Sitting beneath a big picture of President Truman are Walter A. Gambill (left), a cab driver who discovered the bodies, and Harry Erwin, a bystander who was questioned by police. Police said Gargotta apparently had tried to flee when he was shot. (AP Wirephoto).

Pilgrim Thousands Throng Jerusalem, Rome For Services

By The Associated Press
It's an old story, and most people heard it when they were so young it seemed like just another story, but it was a story they would never forget. And especially today, they were remembering it. All over this land, and in countries across the seas, Christians paused to give renewed homage to the man of Galilee who on this day 19 centuries ago died on a wooden cross on a hill outside Jerusalem.

WASHINGTON, April 7. (AP)—Senator Tydings' assertion that FBI records fully clear Owen Lattimore of "Communist spy" charges left Senator McCarthy completely dissatisfied today. LEGENDARY EASTER FIRES BURN AGAIN IN FREDERICKSBURG HILLS

The Easter fires will burn again in the hills around Fredericksburg on the eve of Easter—as they have for more than 100 years. The fires, and the legend that the Easter rabbit cooks his eggs over them and then dyes them with wild flowers, constitute Texas' most unusual Easter tradition. In 1946 colonists here traveled to the head waters of the San Saba River to make a peace pact with the Hill Country Indians. But Indian scouts feared trickery and kept watch on the colony. They used smoke signals from fires on the hills to transmit messages to their chiefs.

BOARD VOTES SOME RAISES

City School Election Returns Canvassed

A canvass of election returns, salaries for office personnel and studies of building plans kept Big Spring school board members in session for approximately two hours and a half Thursday night. Results of the election held April 1 corresponded to unofficial returns announced earlier. They showed a total of 527 ballots cast, with Dan Copley receiving 561, John A. Coffey 537, Dr. J. E. Hogan 508, Wayne K. Williams 504 and W. D. Berry 429. A. L. Cooper and Ted Groehl each received two write-in votes, the official canvass showed.

LATTIMORE ANSWERS MCCARTHY CHARGES—Owen Lattimore, accused by Senator Joseph R. McCarthy (R-Wis.) of being Russia's top spy in the United States, faces a Senate Foreign Relations subcommittee to answer the accusations. In a written statement which he read, Lattimore swore the charges are "base and contemptible lies." (AP Wirephoto).

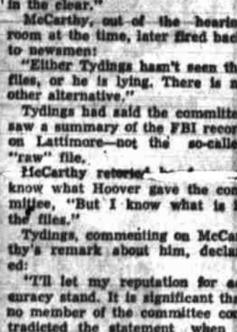

Board members inspected and approved preliminary plans for a new gymnasium and shop building which have been prepared by Puckett and French, architect-engineer. The architects were authorized to proceed with final plans and specifications. The shop building probably will be submitted as an alternate when advertisements for bids are made, in case funds are not sufficient to finance all construction work planned.

Voluntary Manslaughter Verdict Returned Against Mercy-Slayer

ALLENTOWN, Pa., April 7. (AP)—Harold Mohr was found guilty today of voluntary manslaughter in the mercy-killing of his cancer-ravaged brother. The jury of eight men and four women recommended mercy. Judge James F. Henninger said yesterday such a recommendation is not mandatory on the court. Maximum term for voluntary manslaughter is 12 years in prison. Mohr stood to hear the sentence with no visible display of emotion. He stared, dully, at the floor. The verdict was returned at 9:55 a. m. (EST), an hour and 25 minutes after the jurors resumed deliberations. Five hours of study yesterday failed to bring forth a verdict. The jurors had a choice of four verdicts: First or second degree murder, voluntary manslaughter or acquittal. Defense Counsel Harry C. Craveling promptly made an oral motion for a new trial. Judge Henninger did not sentence Mohr pending the appeal. Mohr's 75-year-old father, his brother, Ralph, former police chief at nearby Copley, and another brother, Raymond, were among the 100 spectators in the court room.

McCarthy retorted: "I know what Hoover gave the committee. 'But I know what is in the files.'" Tydings, commenting on McCarthy's remark about him, declared: "It let my reputation for accuracy stand. It is significant that no member of the committee contradicted the statement when I made it in the presence of the committee."

## Zale's 26th Anniversary Sale Begins Saturday As Jewelry Firm Completes Quarter Of Century

Completion of a quarter century in the jewelry business will be marked here by Zale's 26th anniversary sale starting Saturday.

More than six months planning have gone into the event, said Vic Alexander, manager of the store at Third and Main. Zale's New York and Antwerp, Belgium office have imported, designed and produced many new and different items of jewelry to be featured originally during the week, he added.

Phenomenal growth of the Zale Jewelry company during the past quarter century has made it one of the nation's largest jewelry concerns. It continues to be one of the country's largest diamond importers.

Starting from a small store in Wichita Falls in 1924, Zale's has expanded to 30 retail outlets extending from Des Moines to Cor-

pus Christi. Besides buying offices in Antwerp and New York, the company maintains general offices in Dallas. More than 1,200 employees are associated in the components of the company.

Founder Morris B. Zale attributes much of the success to the company's department store style of operation. This emphasizes mass buying and selling with minimum merchandise mark-up. Advertising always has been a keystone of the business, and in every com-

munity where Zale's operates, the store seeks to be the leading jewelry advertiser. Budget for 1950, said William Zale, vice-president, is largest for advertising in company history, and he is looking for a record year.

