. on Thursday.

Mrs. Oscar Alvord is general chairman of the event. She is being assisted by: Mrs. R.W. Moore, programs; Mrs. B.F. Street, Mrs. James E. Johnson and Mrs. J. Paul Rogers, staging; Mrs. A.C. Hamon, Mrs. Herbert Welsch, Mrs. Gene Garcia and Mrs. G.L. Duggan, luncheon; Mrs. Rogers and Mrs. E.H. Butler, guest book and name tags; Mrs. Charles LeBlanc, Photography; Mrs. O.H. Brueggeman, door prizes and gifts; Mrs. Charles Kaigler, artistic division; Mrs. Chester R. Barre, Mrs. Al McKinstry and Mrs. Tom Moulton, horticultural division; Mrs. Taylor, awards; and Mrs. Griffith, publicity.

More Than 100 Attend Republican Women's Party

More than 100 women attended the dessert-card party hosted by the Republican Women's Committee of Aransas County Thursday, February 26.

The annual fund-raising event was held at the Aransas County Woman's Club Building in Rockport. Mrs. A.S. Thorne was general chairman of the event.

Mrs. Merrill Holmes, president of the Republican Women's organization, greeted the guests and was in charge of coffee service for the affair. Mrs. R.W. Johnson was in charge of tea service.

Mrs. O.C. Bailey provided the centerpiece for the dessert table, an arrangement of shocking pink and violet petunias.

Door prizes were donated by Moonshell Galleries, Hidden Treasures, Discount Liquors, Jack's Landing, The Village Artisan and Roaten's Drug Store. Individual high point table prizes were sand candles created by Mrs. Fred Dinkler.

Other officers of the Republican Women's Committee are Mrs. Gene Matthews, vice president; Mrs. Cliff Painton, secretary; and Mrs. George McCague, treasurer.

Visitors Hold Celebration

A group of Winter Texans met at Charlotte Plummer's Seafare for a "Birthday Breakfast" celebration honoring Ellen Richardson, Ruth Casey and Frew Hawley on Friday morning, February 13.

Guests included Margaret Anderson, Mary and Harry Lund, Floyd Richardson, Frieda Hawley, Bernice and Tom Lynn, Kay and Jim Lynn, Annetta Ross, Jeff and Elsie Rankine, Lil Ross, Jo and Julian Costales, Vivian and Les Wakeman, Margaret and Adolph Sime, Kay and Roy Allen, Lorraine and Floyd Glissman, Loretta and Arden Dean, Leona and Art Dittberner, Lois Miner, Paul and Jean Vogel, Thelma and Dave Brotton, Harold and Una Lapp and Doretta and Leonard Smith.

Most Often-Asked Questions On Nutrition

Q. I stopped smoking about a year ago. Since then I have had a real problem trying to keep from gaining a lot of weight, because I'm so hungry ALL the time. I just want to keep putting food in my mouth!

Well, I heard about this Dr. Atkins low-carbohydrate diet where you can eat all you want of certain things. What is it that you can eat on this diet? And what's the name of the book that Dr. Atkins wrote on this?

A. the book is "Dr. Atkins Diet Revolution" by Dr. Robert C. Atkins.

The first week on this diet he recommends a zero carbohydrate intake. BUT you are permitted to eat ALL you want of such no-carbohydrate foods as meat (except for meat with fillers such as sausage, hot dogs, meatballs, most "cold cuts") fowl, fish (except oysters, clams, mussels, scallops, and pickled fish), eggs (prepared ANY style — no limitations), green salads, butter, mayonnaise, and other fats (judicious quantities).

Plus you're allowed four ounces of any hard, aged cheese and four teaspoons of heavy cream a day. (It seems that cream has less carbohydrates than milk. No milk is allowed on this diet.) During the next four weeks you gradually add a few carbohydrates back to your diet.

Briefly, the theory behind this diet is that, if we eliminate the carbohydrates from our systems, we will begin burning our own stored fat. This means that it's the fat from your waistline, hips, etc. and NOT your face or neck that goes!

