Number 29

Commissioners Meet; Set \$1.25 Tax Rate

The County Commissioners met recently and set the tax rate at \$1.25 per \$100 evaluation.

The tax is to be proportioned as follows:

Jury Fund	01
Road & Bridge	05
Road & Bridge Special	15
General	72
Perm. Improvement	02
Farm-Market	30

Evaluations were set as follows:

Cattle	\$15
Horses	\$15
Sheep	\$2.50
Goats	\$1.50
Hogs	\$2.50
Grazing Land	\$4.50
Cultivated Land	\$7.00

Cars

1971	\$400
1970	\$300
1969	\$200
1968	\$150
1967	\$100
1966	\$75
1965	\$65
1964	\$50
1963	\$25
1962	\$25

Tractors, Trucks, & Pick-Ups

1971	\$300
1970	\$200
1969	\$150
1968	\$100
1967	\$75
1966	\$65
1965	\$50
1964	\$40
1963	\$25
1962	\$25

Summer Recreation Closes With Awards

The Summer Recreation Program sponsored by the school and directed by Susan Hill, came to a close last Friday with games, picnic lunch, and awards program at the County Park.

Participation throughout the six weeks was high with an average daily attendance ranging from 43 the first week to 57 the concluding week. 157 different students took part at one time or another over the six weeks span.

Both group activities and individual sports were stressed, and tournaments were held last week. The students were rewarded for their efforts with a trophy for 1st place and ribbons for 2nd, 3rd, and 4th places. These awards were donated by the American Legion.

The results of the tournaments were:

Elementary Division

Basketball freethrow. 1 Susan Mertz, 2 Michael Mertz, 3 Larry Fatheree, 4 Georgeanne McAngus.
Croquet. 1 David Hill, 2 Craig Copeland, 3 Keith McCormack, 4 Charlie Bradley.
Golf Putting. 1 David Hill, 2 Keith McCormack, 3 Wesley Garcia, 4 Larry Fatheree.

Tetherball. 1 Julian Vigil, 2 Susan Mertz, 3 David Hill, 4 Sammie Jay.
Ping pong. 1 David Hill, 2 Susan Mertz, 3 Larry Fatheree, 4 Craig Copeland.

Junior High and High School Division

Basketball free throw. 1 Carolyn Page, 2 Gary Warnock, 3 Gary Wells, 4 David Wills.
Croquet. 1 Benjie Jay, 2 Jim Bob Edmiston, 3 Robert Pina, 4 Darla Sheppard.

Golf Putting. 1 Ricky Humphrey, 2 Gary Warnock, 3 Benjie Jay, 4 Carolyn Page.
Tetherball. 1 Timmy Farris, 2 Robert Sheppard, 3 Benjie Jay, 4 Carolyn Page.

Tetherball. 1 Timmy Farris, 2 Robert Sheppard, 3 Benjie Jay, 4 David Wills.
Ping pong. 1 Carolyn Page, 2 Jack Horton, 3 Ricky Humphrey, 4 Kathy Page.

Badminton Singles. 1 Gary Wills, 2 Irene Garcia, 3 Karen Rountree, 4 Darla Sheppard.

Badminton Doubles. 1 Timmy Farris-Benjie Jay, 2 Jim Bob Edmiston-Gary Wills, 3 Irene Garcia-Darla Sheppard, 4 Gynna Jay-David Wills.

Perfect attendance: Irene Garcia and David Hill.

Mr. and Mrs. James Williams spent the week end at the Sam Rayburn Lake in East Texas.

MH & MR Program Presented To Lions

Lion Eldon T. Calk is program chairman this month of July for the Lions Club, which held their regular meeting at noon Wednesday in the Memorial Building.

This week's program was on the Mental Health and Mental Retardation work in San Angelo.

Boss Lion Bill Gunstead presided. On Monday night, the Lions officers and directors met at Java Junction and made the committee assignments for the coming year. Rosters will be printed and delivered in the near future.

On July 28, the Lions Club will meet at noon for the monthly business session.

Mrs. A. P. Thigpen Buried Sunday

MRS. DENA THIGPEN

Mrs. Dena Margaret Thigpen, 84, died at about 3:00 p.m. Thursday in Canyon.

Services were held at 3:00 p.m. Sunday in First Baptist church in Eldorado with burial in Eldorado cemetery directed by Ratliff-Kerbow Funeral Home.

She was born April 22, 1887 in Grit. She was married to Albert P. Thigpen on June 2, 1912 at Mason. They moved to Eldorado that year and had lived here since. Mr. Thigpen died in March, 1970. She was a member of the First Baptist church in Eldorado.

Survivors include three sons, Albert Thigpen of Amarillo, Earl "Doc" Thigpen of San Angelo and Alvin Thigpen of Portland, Ore.; a daughter, Mrs. Mildred "Mickey" Lewis of San Angelo; three brothers, Emil Kruse of Ira, Levi Kruse of Buchanan and Ross Kruse of Monahans; three sisters, Annie Boldt of Port Worth, Mrs. Lillie Fisher of Llano and Mrs. Betty Moore of Ira; eight grandchildren and 12 great-grandchildren.

News Of The Sick

Cathryn Zly, daughter of Mr. and Mrs. Buddy Zly, was released from Shannon hospital in San Angelo last Sunday following a five-day stay for x-rays and tests. Cathryn will enter Shannon hospital again on August 8 for extensive kidney surgery and will be hospitalized for at least two weeks.

Miss Paxton Engaged To Robert Allan Corbell

The engagement of Miss Janet Louise Paxton to Robert Allan Corbell has been announced by the bride elect's mother, Mrs. Patsy R. Hutcherson.

The prospective bridegroom's parents are Mr. and Mrs. R. E. Corbell.

An August 7 wedding is planned in the First Baptist Church.

SHOWER SET SATURDAY

A Gift Coffee honoring Mrs. John Whetsell, the former Arlene Hartgraves, will be held this Saturday, July 24th, in the home of Mrs. Dick Preston. Calling hour is set from 10:00 to 11:00 a.m.

Hostesses with Mrs. Preston will include Mes. Robert K. Bradley, Robert Bland, Hollis McCormick, Charles Niblett, Glenn Parker, and Earl Yates.

Post Script

John Edward Meador came in after last week's paper was out, and got me straightened out about the new horse stalls on the rodeo grounds.

The five stalls are all privately built. One belongs to Horace Linthicum, two belong to John Edward, and two belong to David Meador.

Anyone belonging to the Riding Club, he said, can build his own stall.

Talking about these new stalls, there probably will be no horses in them now for many weeks because of the state-wide quarantine of horses due to sleeping sickness that has entered Texas from Mexico.

Under the quarantine no horses can be moved out of the state, nor are they to be moved from one county to another. In fact, one Riding Club member declared they were cautioned not to move them from one ranch to another!

