ADVANCE IN WHEAT FOLLOWS ELECTION

MAY DELIVERY RISES 2 1-8 CENTS AS RESULT OF RECIPROCITY'S DEFEAT.

IT MAY GO STILL HIGHER

Declared Not Improbable That Spring Crop May Advance Twenty Cents

By Associated Press.

Chicago, Ill., Sept. 22.—Wheat jumped up 2 1-8 cents a bushel today as a result of the defeat of reciprocity. That was the extreme rise for May delivery. There was considerable excitement in the oats pit too. It is the accepted view that with no Canadian wheat available the holders of American wheat are in a position to command greatly enchanced figures. An advance of twenty cents is not improbable for spring wheat it is declared by bull leaders.

ANOTHER ADVANCE IN COFFEE AND SUGAR

The retail prices of both coffee and sugar are due for another rise as the prices of both these staples in the raw state rose perpendicularly yesterday. The rise in sugar was 17 points. No further advance in the refined product has been announced but it is expected to follow.

At present $6.75 is the lowest price being quoted for granulated sugar in New York.

A New York dispatch says:

Some refiners are practically out of the market and others are asking as high as 7.50c for prompt shipment.

New high records were again established in the coffee market today, and for the first time in sixteen years the entire list sold above the 12 cent mark. The advance was accompanied by active buying and was based on the strength in Europe and Brazil as well as the fact that stocks here are small and controlled by a few interests. Quotations from Brazil on spot coffee for future shipment showed prices to be far above a parity with the local market.

Pound for pound, coffee is now selling considerably above cotton. The advance, which represents a gain of more than 2 3-4 cents from the low price of the season, has been based on unusually small stocks in the visible supply as well as recent reports indicating a smaller crop than expected and the claims that unfavorable climatic conditions have interferred with the flowering of the next crop.

PETERS HEADS A.&M. DIRECTORS

College Station, Texas, Sept. 22.—Walton Peters, of Fort Worth, was elected President of the Board of Directors of the A. & M. College filling the vacancy caused by the resignation of W. A. Trenickmann. W. L. Boyett, of Brazos county, was elected food inspecter and E. J. Kyle was made dean of agriculture.

Duke A. Rogers, vice president and general manager of the Kanotex Refining Co., is here from Caney, Kansas, to take up negootiations for the establishment of a refinery here.

WASHINGTON VIEW: "MAKE BEST OF IT"

Political Leaders Consider How Reciprocity's Defeat Will Affect Campaign.

Washington, D. C., Sept. 22.—The question which is agitating leaders of political parties and factions is how their fortunes in the approaching National campaign will be affected by the defeat of the Laurier government and Canadian reciprocity. It is evident the replies will be as varied in character as were the political views of the factions which fought over the question during the special session of Congress.

Official Washington closely followed the returns from Canada, but remained silent regarding the outcome. Acting Secretary Huntington Wilson of the State Department declined to make any statement, and there was no other high official here in a position to discuss the situation. The unofficial view was that as Canada had rejected the agreement there was nothing for the Administration to do but "make the best of the matter."

That the rejection of the Canadian agreement will have a strong bearing upon the campaign of President Taft is not doubted. Some of the old guard Republicans who supported the agreement "against their better judgment" are saying its defeat will strengthen the Taft administrtion by relieving the only issue in which they were in disagreement with the President. Most of the insurgent Republicans were opposed to the agreement and they believe their position has been made much stronger.

There was no one here to speak even informaly for the Democrats. A majority of that party in both the Senate and the House voted for the enactment of the agreement and without their votes the Taft program for the special session would have failed.

Some of the friends of the Canadian agreement do not hesitate to charge the Canadian defeat of the Laurier government to the "annexation bogie." One of the excuses for this issue was suggested by a speech of Champ Clark of Missouri, now speaker of the House, which he delivered in favor of the agreement during the last session of the Sixty-First Congress, when the agreement was passed by the House and held up by the Senate. Mr. Clark was making a plea for a wider market, and in giving his reasons for supporting the Canadian agreement said:

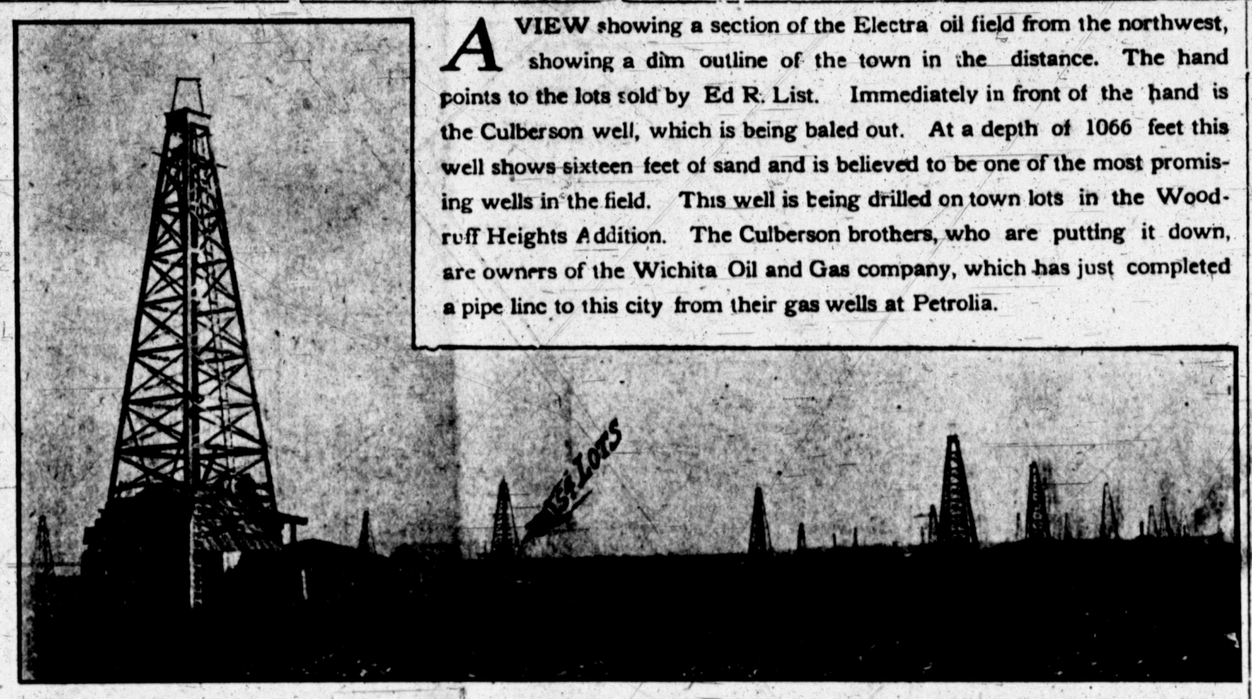
"I am for it because I hope to see the day when the American flag will float over every square foot of the British North Americans clear to the North Pole. They are people of our blood. They speak our langauge. Their institutions are much like ours. They are trained in the difficult art of self government. My judgment is that if the treaty of 1854 had never been abrogated the chances of a consolidation of these two countries would have been much greater than they are now."

Added importance to Mr. Clark's remark was given when he was later elected Speaker and as such became the leader of his party. Many persons, because of these circumstances, were attributing the political downfall of the Premier of the Canadian Government to the Speaker of the American House of Representatives.

Ward Withdraws From Race.

By Associated Press.

Lockport, N. Y., Sept. 22.—Manager Murphy for James J. Ward, announced that the aviator has withdrawn from the aeroplane race as a result of a fall near Addison this morning. His machine was damaged, but Ward was unhurt.



A VIEW showing a section of the Electra oil field from the northwest, showing a dim outline of the town in the distance. The hand points to the lots sold by Ed R. List. Immediately in front of the hand is the Culberson well, which is being baled out. At a depth of 1066 feet this well shows sixteen feet of sand and is believed to be one of the most promising wells in the field. This well is being drilled on town lots in the Woodruff Heights Addition. The Culberson brothers, who are putting it down, are owners of the Wichita Oil and Gas company, which has just completed a pipe line to this city from their gas wells at Petrolia.