Q. I understand that rose hips are a natural source of vitamin C. If that's so, why can't I get 500 mg. vitamin C tablets which are made from pure rose hips instead of just ascorbic acid with some rose hips added?

A. To get enough C from rose hips to make a 500 mg. tablet would probably take a wheelbarrow load or so of the rose hips and certainly result in a tablet too large for us to swallow — unless we were pythons!

Until next week, Folks, stay happy and healthy! It's a beautiful world!

Card Party Winners

Jo Cox took first in bridge, Elsie Woodbury won in canasta and Betty Briemiester took the finale at the weekly Aransas County Woman's Club Card Party Monday, March 2.

Ina Bennett and Marilyn Woodbury were second place winners in bridge and canasta respectively in the weekly event that got underway at 1 p.m. at the Woman's Club Building.

Hostesses for the occasion were Ura Smith, Francie Cook, Hazel Hubbard, Alice Tiller, Eugenia Bray, Peg Childs and Rosalynd McEvoy.

Freida Hawley was in charge of tea service and Ester Williams of the coffee.

Decorations for the affair were in keeping with a spring theme, featuring a white lace tablecloth laid over a pale yellow skirt.

Silver candelabra flanked the spring bouquet centerpiece, and Texas Independence Day was commemorated with a Texas flag displayed among the flowers.

Dave Crooks And Bride Honored

Mr. and Mrs. David H. Crooks, married recently in Dallas, were guests of honor at a reception given by friends and neighbors at the home of Mr. and Mrs. Richard Richards in Palm Harbor Saturday, February 28.

Hostesses were Mrs. Eunice Hansen, Mrs. Ora Monzingo, Mrs. Rose Wright, Mrs. Millie Boynton, Mrs. Judy Watts, Mrs. Nan Irwin and Mrs. Richards. There were approximately 75 guests.

Mr. Crooks and the former Margaret Terry were married February 15 at the Dallas home of Mr. and Mrs. John Lobdell by The Rev. Patrick Henry of Dallas.

Present were members of the immediate family.

Attendants were the bride's daughter, Mrs. Sandra Lobdell of Dallas; her sons, Marshall Terry of Dallas and Lee Terry of Wilkes-Barre, Pennsylvania; and the groom's sons, Stanley Crooks of Dallas and Stephen Crooks of Willis.

The two families have been close friends for more than 40 years.

Mr. and Mrs. Crooks will reside at their home in Palm Harbor.

Hearing Loss Is Not A Sign Of Old Age

Chicago, Ill.—A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of one of the smallest Beltone aids of its kind will be given absolutely free to anyone requesting it.

True, all hearing problems are not alike . . . and some cannot be helped by a hearing aid. But audiologists report that many can. So, send for this free model now, and wear it in the privacy of your own home. It is not a real hearing aid, but it will show you how tiny hearing help can be. It's yours to keep, free. The actual aid weighs less than a fourth of an ounce, and it's all at ear level, in one unit.

These models are free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands have already been mailed, so write today to Dept. 82719, Beltone Electronics, 4201 W. Victoria, Chicago, Ill. 60646.

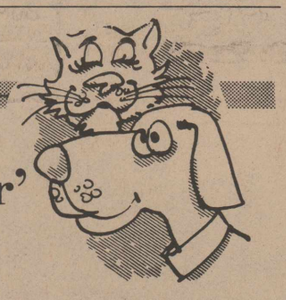
Pet Talks

By Dr. Hap Lutz



'Doggy Odor'

Dr. Lutz is a graduate of Baltimore City College and Texas A&M University. He specializes in small and exotic animal practice. He was an instructor of small animal diseases and surgery in the Veterinary School at Texas A&M and was in private practice in Waco for 25 years.

QUESTIONS AND ANSWERS

Dear Dr. Lutz,

I have a two-year-old mixed collie that we allow in the house. Sometimes he gets to smelling very "doggy." One friend advised me that dogs should be bathed at least once a week.

Another neighbor states never bathe a dog more than three times a year. What do you adivse?—Sara

Dear Sara,

Dogs should be bathed only when dirty or have a doggy odor. If you will thoroughly comb out your dog daily, you will not need to bathe him so often.