### Cub Pet, Hobby Show Planned At Scout Meeting

Preparations for a Cub pet and hobby show on April 15 and the annual Buffalo Trails council Round Up on April 27-30 were rounded at the monthly Lone Star district meeting Thursday evening.

### Seattle Police Holding Suspect In \$40,000 Dallas Gem Robbery

DALLAS, April 7. (AP)—Homicide Capt. Will Fritz was notified early today that Seattle police have arrested Lester Emmett Bennett, wanted in Dallas on a charge of taking part in a \$40,000 jewel robbery.

Also charged in the robbery are William Trent Jarrette and Thomas J. Schwartz.

Bennett and Jarrette are accused of ransacking the William W. Shortall home in the fashionable Lakewood section of Dallas after tying up two servants and locking Mrs. Shortall in a closet.

Schwartz, a Dallas pawnbroker,

was charged as an accomplice. Schwartz denied Jarrette's accusation.

Fritz said the jewelry was recovered through Schwartz.

Fritz said Bennett was picked up in a Seattle night club, after detectives learned yesterday that he frequented the spot.

Seattle police said they also were looking for a woman known to be Bennett's companion.

The National Geographic Society says the Irish potato is not really a potato but a member of the nightshade family.

# How Sunday School Came To Dallas Man's Children

By WILLIAM C. BARNARD  
Associated Press Staff  
This is how Sunday school came to the children of Algie K. Choate. Algie is an insurance man. A 22-year-old six footer from Tennessee. Lives at the fringe of Dallas, out near White Rock Lake. He moved to Dallas eight years ago. Back in 1947 when son Mickey

was 3 and son Johnny was 2. Algie figured it was time they started to Sunday school. But church was eight miles away. "A lot of trouble getting those kids dressed and eight miles to Sunday school," Choate explained. So he decided he would get a church started in his own neighborhood. And here is the story he told us of how he did it:

## Radio Expanding Still Despite Television's Tough Competition

NEW YORK, April 8. (U) — Despite television, radio is continuing to expand to giant proportions. There were some 85 million radio sets in use in this country as the year began, and new ones are being made and sold at the rate of nearly a million a month. There's now better than one radio set for every two persons in the United States—including babies in arms. The Radio Manufacturers Association and the National Association of Broadcasters estimate that sets in use as the year began were divided this way: 65,436,000 in homes, 14,764,000 in automobiles and 5 million in public places. Television, meanwhile, continues at a dizzy pace. With five million sets now in use, new ones are being turned out at the rate of around 100,000 a week. Trade circles have been excited over rumors that a \$100 television set is in the works. As a matter of fact, in many cities you already can get sets with picture tubes 10 inches across for a hundred or less if you'll settle for a lesser known brand or a last year's model. Better known brands are selling for \$130 to \$170, with some dealers giving discounts from those prices. Less than two years ago you had to pay \$300 to \$375 for comparable sets. Now for the same price or less you can get one with a 16-inch screen. So a \$100 set even in a major brand wouldn't appear to be too unlikely in the next few months—and possibly with a picture tube 12½ inches across — although it probably would be sort of Model T without many gimmicks or much styling. Public preference has shifted away from the 10-inch set, by far the most popular size a year ago, to the 12½-inch size. And if the trend continues, the 16-inch set will take over as the biggest seller.

## State Baptist Meeting Opens

BEAUMONT, April 7. (U) — The 60th annual state Baptist Training Union Convention opened here yesterday with more than 4,500 delegates registered. In the first session the group approved a resolution calling for a ban in Texas of all liquors containing more than one-half of one per cent of alcohol by volume. The resolution requested Gov. Allan Shivers and members of the next legislature to submit to the voters a constitutional amendment prohibiting the manufacture and sale of such liquors. The convention also adopted a resolution urging that the United States stop sending a special presidential envoy to the Vatican. The resolution declared that the Vatican envoy is a violation of the principle of separation of the church and state. Contests in all departments will be held this afternoon and tomorrow. The convention closes at noon tomorrow with election of officers.

## Cason Is Named State Hospital Business Mgr.

AUSTIN, April 7. (U) — W. C. Cason was the new business manager today for the State Hospital Board. His appointment was announced yesterday by Board Chairman Claud Gilmer and Board Executive Director Moyne Kelly. Gilmer said Cason's salary would probably be set by the board's executive committee when it meets here next week to assist in a reorganization of the central office. Cason's appointment was recommended by the industrial engineering firm of Ernst and Ernst which the board hired last month to take over business management of the state hospital system. Cason, 42, has been in state work most of the time since 1930. He has been assistant attorney general, once headed the franchise tax division of the secretary of state office, was chief accountant for the Board of Control in 1948 and went to work for the Hospital Board in September of last year. Cason will work under the direction of Ernst and Ernst and be directly responsible to that organization so long as it is retained in a supervisory capacity, Gilmer said. Ernst and Ernst, in turn, is directly responsible to the board.

# Pair Arrested In Slaying Of Missionary

ALEXANDER CITY, Ala., April 7. (AP) — A man and woman are to be questioned today in Birmingham, Ala., in connection with the slaying of an elderly California missionary.

