70TH YEAR

ELDORADO—SCHLEICHER COUNTY, TEXAS, (76936) Thursday, May 6, 1971

Number 18

Rainfall For April Given As 3.31 In.

While individual rainfall totals of as high as 6 inches were reported following the big rain in mid-April, there were many others reporting a modest 2 inches.

It is interesting, therefore, to get Lloyd Johnson's April average for the county, and he comes up with a figure of 3.31 inches, as shown in a rain table on page 2. That makes the total for the year so far 4.72.

Mr. Johnson arrives at this figure by taking the average of three gauges whose owners report each month.

That rain followed by several other showers have been a great boon to local farmers and ranchers who now feel they have been granted a new lease on life. It suddenly changed the picture in San Angelo where the run-off filled their lakes, enabling that city to cancel all rules for water rationing.

Still the average crop grower here is inclined to mix his jubilation with a word of caution: "It sure was fine; now if we can just get another one sometime in May to bring the crop up!"

New Vehicles For Month Of April

During April, the following new vehicles were registered in the office of Sheriff Orval Edmiston: T. C. Meador, '71 Ford pick-up; Fred H. Case, '71 Chev. 4-door station wagon; Raymond A. Schrank, '71 Ford pick-up;

Southwest Texas Electric Co-Op, '71 Ford pick-up; Case Ranch, '71 GMC pick-up; Southwest Texas Electric Co-Op, '71 Chev. 4-door; Victoria J. Ohlenburg, San Angelo, '71 Chev. sport coupe; W. V. Lux, '71 Chev. sport coupe.

Party Set Tuesday For Senior Citizens

The H. D. Clubs are putting on a Spring Party for Senior Citizens on Tuesday, May 11, at 2:30 p.m., in the Memorial Building.

Games, 42, visiting and refreshments are all on the agenda. Those needing a ride may call 2259, hostesses, Schleicher County Committee for the Aging.

Connie Spence is committee chairman.

Archie Nixon To Head Student Council

During a recent election the following students were elected officers of the Eldorado Student Council for the 1971-72 school year.

President — Archie Nixon
Vice Pres. — Mike Mikeska
Cor. Secretary — Eva Stigler
Rec. Secretary — Patty Page
Parliamentarian — Lynn Sanders

Cheerleader elections were held Wednesday, April 23 following Try-Outs. The following girls were elected cheerleaders for the 1971-72 school year.

High School Cheerleaders
Gay Lynn Richardson
Eva Jo Blaylock
Teresa Scott
Patty Page
Rene Scott.
Junior High Cheerleaders
Jill Yates
Irene Garcia
Charles Warnock
Janis Mikeska.

News Of The Sick

Mrs. J. S. Pelt, age 97, is a patient in the local hospital. Raymon Mobley was in Abilene over the week visiting his father who is a patient in the hospital there. The elder Mr. Mobley lives in Haskell.

After spending two weeks in our Eldorado hospital, Mr. and Mrs. Roy Andrews were able to return to their home this week, and are welcoming calls from their friends. Edgar Spencer continues as a hospital patient.

Honor Grads Announced For EHS Class Of 1971

LINDA DERPICK
Valedictorian

Linda has 4-year grade average of 95.89. She has been on the basketball and track teams, in the band, and was cheerleader. She is the daughter of Mr. and Mrs. Howard Derpik and will go to Tech.

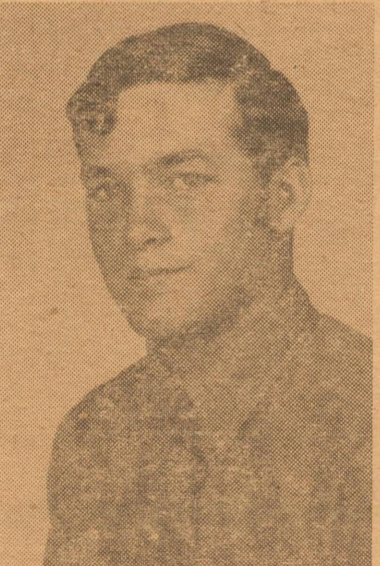

MONA WAGONER
Salutatorian

Mona has 4-year grade average of 94.89. She is the daughter of Mr. and Mrs. Damon Wagoner and plans to enroll in Angelo State.

She has been in band, served as twirler and has been drum major her Senior year.

Mona and Linda have been in National Honor Society since their Junior year.

CHARLES ADAMS
High Boy

With grade average of 88.89, Charles is high boy of this year's Senior class of EHS. He has been on football, basketball and track teams, in band, played golf, and is in the National Honor Society.

He is the son of Mr. and Mrs. Charles Adams.

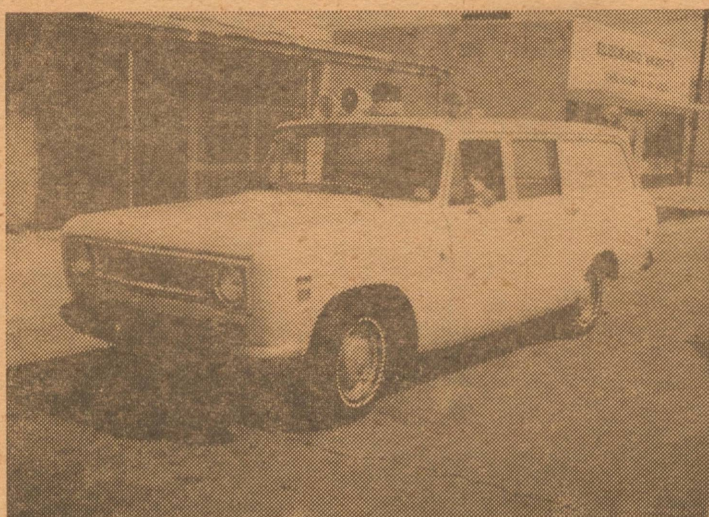

Mrs. Carl Preston Dies

Mrs. Carl Preston, 74, died at about 6:00 Sunday evening in the Sid Peterson hospital in Kerrville while on a trip from San Angelo to Hondo to visit relatives. She was the mother of Dick Preston of this place.

She apparently suffered a stroke and was taken to the Kerrville hospital and placed in intensive care where her death occurred.

Mrs. Carl (Madge) Preston was born Nov. 21, 1896, in Elkhart, Indiana. Funeral services were held this week and interment was made in Elkhart. Several relatives from this area attended.

Post Script

The new International Harvester ambulance arrived last week and equipment was being installed on it this week. It will be operated by a group of volunteers who took a First Aid training course a few months ago.

There were some changes in the local business district last week end.

Davidson Hardware, operated for the last several years by Sadie Davidson and her son Bud, had a close-out auction sale put on Saturday by Tennis Auction of San Angelo. The stock of hardware and plumbing supplies were sold out and the building has been cleared out.

The building, which fronts on the Sonora highway, is in process of being sold to the C. J. Nibletts. The property includes two lots and a small storage building at the rear.

The Nibletts plan to do some repainting of the interior and other minor work on the property and by this summer it is to be new location for Cathy's floral and gift shop. The building was erected about a dozen years ago and was operated the first several years as Taylor's hardware and welding service.

Cathy's has been in business for a little over a year, during which time it has been located in the former Ford building on South Main street.

These announced plans for relocation and expansion will be welcomed by all other Eldorado business people.

—ps—
And we lost a business after only two or three months of operation:

ONE OF the likelier enterprises launched here early in the Spring was the Carousel Pants Shop. Mrs. Sam Stringer managed the shop during the brief time it was in operation, before it closed last week end. A volume buyer from Oklahoma City came after the stock of slack suits.

The shop was located in Mrs. Mary Kempky's building on the Menard highway, located across from the court house. Mrs. Norma Mund formerly managed a dress shop in the location.

Mrs. Kempky was here last week end looking after her property. She has put up this building as well as the former cafe building next door, for rent.

She stated that she would be willing to rent the cafe building and the dress shop building to separate tenants and would consider remodeling to suit their needs.

Still another possibility is renting the entire building for use as a cafe. A door could be cut in the partition dividing the two, and

then the former dress shop could become a delightful private dining room; it still has the new paint and trim in place carrying out "The Carousel" theme. Right now it is all conjecture and speculation, but at any rate we all hope that Mrs. Kempky gets new tenants for her buildings so that they will once again be a fine credit to the business district.

—ps—
On May 18th, Texans will go to the polls and vote on four proposed amendments to the State Constitution.

