## Snow Flurries Here On 8th Of November

Last Friday afternoon, the 8th of November, saw the earliest snow flurries in the memory of most residents.

We had rain that morning, and by afternoon sleet and snow was coming down. San Angelo had about two inches of snow on the ground late in the day and Midland and Abilene had four inches. Hazardous road warnings were issued for areas of West Texas from Midland north.

The spell of weather cut attendance somewhat at the Eldorado-Sonora football game. This final home game for the Eagles was promoted ahead of time as Homecoming and a capacity crowd would have been on hand if we had had more agreeable weather.

### Accident Involves Transients

There was one major auto accident reported in the county that day.

Harold J. Lisenbee, 39, of 2723 Houston and Tito S. Alatorre, 24, of San Angelo were reported in critical condition early this week in Shannon hospital after being injured in a one-car accident near Eldorado Friday night. Another man was killed in the wreck.

Killed was Juan Quinones Rodriguez, 67, of 1909 S. Irving, San Angelo.

Investigating highway patrolmen William W. Webster and William Hill of Sonora said the car left the road and struck a culvert about five miles north of Eldorado on U. S. 277.

## Some Moisture But Not Enough

With no rain to speak of all through October, farmers' spirits picked up last week when Friday dawned with snow flurries which continued throughout the day. It was a wet snow which did not remain on the ground but it did stick on windshields enough to make driving more difficult. It came in on a cold wind and limited attendance at the ball game that night although the snow fall ceased by 6:00 o'clock.

A wet snow always makes everything look wetter than it really is. When the spell was over and folks checked their gauges it was found that the day had produced six-tenths (.60) of an inch of moisture.

General opinion seemed to be that 6-tenths was better than nothing, but it just wasn't enough to get the job done. One disappointed farmer said his 200 acres of small grain needed a soaking three inches to give it a send-off. Weather since last Friday has provided more dry clear days and more wind and doesn't look encouraging for additional showers, much less three inches.

It could be a long winter if stock farmers are forced to start feeding this early.

## Rabid Fox Killed At Milton Faught's

A rabid fox was killed last Saturday on the Milton Faught place near Reynolds community.

The fox came up, attacked the dog on the place, and Mr. Faught killed it.

Sheriff Orval Edmiston sent the head to Austin to the State Health Department, and by Monday had a report back that the fox was rabid.

All residents in the northwest part of the county have been cautioned to be on the look-out for strange-acting animals.

## 'Snow Flake Ball' Meeting Set Monday

Members of the annual "Snow Flake Ball" are meeting on next Monday, Nov. 18, at 6:45 p.m. in the club room of the Memorial Building to make plans for the dance which will be held on Dec. 30th. This annual holiday formal has been sponsored for the past ten years by members for high school and college students and their guests and is an invitational party.

M. C. Nelms has been a patient in Shannon hospital.

## After Four Months New Owner Highly Pleased With Future Prospects Of Eldorado Woolen Mill

PENFIELD BARKER

When Penfield Barker bought controlling interest and took charge of the El Dorado Woolen Mill July first, he did so with a minimum of fanfare. He simply reported that he planned continued operation of the plant and then—quietly went to work.

In the following months Eldorado heard very little about the mill. There seemed to be no news or publicity. Established in 1939 the mill was something no other small town had and Eldorado was proud of it. How was it getting along under its new owner?

This week we had an interview with Mr. Barker and we found that the mill is in good hands.

Mr. Barker is highly pleased with his deal, with his crew and with the operation of the mill, and he said he has already established a solid base for increased production after first of the year.

For several months the mill has been producing new, interesting weaves and has sent samples to outlets throughout the country. One of the companies receiving various samples in different colors was the Reese B. Davis Co., Importers, distributors of domestic drapery and upholstery fabrics. This company became so interested in this mill's product that Mr. Davis and his wife and his associate came to Eldorado recently and spent an entire day at the mill. This resulted in an order for 5,000 yards of material representing initial requirements for just SAMPLES which Reese Davis in turn would be mailing to some 5,000 stores throughout the United States.

In a letter accompanying the order Reese Davis explained they also needed samples for 15 showrooms and 35 salesmen, and they talked of annual orders of pos-

ing on the grounds. Carpenters are roughing in a lot of built-in fixtures, such as nurse's stations, shelving and reception counters.

The next 30 days will see big changes and it will be very interesting to watch it develop. But if you visit there during working hours, be careful you don't get in the way.

All exterior work has been done on the building, so that interior work can continue, regardless of weather conditions.

Happiness is holding Sonora Broncos to ONE touchdown.

The Commissioners Court of Tom Green county has taken action to re-district their county precinct lines to corner in San Angelo, thus providing more equitable representation of voters in the future.

The Commissioners Court here plans to postpone such action until next summer, which is the regular time for such questions to come up and be acted on. So the 1970 election year should find a new set-up for Schleicher county regarding the precinct lines.

On Nov. 6th, the fire dept. were called to a grass fire on the Tisdale place at 3:00 p.m. They quickly controlled it.

### Post Script

Saturday morning dawned bright and cold, ideal for the opening of the deer hunting season here in the county, and hunters apparently were out in force.

The Java Junction cafe reported a good run of hunters for all meals since season's opening.

Hext Foods, operator of the deer storage vault, had some deer turned in for processing Saturday, but the biggest run came Sunday. Mr. Piel of Malone county had an 11-pointer and Mrs. Piel had a 10-pointer. These were from the Henderson place. By Monday, the men at Hext's had processed 20 deer and stored them in the vault.

Foxworth-Galbraith is giving a rifle again this year for the largest deer killed, but by Monday afternoon they had only one entry; they will have a preliminary report to give by next week.

Service stations report a good run of business serving the hunters, both local and the transient ones passing through.

Our hospital project is becoming a beehive of activity and is well worth your visit.

Workmen are all over the place. Some are plastering, some painting or varnishing, some are work-

## Eagles Closing Season At Menard

### Bulletin Board

#### HOW THEY CAME OUT

LAST FRIDAY NIGHT:  
Mason 14.....Junction 6  
Menard 26.....Eden 0  
Sonora 7.....Eldorado 0

#### WHERE THEY PLAY

TOMORROW NIGHT:  
Eden in Mason  
Sonora in Junction  
Eldorado in Menard

Conference	W	L	T
Sonora	4	0	0
Mason	3	1	0
Junction	3	1	0
Menard	2	2	0
Eldorado	1	3	0
Eden	0	4	0

Note: District 8A could end up in a three-way tie among onora, Mason, and Junction. It seems highly probable that Mason will defeat Eden, giving Mason a four-win-one-loss district record. Should Junction beat Sonora, both Junction and Sonora would have four-win-one-loss district records also. There is a good chance that area prophets will pick Sonora. Should Sonora defeat Junction, Sonora obviously is the 8A District champion with a five-win-one-loss record. Anyway it goes, five of the six District 8A teams end the 1968 season tomorrow night.

## Ginning Slowing Down; Total Reaches 2175

Mikeska Gin processed 125 bales during the past week, which brought season's total to 2175 bales by Tuesday morning. Inclement weather the past week end delayed stripping.

Gin men now discount the possibility of a 3,000-bale year and now seem inclined to settle for a figure somewhere around 2,500.

If the present dry weather should continue the ginning season could close well before Christmas.

