Flying Anchor Ranch Sold To Mort Mertz

The Flying Anchor Ranch, once a sprawling 110 sections, is being sold to Mort Mertz of Eldorado by the family of Capt. Thad A. Thomson, owners of the ranchland for more than half a century.

Much of the ranch has been retained by other members of Thomson's family and Eldorado's townsite was built on a portion of the land.

Historically, the Thomson family was well-known in Southwest Texas. The first Thomson to come to Texas was Alexander Thomson, who figured prominently in the state around the Civil War. A minister, he called together the first Protestant congregation in the state.

Capt. Thomson, born in Austin Dec. 16, 1887, was a 1907 graduate of the Naval Academy.

He served as acting commandant for the Eighth Naval District from its establishment in 1940 and later was a professor of naval science and tactics for the Naval ROTC at Rice Institute in Houston. He was the recipient of the coveted Navy Cross for action during World War I.

Said to be one of the best stock ranches in West Texas, the Flying Anchor also has a ranch home built there by Capt. and Mrs. Thomson after his retirement from the Navy in 1944.

The ranch was pioneered by Capt. Thomson's father about 1918 and served the family since that time.

In the house were antique furniture from Mrs. Thomson's family in England and some was reputed to have belonged to Admiral Lord Nelson.

Also included were a number of items, from China, India and the Mediterranean areas. One of the items, a 160-year-old needle-point work, won a first prize at a Paris Exposition. Many other objects in the house featured a variety of wood handiwork.

The Thomsons now are living in a condominium for retired Naval officers in McLean, Va.

New Vehicles For Month Of August

During August, the following new vehicles were registered in Sheriff Orval Edmiston's office:

Zoreta Keeney, '71 Olds 4-door;

Northern Nat. Gas Co., '71 Chevrolet pick-up;

Billie Gayl Blaylock, '71 Ford 4-door;

Atlantic-Richfield, two '71 Ford pick-ups;

Haley Transports, '71 Ford truck;

Jeanette H. Wheeler Ranch, '71 Ford pick-up;

Gloria E. Enochs, '71 Olds 4-door;

Atlantic-Richfield, '71 Ford flat truck.

Oil News

Schleicher Re-Entry

J-W Operating Co., Dallas, will re-enter and plug back to 4,350 feet at the former Jocelyn-Varn Oil Co., Abilene, No. 1 H. A. Thomson Estate, Schleicher County 6,594 foot wildcat failure 10 miles south of Eldorado, 1 3/4 mile south of the two-well W. J. B. (Canyon gas) field and 2 1/4 miles north of the depleted H. A. T. (Wolfcamp) field.

No shows or tests were reported above 4,350 feet.

Location is 660 feet from the south and east lines of 40-A-HE&WTRR, Abst. 842. Ground elevation is 2,382.4 feet.

The H. A. T. field produced from pay at 3,400 feet; and the W. J. B. field at 5,940 feet.

Eldoradoans Arrive In Rome In Time For Money Squeeze

Dr. and Mrs. J. B. Brame arrived back in Eldorado last week after an 8-day vacation that took them all the way to Rome, Italy — and as luck would have it, they arrived in Rome on Sunday, August 15th, the very day that Pres. Nixon announced his freeze on wages and a devaluation in the value of the American dollar.

They were gone eight days and it was their first vacation in 14 years. They traveled with a group from Tulane University, where the doctor finished his medical training some years ago, and enjoyed congenial traveling companions throughout the tour.

Confusion about American money was not felt in Rome on Sunday nor on Monday, but the city woke up to it by Tuesday and by Wednesday many of the stores would not accept our dollars for small purchases. However, it proved to be only a minor inconvenience since the American Express office in Rome promptly cashed all the checks presented.

"We had a wonderful week," declared the doctor. "Holle and I visited the Pope and St. Peter's Cathedral and we made a number of side trips to historic points."

They spent nearly of their time in the city of Rome, and like all travelers, declared they were very glad to be back home.

Athletic Boosters Off To Busy Start

Approximately 300 parents and fans of the Eldorado Eagles turned out Friday night for the Booster Club meeting. Much enthusiasm was exhibited by the "Going Band from Eagle Land" and also by the Cheer Leaders both of Jr. High and High School. Coaches Helmers and Meador presented their Junior High boys who number around 35 this year, and by their size gave the fans the reason to look for a good year with these boys.

Coach Verner presented his B team which is composed mostly of Freshmen and some Sophomores. The Varsity team was introduced by Coaches Stephens and Quimby. Both teams presented some of their drills and stunts, and Coach Stephens answered some questions from the audience.

President E. C. Peters urged all to attend the scrimmage with Winters here Saturday and then go to Rocksprings next Friday. Some additional 50 members joined at this meeting. Homemade ice cream was served to all the students and fans present.

Regular Booster Club meeting was held on Monday night, Aug. 30 at 8:00 p.m. It was reported a check for 50 was received from Nathan's Jewelry of San Angelo toward the balance owed on the weight machine. The balance owed on the machine is now paid in full.

Clifford Schooley reported the Club made a profit of \$60 on the Concession Stand during the Winters and Eldorado scrimmage last Saturday. Bob Bradley, membership chairman, reported the membership of 189 members. Duge Yates' name was drawn as Booster of the week and will travel to Rocksprings with team for Friday Night Scrimmage.