The body of Mrs. Lillian Euphemia Schlierer, 70, was found floating in Lake Martin near here more than a month ago. She had been bound and gagged.

Police Chief G. M. Horton said last night that Cathrin Bystrom, about 35, and James Lee McGraw, 28, both of Birmingham, were arrested last night at Memphis, Tenn.

Horton said the Bystrom woman had been identified as the person with whom Mrs. Schlierer drove away from Waco, about a week before her body was found.

Horton said the couple was to be returned to Birmingham today for questioning. He said charges were being prepared against the woman and that McGraw was being held as a material witness.

At Memphis, the Bystrom woman denied any connection with the case.

Mrs. Schlierer was identified Wednesday through photographs from the Waco police.

# GOP Divided On HST's Efforts To Rebuild Two-Party Support

WASHINGTON, April 7. (AP) — President Truman's efforts to rebuild two-party support on foreign affairs pleased some Republicans today but left others sharply critical of his policies.

The President's appointment of John Foster Dulles, Republican who once was a senator from New York, as an adviser to Secretary of State Acheson encouraged the GOP wing in the East — and still influenced from a sickroom — by Senator Vandenberg (R-Mich.).

But members of a Republican faction hotly critical of the Truman foreign policy and seeking to make an issue of it in the political campaign dismissed Dulles' appointment as a gesture meaning nothing to them.

Senator Watkins (R-Utah), one of this group, told a reporter that if the President "thinks he is pleasing all the Republicans in the Senate by picking Dulles, he is mistaken."

"Naming an appointee who has no direct contact with and who doesn't know the wishes of the Republicans in the Senate doesn't make real bipartisan foreign policy," Watkins said.

Senator Malone (R-Nev.) said that so far as he is concerned Dulles "doesn't represent my thinking on foreign affairs and doesn't represent the thinking of the Republicans who prepared the 1950 platform."

"If some of the Republicans are going to follow the bipartisan will-o'-the-wisp, he may represent them but not me," Malone added.

Senator Knowland (R-Calif.), who has been in the Vandenberg camp but who has been critical of Acheson's Far Eastern policies, said the sincerity of the administration's bid for GOP co-operation will be tested quickly.

"Mr. Dulles is given an active part in forming policies and is permitted to keep Republicans in Congress informed step by step, then there will be a solid basis for bipartisan co-operation," Knowland said.

The Californian hastened to add, however, that even such an arrangement should not curb Republican criticism of decisions and actions which individual GOP members do not support.

"Sometimes the only way you can change a bad decision is to speak out publicly against it before it is too late," he said.

Along with Knowland, several Republicans praised the Dulles appointment.

Senator Hickenlooper (R-Ia.), a foreign relations member, said that if Dulles' advice is heeded by the administration, "he will be very valuable, indeed."

Senator Ives (R-NY) said he hopes the Dulles and Cooper appointments will mark a phase in which Democrats and Republicans join to eliminate politics from foreign affairs.

Led by Chairman Connally (D-Tex.) of the Foreign Relations Committee, Democrats generally hailed the Dulles' appointment as a clear indication that the administration wants to co-operate with the Republicans on bipartisan policies.

Dulles told reporters he was accepting the assignment after receiving confirmation from President Truman that "bipartisanship is the policy of the administration and that partisan considerations will not under any circumstances influence his conduct of the foreign policy of the United States."

He said he is in full accord with Acheson's recent speeches on Soviet-American tensions. He added that "it is time to rally from a frustrating confusion that has its root in mistakes of the past rather than in the circumstances of the present."

## State Pension Checks Slashed

AUSTIN, April 7. (AP) — Old age pension checks to 224,722 persons this month carried a 50-cent per check cut, the State Department of Public Welfare announced yesterday.

Department Director John H. Winters said that available funds would no longer stretch far enough to make full payments to everyone on the increasing rolls.

April rolls showed net increase of 1,004 claimants over a month ago, he said.

April old age checks totalled \$7,530,389, for an average payment of \$33.64, compared to \$34.14 last month.

Checks went to 6,408 needy blind persons with the average grant amounting to \$27.94, also down 50 cents from a month ago because of insufficient funds, Winters said.

Aid to dependent children checks went to 18,819 families. The average check was for \$44.91, an increase of 12 cents over March but still 11 per cent under the authorized grant.

George Smith, Michigan State conversion specialist during the 1940 football season, didn't kick extra points in high school; he held the ball.

## Mechanic Admits Torture Killing Of Young Girl

HOUSTON, April 7. (AP) — Lupe Vasquez, 39, an unemployed mechanic, told officers he stomped a 20-year-old girl in the stomach and head, then set fire to her dress when he saw she was still alive.

The body of Josephine Hernandez, charred beyond recognition, was found Wednesday in a dewberry patch on a lonely road near Buffalo Bayou. She had been missing since Monday night.

"I took my cigaret lighter and put fire to her dress and I saw some rubber inner tubes and picked some of them up and threw on her to make the fire burn," Vasquez said in a signed statement.

He was arrested and charged with murder last night shortly after Miss Hernandez was identified by a friend who recognized some jewelry found near the body.

