Local Pastor Earns Master of Theology

Among 44 graduates receiving various degrees from Austin Presbyterian Theological Seminary in Austin, Texas, on May 23, was Dan Sebesta, pastor of the local Presbyterian church. Mr. Sebesta, along with three other candidates, received his Master of Theology degree. His thesis topic was "A Study of Biblical Preaching in James S. Stewart, Helmut Thielicke, and George A. Butterick."

This graduate program is a unique one offered particularly for the convenience of ministers who continue in their pastorates while completing the program of study. Four Januarys are spent in residence at the Seminary in Austin with a possible six years allowed for the completion of the program. Mr. Sebesta and his twin brother, David, from Houston, who also received his degree this year, are the first candidates, in the memory of the present administrators of the program, to complete the masters program in four years.

Mr. Sebesta also holds the Bachelor of Divinity degree from Austin Seminary and the Bachelor of Arts degree from Southwest Texas State College, in San Marcos.

On Monday, June 6th
a new address for the . . .

Telephone BUSINESS OFFICE IN SAN ANGELO

GROWTH in San Angelo and the area, plus expanded and improved telephone service, requires your telephone company to make a change. Effective June 6, 1966, the new address of the Business Office in San Angelo is 3010 West Harris.

This move is necessary to make room at 14 West Twohigh for additional equipment for improved telephone service through Direct Distance Dialing. The new DDD equipment will be installed in the area occupied by the business and district offices in the West Twohigh building. It will permit customers to dial their own person to person calls at a time now scheduled for late 1967.

Payment of bills is to be handled in the same manner as formerly. However, questions concerning new or rearranged service, charges, or other telephone matters concerning your account, can still be handled by telephoning the Business Office. Instructions for calling the new Business Office are shown in your current local directory.

Miss Mears Bride Of Perry Don Free In Episcopal Church Rites Saturday

MRS. PERRY DON FREE

In a double ring ceremony Saturday afternoon at 3:00 in St. Johns Episcopal church in Sonora, Miss Ruth Elaine Mears became the bride of Perry Don Free of Eldorado. Rev. Rollin Polk, rector of the church, officiated.

The bride is the daughter of Mr. and Mrs. Freeman Mears of Sonora. The bridegroom, who is employed here with West Texas Utilities, is the son of Mr. and Mrs. Virgil Free of this place.

Given in marriage by her father, the bride wore a formal-length gown with chapel length train, long sleeves and scooped neckline outlined with pearls in floral design, and pearls repeated down front of dress, hem, and around train. The empire waist fell into an A-line skirt. Train was attached to back waist with bow. The bride's elbow length veil was attached to a crown of lace and pearls, which

carried out the pearl design in the dress. She carried a white orchid surrounded by baby white mums and stephanotis on a white Bible.

Miss Vivian Mears of Sonora served her sister as maid of honor. Janet and Janell Free, sisters of the bridegroom from Abilene, were bridesmaids. Kyle Free of Dallas, nephew of the bridegroom, was ring bearer.

Kenneth Free of Tyler served his brother as best man, and the groomsmen were Royce Mears, brother of the bride; Jerry Free, brother of the groom, of Dallas; and ushers were Ronnie Free, Eldorado; Jimmy Goldsmith, Plainview; Jay Martin, Odessa; and Marvin McAngus, Jr., Eldorado.

Carolyn James of Rankin was soloist accompanied by Mrs. Bill Rozean of Eldorado at the organ.

Following the ceremony, a reception was held in the Parish hall next to the church. Rice girls who passed out bags of rice at the reception were Renee Adkins and Alissa Adkins, daughters of Mr. and Mrs. Fred Adkins. They wore yellow dresses with yellow and white accessories.

The bride's table was laid with a white cutwork cloth and an epergne filled with magnolias and yellow mums. Punch was served from a silver bowl with floating mint and fruit rings. Wedding cake and nuts were also served.

The groom's table was laid with a white linen cloth centered with yellow daisies, silver coffee service, and from it cake, nuts, and coffee were served.

Members of the house party were Mrs. Tommy Love, Mrs. Fred Adkins, Mrs. Rip Ward, Mrs. J. W. Neville, and Mrs. Albert M. Everett, Jr., all of Sonora; and Misses Barbara Jackson, Galena Park, Texas; Sharon Nyquist, Buchanan Dam; and Rita Rozean, Eldorado; and Mrs. Marvin McAngus Jr. of Eldorado and Mrs. Kenneth Free of Tyler.

Following a week's wedding trip the couple will be at home here in Bernard Carr's house in the northeast part of town.

The bride, a graduate of Sonora High school, graduated from the Southwest Texas State College at San Marcos where she received the honorary home ec. award this year and was on the dean's list. She was also dorm counselor and member of Kappa Lambda Kappa. She taught high school English in Rankin this past Spring.

The bridegroom graduated from Snyder High school and attended Odessa college.

Operation Sparkie

The Beautification Committee wishes to call attention this week to the following beauty spots:

- Morris Whitten home
- Junior Isaacs home
- Ernest Hill home
- Bob Page home
- Mrs. L. T. Wilson home.

We are glad to see the continuation of effort to remove unsightly buildings from over town. Santos Pina is now engaged in razing and salvaging the Bolivar Bailey house on North Divide.

The county is moving forward with erecting some permanent picnic tables and benches and barbecue pits in the city-county park. —Sparkie Committee.

Doyle Reunion Held

The Doyle Reunion was held Sunday, May 29th, in the home of Mr. and Mrs. Claude Doyle on the Thomson T Circle Ranch. A variety of food was prepared by each family present.

Games of "42" and "pass word" were played throughout the day.

