Since the beginning of time man has been dependent on the soil for the necessary things to sustain life. The need for the things that are necessary is the same today as in the beginning. Some things that have changed are man's requirements of the products from the soil. It is needful that man take more from the soil today than in years past; this being due in part to increased population. The use of every crop produced on agricultural lands has increased either because of necessity or to meet the requirements of the high standard of living.

Most people realize that soils should be used in a way whereby their productivity is maintained or increased. By using the soil in this manner the people of America can continue to enjoy a high standard of living. This includes security for farm and ranch families and a continuous and abundant supply of agricultural products for all the people.

Since farmers are dependent upon the soil for their livelihood, their interest in its proper use should be paramount. Because of our dependence on the soil, everyone should be interested in its proper use. The job of proper land use must begin on the farm or ranch and must be done by the farmer or rancher. To achieve the objective each acre of agricultural land must be used within its capabilities and treated in accordance to its needs for production and improvement.

Throughout all America farmers and ranchers are receiving assistance through their soil and water conservation districts in determining the needs of soils. Through their S&WCD they are assisted by Soil Conservation Service technicians in planning and applying the needed conservation practices on their land.

Before the right treatment of soil can be prescribed its needs and capabilities must be determined. This is done by a soils scientist of the Soil Conservation Service. Their job is to make a complete inventory of the farm field by field. Some of the things that the soil scientist must determine is depth, texture, permeability, slope and erosion. With all the factors considered the capability of the soil is determined. Each acre must be used within its capabilities and treated according to its needs for protection and improvement.

To use land within its capabilities for example, a deep soil could be used for cropland or grassland and still be within its capabilities. Very shallow soils being used for grassland would be within their capabilities, but would not be if used for cropland.

The needed treatment of the land varies, with the capability of the land. For example a deep soil with very little slope and no erosion would not need terraces. The same

soil on a steep slope and considerable erosion would need terraces to conserve soil and water.

The productivity of new cropland is high because of the fertility and good condition of the soil. This of course can be effected by the condition of the soil when used as grassland. Naturally, a new field that had a good grass cover will have more organic matter in the soil than one that had very little or no grass cover. This being the case the productivity of the land high in organic matter will be higher than the land with little organic matter, considering other factors the same.

The continued increase in population increases the need for agricultural products. Proper land use and the treatment of each acre according to its needs, will help assure the maximum production from all agricultural land.

Take New Form To Office For Plates

Austin, Tex.—The Texas Highway Department is sporting a red face. In recent news releases announcing the new computerized motor vehicle registration system, Department information specialists wrote:

"Easy-to-follow instructions are printed on the three-part form." That must be a mistake—because a lot of motorists haven't been following instructions. And mistakes generate confusion.

This is the first year that the Department has gone to the new system, which includes an order-by-mail program for obtaining 1970 motor vehicle license plates.

But just to make sure that motorists do understand the "easy-to-follow instructions," they are:

1. Each motorist whose vehicle was registered last year has or will receive in the mail a long, narrow envelope with a printed message on the front reading: "Important—This Is Your License Plate Renewal Application."
 2. The envelope will contain a three-part form. Do Not Separate the Three Parts.
 3. You may renew your motor vehicle license registration during January and February by mailing the three-part form (intact) and your check to your county tax collector. Add \$1 for postage and handling charges for each vehicle. License plates will be mailed Feb. 1 and thereafter.
 4. You may renew your motor vehicle license registration during February and March by taking the three-part form (intact) and your check to the tax collector's office or substation.
- That's it! Now see if you are one of the seven million-plus Texas motorists who can follow those "easy to follow instructions."

that causes decay. It cannot work in dry wood.

Serious decay often is due to one or more of the following errors in construction or maintenance:

- Undrained soil and insufficient ventilation under basements/less houses.
 - Wood such as grade stakes, concrete forms or stumps left on or in soil under houses.
 - Wood parts of the house in direct contact with the soil especially at dirt-filled porches.
 - Wood parts embedded in masonry near the ground.
 - Use of unseasoned and infected lumber.
 - Sheathing paper that is not sufficiently permeable to moisture vapor.
 - Inadequate flashing at windows, doors and roof edges.
 - Poor joinery around windows and doors and at corners, and inadequate maintenance.
 - Lack of rain gutters, and a roof without overhang.
 - Unventilated attics.
 - Roof leaks; leaks around shower-bathtub combinations, kitchen fixtures and laundry rooms.
 - Failure to use preservative treated or naturally durable wood where moisture cannot be controlled.
- The decay-causing fungi are always present in the air and cannot be kept away from wood. As a general safeguard against decay, the structure should be built in a way that will keep wood dry most of the time.

