Ready-Mix Cement Unit Is Slated

The West Texas Sand and Gravel company, located just south of Washington Place, will shortly install a ready-mix concrete machine and will be in a position to accept orders from a quarter-yard on up.

The concern, which has been supplying sand and gravel for most local contractors for the past several years, can fill orders upon solicitation once the unit is in operation. The concrete will be mixed in a special batching unit on the West Texas Sand and Gravel company grounds and transferred to the desired place in special trucks, from which the mixture can be poured into forms without fuss and bother.

A similar unit has been operated by the establishment for some time in Midland but the mix will be the first of its kind here.

Ingredients for orders of concrete will be supplied by West Texas Sand and Gravel. Buyers can place their orders by telephoning No. 9000 or by calling in person at the company's office.

Sand and gravel supplied by West Texas, which comes in varying grades, has the reputation for being the most reliable of any sold in this part of the state. The company has filled orders made by both the Texas and New Mexico highway departments as well as many large industrial concerns.

The gravel is extracted from part of the 80 acres of pits southeast of the city. The pit was leased by the establishment some time ago and since has yielded hundreds of tons of the content.

Conventional, FHA Loans Are Reeder Offers

FHA and conventional loans, as well as loans for new and used automobiles are part of the complete service offered by the R. B. Reeder agency.

Equipped to give prompt service on FHA loans to those contemplating new homes, Reeder also can expedite matters if the prospective builder wishes to utilize one of the many FHA approved plans on file.

Through connections with Jefferson Standard, Reeder is in a position to make conventional (on existing construction) loans, together with those on real estate.

Purchasers of new automobiles may find plans of financing which cover up to 24 months, and repayment options up to 18 months on used machines.

The loan division is but a portion of the Reeder services, which include complete insurance, including underwriting by Jefferson Standard, various types of casualty and liability insurance. Experienced staff members are able to counsel with clients about protection needs, and as to adequacy of protection carried in view of rising replacement costs.

Card Demand Grows
By popular demand, the greeting card department at Hester's, 114 East Third, has tripled in size during the past few months. The firm will continue to carry one of the largest selections of such cards in West Texas as permanent merchandise feature.

A Lot And A Home
If you own a lot in a good neighborhood, it takes very little extra capital to become a home owner. Roy Reeder's Agency can explain how financing details for a new home can be handled without imposing outlays under these conditions. Assistance in getting plan approvals is also offered.

Monogram Service Added By Hester's

Hester's, 114 East Third street, recently installed a Kingsley monogramming and stamping machine, one of the few such facilities in West Texas, and the machine is expected to provide speedy service for Christmas card and gift monogramming and stamping.

Nine different types are available, and patrons may choose from a dozen colors. Personalized stationery will be a feature, and names also may be imprinted on such articles as fountain pens and mechanical pencils.

Hester's has one of the largest stocks of Christmas cards in history, including broad selections of all types and in all price ranges. There are also some of the latest and newest offerings, which represent the highest quality obtainable.

In fact, all merchandise stocked in anticipation of the Christmas shopping season is of improved quality. Available now are portable Underwood typewriters, which have been on the unobtainable list for five years. Hester's has managed to stock some portables this year, although standard typewriters and adding machines still are critically short.

All gift articles at Hester's are of better quality this year. They have liberal supplies of such items as Procter Automatic irons and toasters, Philco radios and other appliances.

Both Parker and Sheaffer fountain pens and pencils are on hand in quantity in all sizes and at all prices, making Hester's stock one of the largest in West Texas. New office furniture, such as latest types of desks and chairs, are carried in stock at all times.

Home Freezer Units Sold By Oldham
Home freezer (deep freeze) units are available for delivery now at George Oldham Implement company on the Lamesa highway. These are ideal for laying in a supply of meats at a time when price of beef and pork are probably lower than they will be a couple of months hence. By the time meat has been consumed, the space will be ready for vegetables and fruits coming on the market.

At East Fourth Church

Toka Williams, T.E. Hale Wed Sunday Afternoon

Toka Williams, daughter of Mr. and Mrs. A. C. Williams, became the bride Sunday afternoon of Tolbert E. Hale, son of Mrs. Della Lay of Fort Worth, in a double ring ceremony solemnized by the Rev. James R. Parks at the East Fourth Street Baptist church.

The altar was marked with large baskets of pink gladioli, banked profusely with greenery. Pre-nuptial music included "O Promise Me" and "Because," sung by Nidra Williams, who was accompanied by Mrs. Ritter at the piano. Mrs. Ritter also played processional music.

Given in marriage by her father, the bride was dressed in a suit of winter white wool with trim in brown velvet. She carried brown accessories and wore a brown and white hat. Her bridal bouquet was an arrangement of red roses, carried atop a white Bible. Mrs. Hale wore as something old a ring belonging to her mother, Mrs. A. C. Williams; something borrowed was the Bible, lent by Leon Russell; she wore a blue ribbon in her shoe.

Attending the bride as matron of honor was her sister, Mrs. D. L. Lane, who wore a royal blue dress and carried black accessories. Her corsage was of white chrysanthemums.

D. L. Lane served as best man. Immediately following the ceremony, a reception at the Williams home complimented the couple. Hostesses were Mrs. Williams, Mrs. W. S. Harrell and Mrs. J. N. Lane.

The bride is a 1942 graduate of the Big Spring High school, and last year attended Howard County Junior college. Previous to her marriage she was employed by F. W. Woolworth Co.

Hale, a graduate of Coahoma schools, served two years in the Army, and completed a course in telegraphy at Fort Worth. He is associated with the T & P Railway Co.

Upon their return from a short wedding trip to Carlsbad, N. M., Mr. and Mrs. Hale will make their home at 406 Owens street.

Yeader, Mrs. Loyal Peck, Mrs. Hoyt Andrews, Mrs. C. Suttles, Mrs. Robert Kneer, Mrs. L. B. McElrath, Mrs. C. B. Long, Mrs. D. L. Boyd, Mrs. C. B. Nunley and Mrs. J. M. Craig.