In the written statement to police and District Attorney A. C. Winborn, witnessed by reporters, Vasquez said he did not even know the woman's name. He said he and Josephine had a fight after drinking beer together Monday.

Until late yesterday, police had found few clues in the killing.

Then Linda Martinez, 24, saw pictures of Josephine's jewelry published in San Antonio newspapers. She told police she thought the jewelry was Josephine's.

A short time later the mechanic was arrested at his home.

**Hagedorn Gets Back \$2,000 Over Amount Taken By Court Judgment**

LOCKHART, April 7. (U.S. —) William Hagedorn, a German-speaking farmer who neither reads nor writes English, got back almost \$2,000 above the amount taken from him in a court judgment over a mule. The 77-year-old man says the surplus will go to the church. Mr. and Mrs. Hagedorn were guests yesterday at a barbecue dinner given by the Lockhart Business Men's Club. District Judge John R. Fuchs, from whose court the default judgment was handed down, gave the Hagedorns a contributed purse of \$4,583. It replaced \$2,632 taken from them by court order. "We appreciate and thank you all over Texas and every other state," said Hagedorn. "We hear collections more than we expect. What is more we give it to the church." The contributions for the Hagedorns began pouring in after the Dallas News reviewed the case in a series of stories. Judge Fuchs originally ordered the default judgment when Hagedorn failed to defend a suit brought by an Austin couple after their car swerved off a road near Lockhart to avoid hitting the mule. The Austin woman was injured and the car damaged. The judge cancelled the judgment after Hagedorn proved to him that the mule belonged to Hagedorn's son and explained that he failed to appear in court because of a mixup. However, the State Supreme Court upheld the original judgment. The Hagedorns' bank account was seized. **Peace Talks Ending** NEW DELHI, India, April 7. (U.S. —) Peace talks between the prime ministers of India and Pakistan neared an end today as the two government leaders drafted an agreement they hope will stop Hindu-Muslim rioting in their countries. It is estimated that U. S. tourists in Canada spent a quarter of a billion dollars last year.

**Negroes Charge Discrimination, Walk Off Jobs**

DENTON, April 7. (U.S. —) A walk-out of Negro cooks and dishwashers at Texas State College for Women here yesterday brought charges, and denials, that Negroes were asked to do work white employees refused to do. Most of 54 Negro employes in the TSCW cafeteria walked off their jobs while the noon meal was being served. Usually 1,800 girls are served daily in the cafeteria, but the Easter holidays began yesterday and only 400 were still at school. Mrs. June Tretbar, assistant dietitian, said 10 Negro cooks and dishwashers were taken from their kitchen jobs and sent to the bakery to help in disassembling a bakery oven. She said several white men working in the bakery had refused to do the job. "At no time was a Negro told to do work anyone else had refused to do, white or black," said Marvin Loveless, college business manager. The college is moving equipment from its old cafeteria and bakery to its new Hubbard dining hall. Loveless said two Negroes who complained of being too old and two who complained about dusty work were among a group of seven who left the bakery about 10:30 a.m. yesterday. All except the two aged Negroes went back to work in the bakery after he talked to them. Loveless said the noon walk-out was staged by Negroes who had been left in the kitchen. Three or four Negroes continued to work in the bakery late in the day. "Both white and black workers are still at it," Loveless said. **'Calamity' Hits Colorado City Agoga S. S. Class** COLORADO CITY, April 6. — A kind of "Calamity" has hit the Agoga Sunday school class of the First Baptist church, Colorado City. The calamity descended upon the young men's class after they failed to reach their attendance goal Sunday when the Baptists here had 694 attending Sunday school. "Calamity" is a billy goat. Where he came from is not known, according to the pastor and teacher of the class, the Rev. R. Y. Bradford. It's where Calamity is going next which has class members worried. So far, the animal, symbol of the class failure to produce 22 members last Sunday, has been passed around in an unselfish manner. He spent one night with Arthur Kelly, one day with Luke Thomas, another night with Lloyd Whisnant, and Wednesday was staked out at the courthouse as the special charge of Mitchell county tax-assessor-collector, Bruce Hart, another class member.

**BUILDING REMODELED Cactus Grill Is Opened In City**

Opening of a new, modern eating establishment, the Cactus Grill, was announced today by J. O. Tynes. Located at 503 West Third street (former location of the Day and Night Food store), the Cactus Grill has been designed and staffed to give Big Spring a spacious restaurant where local citizens can dine on highest quality foods in pleasant surroundings. Tynes said. The establishment will specialize in steaks, Mexican foods and fried chicken, but at the same time will offer varied and attractive menus of other types of foods for all meals. The building has been completely remodeled and outfitted with modern appointments, including excellent sanitary facilities. Air conditioning will add to the comfort of patrons during the summer months, and other facilities have been installed with an eye toward pleasing customers. Clayton Daniels, one of Big Spring's best known chefs, is in charge of the kitchen. He was accompanied to the Cactus Grill by the same staff that had worked with him for the past two years at one of the city's leading coffee shops. **SWTS Choir To Sing** SAN ANTONIO, April 7. **Hitting Drought** SHREVEPORT, La., April 7. (U.S. —) Cleveland's Indians needed an extra base hit in the worst sort of way today. For 30 innings now, the mighty Tribesmen haven't been able to pound out anything better than a measly single. They got nine yesterday in losing to the New York Giants, 5-1, in Dallas, and they got four on Wednesday when the Giants beat them 8-2. On Tuesday, it was the same story, nine hits and all singles, but the Indians won that game, 7-4. It is estimated that the United States has 30,000 buses in inter-city service.

