## Joe B. Edens Dies At The Age Of 91

Joe B. Edens, long-time Schleicher county resident, died in the Schleicher County Medical Center last Saturday morning. He had lived in the nursing home for several years and had just recently observed his 91st birthday.

Services were held Monday afternoon in First Presbyterian Church with the pastor, the Rev. Gordon Garlington, officiating.

Interment was made in Eldorado cemetery under direction of the Ratliff-Kerbow Funeral Home.

Mr. Edens was born Oct. 29, 1883 at Comfort. He had lived in this county more than 50 years and was a rancher.

During his years here he was active in business affairs of the county, especially in the organization of the Southwest Texas Electric Co-Operative.

Joe B. Edens was elected to the Board of Directors of Southwest Texas Electric Co-Op August 12, 1946 and was elected treasurer August 16, 1947 and served in that capacity until he resigned in February 1963 when he sold his rural property and moved away from Schleicher county for a while.

He assisted in the organization of the co-operative and was a very capable and dedicated director.

He was also a long time member of the Eldorado Lions Club and attended meetings regularly as long as his health permitted. He was also a member of the Presbyterian Church.

Survivors include one daughter, Mrs. Ola Ruth Barbee of Eldorado; one brother, E. E. Edens of Big Spring; two grandchildren; and six great-grandchildren.

## Blood Response Was Overwhelming

The Blood Services of San Angelo mobile unit collected some 67 units of blood which were donated by the citizens of Schleicher county last Friday. The use of this blood will be designated as replacement value for the hospitalization and treatment of Gail Storie Whitten.

The response to the need of Gail was simply overwhelming. Based on a population such as we have here, approximately 40 units at the most could have been expected for which credit could have been given. The number who volunteered was actually many more than the Blood Services had anticipated even to the point that personnel from our hospital donated their time in order to relieve the technicians from San Angelo. At one point, there was a shortage of material needed to complete the day's work. Nothing, however, prevented the Blood Services from the job they had been sent to do and the last donor was accepted without problems.

It should be gratifying to all of us to know that we too could depend upon our fellow Schleicher County residents if such a need should arise. Dependable also were those who aided in setting up the blood volunteer program and coordinating the services. Mrs. Carol Schuck should be singled out for recognition by her work in communicating our desire for this program to the Blood Services, obtaining the necessary information to organize the program and especially her direct association with the Mobile Unit and the Hospital last Friday.

## Bake Sale Held For Gail Whitten Fund

## Loan Approval Paves Way For Co-Op System Improvements & Expansion

HEADQUARTERS BUILDING of the Southwest Texas Electric Co-Op has been a handsome fixture of the Eldorado business district for the past 15 years. Personnel are constantly improving the system.

## Jr. High Eagles Defeat Sonora Colts 12-8

In the toughest game this year the Jr. High Eagles defeated the Sonora Colts by a score of 12-8 on Eagle field last Thursday night. The Eagles ended the season with 8 wins and 1 loss record, scoring a total of 180 points with 84 points scored against Eagles.

The game began with Sonora receiving for a return to their own 33 yard line. The Colts fumbled and Eagle Wayne Gibson covered on the 36 yard line. With 6 minutes and 38 seconds still left in first quarter Sam Whitten carried for Eagle touchdown. The PAT failed giving Eldorado a 6-0 lead.

In the second quarter Sonora's Juan Castillo gave the Colts their first score. The 2 point conversion was good putting Sonora ahead with a score of 8-6.

With 4 min. 26 seconds left in first half Sonora kicked to the Eagles. A fumble on the play gave the ball back to the Colts on the Eagles 39 yard line only to have the Colts carry to the 29 yard line and fumble. Eagle Jerry Byrd covered with 4 seconds left in first half. Raymond Espinosa carried for Eagles second TD. The conversion failed leaving half time and final score 12-8.

With no scoring from either side the second half was mostly a defensive game.

Jimmy Aguilar was a great help to the team with 11 tackles. Lloyd 7, Gibson and Whitten 6 each, Garcia 4, Byrd and Cheatham 3, Fay 2, Espinosa and Hill 1.

The great effort, team work, and spirit from this jr. high team and their coaches this year has been a pleasure and credit to the school and town.

