Season Tickets To Go On Sale August 1st

Season tickets for the 1974 football season will go on sale beginning August 1. The price will be \$8.75 for the five home varsity games. Persons who held reserve seats last year will have the opportunity to reeve the same seats if they do so before August 26. On this date, all seats will be available to the public.

Admission prices adopted by district 9-A for the 1974 season are \$1.75 for adults and 75c for students. Reserve seat tickets will be \$2.00.

To purchase or obtain information concerning season tickets, contact Robert Jay at the high school.

Oil News

LeClair Operating Co., Inc., Abilene, completed two Canyon sand gas discoveries in southwest Schleicher County, both of which had been drilled "tight," 12 1/2 miles west and slightly south of Eldorado, 5 1/2 miles northeast of the Turkey Roost (upper Pennsylvanian gas) field.

The No. 1 Mary Davis Coupe was finished for a calculated, absolute open flow of 980,000 cubic feet of gas per day, with gas-liquid ratio of 62,043-1. Gravity of the liquid was 62.2 degrees.

Production was through perforations at 6,912-7,114 feet, which had been fractured with 15,000 pounds of sand and 20,000 gallons of water. The Canyon sand was topped at 6,668 feet on kelly bushing elevation of 2,423 feet.

Drilled to 7,171 feet, with 4 1/2-inch casing set at 7,150 feet, it is plugged back to 7,118 feet.

Location is 660 feet from the south and 1,980 feet from the west lines of 1-GC&SF, Abst. 113.

The No. 2 Mary D. Coupe, 5/8 mile to the west, was finished for calculated, absolute open flow of 1,450,000 cubic feet of gas per day, with gas-liquid ratio of 23,612-1. Gravity of the liquid was 52.5 degrees.

Production was through perforations at 6,985-992 feet; 6,998-7,001 feet and 7,125-129 feet, which had been fractured with 20,000 gallons and 15,000 pounds of sand.

The Canyon sand was topped at 6,980 feet on kelly bushing elevation of 2,401 feet.

Drilled to 7,240 feet, with 4 1/2-inch casing set at 7,224 feet, it is plugged back to 7,203 feet.

Location is 660 feet from the south and 1,200 feet from the east line of s of 7-A-GC&SF, Abst. 153.

Nursing Home News

We have had a real active week this past week. Monday and Thursday we had Happy Hour. Tuesday and Friday we had Arts and Crafts. We have sold nearly all of our yarn animals that we made. Wednesday we played Bingo. Mr. Davis, Mrs. Nellie Christian and Mr. McGinnes each won two games. Gertrude Nixon also won a game. Our domino winners this week were Mr. Donaldson and Sam McGinnes.

We have two birthdays this coming week. Mrs. Della Graham and Mr. John Hawkins both have a birthday on July 30th. We hope you can come by and wish these residents a happy birthday.

Mrs. Georgia Springstun went out of town for a few days to visit her nieces Mrs. Gerald Nicks. John Hawkins went out Sunday afternoon on pass to his son & daughter-in-law's for supper, and Mrs. Nellie Christian went out for dinner Sunday to her granddaughter's home, Mrs. Dan McWhorter. All reported that they enjoyed their outings.

Mrs. Imogene Blasdel from San Angelo was here to see her father Mr. T. E. Donaldson. Mrs. Sally Christian visited her mother Mrs. Lizza McCalla. Mrs. Flossie Crawford enjoyed seeing her daughter Mrs. Stephens from San Angelo. Mr. and Mrs. Hugh Childress from Ozona were here to see Mrs. Della Graham. Mrs. Jane Browning and children of Brady were here visiting Waxie Mund.

Y'all come see us! —Ruthie Dacy A. D., Beulah Harris, rep.

Post Script

Last Wednesday after the Walter Cronkite news I left out after 7:00 p.m., and headed for the Cecil Williams country store.

For one thing I found a number of people had already read the Success and were out there with baskets preparing to gather their own supply of black-eyed peas. These included Louise Kuykendall and her mother and several others.

As usual I found Gertrude busy waiting on customers and affairs of the store, but she had a good little helper—a granddaughter about 13 years old—a very adaptable and attractive young girl who was making herself useful all over the store—helping grandma.

In the midst of various interruptions Gertrude told me to be sure and go in and see Cecil. With the girl leading the way, we went out of the store to the residence where I was directed to his bedroom. He was awake and after recognizing me he asked, "When are you gonna let it rain?" (There has been no rain out there.)

After other small talk I asked him if he slept all night. He answered, "Yeah, I sleep all night and nearly all day."

Cecil's bedroom was tastefully arranged; the pillows and bed covers attractively matched, and it looked to me that Cecil was dressed in brand new lounging pajamas.

He had returned from the hospital the previous Saturday. He is at home and from the care he is being given at home, he is more comfortable and better cared for than he would be in any hospital. I wish him God speed.

Returning to the store I settled with Gertrude for some three pounds of snapped black-eyed peas and a half pound of new Irish potatoes. Gertrude has other vegetables for sale including okra, and corn on the cob, as well as staple items provided in a country store.

Some 25 miles west of Eldorado the Country Store provides a convenient gathering place for residents of Reynolds county. I enjoy visiting there.

Capt. Thomson Moved To Venezuela

Mrs. Lillian Thomson notified friends here recently that she had moved her husband, Capt. Thad A. Thomson, to Caracas, Venezuela. They are currently living there with their son, Thad Thomson III.

Capt. Thomson sustained a stroke about the first of June and was confined in hospitals in the Washington, D. C. area including a time in Bethesda Naval Hospital. He also underwent surgery. He is being cared for in Venezuela by two nurses.

The Thomsons moved from here a few years ago to Vinson Hall, a condominium of retired Naval officers located at McLean, Virginia. They continued to live there until Capt. Thomson's recent stroke.

To Teach In Germany

Pam Love, daughter of Mr. and Mrs. Kenneth E. Love, has been selected for a position with the Department of Defense Overseas Dependents Schools beginning with the 1974-75 school year in Germany. The position is teacher of intermediate grades. The initial tour of duty will be two school years.

Miss Love will fly into the Rhein Main Airport near Frankfurt, and receive her exact teaching location from officials in Frankfurt. She will be leaving the middle of August.

Mrs. J. B. Montgomery has returned from a six weeks trip to Phoenix, Arizona, where she visited relatives and also saw the Grand Canyon.

PHYSICAL EXAMS FOR FOOTBALL BOYS ARE SCHEDULED IN MONTH OF AUGUST

Before leaving for the State Coaching School recently, Mike Quimby announced plans for physical examinations to be given boys who will be coming out for Jr. High and High School football.

Physical exams will be given high school boys Tuesday, August 6th, at 5:00 p.m. at the Band Hall. Physicals for junior high boys will be given Tuesday, August 13th, at 3:00 p.m. at the Band Hall. Coach Quimby will announce plans for summer football practice soon.

Higher Oil, Gas Prices Aid County Economy Commissioners Vote 5% Salary Hikes

Current higher prices for crude oil and natural gas produced in Schleicher County point to a significant jump in 1974 income for county land and royalty owners who last year received \$1.1 million as their share of the county's output, according to a study by Texas Mid-Continent Oil & Gas Association.

"With the average price of Texas crude oil now at about \$6.70 a barrel, compared with the 1973 average of \$3.84 a barrel, and with some newly discovered natural gas selling intrastate for more than \$1 per thousand cubic feet, the outlook for the economy of producing communities is encouraging if prices hold up," according to Sherman Hunt, Dallas, Association president.

"Should price rollback schemes and other tax-and-control proposals now under way in Congress be successful, current economic gains will evaporate," Hunt said.

The Association's study shows that crude oil and natural gas produced last year in Schleicher County was valued at \$9 million, ranking the county 114th in the state. Crude oil production of 1.3 million barrels was valued at \$5 million and 21.3 billion cubic feet of natural gas at \$4 million.

