Mr. and Mrs. Wright Parents of A Son Born Dec. 13

Mr. and Mrs. Frank Wright of San Antonio are the parents of a son born Dec. 13. The infant has been named Frank Edward and he weighed 7 pounds and 3 oz.

Mrs. Wright is the former Elouise Whitten and grandparents are B. A. Whitten, Mr. and Mrs. Wright of Edinburgh and J. A. Whitten is the great grandmother.

What You Buy With WAR BONDS

Refrigerators are out for the duration. Manufacturers have now tooled their plants for production of war materials. Common-sense-folk, however, are saving now, not spending, building up a fund for purchase of refrigerators and other domestic goods through investment in U. S. Bonds.

Money put into War Bonds will bring you back \$4 for \$3 security. So start saving for domestic needs when you will be permitted to buy them. Join the Savings Plan at your office and let's all "Top that."

U. S. Treasury Department

Open Letter To Schleicher County Tire Users

The undersigned tire dealers, filling station operators, and garages desire to extend the people of Schleicher County an expression of appreciation for the business accorded us the past year and to assure you that we shall make every effort within our power to serve you acceptably in 1943.

Since the rationing of tires went into effect last January, naturally our volume of business has been cut materially, and since gasoline rationing became a reality, we have experienced further reductions, even though the world, red tape, and detail of doing what little business that is left for us has greatly increased.

We, and each of us are patriotic, loyal American citizens, willing and ready to make whatever sacrifice that may be required of us to carry out all government programs and regulations, and to do anything else which will help in prosecuting the war to the quickest successful conclusion.

The most of all of us have been appointed by the Government as official tire inspectors and we pledge ourselves to carry out those duties faithfully and punctually. Since December, 1st, new responsibilities are placed on our shoulders in connection with the tire program, and we are glad to contribute our best to whatever it takes to carry out those obligations.

For making regular or periodic inspection of tires on motor vehicles, the Government allows us to make a small charge for the service, but for inspecting tires for replacement purposes, we have never made a charge, and do not expect to in the future. Each of us has made every effort in the face of adverse circumstances and curtailed business to maintain the kind of service the motor car operator has a right to expect, and so long as it is in our power and financial ability to do so, we expect to continue to serve the public acceptably.

We are keeping stocks of tires on hand in Eldorado commensurate with this County's quota of tires, and we want the public to know that we appreciate the business accorded us on the limited number of tires and tubes rationed in Schleicher County the past year.

To those tire users who have availed themselves of our inspection service and bought tires from mail order houses and other dealers outside of Eldorado, we have no criticism, but we want them to know too that we would appreciate their business here at home, and we pledge to do anything we can to give them good service and good merchandise. Therefore, to those good people of Schleicher County who have given us their business the past year, we say thank you, and to those people who have given us their inspection business and bought their tires elsewhere, we wish you too everything good also and invite you to do business with us in 1943.

Yours truly,

Keno Ogden

SOMETHING UP HIS SLEEVE?

Neill Dickens Receives Injuries In Fall

Neill Dickens, eleven year old son of Mr. and Mrs. Reuben Dickens, suffered a serious fracture of the right elbow when he fell from a barn while playing on the George Dickens' farm, last Friday. He was carried to San Angelo where the broken bone was set, and he is recovering satisfactorily at his home here.

New "Doodlebug" Crew In Eldorado

A new "Doodlebug" crew here now operating in Schleicher County.

The crew is working for the Standard Oil Co. of Texas, and the contractor is R. H. Andrews. They are using the magnetometer in their operations.

The crew came here from Ozona.

Cotton Crop Insurance Forms Received by AAA

The Schleicher County A.A.A. office has received forms on which cotton producers may make applications for cotton crop insurance on their 1943 crop, according to Mrs. Flossie Whitaker A.A.A. Administrative Officer. This all coverage insurance may be applied for by any cotton farmer and goes into effect at the time the cotton farmer and goes into effect at the time the cotton is planted, and protects the cotton until it is weighed at the gin. The closing date for accepting applications for 1943 cotton crop insurance is March 15th, 1943, and applications must be made before cotton is planted.