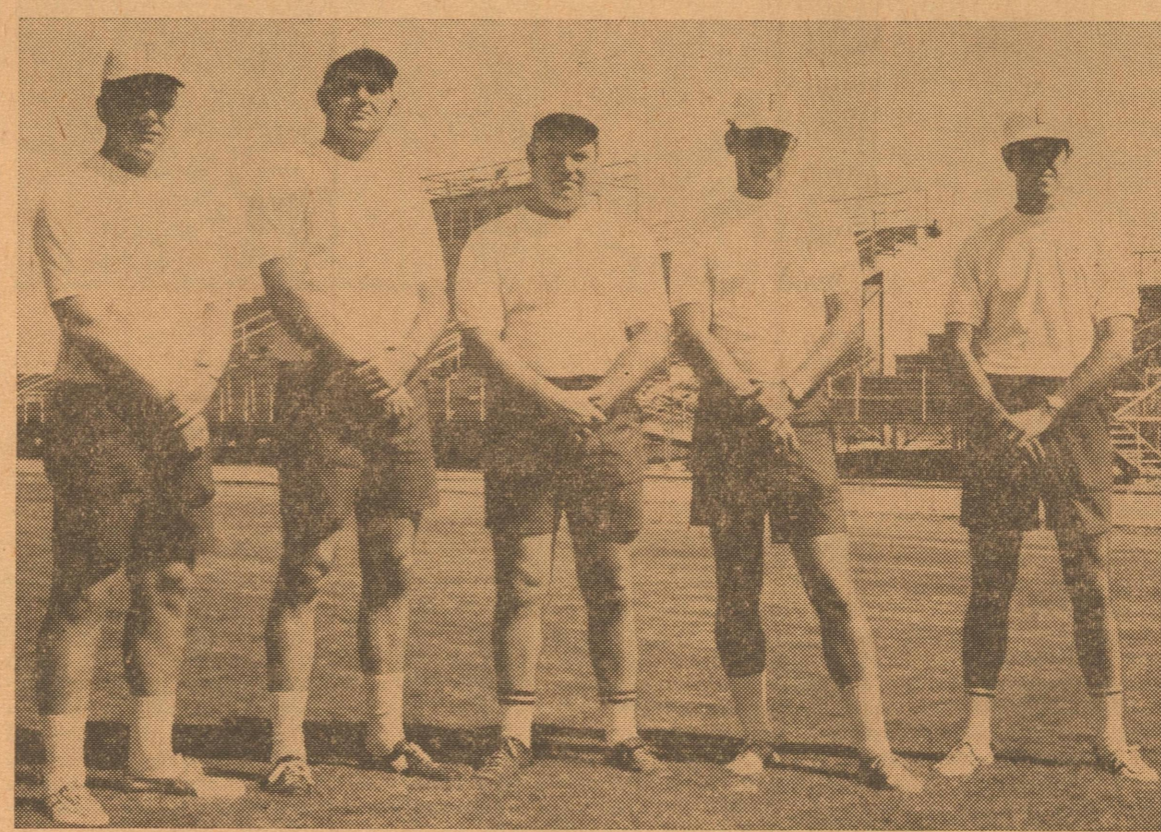

Coach Lynn Meador reported the Jr. High team was working hard and looking forward to their first game with Iran on September 9, 1971. Coach Stephens showed films on the Winters scrimmage. The next meeting will be held Labor Day, September 6 at 5:00 p.m.

BACK FROM VACATION

Mr. and Mrs. George Long arrived back home in Eldorado late Monday evening with their camper trailer after a vacation that took them to the northern states, including Jackson Hole in Wyoming.

On their return here the first thing they asked was, "When did we get all this rain?"

Here Are The Members Of This Year's Coaching Staff

SHOWN LEFT TO RIGHT are Ronnie Stephens, head coach; and assistants: Wes Verner, Mike Quimby, Bob Helmers, and Lynn Meador. —Success Staff Photo

Eagles Scrimmage Winters Here; All Set To Go To Rocksprings

Soberly reviewing the film version of Saturday night's scrimmage session with the Winters Blizzards, Coaches Ronnie Stephens, Mike Quimby, and Wes Verner reached some not too disturbing conclusions.

They were pleased with the fact that the Eldorado "B" lads came alive after the Winters "B" lads scored on the fifth play of the period and the Eldorado boys permitted no more such Winters performance. In fact, the rest of the evening saw Winters earning not more than four or five first downs. The Eldorado "B's" obviously were over-awed by "being out there" and just as plainly the Eldorado lads are having to learn a lot of football at high velocity. This sort of situation contributes a great deal to self consciousness.

The Eagle coaches carefully checked the play where the Winters back ran some 50 yards to score and discovered that an Eagle lineman had missed the signal for a defensive assignment and by chance the Winters back stumbled through this gaping hole in the Eagle defense.

Finally, the coaches concluded that the Eagles held the Blizzards very capably for about half the period and then lack of satisfactory physical condition took over. In other words, the Eagles did very well until they got tired.

Coach Stephens remarked that the errors revealed by the films of the scrimmage showed that these errors would be corrected with proper attention and that none was an irretrievable blunder. As for the physical conditioning, the

Eagle coaches were not greatly upset since they were already planning additional exercises to correct this deficiency which is prevalent with nearly all football teams so early in the season.

Coach Stephens remarked that the Eagle staff was encouraged with the hustle the Eldorado lads exhibited and that again there were very pleasing shows of good football particularly on the first series of defensive efforts. Coach Stephens continued that the Eagles made mistakes any team might be expected to commit after complete reorganization; that even so the Eagle passing attack was much better than its four completions made it appear and that the ground game had much more threat than the single long break away might indicate. He said again that the Eagles still had the problem of living up to their potential.

Coach Stephens singled out Mike Jasso as a "B" team linebacker, and James Holley as a "B" team defensive guard for punts on the back for spirited and effective play.

Coach Stephens continued that the Eagle staff also had commendations for "A" teamers Billy Doc Hubble, Manuel Martinez, Roy Gene Lloyd, and Garry Wester for spirited play. They remarked that a sharp buffet administered by Sophomore Mort Mertz shocked a Winters lad into fumbling and that this loose ball was recovered by an unidentified Eagle.

Coach Stephens concluded his discussion of the Scrimmage by remarking regretfully that Senior Mike Mikeska, one of two tail back candidates, had been lost to the Eagles for the year due to a head injury.

When queried about the final examination period against Rocksprings, Coach Stephens remarked that the Angoras were made up of a team of big strong lads who would provide the Eagles a very strenuous and educational evening's exercise. He said that Rocksprings offensively would employ another version of the "Wishbone" but without the "Veer" which makes this formation dangerous outside tackles. Coach Stephens said the "Billies" probably would rely chiefly on power plays.

Defensively, Coach Stephens remarked that the Billies would resemble the defensive stance of the Eagles with four defenders down front supported by three linebackers.

Coach Stephens remarked that the Eagles would start the Rocksprings scrimmage with the B team period from 5:00 until 6:00 o'clock at which time the respective varsities of A teams would take the field for their hour of testing.

Coach Stephens concluded the interview by saying that he hoped films of the Rocksprings scrimmage would be available for study Sunday afternoon, September 5.

Bulletin Board

1. The Winters "B" Blizzards outscored the Eldorado Eagles "B" squad 1-0 last Saturday evening on Eagle Field.

2. The Winters "A" squad scored twice for a 2-0 advantage against the Eldorado Eagles the same evening. One Blizzard score came on a long run through a gaping hole in the Eagle line and the other on a long forward pass over an Eagle defender.

3. A surprisingly large crowd of 300 or more persons witnessed the exercises.

4. Eagle Field was in superb condition. Like a carefully combed head of hair, not a single blade of grass was discernibly out of place.

5. The Eagles conclude their preseason studies in Rocksprings Saturday afternoon beginning at 5:00 o'clock and ending at 7:00.

Post Script

Winners of the door prizes last week end at Western Auto were: Recliner, Mrs. Ethel Clifton; Bicycle, Mrs. Johnnie Harris.

—ps—

Horace Linthicum has moved his Tobosa Enterprises office from the Kent Automotive building to the old Ford location on South Main.

Monday, he and some helpers were moving desks and other equipment to the new location.

—ps—

Jerroll Sanders continues to oversee the work on the building on the Sonora highway to convert it into his "El Dorado Restaurant" scheduled to open sometime in September.

He has laid plastic floor tile in the back where the large private dining room and the kitchen will go, and Friday morning a large walk-in refrigerator was brought in and set up.

School On Monday; Otherwise Holiday

This coming Monday, Labor Day, will see school as usual for the students in the local schools. Supt. C. T. Humphries reports that in order for the school to get in enough days to complete the first semester by Christmas Eve, this day of school is necessary.

Otherwise, Monday will be a general holiday with stores, federal offices, court house, etc., being closed all day.

570 In Local Schools

School Supt. C. T. Humphries reported Monday that a total of 570 students were enrolled in the local schools, as of that day, and following one week of school.

The 570 total includes the 312 enrolled in Kindergarten through the 6th grade, and the 258 in grades 7 through 12.

That is about the same number as were enrolled at this time one year ago.