The Success printed the local ballots and delivered them last week end to the Clerks office and absentee voting is now under way.

As of Tuesday morning, only 2 absentee votes had been cast in the office of County Clerk J. P. Enochs.

Sample ballots printed on yellow paper are available, free for the taking, here at the Success office and also at the Clerks office.

—ps—
People moving:
Ronnie Stevens, new coach, has moved to the teacherage vacated a while back by the Barkers.

Arthur Stark has moved to the Norm Cash house in Sunset Acres.

James A. Steele has bought the J. A. Enochs house.
J. M. Ferguson has bought the house of the late Irene Rutland and is renovating it.

Three From Here Attend Historical Meeting In S. Angelo

Pointers for historical preservation were the subject of a workshop attended April 26 in San Angelo by members of the Schleicher County Historical Survey Committee.

Delegates from Eldorado were Miss Ruth Baker, Mrs. J. L. Neill and Mrs. Mary Oglesby.

Conducted by the Texas State Historical Survey Committee, the workshop constituted the 1971 Regional Meeting of County Historical Survey Committees for this area of the state. Four professional staff members of the State Survey Committee in Austin touched upon virtually every phase of historical preservation work currently being carried out by the state of Texas.

R. Alsup Dies

Raymond Alsup died in San Antonio April 26 of a heart attack and was buried there April 29. He was a long-time resident of San Antonio and was a retired government employee.

Survivors include his wife, the former Inez Kent of this place; two daughters, six grandchildren and one great-grandchild.

The deceased was a brother-in-law of Mrs. Truett Stanford and son-in-law of the late Mrs. A. E. Kent.

SERVICEMAN'S ADDRESS:

Jr. High 'Re-Track-Shun'

Mrs. Harber, Jr. High girls' coach, wishes to state that she erroneously reported last week in an article on the Jr. High District Track results that Janis Mikeska had failed to make the finals in the 220 yd. Dash for the first time this year. We would like to retract that statement; Janis very definitely had a good enough qualifying time to make the finals and placed 7th in the race, the first time this year that she did not finish "in the money" (6th place or better for points and ribbon). Congratulations, Janis, and sorry for the error.

Band Places 2nd In Colorado Competition

The Eagle Band put Eldorado on the map again, this time in colorful Colorado.

Forty-two bands, considered outstanding, invited to the Blossom Festival at Canon City, began competition Saturday morning with Class C competition field shows, each 8 minutes in length, and the Eldorado Band was first to perform. The Eagle Band performance was a great "opener" for an almost pageantry type entertainment for the spectators and judges with bands in precision and "show band" style shows.

After time out for lunch the bands lined up for the parade competition. The Eagle Band, 19th in the parade, was the first Class C Band marching and drew continuous applause on the mile long route packed with thousands of appreciative spectators.

Then back to the stadium for Class B Field Competition with a break for supper before the final competition of the big Class A (Class AAA & AAAA in our classifications).

Sunday was the important day. After lunch the bands lined up again and marched down the packed main street of Canon City, knowing that when they reached the end of the route they would await the judges' decision. The three top bands in each class would be told to be ready to appear again in the stadium with their field show. Other bands, who did not place, would be handed their trophy and their part in the Blossom Festival would be over.

When the Eagle Band reached the route end Wayne McDonald was told to have his band at the stadium to perform. The other two bands in Class C were Class AA schools, Middle Park, Colorado and Sublett, Kansas, the Middle Park band winning first place with a show band performance popular with Colorado judges that couldn't have won under Texas U.L.L. competition.

In Class B Dalhart took top honors and in Class A the band from Monahans walked away with top band and a second year of the Traveling Trophy Award to the outstanding band of the Festival.

Katherine Cozzens Visits Friends Here

Miss Katherine Cozzens, who has served as a Missionary in Brazil for 30 years, now home on furlough, was a visitor Saturday in home of Mrs. Essa Hoover and Miss Johnnie Alexander.

Miss Cozzens directs the Children's Division of Brazilian Baptist Sunday School Board in Rio de Janeiro.

She is a daughter of late Mr. and Mrs. Will Cozzens, who met and married in Eldorado. Her mother was known locally as "Miss Beulah" and taught in the local schools. Miss Cozzens was born in Eldorado but with her parents moved away 60 years ago. This was her first visit back to place of her birth.

Accompanying Miss Cozzens to Eldorado were Mr. and Mrs. M. D. Johnston of Winters (former Fort Worth residents and friends of many years standing).

Mr. and Mrs. E. W. Brooks joined in the "welcome home" activities.

Miss Cozzens also stopped briefly in Eldorado homes of Mrs. Pearl Jones and Mrs. Mattie Roach, friends of her parents. She also showed colored slides of her work in Brazil and other interesting activities carried on there.

Davis Fina Station Burglarized Friday

Lum Davis's Fina service station on the south side of Eldorado was burglarized sometime Friday night, and the intruder made off with about \$35 from the cash register.

The burglar apparently gained entry by picking one of the door locks.

Sheriff Orval Edmiston and his deputies were investigating and checked for fingerprints.

Wildcat Slated In North Part of County

Charter Petroleum Co., Abilene, will drill the No. 1 Perry Byars, a 5,750-foot wildcat, in north Schleicher county, 10½ miles south of Christoval and as a southeast offset to the 5,650-foot Strawn opener of the depleted Huldale, North field.

Location, on a 617.5-acre lease, is 1,530 feet from the north and 2,027 feet from the west lines of T. J. Alcorn No. 79½. Elevation is 2,201 feet.

The 5,650-foot opener, Wesley West, Houston, No. 1 Thomson, was finished Sept. 22, 1966, for 81.78 barrels of 41 gravity oil, through a 10-64-inch choke and perforations at 5,649-652 feet. It became depleted in September, 1966.

The field also at one time had one Pennsylvanian reef well.

Senior Citizen Party Set

Senior Citizens of Schleicher County are invited to a Spring Party Tuesday, May 11, at 2:30 p.m. at the Memorial Building.

Games, 42, visiting and refreshments are on the agenda.

If you need a ride call 2259. Everyone plan to come and have fun.

Cancer Drive A Success

The Cancer Crusade has been very successful, thanks to the many volunteers who helped on the house to house canvass and the Sorority who collected in town.

So far the total contribution are \$707.92. If there is anyone who has not been contacted and would like to contribute to this worthy cause please call Margaret Frost and she will be happy to pick up your contribution. Or you may mail her your check.

Colorado Band Trip Unqualified Success

Last Thursday evening at 6:30 the Eagle Band loaded on two chartered buses and with a large crowd of "well wishers" waving them off headed for Colorado. The first stop was for supper at Big Spring and the next was at Lubbock to change for permanent bus drivers, Ruben and Vince and then on through the night across the corner of New Mexico and Raton Pass and into Colorado, arriving at Colorado Springs about 9 a.m.

After unloading the buses at the motel the band members took a Grayline tour seeing the city of Colorado Springs from the top of Cheyenne mountain, Will Rogers Shrine of the Sun, then through North Cheyenne Canyon past Helen Hunt and Silver Cascade Falls, the Gold Camp Road, then to the U. S. Air Force Academy and back to the Garden of the Gods.

After the tour the band went back to the motel, had supper and relaxed. All the women sponsors grabbed steam irons and started pressing uniforms, wrinkled from packing.

At 5:00 a.m. it was "rise and shine," and it was cold but sunny (snow covered peaks towering

—(Continued On Page 4)—

New Babies

A son was born April 30 in a San Angelo hospital to Mr. and Mrs. Velton Taylor of Abilene. The baby weighed 7 lbs. 9 oz. and has been named Shawn Nixon. The new baby is welcomed by a four-year-old brother.

The mother is the former Linda Nixon.

Grandparents are Mr. and Mrs. Clovis Taylor and Mr. and Mrs. Andy Nixon, all of Eldorado.

Industrial Aid For Areas Endorsed

Austin, Tex.—Gov. Preston Smith has endorsed a series of legislative proposals which would aid Texas industrial development programs in both rural and metropolitan areas.

Gov. Smith told business and legislative leaders at a Texas Industrial Commission gathering that he favored creation of a Rural Industrial Development Finance Authority to provide direct loans to aid non-profit foundations in attracting industry to rural Texas. The authority would operate as an arm of the Commission in aiding some 230 such foundations.

"Today, 49 states, all but Texas, offer some type of industrial financing incentive to aid their communities in attracting the industrial expansion so necessary to our rural communities," Gov. Smith said.