County seat rodeos, always popular during summer months, were abruptly canceled throughout West Texas last week when word of the disease came. One which was scheduled at Sonora last week end was quickly canceled after advertising had been distributed.

There is speculation now about Eldorado's Amateur Rodeo, tentatively set for early September. Will the horse quarantine be lifted before that time?

Sonora Veterinarian Joe David Ross has said vaccine is being rushed to West Texas, and when it is available vets will have to vaccinate all the horses in each county and that the vets will have to go to the horses—not the horses to the vet.

About the horse quarantine—Texas Highway patrolmen have been ordered to stop any traveler pulling a horse trailer and order him to take the horse back home.

In talking about the horse disease last week a T-V news commentator gave 400,000 as the state's horse population.

How many horses in Schleicher county?

One man here guessed 2,000. Is that about right?

What is the name of this mosquito-spread epidemic among horses which has killed thousands of horses in a sweep from South America across Mexico and now is spreading into Texas above the Rio Grande?

The name is "Venezuelan Equine Encephalomyelitis." I couldn't spell it again either so let's just refer to it as "VEE" which is how other papers refer to it.

Can you pronounce it?

I am wondering if our Mayor or City Secretary has any information about Eldorado's application a year ago for fifty more low rent housing units.

Our present low-rent units are full-up and always have a waiting list. No doubt the delay is tied up in government bureaucracy that probably needs a little shot in the arm. Texas has two good United States senators in Washington. Has anyone written to them?

There are scores—maybe hundreds—of able bodied senior citizens who have no income except a modest Social Security check for about 130 a month. They can't get by in a large city with its high rent. Many could live comfortably in a small town in a low-rent housing unit and have a feeling of independence in a friendly and neighborly community.

Eldorado could use more low-rent housing units if we could get them.

In the last week or so we have heard of complaints that in certain periods the city's water pressure has been so low that housewives have been unable to operate their automatic washing machines. Sometimes it is only for several hours and then the pressure comes back again.

Maybe this is a condition that is not a cause for alarm. Maybe it is just from a midsummer extreme drought.

But Eldorado has always prided itself on an abundance of good,

pure water—with plenty of it for watering lawns and shrubbery and whatever is needed. And it makes a person wonder at any time when only a small trickle of water comes out when he opens the faucet on his kitchen sink.

Does the city need to drill another well?

In order to get the view of a city official we talked to City Secretary Lum Burk.

His assessment was that the occasional low water pressure was due to just three big water users: (1) the golf course, (2) the school, and (3) the hospital. All three have large grounds on which they are developing lush lawn grass requiring huge amounts of water. When all three are turned on the same day it draws down more water than the pumps can handle.

The secretary's suggested solution is for the three major users to work out among themselves a gentlemen's agreement to use water alternate days, which would ease the problem during the July and August period of heavy water use. If they don't do it, the city might set the days, but they would rather the three major users work it out by themselves.

Asked about the need of drilling another well, the Secretary said, "It's not an immediate need, but the city dads ought to be thinking about it."

Northern Natural Gas recently gave a second short wave radio to a worthy cause here in Eldorado. They previously gave a short-wave radio for installation in the new ambulance at the time it was delivered in the Spring.

More recently they gave a similar radio to the fire department for installation in the new fire truck.

B. L. Blakeway, fire chief, has expressed appreciation to Northern on behalf of the other firemen for this contribution.

With our subscribers: Mrs. Paul (Lucy) Campos reports her new address is: 36034 Pizarro Drive, Fremont, California 94536.

George F. Scott is a new subscriber on the Star Route out of Christoval.

Here is a new Aggie joke: Aggie: How much are those cantaloupes?

Salesman: I'll sell you all you want for a dollar.

Aggie: O.K., give me two dollars worth!

The firemen were called out at about 1:00 p.m. last Wednesday to a blaze at the rear of Eldon Calk's building on South Main Street, now used for storage.

The rear door of the building was damaged somewhat but prompt action by the firemen kept the fire from spreading.

The Medical Auxiliary has their scholarship for a young person at school this year. Details on page 4.

Horses To Be Gathered On Rodeo Grounds

Horse Vaccination To Be Conducted In Town

County Agent Jerry Swift received new regulations Tuesday in regard to the sleeping sickness among horses, whereby horses may be gathered in a central place for vaccination by vets.

The original horse quarantine specified that horses could not be moved from one place to another, and that vets would be required to go to the horse.

Accordingly arrangements were made with Joe David Ross, veterinarian of Sonora, and county-wide vaccination is being set up at the rodeo grounds in Eldorado for Thursday morning, July 22 (today). Hours suggested are from 8:00 a. m. to noon.

Vaccinating on ranches has been going on since Sunday. It is hoped that the mass vaccination on Thursday will complete the job for this county.

1500 has been given as the number of houses in Schleicher County.

Johnny Newman, 15, Seriously Injured

In a one-vehicle accident last Wednesday afternoon at 3:00, 15-year-old Johnny Newman sustained serious head injuries and has been in hospitals since that time.

The pick-up was wrecked on the Merton highway near the Morris Whitten place.

Young Newman was brought in to the Eldorado hospital where he received initial treatment, and was then transferred by ambulance to Shannon hospital where he has been in intensive care section. At last report he was responding to treatment but was still unconscious.

He attended Eldorado High last year and was in the Freshman class.

ONE FROM HERE ENROLLED

Lubbock, Tex.—Kathy Carlman, daughter of Mr. and Mrs. E. L. Carlman, has enrolled for the second summer session at Lubbock Christian College.

Lubbock Christian College is a private, liberal arts college now entering its 14th year. It is a four year college offering bachelors degrees in 14 major fields of study.

COUPLE MARRIED RECENTLY

Mrs. Ruth Bradshaw and W. J. Humphrey were married in June and are now making their home in San Angelo.

Mr. and Tom Stewart and Quinton, Teresa and Cloris of Bloomington, Minnesota, are visiting here this week with Mr. and Mrs. Charles Wimer and the Bill Gunstead family. They expect to leave Thursday and will visit other relatives in Kansas on their way home.

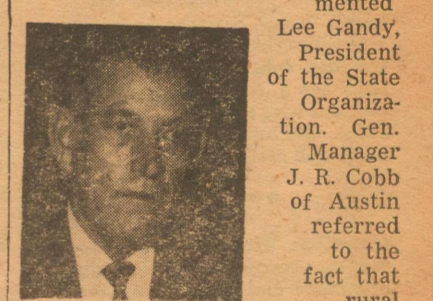

SALES PADS. just 10c each at the Eldorado Success office.

State Co-Op Meeting Coming Up At Dallas

Austin, Tex.—"Out of Concern—Action" is the theme of the 31st Annual Meeting of the State Association of Texas Electric Cooperatives July 27-28 at the Sheraton Hotel in Dallas.