Eyes And Answers

TO WEAR OR NOT

Dear Dr. Pettey: Since I was seven, I've had to wear glasses. That is, I've been told I had to. I see pretty good without them. What would happen to me if I didn't?

If I knew your present age, the extent of your visual problem, your lens prescription, if you have completed a lot of school work, what kind of eyestrain you experience when you do not wear your spectacles, if it turns into headache, if you rub your eyes after use, or if redness appears, plus other symptoms, I would than be better able to answer your question.

In the absence of that information, I'll simply list a few probable results of not wearing your glasses: eye discomfort; poor concentration; slower, more difficult reading; slower learning; aversion to close-range work; more sensitivity to light; possible headache; poor judging of distance; poorer hand-eye coordination; excess tearing; difficulty driving long distances; general, excessive physical fatigue, especially after much eye work.

Those possible effects may sound rather grim and disabling, but the odds are great that you would experience one or more of them if you failed to wear your spectacles for a period of time.

JOE LARA MAKES BROADJUMP AT VICTORIA

Lady Pirates Fourth At GP

By Bob Crawford

Using the strength of Terri Moore and the fast feet of Belinda Cross, the Lady Pirates of Rockport-Fulton placed well up in the tough competition at Gregory-Portland, coming in fourth place behind GP, Calallen and Austin Westlake.

Moore was a double winner in the Varsity Division, taking the shot put with a toss of 36 feet and the Discus with a hurl of 133 feet 6 inches, both of which were new records for RFHS performers.

Cross was the winner in the 22 yard dash, then she teamed with Julie Huff, Darlene Dilworth and Alma Dickerson to take a second place in the 440 yard relay.

Lori Broadhurst took sixth place in the two-mile run. The Piraes could have scored more points but the team did not enter any of the jumping events because they are not physically ready at this time.

In JV competition, Amy Barlass was first in the mile run, and Carla Perkins was the third place finisher in the 100 meter dash.

Live Oak Peninsula Philosopher

Editor's note: The Live Oak Peninsula Philosopher on his grassburr ranch takes a sidelong glance at financial waste this week.

Dear editor:

According to a Gallup poll — and remember a Gallup poll is generally considered to be accurate and when it isn't it has a good explanation for being wrong — anyway, according to it, the American public believes that 48 cents of every tax dollar that goes to Washington is wasted.

If true, that means taxes are nearly twice too high.

I don't know how the poll arrived at 48 cents. I had a bigger figure in mind. Perhaps it was by averaging, balancing the figure of a guy who thinks all tax money is wasted against the one who thinks we get 100 cents on the dollar.

The latter may have a job with the government and the former may be under indictment for tax evasion.

Personally, I think the poll may fairly represent the feeling of a lot of people, but I don't think that the poll should be carried any further.

For example, it should not try to find out what percentage of personal income in this country is wasted. It should not ask anybody why he'll spend 75 cents for six ounces of potato chips he can eat in five minutes when for the same money he could buy enough raw potatoes to last him a week.

It should not ask why the people spend several billion dollars a year on cat and dog food and thousands of dollars cleaning the hairs left on the furniture.

Or why at least a third of all car driving is unnecessary.

Or why they'll spend 35 cents for a cup of coffee in town when they can brew one for a nickel at home.

Or why a car manufacturer will give you a $300 to $700 rebate on a new car if you buy it on credit, not if you pay cash for it.

In other words, it's none of Mr. Gallup's business how we spend our money. Concentrate on the Federal budget and keep your nose out of our personal one.

Yours faithfully,
J.A.

No Taxes Due On Rebates, Says Bullock

AUSTIN — State Comptroller Bob Bullock Wednesday said Texans don't need to pay taxes on factory rebates offered for the purchase of new cars.

He also said car buyers who have mistakenly paid automobile sales tax on the rebate amount are entitled to a refund.

Bullock said the big three American automobile manufacturers are all currently offering some type of rebate to encourage the sale of new cars.

Bullock said rebates are cash discounts regardless of the method used to compute the amount or the method used to pass the rebate along to the consumer.