Legislation to allow banks and other financial institutions to pool funds in business development corporations for financing development projects and a bill allowing cities to issue tax-exempt bonds to finance local programs for attracting industry were also endorsed by the Governor.

In recent months, Texas lost no less than 18 industries with a potential employment of 6,500 because of community inability to provide competitive financing, Gov. Smith said.

"I urge the passage of each of these proposals," he said. "And I am confident that no other immediate action would be a better step toward achieving balanced growth in our Texas economy."

Gov. Smith made the remarks at a Texas Industrial Commission luncheon honoring three outgoing members.

Retiring from the Commission were Claude Brown of McCamey, I. F. Bay of Brownwood and M. M. (Mack) Stripling of Nacogdoches.

Additions to the nine-member Commission include A. B. (Stormy) Shelton of Abilene, John B. Turner of Houston and Homer Lee Bryce of Henderson.

School Menus

(All meals served with buttered rolls and milk.)

Thursday, May 6: Turkey and dressing, giblet gravy, sweet potatoes, English peas, citrus slaw, fruit cobbler.

Friday, May 7: Sandwiches: ham salad, tuna, pimento cheese; pork and beans, potato chips, fresh fruit cup, cookies.

Monday, May 10: Baked ham, sweet potato casserole, English peas, tossed green salad, canned fruit.

Tuesday, May 11: Roast beef & gravy, creamed potatoes, green beans, mushroom sauce, stewed prunes, banana pudding.

Wed., May 12: Hamburgers, lettuce & tomatoes, potato chips, fruit cup, stuffed celery, cookies.

Thursday, May 13: Fried chicken and gravy, creamed potatoes, carrot & apple & raisin & pineapple salad, blackeyed peas, jello with whipped cream.

Friday, May 14: Fish filets, lima beans, candied carrots, spinach, cobbler.

TYPEWRITER RIBBONS, for Royal, Underwood, and Remington—available at the Success.

MEMORIAL PROGRAM

Your Memorial Gift is a fitting tribute to a loved one. This remembrance helps support the research, education and service programs of the American Cancer Society.

Memorial gift funds may be sent to your local Unit of the Society.

AMERICAN CANCER SOCIETY

We have the appropriate cards to send to the family and to the donor, and will send your check to the American Cancer Society in Austin.

HELEN CARLMAN
Memorial Chmn. Schleicher County

COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Horses, like humans, need an annual dental checkup.

Such a check can prevent serious tooth problems. Horses' teeth naturally wear off so unevenly, that after a time chewing hay and oats may become a painful experience for the animal.

Sharp enamel edges remain on the outside of the upper molars, cutting the inside of the cheeks. The lower teeth develop sharp points on the inside, cutting the tongue.

When this occurs, some horses refuse to eat, some eat only sparingly while others hold their heads to one side while chewing. Colic and indigestion often follow the improper chewing of their food.

A veterinarian can correct the situation by floating or filing of the sharp enamel points and edges. The process is a simple one and usually only a minimum restraint of the animal is required.

If your horse is having trouble chewing his food, a tooth checkup may reveal the cause. Better take him to the local veterinarian and make sure of the trouble.

Someone has recently determined that we have some 30 million laws in the world to enforce the 10 commandments.

Once an ornamental plant becomes badly diseased, it is almost impossible to nurse it back to health.

Homeowners will do well to remember this rule. It is difficult, if not impossible, to eradicate disease organisms from a badly diseased plant. For this reason, every effort should be made to prevent introduction of disease-causing organisms on plant material or in the soil.

Mild disease conditions are not always easy to detect when buying ornamentals. Dealing with reputable nurserymen is the best insurance against getting puny plants.

Plants in poor growth condition are usually more susceptible to disease and the weather this spring has been such as cause delayed growth on many plants.

Plants should be checked for any sign of disease and all diseased branches should be removed. Pruning wounds should be treated with an approved wound dressing to stop the entrance of wood decay-

ing organisms. Even good cultural and sanitation practices may fall short at times. This is the time to use specially formulated chemicals that are safe when applied according to labeled instructions.

Fungicide applications should begin when disease development first appears and should continue at 7 to 14-day intervals as long as weather conditions favor the disease. Addition of a household detergent at the rate of one teaspoonful per gallon will help get a more uniform coverage of the chemical onto the plant.

We're all for modernization but picturing Father Time with a rotary mower rather than a scythe is ridiculous.

Getting water from its source to where it is needed often creates problems, and with drought conditions now existing, water pipelines may be needed.

Plastic pipe may be the answer to the problem even if the water is to be used in the home. Plastic pipe is economical and easy to install. The smooth interior surface reduces pressure loss in the pipe due to friction, and normally a plastic pipe has the same water carrying capacity as a galvanized steel pipe one size larger.

Less labor is needed for installing plastic pipe. Digging a ditch isn't necessary. A boot attached to a subsoiler designed for a farm tractor will feed the plastic pipe into the trench cut by the blade.

Flexible pipe can be worked around large rocks, laid around curves or placed on uneven grades without cutting the pipe or using expensive fittings.

Pipe-fitting attachments for subsoilers are relatively inexpensive. Their cost can be justified in time and labor saved. Often a subsoiler or pipe-laying attachment can be rented from a local machinery dealer or neighbor.

Plastic pipe to be used for carrying water into the home should bear the seal of the National Sanitation Foundation.

If a water pipeline is needed to get water to spots on the farm where it is not now available, I suggest checking into the possibility of using plastic pipe.

All you have to do to live beyond

Missionary To Indonesia To Speak Sunday Night At 7:30 At Services At Assembly Of God Church Here In Eldorado

Rev. Samuel L. Brassfield And Family

The Rev. Samuel L. Brassfield, a newly approved Assemblies of God missionary to Indonesia, will be guest speaker Sunday, May 9, at 7:30 p.m. at the First Assembly of God Church, the Rev. Dale L. Johnson, pastor, has announced.

Mr. Brassfield and his wife Nancy will be engaged in evangelism and establishing new churches during their first term of missionary service.

The Republic of Indonesia embraces some 6,044 inhabited islands, and is the worlds largest archipelago. This island country is the fifth largest nation in the world, having a population of nearly 113 million. Java, with less than 10% of the country's area, has a population of 70 million—one of the most crowded pieces of land on earth.

Christian constituency in Indonesia is reported as between eight and ten million, and of these approximately six to eight million are Protestants—the highest percentage of Christians in any land predominantly Muslim. Yet there is a great need for more missionaries. Many islands still await the Christian witness.

Mr. Brassfield graduated from Southwestern Assemblies of God College in Waxahachie, Texas. The Brassfields pastored churches in Cameron and Maypearl, Texas, and more recently in Healdton, Okla., before they were approved for

missionary appointment. The Brassfields' two children, Suzanne, age three, and Vanessa, age eight, will accompany them to Indonesia.

The public is invited to attend this special missions rally.

Gas Producer Assured In County

C&K Petroleum, Midland, No. 1 Whitten, in 33-LL-TCRR, link well 1/2 mile east and west of Canyon "A" gas production in the Eldorado, North (multipay Canyon gas) field, four miles northwest of Eldorado, has assured production with the flowing of gas for an unreported time at the rate of 2.5 million cubic feet daily, along with a small amount of distillate.

Flow was through a 28-64-inch choke and perforations at 6,185-471 feet, with tubing pressure of 1,250 pounds. The section had been fractured with 40,000 gallons and 80,000 pounds of sand.

The project has been shut in to take four-point gauges.

SALESBOOKS: Simple charge tickets in duplicate, with carbon; 50 sets to pad, 10c each.—Success

HOW TO AVOID FINANCIAL FIGHTS AT HOME

Life and strife may rhyme all the time, and when it comes to money, there are times when dispositions are far from sunny among persons who ordinarily call each other "honey." Some families wait until it's almost too late to avoid financial arguments.

But, just as love is a many-splendored thing, the family budget is a money-splended thing. And by putting into effect the best methods of household money management, finance rhymes with romance.

In order to live safely within an income and get the most value out of money spent, it is necessary to formulate a careful plan of spending and saving. This is known as budgeting. There are not set rules for the use of income, since the needs and requirements of people in various communities and income groups differ greatly. There are, however, certain general rules that should be followed if a budget is to be successful.

Married couples who budget to improve their financial management design their own budgets, based on their goals and circumstances. They also stand ready to review their budgets from time to time. Deciding your goals is a matter for husband-wife consultation.