## Junior Class To Present Play Tuesday Night

The Junior Class will present "The Many Loves of Dobbie Gillis" on Tuesday, November 19, 1968 at 7:30 p.m. in the high school auditorium. This is a three-act comedy which will be enjoyed by the whole family.

The characters are:  
Dobbie Gillis.....Wm. Edmiston  
Bonnie Willet.....Carolyn O'Harrow  
Helen Dixon.....Lisa Whitten  
Miss Forepaugh.....Terry Martin  
Petey Bellows.....Wayne Doyle  
Mr. Pipgrass.....Sam Oglesby  
Imogene Klugenfelter.....Kay Mann  
Frannie.....Randy Yates  
Sally.....Peggy McGrew  
Lola.....Judy Lively  
Miss Neuman.....Alona Haynes  
Limba Lamb.....Sherry Roberts  
Adele.....Dale Montgomery  
Mr. Gillis.....James L. Davis  
Bill.....Danny Boyer  
Maudie.....Brenda Copeland  
Polly.....Hollie Childers  
Betty.....Mary Ann Draper  
Mrs. Dixon.....Vickie Preston  
Mr. Dixon.....Bob Page  
Mr. Harrington.....Bobby Sykes  
Happy Kowalskie.....Julia Garza  
Stella.....Julia Garza  
Majeska.....Olivia Rodriguez  
Dombia.....Esther Garza  
Simpka.....Sylvia Torres  
Rutka.....Rebecca Guerrero

There will also be good homemade cakes to be auctioned by the Junior class between acts of the play.

Proceeds will go into the class treasury to be used for the Junior-Senior Banquet later in the school year.

### THANKSGIVING SERVICE SET

The Ministerial Alliance of Eldorado will sponsor and conduct a Union Thanksgiving Service again this year.

It is set for 7:00 p.m. on Sunday, Nov. 24th, at the First Methodist church. Most local churches will dispense with their own services that night.

The sermon will be delivered by the Rev. Kenneth Vaughan.

The Eldorado Eagles close the 1968 football season in Menard tomorrow night. Bob Sykes and Bob Bradley know how many games have been played between the Yellowjackets and the Eagles; but here are the scores for the games from 1962 to now. There was no game in 1961. 1962: Eldorado, 6; Menard, 6; 1963: Eldorado, 21; Menard, 0; 1964: Eldorado, 14; Menard, 6; 1965: Eldorado, 47; Menard, 19; in 1966: Eldorado, 43; Menard, 6, and in '67: Eldorado, 17; Menard, 6.

It is pretty obvious that Menard with their best team in a number of years will be thirsting for vengeance. They are every bit as big as the Eagles and have proved themselves tough scrappy opposition to every adversary all year. Currently their district standing is two wins and two losses against Eldorado's one win and three losses.

This is going to be a tough contest. Menard will field a well balanced ball club, the best they have had in certainly 10 years. Their spark plug is their fine quar-

terback, No. 11, Bill Lehne (pronounced Lay-knee). He is a senior, weighing 160 and is a good runner and passer. Lehne is probably the best QB in District 8A this season and the Menard offense is built around him. His favorite pass receiver is No. 33, Eddie Pullin, a 145-pound junior who acts as both wingback and full back on occasion.

The Yellowjackets utilize "I" formation slotted to either side with Eddie Pullin usually in the slot. They have employed a spread formation at times.

Defensively, they present their version of the "Arkansas front 5" but they soft pedal the "monster" or roving linebacker. Their starting lineup is probably as follows:

No.	Name	Pos.	Wt.
82	R. McSherry	LE	130
75	B. Anderson	LT	180
65	Jay Kothmann	LG	155
50	L. Byrd	C	165
62	W. McInnis	RG	165
74	Pat Everett	RT	190
83	B. Kothmann	RE	155
32	Odie Wright	LHB	150
30	B. Walker	RHB	145
23	E. Pullin	FB	145
11	Bill Lehne	QB	160

The Eldorado Eagles will have to "fire up" to win tomorrow. The following Eagles will man the defensive positions against the Yellowjackets and they can expect a bruising evening's exercise:

76	R. Whitten	LE	176
75	Dobbie Lively	LT	151
50	Walter Speck	C	176
78	Roy Jones	RT	160
20	James L. Davis	RE	161
68	Bobby Sykes	LLB	150
10	Bob Page	RLB	172
80	Sam Oglesby	LCB	160
22	Keith Williams	RCB	136
40	Wayne Doyle	LHB	150
88	Paul Page	RHB	168

Eagles' offensive lineup will probably be as follows:

80	Sam Oglesby	LE	160
76	Ross Whitten	LT	176
66	Jim Robledo	LG	150
50	Walter Speck	C	175
68	Bobby Sykes	RG	150
78	Roy Jones	RT	160
88	Paul Page	RE	168
40	Wayne Doyle	LHB	150
22	Keith Williams	RHB	136
30	Mickey Clark	FB	170
10	Bob Page	QB	172

A quick comparison shows that Menard will field an eleven consisting of one sophomore, five juniors, and five seniors against the Eagles' four sophomores, six juniors, and one senior. Weight comparisons based on programs are too unreliable to believe but even by the programs, the Yellowjackets have an advantage.

It still is problematical whether or not Eagle senior end Mike Olson's shoulder has healed enough for the sort of exercise that will be necessary to participate in tomorrow night's festivities.

Again, "Now is the time for all good men to come to the assistance of their 'team.'" Sorry, Mr. Payne.

## Jaycee Officers To Be Elected

Effort will be made to name charter officers of the local Jaycee organization as another meeting is held tonight, Thursday, at 7:30 in the agriculture building at school.

There were 23 who attended the meeting last week, with 5 from San Angelo and 6 from Menard. Further work was done on setting up the local Junior Chamber of Commerce.

Rony Kerr invited all men, especially those between ages of 21 and 35, to attend the meeting tonight.

### FLU SHOTS RECOMMENDED

College Station, Texas.—Medical authorities recommend immunization shots for influenza, especially for people older than 65 years.

People with chronic illnesses and those in nursing homes or comparable environments should make a special effort to be immunized, says Minnie Bell, Extension family life specialist for aging at Texas A&M University.

Ideally, the shots should be completed by early December, she says.

Two types of influenza vaccines are available. Each fights a type of flu which usually occurs every several years.

Mr. and Mrs. W. W. Williams are moving back here from Sonora where he operated a service station for several years.

Mickey Pennington was here over the week end from Schreiner College, Kerrville.

## Band And Football Sweethearts Crowned At Homecoming Game

LISA WHITTEN

RANDY YATES

During half-time of the final home game here last Friday night with Sonora, Miss Lisa Whitten was crowned band sweetheart by Alan Sallee, vice president of the Eagle Band; and Miss Randy Yates was crowned football sweetheart by Jimmy McGinnes, captain of the Eagle grid squad. Both girls are 16 and members of the Junior class.

### More On Carlmans In Peace Corps In West Africa

Jerry and Susan Carlman and other Peace Corps volunteers took a bush hike in the latter part of September, 10 or 12 miles into the high bush where the mahogany and teakwood trees are 100 to 200 feet tall. In many places the trail was much like a cavern as it was cut through the bush and had a ceiling where the bush grew over it. It was very damp and cool on the trail which made it nice for walking. They reported that it would be very easy to get lost if you strayed more than 10 yards from the trail. In one place they had to wade through chest-deep water to go on as they could not find any fords or logs to build a bridge.