Statewide, crude oil prices for 1974 are estimated to be some 74% higher than 1973. This expectation has stimulated a revival of drilling in Texas, with well completions the first five months of 1974 at 4,013, a 19% jump over the same 1973 period.

From the county's 1973 output, the State of Texas collected \$228,998 in oil production taxes and \$303,091 from natural gas.

Also adding to the dollar flow in the county last year were these factors:

—Drilling activities, on which producers spent \$2.5 million in drilling 37 wells, \$771,210 of which was lost in 18 dry holes. Successful completions amounted to two oil wells and 17 gas wells.

—Operation of other oil and gas facilities, including two natural gasoline processing plants with 61.5 million cubic feet per day capacity.

—SCRATCH PADS for sale at the Eldorado Success office.

S. S. Man Here Today

Harold Tabor, social security representative for the San Angelo Social Security Office, has scheduled his July visit to Eldorado. He will be at the County Courthouse on Thursday, July 25th from 9:30 a.m. to 11:30 a.m. Anyone who wants to file a claim for benefits, get information, or transact other business with the Social Security Administration may contact him at this time.

Persons who are unable to meet with him are encouraged to call the office in San Angelo at 949-4608.

Completes 50 Years With Local Bank

LESLIE BAKER

On Wednesday, July 17th, Leslie L. Baker, president of the First National Bank here in Eldorado, observed 50 years of association with the firm.

He went to work at the First National Bank here on July 17th, 1924, and worked under direction of J. B. Christian who was then president.

Mr. Baker started in as bookkeeper and subsequently held all jobs in the bank and became president following the death of Ed Hill.

Last Wednesday morning the bank crew had a party for him and he received various gifts including a gold pen and pencil set.

PAR-TEE

The welcome mat is out for Tony and Fayla Cheatham and family. We hope to see them often on the course.

Saturday, July 27, is work day at the golf course. All members are urged to come out and help; 9:30 to 11:30 is designated as work time. Anyone that can pull crabgrass on the greens, please come and help.

There will be a special play at 1:30 p.m. A barbecued chicken supper at 7:00 p.m. will be served to all workers and players. This is an annual affair and we've always had lots of fun.

Ernestine Hext and Delbert Taylor played in the Big Lake Couples' Tournament Saturday and Sunday. They won third place in the first flight. We enjoyed the two days with all the nice people in Big Lake and friends from around the area.

Playing in other places that have a water problem makes us appreciate our fine fairways.

Eddie Kinser was hostess for the monthly auxiliary play day Thursday. Winning first prize was Ernestine Hext. Second place went to Gladys Mittel.

Dorothy Ratliff has been in the hospital. We hope she will soon be feeling better.

Happy Golfing! —Rep.

2 More Screwworm Cases Reported Here

Sam H. Henderson, 14 mi. E. on Menard Hwy. Cut on Horse. Albert J. Forlano, 6 mi. W. on Hwy. 29. (Scours) Sheep.

Mr. and Mrs. Billy Mares of Brownwood and Mr. and Mrs. Luther Wood of Hamilton spent Sunday visiting in the Clovis Taylor home.

Spotted Rains For Bailey Ranch Area

A. W. Keys was in town Wednesday of this week and proudly reported that over a recent two-day period his rain gauge showed 1.20 inches.

Parker Bros. ranch claimed 6-tenths and Mrs. Bob Faught reported .40 one day and .40 the next, but area nearby had much more.

Dick Preston on his ranch in the west part of the county reports 1.35 inch over two days.

Last Thursday night there was a brief sprinkle here in Eldorado.

WORK DAY SET SATURDAY

The Eldorado Golf Club will hold a work day this Saturday, July 27.

Work will be done on the course 9:30 to 11:30 a.m. There will be Mixed Foursome play at 1:30 and barbecue supper will be served at 7:00 p.m. All members invited.

FIREMEN CALLED OUT

Fire alarms were sounded Sunday. One truck was called to Sutton county about 10 miles south of Sonora.

Another alarm came half an hour later to a fire on the McIntosh ranch.

Last week one truck from here went to Junction to help fight a brush fire. Some local residents claimed they could smell burning cedar clear up here, a distance of 75 miles.

Mrs. Mercer's Mother Buried In Oklahoma

Mrs. Pearl Bell Prestage, 84, died Saturday in the Golden Years Nursing Home in Christoval. Services and interment were held in Duncan, Okla., on Monday.

She was born Nov. 12, 1889, in Greenville, Texas, and was a member of the Baptist church.

Survivors include two daughters, Mrs. Roy Shilling of College Station and Mrs. Harry Mercer of Eldorado; a brother, J. H. Bell of Orange, Calif.; six grandchildren and six great-grandchildren.

H. Lloyd Outstanding Conservation Farmer

Harold Lloyd of Batesville was recently named as Outstanding Conservation Farmer of 1974 by the Winter Garden Soil and Water Conservation District in South Central Texas. He was honored at a noon luncheon on Wednesday, June 26th, sponsored by the Crystal City Lions Club in Crystal City, at which time presentation of the award was made to him by Lions president, Serafin Bazan.

Lloyd, who farms southeast of Batesville, was selected for the honor not only because of his conservation activities at his farm, but also for his valuable contributions to his church, the Zavala County Junior Fair, and as chairman of the Zavala County ASCS committee and director of the Winter Garden Cooperative Gin. He also serves as a member of Farmers Home Administration County Committee and is former vice-president of the Batesville School Board.

Lloyd and his wife, Helen, and three children reside on their Batesville farm where he operates nearly 1000 acres of irrigated farmland.

Harold Lloyd is the son of Mr. and Mrs. L. E. Lloyd of Eldorado. He is a graduate of Eldorado High School and Southwest Texas Junior College, Uvalde.

Bullock Visits Here

Bob Bullock, Democratic nominee for State Comptroller, was back on the campaign trail this week and visited Schleicher County where he compiled a big vote in the May primary.

"I just wanted to come back and say thank you," Bullock said while visiting Eldorado. He campaigned here in the primary.

In winning the Democratic nomination, Bullock carried 253 of the 254 counties in Texas and ended up with the largest percentage vote of all the contested statewide races. He carried Schleicher County by 70.7%.

Beef And Pork Are Favorite Food Choice

College Station, Tex.—As long as the outdoor cooking season continues in full swing, forequarter cuts of both beef and pork remain the favorite choice for economy, one expert said.

She's Mrs. Gwendolyn Clyatt, Texas Agricultural Extension Service, The Texas A&M University System.

"Good beef buys this week are on chuck roasts and steaks, round steaks and roasts and ground beef.

"Pork values can be found on shoulder roasts and steaks, picnics, hams, end-cut loin roasts and chops and pork liver.

"Fryer chicken prices are beginning to climb slightly," the specialist noted.

Frozen turkeys—including turkey parts and boneless birds—are readily available in most retail stores.

"Egg prices are low when compared to other protein foods. Grade A Large and medium sizes continue to give the best quality and economy," Mrs. Clyatt said.

Large supplies of cherries and nectarines are on the market now. Other good quality and reasonably priced fruits are bananas, oranges, peaches, grapes, pineapples, cantaloupes, and watermelons.

"Potato prices are coming down with the increased supplies of new crop potatoes.

"Tomatoes should cost less as more growing areas come into production," the specialist reported.

Vegetables in good supply at economical prices include squash, cabbage, carrots, purple hull and blackeye peas, dry yellow onions, radishes and green onions.

Consumer Watchwords: Santa Rosa plums are in good supply now and prices likely won't go any lower.

Look for ripe plums to have a dark red to purple color and be soft enough to yield to slight pressure.

Store ripe plums in the refrigerator but immature plums may be ripened at room temperature.

All the efficiencies of local loan service.

What do you expect from an agricultural loan? Long terms? Reasonable charges? These traditional advantages have been offered by the Federal Land Bank for over a half-century. Additional Telephone Equipment Installed

General Telephone Company has announced that additional switching equipment has been installed in Eldorado and is now ready for use. According to Jack Goss, San Angelo division manager, the equipment will provide facilities for 200 new telephone customers. "The new equipment will also provide improved service to existing customers by eliminating problems associated with crowded facilities," Goss said.