Before allotting your income,

you must know what the income is. Under today's method of payment, take-home pay is the amount customarily left to the discretion of the individual.

Federal income taxes, social security taxes, some state income, insurance payments, union dues, payments to professional associations, and pension-fund contributions may all have been withheld.

Whenever such a deduction is made by the employer, the item may be dropped from consideration in setting up the family budget, although a small amount should probably be set aside for additional tax payments if necessary. In estimating income, add to take-home pay all bonuses, gifts, government or other allowances, and dividends or income from investments, as well as any rental income or commissions you receive.

It is usually possible to group expenses, summarizing them as future expenses, day-to-day living costs, personal allowances, and savings for the future. They can further be classified as fixed or flexible expenses. The four groups would then be classified as flexible, or variable: day-to-day living costs, the expenses which are necessary for running a household; fixed: personal allowances, sums covering the individual family members' personal ex-

penses, recreation, special lessons and hobbies. Savings, both fixed and regular, depend on the nature of the expenditure.

Wise husbands and wives realize that only by knowing where their money is really going can they take sensible measures to keep inflow and outgo in balance. Figuring out whether or not you can afford something involves money management. The term scares some people. It really shouldn't because it's not that complicated. All money management means is that you try to keep the amount of money coming in from every source roughly equal to the amount going out for every purpose. Most people do that even though they may never realize it. And by doing that they don't have to be so concerned with cash on hand before deciding "Can I afford it?"

Bank charge cards such as Master Charge provide a means of not only controlling expenditures by the husband and wife, but also of enabling you to get more for your money by taking advantage of the time value of money. The calendar date when you make a purchase, for example, can mean a considerable difference in dollars and cents in many ways.

First, it puts money in your hands when you need it—for example, to take advantage of a special sale you might have to take money out of a savings account and lose interest. Yet, by using a Master Charge card and paying for your purchases within the specified period you lose no interest and pay no interest. In effect, you are getting free use of someone else's money for almost a month. You also receive an accurate record of your expenditures in one monthly bill.

Husbands and wives, taking advantage of this procedure, can give each other full credit for intelligent money matters. And they'll never consider their mate a louse as a spouse.

MIKESKA GIN

Will be open from 8:00 a. m. until 12:00 noon on Monday thru Friday until further notice for selling planting seed.

Miss Hill Awarded Another Honor at TCU

SUSAN JEAN HILL

Ft. Worth, Tex.—Susan Jean Hill of Eldorado was among 24 Texas Christian University coeds honored during the annual Women's Recognition Night dinner held March 18 in the ballroom of TCU's Brown-Lupton Student Center.

The annual event is sponsored by the TCU chapter of Mortar Board, national honor society for senior women, and the Association of Women Students, representative body of TCU coeds.

The 24 honorees, all juniors, were tapped for 1971-72 membership in Mortar Board.

Special guest for the event was Dr. Dorothy W. Nelson of the University of Southern California's Law Center, the only woman law

school dean in the United States. recently named California's "Woman of the Year" and 1970 co-chairman of the panel on "Confronting the Myths in Education" for the White House Conference on Children, she was speaker for a public program sponsored by the TCU women's organizations and held earlier in the day.

A junior accounting major, Miss Hill has been named to the Dean's honor list, is president of Pi Beta Phi and Treasurer and National Councillor of Phi Chi Theta. Also a member of Alpha Lambda Delta, she is a graduate of Schleicher County High.

She is the daughter of Mr. and Mrs. Jo Ed Hill of 103 Redwood.

**Fertilized Pastures
Are Drouth Tolerant**

College Station, Tex.—Pastures receiving adequate plant food are able to withstand dry weather better, says Neal Pratt, Extension agronomist, Texas A&M University. Recent dry weather in much of Texas has shown the value of adequate pasture fertilization, he adds.

Pastures receiving adequate plant food can produce three times as much grazing—and more—as pastures not receiving plant food, notes Pratt. Even during dry weather this difference can still be observed in most Texas pastures.

Pastures receiving adequate plant food have root systems that grow to a greater depth in the soil. This enables plants to obtain moisture and creates healthier plants. The additional root system helps the soil accumulate and store the rainfall which occurs, thereby conserving soil and water resources.

Pasture plants receiving adequate plant food have greater leaf area but less evaporation than plants not receiving adequate plant food, continues the agronomist.

Although the benefit of pasture fertilization may not be as great in dry weather as in years with normal rainfall, the agronomist advises that fertilization during

drouth can still be expected to return dividends.

Many result demonstrations during recent years have shown the advantages of using adequate plant food during periods of low rainfall. Because April, May and June usually are the most favorable months for growing spring and summer grazing, the agronomist urges livestock producers to be sure adequate fertilizer is available to utilize moisture when received. Many result demonstrations throughout the state have produced one ton or more of grazing from 2 inches of summer rainfall, Pratt said.

BRIDGE RESULTS:

Blakeways, 1st;
Marg. Frost, Eddy Kinser, 2nd;
Barfields, 3rd.
Next meeting Thursday, May 6,
at 7:30 p.m.

Mrs. Mary Kempsey of Lometa spent the week end here visiting Mrs. Bertha Wilson and looking after her property here.

Peter Frederick Case was recently promoted to the rank of Cadet Sergeant in the ROTC program at Texas Military Institute in San Antonio where he is a student. Peter is the son of Mr. and Mrs. Fred H. Case of Eldorado.

In Those Days

Compiled From Success Files

ONE YEAR AGO

May 7, 1970—Robert McWhorter was elected new County Judge as the First Democratic Primary was held.

Mrs. Pat Martin died and her funeral was held.

Army Sgt. Wayne McGinnes was reported wounded in Vietnam and he was being brought back to this country for convalescence and months of treatment in hospitals.

FIVE YEARS AGO

May 5, 1966—The Fire Department were honoring the Albert McGinnes family as they prepared to move away, with a supper. The McGinneses were moving to Sterling City where he was transferred by West Texas Utilities to be manager.

Danny Richardson and Johnny Mayo were to enter the state track meet in Austin.

Frank Janes was elected to elementary principal here and was to move here from Ozona.

Mrs. Whitis's and Mrs. Stigler's third grade pupils were having an art exhibit at school.

Mrs. Cramer Sofge was elected worthy matron of the OES chapter. Elton McGinnes was elected worthy patron.

Northern Natural Gas Co. was advertising 22 company houses to be sold for removal, including the two at the plant in the west part of this county.

Mrs. Cain and Mrs. Salter were 6th grade teachers whose classes were to take a field trip to Fort Concho and other points of interest in San Angelo.

The Jerry Doyle family were moving from Plains to Lubbock.

Raymon Mobley and family were moving to the Huckaby house in Sunset Acres after they bought it.

12 YEARS AGO

May 7, 1959—Ford Oglesby Sr. was a patient in Shannon hospital in San Angelo.

Carol Ann Higgins became the bride of John Charles McKenzie of Seminole, Okla. Rev. J. H. Sharp officiated at the ceremony in the Fundamental Baptist church.

The Janis Kirby School of Dance set May 16 to present a Spring Revue.

Bill Bearce was at home after completing two years of Army duty, including being stationed in Massachusetts.

The State Meet was coming up in Austin. Mary Jo Parker was to enter essay writing and Mike Phillips extemporaneous speaking. Track boys participating were Robby Waldron, Joe Stanford, Jerry Carlman, Jim Runge and Billy Reesor.

The Rev. D. C. DuBose and family returned from a trip through western states. They visited Seattle, Washington state, and Disneyland.

Presbyterians established a "James L. Spencer Scholarship." Fire Chief Palmer West and several others from here were planning to attend the State Firemen's Convention in Ft. Worth.

35 YEARS AGO

May 8, 1936—An outdoor supper honored Mrs. L. V. Rodgers on her 79th birthday, at the home of her son, J. H. Rodgers.

Dr. H. W. Wiedenmann, F. A. Watson, Joe Chitty, and Jess Thompson returned from a fishing trip to Fort McKavett.

Funeral services were held for J. L. Henderson, age 83.

Mrs. Mabel Parker purchased the R. D. Holt residence after Mr. Holt moved to Sanderson.

Miss Herbert, Mrs. L. M. Hoover, Mrs. Joe Hearne Moore and Miss Mangum assisted the Girl Scouts with a party honoring their parents.

Rev. P. S. Connell, pastor of the Methodist church, was to preach at the Baccalaureate service for the Seniors.