Mrs. Whitaker also announced that any farm in the county which does not now have a cotton acreage to the farm must make application for an acreage allotment before January 31st, 1943. Notices of allotments and yields have been mailed to all farms which now have cotton acreage allotments. In most instances the allotments in Schleicher county are the same for 1943 as in 1942. Any farmer who wishes to plant cotton in 1943 and whose farm does not have an allotment must make application at the A.A.A. office next door to the post office.

County Wide Mobilization Rally January 12

In connection with Farm Mobilization Day which has been designated for Jan. 12th by President Roosevelt, the different farm organizations, farm leaders and various agriculture agencies in Schleicher County have planned a county wide mobilization Rally to be held here at the Theater building at 2:30 P. M., January 12th. The purpose of this is for a planning of greater production and unity.

The following program has been planned:

- Our Heritage We Guard (picture show)
 - Soil Conservation.
 - War Production Loans.
 - Texas Production Credit.
 - The Garden and the Home.
 - Appeal for Greater Production and Unity.
 - The Texas Farm Youth.
 - Responsive Address — F. B. Gunn.
 - 1943 A.A.A. Farm Program.
 - The Lion Club Effort — H. T. Finley.
- Every one is urged to attend this Rally.

Tires Must Be Inspected On Commercial Vehicles

Owners of commercial motor vehicles were reminded today that their first tire inspections under Certificates of War Necessity must be made within the next four days. John G. Ross San Antonio, district manager for port, urged that operators not ODT's division of motor transport wait until the last minute for a rush on approved inspectors, but begin now to get the inspections.

A commercial vehicle may not lawfully be operated after January 15 without a Certificate of War Necessity and an endorsement by an approved tire inspector on the Certificate, Mr. Ross said. After the first inspection, vehicles must be presented for inspection every 60 days or every 5,000 miles, whichever occurs first.

Purpose of the periodic tire inspection is to insure proper tire conservation. Inspectors have been designated by the OPA War Price and Rationing Boards and sworn in as Federal Government agents for this purpose.

If an inspector finds that a tire needs repairing to insure maximum service, he will withhold endorsement of the Certificate of War Necessity or record form covering operations of the vehicle on which the tire is mounted, until the repairing has been done. If he finds any mechanical condition causing undue tire wear he likewise will recommend necessary repairs and will not sign the operator's Certificate until they have been made.

Without removing tires, the inspector will check for correct air pressure in tires, bent rims and out of true wheels, cuts or breaks in treads or sidewalls and evidences of wear from badly aligned wheels, faulty brakes, unbalanced wheels, camber malalignment and excessive wear of kingpins, bushings and wheel bearings. Inspectors may remove tires from rims for further inspection if not satisfied with inspection on the rim.

WITH THE STARS AND STRIPES

Mr. and Mrs. W. T. Whitten have received notice that their son Pvt. Morris Whitten is now "somewhere in Africa."

Mr. and Mrs. Marion Wade received a letter from their son, Banning (Bunk) Wade, who is also in Africa.

Corp. Horace Craig from Los Angeles, Calif., and Corp. Lawrence Craig from Fort Sam Houston, have been visiting with their mother, Mrs. Lillie Craig.

Mrs. Edwin Sharp has written relatives here that she has received word that her brother, Bill Herron has been wounded in action somewhere in foreign service.

Bill formerly resided and attended school here before moving with his parents to San Angelo.

Mr. and Mrs. Melvin Harris and son Gerald, have been visiting here with friends and relatives.

Melvin has recently returned from England where he served with the overseas construction regiment. Mrs. Harris is employed at Kelly Field.

Cadet and Mrs. Ben L. Isaacs, Jr. from Ft. Stockton, spent Christmas here with their parents, Mr. and Mrs. Jeff Enochs and Mr. and Mrs. Ben L. Isaacs, Sr.