The 1946-47 football boys and their fathers were honored with a barbecue by the Forsan Service club at the Cosden camp recently.

Sweaters were issued to the boys who lettered in 1946. They were Bobby Wash, Bobby Baker, Ray Prater, Eldon Prater, Stanley Haywood, Dan Faychild, Decey Bedell, Floyd Pfeiffer, Charles Long, Max Anderson and Junior Dolan.

Boys of the 47 squad were Freddie Slate, Theibert Camp, Kenneth Baker, Stuart Henderson, Wayne Huestis, Louis Overton, Richard Gilmore, James Stuller and Charles Wash, manager.

Mrs. Lawrence To Address Parents On Child Reading

Observing National Children's Book Week, Mrs. Kelly Lawrence will address a meeting of parents at 8 p. m. today at the Howard County Free Library on children's books.

Parents interested in entertaining, yet sound books for children, are urged by Friends of the Howard County Free Library to attend the meeting and hear suggestions given by Mrs. Lawrence.

The affair is among those planned for this week at the library to stimulate interest in the juvenile section of the library. Displays of approved books are set up in the library, and patrons also may inspect shelves for reading material available.

Banquet Postponed

The banquet of the Ruth class of the East Fourth Baptist church, originally scheduled for Tuesday evening, has been postponed indefinitely, officers of the organization said Monday. The postponement was effected to avoid conflict with a Training Union school which is in progress at the church this week.

It's No Joke, Folks — WE STILL MUST SAVE USED FATS

Amazingly, you can buy gasoline for less than ordinary distilled water. The water usually costs about 25¢ a gallon. Regular gasoline costs here only about 16 1/2¢ a gallon. (You pay 22¢—but 5 1/2¢ is for taxes). That's only half what gasoline cost in 1920—yet the quality of our gasoline has been vastly improved. As you know, prices generally have gone up. So why is it that you can buy such great gasolines today for so little? Because the American Petroleum Industry is alert, progressive, and intensely competitive. It continually improves old products, develops new ones. Today there are more than 34,000 different companies in the oil business. Approximately 13,475 of these are in production, 650 in transportation, 400 in refining, and 20,000 in distribution (in addition to about 225,000 service stations.) We're all doing our level best to bring you the finest in petroleum products at the lowest possible cost.

says Bert Lahr famous comedian, now starring in bit comedy Butlesque

Now how can some people be so foolish as to forget used fats are still needed? Look at the situation. Our government says the world shortage of fats and oils isn't very much better than last year. Clinton P. Anderson, our Secretary of Agriculture, says: "It is still necessary to conserve every pound of used fat." Now those boys aren't fooling! So let's all continue our good old wartime habit—save that grease and turn it in! Lady, let's do it!

Prices, Not Aid, The Big Factor

Congress convenes today to consider matters of international aid and of the domestic price situation.

While there doubtless will be divergence of opinions on the amounts, veterans observers believe that relatively prompt action will be forthcoming on the aid problem. Secretary of State George Marshall has estimated that it will require better than two and a half billions until June 30, and that lesser amounts are necessary almost immediately as stop-gap aid. Naturally, he is speaking with a degree of authority as concerns the administration position.

Republicans have indicated they believe that this amount can be shaved. But more significant, there seems to be general

agreement on both sides that aid will be extended. The questions to be settled are how much, to whom, when and on what basis.

But the big battle will come when soldiers dig into the price situation. There are many and widely separated views ranging from hands off to rigid controls and rationing. Out of it all likely will come a mild compromise. Whether it will be effective remains to be seen, but those who work, and particularly the so-called white collar class, will anxiously hope so. Those who are not producers or distributors have been caught in a pinch for the past six years. Actually they are and have been losing financial ground. They cannot forever continue in a losers role.

A Delusion And An Opportunity

A lot of the early reports on the democratic revolution in Japan are now being taken with a grain of salt. At the outset, many proclaimed that a miracle had been wrought under the occupation, so much so that old systems were being junked in favor of government by the people.

More recently, however, the suspicion has grown that much of this has been superficial. While embracing external forms, the Japanese have clung closely to traditions and relations created through untold generations. Aside from the subtle pressure applied at the top by politically and economically dominant classes, the democratic experiment had faltered most of all at the hands of the average citizens.

They have been so long subjected that out of force of habit they tend to continuation of subjection by their own actions.

Now all this does not mean that democracy is out of reason for the Japanese. It does emphasize, however, the folly of believing that it is a condition which can be imposed. We did not come by our democracy in a day. How much more difficult, then, will it be for those who have never known its first principles?

With the delusion out of the way, constructive steps may be taken to encouraging these and other people to take the first feeble steps; to pick up themselves when they fall; to insist on economic factors which will sustain political democracy; to have faith most of all in themselves.

Suit Against Truman, Congress

WASHINGTON, (AP)—A man who gave his name as David A. A. Olson filed suit here this week against President Truman and Congress.

He said the U. S. Constitution doesn't give the government power to use the taxpayers' money to help foreign governments.

So he wants a court order to stop the foreign aid which Congress starts considering when it begins its special session Monday.

Is Olson, who says he's a Kentucky builder and engineer, right? Not a chance, say experts on taxes and the constitution.

They point out this: 1. Under the constitution (16th amendment) Congress can make you pay income taxes. It's been doing that since 1913, when the amendment was okayed.

2. The tax money goes into the U. S. treasury, together with other money collected by the government, to be used when needed.

3. Congress can vote to appropriate, or spend, money for

the "General welfare of the United States." (Section 8, Article I of the Constitution).

4. So Congress can vote money for foreign aid if it thinks that's for the general welfare, such as by stopping communism abroad.

5. True, the money for the aid will have to come from money in the treasury, whether it's tax money or other money the government's collected.

6. But so long as Congress votes to spend it for what it considers the general welfare, that's all right.

Until the civil war there was no income tax. Until then the government mostly paid its way by tariffs, a tax on goods shipped into this country.

But Congress voted the first income law in 1861 to help pay for the war. It really got going in 1862.

