County Post-Filling Delayed Until Jan. 1

Action on appointments is pending meetings by the commissioners court which will be installed Jan. 1, 1949, County Judge W. S. Morrison said Monday.

Howard Heads Give Attention To Road Matters

Howard county commissioners turned their attention Monday to road matters.

Among those discussed were two segments on the 75-25 cooperative venture with the state highway department, the northeast end of the so-called Snyder road to the county line, and the Big Spring-Lenora road in Howard county.

With the exception of one out-of-state property owner, all holders along the Lomas road off U. S. 89 were agreeable to widening for the paved road, court members said.

On the widening and new segments on the Gall road, the state highway department is asking for some drainage channels, not heretofore mentioned, said Judge Morrison.

Consensus of the court was that the state highway department was penalizing Howard county unduly in delaying on the northeastern part of the Snyder road in Howard county.

Soviet Says British Write Palestine Plan

PARIS, Nov. 22. (AP)—Russia asserted before the United Nations today that the Bernadotte plan for Palestine was prepared in the British foreign office.

Soviet Delegate Semen K. Tsarapkin told the General Assembly's No. 1 political committee that Britain was thinking of the interests of Trans-Jordan, "which is governed by a British puppet," King Abdullah.

Tsarapkin spoke as the committee resumed its discussion of the recommendations drafted by Count Folke Bernadotte, the UN Palestine mediator, before he was assassinated in September.

The Bernadotte plan would give the Arabs the Negev Desert in southern Palestine which the UN partition plan assigned to the Jews.

In a preliminary statement on the Bernadotte Plan last Saturday, the United States supported the plan's report as a basis for discussion, but said no territory should be taken from Israel without Jewish consent.

Tsarapkin, Russia's Palestine expert, said the Bernadotte plan would cause "increasing animosity between Jews and Arabs" and also would cause contention "even among the Arab states themselves," because it proposed that the Arab part of Palestine be given to Trans-Jordan.

Momentous U. S. Decisions Seen After Meeting

WASHINGTON, Nov. 22. (AP)—President Truman got a report on recovery efforts in Europe today preliminary to a general foreign policy review with Secretary of State Marshall.

Marshall arrived by plane from Paris at 10:10 o'clock this morning and was greeted at the airport by the President.

While Marshall was catching a little rest pending afternoon talks at the White House, Mr. Truman had in others who help him on foreign policy affairs.

Harriman told reporters after a report that he reported to the President that "a wave of enthusiasm went across Europe" as a result of his election.

"I told him," Harriman said, "a feeling exists in Europe that liberalism is in the ascendency here as against the thought that reactionary tendencies were."

Harriman also said that he reported to the President "in general terms on the progress being made in Europe under the European recovery program."

The formal conferences between the President and secretary of state were set to begin at early this afternoon.

When Marshall stepped from the plane, reporters stopped him with questions.

In comment on the United Nations meeting at Paris, Marshall told them, "I think a great deal of understanding has resulted from what has already happened."

Marshall told reporters that "I really appreciate tremendously the President's coming out to see me, particularly on a day like this."

The President and the secretary chatted for a few moments. After photographs were taken Mr. Truman turned to the general and said, "Let's get aboard." They went to waiting automobiles, Mr. Truman, Gen. Marshall and Undersecretary of State Lovett riding together.

Pioneer Lawman Ed A. Long Dies At His Residence

Ed A. Long, 79, who pioneered establishment of a police department in Big Spring, died at his home at 708 W. 4th street here at 11:12 a. m. Monday.

He had been in ill health for several years.

"Chief" Long, as he was more familiarly known, was a veteran peace officer and was given the assignment as chief of the police force when the City of Big Spring went under the commission-manager form of government in 1927.

Thus it was under his administration that the department had to be developed under the strain of boom conditions. In this undertaking he had the help of such veterans as J. M. Choate, retired, and J. T. Thornton, Sr., who later succeeded him as chief and who now is constable. Mr. Long served as head of the police department for half a dozen years.

Services will be held at 3 p. m. Tuesday at the Eberley chapel with the Rev. Ainsie Carlston, First Methodist pastor in charge, assisted by the Rev. Cecil Rhodes, West Side Baptist pastor.

He leaves his wife; two sons, A. E. Long, Big Spring, and E. E. Long, Fort Worth; one daughter, Mrs. D. L. Bateman, Willis Point; seven grandchildren and three great-grandchildren.

Jewish Officials Charge Attacks By Arab Forces

TEL AVIV, Israel, Nov. 22. (AP)—Israeli officials told United Nations peace supervisors Sunday that Egyptian had attacked the Jews in the Negev Desert for three days.

"The defense army of Israel takes an extremely serious view of these actions," the Israelis told Brig. Gen. William E. Riley, chief of the UN team.

Previous reports in Tel Aviv have said the Egyptians were just about expelled from southern Palestine except in the Gaza coastal area, Israel informed the UN in Paris last week she had withdrawn from the Negev all troops not there before Oct. 14.

KILLS HIS DEER IN SELF DEFENSE

KILGORE, Nov. 22. (AP)—Howard E. Alexander of Kilgore went squirrel hunting near Carthage this week-end but got an 8-point buck—in self-defense.

The deer tried to run over him, Alexander said, "so I killed it with some No. 6 shot, in self-defense."

Northwestern Is Named Big Nine Rose Bowl Team

EVANSTON, Ill., Nov. 22. (AP)—Northwestern's second-place Wildcats today unanimously were named to represent the Big Nine in the Rose Bowl next New Year's Day.

The entirely expected selection was made in a telegraphic poll of 700 delegates from 40 unions assembled in Portland's Masonic Temple.

Murray in his report laid down an 8-point "essential" economic program for insuring a "healthy domestic economy."

He listed (1) price controls; (2) an excess profits tax; (3) control of essential materials; (4) an "all-out-attack" on business monopoly; (5) farm price supports; (6) a minimum wage of \$1 an hour; (7) low-cost public housing; (8) plant expansion in basic industries.

He did not demand a fourth round of postwar wage increases. But that subject will be discussed in the convention.

Oil Worker To Get Well In Back Yard

HOUSTON, Nov. 22. (AP)—H. L. Patton, who has traveled all over the world fighting wild and burning oil wells, is finally going to get his own well and right in his back yard.

"If this one blows out I won't have far to go to get to work on it," Patton declared.

CIO Parley Starts Under Rightist Hand

PORTLAND, Ore., Nov. 22. (AP)—The CIO opens its 10th convention today with the anti-Communist right wing in full control and determined to deliver further heavy blows to the dwindling left wing.