Robert Lee Anderson from Camp Crowder, Mo., spent the holidays with his parents, Mr. and Mrs. Geo. Anderson.

Sgt. Harold Isaacs from Camp Bowie, Brownwood, spent Christmas with his parents, Mr. and Mrs. J. F. Isaacs.

Sam Smith, son of John I. Smith, who has been a navigator on a plane for several years and has been stationed in Chile, Ecuador, Peru and later in the Hawaiian Islands, is being transferred back to the States for advanced training, according to Tom Smith, who has heard from him through Charles Ratliff.

Charles wrote home that he met Sam in St. Louis at a railroad station there, and spent several hours with him. He is to be stationed in San Antonio for his advanced training.

Charles, son of Mr. and Mrs. J. L. Ratliff, has entered the radio division of the Air Corps, and is stationed at present at Scott Field, Ill.

Mrs. Joe Lawrence visited recently in Corpus Christi with her husband who is in the Maritime Service. Lawrence is stationed on a tanker, and was on short leave when Mrs. Lawrence visited him. His ship has already sailed for foreign service again.

Mrs. Glenn Russell writes from Providence, R. I. where she is having a wonderful time. However she reports that it is very cold there with the thermometer 14 degrees below zero.

First Class Seaman Wesley Davis McAlpine, son of Mr. and Mrs. W. G. McAlpine, who last summer drifted 33 days on a raft in the Caribbean, has been given a letter of commendation for outstanding performance of duty during enemy attacks, the Navy reported. He was among 11 seamen, members of armed guard crews on merchant vessels receiving the recognition.

The West Texan was Naval gunner aboard a merchant vessel sunk in the Caribbean on May 23. For 33 days he drifted on a life raft until rescued.

Wesley is well known here and friends will be glad to learn of the recent commendation. He is now on duty somewhere in the Southwest Pacific.

Pfc. Joe Griffin with the 329 M.P. Guard Co. at Jerome, Ark., is here for a visit with his parents, Mr. and Mrs. J. R. Griffin.

Hobson Ashmore from the SAAAF at San Angelo was visiting here recently with his parents, Mr. and Mrs. J. P. Ashmore.

As long as the war last there should be a continuous salvage program underway. There has been a tence for many to feel that arter the recnt scrap iron and rubber drive was made that all the salvagisg that could be done had been done. Such is not the case. There is still much sc-rap over the country and though there may be only a few pounds on each farm or ranch the comb-ine total would be a great contro-bution. To use the scrap iron that has been salvaged they must have gun powder and it has been esti-mated that if every house wife in the United States would save and turn in four ounces of waste fat or grease it would be enough to make 13 million pounds of gun powder. The Salvaging of silk hose and other materials is extr-eamly necessary because silk is the only known material that can be used to pack the powder in when firrig the big cannons.

Farmers who are intrested in attending a night weilding and repair school should see or con-tact C. R. Reynolds, Ray Alexan-der, or A. E. Prugel.

Farmers should arrange now for their spring planting seed as there will definitely be a short-age of good seed.

With stricter rationing of foods to come soon every home should make plans to have a sizable Vic-

Payroll Savings Plan. At least 10% of your salary every pay-day. Not 6%, or 7% or 8% — but at least 10%. And more, if possible.

Many Americans who *ought* to be buying War Bonds through the Payroll Savings Plan every payday, *aren't*. They just haven't yet STOPPED TO THINK what it means to Johnny.

Don't be like that, lady. Invest your 10% with Uncle Sam — payday after payday. You'll get a big kick out of it. Knowing that you, personally, are sending him the guns, planes, bombs, tanks — whatever it is he needs!

WHAT YOU SHOULD DO

If you are . . .

1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wher-ever bonds are sold. They will be glad to help you start a plan of your own.

try garden this spring.

A meeting will be held in the district court room on January 25 to explain and assist farmers and ranchers in filling out their income tax reports. The Victory tax will also be explained.

Eleven farmers will have deo-mstrations, totaling some 50 acre of new hybrid corn which the

Texas Experiment Stations has recently developed.