We would like to thank officials Buddy White, Paul Page Jr., T. P. Robinson, Tim Terry and Lynn Meador; also Bob Bradley for the statistics.

The coaches wish to thank the boys, parents, officials and school for their cooperation this season.

## City Council Denies Phone Rate Hike

At a recent meeting, the City Council of Eldorado denied the request from General Telephone for an across-the-board increase in rates for the local system, which serves all of Schleicher county.

The Council's action followed an earlier mass meeting at which local citizens were invited to express their views on phone service and whether Gen. Tel. should be granted an increase.

Opponents of the hike pointed out that Eldorado phone patrons were already paying higher rates than those in many other towns of sizes comparable to ours.

## Still Chance For Cotton Crop — If —

Drizzly weather cleared off Saturday and ended a long period of showers, and Sunday and Monday brought clear skies.

Weather predictions are that dry weather will continue and it may get dry enough for strippers to get back in the fields.

Gen Manager Kenith Homer gets the word from many farmers that they actually have a good crop. Clemens Sauer on high ground in Reynolds community says he expects to gather 3-quarters of a bale from his field once he can get his stripper in it.

This is in contrast with other low fields seen from the road where water has been standing for weeks.

## Eagles Lose Semi-Final Game At Menard 14-13

The Eldorado Eagles fell to the Menard Yellowjackets by a score of 14-13 last Friday night in Menard. The Eagles outplayed the Jackets statistically as they totaled up 305 yards to Menard's 206. Menard's win was credited mostly to fumbles, as Eldorado fumbled eight times, losing four of the eight.

The Eagles scored early in the first quarter when Elijo Rodriguez went 11 yards. Billy Donaldson made the point after conversion.

Menard's Joe Bob Hunger went across from one yard out for a score in the second period, but the point after attempt failed and the half-time score was 7-6, Eldorado.

The Jackets scored again early in the third period as Lee Murchison went two yards on a quarterback sneak for the score. Murchison then threw a 2 point conversion to Wiley Ellis.

Eldorado's final scoring play, still in the third quarter, came when Juan Montalvo went in from one yard out. A two point conversion failed.

This loss drops the Eagles to 0-4 in district and 1-8 for the year.

## We Already Have Wettest Since 1936

On page 2 of this Success issue we have the cumulative rainfall table for the past 38 years, and figures for the first 10 months of this year, 1974, show that we have already had 34.19 inches. The large amounts in recent months—9.11 in August, 9.43 in September and 5.80 for October—added much of the amount for a year that had the first two months completely dry.

The nearly 35 inches surpass all of the years since '36 when 48.70 inches fell. That was the year San Angelo had their big flood.

Since then, we have had a few 31-inch rainfall years, most recently in 1961.

We have these final two months of November and December to record rainfall, and how much more will be added remains to be seen. On Jan. 1st we shall see how close we come to the nearly 49 inches recorded back in 1936.

**IT PAYS TO BUY EARLY**  
Outdoor lights will be shining again this Christmas. The ban on outdoor lighting has been lifted and Americans again will have the opportunity to put their creativity to work. Chances are, there will be a new enthusiasm for outdoor lights after the sadly dark Christmas of '73. So it will be

important to stock up on Christmas decorations early. Here are four reasons why:

1. You'll have a greater selection. The stores will be stocked with imaginative lights in the fall, before crowds of shoppers have depleted the stocks. By December, it may be too late to find just the light you had in mind for that special effect you dreamed up.
2. Salespeople will not be rushed. They will have the leisure to talk with you and make suggestions both about design and electric circuitry.
3. There will still be time to order unusual lights that are not stocked and have them delivered long before Christmas. You therefore won't run into the problem of having a great idea but being unable to find that special light to bring it to life.
4. There will be a great deal of stock so that you can buy extra lights. Then, you can put up your tree early and have replacement lights if you need them. Also, you'll have the beginnings of next year's festival of lights.

**Postal Service Reiterates Unpaid Delivery Policy**

Postmaster Bernard Carr today reminded customers that effective Sunday, November 17, the U. S. Postal Service intends to discontinue delivering mail on which there is no postage.

Postmaster Carr said the new policy was instituted because of the high costs being incurred by the Postal Service in its attempts to deliver such mail. Officials estimate that such costs total approximately \$18 million annually.