Long distance facilities were also expanded with the installation of additional trunking equipment.

Such equipment additions are made on the basis of telephone surveys designed to determine future communications requirements and the immediate needs of our customers. Goss explained.

Addresses Pharmaceutical Meeting

DR. ALBERT FORLANO

Dr. Albert Forlano was invited to speak to the Concho Area Pharmaceutical Association at their monthly meeting at the El Patio Motel in San Angelo on Thursday evening, July 18. Dr. Forlano addressed the pharmacists on The Diagnosis and Treatment of Hyperlipidemia (elevation of blood lipid levels) as related to cardiovascular disease. The lecture included a discussion on the genetic factors causing the 5 different major classes of hyperlipidemia, a consideration of the drugs used in each different class and the rationalization for their use, the effect of dietary restrictions on the preven-

tion of hyperlipidemia and cardiovascular disease, and a discussion of a new class of drugs that works in the intestinal tract to lower blood cholesterol.

Dr. Forlano, who has been associated with Westerman Drug since he moved to Eldorado in May, has been a registered pharmacist since 1950. After receiving his Ph. D. in 1959, he spent several years in the pharmaceutical research department of Chas. Pfizer & Co. Most recently, he was on the faculty of a Michigan State College School of Pharmacy for the last 12 years as Professor of Medicinal Chemistry and Biochemistry.

Says There's Now . . .

Too Much Paperwork For Small Businesses

BOB KRUEGER
Democratic Nominee For Congress

The program speaker at the meeting Wednesday noon this week of the Eldorado Lions Club was Bob Krueger of New Braunfels. His local appearance came just one week after that of his Republican opponent, Doug Harlan.

Speaking to the local Lions and their guests, Krueger cited his own experience as head of his family's small business interests in New Braunfels.

"Governmental intervention and bureaucratic paperwork is overburdening today's independent businessman," Krueger pointed out, adding, "Most legislators are not even aware of the problems caused by the current over-regulation of small businesses."

The New Braunfels native cited recent statistics which show that profit margins for small businesses remain the same while paperwork has increased.

"This governmental paperwork amounts to economic deadweight for today's independent businessman," Krueger asserted.

"It's the government's responsibility to keep our markets competitive. The American free enterprise system must be kept free from unnecessary paperwork in order to be competitive and to promote growth," asserted the Democratic nominee for U. S. Congress.

Crusaders for 21st District Democratic nominee Bob Krueger have discovered a fund-raising project for the November general election: waiting on tables at a San Antonio restaurant and donating tips to their congressional crusade leader! Throughout this past week and during the week July 15-26, Krueger supporters work at Los Patios Restaurant from 11:00 a.m. until 2:00 p.m.

And don't be surprised if you see a lot of men participating in this line of work—everyone's getting involved, including campaign coordinator and local attorney Gary Mauro!

Small towns in West Texas are famous for their local celebrations, and Democratic congressional nominee Bob Krueger is famous for taking his crusade to the people in all areas of the sprawling 21st Congressional District . . . So, it was not too unusual to find the former university administrator spending the entire day last Friday, July 19th, at the Mason County Fair in Mason. Among Krueger's official duties of the day were serving as Parade Marshal,

riding in the parade (well ahead of also-there Republican nominee D. Harlan), judging the local beauty contest, and the crowning of the queen at the evening rodeo.

With \$3,000 As Tops . . .

Small Contributions Added to Harlan Fund

DOUG HARLAN
Republican Nominee For Congress

The campaign fund of Doug Harlan, candidate for U. S. Congress from the 21st District, increased by \$3,000 last week with the deposit of a check contributed by the Republican Women of Comal County.

Mrs. Helene Moore, a member of the organization, made the presentation earlier this month at a party held in Harlan's honor by San Antonio supporters at which U. S. Senator John Tower was special guest.

The money was raised by members selling shrimp from a booth at last year's New Braunfels Wurstfest.

Harlan pointed out that this, the largest contribution of his campaign so far, came from friends and supporters from the hometown of his Democratic opponent, Robert Krueger.

Most of the money for the Harlan campaign, the candidate said, is still coming in small donations from all across the sprawling 32-county 21st District.

Harlan, a 31-year-old attorney and educator, is taking his campaign to all areas of the district in a person-to-person effort to win this congressional seat in November.

Monday and Tuesday (July 22-23) he spent in Llano attending a special reception in his honor, speaking to the Llano Lions Club, and officiating the weekly livestock auction.

Harlan will be in Hondo Friday attending the Youth Rodeo and will begin a West Texas tour next week to include stops in Del Rio, Alpine, Fort Stockton, Crane and Rankin.

Classmate Remembers Harlan Was Named "Most Likely To Succeed"

When Republican Congressional Nominee Doug Harlan addressed the Eldorado Lions Club last week, a former classmate, Mrs. Ronnie Mittel was on hand to hear him and she had some yearbooks with her from the school in Irving that they both attended some years ago.

Mrs. Mittel was then Sharon Vick and as 7th grader the classmates had named Doug Harlan as "Most Likely To Succeed."

Growing With The Southwest Since 1901

Vegetables Big This Summer

Whether home garden grown or harvested from the produce counters, now is the time to make the most of vegetables. A change from the usual hot cooked vegetables are those marinated, chilled and served cold with a dressing of real mayonnaise. Although the platter here calls for specific vegetables, use whatever is in season and supplement, if needed for color or flavor, with frozen or canned vegetables.

MARINATED VEGETABLE PLATTER

2/3 cup corn oil	1/4 pound sliced fresh mushrooms
1/4 cup lemon juice	16 asparagus stalks, cooked or 1/2 pound whole green beans, cooked
1/2 teaspoon salt	1 head lettuce
1/4 teaspoon tarragon	1 cup Hellmann's or Best Foods real mayonnaise
Dash pepper	
1 cup cooked sliced carrots	
1 cup fresh cooked corn, or 1 can (8 oz.) whole kernel corn, drained	

Mix together corn oil, lemon juice, salt, tarragon and pepper. Put vegetables into separate bowls. Pour marinade over each. Marinate 2 hours, stirring occasionally; drain. Arrange marinated vegetables, lettuce and tomatoes, if desired, on platter. Mix together real mayonnaise and 2 1/2 tablespoons marinade. Serve with vegetables. Makes 4 servings.

Cecil Westerman Would Like To Be YOUR Pharmacist

Unscrupulous Come Following Disaster

(by John L. Hill, Attorney General)

Austin, Tex.—In just a few weeks, we can expect another Texas hurricane season, since historically most of our big storms have occurred from August through October. And we've just come thru our traditional spring tornado months.

As Texans, we are familiar with natural disasters and the misery they can bring because we have suffered through some of the worst: the Great Galveston Storm of 1900, Hurricanes Carla and Beulah, and the Lubbock Tornado are just a few.

Often the worst aspect of a disaster is the aftermath, when victims face the heartbreak of cleaning up and the strenuous task of rebuilding.

It is often at this point, too, that consumer fraud becomes another problem to be faced by residents trying to pick up the pieces.

At a time when many are confused, tired, and vulnerable, it is unfortunate but true that unscrupulous person may move in to take advantage of the situation.

Many consumer decisions and transactions are necessary to get back to normal after a disaster. And most will require the expenditure of large amounts of cash or heavy use of credit.

Attorneys in our Consumer Protection Division warn that consumers who find themselves in such a situation should use extreme caution before making major purchases or home repairs.

Most businessmen and repairmen are honest, reliable, and trustworthy, and in such trying circumstances will attempt to be as fair as possible with consumers.

But many times the reports of a disaster will bring an influx of itinerant salesmen and repairmen—many from out-of-state—who are determined to make their fortune at the expense of others.

These "hit and run" operators who sell goods and services door-to-door may never deliver what they promise but, instead, will drive off to new territory with a consumer's money or a contract

Canucks is the name given in the United States to Canadians generally, but in Canada it means French-Canadians, and it's thought to be a corruption of the word the French-Canadians called Irish immigrants.

that they may immediately sell to a finance company.