Rebates should be deducted from the price of a new car before the state's four percent motor vehicle sales tax is calculated.

If the sticker price is $7,500 for example, and the rebate if $500, the price of the car for tax purposes is $7,000, he said.

Information about tax refunds can be obtained through the Comptroller's Motor Vehicle Sales Tax office by calling toll-free, 1-800-252-5555, extension 171.

Pirate Thinclads Seventh

By Bob Crawford

Rockport-Fulton ventured to Victoria to compete in a good track meet and the competition did not disappoint the team. It was tough!

Bubba Scott took charge in the strong-man events as he doubled in the shot put and in the discus as the winner.

Rockport-Fulton placed seventh overall, but Scott was the class of the meet with his 53 foot 8 inch heave in the shot, and then he threw the discus 146 feet 3 inches.

Missing third place in the shot by less than an inch was Kroy DeForest with a throw of 50 feet 3½ inches. Raul Castro ran a 4:44 in the mile run to take a fourth then turned around as a fifth place finisher in the two-mile run.

The team of Clyde Barre, Joe Lara, Ernie Lara and Lupe Contreras placed fifth in the Mile Relay with a time of 3:38.1.

This week the Pirates will be running in Goliad.

Lady Bucs Open '81 Track Season

The Seventh Grade Lady Bucs track team opened their 1981 track season with a meet at Gregory-Portland Saturday, February 28, placing in six events.

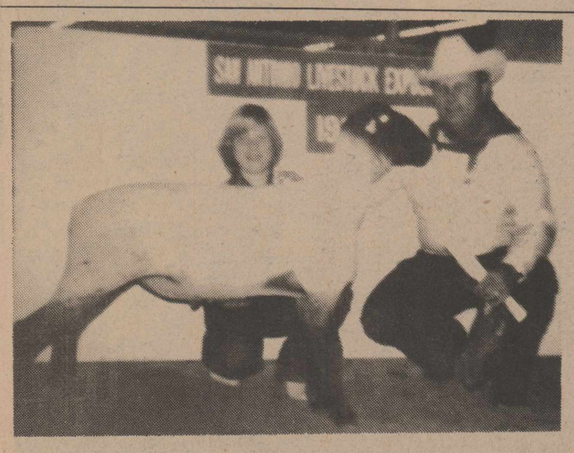
The team of Regena Gatlin, Denise Moore, Lynae and Marie Northover placed sixth in the 400 meter relay and third in the 800 meter relay.

Michele Dingenary, Denise Moore, Laynae and Marie Northover placed fifth in the mile relay.

Regena Gatlin and Denise Moore placed third and sixth respectively, in the triple jump.

Gatlin also placed fifth in the 220 yard dash.

Cassandra Kinsel placed sixth in the discus competition, bringing the overall team point total up to 26 - good start for the Ladies' season.



CARRIE'S WINNING LAMB

Carrie Livingston, a member of the Aransas County 4-H Club, is shown with her medium wool Suffolk lamb after placing 19th in a field of 200 at the San Antonio Livestock Show last month. Also shown with her is the buyer for Complete Oil & Gas and Poor Boy Inc. of Boerne, the company that purchased the lamb following the show. Purchase price was $6.75 per pound. Carrie, 10 and a student at Rockport Elementary School, placed third in January's San Patricio-Aransas County Agriculture & Homemaking Show with another lamb. That one went to RYSCO for a price of $7.25 a pound.

MUSEUM

(Continued From Page 1)

Texas history and activities.

He estimated cost of the building to be in the neighborhood of $200,000 to $300,000, with the money to come from donations and grants from philanthropic organizations. Christian added the museum association is trying to obtain such funding.

Christian said the museum association is "still young" but the backers for the project include "every member of the Rotary Club that I know of," as well as James Sorenson and John Mitchell at First National Bank, George Cone and Larry Boone at Live Oak State Bank and Russ Wilhour who is "the first $1,000 donor."

Among Recreation and Planning Association members speaking initially against the proposition to locate the museum on Navigation District property was Anita Dingenary who expressed concern that the proposal would interfere with the grant application — made at the planning association's request — for $200,000 to fund recreational facilities on the beach.