Home Town Bread was 7c a loaf at Rees Grocery, "Eldorado's Complete Food Market." Lady Godiva Soap cost 19c for 4 bars, a 24-lb. bag of Queen of Plains Flour cost 89c, and 2 lbs. of ground meat cost 25c.

Lone Star Theater was showing Ronald Colman in A Tale of Two Cities, and starting the serial, Tailspin Tommy in The Great Air Mystery.

Piano pupils of Miss Mollie Turner participated in a tournament in San Angelo and those placed on the National honor roll were C. F. Jones, Lois Carr, Marguerite Chick and Helen Thompson. Leola Sauer and Betty Lou McKinney made the state list and Joyce Sample and Billy Frank Blaylock made the district list. Ollie Alexander, Wilson Page and Mrs. W. R. Jones were named commendable students.

ELDORADO LODGE

No. 890 — A. F. & A. M. Stated meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

FOR RENT: Partly furnished cafe building, \$50 per month. Also suitable for office. Will consider improvements. Ph. 853-2625.

FOR RENT: Building suitable for clothing shop, \$40 per month. Ph. 853-2625.

Community Calendar

May 6, Thursday. Am. Legion post meets.

May 10, Monday. OES meets.

May 11, Tuesday. Senior Citizens party, 2:30 p.m. at Memorial Bldg.

May 11, Tuesday. Reynolds H. D. Club meets with Mrs. L. Bassinger.

May 12, Wednesday. Lions Club meets 12:05, Memorial Building.

May 13, Thursday. Masonic Lodge meets.

May 21, Friday. All-Sports Banquet.

May 27, Thursday. Social Security man at Court House, 9:30 to 11:30 a.m.

May 29, Saturday. Schleicher Co. 4-H Club Junior Horse Show.

Colorado Band Trip

(Continued From Front Page)

above the city) and the band headed for breakfast, grabbed their uniforms, and loaded on their chartered buses for the 45 mile trip across the mountains to Canon City for the Blossom Festival.

After the afternoon competition was over the Eagle Band headed back to Colorado Springs, leaving Mr. McDonald to attend the Band Directors Banquet, with Bob Bradley as his guest. Some band members with their sponsor went bowling, others with their sponsors went to a show while others chose to remain, with the rest of the sponsors at the motel to eat supper and just plain relax.

Sunday morning rise and shine at 5:00 a.m. again and back to Canon City, arriving early enough to see the Royal Gorge including a walk across the world's highest suspension bridge, a trip down to the bottom on the Incline Railroad and a light across space on the Tram.

After lunch the band lined up in parade formation, the parade itself, and then the proud honor of performing in the finals of top bands. After that the band traveled to Pueblo to spend the night with a 5:00 a.m. call to load buses and head back home.

In your San Angelo paper and on TV your news covered the Canon City prison break Saturday. This happened as the bands were getting lined up for their first parade competition and occurred about 1/2 blocks from our band. The Ralls band was nearer the line and saw the men as they were shot from the top of the wall.

Candy Sale On For Brownwood Center

Schleicher Count 4-H members will be calling on local citizens to purchase a bar of World's Finest Chocolate, May 1 through 21, as part of a statewide effort to raise funds for a Texas 4-H educational center.

Clifford Schooley, local 4-H leader, who is heading the county sales campaign, says the county sales goal is 15 bars per 4-H member. The bars will sell for a dollar each.

A State 4-H Center is badly needed says Clifford; since the Texas 4-H program does not own any type of training or camping facility. The proposed center is being developed by the Texas 4-H Foundation, says Clifford, and will cost approximately one million dollars. It will accommodate about 175 people. The center will be a focal point for camping-type programs, 4-H leader training, citizenship seminars, leadership training labs, international 4-H activities, project training and other Extension Service activities. When not in use by 4-H, the center will be available to other groups with educational programs.

While the 4-H'ers themselves make their contribution, a statewide development council composed of business leaders will help raise the balance of the funds. The center will be built on a 78-acre tract of land at Lake Brownwood, and after the center is completed our county 4-H'ers will be using it most every summer. Construction work is to start immediately.

The 4-H'ers of Texas hope to raise money enough for the first phase of the center with their candy sale.

RECEIPT BOOKS—Pocket size, and large desk size, for sale at The Success.

LORRETTA SCHOOLEY, queen of the Lions Club for the 1971-72 year, shown with the bouquet, will be accompanied to Midland by her parents, the Clifford Schooleys, for the District 2A-1 Queen's Contest being held in connection with the district convention. Shown with her is Debbie Johnson, last year's queen of the local Lions Club. The District Queen's Contest will be held Friday night in Midland.

Mrs. Masloff Announced Girl Of The Year

ARLENE MASLOFF

Beta Sigma Phi held their founders' dry banquet on Thursday, April 29th. Awards were given. 1970-71 D. L. Dige of the year was Edna Collins and Girl of the Year was Arlene Masloff. These honors are two of the highest honors given in Beta Sigma Phi for outstanding accomplishment in the past year.

An outgoing president I would like to thank the community on behalf of our sorority for all of the support you have given us in the past year. We have had a very successful year and hope to have an even more successful one this year. Our sorority could not have accomplished half as much if it weren't for the support of the people in Eldorado. Our sincere thanks.
—L. L. Dacy

P. T. A. Notice

Mrs. Luther Dunham, president of the PTA asks for a called meeting of the PTA on Monday, May 10th at 3:00 p.m. in the Memorial Building.

The organization has not been active the last couple of years and the Treasurer reports a small balance remains. This meeting is being called to decide what worthy project this balance may be applied to.

All past members are urged to be present.

Skill In Shopping Cuts Food Expenses

College Station, Tex.—Are you finding it harder each time you go to the grocery store to make a given amount of money go the same distance?

Prices of practically all goods and services, including foods, have increased, but not as fast as incomes, reports Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist. Still, a major concern of homemakers is how to save on food expenditures.

Remember several factors influence food prices, she says. Along with the general national economic climate, these include business costs, weather, and future market expectations.

Mrs. Clyatt makes several suggestions to help cut food costs.

First, figure how much you presently spend for food. Some record-keeping may be necessary for a few months, so you will know just how much you are spending.

Then determine why you are spending what you are. Several factors affect family food spending: inflation, age of family members, frequency of entertaining, nutritional requirements, family size, types of food purchased, planning and preparation skills, and family likes and dislikes.

To help cut the food budget, put some tools to work—a sharp pencil and some paper, the weekly newspaper food ads, a favorite cookbook, and generous amounts of desire, says Mrs. Clyatt.

If you are cost conscious and want to improve your buying skills, you will make full use of label information, advertising, store displays and even friends' comments.

In the grocery meat department this week, you will find beef prices have changed little in the past two weeks. Most markets are featuring various cuts of mature and baby beef at special prices; be sure to check the ads for your family's preferences. In general, Mrs. Clyatt suggests best values will be found on round steaks and roasts, chuck roasts and steaks, ground beef and liver.

Pork prices are unchanged from a week ago, she says. Best buys include shoulder roasts and steaks, end-cut loin roasts and chops, hams and picnics and liver.

Fryers remain a bargain, along with large size eggs. Frozen turkeys are available at prices below last year's, and make an excellent choice.

Produce counters are beginning to get the "fresh" look we expect this time of the year, the specialist reports. Carrots, cabbage, celery, green onions, cooking greens, lettuce, potatoes, sweet potatoes, radishes and rutabagas remain low cost items. Cauliflower, eggplant, squash and broccoli may also be added to the list of reasonable, good quality vegetables.

Quality fresh strawberries and cantaloupes are appearing in many stores at reasonable prices. Other selections worthy of your consideration are apples, avocados, bananas, grapefruit, pineapples, oranges, lemons and tangerines.

Neighborhood Center

Arts & Crafts

An Arts and Crafts class is being held at the Center every Thursday afternoon from 1:00 to 3:00 p.m. The instructor is Mrs. Niblett from Cathy's Flower Shop. Mrs. Niblett will show the women how to work with foil and other materials.