Our Consumer Protection attorneys recommend that you take a few precautions that may save the money and anguish associated with disaster frauds.

—Do not pay in advance for materials or repairs

—Remember that high pressure and scare tactics are often the mark of a phony deal

—Make sure that a contractor or salesman has a permanent place of business, preferably in your area

—Get at least three estimates before selecting a contractor for any construction or repair work

—Insist that all estimates include a starting and completion date, description of the work to be performed and the type of materials to be used, total cost, guarantees provided, and method of payment (lump sum upon completion, installment, etc.)

—When you have selected a contractor, ask for a written contract based on his estimate. Make sure before signing that you understand all parts, that there are no blanks, and that the contractor himself has signed first.

Remember that both Texas and federal laws allow you to cancel any door-to-door sale for \$25 or more if you notify the seller of your intention within three days.

And remember, too, that in cases of disaster many state and federal agencies stand ready to assist victims. If you have a question about disaster-related problems, they can help. For information about consumer protection at such times, consult our attorneys, your county or district attorney, or your local Better Business Bureau.

It was once believed that there was a fountain of youth in the Bahamas.

Some sailors believe that albatrosses, which fly with a gliding motion, can sleep in the air.

BANKING IS EVERYBODY'S BUSINESS

Money In The Bank — Is It Really Safe?

You must have heard it a hundred times — "As safe as money in the bank," — but did you ever stop to consider just why money in a bank is safe?

The American Bankers Association (ABA) says there are several good reasons. For one thing, built-in safety is provided by sound and experienced bank management; diversified and liquid assets (the bank's loans and investments); adequate capital, surplus and reserves and modern physical safeguards.

In addition, since January 1934, consumers have had guaranteed safety for their funds through a national insurance system. Today, the system is administered by the Federal Deposit Insurance Corp. (FDIC), an agency of the U.S. Government, which covers each "differently owned account" in any one bank up to \$20,000.

And the system has a proven track record. To date, all insured deposits have been fully paid when institutional problems developed in a participating national or state commercial or mutual savings bank (which must display the official FDIC sign). Since banks pay the cost of this insurance, incidentally, it is actually another bank service to keep your funds safe.

But just how does it work? First of all, you might wonder what is meant by \$20,000 for each "differently owned account?" The ABA says that one individual can hold several "differently owned accounts," as long as they are held in a separate "right and capacity."

For example, all the deposits you hold as an individual — your passbook or statement savings account, checking account, certificates of deposit, Christmas Club account, etc. — are totalled together for insurance purposes and are considered to be maintained in the same "right and capacity." Together, they are insured for a maximum of \$20,000.

Additionally, however, you and your spouse, or any other individual (including a minor), may legally open a joint account in which you are equally owners with rights of withdrawal. You don't hold the account as an individual, but as a co-owner. In this case, the amount of insurance is split evenly between the owners, but each individual is still subject to a \$20,000 limit for his interest in all joint accounts.

A third example of a "differently owned account" would be an account held as a trustee. You may open an account "in trust for" a spouse, child or grandchild (but no one else), with the intention of having the funds in the account pass on to the named beneficiary at the time of your death. This type of account is also insured separately up to \$20,000.

Further examples of "differently owned accounts" would be those you might hold as an executor, administrator, guardian or custodian. For all the facts on FDIC insurance, check with your local banker. And remember when they say "it's as safe as money in the bank — you can bank on it!"

AMERICAN INGENUITY
LITTLE KNOWN STORIES OF SUCCESS

More than 2,000 years ago, a Roman agricultural writer described haymaking as "throwing hay loosely together for a few days to heat and concoct itself before putting into the mow." And through the ages haymaking and hay harvesting have been important but time-consuming activities for farmers throughout the world. There was a time when people cut hay with a scythe, forked it into piles several times, hefted it into a wagon by fork, then unloaded it by hand into haypiles.

This long and tedious process persisted well into the nineteenth century when mowers, rakes, and hayloaders were invented. By 1880, hay had become the nation's most valuable agricultural product, and by 1895 the business had developed so rapidly that the National Hay Association was formed in Cleveland.

But despite some progress, baling hay was still a difficult process — and the railroads refused to transport loose hay. Bales weighing from 200 to 300 pounds were made from hay that was hand fed into presses in the field. At about the turn of the century, a horse-powered baler was invented that picked up hay

Today, a full range of modern farm machines cut and condition hay, tie the bales, scoop them up and automatically stack them on a wagon bed. At the storage area, the operator simply flips a lever on the automatic bale wagon to place an entire load of bales exactly where he wants it.

Haymaking and hay baling have come a long way since Roman times, but most of this progress has taken place during the last thirty years. The story of hay baling is a fine example of American success through ingenuity.

from windrows as it moved through the field. But men had to hand-tie the bales — even after tractors replaced horses.

Then, in 1940, the hay baling breakthrough of the centuries was made. A farmer in Lancaster County, Pennsylvania, invented the mechanical knoter — and relieved farmers forever of the tedious process of hand-tying bales. The New Holland Machine Company, which is now New Holland, a division of Sperry Rand Corporation, was quick to appreciate the new machine and began to produce it in quantity for farmers and ranchers throughout the world.

In 1930, a bill was introduced in England that would make prosecutions for blasphemy illegal but it was dropped.

M. in the Commissioners' Courtroom in Schleicher County Courthouse, Eldorado, Texas. J. P. Enochs, County Clerk, Schleicher County, Texas 1t

DO PEOPLE read these small ads in the Success? You just did.

Glass is made mainly of sand, soda and lime. Between 11 and 12 million tons of sand are used each year to make glass in the United States, according to World Book Encyclopedia.

by Lyndell Williams Texas Press Association

Austin, Tex.—Oklahoma temporarily stopped movement of Texas cattle into the neighboring state due to an outbreak of dread anthrax in Falls County.

About 200 animal carcasses have been burned in the county since the anthrax quarantine was imposed June 23. The quarantine covers only that portion of the county east of the Brazos river.

A USDA spokesman said "suspected" cases were discovered in surrounding Texas counties and in an Oklahoma City stockyard.

Animal Health Commission officials recommended continued vaccination of cattle in Falls, McLennan, Leon, Freestone, Robertson, Bell, Milam, and Limestone counties. They were optimistic about control of the outbreak.

About 300,000 cattle were scheduled for vaccination in the Central Texas area, and only 250,000 doses of the vaccine were initially available.

An estimated 110,000 head of animals were in the quarantined zone. Forty-one roadblocks were established to prohibit movement.

Texas National Guard, the Department of Public Safety and the State Department of Agriculture assisted in efforts to control spread of the disease.

Allowable Set The Railroad Commission once more set the statewide oil allowable at 100%, amid reports Texas is leading all other states in the search for oil and gas.

Texas has been operating under wide-open production orders for more than two years. Commission Chairman Jim Longdon said the agency has handled 10,600 drilling applications this

year, compared to 6,600 by July of 1973. The number of drilling rigs has increased 42% from a year ago—to 511 on location—twice as many as any other states, according to Langdon.

Convention Nears End Whether delegates ever agree on a new state constitution or not, the Constitutional Convention of 1974 is about to wind down.

Delegates continued in pursuit of illusive compromise, voting down proposal after proposal, yet knowing that by the end of the month they probably would accept a revision package, like it or not.

ABC Administrator Retained Alcoholic Beverage Commission Administrator O. N. "Newt" Humphreys Jr. weathered another effort to oust him from his \$28,500-a-year job.

ABC Member R. L. Thornton Jr. of Dallas, for the second time, failed to get a second to a motion to fire Humphreys. Thornton made his first move last May.

Thus, Humphreys, 50, got a shaky two-to-one vote of confidence. Thornton claims Humphreys is not as competent an administrator as he should be to head up a major tax-collecting and enforcement agency.

