Number 3

Jr. Livestock Show Set For Jan. 25th

The 43rd annual Schleicher Co. Junior Livestock Show will begin at 8:00 a.m. Saturday with judging in the Fat Lamb Division of the Show at the County Livestock Center south of town.

Judge for the Show will be Peaberry White of Fort Stockton.

Following the showing of four classes of fat lambs, 3 classes of registered sheep, fat calves, pen of 3 range ewes and registered heifers. A barbecue will be served by the 4-H and FFA leadership club and 4-H and FFA mothers at noon.

Auctioneer will be B. L. Blake-way and Nathan Donsky for the fat lambs and swine.

Trophies, cash awards and ribbons will be awarded to winners in the show.

Ronnie Mittel and Howard Derrick will make the awards.

Livestock Show Committee includes Billy McCravery, Jim Martin, Bill Maness, Ronnie Mittel and W. F. Edmiston.

Publicity Committee members are Bill Gunstead, Mrs. E. L. Carlman and Billy McCravery; Auction, W. F. Edmiston, Nathan Donsky, Billy McCravery, Henry Speck Jr.; Food Committee, Mrs. Helen Maness, chairman; Mrs. John Rae Powell, co-chairman; Weighing Committee, Henry Speck Jr., John Rae Powell and Glynn Hill.

Announcers will be Ronnie Mittel and Billy McCravery.

Show Ring Assistants: C. S. Schooley, Lee Roy Hanusch, W. D. Hubble.

Post Script

It seems that we've had more inquiries in the past week or so about housing.

Of course it is not a boom, but a number of new employees have been given jobs here and there around town. One man who is in the broker business said that there are less good vacant houses available now than in some time.

Then there are some good vacant houses in town, but they are for sale—not for rent.

Often when newcomers arrive in town looking for housing, they call at the local newspaper office. We always try to direct them to the people who have property for rent or sale.

If owners will keep us informed what they have to offer, we'll gladly direct these people to you. (No charge.)

—ps—

With our hospital getting into operation in the next six weeks (?) it will provide another inducement for other people to make their home here.

—ps—

This week we overheard two men talking about crime in the cities—even in Angelo where there is a robbery reported every day or so—and one of them, an oil company superintendent, declared—

"By God I wouldn't want to live in those places. I'd rather be in a small town just like this!"

—ps—

Okkeh—Eldorado has room for good many more, without crowding.

—ps—

As the Tareton cigarette man always says, "Let's face it," Eldorado people can never expect a boom, but it could become the home of several thousand friendly, thrifty people—and not a single gangster among them.

—ps—

Wonder if you noticed the news about Robert Lee? They voted more bonds last week for a large addition to their nursing home.

Menard did the same thing last summer.

—ps—

Schleicher people might just as well get ready. If all predictions prove to be true, our nursing wing is going to be all too small, and before the year is out a demand will go up for an additional large wing.

From all indications, not just in this area but all over the country, nursing homes are becoming the thing of the future.

I believe we've got a good thing going.

—ps—

Eldorado, like so many rural towns of its size, has heard complaints in recent years about lack of job opportunities, and the hospital should go a long way in starting a trend in the other direction.

—ps—

The "Guide To Official Texas Historical Markers" has been published and distributed by the Texas Historical Foundation, in cooperation with the Texas State Historical Survey Committee.

All town and cities are listed in alphabetical order with their sites of historical interest.

Four markers in and close to Eldorado are listed as:

Captain Gustav Schleicher, Court-house grounds;
Col. Black Ranch House, 33 mi E on State 29;
Mr. C. C. Doty, 12.5 mi N on Hwy 277;
Old Courthouse and Jail, Court-house Square.

A fifth marker placed just a few months ago in this county is also on North 277, and is near the site of the community of Verand. This marker will no doubt be included in a future edition of the directory.

—ps—

With our subscribers:
Dr. and Mrs. J. E. Brame have entered a new subscription for Mr. and Mrs. Herman Shelby of 2010 Nottingham, Pasadena, Tex. 77502.

Rusty Meador, who has been at SMU in Dallas, is taking a course at Lackland Air Force Base near San Antonio and he will be there for the coming 15 weeks. His address there is:

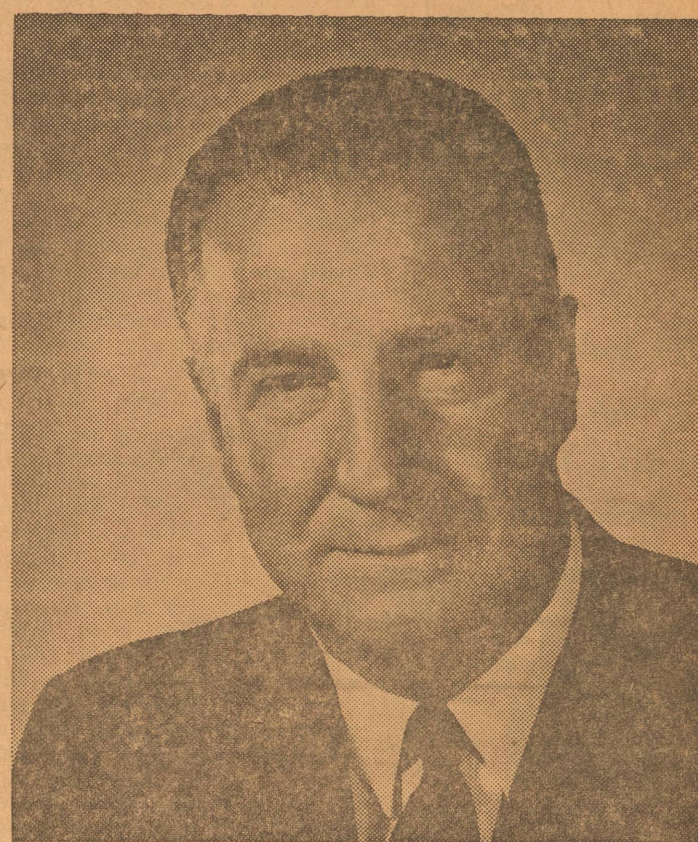

AB John D Meador AF25988374
CMR No. 3, SQ 3706 BMTS
Flight G-231
Lackland AFB, Texas 78236

Mrs. J. A. Griffin entered a new subscription recently for Mrs. James Bracken at 13023 Elmcraft, Norwalk, Calif 90651.

Funeral Last Week For Mertie Galbreath

Mrs. Leslie (Mertie) Galbreath, 72, died Wednesday, Jan. 8 in the Shannon hospital in San Angelo, following an illness of about two months.

Funeral services were held at 3:00 p.m., Thursday in First Baptist Church in Eldorado with interment in Eldorado cemetery.

Lillian Louise Graf was born November 7, 1896 in Mason, the daughter of Mr. and Mrs. Wm. Graf. She grew up in Mason and was married to Leslie Galbreath in 1912. The couple lived in Brady for about ten years and then moved to Schleicher county in 1924 where they engaged in ranching until his death in September, 1954.

The family were members of the Baptist church of which she was a faithful worker.

Survivors include two sons, Billy Galbreath of Sonora and Bobbie Galbreath of Ozona; a brother, Herbert Graf of Eldorado and five grandchildren.

From Out Of Town

Included among those attending the funeral from out of town were:

From Rocksprings: Mr. and Mrs. E. W. Searly, Mr. and Mrs. Crawford Mitchell, Mr. and Mrs. Red Dunbar, Mr. and Mrs. Allan Dunbar.

From Brady: Mr. and Mrs. Paul Johnson and Mrs. Pete Neuman.

Sonora: Gene Wallace, Mrs. Libby Lowe, Lin Hicks, Mrs. Dennis Fisher, Mrs. Melvin Hearn, Si Loeffler, Dr. Joe David Ross, Rev. Ross Welch, Mrs. Dorothy Baker, Mr. and Mrs. John L. Miller.

Also Mrs. Tobe Whitley of Montell, Texas, and Mrs. Oneita Smith of San Angelo.

Carl Porter Receiving Out-Patient Treatments

Carl Porter was released last week end from Scott and White Hospital in Temple where he had been confined as a patient since his gunshot injury sustained during the Christmas holidays.

He is now staying with his grandparents at Lampasas and is receiving treatments as an out-patient at the hospital every other day. He is expected to begin plastic surgery treatments soon.

Carl is the son of Mr. and Mrs. Clay Porter and is a Junior in Eldorado High School.

Carl is still getting his mail at Scott and White hospital in Temple. He is scheduled to undergo plastic surgery there on January 28th.

