COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

This year for the seventh year the month of May is being observed as Senior Citizens Month in all states and U. S. dependencies by Presidential proclamation.

The purpose of this special month is to honor achievements of older Americans, to open opportunities to them, and to initiate new services they need. Today one in every 10 Americans is 65 years of age or older, a total of 20-million people.

In towns and cities across the country, men and women who have achieved distinction in their later years have been elected to halls of fame or are being given other honors this month. Art exhibits and hobby shows are being held. Senior citizens display handiwork at open houses. Orchestras composed of older musicians perform concerts. Lectures, panel discussions, town meetings, focus on concerns of people of 65.

"Meeting The Challenge For Later Years," with special emphasis this year on the federal-state local partnership in developing programs for older Americans and on their full participation in the service activities, and the opportunities of their communities.

The committee on aging; Mrs. Vida Kreklow will have programs of such nature. Watch the paper and special announcements at your meeting of the Senio Citizens Program Day May 14th!

Senior citizens: 12-13% or approximately 350 persons in the county are 65 or over.

Facts about older Americans—

—Every tenth person in the U. S. is aged 65 or over—a total of almost 20 million men and women.

—This number exceeds by a million the total population of the 20 smallest states.

—In this century, so far, the percentage of the U. S. population 65 and over has more than doubled (from 4.1% in 1900 to 9.5% in 1968), while the number increased more than six-fold (from 3 million to more than 19 million).

—Women now outlive men. There are about 134 older women per 100 older men. Life expectancy at birth is 73.8 years for females and 68.7 years for males. Life expectancy for women is still increasing faster than for men.

—More than 3 of every 10 persons aged 65 or over live in the four most populous states: California, New York, Pennsylvania, and Illinois, each of which has more than a million older people.

—Thirteen states have an unusually high proportion of older people in their total population (11% or more as compared to the U. S. average of 9.5%).

—By 1985 the older population is expected to increase about 40% to 25 million. It will grow to over 2 million in two states (California and New York) and will number over a million in five other states (Florida, Illinois, Ohio, Pennsylvania and Texas).

You want to live happily ever after? Here are five ways to ruin your retirement: pack up and move, spend all your savings at once, waste your time, live it up and deplete your energy, and turn over the reins to your children. That is how to ruin retirement. It is something for the retired and those who will retire to think about during May, National Senior Citizens mo.

Our WASHINGTON Letter

By Congressman **O. C. FISHER**

An outgrowth of the mob actions among college students is a considered opinion among many educators that too many young people are being admitted to colleges these days whose background does not qualify them for the advanced studies implicit in college training. Many of the "demands" by black militants is for overcrowded schools to open their doors for admission of more Negroes, regardless of standards.

A survey of these disorders reveals that a majority of the trouble-makers are Negro militants, aided and abetted by radical whites and some fuzzy-minded professors.

Convincing evidence that many of the Black Union, Black Panther, Student for a Democratic Society (SDS) and other extremists are really seeking more easy money and preferred treatment than an education, is becoming increasingly apparent.

For example, one group of 40 SDS radicals recently occupied a building and destroyed furniture at George Washington University. Their complaint was that anti-communism was being taught in some of that college's classrooms.

Officials at the State University College in Oneida, New York recently turned down a demand by Negro students for a \$35 weekly spending allowance—free of charge.

Along the same line, but not confined to college students, in a "Black Manifesto" a newly formed Negro militant group is demanding that \$500 million in "reparations" be paid to Negroes by white churches and synagogues throughout the country. To carry out their demand they called for seizure and sit n

Many comparable demands, not related to college training, feature the excuses given for disruptions and disorders. Yet, a good many of this class are admitted (or are clamoring for admission) to colleges where this militant element practice mob-and-jungle type of warfare—wholly unrelated to education.

The tragedy of it is that so many school officials supinely yield to outlandish demands, thereby encouraging more and more of it. But surely the schools will in the future take a closer look at the qualifications—and motivations—of those who seek a higher education.

First Baptist Church

The First Baptist Church is making preparation to publish a pictorial directory, announces the pastor, the Rev. Kenneth Vauhan. It will contain such items as a message from the pastor, a short history of the church, schedule of services for the year, etc., as well as pictures of all the church members.

The dates for the photographs to be taken are May 13 & 14 from 4:00 to 9:00 p.m. They will be made at the church, except "shut-ins" who are physically unable to go to the church building for sittings.

Every member family is urged to come to the church vestibule and sign the appointment sheets which have been placed there, or otherwise see to it that your appointment is made.

Each family that is photographed will receive a copy of the directory free. Extra pictures may be purchased from the firm making the directory if you wish; but this is not necessary in order to receive a directory. It is necessary to be photographed.

The firm making the Directory is Religious Pictorial Directories, Inc., of Ft. Worth, Texas.

Ready Hot Water Range

Proliferation of foods requiring hot water to start or finish the cooking has resulted in a unique electric range developed by Frigidaire with its own hot water tap built into the control panel. Recent surveys show that convenience foods today represent about 70 per cent of all purchased groceries. Pushbutton dispenser on control panel releases 185-degree hot water. Pressing lip of cup or pan against trigger below the tap also starts hot water flow, allowing one-hand operation.

Tax 'Equalization' Would Greatly Affect Rural Schools

Following is from the Little Red Schoolhouse Committee headquarters in Austin:

A concentrated effort is now being made in Austin by proponents of the controversial report of the Governor's Committee on Public School Education on behalf of the tax equalization program proposed in the report, now under study in House and Senate subcommittees.