Scheduled to attend from the Southwest Texas Electric Cooperative headquartered here is the manager, Elton McGinnes, and possibly one or two directors.

"The representatives of the 80 rural electric cooperatives in the state will hear views of several speakers and learn how their utility systems can be more effective in the goal of Helping Texas Grow toward rural development," commented

ELTON MCGINNES, Manager

about the economic progress being made in our rural areas and stated, "only through positive action by these same leaders will we see Texas reach its full potential."

Highlights of the July 27 session will be talks by David A. Hamil, Administrator of the Rural Electrification Administration, and by James K. Smith, Governor of the Cooperative Finance Corporation. The Cooperative Finance Corporation is the newly established financing institution that has been developed solely by the rural electric cooperatives in the United States.

The Tuesday evening Banquet & Pageant will feature the selection of the 1971-72 Miss Texas Rural Electrification.

The final session, July 28, will include the election of Board members and officers and an address by Congressman J. J. Pickle of Austin.

Hospital Notes

Ronnie Gene Palmer, age 27, of 2205 Meshler, Big Spring, Texas, was admitted to Schleicher County Medical Center July 17 following a motorcycle accident. Mr. Palmer received multiple lacerations and abrasions about the head, face, and body.

Johnny Newman, age 15, son of Mrs. P. Green of Eldorado and Mrs. Newman of San Angelo, was the only passenger in a one-vehicle accident July 14th. He was taken to Schleicher County Medical Center where he was given emergency treatment for multiple abrasions about the body and a severe head injury. When his condition became stable, he was transferred by Emergency Ambulance Service to Intensive Care at Shannon Hospital.

Summer Recreation Trophy Winners

These were trophy winners at the close of the summer recreation program recently, which had Susan Hill as director.

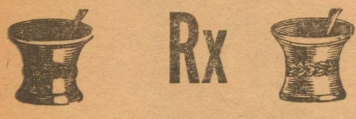

Left to right on front row are Georgeanne McAngus, Sammie Jay, Susan Mertz, Gynna Jay, David Hill, Craig Copeland, Michael Mertz, and Charlie Bradley.

Second row: Robert Pina, Gary

Warnock, Wesley Garcia, Julian Vigil, Keith McCormack, and David Wills.

Third Row: Ricky Humphrey, Benjie Jay, Irene Garcia, Darla Sheppard, Gary Wills, Jim Bob Edmiston.

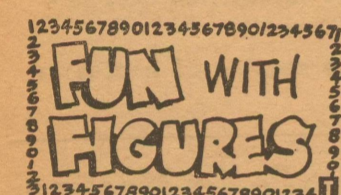

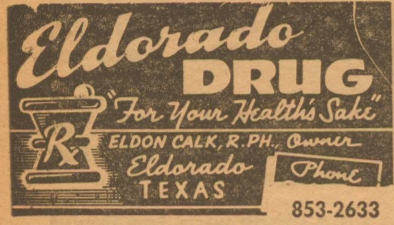

Not shown are Carolyn Page, Kathy Page, Larry Fatheree, Karen Rountree, Timmy Farris, and Robert Sheppard.

Where Friends meet for cool, refreshing fountain drinks and ice cream treats!

Asia is 16,900,000 square miles broad — bigger than the combined areas of South America, North America, and Africa all put together! Europe is sometimes regarded as a minor appendage to the great continent — and the whole land mass is then called Eurasia!

A planet's distance from the sun determines the length of its year. Mercury, closest to the sun, has a year only 88 days

long. Venus, between Mercury and Earth, has a 224-day year. On the other side of Earth, Mars has a year that is nearly twice as long as ours. A year on Pluto, the most distant planet, takes 248 earth years!

Question: What business information agency provides weekly comment and analysis on the cost per pound of 31 primary foodstuffs, on the price fluctuations of 30 basic commodities, on failures in 39 different business lines, and on bank clearings in 26 major cities? Answer: Dun & Bradstreet!

The sun, earth, and all the planets are hurtling towards the constellation Hercules at a speed of 43,000 miles per hour. There is little danger of a collision!

County Ag. Agent's Column

By Jerry Swift

Horses & Sleeping Sickness

The sleeping sickness problem is much more serious than first considered. This quarantine could possibly last for a long period if the disease doesn't stop spreading. Please follow the quarantine. We are trying to make a list of horses over Schleicher county that individuals would like to vaccinate. If you have not contacted a veterinarian to vaccinate your horse, call the County Agent's office — 853-2610, and we will forward your name, number of horses and part of the county where your horse is located to the veterinarian when he is in the county vaccinating horses. A veterinarian must do the vaccinating. It is very important to get our horses vaccinated. Thanks.

Please give number of horses to be vaccinated and location of the horses in the county when you call the County Agent's office.

Horse Quarantine Is In Effect

Because of Venezuelan Equine Encephalomyelitis (sleeping sickness) horses have been quarantined throughout Texas. This means that horses cannot be transported across county lines. Horses are not to be moved from the premise (not from one ranch to another, even within the county). Don't move horses.

Vaccine is being distributed to veterinarians throughout the state. Joe David Ross, veterinarian at Sonora, was expected to receive his vaccine this week. Horses will then have to be vaccinated and a period of two weeks must pass before they can cross county lines after vaccination.

At the present a veterinarian must do the vaccinating and he will have to go to the horse to be vaccinated. Please help the halting of this disease by making this quarantine effective.

4-H Meeting Set Tonight

There will be a meeting of 4-H members and leaders Thursday, July 22, at 8:00 p.m. in the Corral Room of the Memorial Building. All 4-H members and leaders and also interested adults and youth of Schleicher county are encouraged to plan to attend this meeting.

Hog Cholera Quarantine Modified

Regulations for counties not under Federal Quarantine:

1. No restrictions on movement within the state, except when hogs are moved, they must be held at the premise of the purchaser for 30 days and no movement from such premises, except for slaughter, shall be allowed for the period of the quarantine. If the swine are healthy at the end of the 30 days, the quarantine automatically expires.

2. No certificate is necessary for the movement of swine. Texas has had only one outbreak in the past 60 days and none in over 30 days.

Screwworms . . .

Don't take the screwworm control program as a matter of fact. A case showed up last week in Bowie county, 300 miles from the nearest previously reported one. They were found in a calf's navel. This is an indication of how quickly we could have a widespread outbreak. Everyone should continue to follow the reporting procedure.

Schleicher county is less than 300 miles from reported screwworm cases. Don't guess. Send in all worm cases. It is possible they could be screwworms.