Humphreys said he will stick as long as he can.

Courts Speak Fuller Springs area annexation by Lufkin is invalid, the State Supreme Court held.

Texas Court of Criminal Appeals reversed a theft conviction of a Dallas man accused of stealing a blinker light from a construction site.

The Supreme Court upheld an \$18,000 damage award to a Farmer County man injured when he fell while delivering oil.

Bonds Sold Fifteen million dollars in student loan bonds were sold by the Coordinating Board, Texas College and University System in spite of a member's advice to delay.

An interest rate of 6.2841% offered by a Chase Manhattan Bank and First National Bank of Chicago group was accepted.

Bonds will mature in 20 years, with net interest calculated at \$14,229,740. Students will be charged 7%

simple interest to borrow money from the loan fund. An estimated 18,000 students will apply for about \$24 million in aid during the coming school year.

More than \$160.5 million in student loan bonds have been sold since 1965.

Refunds Waiting Some 18,500 South Texas area residents have undelivered income tax refunds awaiting them for 1972 and 1973.

Most of the taxpayers moved without leaving a forwarding address.

Internal Revenue Service urged taxpayers who think they may have money coming to them to contact IRS immediately.

The checks will be canceled after October 1.

Attorney General's Opinions Atty Gen. John Hill, in a controversial opinion, held the State Board of Insurance has no regulatory power over prepaid health care delivery systems (HMO's).

In other recent opinions, Hill concluded: —A Constitutional Convention delegate may be reimbursed for actual expenses in chartering an airplane for an official trip if that means of transportation is reasonably necessary.

—Long Distance telephone calls by legislators charged to contingent expense accounts are public information.

—A county may assume responsibility for maintaining city streets which form an integral part of the county or state road system, and a city may agree to pay a representative portion of costs incurred.

—A district court cannot designate the county attorney as registry of the court to receive child support payments.

Quick Ones... Texas' cost-of-living advantage is due mainly to absence of an income tax, according to University of Texas Bureau of Business Research study.

Drought losses brought a request that Taylor and Erath County farmers, ranchers and businessmen be made eligible for special federal disaster relief loans.

Democratic Party leaders refused to move the state convention in Austin September 17 to September 19 to avoid a conflict with the Jewish Rosh Hashana religious holiday.

State Republican candidates are making a month-long, 65-city tour of Texas via mobile home.

AMERICAN INGENUITY

LITTLE KNOWN STORIES OF SUCCESS

The science of hydraulics dates back several thousand years, when water wheels, dams, and sluice gates were used to control the flow of water for irrigation and domestic use.

But contemporary "power hydraulics," in which fluid is used under controlled pressure to do work, developed slowly until the 1920's. In the 1600's, the French scientist Blaise de Pascal made the discovery that a heavy weight could be lifted with small effort by displacing liquids with cylinders of different sizes.

But it took the ingenuity of American inventor and entrepreneur Harry Franklin Vickers to transform Pascal's theories into industrial realities.

His invention of the balanced vane type pump as a power generator has been fundamental to the rapid development of the fluid power industry during the past fifty years.

The Vickers Manufacturing Company was begun in Los Angeles in 1921. Despite the tolls of war, depression, and increasing competition, the Vickers Company kept on growing. Its great success can be attributed to the dedication and self-confidence of one man — a sense of purpose transmitted to all his employees and partners in management.

In the late 1920's Harry Vickers met Fred J. Fisher, oldest of the "Body by Fisher" brothers. The two men combined their industrial talents and formed Vickers Incorporated. One of the first programs the company initiated was a packaged power steering mechanism based on

a theory that the young Sperry also acquired the Vickers had come up with back in 1925. The Depression temporarily put a halt to the power steering end of the business, but today Vickers-type mechanisms are again being used in many cars.

What Harry Vickers needed in these early days to insure his success was to have one or two automotive companies specify his pumps. In short, he needed an entree into the business. One large company, which was using a competitor's unit, ran into trouble in servicing the pumps. Vickers took advantage of this situation by personally going to the car company's president and offering to train all his mechanics. Eventually, the policy began to pay off because Vickers pumps began to be used — and Vickers was always available to service them. His motto was "Call me anytime."

A significant step in the evolution of modern hydraulics was the acquisition of the Vickers Manufacturing Company by the Sperry Corporation in 1937. Under Harry Vickers' astute direction,

The highest recorded number of smoke rings formed from a single pull of a cigarette is 86, performed by Robert Reynard, of Glastonbury, Somerset, England, on January 1, 1972!

Holly berries are recommended for colic, fever, rheumatism, smallpox, gout and asthma.

THEN and NOW

ALUMINUM ONCE WAS A PRECIOUS METAL! IN FACT, A LITTLE OVER 100 YEARS AGO, IT SOLD FOR \$22,000 A TON! IN THE MID-19TH CENTURY, IT WAS SO VALUABLE THAT KING CHRISTIAN V OF DENMARK ORDERED HIS CROWN MADE OF ALUMINUM!

ALUMINUM SALE

ALCOA 32¢

TODAY, DUE TO MODERN METAL-MAKING TECHNOLOGY, LIGHTWEIGHT ALUMINUM CAN BE BOUGHT FOR ABOUT 32 CENTS A POUND. AND SINCE IT'S VALUABLE FOR RECYCLING, IT BRINGS ABOUT 15 CENTS A POUND AS SCRAP AT ALUMINUM INDUSTRY RECLAMATION CENTERS.

MISS STORIE AND MR. WHITTEN MARRY IN CEREMONY IN 1ST BAPTIST CHURCH

MR. AND MRS. PETE WHITTEN

Miss Gail Claudine Storie became the bride of Pete Whitten in the First Baptist Church with Rev. Kenneth Vaughan of Comanche officiating.

The bride is the daughter of Mr. and Mrs. Larry Bell and the bridegroom is the son of Mr. and Mrs. C. M. Whitten of Brady (formerly of Eldorado).

Serving the bride as maid of honor was Marsha Kothmann of Eldorado.

Best man was Mike Calcote of Eldorado. Candle lighters were brothers of the bride, Dale and Alan Storie of Eldorado.

Guests were registered by Pamela Higginbotham.

Rice bags were passed out by Lori Bell (sister of the bride) and Tammy Piper.

Included in the houseparty were Mrs. Frank Williams, Mrs. Allen Corbell, Mrs. Jim Martin, Mrs. C. J. Niblett, Mrs. Charles Orr, Wanda

Payton and Mrs. Hollis McCormick. The wedding reception was held at the fellowship hall of the First Baptist Church. The rehearsal dinner hosted by the bridegroom's parents was held at El Dorado Restaurant.

Mrs. Whitten, a graduate of Eldorado High School, is employed by Schleicher County Medical Center. The bridegroom is a graduate of Eldorado High School and is employed by L. L. Watson. The couple will reside on the bridegroom's parents' ranch.

The out of town guests were Mr. and Mrs. Lee Dacy, Bernice Bradshaw, Mr. and Mrs. C. James Whitten, Amy and Alice, Mr. and Mrs. Oscar Hardt, Dorothy Wingard, Mr. and Mrs. David Whitten, Zella Whitten, Mr. and Mrs. C. M. Whitten, Clemmie Vick, Pamela, James and Larry Higginbotham, and Mr. and Mrs. Joe Piper, and Tammy and Danny.

Enochs Winner Of Photography Award

Rex Enoch won four Gold Star Honors of Exhibiting Awards at the Texas Professional Photographers' Association seminar which was recently held at Kerrville. The prints were judged by a panel of master photographers. Professional photographers from throughout Texas were in attendance.

2ND BIRTHDAY FOR GRANDSON

Cody Wayne Clements, 2-year-old son of Mr. and Mrs. Wayne Clements of Bellinger, was honored with a birthday party on Sunday, July 7th, at his home. There were 18 folks in attendance.

The boy is the grandson of Mr. and Mrs. Ernest Hanusch of Eldorado.