Study Hall

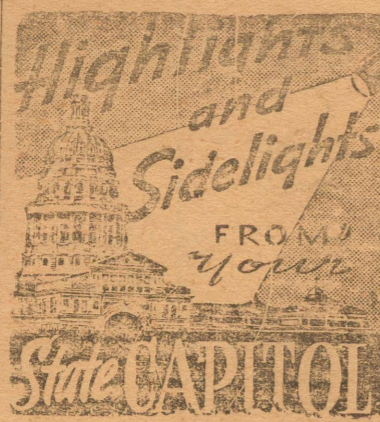

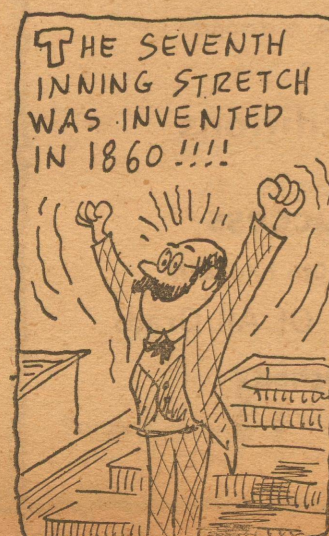

The study hall is still in progress at the Center and is open to all school children who need help with their home work. Study hours are from 5:30 to 6:30 p.m. Mrs. Farris Nixon is in charge, Monday thru Thursday.

Clothes Sale & Give Away

There will be a sale and give away of clothes on Thursday morning, May 6th, at Fred Ramon building from 8:00 to 10:00 a.m.

Commodities

USDA commodities will be issued starting on Thursday, May 11, from 8:30 a.m. to 4:30 p.m. All persons who were given a slip for verification of income, please bring it to the Center.

Austin, Texas.—Tax bill action switched back to the House this week after Senate passage of a \$662.3 million revenue measure.

Senate passed its version of the tax bill 22-9 after rejecting six separate attempts to insert a corporation profits levy by narrow (usually 16-15) margins and six other amendments. Only amendment of substance attached in floor debate was a half-cent-a-gallon increase in diesel fuel levy to make it the same as the gasoline tax.

Here is what the bill (HB 730) now calls for and its estimated biennial yield:

—Increase sales tax rate from 3.25 to 4%, \$288.5 million.

—Increase motor vehicle sales tax to 4% and bring auto rentals under levy, \$79.4 million.

—Raise corporation franchise tax from \$3.25 per \$1,000 to \$4.50, \$102.6 million over three year period.

—Increase cigarette tax three cents a pack to 18.5 cents, highest figure in the nation, with one cent dedicated to park development, for \$46.7 million.

—Raise the gasoline tax from five to seven cents a gallon, \$102.1 million.

—Increase beer tax from \$4.30 to \$6 a barrel, \$28.8 million.

—Increase diesel fuel tax 1/2 cent, to seven cents a gallon, \$4 million.

House Speaker Gus Mutscher took an early dim view of the gasoline tax in particular, and a conference committee was expected to adjust differences.

Stripped from the House bill were taxes on hotel rooms, stock transactions, jet fuel, admissions and entertainment and sand, gravel and shell. Senate also more than doubled the House version of the franchise tax.

Courts Speak

State Supreme Court agreed to set a hearing on the issue of whether district attorneys can file a barrage of suits to prevent stores from using various devices to get around Texas' Sunday closing laws.

A Houston clinic can be sued along with a doctor-partner in it for alienation of affections, Supreme Court held in a split decision.

High Court, reversing an intermediate court, held that the Austin suburb of West Lake Hills is a legally-incorporated city, but its attempted annexation of territory to the north of its original boundaries is invalid.

Third Court of Civil Appeals held that six Texas A&M University employees cannot draw state salaries and serve on the College Station City Council at the same time.

Same Court reversed the state savings and loan commissioner's finding that a charter should be granted to a savings and loan concern in Pasadena.

A new trial of the disputed sale contract involving a Killeen radio station was ordered by the Third Court.

Attorney General's Opinions

Legislation permitting the transfer of persons convicted of a felony at their request to the state prison system pending appeals of criminal cases is constitutional, Atty. Gen. Crawford C. Martin has held. Martin warned that constitutional problems may arise if such prisoners are required to work or disciplined as convicts.

In other recent opinions, Martin concluded that:

—A coin-operated machine delivering trade discount tickets and options to purchase other tickets is an illegal gaming device.

—Potter county may contract with a private non-profit institution for the care and supervision of juvenile delinquents.

—A water supply corporation organized under Article 1434a, civil statutes, is required to operate as a non-profit corporation.

—Harris County domestic relations judge may serve on Texas Southern University board of directors.

—City or county bond interest and sinking funds may be used only for paying interest on bonds or redeeming them.

—Travis County may employ an ambulance service for residents outside audience and use city streets for transporting patients to hospitals without a city franchise if all safety standards are met.

Appointments . . .

Gov. Preston Smith appointed B. B. Schraub of Seguin as 25th district judge and Houston C. Munson of Gonzales to succeed Schraub as district attorney of the 25th district.

Smith named Dr. James Harris

Sammons of Baytown to the Commission of Rehabilitation.

Governor appointed Royce Lee of Bronta to board of directors of Upper Colorado River Authority and reappointed Everett J. Grinstead of Ballinger, Cumbie L. Ivey of Robert Lee and John R. Salmon of San Angelo.

He named Mrs. Louise Maedgen of Lubbock to the American Revolution Bicentennial Commission.

Governor reappointed to Guadalupe-Blanco River Authority board of directors Zeh H. Fitzgerald of San Marcos, Ed F. De Leon of Cuero and Edward Reese of Gonzales.

John B. Turner of Houston, A. B. (Stormy) Shelton of Abilene and Homer Lee Bryce of Henderson attended their first meeting of the Texas Industrial Commission after appointments to succeed retiring Claude Brown of McCamey, I. F. Bay of Brownwood and M. M. (Mack) Stripling of Nacogdoches.

Livestock Export Records Set

Agriculture Commissioner John C. White pointed to a dramatic increase in breeding swine and bee cattle exported from Texas during the first quarter of 1971.

White said Texas producers are continuing to set the pace for the nation in swine exports to foreign countries.

Swine exports jumped 240% over the previous year during the first quarter, and beef cattle exports 140%.

Mexico continues to be the best market for export sales, although shipments are made to 20 countries, White said.

Hail Curb Studies

A California firm, Atmospherics Inc., received a permit from the Texas Water Development Board to conduct hail suppression operations in the Plainview area from May through October.

Supporters hope to reduce crop-damaging hail by aerial seeding of selected clouds with silver iodide. About 550 backers contributed \$128,600 to finance the cloud-seeding. No evidence was found that last year's program caused a rainfall reduction, as opponents claimed.

Welfare Economies Urged

Lt. Gov. Ben Barnes followed through on his warning that Medicaid welfare spending may "bankrupt" the state with proposals for trimming the bill an estimated 25 to 30% for 1972-73.

Barnes suggested these steps: —A limit on the time welfare patients can stay in the hospital.

—A limit on the cost of hospital rooms.

—A fixed fee schedule for doctors on welfare cases.

—A surgical benefit schedule as in private health insurance plans.

Smith Requests Park Funds

Governor has urged federal authorities release more than \$3.2 million in Bureau of Outdoor Recreation funds for 20 state and 34 local park-rec projects.

He accused the Republican administration of delaying funds "for partisan political reasons." Smith said the BOR is awaiting advice of federal solicitor and U. S. District Attorney Segal Wheatley of San Antonio before approving projects signed by Pearce Johnson, Parks and Wildlife Commission chairman as state liaison officer in parks matters.

Johnson blocked the use of \$2.1 million in BOR funds released to the state for Mustang Island park purchase early this year with federal court action.

Largest of the grants being held up is \$731,300 for the new McKinney Falls State Park.

Short Snorts . . .

Governor Smith signed into law the new "rules of road" legislation to bring Texas highway laws into conformity with other states.

Also signed by the Governor was a bill to provide a special pool for insurance coverage in areas subject to hurricane and tornado disaster.

Bill providing for 10 to 2 jury verdicts and comparative negligence doctrine in some civil damage cases was passed and sent to the governor who is weighing advice to veto it.

Parks and Wildlife is hearing proposals this week to expand the either-sex deer season from four to 24 counties.

No Secret To Growing Roses

BEAUTIFUL ROSES need sunshine, fertilizer, pruning, watering and pest protection. An all-purpose insecticide like Spectracide will control major rose pests while monthly applications of a complete fertilizer will give your plants all the food they need.

There's no secret to growing beautiful roses. Any gardener can do it by following a few simple rules.

Site selection comes first. Roses need at least 6 hours of sunshine each day. So, avoid shaded areas and try for a spot on the south side of the house.