Those present were: Mr. and Mrs. V. A. Porter, Mrs. Milton Machen and Cleford of Lampasas; Mr. and Mrs. Clay Porter, Jan and Karl of Eldorado; Ronnie Williams of San Angelo;

Mr. and Mrs. Richard Bilhartz and Rick, El Paso; Earl McCarty, El Paso; Mr. and Mrs. Bob Blackman, Lisa and David, Sea Drift, Texas; Mrs. Doyle Blackman, Jeff and Allen, Victoria; Mr. and Mrs. Jimmy Doyle, Jimmy Dan and Mike, Eldorado;

Mr. and Mrs. Jerry Doyle and Jonana, Lubbock; Jackie Susan and Greg Etheredge of Lubbock; Mr. and Mrs. Edwin Martin Jackson Jr., Sherwin, Cindy and Trey, Eldorado; Mr. and Mrs. Milton Doyle, Curtis and Robert, Roby, Texas; Mr. and Mrs. Kenneth Doyle, Joan and Wayne, Eldorado; Mr. and Mrs. Doc Hardin, Wendy and Shad, Hobbs, N.M.; Mr. and Mrs. Bob Fought, Eldorado; Mr. and Mrs. Ed Davis, San Angelo;

Ruby Damron, Eldorado; Mr. and Mrs. L. W. Laceyfield, Darren and Brenda, Odessa; Mr. and Mrs. Marvin Doyle, Big Lake; Mr. and Mrs. Cramer Sofge, Eldorado;

Mr. and Mrs. Paul Davis, Edna; Mrs. W. G. Blackman, Victoria; Mr. and Mrs. Ray Doyle, Kathy, Joyce and Billy, Monahans; Mr. and Mrs. James Ross Davis, Steven, Kim and Kenneth of Victoria; Mr.

and Mrs. Don Robinson, Shirlene and Kerry, Eldorado; Mr. and Mrs. "Shep" Roberson and Genell, Ballinger; Mr. and Mrs. Claude Doyle; Mr. and Mrs. Edward Roberson and Gary, Barnhart;

Mr. and Mrs. Ewel Kirby, Boulder, Colo., visited the Doyle families several days last week. They returned home on Saturday.

Mrs. Kirby is an aunt of Claude and Kenneth Doyle. Also Mrs. Ruby Damron and Mrs. Cramer Sofge and the Clayton Porters.

S. S. Benefits Going To 284 In This County

There were 284 people in Schleicher county who received a total of \$227,016 in social security benefits in 1965, J. G. Keen, social security assistant district manager in San Angelo, revealed recently, an increase of \$28,944 and 4 people over the year before.

A large part of the increase in payments resulted from changes made by the social security amendments of 1965, Keen said. Those changes which were in addition to the new program of health insurance for the aged, included a 7% increase in monthly benefits retroactive to January 2965; benefits for widows as early as 60; benefits for full-time students between 18 and 22; benefits for some divorced women; benefits for some people over 72 who hadn't worked long enough to get social security before; and the payment of disability insurance benefits to workers who are unable to work because of a disability that lasts 12 months or more.

"In addition to the people who began getting benefits in 1965 because of these changes," Keen continued, "a good many older people, upon applying for medicare, found they were eligible for regular social security benefits, too. All in all, the 1965 figures for Schleicher county include 146 retired workers, 13 disabled workers, and 125 wives and children of retired, disabled, or deceased workers. The average monthly social security benefit for Schleicher county beneficiaries amounted to \$63 in 1965."

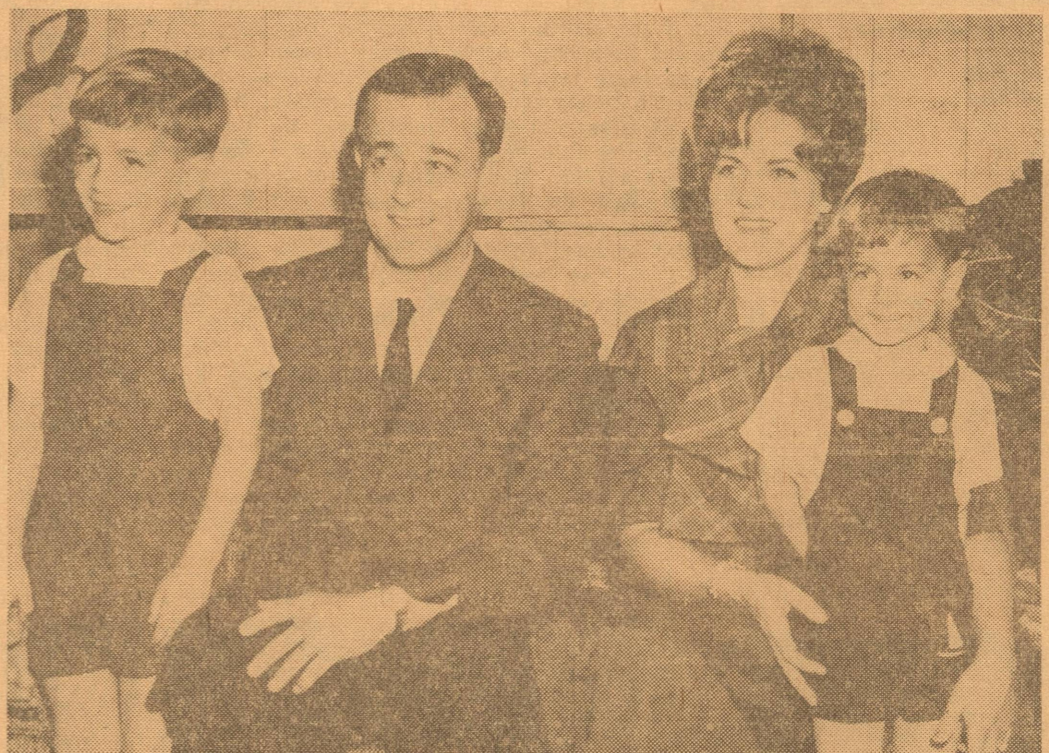

"These figures," Keen said, show how wide the protection offered by social security has become. Just about every man, woman, and child in Schleicher county has in social security the assurance that loss of income because of retirement, disability, or death will not result in destitution—and now with medicare everyone has the assurance that the costs of operations or medical services in his later years will not wipe out his savings."