Between then and 1872 the government collected \$378,000,000 in income taxes. In 1872 Congress wiped out income taxes as no longer necessary.

Then a fight to restore the tax started.

After the panic of 1893 Congress voted another income tax. This was in 1894, in the administration of Grover Cleveland, Democrat.

The next year, 1895, the Supreme Court knocked out the law by ruling it was unconstitutional.

It became clear that, if Congress were to pass another income tax law, the Constitution would have to be doctored up a bit.

So in 1909, in the Republican administration of President William Howard Taft, both houses of Congress passed a resolution to amend the Constitution.

That amendment, the 16th said: "The Congress shall have power to lay and collect taxes on income, from whatever source derived, without apportionment among the several states, and without regard to any census of enumeration."

And in 1913 Congress passed an income tax law. We've had one ever since.

Manhattan Patterns

NEW YORK, (AP)—Manhattan, always shedding the cocoon of the past, symbolizes poet Tennyson's famous line—"The old Omders changes, yielding place to new."

They no sooner put up an amazing building than someone begins to plan to tear it down and replace it with something more marvelous.

But the death of two famous old mansions—the red Vanderbilt stone palace on Fifth avenue and Charlie Schwab's stately granite chateau on Riverside drive—marks the final passing of New York's so-called "golden age."

Crashing with the blows of wrecker hammers destroying these two great edifices are the gaudy standards of the late nineteenth century financial titans, whose fortunes were so vast that society dandy Ward McAllister coined the rule-of-thumb definition of wealth:

"A fortune of only a million is respectable poverty."

Some antics of the fabulous people of that fabulous day are recalled by Andrew Tully, former war correspondent, in his book "Era of Elegance."

Mrs. William Astor "the" Mrs. Astor—dipped into \$50,000,000 to spend \$2,250,000 on a residence palace. Guests contributed \$1,000,000 in gifts at the celebrated wedding of her daughter, Carrie. But when they auctioned off the furniture of

society's queen in 1909, a year after her death, the gilt chairs from her ballroom brought on \$150 each and a huge tapestry that had dazed visitors for two generations went for \$10.

High-living Charlie Schwab poured \$8,000,000 of his steel profits into his 75-room, 40-bath Hudson river hideaway.

Isaac Brokaw, multi-millionaire clothier, insisted that his architect put a real moat around his Fifth avenue castle.

The original John D. Rockefeller, retiring at 56, spent between \$200,000 and \$400,000 on his 7,000-acre "Kijikuli" estate overlooking the Hudson. He lived for years on a diet of human milk and built a \$25,000 turntable so he wouldn't have to move to keep in the sun.

What is the older order yielding place to?

Well, the most dramatic change now taking place in Manhattan's ever-changing face lies in the field of community housing.

One insurance company is building a \$90,000,000 project along the east river. It won't contain any European art treasures and it won't have a moat. But it will have trees, playgrounds and room for 25,000 middle-income people on land where alums sprawled before.

That is the new pattern Manhattan is growing into.

Western U. S. Is Open Minded

ABOARD THE FRIENDSHIP TRAIN. — One thing I've noticed about governors in the western part of the U. S. A. is that they pretty much forget who's a Republican. Gov. Earl Warren of California, for instance, seems to be on intimate terms with Gov. Vall Pittman of Nevada, though one is a Republican, the other a Democrat. And all the Democratic governors in the West swear by Warren, though he's a Republican.

Perhaps this is because they are more broad-gauged and open-minded in the West. Or perhaps it's because the western governors have to gang up on the eastern penny-pinchers in Congress who want to cut off their reclamation money. Anyway, here are some quick appraisals I made of fellow passengers on the Friendship Train: Governor Pittman of Nevada—came out to the west from Mississippi, and the rugged deserts of Nevada haven't worn off his southern charm. . . . Pittman was a miner, lumber dealer, and jack-of-all-business in the early Zepher days finally settling down to newspaper publishing at Ely. . . . Mrs. Pittman helps run the paper. . . . Pittman governs the sixth largest state in the union, with the least population, but he knows every corner of it. When it came to loading food for the Friendship Train, he collected truckloads from all parts of the state—even 700 miles from the train's scheduled route, in Las Vegas. . . . for many years, Pittman took a back seat in state politics, while his elder brother, Key, served as U. S. Senator from Nevada. But on Key's death, brother Vall scared the daylight out of Senator Pat McCarran by almost defeating him in the Democratic primary. In fact, if it hadn't been for some peculiar last-minute voting by easily influenced Negro war workers at Las Vegas, Pittman might have won. . . . The effect on McCarran, however, has been healthful. Since then he has paid more attention to his knitting. Chances are Governor Pittman will be the next senator from Nevada.

Governor Maw of Utah—Mormon governor of a Mormon state, Maw has the undying opposition of the heads of his own church. Reuben Clark, once a liberal under secretary of state and the man who changed the

Monroe Doctrine into a cooperative, good-neighbor enterprise, has now gone back to Utah to run the Mormon church and, if possible, run Governor Maw out of politics. . . . So far, he hasn't succeeded. . . . Governor Maw is open-faced, slow-speaking, but talks to the point. Like most Mormons he is of Scandinavian descent. Beginning life as a schoolteacher, he has taught at Northwestern university and at University of Utah, where he later served as dean of men. . . . Twice he has been elected governor of Utah, and despite the opposition of Mormon church dignitaries (Maw himself is on the Sunday school board of the church) he probably will be elected again.

Maw has been working hard to get new industries out to Utah, succeeded in persuading the Thermoid Brake-Lining Company of Connecticut to build a factory at Nephi in central Utah. . . . With unlimited coal and iron, plenty of copper, Maw says there's no reason why Utah should buy everything from the industrial East. That was why he threw his weight to the U. S. Steel corporation to get the government's war-baby steel plant at Geneva, Utah, despite cries of monopoly.

