

RECORD NUMBER OF TEXANS TO VOTE

Shivers And Daniel Gratified By Tides Victory In Senate

AP Special Washington Service
A state-ownership tideslands victory in the U. S. Senate, straw presidential preference polls in Texas, and comment from leaders were considered by more than two million qualified voters—a record number—in Texas today.

Supporters of Senator Robert Taft (R-Ohio) pointed in their own state's victories in Nebraska and Wisconsin primaries, while Eisenhower backers shouted over the general's popularity as expressed in Texas municipal polls.

State Comptroller Robert S. Calvert announced in Austin that a record-breaking 2,337,618 Texans had qualified to vote in the 1952 elections.

Governor Allan Shivers and Attorney General Price Daniel expressed gratification that the Senate voted, 50-54, to give the states clear title to the oil-rich tideslands.

Said the Governor: "I'm very, very gratified I appreciate the fine work done by the Texas delegation in Congress and all others who have worked for it."

Daniel, a candidate for U. S. Senate opposing the re-election of Senator Tom Connally, urged an immediate rallying of strength to override a presidential veto, if necessary. He said such an override was possible because eight of the states' strongest supporters were absent from the Senate yesterday when the vote was taken. Two-thirds majority is needed to override a presidential veto. A vote of 64-32 would be the closest

possible if all Senators were present and voting.

Texans also were quick to see how Senators who are candidates for presidential nomination voted on the tideslands measure. Only Senator Richard Russell (D-Ga.) and Senator Taft voted for the measure. Senator Henry Cabot Lodge (R-Mass.) did not vote but was announced for the bill. Lodge is General Eisenhower's chief backer in the Senate.

Senator Hubert Humphrey (D-Minn.) voted against the measure and Senator Estes Kefauver (D-Tenn.) was paired against it but did not vote.

comment on victories of Senator Taft in Nebraska and Wisconsin. Henry Zweifel, GOP national committeeman, declared Taft's showing "forever denies that the Ohio Senator is not a winning candidate." Zweifel is head of the Taft Texas forces.

General Eisenhower's sweeping victory in presidential preference balloting in Texas Tuesday was interpreted by Jack Porter, Houston oilman-politico as proof that "Ike can carry the state against any Democrat."

Calvert's figures were based on reports from county tax collectors. Supplemental reports may alter the figures slightly, he said, but no substantial change is expected. The comptroller called attention to a change in law which permits persons reaching the age of 21 since Jan. 1, 1951 to get their exemptions 30 days before any election held in 1952. It may swell the voting lists still more, Calvert said. Texas Republicans had varied

England Has A School For The Lazy Man

LONDON (AP)—A Government School for Lazy Men—it teaches Britain's habitual unemployed how to work and like it—set the House of Commons wondering today.

Gerald Nabarro, a manufacturer and Conservative member of the House, asked the government to explain what it's all about. He called for a report to the House next Monday.

The school is situated in the pleasant hills of Worcestershire. Its head man is a Scotsman, Hamilton Douglas, who told newsmen the nine-month-old project is designed to prod lazy men off relief.

Douglas explained the men all volunteered—after their local relief boards suggested they'd better learn to work or face prosecution.

"We have 20 at the moment— all individuals who for various reasons have been out of work so long they've lost the desire to start again," Douglas said. "It's our job to give them back that desire."

He said the school has been getting good results through constant, but subtle, prodding. But it doesn't plunge the lazy deep into work all at once. They learn in easy stages first doing jobs around the school, then gardening and finally a job in a nearby factory.

The first pay check is the diploma.

England Has A School For The Lazy Man

Mother Of Jet Ace Thinks Son Is Now Having Good Time

HOUSTON, April 3 (AP)—The mother of America's ninth jet ace, Mrs. Charles Moore, says she supposes "he likes to think he's having fun now."

The son, Capt. Robert H. Moore of Houston, shot down his fifth Communist MIG-15 in a 35-minute battle over Northwest Korea yesterday.

"I'm happy and very proud of Bob," his mother said. "It's just wonderful, but I'm saving most of my happy thoughts for the day Bob comes home. That should be about May 1."

Captain Moore is unmarried and the youngest of five children.

"He was always a fun-loving boy," the mother continued. "I suppose he likes to think he's having just as much fun now."

Port Arthur Phone Workers Return To Jobs After Pact

PORT ARTHUR, April 3 (AP)—Telephone service was restored here last night after a temporary agreement sent 250 employees back to their jobs.

A work distribution grievance was blamed for the work stoppage which employees insisted was not a "walkout" or "strike."

Under the agreement reached, the company will establish a tenth desk in its business office to relieve the work load on nine other desks. Half employees will be provided for all ten desks.

Employees are represented by the Communications Workers of America, CIO affiliate.

Top Award

Art Dodds, second from left, received the top award in Scouting Tuesday evening when he got his Eagle badge. His mother, Mrs. Mamie Dodds, has just pinned the coveted badge on him. To the right is his grandmother, Mrs. A. E. True, and at extreme right, his grandfather, A. E. (Preach) True, who, incidentally, is Art's Scoutmaster.

For Athlete's Foot

Use T-4-L for 3 to 5 days. If not pleased, your 40c back. Watch the old, dried-skin-slash off to be replaced by healthy skin. Get instant-drying T-4-L from any drug-gist. Now at Cunningham & Phillips.

Mice Get Convulsive Seizures From Loud Ringing Of A Bell

BAR HARBOR, Me. (AP)—Some mice get convulsive seizures, resembling epilepsy, from the loud ringing of a bell. The same mice,

given a drug that depresses the thyroid gland, don't get the seizure, or else get only mild attacks, reports Dr. Emelia M. Vicari of the Roscoe B. Jackson Memorial Laboratory here. The thyroid gland seems to play some role in onset or prevention of the bell-produced seizures.

Over A Million New Men Must Don Uniforms

WASHINGTON (AP) — Manpower officials say an increase of 110,000 men in the armed forces during the fiscal year starting July 1 means about 1,200,000 new men must don uniforms.

Mrs. Anna Rosenberg, defense manpower boss, told the House Appropriations Committee in testimony made public yesterday that the large majority of new recruits will merely replace those relieved from active duty.

"We are in effect running a revolving door," she said. "This is expensive and takes a great deal more manpower."

Of the 1,200,000 new men, all but 110,000 will replace 850,000 inducted and enlisted men whose terms are about to expire, and 250,000 reservists and National Guard personnel soon to be released.

The increase of 110,000 will build up the military force to 3,700,000. Mrs. Rosenberg said in testimony supporting the 1953 defense budget.

With Elmo

Norris Creek, above, is a new resident of Big Spring, now associated with Elmo Wasson's Men's Store. Creek comes here from Comanche, where for the past four years he has been manager of the Hub, men's clothing store. Creek expects to move his family here this weekend. He and Mrs. Creek are the parents of Jo Ellen, 5, and Mike, 4.

Two States Restore Lost Taft Prestige

OMAHA (AP) — They were still counting votes today in the Nebraska primary election but the prestige at stake in the Republican presidential battle and apparently the lion's share of the delegates had been bagged by Sen. Robert Taft of Ohio.

Sen. Estes Kefauver of Tennessee gained stature in the Democratic presidential popularity contest. But he wasn't likely to fare as well as his opponent, Sen. Robert S. Kerr of Oklahoma, in national convention delegates.

Delegates were elected independently and go to the conventions unpledged.

Of 18 Republican delegates, Taft apparently had 15, part of them on the basis of pre-election commitments. Others had agreed to abide by the primary results.

Only one was committed to Gen. Dwight D. Eisenhower, who mauled Taft in New Hampshire and Minnesota but took a solid beating at the hands of the Ohioan in Tuesday's Nebraska primary.

Taft's victory over the general in Nebraska and his success in the Wisconsin primary the same day restored lost prestige to the senator in the Republican presidential scramble.

The delegate lineup on the Democratic side looked like four for Kefauver and five for Kerr. Of a total 12, two were uncommitted and one was for Sen. Russell of Georgia.

The count of votes from 1,893 precincts of 2,058 gave Taft a 67,642 to 53,877 advantage over his write-in rival, Harold Stassen, former Minnesota governor, ran third with 40,118. His name was on the ballot.

Mrs. Mary Kenny, favorite daughter candidate backing Gen. Douglas MacArthur, MacArthur himself and Gov. Earl Warren of California ran far back of the leaders. MacArthur and Warren were write-ins.

Taft, on the basis of the still incomplete returns, had swept 49 of Nebraska's 93 counties. His haul included Industrial Douglas County (Omaha), which he took from Eisenhower by a 3-1 margin.

Eisenhower took only 19 counties, two less than Stassen.

Eisenhower won Lancaster County (Lincoln), second most populous in the state, by the same margin Taft took Douglas. The rest of his strength came mostly from the Western end of the state.

Kefauver's vote margin over Kerr with 1,856 precincts in was 54,457 to 50,104. President Truman, Sen. Douglas of Illinois, Sen. Russell of Georgia and Gov. Stevenson of Illinois each received less than 1,000 write-in votes.

The Tennessee senator's county margin over Kerr was heavier, 61 to 32. Kerr dominated mostly in Eastern Nebraska, where he had made an early and extensive stumping tour.

Taft Has 19 Of 20 Tenn. Votes

NASHVILLE, Tenn. (AP) — Sen. Robert A. Taft of Ohio can count on 19 of Tennessee's 20 delegates to the Republican National Convention.

The Tennessee GOP Convention yesterday named four more Taft delegates, bringing the total for the Ohio senator in the state to 19. The twentieth delegates will be named when the Eighth Congressional District Convention is held May 2.

Included in the at-large delegates named yesterday was State Chairman Guy L. Smith, editor of the Knoxville Journal.

Sen. Everett M. Dirksen of Illinois, the convention keynote, declared that he was "heart and soul for Bob Taft. He's got what it takes."

He added that the country "is to be congratulated" by President Truman's decision not to seek reelection.

PHOTOS SHOW IT

N. Y. Times Proves Germ Report False

NEW YORK (AP)—The New York Times today published what it called conclusive evidence of the fallacy of Communist photo charges that the United States is waging germ warfare in North Korea and China.

The evidence consisted of statements by American experts on pictures which the Chinese Reds originally printed in the Peiping People's Daily March 15 as proof of the charges against the U.S.

These American experts said the pictures, identified in the Chinese captions as those of deadly bugs dropped by U.S. invaders, were actually photos of harmless insects incapable of carrying disease, the Times said.

The U.S. Army, furthermore, identified a bomb which the Chi-

nese claimed was a germ carrier as an M1621 used for spreading psychological warfare leaflets, the Times said.

The newspaper devoted a column on Page 1 plus six more inside to the story, including reproduction of nine pictures from the Peiping paper.

The Times said experts consulted about the pictures were Dr. C. H. Curran, chief curator of insects and spiders at the American Museum of Natural History; Dr. Rene Dubos, bacteriologist of the Rockefeller Institute, and Army spokesmen.

The Chinese labeled one picture "poisonous insects which could fly, crawl and swim dropped on Chinese territory by U.S. invaders." Dr. Curran said the picture actually shows several stone flies in a petri dish, a glass commonly used in laboratories.

"These perfectly harmless creatures are often found in large numbers within varying distances from water, in which the larvae live. Their flight is slow and because they are poor fliers they would be extremely poor at disseminating disease even if they could be inoculated."

Turbulent Weather Moving Over North Part Of State

By The Associated Press

Turbulent weather moved across the northern portions of Texas today.

Thunderstorms occurred during the night from the South Plains eastward to the Fort Worth-Dallas area.

A U. S. Weather Bureau official said the rough weather results from a low pressure system now moving into the Texas Panhandle—and, to use his words, "is going to stir up things pretty good."

The low pressure system is bringing in some cooler air, he said, with thundershowers forming ahead of the front.

Showers of varying intensity were reported in the South Plains, Wichita Falls, Mineral Wells and northwest of Fort Worth.

Big Spring, Lubbock and Childress reported lightning and thunder in the distance before dawn today.

Increasing cloudiness was the prospect for tomorrow in Texas.

Johnson Has Praise For Tin Purchases

WASHINGTON, April 3 (AP)—The government was urged by Sen. Lyndon Johnson (D-Tex.) yesterday to resist "any attempt to hide subsidies" in the purchase of tin on world markets.

Johnson, Chairman of the Senate Preparedness Subcommittee, wrote the Reconstruction Finance Corporation, which handles the tin negotiations, praising its agreements to buy tin from Indonesia and the Belgian Congo.

Johnson said the agreements to buy the tin at \$1.98 a pound "have set a pattern for straightforward negotiations."

Spring Floods Hit Hard In A Six-State Area

By The Associated Press

Hundreds of persons in river communities in six Midwest and Western states were made homeless today by spring floods.

The most serious flood appeared in Havre, Mont., where the Milk River spilled over its banks and forced some 1,200 persons in the city of 8,000 population to leave their homes—Montana, Iowa, declared in the northern part of the city to protect homes and business houses from looting. Damage already has been estimated at more than \$300,000.

About 10 residential blocks were flooded in Pierre, S. D., as the Missouri River climbed a half foot above flood stage. Small sections of nearby Ft. Pierre also were flooded by the Missouri and its tributary, Bad River.