TOWN MARSHAL AND FARMER IN DUEL

F. S. PARKS KILLED IN DESPERATE REVOLVER BATTLE ON STREETS AT TIPTON, OK.

A SERIES OF FIGHTS

Farmer Beaten When Resisting Officer Retaliates and Assaults Officer and Is Later Shot to Death

Special to the Times.

Tipton, Okla., Sept. 22.—F. S. Parks, a farmer who lived about six miles from Tipton, Okla., is dead, City Marshal Henry Weaver, of Tipton, is suffering from a bullet wound in his arm and Deputy Sheriff Walter Smith, of Tipton, is in a serious condition from wounds on the head and a knife cut across his gun hand, as the result of two desperate encounters on the main street of Tipton last night.

The trouble started in the afternoon when Deputy Sheriff Smith attempted to arrest Parks and a man named Cummings, whom he subsequently charged with being drunk and disturbing the peace. Parks resisted arrest but was finally subdued after he had been beaten over the head with a revolver and had cut the officer across his gun hand with a knife. Parks and his companion gave bond for their appearance at trial and left town.

Rankling from the wounds on the head and swarting from the indignity of his arrest Parks returned to Tipton at about 7:30 o'clock with several friends and hunted up the deputy sheriff. Catching the official unaware they took his gun from him and beat him into unconsciousness with it.

Leaving Smith half dead they started up the street and met Town Marshal Weaver just as the latter turned a corner coming to the rescue of the deputy sheriff. Both parties opened fire without delay. Parks was shot three times but lived until four o'clock this morning. Weaver was shot through the arm but was able to go to Frederick last night and give himself up. His preliminary hearing will be held at Frederick Monday.

Deputy Sheriff Smith is still in a serious condition, but it is not believed his wounds will prove fatal.

The people of Tipton hold Weaver blameless for the killing of Parks, but the latter's friends have sworn to avenge his death and further trouble may result.

Fire Tragedy at Youngstown.

By Associated Press.

Youngstown, Ohio, Sept. 22.—Four are dead and twelve were burned when an 8 inch gas main on a viaduct burst this morning, setting fire to a boarding house.

Mrs. C. C. Knight, who is in a sanitarium at Fort Worth for treatment, and who was reported as dangerously ill from the effects of an operation, is now reported as out of danger and able to leave her bed.

CALLAHAN WILL GET FIRST POLL TAX RECEIPT

James Callahan, the carpenter, will beat R. E. Huff to the honor of being the first to pay his poll tax at the city hall this year. The poll tax books will not be open until October 1, but Callahan expecting to be out of town at that time has left the money and a power of attorney with City Tax Collector Harry Robertson and will be issued receipt 1.

THE BARACA CLASS AT 1ST M. E. CHURCH SOUTH

The young men of the Methodist (South) Baraca Class met at the residence of Rev. and Mrs. O. T. Cooper Tuesday night for business council and social diversion. Plans were formulated for the enlarged activity of the class during the fall and winter months. Superintendent J. M. Bland and Teacher M. P. Kelley were present and entered enthusiastically into the discussions. Mesdames Kelley and Cooper served delightful ice refreshments.

A large, cool room in the basement of the First Church has been turned over to these young men. Handsome mission furniture has been purchased, and placed in the Baraca room. A library and reading room, a debating club, athletic features and social engagements are in contemplation, and the necessary preliminary steps have been taken. The class hour is 10 a. m., each Sunday. The men are anxious to have the room filled with young men. Mr. Kelley is a n experienced teacher, an enthusiastic leader and with the corps of officers elected large results are expected.

RECIPROCITY REJECTED LAURIER DEFEATED

Montreal, Sept. 22.—Canada today is confronted by a new situation developed by reciprocity rejected, the Laurier Government defeated and R. L. Borden, to be shortly called on to form a conservative ministry. That Canada is radical is shown by the overwhelming majority of the defeats of the seven cabinet members and the landslide which retires Laurier.

ENGLAND SURPRISED AT RESULTS IN CANADA

London, England, Sept. 22.—The defeat of Laurier and of reciprocity came as a great surprise to England.

Some women show their forethought by purchasing automobile veils with their husband's street car income.

A NEVER-TREAT CLUB OF ELKS IS GROWING

These are evil days for receptive candidates for free drinks at the Elks club, says the Kansas City Star. The Never Treat Club, an auxiliary of that fraternal order, organized in just several weeks ago has grown so rapidly and absorbed so many of the best "spenders" among the Elks that the "What'll you take?" invitation threatens to become obsolete.

The Never Treat Club is said to have had its origin in the solicitude of a few members for others who had fallen into the habit of "happening to be there" whenever anyone uttered the glad call of "let's have something." The reward of the Ever Present contingent for their eternal vigilance was more drinks than some of them could assimilate, and the reformers decided it was to start a movement for the Prevention of Cruelty to Inebriates. The theory was that if every member paid only for such drinks as he himself consumed the club decorum would be in less danger and the willing Ever Presents would be forced into sobriety.

The Never Treat Club now has some forty members, and still is growing. As a majority of those who had joined formerly were among the freest purchasers of liquid joy, there is a perceptible decrease in the convivility at the Elk home, and a marked falling off in the receipts of the bar cash register. The entrance fee for membership in the Never Treat organization is $3, a ridiculously trivial sum, considering what a saving is guaranteed those who observe the club's basic rule.

AUTO OWNERS, ATTENTION!

A panoramic view of the business section will be taken at the corner of Eighth and Ohio streets at three o'clock tomorrow afternoon and that as much life as possible may be thrown into the picture which will be used for advertising purposes the automobile owners are requested to park their cars near the curb lines at that hour. Every member of the Good Roads Club should be present.

May Not Prosecute Woman.

Chicago, Ill., Sept. 22.—Mrs. Harriet Coney, who two weeks ago shot and seriously wounded Robert Bruce Watson, prominent architect and clubman, was arraigned in court today for a preliminary hearing. Mr. Watson has about recovered from the effects of his wounds. According to Mrs. Coney's story the shooting was the result of Watson's determination to severe their relations, which, it is alleged, caused the divorce of Mrs. Coney and her husband. The woman's attorneys express the opinion that Watson will not prosecute the case and that ultimately Mrs. Coney will be released without trial.

A WILSON CLUB WILL BE ORGANIZED

MEETING FOR THAT PURPOSE WILL BE HELD AT CITY HALL MONDAY NIGHT.

CALL HAS BEEN ISSUED

All Willing to Join in Effort to Nominate New Jersey Man Are Invited.

As forecasted yesterday a call was issued today for a meeting Monday night for the organization of a Woodrow Wilson Club:

The call follows:

Wichita Falls, Tex., Sept. 22, 1911.

To the Democratic Voters of Wichita County:

We the undersigned Democrats of Wichita County, Texas, fully believing that the nominee of the Democratic party will be the next president of the United States and that Governor Woodrow Wilson of New Jersey is the best and most available man for this great distinction, hereby request every Democratic Voter in Wichita County, who is willing to join us in an effort to secure his nomination to meet with us at the City Hall in the City of Wichita Falls, on Monday evening, September 25th, for the purpose of organizing a Woodrow Wilson Club.

J. T. MONTGOMERY,
A. H. BRITAIN,
W. J. BULLOCK,
J. M. BLAND,

Taft at Peoria.

By Associated Press.

Peoria, Ill., Sept. 22.—President Taft arrived here at 6:30 o'clock this morning to be the guest at three receptions. At 6:30 o'clock this evening he will deliver an address at the annual banquet of the Knights of Columbus. At midnight he leaves for St. Louis.

MORE GOOD NEWS FROM ELECTRA

CULBERSON WELL BALED IN AND PRODUCING BETTER THAN 200 BARRELS.

OTHER GOOD INDICATIONS

Good Showings in Benson, Little and Bell Hole on Douglas Tract at 190 and 300 Feet.

The Culberson well in the Woodruff Heights addition at Electra has finally been baled in and is a splendid well.

J. G. Culberson, who returned from Electra after watching the well come in, says it is producing at the rate of 200 barrels a day. It is evident, however, that in his desire to be conservative Mr. Culberson is underestimating the production as other experienced oil men declare the well is producing not less than 200 barrels and probably as much as 300 barrels.

The sand was entered at a depth of 1066 feet and is said to be 16 feet thick. This well extends the field and is in territory where there are a number of individual property owners and lease holders, insuring the immediate development of that part of the field.