Mrs. Clay Porter was back in Eldorado this week to spend a few days. She expects to return later to Lampasas and Temple.

Cardboard 10c & 20c, Success

District Play Opens Here Friday

The first and biggest hurdle for the Eldorado girls in winning their third district championship in a row, will be the Mason Punchers. Eldorado will entertain them in Eagle Gym tomorrow night. Mason has been the favorite to capture the title since they have just returned from Class AA and they are reported to have a fairly tall team and seem to score well.

However, Eldorado has come on very well since Christmas and will certainly contest anyone who stands between them and the district championship. Dale Montgomery, Kathleen O'Harrow, Linda Derrick, Loretta Schooley, Peggy Hill, Randy Yates, and Patty Page can provide the scoring. The defense offered by Donna Davis, Lisa Whitten, Claudia Meador, Mary Lynn McCalla, Sheri Roberts, Lisa McAngus, and Gay Lynn Richardson will do their best to hold the purple attack down.

Opening at home is an advantage for the Eaglettes. A win would put the green in a very good position because they will then play Eden, Junction, and Sonora before going to Menard for another tough one.

The "B" boys will start the night and the girls will play about 6:30 with the "A" boys following.

Community Action Rents Office Space

The recently organized Community Action Council has set up office in the building on the San Angelo highway near the Catholic Church.

The location is on the north edge of Eldorado and old-timers recall the building as the Rock Station.

Lynn Meador is on the job as director. Mrs. Lupe Robledo is clerk typist and Mrs. Gloria Rodriguez is aide.

The Community Action Council is the local organization of the Office of Economic Opportunity and has as its purpose the procuring of more jobs for low-income families.

ALVAREZ FUNERAL TUESDAY

Funeral services were held at 3:30 Tuesday afternoon in the Catholic church for Mary Ellen Alvarez, age 3.

The child died Monday night when she hung her head in a play pen.

Her survivors include her father, Joe Alvarez, who works for Winston Sheen.

Interment was made in Eldorado cemetery under direction of Ratliff Kerbow Funeral Home.

Mr. and Mrs. Tony Kerr and daughters Leslie and Tracy of El Paso were visitors here during the Christmas holidays.

SALES PADS for sale at the Success office.

New Mechanic For Eagle Chevrolet-Olds

Lonnie Boyd is moving here from Menard and will be new mechanic at the Eagle Chevrolet-Olds, it was announced this week by Jim Thornton, manager.

Mr. Boyd, his wife Mitilda, and son Donnie, were in process of finding a house here this week and will move here this week end. Donnie is a Junior in high school. The Boyds also have two older married children.

The family are members of the Church of Christ.

Mr. Boyd has had 15 years' experience as a Chevrolet mechanic in Abilene and Menard.

S. S. MAN COMING FRIDAY

Bob Logan, Field Representative for the San Angelo Social Security Office, has scheduled his January visit to Eldorado. He will be at the County Courthouse on Friday, January 17, from 9:00 to 10:30 a.m.

Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Funeral Held Friday For Mrs. Shugart, 83

Mrs. Bertha Mae Shugart, 83, mother of Mrs. Leslie Baker of Eldorado, died Wednesday of last week in Irving after an illness.

Funeral services were held Friday at 2:00 p.m. in the First United Methodist Church in Eldorado with burial in the cemetery here.

She was born March 23, 1885. She was married to L. J. Shugart Jan. 29, 1902 in Valley Springs.

Survivors include two daughters, Mrs. Baker of Eldorado and Mrs. Glenn Spann of Irving; a son, Jack Shugart of Fort Stockton; seven grandchildren and six great-grandchildren.

MARRIED SATURDAY

Mr. Sam McGinnes and Mrs. Ruth Currie Williams were married Saturday night at the First Methodist Church with Rev. Salter officiating.

They were attended by her daughter and husband, Mr. and Mrs. Kyle Neill of Midland and Mr. and Mrs. Elton McGinnes.

New Men At Work For Haley Transports

Mr. and Mrs. Paul Haley have announced some staff changes at their Haley Transports in recent weeks.

James Lane of Fort McKavett has gone to work as mechanic and will move a trailer house soon to a lot he bought from Fred Watson. Earl Yates retired from Halliburton and went to work Monday for the Haleys.

Troy Cowser has moved here from Odessa and will operate the Haleys' new kiln truck. He has rented the Arnie Lee Westbrook house near the new hospital.

Art Smith has moved here as a new welder. He has been here for about two months and is in one of Mrs. McDonald's houses.

P-TA MEETING POSTPONED

The meeting of the Eldorado Parent-Teacher Association that was set for Jan. 20th has been postponed to Feb. 13th at 10 a.m.

The program on Feb. 13 will feature the Exchange Students from Turkey and Finland.

GALA FESTIVITIES TO MARK INAUGURAL OF NEW TOP TEXAS OFFICIALS TUESDAY

Austin, Tex.—Musical notes and the shuffle of marchers will reverberate along the inaugural parade route January 21 as groups from throughout Texas provide the sights and sounds following oaths of office for Gov. Preston Smith and Lt. Gov. Ben Barnes.

The bands are among the 56 units which have accepted the special invitation to participate in the traditional Governor's Parade.

Starting time for the parade up Congress Avenue is 3:00 p.m. The parade is expected to continue for about two hours, according to Brig. Gen. James M. Rose, co-chairman of the parade committee.

"We are planning the biggest and best parade and inaugural festivities in the history of Texas," Gen. Rose said. According to just released figures the 56 parade units

will include involvement of more than 4,200 persons.

Maj. Gen. Thomas S. Bishop, state adjutant general, will again serve as parade marshal. Gen. Bishop served in this same capacity at the first inauguration of Gov. John Connally in 1962.

In addition to the marching bands, a special effort has been made to have as many college, high school and academy drill teams of all types, drum and bugle corps, horse mounted posses, quadrilles, rodeo clubs and other specialty type groups perform in the parade.

Already accepting are the world-famed Henderson Junior College entourage; Las Senioritas de las Rosas of Odessa College; the renowned "Show Band of the Southwest"—The University of Texas' 300-piece marching band; Prairie

View A&M College's Marching Band, Naval ROTC Marching unit and the Army ROTC Pershing Rifles; Southwest Texas State College Band organization consisting of four elements; Texas A&M University's Ross Volunteers; Texas Southern University and Texas Tech's 200-member band, ROTC, AF ROTC and Red Raider.

Five sheriffs' posses are planning to be counted with their horses and decorative uniforms.

Also included in the parade at present are 14 gaily decorated floats representing Bucaneer Days at Corpus Christi, Aqua Festival of Austin, Dallas, Fort Worth, Alabama Coushatta Indian Reservation of East Texas, Abilene, San Angelo, Bandera, Outdoor Drama Texas of Canyon, Galveston, Fiesta San Antonio, Lower Rio Grande Valley float, Lubbock and New Braunfels.

Two military bands—the 236th Army-Guard—will add to the musical accompaniment during the parade. There will be one military academy represented in the extravaganza—from Allen Academy of Bryan.

Six National Guard units will march.

The 20 high schools so far are sending bands to the parade including six from Austin, Anderson, Austin, Crockett, Lanier, McCallum and Reagan; Bangs, Brownwood, Canton, Coleman, Comanche, Coronado High of Lubbock, De Leon, Del Rio, Dunbar High of Lubbock, Estacada High of Lubbock, Holiday, Lubbock High of Lubbock, Monterey High of Lubbock and Mount Pleasant.

Dr. Elmer C. Baum and Ben Ramsey serve as general chairmen of the inaugural committee. Serving with Gen. Rose as co-chairman of the parade is H. C. Pittman. Members of the committee include Joe A. Atkinson, Dr. John King, Fred Niemann, John D. Reed and C. B. Smith, Sr.

DAR Meets Today At Memorial Building

The El Dorado Chapter of the NSDAR will have its first meeting of 1969 on January 16 at the Memorial Building.

Mmes. Mary Davis Coupe and Elizabeth Rae Powell will have the arrangements of the social hour in charge.

The inspiration will be given by Mrs. W. N. Ramsay, following which she will lead in the Pledge of Allegiance to the Flag of the United States of America and the singing of The National Anthem.

Mrs. Ernest S. Goens, regent, will preside at the business session which will include the election of officers for 1969-70.

As always, Mrs. Goens will read the monthly message from the President General, NSDAR, Mrs. Erwin Frees Seimes, who wrote: "Let us together work for happiness, peace, and hope for all we, as Daughters of the American Revolution do, singly and together, for the betterment and advancement of our goals and our Country."