**HCJC Building Plans Discussed At Board Meeting**

Building plans and procedure in awarding contracts for construction of the new Howard County Junior college plant were discussed at the board of trustees meeting Thursday evening. Officers of the board were re-elected following the canvass of returns. County-wide figures showed the two unopposed incumbents, L. H. Thomas with 727 and Horace Garrett with 724, to have been re-elected. Dr. P. W. Malone was re-named president of the board. Others re-installed were Horace Garrett, vice-president; LeRoy Echols, Coahoma, secretary; and Harry Hurt, treasurer. Hurt was named for a two year term last year. Trustees instructed President E. C. Dodd to take steps to expand the industrial education department. The action is looking toward the eventual installation of a first class machine shop in connection with the department. Only other matters before the board, aside from hiring of a football coach (see sports page) were routine items.

Europe Eats Better, And Perhaps ECA Farm Equipment Aid Helped

The food production of Western Europe is now ten percent above prewar levels, and the Economic Cooperation Administration thinks it knows the reason why: the use of American agricultural equipment provided by ECA.

Despite Hue And Cry, Bridges Not Due To Rally Big Labor Support

In a San Francisco federal court, after a bickering 81-day trial a jury of eight men and four women found Harry Bridges guilty of lying to conceal his Communist affiliations in order to achieve American citizenship. His two co-defendants were also convicted.

"frame-up!" But the issue was quite simple. Bridges wasn't on trial for being a Communist; it isn't illegal to be a Communist in this country, at least not yet. But in his application for citizenship he swore he was not a Communist. The government proved to the satisfaction of the jury, and on the testimony of various Communist witnesses, that Bridges had perjured himself when he swore he was not a Communist. So the rap was perjury.

Total Diplomacy In Southeast Asia Is Matter Of Applying World Pressure

The defense of Southeast Asia, which turns in the first instance on Indo-China, will soon provide a critical test of whether Secretary Acheson is able to develop a policy, and of whether the Republicans will permit him to do it. As yet the basic problems which must be solved have not yet been described and defined, at least publicly by Mr. Acheson and Mr. Jessup.

It is not impossible to meet. One condition is that we abandon the idea of genuine independence for Indo-China and subscribe to the continuation indefinitely of the essentials of French imperial authority. The second condition is that we should provide enough arms and money and on a large scale and for a long enough time to keep that army going and to support the economy of the region.

Put bluntly but truthfully, the French army can be counted on to go on defending Southeast Asia only if the Congress of the United States will pledge itself to subsidize heavily—in terms of several hundred million dollars a year and for many years to come—a French colonial war to subdue not only the Communists but the nationalists as well.

Truman Administration Takes Terrible Battering From GOP

WASHINGTON, (U)—IT'S GOING TO BE interesting to see what President Truman does, if anything, to offset the battering his administration has received from the Republicans. This is an important year for Mr. Truman. It's an election year, when the people will have to vote for all 435 members of the House and 96 of the 98 senators.

Situation In New York Brings No Cheer For Truman Managers

NEW YORK—Democrats here now expect Governor Dewey to run for re-election. And the truth tellers among them doubt that he can be beaten. This being so, the Republicans of course will renominate him; the stage is being set now with draft-Dewey statements from upstate leaders. There are many wry faces but you can't argue with a sure thing.

It appears that the congressman proclaimed himself a Democrat a little too enthusiastically to suit some liberals who felt they had made a rather substantial contribution to his success. A more experienced head, Sen. Herbert H. Lehman, has been noticeably careful to keep himself in good standing in both parties.

Bedeviled Oyster Could Cause More Trouble Than Atomic Bomb

### Scriptures About Resurrection Are Listed By Reader

As we come to the time named Easter Sunday most religious groups recognize this as the day Jesus rose from the dead. And most people recognize as a time to buy and wear new clothes. Let us look into God's word and bring to mind some of the great and wonderful truths concerning the resurrection of Christ and of every-one else.

Daniel 12:2 All shall be raised. Isaiah 26:19 The earth shall cast out the dead. Rev. 20:13-15 We find that John was permitted to see everyone brought forth from all parts of the earth.

I Cor. 15:12-21. Teachers that if the dead rise not, Christ is not risen. Paul declares the resurrection of Christ and the people read II Cor. 4:14.

In St. John 11:23-25 Jesus teaches that we shall rise again and St. John 6:40 Jesus promised to raise up everyone that believeth on him at the last day.

Jesus Christ was the first fruits of them that slept, I Cor. 15:20. Rom. 4:20. Jesus was delivered for our offenses and raised for our justification and just as sure as Jesus died for our sins was buried and rose the third day for our justification that sure everyone is going to rise either to live with him forever, or be cast into the lake of fire. Rev. 20:15 Rev. 19:20.

The drive, scheduled to get underway in full swing today, has a goal of contacting every non-member business in Big Spring, the membership chairman indicated. Approximately 20 committees are assisting in making the contacts.