Another very favorable development of the past few days has been the showings in the Benson, Little and Bell hole on the Douglas tract northeast of Electra. The first showing was encountered at a depth of 190 feet, and a still better showing was struck at 300 feet. These showings indicate the same formations as in the proven productive territory.

It is reported that the Culbersons will set their derrick over from the well just brought in and drill into the deeper sands.

RATE PROMISED FOR NEXT YEAR

Mr. Nat L. Inge returned from St. Louis last night, where he has been for several days in conference with general passenger agents of western railroads in regard to arrangements for winter tourist and all year round trip tourists rates from the East and North to the South and West.

Mr. Inge endeavored to have a winter rate from Kansas points to Wichita Falls, but the conference refused to concur in it this year, although it promised Mr. Inge that the matter would receive careful attention and probably go through next year.

At the Colonial.

Something different in vaudeville may be seen at the Colonial this week. The billing is Newton, Ashton and Newton, and though their comedy savors somewhat of the slap-stick order, it is so different that one thoroughly enjoys it. In fact the whole program at the Colonial last night was so good that the management deserves praise for its efforts in providing amusement to its patrons.

Tonight the bill is "A Bachelor's Fix," a comedy built around an old bachelor for whom a determined widow has set her cap. In addition to this there is a military picture story entitled "An Officer and a Gentleman," a humorous one called "His Lordship's Hunting Trip," and an Indian tale of love called "Brave Swift Eagle's Peril."

W. E. Golden is in Electra today on oil business.

Rev. I. M. Ellis Chosen District Superintendent by Nazarenes

Rev. I. M. Ellis, of Hamlin, was elected District Superintendent of the Abilene district of the Church of the Nazerene at the session of the district assembly here this morning. Rev. Ellis is one of the most untiring workers and eloquent speakers in the district and his election is pleasing to the delegates in general. He succeeds Rev. W. M. E. Fisher.

This afternoon the reports from churches will be continued and delegates will be elected to the general assemby which convenes in Nashvlie, Tenn.

Tonight a special service in behalf of the girl's rescue work of the church will be held.

Men and women consecrated to this important work will participate in the service.

Lord Cowdry Fears Mexican Concessions May Be Revoked

By Associated Press.

New Orleans, La., Sept. 22.—That Lord Cowdry, of England, who holds the greatest oil concessions ever granted by President Diaz, of Mexico, is negotiating with the Standard Oil Company and the Waters-Pierce Company of Texas, for their transfer to prevent a possible cancellation of the concessions by the Madero government, was a statement made by S. G. Hopkins, the legal adviser in Washington of Madero.

HOUSTON HOUSEWIVES TO BOYCOTT SUGAR

By Associated Press.

Houston, Texas, Sept. 22.—The housewives here will start a movement to "boycott" sugar, to combat the raise in price.

We Spent Such a Long Time Picking and Choosing Our

Fall and Winter

Stocks that you will find it half as hard to make a selection here as anywhere else in town. You can buy blindfolded and run no risk—Our New York Made Clothes are the best bet for Young Men and their elders. Style right, made right, fit right and wear right. The prices are lower than other stores. Ask for good clothes, for they are right also.

Serve Heinz Pickles

And You Are Sure of Quality

I'm sure that Heinz knows all there is to be known about pickle making and I am so sure he puts *all* of this "know how" into every pickle that bears his name that I personally will guarantee to you absolute satisfaction on any of his pickles you order at my store.

I have a full line of them in bottle and bulk.

The favorite bulk varieties are, sweet mixed 20c per lb.; sweet plain 10c per doz.; sour plain 10c, per dz.

It's a pleasure to show these pickles. Just to see them convinces one of their quality and to eat them is to realize and appreciate the best in pickles.

What is your favorite pickle? Let us send you some.

SAYS WEST TEXAS IS BEST PLACE FOR RAISING HAY

"If West Texas raised as certain and as big crops of corn as Missouri, the farmers couldn't afford to grow corn to feed their hogs," declared J. C. Hestand, the well known breeder of Duroc Jersey hogs at Sherman, who stopped off here yesterday on his way to Cecil Lyon's big hog ranch near Quanah with a carload of young boars. Mr. Hestand qualified this statement by saying that it would be much more profitable for the West Texas farmer to buy his corn and other feed stuff from the Missouri farmers at seventy-five and eighty cents a bushel and devote all his attention to pasture crops with which he could make the seventy-five cent corn bring him a dollar and a half a bushel.

"It may seem a strange thing for an East Texas man to say," said Mr. Hestand, "but I believe West Texas offers the greatest field for hog raising in the world. With the Bermuda grass, alfalfa, Johnson grass, maize and other grasses that thrive in this section and the total absence of cholera and other diseases and the proximity to a good market, hogs can be raised here with more profit than any place I know of.

"Col. Lyon is now shipping two carloads of fat hogs from his ranch at Damsite every week and a few months later expects to be shipping four carloads. In his hog ranch Col. Lyon has 2,000 acres in alfalfa; 1100 acres in maize and 1280 acres in Johnson grass. He has about 700 acres in his irrigation lake and while there was not sufficient water to irrigate throughout the summer all the grass crops flourished and his hogs are fattening in splendid shape."

PIGSKIN WILL ROLL ON GRIDIRONS TOMORROW

New York, Sept. 22.—Football will appear on the athletic stage tomorrow to formally open the fall season of sport at the Eastern colleges. In the Middle West there will be a few preliminary skirmishes, but throughout the South and the West generally the teams will not get under way for another week or two.

In this section of the country the season promises to be one of the most important in the history of the gridiron game. The new rules this year are not very different from those of last season and the early games will not bother the coaches much in trying out possibilities, as was the case last year, when radical changes had been made. There will be some experimenting, of course, but the early contests will be devoted more to sifting material and looking over the potentialities of new material.

This year's schedule calls for more games than ever before, that is on the whole, but not as applied to several of the bigger teams. The University of Pennsylvania will start the season with a game with Gettysburg College and as usual, will close the schedule by playing Cornell on Thanksgiving day.

Yale's first game will be played on Saturday week with Holy Cross and a week later the latter will tackle Harvard, thus affording an early opportunity to compare Yale and Harvard scores against a common opponent. The Yale-Army game comes early, as last year. Later Yale will line up against Brown, Princeton and Harvard, meeting the latter at Cambridge on Nov. 25.

Among the new plums on the schedule the biggest is the Harvard Princeton battle, to be fought at Princeton on Nov. 4. They last met fourteen years ago, when the Tigers lowered the Crimson colors. Harvard too, will resume relations with the Carlisle Indians this year. In the week following the Carlisle game and preceding the battle with Yale the Crimson will play Dartmouth, which is always one of the biggest attractions on the Harvard schedule.

Brown, as usual, plays Harvard Yale and Pennsylvania, and will close the season with a game at Providence with the Carlisle Indians.

The most important change in the Indians' schedule will be resumption of relations with Harvard, after an interval of two years. In the course of the season the Indians will meet Georgetown, University of Pittsburg Lafayette, Pennsylvania, Harvard Syracuse, John Hopkins and Brown Carlisle has played all of these teams in former years, with the exception of Lafayette.

Intersectional games will feature the season's play. Michigan will come east to meet Pennsylvania, Cornell and Syracuse, and Syracuse will go west to play Ohio State and St Louis. Cornell, in addition to the game with Michigan, will also line up against the University of Chicago.

The principal games to be played among the Eastern Colleges tomorrow are as follows:

University of Virginia vs. Hampden-Sydney College at Charlottesville, Va.

Carlisle Indians vs. Lebanon Valley College, at Carlisle, Pa.

University of Maine vs. Fort McKinley, at Orono, Me.

Bates College vs. New Hampshire State College, at Durham, N. H.

Colby College vs. Kents Hill, at Waterville, Me.

Holy Cross College vs. Boston College, at Worcester, Mass.

Lafayette College vs. Bloomsburg Normal, at Easton, Pa.

Gettysburg College vs. Middletown College, at Gettysburg, Pa.

Delaware College vs. Williamson, at Newark, Del.

Rhode Island State College vs. Massachusetts Agricultural College, at Amherst, Mass.

Connecticut Agricultural College vs Rockville, at Storrs, Conn.

Rensselaer Polytechnic vs. Clarkson Tech., at Troy, N. Y.