The Missouri was overflowing in parts of North Dakota, including portions of the Buford-Trenton irrigation project near Williston.

Floods also have hit parts of Minnesota, Wisconsin and Iowa, but no serious damage was reported.

Cooler weather was reported over most of the flooded area, with below freezing in most of the Western Plains states. It was cooler too in parts of New England, the Middle and South Atlantic states and the Ohio Valley. Mild weather continued along the Gulf Coast and Texas and Oklahoma westward to the Pacific Coast.

Snow flurries fell over most of the Great Lakes region and in the Upper Mississippi Valley early today. Rain and snow flurries were reported in the Northeastern states with snow in parts of Maine. Showers and thundershowers hit the Central Plains states and showers were reported in Montana.

No Comment On GI Return From Reds

HEIDELBERG, Germany, April 3 (AP)—U. S. Army authorities declined today to discuss the case of Pvt. Charles Wood of Sillabee, Tex., who was returned last Saturday after being held in Czechoslovakia for more than three months.

Authorities confirmed that Wood had been absent without leave from his constabulary unit since Dec. 12. A State Department announcement said he crossed into Czechoslovakia the same day.

Wake Up To More Comfort Without Naggng Backache

Without nagging backache, backache and stiffness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. A little extra care for such as stress and strain, causes this important function to slow down. Many folks suffer nagging backache—just because the liver, bladder, irritations due to solid or wrong diet may enter picture. Get relief from these conditions today. Try Don's Pills—a mild diuretic. Used successfully by those who suffer over 60 years. It's amazing how many times Don's Pills give relief from these discomforts—helps the 10 million of liver, bladder and kidney ailments. Get Don's Pills today! See flush out waste. Get Don's Pills today!

Bladder Cancer Can Be Cured At First

HOCA RATON, Fla. (AP)—Ninety per cent of bladder cancer can be cured if treated within two weeks of the first hemorrhage, Dr. Elmer Hess of Erie, Pa., said here today.

He told the southeastern section of the American Urological Association that if treatment is delayed until after the second hemorrhage, only 45 per cent can be cured, and that after the third hemorrhage none can be cured.

Rheumatism Arthritis Pains Relieved IN FEW MINUTES
with Doctor's External Prescription

Make This 24 Hr. Test

Enjoy blessed relief from swollen, aching joints, arthritis, rheumatism, sciatica, lumbago or neuritis—or no cost to you for trying this prescription formula called Muscle-Rub. Contains soothing, pain-relieving ingredients prescribed by doctors. Widely used by institutions, massage parlors and gymnasts; recommended by coaches and trainers for muscle soreness, strained ligaments, painful sprains and bruises. Don't lose internally except under doctor's orders.

Here's How

To get safe, quick relief, simply apply this pleasantly scented liquid EXTERNALLY wherever you feel pain—limbs, joints, shoulders, neck, back. Note how much more comfortable you feel all day, how many more hours of restful sleep you get at night.

Sleeps All Night

"I'd tried everything, with no results. Pain in arms and legs was agonizing. Thanks to Muscle-Rub, I sleep free from pain. Buffers should keep it handy." Mrs. K. Newell, Paoli.

Nothing Like Muscle-Rub

"My patients and I are more than pleased. Warmth soothes and produces circulation to carry off many toxins. Nothing compares to Muscle-Rub for relieving the suffering from arthritis and kindred pains," states T. T. Connor, physiotherapist, Paoli.

City P-TA Council Plans Golden Anniversary Tea

Plans were made to honor the past presidents and other officers of the P-TA groups and Mothers' Clubs when the city council of the P-TA met Wednesday in the Big Spring High School Auditorium. The officers will be honored at a Golden Anniversary tea in the high school cafeteria April 23. Mrs. W. N. Norred reported on the spring conference of the P-TA held in Sweetwater recently. Mrs. W. L. Vaughn, president of the Airport School unit, reported on the Home and Family Life and Character and Spiritual Education workshop held in conjunction with the conference. Other reports on the conference

were given by Mrs. Elvia McCrary of Central Ward and Mrs. Jimmie Hale of West Ward. Other representatives reporting were Mrs. E. G. Fausel and Mrs. L. D. Jenkins, high school; Mrs. R. H. Wardell, South Ward; Mrs. A. C. LaCroix, Washington Place; Mrs. Noble Kennemur, North Ward; Mrs. John Burns and Mrs. C. R. Eubanks, West Ward; Mrs. Wayne McNew, Airport. It was announced that there will be a joint installation of all new officers of the P-TA units May 7 at the Park Hill School. Plans were also announced for a May Festival May 9 at Steer Auditorium.

Visits, Guests Make Luther Community News This Week

LUTHER, (Sp1)—Visits and guests make the main news in the Luther community this week. Mrs. O. E. Hamlin visited Mrs. Holbert Fuller Thursday afternoon. Orba Hamlin made a business trip to Amarillo Thursday. Visitors in the home of Mrs. Buford Smith Sunday were Mr. and Mrs. A. J. Andrus and children of San Angelo, Mr. and Mrs. J. N. Nut of Hallinger and Mr. and Mrs. Austin Harper of San Angelo. Mr. and Mrs. O. O. Murray visited Mr. and Mrs. John Couch and Mrs. E. N. Phillips Sunday. Max Murray left San Francisco recently for service in Japan. On the sick list recently have been Norvin Hamlin, Billy Hanson and Ellen Morton. Visitors in the Bill Hanson home Sunday were W. A. Wallace of Center Point, Mr. and Mrs. Arvel Ward of Big Spring, Mr. and Mrs. Earnest Wallace of Coahoma, Mr. and Mrs. Nixon and baby and Janice Williamson. Mr. and Mrs. R. G. Murray visited her mother, Mrs. C. O. McKeehan of Sipe Springs Saturday and Sunday. Bus Lloyd and Nolan Stanley were at the Colorado City Lake Sunday afternoon. Luke Underwood, Louis Underwood and Loyd, L. C. Underwood, Ocie Crow and Bill were sightseeing at the new Upper Colorado Lake near Snyder Sunday. Sunday visitors of Mr. and Mrs. O. E. Hamlin were Evelyn Hamp-

ton and Mr. Hall of Big Spring. Mr. and Mrs. Roy Eastland and children of Amarillo visited her parents, Mr. and Mrs. W. D. Anderson over the week end. Sunday visitors of Mr. and Mrs. Carl Lockhart were Mrs. J. B. McCullough, Johnny and Johnetta, Mrs. J. W. Barber, Mrs. Bill Barber and Janie, Mr. and Mrs. Gene Lockhart and Jana Sue of Big Spring. Mr. and Mrs. Cromwell Rhoton of Big Spring visited her parents, Mr. and Mrs. A. G. Smith Sunday. Janice Williamson spent Saturday night with Mr. and Mrs. Gene Lockhart and Jana Sue of Big Spring. Sunday afternoon visitors in the home of Mr. and Mrs. Van Owens were Mr. and Mrs. Ralph Proctor and children, Mr. and Mrs. L. C. Underwood and Carolyn and Herman Scott. Mr. and Mrs. Gene Lockhart of Big Spring were dinner guests of Mr. and Mrs. E. R. Williamson Sunday. Mrs. Van Owens has closed the Edith Barber Shop at the J. W. Kilpatrick store. Visiting Velma Lloyd Sunday were Mrs. O. R. Crow, Connie and Sandra.

Mrs. Wayne Allen Fetes SS Class Of Baptist Church

Plans were made to visit every home represented in the adult department when the Gleaners Sunday School Class of the East Fourth Baptist Church met recently in the home of Mrs. Wayne Allen. Mrs. L. K. Click voiced the opening prayer. Mrs. Dick Lytle gave as the devotional "Answered Prayer." Mrs. Allen was in charge of the games. Attending were 10 members and six visitors, Mrs. A. W. Page, Mrs. R. C. Stocks, Mrs. Lytle, Mrs. C. Click, Mrs. Rex Edwards and Mrs. J. H. Rogers.

Hyperions Entertain Newcomers

The Howard County Junior College choir and sextette presented a musical program Wednesday afternoon at the Newcomers Tea given by the 1952 Hyperion Club in the college auditorium. Mrs. Larson Lloyd was in charge of the program. Hostesses for the occasion were Mrs. Tracy Smith and Mrs. J. H. Hatch. The tea table was laid with a white madras cloth and centered with an arrangement of yellow carnations, daisies and snapdragons and flanked by yellow tapers in crystal candelabra. Mrs. C. D. Wiley and Mrs. K. H. McGibbon alternated at the silver tea service, and Caroline Smith assisted in serving.

Center Point Club Has All Day Meeting In Carroll Home

"Backgrounds for Living Rooms" was the program theme when the Center Point Home Demonstration Club met Tuesday in the home of Mrs. Wesley Carroll for an all day meeting. Mrs. Eugenia Toland, county home demonstration agent, discussed wall finishes, color combinations, draperies and window treatments. Mrs. Carroll gave the devotional. Attending were 12 members and two guests, Mrs. Eunice Crow of Seminole and Mrs. J. W. Brigrance.

Scout Troops See Film On First Aid

Troops 22, 11 and 1 and the Latin American troop were entertained at the Girl Scout Little House Wednesday afternoon at a showing of a first aid film. Kim Milling was in charge of the film, and group singing was led by Ann Mary Gray. Troop 11 made plans for a hike Saturday and members of Troop 22 worked on their preparedness badges, learning how to light lanterns and oil stoves. Attending were approximately 75 girls and troop leaders and Rex Browning, area field director.

SS Class Has Party In Trotter Home

Members of the Kononia Class of the First Baptist Church met Tuesday evening in the home of Mrs. Jimmy Trotter, 1503 Sycamore, for a kid party. Mrs. Clyde Clark was co-hostess. Secret pal names were revealed and bingo was played. Ten attended including a guest, Mrs. George D. Casey.

Luncheon Cancelled

The April luncheon of the Susanah Wesley Class of First Methodist Church, which was to have been Friday, has been cancelled. It was announced today. The next luncheon will be held May 2.

Married In Colorado City

Mr. and Mrs. J. D. Gentry are shown following their recent wedding in Colorado City. The bride is the former Mary Haines, daughter of Mr. and Mrs. Ed Putman, and the bridegroom's parents are Mr. and Mrs. Edgar Gentry.

Mrs. Read Entertains Club; Scouts Have New Members

COAHOMA, (Sp1)—The Mary Jane Club met this week in the home of Mrs. Hezelle Read. Mrs. H. J. Robertson presided and sewing and pattern illustrations furnished entertainment. Refreshments were served to seven. Two new members, Margie Logsdon and Gwendolyn Williams were welcomed into the group when the Girl Scouts met recently in the home of Mrs. L. F. Anderson. Members decided to wear red ties with their uniforms and they also began work on their second class badges. Ten attended including Mrs. Douglas Newman, a guest. Mr. and Mrs. Smith Cochran and PkM visited in Lamesa in the home of Mr. and Mrs. John Flache and family. Mr. and Mrs. H. L. Stamps spent the week end at Alpine with Mr. and Mrs. Cliff Prather. Mrs. Bennett Hoover and Gerry and Mrs. N. B. Hoover spent several days recently with Dr. and Mrs. T. B. Hoover in Tucuman, N. M. Mr. and Mrs. H. H. Armstrong of Westbrook and Mr. and Mrs. Miles Galloway of Big Spring spent Sunday with Mrs. A. L. Armstrong.

Argentina Program Presented For 1946 Hyperion Members

A program on Argentina was given Wednesday afternoon for members of the 1946 Hyperion Club at their meeting in the home of Mrs. W. C. Foster. Mrs. C. B. Maroum gave a biography of Peron and a history of the republic, and Mrs. Milton Talbot described the living conditions and the people in and around Buenos Aires. The 19 members present voted to accept the new constitution of the Big Spring Federation of Women's Clubs, Inc. The next meeting will be in the home of Mrs. J. H. Fish.

Revival To Start Sunday At Coahoma

The Rev. Orval Strong, associate pastor of the First Methodist Church, will begin a revival Sunday at the Coahoma Methodist Church, the pastor, the Rev. Earl G. Harper, announced today. The revival will continue through Easter Sunday night, D. W. Hays, choir director of the Coahoma church, will be in charge of the music.

Mrs. Vineyard Is Honored At Dinner

Mrs. George Vineyard, who is moving to Midland soon, was honored recently at a going away dinner party at the Wagon Wheel by members of the Spoudazio For. The tables were laid with red and white checkered tablecloths and cards were miniature Easter rabbits made from wash cloths. Club members presented the honoree with a hand-embossed brass tray as a farewell gift. Fourteen attended.

Mrs. Simpson Fetes Luther HD Club

Mrs. Cromwell Rhoton gave a demonstration on using the living room for family recreation when the Luther Home Demonstration Club met recently in the home of Mrs. Akin Simpson. The next meeting will be in the home of Mrs. Bill Hanson. Five attended.

7th Grade Elects Class Officers

Members of the seventh grade of Big Spring Junior High School recently elected class officers. They are Lewis Porter, president; Edgar Patterson, vice president; Freda Donica, secretary; Nancy King, treasurer; and Kenneth Schaefer, reporter.