One man with courage makes a majority.

Eaglettes Claim Consolation

Despite the fact that the Eldorado girls did not put together a smooth game during the Lake View Tournament they managed to scramble enough to capture the Consolation championship.

Eldorado 45, Stanton 50
 Eldorado met Stanton in the 1st round and a good zone defense thrown up by the Buffaloes forced Eldorado to shoot outside and they had one of their colder nights. Kathleen O'Harrow poured in 26 points and Randy Yates had 12 points the other points were 7 scored by Sheri Roberts.

The Eaglettes did hit 70% from the free throw line and the Eldorado guards played a good defensive game. Lisa McAngus led with 10 rebounds, Lisa Whitten 7, Claudia Meador 5, and Mary Lynn McCalla and Gay Richardson got 1 each. This is only the fourth loss of the season for the Eaglettes.

On Saturday morning Eldorado met Wall in the Consolation bracket and defeated them 54-30 with everyone getting an opportunity to play. Leading scorers were Kathleen O'Harrow 16, Lorretta Schooley 12, and Linda Derrick 10. Sheri Roberts scored 2 points but was the leading offensive rebounder with 10. Lisa Whitten nabbed 17 rebounds while Lisa McAngus, Claudia Meador, and Gay Lyn Richardson each got 6. The free throw per cent was poor as the green could make only 48%. However, the turnovers were low and the forwards hit a higher per cent of their shots from the floor. This victory put the girls in the Consolation finals against Mertzou.

Eldorado had to scrap all the way before finally taking a 39-35 decision over the Hornets. It was a game of fouls as Lisa Whitten, Lisa McAngus, Mary Lyn McCalla all went out via fouls while Claudia Meador and Gay Lyn Richardson played with 4 each. Mary Lynn pulled in 14 rebounds and Gay Lyn 10 before the victory was sure. Kathleen O'Harrow again led the Eaglette offense with 22 points backed up by very timely points made by Lorretta Schooley with 7, Sheri Roberts 6, Randy Yates 2, and Peggy Hill 2. The free throw per cent was up some, 68% but the green still missed 10 charity tosses.

The Eaglettes as of Saturday were 14-4 on the season with a trophy to show from every tournament. Miss Kathleen O'Harrow was selected an All-Tournament forward and Lisa McAngus an All-Tournament guard.

ONE YEAR AGO
Jan. 16, 1969—The Nixon-Agnew inauguration was set in Washington on Jan. 20th.
Deaths reported: Mrs. Bertha Mae Shugart, 83, and Mrs. Mertie Galbreath, 72.
The Community Action Council moved into new office quarters on the north San Angelo highway.
FIVE YEARS AGO
Jan. 14, 1965—Gerald Hartgraves announced preliminary plans for the annual stock show which was coming up Jan. 23rd.
Frank O'Banion was chairman of the March of Dimes Drive under way in this county, and he presented a program at a Lions meet.
Ruth Parker was receiving her Bachelor of Arts degree from the University of Texas.
Mrs. Edwin T. Johnson of Sumatra, Indonesia, was visiting here with her mother-in-law, Mrs. T. W. Johnson.
Wenona Isaacs started to work at Rose's Beauty Shop.
Furnishings and equipment were being installed in the newly-completed El Dorado Woolens building, on the Sonora highway.
12 YEARS AGO
Jan. 16, 1958—Joe Nance of Sonora was here and announced plans to install a coin-operated automatic laundry on the new Sonora highway. Opening was set for later in the Spring.
Chan Whitten for Precinct 4 Commissioner and Jack Wade for Precinct 4 were the latest political announcements.
State Sen. Dorsey Hardeman addressed a meeting of the Lions Club, and David Steen attended the meeting as Lion of the Month from the high school.
B. E. Moore underwent surgery in the Sonora hospital.
Mrs. Lois Etheredge and Mrs. Elizabeth Ballew were hostesses at a meeting of the Earn & Learn Home Demonstration Club.
The engagement of Wilma Jean Lloyd to Fred J. Logan Jr. was announced. They were planning a Feb. 1 wedding.
Mrs. Russell Beach started teaching in the Christoval school system.
35 YEARS AGO
Jan. 18, 1935—James V. Allred was inaugurated Governor of Texas, in ceremonies in Austin.
Funeral services were held at Rockwood for William Ashmore, father of Hop Ashmore of the Bailey Ranch community. The elder Mr. Ashmore died at age 78.
Jarvis Enton and Clyde Galbreath announced that L. A. Waller was moving here from Breckenridge to be shop foreman at Eldorado Motor Company.
New on the professional staff of the Concho Valley Council of Boy Scouts of America was Jack Stone who was moving to San Angelo from Oklahoma City.
Mrs. H. T. Finley entertained three tables of players at bridge. Mrs. R. D. Holt won high score, Mrs. V. G. Tisdale low score, and Mrs. Ed Reynolds high cut.
Willie Ruth Johnson, Roberta Milligan, and Bell Sample, who were attending the University of Texas, received recognition for their scholastic work during the 1933-34 year. Registrar's office announced that they achieved high ratings among freshman students.
Funeral services were held for Mrs. J. H. Cox, 39. She was mother of 16 children.
Ritz Sandwich Shop advertised Chicken Dinners served every Sunday at the regular meal price of 35c.