ST. LOUIS IS READY TO WELCOME TAFT

St. Louis, Mo., Sept. 22.—St. Louis is making great preparations for the reception of President Taft tomorrow. Public buildings, hotels and many business houses are today receiving the finishing touches of profuse decoration. The decorations along the route to be traversed by the distinguished visitor in his tour of the city will be especially elaborate.

There has been no change in the program for the President's reception and entertainment. The program, in brief, calls for a reception at the Union Station on his arrival, breakfast at the Mercantile Club, a trip over the boulevards and into St. Louis County, luncheon at the Sity Club, a visit to the ball game at National League Park, dinner at the Jefferson Hotel and an address at the Coliseum at night. The Boy Scouts will not take part in the parade. The labor unions, which are antagonistic to the Boy Scout movevment, objected, and the reception committee thought it best not to have any friction when a city entertains the President.

THE DOCTOR'S QUESTION.

Much Sickness Due to Bowel Disorders.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that ninety per cent of illness is attended with inactive bowels and torpid liver and that this condition must be removed gently and thoroughly before health can be restored.

Rexall Orderlies are a positive pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of their great curative value that we promise to return the purchaser's money in every case when they fail to produce entire satisfaction.

Rexall Orderlies are eaten like candy, they act quietly, and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness diarrhoea, or other annoying effects. They are especially good for children weak persons or old folks. Three sizes, 50, 25 and 10 cents. Sold only at our store—The Rexall Store. O. F. Marchman Drug Store.

Women to Fly on Long Island.

New York, Sept. 22.—Attracted by a prize list aggregating nearly $30,000 a score of the foremost American aviators, with several from Europe have assembled for the Long Island tournament which will open tomorrow and continue for one week. The tournament will be the first in America in which special events have been provided on the program for women aviators. At least four women are expected to take part in the meet.

CLEAN UP YOUR STOMACH.

And Gas, Sourness, Dizziness, Headaches and Bad Dreams Will Go.

If you really want a clean, sweet pure stomach, free from gas, sourness, and distress, go to O. F. Marchman today and get a 50 cent box of MI-ON-A Stomach Tablets.

Take these little tablets according to directions, and if at the end of a week you are not brighter, stronger and more vigorous, just say so and get your money back.

For heaviness after eating, eructation, heartburn and that distressed feeling, MIONA Stomach Tablets will give relief in five minutes.

Large box of MIONA STOMACH TABLETS, 50 cents at O. F. Marchman and druggists everywhere.

The French senate is considering a bill to prohibit the importation of absinthe at once and to forbid its manufacture, sale or keeping in stock after two years from the date of the passage of the measure.

Notes From the World of Labor

Forty-four States have adopted an age limit for the employment of children.

The average wage of school teachers in Kansas has more than doubled in the past ten years.

During the last two years the International Brotherhood of Stationary Firemen has gained 9,900 members.

Organized labor in Atlanta, Ga. has purchased a site and will soon begin the erection of a $30,000 labor temple.

The highest oriental wages are paid in the Philippines, where the ordinary laborer gets from twenty to fifty cents a day.

Fewer women over sixteen years of age are employed in the Southern cotton mills than in the mills of the New England states.

During the last year the Boot and Shoe Workers' International Union has paid in sick, disability and death benefits a total of $89,297.23.

In the various metal industries of Belgium nearly half the men work from nine to ten hours a day, and the majority of the rest from ten to eleven.

Alabama, Florida, Georgia, Kentucky, Louisiana and Tenessee all have laws requiring all employers to provide seats for female employes.

In the United States the average productivity of the workingman is $2,400 a year, while in England the average productivity of the workman is only $556 a year.

The American Brotherhood, an independent organization of blacksmiths in New York, has, by unanimous vote, decided to affiliate with the International Brotherhood of Blacksmiths and Helpers.

The average rate of wages paid to skilled women sewing machine operators in the United States varies from $1.50 to $2.00 a day. The same class of labor in France, Germany and Switzerland receives from 30 to 50 cents a day.

At a recent meeting of the United Hebrew Trades, in Manhattan, N. Y., it was decided to aid the tailors in the organizing campaign they are now carrying on to get all the trade in the country into the union, as a preliminary preparation for a general strike in 1912.

The action of the Cigarmakers' International Union in adopting a label to distinguish its products from those of ill-paid convict, Asiatic or child labor, was gradually followed by other labor organizations until now there are seventy-nine union labels in use in the United States.

On the average the workman who receives $2.43 in the building trades in the United States receives $1 abroad; the man who receives $2.13 in the engineering trade in the United States receives $1 abroad; the man who receives $2.45 as a printer or compositorin the United States, receives but $1 abroad for the same kind of work. However, it must be taken in consideration that the cost of living in the United States is far greater than in any other country.

HUNDRED PATIENTS GOOD "PRACTICE" FOR AVERAGE PHYSICIAN

Special to the Times.

Fort Worth, Texas, Sept. 22.—How many regular patrons does it require to make a good practice for a physician?

How many patients can a physician handle regularly every day and give the correct attention to each?

These questions brought up a lively impromptu discussion at a recent luncheon of the Tarrant County Medical Association.

"There are very few physicians who can sit down and count up more than 100 regular patrons——families who would call him up in preference to other physicians, and, if he were out of town on one occasion, would call him in again when he returns," said Dr. M. V. Creagan.

"Of course, a physician is called in lots of times in cases where perhaps he would never be called in again but for regular patrons those with the largest practice will hardly run over the hundred mark."

Several other prominent physicians agreed with Dr. Creagan on this point and several skeptical ones, trying to make out a list of more than 100 regular patrons, failed.

It was mentioned that one doctor had reported some time ago that he was treating 125 cases of typhoid fever.

"No physician can do that without assistance and give each patient the right kind of treatment," declared City Physician Trimble. "A physician couldn't do it if he had all the patients in a hospital. One Fort Worth physician had seventy-five patients in the hospital one time and he was nearly run to death to take care of them.

"In order to give the right treatment to each patient, no physician can have more than fifty sick people on his hands at once and that number will cause him to keep hustling day and night."

One exception was taken to this concerning office practice. People afflicted with diseases not requiring home treatment can be cared for with less traveling time and the office doctor was conceded to be able to treat more people than the visiting physician.

'HEAP GOOD BED" FOR POOR "INJUN'

California Chiefs Have at Last Begun Using Beneficent Government's Bath Tub.

Banning, Cal., Sept. 21.—Although most of the improvements installed for the Mission Indians of Southern California by the bureau of Indian affairs have been gratefully received by the red men, bath tubs installed two years ago never have been thoroughly appreciated until recently.

The bath tubs in the Indians' homes were regarded with suspicion and remained unused until one of the old chiefs discovered that they made excellent beds. He told of his discovery to others and now the head of each family possessed of a bath tub seeks his nightly repose within it.

Trouble For Tammany Men.

New York, Sept. 22.—Next Tuesday will be primary day in New York City, which means that the politicians now are on edge awaiting the results of the leadership contests. The bitterest fights this year, as is generally the case, are in the Democratic ranks. For a leader to lose his district usually means a falling out with Tammany Hall and total loss of all political prestige, and a few of the old Tammany war horses, if present signs do not fail, will have the hardest fight of their lives to retain their leadership this year.

Rohatch's Mineral Water.

is highly recommended by physicians and patrons who have tested its merits, for indigestion, catarrh of the stomach, kidney and bladder trouble. This water stimulates the secretions of the stomach, increases digestion and favors a more complete absorption of the food, and prevents the action of germs that cause typhoid and other infectious diseases.

This water can be purchased at the wells or delivered in jugs or cases.

This well is located one mile south of Alamo school building in Floral Heights, two deliveries daily morning and afternoon. G. J. Rohatch, Owner. Phone 2601—1 long—4 shorts.

Wichita Falls, Texas, Sept. 22, 1911.

AS TO HOME PATRONAGE.