Right-wingers were not agreed on how far to carry their crusade.

The group of left-wing leaders who supported Henry Wallace for President and have opposed the Marshall Plan of European aid had their problem, too: How far to resist. Lee Pressman, former CIO general counsel, arrived in Portland to advise them on strategy.

President Philip Murray, swinging the gavel over an organization that is delighted over the national elections and is more nearly united than it has been in years, issued his annual report without discussing the Communist issue.

But that was the subject in everybody's conversation as about 700 delegates from 40 unions assembled in Portland's Masonic Temple.

Spaak Still Trying To Form Cabinet

BRUSSELS, Nov. 22. (AP)—Premier Designate Paul-Henri Spaak failed to form his new cabinet today.

Yesterday he announced that he would have the list of the new cabinet by noon today. However he told the press he had been unable to iron out a disagreement of Socialists and the Catholic Party over government subsidies to non-state schools. He will keep trying.

Reds Mark Religion As Enemy No. 1, Say Solons

WASHINGTON, Nov. 22. (AP)—You cannot be a Communist and believe in God," the House Un-American Activities Committee said today.

The committee added in a summation entitled "100 things you should know about Communism and religion" is "the long and the short of it."

"You cannot believe in God and have a peaceable life under Communism," the document declared.

"Communism cannot make education a weapon in its hands so long as religion is secure in its own right to teach and to educate.

"The aim and object of Communism is always the same—complete control over the human mind and body, asleep and awake, in sickness and in health, from birth to death. That is why Communism marks religion Enemy No. 1."

"Communism cannot dominate family life, for example, until it has first fought its way past the influence of religion upon the family."

Greyhound Bus Talks Underway

FORT WORTH, Nov. 22. (AP)—Negotiations opened today here on a wage increase demand for approximately 1,600 operators and terminal employees of Southwestern Greyhound Lines' nine-state area.

The AFL Amalgamated Assn. of Street, Electric Railway and Motor Coach employees of America, is asking a one-cent increase per mile for operators and pay hikes for terminal employees based on demand of \$1.70 instead of the present \$1.40 an hour for four-year personnel, and a monthly guarantee of \$125 for 15 days for extra operators.

States affected by the Bargaining are Texas, New Mexico, Colorado, Louisiana, Tennessee, Arkansas, Missouri, Oklahoma and Kansas.

'Wetback' Round-Up Keeps Lawmen Busy

US border patrolmen kept busy here over the weekend, rounding up a total of 36 "wetbacks"—Latin-Americans who had gained illegal entry into the country—for shipment back across the border.

The parties were temporarily lodged in the county jail and patrolmen shouldered the task of providing transportation to Mexico for them this morning.

## Great Plains Storm Deaths Reach Eight

KANSAS CITY, Nov. 22.—The Great Plains region counted its dead from a three-day snowstorm at eight today.

The storm, which whipped across a strip of the great plains from eastern Colorado to Minnesota, blew itself out Saturday but clearing of snow-clogged roads and towns were still continuing in some areas today.

Five of the deaths occurred in Nebraska and three in Kansas. Hundreds of motorists were marooned and trains and buses were stalled. Electric power and communications were disrupted. Some schools closed.

Yesterday snowplows uncovered the body of Mrs. Hal Laughlin, 30, of Jetmore, Kas., about a mile from where her automobile had stalled. She had been sought since Thursday. Her car stalled near Dodge City in western Kansas.

The body of Lester M. Carton, 28, McCook, Neb., also was found yesterday in his snow-covered car eight miles west of Oberlin in northwest Kansas. Another death reported last night was that of John H. Ham, 48, a truck operator who died of exhaustion from shoveling snow in O'Neill, Neb.

The heavy snow stalled a number of passenger trains. Snowplows, bucking through drifts as

high as 15 feet, had cleared all the mainline tracks by today. Some of the trains were tied up for three days, with passengers being cared for in nearby towns. Winds up to 75 miles an hour accompanied the snow, accounting for the huge drifts. The sheep loss in western Kansas and eastern Colorado was high.

## Ministers Are Guests Of ABC

The Rev. E. F. Deutsch of Bay City and the Rev. Neal Jones of Fort Worth were program guests at the meeting of the ABC Club in Hotel Crawford Friday noon.

The Rev. Deutsch has just conducted a revival meeting at the local First Presbyterian church, assisted by The Rev. Jones who led the song services.

Helen Duley accompanied the Rev. Jones as he sang, "Love of God."

In his talk to the members, the Rev. Deutsch urged all "Americans to make yourselves aware of the legislation which is proposed to run our country. With the infiltration of foreign elements in America, we must always be on the alert."

Temp Currie, Jr. served as program chairman.

Doug Orme announced that ABC members would have charge of ticket sales for the appearance here of the Stamps Baxter quartet and the Jim Tucker quartet on Saturday, Dec. 4.

Canned corn and canned tomatoes may be combined to make a hearty supper soup; flavor with salt, pepper and basil. Add a little scraped onion also, as well as crisp, crumbled cooked bacon if it is available.

## 'Children Of World Unite,' Is New Red Cry

ROME, Nov. 22.—"Children of the world unite," is the latest war cry of the Communist Party in Italy.

In its weekly publication, "Vie Nuove,"—New Roads—a page for tiny tots gives Mother Goose rhyme and tales a red twist. Cartoons and comic strips are used to guide the

first steps of children on the Communist path.

Its director is Luigi Longo, better known in the past for his leadership of the Italian Communist underground than as a child's guide to Communism.

The current issue knocks a few old proverbs in the head and re-

peats, with pictures, the story of Little Red Riding Hood—featuring "Little Italy" as the wayward walf and America as a top-hatted starved and striped big bad wolf.

"There is a place for everybody in the world. (But what place?)" it asks. "There are those for first place and those for last, in the theaters and trains as in life. There are those who have a building all to themselves and there are families of eight, ten people who live in a single room. There could be, yes, a place for all in this world. But, for that social justice is needed which only communism can assure. In the USSR, for example, there is a place for all."

The current issue's special attraction is the story of Red Riding Hood, in verse, with a final twist, thus:

"The fable recalls a great, greedy beast—  
"An American wolf—who constantly feasts;  
"And now wau sly smile and  
"The fable recalls a great, greedy beast—  
"An American wolf—who constantly feasts;  
"And now with sly smile and flattery entices  
"Poor little Italy in this world of crisis,  
"Who, with her small sisters, to gnaw on a bone,  
"Risks to finish the way Red Riding Hood's gone."

## Class A And B Grid Play Is Underway

By The Associated Press

Strife for the first Class A schoolboy football championship in history opens in Texas this week. Thirty-two district champions are paired.