'Once A Texan, Always A Texan'
Clyde Vinson of San Angelo recently received a letter from his daughter, Mrs. John S. Miller (Marjorie) of Long Beach, Calif.
Because one paragraph had a great deal to do with Eldorado, Mr. Vinson brought a copy to the Success. Since it will be of interest to many older residents here, we are pleased to reprint it.
My sister-in-law, Mrs. Vic Miller of Long Beach, (the former Virginia Anderson of Barnhart, Ballinger and San Angelo) and I were having lunch in the Manhattan in Long Beach before going shopping. We kept admiring a beautiful little girl about 7 years old in the next booth; finally Virginia leaned over and commented to the couple that the reason we kept staring in their direction was because we thought their little girl was so lovely and seemed to speak with unusual intelligence for a child that age. In the course of the conversation the gentleman asked the inevitable question, "What part of the South are you from?" We said that we were from Texas; they laughed and said, "Join the crowd!"

Boys Drop Mason
The Eldorado boys did the unbelievable last Friday as they went to Mason and outplayed the Puffers from the opening whistle and beat them 61-57 in a thrilling district opener.
Eldorado was playing a moving, quick offense and on defense they were rebounding as well as playing tough defense.
The Eagles jumped to a 14-12 opening quarter lead on strength of two baskets by Mickie Clark, four three throws by Jerry Baty, 4 points by Bob Page, and a basket by Sam Oglesby. Mason picked up a point in the second stanza but Eldorado added 13 with two long baskets by Wayne Doyle, Sam Oglesby, one by Bob Page and free throws by Mickie Clark and Jerry Baty. Half-time score was 27-26 but two Mason starters were in four danger.
After the half both teams came out gunning because Eldorado pipped in 17 points and Mason 19.
For Eldorado it was Baty, Clark, Doyle, Oglesby, and Bob Page doing the scoring but the 19 Mason made sent them ahead by one, 44-45 at the end of the third quarter.
The fourth quarter was a fitting close for an exciting district contest and Mason had every opportunity to go ahead several points as two technicals were called on Eagle players for commenting on foul calls. Simply saying "oh no" and "I didn't foul" could have cost Eldorado 10 points had Mason con-

and their families. I am looking forward to continuing the friendship made under such unbelievable circumstances. Doll hasn't been back to Eldorado since the early 1950's and was amazed that I go there at least once a year. She is eager to hear from her former friends and relatives there, so before my next visit I will have to make a list of all the people she wants to know about, I guess. Once a Texan always a Texan!

verted. This was about the time Bob Page went out via fouls and Billy Hubble took his place in a real pressure situation. Jerry Baty went to work getting 12 points, Mickie Clark 1, and Hubble 3 free shots.
The Eagle defense held Mason to 12 points and Eldorado had captured their opening district win against the favorite in their own gym.
The spirit among the players and fans was tremendous as everyone was fighting together for this prized victory. The team effort was outstanding.
Jerry Baty, Bob Page, and Mickie Clark were the scorers in double figures with 21, 10, and 13. Backing them up were Sam Oglesby 8, Wayne Doyle 6, Billy Hubble 4.
This victory was awhile coming as the Eagles have lost some close ones this season, but it was well worth waiting for.
Be in Eagle Gym Friday night and help the Eagles turn back Junction.