First Of Football Ads Comes Up Next Week

The Eldorado Success will start running our traditional series of football booster ads one week from today—on Thursday, Sept. 9th. The pictorial ads will continue through the season which closes in mid-November.

The crew have already done some of the preliminary work such as taking the pictures of the varsity team members, coaches, and manager, and have these engraved ready for printing in the paper. As usual, we will each week carry the probable starting line-up, the schedule of coming games, and the scores of past games.

These football booster ads serve several purposes. First, they give recognition to the players. Second, they advertise each week's game. This is by giving time, date, place and season's result. Third, through the sponsors of the ads, they demonstrate townwide support and backing of the Eldorado Eagles, and finally, fourth, the ads make possible the complete coverage in the Success of all the games.

We are now in the process of selling for this ad series. Any Eagle booster overlooked who wants on should call this office at 2600. There may be few direct sales in getting on the series, but it creates good will which is vital to any business enterprise.

Ronnie Stephens is starting his first year as head coach of the Eagle team.

The Eagles will launch their 1971 season at Rankin, the night of Friday, Sept. 10th. Kick-off time will be 8:00 p.m., and this will be the first of the five non-conference games. On Sept. 17th, the Ozona Lions will come here for the Eagles' first home game.

The Eagles will start 9-A District play October 15th when they host Mason here, and remaining games will follow with Robert Lee, Bangs, Sonora and Menard.

TO REGISTER ART CLASSES

Mrs. Pat Cain of San Angelo will be at the Memorial Building at 9:00 Saturday morning to register students for her art classes.

Further details are given in her ad on page 3 of this Success issue.

COMMISSIONERS MEET

At their meeting August 9, the County Commissioners authorized A. G. McCormack to attend the County Treasurers State Conference in Odessa.

Also, they appointed Jack Halbert public weigher for a two-year term starting Aug. 25.

They approved employment of David Moody as road employee at \$400 month salary, effective August 9th.

School News

The Season Tickets for the five home Varsity games are still being sold for \$7.50 each in High School Principal Guy Whitaker's office. Deadline for sale of these is Wednesday, September 8th.

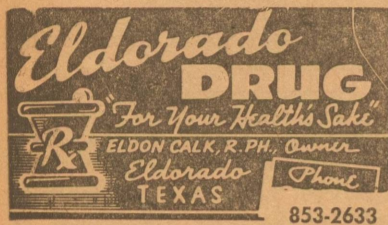

The photographer from the Fox company will be at the school on Sept. 22nd to take pictures of all the school students.

Where Friends meet for cool, refreshing fountain drinks and ice cream treats!

Mrs. Ford Hubbard, State Regent and the members of the Board of the Texas Society Daughters of the American Revolution, have announced the purchase of an historic house, The Freeman Plantation, in Jefferson, Texas. This will be the future home for the Texas members where all past records will be kept and a display of DAR projects maintained for the benefit of friends and the general public.

Outstanding among the many lovely ante-bellum homes on the yearly Jefferson Pilgrimage in May, the Freeman Plantation house is located in a most beautiful setting of 16 acres of wooded property. A natural stream runs through the plantation.

Built in 1850, virgin timber cut from the plantation was used in construction. The hand-hewn beams fourteen by fourteen inches in thickness, support and extend the length of the building. The first floor is old brick with ground to eaves pillars. The four towering columns that uphold the roof of the suspended porch are built of handmade brick. Each of the eight historic rooms has a large open fireplace. The DAR has been most fortunate in obtaining the lovely house with most of the original antique furniture.

In recent years a large wing has been added to the rear of the original home to provide facilities for modern living including central air conditioning and heating. The kitchen, now modernized, still has its open fireplace and iron kettles.

The Freeman Plantation home has been awarded the plaque of the Historic American Building Committee as well as the Texas Historical Society Committee marker. The house has been sketched by architects of the National Park Service and filed in the Congressional Library as a masterpiece of French-Colonial architecture generally known as a "Louisiana Raised Cottage."

The dedication of the Freeman Plantation will be announced at a later time by the Board of the Texas DAR. Many notable Texans as well as distinguished guests from other States will be invited to participate.

The State Regent, a member of the John McNeill Alexander Chapter of Houston, has traveled most of the summer throughout Texas

in search of a suitable State House for the Texas Society with excellent assistance from many interested members. She is a fourth generation Texan and in her dedication to the DAR Mrs. Ford Hubbard is following in the footsteps of her relative, Mrs. Roger Provor of New York, who was one of the first six ladies to answer the call for the original organization of the National Society DAR in 1890.

During the first year of Mrs. Hubbard's three year regime, seven new DAR chapters have been organized, plans for the renovation of the Texas Room in Memorial Continental Hall have been made, and many state and national honors have been added to the State Societies' record. Julia Hubbard chose the location of a State DAR house as the State Regent's special project. Texas now has 11,400 DAR members and 123 Chapters located in all sections of the State.

The Texas Society DAR extends a cordial invitation for all Texans to attend the Jefferson Historical Pilgrimage in the spring of 1972. —Ruth Baker, Regent, El Dorado Chapter DAR.

SHORT ORDERS A SPECIALTY

Mrs. James Mika, Prop.

Family's Health Depends On Food

College Station, Tex.—Your family's health depends largely upon what you feed them. To make the most of food values that offer both nutrition and economy, follow these marketing tips, suggests Gwendolyn Clyatt, Extension consumer marketing specialist.

Most markets are well-stocked with various cuts of mature and baby beef. Featured cuts vary from market to market, so check ads for family preferences before shopping, the specialist says. In general, beef values include chuck roasts and steaks, round steaks, ground beef, beef and calf liver.

Pork prices are about the same as the past few weeks. Look for best values on shoulder roasts and steaks, hams, picnics and end-cut loin roasts and chops.

Fryer chickens are a good choice in most markets so take advantage of their versatility and serve them often to cut family food costs.

And, according to the specialist, egg supplies are plentiful with prices somewhat lower than at this time last year. Buy Grade A large eggs for the most quality and economy for your egg money.

At the dairy counter, check for good buys on cottage cheese, American cheese and yogurt. Be sure to include milk products in your daily menus.

The vegetable counter is still well-stocked with fresh items, Mrs. Clyatt reports. Look for carrots, cabbage, mustard, celery, collard greens, corn, head lettuce, potatoes and yellow onions.

Fresh fruits in good supply at the most economical prices include plums, pears, nectarines, grapes, bananas, cantaloupes and avocados.

CARDBOARD 10c & 20c at Success

Tax Man Sam Sez:

Topic: Tax Learning.

An average Texan may do a bit of bragging on quite a few of the finer things that we enjoy around these parts, but most of them would admit that they need a little more learning when it comes to addin' and subtractin' and figurin' income tax returns.

Internal Revenue's Dallas District sings praises of the Texas schools and the teachers that give about 200,000 students some of the fundamentals of how to prepare a basic Form 1040 income tax return. IRS is also proud of the more than 150 adult education sessions that were held to help several thousand adults. However, the good tax folks have to admit that income tax learning just don't come easy for most of us. We can only hope that our school teachers and the tax folks and a lot of others keep up the good work because—let's face it—most of us need to know a lot more about our personal income tax business.