Hyperion Club

It has been announced that the 1952 Hyperion Club will meet Saturday at 3 p. m. in the home of Mrs. B. L. LeFever, 1710 Johnson.

P-TA Honors Members Of Athletic Teams At Banquet

FORSAN, (Sp1)—The Forsan P-TA honored the members of the various high school athletic teams and their friends with a banquet recently at the school. Lynelle Sullivan and F. P. Honcykut, coaches, were in charge of the program. The speaker's table was centered with an arrangement of yellow gladioli and fern and lemon leaves were placed at intervals. Place cards were booklets shaped as basketballs containing the menu and program. Arlen White gave the invocation and Harold Hicks presented the welcome address. The Girls' Sextet, accompanied by Mrs. B. J. Wiss, sang two songs. Members of the boys' teams were introduced by Hicks and Nannie Faye Camp introduced the girls. Short talks were given by Peggy Knight, James Cauthie, Miss White, Bob Leonard and Larry Shortes. The food was prepared by Mrs. G. G. Green, Mrs. M. M. Fairchild, Mrs. H. G. Huestis, Mrs. L. M. Hayhurst and Mrs. J. B. Hicks Sr. Students of the seventh and eighth grades served. They were Patsy Shultz, Barbara Dean, Verna Blankenship, Barbara Green, Marquetta Willis and Belvina Martin. The tables were decorated by Mrs. J. D. Leonard, Mrs. W. J. White, Mrs. Dan Furse, Mrs. R. A. Fullen and Mrs. O. A. Jones. Other members of the P-TA assisting included Mrs. Pearl Cauthie, Mrs. G. T. Baum, Mrs. T. E. Camp, Mrs. Dave Knight, Mrs. Clifton Fowler, Mrs. Henry Park, Mrs. O. W. Fletcher, Mrs. Jake Green, Mrs. C. C. Brunton and Mrs. J. R. Asbury. Following the banquet, Mr. and Mrs. J. D. Leonard, Mr. and Mrs. C. J. Wise and Mr. and Mrs. Walter Gressett held open house for the honorees. About 75 attended.

Sewing Club Entertained On Tuesday

FORSAN, (Sp1)—Mrs. John Cardwell was hostess to the Pioneer Sewing Club when the group met in her home Tuesday afternoon. Refreshments were served to eight. The next hostess will be Mrs. R. A. Chambers. Tuesday guests in the home of the Rev. and Mrs. R. L. Bowman were his brother and family, Mr. and Mrs. A. E. Bowman of Midland and Mr. and Mrs. John Steele of Levand. Mrs. Queen Kent Bowman has returned to his home in Big Lake. Mr. and Mrs. C. M. Adams had as their recent guests their children, and families, Mr. and Mrs. Darrell Adams and children of Midland and Mr. and Mrs. Jimmy Johnson and family of Big Spring. The Rev. R. L. Bowman has announced that the Cokesbury Hymnals recently acquired by the Forsan Methodist Church will be dedicated Sunday morning. He requests that all who had a part in providing the hymnals be present for the service.

Newcomers Hear Al Dillon Speak On West Texas

Al Dillon welcomed newcomers to West Texas and gave a short history of the area when the Newcomers Club met Tuesday morning in the first Presbyterian Church. Mrs. Julian Williamson presided at the business meeting and seven new members were welcomed into the group. They are Mrs. Harold Birdsall, Mrs. W. V. Griffin, Mrs. H. E. Hanson, Mrs. W. L. Long, Mrs. Jack Nelson, Mrs. Ray Streich and Mrs. A. M. Allison. Refreshments were served to about 30.

Rev. Hoyer Speaks At Ladies Aid Meeting Wednesday

The Rev. A. H. Hoyer, pastor of St. Paul's Lutheran Church, spoke on "Women Conquering The World for Christ" when the Concordia Ladies Aid of the church met Wednesday in the educational building. Plans were made for an Easter Egg Hunt and family basket lunch to be held April 12. It was also announced that the Spring Zone Rally of the Lutheran Women's Missionary League would be held here May 7. Ten attended.

Mrs. Stockton Is Feted At Dinner On 91st Birthday

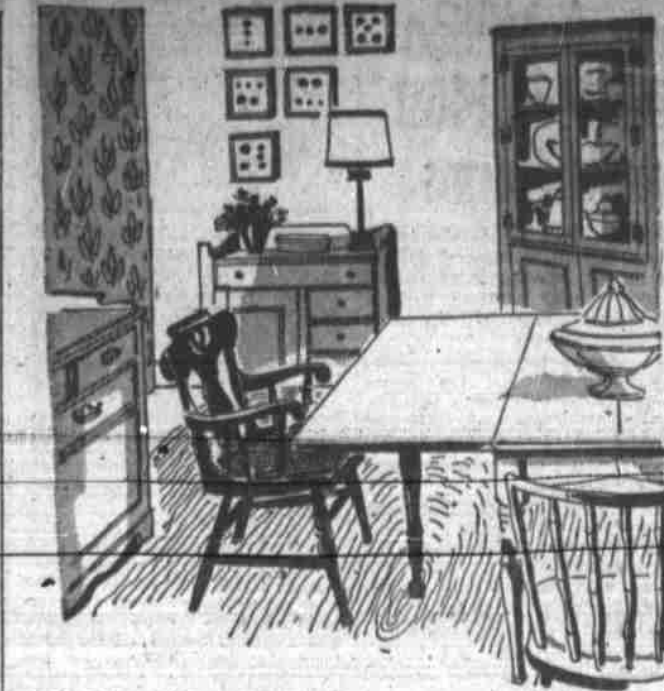

An informal family dinner was to mark the occasion of Mrs. L. S. Stockton's 91st birthday here today. Mr. and Mrs. J. S. Northington and Mr. and Mrs. J. Q. Kirby were to be with Mrs. Stockton at her home at 1260 Main. Mrs. Northington and Mrs. Kirby are daughters. None of the grandchildren will be able to be here for the occasion. Mrs. Stockton has been a resident of Big Spring for almost half a century, having come here in 1903.

Casserole Quickie

Shape your favorite ground meat mixture into patties, then brown them on both sides in a little added fat. Place patties in a baking dish and spread lightly with mustard. Top each patty with an onion slice and a thin cheese slice. Pour tomato soup over all and bake for 25 to 30 minutes in a moderate oven.

DESIGNING WOMAN Dining Table Need Not Monopolize Floor Space

By ELIZABETH HILLIER The time-honored way to arrange a dining room is to stake out the table in the middle of the floor, draw a few chairs up to it and line up the rest of the furniture against the walls. This was the best plan when both families and dining rooms were large, but now that fewer people sit down to meals together and dining rooms are smaller, a centered dining table needs to monopolize the floor. Pamela Stalon, in this room design for the new Maryland Maple, uses a large table so many can be served on special occasions but makes sure the table doesn't gobble up floor space at any other time. With both leaves down, the table nestles against the wall. One leaf pulls up easily at mealtimes to serve three. Although the room is narrow, three pieces of storage furniture do not crowd it. Note the unusual ideas that give style to the room—the arrangement of framed medallions with the lamp, the black wire chandelier, the use of two chair designs in light and dark woods. The black chair is an adaptation of a famous antique design of the Cumberland Valley. (Murph Thorpe knows paint. Adv.)

Junior High Names Student Council Officers Wednesday

Students of Big Spring Junior High School met Wednesday morning to elect new officers for the student council. The officers were chosen from the officials of the seventh, eighth and ninth grades. They include Eunice Freeman, president; Nugent Reid, vice president; Nancy King, secretary; Nancy Smith, treasurer; and Glenna Coffey, reporter. Faculty sponsors of the group include Mrs. James, Avon Wilcke and Lynn Porter.

AF Won't Act Arbitrarily In Taking Airports

FORT WORTH, April 3 (AP)—Gen. Hoyt Vandenberg, Air Force chief of staff, was declared today to have ruled out arbitrary action by the Air Force against operators of the airport it would like to take over.

R. B. (Pop) Gregg, manager of the Ontario, Calif., airport, said Vandenberg gave this assurance in a letter to Rep. Sheppard (D-Calif.).

Gregg told the American Association of Airport Executives, at its convention here, that Vandenberg wrote Sheppard that the Air Force will treat the airports fairly, and that each airport acquisition case will be taken up individually.

The airport managers adopted a resolution asking that the Air Force be required to channel its expenditures on civil airports through the Civil Aeronautics Administration (CAA).

They said this would assure that the military improvements would be in line with—rather than in conflict with—the community's CAA-approved master plan for airport development.

The convention also asked that CAA and the Civil Aeronautics Board (CAB) be withdrawn from the Commerce Department, of which they have been a part since 1946.

The two agencies should be under an independent authority, as they were initially, in order not to compete with railroad and other transportation interests for a share of the Commerce Department appropriations, the airport men said.

LEGAL BASIS FOR THREAT NOT CLEAR Seizure Faces Steel Industry If Strike Comes Off Tuesday

By NORMAN WALKER
WASHINGTON, April 3 (AP)—The Truman administration held over the steel industry today a threat of government seizure unless a strike due next Tuesday is averted.

The effect of the seizure threat—whether or not it is carried out—was to increase pressure on the industry to grant government-suggested wage boosts to Philip Murray's CIO United Steelworkers.

About 700,000 of the union's one million members are ready for a walkout in the basic steel industry at midnight April 4. The other workers, mainly in steel fabricating plants, are ineligible to strike at the moment.

Steelmakers have said they cannot afford to give Murray the 17 1/2-cent hourly pay boost, plus union shop and other benefits, without getting government permission to raise prices. The government apparently was standing firm against increase in prices, contending it would cause more inflation.

The seizure threat brought a heated reaction from Congress. Sen. Taft (R-Ohio) said it would be "very high-handed and arbitrary" and, to his mind, illegal. Sen. George (D-Ga) and Sen. Maybank (D-SC) also doubted legal authority for taking over the industry.

Even government lawyers, instructed by John R. Steelman, acting defense mobilization boss, to "consider all eventualities," seemed none too sure of the legal basis for seizure.

Chairman Murray (D-Mont) ordered the Senate Labor Committee staff to draft legislation spelling out seizure powers in more detail, including authority for the government to keep part of a seized industry's profits and to pay out wage boosts.

It was known that the steel industry long has feared government operation of its facilities, as has come about in so many foreign countries. Steel firms reportedly instructed their lawyers to be ready to fight any government move in that direction.

Long-delayed company-union negotiations again were scheduled to start in New York today but there was no indication of a break from either side. Murray, in New York for the negotiations, declined comment on the seizure talk.

Henry J. Kaiser announced last night that he had reached an agreement with the steelworkers based on the government's wage increase proposals covering more than 5,000 workers at Kaiser's

Fontana plant in Southern California. This was the union's biggest settlement so far, but Kaiser's is a relatively small producer.

Kaiser said he had given in to keep steel production going "during the crucial defense period" and was relying on the government to "grant the necessary and equitable steel price adjustment" later.

Price Stabilizer Ellis Arnall, meanwhile, had new price talks arranged with Presidents Benjamin Fairless of U.S. Steel Corp. and Ben Morell of Jones & Laughlin Steel.

Arnall said however he had no intention of giving the steel industry the kind of off-setting price boost it wanted, adding: "I don't see any ray of hope in this thing."

NEW YORK, April 3 (AP)—CIO President Philip Murray entered negotiations with the steel industry today, still demanding that the recommendations of the Wage Stabilization Board be granted in full.

The WSB recommended a 17 1/2-cent-an-hour wage increase and other benefits for the 700,000 members of the CIO United Steelworkers.

The union has threatened a strike April 4 unless the industry accepts the WSB findings.

The negotiations today were to have begun last Monday but were delayed while the industry attempted unsuccessfully in Washington to obtain a steel price increase to balance its estimated increased labor costs.

Two Fliers Die In B-29 Crash; 12 Land Safely

VERMILLION, Kas., April 3 (AP)—Two fliers were killed in the crash of a B-29 today, but 12 other members of the crew parachuted to safety.

The body of an Air Force colonel was found near the wreckage 11 miles from the northeast Kansas town. Later searchers found the body of a corporal whose parachute did not open.

The plane crashed in a pasture and killed six cattle. Searching parties picked up men who had parachuted.

HUBBY KNOWS WHERE TO GO

SAN ANTONIO, April 3 (AP)—He knew where he should go after striking his wife over the head with a bottle, this man.

The man's wife called police after her mate walloped her, and officers Henry Layton and Antonio Montalbo Jr., answered the call.

By the time they arrived, the husband disappeared. They found him—hiding in the dog house.

Hubby was carted off to jail.

Railroads Can Add To Interstate Bills In Carrying Freight

AUSTIN, April 3 (AP)—A Railroad Commission order authorizing railroads to add six per cent to interstate freight bills in Texas was sustained in 53rd District Court yesterday.

Judge J. Harris Gardner denied Texas Industrial Traffic League's application for an injunction against the order, which went into effect March 15.

18 Texas Counties On Quarantine List For Pink Bollworms

AP Special Washington Service
WASHINGTON, April 3 (AP)—Two Oklahoma and 18 Texas counties have been added by the Agriculture Department to an area under Pink Bollworm quarantine.