In another column under the caption "A Leagalized Evil That Should Be Discouraged," Mr. F. H. Day, Secretary of our splendid Chamber of Commerce, goes after the vendors of fruit—the fellows who ship their product here in box cars and peddle same out to our citizens at prices that can't be met by the regular dealers who are required to pay rent, taxes and insurance, besides donating and being seined for nickels, dimes and dollars almost daily for the maintenance and support of institutions for which the powers that be have no authority to levy a regular tax on the entire people to support, and The Times heartily endorses it, so far as it goes. But it does not go far enough. A close investigation into this matter of sending away for that which can be obtained at home will reveal that the produce dealers are by no means the only ones who are made to suffer by this practice and that our motto: "trade at home" is not even practiced as much as it might be by at least some of those whose thrift and proserity has been made possible by the patronage bestowed on them by the people of Wichita Falls. These fellows are now "living on easy street," and to criticize them, one takes a chance (if he happens to be in business) of being crushed as if he were nothing more essential to the prosperity and welfare of Wichita Falls than if he were a worm. But The Times is going to take a chance and say if these fellows can send to other cities for their family supplies and not come in for censure by the Chamber of Commerce or its able secretary, it is not yet ready to condemn the little two-bit fellow who buys a box of apples from a fruit peddler, and by the transaction is made to believe he has saved a few cents. However, The Times will say that the practice is wrong, and as a result of such practice there is hardly a line of business in Wichita Falls that has not suffered more or less. Not that it wants to complain, but just to better illustrate The Times will say that its own business and that of every other printing business in the city has been made to suffer greatly by the practice of sending away for that which could have been purchased of home printing houses. To assert that fully fifty per cent of the stationery used in the conduct of a few concerns in Wichita Falls is not given to home printers, perhaps, for the same reason that the fellow who buys a box of apples from the fruit peddler—they save a few cents by the transaction, is not exaggeration. Even as we write this article there is a notice lying on the desk saying that unless our sewer tax is paid by a certain date, the premises will be disconnected. Our city government must be maintained, and this can only be accomplished by a tax. But, is it right or justice for that government to give to outside concerns any part of its printing that can be done by printing concerns which the city government taxes for its support, even though the city government does save a few cents? Representatives of these outside printing houses have found Wichita Falls a rich field for them, and they rarely ever fail on making a trip here to take away with them their order books well filled. Occasionally it happens the outside concern has so much work to turn out that it cannot fill the orders in the time specified, and in that case the local printer is given a fill-in order and is used as an emergency, until the order from the big house can get in. The Times is not prepared to say that it is wrong in principle to send away for that which can be obtained at home. It used to be of that way of thinking, but seeing that it is so generally practiced in Wichita Falls by concerns that, above all others, should be interested in the prosperity of Wichita Falls and her institutions, it is almost persauded to believe that there is nothing wrong in it. At any rate, it is going to be rather slow in centuring those who patronize the fruit peddlers until it sees some substantial evidence that the fellows who send away for their dry goods, groceries, clothing, hardware, etc., have ceased to do so.

BILL BALLEW'S SLAYER ACQUITTED.

County Attorney Mathers, the man who shot and killed Wm. Ballew at Ardmore one day this week, was tried and acquitted yesterday, the jury being out only six minutes before returning their verdict.

From the evidence as introduced on the trial of Mathers, and as published by the Daily Ardmorite, it appears that Ballew had repeatedly threatened the life of the county attorney of Carter county, and finally entered the court house and requested an interview with Mathers and both retiring to the office of the county attorney, where after talking with each other for ten or fifteen minutes, during which time Ballew was very busy, and finally drew his gun to kill Mathers, but in rising from his chair, his foot slipped on the waxed floor, and Ballew fell. This incident probably saved the life of the county attorney, who pulled his gun and fired at Ballew after Ballew had already taken one shot at him, which went wild. The sheriff hearing the shooting, broke the door in and as he did this the county attorney rushed out of his office into the court room, falling over a chair. Ballew with pistol in hand, was after Mathers, when the sheriff caught him. Mathers, still believing that the first shot he had taken at Ballew had missed, took another shot at him as he got up from the floor, the flame of the pistol burning the hand of the sheriff, who was holding Ballew from falling to the floor. The second shot fired by Mathers entered Ballew's hip and would not have proved fatal. The first shot he fired while in the county attorney's office was the one that killed him.

For several years Ballew resided in this city, and was anything else but a good citizen. He had the reputation of a killer, and had threatened to take the life of more than one man in this city. There is no doubt but that he would have put his threats into execution had an opportunity presented itself.

The saying that there is "honor among thieves," was true with Ballew Facing a charge in the district court that came near landing him in the penitentiary it is said that he could have materially aided his attorneys by informing on his confederate in a case of theft that had at that time been discovered. But when the suggestion was made to him that he might secure his freedom in that manner, his reply was that he would go to jail or the penitentiary before he would be guilty of such a thing. He kept his word in that respect. On another occasion he told his attorneys that he was offered money to kill certain men, but that as it was not his personal affair, and inasmuch as he had no personal grudge against the parties, he refused to do their bidding.

That he was a dangerous man—about the most dangerous that ever resided in Wichita Falls, there is but little doubt, and those against whom he was known to have made threats had the best reasons to keep their eyes open and be on guard. But if he had reason to believe that he had an enemy who would not hesitate to meet him on equal ground, Ballew was careful lest he should unguardly give provocation for the starting of something. In his fights, he generally managed to have the law on his side and to that extent was wise and escaped conviction.

Vean Gregg, of the Cleveland Naps, continues to hold his own and will no doubt finish the season at the top of the list of winning pitchers in the American League.

The Texas league race was corker this season. Austin won the pennant with a percentage of .575 and Oklahoma City finished seventh with a percentage of .430.

A Constant Stream of New Things Charming every one of them

WE started this fall with an even more extensive showing than ever before. As you glance over hundreds of styles, you will quickly see that there is a decided tendency toward closer fitting garments and *coat-dress* effects; also that the dominant feature in everything is the Moyen-Age effect—the newest, oddest, most attractive style introduced in years!

Colors were never prettier—and there are enough fashionable shades for everyone to find a becoming one. There seems to be almost a passion for all tones of violet from the deepest purple to the softest and palest shades of lavender; raisin is good, catawba, taupe and slightly deeper tones of blue, brown and gray.

These models are made expressly for us and are characteristic Bischof garments. This means more than usual care in tailoring and a positive genius in selecting fabrics, trimming, buttons, etc. This is so important this fall as strong contrasts are extremely fashionable.

You couldn't find more attractive garments than these Bischof models. You couldn't find greater values; better clothes can't be had.

Come in now and you can find many simple *moderate priced* styles that are charming.

THE STATE OF TEXAS.

To the Sheriff or any Constable of Wichita County, Texas, Greeting:

You are hereby commanded to summon A. C. McClure by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, to be and appear at the next regular term of the Justice Court of Precinct No. 1, Wichita County, Texas, to be holden at the court house in Wichita Falls, in Wichita County, Texas, on the 25th day of September, the same being the last Monday in said month, then and there to answer to the complaint of J. R. Chandler, filed in said court on the 1st day of Sept. 1911, file number on said docket being No..... suit being against A. C. McClure and Walter H. Ellis; thenature of plaintiff's demand being a suit upon a promisory note and for the conversion of mortgaged property: Said promissory note was originally for the sum of $200.00 dated Nov. 16th, 1910, due in sixty days after date bearing interest from date at the rate of 10% per annum, and providing for an additional 10% for attorneys fees if placed in the hands of an attorney for collection. Said note is credited as follows: June 25th, 1911, $80.00; August 21st, 1911, $30.00, leaving a balancedue upon said note as principal, interest and attorneys fees of $114.84 for which he sues. That to secure the payment of said note the defendant A. C. McClure executed his chattle mortgage upon the following described stock: One gray mare mule; one bay mare mule; one black horse mule; one bay mare mule; one bay horse mule; one dun horse, and two blue mare mules 5years old. Plaintiff alleges that defendant Walter Ellis has converted the two blue mare mules to his own use and benefit and deprived plaintiff of his said security upon same, that he has at the time said Ellis converted the same a good subsisting and valid mortgage upon the records upon said blue mules.

Herein fail not but have before said court on the said first day of the next term thereof this writ with your return thereon showing how you have executed the same.

Given under my hand at office this 1st day of Sept. 1911.

W. E. BROTHERS,
Justiceof the Peace, Precinct No. 1,
Wichita County, Texas.

News From the Oil Fields

Leasing Around Hollister.