In announcing the new policy last month, Postmaster General E. T. Klassen said, "It is unfair to burden the vast majority of mailers with costs created by the few who mail without prepayment of postage."

After November 17, letters mailed without postage will be returned to sender if there is a return address, or to the dead letter office, instead of being delivered to the address as postage due mail as has been the custom. Postal officials will attempt to find the sender of unpaid mail and return it for a slight fee, if there is no return address.

**As Donor Recruiter For Blood Services**

of San Angelo, I would like to extend a personal thanks to all the people of Eldorado who did so much to make the Blood Mobile for Gail Whitten the outstanding success it was.

The staff of Schleicher County Hospital were most helpful. Mr. and Mrs. Larry Schuck and three of the nurses, Nancy Wagoner, Ruthie Dacy and Pauline Hodges gave us invaluable assistance. Mr. Elton McGinnes aided the Blood Mobile Staff and Mrs. Calvin Kothmann did an outstanding job of coordinating. Another thanks goes to Sheriff Edmiston for the assistance he offered.

Of course, the greatest appreciation goes to all those who gave the "gift of life," a unit of blood.

Thank you,  
 Wanda Lee

RECEIPT BOOKS—Pocket size, and large desk size, for sale at The Success.

**SOILS SURVEY**

How soil surveys can help you is the subject of a new set of color brochures available from the USDA Soil Conservation Service.

The leaflets are designed to describe uses which can be made of soil surveys by nine different groups including homebuyers, builders, developers, land use planners, land appraisers, farmers, ranchers, construction engineers, and others.

District Conservationist Bill Rountree of Eldorado Field Office said single copies of the leaflets are available free from his office.

Soil surveys have been made on about 120 million acres of land in Texas as part of the National Cooperative Soil Survey. Additional land is being mapped at the rate of about 5 million acres per year.

The surveys are made by SCS soil scientists who examine the soil acre-by-acre. They record depth, percent sand or clay in each layer, acidity or alkalinity, wetness, flood hazard, and other features by soil name symbols on aerial photographs. After a county survey is completed, the survey is published for public use.

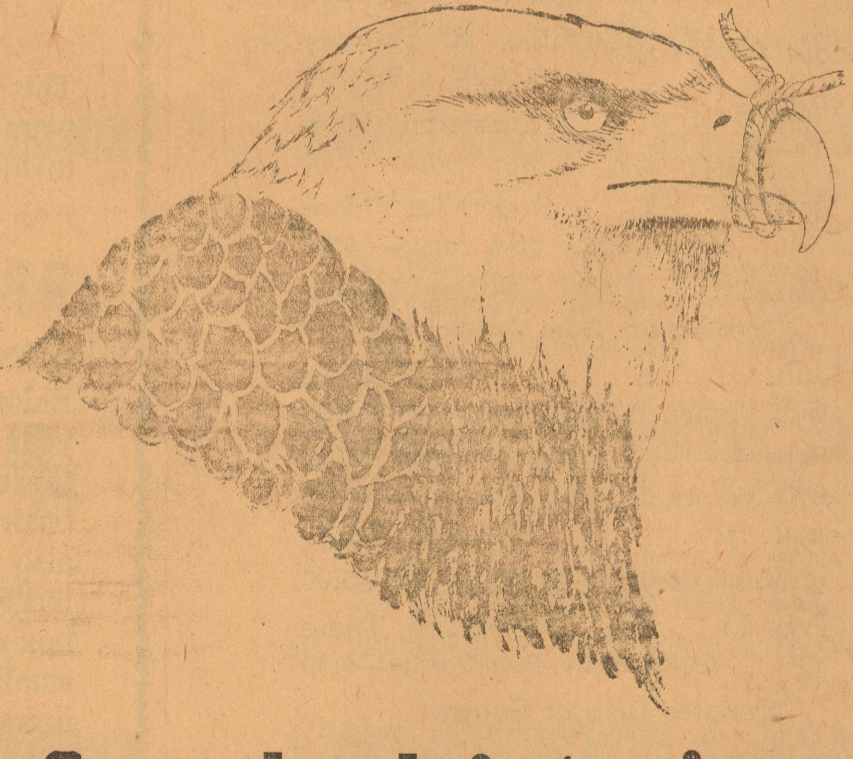

Bill said the survey for Schleicher County is about two-thirds complete. Until the report is published, soil survey information for all land mapped in Schleicher County is available at the Eldorado SCS office.