In Class B 10 district champions will be determined to complete the bracket of 4 for the opening round next week in play for regional crowns.

Mt. Vernon, New Braunfels and El Campo are considered the stand-out teams in Class A as the bi-district round arrives.

## U. N. Official Sees Hope For Berlin

PARIS, Nov. 22.—Dr. Juan Atilio Bramuglia, president of the United Nations Security Council, says a solution to the Berlin deadlock is possible "if the search of a middle way is intensified."

The Argentine foreign minister said in a radio interview the six neutral nations in the dispute between Soviet Russia and the three big western powers should keep the negotiations alive.

"This should be done," Bramuglia said, "without harming the dignity and the interest of the parties and by finding a way of lifting the blockade and introducing a single currency in Berlin simultaneously."

**Method:** Mix together squash, sugar, salt and pepper. Turn into greased shallow baking dish. Mix pineapple, brown sugar, and butter or margarine and spread over squash. Bake in a hot (400 F.) oven for 8 to 10 minutes, or until thoroughly hot. 4 to 6 servings.

## Substantial Food Should Be Included In Takealong Lunch

If your children or your husband take their lunch along it's imperative that you pack substantial, nutritious foods into their boxes. Sandwiches of meat, fish or eggs are a good choice; so are ones of cheese or peanut butter. Send along vegetables, too—crisp carrot sticks, celery stalks and tomato. Fruit and cookies make fine desserts. Put a milk drink in the vacuum bottle and vary it for a surprise; the following Peach Egg-nog is one that will be welcomed.

**PEACH EGGNOG**  
Ingredients: 3 canned sling peach halves, 2 cups milk, canned cling peach syrup, 2 eggs, 2 tablespoons granulated sugar, 1/4 teaspoon vanilla extract, salt, nutmeg.

**Method:** Have peaches and milk thoroughly chilled. Mash peaches and press through a sieve; add syrup to make 1 cup. Beat eggs until they are thick and pale colored, beat in sugar, milk, vanilla, salt and nutmeg (to taste). Add to peaches and stir well.

When baked custard is taken from the oven the cups should be cooled immediately in cold water to prevent the custard continuing to cook from the heat retained in the cups.

# Air Force Is Trying To Stretch Global Reach Of Its Workhorse B-29 And B-36

WASHINGTON, Nov. 22 (AP)—The Air Force is trying to stretch the global reach of both the present workhorse of its bomber force, the B-29 Superfortress, and the giant new B-36.

This was disclosed in two developments today:

1. Word that fleets of flying "tankers" are planned for six of the groups of strategic bombers operated by the Air Force. These converted B-29s will be used to refuel the superfortress bombers along their route to a target, thus extending their range.

2. Tests of a B-36 with new engines of more power and presumably greater fuel economy to provide more speed and range.

The Air Force has high hopes for the aerial refueling system. Air Secretary Symington's congressional committee said last spring that with such a system B-29s could bomb any part of Russia from bases in Alaska or Labrador.

Techniques and equipment de-

veloped in Air Force experiments for more than a year are believed to have evolved a system whereby a superfortress could be filled with virtually a full load of gasoline in 15 minutes while flying along the course to a distant target.

At the time of his statement, Symington said Air Force units would be equipped for refueling by early 1949.

It was learned today the current plans contemplate equipping six groups of Boeing B-29s for aerial refueling. In doing this, the size of the groups will be expanded not only by adding the tanker B-29s but by putting more combat bombers in each group.

The Air Force is described as proposing to keep the composition of a B-29 group at three squadrons, but each squadron would have 15 instead of 10 bombers. The total number of bombers and tankers in a group would be 65 instead of the current 30 bombers only.

Informed quarters said the Air Force might report that funds in the national defense budget now being prepared might allow the operation of only 48 instead of the present 55-group long range bomber force.

However, the augmented size of the six groups of tanker-refueling bombers would mean that the final total of planes operated would be the same as at present.

The Air Force announced that flight tests of the six-engine B-36 will be completed about mid-December.

The tests are being made from the Fort Worth plant of Consolidated Vultee Aircraft Corp. with a production model of the huge bomber. The model is fitted with six Pratt and Whitney engines developing 3,500 horsepower each on take-off. Earlier models have used a 3,000-horsepower engine.

The new engines, said the Air Force, have improved the B-36's performance, including rate of climb, ceiling and speed.

The Air Force noted, without relating it to the announcement of tests with the new engine, that the B-36 was designed to fly 10,000 miles with 10,000 pounds of bombs "but has not yet achieved this performance." However, it added, the plane has (a) flown approximately 8,000 miles with a sizeable load of dummy bombs which it dropped mid-way on the long flight and (b) has taken off at a total weight exceeding 300,000 pounds and flown 6,000 miles at an average air speed of more than 300 miles an hour.

# Madame Chiang Makes Appeal To U.S. For Immediate Aid

SAN FRANCISCO, Nov. 22 (AP)—Madame Chiang Kai-Shek has asked the United States for immediate aid in China's critical civil war.

Her appeal was made in Nanjing yesterday and was broadcast by the American Broadcasting Co. in a hookup with the Chinese capital.

Said the wife of China's president:

"I only ask this—to tell you that

any further aid must be immediate and definite.

"If Communism prevails in China, you, my friends, will ultimately also be suffering.

"For with China's strategic position, resources and manpower in Communist hands, you yourself will be greatly weakened.

"If China falls, all of Asia goes. And certainly Asia's importance to world peace is not one whit less than that of Europe."

Madame Chiang spoke of her and her husband's determination to fight against the Communists and said their faith in ultimate victory was still strong.

"I know that there is a school of thought in America which says that China is not necessary or im-

portant to the United States because you have a foothold in Japan," she went on.

"I should like to point out to you that with the vast China mainland in enemy hands, the exposed islands of Japan will be but a tenuous foothold for America.

"This is not ex parte reasoning," she said. "Just ask your military men in Japan."

Mao Tse-Tung, China's No. 1 Communist, Madame Chiang said, admits that the United States is his principal enemy.

"Can there be any question in the minds of Americans concerning his ultimate objective if he succeeds in his present aggression against nationalist China?" she asked.