SOCIETY CLUBS PERSONALS

Ruby DeLong Mathews, Ralph Fowler Wed

A romance begun in December 1935, culminated in the wedding in Amarillo on the evening of Dec. 19 of Ruby DeLong Mathews and Ralph Fowler, it has been announced. The marriage vows were spoken at the parsonage of the Polk Street Methodist Church before Dr. E. G. Hamlett, minister.

The bride was born in San Angelo and reared on a ranch near Eldorado. She attended high school at Eldorado and later was graduated from the Texas State College at Denton. After teaching school four years, Mrs. Mathews was employed as a Home Economist with the Farm Security Administration, United States Dept. of Agriculture, with headquarters at Houston. From Houston Mrs. Mathews was transferred to Lamesa, and thence to Amarillo late in 1936.

Mr. Fowler was born in Buffalo, New York and reared in Denver, Col. He came to Amarillo late in 1935 as an employee of the Dept. of Agriculture. For the past 5 years he has been chief accountant for the Producers Grain Company, with headquarters in Amarillo.

Mrs. Fowler is the daughter of Mr. and Mrs. D. E. DeLong of Eldorado.

Cub Scouts Hold Regular Meeting

The Cub Scouts held their regular pack meeting Tuesday night in the Scout Lodge.

Cubmaster E. B. McMillan presided during the business session. Reorganization of the pack was discussed and tentative plans were made for an addition to be added to the Lodge.

Handmade wooden serving trays which the cubs in Den no. 1 had made, were presented by the Cubs to their mothers for Christmas presents.

Mrs. W. M. Davis and Reuben Dickens, hostesses, served sandwiches, cookies and cocoa and candy Santa Clauses were favors.

Those present were: Cubs, Edwin Jackson, George Oschner, George Lee Graft, Bobo Gunn, Tart Mund, Kumler Mund, Lewis Little, Darrell Graves, Earl Dean Clark, Karl Jonas, Wayne Davis, Sammy Calcote, Marion Wade, Vaughn Baker; Scouts, Howard Parker and Walter Jones. Parents, Messers and Mms. Buster Gunn, Edwin Jackson, Arthur McDonald, Ref. and Mrs. B. A. Jonas, Mms. Davis, Ed Willoughby, Dickens, H. O. Graft, Clyde Graves, Charley Mund, A. J. Clark, Oschner, Marion Wade, Miss Nora Mund, Jerry Pennington, Verna Lee Berry, Jonnie Lee and Carol Lynn Dickens, Arnold Gene Clark, David Jonas and Mr. McMillan.

Miss Beatrice Wright, daughter of Mr. and Mrs. A. T. Wright, left recently for Long Beach, Calif. where she is to be employed.

Mrs. D. C. Hill Honored by Federation

To the Editor
Eldorado Success
Dear Mr. Editor:

It was my intention to write to you earlier, to tell you of an outstanding honor that was bestowed upon my mother, Mrs. D. C. Hill, by the Board of Director of the Texas Federation of Women's Clubs when they met in their last assembly during my administration as the state president.

By unanimous vote Mrs. Hill was made an honorary member of that distinguished group of women, an honor that has been given to very few people. This action was more of a recognition of her worth and merit as a pioneer Texas clubwoman than as a gesture of courtesy and good will to me, though of course such consideration was in part responsible for this action without my knowledge.

It was a complete surprise to me that the Board contemplated such action, in fact, I was surprised that they could lay their plans for this action without my knowledge. The surprise element made the gesture all the more beautiful in my opinion.

This action by the Board of Directors means that Mrs. Hill has the privilege of attendance at the meetings of the Board and is entitled to all the privileges of membership except that of voting.

I think the Woman's Club of Eldorado will want to know that one of their members has been so honored, for it is also an honor to the entire club Mrs. Hill may have neglected to tell them about the incident, the full accounts of it were carried in the Austin papers at the time. The meeting was in November, however I have not noticed an account of it in the Success and I do hope you will consider it a newsworthy item and will carry a story about it.