The program chairman for the day will be Mrs. J. E. Hill who will present the National Defense Chairman, Mrs. Powell, speaker for the day.

COUNTY AGENT'S COLUMN

by *Tiny Godwin*

Schleicher County Agricultural Agent

The major pruning on shade trees should be done during the winter months, while the trees are dormant. Before pruning any tree, make sure that you have a justifiable reason for performing the operation. Think through what you are trying to accomplish by pruning and take the necessary steps to carry out your objectives.

What are the purposes of pruning? First and foremost is to maintain a strong framework for the future development of the tree. Other reasons are to reduce the size or to keep them within specific bounds. To remove dead, diseased, or weak growth as well as broken limbs and rubbing branches. Another reason is to improve the size and quality of flowers and fruit. The final reason is to balance the top growth with the root system at transplanting time.

Unless pruning can be justified for one of these reasons it is better to place the shears and saw in the shed and obtain the desired exercise by spading a flowerbed.

Some of the general principles that will apply when pruning shade trees include the removal of all dead or diseased wood, broken limbs, and weak growth. Shorten or remove entirely long unsightly branches as they offer too much resistance to the wind and are frequently subject to storm damage.

Never stub back limbs or branches. Rather, cut back to a main branch or trunk so that there will be no stubs remaining. The so-called "stubbing back" or topping large branches will result in a proliferation of sucker growth and leave a wound that is impossible to heal.

School Menus

- Thursday, Jan. 16: Chicken fried steak and gravy, creamed potatoes, whole kernel corn, celery stuffed with peanut butter, buttered rolls, milk, fruit cobbler.
- Friday, Jan. 17: Hot dogs with/without chili, potato salad, cheese strips, milk, peanut butter cookies, orange halves.
- Monday, Jan. 20: Ground pork balls in Swiss sauce, pinto beans, Spanish rice, tossed green salad, buttered rolls, milk, canned fruit.
- Tuesday, Jan. 21: Roast beef and gravy, buttered rice, green beans, harvard beets, buttered rolls, milk, chocolate cake.
- Wed., Jan. 22: Hamburgers, lettuce and tomato slices, potato chips, English pea salad, fresh fruit cup, milk, cookies.
- Thursday, Jan. 23: Turkey tetrazzini, tossed green salad, black-eyed peas, buttered rolls, milk, white cake, chocolate icing.
- Friday, Jan. 24: Fish fillets, macaroni and cheese, mixed greens, peach halves, buttered rolls, milk, ice cream.

SCRATCH PADS—Odd sizes and colors, 40c pound, mix or match

To protect pruning cuts and prevent the entry of disease and insect organisms all cuts over one inch in diameter should be painted with a special tree paint obtainable at all garden stores or nursery sales yards. For temporary treatment of a wound, a coat of shellac will give four to six weeks of protection.

The homeowner can frequently handle the pruning operation himself if the work can be reached from a ladder. If your trees are quite large or need extensive work, it is best to hire a professional arborist or tree surgeon. He will have the necessary tools and training to do the job correctly and safely.

If there is evidence of disease in the trees or shrub being pruned, it is important that after each cut the pruning equipment be dipped in a disinfectant to kill the disease organisms to prevent their spread to other portions of the tree or even to other trees. A 10% household bleach solution makes a very satisfactory disinfectant. This can be prepared by mixing one part of bleach to nine parts of water. Dip the pruning equipment after each cut is made.

The past year is gone. It belongs to the ages. We are alive and the future belongs to us.

All our mistakes and failures, our jealousies and heartbreaks, our wounds and bruises. All the whole league of temporary miseries that make life sad and weary are gone, swallowed up in that big black hole we call the past.

Therefore, in so far as humanly possible, let us drop the past as we might a night garment, and put on fresh clean clothes of hope. Let us wash our faces in the cool waters of faith.

Enjoy your life without comparing it with that of others.

An agreement between the U. S. Department of Agriculture and the Texas Agricultural Experiment Station has resulted in a \$42,930 research project to study the sunflower moth. The insect is a major problem in the production of commercial sunflower seed in Texas. A&M Entomologist Neal M. Randolph will direct the 2½-year study. This moth decreased yield 3-500 pounds per acre on the Billy Williams sunflower project new crops projects for Schleicher county. In money this was a loss of \$10.00 to \$17.50 per acre. Due to this moth damage, profit for Billy as it was was held to \$34.50 profit per acre, after specified costs.

Agricultural quarantine inspectors work with other Government agencies at the nation's airports, seaports and border crossings to keep out destructive foreign plants and animal pests and diseases. Last year they stopped an inbound foreign plant pest an average of once every 12 minutes and seized nearly 125,000 pounds of foreign meat from countries known to have such

NEW MECHANIC

We are pleased to announce that Mr. LONNIE BOYD has been hired as new mechanic and will be on the job here starting Monday, January 20th. He worked seven years as Chevrolet mechanic at Menard and before that time worked eight years at Western Chevrolet in Abilene. With his 15 years of experience as a Chevrolet mechanic, he is well qualified to join our mechanical staff.

Richard Kent is shop foreman, Charles Blair is mechanic and Junior Lozano is also continuing in our back shop. All our staff is well qualified to handle your automotive repair needs.

Your patronage is appreciated.

Eagle Chevrolet - Olds

Jim Thornton and Paul Page

dreaded animal diseases as foot-and mouth and rinderpest.

The 11th annual statewide conference for Texas county judges and commissioners will be held Feb. 5-7 at the Ramada Inn in College Station. Sponsors of the conference are the County Judges and Commissioners Association of Texas and the Texas Agricultural Extension Service. The program will feature speakers and panels on subjects of primary importance to the conferees.

Judge Tom Ratliff and County Commissioners McCalla, Chaffin, Kinser and Dannheim have been extended invitations by their association and the Texas Agricultural Extension Service.

A breed of sheep from Finland, noted for producing multiple births, has been introduced to the U.S. and will be used in cross-breeding experiments in an effort to improve lambing rates. The sheep now in quarantine will be used in Agricultural Research Stations at Beltsville, Md., Clay Center, Neb. and Dubois, Idaho.

Finnish Landrace sheep usually produce an average of 2 to 4 lambs per lambing. It takes approximately a 100% lamb crop to break even in the sheep industry in 1969. Multiple lambing is becoming more important than ever, in the long run means more meat and wool, and more total income per ewe.

Read about the 43rd annual Schleicher County Junior Livestock Show this week in the Success.

Meeting will be the order of the day, for this week and next for the committees listed. Meetings are only starters; working together a successful livestock show is expected.

An over-all meeting of committees and parents of 4-H and FFA youth will be held Monday, Jan. 20 at the Agricultural Room, Agriculture Building at 7:00.

Keep your fears to yourself but share your courage with others.

Home Demonstration Agent's Column

By MRS. VIDA KREKLOW

I hope that you did not throw the guarantees for your new Christmas appliances away with the Christmas wrappings. They could come in handy later on. And now that you have had time to read the instruction books take another look for good measure and then file with the guarantees.

The manufacturer furnishes a card indicating the date of purchase and the dealer's name with each article. Fill this card in and mail it soon; sometimes it's the only means of protecting your guarantee.

I had occasion to learn a small lesson about guarantees last summer. A water jet tooth spray purchased in December quit working in July. Being mechanically curious I took out a couple of screws and saw that the damage, a split plastic washer, would have to be repaired at the factory and sent it in. Thinking to save postage costs I returned only the damaged section and that's where I made the mistake. The company repaired the mechanism, returned it and charged for their work. Their reason for charging was that the spray had been "tampered" with thus nullifying the guarantee.

They didn't know that I was just trying to be nice and that it never crossed my mind to "tamper" with their product.

So, if something quits working just bundle it up and send it back—if of course the right size—and save the high cost of tampering.

Just think! The bill was \$5.48.

As I checked the file on the latest methods of doing the laundry I came across these instructions from another day and another era. If you don't remember the time, use your imagination; it was sometimes imagination that brought us from that day to this one.

Here is a verbatim, spelling and all, copy of the advice penned by a pioneer Midwestern mother to her daughter:

1. Build a fire in the back yard and set a kettle of rain water.
2. Set tubs so smoke won't blow in eyes if wind is pert.
3. Shave one hole cake lie sope in billing water.
4. Sort things. Make three piles, 1 pile white, 1 pile cullord, 1 pile britches and rags.
5. Stir flour in cold water to smooth, then thin down with billing water.
6. Rub dirty spots on bord, then bile. Rub cullord but don't bile. Just rench and starch.
7. Take white things out with broom handle, then rench, blew and starch.
8. Spread tee towels on grass.
9. Hang old rags on fense.
10. Pour rench water in flower bed.
11. Scrub porch with soapy water.
12. Turn tub upside down.
13. Go put on clean dress, smooth hair with side comb, brew cup of

tea, set and rest and count your biessings.