J. M. Hickerson, who lives southeast of Frederick, near Red River, returned Wednesday from a trip to Electra and Wichita Falls, Texas, where he went for the purpose of inspecting the oil fields and getting a line on the progress that is being made and the outlook.

"The activity of the field has not been overtold," said Mr. Hickerson to the Leader. "Immense crowds are there, and a great deal of work is going on. Several car loads of pipe and materials arrived while we were there. I don't know of any recent strikes in the Electra field. Land is being leased all over the country."

Mr. Hickerson believes that prospecting will soon begin in the southeast part of Tillman county. A representative of a Pennsylvania company, who is at present operating out of Hollister, is paying a dollar an acre for leases on land southeast of Hollister. He has closed deals of this kind with numerous and owners, and promises to begin prospecting near Chateau school within the next 60 days.

Mr. Hickerson was accompanied as far as Frederick by J. M. Craig of De Witt, Missouri, who had also been to the oil fields.—Frederick Leader.

Farmer Stringer's Regret.

The chief regret of Farmer Stringer, who has a choice cluster of gushers on his farm near Electra, Texas, is said to be that a fine lot of Johnson grass he was growing has been ruined by oil running all over it.—Frederick Leader.

The leading feature of the Illinois petroleum district last week was the bringing in of a 600 barrel gusher on the Ryan farm, in the McCloskey pool, in Lawrence county. A 300 barrel well was also brought in on the Gillespie land. North of Bridgeport, in the same county, a 300 barrel producer was drilltd on the Ridgley land, and another nearly as good on the Devonshire holdings. The Carlyle field located between the older producing regions and the Mississippi River, turned out a 500 barrel gusher on the Schumacher farm, in Clinton county.—Independence Reporter.

Is Still Single.

Some days ago the Democrat published what was supposed to be an authentic announcement of the approaching marriage of Miss Nell Stoppard, the popular correspondent to the Oil and Gas Journal for the Mid-Continent field. It now develops that this report was but the cogitation of several friends of Miss Stoppard to perpetrate a joke upon the young lady as the result of a wager.

We regret that these far reaching columns should have been the chosen medium to bring undue annoyance and embarrassment to our worthy "oil dopester," who firmly denies the accusation and assures her many Tulsa friends that she will resume her duties in the office of the Oil and Gas Journal on October 1st.—Tulsa Democrat.

New Oil Field.

Newcastle, Texas, Sept. 22.—The Producers' Oil Company of Houston has secured leases on 20,000 acres of land adjacent to this city and will begin operations on or before Decmber 1.

The first well is to be sunk on the west bank of the Brazos river, four miles southwest of the townsite line, and calls for a depth of 2,000 feet and if oils are found in paying quantities the field will be developed as rapidly as possible. The leases taken by the Producers' Company do not interfere with the coal leases already held by the Belknap Coal Company as they call for all other minerals and make the coal exempt.

A representative of the William Howris Company of Tulsa, Okla., is also on the ground and is securing leases directly west from the town and will begin operations about the same time. Considerable excitement is being shown among the farmers since the operations have been assured.

Fine Oil Strike.

Brady, Texas, Sept. 22.—Another chapter in the development of the Lohn oil field has been added this week in the striking of a very fine grade of oil by C. G. Foster on his place two miles east of the town of Lohn. The oil is of a very dark color and is said to be a highgrade lubricant and very similar to the oil in the Meers wells near the same town. Mr. Foster has a contract with the driller to drill 200 feet deeper and it is confidently believed that a stronger vein of oil will be encountered at that depth which will lead to rapid development of this field. Interesting developments are expected in the next few days.

W. P. Herron, manager and W. J. Roberts sales agent for the Honaker Company, passed through Wichita Falls yesterday on their way to Farmersville. Mr. Herron stated that the Honaker well was now down 530 feet into salt water, with a fine showing for a good well.

Mr. R. G. Scheurer of the Wichita Hardware Company, went to Electra this afternoon to install a gasoline lighting plant in the supply ware house of the National Supply Co.

Mrs. Julia James has leased 960 acres of land to C. J. Green who contracts to complete an oil well thereon within six months or pay $240 every three months thereafter. The lease runs for ten years but will be terminated if the first well proves a dry hole.

THE 54 LOTS SOLD BEFORE SALE FAIRLY STARTED

A few days ago The Times Publishing Company, contracted with Mr. Ed R. List, Jr., a real estate man and townsite promoter for 360 inches of advertising which was to have been taken up in advertising a sale at Electra of a block of land in the oil field which had been surveyed off into fifty-four lots.

The sale was advertised to begin on the 20th, and the prices set on the lots were to be effective for one week. The sale, however, did not last that long. In fact every lot in the block was sold on the first day, and Mr. List stated to a Times reporter that he could have disposed of twice as many more lots, but did not have them.

Of course, The Times is glad of the good results that were the result of the advertising put out by Mr. List through its columns, even though such a result was the cause of its lossing two-thirds the advertising contracted for. But this is an evidence that when you have anything for sale, and are satisfied to dispose of it at a reasonable profit, all you have to do to create a demand for it is to do like Mr. List—advertise for buyers through the columns of The Times, and you will get the desired results.

Mr. List makes it his business to conduct town lot sales like that pulled off at Electra, and has operated in several states, also in Canada, but says never before has he conducted a sale that has given him as much satisfaction as this one. With every lot sold and the money placed in the bank to guarantee the sale price, all there is left for him to do now is to have the abstracts of title to the lots made out and signed over to the purchasers. The work of getting out these abstracts is now under way and before another week rolls by he will have closed up this deal and will be ready to conduct another. Mr. List will go from this city to Port Arthur, Texas, to conduct a town lot sale.

A LEGALIZED EVIL THAT SHOULD BE DISCOURAGED

Itinerate Fruit Car Peddlers Work Hardship Upon The Local Dealers.

Editor of The Times:

One of the very best ways for a citizen of "The Busiest and Best Built City in Texas," being a "booster" is to patronize home industries and give the fullest measure of support to the local merchants.

For the past eight or nine months the writer has noted a large patronage bestowed upon "vendors of fruit" not one of whom contributes inwise to the life of this community. On the contrary they are commercial leaches sapping the very life out of the local retail trade.

The loyal and patriotic citizen should hesitate before patronizing these business pests, in fact he should contribute his share of the effort being put forth to establish locally legitimate retail trade.

What the writer refers to particularly is large amounts of money being paid out by thoughtless citizens to "dealers in fruit," who maintain no place of business other than a "box car" on a railroad siding, who conduct a legalized graft, through the protecting offices of the interstate commission, to the disadvantage of the local retail situation, which, to be improved or successfully continued must receive local support.

Bananas can be bought in the local market. So can watermelons, apples, etc. Why not then buy them of men who are making it possible for you, Mr. Citizen, to enjoy the comforts and pleasures of a down-to-the-minute city.

F. HAPPY DAY.

AD FOR STENOGRAPHER BRINGS FATHER AND DAUGHTER TOGETHER

Special to the Times.

San Antonio, Texas, Sept. 21.—When George Fletcher came to San Antonio twenty-one years ago, he left a little daughter, three years old in care of friends near Carbondale, Illinois. He contributed regularly to the support of the child until five years ago, when she wrote him that she was teaching school and did not need assistance. Subsequent to this, but one or two letters passed between the father and daughter and he had not heard from her directly for more than two years. Last Sunday the papers of this city contained the advertisement of a northern stenographer seeking a situation. Fletcher noticed the ad and needing the services of an amanuensis, wrote a letter asking the person, who appeared only by number in the advertisement, to call at his office. Monday afternoon, the writer of the advertisment went to Fletcher's office and one can imagine the surprise of both when after a short conversation the father recognized his daughter, Miss Belle Fletcher, whom he had not seen since she was three years old.. Very naturally she got the position as stenographer for which she had asked.

Newsy Notes From Allendale.

A good shower fell here Tuesday which was very helpful to the feed crop. If the showers continue the next few weeks, there will be no scarcity of feed in this section of the country.

Miss Willie Gwinn is in Wichita Falls this week with her aunt, Mrs. W. W. Swartz, and attending the Christian meeting.

Mr. J. T. Gilham, who has been unable to work the past week is able to be out on the road this week.