Methodist Notes

Rev. Dempsey G. Salter and family will leave for Annual Conference following the Sunday morning service. Conference, which is normally held in San Antonio, will be held in Dallas this year as a part of the 50th anniversary of SMU and the 200th anniversary of American Methodism. In this joint session, all eight Texas conferences will meet together for the first time in 25 years.

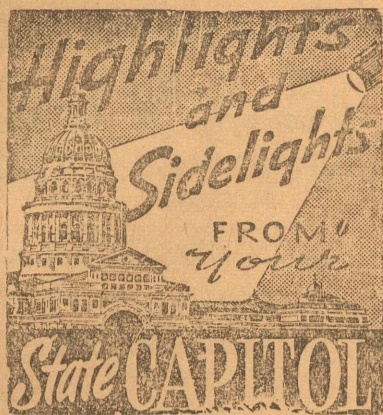

Ed Meador is Lay Delegate to the Dallas meeting which opens June 6 and closes on the 9th.

My family and I want to express our deepest appreciation for the support our friends of Schleicher County gave me in the recent elections. I will serve my district to merit your confidence and trust in the position of State Representative of this District.

Hilary B. Doran, Jr., and Family

Diane Trey 5½ Years and David 4 Years

Austin, Tex.—That mammoth Texas Water Plan was laid out Monday by Gov. John Connally and the staff of the Texas Water Development Board at a special meeting with members of the Legislature.

It shows how Texans can save and improve their water supplies to meet the needs of the 30-million Texans expected by the year 2020.

This plan has been called the most comprehensive and far-reaching yet undertaken by a state. It calls for 54 more major reservoirs, for \$1 billion worth of waste treatment facilities in the 21 major metropolitan areas alone to clean up waste water, and a \$1.5 billion system of pipelines and canals to move surplus water from the Red River basin in northeast Texas.

This transfer system can only be described as fabulous. First the surplus water would be moved to the Fort Worth-Dallas region. After use, it would be purified and then go down the Trinity River. At a point below Waco, some of it would be moved to the Brazos river to bolster its flow. Near Eagle Lake, some would be moved to the Colorado River to meet downstream irrigation and industrial needs. Finally, water would be moved

into a canal from the Colorado down the Gulf Coast to the Lower Rio Grande Valley region, to provide irrigation and industrial water for the vast South Texas region.

By supplementing the flows of the Trinity, Brazos, Colorado and Nueces rivers near their mouths, the plan would make possible the holding of water in the upstream regions of the Brazos and Colorado Basins to serve needs of that West Texas area.

Tightly put together, the plan released Monday is but a summary of the conclusions proposed by the Development Board's staff. Hearings will be held in 27 cities to get other ideas and suggestions, or criticisms. Series of hearings will begin on June 17 with the presentation of the West Texas portion of the plan at Lubbock. Then the Board's staff will begin river basin hearings on June 20 at Longview. When the series is completed in August, the Development Board will adopt the final version of the plan. It will become a flexible guide by which the cities, river authorities, water districts, and state and federal agencies will develop the resources of Texas streams.

Before any project actually can be undertaken, its individual feasibility and a method of financing must be shown to the Texas Water Rights Commission, which will approve and grant permits for each project.

Courts Speak

State Supreme Court threw its weight behind the decision that once-submerged lands (mud flats) rising from the floor of Laguna Madre in Cameron county are not vacant and unsurveyed public school property subject to sale or lease on application. Ruling, affirming lower courts, upheld posi-

tion of Land Commissioner Jerry Sadler in refusing to accept application to purchase a tract 15 miles northeast of Brownsville.

Third Court of Civil Appeals sustained transfer of two small sections of land from Frenship Rural High School District to Shallowater Independent District of Lubbock county.

Same Court said the Pennsylvania Insurance Company cannot get refund of \$101,589 in gross premium taxes paid under protest for a firm acquired in merger.

Third Court of Civil Appeals directed Savings and Loan Commissioner James O. Gerst to reconsider his denial of a charter to Northwest Savings Association of Houston.

Appointments

Mrs. Raybourne Thompson of Houston, Wendell W. Mayes of Brownwood, and E. Gary Morrison of Austin have been appointed by Governor Connally to Board of Regents of Texas Woman's University. Reagan Houston III of San Antonio has been reappointed.

Mrs. Gladys Drake, assistant professor of education of the deaf at Texas Woman's University, has been appointed by Lt. Gov. Preston Smith to Citizens Advisory Committee to work with the Texas Legislative Council's Study Committee on Services for the Deaf. Findings are to be reported to the 60th Legislature in January, 1967.

Texas Defense Spending Up

State's share of defense contract spending is increasing.

Defense contract work for first three quarters of present fiscal year is up to \$1.5 billion or 7.5% of national total. This compares with \$1.1 billion and 7.3% of U. S. total for same period in fiscal 1965.

Texas bases cleared for construction work by Senate were Fort Bliss, \$4.9 million; Fort Hood, \$1.8 million; Bergstrom Air Force Base, \$4.4 million; Carswell AFB, \$1.2 million; Kelly AFB, \$450,000; Laredo AFB, \$220,000; Laughlin AFB, \$675,000; Randolph AFB, \$236,000; Sheppard AFB, \$1.9 million; Perrin AFB, \$61,000; Reese AFB, \$546,000; Webb AFB, \$226,000; and Naval Auxiliary Station, Chase Field, \$93,000.

Attorney General Rules

Fees of \$3 should be taxed against drivers arrested and convicted for misdemeanor traffic offenses, and court costs should be added in peace bond proceedings, Atty. Gen. Waggoner Car has ruled. In other opinions, Carr conclud-

ed that:

—Old iron fence which once surrounded capitol ground, and now in storage, can be used at governor's mansion without conflicting with state law.

—University of Houston construction projects are not regulated by Houston, LaMarque or Clear Lake City building ordinances.