BACK FROM CALIFORNIA

Mr. and Mrs. Rance McDonald have been on a vacation trip to California. They visited Gerald Harris and family at Los Angeles.

They all went to the Yosemite National Park. They returned home on a flight from California, and Gerald was the pilot from Denver to Midland on Tuesday, July 9th.

Miss Dannheim Engaged To Mr. Tom Thurman

LINDA DANNHEIM

The engagement and approaching marriage of Linda Marie Dannheim and William Thomas "Tom" Thurman has been announced by the bride-elect's parents, Mr. and Mrs. D. R. "Rusty" Dannheim of Eldorado. The wedding date has set for Aug. 24.

Linda is a graduate of Plymouth Carver High School of Plymouth, Mass., and Texas State Tech. in Waco. She is a certified Dental Assistant and is presently employed by R. O. McWilliams, D.D.S. in San Angelo.

Tom is the son of Mr. and Mrs. Mel R. Thurman of Ferriday, Ark. He is a graduate of Richfield High School, attended Baylor University, and is a graduate of Texas State Tech. of Waco. Tom is currently employed with Pool Company of Sonora.

Mac Davis To Appear In Six Flags Shows

Arlington, Tex.—On Friday, July 26, Six Flags Over Texas will host singer-songwriter Mac Davis for two shows in the park's new Music Mill Theater.

Davis, whose latest hit is "One Hell Of A Woman," is the composer of some of the best-remembered contemporary songs around. Included on this list are such favorites as "Watching Scotty Grow," "In The Ghetto," "Something's Burning," and "I Believe In Music," the latter having been recorded by more than 50 artists so far.

Davis also penned the popular hit "Baby Don't Get Hooked On Me," a gold million-seller.

Six Flags Over Texas will present Mac Davis in shows at 8:00 p.m. and 10:00 p.m.

All tickets purchased at the front gate after 6:00 p.m. will be \$4.00.

Six Flags will be open on Friday from 10:00 a.m. until midnight.

Miss Derrick Becomes Bride Of Mr. Williams In Church Ceremony

MRS. THOMAS KEITH WILLIAMS the former Linda Derrick

Miss Linda Faye Derrick and Thomas Keith Williams exchanged marriage vows July 20 in the First Baptist Church. The Reverend Don Sebesta, pastor of the First Presbyterian Church of Graham, Texas, officiated for the couple in the double ring ceremony. Both young people are students at Texas Tech University in Lubbock, where they will live following a honeymoon to Acapulco, Mexico.

The bride, daughter of Mr. and Mrs. Howard C. Derrick and granddaughter of Mrs. Harold H. Ball, was given in marriage by her father and attended by Miss Peggy Hill as maid of honor and Mrs. Gary Derrick as matron of honor. Mr. Williams, whose best man was Eddie Harris of Haskell, is the son of Mr. and Mrs. James Williams.

Bridesmaids were Mrs. Richard Anderson of Dalton, Georgia, Mrs. Paul Page Jr., Miss Cindy Crites and Anna Lou Thompson of Lubbock and Miss Patty Page. Groomsmen and ushers included Messrs. Craig Moody, Bobby Schneider and Bill Wilson of Lubbock, Morris Davis of Austin, Ricky Pritchett of Abilene, Gary Derrick, Terry Clingen, Paul Page Jr., and Dr. Stewart Wiegand of Marietta, Georgia.

Flower girl was Miss Ellen Davis of Austin, niece of the groom. Ring bearer was Vince Wiegand of Marietta, Georgia, nephew of the groom.

Organist for the wedding was Mrs. James Page and the soloist was Mrs. Robert McWhorter.

The bride wore a formal gown of ivory English net. Pearls and pearl encrusted Alencon lace ap-

pliques defined the princess lines of the gown which featured a high crown neckline and long fitted sleeves cuffed with a wide ruffle. The skirt was enhanced with a scalloped border of pearls and lace that banded the hemline and chapel length train. Her veil was English net with matching lace and pearls.

Her attendants wore floor length sleeveless gowns of floral chintz. The bodice was elasticized and there were ruffles around the sleeves and hemlines. They carried mixed bouquets of pink flowers.

Houseparty for the reception which was held in the home of the bride's parents included Misses Cheryl Lux, Mary Lyn McCalla, Betsy Humphrey, Camille Libbey of Littleton, Colorado, Nancy Merkwart of Lubbock and Anita Thigpen of Haskell; Mrs. Jimmie Powell, Bob Sykes, Mori Mertz, Charlie Trigg of Eldorado; Mrs. Stewart Wiegand of Marietta, Georgia; Mrs. Morris Davis of Austin; Mrs. Joe Bean of Ocean, Miss Joe Mertz, Jim Lane and Virgil Powell of San Angelo; Mrs. Gene Smith, Bill Derrick and Ed Casner of El Paso; Mrs. Don Libbey of Littleton, Col., and Mrs. Bill Wilson of Lubbock.

Junior houseparty included Misses Susan Mertz and Lorrie Powell. Rice bag girls were Misses Victoria Powell, Charlotte Mobley, Jill and Brandi Wiegand of Marietta, Georgia; and Leslie Derrick of El Paso.

The rehearsal dinner, hosted by the bridegroom's parents, was held at the El Dorado Restaurant on Friday, July 19.

Around the World

by Mary Homi

Breathtaking Bermuda

In 1515, Juan de Bermudez discovered a scenic chain of islands shaped like a fishhook. Bermuda, as this 22-mile long paradise in the Atlantic came to be known, has long been a tourists' delight because of its comfortable temperatures and evenly spread rainfall.

Despite its exotic reputation, Bermuda can actually prove to be an inexpensive vacationing spot for the whole family. Now you can purchase for only \$15.00 an "Official Passport" that will let you enjoy \$55.00 worth of Bermuda's most exciting attractions. There's the picturesque Sea Gardens Cruise, the Dolphin Show at the Blue

Grotto, Golf at the Belmont Course, the breathtaking Crystal Caves, Fort Saint Catherine's replica of the British crown jewels, and many other unforgettable sites. If you stay at the Bermudiana, the Harmony Hall, or the Belmont—three well-equipped but moderately priced hotels run by Trust Houses Forte—you'll be given a "Passport" to a truly great vacation.

by Cynthia Lee
Director, Consumer Relations Dept., Texize Chemicals Co.

PRETTY GARBAGE?

Garbage containers have become so attractive these days that you might think they elevate the caliber of your refuse! Not quite...but a pretty garbage container is some incentive to keep it neat and clean.

You can buy garbage pails in high-style enameled finishes, chrome, rubber and plastic. They're so easy to wash that there's no excuse for odor build-up.

Keep them fresh by regularly scrubbing inside and out

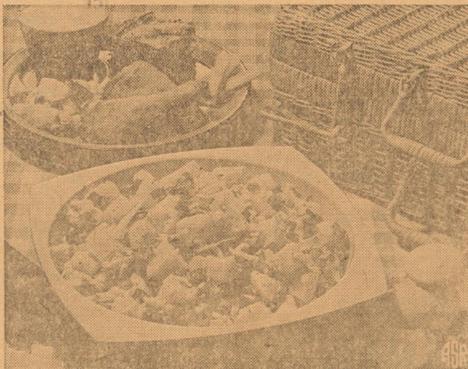

with full-strength Janitor In A Drum. Its pleasant pine scent keeps your garbage pail odor- and germ-free.

Outdoor garbage pails should be kept clean too. Treat them to a hose-down and a cleaning once a month. This eliminates the attraction the pail provides to neighborhood dogs and other fauna.

Indoor or outdoor, keep your garbage neat by lining the container with newspaper or plastic bags made especially for discarding refuse. To prevent drippy garbage, drain off liquids and wrap before throwing away.

Cool Salad Is Right For Summer

Try Cabbage Potato Salad for great summertime eating.

Summertime means vacations—vacations from work, from school and from the usual daily routines. It's a time for picnics and eating outdoors, on the patio or in the backyard. It's a time to try new things, like Cabbage Potato Salad.