Summer Annual Forage Production

Sudan varieties, sudan-johnson-

grass types and Pearl millet should be 18-24 inches in height before grazing is initiated; Sudan hybrids should be allowed to reach 24-30 inches of growth. These plants grow and mature very rapidly. In the young, immature stage, they are highest in protein, minerals and digestibility. As they approach the boot stage and later, there is a decrease in protein and an increase in fiber, especially in the stalk, which renders it less acceptable to the animal and of less value. It is important, therefore, that initiation of grazing and harvesting not be delayed too long.

The boot stage is recommended when harvesting the forages as hay, haylage or green-chop for most classes of livestock. It should be remembered, however, that these plants mature rapidly, and are too often harvested at an advanced stage when the quality is too low to give the desired animal performance.

Precautions: Sudan hybrids, varieties and sudan-johnsongrass types have been linked to the horse disease "cystitis Syndrome." It has occurred only when horses have eaten the green forage; however, when cured as hay no problem has existed.

Insect Control in the Home Garden

Insect damage is present in most gardens over the county. Dusts or sprays will usually control most insects in your garden. Dusts usually are preferable for the home garden. Some dust containers can be used as applicators. However, containers with perforated tops often yield unsatisfactory results. The best duster is one with a tube and nozzle. It permits dusts to be applied to the leaves' undersides.

Sevin is one of the more popular insecticides used in the home garden. It is safe and easy to use. Apply an even, light coating at the rate of 1½ ounces per 50 feet of row. Force dust through the foliage so it reaches both sides of the leaves.

Sprays are equally effective as dust. Always follow directions on the container.

Food Marketing Tips Are Given

College Station, Tex.—Cut down on high food costs this week—follow these marketing suggestions from Gwendolyn Clyatt, Extension consumer marketing specialist.

At retail meat departments, look for features on less tender cuts, such as chuck and round cuts. Ground beef, short ribs and a number of boneless roasts may also be found at economical prices.

Excellent values are available on smoked and canned hams. Other pork features include center-cut chops, bacon, spareribs, liver and ¼ and ½ loin chops.

Fryers remain a bargain in most meat departments, and frozen turkeys are currently available at prices hard to pass up. Grade A large eggs continue to offer the best combination of economy and quality.

Fresh vegetable supplies are increasing seasonally. Among the more important items are tomatoes, cucumbers, sweet corn, cabbage, celery, blackeye and purple hull peas, okra, collards, mustard greens and eggplant. Yellow onions and potatoes also have attractive price tags.

An increasing supply of seasonal fresh fruits means greater menu variety at moderate prices. White seedless grapes and nectarines are nearing peak supply, Mrs. Clyatt says. Peach supplies, while on the light side now, should be increasing soon. Banana imports are heavier, making for lower prices.

For Home, Cars, Boats

Here's A Good Idea...

Here are some tips and ideas on how to save time, money and your temper on many do-it-yourself projects. You may want to keep this information handy for future reference.

From the Painter's Notebook

When painting stairs, make it a two day job. Paint even numbered steps one day, odd numbered steps the next. This way you'll be able to use the steps throughout the painting project.

Make nail holes around the inside rim of the paint can you're using. When you wipe the excess paint off your brush, the paint will run back into the can.

Next time you find yourself painting a room, cut up a raw onion and leave it in the room. The onion absorbs the paint odor and the paint does the same for the onion.

Cleaning Tricks

Wash windows with a mixture of ¼ cup cornstarch in a half gallon of warm water. It works! . . . A wad of aluminum foil dipped in cold water will clean chrome car bumpers just great.

Try putting paste wax on your chrome bathroom fixtures. The fixtures won't spot . . . A wet paper towel sprinkled with automatic dishwashing compound makes a fine oven cleaner.

Refinishing Tips

You don't have to be an expert to do a good refinishing job—on anything. But, just as with any repair project, it's important to have the correct tools and materials for the job.

When staining wood always apply the stain "with the

grain" of the wood — never against. Character and shading can be added by varying the time and quantity of stain used.

Minor body damage on the family car such as scratches, dents and rust spots can also be corrected by the do-it-yourselfer. Such items as auto body putty and Production sandpaper help to make such repairs a lot easier.

For any sanding job, including those on boats, several tools are helpful: (A) the portable belt sander which uses abrasive cloth belts; (B) the disc sander utilizing abrasive discs; and (C) the oscillating sander which makes use of coated abrasive sheets.

The Coated Abrasives division of the 3M Company, a leading producer in the abrasives field, has produced three new booklets covering the: (1) refinishing of furniture, (2) minor auto body repair, (3) boat maintenance. Free copies of each are available by contacting local retailers where sandpaper is sold.

The Outdoors

Grass clippers, shovels, hoes and pruners should be sharpened regularly. File tools while they are clamped in a vise. . . . If your small boat needs an anchor, try this: take an empty plastic bleach container and fill it with mortar.

When the mortar hardens, there's your anchor. Tie the anchor rope to the handle of the jug.

IN THE KNOW IN NORWAY

Norway can be the doorway to a fun-filled and educational vacation. A scenic and relaxing stay can easily be combined with a study tour. And there is a great choice of interesting and exciting tours and camps available at reasonable prices.

This noteworthy nation offers mountain craft vacations, youth hostel tours, horseback

riding, fishing, yachting and student travel.

Providing these special activities are numerous centers, clubs, associations, hotels, schools, camps and committees.

The Norwegian Student Travel Bureau offers a series of study and vacation tours for students from all nations, with the object of combining study with vacations. You can get a brochure on these tours by writing to the Norwegian Student Travel Bureau, University Center, Blindern, Oslo 3, Norway.

The Oslo University International Summer School has been held annually since 1947, and the program includes general and advanced courses, set up in terms of American "semester hours."

For further information about specific educational tours and activities, write to the Norwegian National Tourist Office, 505 Fifth Avenue, New York, New York 10017.

MEMORIAL PROGRAM

Your Memorial Gift is a fitting tribute to a loved one. This remembrance helps support the research, education and service programs of the American Cancer Society.

Memorial gift funds may be sent to your local Unit of the Society.

AMERICAN CANCER SOCIETY

We have the appropriate cards to send to the family and to the donor, and will send your check to the American Cancer Society in Austin.

HELEN CARLMAN
Memorial Cmn., Schleicher County

This week marks our 12TH ANNIVERSARY

in business as your Fina dealer, since we held Open House in our newly - completed station back in July of 1959.

We appreciate the support you have given us in the 12 years since then, and invite you to keep coming here for Grease, Oil and Filter Change, Tire Switching, Tires and Tubes and Batteries, and let us fill your tank with that fine Fina gasoline.

Having competed 12 good years in business we pledge the next 12 to continue to give you a friendly welcome, front windshield clean, back window clean, under-hood check, and tire check whenever you stop by.

Thanks again for your patronage.

**Miss Wilson Engaged To Mr. Hollmig;
 Wedding Is Set For August 28th**

MISS CAROLYN LYNN WILSON
 bride-elect of Samuel Elder Hollmig

Miss Carolyn Lynn Wilson and Samuel Elder Hollmig are planning to be married in a ceremony Aug. 28 in the chapel of Park Heights Baptist church in San Angelo.

