That self-confidence is necessary to success has been shown from year to year. Placing each on a companionable basis in school by the possession of a Watch, LaValiere, Ring or other article so necessary now-a-days, aids in establishing that confidence and success.

LARGEST ATTENDANCE EVER HAD AT ENCAMPMENT.

We visited the Encampment at Christoval Sunday and heard Rev. Truett at the Sunday morning service, and he truly a great preacher. Those who are at the Encampment say that more people have attended this year than any previous year during the eleven years of its existence.

At the Sunday morning service a collection was taken for improving the grounds and conveniences of the Encampment and \$4,615.00 was subscribed without counting the hat collection, and some other to be seen. The officers of the Encampment expect to enlarge the tabernacle before another year, they have bought additional grounds and will build additional buildings.

According to reports from the Encampment and from our own observance the present Encampment has been the most successful ever held at Christoval, Rev. Truett is a good speaker and preaches the plain truths, in a simple way that anyone may understand.

TRUCK BILL GOES TO SENATE.

Friday the Johnson Truck bill passed the House and now goes to the Senate.

VACCINATE YOUR CALVES.

Dear Sir:

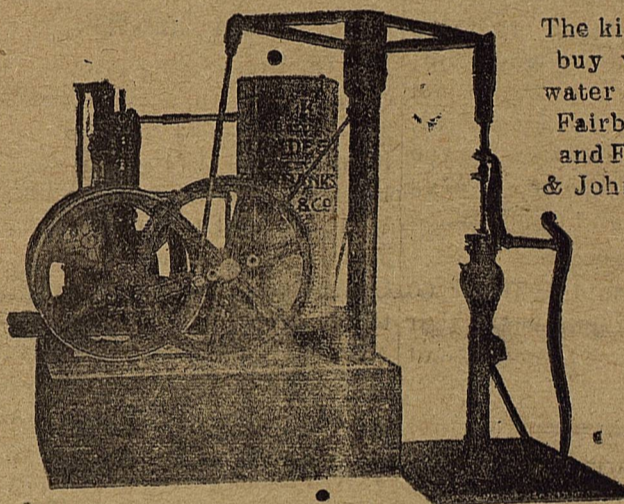

I am again handling Purity Blackleg Vaccine and would be glad to furnish you what you need. You can feel sure that it is always fresh as it is kept in the vault and gets to you in first class condition.

We used Purity last year on 6750 calves and so far as we know there was not a single death from blackleg in the number vaccinated. It only takes one dose to immune your calves for life, so why take any risk in waiting until they begin to die.

This is the third year I have used Purity and I know it to be an absolute preventative.

Let us serve you,
Respectfully,

Friday August 19.

The time has come when it behoves the most of us to take care of what we make.

Let us never forget that God made home among the first things that He created. Before commerce and trade, laws and statutes, thrones and altars, there were men and women, fathers and mothers, brothers and sisters, lovers and friends, heartstones and homes.

"The world is God's worship; the raw materials are his; the ideals and patterns are his. The task is ours, to do with the brain he has given and the life he has created, some worthy helpful work for the services of Man and the glory of God."

The Play "St. Elmo" that was given in June, by home talent, will be given again at the School Auditorium next Tuesday night, the proceeds to be given to the Cemetery Association. Everybody should attend this play.

MINISTER DISCUSSES HIS WIFE'S TROUBLE

Rev. A. E. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says:

"After seeing what Tanlac has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen anything give such prompt result. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown.

"I frequently sought medical advice but Tanlac is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

Tanlac is sold in Eldorado by L. M. Hoover. (Adv.)

Grandpa Bates is a familiar character in our midst and is held in the highest esteem by every one who knows him, his life has been a guide and blessing to many.

The Story of Our States

By JONATHAN BRACE
XXX.—WISCONSIN

THE many cities in Wisconsin with French names show the French influence in its early settlement. The first white man to penetrate this region was Jean Nicollet, who was sent out in 1634 by Champlain to open trade with the Indians. He landed at Green Bay and probably traversed the country to Chicago. Fur traders and missionaries followed and the latter built a mission where Ashland now stands. This was the first church erected in the state and around it sprang up the first permanent settlement. Joliet and Father Marquette descended the Wisconsin river, and La Salle explored a great deal of Wisconsin before he took his famous trip down the Mississippi. Among the fur traders to come to Wisconsin shores was Daniel du Lhut, after whom the city of Duluth, Minn., was named.

During the Revolution Wisconsin remained loyal to the British and though Wisconsin became a part of the United States by the Treaty of Paris in 1783, it was not until 1816 that federal troops really established authority there. Indian uprisings continued for some time ending only with the Black Hawk war in 1832. Then followed extensive immigration from the New England States.

Wisconsin had formed a part of the Northwest territory until 1800, when it became a part of Michigan territory, under which jurisdiction it remained until 1836, with the exception of nine years, when it was considered a part of Illinois territory. With the admission of Michigan as a state, the Wisconsin territory was created, which included also the present states of Iowa and Minnesota and portions of North and South Dakota.

In 1848 Wisconsin was taken into the Union as the thirtieth state. Its area is 56,066 square miles and it has thirteen electoral votes for president.

The state is named after the Wisconsin river. This is an Ojibwa phrase which means "gathering waters." It is sometimes called the Badger State.

The Story of Our States

By JONATHAN BRACE
XXIX.—IOWA

THE State of Iowa was originally occupied by the Iowa Indians. The actual meaning of the word has been interpreted in several ways. Some say it means "beautiful land," but the more likely derivation is the Algonquin word "ajawa" which means "across" or "beyond." This was probably applied to this tribe of Indians by the Illinois tribes who were hostile to them, and resided on the eastern side of the Mississippi river. The early white visitors to this region included Marquette and Joliet, who landed here on their explorations of the Mississippi in 1673.

The first settlement was made by a French Canadian named Julian Dubuque. He obtained in 1783 a large grant of land from the Indians, where the city which was named after him now stands. Here he flourished, mining lead and trading with the Indians, until his death in 1810, when this settlement was given up.

With the acquisition of the Louisiana Purchase in 1803, Iowa, which was a part of this huge territory, came into the hands of the United States from France. At first Iowa was a part of the Louisiana territory, then of Missouri territory. Later it formed a portion of Michigan territory and then of Wisconsin territory. In 1838, however, it attained a distinct individuality when it was formed into the Iowa territory.

Pioneers soon came in large numbers and about 1832 a substantial settlement was made near Burlington, and Dubuque was founded in 1833. The population grew so rapidly that in 1846 Iowa was admitted as the twenty-ninth state of the Union. Its area is 56,147 square miles and it has thirteen presidential electoral votes.

Iowa is familiarly called the Hawkeye State.