The department announced the quarantine movement of cottonseed and other bollworm host materials from infected areas.

The Oklahoma counties are Grady and McClain. The Texas counties are Brazos, Burleson, Cooke, Dallas, Freestone, Galveston, Grimes, Harris, Hunt, Leon, Montague, Navarro, Robertson, Tarrant, Waller, Washington, Wise, and Wood.

Argentina VP Dies After Long Illness

BUENOS AIRES, April 3 (AP)—Argentina's vice president, J. Hortensio Quijano, died today after a long illness. He was 67.

ABOUT ITALIAN SPIES Says Italy Wants To Quiz 2 Ex-GIs

BUFFALO, N. Y., April 3 (AP)—A Pittsburgh attorney says the real reason Italy wants to extradite two former U. S. servicemen is to quiz them about the Italians who helped them spy on Italy during World War II.

Italy is trying to extradite Carl

G. Lo Dolce of Rochester and Aldo Icardi of Pittsburgh to try them for the alleged war-time slaying of an American major.

A move to have the extradition charge against Lo Dolce dismissed was denied in Federal Court here yesterday.

Icardi's attorney, Ruggero J. Aldisert, here as an observer, said that, in his opinion:

"The reason for the Italian government's persistence in this case is not to find a solution to the alleged crime eight years ago.

"Icardi and Lo Dolce were members of a military mission that developed into a military intelligence operation employing the services of 100 to 150 Italian citizens as spies.

"The government of Italy figures that if those partisans spied once against Italy, they will spy again. Italy wants Lo Dolce and Icardi back to find out who spied against Italy during World War II."

Lo Dolce and Icardi, 31, are wanted by Italy for trial on charges of killing Maj. William V. Holohan behind German lines in Italy in 1944, while the trio was on an Office of Strategic Services (OSS) mission. Lo Dolce was a sergeant; Icardi was a lieutenant.

Tickets On Sale For 'Opry' Show

Tickets have gone on sale at the Record Shop for a show to be given by some of the Grand Ole Opry stars here this week end.

The show is set for 2:30 p.m. Sunday at the City Auditorium under the sponsorship of the VFW Auxiliary and for the benefit of its general relief fund, crippled children and veteran's hospital activities.

Top billing goes to Johnny Wright and Jack Anglin, one of the favorite folk music duets on the contemporary scene today. Also on the show are Cousin Nimrod, Shot Jackson, Paul Warren, Lester Wilburn and Leon Payne.

Legion Slates Meet

Representation to the district convention will be named at 8 p.m. today at the American Legion meeting in the Settles hotel. Jack Pearson, commander, urged a large attendance of the membership. The convention is this weekend in Snyder.

CARD OF THANKS

We wish to express our appreciation for the many acts of kindness and expressions of sympathy extended by our friends and neighbors during the illness and loss of our husband and father.

Mr. and Mrs. B. G. Bredthauer and Family
Miss Francis Butrum
Mr. and Mrs. Ed Stevens and Family.

CARD OF THANKS

We wish to take this means to thank our many friends of Garden City for the sympathy and kindness shown us in our hour of sorrow. May God's richest blessings be with you one and all.

Mrs. Pearl Ramey and Children.

Lodge Thinks Ike Can Be Picked On The First Ballot

PARIS, April 3 (AP)—Sen. Henry Cabot Lodge, Jr. chairman of the Eisenhower-for-President movement, arrived today by plane from New York. He said "it is possible, in my judgment, that Eisenhower can be nominated on the first ballot" at the Republican nominating convention in Chicago in July.

Lodge said the next big primary test will be in New Jersey, April 15, and "We are sure of a victory there which will prove what I've said all along, that Eisenhower is the man the American people want for their next President."

Lodge is to visit Gen. Eisenhower at SHAPE headquarters.

Garner's Estate Given To Uvalde

UVALDE, April 2 (AP)—John Nance Garner has donated his Uvalde estate to the city in memory of his wife, Ettie, who died in 1948.

The Uvalde city commission accepted the two-story brick home and the oak tree grove surrounding it last night.

The former vice president gave the place to be used "As a library or museum or any way the city wants."

The property, covering an area about the size of six city blocks, is noted for its beautiful oak tree grove in an area that is famous for big oak and pecan trees.

Garner will move to another house he owns.

Queen Mother Can Live At Buckingham Palace With Children

LONDON (AP)—Britain's Queen Mother Elizabeth II upset another royal custom today with her decision. Widowed queens, ways before have moved into other quarters after the new sovereign took the throne and the palace.

A Bible Thought For Today—

Thousand of years ago wise men knew that material triumphs and advancements did not yield complete satisfaction.—"All is vanity and vexation of spirit."—Ecc. 1:14.

Old Joe Usually Wants To Talk So He Can Churn Up Propaganda

In Fort Worth a writer who says he has been behind the Iron Curtain five times told a church group that the underground members in Eastern Europe expect Russia to strike after the grain harvest this fall. "They think Stalin can't go on leaving Tito alone," said George B. Dewey. Also in Fort Worth 4-star General Benjamin W. Chidlaw, chief of the Air Defense Command, told reporters that as things stand at this moment, seven out of ten bombers sent against the U.S. by an enemy would get through our air defenses. But he added, we might not be able to knock down three out of ten under adverse conditions.

Myth That Big Oil Companies Are Behind Tideland Move Refuted

The myth that the "big oil companies" are behind the move to give the states clear title to the tidelands has been exploded. The clear logic of the situation was enough to dispel this notion, for it was the federal government which had made the grab, not the states. Then, the knowledge of what happened in the instance of the Teapot Dome case plus the commonsense realization that when the package is bigger the stakes may well be higher would make it appear that if any companies had ulterior motives, it would be in favor of federal ownership.

Notes On A Cruise

America Must Assume Some Of Blame For Middle East Failures

By HOUSTON HARTE AT SEA—As you turn west from the eastern end of the Mediterranean and the Suez you come away with many questions unanswered and the feeling that well-intended as have been our desires, we must assume some part of the blame for the failures which now exist in the Middle East. Of the many sore spots in the world the area from Turkey to and including Egypt is one of the most critical. Here lie the great oil fields of the Arab nations and the vital Suez Canal. The loss of either would be an incalculable blow to the Free World.

"Oh, Brother! What A Job We're Gonna Have Next Year"

World Today—James Marlow

President Has To Make The Put-Out In Morris-To-McGrath-To-Harry Play

WASHINGTON, April 3 (AP)—The old Tinker-to-Evers-to-Chance routine was like a soft-ball game compared with the Morris-to-McGrath-to-Truman double-play in which the President has to make the put-out. Newbold Morris and J. Howard McGrath—the President's two top investigators whose own conduct has been investigated by Congress—haven't much in common except years in politics and an ability to get into jams.

Notebook—Hal Boyle

Bankers, Like Convicts, Are Yearning To Be Liked

NEW YORK, April 3 (AP)—There have been times in America when the banker was regarded as an ogre in a starched collar, a Simon Legree of finance. During periods of depression farmers sometimes used to keep a pitchfork sharpened, just in case the banker showed up to foreclose. But bankers, as do convicts and baseball umpires, yearn to be liked. And lately they've been doing all sorts of things to make a bank more money — from putting in soft music to providing nursery service while mama deposits papa's paycheck.

The Thrill That Comes Once in a Lifetime

Around The Rim—The Herald Staff Everybody Opines About Harry; We Consider His Service, Too

Now is the time for everyone and his brother to say what they have to say about Harry Truman's revelation he ain't a gonna run again. Funny thing, though, these people all say Harry will tell how Harry stacks up with his predecessors, but then they delve into Harry's tenure and come up with a few conclusions. So, why shouldn't we do likewise? Harry is due to be accorded a distinct place all of his own in American history, and not just as a piano-playing President who trotted away at a critic who didn't like daughter Margaret's voice.

Merry-Go-Round—Drew Pearson

Wilson Resignation Shows HST Policies Won't Undergo Change

WASHINGTON.—Politicians are wondering whether President Truman's determination not to run again will change any of his policies. The answer is best illustrated by Defense Mobilizer Charles E. Wilson's resignation — namely, "it won't." Truman knew when he had his final argument with Wilson that he had no further need to seek labor votes or kick big business in the teeth. Nevertheless, he battled for the steelworkers' wage increase just as he had during seven previous years in the White House.

Uncle Ray's Corner

Studied Birds To Get Secrets

Leonardo failed to make a self-moving wagon, and one might hardly have expected any other result. Nothing was known in his time about gasoline engines or electric motors. Even the steam engine was far in the future. The interesting thing is that a man had the idea for what we might call an automobile or truck four and a half centuries ago. We are told that he used springs and gears for setting the wheels of a wagon in motion. It is doubtful that he could have made a wagon move 10 feet in that way, but some say that he gave the world the principle of the "differential gear."

This Day In Texas

By CURTIS BISHOP

The Oil Investor's Journal on this day in 1906 reported progress of promoters in persuading industrial concerns to switch from coal to petroleum. The promoters had started an all-out campaign to sell their product after the Spindletop discovery almost swamped the Texas coast in oil. "Oil drummers" preached the doctrine that fuel oil was more economical than coal. One experimenter demonstrated that even at fifty cents a barrel, petroleum was still cheaper as fuel than coal—and that at a time when oil at ten cents a barrel found few takers.

San Angelo Hotel Man Is Held For Murder

SAN ANGELO, April 3 (AP)—A San Angelo hotel operator, Charlie Clark, 42, was held in the Tom Green County jail here today on a charge of murder in the March 26 shooting of Mrs. Charles Davis, his ex-wife. Clark was ordered held without bond.

Fast-Moving Object Is Seen Over Texas Sky

Residents of at least six Texas cities last night watched a fiery, fast-moving object with a flaming tail flash across the sky.

At Fort Worth, Houston, Wichita Falls, Longview, Dallas, Olney and Graham residents wondered if what they saw would start another flurry of "flying saucer" reports in the state.

The mysterious object was seen by Fort Worth residents about 8:40 p. m. travelling south to north on what appeared to be a flat trajectory.

An amateur astronomer at Graham, E. B. Street, saw it and said he didn't think it was a meteor. But Fort Worth astronomer Oscar Monning—who didn't see it—said, "I can't help but think it was a meteor."

At Olney, Bill Easley saw the object flash from southwest to northeast and described it as a "reddish streak." An unidentified Wichita Falls man reported the object as "trailing a bluish light."

If it were the same object Houston residents saw, the "thing" was travelling at almost unbelievable speed, or at a tremendous altitude. Houstonians saw it about 8:40, too.

Some persons at Houston thought it was a jet plane, others thought it was a meteor, and still others thought they saw the object fall to earth.

John Allen of Radio Station KFRO, Longview, said 15 persons telephoned in before 7 p. m. to report seeing a red, round object shooting across the skies at tremendous speed. It was moving eastward, they said. It trailed vapor, but no sound was heard. It was sighted about sundown.

Len Johnson of Radio Station KWKC, Abilene, said a Pioneer Airlines pilot reported seeing the object about 8:45 p. m., moving an estimated 800 miles per hour. The pilot, on a flight from Lubbock to Abilene and whose name wasn't learned, said he didn't believe it was a meteor or a jet plane, but "some type of rocket."

Can U.S. Seize Steel Industry?

WASHINGTON (AP)—Has the government legal power to seize the steel industry? And if so, could it then raise workers' wages?

Those two questions were being hotly debated in Washington today. Some congressmen, including Sen. Taft (R-Ohio), doubted government seizure authority. Administration lawyers were poring over their lawbooks.

Several statutes, including the Selective Service Act, allow government seizure to assure government defense order deliveries under certain circumstances, but whether they fit the steel case apparently was one for the courts to decide.

During World War II the government seized plants and industries to compel wage increases under the Smith-Connally Law, but that now is repealed.

"Zapata" Principals

Marion Bradno and Jean Peters are the principal players in an outstanding new picture, "Viva Zapata!" which is starting a three-day run at the Ritz Theatre today. The picture is a slice of important historical drama from Mexico, dealing with the career of Emiliano Zapata, the great Mexican revolutionary.

THAT'S ONLY ONE SIDE

Taft And Kefauver Pals Claim Victory

By MARVIN L. ARROWSMITH
WASHINGTON (AP)—Elated friends of Sen. Taft and Sen. Kefauver talked of them today as victory-bound candidates in the presidential nomination races, but opposition camps sounded counterclaims.

Seekers of Taft of Ohio for top place on the Republican ticket and supporters of Kefauver of Tennessee for the Democratic nomination based their optimism on the outcome of Tuesday's primaries in Nebraska and Wisconsin.

"Taft's success in both contests represents a definite upsurge of strength and puts him, I believe, on the way to victory," said Sen. Schoepel (R-Kan.).

Sen. Morse (R-Ore.) said Nebraska and Wisconsin amounted to "gains for Taft," but added he has "no doubt" the GOP nomination will go to Gen. Dwight D. Eisenhower.

Rep. Priest (D-Tenn.) called Kefauver's victories in the two primaries "proof that the rank and file of the Democrats are going to insist that he be nominated."

On the other hand, Sen. Maybank (D-SC) contended that Sen. Russell of Georgia "has the edge at this point" for the nod on the Democratic ticket. Maybank said Russell has "the Solid South sewed up and he is going to have enough Northern delegates to make it a race."