You may want to know that since my term of office has ended as president I have become the Texas Director to the General Federation of Women's Clubs. More importantly however, I have accepted an assignment from the Treasury Department of the Federal Government to work as a collar a year woman in charge of the Texas Schools At War Program. Doubtless my work will bring me to that area and I shall have an opportunity for a visit with my old friends in Eldorado.

Sincerely yours,
Lucile Hill Walker

Bailey Ranch 4-H Club Meets

The girl's 4 H Club met at the Bailey Ranch School Dec. 18, with Miss Mary Lewis. The President called the house to order. The Sec. read the minutes of the last meeting. They were approved as read. Then we made our 1942 year books. There were 6 present. The President dismissed the house.

Mrs. Christian Hostess To Wednesday Club

Mrs. J. M. Christian was hostess to the Wednesday Bridge Club in her home Wednesday afternoon.

High prize went to Mrs. Jimmy West, and bingo was won by Mrs. Lewis Ballew, who was also presented with the guest prize.

A salac plate was served to: Mms. G. C. Crosby, Leslie Baker, Carroll White, C. B. Brace, E. B. Keng, C. A. Reynolds, A. D. Richey, C. C. McLaughlin, Sam Oglesby, West, and Mrs. Ballew, a guest.

Mr. and Mrs. Dickens Entertain With Dinner

Mr. and Mrs. George Dickens had as their guests for New Year's dinner: Mrs. Vernon Baker and children, Buddy Wayne, Stevie and Jerry of San Angelo, Bob Calhoun of Christoval and Mr. and Mrs. Luke Stevens, Mr. and Mrs. Raymond Dickens and children, Georgia Ray, Wayne, Doris, John L. and Mignonne, Mr. and Mrs. Reuben Dickens and children, Neill, Jonnie Lee and Carol Lynn, and Jack Clark.

Mrs. Dollie Short of San Angelo, visited last Sunday with her parents Mr. and Mrs. George Dickens.

Old Fashioned Round Up Held On Campbell Ranch

An old fashioned round up was held recently on the Joab Campbell ranch, when the cattle were marked and branded. A crowd of young people from town enjoyed the occasion, and experienced all the thrills of a true Western cattle branding.

A dinner was held at noon in the home of Mr. and Mrs. Freeman Yardley, who reside on the ranch.

Enjoying the day were: Miss Elizabeth Ellen Hughes of Mertzon, Misses Mary Hoover and Katherine Moore. Miss John Alexander, Mr. and Mrs. Emil Prugel, Mr. and Mrs. Johnny Kirkpatrick, Mr. and Mrs. Campbell, Mr. and Mrs. Yardley and children George Williams and Wayne Estes.

Mr. and Mrs. Whitten Entertain With Dinner and 42 Party

Mr. and Mrs. W. T. Whitten and Mr. and Mrs. Leslie Baker entertained with a dinner and 42 party Friday night.

Those present were Mr. and Mrs. Wayne Bennett and children, Waynell and Margaret Anne, and Mrs. Justie Satterfield from San Angelo, Messrs. and Mmes. C. C. McLaughlin, D. C. Royster, Carol White, Dick Bearce, Joe Hext, Jack Shugart, N. M. Patterson, Danell Baker, Carolyn John from Dallas, and Marselaine Patterson.

COUGHS

Due To Colds or Bronchial Irritation

Here's good news for the people of the U. S. A. Canada's greatest cough medicine is now being made and sold right here, and if you have any doubt about what to take this winter for the common cough or bronchial irritation get a bottle of Buckley's CANADIOL Mixture. You won't be disappointed—it's different from anything else you ever used—one little sip and you get instant action. Only 45c—all druggists. Satisfaction or money back.

Land is 700 Miles Away . . .

BUT WHICH WAY?

THE WAR is getting closer to home. West Texas papers now are frequently carrying stories about local boys . . . killed or missing in action . . . or found after many days afloat in a rubber raft . . . undergoing indescribable hardships and suffering.