Any good garden soil will produce roses. Heavy or light soil that is lacking in fertility can be improved by adding organic matter such as peat moss, leafmold or decayed animal manure. Spade the rose bed 12 to 18 inches deep and work in a 2 to 4-inch layer of organic material.

Select plants with thick canes which show no signs of shriveling and choose only varieties recommended for your area. Dig the hole deep enough so the bud union (large swelling or knob on the main stem) is just above the soil level when planted.

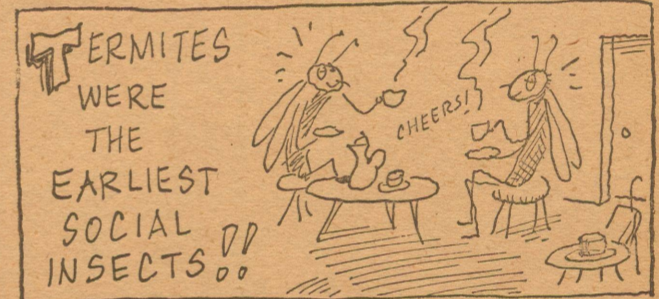

In established rose beds cut back canes to 10-15 inches and remove dead wood. Cuttings, fallen leaves and other debris should be removed and burned, since fungi of diseases may be present. After cleaning the bed apply about 2 inches of clean mulch over the entire area.

Black spot is a common disease of roses. Caused by a fungus, this disease can be very destructive, and it usually appears every year. A fungicide such as ferbam will give satisfactory control. Make applications every 7 days during wet periods, which are favorable for black spot infestations.

It's best to start now with an insect control program and continue spraying every 2 weeks throughout the garden season. Broad-spectrum insecticides like Spectracide, which contains diazinon, have proven to be highly effective in controlling major garden pests.

It's best to spray in the early morning or evening when winds are light. Cover both sides of leaves with a light spray until foliage begins to drip.

Fertilize roses at least once a month through August. Use a complete fertilizer such as 12-12-12 or similar analysis.

Constitutional Amendments Schleicher County, Texas

Note: Voter's signature to be affixed on the reverse side

SAMPLE BALLOT Constitutional Amendments

SPECIAL ELECTION MAY 18, 1971

Instruction Note: Place an X in the square beside the statement indicating the way you wish to vote.

No. FOR
1 AGAINST
The constitutional amendment to create a State Ethics Commission empowered to set rules of ethics for members of the Legislature, State officers and Legislative officers, to investigate violations thereof, and to recommend compensation for members of the Legislature and the Lieutenant Governor and recommend improvements and economy in the legislative process.

No. FOR
2 AGAINST
The constitutional amendment providing that the Legislature may propose an amendment of the Constitution at any session of the Legislature.

No. FOR
3 AGAINST
The constitutional amendment removing the limitation on the total appropriations for assistance grants for the needy aged, the needy disabled, and the needy blind, and setting a limitation on total State appropriations during any fiscal year for assistance grants for needy dependent children and the caretakers of such children.

No. FOR
4 AGAINST
The constitutional amendment to authorize the issuance of One Hundred Million Dollars (\$100,000,000) bonds to provide financial assistance to cities and other public agencies for water quality enhancement purposes, providing for the improvement and continuance of the water resources program, and establishing an interest ceiling on Water Development Bonds at 6% per annum.

Carpet Care And Your Budget

With costs rising in virtually every part of the family budget, it's important to get the best value for every dollar spent. This is especially true when buying and caring for carpeting, which easily can be the single most expensive investment in furnishing a home.

What To Look For
First, choose a color you like and one, of course, which complements room decor. Darker carpet shades usually provide better room balance. Use dark-

er tones for carpets, lighter tones for walls.

Texture and pattern also are primarily a matter of personal choice. However, small patterns should be used in small rooms and large patterns in larger rooms or for dramatic effect.

As for carpet fabric, many different types of fibers are available. No single one can be considered best for all uses. Determine the use and then pick the fiber or blend best suited to your needs. Regardless of the type selected, a general rule applies about carpet quality: "the deeper, the denser, the better."

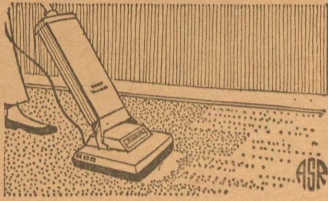

Specialists at the Bissell Home Service Institute in Grand Rapids, Mich., among the country's leading carpet care authorities, have developed a simple program designed to prolong carpet life and beauty. They offer some basic rules:

- Sweep carpet daily before grit is ground in. Three or four individual strokes with a carpet

sweeper will remove dust and surface dirt.

- Vacuum once or twice a week. Seven strokes over each section are recommended to remove both surface dirt and embedded grit. Embedded soil cuts fibers and causes wear.

- Treat spots and stains quickly before they have a chance to "set". (Try to keep a stain removal chart handy at all times for emergencies.)
- Use a good carpet shampoo two or three times a year—including a powered shampooer at least once every year. Do it before carpet becomes severely soiled. Shampooing loosens deep-seated dirt that even the most powerful vacuum will not remove. Properly formulated shampoos also retard re-soiling. (Be sure, too, that

you get a biodegradable shampoo that comes in an easily disposable bottle, to help cut down pollution.)

- Turn rugs, if possible, once or twice a year to spread wear.
- Never shake or beat a rug. This may damage the backing.

By following these few simple rules, researchers at Bissell say your carpet should provide many years of service—and help ease the strain on the family budget.

English Muffins Make Perfect Cheese Dreams

A Cheese Dream, as any Englishman knows, is a cheese sandwich which can be made in a dozen different ways. The open face ones here call for English Muffins. If the muffins are not available fresh, look for them in the frozen food bins or buy two packages—one to serve immediately and one to store for a few days in the freezer. They give a perfect crunchy base and unusual texture to the dreams. The dreams, in this case, include a slice of pineapple along with the cheese.

Pineapple Cheese Dreams

- 4 Thomas' English muffins
- Margarine or butter
- Prepared mustard
- 8 thin slices cooked ham
- 8 slices American or Cheddar cheese
- 8 slices canned pineapple

Split English muffins by scoring with tines of fork and then gently pulling apart. Toast; spread with margarine and mustard. Place a ham slice on each muffin half. Top with cheese and drained pineapple slice. Broil 3 to 5 minutes or until cheese melts and muffin is thoroughly heated. Makes 4 servings.

Easy, Elegant Raisin Coconut Torte

It's a dessert to make when you haven't much time but want to be extra nice to the family or when a friend's coming for tea.

Whisked together in minutes, the meringue base has coconut, graham cracker crumbs and chopped California raisins for great flavor and texture. It's frosted with an elegant raisin-rum whipped cream.

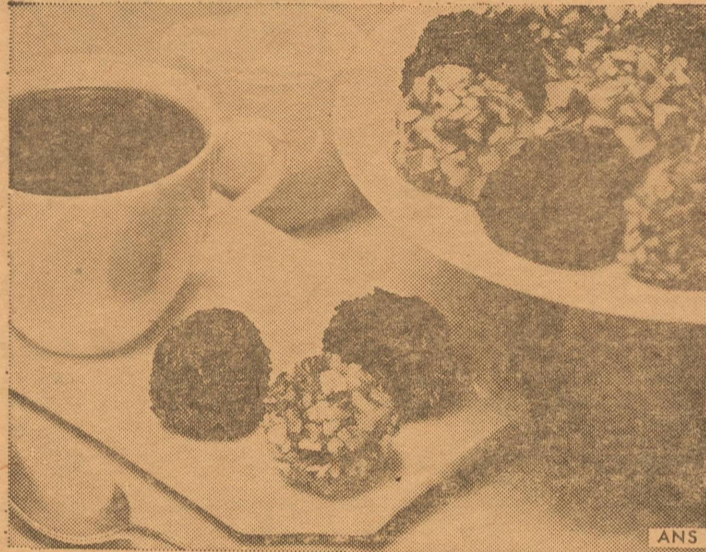

Sweet but healthful, too, with California raisins; absolutely glorious eating to the last luscious chewy crumb.