The couple's engagement has been announced by the bride-elect's parents, Mr. and Mrs. Robert L. Wilson of 602 E. Parkway, San Angelo. The prospective bridegroom is the son of Mrs. Agatha Hollmig of Marathon and "Keggie" Hollmig of Alpine.

Miss Wilson is a graduate of Eldorado High School. Her fiance,

is a graduate of Marathon High school attended Angelo State University for two years.

**Pennies DO Count
 At The Food Market**

College Station, Tex.—No doubt about it! Pennies do count when buying food, says Gwendolyn Clyatt, Extension consumer marketing specialist.

Three to four cents off on a 25-cent can of food is a 10 to 15% savings, not bad for pennies, she explains.

She suggests these tips to help save pennies on your grocery bill. Shop carefully—advertisements, prices, and the markets. Check particularly for specials on meat, poultry, and fish then plan meals accordingly. Meat, poultry and fish can amount to a third of your family's food bill.

Compare brands when you shop, trying the lower priced grades and brands. You may like them as well as the more expensive items, the specialist says. Some stores carry as many as six different brands of canned green beans with prices sometimes varying considerably. Quality and cut may differ, but nutritional values vary little. By looking for the lowest priced brands in one store, you can save as much as 5 to 7 cents on a 6-ounce can of frozen orange juice, 5 cents on a can of peas, or 20 cents on a pound of bacon.

Check the cost of convenience, Mrs. Clyatt continues. Chances are partially prepared items will cost more than fresh, but not always. Some convenience foods, like frozen concentrated orange juice, frozen green peas, canned orange juice and some cake mixes are often cheaper than fresh choices. Other convenience foods, such as frozen corn-on-the-cob, stuffed baked potatoes, cheese in a spray can and frozen dinners, usually cost you more. But if time is short, you may be willing to pay the cost of convenience.

**Massive Inoculations
 Recommended By Sen.**

Washington, D. C.—Senator Lloyd Bentsen has asked the Department of Agriculture to eliminate restrictive measures in order to allow the rapid massive inoculation of the half million horses in Texas against Venezuelan Equine Encephalomyelitis (VEE).

The Senator also called on the Department to issue a license for private manufacture and commercial use of the vaccine which was developed by the U. S. Army and which is currently being used in Texas.

"The Agriculture Department officials have made commendable policy decisions in releasing the experimental vaccine, but there are some bureaucratic tangles which need to be unwound to permit the rapid vaccination of all horses in the state," the Senator stated.

"There is no valid reason that the red tape cannot be cut so that the vaccine may be more rapidly distributed in order to stop the spread of the disease."

DO PEOPLE read these small ads in The Success? You just did.

In Those Days

Compiled From Success Files

ONE YEAR AGO July 23, 1970—Johnny Meador of C. C. Lease Service took over operation of the Phillips 66 service station and renamed it Meador Oil Company, with Mack McAngus as manager.

Charles Blair took over the new Shamrock service station in the south part of town. Funeral services were held here for Clarence Oliver Wills, age 55.

FIVE YEARS AGO July 21, 1966—Funeral services were held for J. T. (Salty) Jackson, Jr., who died at 59.

Buddy Calk was back from the Canadian Canoe Trip which he made with a group of Explorer Scouts from this area. The event lasted for two weeks.

A son was born in San Antonio to Mr. and Mrs. Sam Granberry. The mother was the former Shirley Carroll.

R. M. Greenhill was on the job as new local Santa Fe depot agent. (He was one of the last ones.) Mr. and Mrs. Buddy Baker visited here from Beaumont.

Gordon Schrank addressed the Lions Club about his trip to Boys State in Austin. The Rony Kerr family moved back here from Abilene.

The Ike Whitten family visited here from Phoenix, Arizona. At McMurry band and twirling school from here were Kay Sanders, Stella Hubble, Shirley Hubble, Susan Mobley, Lisa Whitten, Jan Hodges, and Mona Wagoner.

12 YEARS AGO July 23, 1959—Robbye Waldron was awarded a Track scholarship to McMurry College in Abilene.

Mary Parker had a report on her attendance at the Girl Scout Senior Roundup at Colorado Springs. Funeral services were held for Joe Turner Logan, 32. He was bookkeeper for Southwest Texas Electric Co-Op., Inc.

Horace Linthicum and other promoters announced plans for a Junior Rodeo to be held July 31 and August 1. Gate prize was to be a Leddy saddle.

Melody Davidson was honored on her 4th birthday. Mrs. Harvey Knight, mother-in-law of Billy Dan McAngus, was killed in a car accident near Sterling City.

Mrs. E. F. Yardley died at 50. Joan Fudge moved to Houston for the remainder of the summer after directing summer recreation.

50 YEARS AGO July 22, 1921—Rev. Charles Currie, who is traveling for the Methodist church in the interest of the Centenary movement, gave a lecture at the local church and showed pictures of the Home Mission Schools now being built by the money raised through the Centenary movement.

Sheriff Lueddecke returned from the Sheriff's Convention at Amarillo. The event included a big barbecue given delegates on the Canadian river.

Miss Nelia Layne of Rocksprings is visiting here with Miss Katherine Hill. Floyd Bardwell, manager of the Owl Theater, advertised showings twice a week, Tuesdays and five reels on Saturday nights.

R. A. Evans sold 450 head of yearling ewes to Reed of Junction for \$4 per head. Evans also sold a car of calves to San Angelo dealers at \$11.60 per head.

Sid Maulding and family visited here from McCulloch county. Mrs. J. M. Alexander and daughter Lanora and R. M. Perry and family returned Tuesday from a few days visit to Pontotoc.

The Eldorado Independent School District had a tax election and 120 voted for and 31 voted against. This election was to place the old tax on the enlarged district here.

ELDORADO LODGE No. 890 — A. F. & A. M. Stated meeting 2nd Thursday in each month, at 7:00 p. m. from Oct. 1 to April 1, and at 8:00 from April 1 to October 1. Visiting brethren welcome.

Awarded \$12,000

Two San Angelo doctors and Shannon West Texas Memorial Hospital have agreed to award an Eldorado family \$12,000 in damages in a suit filed by an Eldorado family.

Defendants in a civil action filed Oct. 21, 1969, Dr. O. G. Zacharias, Dr. Robert G. Bridges and Shannon Hospital signed a compromise settlement agreement awarding the sum to Jerry C. Burleson.

Burleson had filed the suit in 51st District Court on behalf of his daughters Melissa and Shanna after the death of his wife.

The petition stated Mrs. Joyce Elaine Burleson, 20, died Sept. 23, 1968 in the hospital while undergoing an operation. She was a patient of Dr. Bridges, the petition stated.