PLEDGES SORORITY

Ft. Worth, Texas.—Pledging of more than 250 women students enrolled at Texas Christian University was announced at the close of rush week activities by TCU Panhellenic sponsor Kristan Kirkpatrick, assistant dean of women. Pledge ceremonies were conducted after the issuing of bids by the 10 Greek-letter organizations for women at TCU.

Among pledges of Delta Gamma was Lela Butler and of Pi Beta Phi was Peggy Jo Hill both residents of Eldorado.

TYPEWRITER RIBBONS, for Royal, Underwood, and Remington —available at The Success.

County Ag. Agent's Column
By Jerry Swift

Small Grain

Recent moisture has brightened prospects for small grain crops in the county. Planting time is at hand and next year's grain harvest or the amount of grazing this fall and winter from the crop may well depend on the variety planted. The choice of a variety is influenced by whether the crop is seeded on dryland or irrigated, low or high fertility conditions, whether used for grazing or grain or both, and its resistance to diseases and insects. Shattering and lodging characteristics and quality, especially in the case of wheat, should also be considered.

The recommended wheat varieties for this section of Texas include: Tascosa, Caddo, Sturdy (with irrigation), Caprock (irrigated), Scout 66, Improved Triumph, Triumph 64, Kaw 61, Crockett, Parker, and Concho.

Recommended oat varieties include: Norwin, Wintok, Cimarron, Bronco, New Nortex (less winter hardy) and Ora, Nora, Alamo-X, and Moregrain.

Recommended barley varieties include: Will, Rogers, Era, Cordova, and Zora.

Roses

Extra care of roses during late summer when the weather is hot and dry can mean more beautiful blooms this fall.

Check the mulch applied in the spring. Make certain it is still at least an inch or two thick. Water the rose garden thoroughly every 10 days or more often if needed. Soak the soil to a depth of 8 to 10 inches. Frequent light waterings encourage shallow roots and make the plants more susceptible to disease.

A preventive spray program should be continued for the control of blackspot. Heavy dew in the morning will encourage this disease just as the case with frequent showers in the spring.

The rose plants should be sprayed with a fungicide containing maneb or folpet every 10 to 14 days until the first killing frost. The plants need as many leaves as possible to build up food reserves and promote larger flowers and more intense color for the fall bloom. Good food reserves will also help the plants withstand severe winter weather.

A close examination of the plants at this time is suggested to determine if replacements are needed. Many excellent rose varieties are now available and it's a waste of time and effort to keep plants which do not live up to your expectations. Mark those selected for

removal so they can be easily located when planting time rolls around.

Cotton

Late Season Pests—Bollworms, tobacco budworms, pink bollworms and boll weevils are the principal insects involved in the late season control program. Apply insecticide treatments when infestation counts indicate the need. Once insecticidal application begins, inspect fields frequently and repeat applications until the pest population has been reduced below economic levels.

Control of late season insects is designed to insure continued fruiting and protect fruit previously set.

Cotton grown under irrigation or on high-yielding land usually requires protection longer than cotton on dryland acreage. Production practices, such as late irrigation and excessive rates of nitrogen which prolong plant growth, may necessitate continued insect control measures. These practices also greatly favor an increase in the number of injurious insects which may overwinter, thereby increasing the potential for insect damage the following season.

Neighborhood Center

P. A. Olson, Dir. — Phone 2763

Adult Basic Education

Adult Basic Education Classes will be held again this year, starting on Tuesday, October 5, 1971 and lasting until February, 1972. They are to be held every Tuesday and Thursday evening from 6:30 p.m. to 9:30 p.m. in the High School. For those people in the community who have not completed their education, this is an excellent opportunity to do so.

The classes are free and we need at least 10 persons to insure that we will have a class. All persons interested in attending please call 2763 so we may get an idea on just how large our class will be.

Conversational Spanish

Anyone interested in attending classes in Conversational Spanish please call 2763 as we are interested in getting this class started. The Neighborhood Center would like to have at least 10 persons enrolled. Once classes start, it will be too late then to enter.

ASCS To Help Answer Questions On Freeze

All residents of Schleicher county may obtain answers on operation and interpretation of the Presidential order of Aug. 15 on prices, rents, wages and salaries from the Schleicher County Agricultural Stabilization and Conservation Service (ASCS) Office, according to John R. Powell, chairman of the County ASCS Committee.

County ASCS offices throughout the United States have been chosen as information centers to answer questions from all citizens on President Nixon's Executive Order which is designed to stem inflation and strengthen the national economy.

The Schleicher County ASCS Office is receiving official answers to questions concerning the President's action, and any person in Schleicher county who wants or needs precise information should get in touch with the County Office, Powell said.

The Schleicher County ASCS Office is located at 105½ E. Callender. The mailing address is P. O. Box G. The telephone number is 853-2838. In charge of the office is Ronald A. Mittel.

"Ours and all ASCS offices over the nation, will function as information centers in all locations outside of highly urbanized areas," Powell said.

County ASCS offices are not to handle complaints or appeals, he said. They will serve only to provide official information. Persons with complaints will register them with the most convenient district or sub-district office of the Internal Revenue Service.

"Neither will interpretations or guesses be made by ASCS county office people. They will answer only those questions for which they have been supplied answers. If they don't know the answer to a specific question, they will say so. If a member of the public wants the county office to obtain an answer, the question will go by phone or mail to the nearest IRS district office," Powell said.

Normal function of ASCS county offices is to administer farm action programs of the U. S. Department of Agriculture on the local level. County committee Chairman Powell said ASCS service to farmers will continue without interruption.

"Our county office people welcome the opportunity to serve their country and are happy to make the extra effort in this crucial period," he said.

Grass Production—Spring & Fall

Recent rains over the area of the Eldorado-Divide Soil and Water Conservation District, and throughout the country have been wonderful. Perhaps for awhile we will not go around saying, "It does not rain as much in this country as it used to."

The thing that seems to be of most concern to conservation ranchers at the present time is—What is this extra moisture going to grow? A lot depends on what the range manager does. If he handles the livestock properly the better plants can get the full benefit of the good rains. If he doesn't the undesirable plants, such as mesquite, cedar, pear, buffalobur, and coneflower will make the most use of the moisture. This is exactly what will happen if producers do not take advantage of this opportunity and defer a pasture and have other pastures stocked at a rate low enough that the more palatable plants will have a chance to produce forage and make seed.

Even though moisture is plentiful at present, it would be wise to hesitate on increasing livestock numbers at this time of year. Approximately 70% of the total grass production time has already passed. As most of our grass production comes from warm season plants, the high production time for this year has passed. So, even with favorable moisture we only have 30% growing time left between now and frost—that is for warm season plants. Continued favorable moisture this fall and winter can bring about considerable production from cool season plants, however.

Research and tests have shown that when the soil temperature is below 70 degrees Fahrenheit, they practically stop growing and when soil temperature is 80 degrees F., the warm season grasses use all available moisture for growth. Short days and long cool nights just does not give much inducement for warm season plants to grow. Just notice in the fall how many fewer times you have to mow the lawn.

In conclusion can it be said that soil temperature controls the growth of plants? Moisture as well as cover on the land helps regulate the temperature. For instance, when air temperature registers 108 degrees, a thermometer on bare ground will register 130 degrees. At the same time a thermometer placed under a healthy clump of grass and mulch cover will register only 90 degrees.