WONDERFUL RAISIN COCONUT TORTE

- ¾ cup dark or golden raisins
- 4 egg whites
- ½ teaspoon salt
- 1 cup sugar
- 1 cup graham cracker crumbs
- ½ cup flaked coconut
- 1 teaspoon vanilla
- 1 cup whipping cream
- 1 tablespoon powdered sugar
- 1 teaspoon rum (or vanilla)

Chop raisins lightly. Reserve 1/4 cup. Beat egg whites with salt until barely stiff. Gradually beat in sugar. Fold in crumbs, coconut, 1/2 cup raisins and vanilla. Turn into greased 9-inch layer cake pan with removable bottom. (Line bottom of pan with circle of foil, if you do not have a pan with removable bottom.) Bake in moderate oven (350°F.) about 30 minutes. Cool thoroughly. Cut into wedges. Whip cream until stiff. Fold in remaining 1/4 cup chopped raisins, powdered sugar and rum. Serve over torte. Makes about 8 servings.

Continental Chocolate Creams

THESE CHOCOLATE CONFECTIONS are a luscious example of a very impressive treat that's super easy to prepare. Made with Baker's Semi-Sweet Chocolate, the candies are rolled in chocolate sprinkles or chopped nuts. The creamy candies are homemade fresh, candy-shop pretty, and delicious enough for the most discriminating bonbon fancier.

CHOCOLATE CREAMS

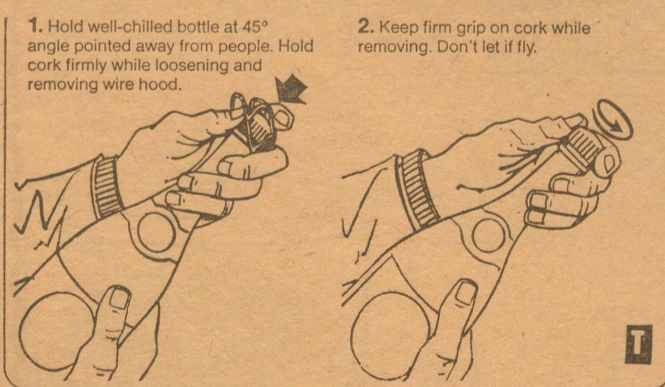

- 1 package (8 squares) semi-sweet chocolate
- ½ cup butter or margarine
- 1 ¼ cups sifted confectioners' sugar
- 2 tablespoons light cream
- 1 teaspoon vanilla
- Chocolate sprinkles or finely chopped nuts

Partially melt chocolate with butter over hot water. Remove from water; stir rapidly until chocolate is entirely melted. Blend in sugar, cream, and vanilla. Chill until mixture will hold its shape—about ½ hour.

Form chocolate mixture into small balls; then roll in chocolate sprinkles. Makes about 5 dozen confections.

NOTE: Confections should be stored in the refrigerator.

7 STEPS TO OPEN CHAMPAGNE

All sparkling wines contain natural high pressure. To open safely, follow the simple suggestions above.

1. Hold well-chilled bottle at 45° angle pointed away from people. Hold cork firmly while loosening and removing wire hood.
2. Keep firm grip on cork while removing. Don't let it fly.
3. Slant bottle at a 45-degree angle to prevent overflow. Always point the bottle away from your guests and yourself.
4. Grasp top of the cork firmly with the thumb and forefinger of your left hand. Turn the bottle, not the cork, slowly with your right hand—always maintaining a 45-degree angle.
5. If the cork proves stubborn, apply upward pressure; use thumb to loosen the mushroom sector of the cork from the neck of the bottle.
6. Let internal bottle pressure ease out the cork, but keep control of it as it is forced out. Remember, the cork is quicker than the eye.
7. Fill a glass with foam. Let it die down, then continue filling. Pour only at a speed the flow can bear. Voila! Your California Champagne party effervesces!

Iceberg Salad Captures Oriental Mood

Chinese culture is epitomized by serenity and the casual coolness of pale green jade. This salad classic captures the Oriental mood with a few simple ingredients and a minimum of effort, yet it's guaranteed to rouse appetites "jaded" by heavy winter fare. In Jade Tree Iceberg Salad crisp western iceberg lettuce serves as a base. Its flavor is enhanced by subtle spices, and a tantalizing texture contrast comes from the addition of toasted sesame seeds, water chestnuts and strips of cooked chicken.

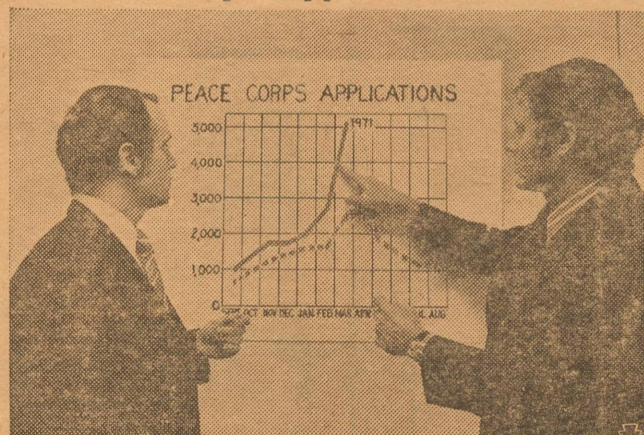

JADE TREE ICEBERG SALAD

- 1 head western iceberg lettuce
- ¼ cup sesame seeds
- 1 ½ cups all purpose oil
- ¾ cup tarragon vinegar
- 2 teaspoons salt
- 1 teaspoon dry mustard
- ½ teaspoon garlic powder
- ½ teaspoon pepper
- ¼ cup sugar
- ½ cup grated Parmesan cheese
- 1 can (5 ounces) water chestnuts, drained, rinsed and sliced
- 1 can (13 ounces) boned chicken OR 2 cups cooked chicken, cut in julienne strips

Core, rinse and thoroughly drain lettuce. Refrigerate in disposable plastic bag or plastic crisper. Toast sesame seeds in ungreased pan over low heat, stirring frequently, until lightly browned; cool. Combine oil, vinegar, seasonings and sugar in jar with tight-fitting lid; cover and shake until well blended. Add sesame seeds and cheese. Shake again. Tear lettuce into bowl and add dressing; toss lightly to coat well. Garnish with water chestnuts and chicken.

Makes 6 servings.

Peace Corps Applications Boom

A dramatic upsurge in applications means the Peace Corps will reverse a four-year downtrend. Peace Corps Director Joseph H. Blatchford points out that the March total of 5,195 applications was 107 percent higher than in March 1970 and the best single month since November 1966. The recruiting campaign directed by William Inglis (left) already has brought in more than 16,000 applications, with a total of 26,000 projected by August. Last year's total of 19,022 marked a four-year low. The Peace Corps is seeking people with specific skills and background in agriculture, in math and science teaching and in the vocational trades. Some 8,000 volunteers and trainees are now serving in approximately 60 nations in Asia, Africa and Latin America.

SAYS MOM:

KEEP A RECORD OF ALL MEDICINES USED BY YOUR FAMILY....

IT HELPS YOUR DOCTOR TO PRESCRIBE --- AND HELPS YOU KEEP THE MEDICINE CABINET UP-TO-DATE.

ROCOCO ELEGANCE

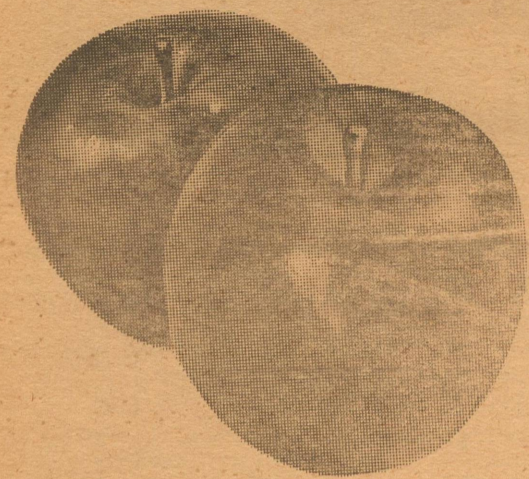

There is no better way to express splendor and charm in the home than to recapture the graceful decorating elegance of French Rococo styling.

A gift from the 18th century court of Louis XV, the best of rococo is exemplified in this Thomsville-furnished room. Featuring "Place Vendôme" bookcase, cocktail and lamp tables, the distinctive authentic styling is highlighted by flowing serpentine fronts... marquetry-inlay tops... and richly carved flower designs on cabriole legs and door moldings.

Even the woods are warm and unique, blending leafy, heart-figured walnut veneers and pecan solids with unusually rich grain patterns that create the one-of-a-kind look on every piece.

Even Louis, himself, would feel quite at home in this elegant, nostalgic salon setting. And chances are—you would, too!