## CAN BLACK-DRAUGHT HELP A BAD BREATH?

Yes, Black-Draught may help a bad breath if the only reason you have had breath is because of constipation. Black-Draught, the friendly laxative, is usually prompt and thorough when taken as directed. It costs only a penny or less a dose. That's why it has been a best-seller with four generations. If you are troubled with such symptoms as loss of appetite, headache, upset stomach, flatulence, physical fatigue, depression, mental heaviness, bad breath—and if these symptoms are due only to constipation—then see what Black-Draught may do for you. ## BROADWAY New York Center For Entertainment

By JACK O'BRIAN

NEW YORK, Nov. 22 (AP)—The job of entertaining the world is centered more or less on Broadway. Sure, I know Darryl O. Mayer or some such composite spokesman for the movie interests will say it's centered in Hollywood. So how come they get most of their talent from Broadway?

But this here center of entertainment, capitol of laughter, sounding board of music, this base of operations for diversion, is far from the carefree capitol most folks imagine. The ordinary onlooker goes to a show and sees a great comedy. "Mister Roberts," for instance. He doesn't realize how little fun went into it, that no laughter is caused by painful preparation, even preparation for such guffaws as it brings nightly. Then take the floor show, loaded with pretty girls and baggy pants buffoons. They go about their rehearsals for such cafe confections with all the deadly earnestness of an Oppenheimer putting together an atom bomb.

Milton Berle gets his kicks from entertaining, but he gets headaches from working 16 hours a day polishing and preparing his apparent ad libs. Bobby Clark, one of the finest comics in the world, practices for a new musical comedy without one single sign of amusement from the first day of rehearsal until the final curtain on opening night. Joe E. Lewis, one of the best natural funny men in the world, is funny even at cafe or restaurant tables and apparently has little time for applying nose-to-grindstone. I know very well, though, that Joe attends to every seemingly impromptu detail of his act for hours every afternoon in his flat at the Hotel Warwick.

The youngsters of the trade work just as hard. Some of them work slavishly at stealing the big boys' material. There's a story now around that a famous lady soprano couldn't hit her high notes on a recording and hired a gal of more lyric elevation to fill in the last couple of top shrieks. In a broad switch on this incident, I know a night club owner who can't read and keeps a busted pair of glasses and an assistant around, the broken glasses to excuse his inability to read and the assistant, a nephew to read to him.

I know a doleful co-edian who hasn't changed his act in 15 years; too morose to bother. I know chor-

**Prove for yourself what throat specialists reported when 30-day smoking test revealed NO THROAT IRRITATION due to smoking CAMELS!**

**MAKE YOUR OWN 30-DAY CAMEL MILDNESS TEST.** Smoke Camels, and only Camels, for 30 days. Prove for yourself just how mild Camels are!

Hundreds of men and women, from coast to coast, recently made a similar test. They smoked an average of one to two packs of Camels a day for 30 days. Their throats were carefully examined by noted throat specialists. And after a total of 2470 exacting examinations—these throat specialists reported *not one single case of throat irritation due to smoking Camels!*

But prove it yourself... in your "T-Zone" (T for Taste and T for Throat). Let **YOUR OWN TASTE** tell you about the rich, full flavor of Camel's choice tobaccos. Let **YOUR OWN THROAT** give the good news of Camel's cool, cool mildness.

### BUZZING OF AIRLIFT FLIGHTS BY REDS BRINGS U. S. LAUGHS

BERLIN, Nov. 22 (AP)—If you want to get a laugh out of an American airlift pilot, just ask him if the Russians give them any trouble on his supply flights to Berlin.

"Trouble from the Russians?" asked Lt. John B. MacWherter of Springfield, Ill.

"That stuff's just a joke to us," he said.

"I've been buzzed a couple of times," said Lt. Guy B. Dunn of Whitfield, Va. "But I don't mind that as long as they don't come too close, and they haven't yet."

"American fighter pilots like to buzz transport planes, too, you know."

Lt. John T. Moore of Big Spring, Tex., agreed with Dunn. So did the crew chief, S/Sgt. James F. Summers of Fulton, Miss.

"Of course," added Dunn, after a moment's reflection, "it's a bit different when the buzzing is being done by Russians. I can't say I really enjoy them doing it. But they don't actually bother us any."

### Demos Predict No Blocking Of Filibuster

WASHINGTON, Nov. 22 (AP)—Senate Democratic leaders may postpone any effort to block future filibusters while they seek a compromise with the Dixie opponents of civil rights measures.

Reporting this, a Democratic official said one plan under discussion is to have a committee study the whole question of revising Senate rules.

As the code now stands, a score of southerners can prevent the Senate from acting on any civil rights measure by talking indefinitely against a motion to take up such a bill.

The cloture—closing of debate—rule applies only when a bill actual-

### Suspect In Stabbing Held In San Antonio

SAN ANTONIO, Nov. 22 (AP)—A suspect was being held by police today in the fatal stabbing of Mrs. Janie Bocanegra, 27, here Saturday night. The woman had been stabbed twice in the heart and four times in the side, while holding her 11 months old baby in her arms, police said.

The suspect, police reported, fled the scene in a truck which crashed into a telephone pole a half block away.

ly is before the Senate. It doesn't work against a motion.

For that reason, Sen. Vandenberg (R-Mich) told reporters that, for practical purposes, "the existing cloture rule isn't worth anything."

He noted too that opponents can filibuster any motion to change the rules, as Sen. McClellan (D-Ark) already has predicted southern members will do. Vandenberg said he favors a rule change to make cloture—which requires approval of two-thirds of those voting—apply at any time.

An administration Democrat, who didn't want to be named publicly, agreed with Vandenberg's analysis of the ineffectiveness of the present cloture rule.

Because of this situation, the Democrat said it may be necessary for the party leadership to compromise with the southerners if it is to make any headway with President Truman's proposals for laws banning job discrimination, punishing lynching, abolishing state poll taxes and curbing race segregation.

Some southerners have indicated they might be willing to accept modified versions of anti-poll tax and anti-lynching bills. They have drawn the line, however, at accepting anti-job discrimination and anti-segregation measure.

### India Batters Kashmir Area Defense Setup

NEW DELHI, India, Nov. 22 (AP)—India is taking defensive measures against "Pakistan's mounting strength" in key areas of disputed Kashmir, an Indian defense ministry spokesman said yesterday.

The informant denied Pakistan's

allegations that India is planning large scale winter warfare. He said recent operations in Zojila Pass and in Jammu were "purely defensive."

Pakistan's defense secretary, Iskander Mirza, told newspapermen Saturday Pakistan will be forced to "take appropriate military measures if nothing is done to correct the situation in Kashmir within a few days."

A United Nations commission has been appointed for a year to stop the warfare in Kashmir. It started when the princely state, Hindu-ruled but with a Moslem majority, acceded to India. Pakistan denies an Indian charge that it has

an expeditionary force fighting Indian troops in the disputed territory.