I expect that after such an ordeal most of us would be too out of breath to even count, much less to build a fire in the stove, lift the heavy teakettle and brew a cup of tea.

Now could we have had cold water washing materials like we do today of course the story would have been different. Would have saved all the fire for the "biling" for one thing.

Cold water washing is not only possible today, it is a successful method of safely and effectively doing the home laundry. There is one type of soil, however, which is not effectively removed with cold water compounds and that's the oil and grease from machinery. These stains need hot water but cold water compounds are still effective in hot water.

Cold water washing offers several advantages: It is safe; no bacterial count if dried in a tumble dryer at 160 degrees F.

Produces fewer wrinkles, better for polyester and nylon knits and permanent press garments.

Cold water washing prevents certain stains from setting, stains such as milk, egg, blood and other protein stains can become permanent if washed in hot water.

Garments do not wrinkle badly, do not fade as easily. Besides all of this just think of the hot water that can be saved and for those whose washing quarters are not convenient to hot water plumbing this cold water way could be the finest thing that ever happened. A little hard to believe? Well, maybe so but all this has been researched, tried and tested by A&M University and they are a reliable lot.

Don't see how it could work? Don't worry they brought the astronauts back and I don't see how that could work either.

During the Christmas holidays a friend told me of a sauce which she invented for use on frozen green beans. She used a can of Cheddar Cheese Soup and added to it a small can of green chilies, chopped. The report was that the beans were wonderful and that sauce which was left over made an excellent dip for crackers or corn chips. Don't forget this—it is easy to make and it works.

Spices and herbs lose their true flavor and aroma if kept for too long a period of time. Extension foods and nutrition specialists advise to check those tag ends of spices and herbs by giving them a sniff test. You'll probably find the remnants of their characteristic aroma. But compare the old supply with a newly purchased stock and you'll quickly become aware of the difference in freshness and strength. To keep all spices and herbs fresh longer, close containers promptly after each use and store away from heat and direct sunlight.

If a few drops of lemon juice are required for a recipe, just stick a fork in one end of a lemon and squeeze out the needed juice instead of cutting the whole lemon in half, say Extension food and nutrition specialists.

Add a cup of crushed cornflakes to a favorite chocolate chip cookie recipe for an extra crisp cookie, suggests Extension food and nutrition specialists.

Try a new flavor for pot roasts or meat loaves by basting them during cooking with the spiced vinegar left over from canned sweet pickles, suggests Extension food and nutrition specialists.

Did you ever wonder what makes butter yellow? It's carotene, answers Extension food and nutrition specialists. That's a yellow pigment that's very rich in vitamin A. Your body converts it into vitamin A and stores until needed. Vitamin A is an absolute "must" for growth, healthy skin, and the maintenance of healthy tissues for resistance to infection. And butter is especially rich in vitamin A because it contains the vitamin both in its natural form and in the form of the yellow pigment, carotene.

Officers Announced For Fire Department

The following new officers were elected to The Eldorado Fire Department at their regular meeting:

Chief _____ B. L. Blakeway
 2nd Chief _____ Lum Davis
 Pres. _____ H. W. Scott
 Vice Pres. _____ Jimmy Doyle
 Sec. Treas. _____ L. D. Mund
 Sheriff _____ R. V. Sheppard
 Deputy _____ Pat Wester
 Local Reporter _____ John Pitts
 State Reporter _____ Jimmy Harris
 Chaplain _____ Clifford Schooley
 Fire Mother _____ Mrs. Lum Davis
 Senior Sponsor _____ Mrs. Flora Hubble
 Junior Sponsor _____ Sheila K. Redwine
 Sweetheart _____ Loretta Schooley
 Mascot _____ Bill Clark
 Fire Marshal _____ Bud Haynes
 Asst. Fire Marshal _____ Palmer West

The meetings are each Tuesday at 7:00 p.m. for January and Feb.

Editorial Comment From Our Neighbors

The Credit Crunch

Now that interest rates have reached their highest levels in a century, the man in the street is almost without a point of reference. He will pay dearly for borrowed money, if he can get it, mostly because his federal government has borrowed too much already.

He may get some small consolation from the possibility that a General Motors executive phoning a big bank for a few million will evoke an awkward silence at the other end of the line. The credit crunch spares no American, big or small.

The man who is asked to pay 9% or better for a housing loan will not be easy to console. Neither will the prospective buyer of a new car or refrigerator, when he looks at interest rates that a few years ago were considered usurious.

But these displeasures must be balanced against the chagrin of those who have seen their life savings reduced to paper half-dollars, and the grief of those on fixed incomes who see their spending power drop month by month.

The Federal Reserve Board has struggled between this rock and hard place, and it has moved to do what any merchant or housewife would do to get a business or household budget back into balance. The Fed is trying to cut down the demand for a limited amount of dollars.

It is a bold experiment. Consistently, beginning with the New Deal, when a demand developed for

more dollars than there were, the government's money men merely increased the supply. This has meant cranking up the printing presses on many occasions, but more often the Fed has multiplied the supply through credit to member banks.

By far the biggest user of this kind of credit of late has been the federal government. The administration chose to buy—but not necessarily to pay for—both the Great Society and the war in Vietnam. When income fell short of expenses, the administration merely borrowed—or in effect created—money to make up the difference. Last fiscal year this amounted to some \$2 billion a month.

A 10% surtax failed to lock the barn door soon enough. And even though President Johnson foresees a balanced budget for the fiscal year that will end in June, the monetary system still suffers a hangover.

While tight money will cause some discomfort and possibly some dislocation in the economy, the Fed's attempt to halt erosion of the dollar's value could, in the long run, prove most beneficial.

But the Fed can't do it alone. The second wave of attack on inflation—which amounts to more and more dollars chasing less and less—must be conducted in the 1969-70 federal budget, which of necessity will be a joint Johnson-Nixon production.

In finality, elimination of a deficit eliminates the need for creating new money to finance one.

In Those Days

ONE YEAR AGO Jan. 18, 1968—Raymond Mittel resigned his position in the local schools effective at mid-term, to accept a Parks and Wildlife job at Kerrville.

J. Gordon Shanklin, special agent with the FBI, was to speak at a P-TA meeting. Rusty Meador, piano student of Joe Kreklow, participated in the young artist competition in San Angelo.

FIVE YEARS AGO Jan. 16, 1964—Cliff Schooley showed his 3rd champion lamb, as the stock show was held here. The Masons set Saturday for ground-breaking for their new temple, just north of the court house.

Sheriff Orval Edmiston announced for re-election. Weatherly Kinser announced for Precinct 1 commissioner. Sam Oglesby was in a Houston hospital.

Paul Page and Jimmy Powell were elected new directors of The First National Bank. Jim Thornton, son-in-law of Mr. and Mrs. John Williams, was taking a Parks job at Wichita Falls, and was moving with his family from Odessa.

Bob Rutledge was taking a job in Sumatra.

12 YEARS AGO Jan. 17, 1957—The 4-H and FFA stock show was coming up Jan. 26th and dedication was set for the newly completed Agricultural Center building south of town.

When President Eisenhower arrived for a tour of drought-stricken West Texas, Joy Dodd was among the welcoming committee near San Angelo.

A daughter was born to Mr. and Mrs. Wallace Joiner. Dr. B. O. Wood gave a program on the life of Billy The Kid at a Lions Club meeting.

E. K. Bauer, jeweler, was having a half-price sale of Postoria crystal. Fambrough Chevrolet agency was opening in its newly completed building on the Angelo highway.

Paris Burnham was leaving for Texas Tech to complete work on his engineering degree after he served as manager of the Wm. Cameron & Co. yard here for about two years. F. V. Everett was on the job as new Cameron manager.

35 YEARS AGO Jan. 19, 1934—Carl Heideman advertised Expert Piano Tuning. The Lone Star Theatre was showing Alice In Wonderland with Charlotte Henry as Alice, and others in the cast including Richard Arlen, Gary Cooper, W. C. Fields, Cary Grant, Baby LeRoy, Jack Oakie, and Edna May Oliver. "They Speak, They Sing, They Dance, They Live."

John H. Luedcke announced for Sheriff and Tax Collector. Iris Glascock of Big Lake became the bride of Kenneth Fowler of this city.

"King Cotton has rallied back to 11c a pound since the New Year has come with promise of better times," said Editor A. T. Wright in his column.