Russell himself said President Truman's decision not to seek reelection means he has as good a chance as any other candidate for the top nomination. Russell told radio-television interviewers last night he would accept the vice-presidential nomination only under "very unusual circumstances."

In the Wisconsin primary, Taft won 24 of the 39 Republican delegates. Kefauver was a Wisconsin absentee, polling about 85 per cent of the popular vote on the Democratic ticket and winning all 28 convention delegates.

In Nebraska, Kefauver ran more

than 15,000 votes ahead of Sen. Kerr of Oklahoma.

Taft backers regarded his Nebraska victory as particularly significant in view of his defeat by the general in the March 11 New Hampshire primary, and Eisenhower's amazing write-in sweep over Taft in the March 18 Minnesota contest.

But Sen. Lodge (R-Mass.) said the results in Nebraska and Wisconsin were "not setbacks for Eisenhower at all." Lodge, national campaign manager of the Eisenhower-for-President group, called it noteworthy that Taft "only polled two-fifths of the entire vote" in Wisconsin with the support of the state GOP organization.

Lodge flew to Paris last night to talk politics with Eisenhower. The senator said he had no intention of trying to prod the general into an early return to this country to campaign for the nomination.

Eisenhower sent word yesterday to home town friends in Abilene, Kan., that it is his "profound" hope to return by early June.

Judge Says Frank 'Talked Too Much' At Senate Probe

NEW YORK (AP)—A federal judge says part of gambler Frank Costello's trouble stems from the fact that he "talked too much" before the Senate Crime Committee.

Judge Sylvester Ryan yesterday dismissed one count in the indictment against Costello, on trial on charges of contempt of the Senate. The judge said he also would have thrown out three other counts in the 11-count indictment if Costello had "kept his mouth shut and claimed constitutional privilege" against self-incrimination when asked about his net worth and debts. Costello answered many questions, but balked at others.

NEWSPAPER OPINION

Taft Victory Is Expected In Illinois; Ike Write-Ins Seen

(Editors Note: Illinois takes the political spotlight next week with a primary election April 3. To see how sentiment is running, The Associated Press called on correspondents throughout the state for estimates reported in the survey below.)

By WILLIAM J. CONWAY
CHICAGO (AP)—Sen. Taft will win the Illinois Republican Presidential preference primary in the collective opinion of Illinois newspapers and correspondents surveyed by The Associated Press.

Gen. Eisenhower, in their composite opinion, will draw a sizable write-in vote. His name is not on the ballot.

The downstate correspondents and political writers on Chicago newspapers submitted estimates on the vote each believed will be cast for the candidates in his district next Tuesday.

The survey reached into all sections of Illinois. Opinions expressed in figures were received for 58 of the 101 downstate counties for Taft, Harold E. Stassen and Riley A. Bender; and for 55 counties for Eisenhower and Gen. MacArthur. These downstate figures today added up to:

Taft, 64.3 per cent; Eisenhower, 18.3 per cent; Stassen 11.8 per cent; MacArthur, 3.2 per cent; Bender, 1.7 per cent.

Political writers on the four largest Chicago newspapers were asked to offer their calculations on Cook County (Chicago). Writers for three of them responded. The average of their Cook County figures for each candidate was:

Taft, 70.3 per cent; Eisenhower, 12.3 per cent; Stassen, 9.6 per

cent; Bender, 3 per cent; MacArthur, 2.6 per cent.

Only Taft, Stassen and Bender, a Chicago hotel man, are on the ballot. Votes for Eisenhower, MacArthur or any others will have to be write-ins.

Write-ins are permitted in Illinois. Voters raise a slot and write in a name on a voting machine in Cook County and Rock Island County. They can write in a name on a paper ballot in the other counties. But they have to draw a

Sutton Accomplish Expects Leniency From Judge Today

NEW YORK (AP)—John De Venuta, who helped convict Willie Sutton and Thomas King in the \$64,000 Queens bank robbery trial, expects leniency today in connection with the same crime.

An admitted accomplice in the 1950 holdup of the Manufacturers Trust Company branch, the 37-year-old De Venuta enters his formal plea of guilty today before Queens County Judge Peter T. Farrell on the same four-count indictment drawn against Sutton and King.

Queens County Dist. Atty. T. Vincent Quinn has made it plain that De Venuta's sentence will be minor compared to the terms Sutton and King can expect.

square to the left and put a cross in the square.

This takes time and trouble—and adds to the difficulty of making forecasts of results.

The preference primary is a popularity contest. The '50 convention delegates who will be elected are not compelled to abide by the results.

Taft has the support of the Illi-

Local Vocational Aides To Houston For State Meeting

Two teachers and two district supervisors from Big Spring will be in Houston April 3-5 for the state vocational meeting to be held at the Shamrock Hotel.

They are Nelson Slayter, distributive education supervisor; Florence McAlister, homemaking supervisor; Ruby Powers, DE coordinator; and Joe B. Neely, trades and industry co-ordinator, both from Big Spring High School.

Dr. M. D. Mobley, executive secretary of the American Vocational Association, will be the featured speaker. Dr. J. W. Edgar, state commissioner of education, will be in attendance.

Also on the program are sectional meetings, banquets and lectures by other prominent educators.

nois Republican organization. Thirty Taft delegates will be elected automatically. They have no opposition in their districts.

There are 90 Republican delegate candidates. Taft managers claim 67, and Eisenhower supporters 10.

Two are for Sen. Dirksen (Ill) and one is for MacArthur. The other 38 are undecided or unannounced.

Sen. Kefauver is alone on the Democratic presidential preference ballot and no survey of Democratic prospects was made.

END OF TRIP—Driver of this vehicle found the curve at Cherveux, France, kept curving after he straightened the wheel. Result was loss of one tooth and free advice from bystanders.

A PLAGUE DESCENDS—Swarms of locusts fill air over the Arabian-American quarters in Dhahran during one of the worst scourges in modern Saudi Arabia's history. Oil company employees beat noisemakers and move around to drive away insects.

BUTTONED UP—Garbed in their pearl-buttoned clothes, Bert and Rebecca Matthews, king and queen of Cockney Pearlies, arrive in New York for British good-will bus tour of U. S.

GETS 'HAM' LICENSE—Carol Millett, 12, St. Cloud, Minn., grammar school pupil, sits at short-wave set on which she was coached by father, to pass FCC test for novice license.

AFTER THE FALL—Parachute which completed its mission of landing bridge equipment during engineer maneuvers in Germany, is problem for GI's as they seek to free it from tree.

NEW MINISTER—Field Marshal Viscount Alexander of Tunis, 61-year-old World War II military leader, takes over duties in London as Britain's Minister of Defense.

'YOU THINK IT'S REAL?'—Deborah Bamister, Arlington, Va., tries to make an Idlewild, N. Y., airport attendant understand her pet is a toy as she arrives for flight to London.

ANNIVERSARY BROADCAST—Marian and Jim Jordan—Flibber McGee and Molly—make a nation-wide broadcast from a Hollywood street to mark their 20 years on NBC.

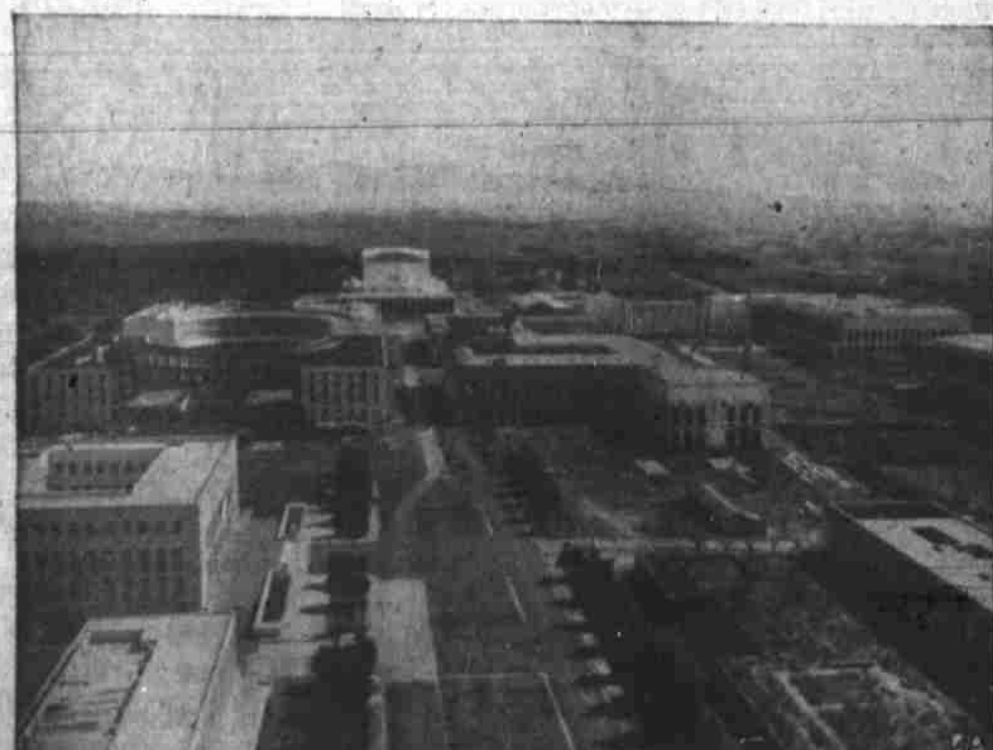

TAKING THE AIR—A young Berliner and her cocker spaniel, both protected with sunglasses, enjoy first day of Spring as they relax at a Kurfuerstendamm outdoor cafe.

PROBLEM FOR NEIGHBORS—Paula Hassell must have a way with alligators for she has had these four-foot-long, 50-pound saurians as pets in her Chicago home for 12 years.

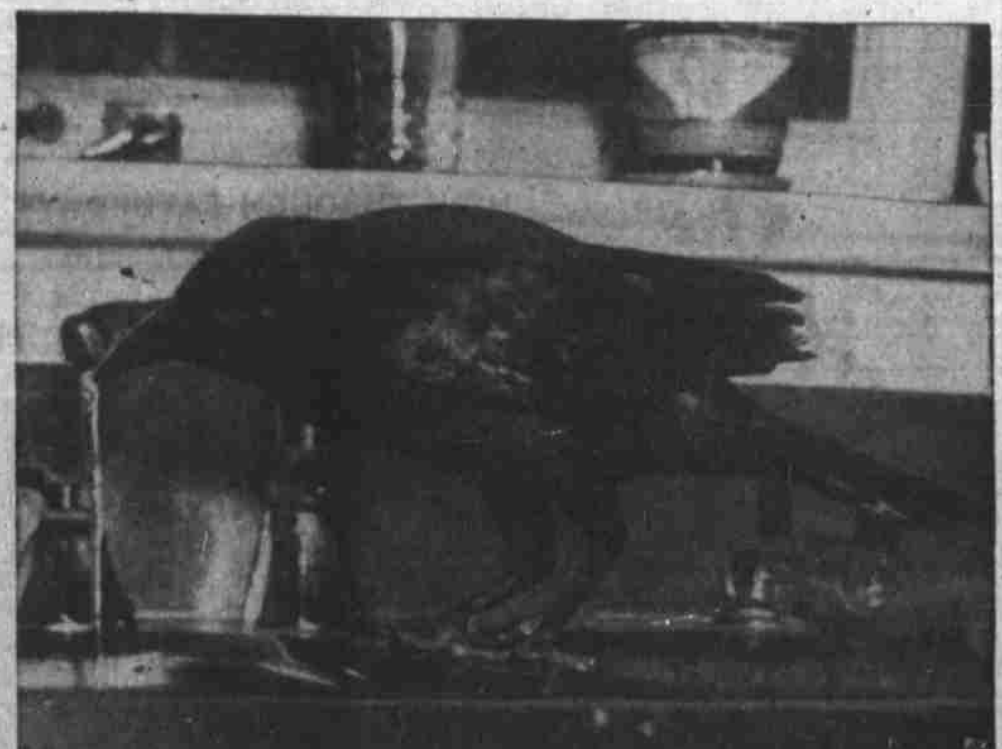

PILLS FOR PULLETS—Dr. D. E. Davis' Chicken Pharmacy in Petaluma, Cal., is an important place for the town, known for its production of eggs, depends on him for healthy fowl.

FAIR PROJECT RESUMES—After a start in 1937, the war and its aftermath, work again is resumed on these buildings to house an international exposition in Rome, Italy.

TAKING NO CHANCES—Susie, 8-year-old chimp, despite assurance of trainer Beatrice Danie, takes all precautions as they prepare to sail from San Francisco for the Orient.

HELPING ITSELF—Jerabel, a year-old crow, is such a house-broken pet that it has no difficulty getting a drink at kitchen tap in home of Mrs. Esther Kellum, Ventnor, N. J.

AREA OIL

Southeast Dawson Wildcat Has Substantial Oil Flow On Test

Seaboard Oil of Delaware No. 1 L. I. Dean, southeastern Dawson wildcat half a mile south of Midway, recovered a substantial volume of oil on a drillstem test below 6,700.

