## **City Water Well Tests** 830 Gallons Per Min.

Number 22

The new city water well drilled in the south part of town was pumping water at the rate of 830 gallons per minute at 2:00 p.m., Tuesday, and already is regarded as the best well in town.

On a first test the well produced 270 gallons per minute. Then it was acidized with 1,000 gallons of acid, and immediately thereafter began delivering at 830 GPM, which was the capacity of the pump. Several observers are confident the well could go to 1,000 GPM if larger pump were used.

## **Tom Smith Buried Here Last Friday**

Andrew Thomas Smith, 88, died early Thursday morning in Schleicher County Medical Center nursing home.

Services were held at 4:00 p.m. Friday in First Baptist church with burial in Eldorado cemetery directed by Ratliff-Kerbow Funeral Home.

He was born Aug. 27, 1883 in McCulloch county and had lived in and around Schleicher county many years. He was a contractor.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

On roses that were set out as recently as last fall or this spring, it is suggested to cut the bloom stems above the first leaf that has five leaflets. On vigorous growing plants that are well established, flower stems may be cut longer without harming the plant. However, at least two good five-leaflet leaves should be left below the cut. The less vigorous the plant, the more foliage should be left.

To remove faded blooms, groom bushes once or twice a week during the bloom season. This improves their appearance and prevents fruit development which takes food material away from new growth. Always use sharp cutting tools for cutting rose stems. Tearing or twisting off flowers injures the remaining wood

This man can see for many, many miles, but he's not up in the clouds; bis feet are on the ground!

The Church gives man stability too—a broader vision. It lifts up his eyes to see God and the eternal values of love, truth, justice and service which God inspires. It gives him a divine perspective from which to view his job, his family, his country—his life!

But the Church always keeps that man's feet on the ground! It accepts him for what he is—regardless of the clothes he wears or the job he holds. It looks evil in the face and sees it for what it is—a devilish cancer which only God can cure. It keeps a man's feet on the ground while it lifts up his eyes to see beyond the horizon.

And this is what the Church can do for you! It can give you greater vision. But it's not up in the clouds. It keeps your feet on the ground!