The membership campaign comes as a climax to the adoption of an energetic work program by the chamber for 1950, McDonald declared. Increased membership and an enlarged budget are necessary to carry out the five-point program.

The five major projects calling for chamber expansion are water, housing, office and business space, highway and road improvement, and industrial development. New members signed up as the drive started were Dr. L. B. Andrews, VA hospital superintendent; Tex Liquor store; Welner Oil company; G. R. Simmons, building contractor; J&H Drug store; Douglas Coffee shop; Jim Zack; Bernie Coughlin, and Dr. Arch Carson.

## SUNDAY SCHOOL LESSON

# Power Of Resurrection Has Lasted Down Ages

By NEWMAN CAMPBELL  
Scripture—I Corinthians 15; Luke 24:1-12.

This spring when we celebrate the Risen Lord, the birds will be singing, the flowers will be nearing bloom and the whole earth will be renewed after the long winter.

We take these natural events for granted, but nevertheless we are glad and our hearts sing at the coming of the fruitful season. All over the world people will feel the same lift to their spirits, and they will give thanks, and hail the Risen Saviour in their churches and homes, and in the great out-of-doors.

"Christ has risen," they will say; "we too will rise." In some countries it is the custom to greet each other with the phrase, "He is risen," to which the friend responds, "He is risen indeed!"

Now we retell the great, sweet story of the first Easter Day. To the garden of Joseph of Arimathea, where the tomb of Christ was located, the woman who had been friends of Jesus and His Apostles went on the first day of the week—to anoint His body with spices, which they had prepared, as was the custom.

"And they found the stone rolled away from the sepulchre. And they entered in, and found not the body of the Lord Jesus."

Perplexed, they turned about, and saw two men who stood by them in shining garments, who said to them: "Why seek ye the living among the dead?"

Frightened, the women prostrated themselves before the two shining beings, and the men spoke again: "He is not here, but is risen; remember how He spake unto you when He was yet in Galilee, saying, The Son of Man must be delivered into the hands of sinful men, and be crucified, and the third day rise again?"

Then they remembered His words. All the apostles had heard Him say this, but none had believed.

Hastily the women went away and told all this to the 11 remaining apostles, and to all the rest. But these people—who had heard Christ's words and lived so close to Him, still did not believe this thing they were being told. "Idle tales," they thought them.

However, Peter rose up and ran to the sepulchre. He stooped down, saw the linen clothes laid by themselves, and he went away, "wondering in himself at that which was come to pass."

Christ is risen from the dead! In spite of the terror that holds so many in its grip in these days of discords, wars and rumors of wars, we can pause and rest on this: that Christ rose from the dead, and so may we too—if we believe in Him.

In chapter 15 of Paul's longest letter—written to the Corinthians, he affirms Christ's resurrection: "For I delivered unto you first of all that which I also received, how that Christ died for our sins according to the scriptures; And that He was buried, and that He rose again the third day according to the scriptures: And that He was seen of Cephas, then of the twelve: After that He was seen of above 500 brethren at once; of whom the greater part remain unto this present, but some are fallen asleep."

Some of the younger disciples were still alive and had seen the risen Lord, Paul says although we do not know just where or how this appearance to 500 occurred. "And last of all He was seen of me," Paul wrote. That was when Jesus appeared to Paul when he was journeying to Damascus to persecute and take back bound to Jerusalem Christians in that city. "It in this life only we have hope in Christ, we are of all men most miserable," Paul wrote. "But now is Christ risen from the dead, and become the first fruits of them that slept. For since by man came death, by man came also the resurrection of the dead. For as in Adam all die, even so

in Christ shall all be made alive."

MEMORY VERSE  
"Thanks be to God, who giveth us the victory through our Lord Jesus Christ."—I Corinthians 15:57.

*The story of the*  
**PALMS**

There were hundreds of trees along the Bethany Road. But no one noticed them. People were hastening over those last five miles, bound for Jerusalem to celebrate the feast.

Then the King passed by! A gentle Galilean with kind sorrowful eyes—riding to His coronation.

People cheered and shouted *Hosanna*. Some laid their cloaks on the dusty roadway. And then, someone discovered the trees . . . beautiful palms that had stood unnoticed. Their graceful branches became the carpet of the King!

And when men sought a name for that triumphal Sunday, they named it for the palms. It is a day for discovering the spiritual beauty God has planted along the road of life—a day to worship Our King.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**  
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For the sake of his community and nation. (2) For the sake of his children's sake. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# RIBBON RAMBLINGS

By Mildred Young

"Art thou the Christ? tell us. And He said unto them: If I tell you, ye will not believe." Luke 22:67.

It's well to be skeptical about certain matters. It's good to be unbelievers when belief calls for the placing of non-truths in our lives. But we must be careful not only in choosing those things which we do not believe, but in taking steps toward belief in matters which might change our lives for the better.

This could be a very dark Friday if the Christian movement had not risen from a death on a cross. Christ had been attempting to tell the world what manner of man He was and they would not believe. They kept asking for some definite answer, proof or sign. He knew what He spoke when He told the unbelievers that if they had not believed already, they would not believe with a sign.