—Texas Education Foundation, Inc., engaged in the operation of the Gary Job Corps Training Center, is not exempt from the payment of taxes imposed on the use of motor fuel.

Last Premium Collected

Texas 65 Health Insurance Association has collected its last premium.

Association, authorized by 1963 Texas Legislature to offer health insurance coverage to all Texans past 65, will be replaced July 1 by Medicare.

Participants in the program were notified in January that all coverages would cease on July 1. However, Texas 65 would remain in operation past that date to process claims incurred before Medicare.

Unlined Pits Banned

Use of unlined disposal pits for oil field brine was barred by the Texas Railroad Commission in 13 West Texas counties over Ogallala Underground Water Formation.

In three separate orders, Commission said pits were polluting underground water. Agency threatened to sever pipeline connections of oil and gas operators who did not fill pits by deadline in Hemphill, Swisher, Bailey, Cochran, Dawson, Gaines, Hale, Hockley, Lynn, Tetry, Yoakum, Andrews and Martin counties.

Short Snorts . . .

Attorney General Carr assigned Howard M. Fender, chief of his enforcement division, to work with Limestone County Attorney Holloway Martin Jr. on Martin's request to join him in investigation of alleged irregularities at Mexia State School for mentally retarded.

Texas needs a wholesale reduction in the number of independent school districts, according to Dr. J. W. Edgar, Texas Commissioner of Education, and he thinks districts with less than 500 scholastics should be merged with other districts.

Game and fish regulations for 184 counties under Parks & Wildlife Department management will be aired in public hearings over

state on June 6-9.

Although business activity declined 1% last month, April value of index was highest for the fourth month since World War II and second highest in history of the measurement.

Twenty-four Texas colleges and

universities have received \$493,503 worth of supplemental authorizations and grants from U. S. Office of Education for expansion of summer work study programs to provide 90% of payroll for needy students who work at various jobs on the campuses.

Judge Bearce Heads Salvation Army Drive

June is getting under way, and arrangements are being made for the second annual Salvation Army fund drive to be conducted during the month. County Judge W. R. Bearce is chairman, and his helpers will be announced later.

A canvass will begin in this county on June 9th, a week from today. In the meantime, anyone wishing to give a special gift may make out his check to "Salvation Army" and hand or mail it to Judge Bearce.

The Salvation Army is now in its 101st year of service to the public. Here are a dozen fields with which the Army concerns itself: Shoes & Clothing, Food & Lodging, Medical Care, Eye Glasses, Medicines, Dental Care, Groceries, Shelter Centers, Disaster Service, Youth Camps, Prison Parole Work, Care for Unwed Mothers.

The Salvation Army disaster units were at Sanderson within a matter of hours when that town was struck by a flood a year ago. The disaster unit dispensed food, clothing, physical efforts, and disaster KNOW HOW.

Your local Committee wants to carry on this wonderful program of helping those who need help.

Joe L. Moore of Midland, Field Representative of The Salvation Army, was here this week helping local people set up the drive.

Moore stated that it is hoped that three local underprivileged boys can attend the summer camp near Midlothian which is put on by the Salvation Army.

Kick-Off Breakfast Set

Mr. Moore was here Wednesday afternoon making arrangements for a kick-off breakfast to be held a week from today, on Thursday morning, June 9th.

The breakfast will be held at 7:00 o'clock in the morning at the Java Junction Cafe and all workers in the drive, including team captains, are urged to attend. Coffee and doughnuts will be served in the dining room at the Cafe.

T. J. Bailey Promotes Coming Event At Ozona

T. J. Bailey, who recently retired as West Texas Utilities manager at Ozona, was a guest at the meeting yesterday of the Eldorado Lions club and discussed the Diamond Jubilee to be held there June 15 through 18.

"From This Proud Land" is to be a pageant presented during the event. Last August, Sonora had a similar week-long celebration, which attracted hundreds of visitors.

Bill Rountree presided at the business session, and presented Duane Branham with his badge and other credentials as a new member of the Lions club.

A film, "I Run Too Often" was shown by L. D. Mund. Danny Boyer was a guest.

Oil News

Deepening continued in dolomite after a 1½-hour drillstem test at 7,491 to 7,501 feet surfaced gas, rated at 33,000 cubic feet daily, in two minutes and a one-hour test at 7,492 to 7,507 feet developed gas at the surface in 33 minutes, the volume also being 33,000 cubic feet daily, in Tucker Drilling Co., Inc., No. 1 Pearl Williams, section 102, block TT, TC survey, a Schleicher county wildcat 15 miles northwest of Eldorado and 2½ miles northwest of Ellenburger oil production in the Southwest Velorex multipay area.

Oil and gas-cut mud was recovered on a test at 6,845 to 6,855 feet.

Visitors in the home of Mrs. Joe Garvin and Homer over the Memorial Day week end were: Mr. and Mrs. Jimmy Lee Garvin of Canyon, Mr. and Mrs. Robert Schaeffer of San Angelo, and Mr. and Mrs. C. R. Keeney, Mrs. Rosa Owens and Marion, and Mr. and Mrs. Richard Kent, all of Eldorado.