When they arrived at Gbelai in the afternoon, they were an item of extreme curiosity for the local natives, especially the children as they probably had never seen white people away back in the rural parts. The children followed them everywhere but would not get too close and ran whenever they walked towards them. The people killed a chicken and cooked rice. They made a dish called country chop by adding peppers to the chicken and rice, and Jerry says they asked them to use only small peppers as country Africans can put Mexican dishes in the shade at pepper eating. The natives also carried water for their baths, and then they all sat in a large group and met the chief and attempted to make conversation in Mono language. Jerry, Susan, and the others spent the night and in the morning were given grapefruits and two chickens. They gave the natives tobacco, soap, and salt. Needless to say, they were very tired when they got back to their house.

Jerry says they were awakened one night a few weeks ago by the most unusual weird musical sounds they had ever heard. They knew at once it must be the devil dancing by. Devil business is secret and anyone not a member of the tribal secret society cannot set eyes on the devil or that person might suffer great misfortune—perhaps even death. The devil is, in reality, an older member of the society who wears a wooden devil mask and a grass skirt that hides his entire body. He disguises his voice and comes out at night for society business on very important occasions. When he comes, someone will run ahead and close the shutters on their Peace Corps house so that no harm will befall them. Since they had heard of this, they hooked up their recorder and re-

### Viva! Plan A Fiesta Fare Picnic

Serve family or friends zesty fiesta franks when next cooking over coals. Appese their lusty outdoor appetites with fiesta franks built on a bun with crispy tortilla chips—layered with the lively new Texas-style chili and topped with shredded lettuce and Cheddar cheese.

The intriguing addition to this popular sandwich is the savory Texas-style chili. Available in handy zip top cans, with or without beans, the chili is simply opened and heated in the can over coals. While the franks are grilling, the zesty Texas-style chili is heating.

For a finale to the fiesta fare picnic melt chocolate bits in a clean zip top can. Dip bite-size pieces of banana or pretzels into the chocolate fondue for dessert.

#### Fiesta Franks Yield: 10 franks

- |                                       |   |
|---------------------------------------|---|
| 15 or 15½ ounce can Texas-style chili | Tortilla chips                          |
| 10 franks                             | Shredded lettuce                        |
| 10 frank buns                         | 4 ounce package shredded Cheddar cheese |

Open a zip top can of chili with or without beans. Place over the coals to heat. Meanwhile, grill the franks. Assemble the sandwich by layering a frank bun with tortilla chips. Add a grilled frank and top with several tablespoons of warm chili. Add shredded lettuce and Cheddar cheese.

corded the sounds as he and his contingent passed by their house. They had no idea what kind of instruments these sounds were made by.

The schools over there will be out for the summer the last of November, and in Liberia, West Africa, the 6th, 9th and 12th grades must take a government examination called the national examination. This was started several years ago to raise the standards of education at random levels and this keeps the school administrators informed on the students performance and the teachers methods in teaching.

In early December they plan a vacation trip with several other Peace Corps volunteers. They will go by car to Abidjan, Ivory Coast; Accra, Ghana; then north to Orogadougou, Upper Volta; east again to Niamey, Niger where they will board a river boat and head northwest to Tombouctou, Mali, and southwest to Bamako, and by car again through Ivory Coast and back to Liberia. This will take them to the edge of the Sahara desert in Niger and Mali, and they will cover many different tribal areas, a host of cultures and several different terrains.

They stated that they miss the U.S.A. and all of our many conveniences here.

### Home Demonstration Agent's Column By MRS. VIDA KREKLOW

The little norther which blew in on Saturday night sent me looking for the Chili recipe on Monday morning. I found it and can recommend it highly; the only thing is that this is for 2 gallons which may be more than you want. If you have a freezer there is no problem; in fact a big recipe solves problems in that chili freezes well and is always ready to be heated and served.

#### Chili

- 15 pounds coarsely ground meat
- 3 cups chopped onions
- 2 tablespoons chopped garlic
- 2 to 4 cups beef suet (fat)
- 2 cups chili powder (makes a mild chili)
- ½ cup salt
- 3 teaspoons cumin seed (sometimes called camino seed).

Melt suet, add meat and cook until white. (Do not brown meat, has a tendency to toughen.) Mix chili powder in well. Add salt, cumin seed, onions and garlic. Cook together for 15 minutes stirring constantly. Add water as desired for consistency and cook slowly for about two hours. Makes two gallons chili.

If you are interested in how many servings this makes just remember that there are 16 cups per gallon and that the average

serving is about one cup.

College Station.—Coincidence often affects the reputed results of traditional remedies in medical folklore, according to Minnie Bell, family life specialist with the Texas Agricultural Extension Service.

Many simple home remedies came into being by coincidence, she says.

Miss Bell, specialist for aging, reports these facts about some of the most common misconceptions:

1. No medicine exists that can be taken by mouth to dissolve gallstones.
2. Insulin does not cure diabetes. It substitutes insulin which the body is unable to produce.
3. Heart disease is not necessarily a valid reason for a denial of an operation or taking an anesthetic.
4. Flowers may use a little oxygen in a sick room, but the chief reason for removal is to benefit the flowers. They keep better in an open, more airy place.
5. Baldness is not caused by wearing hats. No one really knows the cause.
6. It has not been shown that cancer is contagious.
7. Lying on the right side to protect the heart has no basis whatsoever. The heart is practically in the center of the chest and not on the left side.
8. Removing a mole will not cause cancer. It might be the other way around. Do what your doctor thinks best.
9. Strenuous exercise for those 40 years and older CAN be taken if they are accustomed to it and the body is in good condition.

A new development in laundry products is an enzyme-action additive which researchers say is "entirely different from any detergent and entirely different from any bleach."

The concept behind the use of the active enzymes is their biological breakdown of the molecular structure of many stains, loosening them so they wash away during the regular wash cycle, explains Wanda Meyer, home management specialist with the Texas Agricultural Extension Service.

Among the substances which cling stubbornly to fabrics and which the new products claim to attack effectively are familiar troublemakers of gravy, blood, dirt on white socks, grass and diaper stains, baby foods, yellowing of pillowcases and grimy lines on shirt collars and cuffs, says the Texas A&M University specialist. Most of the enzyme-active products are used in a pre-soaking period, before the clothes are put into the washer with detergent.

It just so happened that a trial box of this new chemical was sent free to each boxholder in Schleicher county on the same day I got this information from Wanda Meyer.

By now the average person is pretty impressed with the world of chemistry and hopefully, after reading the explanation on the box of BIZ and the story on it the homemaker will be better informed on what she is using.

Our Home Demonstration Club Market Day was a gratifying success. It was hard to tell as to who was the most pleased, the buyers or the sellers. Anyway we sold out completely and could have gone on had our baked goods lasted as long as our customers.

Not to bard mothers who are planning a bake sale for the band

on November 22; we had call after call for German chocolate cakes; the banana nut bread went real fast as did the cranberry bread. Small loaves of bread have a greater appeal than the big loaf. Some one brought in a big sheet of uncut brownies and it was snapped up in a wink.