"The Phase II grant application sets out picnic and barbecue facilities (on the land requested by the museum group)," Mrs. Dingenary said. She said she felt the public park facility "would be the highest and best use for this property."

Christian replied that the museum would be a public facility — "just as public as a barbecue pit."

Later in the meeting, Mrs. Dingenary gave a letter to District Chairman David Maguglin in which she stated that, "the proposed maritime museum is a worthwhile endeavor" despite reservations she had because the museum association did not yet have any "specific plans."

She suggested however, that when the future lease is considered, if it is granted, the museum association should be required to maintain "a park atmosphere" around the building.

Another planning association member, Mavis Ponton, told the District commissioners the proposed "museum is admirable, but you shouldn't consider it on this (Navigation District) land."She expressed concern over the grant application status because the grant application specifies that this area is to be used for public park.

"It's been proven that the people of Aransas County don't want any of this land leased," Mrs. Ponton told the commissioners.

She added that the Navigation District had in the past denied leases to minority groups — citing LULAC and "the Black Baptist Church" — and expressed concern that granting a lease to the museum association could open the commission to a discrimination suit.

Navigation District Commissioner Ken Faulkner said he appreciated "the input from the planning people." He continued that "Mr. Christian and the people with him want a museum — and that's a little bit more unique than another barbecue pit and pavillion."

Faulkner added that those involved in the museum proposal are "a group of substantial citizens. We can modify the grant," he added. "The grant's not here yet — we may not get it."

Faulkner subsequently moved that the museum association be given a three-year option to lease the site. In three years the association is to come to the Navigation District with a presentation.

If at that time, the association "has funds available and the proper plans are submitted and approved by the Navigation District," a lease will be granted.

Such a proposal would also be subject to the outcome of a public hearing which must be called before any lease can be granted.

Faulkner's motion also proved that if this action "for any reason" jeopardizes the $200,000 grant application, the option granted Tuesday night "will be null and void."

The motion was seconded by Jimmy Anders and passed by unanimous vote of the District commissioners.

In other action Tuesday, the commissioners set the March 17 workshop-special meeting after receiving a letter from a Cove Harbor lessee protesting the proposed $4 per foot per month lease fee in the Harbor.

Another lessee, George Miller, appeared before the commissioners to tell them that this proposed charge "is too steep." Miller suggested the board might consider $4 per foot per year.

The Navigation District is attempting to raise lease rates in Cove Harbor in order to get the money for much-needed harbor improvements — in particular, dredging to deepen the channel.

The current lease rate is 40 cents per foot.

The commssioners asked Navigation District attorney Reese Rozzell to draw up a blanket permit to present to Rockport's city council that would allow the Navigation commissioners to grant approval for beach concessions without city council approval.

A request by Dillon Grubb for permission to operate a snack bar on District property was approved.

A request by the Bill Hames Show for permission to use Navigation District property for a carnival in November was tabled

FIRE

(Continued From Page 1)

two Department of Public Safety (Highway Patrol) units responded to the call.

At one time, traffic on Highway 35 South had to be diverted because of the thickness of the smoke although, Hewes said, the highway was closed off "only a few minutes."

He added the flames "got right up to the highway."

The blaze was reported as being out late Wednesday but it flared up briefly again about 11 a.m. Thursday. Firemen reported it was under control by 11:15 a.m.

Four firemen and two women who live in the area were treated for smoke inhalation Wednesday.

Sheriff Hewes praised the work of firemen in managing to hold down injuries and property loss. "They did a great job," he said.

COUNTY

(Continued From Page 1)

cannot itself apply for.

The State Council of Governments had suggested to the District the idea of going through the County and the COG had prepared a resolution for the Commissioners' Court which Faulkner presented, but due to an error in the resolution in regards to the value of the land (which cannot be appraised until the county, after a public hearing, agrees to buy the land) the court did not vote to purchase the area.

The corrected resolution will be presented at the next meeting at which time the court is expected to go along with the Navigation District's request.