# More Flexible Aid To China Might Force Needed Reforms

Despite claims of major victory in China by nationalist forces, it is yet too early to concede that the crisis has been lessened. About the most that can be said is that it has quietened for the moment demands for a special session of Congress to rush aid in hopes of stemming the tide of the Chinese communists.

There is no likelihood of such a session, the main reason being that it could hardly be hoped to accomplish anything. The U. S. is committed to a policy of resistance to communism, but the position of the Chiang government makes it more than difficult to actively pursue this policy in China.

# Grain Contribution Program One Of Good Neighborliness

Special appeals are being made to farmers for contributions of grain as a part of the Christian Rural Overseas Program. The name pretty well describes the idea behind the move, even if the name was conceived with an eye and ear to the descriptive.

ture is essentially one of being good neighbors. Two grain elevators here have offered their services in assembling gifts of grain sorghum. Whatever farmers wish to give, they will issue receipts so that when the total of these receipts is sufficient for a carload, they will withdraw the amount from storage and make shipment.

# Books Will Give Reader Picture Of Recent History

those 20 years is by reading Frederick Lewis Allen's "Only Yesterday" — a history of the 1920s — and his "Since Yesterday" — a history of the 1930s. They're delightful books, fast and easy to read. He weaves music, literature and styles in which the politics, people and events of the two decades.

But some people may want to use Allen's books as a starting point and look for further reading to find out not only what happened but why. Here are the two latest books on the 20-year period: Karl Schriftgiesser's "This Was Normalcy," covering the 1920s, and Dixon Wecter's "The Age of the Great Depression," which starts with the 1929 crash and goes to 1940.

# Bulls And Bears Undergo Some Fleecing Themselves

NEW YORK, (U)—ONCE A YEAR THE bulls and bears of Wall Street take a night off from fleecing the lambs and undergo a fleecing themselves. They are baked, boiled, barbecued, and broiled at the annual "Financial Follies" show staged by the New York Financial Writers' Association. The production lampoons the nation's business executives in the manner that Washington's famed "Gridiron Club" show puts the political leaders under the guillotine of laughter.

Chinaman, but did." In a masterpiece of seating they placed Stock Exchange President Emil Schram next to John L. Lewis, head of the United Mine Workers. The skits posed fun at the stock issue dispute between Henry Kaiser and Cyrus Eaton, the nine per cent annual dividend of the American Telephone & Telegraph Co. "you can always tell a phoney", and Harry Truman's electoral victory.

THE THEME OF FRIDAY NIGHT'S show was a year of inflation—"inflation in many and varied directions, from Chinese currency to the fame and stature of Harry S. Truman."

BERN, Switzerland, (U)—The Swiss Alps have claimed approximately 40 lives during the current mountaineering season. The season begins in May and ends in mid-September, depending on weather conditions. The victims ranged all the way from rank novices who plunged to their deaths when they were lured to a perilous spot by the sight of an edelweiss, to hard-bitten mountaineers who were surprised by bad weather or hit by stones which came hurtling down the mountainside.

# Barkley To Serve As Senate Demo Leader Right Up To Inauguration

WASHINGTON—At Key West, happy, humble Harry Truman and his faithful friend, Alben Barkley, swam, fished and loafed. But though they didn't talk much shop, they left with a clear understanding of Barkley's new role in the administration. It was agreed that the new vice president will serve as Senate majority leader and take an active hand in reorganizing Senate committees—right up to the day before inauguration. Barkley will be needed for any purge of the Dixiecrats—if there is one.

After Jan. 20, it has been decided, the new vice president will operate as a working liaison between the President and Congress. He will do more than sit in the presiding chair for all tourists to look at, but will mingle actively in the corridors and use his influence in putting over Truman's program.

But that isn't all. Barkley will also sit in on cabinet meetings, will take some of the executive burdens from the President's shoulders. GETS RELIGION Wisconsin's Sen. Joe McCarthy has really got religion when it comes to public housing. Joe is now working among Republicans who blocked the housing bill in the 80th Congress to swing them around to public housing and slum clearance.

# Actors Can Learn Lesson From Morgan

HOLLYWOOD (U)—Tired young stars can take a lesson from Frank Morgan. He is celebrating his 35th year as a film actor by working in two pictures at once. The only thing old-fashioned about Morgan is the fact it's his favorite drink. He naturally favors it since his family's company makes bitters, without which he claims you just can't make an Old-Fashioned.

Reviewing his service before the cameras, the actor glowed: "It has been a long and profitable engagement." Now playing a gambling older in "The Great Sinner" and a no-so-old baseball trainer (Sans Mustache) in "The Stratton Story," Morgan disclosed he has always toyed with his age. "I started out as a character actor," he said, "because I did not like to run. When I began acting in my 20's, the juvenile never walked on stage. He had to run with a tennis racket in his hand and he went off the same way, running and waving."

When he came to Hollywood in 1932 (he had made eastern films in the early days), Morgan almost lost his resolve to remain a character actor. "I came out to star in 'Topas'."

# We North Americans Need A Tea Time Or A Siesta

We pride ourselves on being a cosmopolitan nation. We take in the best of each people's talents and moulded ourselves the 20th Century Utopia, populated it with the best educated, the wealthiest and — we think — the happiest race on the surface of the earth. But, in plundering the world, we have passed up some of the habits and characteristics of people in other lands that could, in the eyes of the writer, at least contribute beneficially to our lot.

First off, there's the siesta as practiced by our neighbors to the South, the Mexicans. They keep their respective noses to the grind stone throughout the morning but, once their noon meal is out of the way, they retire to their homes in the early afternoon to take it easy for an hour or so. Most of that time they spend in sweet repose. Not even a bull fight can break the calm.

# Chinese People Are Not Necessarily Behind Reds

THE CHINESE GOVERNMENT'S announcement of a sweeping victory over the Communist rebels in the crucial battle of Suichow—gateway to the capital of Nanking—has been seized upon in Central China as giving hope that the terrific Red offensive has been smashed. Certainly the report is encouraging, but we shall do well to await developments before jumping to conclusions. We must bear in mind that this great battle has been raging with unabated fury for some 10 days. The time has arrived when, even under far more favorable circumstances, the attacking Chinese Communists might be expected to pause to bring up their communications and repair heavy losses in men and material.

wonder how it is that the Chinese Communists are able to sustain heavy losses and still keep pouring great armies onto the battle-fields, whereas the government may have trouble in finding all the fighting men needed. Some of these folks take this as meaning that the people of China favor the Communists and consequently are more willing to serve in the ranks. "THAT IS AN ENTIRELY FALSE idea. The Communists raise their fighting men by terrorism under which every able-bodied male in a Red-controlled area is forced to serve. This terrorism may even involve the torture or killing of a man's relatives. All the areas under Communist control are organized through terrorism of men, women and children.