Following her death, Burleson filed suit seeking to recover \$550,000 in damages he alleged resulted from his wife's death.

Attorney for defendants was George S. Finley while Burleson was represented by James D. Cunningham of San Antonio.

MRS. DENA THIGPEN at the time of her marriage in 1912

The Thigpens were honored on their Golden Wedding in 1962.

Schleicher Confirmer Greathouse & Pearce, Midland, will drill the No. 3 Thornburg as a 3/8 mile southeast, southwest and northwest of Strawn oil production in the Camar, Southwest multipay field of Schleicher county, 19 miles east of Eldorado.

Location, on a 320-acre lease, is 1,980 feet from the north and 660 feet from the west lines of 27-8-TW&NG. Contract depth is 4,450 feet; ground elevation, 2,230 feet. The field currently has three marginal Strawn wells and one 4,350-foot Strawn well.

Bible School Still On Sessions of the joint Presbyterian and Methodist Vacation Bible School are still going on this week, from 8:30 to 11:00 a.m. at the Presbyterian church. The closing morning session will be this Friday.

On Friday night, there will be an ice cream supper and crafts exhibit for parents, to officially close the event.

Elton McGinnes spent Tuesday in Abilene.

Louis Aguilar has moved to the Owens house.

Albert F. Fowler has moved from the Webb house to the Sam Dannheim house.

We honor BankAmericard and Fina oil company cards. S&H Green Stamps given on credit card sales and all open accounts paid by the 10th LUM DAVIS FINA STATION On Sonora Hwy. Phone 2872

Duplicate Bridge Reorganized

The Eldorado Duplicate Club is now meeting at the Memorial Building every Thursday night at 7:30. The club will be a non-profit organization; will become affiliated with the American Bridge Club League by the first week in August, in order that rating points may be given to the winners each week.

These rating points apply toward national master points. Mrs. Eula Barber from San Angelo, District Director for A B C L, attended our session last Thursday night to help organize our club.

When affiliated, rating points will be issued each week to the top winners. Four times each year there will be a tournament given for all Duplicate players in this area.

All bridge players are invited to attend any or all sessions. You do not have to belong to the ABCL to play each week; any points you win will remain in effect 3 years after issued.

A qualified director is required by the ABCL and the Sonora directors have volunteered to act as our director until one here takes the test and becomes qualified. We appreciate their assistance very much.

Last week's winners: Blakeways, 1st; Eula Barber, Marg. Frost, 2nd; Barkers, 3rd. —Rep.

—GARAGE SALE advertisements must be paid in advance. No phone orders, please. —Success.

TYPEWRITER RIBBONS, for Royal, Underwood, and Remington —available at The Success.

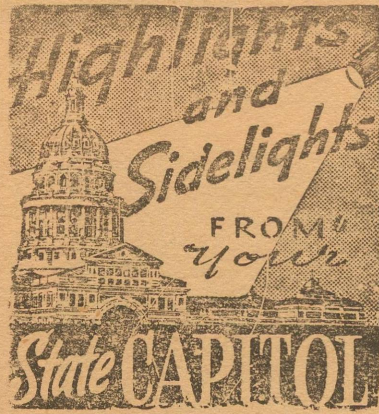

The Consumer Wants to Know RECYCLING - HOW DOES IT WORK? ALUMINUM CANS ONE ANSWER TO THE PROBLEM OF CLEANING UP AMERICA LIES IN THE RECYCLING OF SOLID WASTE MATERIALS SUCH AS ALUMINUM CANS. HERE'S HOW THE PROCESS WORKS. ALUMINUM HAS A HIGH RECLAMATION VALUE OF \$200 PER TON (10¢ A LB.). A LEADING COMPANY, ARMOUR-DIAL, ESTIMATES IT TAKES 13,000,000 LBS. OF ALUMINUM TO PACKAGE MORE THAN 250,000,000 CANS OF ITS MEAT ANNUALLY. IF ALL THIS ALUMINUM WAS RETURNED, IT WOULD BE WORTH \$1.3 MILLION. THIS RECYCLING SYMBOL HAS BEEN DEVELOPED BY THE ALUMINUM ASSOCIATION. THE TWO SEMI-CIRCULAR ARROWS REPRESENT THE CONTINUOUS NATURE OF THE RECYCLING PROCESS.

FOR SALE:

40 good registered Angora billies, graded out. Group no. 1 \$50; group no. 2 \$35; and group no. 3, \$25 a head.

Also 10 registered yearling Rambouillet rams in 10 mo. wool, \$60 a head.

W. L. (Tom) Davis 387-3022
R. E. Davis 387-3108
Box 285
Sonora, Texas 76950

Austin, Tex.—Back-to-school time isn't too far off for more than two million young Texans, and State Board of Education has approved a record \$302.4 million statewide available school fund allotment.

Local school districts may use their allocation to help pay annual operating expenses, including teacher salaries. Available school fund draws investment earnings from the \$835 million permanent school fund.

In other preparations for the upcoming school year, Board of Education also:

—Approved an \$887,500 contract with Southwest Educational Development Laboratory for a bilingual teaching program tailored for four-year-old children of Mexican-American farm workers. Ten bilingual specialists will work with 100 youngsters in McAllen and Hereford to develop an experimental project next school year and field test it in 1972-73.

—Approved a new accreditation plan to provide computer data to warn of developing weak points in school systems. Data will provide scientific analysis of information needed to decide which schools should be visited by accreditation teams. Such teams visit about 200 of more than 1,100 Texas school districts each year.

—Entered an agreement to link Texas Education Agency and U. S. Office of Education in a \$1.8 million program to evaluate new special education pilot projects expected to have national impact on the teaching of handicapped children.

—Allocated \$23.2 million to buy new textbooks (see below).

Disease Spreads
A sleeping sickness-like disease spread among horses (and in a few humans) in the South Texas-Rio Grande Valley area.

U. S. Agriculture Department which originally had scheduled an experimental vaccine against Venezuelan Equine Encephalomyelitis in 13 counties, later released it statewide and slapped an embargo on Texas horses.

Later, a state Animal Health Commission order halted movement within state or out of state of horses not vaccinated at least 14 days earlier.

Several persons were hospitalized in Brownsville with VEE symptoms. Cases in horses increased sharply, though laboratory confirmation lagged behind discovery of symptoms.

Disease, described as "flu-like" among humans, is deadly to horses, and concern was expressed for the equine population. Emergency situation stopped all rodeos, horse shows, race meets and other activities involving horses.

Textbooks Available For Review

Textbooks considered for 1972-73 school adoption can be looked over by interested citizens at 20 regional education service centers over the state.