Gov. Lester Hunt of Wyoming is the only governor in U. S. history who is a dentist. Hunt came out to Wyoming through the baseball league. Born in Atlanta, Ill., he became a star on the high-school ball team at a time when some of the small towns of Wyoming were baseball crazy. The town of Lander enticed him from Illinois to Wyoming, and he has been living there more or less ever since. In a state dominated by big cattle and sheep men who out-Republican the Republican party, Hunt, a Democrat, has been elected anyway. . . . In 1946 he was one of the few Democratic governors to weather the GOP landslide. So certain were the cattlemen that Hunt would be defeated that they invited him to their annual convention with the proviso—"If you are re-elected. . . . The Governor was re-elected, but had the pleasure of snubbing the cattlemen's dinner. . . . What swung a lot of votes in Wyoming was the fact that millionaire Republicans in the East had sent campaign money into the state. Hunt called the roll of Republican contributors in 1942—Estelle Pew, \$50, J. How-

ard Pew, \$500; Mable Pew Martin, \$500; Joe Pew, \$500 — all from Pennsylvania, all from the big Sun Oil family which bosses the GOP in Pennsylvania. . . . Then he called the roll of 1944 contributions. The same Pew family also contributed, but more this time — \$750 instead of \$500 each, plus \$2,000 from the Pennsylvania Republican committee. . . . After reading this rollcall, Wyoming's voters decided that they didn't want their state run by distant Pennsylvania.

Gov. Lee Knous of Colorado— for twenty years Lee Knous has been promising his wife to get out of politics. He has run the gamut of almost every office in Colorado, beginning with mayor of his hometown, then state representative, senator, senate majority leader, justice of the Supreme Court, then chief justice. . . . And whenever he is about to carry out that promise to Mrs. Knous, he is reminded of his own basic philosophy that "the welfare of the people is the first consideration of government." Then he changes his mind and runs for office. It's easy to understand why Knous is elected, also why he was able to buck the GOP landslide last year and become a Democratic governor. He is tall, lanky, warm, was a wartime labor conciliator—a thankless job, but one in which however, he made more friends than enemies. . . . Knous once said: "I'm talking to you in Colorado that rich in New York." And he's stuck around to practice what he preaches.

BY PIPELINE FROM WASHINGTON: NO TAX CUT NOW

House Speaker Joe Martin is a man slow to anger. But he is becoming plenty irked at GOP Representative Harold Knutson of Minnesota, chairman of the House Ways and Means committee, for sounding off on tax legislation without first consulting Martin and other GOP leaders.

The Speaker feels that the publicity Knutson derives from his half-cocked press statements is doing the Republican party no good, especially when he is compelled to crack down on the Chairman, as he did recently in disclaiming Knutson's demands for action on a tax-reduction bill during the forthcoming special session of Congress.

Kickapoo Juice For Wichita Falls

Kickapoo juice soon will flow through faucets at Wichita Falls. That's news.

The water at Wichita Falls long has had a bad reputation—it didn't taste good. Half a million GIs scattered over the world cussed it while they were in training there.

Now, something is going to be done about it. On November 22, citizens will hold a "Wichita water wake", a city wide affair in which the universal reputation for bad water will be buried, and a christening staged for the new source of soft water—nearby Lake Kickapoo.

Kickapoo, incidentally has nothing to do with "joy juice". The name came from the Indians, who named the lake for Kickapoo creek which empties into it.

But good water undoubtedly will be a kick for Wichita, long used to bad water.

Residents of Starrville are puzzled about water in their area. A gasoline-producing water well has been discovered.

R. H. Presley, public health inspector, says the gasoline is "good enough to push the old flapper along." Tests show that the gassed-water has a specific gravity of 51.5 compared with a 66.0 specific gravity for regular gasoline.

No one knows how the gasoline got in the well. The farmer who owns it is wondering how to keep people from tossing cigarettes around. That's his main worry.

There's something new at Agildale, too. The Texas A. and M. cadets have that "new look."

Gone is the familiar olive drab that freshmen and sophomores wore. They have blossomed forth in officers' green serge trousers and blouses. Juniors and seniors now sport officers' "pink" trousers.

Each advanced student in the cadet corps gets more than \$200 worth of clothing—government issue. The upperclassmen, besides their class A uniform, receive a doakien short coat, a field jacket, fatigue uniform, raincoat, garson cap, two poplin and three khaki shirts, ties, shoes.

SULFA FOR LEPERS NEW YORK (U.P.)—Dr. R. C. Williams, assistant surgeon general of the United States and chief of the bureau of medical services, said here that sulfa drugs had been used with some success in the treatment of leprosy. Speaking at a meeting of the American Mission to Lepers, the physician said beneficial results had been noted in the use of the drugs over a period of five years. He said leprosy cases in the United States were estimated at from 1,500 to 3,000.

Affairs Of The World—DeWitt MacKenzie

Preliminaries To Revolt Attempt

Indications are that the widespread communist outbreaks in Italy and France represent concerted effort and that they are aimed in both instances at gaining control of the governments by direct action and so establishing a grip on western Europe. . . . This isn't to say that full-blown rebellion already has broken out, but that we are witnessing preliminaries which are calculated to develop in due course the strength necessary to establish Red regimes. Indeed, the Italian Reds are bluntly talking civil war.

Appropos of this it is interesting to note a prediction made yesterday before the House Foreign Affairs committee in Washington by Representative John D. Lodge, Connecticut Republican who was a member of a congressional committee that made a recent tour of Europe to study conditions. He forecast that communists will attempt a

coup in Italy next March to be synchronized with a general strike in France.

Lodge said success of such a move in Italy would lead to loss of Greece, Turkey and the Middle East to communists. He declared the Reds are so powerful in Italy that they could dispose of the Italian police "in about three days."

The consensus among observers is that these developments are under direction of the newly created cominform—generally regarded as a rejuvenation of the comintern, or general staff for world revolution—which has got into action from its headquarters in Belgrade. The powerful communist parties of both France and Italy belong to the cominform, and certainly wouldn't embark on wholesale, strong-arm operations without orders from the boss.

It looks very much as though

the bolsheviks of Italy and France were adopting extreme measures as a matter of desperation.