Report was received that Mrs. E. W. Brooks was doing nicely at Santa Anna after undergoing surgery. Light Hoover of Winters visited here with his uncle, L. M. Hoover. In a school assembly, football boys given sweaters were: Junior Isaacs, Joe Turner Hext, R. J. Alexander, Milton Spurgers, Billy Kerr, Aris Carr, Alton Page, Dee DeLong, Felix Susen, Jack Meador, Jack Shugart, Edward Butler, W. B. Gibson, and Richard and John I. Jones.

ELDORADO LODGE No. 890 — A. F. & A. M. Stated meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

CARD OF THANKS

We wish to express our appreciation to all of those who sent flowers and memorials, and for cards and words and deeds that comforted us during the loss of our loved one. We also extend our thanks to all friends who did so much for her during her illness. May God bless all of you. The family of Mertie Galbreath Mr. and Mrs. Herbert Graf and family, and Claudia Galbreath c

CARD OF THANKS

We express our appreciation to all people who visited, sent cards and flowers and food, placed memorials, or who in any other way were so kind and helpful in the recent stay in the hospital and at time of our loss of our husband, father and brother, Jim Cranford. * The Cranford Family

CARD OF THANKS

I want to thank all of our friends and neighbors for the flowers, food, money, cards, memorials, and kindness you gave us before and after the death of our beloved husband and father, Charley. We never realized we had so many friends until we needed you and you were there. In gratitude I'd like to quote one of my favorite poems to you: A Prayer

It is my joy in life to find At every turning of the road The strong arm of a comrade kind To help me onward with my load. And since I have no gold to give, And love alone must make amends, My only prayer is, while I live— God make me worthy of my friends. —Frank D. Sherman. Rina, Gary, Charlene, and Susan Warnock. 1*

Austin, Tex.—Now that the Legislature is back in session, Austin is back to normal. At least it seems normal for Austinites and veteran lawmakers. But 30 of the 34 new members of the 181-member Legislature still are about as confused as a lost child at the state fair.

Two "new House members know their way around very well indeed —Doyle Willis of Fort Worth formerly served in both House and Senate, and Glenn Kothmann of San Antonio also is making a comeback.

Sen. W. E. (Pete) Snelson of Midland served in the Senate in 1965-66, then was redistricted out of business and defeated by former Sen. Dorsey B. Hardeman of San Angelo. Last year, Snelson turned the table for a return match in the upper house. Sen. Ronald Bridges of Corpus Christi was a long-time House member before he defeated the late Sen. Bruce Reagan.

For the other 30 newly-elected legislators it's a brand new ball game. They began work in the usual maelstrom of activity, trying to learn the names and faces all at once of 151 other lawmakers. Also, about the same number of full-time lobbyists, some 300 secretaries and committee clerks, and more than 100 state officials who work with the Legislature.

Texas' stately old Capitol finally has been renovated to provide offices for all members. But finding these offices and committee rooms, scattered all over four stories and basement of a block-long building, is not easy on any newcomer.

For the first couple of weeks, most new members walk everywhere with a diagram of the Capitol in one hand and a list of members' desk numbers in the other.

Activity at the session really won't be heavy until Speaker Gus Mutscher and Lt. Gov. Ben Barnes appoint their committees. And Mutscher has said he won't get to that until about the last week of January. So this first week the big excitement is the upcoming inauguration of Gov. Preston Smith and Barnes.

Inauguration Governor Smith expects more than 4,200 persons in about 100 marching and performing groups to participate in the Inauguration Parade down Congress Avenue at 3:00 p.m. Tuesday, Jan. 21.

At least three times that many will be dancing in six inauguration balls for Smith and Barnes that night. But the Inauguration won't be all frolic. A 7:30 a.m. prayer breakfast at the Terrace Motor Hotel starts the big day. Inaugural ceremonies then take place at noon.

Gas Storage Safety Rep. Charles Jungmichael of La Grange says his House State Affairs subcommittee will ask the Legislature to pass a bill requiring that all service station gasoline storage tanks be located underground.

Recommendation resulted from several subcommittee hearings around the state on recent explosions and fires caused by storage tanks. As the proposal now stands, service stations with above-ground tanks would be given six months to comply with new safety regulations.

Migrant School Program Eight summer weeks of all-day school would be offered the children of migrant workers under a federally-funded migrant school program approved by the State Board of Education.

High school-age students would attend regular summer schools, with the federal government paying tuition fees for families who cannot afford them. An estimated 11,500 children of migrants would participate in the \$16-million summer school program.

Appointments Ben R. Howell of El Paso was named chairman of the state board of education, Paul R. Haas, Corpus Christi, vice-chairman and Paul G. Greenwood, Harlingen, secretary. Dr. J. W. Edgar was named to a new four-year term as commissioner of education.

Dan S. Petty is Governor-elect Smith's director of planning coordination. Outgoing Gov. John Connally, racing to clear his desk, turned loose another flood of appointments which included: Dee J. Kelly, Fort Worth, Jerome Johnson, Amarillo, and Bernard G. Johnson, Houston, to the board of regents, state senior colleges; Randall C. Jackson, Abilene, reappointed to the State Securities Board; Carl C. Anderson, Waco, judge

of the 54th district; Mrs. Jack T. Bowman, San Antonio, Mrs. E. L. Green Jr., Pampa, and Frank B. Appleman, Ft. Worth, re-appointed to the Board of Regents, Texas Woman's University; Sylvan Lang, San Antonio, Mrs. Edwin Singer, Corpus Christi, Mrs. W. R. Hawn, Dallas, and Mrs. Faye Sarafim, Houston, to the Texas Fine Arts Commission; Dr. Thomas R. Williams, Gatesville, to the State Board of Dental Examiners; Dr. Isaac Eugene Willis Jr., Longview, to the State Board of Podiatry Examiners; Dr. Jack Winston, Houston, reappointed to the Dental Board, and Dr. J. C. Litrell, Waco, reappointed to the Podiatry Board.

Joe R. Darnall of Austin was appointed to the legal staff of the Texas Liquor Control Board and Claude L. Webster, formerly of Fort Worth, will handle insurance programs for the Texas Hospital Association.

James F. Ray of San Antonio is the new assistant director of University of Texas Institute of Urban Studies at Arlington.

Boys School Probed

A House investigating committee marched up the hill and back down again in exploring charges of brutality by guards at Gatesville-Mountain View School for Boys.

Juvenile Delinquency panel headed by Rep. Vernon Stewart of Wichita Falls aired allegations in a public hearing. After House Speaker Ben Barnes ordered an on-the-spot midnight check, lie detector tests were ordered for complaining inmates.

Stewart acknowledged two days later that polygraph tests showed the boys were not telling the truth. Guards said they used only what force was necessary to disarm youths of homemade knives after they tried to escape.

Texas Youth Council said the ill-timed probe was damaging to its efforts. Barnes agreed TYC had been unfairly tried in the press. He recommended better pay for school guards, more counseling services for inmates.

Courts Speak . . .

State Supreme Court refused to alter an intermediate court order directing re-trial of a suit brought by the widow of a Pasadena doctor against his onetime hospital partners alleging malicious prosecution.

High court upheld Henderson

county real estate man's claim to a \$6,574 commission on the sale of property on which he had exclusive listing. Decision concluded unenforceability of contract is no defense to action for tortious interference with its performance.

Court of Criminal Appeals reversed four-year sentence given a Beaumont woman for assault to murder because the jury doubled punishment under state law authorizing extra sentence where a knife is used in attack.

Gulf and Western Industries Inc. lost its bid to buy controlling interest in Sinclair Oil Corporation when stockholders of Atlantic Richfield and Sinclair agreed to a merger, says the U. S. District Court here.

Attorney General Rules

Texas laws which permit officials other than the governor to call out state military forces, including the National Guard, without the chief executive's prior approval are unconstitutional, says Atty. Gen. Crawford C. Martin.

In other recent opinions, Martin concluded that: —Independent school district may borrow money from its school depository if a member of the school board is an officer in the bank, providing the board adopts appropriate statute and the officer-member does not vote on the contract. —Houston has fire, safety and police power over the Harris County-Houston Ship Channel Navigation District within corporate limits. Harris county may enforce all state laws in the district, and either the city or the county may bring suit under Texas' clean air or water quality (anti-pollution) acts. District can also sue under the water quality act and has jurisdiction over fire, safety and police powers to the extent that it owns or operates terminal facilities outside city limits.

Vending Machines

Final open meeting of the State Public Affairs Subcommittee studying state amusement vending machines closed with the beginning of contempt proceedings against a Dallas vending machine owner, C. E. Bradshaw.