Texas Education Agency, the largest single buyer of textbooks in the world, has \$23.2 million available for the next school year. New books cost an average \$8.10 for each of 2.7 million pupils. Proposed new textbooks can be reviewed at Edinburg, Corpus Christi, Victoria, Houston, Beaumont, Huntsville, Kilgore, Mount Pleasant, Wichita Falls, Richardson, Fort Worth, Waco, Austin, Abilene, San Angelo, Amarillo, Lubbock, Midland, El Paso and San Antonio education service centers.

1.5 Million New Voters?

Texas may have 1.5 million new voters in 1972 largely as a result of 18-21-year-olds becoming eligible for all elections, according to a state senator's forecast.

New law goes into effect September 1 which permits registration of a Texas voter for a three year period instead of annually as at present.

ON BAYLOR DEAN'S LIST

Waco, Texas.—Baylor University has recognized the academic achievement of 533 students by naming them to the Dean's List and Dean's Distinguished List.

Kathy Ann Robinson of Eldorado has a 4.00 grade average. She is a sophomore oral communication and journalism major. She is the daughter of Mr. and Mrs. T. P. Robinson Jr., and graduated in 1969 from Eldorado High.

sent. Registration will also be open year-around except for a 30-day cutoff before any election.

Dallas Sen. Mike McKeel, author of the new registration law, sees youngsters as accounting for a large part of the 1.5 million increase in eligibility rolls and predicts they will vote as well as any age group.

Attorney General's Opinions

All Texas counties must adopt the jury wheel system and terminate selection of jury panels through use of commissions, Atty. Gen. Crawford Martin has held.

New state law providing for waiver of indictment in non-death-penalty cases is constitutional, Martin said in another opinion.

In other recent opinions, Martin concluded:

—Commissioner of Bureau of Labor Statistics has no authority to promulgate rules and regulations limiting the number of boxing and wrestling promoters in cities within certain population brackets.

—Bridge between Corpus Christi Bay and Gulf of Mexico adjacent to Mustang Island when accepted by Texas Highway Department becomes part of the state highway system.

—Comptroller of Public Accounts may issue a warrant to a contractor or seller of supplies and/or services purchased through State Board of Control without seller's certification of correctness of invoice (correcting an earlier opinion).

—Governor is authorized to make six appointments to Texas Board of Licensure for Nursing Home Administrators—two initial appointees to serve until Jan. 31, 1973, two until 1975 and two until 1977.

Appointments . . .

Gov. Preston Smith named E. Byron Crosier of Cleburne as district judge of 18th judicial district, to succeed Judge John A. James

Jr. whom he named Tenth Court of Civil Appeals chief justice.

Smith selected Rex Sullivan Jr. of Quanah district judge of the 46th judicial district, replacing Judge Tom Davis who resigned.

Charles D. Kirkham Jr. of Dallas, a native of Cleburne, was placed by the Governor on the Legislative Property Tax Committee, along with Sen. James Bates of Edinburg, Rep. Richard Slack of Pecos, Jack L. Hart of Midland and Carl S. Smith, Harris County tax assessor-collector.

Charles R. Barden, acting chief of the air control section of the Texas State Department of Health, was named to the advisory committee to Federal Environmental Protection Agency.

Courts Speak

District judge in Midland ordered the lawsuit attacking constitutionality of the new Texas House of Representatives redistricting transferred to Austin where it may be tried this month.

Texas libraries were refunded nearly \$500,000 as a result of the Attorney General's price-fixing suit against children's book publishers.

Court of Criminal Appeals upheld a Texas 1969 statute on possession of LSD, but a new challenge was filed here on changes in the law this year. Court again upheld sodomy statute.

Pass Bids In

A low bid of \$1.4 million on the long-delayed second phase construction of a water exchange pass across Mustang Island apparently was submitted by Brown and Root Construction Inc. of Houston.

Brown and Root bid, including construction of a two-lane bridge across a 100-foot wide channel on Park Road 53, was the lowest of five opened last week by Parks & Wildlife Department. Bids were studied before a recommendation

on letting the contract.

Hunters Ired

A state proposal to turn Canadian River bottom into a wildlife refuge stirred protests of hunters from the Panhandle at a hearing here.

Panhandle hunters wanted no part of the Parks and Wildlife Commission's closing of state-owned river beds, streams and railroad rights of way to public hunting.

Short Snorts . . .

Governor Smith, House Speaker Gut Mutscher and several others were questioned a second time by Securities and Exchange Commission in its stock probe.

Major Texas crude oil buyers recommended to the Railroad Commission a 30,344 barrel-daily decrease in production next month.

Under a new law motor boat owners must provide Coast Guard-approved life preservers for children 12 years old or under.

Traffic accidents killed 1653 Texans this year, compared with 1621 in 1970.

Hearing is set August 24 on request of Clear Lake Savings Association for a branch office charter in Houston.

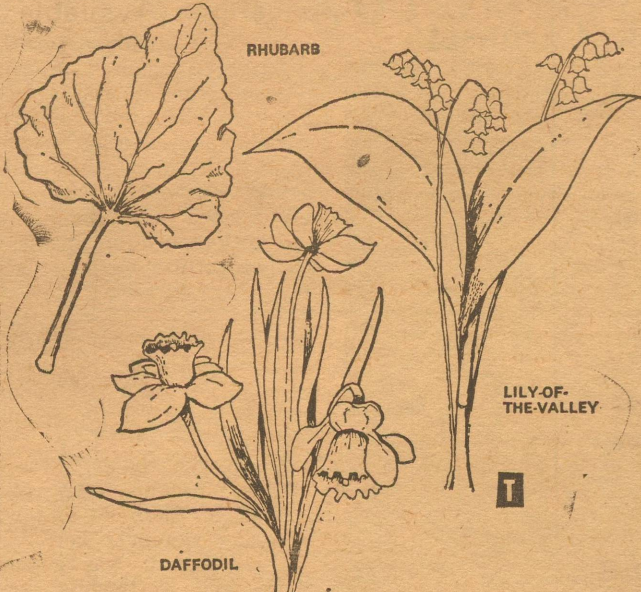

Texas has taken the first steps toward a \$12 million updating of law enforcement communications system.

House General Investigating Committee sent out questionnaires to state representatives asking information on stock scandals—and included questions on whether the press had been "biased" in reporting news.

Revenue from cigarette smoking jumped \$3.2 million—to \$18.9 million—from June 1970 to June 1971.

U. S. Sen. Lloyd Bentsen shies away from talk about his being a favorite son presidential candidate in 1972 and stresses need for Texas Democratic party harmony.

WARNING: MANY PLANTS ARE POISONOUS

One of these common plants can get you very sick; the other two can be fatal.