The Marshall plan has upset the bolshevik apple-cart. Western Europe in general, and economically hard-pressed Italy and France in particular, have been reacting heavily against the Reds. Communism has lost much ground, and bids fair to lose a great deal more if and when the Marshall program becomes effective to save western Europe.

Then another great danger to communism suddenly has arisen in France, and that is the sensational political come-back of General Charles De Gaulle on an anti-communist platform.

So we see the cominform forced to adopt new and drastic measures to meet these emergencies—and to do so quickly. The battle for western Europe is getting into full swing.

Tribulations Of A Movie Star

HOLLYWOOD, (AP)—Conditioned by years of being peered at, the movie star conducts himself in public differently from most other human beings.

Since this column is concerned with the behavior of these famous people, it is important that we understand what makes them tick. First of all, we must realize that they are under constant strain. Being famous and usually wealthy, they are eternally sought after for favors, appearances, autographs, loans, even smiles or looks of recognition.

The result is that only a few, such as Van Johnson and Bob Hope, appear to enjoy being out in public. The vast majority try to avoid being recognized and venture outside film colony haunts only when necessary for business reasons. The extreme, of course, was Greta Garbo, who could not bear the glare of other eyes even inside a studio. There are many others with less advanced stages of Garboitis.

Movie stars are notably bad at remembering names. The reason is because they meet 100 times more people than the average citizen would have to be mental giants to remember everyone. I never strain as actor's memory for my name, even when I have met them many

times.

Most stars have a phobia against telephones. They are pestered over the wires as much as they are in person. They change their numbers with the seasons. Many won't come to the phone, instructing their flunkies to take the number of the person calling and promise a return call.

The retiring nature of stars in public would not be as profound except for a certain type of people who follow them about. These are the scatter-brained kids, the professional celebrity hunters and the minor hoodlums whose greatest pleasure in life is to bedevil the famed.

Perhaps we should have a "he kind to movie stars week." Though it is sometimes hard to believe, they are also human.

BOOK OF NUMBERS NEW YORK (U.P.)—Mrs. Bertha O'Neill, candy store operator, was arrested for possessing policy numbers, which the arresting policeman said were hidden in a Bible in the store. Magistrate Morris Rothenberg commented: "This is another illustration of the old proverb that the devil will use the Scriptures to serve his purpose."

SMU Must Hurdle Baylor And Frogs To Win Title

Owls To Play Frogs Saturday

By The Associated Press
Baylor's bouncing Bears try their hand at stopping unblasted, untied Southern Methodist university Saturday and if they muffle the chance the Ponies clinch a tie for the Southwest Conference championship.

The only other game this week has Rice and Texas Christian university fighting for third place. Bob Woodruff's Bears bounded back from their sound licking by Texas to upset Tulsa, 7-6, last week.

All-America candidate Donk Walker and his agile teammates Gilbert Johnson and Dick McKisack kept the Mustang Special from stalling against Arkansas. The 14-6 decision was in keeping with Southern Methodist's scoring record. It has averaged slightly less than 18 points per game in eight played and less than 14 against four conference foes.

The University of Texas and Texas A&M rest for their annual Thanksgiving day classic. Texas stands to tie Southern Methodist for the title if it can beat A&M and either Baylor or Texas Christian upset the Mustangs.

Last week Texas hit probably its peak for the season in blasting Texas Christian, 20-0. Rice unleashed its pent-up feelings against A and M, 41-7, to record the biggest margin in the two schools' grid history.

The Owls will be strong favorites over the Horned Frogs, despite playing at Fort Worth, Texas Christian's home.

Arkansas, co-champion with Rice last year, plays its final game Thanksgiving Day against Tulsa. The Razorbacks ended with only one conference win, one tie and four defeats.

If Southern Methodist takes both of its remaining games, the Mustangs will win their first clear title since 1935.

Walker boosted his season scoring to 70 points last week, 28 better than Byron Gillory for Texas. Clyde Scott, Arkansas, Bob Goode, A and M, Pete Stout, TCU, and Randall Clay, Texas, are bunched behind with 36 points.

Odds Against Unbeaten 11's

NEW YORK, Nov. 17. (AP)—The odds today were against all of the "Big Four" of college football—Notre Dame, Michigan, Penn State and Southern Methodist—staying unbeaten and untied for the balance of the season.

Not a week has gone by without one of the major teams being knocked off the unbeaten and untied list. Last Saturday, for instance, Penn, Georgia Tech and Utah were sent sprawling off the spottish perch. SMU had a close call, coming from behind to win.

As it stands now, SMU, with eight straight wins, is in the most precarious position of the current list. The Mustangs, who dined Arkansas 14-6 last Saturday, still have to hurdle troublesome Baylor next Saturday and Texas Christian the following week.

The next toughest job confronts Notre Dame, winner of seven games. The Irish, who either took it easy or were hard pressed when they emerged with a 26-19 win over Northwestern Saturday, face a real test in what will probably be called "the game of the year" when they engage Southern California on Dec. 6. During the interim, Notre Dame will take on off-subdued Tulane in a breather. The Trojans also are unbeaten, although their record is marred by a 7-7 tie with Rice. They have won six.

Michigan and Penn State are almost certain to end the regular campaign undefeated. The Rose-Bowl-bound Wolverines should make it nine in a row when they meet a deflated Ohio State team in their final game of the season next week. Ditto for Penn State which meets off-beaten Pittsburgh next Saturday.

In addition to Southern California, Penn and Kansas remain unbeaten although tied among the major elevens.

Tech, Quakers And Utah Lose Perfect Marks

NEW YORK, Nov. 17. (AP)—Georgia Tech, Utah and Pennsylvania were missing from the list of unbeaten and untied college football teams today along with Trinity (Conn.) and North Central of Illinois.

Fourteen teams, headed by Michigan, Notre Dame, Penn State and Southern Methodist maintained their perfect records during the past week.

Georgia Tech was beaten by Alabama, 14-7, Utah was ambushed by Idaho, 13-6, and Penn fell foul of its Army jinx and wound up with a 7-7 tie.