There's a story told concerning Christ's account of His work here on earth. After He arrived at His Father's house, He is said that when He had finished telling His story of how He had laid the ground work and left the task in the hands of twelve, that someone asked what He was going to do if the twelve failed. He replied that He had no other plan.

Some were skeptical while others believed even without a sign. They knew what wonders the Master had accomplished within their own lives.

This would be a very dark Friday, if a death on a cross had been forgotten. Without that death, there could be no Easter morning.

Help me to realize whatever task depends on me and grant me faith enough to accomplish the task. May a dark Friday become Easter Sunday in someone's life because of my faith in Thee, Amen.

# Mrs. Clyde E. Thomas, Jr. Reviews Book In Interest Of Easter Seals

Though only a "handful" of people attended, Mrs. Clyde E. Thomas, Jr. reviewed Juliette McIntosh Grate's book, "Help Them To Help Themselves" in a manner which enlightened her listeners in the field of work made possible by the Easter Seal campaign.

The review was held in the First Baptist church Thursday night. Mrs. Thomas was introduced by Shine Phillips, vice president of the Texas Society for Crippled Children and chairman of the Howard County chapter for the society, who expressed a desire that the review might be given on other occasions to larger audiences.

Phillips was introduced by Mamie Mayfield, president of the Business and Professional Women's club, which made arrangements for the review.

"Help Them To Help Themselves" was written by the director of the Dallas center for crippled children, the mother of four children, one of whom is a victim of cerebral palsy. Mrs. Grate received her educational training for the treatment of spastic after her children were born.

In reviewing the book, Mrs. Thomas recalled Mrs. Grate's reactions when she found that her handicapped appeared as early as his third day.

Mrs. Grate states that seven out of every 100,000 children have some signs of cerebral palsy, which is caused by injury to the brain, usually as a result of a birth injury or some early childhood disease such as whooping cough.

Mrs. Thomas called special attention, said Mrs. Thomas, to the need for the right emotional reaction by the parents and others to the child, the need to establish the right scale of values, the need to find out just what the problem is, what can be done about it, and to accept it for what it really is. She states that three out of seven cases are severe and cannot be aided to any great extent. The other four can be helped, some greatly.

Mrs. Thomas stated that cerebral palsy is a permanent state which does not progress unless accompanied by tumor. She said that the aim of crippled children's clinics and centers is to accomplish for the child as near the kind of life which a normal child has as possible.

Mrs. Thomas emphasized Mrs. Grate's ideas concerning vocational training for handicapped children and their need for as much "priceless independence" as they are able to give themselves. She stated that Mrs. Grate's book contained many exercises and treatments which would be helpful to any parents of a handicapped child.

Mrs. Thomas said that it takes much time and patience in the training of a handicapped child because it takes as much energy for a handicapped child to make one motion as it takes for a child without a handicap to make 100 motions.

Mrs. Thomas emphasized that the aim in training is never a normal way of living, but to teach the child patience, understanding and self-control in building for himself as complete a life as is possible under his handicap.

At the close of the review, Phillips emphasized the work which is being done by the Crippled Children Society and said that he would like to secure the name of every crippled child in the community. He said that the society and service club organizations were providing finances to care for treatment needed by handicapped children whether they needed transportation to a spastic clinic or the funds for the removal of tonsils or the fitting of glasses. Persons who wish to contribute to the Easter Seal drive may mail their check to Mrs. James T. Brooks, 606 Johnson.

## LOOKING 'EM OVER

Pat Stacey, straw boss of the local baseball spread, expects to obtain the services of either Al Valdes or Manny Junco soon to bolster his catching staff.

Big Spring and Sweetwater had at it earlier in the week, playing two innings before a dust storm forced the principals to cover.

Valdes was with the Steeds in 1948, after spending the 1948 campaign with the Havana team of the Florida International league.

Luis Gonzales is apt to toe the slab for the locals, at least for the first three innings.

The Central association, which would have been a Class C outfit, won't operate this year.

## Jayhawks Idle This Weekend

Howard County Junior college's Jayhawk baseball team will be idle until Wednesday due to the Easter holiday.

According to the story, excavation has about been completed and the life-base for the playing field will begin soon.

## Cosden Loses To T & P Nine

Robert Hatcher and D. D. Douglas combined to pitch the T & P Railroaders to an 8-3 softball victory over the Cosden Oilers in a practice game played at the city park Thursday night.

Now nobody knows which way to jump. X-rays showed nothing wrong with the arm. Newhouse isn't worried. He thinks he'll be all right with a little rest.

LUXURY IN NEW FRAZER—Luxurious styling and passenger comfort characterize the 1951 Frazer Manhattan models now being shown. The line is on display at Dean Motor Company, 1205 East Third street. The new Frazer series is marked by aerodynamic styling. Hydra-Matic or overdrive is offered as extra equipment.

**AT DEAN MOTOR CO.**

## New Frazer Line Being Shown Here

The new 1951 Frazer line of automobiles has been introduced to the public, and new models are now on display at the local dealer's, Dean Motor company, 1205 East Third street.

The new series is the "hand-crafted" Frazer luxury line, which embraces five custom body styles in the medium and upper medium price classes. They supplement the popular-priced 1951 Kaisers and the as yet un-named low-priced model.