The most delicate, innocent-looking flower in your house, yard or garden may be a potential killer or cause serious illness if chewed or eaten—and children are frequent victims. The lily-of-the-valley, for example, can cause severe stomach pains and mental confusion if eaten. Small red berries of the Daphne plant, found on many lawns, are extremely poisonous—sometimes fatal. Rhubarb leaves can cause convulsions, coma or death. Mistletoe berries and poinsettia leaves can also be fatal.

service by Geigy Agricultural Chemicals, a division of CIBA-GEIGY Corp., in two new information pieces, "Plants that Poison."

Available at no cost are 17 x 22 inch wall charts and 8 1/2 x 11 inch four-page booklets which detail dangers from seemingly harmless everyday plants that can cause serious illness or even death. An easy-to-read table lists the plants, their toxic parts, and symptoms of poisoning.

For free copies of the charts and booklets, write Corporate Communications, 5300 Edina Industrial Blvd., Minneapolis, Minn. 55435.

Home Vegetable Gardens Reach All-Time High In Popularity

HOME-GROWN VEGETABLES provide nutritious, fresh produce from early summer through late fall. A non-persistent insecticide like Spectracide will protect plants from most pests and can be used effectively up to day before picking on crops like tomatoes and sweet corn.

If the latest statistics are correct, more people will be growing vegetables in their home garden this summer than in recent years.

Home-grown vegetables are a saving on the food budget and are fresher and more nutritious. What's more, you can grow varieties and types which are not generally available in stores.

The average home lot is bigger now than in years past, and through advances in chemistry, healthy, insect-free vegetables are not difficult to grow.

A wide assortment of already-started vegetable plants are available from garden shops. Vegetables best suited for late summer plantings are snap beans, Chinese cabbage, leaf lettuce, radishes, spinach and turnips.

Most fall crops should be planted no later than early August. They should make rapid growth during late summer and produce mature crops before cold weather.

Weeding, fertilizing and watering the vegetable garden are no more difficult or demanding than the rose or annual border. In fact if the vegetable garden is situated

where it is not in view, and most are, a mulch of straw, soft hay or other material around the plants will curb weed growth and help the soil retain moisture.

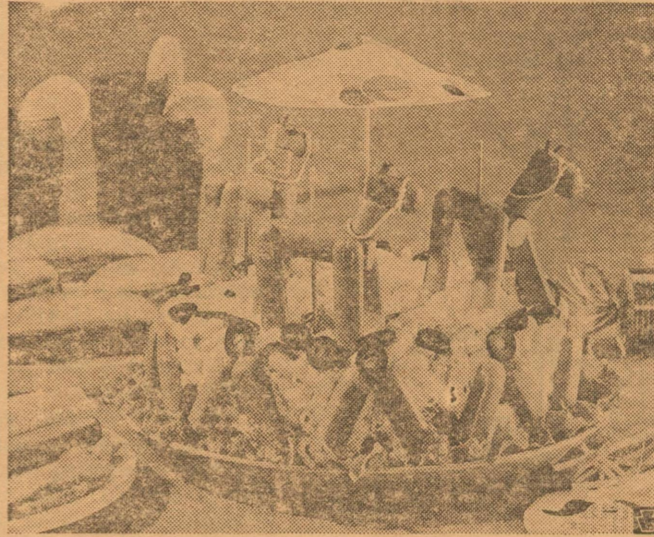

Insects present no problem either. When one chemical insect control can be used for vegetables and flowers, such as Spectracide (diazinon), all spraying can be done at one time. Also, there is no need for taking extra time to mix individual sprays.

Finally, and perhaps most neglected, comes the fine art of picking vegetables. You can improve the quality and taste of your produce by harvesting at the proper stage of maturity.

Tomatoes should be picked when uniformly red — about six days after fruit begins to turn red. For sweet corn pick when kernels are fully developed but before kernels begin to dent or shrink.

Pick beans when pods are smooth, have an even green color and except for special long varieties, when they are three to four inches long. Root crops, like carrots, can be sampled to determine ripeness. When carrot turns from white to yellow-orange to full orange, it's ready to eat.

Fun Frank Carousel

A very merry-go-round, indeed, when it's a decorative centerpiece that looks like it's good enough to eat — and is! And when it looks good, it always tastes better. Fun Frank "horses" stand atop a macaroni salad and you have a tasty and complete meal as well as a unique decoration for your table.

Easy to make, this Fun Frank Carousel will appeal to kids — of all ages!

FUN FRANK CAROUSEL

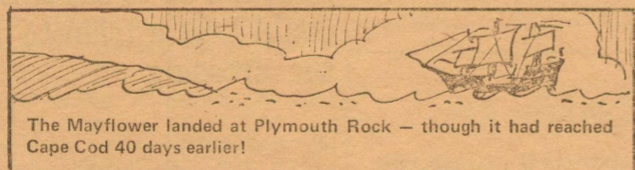

- | | |
|---|------------------------------|
| 3 7-oz. boxes elbow macaroni cooked, drained and cooled | 2 cups chopped celery |
| 9 hard-cooked eggs, chopped | 1-1/2 cups chopped cucumber |
| 1 tsp. salt | 1/2 cup chopped green pepper |
| 1/2 cup sliced ripe olives | 2 cups mayonnaise |
| 1/3 cup minced onion | Eckrich Fun Franks |
| | Lettuce |

Lightly mix together first eight ingredients. Add mayonnaise, toss lightly. Pour about a third of the salad into a nine- or ten-inch spring form pan. Arrange cut pieces of Fun Franks against the sides of the pan in a decorative design — the salad will help hold them in place. Pour remaining salad into pan, shaking it down to pack it evenly and firmly. This will be the molded base of the carousel. Refrigerate overnight to chill thoroughly.

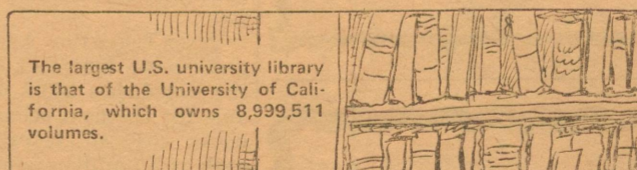

Make horses for the carousel from Fun Franks. Cut one frank into three pieces — a long piece for the body and two shorter pieces for the neck and head. Cut another Fun Frank in half crosswise and halves lengthwise to get four pieces of franks for the legs. Assemble the horses with toothpicks, using cloves for eyes and making a bridle from string. A six-inch wooden skewer or slim sucker stick stands each horse upright on the carousel.

For the roof over the carousel, cut a seven-inch circle out of paper, slash it once to the middle, overlap the two cut edges about an inch to give it shape and tape together. A stick or straw can be used for the center post.

To assemble the carousel, place the pan of salad upside down on lettuce lined plate and remove pan. Finish decorating sides, if desired. Set Fun Frank animals and roof on top of your salad base. REMEMBER: keep the salad cold so that it will retain its shape, removing it from the refrigerator just before serving.

The Mayflower landed at Plymouth Rock — though it had reached Cape Cod 40 days earlier!
