One of the parties wounded in the Ku Kluck parade at Lo rena, is dead, and gave out the statement before death that he kn :w who his assailant was.

The grandjury is to investigate and we guess will find out whether the Sheriff has a right to prevent a perceful parade where no violation of the law is anticipated, or in other words have a company of people a right to parade a public thoroughfare with masks on? Was the Ku Klucks violating the law when attackted by the officers of the law? The test has come.

Our idea is that the man committed suicide when he attacked the Ku Klucks.

DISTORTED NAMES

667 HAD a letter from Marie Dusenberry this morning," announced Mrs. Jamesworthy, "and she hints that she would like to come and stay with

worthy. "So long as I am master of this house and my word is law, no American woman who calls herself Marie is going to be welcome at our groaning board. There are some affectations, Mrs. James worthy, which give me a horizontal pain in

my shoulderblade, and the worst of them is this thing of givng foreign spelling and pronunciation to our home grown names. There isn't a finer or statelier name in the city directory than Mary. The most distinguished woman this world ever say had that name, and it was good enough

"Any woman who tries to rearrange such a name as that has something wrong with her intellect, and I'd be afraid to have her under my roof. At any moment she might become a gibbering maniac

"When I was young all the good old fashioned names were in evidence everywhere. The woods were full of Elizabeths and Dorcases and Matildas. The women who had such names were proud of them, and never monkeyed with them. Had they done so, they'd have been cast into outer darkness by polite society. Just today 1 was glancing over the newspaper and saw some mention of a woman who calls herself Elyzabeth. Now, I wonder what that 'y' is doing there. Sane people don't spell Elizabeth with a 'y and in the grand old days the people wouldn't have stood for such an in novation. But in these modern times all the institutions of our fathers and devotes the best years of her life to seperators—between the plates. overhauling it, so it will look like something escaped from a feeble-minded institution.

"There is no law to prevent women from maltreating their names, so we can't rebuke them by process of warrant, but we can at least set our faces against the fool custom and close our doors to the guilty parties. I am a man of hospitable instincts, and would welcome to my abode the veriest beggar or social outcast, but no Marie Kathryn or Mae will ever enter this house while I have strength to resist. When I see them coming I'll sell my life as dearly as possible, Mrs. Jamesworthy.

"My sainted mother was the smoothest woman I ever knew. Taking her by and large, pro and con, she stacked up about as high as anyone. She never tried to cut a swath in social circles, for she had a profound contempt for everything that was trifling or superficial and she had a reverence for old ways and customs.

"Her front name was Isabella, and she wore it, without any frills or furbelows, as long as she lived. She never sent that name to the upholsterer or taxidermist to have it made over. She realized that famous queens and other great women wore that name and she was proud of it. You might have argued her into having her hair shingled or her front teeth pulled out but if you had suggested rearranging her name she'd have thought your proper place was the booby hatch. Her name was a treasured possession, an heirloom more precious than the fam-

"The name Isabella lends itself to mutilation and transposition more than any other. Modern women, blessed with that magnificent name, can't rest until they have telescoped it, so we have Isabels and Isbells and Ysobels and half a dozen other variants, each being more idiotic than the others. Whenever I think of the way my mother hung on to Isabella I feel a new respect and admiration for that grand old woman, and I wish she were here today, to make the round of the Chau tauquas, and point out to young women their duties and privileges.