The usual run-of-the-mill potato salad is spiced with bacon and shredded cabbage for an unusual taste combination. It's great with fried chicken or barbecued meats. Evaporated milk keeps the salad moist while adding important vitamins and minerals.

Cabbage Potato Salad serves ten to twelve, so it's even enough for a crowd. Be sure to keep it chilled before serving, and take proper care of any left-overs.

Cabbage Potato Salad (Makes 10 to 12 servings)

- ¾ cup undiluted Carnation Evaporated Milk
- 6 cups cooked potato cubes
- ¾ cup sliced green onions
- 2 diced hard cooked eggs
- 6 slices crisp crumbled bacon
- ½ cup mayonnaise
- 1½ teaspoons prepared mustard
- ¼ cup vinegar
- 2 teaspoons sugar
- 2 teaspoons salt
- ½ teaspoon pepper
- 1 teaspoon celery seed
- 2 cups finely shredded cabbage

Pour evaporated milk over potatoes in bowl. Add onion, eggs and bacon. Toss lightly to mix well. Combine mayonnaise, mustard, vinegar, sugar, salt, pepper and celery seed. Stir until blended. Pour over potatoes; mix well. Chill. Just before serving add cabbage; toss lightly.

MOST USED TEXAS REFERENCE

TEXAS ALMANAC

1974-75 EDITION The Encyclopedia of Texas

Most used Texas Reference in the office, home or classroom. Recognized for more than a century as "THE AUTHORITY" on Texas. Covers History, Government, Agriculture, Business, Education, Weather and all Texas subject matter from A to Z. MEMORIAL CHM. Schleicher County

Pate Museum To Open Exhibit On Lighter Than Air Airships, Sunday

On Sunday afternoon, July 28th, at 1:00 o'clock the Pate Museum of Transportation will open to the public a new Lighter Than Air Exhibit containing many historic relics from the United States Navy Airship Shenandoah, the famous dirigible that on September 3, 1925, was caught in a violent storm near Marietta, Ohio and wrecked with a loss of 14 lives in the 29-man crew. On display will be the Airship's Ensign (48 star U. S. Flag—1924), clock, the face of one of the annunciators used to signal orders from the Control Cabin to the crews in the six Engine Cars, two large pieces of Duralumin girders from the interior structure of the ship, a section of the outer cloth covering of the airship, a small piece of the cloth that was used to make the airship's helium gas bags, a set of Gold Navy Wings worn by the Officers in the ship's crew, a spare 1800 lb. 400 h.p. water-cooled Wright Model D-1 Airship Engine, designed especially for the dirigible Shenandoah, a beautiful 3-foot scale model replica of the USS Shenandoah, and many historic photographs, not only of the Shenandoah, but also of the USS Los Angeles, USS Akron, USS Macon, and the one and only Metal-clad dirigible, the USS ZMC-2.

Starting at 2:00 p.m. there will be a continuous showing of three documentary sound moving pictures showing the history of the Lighter Than Air era, dirigible catastrophes, and the famous Good-year Blimp fleet. This show is free to the public and will be shown continuously from 2:00 to 4:00 p.m. and from 6:00 to 9:00 p.m. in Farnsworth Hall, which is south of the Pate Museum Building.

During the afternoon two champion aeronauts will assemble their equipment and make a hot air balloon ascent from the Pate Museum grounds.

During the evening there will be an Open House honoring Commander Roland G. Mayer and Lt. Commander Frederick J. Tobin, both veterans of the Lighter Than Air Branch of the United States Navy and former crew members of the U. S. Navy Airships Shenandoah, Los Angeles, Akron and Macon. Both of these Retired Naval Officers are survivors of the USS Shenandoah and real pioneers of the Dirigible era in American Naval History.

The U. S. Navy Airship Shenandoah was built in 1922 by the Construction Corps of the U. S. Navy at the Philadelphia Naval Yard and assembled in the Hangar at the Naval Air Station at Lakehurst, New Jersey. The Shenandoah was the first airship designed to use helium gas to carry it aloft. The airship had 20 gas cells made of cotton cloth and lined with Gold-beater's skin—the stomach lining of ovens—to make it leak-proof; 750,000 ovens gave their stomachs so the 2,115,000 cubic feet of valuable helium gas would not leak out. The source of the helium gas was from the Petrolia gas field near Fort Worth, Texas, and enough helium to fill the Shenandoah cost \$250,000. It cost \$7.00 a thousand cubic feet to refine at the 20 acre Fort Worth Helium Production Plant which was operated by the Bureau of Mines. The helium was shipped by rail to the Naval Air Station at Lakehurst at a cost of \$24.00 per thousand cubic feet.

The Shenandoah was 680 feet in length and the first American-built dirigible to be built out of Duralumin, a very strong, light-weight metal and an alloy of aluminum which combines the lightness of aluminum with the strength of steel. In the fabrication of the Shenandoah, 400,000 pieces of Duralumin was used. There were 41 circular Duralumin rings that formed the interior of the airship. The rings were connected by longitudinal girders, which looked like a huge pile of radio masts, riveted together and guyed with wire.

On September 4, 1923 the Shenandoah made its regular flight and later, on October 10, 1923, the famous airship was christened the U.S.S. Shenandoah—an Indian name meaning "Daughter of the Stars." The public is invited to attend the Pate Museum of Transportation's special Fifth Anniversary Sunday afternoon program dedicated to the memory of America's Lighter Than Air Service. A Navy Band will be there to entertain visitors. The Pate Museum of Transportation is owned and operated by The Pate Foundation, Inc., a non-profit organization dedicated to the collecting and preservation of memorabilia having to do with all forms of Transportation—on land, sea, in the air and in outer space.

The Pate Museum of Transportation is open free to the public from 9:00 a.m. to 5:00 p.m. every day except Monday. The Lighter Than Air Exhibit will be on public display throughout the month of August. Also regular exhibits on Classic and Antique Automobiles, Airplanes and Private Rail Car will be open for visitors. Admission is Free. The Pate Museum of Transportation is located between Crasson and Ft. Worth on Highway 377.

Inflation Worst In Peacetime History

College Station, Tex.—The United States is in the grip of inflation more severe than anything experienced in its peacetime history, one home management specialist said this week.

She's Mrs. Doris Myers, Texas Agricultural Extension Service, The Texas A&M University System. "Since 1900, cost of living climbed for 54 years, stayed about the same for seven years and went down in only 13," Mrs. Myers noted.

"Reports in 'U. S. News and World Report' show that the \$1 of 1900 buys the same amount you must pay nearly \$6 for today," she continued.

Incomes do not stretch as far as they used to. In spite of pay raises, families are having to make do with less.

"American workers' real income—goods and services that the worker's money will actually buy—peaked materially during 1971 and 1972. It reached an all time high in 1972 and has been coming down ever since," she said.

"Studies show that taxes and inflation caused the average worker's standard of living to start a decline in 1970.

"The last few years have seen inflation raging, with incomes increasing much slower than prices. The Consumer Price Index now stands at 10.7% higher than May, 1973," she reported.

Labor Department studies show the average worker has 15.6% less money to spend than he had one year ago.

"If inflation continues at its current rate, the 1969 dollar will buy only 57 cents' worth of goods in 1979," Mrs. Myers noted.

"If prices continue soaring at this rate, a house now selling for \$37,500 will be priced at \$51,700 by 1979. Food for four per week now costing \$54.40 will be \$80.50 in 1979."

A typical worker with a wife and two children who received a \$330 raise last year has actually suffered a decrease in buying power of \$362.

"A Social Security pensioner living alone on an income of \$2,140 has actually lost \$198 in buying power within the last year, in spite of the \$140 increase in Social Security payments.