In the only clash between two all-conquering elevens, Wesleyan of Connecticut defeated Trinity, a state rival, 13-0. North Central was downed by Carthage 12-6.

Smear Campaign Must Be Aired, Says Ben Hogan

CHICAGO, Nov. 17. (AP)—The Professional Golfers' Association today opened a disension-torn annual meeting in which Ben Hogan demands a thorough airing of an alleged "smear campaign" against President Ed Dudley and Vice Ghezzi faces possible expulsion for a blast at the method of Ryder cup selections.

Hogan is determined—with a strong hint of throwing a punch or two in righteous indignation—to get a showdown on "utterly false" accusations that:

1. He is lined up with Dick Metz and Horton Smith in a faction which seeks to oust Dudley as President and is booming Smith for the post in the annual election scheduled tomorrow. Dudley has been PGA president for five years.

2. He was burned up when "retired" Byron Nelson, his former Texas golfing buddy, was named on the Ryder Cup team which trounced Britain at Portland, Ore., Nov. 2-3.

Also on the Ryder Cup subject, Ghezzi tossed another stick of dynamite at the already strained assemblage of professional golf's hierarchy last night with a charge he was "robbed" of a chance to play on the American squad and also that the PGA tournament committee did a "secret" about-face on its policy against "treated" scorings on club faces.

George Schmitter, chairman of the tournament committee, promptly said the Ryder Cup selections were fair and that there was nothing mysterious about the PGA's decision to let players swing with the type of club facings they preferred.

Schmitter said the Ghezzi's complaint would be heard by the executive committee today, but that he might be expelled from the PGA for telling his woes to the press, "violating the code of ethics."

Hogan, specifically was gunning for Freddie Corcoran, PGA tournament bureau manager, who last year was involved in what Corcoran described as a "sneak punch" attack by Metz during a California tournament.

Blimping Corcoran for starting rumors of both his purported enmity towards Dudley and his peeve at Nelson, Hogan challenged Corcoran by telephone to meet him face-to-face here.

Corcoran, who may or may not show up during the three-day session, described Hogan's charges as "utterly false" when interviewed at New York last night, thereby using the same phrase Hogan flung at the accusations he claims Corcoran circulated.

Eighth Member For Longhorn Baseball League Is Sought

Big Spring (Texas) Herald, Mon., Nov. 17, 1947 5
LOOKING 'EM OVER

With TOMMY HART
Big Spring's baseball brain trust, Claude McAden and Pat Stasey, take off at month's end for Miami, Fla., and the annual Minor league meeting. McAden, who is railroaded at the present time, will fly down on the day before the session begins (Dec. 3) while Mr. and Mrs. Stasey intend to start earlier and take it by easy stages.

Since a working agreement with the Washington Senators is all but assured again, the Big Spring delegation will have no great mission to undertake. However, McAden and Stasey will make it a point to meet all other delegates of the Washington chain with the idea in mind of strengthening future relationships.

Joe Cambria, the Senators' scout and contact man, notified the local excellent ball players already under contract to Big Spring. However, he did not identify them by name.

The problem of how to get two extra sections built onto the grandstand at Steer park still confronts Pat and Claude.

The Broncs, with any sort of luck, could draw up to 75,000 paid admissions in 1948 if the additions were in place. Without them, a lot of fans who fancy they cannot be seated are going to stay away.

Odessa's baseball Oilers may land a working agreement with the Dallas Rebels, incidentally. A.

D. Eusey, the Odessa straw boss, is working toward that end at the present time.

Ray Clark has been named captain of the Howard County Junior college basketball team, the Jayhawks, which shortly begins operations. Earl Lusk will serve as co-captain.

Cisco high school's football fortunes seem to be picking up since D. Alford resigned as head coach and was succeeded by Howard (Bill) Mope. The Lobos, who lost to Big Spring back in September, knocked over Ranger last week and looked good in doing it.

Buddy Brothers, the Texas-born coach of the Tulsa university football team, says his Golden Hurricanes are doing much better since he stopped trying to run the team's strategy from the sidelines and placed that responsibility back in the hands of the quarterback.

Brothers admitted in a recent interview that he took full advantage of the newly-enacted free substitution rule and tried to mastermind the team through its first four games. After the club's dismal start, Brothers gave it up as a bad job and almost immediately the fortunes of the team picked up. The Hurricanes knocked over Oklahoma A&M two weeks ago and last Saturday dropped a close one to Baylor (7-6).

He suggests other coaches give the game back to the players.

SEVEN CONFERENCE CHAMPS DETERMINED IN HIGH CIRCLES

Records of undefeated teams:

Team	W	L	T	Pts.	Opp.

Longview	8	0	0	288	0
Wichita Falls	8	0	1	148	26

By The Associated Press
Seven district champions have been determined while two and possibly three more will be crowned this week in Texas school boy football.

The other six won't be decided until next week unless there are some startling upsets that could unexpectedly ease a team or two into the title throne.

Ready for the opening of the state play-off in December are Amarillo, District 1; Odessa, District 3; Austin (El Paso), District 4; Arlington Heights (Fort Worth), District 7; Longview, District 11; Lufkin, District 12, and Goose Creek, District 14.

Going on the line this week will be the championships of Districts 2, 6 and 16.

Vernon plays Wichita Falls for District 2 honors at Wichita Falls Friday.

Highland Park of Dallas and Denton settle District 6 at Denton Friday.

Harlingen and Brownsville get together at Brownsville in District 16 Friday.

Sterling, Fort Davis Coaches Session Today

STERLING CITY, Nov. 17. — Coach George Tillerson and Supt. of Schools O. T. Jones left for Rankin this morning where they will meet with Fort Davis officials to agree on the site for the bi-district six-man football game between Sterling and Fort Davis.

Sterling won District Seven honors by beating Garden City last week while Fort Davis earned the District Eight crown by tying with Van Horn, 18-18. The victory over Van Horn has been protested, however.

John Prude, coach, will represent Fort Davis at the session. Prude reportedly wants to play the game at Alpine, a neutral site.