Mr. A. G. Griesmer, who has been in the sanitarium on account of blood poison for the past six weeks, will be able to be brought home this week. Mr. Griesmer has had a serious spell and his many friends will be glad to hear of his recovery.

All teachers and scholars are requested to be present at Sunday school Sunday, as new teachers and officers are to be elected.

Mr. and Mrs. C. E. Edwards, of Holliday, were the guests of their cousins, Mr. and Mrs. A. E. Gwinn Sunday.

LAMPERT MAY RESIGN

Katy Superintendent of Transportation Will Give Up Post Is Reported.

It is rumored in local railroad circles that on account of ill health, E. J. Lampert, superintendent of transportation for the Katy with headquarters in Denison has resigned. Mr. Lampert has been in ill health for several months and is now in St. Louis where he has been on account of sickness, and because of his absence from the city the rumor could not be confirmed.

It is also said that A. E. Broughner, now superintendent for the Katy in charge of the St. Louis, Boonville and Hannibal divisions and Columbia branch with headquarters in Sedalia, Mo., will be sent to Denison to take charge of the transportation office It is not known in Denison when the change will take place.—Denison Herald.

Changes in Baggage Rules.

W. A. Kellond, general baggage agent for the Katy, returned last night from Oklahoma City, where he attended a meeting of general baggage agents which was held with the Commissioners of Oklahoma with reference to baggage storage charges.

Commissioner A. P. Watson heard objections of railroad companies to the Commissioner's proposed order revising the storage for baggage left in the carrier's care, but decision was reversed. Carriers now charge 25 cents for the second twenty-four hours baggage is left in depots following arrival and ten cents for each day following the second twenty-four hours.

The Commissioner's tenative order proposes a charge of ten cents for the second twenty-four hours and ten cents for each full day thereafter for the first thirty days, excluding the Sundays and holidays. The charge is then proposed at five cents a day for the second thirty days, with a maximum of fifty cents for the entire time. Objections was made to the order by the carriers upon the ground that the high charge for the initial twenty-four hours induced patrons to claim their effects without delay and relieved the depot agents of much trouble.—Denison Herald.

Charles Klein's new play is called "The Outsider."

Special Bargains For Saturday

We are not going to make any long talk about these Special Bargains for Saturday as these prices speak for themselves—however we will say that we have consummated so many special underpurchases in new fall merchandise the entire store is aglow with specially priced goods—It looks almost incredible, but you can buy in most any line at a lower price here now than you could buy goods of like quality and character last season—The offerings below attest these facts.

Come and buy what you want Saturday

5000 yds. yard wide Hope Domestic, Saturday 12 yards for **$1**	28-inch Glenora Percale, Bookfold, Special Saturday, yard **7c**	35c Table Damask, 35c value, Saturday, 5 yds for **$1**	One lot Taffeta and Foulard Silks, $1.00 value yard, Saturday **50c**	2000 yds. Knights' Cambric, on Special Sale Saturday, 12 yards for **$1**
15 dozen Ladies' Sleeveless Vests, 12½c values each Saturday **8⅓c**	25 dozen Ladies' Fine Lisle Hose, black only, all sizes. Pair Saturday **19c**	50 dozen Sansilk; all colors, 5c values, Special the spool, Saturday **3c**	10 dozen Men's Silk Hose all sizes on sale Saturday, pair **24c**	25 dozen Colgate's Talcum Powder, Special Saturday, the can **17c**
24 Ladies' Muslin Gown, real $1.25 values, on sale, each Saturday **98c**	36 Muslin Corset Covers 50c and 60c values on sale each, Saturday **39c**	Every pair Ladies' Low Cut Shoes in the house on sale Saturday **Half Price**	50 Ladies' Skirts, values from $7.50 to $15.00; choice each Saturday **$5**	2 dozen Ladies' House Aprons marked at each Saturday **25c**

Pennington's THE BIG BUSY STORE

PHYSICAL CHANGE IN HUMANS.

(By Gordon S. Lloyd, M. D.)

Wellnigh startling are the evidences of physical deterioration in the human race when we come to take stock of them. In his fascinating and instructive work, "The Structure of Man," Wiedersheim of Frierburg states that there are in the present day human body approximately 150 organs "in a state of degenerative change."

The first example that will occur to most readers is the appendix, but equally striking instances may be found throughout the body from teeth to toes. Originally man possessed the power of opposing the lesser toe with the great toe, just as he now has the faculty of opposing the fingers with the thumb. Now this use of the great toe is altogether lost and the muscle has nearly disappeared that was originally responsible for the movement. The Japanese, however, have retained something of this faculty. Japanese women sometimes hold cloth with the great toe in sewing, thus being able to draw a very long thread, and the way their better halves walk around on steeply, slanting roofs, shows that they possess considerable grip in their toes.

Also man once had thirteen ribs, while now he has only twelve, the last two of which have nearly disappeared. Moreover, his chest is much smaller than formerly and his breast bone has dwindled distressingly. The gorilla still has his full equipment of thirteen ribs to the side and a chest development that makes a man's thorax lamentable in comparison.

The abdominal muscles offer another example. They are thinner, shorter and weaker than in past centuries. To observe this, one has but to contrast the sculpture of ancient Greece with the abdominal conformation of the Twentieth century. The chief abdominal muscle, called the "rectus" used to reach to the "top of the chest" while now it sometimes reaches the second rib.

Cleaning Cuspidors.

(By a Physician)

The very first thing to be said, in connection with the cleaning of cuspidors which have been used by tuberculous patients, is "wear rubber gloves."

By the wearing of rubber golves, one-half the tuberculosis by inoculation would be done away with. For it is true that inoculation happens most frequently through injuries received while cleaning cuspidors which have been nicked or chipped. This refers of course, to glass or porcelain cuspidors. There is the equal danger from tin cuspidors of cutting the hands on ragged edges. The heavy iron spittoon, is nearer the ideal one if, please mark the "if," it can be thoroughly cleaned. The ideal cuspidor is one of paper which may be burned and the contents destroyed.

If the person cleaning the cuspidors happens to have a wound or open sore on his hands it is possible for the bacilli (germs) to enter his circulation by this route. The rubber gloves would prevent it.

This cleaning of cuspidors refers not only to vessels in institutions, houses where tubercular patients reside and such places, but it also refers to the cleaning of the cuspidors in saloons and other places where there is indiscriminate spitting. The persons who clean these spittoons usually are not careful.

Wear rubber gloves when cleaning spittoons—all spittoons. It is one safe method.

A Missourian has invented a clip to hold a lead pencil upon a finger so that it will not have to be laid down if a writer desires to use his hand for some other purpose momentarily.

PLAYS AND PLAYERS

Chauncey Olcott will appear in London next season.

The new play of Henry Arthur Jones is called "The Ogre."

"Baron Trenck" will be produced in New York in October.

Mrs. Thomas Whiffin is to appear in a vaudeville play in New York early next month.

Sidney Drew and Lionel Barrymore are to appear in Philadelphia in "Bob Acres."

Hall Cane is to have a play called "The Quality of Mercy" produced in London.

Emma Trenti will begin her second tour in "Naughty Marietta" October 2, in Brooklyn.

Katherine Emmett will be leading lady with Lawrence D'Orsay in his revival of "The Earl of Pawtucket."

Guy Bates Post will star in a new drama of American life by Edward Childs Carpenter, called "The Great Desire."

Mabel and Edith Taliaferro have returned from a vacation trip to Europe. The younger sister will resume her tour in "Rebecca of Sunnybrook Farm" this month.

George Parsons, the husband of Georgia Drew Mondun, has writtten a musical comedy which has been accepted by the Shuberts for production early this season.

Fritz Leiber, who was leading man with Ben Greet for many years, following this by appearing as leading man with Julia Marlowe, has been reengaged by Robert Mantell as leading man.

"Baa! Baa! Black Sheep!" is the title the late O. Henry's story, "Cabbages and Kings," will bear in dramatic form. The dramatization is the joint work of Joseph Medill Patterson and Hugh Ford.

"The Lilac Domino" is the title of the new operetta of Viennese make in which Miss Emmy Wehlen will appear in this country this season. She has passed to the management of Charles Dillingham.

Louis N. Parker's "Lady Godiva," written for Miss Viola Allen, will be equipped with the settings and dresses prepared for Mascagni's as yet unheard opera "Ysobel," which, like Mr. Parker's play, deals with the incident of Peeping Tom of Coventry.