News Of The Sick

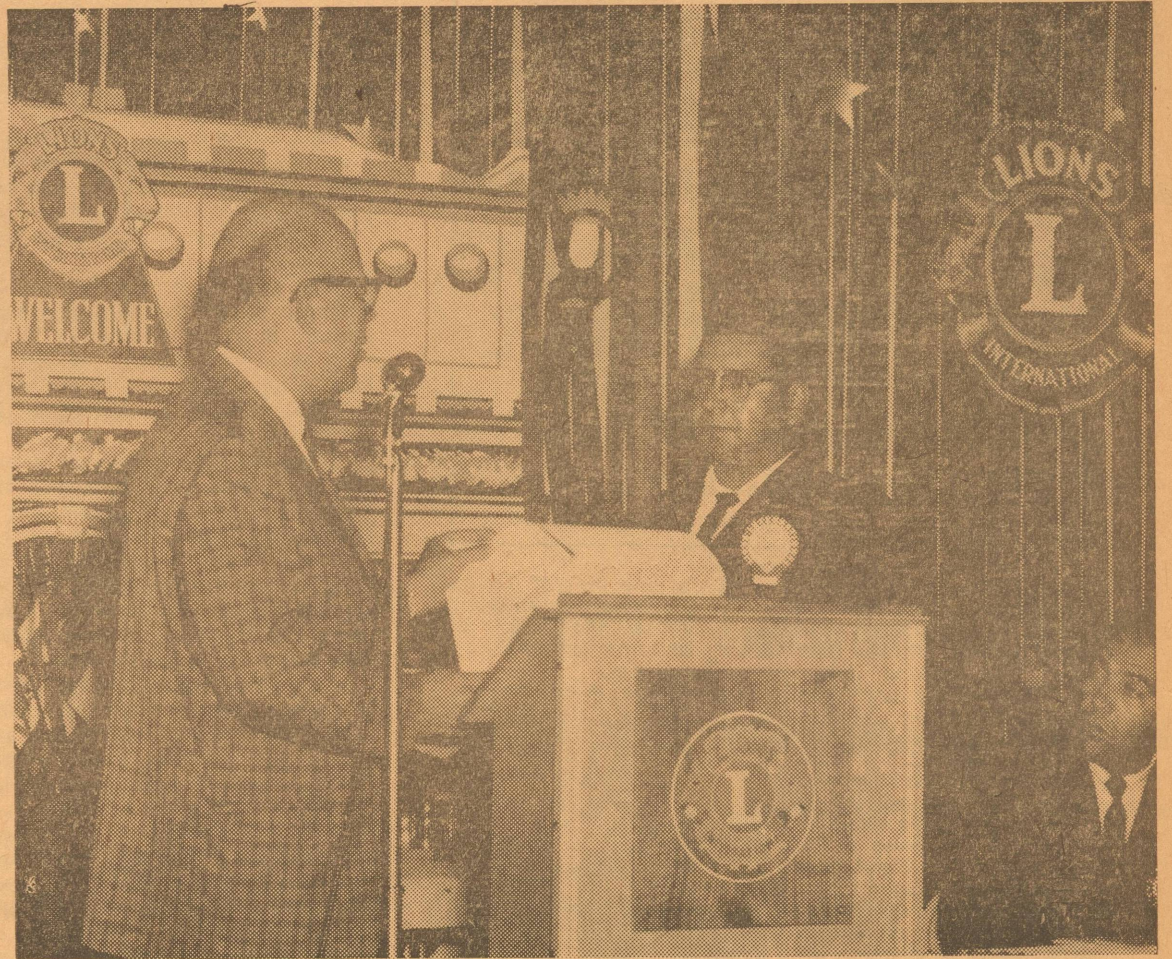

Mrs. Rutha Boyer fell and broke her hip late Saturday at her home. She is in the Clinic-Hospital, and her family are with her.

Jerome Mitchell was brought home Saturday from the Shannon hospital.

Now— U. S. Savings Bonds Pay More Interest

4.15% when held to maturity

Higher interest on the
Bonds you already own, too!

U.S. Savings Bonds are a better way to save than ever

Because now all Series E and Series H Bonds bought after December 1, 1965, will earn the new, higher interest rate of 4.15% when held to maturity. That's only 7 years for Series E—9 months quicker than before. All H Bond interest checks will be larger beginning in June 1966.

And your outstanding Bonds will earn more, too, from now on. So, you don't have to cash in your present Bonds to get the attractive new rate.

Ask about buying Bonds where you work or bank. For America's future. And yours.

"Today, none of us can remain aloof on the sidelines."

"Today, above all, is a time for all Americans to rededicate themselves to the spirit that animated the Minutemen of Concord—who serve as a symbol of the Savings Bond program. For today, as at the founding of our nation, it is freedom which is again at stake. Not all of us are called upon to fight in the jungles of Vietnam, but while our men are there, in the front line of a distant land, none of us can remain aloof on the sidelines. We must all do our share—in every way we can—to support our men in Vietnam. One sure way is open to all Americans through the Savings Bond program."

**The Jet Set Takes Over
With The "Passing Of The Props"**

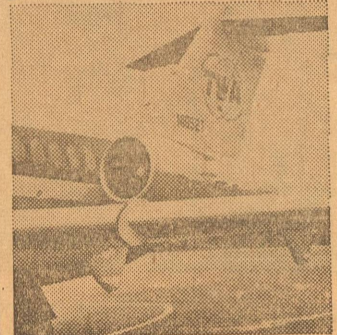

The whirr of propellers is rapidly becoming an obsolete sound as the jet set takes over and airlines retire their piston and propeller planes. Since ordering a fleet of 20 Douglas DC-9s in 1964, Trans World Airlines, for example, has accelerated retirement of its venerable Constellation fleet in favor of the spanking-new short-range twin jet. The first to mark "the passing of the props," TWA early next year will be the first major airline to become an all-jet operator.

Conceived in 1963, the DC-9 came off the drawing board and onto the assembly line in barely two years. The distinctive features of this new queen of the skies are a "T" tail and side-mounted engines located aft on the fuselage. Her 89-foot wings are more compact in design than her early forerunner, the DC-3. The DC-9 carries 70 passengers at 560 miles per hour—just as fast as her four-jet big brothers. The DC-9 is designed to operate on runways of only 6,000 feet.

The DC-9 is 30 percent quieter in the airport vicinity than a four-engine propeller craft. One reason is that it climbs to an altitude of 2,250 feet within 40 seconds after

take off. TWA's new fleet of DC-9s will enable this airline to bring the benefits of the jet age to cities previously served only by propeller planes.

Few will mourn the passing of propeller prominence with its dependable but comparatively slow ride. Now, passengers can soar into the skies ensconced in the glistening luxury and modernity of these sleek new DC-9s and feel as smart as the big-city jet-setters.