C. West Gets Angelo Club

C. West has landed the franchise awarded San Angelo in the Longhorn baseball league.

Directors of the Class C circuit, meeting in Abilene Sunday, voted to give West the right to field a nine in the loop, which begins 1948 play April 21. Two parties were bidding for the San Angelo franchise but West had the better argument. He already has a park ready for night play.

Red Weatherford represented the only faction and he promised that a park could be built to meet Longhorn league specifications.

An eighth member for the league is still to be found but Coleman apparently has the inside track for the coveted spot. Wendell Bedcheck, Coleman publisher, said a group of Coleman business men needed "another week" in which to perfect financial and other plans toward making application for the franchise.

Other cities being considered for the eighth club are Alpine, Kermit, Childress, Breckenridge and Altus, Okla. Clubs which functioned in the loop the past season were Big Spring, full season leader, Ballinger, winner of the Shaughnessy playoff round, Vernon, Sweetwater, Odessa and Midland.

West fielded a strong semi-pro club at Angelo last year. His club made several appearances in Big Spring.

Pat Stasey and Claude McAden represented Big Spring at the Sunday pasley.

Welch May Quit
SEATTLE, Nov. 17. (AP)—A end to the six-year hold on the University of Washington's football coaching reins by Ralph (Pest) Welch was forecast today by Royal Brougham, sports editor of the Seattle Post-Intelligencer, but the report brought prompt denials from university authorities that such action has been considered.

Telephone operators are busier than ever during these days of more telephone calls from more telephones than ever before. But they still take pride in doing their job with the same characteristic skill, patience, and courtesy that have caused them to be known as "The Voice With a Smile."

Despite the heavy increase in calls, operators are handling most of them quickly and accurately. Sometimes, during midmorning and late afternoon (the busiest times at the switchboard) there may be a brief wait for "Number, please," but you may be sure your call will be answered as promptly as possible.

Splendid Cough Relief Is Easily Mixed at Home

To get quick and satisfying relief from coughs due to colds, mix this recipe in your kitchen. Once tried, you'll never be without it.
First, make a syrup by stirring 3 cups granulated sugar and one cup of water a few moments, until dissolved. A child could do it. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.
Then get 2 1/2 ounces of Finex from any drugstore. This is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations.
Put the Finex in a pint bottle, and fill up with your syrup. This makes a full pint of splendid medicine and you get about four times as much for your money. Never spoils. Tastes fine. And for quick, blessed relief, it is surprising. You can feel it take hold in a way that means business. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Thus it makes breathing easy, and lets you sleep. Money refunded if not pleased in every way.
Finex Is Swift Acting!

Change Slated In Train Schedules

Monday was the last day for the second sections of morning train schedules through here. Operations are being consolidated so that the faster first sections will handle the passenger, mail and fast express traffic. Any other commodities normally moving over the second sections will be serviced over fast freight schedules.
The westbound schedule will continue to arrive at 6:10 a. m. and the eastbound schedule at 7:10 a. m. The second section arrangement was installed as an emergency measure about a year and a half ago.

Sheriff Leaves To Pick Up Suspect

Sheriff Bob Wolf left for Mason this morning where he was to pick up Fred C. Zimmerman, wanted here on a charge of automobile theft. Zimmerman allegedly stole a vehicle belonging to Fred Hogue Saturday. He was picked up by Mason county authorities on a tip by local officers.

Clark Given Oil Probe Findings

WASHINGTON, Nov. 17. (AP)—Declaring that more and cheaper oil for Americans might be involved, a congressional committee checked to Attorney General Clark today its findings on the Arabian oil connections of four United States companies.
Chairman Brewster (R-Maine) wrote Clark that evidence assembled by the Senate War Investi-

SUSPICIONS ARE AROUSED

Perhaps there is nothing about a mail box and a tool chest to arouse suspicions, if they are displayed where such things are supposed to be.
The fact that both were spotted under the hood of a vehicle belonging to an alleged bootlegger by members of the Texas Liquor Control board near Lamesa Saturday night immediately aroused curiosity, however. Upon investigation, the compartments yielded 47 bottles of contraband whiskey plus 24 cans of beer. The driver, a Negro, was turned over to Dawson county authorities. He was scheduled to face trial for transporting liquor without a license in Lamesa today.

Hence Brewster said it had been decided to refer the whole subject to the justice department for "further exploration and action." Clark might deem warranted to assure "appropriate protection" of American interests.
Brewster was referring to testimony developed by the committee at its recent inquiry into whether the Navy was charged excessive prices for petroleum by the Arabian American Oil company (Aramco).
This firm, which holds concession rights to vast Arabian oil fields, is owned jointly by the Texas company, Standard of California, Socony-Vacuum, and Standard of New Jersey.

Grice's Office Is Beehive Of Activity

Justice of Peace Walter Grice's office was a beehive of activity this morning.
Nine persons were haled into court on drunkenness charges while half dozen were charged with traffic violations.

The nine charged with being drunk in a public place were each fined \$1 and costs. The others had not faced trial at noon today.

Truman

(Continued From Page One)
be necessary, for example, he said, for stable food and clothing items that are not scarce, or for delicacies or luxuries. And the same kind of selection would apply to industrial items.
He called for authority to restore rationing as a "preparatory measure" which would permit rationing of basic living cost items on a "highly selective basis."

Mr. Truman said he thought that even should shortages of a few commodities at the consumer level remain serious for a while, he believes that fair distribution can be accomplished largely without consumer rationing.
But no one can tell how serious some shortages might become, he said, so rationing authority should be on hand.
He pointed out that it takes months to set up the necessary organization for price control and rationing.
The President said that authority to clamp the lid on wages also should be provided "in all fairness," although he thought there would be "few occasions for its use."

"All the actions I have described," Mr. Truman said, "are essential to a fair and effective anti-inflation program. I look upon them as short-run insurance against the impairment of our prosperity and a threat to our future development."
Long range programs, the Chief Executive said, must stress "ever increasing production."
ASKS FARM PROGRAM
For agriculture, he said, this requires a comprehensive farm program.