Our greatest delight occurred when one buyer made her third trip to our sale, then we knew we had it made! To our customers: if any item disappoints you call me and we will replace it with the food of your choice. We aim to please and will go to any lengths to keep our loyal customers happy.

Olds Delta 88: That look could make a man lose his little-car mind. Come look.

Step into our big-car world and see what you're missing. A longer, lower look is part of it. So's the room and the larger, easier-to-load trunk. Enjoy a smooth, big-car ride on a 124-inch wheelbase. Rocket

V-8 engines that run on regular gas. New models, new GM safety features. All for very little more than you'd pay for an ordinary car. Your nearby Olds dealer can help you escape.

Escape from the ordinary at your Oldsmobile dealer's.

New top-of-the-line Olds 88: Delta 88 Royale

Austin, Tex.—General election day was a rosy one for statewide Democratic contenders.

Not only did Texas endorse liberal presidential candidate Hubert Humphrey, but also all statewide Democratic standard bearers. No incumbent congressmen lost their jobs and the partisan lineup in the state legislature remained just the way it is.

Preston Smith of Lubbock won the gubernatorial race with about 57% of the votes over his opponent and first-time candidate GOPer Paul Eggers of Wichita Falls.

Ben Barnes, 30, of DeLeon will become the youngest lieutenant governor in history by virtue of his overwhelming triumph over Republican Doug DeCluitt of Waco. Barnes was the top statewide vote-getter on the ballot.

All incumbent statewide officials seeking re-election won handily.

In congressional races, three Republicans seeking new terms had no great trouble, but none of their colleagues seeking to unseat incumbent Democrats was successful. Congressional lineup remains 20

**Barbecued Meat Balls**

GROUND BEEF can be a gourmet delight for patio parties with this delicious recipe:

- GRILLED MEAT BALLS**  
 1 8-oz. can tomato sauce  
 3/4 cup A.I. Sauce  
 2 tsp. vinegar  
 3/4 cup firmly packed brown sugar  
 1 tsp. grated onion  
 2 lbs. ground beef  
 1 3-oz. can chopped mushrooms, drained  
 3/4 cup fine dry breadcrumbs  
 1 1/2 tsp. salt

Combine tomato sauce, A.I., vinegar, sugar and onion. Simmer 5 min., cool. Combine remaining ingredients with 3/4 cup of mixture; mix lightly. Shape into 24 meat balls. Chill 1 hour. Place on lightly greased grill over glowing coals. Grill 10 min., turning once. Brush often with remaining sauce while grilling. Serves 6.

 New Christian Science Radio Series

Democrats to three Republicans.

Eight Republican state House members were elected—four incumbents, four newcomers. Three incumbent GOPers were defeated. Two GOP state senators were re-elected. Lineup remains 142 Democrats to eight Republicans in the House, 29 Democrats to two GOPs in the Senate.

Boasting that no other state can compare with Texas "regarding its support of, loyalty to or victory for the Democratic party," former State Democratic Committee Chairman Will D. Davis observed: "Texas is the most populous state to have a Democratic governor and only one of 10 largest to have solid statewide Democratic administration."

—Texas was the only one in the southern and southwestern regions to give Humphrey plurality; and only Texas, Washington and Hawaii west of the Mississippi voted for the Democratic presidential nominee.

—Texas is the only one in the southern and southwestern regions to give Humphrey plurality; and only Texas, Washington and Hawaii west of the Mississippi voted for the Democratic presidential nominee.

**Most Amendments Defeated**

Voters showed they are in an economy frame of mind in their decisions on 14 proposed state constitutional amendments.

They voted November 5 to cut out the state property tax, but they refused to go along with raising the state's public welfare ceiling from \$60 million to \$75 million a year or to increase legislators salaries from \$4,800 to \$8,400 a year.

Approved were changes in state employees' pension system, university fund investment liberalization, removal of the \$504 a year ceiling on contributions to teacher pensions, wiping out the property tax and clarification of a legislator's eligibility to run for other office by virtue of the termination date of his elective term.

Texas turned thumbs down on tax exemptions for warehouse-stored property, El Paso local governmental consolidations, Dallas road bonds, tax aid for Texarkana tobacco merchants, state contract changes, tax benefits for anti-pollution equipment purchasers and industrial bond issues.

**New Jobs Announced**

Gov.-elect Preston Smith announced as his first staff selection James P. Oliver, formerly of Caldwell, to serve as executive budget director after the new administration takes over in January. Oliver currently serves as assistant director of the Legislative Budget board.

Walter N. Corrigan of San Antonio is new chairman of Texas Research League. C. I. Wall of Amarillo is vice-chairman, and Grogan

Glenn Biggs, formerly of Abilene and one-time executive assistant to House Speaker Barnes, has been appointed president of National Western Life Insurance Company.

**Texas Gets Recreation Funds**

Texas is due to get \$1.7 million of \$45.7 million in funds for acquisition and development of outdoor recreation facilities approved by Bureau of Outdoor Recreation, U. S. Department of Interior.

Allocations are made largely on basis of population, federal resources and programs and out-of-state visitor use. States must match the grants 50-50.

**Blus Law Suit**

Texas Supreme Court has heard the first arguments for and against Penal Code Article 286a, which prohibits the sale of certain listed items—covering just about everything—on consecutive Saturdays and Sundays.

Suit is the State vs. Gibson's Discount Center of Midland, which—the state contends—tried to get around the law by staying open the legal six days then "leasing" its facilities and stocks to another company—created and owned by Gibson's—for the seventh day.

At the local level, a district court judge upheld Gibson's move by saying that the "Blue Law" is unconstitutional, because the items listed in the statute are vague and indefinite.

In its arguments before the court, Gibson's concentrated on allegations that the state's appeal—directly to the Supreme Court from the district court—was improper and should be refused.

High Court will rule on the jurisdictional question before it goes into the substance of the case.

**Loan Bonds Sold**

Coordinating Board, Texas College and University System, sold \$12 million in student loan bonds to Harris Trust and Savings Bank of Chicago at 3.8673% interest.

Money provides assistance to needy students. So far, 29,490 have benefitted from it.

Board also approved fine arts programs at nine schools and administrative reorganization of arts programs at the University of Texas at Arlington and West Texas State. Construction of a \$1.5 million physical education complex at San Angelo State College got authorization, as did the plan for participation in federal aid to campus building.

On December 3, Board will make key decisions on dental education, medical education and North Texas higher education needs.

**Cotton Gin Rider Dumped**

A controversial appropriations bill rider twice vetoed by Gov. John Connally was stricken from a budget draft on motion of Lt. Gov.-elect Ben Barnes.

Barnes got some opposition from House Speaker-designate Rep. Gus Mutscher of Brenham and Rep. W. S. Hestly of Paducah, but Gov.-elect Preston Smith held his motion carried on voice vote.

Rider sought to keep funds from being spent to police air pollution by cotton gins. Mutscher said the problem is significant and is used by politicians to "demagogue." Connally has maintained that the problem caused by gins is major. Barnes argued that the rider is unneeded and is simply a "political factor."

"Plenty of time during the legislative session to work it out," said Smith in sustaining the vote on deletion.

**Short Snorts . . .**

Presiding judge in each precinct has responsibility of determining validity of irregular ballots. Atty. Gen. Crawford Martin has held. Conditions are right for record

quail harvest this year, according to Parks and Wildlife Department experts.