This effort is receiving strong editorial support from metropolitan newspapers, based on the Bartlett tax study made for the COPSE report. This study is based on a highly questionable and disturbing premise that the agricultural economy of the state can afford this tremendous new tax burden. It also purports to prove that city schools are being cheated out of their fair share of school tax money by rural areas.

One recent editorial quoted an example to show that a rural landowner pays much less than the amount of school taxes being paid by an urban resident. Any shirt-sleeved economist can quickly spot the fallacy in these statistics.

Let's look at a city dweller who draws a salary of \$12,000 a year and owns a \$20,000 home. If his school tax rate is \$1.50 per \$100 and he is taxed on 50% of market value—or \$10,000—his school tax bill will be \$150 a year.

Now let's look at a rural landowner who owns a 1,000 acre farm or ranch, with an assessed value of \$150 per acre. He cannot by any stretch of the imagination, come close to netting the \$12,000 annual income of his city neighbor from his 1,000 acres.

Our rural landowner's tax bill, based on the same rate and assessed value: \$1,125, nearly 10 times that paid by the city homeowner.

This is tax equalization? We doubt it.

Hilary Doran's Austin Report

When the legislative session closed this past week for the week end, it seemed as if every member was completely exhausted and yet there were not a multitude of things on the surface that you could point to as being accomplished. Most of the tension, intrigue, etc., went on behind the scenes. The main part of it centered around the battle on whether or not we will have a two-year appropriation or a one-year appropriation. Several other members of the House and myself conducted an informal poll which showed that a good majority of the House favored a two-year appropriation at this time. It is optimistic that we will be able to stay with a two-year appropriation and meet our legislative responsibilities.

As the regular session of this Legislature nears an end, the pace picks up. One is reminded of a small boy running down a hill and being unable to stop himself until he reaches the bottom or falls down. My only hope is that the Legislature reaches the bottom of the hill and does not fall down.

Episcopalians Launching Canvass In W.T. Diocese

San Antonio, Tex. (Spl.)—Sunday May 11, will be one of the most important days of the past decade for the 60-county Episcopal Diocese of West Texas. It will be the day when each parish and mission will know whether or not it has succeeded in raising its quota in the Everett Holland Jones Episcopal Advance Fund campaign.

It is hoped by the Rt. Rev. Harold C. Gosnell, D.D., bishop of the diocese; the Rt. Rev. R. Earl Dicus, suffragan bishop; Robert M. Ayres Jr., general chairman of the EAF, and their army of 2,550 volunteer campaign workers in all of the churches, that pledges of \$1,775,000 to be paid over the next three years will have been made by May 11, which was set earlier as the target date for completion of the effort.

This is the first EAF campaign in nine years and will set up a revolving loan fund for diocese churches, church school and camp buildings, finance, scholarships for Texas Military Institute and provide for missionary projects in Japan, Okinawa and Mexico. Thus, it will help all churches in the diocese as well as church projects inside and outside the state.

The EAF is built around a theme which emphasizes "The Need, the Challenge and the Faith." Bishop Gosnell and lay chairman Ayres, San Antonio, reported.

"We hope May 11 will be a day of victory, a day for rejoicing, a day when hope will have become a reality," the church leaders added. Thirty-four-thousand Episcopalians are being canvassed. Each church and mission has its own clerical, laity and women's chairmen and other volunteer workers.

For St. Mary's Church, Eldorado, the respective clerical, lay and women's chairmen are the Rev. Lea Roy Aldwell, John H. Gilmore and Mrs. George Long.

CHEER LEADERS ELECTED

"Two bits, Four bits, Six bits, A Dollar" was again the cry at school as 13 high school students and 15 junior high girls tried out Tuesday for next year's cheer leaders.

Randy Yates, Sheri Roberts, Linda Derrick, Patty Page, Gay Lynn Richardson and Mary Lynn McCalla as alternate were elected in high school.

Eva Jo Blaylock, Kathy Page, Debbie Page, and Carolyn Page will try to boost junior high spirit with Jill Edmiston serving as alternate. Cheer leaders try-outs were rained out.

O'Harrow Takes Second In Meet At Lubbock

Kathleen O'Harrow threw the shot well enough Saturday to win second in the all division Cotton Belle Relays held in Lubbock last Saturday. This was a warm-up meet for State Meet Qualifiers and the competition was extremely tough. Over 500 girls participated with about 40 in each field event and 50 in individual running events. The relays had about 24 in competition. The sprint relay ran a 52.1, their best time yet and qualified the best time in the 300 medley with a 35.0. A couple of injuries kept them from winning the medley and caused them to not improve on their miley relay time. However, everyone should be ready to go full speed by Friday night in Abilene. Kay Williams ran the 440 dash and

posted a 67.8, her best effort. Mary Lynn qualified in the shot put as did Kathleen in the discus, each placing 6th.

Winner of the contest will go to Big Spring in June to the Lions District Convention, as representative of the Eldorado club. Her expenses will be taken care of by the club.

The girls who will participate Tuesday night are:

- Kathleen O'Harrow
- Lisa McAngus
- Peggy Hill

The club met yesterday and Boss Lion C. T. Humphries announced the governor's visit. He urged all local Lions Club members to attend next week's meeting in order to hear the district governor.

Guests at the meeting were Billy Williams, Fred Watson, Jimmy McGinnes and Allan Dinsmore, all of Eldorado.

Lion Bill Rountree was program chairman and he introduced Bob and Elaine Wilson who gave an archery exhibition.

At start of the meeting, Joe Christian led singing of America with Mrs. Olson at the piano, A. G. McCormack led Flag salute, and Rev. D. G. Salter gave invocation.