He counseled that programs to boost the domestic use of farm products will be needed at the time other countries become more nearly able to supply themselves. National measures will be needed, he said, to protect farmers against "ruinous deflation."

gating committee indicates:

1. That the oil in question "could be laid down in New York harbor for approximately one-half the current price and might contribute very materially to easing the growing shortage of petroleum in the eastern United States."
2. The expectation, however, is that the oil probably will be consigned only to Europe and the Far East to avoid cross-hauling with present United States imports, and
3. There is "some doubt" whether "the interest of the United States in the handling of these oil reserves and their possible impact on world peace will receive primary consideration."

During the hearings, Brewster raised the question of whether there was any violation of the anti-trust laws in this joint ownership. Company officials said there was not.

Special Groups To Be Named By C-C President

Special committees to deal with specific problems will be named by K. H. McGibbon, chamber of commerce president, under authority from the board of directors.

Directors Monday gave approval for plans to set up committees to work with state officials toward enlargements of the plant at the Big Spring hospital; to be in contact with responsible authorities in interest of the Veterans Administration hospital project; to correlate work toward assisting small businesses and industries in locations here; to plan for the annual chamber membership meeting; to return nominations for the chamber directorate.

Five Appear In County Court

Five persons, three of them charged with driving while under the influence of intoxicants, appeared before Judge Walton Morrison in county court proceedings this morning.

Entering pleas in the DWI cases were J. B. Raborn, Albino Oliva and Elmer Thomas Vaughn. Each was fined \$75 and costs.

Donico Torres Rosales, charged with possession of whiskey for purposes of sale without a license, was fined \$100 plus expenses.
M. C. McGregor, a Gonzales Negro youth, accused of rudely displaying a deadly weapon, was hit with a \$50 penalty and court expenses. McGregor, who came north to pick cotton in Martin county, was reportedly wielding a huge knife in the northwest flats when picked up by police.

Theft At Aexas Club

A quantity of nickels, totalling approximately \$15, was taken from the Texas Club sometime Sunday night, police reported this morning.

Officers said the guilty party is believed to have been locked in the establishment when it was closed for the day, since there is no evidence of a break-in. The safe had been tampered with, but had not been opened.

Dedication Of Bell System Draws Crowd

An overflow crowd attended special services at the First Baptist church Sunday night when a 25-note carillon bell system was dedicated honoring all Howard county men and women who served in the armed forces in time of war.

Harold P. Steck, commander of the Howard County American Legion post made the formal acceptance of the bells in behalf of the Legion and Veterans of Foreign Wars.

The bells were contributed to the church for that purpose by Dr. and Mrs. P. W. Malone.
The dedication service opened with a prelude of music on the bells and the church organ by Mrs. C. W. Norman, organist. Flags of the United States, the VFW and the Legion, were then presented. After a special number by the choir, Dr. P. D. O'Brien, pastor, brought a brief sermon on "The Place of Music in Worship Services."

The program of dedication included poems by Mrs. Bledsoe O'Brien, after which Steck formally dedicated the bells and Legion members unveiled a plaque, also contributed by Dr. and Mrs. Malone, commemorating those who served in all wars.
The program closed with a brief message of appreciation by Steck.

Special Groups To Be Named By C-C President

Special committees to deal with specific problems will be named by K. H. McGibbon, chamber of commerce president, under authority from the board of directors.

Directors Monday gave approval for plans to set up committees to work with state officials toward enlargements of the plant at the Big Spring hospital; to be in contact with responsible authorities in interest of the Veterans Administration hospital project; to correlate work toward assisting small businesses and industries in locations here; to plan for the annual chamber membership meeting; to return nominations for the chamber directorate.

At the meeting J. H. Greene, manager, reported that one Skyway No. 1 marker was being installed on the ramp at the mummy airport, location had been made for another 10 miles north and that location was being sought for one a like distance south. He also reported on the referendum convention of the C-CMAWT convention in Abilene, attended by him, W. L. Mead and G. H. Hayward.

Greene spoke of the need of the special committees, particularly to the need for finding local means of giving prospective business and industrial operators assurance of sites, residential facilities, etc. He also expressed the need for a major warehouse, which possibly might be tied in with an office building project.

Need for working with county commissioners on a survey for permanent lateral program also was expressed with the view of exploring the possibility of any co-operative action with the state highway department, which might take over maintenance of permanent roads so constructed.

Howard County Is Covered By Rain

Farmers who would like to get a plow blade into the ground were watching the skies today and keeping their fingers crossed.

The parched earth, teased last week with a quarter-inch downpour, was visited with additional rain and more was in the offing this afternoon.
The fall had amounted to but 28 of an inch at the Weather Bureau at noon today but the downpour was believed to be somewhat heavier in the city. The rain was reportedly general from here to Midland.

A steady rain throughout the day would enable farmers to get winter crops into the ground and would not necessarily injure the late cotton.
Forecast was for continued cloudiness and rain.

Goes To Bedside Of Critically Ill Mother

Mrs. P. W. Malone was to arrive in Humbolt, Tenn. this afternoon to be at the bedside of her mother, Mrs. T. M. Milligan, who is critically ill. Mrs. Malone learned Sunday evening that her mother, who had suffered a stroke, was in a coma, and left for Fort Worth to board an airliner for Memphis Monday morning. Mrs. Milligan was somewhat improved Monday morning, having regained consciousness.

Resident Notified Of An Uncle's Death

Mrs. A. C. Bass received word Sunday afternoon of the death earlier Sunday of an uncle, P. G. Dunlap, in Lockhart.
Mr. and Mrs. E. P. O'Daniel, Mrs. J. E. Brown and Mrs. Leroy Echols of Coahoma left Sunday evening to attend funeral rites. Dunlap is a brother of the late Mrs. M. H. O'Daniel of Coahoma.

Suspects Detained

Three men who allegedly took several blankets and pillows from the Phillips court here Saturday night have been detained by authorities in Lamesa, city police reported this morning.
Lamesa officers were alerted when the articles were reported missing soon after the three men left the court.

Argon, a gas obtained from air, is used in electric light bulbs.