Another wildcat test by the operator three miles northwest of La Mesa was taking a drillstem test in a sandy lime which had some oil shows.

In southeastern Borden County, Shell No. 6 Sterling, a north outcrop to the southeast extension of the Von Roeder pool, flowed at the rate of 27 barrels per hour.

A Nolan County venture had gas after topping the reef. Lynn County got a 11,900 wildcat four miles west of Tahoka.

Phillips No. 2 McDowell, C NE NE 31-34-2a, T&P, was preparing to run tubing to test.

Ohio No. 1 Moeller, C SE SE 10-37-5a, T&P, drilled past 5,333 in shale.

Magnolia No. 1 Bryans, C SE NW 35-4a, T&P, swabbed seven barrels of muddy oil, one barrel of salt water in five hours.

Union Oil of California No. 11 R. V. Powell, et al will be a Tex Harvey location 1,982 from south and 1,980 from east lines section 1-37-3n, T&P, rotary 7,500.

DeKalb No. 1 Knox, C NW NE 25-34-5n, T&P, drilled to 6,735 in shale and sand.

Atlantic Refining No. 1-13 Driver, 1,980 from north and east lines section 13-37-4n, T&P, flowed 24 hours through 24-64 choke after 6,780 gallons fracture.

Mid-Continent Petroleum Corp. No. 8-T TXL, 660 from south and west lines of northwest quarter section 31-37-3n, T&P, will be another Tex Harvey location, projected to 8,000.

Seaboard No. 1 Turner May was bottomed at 6,420. It took a drillstem test from 6,280-6,420 through a 1/2 choke for two hours.

Humble No. 1 Dayvault, C NE NE 15-13, H&TC, was past 1,475 in shale.

Humble No. 1 Foster, C NW NW 4-31-4a, T&P, progressed to 1,860 in anhydrite.

Phillips No. 1-Brennan, C SW SW 7-8-M, EL&RR, drilled past 6,670 in lime and shale.

Phillips No. 1 Berry, C NW NW 35-36-2a, T&P, ran mill to mill on

Four Persons Die In Fast Spreading Chicago Blaze

CHICAGO (AP)—Four persons, including a baby-sitting grandmother and her grandson, perished in a fast-spreading fire which destroyed a 12-flat, four-story apartment building last night.

Eight other persons, including six firemen, were injured. About 30 persons fled or were carried by firemen from the structure. The building is at the busy intersection of Milwaukee and North Avenues at 1547-49 Milwaukee Ave.

Fire officials said the blaze, of undetermined origin, apparently started in the basement. It spread upward and to the rear porches on which were oil storage tanks. The intense heat exploded the tanks, which contained fuel for oil burners used to heat the 12 flats.

Fire officials estimated damage at \$50,000.

All of the victims were trapped by the flames which engulfed the rear apartments of the building. They included Mrs. Mary Loucks, 54, her grandson, Kevin Kelly Nichols, 9 months; Miss Bonnie Laska, 35, and Leonard Presley, 50, Kevin's brother, Casey, 3, was hospitalized.

PROBLEM NEAR A HEAD

House Acts Warily Over Vatican Issue

WASHINGTON (AP)—House members moved warily today toward a showdown on the question of United States diplomatic representation at Vatican City.

The issue comes to a head in a \$1,069,062,539 appropriation bill financing the State, Justice and Commerce Departments for the 12 months starting July 1.

In the bill is a ban against use of State Department funds to finance a diplomatic mission to the Pope's headquarters unless the first head of that mission is confirmed by the Senate. The Senate last year adjourned without acting on President Truman's last-minute nomination of Gen. Mark Clark to be ambassador to the Vatican. The nomination was withdrawn at Clark's request.

Rep. Rooney (D-NY) has announced he will try to knock out the new bill's provision, which another Democrat, Rep. O'Toole of New York, has called "a shameful subterfuge."

Rep. Preston (D-Ga), sponsor of the provision which the Appropriations Committee approved, 19-17, last week, is ready to defend it. Preston told newsmen it is not aimed at the Catholic Church and would not prevent the President from sending a personal representative to the Pope, as President Roosevelt did.

High Court Decision Can Change Maryland Plan For Write-Ins

BALTIMORE (AP)—Unless the highest court in the state says no, Maryland voters will be permitted a "write-in" ballot in the May 5 primary election.

Circuit Judge Emory H. Niles yesterday granted an order compelling election supervisors to provide space for voters to write in names on the ballots.

Construction Due Shutdown Because Of Engineer Strike

BEAUMONT, April 3 (AP)—A strike of operating engineers was expected to shut down millions of dollars worth of construction today in Jefferson and Orange Counties.

Operating Engineers Union Local 450 (AFL) voted last night to strike after rejecting a wage offer from contractors. Union Business Agent A. J. Flowers said the strike vote carried by a "substantial majority."

Although about 400 engineers will be on strike, some 4,000 other AFL craftsmen were expected to observe picket lines.

Union officials said pickets would be stationed at the Magnolia Refinery here, at the U. S. Rubber plant in Port Neches, Gulf Refinery in Port Arthur, and at the Sabine Steel Company in Port Arthur.

Two other construction projects to be struck include two Highway 90 bridge jobs, one across the Neches River here and another across the Sabine in Orange.

Pickets were also expected today or tomorrow at the Baptist Hospital nurses training home in Beaumont.

Operating engineers present wage scale ranges from \$2.37½ per hour for heavy equipment to \$1.50 per hour for first year apprentices.

Errol Flynn Buys Jamaican Hotel

KINGSTON, Jamaica (AP)—Now Errol Flynn, boniface.

The Hollywood actor, who won a face-slapping damage suit in British Nassau last week, bought the Titchfield Hotel at Port Antonio yesterday. The inn is one of this British-owned Caribbean island's oldest.

Flynn won \$14,000 in damages in the Nassau trial from Canadian millionaire Duncan McMartin. The price paid for the hotel was not announced.

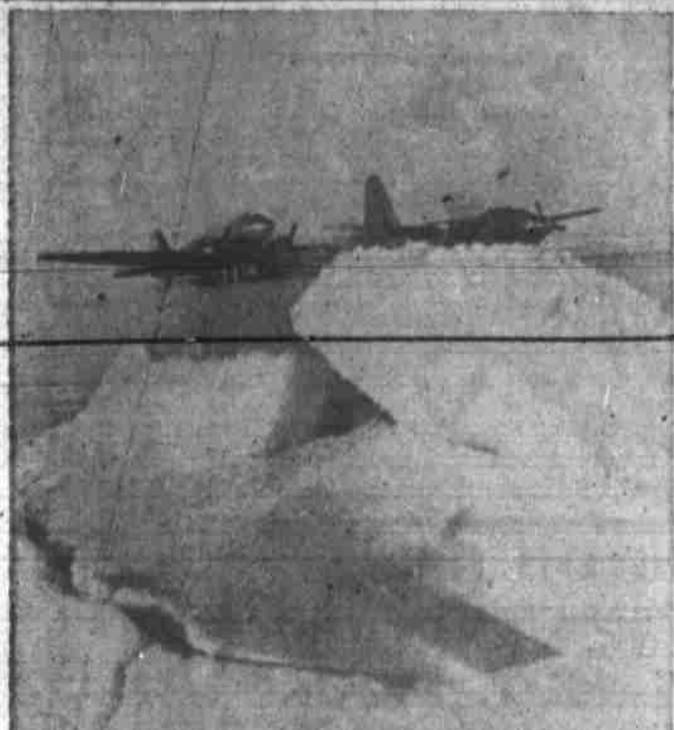

Three-Month Cost Of War Is \$5 Billion

WASHINGTON (AP)—War in Korea, the Defense Department figures, will cost this country a bit over five billion dollars during the next three months.

That's assuming the fighting continues at its current pace.

The department gave the House Appropriations Committee—studying the new budget—this breakdown on its estimated spending in Korea between March 28 and June 30:

Army \$4,376,087,000; Navy, \$375,000,000; Air Force, \$395,000,000.

Refueling On Polar Cap
Two Navy planes, part of Operation Ski Jump, are shown refueling on a ice floe near the North Pole. The plane at left, an R4D, was abandoned after its landing gear collapsed stranding its nine passengers March 27. The men and equipment were rescued March 31. Blocks of ice in the foreground are pressure ridges caused by buckling of ice field with wind and current. Operation Ski Jump is a scientific expedition studying oceanographic, meteorological and geographical conditions near the North Pole. (U. S. Navy Photo via AP Wirephoto).

Men In Service

Cpl. Cecil Rasberry will leave Big Spring around April 10 to return to his base in Anchorage, Alaska.

Serving as midshipman Lt. (jg) for the Spring semester at the U. S. Naval Academy, Annapolis, Md., is Richard C. Burns, son of Mrs. and Mrs. W. L. Burns of 1710 East 17th St.

He entered the Naval Academy in June, 1949, after graduating from Big Spring High School.

Selections to midshipman rank in the Brigade organization are based on relative class standing, in aptitude for the Naval service, leadership qualities, conduct and academics.

Legion Auxiliary Seeks Funds For A New Hospital

The American Legion Auxiliary of Texas is assisting in a statewide project to raise funds for equipment and furnishings for a nursing wing of the new M. D. Anderson Cancer Research Hospital being built in Houston.

Members of the Howard County unit hope to contribute \$1,000 toward the \$50,000 cost of the wing. In order to do this, the local chapter is staging a benefit ball in the Settles Hotel Ballroom April 24.

Mrs. Bert Wall, 102 Dixie, is in charge of the tickets which will cost \$5 per couple. Mail orders will be accepted.

Jack Free and his orchestra will play for the affair and all proceeds will go to the project.

The hospital, which should be completed by January, 1953, will accept any Texan regardless of race, color or creed and will give patients the benefit of all science known to fight cancer.

Treatment, however, is only one phase of the institution's work. Others include research, education, diagnosis and prevention.

The University of Texas Board of Regents is the governing body of the hospital. The new building is being erected with funds from state appropriations, private philanthropy and Federal aid.

If the Auxiliary raises enough funds to completely equip and furnish the nursing wing, the unit will be dedicated to veterans and their families.

THE GRUB LINE With Franklin Reynolds

Tools Mansfield of Big Spring heads the list of 17 calf ropers scheduled to participate, with four calves each, in the \$10,000 purse event at the Clovis Mounted Patrol Arena, Sunday, April 20th, at 8 o'clock.

Texas ropers listed for the show are Don McLaughlin of Smithfield; Doyle Riley of Ballinger; Lanham Riley of Fort Worth; John D. Holliman of Yazetta; Ray Wharton of Bandera; Bill Lowe of Crane; Buddy Groff of Bandera, and Rex Beck of Valera.

New Mexico cowboys who will try to take home the bacon are Troy Fort of Lovington; Jack Shaw of Ruidoso; Junior Vaughan of Elida; Roy Lewis of Las Vegas; Bill Brown of Tucumcari, and B. J. Pierce of Clovis.

Two others contesting will be Jess Goodspeed of Westupka, Oklahoma, and John Dalton of Federal, Wyoming.

The annual Cattle Festival at Clovis will be held October 19th to 25th, inclusive, and the annual steer roping event, the Lasso del Llano, will be held August 31st and September 1st.

Tools was the man who took the title and the cash in the first Lasso del Llano a few years ago. The Grub Line Rider was there that day, wrote the story of his winning for the Denver Post, and this story was later included in a collection published by Doubleday and Company in a book titled "Rocky Mountain Empire."

County Agent Durward Lewter, and Gene Cornelius, his assistant, are in Lubbock today attending an Agricultural Extension Service district conference called to discuss cotton insects and insecticides.

Howard County is now in the Extension District with headquarters in Lubbock and prospects for a cotton crop are much better elsewhere in the district than in this immediate area, since much of the cotton land in the northern part of the district is in irrigation areas.

Lewter has again called attention to the fact that the cattle lice infestation is extremely heavy this season, and he urges stockmen to make careful inspections of their cattle.

Lice are responsible for a surprising amount of damage, and this occurs largely through the irritation and general annoyance they cause the animal. Heavily infested animals are constantly rubbing because of the itching and frequently go off their feed as a result. Some lose hair in patches and even rub up chronic sores and bleeding spots. Heavy infestations materially reduce weight gains because of the lowered vitality of the animals.

The West Texas Weather Improvement District is now an established and going concern. Permanent officers have been elected: an initial quarterly payment of \$15,000 has been made to Dr. Irving P. Krick's Water Resources Development Corporation of Denver; the officers have been empowered to hire an office manager, and a dozen silver iodide generators, one of them here in Big Spring, have been located and are ready to grind out the mysterious nuclei.

L. A. Muldrow of Brownfield has been elected president; R. C. Anderson of Lamesa, vice president; Joe McDaniell of Loop, secretary and Doyle Hankins of Lamesa, treasurer.

Only one county reported at the last meeting that its share of the quarterly payment had not been raised, and that was Midland County.

Howard County's share of the total quota has not yet been

Asks Re-Election

Associate Justice Graham B. Smedley has announced that he will be a candidate for a second elective term on the Supreme Court of Texas. Justice Smedley, a recognized authority on water, oil and gas law, was advanced to the state's highest tribunal when, in 1945, it was increased to nine members. He had been serving on the court's Commission of Appeals.