Would you give your wife a tin can for a present? Of course not. And yet if you followed the old tradition that says tin is the symbol of the Tenth Wedding Anniversary, you wouldn't be far out of line. Fortunately, times change, and customs change with them. Today, modern couples can celebrate their lasting, growing love with more elegant—and appropriate—expressions of affection.

Up-dating tradition with a number of romantic renovations on anniversary symbols, the Jewelry Industry Council has compiled the Modern Wedding Anniversary List. Because no wife ever got dewy-eyed over a Paper Wedding Anniversary, the Council suggests that the First Anniversary be the year for clocks, a timely gift. And diamonds, formerly reserved for the 60th Anniversary, or Diamond Jubilee, are now beautifully appropriate for the 10th and 30th as well, when a woman can most strikingly wear this sparkling King of Gems and when a man, in the midst of his struggle for success, can most appreciate this shining symbol

of prestige. The Modern Wedding Anniversary List is appropriate, too, because it reflects the patterns of American family life today. Gifts for the first nine years of marriage are those that add to the growing importance of the home.

After this, personal gifts of jewelry are most appropriate, since the children are becoming independent enough to allow Mom and Dad a little more togetherness. Later, from the 16th to the 19th anniversaries, the youngsters are back in the nest, with their friends and dates, and gifts for the home are again suggested. And once the children have flown to nests of their own, the most appropriate wedding anniversary gifts are those that express the triumph and eternity of the original love pledge—precious and eternal gifts of jewelry.

Easy Trick Makes Vegetables Tastier

SPARKLING FRUIT FLAVOR GELATIN gives any fruit or vegetable a lift—both in flavor and appearance. Even a few leftover cooked or canned Lima beans, as in this Marinated Vegetable Salad, taste entirely different when combined with diced tomato and a little celery, onion, and seasoning in lemon flavor gelatin. A trick used here to insure well-seasoned vegetables is one you'll want to use again and again—just mix the vegetables and seasonings and let stand while the gelatin is being chilled until thickened. That gives the vegetables time to absorb the seasonings and makes every bite of the salad as flavorful as the first.

MARINATED VEGETABLE SALAD

- | | |
|--|-----------------------------------|
| 1 package (3 oz.) Jell-O Lemon Gelatin | 1/2 cup diced celery |
| 1 cup boiling water | 1/2 teaspoon grated onion |
| 1 cup cold water | 2 tablespoons vinegar |
| 1 cup diced tomato | 1 teaspoon salt |
| 1/2 cup cooked Lima beans | 1/4 teaspoon Worcestershire sauce |

Dissolve gelatin in boiling water. Add cold water. Chill until thickened. Meanwhile, combine vegetables and seasonings and let stand about 30 minutes to marinate. Fold vegetables into the thickened gelatin. Pour into a 1-quart mold. Chill until firm. Unmold. Garnish with additional tomato wedges and salad greens, if desired. Makes about 3-1/2 cups or 6 servings.

County Extension News
W. G. Godwin, Co. Agent

Texas cattlemen are on the ball. County agents around the state report cattlemen are already trying the newly developed freeze-branding. The freeze-branding was developed by Washington State University researcher Dr. Keith Farrell.

The way it works is simple enough. Copper branding irons are cooled to about 94 degrees F. below zero by a mixture of dry ice and alcohol. The dry ice cools the alcohol and the alcohol cools the branding iron.

When the iron is applied, it destroys pigment producing hair follicles and the hair grows out a permanent white. It makes an extremely legible brand that can be read on the longest haired animals from a distance. It should be a big help identifying cattle in winter when the hair is extra long.

Another advantage is that freeze-branding doesn't harm the hide like hot-branding. Estimates are the cattle industry loses several million dollars each year from hides ruined by hot brands.

The freeze-branding is supposedly painless. It's permanent and leaves no scars or thickened areas to cause a dock in price for the hide.

The freeze-branding is still an experimental procedure, so no recommendations for its widespread use have been made. Also, the technique is so new it isn't even mentioned in the branding laws. Branding officials are studying the technique to possibly include it in the law books.

It's important that animals' hair be clipped around the area to be branded to get better contact with the skin. In Washington, researchers use cardless clippers. Then they wet the clipped surface with alcohol and apply the brand.

The freeze-branding is fairly inexpensive—usually less than a nickel a brand. According to Washington researchers, all-white animals can also be freeze-branded using a nitrogen chilling method.

Unimpeachable source: the fellow who really started the rumor.

It's a good idea to have two spraying rigs. One should be used for applying herbicides and the other for insecticides. To be extra safe, mark the herbicide sprayer in some way so you'll be able to tell it at a glance.

Without careful decontamination, there will always be herbicide traces left in the sprayer which can retard or kill your crops. If you must use the same sprayer for both herbicides and insecticide, the following steps will usually rid your sprayer of herbicide.

Rinse sprayer system with either 2 to 4 pounds of washing soda or 2 quarts of household ammonia in 30 gallons of water. Circulate mixture through sprayer and allow to stand several minutes before draining.

Repeat above step. Remove all rubber hose connections.

Repeat step one, and allow mixture to remain in sprayer for several hours. Drain and rinse with clean water.

Use another tank full of strong ammonia water, circulate in tank and allow to stand overnight. Recirculate, then drain.

Fill tank with clear water and spray on tomato plant. If tomato plant does not wilt, you can be relatively sure the herbicide effect is gone from the sprayer—for the present at least. If the sprayer tank is rusted, the herbicide will show up each time rust is flaked off the sprayer tank.

It's a lot of work to clean the sprayer after a herbicide—but it can be well worth the time.

Henry Speck Jr., William Edmiston and Charles Martin Junior will attend 4-H Club Camp June 1-2-3 at Camp Retreat on Lake Brownwood.

Pecan nut casebearers will begin soon hatching on the small pecans within a very few days. The moth deposits an egg on the tip of the nut. This takes 3 to 4 days to hatch. The eggs are a greenish white and hatch a greenish larvae which will emerge as adult moth in late June or early July.