Rep. Richard Cory of Victoria said that Bradshaw, owner of the National Amusement Company, refused to answer any questions directed to him at a meeting of the subcommittee in Dallas last November. Bradshaw said that the subcommittee was illegally formed.

College Growth Told

Top officials and legislators were told by the Coordinating Board of the Texas College and University System that higher education will double in size and cost by 1980.

Board laid its "blueprint for progress in higher education" before executives and lawmakers. Details include proposals for six new state colleges, 53 community junior college districts and additional medical and dental education facilities.

It is predicted by the Board that enrollments will grow from 375,000 in 1959 to 707,800 in 1980. Additional facilities will require \$401.4 million in expenditures by 1980. Annual spending on educational programs will rise from \$203.5 million to \$494.2 million by 1975, study indicated. As a means of financing part of the \$132 million cost of new senior colleges, the Board apparently will suggest an \$80 million bond issue secured by the \$18 a month student activity charge.

RED BARN PRESCRIPTION HYBRID SORGHUM SEED

Eleven varieties offer you a choice of seed developed specifically to fit such individual farming conditions as:

- Limited or abundant irrigation water.
- Sprinkler or furrow irrigation.
- Level or sloping land.
- High or low fertilizer use.
- Herbicide weed control program.
- Dry land or irrigation.

Now you can produce sorghum at greater profit with the right prescription of Red Barn hybrid seed. You'll find it is cleaner growing, germinates faster, gets out of the ground quicker, resists disease, increases drought tolerance, has good standability, and can produce a higher yield—consistently—than you've ever grown before. Specify early, medium, or late maturity. Ask your Red Barn dealer about the total sorghum production plan. He will prescribe one just for you.

Help! Fans!

From time to time during this school year the behavior of the Eldorado fans has been in question but never more so than during the current basketball season. Naturally in a fast-moving, exciting game like basketball there will be crowd reactions both with and against the officials but it has gone past that point. Each game has come to be a chance to down grade the referees and accuse them of dishonesty. For instance our fans complained loud and long at the Junction Jr. High Tournament and an official at the Eden Tourney was overheard commenting that he would slap a technical on Eldorado because of the loud mouths. These are parents, adults, mature people who are making this display. The Eden school officials were quick to say that the Eldorado boys and girls are the best looking and most well-behaved teams ever to attend their tournament. The adults in our community need to be reminded that our school is responsible for the conduct of all the fans. It is important that parents and friends remember that continuous commenting toward officials angers them and causes the team to be penalized and our school to be given a bad reputation. District play opens Friday night in Eldorado against very tough Mason teams and the Eagles and

Eglettes need help in the form of encouragement to the teams. If you have lung power, direct it toward boosting some boy or girl. It is our responsibility to set the best example of sportsmanship for the kids in this community and who knows we may even find that the better our kids play the better the referees get! If you run out of anything to yell there's always that famous cry, "Go, Eldorado."

WELCOME FOR ANN COPELAND

A get-acquainted coke party was given by Ann Doyle in her home for Mrs. Ann Copeland, formerly of Ozona, on Jan. 14 at 2:00. Sixteen girls met and greeted the new resident. Chips and dips and cokes were served along with a lot of girl-talk and a short session of bridge. Mrs. Copeland is the wife of Del Copeland, new highway patrolman now on duty in Eldorado. The couple have three children and attend First Baptist Church. The family are living in the Sam Jones house on Lee street.

News of the Sick

Mr. and Mrs. Roy Andrews were brought home Tuesday from Sonora, where they had been hospitalized since Christmas Day. They are still confined to their home but are glad to be back.

Ray Boyer came home Monday after spending several days in the Clinic-Hospital where he underwent tests.

Girls Take 11th Win Over Miles Recently

The Eldorado girls didn't have any difficulty in winning their 11th game this season as they took the Miles Bulldogs 49-19. A number of freshman girls suited up and the scoring was well divided. Linda Derrick ended the evening with 10 points, Patty Page and Dale Montgomery 8, Peggy Hill, Kathleen O'Harrow, and Loretta Schooley 5 each, Randy Yates 4, and Sherry Davis and Jeanne McCravey 2 each.

Eldorado took a 10-2 first quarter lead, held a 21-6 halftime and in the third quarter it was 38-14. The guards had well divided rebounds with different units playing. Guards other than the varsity regulars were Jean Rountree, Peggy Hanusch, Eva Stigler and Betty Bradley.

Eglettes Win Eden Tournament

The Eldorado Eglettes came home with the championship of the Eden Tournament Saturday night for the third straight year. No one believed that Eldorado's sophomore studded team could turn the trick this year but the very determined Eglettes showed them all. They first took Walk in an unimpressive 36-19 game then they wiped out Menard 72-37. In the final contest they were behind at one time by 10 points and came back to win it 51-37 over a much better than average Paint Rock team.

Montgomery & Whitten Honored

The officials in the meet selected three forwards and three guards to the All Tournament team. Eldorado's Dale Montgomery was honored on offense as she scored 54 points in three games and had 25 rebounds. Her long outside shots spelled doom for both Menard and Paint Rock. On defense, junior Lisa Whitten was selected for her over-all outstanding performance against Menard and Paint Rock. She had 21 rebounds.

Coach Bell praised his team's fine effort against Menard in being ready for the opening whistle. The green, a definite underdog, jumped to an 18 to 4 first quarter lead and never let up as they hit 18 in every quarter.

Kathleen O'Harrow, playing one of usual fine games, scored 26 points with 16 coming on free throws. Linda Derrick played her best games of the season hitting short shots around the free throw line and netting 13 points. Dale added 17 and freshman Loretta Schooley added 10 in the fourth quarter. It was not only the scoring of the forwards but it was their outstanding rebound that made the difference. Kathleen pulled in 13, Dale 11, and Linda 9, Loretta 5, Patty Page 4, and Peggy Hill 2.

Defensivley Menard had their troubles because guards Donna Davis, Claudia Meador, and Lisa Whitten were too tough the first half allowing only 2 field goals. Mary Lynn McCalla and Lisa McAngus came in during the third when there was a slight breakdown on defensive and went to work. Sheri Roberts and Gay Lynn Richardson took their turn in the second half and were equally as effective. Rebounding saw Donna get 12, Lisa Whitten 9, Claudia Meador 6, Sheri Roberts and Mary Lynn 3 each, Lisa McAngus 2 and Gay Lynn 1.

The Paint Rock game was an exciting and fast moving contest from the opening when Eldorado took an 11-10 lead. However, the second quarter saw Paint Rock pull ahead during an Eglette cold spell. Half saw the Indians leading 19-27. In the third quarter Dale Montgomery's outside shots and Kathleen's free throws pulled the green back out in front 33-22 and in the final period the Eglettes began to get tougher and iced it away 51-37. The difference lay in the fact the Eldorado had more defensive depth and hit the all important free throws. Kathleen O'Harrow made 24 of 28 at the line to total 26 points while Dale netted 23 points and playmaker Linda Derrick got 2. Donna Davis had 13 rebounds, Lisa McAngus 10, Lisa Whitten 9, Mary Lynn McCalla 3, Claudia Meador 2.

It was a very exciting tournament for the Eldorado girls and gives them a good send-off into district play which opens Friday, Jan. 17. The girls pulled their record to 10 wins, 7 losses and have gone undefeated in their last six games.

They were presented with the first place trophy and a gold basketball trophy which they must win three years in a row in order to keep it permanently.

MRS. RAMSAY IS 83

The members of the WMU of the First Baptist church honored Mrs. W. N. Ramsay with a surprise birthday party at her home on Tuesday, January 14th. Mrs. Ramsay was 83 that day. The women brought a cake, refreshments, candles, and several gifts to honor her on the happy occasion.

Basketball In Eden Tuesday

The girls' team will be back on the road Tuesday going to Eden for their second district contest.

Eden has an unimpressive record for the year but it is always an indication of a successful season if they can beat Eldorado so past record doesn't mean much.

The Eglettes have a new and larger district than ever which includes Mason, Menard, Eden, Junction, and Sonora and it is a tougher district than ever before.

Game time in Eden is about 6:30 for the girls.

Jr. High Girls Win Junction Tournament

The Junior High basketball girls won the tournament last week end in Junction. They started their winning streak with a victory over Mason, had another game Saturday, and Monday night beat Junction 17 to 7 for the championship.

The Jr. High boys and girls will host a tournament here this week end, with the first game set for Thursday night.