THE CASUALTIES HAVE BEEN BIG on both sides. A Nanking spokesman has estimated the government losses in men at 40,000. He placed the Red casualties at 130,000, much of this great loss having been due to massed Red forces being caught by Nationalist air forces on the open plain without cover. Assuming that the estimate of Communist losses is correct, how are the rebels going to find quick replacements for such a great number of men? I was given an interesting sidelight on this problem from Dr. Peng Hsueh-Peh, adviser to the Chinese cabinet, who paused Wednesday in New York on his way from Paris to Nanking. In the course of a luncheon chat Dr. Peng said: "A lot of people in the western world

Dr. Peng's appraisal of the situation fits in with established methods of the Bolsheviks in other theatres of Asia and Europe. But to get back to the battle for Suichow, the Communists are bound to resume the offensive if it is humanly possible. This is true not only because of the strategic value of this route into Central China but because the capital of all China is involved. The prestige of both the government and the rebels is involved in the possession of Nanking, for the capital of any country is the symbol of national security in the minds of the citizens.

Matter Of Fact — Joseph And Stewart Alsop

# The Grand Alliance Will Be Event Of World Importance

WASHINGTON—Something of great importance is about to take place. Despite previous denials, negotiations between Under Secretary of State Robert Lovett and the European Ambassadors on a North Atlantic pact are to be resumed almost immediately. These negotiations are virtually certain to lead to an event of the first magnitude—a treaty which will be in effect a military alliance between the United States, Canada and a number of European countries. Although the whole matter has heretofore been wrapped in considerable mystery, it is thus worth examining just where the negotiations now stand, and what they are all about.

against coming in. They are now trying to make some special regional arrangement with Sweden, but under any circumstances it is now probable that Norway and Denmark will accept if they are asked to subscribe to the pact. But are those six countries to be asked to join? The French are more than doubtful, especially as regards Italy. They point to their own pre-war experience as a tragic object lesson in the danger of making commitments which cannot be fulfilled. More practically, they fear that as a consequence of bringing in other countries, American aid in rearming Europe will be spread too thin, and the French share will thus be inadequate.

The immediate task of Lovett and the representatives of Canada, Britain, France, Belgium, Holland and Luxembourg is simply to write the treaty. It should be ready some time in January, and will then be submitted for approval to the President, the Congress and the Canadian and European governments. There will no doubt be disagreements on wording, but agreement on the broad outlines of the treaty has already in fact been reached. It will be molded on the existing Rio pact. The heart of it will be that each member nation is committed to go to war against an aggressor if another member nation is attacked. To this basic commitment provisions for pooling of resources and mutual consultation will be added. And there will be two small loopholes.

One loophole, necessitated by the American constitutional system, will provide that the commitment is limited by the constitutional processes of the governments concerned. The other loophole will reserve to each government the right to determine for itself whether or not aggression has taken place. All this is pretty well agreed. Yet a number of vital issues remain to be settled. The first of these is simply the question: Who is to be invited to join the pact? There are now seven prospective members. But there are six other nations to which invitations may be extended.

These are Norway, Denmark, Eire, Portugal, Iceland, and last but not least, Italy. There is little doubt that Italy and Portugal would quickly accept an invitation to join. Eire and Iceland are more doubtful. Norway and Denmark hope to avoid any break with their neighbor Sweden, which is at the moment dead set

Thus French doubts on this score will no doubt be still. The strong probability is, moreover, that the pact will be extended despite French hesitations, if only because both Britain and the United States, the two most powerful signatories, favor its extension.

PICK YOUR GARMENT AT ITS SOURCE

New Drive-In Sells Fur Coats

EVERGREEN, Colo., Nov. 22 (AP)—If you're out driving around the Colorado mountains sometime you might pop into the state's newest drive-in and pick out the original makings for a fur coat. Bring along your pocketbook. Also, you better bring along the kids' piggy bank, the wife's pin money and if you're really serious, borrow a couple grand from some well-heeled pal. You'll need it.

The drive-in store along U. S. highway 40 offers customers a complete service from a wide selection of live fur animals to the finished garment. Customers may take the pelts to their own furrier if they prefer.

Hundreds of shoppers, mostly tourists from out of state, stopped at the Indian-Pueblo style building 25 miles west of Denver during the summer. The initial venture was so successful the operators, Dr. Howard E. Lamb and John McNeill, decided to keep the establishment open through the winter—a season more conducive to fur coat shopping, anyway.

A healthy collection of greenbacks is necessary to do business if your

wife's tastes run to mink. From 75 to 85 pelts are needed to make a full length coat. The cost of the individual pelt runs from \$25 to \$150 depending upon the coloring and other qualities.

Assuming that your wife's tastes could be limited to the \$50 range, it would set you back \$3,750 for the minimum number of pelts. In addition, you'd have to pay the costs of fashioning the pelts into the finished garment.

In the economy range the drive-in has on display some attractive silver foxes. A swanky little six-skin Peariatina coat can be picked up for \$606—that includes Uncle Sam's cut of your luxury money. You can go up from there.

On display in a U-shaped series of pens are more than 25 live varieties of fox and mink. Women shoppers in looking over the live animals usually select the silver fox. The pearl platinum and Norwegian platinum fox are next in popularity.

The fur farm operated by Lamb and McNeill produces 1,750 mink and 650 fox pelts a year. Other ranches on the slopes of Mount Evans produce another 4,000 fox

furs and from 8,000 to 10,000 mink skins. Most of those supply growers are making their furs available to the new enterprise.

Lamb and McNeill launched their retail store after a study of the fur trading business convinced them there was need for a direct producer-to-consumer operation, with no middlemen.

Other Mount Evans fur farmers praised the drive-in salon as a welcome outlet for their production, suffering from a slump in the fox market.

**Funk And Trudell Meet In Grudge Match At AC**

Two huskies who left the scene of battle in heated disagreement a week ago will return to the Big Spring Athletic Club wrestling arena this evening and attempt to settle a new but furious grudge. The principals, one Dory Funk and Benny Trudell, abandoned all diplomacy at conclusion of an Australian tag match at the BSAC last week. Funk and Dizzy Trout apparently had the situation in hand when Dory negotiated a Boston crab on Rod Fenton, Trudell's partner. Benjamin leaped back in to the ring just at the finish, however, and wrought enough confusion to switch victory to the other side.

It requires little imagination to determine Funk's opinion of Trudell, and he hopes to even the score during the Monday night main event.