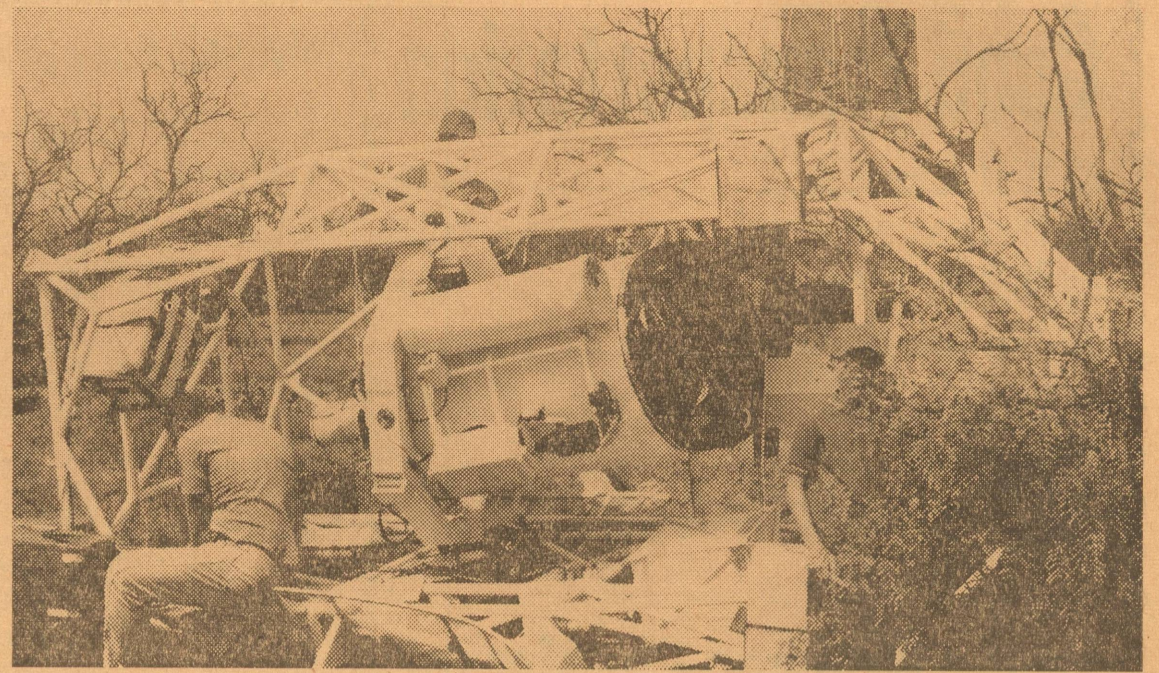

Spray with malathion using 2 teaspoons of malathion to a gallon of water.

Our success we ascribe to ourselves; our failures to destiny.

Recovery Crew Works On Weather Balloon Last Friday

Recovery crew are shown at work on weather balloon which was launched last week at Palestine, Texas, and which landed early Friday about 15 miles south of Eldorado, west of the Highway 277 in Hensel Matthews area.

Structural Steel Goes Up For New School Band Hall

This is how new Band Hall looked this week as structural steel was going up. School auditorium is in the background. Completion is set for late summer. This is part of the \$175,000 in school improvements for which voters approved bond issue in January.

To the Voters of Schleicher County

I have enjoyed my visits with each one of you whom I have been able to see and thank you for receiving me so graciously. I tried to see every voter in the county, but am sorry to have missed some of you and hope you will accept this as a poor substitute for seeing you.

I will appreciate your vote this Saturday and offer this as my one and only campaign promise— If you honor me with this important position as County Judge, I promise to give the office my conscientious attention.

—Sincerely,

Tom Ratliff

State Sen. Hardeman
Thanks Voters Of Area

DORSEY B. HARDEMAN

State Senator Dorsey B. Hardeman, San Angelo, whose far-flung 25th District of Texas reaches from Uvalde to Loving county on the New Mexico line and from Presidio to Midland, today issued a "thank you" statement following concession of the election by his May 7 primary opponent, Pete Snelson of Midland.

Said Hardeman, "Now that the results of the Primary are settled, it is with deep humility that I express my abiding gratitude for the support given me in my bid for re-election to the State Senate. I owe so much to so many.

"It shall be my earnest endeavor to continue to represent our district and West Texas to the very best of my ability. I hold no ill will toward those who may have voted against me. I want and need the help and advice of all the good people of our area. I will be available at all times to discuss our common problems."

Commissioner, in the
Run-Off Demo. Primary
this Saturday, June 4th.

(Pd. Pol. Adv.)

Inflation got a hefty nudge from the House last week with approval of an expansive wage and hour bill. The measure would bring some 8 million new workers, not now covered, under the federal minimums, which in three years will reach \$1.80 per hour. In the case of 700,000 farm workers, however, the minimum would begin at \$1.00 next year, and later go to \$1.30.

This new minimum wage bill adds to the savage abuse of the commerce clause of the Constitution. To give federal jurisdiction, it is theorized that those who will be added to wage and hour coverage are engaged in "interstate commerce."

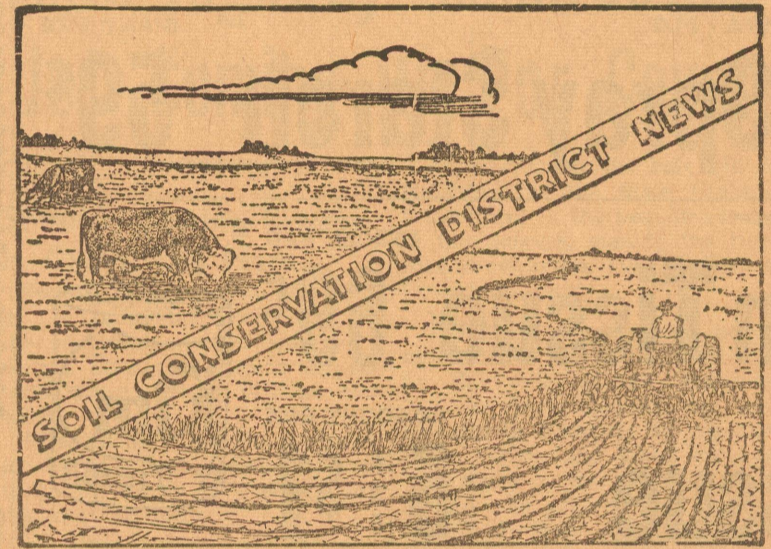

Coverage would be extended to laundering, drycleaning, transit & taxicab systems, restaurants, hotels and motels, service stations, hospitals and nursing homes, logging, and many agricultural workers.