Eighth grade students across the state of Texas will get a closer-than-usual view of their government and how it operates with a new 16 class-hour unit on "You and the Law," developed by the Texas Education Agency.

Savings and Loan Commissioner has set hearings on applications for new loan concerns, one for February 11 on a Longview application and one February 18 on a Brenham application.

State Comptroller reports tax from cigarettes and liquor last month was an increase over the October, 1967, mark.

This Christmas give her a gift she'll never forget

*The Mother's Ring*

The name is registered Reg. No. 681,459 The design is patented U.S. Pat. No. 186,183

In Those Days

Compiled From Success Files ONE YEAR AGO Nov. 16, 1967-Billie Gayl Blaylock was Future Homemakers Girl of the Month.

The Chisholm Trail traveling museum, housed in a railroad car, was making an appearance in San Angelo. The Ozona Lions blanked the Eldorado Eagles 42-0 in the final football game of the '67 season.

FIVE YEARS AGO Nov. 14, 1963-New houses were being built here for Morty Mertz, Norm Cash and Jimmy Doyle. Schleicher voters joined the rest of Texas in voting to retain the Poll Tax, as an amendment election was held.

Genelle McCalla was elected to serve as president of the Campus Service Organization at Abilene Christian College. A daughter was born Nov. 10 in the Sonora hospital to Mr. and Mrs. Charles Schrier. Mikeska Gin reported 2300 bales ginned.

Cheer leaders pictured were Joan Griffin, Christy Moore, Frankie Blaylock, Deanne Hext, and Betsy Bruton. Mrs. Louise Boyd leased the Java Junction Cafe.

John McGregor was named a "Serf" by Cycen Fjodr, honorary organization at Southern Methodist University, in Dallas.

12 YEARS AGO Nov. 15, 1956-Lefty Haynes was getting ready to move to Katy, Texas. He was to be chief engineer of a new plant near there. He was a long-time Shell man.

Interest was running high in a Shallow Oil Field Discovery near the city limits, on the C. C. West estate. Mrs. Jess Koy's funeral was held. Mr. and Mrs. Ed Meador attended Homecoming at SMU, Dallas.

Durward Rutland and family of San Angelo visited with his mother, Mrs. Irene Rutland. Twirlers pictured were Arnie Lee Westbrook, Margo Mittel, Genelle McCalla, Emma Lou Menees, Linda Love, Janis Sofge, and Judy Wyatt. Monetta Bradshaw was drum major.

A daughter was born in Good-fellow hospital to Pfc and Mrs. Joe C. Pate. The L. L. Watsons were hosts at a get-together of Joe Andrews' Sunday School class.

Dr. Frank Royal, pastor of South Side Baptist Church of Abilene, was to address the local P-TA meet.

35 YEARS AGO Nov. 17, 1933-Nov. 30, Thanksgiving Day, was set for the Eldorado Eagles to host the Menard and Sonora football teams.

Judge South of Coleman visited here with R. D. Holt, an old friend, and announced that he would be candidate for Congressman from this district, created by the last Legislature.

Mrs. G. B. Shoemaker advertised that at her Home Grocery Store, 1% of each \$1.00 purchase for the next 30 days would go to the Cemetery Association.

On Nov. 8, a daughter was born to Mr. and Mrs. James Howard Faull. Lawrence Steen was burned slightly as he attempted to rebuild a fire in a stove by pouring in some gasoline. It flashed up and he was burned, but not seriously. His wife was nearby and helped put out the flames.

Jimmy Lowe was new proprietor of the Star Cafe, formerly owned by Roy Leibrick. Mrs. E. C. Hill returned from a visit at Calvert and Miss Mabel Howell returned from a session at A&M.

Miss Cleone Dabney and her grandfather, C. I. Dabney, spent last week end in Ballinger visiting with friends and relatives. At the W. H. McClatchy ranch home nine miles northeast of Eldorado, Miss Mabel McClatchy became the bride of F. R. Hutchins of San Antonio. Rev. W. H. Marshall officiated at the ceremony.

Sonora Juniors Down Little Eagles 28-16 Sonora's Jr High cashed in on Eldorado fumble early in the first quarter and took an 8-0 lead early in the game last Thursday night in Bronco Stadium Another Eldorado fumble set up Sonora's second touchdown just before the first half ended, and Sonora had a 16-0 lead. Early in the third quarter, facing a 4th down and 12 yards to go situation, Sonora's fullback went around his left end 52 yards for Sonora's third touchdown of the game. The conversion try failed, and Sonora led 22-0. Midway in the third quarter the Little Eagles were facing a 4th and 10 on the Sonora 48-yard line. Ken Peters took the snap on a fake punt and went the distance for Eldorado's first score. Mike Manning went over right tackle for the conversion and the score was 22-8 in favor of Sonora. The Little Eagle defense was unable to stop a Sonora scoring drive in the final quarter of the game. After Sonora's touchdown the score was 28-8. Later in the fourth quarter John Rae Powell scored Eldorado's second touchdown on a pass from Hunter Henderson that covered 25 yards. Again Manning went over right tackle for the conversion and ended the scoring at 28-16. Randall O'Harrow stopped a possible Sonora touchdown late in the game when he intercepted a pass on Eldorado's 25 yard line. Also outstanding on defense were Timmy Farris, Roy Gene Lloyd, and Benjie Jay. The Little Eagles host Iraan to-

## Eagles Drop Cliff-Hanger To Broncos

It can happen; it has happened; and it nearly happened again last Friday night when the Eldorado Eagles fought the Sonora Broncos to a standstill for 46½ minutes of their 48-minute football game. The Broncos won the game in the last minute and a half; and it was truly because of "the way the ball bounced" twice.

Here is how it bounced the first time. Sonora was forced to kick near their own 30-yard line. David Wuest got his foot well into the ball and when it hit the ground, it started bouncing towards the Eldorado goal line, finally stopping on/about Eldorado's 20. It was the only time during the ball game that the ball really bounced for Sonora.

Then the second bounce happened like this: Eldorado had the ball with 1½ minutes to go and a lead of two penetrations to one for Sonora. The Eagles ran the first play for short yardage. But on the second play the wet slick football slipped out of two pair of Eagle hands and bounced into a set of Bronco fingers.

At this point in the ball game, All-State Halfback Ed Lee Renfro made his only successful run of the evening, breaking over his own right tackle to score. The try for extra point was good and seconds later the game ended with Sonora out front 7-0.

Statistics show what a hard-fought game it was and what a struggle the underdog Eagles put up:

	Eldo.	Sonora
First downs	6	6
Yds rushing	115	140
Yds passing	3	0
Passes att. & c.	1 of 9	0 of 3
Passes int. by	1	2
Fumbles lost	7	5
Fumbles rec.	5	3
Pen.	3 for 15	1 for 5
Punts & av.	3 for 30	7 for 35

Paul Page captured the Sonora pass while Sam Oglesby captured two Sonora fumbles, and B. Page, Ross Whitten, and Mickey Clark got one each.

James Larry Davis carried the ball 19 times for a bruising 49 yds. Mickey Clark carried 14 times for 43 of these high priced yards. K. Williams, 9 times for 21 yards; Wayne Doyle, 2 times for one yard; and Bob Page, 3 times for 26 yds.