The opener will bring Eddie Gideon back to the local arena for the first time in several months. Gideon, a real fan pleaser, ran up a string of some six victories here earlier in the year before he was mangled by the former Masked Marvel, Olan Boynton, an individual with a sand-paper ring personality. Starting time is 8:15 p. m.

**Vote On Brace Of Bowl Tilts Carded Today**

By WILL GRIMSLEY AP STAFF

NEW YORK, Nov. 22. — Two of the fancier bowls—Rose and Cotton—choose their Jan. 1 lineup today, but fans must wait another week to learn the rival attractions in Dixie's Sugar and Orange fixtures.

Northwestern needs only the Big Nine's formal tap to start making plans for the Pasadena junket.

The Pacific Coast Conference, meanwhile, is polling members on whether California, or Oregon furnish the Wildcats' opposition in the Rose pageant.

An announcement from both ends has been promised today.

Northwestern qualified for the assignment by lashing Illinois, Saturday, 20-7, and finishing second in the conference to Michigan, which is ineligible to do a repeat job at Pasadena.

The West Coast decision is tougher. California and Oregon closed in a tie for the conference championship, the Bears with six victories and the Webfoots with seven against no defeats in the league. But Oregon lost to Michigan outside while California went all the way without a blemish.

Southern Methodist clinched the host spot in the Cotton Bowl at Dallas by humbling Baylor, 13-6. Today the Mustang players vote on their opponent from a list of available teams submitted by the bowl committee.

Oklahoma, North Carolina, Georgia and Clemson are reported high in favor with the Southwesterners. But the availability of these teams is a question mark.

Southeastern teams still in the bowl picture, besides Georgia, are Tulane and Mississippi, each with only one setback. Besides, this final heavy week could change things considerably for the present leading candidates.

Army meets Navy in the service spectacle Saturday at Philadelphia. Notre Dame has games left with Washington and Southern California.

**TEXAS MAY SHARE TITLE**

**Frogs, Farmers Gunning For Upsets This Week**

By WILBUR MARTIN Associated Press Staff

There is an upsetting situation in the Southwest Conference as it comes to the final week—the two teams with the poorest records meet the two with the best to decide the championship.

Texas A&M and Texas Christian may give the answers to the puzzle involving Texas and Southern Methodists.

Southern Methodist clinched a Cotton Bowl bid and at least a share of the crown by beating Baylor last week. The Mustangs can get clear title by whipping Texas Christian Saturday.

Texas can keep its hopes for a share of the title by beating Texas A&M in the traditional Thanksgiving Day game between these two huge state schools.

Rice, which picked up steam in the second half to crush Texas A&M, 21-7, meets Baylor.

Arkansas, which had a brisk warm-up with Tulsa, 55-18, tangles with William and Mary at Little Rock.

Southern Methodist came to the end of a perfect season last year against Texas Christian. The Mustangs were lucky to come off with a tie.

Texas A&M hasn't won a game all year, but working on the theory that it can't be worse, the Aggies might break an ancient flax and beat Texas in its own Memorial Stadium.

Both the Aggies and Horned Frogs are in perfect position. Each is figured to lose, but if one or both doesn't—what an upsetting thought!

Texas' chance for a share of the title depends on its beating A&M

and Texas Christian's beating Southern Methodist.

Win lose or draw with Rice this week, Bob Woodruff's Baylor Bears have their best record in years. At the moment they stand third in season standings and are tied for third in the conference.

Arkansas can take some of the glitter out of the Delta Bowl if it thumps William and Mary, one of the teams already signed for this Memphis, Tenn., New Year's Day game.

Southern Methodist's Doak Walker kicked one extra point against Baylor to boost his scoring for the year to 85 points. He is way ahead of Leon Campbell, Arkansas, who has 54 for the year.

**Calves Tounce Cowboys, 7-0**

Central's Calves upset the West Ward Cowboys, 7-0, in a grade school football game played between the halves of the Friday night Abilene-Big Spring game here.

John Tom Anderson led the Calves to victory. John Tom raced for pay dirt in the waning moments of the game and then rammed over for the point.

The Centrals gambled on fourth down to get their touchdown, passing to the Waddies' ten-yard line, from which point Anderson went over.

The two teams clash again at Steer stadium this afternoon. If Central wins, they'll play for the title Tuesday.

**Seeded Players Are Defeated**

Two seeded players have been beaten in the Howard County college ping-pong tournament, which got underway here last week.

Rayburn Newton, ranked No. Two in the boys' championship flight, was surprised by Jimmy Tolbet in his first match, 21-12, 28-24. Newton was joined on the sidelines by Lil Tamsitt, rated second in the girls' division.

Miss Tamsitt was ousted by Bitsy Jones, 21-23, 21-12, 21-17.

Henry Thames is top seeded in boys' play while Andra Neely draws that distinction in the ladies division.

Some 58 players were entered in the tournament, Director Harold Davis said.

**Sul Ross Back Leads Scorers**

NEW YORK, Nov. 22. — Ted Scown, a shifty halfback from Sul Ross (Texas) State College, broke away for six touchdowns Saturday to grab the National football scoring leadership with 14 points.

Playing in 10 games, Scown has scored 24 touchdowns. He usually gets one 80 or 90-yard scoring spring per game. Sul Ross ended its regular season unbeaten.

**LOOKING 'EM OVER**

With TOMMY HART

This reporter was privileged to witness the Southern Methodist-Baylor university football game at Dallas Saturday along with some 58,994 other football fanatics. By now, it has been echoed and re-echoed about the land that the Ponies rebounded to win, 13-6, and gained passage to their second straight Cotton Bowl game, so there is no need to delve into the case history of the struggle.

We did get a few impressions on individual performers the dear reader might appreciate—or challenge:

Doak Walker, the heralded Doaker, is All-America. True, he didn't break loose on any 70 yard touchdown gallops but his masterminding of afield was something to see. Trying to reason out what he's going to do at you must be very nerve racking.

Baylor's George Sims, who hails from Seymour, by the way, is one of the most elusive men in an open field. Another down field block or two and he would have gone all the way several times. To us, he rates with George McAfee of the Duke Blue Devils and the Chicago Bears and Bohn Hilliard of the University of Texas as a ball carrier.

Kyle Rote, the San Antonio Express now with SMU, may be the hardest running back the Southwest Conference has seen in a decade. Right now, we rank him with Jim Lawrence of TCU and John Kimbrough, the Texas Aggie battering ram, as a power runner.

Baylor is the coming team of the conference, thanks to an individual by the name of Bob Woodruff. The head coach of the Bruins is building himself a formidable team. They could win the title as early as 1949.