County Ag. Agent's Column

By Jerry Swift

Garden Check List For July

1. When was the last time you sharpened the blades on your lawn mower? Have you changed oil or cleaned the air filter on your power garden tools? Regular maintenance pays dividends!
2. Check your plants for pests. Some of the more common mid-summer pests, their hosts, and suggested controls are:
 - a. Lace bugs, Sycamore and pyracantha, Diazinon or malathion.
 - b. Red spider bites, Juniper, marigold, and a host of others. Kelthane is best but alternate with other materials to prevent buildup of resistant strains.
 - c. Chinch bugs, St. Augustine grass, Diazinon, trithion.
 - d. Elm leaf beetle, American and Chinese elm. Sevin, malathion, or diazinon.
 - e. Galls, leaves and stems of oaks, hackberry, poplar. No effective controls.
 - f. Webworms, nut trees, mulberry, persimmon and others. Malathion or diazinon with a spreader sticker or prune out and burn.
3. Low areas in the lawn may be gradually filled with shallow applications of good soil where needed. Avoid temptation to apply a layer of sandy loam over the entire lawn area just because your neighbor does. This is an excellent way to introduce new weeds, smother your grass, and bring unwanted insect and disease problems.
4. Divide spring and early summer perennials including daffodils, day lilies, iris, etc., and replant the best clumps. Discard the diseased or damaged material and share the surplus with friends if you can find a taker.
5. Unless there has been adequate rainfall, provide supplemental irrigation to save your choice plants.

6. To keep hanging baskets looking attractive, soak the baskets in a tub of water every few days in addition to the regular daily watering. This is also a good time to fertilize baskets but never apply fertilizer to dry plants.

7. Pinch mums at least one more time in early or mid-July. Late pinching will reduce flowering.

8. Going on vacation? Here are a few suggestions to keep garden looking nice while you are gone.

- a. Provide a thorough watering before leaving.
- b. Apply mulch to bare areas.
- c. Mow lawn before leaving.
- d. Arrange to have someone mow while you are away. An unmowed lawn is a dead give away that you have left.
- e. Cut back annuals and perennials to encourage new growth and flowers for your return.
- f. Stop newspaper, milk and other deliveries while you are away or arrange for someone to take the material into the house.

9. Turn and mix the material in the compost pile. Keep moist to speed up decomposition.

10. Plan bare areas with zinnias, marigolds and portulaca for hot weather color.

11. Fertilize lawns and flower beds to provide good fall color.

Sow Now For Late Summer And Fall Color

Dr. Bill Welch provides us with some excellent advice on how to replace those bare spots in the flower beds to give color to the late summer landscape.

"There are numerous plants that will provide color in the landscape through the heat of summer and until frost. Many of these may be planted in midsummer.

Zinnias and marigolds are two hot weather annuals we too often take for granted. The color range and variety in size and form now available make these plants extremely valuable. Dwarf sizes suitable for borders and ground covers and giant ones for mass plantings and cuttings are readily available. Bedding side plants of annuals are sometimes difficult to find in nurseries during the summer, but there is still plenty of time to start your own from seeds.

Periwinkle, shrimp plant, copper plant, sultana, pentas, and salvia will all make a fine show for late summer and fall. Sultana is available in a wide variety of sizes and colors. It thrives in shady places and is readily propagated from seed or cuttings.

Plumbago and Chinese Hibiscus will thrive in the hottest Texas sun. These two shrubs are best treated as annuals in central and northern Texas since they are usually killed by subfreezing weather. In south Texas they are normally root hardy and sometime evergreen.

Fall is an ideal time of year for outdoor activities in Texas. Some time and effort invested in your landscape now will provide large dividends in pleasure for the months ahead.

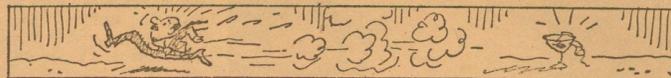

TO CONDUCT SERVICE
The Church of Christ on Mertzon highway will have charge of the service this Sunday afternoon, July 28th, at the local Nursing Home.

Ancient Egyptians believed that bees were born in the tears of the sun god.

To cure a man of drunkenness, some Europeans recommended skinning a live eel and dipping the skin in his drink. That should sober anyone up fast!

A pair of silk stockings produced in 14th century France sold for the equivalent of \$3.86—2 1/4 times a laborer's annual wage.

No Need For Advertising?

- Preachers don't preach just once a year even though people are against sin.
- Teachers review lessons. They know that children do forget and often have to be told more than once.
- Highway patrolmen drive up and down the highways, and caution drivers although motorists know the law and should obey.
- Mail order firms continue to send out catalogues.
- Not all of us know what is sold in stores in the home town, and we need to be invited continually to trade in your place of business.
- The Notre Dame cathedral has stood for centuries, but still they ring the bell every day.
- If you're one of those who believe in continuous and profitable advertising, you'll want to use the columns of the

The following events, selected by the Texas Tourist Development Agency, are but a few of the many excellent recreational opportunities offered by communities across the state. A more complete listing of Texas events may be obtained free of charge by writing TIDA, Box 12008, Austin 78711.

July 4 "Fayette County Day," Round Top. This celebration, which has been observed continuously since 1849, claims to be the oldest fourth of July event in the state. Highlights include a parade of restored wagons, buggies and stage coaches and, at 8:15 p.m., a musical program devoted to American composers.

July 4, 5, 6 Dino Roundup Days, Glen Rose. In this area where one may still view dinosaur tracks, this weekend visitors will also enjoy a street dance, parade and rodeo.

July 5, 12, 19, 26 Historical Homes Tour, Galveston. From 10 a.m.-5 p.m. each Friday in June, July and August eight homes dating from 1842 to the 1890's are open to the public. Admission is \$4 for adults. Children under 12 are admitted free with adults. Tickets are available at the Chamber of Commerce, 315 Tremont, and at the participating homes. The tour is self guided and the homes may be visited in any order.

July 11, 12, 13 Shelby County Sheriff's Posse Rodeo, Center. Performances for this Rodeo Cowboy Association approved event begins at 8 p.m. Tickets purchased in advance (Box 978, Center 75935) are \$1.50 for adults and 75¢ for children. At the gate admission is \$2 & \$1.

July 11-14 Spring Ho Festival, Lampasas. This third annual salute to the area's historic mineral springs carries a full slate of activities. The "Roaring Twenties" provide this year's theme with parades, concerts, dances, water activities, arts & crafts shows, flea markets, historical tours, antique cars, auction, fiddlers contest, and a variety of food concessions. For complete information write Spring Ho, Box 627, Lampasas 76550.

July 15-19 The 38th annual Deep-Sea Round-up, Port Aransas. Registration is July 15 for competition in the three divisions of (1) bay and surf, (2) light tackle, and (3) heavy tackle, deep sea. Fees are \$35 for contestants, \$20 for boatmen (captains & guides) and \$30 for those who don't fish, but want to enjoy the various meals, happy hours and social functions. Blessing of the fleet is scheduled for 6:45 a.m. July 16 and on July 19 a raft of quality trophies and prizes will be awarded to contestants. For further information write Tourist Bureau, Box 397, Port Aransas 78373.

July 18-20 The 85th Swisher County Picnic & Rodeo, Tulia. There is a rodeo every evening followed by a dance. On Saturday at noon there is barbecue on the courthouse square (\$2 per person) and in the early afternoon a parade. For information write: Ricky Stark, Route S, Tulia 79088.

July 27, 28 Texas Water Ski Championships, Austin. Held in Town Lake at Festival Beach this event gets underway at 9 a.m. Admission is \$1 and 50¢. For information write Austin C of C, Box 1967, Austin 78767.

LIFE IS FULL OF QUESTIONS

One of the most common we spell with just three letters, W-H-Y. As children we want to know the reason for everything. Why is snow cold, or sugar sweet? We grow into adolescence and the question is usually linked with restrictions: Why can't I? In maturity there are more and greater problems to solve, troubles and disappointments to overcome. And still we ask the age-old question, "Why?"

The Church knows our questions and our problems and invites us to come, bringing them with us.

In the Church we find new friends. Many of them have known sorrows and disappointments and through their faith have found courage. They will inspire us to try again.

Still more important we can learn to know the Christ. In His Divine wisdom He holds the answers to life's questions. In His love He invites all who need His help.