James Larry Davis received the only successful Eagle aerial of the evening.

Coach Sherwood Barker said in a game summary that Eldorado had played probably its best defensive game of the year. He went on to say that this was reflected in the number of tackles various players made. He commended Bob Sykes for his top performance in the game. Coach Barker also commended Dobbie Lively for his punting. He explained that Lively had earned the right to do the kicking in all-team competition the preceding week. Coach Barker concluded that the Eagles just could not move the ball successfully against the tough Bronco defense.

Bob Sykes tabbed 18 tackles in the game while Mickey Clark and Bob Page were second with 14 each. Keith Williams had 10; James Larry Davis, 7; Sam Oglesby, 6; while Wayne Doyle, Roy Jones, and Paul Page got 5 each.

The Eagles held All-Stater Ed L. Renfro to 54 yards for 23 carries, his smallest yardage in a game this season.

A pleasant feature of the game was the sportsmanlike conduct of both teams. Only four offside penalties were called during the whole 48 minutes and it was a "rock-em and sock-em" ball game.

## Historical Society To Meet Tomorrow

The Schleicher County Historical Survey Committee will hold its regular monthly meeting on the third Friday of the month. This falls this Friday, the 15th. The place is the Memorial Building and the time 7:00 p.m. Mrs. Rance McDonald will tell us some interesting facts about Eldorado when she was young. These facts are being gathered from early issues of The Success. She has papers that date back to 1902. Miss Ruth Baker will serve as hostess.

Two state historical markers have been ordered for marking early stage stands in this county. These are not due for several months yet. But we are having some difficulty about the exact spots to place them. The state requires that a known water source be used as proof of location, for the horses had to be watered at these stands. The stands belonged to Mr. Theodore Savell of Sonora, who later sold to his father, A. J. Savell. One stand was just this side of the county line which divides Tom Green from Schleicher; the other was about where the Hensel Mathews ranch house now stands, on the Sonora road. It may be that someone reading this can tell us where the water for the horses came from at these locations. —Sarah Miltia Hill, chmn.

## Legionnaires Promoting Basketball Placard

Members of the Bev McCormick Post of The American Legion were at work this week selling signatures on their annual Basketball Schedule placard.

The placards are to be printed soon at the Success office and then distributed over town in time for the opening of the 1968-69 cage season.

This money-raising project is put on each year at this time by the Legion and proceeds are used for the annual party for county children which is held a few days before Christmas. Santa Claus comes then to assist the Legion members in distributing bags of candy; this is always a highlight of the holiday season here.

## PAR-TEE

Duplicate Bridge is scheduled for Saturday night (Nov. 16) at 7:00 p.m. This week we will meet in the newly decorated club house. The Club House does not have all the luxuries of home, but looks very pretty and is certainly comfortable. So let's everybody come out Saturday night and enjoy the bridge games and the use of the club house.

The crowd was small for the film Saturday night, but those of us who came thoroughly enjoyed seeing "Shell's Wonderful World of Golf." I think the "lady golfers" present learned something from the film. Ralph is planning to get another film in the near future. This time it will probably be Sam Snead and Ben Hogan. This should be a superb film with these two Great Golfers.

As the old saying goes: Better late than never. A report on the Iran tournament on October 26th. We had three golfers to participate in that tournament: Mary Waldron, Mary Robinson and Eddie Mae Kinser. They all had a good time and made a good showing. Eddie Mae won the nine hole flight and received a putter as a trophy. Mary Robinson came in second in the 3rd flight and was presented a dozen golf balls. Winner of the tournament was Mary Jordan from McCamey.

Another late report. Winner of the mixed team play on October 27 with a 2 under was the team of Vernon Rogers, Mary Waldron, Dorothy Barker and Tiny Godwin. In the second spot was the team of Arch Mittel, Mary Robinson, Rose Doyle and Ralph Waldron. Congratulations to you Golfers! Next mixed team play will be November 24th.

This business of Deer hunting certainly interests a lot of people. The surprise of the week came to me when I learned that Pearl Enochs hunted this week end. She doesn't play golf because she does not want to hunt "that little ball" nor does she enjoy "outdoor" sports. How about that, sports fans? Let's face it, some people like to hunt deer, and some people like to play golf, and some people like to play bridge, and some people like to do all three!

It was nice to have the Bill Lester family for a visit this past week end. They came down for the Sonora football game and they, like the rest of the fans, saw a good game and thoroughly enjoyed it. We are all real proud of the Eagles and hope they beat Menard!

The Marshall Pattersons were in town last week end also. It was nice to see them and know they are "well and happy" and that Marcie and her family are now living in San Antonio. I suggested that they move back to Eldorado. They didn't say "no" but then they didn't say "yes" either.

Did you know that Golf Balls make an excellent Christmas gift for a golfer? Name brand golf balls may be purchased at your local golf shop.

Happiness is having the "books" to balance on the first tape.

## MRS. SHIPMAN WINS FINAL DOOR PRIZE

Mrs. W. B. Shipman was winner of the final door prize given by Mrs. Dorris English in connection with her dress shop which was in process of closing out recently. The prize was a brooch and earring set.

Mrs. English has completed closing out her line of women's clothing and planned to spend a week or two in San Angelo with her step-mother, who was to undergo surgery this week. Then she will move back to San Antonio.

## GIRL SCOUT TROOP 150

This week we got our girl scout calendars. Ruthie Dacy our leader took us to some stores to sell some of our calendars for some of the girls that wouldn't get to sell them very easy. Sandra served refreshments. —Rep.

## Mrs. Page To Be Honored At TCU

Ft. Worth, Nov. 14.—Mrs. Woodrow W. (Helen Marie) Page of Eldorado will share in the spotlight at Texas Christian University during 1968 Homecoming activities slated for Nov. 14-16.

A member of the Honor Class of 1948, the former Helen Marie Brown of San Angelo and her college roommate, now Mrs. Fred Campbell of Paint Rock, will be recognized as Coming Home Queen candidates during the weekend events.

Mrs. George V. Ricks of Oklahoma City, the former Ruth Knox, will be honored during half-time ceremonies at the Nov. 16 TCU-Texas game as the 1968 Coming Home Queen. The queen and both candidates, along with their husbands, will occupy a special box for the afternoon game and will be introduced during the Nov. 15 Homecoming show in TCU's Daniel Meyer Coliseum.

A music education major while a TCU student, Mrs. Page was a class favorite two years and was sweetheart of the Horned Frog Band. She was active in Bryson Club, oldest TCU student organization, as well as the Choral Club, Brushes Club and Mu Zeta, a group of coeds majoring or minoring in music.

Mrs. Page, whose husband is an SMU alumnus, is the mother of two children, 16-year-old Bob and 12-year-old Debbie, who hopes to study drama and dancing at TCU.

Two of the Coming Home honoree's nieces, Martha Sue and Mary Ann Page of Eldorado, currently are enrolled at TCU.

## Woman's Club Luncheon Set For Tuesday

The Woman's Club will have a luncheon Tuesday with the district president, Mrs. A. C. Stewart, to be on hand to speak. It will be held at the Memorial Building. Other clubs have been invited.

The last club meeting was held in late October at Mrs. Edwin Jackson's, with a good turnout of members and guests present.