West Texas boys, unused to bottomless, endless stretches of ocean water, are learning to read the sun, the stars, the wind, and the drift in order to survive.

They feel a terrible need of training and experience to give them a better chance of reaching land—maybe 700 miles away.

Whatever the job—be it navigating a rubber raft or operating a light and power system—experience and training are needed to successfully cope with the technical problems involved.

Because the men and women who run this company had that training and experience over many long years, you've undergone no inconvenience resulting from a shortage of light or power.

The war created new and greater needs for electricity. But the problems of supplying it were not new to us. Our plant engineers, linemen, servicemen already had the know-how.

This is one of the advantages of free enterprise and business management as opposed to political control and bureaucratic mismanagement. You've got to know how to run a power plant . . . or navigate a rubber boat. There's no time or place for inexperience!

for 1943!**

Brother... quit being so human!

★ Remember 1933 — when times were tough?

Maybe you didn't have a job. Maybe you and your wife and kids didn't eat too well — dress too well — have too much fun. Maybe you swore then that if things were ever different, you'd make up for it.

Chances are, today, things are different. You've got a job. You're getting good money. And you'd naturally like to have a little fun with it. You'd like to buy some of the "extras" that you and your family never had during the hard times.

It's only human to feel that way. But right now — we've got to quit being so human!

Right now, over in England, a bunch of fellows are getting ready to tackle one of the bloodiest jobs ever given an Army. In the Pacific, another bunch is playing hide-and-seek with an enemy that thinks the right treatment for a wounded prisoner is a bayonet through the guts. Others are sweating in Africa — still others are on cold, dreary, fog-bound islands near the Bering Sea.

That's their job.

But it's our job to give them the tools they need to win — by buying War Bonds! And so far, we aren't doing our full job!

Right now, there are still people who ought to be buying War Bonds through the Payroll Savings Plan — but aren't.

While plenty of people in the Plan are investing more than the 10% Uncle Sam needs, a lot are putting aside less than they can.

The fellows who aren't yet in the Plan — or, being in, haven't yet hit their 10% — aren't unpatriotic, or 5th Columnists, or anything like that. They're just human. They just haven't realized their Country's bitter, crying need — now! They haven't realized that Americans have been licked in battle for lack of planes, ships, tanks and bullets — tools that the money we'd like to spend for fun has got to buy!

Uncle Sam hopes that every single one of us will realize it — by January 1st, 1943. By that date, everybody on a payroll should be on a Payroll Savings Plan — and we'll "Top That 10% by New Year's."

So, if you aren't setting aside your 10%, go on in and tell 'em you want to raise your sights. Not to 6%, or 7% or 8% — but at least 10%. If you can put in more than 10% — do it. If you aren't yet in on the Payroll Savings Plan — sign up tomorrow!

★ ★ ★

WHAT YOU SHOULD DO:

If you are...

1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan — boost that 10% if you can.
2. Working in a plant where the Plan is installed, but haven't signed up yet — sign up tomorrow.
3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager — and see if it can't be installed right away. The local bank will be glad to help.
4. Unable to get in on the Payroll Savings Plan, for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

Quotas Received For 1943 On Farm Machinery

The Schleicher County Farm Machinery Rationing Committee has received quotas of new farm machinery and equipment for the year 1943, according to Joe B. Edens, chairman of the committee. These quotas are very low on some items of essential machinery were not allotted to this county.

Applications for machinery will be accepted at the A.A.A. office but Mr. Edens pointed out that if it is at all possible for a producer to get his farming job done with machinery already on hand, then the committee would not authorize his purchase of new machinery, and in some instances, where machinery is not available applications will not be accepted.

Questionnaires are being mailed to all producers concerning their needs in farm machinery so the local committee may make appeal for machinery which was not allotted to Schleicher county. However, farmers are asked not to designate need of machinery which they can do without.

Miss Annie Herbert returned Wednesday from Tampa, Fla. where she spent the Christmas holidays with a sister. She was accompanied to Florida by Mrs. D. E. De Long who remained for an extended visit with a daughter, Mrs. Julian Morehouse at Orange Park, Fla.