CLEVER GUY, THIS THIEF

DALLAS, April 3. (AP)— Hoyt Langston admits that the pickpocket who took \$60 from him at the wrestling matches last night was a clever fellow.

Undetected, the pickpocket unbuttoned Langston's hip pocket, extracted the wallet, removed the money — and put the wallet in Langston's inside coat pocket.

Official Succumbs

DALLAS, April 3. (AP)— M. B. Hale 77, retired superintendent of production for Gulf Production Corporation and associated with development of some of the Texas oil fields, died yesterday.

UN May Be Used As 'School' By Soviet

By FRANCIS W. CARPENTER
UNITED NATIONS, N. Y. (AP)— Some officials high in the U.N. hierarchy are frankly worried that the Soviet Union is using the U.N. as a training ground to teach fledgling diplomats English and the ways of the Western world.

These officials point out the average work-span of the ordinary Russian on the Secretariat staff is about two years. Then he is recalled to Moscow just about the time he has learned English and is becoming partly useful in the U.N. administrative set-up.

The practice, they say, is for a Russian who has been here about two years to close his desk at the end of a week and disappear. The next news from him is his letter of resignation—after he already has started the long road back to Russia.

In a short while another Russian who cannot speak English and whose background is unknown to the U.N., arrives to work on the Secretariat. He is given a place where he fits and teach him English, and the process is repeated.

Other nationals remain at the U.N. much longer. Some have been here from the start. Some Russians have been here more than two years, but 24 months is the average.

There are 25 Russians on the payroll in the huge U.N. headquarters in New York and 13 in overseas offices, including a small information office in Moscow. That number remains fairly constant. The Russians send another man here when one resigns but have made no attempt to increase the total.

Each country is asked to furnish workers on the percentage it pays in U.N. dues. The United States, which pays the most, has the largest number on the rolls. The Russians are entitled to more than 25 but they never run over that figure.

Since the U.N. began operations in the United States in 1946, 38 Russians have come here, worked for a time, and returned home. The top man in that turnover was Arkady A. Sobolev, the first assistant secretary-general for Security Council affairs, who has since become ambassador to Poland. Sobolev at one time was senior to Soviet Delegate Andrei A. Gromyko.

Sobolev returned to Moscow in January, 1949, pleading illness in his family. Nothing was heard from him for a while. Finally his resignation arrived. He was replaced by Constantin Z. Zinchenko, a young Russian diplomat who was on V. M. Molotov's staff during World War II.

Zinchenko still holds the post, which is one of the few specifically reserved for the Russians to fill. If and when he is recalled to Moscow, the post is expected to remain vacant until the Russians send over another man.

Unique House Way Of Finding Out Knowledge

By WILLIAM G. SMOCK

PITTSBURGH, April 3. (AP)—Four hard-working students at Carnegie Institute of Technology are putting the finishing touches on a unique house they built themselves to see if they were learning their lessons.

Their trim redwood and brick home in Pittsburgh's northern suburbs is strictly an amateur job but the young builders have been offered \$50,000 and more for it.

The four senior architectural students drew the plans and did all the construction work except for the plumbing and radiant heating system. None had any previous construction experience except one boy who once helped build a garage.

They are Ralph Burt, Don Garrett, Alva Hill and Bill Cole. All are now finishing up Carnegie Tech's five-year architectural course.

Cole had the idea for the house more than a year ago but the boys didn't get a round to breaking ground until last June. The project gathered speed when the father of one agreed to foot the bills.

After the four proved they were serious, Carnegie Tech gave them time out from classes occasionally to work on the house with credit. At one time, the boys were freed from classes for two weeks.

"We just wanted to see if we could put into practice the things we had been learning in school for five years," explained Burt. "It's a good idea to see if a couple of us would be called back into military service so we really didn't get going for some time."

"We wanted to design the house to fit the land," said Garrett, "so we started by getting a topographical map. With that to work from we designed the house so that every entrance is at grade level."

The resulting three-bedroom house is on four levels but it is only 3 1/2 feet up to the bedrooms and only 4 feet down to the garage and storage room. The house has a few futuristic stunts but plenty of sound innovations.

Sudan Is Offered Self-Government

KHARTOUM, Sudan, April 3 (AP)—Britain today offered a measure of self-government—but under a Governor General with wide veto and control powers—to the million-square-mile Sudan which Egypt vigorously claims as hers.
Civil Secretary Sir James Robertson submitted a draft constitution to the legislative assembly. It called for an all-Sudanese cabinet and an all-Sudanese Parliament with a wholly-elected chamber of deputies and a Senate with 60 per cent of its members elected and the rest appointed by the Governor General.

Soviets Invited

CALCUTTA, April 3. (AP)—The Statesman reported from Kalimpong today that the Chinese Communists have invited Soviet Russian technicians to Tibet to establish factories and electrical projects, supervise roadbuilding and exploit the Himalayan kingdom's gold, copper, iron and coal deposits.

TEXAS BRANDS

T-O

By JOHN M. HENDRIX

T Bar O was started in Mason County prior to 1887 by an orphan boy, C. C. Soules. He accumulated quite a few cattle and eventually located them on a ranch southeast of Monahans in Ward County. The Bar ran from shoulder to hip and the O was as large as a cow's hip where it was placed would permit. The T was placed on the shoulder and ran from the withers to the foreknee. The remnants of the cattle were sold to J. D. Henderson of Odessa, Texas, about 1896.

Human Beings Will Be 'Made' From Test Tubes

By HOWARD W. BLAKESLEE

NEW YORK, (AP)—The day may be coming when human beings will be made to order with test tubes and women who are not their mothers.
This prediction was made today by Dr. Ralph W. Gerard, professor of physiology, University of Chicago, at a "Conference on the Future" held by executives of mutual fire and casualty insurance companies.

The new breeding method already is used on animals. Selected human parents, doing the same, would give their eggs and sperm to a scientific laboratory. There, conception would take place in a test tube. The fertilized egg would be planted in a foster mother and, according to the facts already discovered with animals, the child would truly inherit the qualities of its test tube parents.

The first human step already has been taken in artificial insemination. But Dr. Gerard predicted it would be a long time before we have many made-to-order humans. He said we may not want to because they will be monotonously alike. Or they may create castes, by transplantation, and new kidneys similarly. He said the secret of aging would be discovered and used for man's benefit.

Let That Man Work

There's no reason why mother should do everything when it comes to family entertaining. The man of the house should pitch in and help with the chores whether it is in routine cleaning, cooking, serving or after-party clean-up.

"SOVIET BEACHHEAD"

Red Power Among Labor Is Alarming To Guatemalans

By E. L. ALMEN

GUATEMALA, Guatemala, April 3. (AP)—Communist control on the labor movement and government complacency toward extreme leftists are alarming this country's democratic forces and their friends abroad.

Guatemala has been called a "full-fledged Soviet beachhead" in Central America by John McCone, Democratic leader in the U. S. House of Representatives.

This view is ridiculed by government leaders here, but there seems no doubt Guatemala's home-grown Communists have done an efficient job in a short time—with advice and funds from abroad.

They are not now and may never be strong enough to make this country, biggest of the Central American republics, a military base threatening the security of the United States. They do, however, constitute a growing irritation which could swell to serious proportions if permitted to spread southward toward the Panama Canal.

At present they control all labor unions and have infiltrated into the social security administration and the electoral board.

Their anti-U. S. propaganda is concentrated in a firm, the American-owned United Fruit Company, biggest private enterprise in the country.

In 1950 the company paid over 13 million dollars in wages, about one-fourth the national budget.

Guatemala's heritage of harsh dictatorships has contributed to a leftist political philosophy and communism has found a fertile field for propaganda.

Since the 1944 revolution overthrew the dictator Jose Ubien and his successor, Federico Ponce, no rightist government could hope to

survive without the use of force.

Government officials declare there is not a single Communist in the Cabinet or in any major post and Foreign Minister Manuel Galien said in an interview that it was ridiculous to view Communist activity here as a threat to the peace of Central America. The Communist label, he said, was being pinned on any Guatemalan who favors social reforms.

President Jacobo Arbenz Guzman, a military man who has been in office a year, has disappointed some of his former supporters by failing to move against the Communists.

Many observers attribute his inaction to his legacy of a bureaucracy built up during the "spiritual socialism" of the first post-revolution administration of President Juan Jose Arevalo.

Support by Congress of any decisive action Arbenz might take also is considered questionable.

Col. Efigenio H. Monzon, Arevalo's interior minister, did make one move but it backfired. He closed the Marxist school, "Jacobo Sanchez," and suspended the Communist newspaper Octubre.

The Communists created so much pressure Congress revoked Monzon's orders. He resigned when Arevalo failed to come to his support.

The acknowledged leader of Guatemala's Communists is Victor Manuel Gutierrez, a sallow, thin 28-year-old who heads the labor movement.

After the revolution which ended the 14-year dictatorship of Ubien in 1944 Gutierrez and other extreme leftists moved in quickly, organized the industrial workers of the capital, and soon were in control of all labor unions. These

SLIP OF TONGUE IS FATAL SLIP

McALESTER, April 3 (AP)—Albert Washington didn't play hard to get. As a result he's back in custody at the Negro Training School for Boys at Boyle.

Police were notified the youth had escaped from the school and were asked to pick him up.

Chief Roy Anders called the Washington home. "Is Mrs. Washington there?" Anders asked.

"No," was the reply. "Who's speaking then?" "This is Albert." Albert barely had the phone on the hook before officers knocked at the door.

Italy Leaders Seek Formula To Beat Reds

By FRANK BRUTTO
 ROME (AP)—Leaders of four anti-Communist parties in Italy are seeking a formula to unite their forces for the spring municipal elections.

Rome is the major prize. A grim fight is shaping up.

For Communists, the prestige of a victory in Rome would be enormous. Rome is not only Italy's capital, it is a "Bishop of Rome" that Pope Pius heads the Catholic Church.

A Red victory is possible, says Prof. Luigi Gedda, recently named president of Italian Catholic Action by Pope Pius. "It could happen," he said in an interview—"if anti-Communist forces do not unite."

Head of an organization of some 4,000,000 Catholic activists, Gedda, world-renowned authority on multiple births, is one of the hardest working men in Italy. He shuttles up and down the length of Italy, organizing, meeting and speaking.

Thus far, there have been many meetings, much talk, but no union. It was through union in the "Apparentamento" or grouping system that anti-Red parties last year ousted Communists and their allies from political control of some 1,000 cities and towns in communal elections held in two-thirds of Italy.

Elections in the final third, set for May, include such important cities as Rome, Naples and Palermo in Sicily.

In a series of meetings thus far held, Christian Democrats, Moderate Socialists, Liberals and Republicans have not yet agreed on union for the elections.

Under "Apparentamento," a simple plurality of any party or grouping of parties is translated into an outright majority or better in distribution of council seats.

Failure of anti-Communists to unite, plus growing strength of Monarchists and the Italian Social Movement, especially in the South, would give Communists and allied Socialists a distinct advantage, said Gedda. Under the "Apparentamento" as their opponents did last year—they could win pluralities that would become outright majorities in city or town councils.

Little More Time And Russian Subs Could Fight In US Zone

By ELTON C. FAY
 WASHINGTON, April 3 (AP)—If Russia went to war today her submarine operations would be confined primarily to European coastal waters. But with a little more time to build she can send a big force of ultramodern and deadly submarines in forays along American shores.

The estimate of Soviet submarine strength, used by United States officials in testimony before congressional committees and in public addresses, ranges between 300 and 400 boats.

Taken at face value and in light of the fact the United States Navy now has only about 100 submarines in the active fleet, this is alarming. There are, however, some other factors to be considered.

The best intelligence reaching here (and any intelligence on Russia is uncertain at best) is that the Red fleet is at this time essentially a coastal, short or medium range force. The guess is that only between 25 and 30 per cent of the total are boats capable of transoceanic operation. Moreover, the 300-400 estimate apparently is a nose count of everything that is a submarine, including old, outmoded and even unusable boats.

On the other hand, the United States counts only submarines that are in use or can be put to use quickly. In addition to the approximate 100 boats in the active, combat fleet there are about 60 in mothballs and 26 in use as training craft. The Navy discarded all its really old submarines after World War II.

The fact that the current Soviet force consists mostly of coastal type submarines doesn't lessen by much the problem facing the United States in event Russia begins war in Europe. A concentration of Red subs along the routes to European harbors would create a grave situation for vessels carrying reinforcements and supplies to Allied forces.

But beyond that is this disturbing report: The Russian force now includes some "Type XXVI" submarines, as well as growing numbers of the "Type XXI" Snorkel. The Type XXVI was developed

by Germany's brilliant submarine designers and only the Allied invasion of the Reich prevented the first of the boats from being finished. Blueprints for the boat and the parts which made up the completed engines were captured by the Allies—including the Russians. The Russians also took over some of the men who designed the XXVI.

The Type XXVI is the first "true submarine," capable of long operations at high speed while deeply submerged—a target difficult to hunt down and destroy.