Elizabeth Niblett Observes 10th Birthday

Elizabeth Niblett, daughter of Mr. and Mrs. C. J. Niblett, had 10 of her girl friends for a slumber party last Friday in observance of her 10th birthday.

The group met after school, went to Granny's Drive-Inn for treats and then went to the Niblett family home where they had supper and spent the night.

Those present included Gynna Jay, Frances Bland, Gayleen Hibbits, C'ova Clark, Jill Yates, Candace Martin, Devanna and Devonna O'taberry, Barbara Speck and Susie Warnock.

Saturday morning they were served breakfast in the dining room and each was given a foreign doll as a place favor.

LEAVES FOR FUNERAL

Mrs. Robert F. Frost left Sunday evening for Fort Dodge, Iowa, after receiving word of the sudden death of Mrs. Mary Frost, the mother of her late husband, Mrs. Frost, 86, was a long time resident of Fort Dodge and was buried there Wednesday.

School News

The School Administrators Advisory Conference on Education was held last week in Austin, and Supt. C. T. Humphries attended from here.

The Governors Committee on Public School Education, which issued their report recently on "The Challenge And The Change" recommended drastic reduction in the number of school districts over the state of Texas. The report, however, left Schleicher county's district as it is, since it is already county-wide.

All elementary teachers attended a workshop Monday afternoon on "Basic Graphics". A man from the Region 15 Education Center in San Angelo conducted the workshop.

Transition Period Is On In Washington

By Congressman O. C. Fisher
This is a transition period in Washington. As the Nixon inauguration approaches, government business is slowed to a snail's pace. The change in Administrations means new faces, new agency heads with new policies and approaches in the making.

A significant report was made a few days ago by a special commission appointed by the President to study family planning. It recommended that the U. S. spend \$150 million a year by 1973 on family planning services.

With professional welfarism gaining members, demanding more welfare, the birth control approach looms as the best hope for the solution of problems among the so-called professional poor—those who would rather have a hand-out than a job.

Today the federal government spends \$30 million a year, with plans for more. The new study and recommendation should enhance the likelihood this vital program will be accelerated at a faster pace.

The fact is that birth control is the only real solution to many of these problems. Many of the welfare programs simply treat the symptoms, not the disease. We need a real crash program to speed up the research and the dissemination of devices and information among the ghettos and all who for one reason or another seem to be locked in the poverty-status—whether of their own choosing or otherwise.

It is hoped the Nixon Administration will advance this vital project. With a population that will exceed 300-million by the turn of the century there is no time for dilly-dallying about a subject that is of the highest urgency.

Wayne Estes Writes From Bertram, Texas

I saw Schleicher county had had 21.54 inches of rain in 1968. I had a total of 62 inches. It has been wonderful.

I am raising three breeds of mountain sheep, and 5 colors. I had several hunters to kill the trophy horn exotic bucks and I have a few young bucks and ewes for sale.

I am also raising Cotunnix Quail. They lay the year around.

I sure have a beautiful place and have really been doing good here. I have the most wonderful neighbors anyone could have. I am so happy here. Sincerely, Wayne Estes, Route 2, Bertram, Tex. 78605.

Patrolman Presents Program At Lions Club

Del Copeland, new highway patrolman stationed here, presented the program at the meeting yesterday of the Eldorado Lions Club.

He discussed proper measures for maintaining a safe automobile and the good driving habits which will also ensure safety. He was introduced by Bruce Shipman, program chairman for January.

Boss Lion C. T. Humphries presided. He assigned Lions Jack Bell, L. D. Mund and D. T. Yates to begin making plans for the Quce's Contest to be held later in the Spring.

The Club voted to have a Sweetheart Banquet again this year and tentative date is Monday, February 10th. Doug Yates will have charge of decorating and Ronnie Mittel will arrange the program.

Truman Murdoch of San Angelo was the only guest.

At start of the meeting, Bill Rountree led singing of "America" accompanied by Mrs. Olson at the piano. Penfield Barker led the Flag Salute and Boss Lion Humphries gave invocation.

A few Lions may attend the Mid-Winter Conference Saturday in Sweetwater.

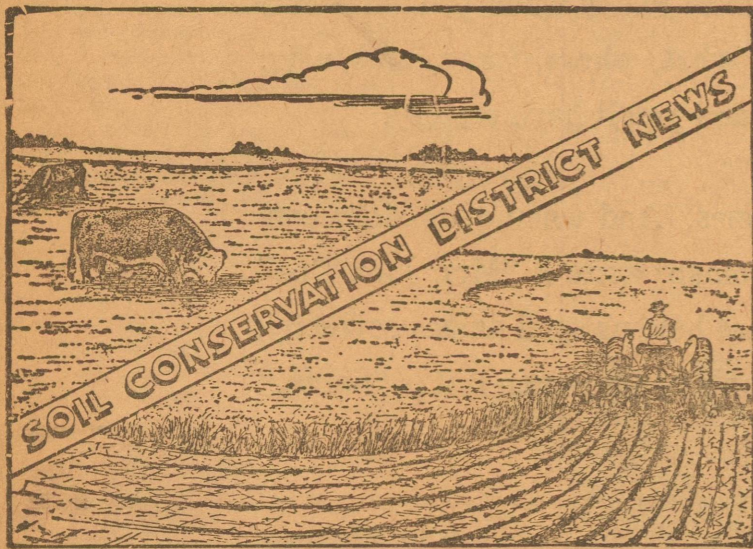

VISITS FROM IRVING

Tony Tribbey, president of the Irving Table Tennis Club, was here last Friday to visit and to attend the funeral of Mrs. Shugart.

Mr. Tribbey is an active promoter of table tennis in the Dallas-Fort Worth area and is presently setting up an association there. He is also working with the Dallas Parks and Recreation Department. Anyone interested in promoting table tennis may write him at 802 N. Nursery, Apt 219, Irving, Texas 75060.

- Milton Rathbone.....Member

Last month a total of 8,625 feet of level closed end terraces were constructed on Henry Moore's cropland 12 miles west of Eldorado. All terraces needed on a 49-acre field were constructed with Moore's bulldozer. Construction of all terraces needed was quite an accomplishment. However, the fact that all five terraces in the field are parallel, is more significant than the fact that all terraces needed were built. Moore's terraces are not the first parallel system in the Schleicher county portion of the Eldorado-Divide Soil and Water Conservation District. This is the first time that a parallel system has been constructed in Schleicher county by anyone using his own equipment.

Level closed end terraces have always been one of the most important soil and water conservation practices in the District. Like many other changes that have been made by the modern day farmer, terraces also have their drawbacks. Point rows, created by following terraces that are not parallel, is one problem that all farmers would like to eliminate. Another problem that did exist on newly constructed terraces, was the bar ditch above and below the terrace. For the past several years now this problem has been taken care of as most terraces have been constructed from the lower side only. By constructing from the lower side only and moving the dirt from a

wide area, the bar ditch problem is nearly completely eliminated.

The elimination of point rows by constructing terraces parallel is probably the biggest advantage of parallel terraces over terraces that are not parallel. However there are other advantages in having parallel terraces. The number of acres between terraces can be determined by the farmer, by using the average row length and the number of rows of a given width. By eliminating point rows, farm equipment with any number of rows can be used without damaging crops. Parallel terraces have an equal number of rows between terraces, to fit farm equipment, therefore no odd rows or half rows exist in the field.

The parallel terraces are one of the planned soil and water conservation practices included in Moore's Great Plains contract. Other conservation practices already applied on Henry's ranch are brush control and range seeding on all rangeland. Management type practices including deferred grazing and proper grazing use are being applied and maintained as planned.

Moore was assisted by William M. Rountree, District conservationist of the Soil Conservation Service in preparing his Great Plains contract. Topography map, terrace design and layout was done by Lloyd B. Johnson, Conservation Technician of the S.C.S., assisted by Moore and Rountree.

WHAT'S NEW IN SCIENCE

OUR ROCKETING COMPUTERS—If rockets had improved as fast as computers we would have been to the moon years ago. The operating speed of computers has increased from "milliseconds" to "microseconds" and now to "nanoseconds." "Nanosecond" is the time it takes electricity traveling at more than 186,000 miles per second to go one foot. And, soon, computer speed will be measured in picoseconds—a millionth of a millionth of a second, or the time it takes electricity to travel the width of a fingernail.