With a long 123-inch wheelbase, the 1951 Frazer models feature new aerodynamic styling with a European note evident in the elevation of the rear fenders, which "hop up" above the waist line of the car.

Marked throughout by custom styling features, the eye-appeal of the new Frazer line is keyed by a heavily chromed wind tunnel grille with two airfoil center vanes which house the parking lights in their wing-tips.

Fluted "speed lines" strengthen the swept-back front fenders and are repeated in the rear fenders, which are crowned with oversize tail lamps at the peak of the fender tail lamps with columnating lens and built-in reflectors. Placement of the massive lamps at the peak of the fenders defines the car from the side as well as from the rear in night driving.

The five body styles include a four-door sedan and Vagabond "utility" model in the Frazer Standard line, with a four-door sedan, convertible and "hardtop" in the Manhattan series. The "hardtop" sports model resembles a convertible in detail, even to a colorful sheath of weatherproof nylon which covers the rigid ribbed steel roof.

The Frazer is offered in all models with the powerful new K-F high-compression "Supersonic" engine. Hydra-Matic transmission and overdrive are available as optional equipment.

SINGAPORE (AP)—The pro-Kuomintang "Chung Shing Jit pao" has received ten warning letters some of them containing "death warnings" against publishing anti-Communist news, Tan Kok Chor a director said. Then someone tossed a hand grenade in the newspaper's office, but it failed to explode. Singapore police are still looking for the grenade-thrower.

## Navy Sub Service Will Observe Its 50th Anniversary Tuesday

NORFOLK, Va., April 7. (AP)—The submarine service of the United States Navy will observe its 50th anniversary next Tuesday, at a time when:

(1) The submersible, a top strategic trump card, is influencing decisions at political conference tables.

(2) The "silent service" is getting top attention in our Navy's planning rooms.

And the submarine service, Atlantic fleet headquarters said today, is marking its anniversary "by eyeing a past that saw it break the back of an enemy power's navy and by girding for the potent future Navy chiefs see for it."

On April 11, 1900, migrant Irish Schoolmaster John Holland became the first pioneer in submarine development to see his craft accepted by the Navy. Forerunner of today's submersible, its 54-foot hull displaced only 74 tons.

Submarine squadrons, nested alongside mother ships at Atlantic and Pacific bases, will observe the service's golden jubilee by preparing for coming war games.

Submarine and anti-submarine teams are pitted against one another in a race for command of the sea. Used as elusive undersea prowlers to polish up "our own submarine stalking tactics, a growing number of our boats are streamlined, high speed 'guppies' of great submerged endurance—ultra hard to defeat," fleet headquarters explained.

"This changing of an always tough game of hide and seek into a needle in the haystack affair, it added, "Has caused much head scratching among the Navy's scientists and tacticians who must reckon with the growing Russian underwater fleet, which has similar subs."

"Numbering 75 active boats, our service is less than a third as large as the Soviet's, however."

Submarines, by showing themselves able to launch guided missiles, have become a threat to land targets as well as to sea commerce.

Development of atomic propulsion, which naval experts say would mean virtually unlimited endurance for submarines, is now being pushed. Also under study is an improved diesel engine that breathes its own exhaust gases.

Fleet spokesmen said the Navy, "though hard pressed for funds... has given the near desperate search for a means to checkmate any potential foreign sub menace to our shores its top priority stamp."

A hint that a solution is near came recently from Rear Adm. C. B. Momsen, who masterminded the Navy's counter submarine program.

Yet, testing their weapons in Caribbean sea exercises last month, the surface fleet was dismayed to find the German-perfected snorkel type submarine still had a decided edge on the score sheet.

"Enemy" undersea forays took a heavy theoretical toll of warships, but surface hunters declared such maneuvers were more than a box score proposition.

"Though the manpower of the United States' wartime submarine force totaled less than two per cent of the entire Navy's manpower, it sat on Japan's doorstep, whittled down her navy and cut her ocean supply lines by accounting for more than half of all her merchant ship losses.

America's submarine arm, naval analysts say, is on the threshold of its second great era.

## Truman's Employment Insurance Proposals Get Mixed Reception

WASHINGTON, April 7. (AP)—President Truman got a mixed and uncertain reception on Capitol Hill today for his new proposal to (1) blanket 6,000,000 more workers under employment insurance and (2) pay bigger benefits to the jobless for a longer time.

Mr. Truman cited an average of nearly 4,500,000 unemployed this year and said prompt action is urgent.

Democratic leaders were not enthusiastic at the prospect of putting the plan through Congress this year, however, and some Republicans signaled that they are ready to do battle against it.

In a special message to Congress from Key West, Fla., the President asked:

1. A \$30-a-week nationwide minimum in jobless pay, plus additional money for dependents, with these payments forthcoming for each unemployed person, if needed, for 28 weeks. The various states now determine the size and duration of payments. Benefits vary by states from \$15 to \$27, and duration of benefits runs from 12 weeks in some states to 26 in others.

2. That the taxes on employers be increased to carry the enlarged program the employer now pays the tax on the first \$3,000 of an individual worker's pay. Mr. Truman proposes to tax the employer on the first \$4,500 instead. The tax ranges up to 3 per cent.

The 6,000,000 new workers blanketed under the program, if it is approved, would bring the total of