Keep a good top growth on your better plants. Remember, 95% of their raw materials comes from the air and 5% from the soil.

Motorists May No Longer Go Past Bus

Austin, Tex.—A new state law effective August 30 will no longer permit Texas motorists to stop and then pass a school bus which is loading or unloading children.

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said the new law, passed by the 62nd Legislature, applies in both cities and rural areas and requires motorists moving both directions on the same roadway with a school bus to stop and remain stopped as long as the

flashing lights on the bus are in operation.

Under current law, which applies only in rural areas, drivers must stop for a stopped school bus, but may then proceed around it at a speed of not more than 10 miles per hour if safe to do so.

The new law will not require those vehicles on another roadway of a divided highway to stop, and stops are not required if the bus has stopped in a loading zone of a controlled access highway where pedestrians are not permitted to cross.

Speir noted that provisions of the new law will be strictly enforced to afford maximum protection to the school children of Texas.

In Those Days
Compiled From Success Files

ONE YEAR AGO
Sept. 3, 1970—The Jaycees had their First Annual Amateur Rodeo coming up.

The Presbyterians had a Rally and Promotion Day coming up. Rev. Gordon Garlington was new pastor.

Funerals were held for C. O. Brunton, 80; and Arthur Mund, 79.

FIVE YEARS AGO
Sept. 1, 1966—The coaching staff pictured were Pete Bryan, Ray Morgan, Jack Bell, and Ken Thomas. Glynn Hill was also assisting.

Funeral services were held for F. A. (Bill) Edmiston, 66.

The new caliche road was laid between the Big Lake highway and the county park, which also had a new concession building.

El Dorado Woolens moved part of their operations to the old Wm. Cameron building on South Main. Dana Owens was to teach a course on sewing on commercial-type sewing machines.

Mrs. A. E. Kent was to be honored on her 90th birthday with a family reunion. She was former county treasurer.

Jane Sanders and Charles Richard Alcorn were married.

R. V. Sheppard was opening his own body shop in northeastern Eldorado.

Victi Olive and George Draper Jr. were married in San Angelo.

Mrs. L. D. Ochsner resigned as school tax collector and her successor, Mrs. Jack Hext, took over.

12 YEARS AGO
Sept. 3, 1959—Bernard Carr was given permanent appointment as postmaster of the local post office.

A huge grass fire on D. C. O. Wilson's drew hundreds of fire fighters.

Jimmy O'Harrow won the lion's share of county and district Ramboillet shows, held here and in Fredericksburg.

A daughter was born to Mr. and Mrs. Earl Dean Clark. She was named Cleva Nell.

A son was born to the Rev. and Mrs. George Reesor.

The Lions Club met and Lynn Meador was presented to the club as the most careful cyclist.

First Lieutenant John Nikolauk was assigned to new duty in Germany.

Diane Thomas enrolled in the Shannon School of Nursing in San Angelo.

The Blakeways and Copes were launching a new square dance club.

Vernie Humphrey sold the half block of land on the new Sonora highway to Paul Page who announced plans to erect a new building to house Eagle Chevrolet.

50 YEARS AGO
Sept. 2, 1921—"We Can Doctor That Gas Engine when it gives you trouble," advertised the Eldorado Hardware Company.

J. B. Bruton was in the city Saturday and says he returned from a 1,000 mile trip through Central Texas and reports the drouth has affected cotton everywhere.

His journey took him through Hill and Navarro counties, traveling overland in his big Paige touring car, going and coming by different routes.

The Bailey Ranch school was to open Oct. 1st with Prof. Bobbie Boyd and principal and Miss Dell Dyes as his assistant teacher.

A. A. Williamson of Ft. McKavett advertised he would trade his house in Eldorado for 300 yearling ewes.

A Revival was going on at Bailey Ranch with the pastor, Rev. M. I. Davis, being assisted by Rev. W. H. Price of Medina in Bandera county.

On Aug. 17, a daughter was born to Mr. and Mrs. Frank Cloud.

Mrs. E. C. Haynes has added a new \$300 Jewel Carbonator for her fountain, which adds much to the convenience and usefulness of her business.

Mrs. Tom Smith has returned from a visit in McCulloch county.

Miss Marion White has left for Kenedy in Karnes county where she will teach school this year.

ELDORADO LODGE
No. 890 — A. F. & A. M. Started meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

Community Calendar

- Sept. 2, Thursday. Medical Auxiliary meets 9:30 a.m.
- Sept. 2, Thursday. Am. Legion.
- Sept. 3, Friday. Eagle teams to Rocksprings for scrimmage games.
- Sept. 4, Saturday. Registration 9:00 a.m. at Memorial Bldg. for Mrs. Pat Cain's art classes.
- Sept. 6, Monday. Labor Day holiday.
- Sept. 9, Thursday. Masonic Lodge meets.
- Sept. 13, Monday. OES meets.
- Sept. 21, Tuesday. Historical Society meets.

TO OUR VERY DEAR FRIENDS,

we wish to sincerely express our heartfelt thanks, and appreciation for any acts of kindness shown toward us, during the loss of my Mother—Mrs. May Belle King. A special thanks to Miss Ruth Baker, to the choir, the pianist, and other members of the First Christian Church and also to a host of other friends. We also wish to thank Quinn's sister and her husband, Lois and Jack Etheredge who so graciously opened their home, that our family might be together there and we thank all of you for the delicious food.

May the Lord bless each of you.

Independent Executrix of the Estate of Mrs. Beatrice S. Willoughby, Deceased 2t*

PUBLIC NOTICE RECORDING LIVESTOCK BRANDS AND MARKS

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. (a) This Act shall apply to every county in this State. In all the counties each owner of any livestock mentioned in Chapter 1 of Title 121 of the Revised Civil Statutes of 1925 shall within six months after this Act takes effect have his mark and brand for such stock recorded in the office of the county clerk of the county. These owners shall record the marks and brands whether the brands and marks have been previously recorded or not.

(b) The owner shall have the right to have his mark and brand recorded in his name according to the present records of the county first recorded the brand and mark in the county, or in event it can not be ascertained from the records who first recorded the brand and mark in the county, then the person who has been using such mark and brand the longest shall have the right to have the brand and mark recorded in his name.

(c) After the expiration of six months from the taking effect of this Act all records of marks and brands now in existence in the county shall no longer have any force or effect and after the expiration of six months only the records made after this Act takes effect shall be examined or considered in recording marks and brands in the county.

Section 2. All brands and marks registered under the provisions of this Act shall be re-registered every 10 years in the manner prescribed in Section 1 of this Act.

Effective Date (August 30, 1971 through February 29, 1972)

MERRY MAKERS 42 CLUB PARTY

Mrs. Rose Brannan was hostess last Thursday when she entertained the 42 club in the club room of the Memorial Building.

There were three tables of players. Those present were Mrs. Viola Finnigan, Mrs. Mable Griffin, Mrs. Annie Speck, Mrs. Bessie Doyle, Mrs. Lester Henderson, Mrs. W. C. Parks, Mrs. Leslie Bassinger, Mrs. Carl Fuller, Mrs. Richard Cheat-ham, Mrs. Frank Van Horn, Mrs. Lewis Stockton, Mrs. J. B. Montgomery and the hostess.