An attempt to exempt small businesses (which must compete with the chains) from the new coverage, was defeated by a vote of 200 to 195—with four Texans voting to cover the smaller enterprises whose annual gross does not exceed \$250,000.

Farm and ranch workers have always been exempt from federal wage and hour controls because they are clearly not engaged in interstate commerce and also because agricultural work does not lend itself to such federal control. These workers do not punch clocks. They, or many of them, work short periods one day and longer periods the next day, and many of them are on call around the clock.

But under this new concept the federal bureaucrats will run herd on the ranchman, just as the ranchman runs herd on his flocks. The farmer and ranchman will have to keep books and be under constant scrutiny by the wage and hour agents. There will be some exemptions, however, and many of the smaller operators who employ fewer than 7 workers may not have to conform, at least for a while.

The Administration's new concept of extension and expansion of federal power in this respect, will in many areas increase production costs, hike the cost of living, and add fuel to the fires of inflation. Undoubtedly many fringe workers will be laid off, and welfare and relief rolls will be increased.

Board of Supervisors of the Eldorado-Divide S.C.D.

Farmers in the Eldorado-Divide Soil and Water Conservation District will soon be completing the planting of this year's crops. Moisture has been the factor that has delayed planting in some areas of the district until now. The yield from this year's crops will still be effected by the moisture that is received until crops are made. Management and the condition of the soil will also be important factors that will effect the crop yields.

Some of the factors that will effect this year's crop yields can not be done now. Things such as good soil condition and good soil fertility have to be accomplished ahead of the crops that will benefit from them. Nothing can be done now, in the way of a good conservation cropping system, that will materially effect this year's crop yield. However, what has already been done this year and what is done from now until next year's crops are planted, will effect the yields in 1967. Crops planted now for cover crops and soil improving can effect crop yields for years to come.

Land that is now being used for this year's crop production is a good place to plant crops for cover and soil improvement. However, idle or diverted acres should not be the only land that cover and soil improving crops are planted on. Cover crops should be included in the conservation cropping system and planted systematically as cotton and other crops are planted.

Maximum potential yields can not be obtained without the use of soil improvement measures. Usually, cropland is at its peak condition when first put in cultivation. However, this is not always true; grassland that has been kept short with numerous bare areas is far from a good condition when put in cropland. New cropland on land where a good grass cover has continuously been maintained, can

be kept in a good condition only by applying all the needed soil, water and plant conservation practices. Soil condition and fertility does not remain the same year after year. Soil condition and fertility becomes better or poorer, depending on the treatment it is given.

Moisture conditions are good for planting a crop to be used for cover and soil improving. Summer growing crops that can be planted now for cover crops are sudan, cane, peas and guar. Any of these crops can be planted with regular farm equipment. The planting of cover crops should be given the same good treatment as any crop. Legume crops such as peas and guar should be inoculated with the proper inoculant when they are planted.

Farmers throughout the world are dependent on the conditions of the soil. Soil conditions throughout the world are dependent on the use and treatment given it by those who use it. In America the choice of treatment and use of the land belongs to those who use it. Their economic welfare is governed by their good or bad management. However, whatever your trade, profession, or business the soil is just as important to you. Without good productive land we would not have many necessities of life or many of the luxuries, that we enjoy, that come directly or indirectly from the soil.

Assistance in planning, layout and checking soil, water and plant conservation practices is available from the Soil Conservation Service technicians assisting the district. Cost share assistance applying and using type conservation practices, through the Great Plains Conservation Program and the Schleicher County A.S.C. office.

For LAND'S sake and for MAN'S sake—plant cover and soil improving crops.

Keith Nolen was among the grads at the Sonora High school last week. He is a grandson of Mrs. O. L. Woodwadd of this place.

SAY NO TO MINORITY CONTROL OF THE ATTORNEY GENERAL!

Crawford Martin was the choice of Texans for Attorney General by almost 100,000 votes in the primary. But militant minority forces are working hard to capture the office in the runoff, hoping that you and others will fail to vote. Be SURE this vital voice represents the MAJORITY of Texans; be SURE to vote again Saturday for Crawford Martin for Attorney General.

- Crawford Martin has a 20-year record of integrity and distinguished service to Texas.
- Crawford Martin can work in harmony with other state officials.
- Crawford Martin's opponent is the candidate of Hank Brown, president of the AFL-CIO.

LET'S COMPLETE THE TEAM FOR TEXAS...

VOTE AGAIN JUNE 4TH FOR THE
VOICE OF EXPERIENCE AND INTEGRITY

CRAWFORD MARTIN
FOR ATTORNEY GENERAL

Political Ad Paid for Martin Campaign Committee,
George Cowden, Chairman

Thank you...

May I express my thanks to the people of the entire 25th Senatorial District for nominating me again to the State Senate.

Let me reiterate what was said so often during the campaign: I have always worked for all of West Texas. I shall continue to do so, to the benefit of the 25th District and all its people.

Cordially,

DORSEY B. HARDEMAN

SENATOR, 25th DISTRICT OF TEXAS

Charles Wimer, the Bill Gunstead family, and the Tom Stewart family of Rankin spent the week end at the Wimer cabin on Lake Buchanan.