A parliamentary procedure play was presented by Mrs. J. L. Neill, Mrs. Edgar Spencer, Mrs. Granvil Hext, and Mrs. Arch Mittel.

Mrs. R. D. Johnson read her short story, "The Lord and the Democrats" which told of her father working as a sheriff in Tennessee early in this century.

## Medicare Hospital Insurance Benefits

The hospital insurance benefits of Medicare provide for services of three types, according to Ted F. Moellering, manager of the San Angelo social security district office. Benefits are possible when you are (1) a bed patient in a hospital, (2) a bed patient in an extended care facility (skilled nursing home) assigned there by your physician as a follow-up to hospital care, and (3) a patient at home receiving home health services, Mr. Moellering continued. There has been some thought that because you are covered under Medicare up to a certain maximum number of days, you can automatically count on that number of days regardless of your condition. Mr. Moellering went on to say that this is a misunderstanding and that when your condition improves to the extent you no longer require the level of care provided, then your eligibility ceases.

An example of this misunderstanding is the 100 day eligibility in an Extended Care Facility. We are sometimes asked why a certain person was told Medicare would no longer pay for his stay in an Extended Care Facility when he had only been there 50 days and still had 50 days coming. The condition of the patient rather than the number of days is the controlling factor up to the point that the maximum number of days is reached. Coverage ends when his condition is such that he no longer needs the level of care provided by the Extended Care Facility.

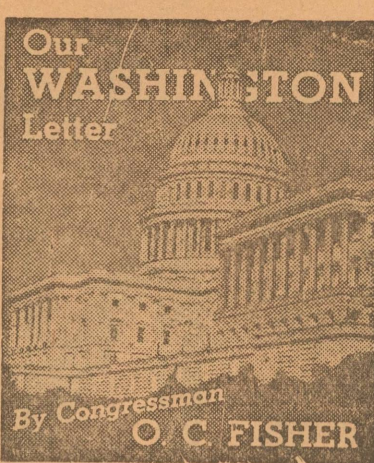

Any question about this or any area of Medicare or Social Security should be resolved by a visit or contact with the Social Security Office located at 3000 West Harris Avenue in San Angelo, or see the representative when he is in your area.

## TREY JACKSON IS SIX

Honoring her son, Trey, on his sixth birthday, Mrs. Edwin M. Jackson Jr. held a party at the family home last Thursday afternoon.

A number of friends were served refreshments and the honoree received a number of nice gifts.

Mrs. J. H. Harvey of Flatonia is visiting here with relatives, including the E. H. Dannheims, Mrs. Blaylock, the Spencers, and other friends and relatives in San Angelo. This Friday, Nov. 15th, she will be 92 years old.

The people have spoken. Mr. Nixon, the next President, has called for national unity, and he is entitled to wholehearted cooperation in striving to achieve this goal. Mr. Humphrey, in a magnanimous response which was in keeping with the best of American traditions, expressed congratulations and a promise of full assistance.

The next Congress will be Democratic, the President a Republican. This partisan division in the government imposes upon the next Congress a special obligation to avoid partisanship in the treatment of all legislative proposals.

While the stage is set for the practice of some petty politics among some in the Congress, it appears likely that a coalition of moderate and conservative-minded Democrats and Republican Congressmen should present working majorities when important decisions are made on Capitol Hill. Under Eisenhower a similar arrangement worked out very well.

In my own case, I express my sincere gratitude for the overwhelming majority given me in the general election. My 31,000-vote margin of victory was a vote of confidence which I shall treat as a mandate to intensify my efforts in behalf of good government in America.

This will be our last newsletter for this year. When the next Congress convenes our weekly releases will be resumed and sent to all who request them. In addition, our weekly five-minute TV and radio reports will be sent to all stations which want them. Last year 18 radio stations and a half dozen TV stations carried them each week.

In the meantime, I extend Holiday Greetings to all. Let us hope and pray for an early and acceptable conclusion of the war in Vietnam, and a genuine spirit of unity and commonsense among our people.

## Oil News

Pennzoil United, Inc., Midland, No. 3 Barrow, section 49, block TT, TC survey, an indicated one-mile northwest extension to Canyon D sand gas production in the Cody Bell multipay area of Schleicher county, 11 miles northwest of Eldorado, was flowing 111,000 cubic feet of gas daily through perforations at 6,544 to 6,546½ feet, after injection of 6,500 gallons of mud acid and 30,000 gallons of fracture fluid.

Earlier, the well made 1.3 million cubic feet of gas daily through initial perforations at 6,541 to 6,551 feet, after being fractured with 3,500 gallons. This section later was squeezed off and the Canyon B zone tested without success through perforations.

Schleicher county gained a discovery recently. James K. Anderson, Midland, recompleted as a lower Strawn gas opener his No. 2 Whitehead Co., former dual Strawn and Goen gas opener one location west-southwest of the depleted Strawn oil opener and lone producer from that pay in the Judyvale field of Schleicher county, 26 miles northeast of Eldorado.

It was finalized for a calculated, absolute open flow of 3.6 million cubic feet of gas per day, with gas-liquid ratio of 107,076-1. Gravity of the liquid was 66 degrees. Production was through perforations at 4,580-582 feet, which had been acidized with 300 gallons. Tubing pressure was 1,174 pounds, with packer on casing. Top of pay was picked at 4,568 feet on ground elevation of 2,331 feet.

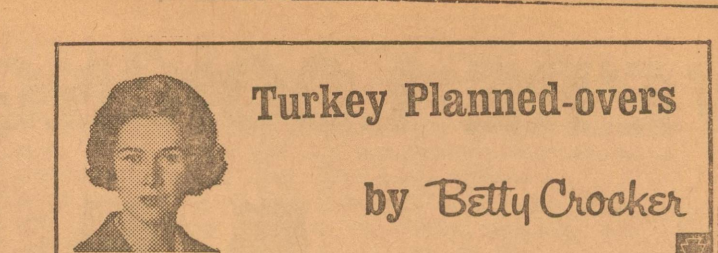

Drilled to 4,809 feet, with 4½-inch casing set at 4,807 feet, it is plugged back to 4,680 feet.

The upper Strawn sand was topped at 4,490 feet; lower Strawn sand, 4,490 feet and the Strawn lime at 4,620 feet.

Original completion was March 29, 1965 for a calculated absolute open flow of 5 million cubic feet of dry gas per day through Strawn perforations at 4,509-13 feet; and dually completed June 22, 1965, for a calculated, absolute open flow of 4.2 million cubic feet of dry gas per day through Goen perforations at 4,773-76 feet.

The Goen zone was abandoned last March and the Strawn zone was abandoned at time of this recompletion.

Location is 1,050 feet from the south and 826 feet from the west lines of 14-H-GH&SA.

Think big when you buy your bird this year. Figure ¼ to ¾ pound ready-to-cook weight per serving plus a generous amount for turkey encores. Now think of the delicious possibilities. Chef's Salad with white turkey meat in julienne strips. Turkey a la King ladled over golden waffles. Grilled Reuben Sandwiches on delicatessen rye. Or combine feast day turkey, vegetables and cranberry sauce all in one for the tasty casserole below. It's a creamed dish topped with tempting, colorful cranberry biscuits. Still more cranberries? Good. Serve the Cranberry Cube Salad, too. Some folks say Thanksgiving foods never tasted so good.