Forbes-Robertson will open his third season in "The Passing of the Third Floor Back" in Brooklyn on October 23. He will continue in this same success throughout the season, apearing in Shubert theatres in cities where he has not yet been seen.

A long series of experiments in the Philippines by army surgeons has disproved the theory that the deterioration of white persons in the tropics is due to the actinic rays of the sun.

ALL SORTS.

Francis Wilson, the actor tells the following story on John Mason:

Wilson, having spent several summers at a small hotel in Vermont, advised Mason, who was in search of a quiet place for rest, to go there, telling the proprietor that he was Wilson's friend. Mason arrived at the small town and made his way to the inn. He found the proprietor sitting on the front porch, with his chair tipped back, smoking a corn cob pipe.

"I am Mr. Mason," he began. "I have come here through a friend of mine, Mr. Farncis Wilson." Still no response. Convinced of his deafness, Mr. Mason began once more. "I say he roared, "I am Mr. Mason and have come here through a friend of mine, Mr. Francis Wilson."

The proprietor slowly took his pipe from his mouth and turned to Mason. "I heard you the first time," he said, calmly, "What did you expect me to do, kiss you?"—Cosmopolitan.

Tommy was a venturesome lad, but nobody had ever credited him with sufficient courage to shake his head in contradiction when the Sunday school visitor, who wished to show off his knowledge of Bibical history, asserted that Sarah, Abraham's wife was the only woman whose age was recorded in the Bible, says the New York Sun. Seeing the disapproving motion of the little head in the front row, the visitor reitrated: "Sarah was the only woman whose age was recorded in the Bible." Then Tommy spoke right out: "There are three more that I know of" said he. "Who?" asked the astonished visitor. "Mother, grandmother and Aunt Lucy," said Tommy.

James J. Hall, the railroad king, told the following incident happening on one of his roads: "One of our division superintendents had received numerous complaints that freight trains were in the habit of stopping on a grade crossing in a certain small town, thereby blocking travel for long periods. He issued orders, but still the kicks came in. Finally, he decided to investigate personally. A short man in size, and very excitable, he went down to the crossing and sure enough, a long freight train, in defiance of his orders, stood anchored squarely across it. A brakeman who didn't know him by sight, sat complacently on the top of a car. 'Move that train on!' sputtered the little super. Get it off the crossing so that people can pass. Move it on, I say!' The barkeman surveyed the tempestuous little man from head to foot 'You go to blazes, you little shrimp,' he replied, 'you're small enough to crawl under.'"—Exchange.

AUTUMN IDEAS

We are now showing the latest "Autumn Ideas" throughout our entire establishment. One of our "ideas" is that quality shall always be the best; another "idea" we have is, that no customer shall leave our store with a garment that is not perfectly fitted; that we shall not overcharge, but give a fair price to those who give us their confidence, is also one of our "ideas"—We shall be pleased to show you our latest "Autumn Ideas" in merchandise.

TESTING FIREARMS LAW.

Attorney General Brings Suit to Collect Gross Receipts Tax.

Austin, Texas, Sept. 22.—Of interest to all firearms dealers in Texas will be the trial of a suit filed in the Fifty-third district court today by Attorney General Lightfoot. Briefly, the purpose of the suit is to test the law passed by the Thirtieth legislature which provides for a gross receipts tax of 50 per cent on all revolvers sold, and which act has been continuously and variously evaded, says the State officials and those interested in the enforcement of such a law.

The suit is styled the State of Texas vs. Caswell & Smith, and asks judgement in the sum of $1.05, alleged to represent what is due the State under the gross tax receipts law, and asking as a penalty $11.05 for alleged failure to file proper reports after revolver sales.

Defendants will contest the case earnestly, it is understood, and just so strenuously does the attorney general expect to test the law.

It is understood that all retail dealers in firearms of Austin will join in fighting the suit.

George Ada had finished his speech at a recent dinner party and on seating himself a well known lawyer rose, shoved his hands deep into his trousers' pocket, as was his habit, and laughingly inquired of those present. "Doesn't it strike the company as a little unusual that a professional humorist should be funny?" When the laugh had subsided, Ade drawled out "Doesn't it strike the company as a little unusual that a lawyer should have his hands in his own pockets?"—Exchange.

Because many aeroplane accidents have occurred to aviators unable to stop in time when they have reached the ground a Frenchman has equipped his machine with a friction brake.

There are a few men provident enough to have a cold in the head and enough handkerchiefs at the same time.

Medical Value of Confession.

(By Gordon Lloyd, M. D.)

Aside from religious or moral considerations, confession of our sins and troubles has a medincinal value. Thus the functions of priest and physician which were first vested in the same individual are not totally separate yet, for the priest in receiving confession relives nerve tenison and consequent ill-health, while the physician in treating disease often becomes the repository of very intimate confidences.

It is bad for the brain and nervous system to carry about secret trouble or unconfessed sins locked up in the mind. The worry inherent in such a state of affairs is more poignant and undermining to the nervous equilibrium than is worry from any other source.

But, according to some of the most advanced workers in psychology and mental disease, the worst feature of the case is that unconfessed sins, fears or troubles are wont, after a time, to become "buried" in consciousness or "unconsciousness" as some day, and that these repressed and buried irritants to the mind, like an old bullet in the flesh, are liable sooner or later to set up trouble afresh and of a more serious nature than that caused by the original worry.

It is claimed that if the physician can lead the patient to recall these buried troubles and discuss them, almost immediate ameloration of the nervous disease caused by the irritant is obtained. Among the diseases said to be caused by forgotten and unconfessed trouble are hysteria, neurasthenia and insanity. Too often, however, it is impossible to unearth the buried irritant after the lapse of years, although some very ingenious methods of psychic analysis have been devised to facilitate the search.

POPULAR PROGRAM OF UNUSUAL MERIT

Civic League Entertainment Will Please All—Tickets Going Rapidly.

The program to be rendered on Wednesday evening, September 27th, under the auspices of the Civic League will appeal to all classes. The artists who have promised to entertain the large audience, already assured as indicated by the large sale of tickets, have expressed their intention to present such a program as will meet the popular demand.

Some critics have expressed a belief that classical music alone would constitute the program and whilst this in itself would be a tribute to Wichita Falls cultured citizenship yet this is not to be the case and those who assist the work of the ladies of the Civic League by the purchase of tickets and honor them by their presence at the Wichita Opera House, are certain to enjoy a rare musical treat.

Commencing at 8 o'clock promptly the Wichita State Band will render a popular program for one-half hour. The entire program including the band concert will not consume more than two hours and those in attendance are promised that every minute will be an enjoyable one.

Prof. Otto A. Pudor, who is a late addition to the musical circles of this city is a violinist of exceptional ability and his selections alone will be worth the price asked for tickets to the entire performance.

Dr. B. Dunaevski is the only musician in the entire Southwest outside of San Antonio, who is entitled to the Doctor of Music degree and the Wichita Falls Conservatory of Music, of which he is director, is the only institution in the state privileged to grant the "bachelor" degree. The doctor is a brilliant pianist and was at one time a special pupil of the greatest living pianist, Paul Pugno, of Paris. A treat is in store for those attending the Civic League entertainment, celebrating the twenty-ninth anniversary of the founding of Wichita Falls. Tickets are now on sale at the leading drug stores and hotels at the popular price of fifty cents, admitting to all parts of the house.

AND NOW THE OLD PIPE MUST GO

(Texas Health Bulletin)

The old pipe is condemned. Every man who prides himself in the possession of one or more good old tobacco pipes, which he has smoked for years, colored to his entire satisfaction and grown quite attached to, will be surprised and grieved to learn that if he values his health he had better throw those old pipes away and buy new ones. According to J. D. Reckitt, M. D., of London, old and deeply colored pipes are dangerous. They cause dyspnoea—in other words, labored, difficult breathing—and asthma, all due to the nicotine poison with which the bowl and stem of the pipe become saturated. In explaining just what it has laid a foundation for further study and research by those who are interested in the subject, for bacteriology is the foundation upon which we must build for better and more complete disinfection of persons who have died of diseases whose cause is due to some bacterium. By increasing our knowledge and becoming more intelligent upon the subject we become better sanitarians and guardians of the public health.