Heart of the XXVI is its so-called Walther engine. Unlike any other engine—it can operate without outside air for the combustion. That gives it amazing speed underwater. Its German designers thought it could do better than 25 knots submerged. Submarines using Snorkel breathing tubes for operation of their diesel engines can travel somewhat over 15 knots but are well beyond the speed capability of the XXVI. Using only battery power on the electric motors when below Snorkel depth, the speed drops to eight or 10 knots.

The engine for the Type XXVI provides its own "air." It is a so-called "closed cycle" engine, using for fuel a blend of hydrogen peroxide and fuel oil. The hydrogen peroxide disintegrates into oxygen (providing the air for combustion) and water. Propulsion of the Walther design was by steam turbine.

The United States Navy, with the data and engine parts it captured in Germany, began work on closed-cycle engine development at the Portsmouth, N.H., Navy Yard soon after the war's end. A back-out on progress reports has cloaked information since. But some American authorities have pointed to difficult characteristics in the engine, including danger of operation.

There is no reasonably certain information about whether the Soviets have entered the "submarine anti-submarine" business to match the new K-boats now being produced by the U.S. Navy. These subs are specially designed and equipped for tracking down and

destroying enemy submarines while submerged.

Submarine design and building is by no means new to the Russians. They built their first submarine about 1904. But until World War II, the attention given submarines by the Russian admiralty was minor.

Women Stand Up For Men, Resign From Fem Group

LONDON (AP)—Four leaders of a fight by British wives for equal rights resigned last night in a body. They said the husband should hold the purse strings.

The resignations of the four officers of the Married Women's Association—membership 720 women, six men—came in a dispute over recommendations to the government inquiry into marriage and divorce.

The officers wanted to urge that the wife get a "reasonable amount" of the family funds after hubby paid the household bills. The organization's rank and file demanded a 50-50 split for the little woman.

"That's gold-digging," the president, Mrs. Helena Normanton insisted. When the meeting voted only a terse recommendation "that marriage should be an equal partnership," she handed in her resignation. So did three other officers—all women.

MAID OF COTTON REACHES PARIS

PARIS, April 3 (AP)—Miss Pat Mullarkey, a pretty, dimpled brunette from Dallas arrived in Paris as "Maid of Cotton, 1952," and started looking for a cake and candles to celebrate her 21st birthday tomorrow.

Part of her birthday treat will be new cotton costumes by Paris designers Dior, Balmain, Heim, Givenchy and Kogan.

Miss Mullarkey is making a tour to publicize cotton by wearing cotton clothes created by 35 leading American designers.

Back In Marines

JACKSONVILLE, Fla., April 3 (AP)—Ted Williams of the Boston Red Sox, highest salaried player in baseball; and Gerry Coleman of the New York Yankees, passed physical examinations today for return to duty as Marine Corps captains.

Warning System Set

FONTAINEBLEAU, France, April 2 (AP)—A radar warning system against air attack covering Eastern France, Luxembourg, Belgium and Holland was put in operation today by Allied Central European Air Forces.

Hungarian Red Discloses How Party Took Over

By **ENDRE MARTON**
BUDAPEST, Hungary—Hungary's top Communist, Matyas Rakosi, has written an astonishingly frank article for the party's magazine disclosing how the Communists seized power here.

Western diplomats have studied the article carefully and conclude that it shows the tactics used by international communism all over the world.

The article—"The Road of Our People's Democracy"—says the fundamental Communist move is seizing power is to split the opposition and keep them "perplexed and hesitating."

"The best way to do this is to join with non-Communists in a coalition and then proceed, by various methods, to take over," he writes.

Rakosi, secretary-general of the Communist party in Hungary, tells in the article published in "Social Survey" how the party used "salami tactics"—demanding a little more each day like cutting up a salami thin slice after thin slice.

Thus, he says, "regarding the banks, for instance, first we requested only state control, later the nationalization of only three big banks. In industry, in a similar way, first the state management of mines was demanded. We gradually expanded this request to the biggest machinery and smelting plants and, finally, we shifted to nationalization."

In agriculture, at first, farms under 200 acres were not touched. That meant that the majority of peasants were not affected.

As for the churches, Rakosi tells how "we destroyed... this reactionary front of unity" by splitting Catholics and Protestants and talking them on separately. The Catholic church was not touched until after the Protestants had been taken care of.

On the other hand, Rakosi writes, "there was one single spot where our party demanded the leadership and tolerated neither division nor respect of coalition-proportion whatsoever. This was the State Security Bureau. We held this organization thoroughly in our hands since the first day of its existence and saw that it remained the reliable and sharp weapon of the fight for the people's democracy."

The State Security Bureau controls the police.

It is obvious a veteran politician like Rakosi would not reveal his technique until he considered the battle fought and won. Western diplomats say there is little doubt the technique is basically the same with Communist parties in other countries.

SHOULDN'T BE ANY TROUBLE TO PICK PAY

WASHINGTON, April 3 (AP)—If Gen. Eisenhower should become President he would have to choose which of two pay checks he wanted to draw—a five-star general's or the President's.

The Economy Act of 1932 prohibits the drawing of two pay checks from the government. In fact, together, they total more than \$3,000.

The decision shouldn't be difficult.

The military pay and allowances of a five-star general total \$18,761.

The President's salary is \$100,000, plus a \$50,000 tax-free expense allowance.

BUT A LOT MORE POWERFUL Atom-Splitting Furnace Like The Scrubwoman's Water Pail

By **HOWARD W. BLAKESLEE**
 Associated Press Science Editor
RALEIGH, N. C.—Four gallons of a champagne-like fluid worth nearly a pound of diamonds will be poured into a stainless steel can here in a few months.

The fluid will be water mixed with the a-bomb-type uranium 235. The can will be the world's first private atom-splitting furnace. It is built and owned by North Carolina State College.

You might mistake this can for a scrubwoman's water pail with mop handles thrusting upward. This illusion is due to 14 pipes emerging from the can. Eight carry water for cooling the furnace.

You could tuck this furnace under your arm and walk out. But it would kill you with the rays emerging from the atomic fuel.

The apparatus will produce atomic energy as incredibly big as the container is little. It will produce transmutation rays (streams of neutrons) with a density about equal to those made in the 24-foot cube of graphite unveiled to the press at Oak Ridge, Tenn., in mid-February. That was the nation's first big atomic furnace.

The can will sit inside an octagonal concrete structure resembling a wayside shrine. This little atomic temple is not much taller than a man (10 feet) and 17 feet broad.

Around it State College is erecting a great laboratory, costing, with the reactor, about half a

million dollars. The little shrine sits on a concrete platform in the basement. Around it is a 20-foot wide corridor for working at the reactor faces.

Outside this wall is a large observation room for students and the public. They will look through a huge goldfish bowl, a water-tank enclosed in glass.

They will see port holes around the concrete shrine, each for placing materials in a beam of transmutation rays. All ports are knees high. If a worker accidentally walks in front of a port the rays will hit him around the knees where the harmful effects are small.

To avoid kneeling to work at a port, there is a covered trench in front of each. The cover is part of the floor and rises, like an elevator, to the level of the port as a work table. The worker steps down into the trench. The cover is set so that he cannot stand directly in front of the port.

The neutron rays from ports travel like bullets. Opposite each port, 20 feet away in the corridor wall, will be an opening for atomic bullets to pass through, out into the earth.

The atomic furnace starts as easily as a scrub woman lifting her mop from a pail. Remote control will lift two rods up out of the fuel in the can. That is all.

At night the concrete shrine ports will be locked like a bank vault.

The reactor is part of a new education course, the first of its kind. Among the 114 students are 42 officers of the U. S. Air Force. They will learn many things they have to know when they fly atomic planes. This reactor seeks new knowledge in training of college students to become the engineers of a peacetime atomic age.

The reactor will make a free loan of the fuel. The four gallons will last probably 10 years, possibly much longer. There are no other government strings.

The reactor was designed by Dr. Clifford K. Beck, head of the department of physics, and his associates. He formerly was one of the scientists in Atomic Energy Commission work. The Burlington Mills Foundation, a textile corporation, is furnishing some of the construction money.

The Phillips Reports A New WT Discovery

NEW YORK, April 3 (AP)—A new oil discovery was reported today in West Texas.

Phillips Petroleum Co. reported bringing in a new well on a 2,250-acre block in the southwestern part of Andrews County in West Texas. The discovery well southwest of the block 12 pool has flowed at a rate in excess of 1,100 barrels a day from the Ellenburger formation at approximately 10,750 feet, the company said.

This Is Going A Good Bit Too Far

ST. JOSEPH, Mo. (AP)—It was bad enough when someone stole his watchdog, said Frank Martin, but after all, there's a limit.

Martin, who has a house on the Missouri River bank, carefully tied his 60-pound watchdog outside the house Monday night.

Yesterday morning he found the dog had been stolen.

But then, to add insult to injury, the thieves had also stolen the elm tree used to tie up the dog.

Vets Slate Reunion

SAN FRANCISCO, April 3 (AP)—Veterans from the Fourth Marine Division, the outfit that fought from the Marshalls through Saipan, Tinian and Iwo Jima, will hold its fifth reunion here July 10, 11, and 12.

Judicial Race Open

AMARILLO, April 3 (AP)—The race for one of the Panhandle's top judicial positions was thrown wide open here last night when Judge James G. Lumpkin, Associate Justice on the Seventh Court of Civil Appeals, announced he will not seek re-election.

The Seventh Court serves a sprawling area of 38 Panhandle, South Plains and West Texas counties.

Wisconsin Votes

Scores of voters in Oconto went to the polls in Oconto, Wis., by boat. The city was flooded because of ice jamming the Oconto River. Franklin Klozotsky (left) and Jack Kumahala, (extreme right) assist Henry Borkovetz into a boat. Mrs. Borkovetz, behind her husband, wouldn't vote because she was afraid to get into the boat. Eskimos Can't Vote But They're For Ike

By JIM HUTCHESON
 NOME, Alaska (U)—The farthest north "Ike for President" club is whooping it up for the general, though its members couldn't vote for him even if he should get the nomination.
 The Gen. Eisenhower boosters are Eskimos. But, as residents of Alaska, they couldn't vote in a presidential election even if they weren't.
 Nevertheless, hoping to promote their favorite for the nomination, they organized the Ike for President Club of Shishmaref—which is about 125 miles across Bering Strait from Russian Siberia.
 The general might be surprised if he heard what his Eskimo boosters are saying his election to the presidency would mean for Alaska and the Eskimos. It's down in black and white just as though the general had dropped in to break blubber at a week-end political clambake (which he hasn't).
 The Eskimo Ike club ran a three-column advertisement in the Nome Nugget proposing more clubs and stating:
 "Club membership should demand that Alaskan delegates to the Republican National Convention be instructed to vote for Ike."
 Then it got down to these specifics:
 "Ike, being President of the United States, means:
 "1. A better and more adequate defense system of all Alaska. A large garrison at Nome. A sub-

marine base in Alaska. A larger naval force at Kodiak.
 "2. A highway from Fairbanks to Nome (that's roughly 500 miles of wilderness); from Nome to Teller, to Lost River, to Wales. (These would be extensions, but no road to Shishmaref is mentioned.)
 "3. Maintenance of a federal judiciary court in Nome.
 "4. Establishment of new industries for Eskimos so they can have all-year employment, better schools and new opportunities.
 "5. That gold mine operators should have a gold bonus price above the present \$35 per ounce."
 There were some other points, but those hit the highlights.
 Officers of the club are Vincent J. Tooktoo, president; Alex Weylo-ussan, vice president; Charlie Ok-powruk, secretary.
 They cite Ike as virtually a kindred Arctic soul as an honorary member of Igloo No. 1, Pioneers of Alaska.

Warns Against US Encroachments On Rights Of States

SAN ANTONIO, April 3 (U)—A warning against federal government encroachment on states' rights was sounded yesterday at the 40th annual convention of the Western Petroleum Refiners Association.
 John B. Thomas, President and General Manager of the Texas Electric Service Company, Fort Worth, told delegates the "Tide-lands Grab" is the "Camel's nose in the tent" and will be followed by other seizures of power and control unless something is done about it.

CAN HELP MEET NEEDS

Drive-In 'Hospital' Serves Rural Area

By FRANK CAREY
 Associated Press Science Reporter
 ATLANTIC CITY, N. J. (U)—A kind of drive-in "hospital equivalent"—where you're in and out the same day, even for child-birth—can meet virtually all the hospitalization needs of a rural community, a country doctor said today.
 Dr. D. G. Miller Jr., of Morgantown, Ky., said he converted two small country stores into such a setup and was able to meet the requirements of all but about 3 per cent of his patients.

One of only two physicians in "low-income" Kentucky county of approximately 12,000 population, Dr. Miller said he, two nurses, a laboratory technician and a receptionist handled 10,672 "office" calls for everything except major surgery.
 In addition, he himself made 566 visits to homes, riding in a jeep for round-trip distances of as much as 50 miles.

The office and home visits, he told the American Academy of General Practice, represented 2,389 individual patients.
 And he said that such an arrangement could allow a single

rural physician anywhere—with a few capable assistants and proper, though sometimes improvised, equipment—to meet all but a few of the needs of a community of several thousand people.

He said low income rural counties are building too many hospitals under the federal act that provides part of the cost. "These communities can ill afford the maintenance of such high-cost hospitals."