## CRANBERRY WHIRLS OVER TURKEY IN CASSEROLE

2 cans (10½ ounces each) cream of celery soup  
¾ cup milk  
1½ cups cooked vegetables  
3 cups cut-up cooked turkey or chicken  
2 cups New Bisquick  
½ cup milk  
½ cup cranberry sauce

Heat oven to 450°. In saucepan heat soup and milk, stirring frequently. Stir in vegetables and turkey; heat through. Combine New Bisquick and water. Stir with fork to a soft dough. Gently smooth dough into a ball on floured cloth-covered board. Knead 8 to 10 times. Roll into rectangle, 12 x 9 inches; spread with cranberry sauce. Roll up dough, beginning at wide side; cut into 1-inch slices. Pour soup mixture into 3-quart

casserole or 13x9x2-inch pan. Place slices cut side down on hot soup mixture. Bake about 20 minutes or until Cranberry Whirls are golden brown. 6 to 8 servings.

## CRANBERRY CUBE SALAD

1 package (3 ounces) fruit-flavored gelatin  
1½ cups boiling water  
1 cup cranberry sauce, cut into cubes  
½ cup chopped celery  
1 can (8 ¾ ounces) pineapple tidbits, drained  
1½ teaspoons lemon juice  
½ teaspoon grated lemon peel  
Mayonnaise

Dissolve gelatin in water. Chill until slightly thickened. Fold in remaining ingredients except mayonnaise. Chill until set. Serve with mayonnaise. 6 servings.

The A. J. Mann family moved during the week end to Oklahoma City.

## News of the Sick

John Stigler was taken to Shannon hospital Tuesday night when he became ill. There was no report Wednesday on how he was doing. He is long-time operator of a jewelry store here.

Mrs. Mattie Cozzens, who has been a resident of a rest home in Midland for some time, fell last week and broke her hip. She had surgery Thursday and is a patient in Midland Memorial Hospital.

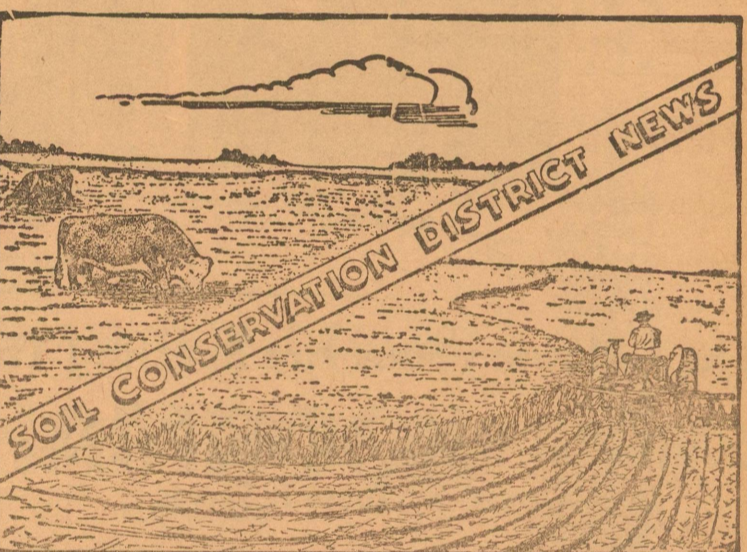

## HOSPITAL BOARD MEETS

Hospital board directors met in brief session Monday night and voted to secure bids on office machines.

It is revealed that the contractor is expected to complete his work by Christmas after which several weeks of housekeeping will be necessary before the institution is open for business.

Mr. and Mrs. J. D. Barker, Jr., of Angleton, Texas, were week end guests of the Sherwood Barkers and Jamie Lyn. They came for the Sonora-Eldorado game on Friday.

Texas Almanac at Success.

## Board of Supervisors of the Eldorado-Divide S.C.D.

Voy Lee Butts ..... Chairman  
George Humphrey ..... Vice-Chairman  
Walter C. Pope III ..... Secretary  
Otis Deal ..... Member  
Milton Rathbone ..... Member

The harvest of all crops in the Eldorado-Divide Soil and Water Conservation District will soon be completed. This year's crops are better throughout the District than they have been in several years. The good yields can be attributed in part, to the soil, water and plant conservation practices applied and maintained on the land.

There are few years if any, that level closed end terraces fail to benefit crops in this area. Even in years that rainfall received falls slowly, whereby there is little runoff, terraces and the area immediately above each terrace produce the best crops.

Level closed end terraces are needed on all dry cropland in the District to conserve the maximum amount of water for crop use. Some years the rainfall is of low intensity and amount, whereby the water goes into the soil where it falls. The rains of high intensity in which several inches fall, are the ones that make terraces needed. Since crops are benefited by terraces in years that water is held that would have run off the land, and since terraces do not decrease yields in low rainfall years, it is imperative that terraces be constructed and maintained.

Farmers throughout the District have already started preparing land for next year's crops. In the process of preparing land for next year, things can be done that will help hold the rainfall on the land where it falls. Fields with level terraces should not be considered prepared for the next crop until the needed maintenance is completed on the terraces. Without the necessary maintenance on terraces and their end-closures, they can become harmful rather than beneficial to the land.

Terrace maintenance should be given the same consideration as preparing the land for the next crop. Maintenance work should be

come a part of the yearly farming operations as soon as new terraces are completed. New terraces usually require little maintenance work the first year following conservation. However, if excessive rains have been received, causing damage to terraces and their end-closures, it is very important that the needed repair and maintenance be done.

Terrace maintenance and repair can usually be done with farm equipment that it already on the farm. Fills can be made with a tractor drawn scraper. Also, a grader blade bolted on the bedder foot pieces with a board bolted on the bedder foot pieces with a board bolted above grader blade, used to make needed fills and add more height and width to terraces. The one way plow is probably used more than any other implement in doing terrace maintenance work. By starting at the top of the terrace and back-furrowing out past the terrace borrow pit more height and width is added to the terrace. This operation can be repeated until needed height and width has been obtained.

Farmers in the Eldorado-Divide S&WCD can only hope that enough rainfall will be received for a good crop in 1969. However, every farmer can do something more than hope that all the rainfall will be held where it falls for crop use. The application and maintenance of all the needed soil, water and plant conservation practices will assure the maximum amount of rainfall held where it falls for best crop yields.

Assistance is available from technicians of the Soil Conservation Service in checking terraces for needed height and end-closures. Assistance in planning and applying the needed conservation practices is also available from technicians of the SCS assisting the District.

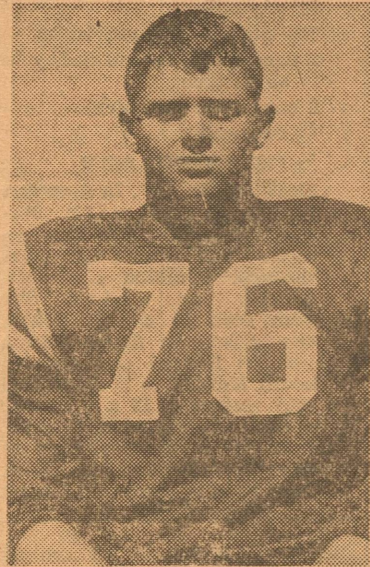

# WE'RE LOOKING TO THE 1968 EAGLES TO BEAT MENARD