Refreshments served by the hostess was a salad plate, ice cream, and cake, coffee and tea.

A business meeting was called to order by Mrs. Mable Griffin. Officers were elected for another year. Mrs. Annie Speck was voted president of the club, and Mrs. Bessie Doyle secretary & reporter.

Cotton Defoliation Advised In Wet Areas

College Station, Tex.—Cotton producers in many areas of the state may want to consider the use of a defoliant on their crop this year due to recent wet weather and prospects for more of the same.

"A true defoliant may be the answer this year for a more efficient cotton harvest," points out Fred Elliott, cotton specialist with the Texas Agricultural Extension Service. "This material will cause the plants to shed their leaves, thus exposing the green bolls to light and air so that they will mature and open at a faster rate."

Defoliants are used with picker harvesting while desiccants are used with cotton strippers.

Defoliants are chlorate and organo-phosphorus types. One such product is DEF. These materials should be applied when about 60% of the bolls are open, advises Elliott. If any green leaves are left on the cotton after the green bolls open, a light application of arsenic acid can be made to kill the remaining leaves. Desiccants should be applied when 75% of the bolls are open.

Use of a defoliant will increase harvest efficiency, adds the specialist. At present, Texas is one of the leading states in harvest efficiency with a loss of only 9%. However, producers should continue to strive to cut losses because this means more cotton going to the gin and more profit.

Elliott also encourages producers to add an insecticide to the defoliant where boll weevil infestations are present in fields. This will keep weevils from entering the diapause stage in which they overwinter and will thereby reduce the boll weevil problem next year. One pint of Guthion per acre added to the defoliant is effective. The specialist urges that this practice be a cooperative effort among producers in a community or area to increase its overall effectiveness.

GOLDEN TOUCH OF HOSPITALITY
BY JANE ASHLEY

Scallops to You!

The word "scallop" has different meanings all related to the succulent bi-valve by that name. The edging called a "scallop" reproduces the outer edge of the scallop shell and, in cooking, "scalloping" consists of baking in a scallop shell (or casserole) in a sauce topped with crumbs.

Scallop Casserole

1 pint (1 pound) fresh or frozen sea scallops	1/4 cup diced pimiento
1/4 cup margarine	1/4 teaspoon salt
3 tablespoons corn starch	Dash paprika
2 1/2 cups milk	1/2 cup fine dry bread crumbs
1/2 cup sliced celery	2 tablespoons margarine

Wash and halve the sea scallops (or defrost frozen scallops). Melt 1/4 cup margarine in a saucepan. With a spoon, blend in corn starch. Cook over medium heat, stirring constantly, until sauce thickens and comes to boil. Boil 1 minute. Mix in scallops, celery, pimiento, salt and paprika. Pour into shallow (1 1/2-quart) casserole. Mix bread crumbs and melted 2 tablespoons margarine and spoon over scallops around edge of casserole. Bake in a 350 degree F. (moderate) oven about 30 minutes. Garnish with lemon. Makes 3 to 4 servings.

CREATE YOUR OWN CAESAR SALAD

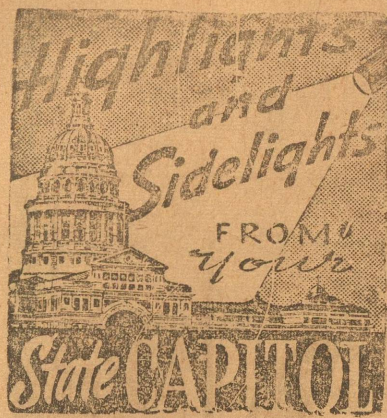

Make your own family salads as unusual as the chef who created the original Caesar Salad. Whether the unique Caesar Salad was first made and served in Mexico or San Francisco is open to question. But with your own creativity make a version to suit your family. We think that during this salad season — the summer season — you'll try this one.

FAMILY CAESAR SALAD

- 1 head western iceberg lettuce
- 1 small head romaine lettuce
- 1 egg
- 2/3 cup grated sharp cheddar cheese
- Salt to taste
- Freshly ground black pepper
- 1 to 2 cloves garlic
- 1 cup toasted croutons
- 1/3 cup Mazola corn oil
- 3 tablespoons cider vinegar
- 1 tablespoon lemon juice

Core, rinse and thoroughly drain lettuce. Refrigerate in plastic bag or crisper. Cook egg in simmering water 2 minutes. Chill immediately in cold water. Tear enough dry, crisp lettuce into large bite-size pieces to make 4 to 6 servings; chill remainder for use another time. Place greens in large salad bowl. Sprinkle with cheese. Break egg into small bowl; stir with a fork. Pour over lettuce. Sprinkle with salt and pepper. Squeeze garlic through press into salad or mince and add. Sprinkle on croutons. Mix corn oil, vinegar and lemon juice; whip with a fork. Pour over salad. Toss lightly to coat greens evenly. Serve immediately. Makes 4 to 6 servings.

Austin, Tex.—The Legislative Redistricting Board, its hands tied by a court order, has called for a staff research toward reapportionment of both the Texas House and Senate.

If the Board were permanently enjoined from action, the thorny reapportionment chore may be handed back to the Legislature in a special session this fall. Board was created in 1943 to redistrict where a legislature fails to do so in its first regular session after a decennial census.

Day before the five-member panel was to meet and begin work on Senate realignment (a task left undone by the Legislature this year) an Austin judge entered a temporary restraining order. At the same time, Judge Herman Jones set a hearing for September 2 on a petition for an injunction.

Rep. Fred Head of Henderson filed the suit to stop Board action, contending 1970 census figures are not yet all in, and that reapportionment should wait until the '73 Legislature.

On August 2 Judge Jones declared the House version of reapportionment by the Legislature this year unconstitutional. Atty. Gen. Crawford C. Martin has promised an appeal to the Texas Supreme Court.

Meanwhile, Martin who was named temporary chairman of the redistricting Board in absentia, left a message expressing hope that the panel will begin work "at the earliest possible date" on House reapportionment in event the High Court rules that is its duty.

Lt. Gov. Ben Barnes, another member of the Board, also called for early staff attention to a House redistricting bill, although both he and Martin agreed Senate reapportionment is the first objective.

Board has 20 separate plans already submitted for recarving the Senate's 31 districts in line with the 1970 census and federal court rulings of substantially equal population for each.

"Freeze" Brings Summer Chill

The President's wage-price freeze continued to be the closest-watched and fastest-changing news event at the state capitol.

Gov. Preston Smith's proclamation to state agencies to disregard the presidential order to place pay raises for state employees in effect September 1 was quickly held invalid by Attorney General Martin.

Martin then went to Washington to plead for exceptions for state workers and school teachers who had been assured raises by legislative action and (in the case of teachers) valid contract well before the freeze order date, August 15.

Meanwhile, Texas State Employees Association filed a formal petition for exemption of 60,000 state employees from the order and hinted at court action if refused.

Teachers kept close watch on Washington announcements to see if subsequent federal agency rulings would permit their raises covered by contracts signed prior to August 15 to be granted Sept. 1.

Information Offices Opened

Internal Revenue Service announced opening of nine offices in southern Texas to answer questions, study complaints and investigate alleged violations of the wage-price freeze.