The Ponies have a tendency to take things easy until they have their backs to the wall. Once they do knuckle down, however, they rarely make mistakes. Blockers suddenly form. Pass receivers float into the clear. Ball carriers seem to know exactly what route to follow. And the whole team's coolness under fire is something to see.

**BARTON, PATTON AMONG BEST GOAL KICKERS**

Big Spring high school can take credit for producing two of the best goal kickers to be found anywhere in football today. That would be Cliff Patton of the Philadelphia Eagles and Frank Barton, Mr. Golden Toe of the Sul Ross Lobos.

Patton is one of the leading scorers of the National Professional league. He rarely misses. Three times he has split the uprights with field goals. He's a guard but played tackle here in 1948, the same year that Barton filled a guard post.

Frank booted nine points in ten tries at Sul Ross ran over St. Michael's of Sante Fe, N. M., 77-6, Saturday night in Alpine. He's been that near-perfect all season. Barton is a senior, will probably go into the coaching business next season.

**JIMMY STEWART AMONG THOSE WHO WILL BE BACK IN 1949**

One of the local gridgers who will answer Mule Stockton's roll call for the 1949 Steer practice session is Jimmy Stewart, overlooked in our recent rundown on boys who have more eligibility here.

Jimmy is a brother to Hunka Stewart, former Steer standout, so he comes from sturdy stock. He weighs but 126 now but he's only 14 and should come onto his own within two years. He can play through 1951. He's a back and was a ward school flash two short season ago.

**Rival Football Leagues Boast Great Twosomes**

NEW YORK, Nov. 22. — Two running and passing combinations that work together like beer and pretzels are bidding for attention in the rival pro football circuits.

The National League presents Tommygun Thompson and Steve Van Buren of the Philadelphia Eagles. The All-America Conference counters with Automatic Otto Graham and Marion Motley of the Cleveland Browns.

Because the two leagues don't speak to each other officially, the relative merits of the pairs won't be determined on the gridiron.

Here's how their season's work compares on paper:

Thompson and Van Buren have moved the football on the ground and through the air 2,212 yards, just over a mile and a quarter, in nine games. That's an average of 246 yards a game.

Graham and Motley have picked up 2,886 yards in 10 contests via the same routes, an average of 289.

Both combinations had good days yesterday. Graham and Motley powered the Browns to a 34-21 decision over the New York Yanks. Thomas and Van Buren led the Eagles to a 42-21 triumph over Washington at Philadelphia.

The Philadelphia victory virtually assured the Eagles of the Eastern Division title in the National League.

Nothing much was done yesterday about settling the Western Division race in the National League except to make sure a Chicago team will win it.

Los Angeles, the last club that had a chance to share in the crown, lost it by bowing to the Chicago Cardinals, 27-24.

The Chicago Bears had it easy in Boston, downing the hapless Yanks, 51-17.

Bill Dudley scored twice for Detroit as the Lions upset Pittsburgh, 17-14.

San Francisco and Brooklyn acted as if they'd never heard of the two platoon system. If they had, they forgot to bring the defensive units to Ebbets Field yesterday. When the firing was all over San Francisco was on top, 63-40, and 12 assorted conference offensive records had been broken.

**Six Champions To Be Decided**

By the Associated Press

Six district champions will be determined this week to pave the way for the opening of the Texas schoolboy football play-off in the City Conference and Class AA. Champions now awaiting the bi-district round are:

City Conference — District 1, Woodrow Wilson (Dallas); District 2, Arlington Heights (Fort Worth); Class AA—District 1, Amarillo; District 3, Odessa; District 4, Austin (El Paso); District 7, Breckenridge; District 8, Texarkana; District 10, Palestine; District 11, Fort Arthur; District 12, Baytown; District 13, Austin; District 14, San Benito.

**IN LAST 16 MONTHS... MORE MEN VOLUNTEERED FOR THE ARMY than chose jobs in any other business**

**HERE'S THE RECORD**

Between July 1, 1947, and October 21, 1948, a total of 214,616 forward-looking young American men signed original enlistment contracts with the U. S. Army. This number is greater than the number of men who obtained jobs with any other American business during the same period.

During this sixteen-month period the total of all enlistments in your U. S. Army amounted to 341,969. Of this group, 93,473 veterans returned to the Army—men who had discovered that the U. S. Army offered them more than civilian life. And in the same period 33,870 men re-enlisted to continue their satisfying, productive Army careers.

Thousands upon thousands of intelligent young men are finding worth-while, remunerative and satisfying careers in the Army. And every day more men are taking advantage of the unlimited opportunities the Army offers—opportunities that can't be duplicated in civilian life.

For instance, in the month of August, 1948, alone, 44,204 signed enlistment contracts of three years or more with the Army.

Today fifty-seven per cent of the volunteers in the Army have had previous military service—enjoyable, happy service which they want to continue.

This impressive record is solid, conclusive proof that the Regular U. S. Army offers the kind of career opportunity that the young men of our nation demand—an opportunity not only to learn but to serve at the same time.

**WHY MEN RE-ENLIST**

Ranking high among the reasons thousands of men give for selecting or continuing careers in the Army are the chances for rapid advancement in their chosen fields. Today the Army is expanding fast. This expansion means unlimited opportunity for promotion of skilled, highly trained men.

Advancement is important; however, there are many other good, sound reasons why so many intelligent men choose to stay in the Army. Here are but a few:

★ On the day a man enlists the Army starts a retirement-benefit "stake" for him which continues to grow as long as he stays. At the end of six years he has established an equity which compares with a retirement benefit of \$6,260.

★ Army technical schools offer the most advanced and specialized training in interesting, practical fields—give technical "know-how" you'd have to pay for in civilian life.

**HERE'S WHAT THE NEW ARMY OFFERS YOU**

Before you choose any career, compare it with a future in the Regular U. S. Army. Never before has the Army offered such tremendous opportunities for a real career to the alert, ambitious young men of America.

On the one hand you have the chance to serve your country while learning a new trade or skill—to further your education in important fields. And on the other hand there are the financial advantages, the job security, the retirement benefits, the chances for rapid promotion, the free medical and dental care that are yours in the Army.

A career in the U. S. Army is an opportunity that just can't be beat. And it's a lifetime opportunity! Get the full details now at your nearest U. S. Army and U. S. Air Force Recruiting Office.

**PEACE IS AMERICA'S MOST IMPORTANT BUSINESS**

THE NEW ARMY AND AIR FORCE OFFER—

- ★ WIDEST CHOICE OF CAREER JOBS
- ★ BEST OPPORTUNITY FOR ADVANCEMENT