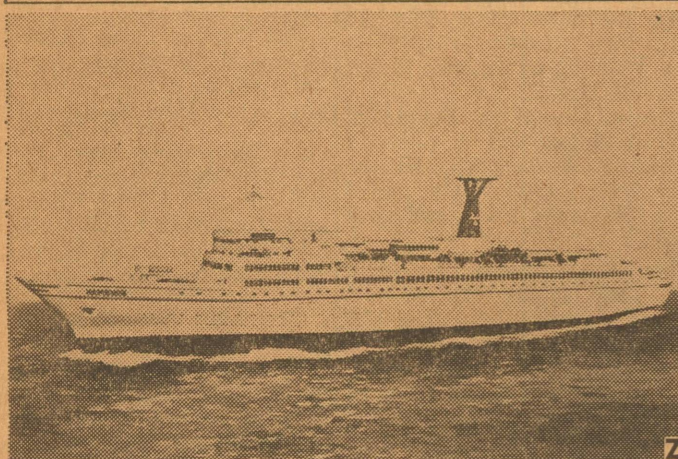

THE HEART OF THE MATTER—For the first time, doctors are able to see a patient's heart and other organs in their natural three-dimensional state without surgery or special glasses. Instead, a "stereo fluoricon image intensifier," which uses two X-ray beams instead of one as in conventional equipment, will be the only instrument needed.

THE DOME PEOPLE—To combat overcrowded, under-serviced and air polluted conditions, scientists at Tempo, General Electric's Center for Advanced Studies have proposed that cities be built under large plastic domes. It's estimated that about 150,000 people could be housed in under the plastic cover.

LIVING ON THE OCEAN FLOOR—Early in 1969, four U.S. scientists will live and work on the ocean floor for 60 days. Their underwater habitat will be a twin chamber home-laboratory from which they'll make detailed studies of conditions under the sea.

THE CONTINENTAL DIVIDE—A new mineral-dating technique shows that North and South America are "drifting" farther away from Europe and Africa. Rocks were taken from a split in the floor of the Atlantic Ocean and it was found that samples from the center of the split were younger than samples from surrounding regions. This suggests that the ocean floor is expanding on both sides of the split, slowly pushing the continents apart.

New Luxury Liner Leads The Way

Ocean travel is in vogue as more people than ever take to the high seas on faster, more convenient and luxurious ships.

For this reason, many will be pleased to note that soon still another luxury liner will be added to the world's fleet. The TS Hamburg, now under construction for the German Atlantic line, is slated to make her maiden crossing of the Atlantic on June 18, 1969 from Cuxhaven, Germany.

The \$24,000,000 liner, first major passenger ship built in Germany for more than three decades, is nearing her completion date on schedule, according to Axel Bitsch-Christensen, President of the steamship company.

The ship features space, space, and more space. Built to the highest existing standards of ocean-going vessels, she is designed to hold 600 passengers, while her potential capacity is more than 800.

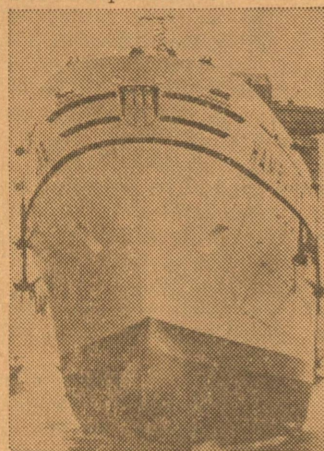

This "space ship" of the Atlantic will accommodate its passengers in 324 large, spacious cabins spread out over three decks. Each cabin features individual controls for air-conditioning, television, dual-radio and private facilities.

The dining facilities will be another new innovation for luxury liners. Instead of the conventional assigned seats in class dining rooms, the Hamburg offers three restaurants. Each one available to all passengers, and each one offering something different in fine dining.

Maximum amount of deck space, elegant lounges and pub-

lic rooms, impeccable service, will certainly distinguish the Hamburg as a great ocean liner, a credit to German engineering.

Initially, this great ship sails from New York to the North Cape, Scandinavia and Russia on June 30th for 34 days. Then the Hamburg will make three 11-day cruises to Gaspe, Nova Scotia, and Bermuda, before sailing to North Africa, the Mediterranean and the Black Sea on September 9.

Information on the new ship was made public in New York by the Holland-America Line Agencies, Inc., which represents the German-Atlantic Line as General Agents.

NEW FANGLED WAYS

TEEN PASTIMES

In Grandma's day, teenagers were seen and not heard mainly because they were always busy amusing themselves with the stereoscope. This popular instrument combined the images of two slightly different pictures thus giving a three-dimensional effect.

Teens of the Forties were avid movie magazine readers, and cutouts of the famous faces appeared on their walls. Radio listening was a favorite indoor hobby and home parties swung to the "Swing" sounds of the Big Bands.

Today's teens are the go-go generation—and they are propelled by cars; over 25 percent own their own automobile. Whether it's the latest sporty model, or a refurbished psychedelically-painted jalopy, many teens have discovered that Handi Wipes® is an invaluable cleaning aid. This all-purpose reusable cloth is perfect for cleaning windshields, buffing up chrome, and putting a shine on the exterior.

Showers Forecast
by Betty Crocker

"Come shower the bride" . . . or "the lady-in-waiting" . . . reads your invitation. If it's a chatty dessert party, you'll gussie things up with something elegant — like my Chocolate Mousse Short Pie below. Show it off first and serve it in front of the girls. With lots of hot coffee to drink. Mints and nuts for nibblers. Or — maybe you'd like to be more formal? Then precede your party dessert with the refreshing Palace Court Salad served with crisp relishes and hot tiny rolls. And set a formal table with the coffee service at one end, tea at the other. Another small table for the gifts is nice. Also a camera to record the action.

CHOCOLATE MOUSSE SHORT PIE
Baked Short Pie Shell (below)
1 envelope (1 tablespoon) unflavored gelatin
3 tablespoons water
1 cup chocolate syrup
2 cups chilled whipping cream
½ cup confectioners' sugar
¼ teaspoon salt

Bake Short Pie Shell. Cool. Soften gelatin in water; dissolve over hot water. Stir into chocolate syrup. In chilled bowl, beat cream, confectioners' sugar and salt until stiff. Fold into chocolate mixture. Pile into Baked Short Pie Shell. Chill until set, at least 4 hours. Remove pie from refrigerator 20 minutes before serving. 6 servings.

Baked Short Pie Shell: Heat oven to 450°. In small mixing bowl or 9-inch pie pan, combine 1 cup New Bisquick and ¼ cup

soft butter. Add 3 tablespoons boiling water; stir vigorously with fork until dough forms a ball and cleans the bowl. Dough will be puffy and soft. With floured fingers and heel of hand, pat dough evenly into 9-inch pie pan, bringing up dough to edge of pan. Flute edge if desired. Bake 8 to 10 minutes.

PALACE COURT SALAD
Arrange a mound of finely shredded lettuce on salad plate. Place a thick large tomato slice on lettuce. Place 1 large (or 3 small) cooked artichoke hearts on tomato. Cover generously with pieces of crabmeat, shrimp or cooked chicken. Garnish around edge of lettuce with sieved hard-cooked egg. Serve with bottled Russian dressing.
Remember cut flowers from the garden to pretty up the table.

HELP!

The Success crew takes this means of soliciting your cooperation in helping us to provide you with a better local newspaper with more news in it. We would like for you to please turn in your news items to us.

Unlike our big brothers in the city, a local newspaper does not have a huge reporting staff. The Success can't send men to cover a birthday party, social events, etc. But we want to have a story of those events in your local paper.

When you have a visitor, that's news. When you get married, that's news. When you take a trip, that's news. When your child has a birthday, that's news. When you have a social gathering, that's news. There are many things happening in this county that we want to run in the paper, but we don't know where and when they happen.

We are going to ask your help. When something happens let the Eldorado Success know about it. You may write out the item or story, or write out the facts and we will re-word them, if necessary, for the news story. You can mail us your write-up, drop by the Success office, or phone us.

There's only one simple rule to follow when you send us a story. Think of 5 W's—who, what, where, when and why. Answer all of those questions and you'll have a story.

Be sure to include first names. And when your story contains the name of a married woman, write it "Mrs. John Doe" not "Mrs. Jane Doe." Also please help us spell names correctly. Always ask how to spell a person's name—even if it is "Smith." It might be spelled "Smyth."

We start work on your local newspaper a week in advance. In other words, as soon as we get this week's paper off the press we begin work on next week's paper. Also, our crew are busy days late in the week doing commercial printing for our local customers. So the earlier you get your stories into the Success office the better it will be for both of us. Stories which come in first get choice and best placement in the paper.

With your help we know the Eldorado Success will have more news about Schleicher county people. We'll have a local paper of which you'll be proud. And when you're proud of your local paper, we'll be proud too.