MEMORIAL PROGRAM

Your Memorial Gift is a fitting tribute to a loved one. This remembrance helps support the research, education and service programs of the American Cancer Society.

Memorial gift funds may be sent to your local Unit of the Society.

AMERICAN CANCER SOCIETY

We have the appropriate cards to send to the family and to the donor, and will send your check to the American Cancer Society in Austin.

HELEN CARLMAN Memorial Chmn. Schleicher County

Offices are located at IRS headquarters in Austin, Beaumont, El Paso, Corpus Christi, San Antonio, Houston, Harlingen and McAllen. Questions on new import duty surcharge will be referred to the Office of Customs in Houston.

Labor Day Toll Predicted

Fifty-two may lose their lives in traffic accidents during the long Labor Day week end, predicts the Department of Public Safety.

If Texans can't drive more safely than that, Governor Smith told his traffic Safety Committee, serious consideration may have to be given to declaring a state of emergency on three-day holidays and calling out the National Guard to supplement police activities.

Smith's committee reviewed plans for an intensive Labor Day Safety campaign.

DPS Director Col. Wilson E. Speir urged motorists to refrain from drinking while driving, to avoid fatigue and to modify driving speed in accord with heavy traffic conditions.

All uniformed officers of DPS will be on highways Friday thru Monday to enforce traffic laws. Maximum use will be made of radar and breath-testing devices. DPS special reports on fatal accidents will continue.

Attorney General's Opinions

Public junior colleges may charge tuition in amounts greater than rates specified by the Legislature and may authorize additional fees, Attorney General Martin has held.

In other recent opinions, Martin concluded:

—Lessee or operator of a natural gas well on a state tract may not legally deduct from royalty due the state a portion of the cost of production, gathering, sale or delivery of gas.

—Provision that an owner may record and use more than one brand or mark to identify his livestock remains in effect.

—State employees can travel first class on airlines if no tourist class seats are available—and are entitled to out-of-state travel expenses up to \$35 a day.

—Two bills encompassing types of service now credited under state retirement system are constitutional and not in conflict.

—Legislation relating to eminent domain proceedings does not violate constitutional requirements of deposit of money. Bill aimed to provide condemnors "full benefits at any stage of litigation process short of a final adjudication."

Child Council Formed

Governor has established Council on Early Childhood Development to aid children under six.

Council will study early childhood programs and develop plans for strengthening them. It also will train parents and potential parents in the "art" of child care and guidance and implement new programs for education, health and social services to children.

Appointments . . .

Dr. James Richard Dolby of Waco was named acting director of community services for the Texas Department of Mental Health and Mental Retardation.

Lutcher B. Simons of Orange is new general counsel of Texas Water Development Board, effective September 15.

Governor Smith appointed Mrs. Barbara Tomme of Fort Worth to the Advisory Council for Language Handicapped Children.

Smith also announced these recent appointments:

—Lyndon Olson of Waco to Brazos River Authority Board of Directors.

—Joe A. Myers of Stockdale and L. B. Davis Jr. of Longview (re-appointments) to State Board of Morticians.

—John M. Scott of Fort Worth (re-appointment), Henry E. English of Dallas and Avery Mays of Dallas to the Trinity River Authority.

Poor Districts To Get Aid

School districts with the most children from low income families will get \$822,456 in additional federal aid under new grant allotments announced last week.

A total of 641 districts are eligible for aid to finance teacher hire, materials purchase and medical services. Allocations range from \$69,995 for Houston to \$31 for Hamby district, Taylor county.

Short Snorts . . .

Motorists no longer can stop and then pass a school bus loading or unloading children under a law effective August 30.

A 214-acre tract in Collin county has been donated for a state park. Bowhunters will get a special chance at deer, javelina and wild hogs during Aransas National Wildlife Refuge archery season September 17-30.

William E. Pool has resigned as executive director of State Bar of Texas.

State (in San Antonio North Expressway case) is testing a federal court ruling that it cannot build a highway with its own money if application for federal assistance is rejected.

Thirty-seven applications to sell \$33.3 million in securities were filed with State Securities Board

last week.

Albert W. Brisbin of Washington, D. C., succeeds B. Frank White as Internal Revenue Service regional commissioner for an eight-state area with headquarters in Dallas.

PAR-TEE

Sonny Perez teamed with Blackie Howard in the 2nd annual Men's Partnership and overcame a 3 stroke deficit on Saturday to win the tournament on Sunday with a 54 hole total of 170 (4 under). In second place was the team of Roy Zapata and Nacho Garza (also of San Angelo) with an even par 174. For third place honors Sonora's Clayton Hamilton and Patch Cochran defeated last year's winners T. J. Bailey and Arthur Kyle on the 2nd hole of a sudden death play off. Both teams posted a one over 175 on the scoreboard.

San Angelo teams also took the First Flight honors with Elbert Whitehead and Ken Malone in first place with a one under (173). In second place, 7 strokes back, was George Finley and Ron Laidley (Midland). Third place was carried home by George Helton and Lonnie Martin with a 187.

Second flight was a close one with Joe Cantu and Ruben Aguirre taking top honors with a 188. Following at 189 were Elmer Covill and C. E. Winn of Rankin tied with Bill Dorackett and Johnny Brunson of San Angelo. Covill and Winn took a sudden death win to come in second place, and left 3rd place to Drackett and Brunson.

San Angelo took home all the trophies for 3rd flight with John Broome and Joe Terry in first at 193. Roy Sykes and Bob Sinclair posted a 196 for second place honors and Blackie Crawford and Roy Messingill took 3rd place at 200. (Blackie said this broke his record. Said he and Messingill had played in nine tournaments this year and this is the first time they had not been last in the last flight. Who knows—now that the ice is broken—maybe the will win one.)

The tournament was a success we think and every one seemed to have a good time. At least our guests will have to admit that we are generous hosts—not even one trophy remained in Dear Old Eldorado. Better luck next time boys!

Labor Day week end special events details are posted on the bulletin board at the Club House. Jack Hannes is in charge of the Kicker's Handicap tournament (ladies & men's participation) on Sunday beginning at 1:30 and the Blind Holes Play tournament (ladies and men) scheduled for 1:30 p.m. on Monday. Players are asked to sign up not later than 6:00 p.m. on Saturday, Sept. 4 for Sunday's event and not later than 6:00 p.m. on Sunday, Sept. 5 for Monday's play. Your cooperation in this matter will be appreciated.

A Work Day at the Golf Course is scheduled for Monday, September 6th. Work will begin at "as soon as you can get there Monday morning" and continue until noon. A covered dish luncheon will be served at the club house Monday followed by the special play. We need all available workers for Monday. If We Don't Get That Crab Grass Off Those Greens, We Are Going To Lose The Greens and That's Bad! Bring your pocket knives and/or scissors along with patience and fortitude—and maybe a pair of gloves if your hands are tender. See You At The Green Monda Morning!

Our Second Annual Couples Tournament is set up for October 9-10. You might like to circle these dates on your calendar and start making your plans now.

San Angelo Country Club's "Fiesta De Golf" is scheduled for September 11-12. This is a couple's tournament and an annual event.