Mrs. Morehouse's husband, Ensign Morehouse, who has been an instructor in the Naval Air Corps, expects to be transferred for foreign service in February.

What You Buy With WAR BONDS

The ordinary machine gun is too cumbersome for our Marines, especially for parachute troops. So the Marines have adopted new models of the Reising sub-machine gun, a .45-caliber weapon.

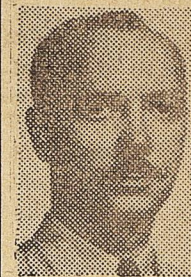

The new gun used by the paratroops is a compact model with a pistol grip and a steel-frame stock which folds out of the way when not in use. You can help buy these for our Boys in the Solomons and elsewhere with your purchase of War Bonds. Join the Payroll Savings Plan and let's "Top that ten percent." U. S. Treasury Department

FARM TRACTORS IN WARTIME

Simple Adjustments Pep Up Tractors
(Third of a Series of Six Articles)

By A. P. Peck
Managing Editor, Scientific American

Last week's article told how the farmer can practice preventive maintenance on his tractor, thus effectively stopping trouble before it starts. But there is another side to tractor care also, a side that too often is neglected. Tractors are getting harder usage than ever these days, with the struggle to keep up with the increasing demand for agricultural products, and this hard usage causes engine parts to get out of adjustment more frequently than before. Usually, however, the changes are effected so gradually that they pass unnoticed until they become large enough to cause engine failure or a substantial reduction in power delivered by the tractor.

A. P. Peck.

Every farmer can take steps to prevent such failure or power losses, merely by making it a practice to tune up the engine regularly. First on the tune-up list should be the carburetor adjustment. This should always be done when the engine is thoroughly warmed up, and is operating on the belt at normal load. Simply turn down the needle valve until the engine misses and backfires. Then turn the valve back about a quarter of a turn until the engine runs smoothly. This is a correct position for most efficient operation.

Spark plugs are the next thing that should be looked at on regular tune-up occasions. They should all be removed and the insulators cleaned thoroughly, after which the gaps should be reset to the correct spacing and the plugs replaced snugly in their holes. Be sure, of course, that you are using the type of plug required by your tractor; when operating on gasoline the plugs should be of the cold type, while tractor engines burning kerosene or kerosene must be equipped with hot plugs.

The governor on your tractor is the device that keeps the engine operating at a constant speed which is most efficient for the work

to be done. With this device out of adjustment, the engine speed will vary and power loss will result. When tuning up the engine, check the engine speed with a speed counter on the belt pulley; if the speed is not what it should be, or varies considerably, the governor itself should be checked for wear and for reduced tension on the spring. This trouble, when encountered, should be repaired immediately in order to preserve maximum engine efficiency.

If the valves on your tractor engine are not working properly, there will be another loss of power. Make sure that the tappet clearance is not too small or too great, by checking with a feeler when the engine is at operating temperature. If the valves are held open by insufficient clearance, the valves and seats will be burned; if there is too much clearance, the valves will not open all the way and insufficient fuel will be drawn into the cylinders. In either case power will be lost, and in the first case the valves and seats will soon be badly damaged.

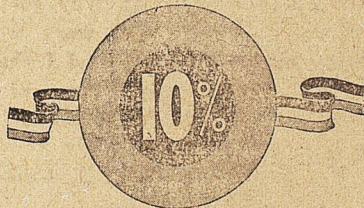

Last but by no means least is the question of ignition timing. This is a rather delicate job, and should only be attempted if you have available the complete instructions in the manufacturer's manual. If not, better have a service man do the work. In any event, however, you should always include a check of ignition wires and connections in your tune-up.

A recent survey showed that a large percentage of farm tractors are working below peak efficiency, some of them wasting as much as 20 percent of the fuel used, all for the want of a simple tune up, a job that can be quickly done in the manner outlined above.