Area Deaths

Avie Max Grobe

Funeral services for Avie Max Grobe, 67, owner of Max's Tackle Shop, were at 2 p.m. Thursday, March 5, at the Marshall Funeral Home Chapel in Aransas Pass with the Rev. Barrett Renfro officiating.

Burial was in Prairie View Cemetery in Aransas Pass. Mr. Grobe died Monday, March 2, in a Corpus Christi hospital.

A native of Junction, he had lived in San Antonio for 27 years before moving to Rockport where he had resided since 1966. He was a veteran of World War II and a member of the United Methodist Church.

Survivors include his wife, Ruby Gladys Grobe of Rockport; a son, Max Grobe of Houston; a brother, Roy Grobe of Kent, Washington; a sister, Mrs. Nellie Minter of Aransas Pass; and two grandsons.

Wallace T. Witt

ARANSAS PASS — Funeral services for Wallace Thurston Witt, 68, of Aransas Pass were at 2 p.m. Tuesday, March 3, in the First Baptist Church in Aransas Pass with the Rev. Lee Bundgus officiating.

Burial was in Prairie View Cemetery under direction of the Marshall Funeral Home.

Mr. Witt died Monday, March 2, in an Aransas Pass hospital.

He was a native of Ingleside and a lifelong resident of Aransas Pass, a retired port captain for Lloyd Richardson Construction Company and a member of the First Presbyterian Church and Aransas Pass Masonic Lodge 1018. He was a veteran of World War II.

Mr. Witt had served on the Aransas Pass school board for 18 years, 12 of them as president. He was past president of the Aransas Pass Lions Club, with more than 30 years service. He was a member of the board of directors of the Propeller Club and a former secretary of the Live Oak Country Club.

Survivors include his wife, Gertrude Witt of Aransas Pass; a daughter, Carolyn Kidd of Austin; a son, Wallace Thurston Witt Jr. of Dallas; a brother, James Witt of Aransas Pass; five sisters, Myrtle Statten of San Antonio, Mable Spears of Aransas Pass, Lucille Spears and Marjorie Terry, both of Corpus Christi, and Thelma Keys of Baytown; and two grandchildren.

The family has suggested that, if desired, memorials may be made to the American Cancer Society.

Thomas L. Morgan

MERIDIAN—Military graveside services for Colonel (Ret.) Thomas L. Morgan, 75, of San Antonio were held at 2 p.m. Thursday, March 5 in the Meridian Cemetery at Meridian.

Colonel Morgan was a former resident of Rockport, having lived here from 1964 until 1976.

He was a retired physician for the United States Air Force, having served from 1941 until his retirement in 1964.

He was a lifelong member of the Presybterian Church.

He is survived by his wife Dorothy Morgan, two daughters, one sister, seven grandchildren and one great grandchild.

Brister-Lawson Funeral Home, Meridian.

John P. Hughson III

ARANSAS PASS — Funeral services for John P. Hughson III, 18, of Worthington, Ohio, were set for 2 p.m. Wednesday, March 4, in the First United Methodist Church in Aransas Pass with the Rev. Don Deleplain officiating.

Burial was to be in Aransas Memorial Park under direction of Marshall Funeral Home.

Mr. Hughson died Friday, February 27, in an automobile accident.

He was a native of Corpus Christi, a student at Worthington High School and attended the North East Career Center in Columbus, Ohio. He was a member of the United Methodist Church.

He received the Outstanding Achievement Award in his junior class.

Survivors include his mother, Jo Nell Pohl, and stepfather, Peter H. Pohl, of Worthington, Ohio; father Jack Hughson of San Antonio; three sisters, Lee Ann and Susan, both of Worthington, Ohio, and Mary Ann of Newton, New Jersey; a brother, Andre of Netcong, New Jersey; paternal grandparents, Mr. and Mrs. Philip Hughson of Kingsville; maternal grandparents, Mr. and Mrs. Joel W. Lee of Elida, New Mexico; and several aunts and uncles.

In lieu of flowers, the family has suggested that memorial donations be made to the First Methodist Church in Aransas Pass or the First Methodist Church in Ingleside.