We wish to take this means of saying Thank You to all of our very diligent and efficient workers for the tournament this past week end. We do appreciate your efforts and thank you sincerely for doing your part to make this event a success.

Duplicate Bridge

We would like to invite all bridge players those who have played duplicate in the past, and those who have never played duplicate, to come play with us any Thursday night at the Memorial Building.

You do not have to join anything; just come and play when you can.

Winners for August 26th: Sarah Hall & Elnora Love, 1st; Wayne Herrmanns, Sonora, 2nd; June Jones, Frankie Williams, 3; Ethel Olson, Sonora & Jan Mobley, and the Cheathams, tied for 4.

SALESBOOKS: Simple charge tickets in duplicate, with carbon; 50 sets to pad, 10c each.—Success

Fertilizer Will Boost Fall Forage

College Station, Tex.—Prospects for good grazing and hay from recent rains should please stockmen over the state. And they can boost forage production even more by applying fertilizer, says Al Novosad, pasture specialist with the Texas Agricultural Extension Service.

Perennial grass pastures should be fertilized now for increased fall production and quality. If pastures have not been fertilized since spring, plant nutrients—especially nitrogen—have been depleted, and an application now will correct this situation, advises Novosad.

There is still plenty of growing time over much of the state for good production from bermuda, Klein, buffel, love, bahia, and other grasses. Forage from these grasses can be utilized for grazing or hay or left standing and grazed after frost.

Soil moisture must be available for top production and at present is adequate over most counties although some still report a shortage. Also, prospects for additional moisture look good for the next two months, points out Novosad. A check of rainfall records from 34 stations over the state, covering a 40-year period, shows the chances of receiving two inches of rainfall in September ranges from 50 to 80 % in the eastern two-thirds of the state. This probability increases as one moves from west to east. About the same probability exists for October.

With the improved moisture situation this year, the specialist believes that fall pasture fertilization will be a good practice. Most of the state enjoys a long growing season for perennial warm-season grasses, but lack of fertilization usually limits the production of quality forage in the fall.

In many areas, annual fall pasture fertilization should prove profitable. It is especially important this year, Novosad emphasizes, because of the short forage situation.

A&M ANNUAL DEDICATED

This year's annual at A&M University has been dedicated to Major General Alvin Luedcke, local relatives report.

General Luedcke graduated in 1932 from A&M. He served as interim president of the school a while back.

ENROLLS AT A&M

Jimbo Overstreet has enrolled as a Freshman at A&M. His mailing address is: James F. Overstreet, Box 5753, College Station, Texas 77840

Lions Club Has Program On Upcoming Football

The Lions Club met at noon Wednesday in the Memorial Building for their regular weekly meeting, with Boss Lion Bill Gunstead presiding.

For the program, Guy Whitaker introduced Coach Ronnie Stephens who led a discussion of the Eagles' upcoming football season. He showed a film of the scrimmage game played here with Winters on Saturday night.

This is a traditional early-Fall program of the Lions Club which has been staged for the club for many years, with the head football coach in charge.

Whitaker will bring the programs at the club meetings on Sept. 8th and 15th. The club will not meet Sept. 22nd, and on the 29th Lion Governor Homer Hodge will be here to make his official visit to the club.

Traffic May Claim 52 Over Labor Day

Austin, Tex.—Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today estimated that traffic accidents over the long Labor Day week end will claim 52 lives in the state.

Speir called for motorists to avoid drinking while driving, avoid fatigue, and modify their driving speed in accordance with expected heavy traffic conditions.

In an effort to hold the toll down, the DPS and local law enforcement agencies, in cooperation with the news media of Texas, will conduct "Operation Motorcade" — a public awareness program designed to focus attention on the traffic problem. Special reports on fatal traffic accidents will be prepared at DPS Headquarters and released three times daily during the holiday period which runs from 6:00 p.m. Friday, September 3, to midnight Monday, September 6.

All available uniformed officers of the Department of Public Safety will be on the highways during the holiday to enforce traffic laws, and maximum use will be made of radar and breath testing instruments. Speir said DPS personnel would do all possible to keep traffic flowing smoothly and safely on this final holiday week end of the summer.

Hair is actually made up of dead tissue!

Q. Our municipal sewage treatment plant puts out an awful smell. Can anything be done about this?

A. Most municipal sewage treatment plants employ a biological process for treating wastes in which specially grown microorganisms are mixed in with the sewage. These "bugs" then eat the organic wastes. Unfortunately, whatever they leave on their plates uneaten — and this can be a considerable amount — is often dumped into nearby streams without any further treatment. This consumes oxygen and causes unhealthy conditions for aquatic life.

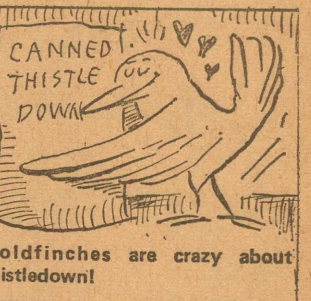

"Conventional" biological sewage treatment plants are, by the very nature of the waste treatment process they use, inefficient and smelly. They are also expensive to build because they require a lot of land for the open-air, concrete basins in which the bacteria live and work and produce objectionable odors.

But there's something even worse than the smell. Many toxic wastes now being discharged into existing municipal sewage plants are capable of killing these waste-eating microbes. As a result, a biological sewage treatment plant may be temporarily knocked out, permitting large amounts of virtually untreated sewage to flow directly into nearby streams.

A new sewage treatment process developed by Calgon Corporation completely eliminates the need for open-air basins and odor-producing bacteria. Known as the Polysorb Process®, it uses complex chemical compounds called "polymers" to separate the solid wastes from the wastewater. The wastewater is then passed through granular activated carbon which removes more than 90% of the dissolved organic pollutants in the wastewater.

And these plants can be located in even the finest neighborhoods because they require 85% less land and don't look or smell like today's sewage plants.

For more information about municipal sewage treatment, write to P. O. Box 1346, Pittsburgh, Pa. 15230.

Goldfinches are crazy about thistle down!

No Need For Advertising?

- Preachers don't preach just once a year even though people are against sin.
—Teachers review lessons. They know that children do forget and often have to be told more than once.
—Highway patrolmen drive up and down the highways, and caution drivers although motorists know the law and should obey.
—Mail order firms continue to send out catalogues.
—Not all of us know what is sold in stores in the home town, and we need to be invited continually to trade in your place of business.
—The Notre Dame cathedral has stood for centuries, but still they ring the bell every day.
—If you're one of those who believe in continuous and profitable advertising, you'll want to use the columns of the

We'll see you Tuesday

We hope you have a chance to relax away from your routine chores . . . a trip to the beach with the family or camping out in a park.

Whatever you do, wherever you go, remember to **DRIVE FRIENDLY**.

The Governor's Office and the Texas Department of Public Safety urge you to obey state and local traffic laws, plan your travel so you won't have to rush

or drive when fatigued, and avoid drinking and driving. In other words, maintain a friendly driving attitude toward the other families who are also enjoying this holiday.

Most of the six million Texas drivers will be on the road at some time this holiday weekend. Think about your responsibilities every time you take the wheel. This weekend **DRIVE FRIENDLY** and we'll see you Tuesday.

This Labor Day weekend DRIVE FRIENDLY and we'll see you Tuesday.