Soil surveys can be interpreted to determine suitability of soil for home sites, building foundations, septic tank filter fields, gardens, cropland, trees, parks, fill material, and other uses.

They can also be used to predict depth to bedrock; location of sand, gravel, or caliche deposits; corrosivity to metal pipelines; the shrink-swell hazards; and dozens of other features.

Bill urged anyone interested in soil surveys to contact his office for a free leaflet explaining how surveys can be used. If making your request by mail, specify your business or special interest so you will receive the leaflet designed for you.

The Eldorado SCS office is located at the top floor of the Courthouse. The mailing address is P. O. Box 459, Eldorado, Texas, telephone number 853-2720. The Eldorado Field Office is set up to give technical assistance to farmers and ranchers in the Eldorado-Divide Soil and Water Conservation District which consists of all of Schleicher County and party of Tom Green County.

**Somebody's trying to take something that belongs to you.**

**Right here in Texas**

In fact, somebody's trying to take something that belongs to all of us: freedom of speech. Somebody's undermining your right to communicate, to listen, to have all available information on a given subject.

Somebody's trying to tell certain Arkansas companies they may not advertise their services.

But advertising is just another word for communication. It is public information; it gives you a choice. It encourages new and better ways of doing things and helps continue the development of newer, better and more economical consumer goods.

Now, however, the right of certain Texas companies to communicate with their customers is in danger. This could ultimately have more far-reaching effects on free speech as we know it.

Right now, we want you to think very long, very hard and very deeply about advertising and about the good it does in America. We want you to think about its effect on business, on your own entertainment, on radio, television, newspapers and magazines, on your right to know.

We want you to think about the effect advertising has on your company's sales, and how the sales of your company affect your own life-style.

Right now, we want you to think very long, very hard and very deeply about the issue of free speech. Then we want you to write Governor Dolph Briscoe, State Capitol, Austin, Texas 78711, and your legislators and your friends and tell them how you feel.

The ball is in your hands. It's up to you not to drop it.

**Advertising is everybody's business.**

Letters From Readers

1728 Pulliam, #34
San Angelo, Tex. 76901
Oct. 24, 1974

Dear Mr. Gunstead:

On reading recently in your Post Script column, the fact that you received very few compliments on this column, I decided it was time for others to express their opinions on this, and here, at least, is mine. I enjoy this column very much and find it one of the more interesting and enjoyable features of your paper. I always read it first. I especially enjoyed the article about Lynn Altzander's collection, and as Historian of the Mias Amigas Club this year, I am using this in our scrapbook. Also, will use others of this particular column which will lend color to our history. Having been a "rookie" reporter on your staff at one time, I especially appreciate an editor's problems in getting news in and the problems of dealing with the public. I have just returned recently from a 20-day tour of the British Isles, and had a most enjoyable and wonderful time. I saw some very beautiful country, especially in Ireland and Scotland, and visited many historic places, including John Wesley's birthplace, the Rectory in Epworth, England, and his and Charles Wesley's tomb and chapel in London. Keep up the good work and best wishes to you and your family. Sincerely, Annie (Neill) Hogg P. S. I also enjoy the Nursing Home News.

Eagle Scout Association Organized For The Area

James M. Young was elected Chairman of the adult interest group and David Wiedenfeld was elected president of the youth interest group of the newly organized Concho Valley Chapter of the National Eagle Scout Association at its organizational meeting November 7 in San Angelo. Some 22 Eagle Scouts have joined the Association from the 23 counties of the Concho Valley Council, Boy Scouts of America according to Frank T. Hilton, Staff Advisor to the Chapter. The first order of business for the new chapter was approval of an Eagle Scout Roundup Program to locate all Eagle Scouts who live in West Texas. It is estimated that over 1,000 living men and youth hold the Eagle Award in the 23 counties. Formed in 1972 nationally, the National Eagle Scout Association plans to identify and involve Eagle Scouts in a meaningful fellowship that will enhance the program of the Boy Scouts of America. NESA provides all Eagle Scouts with the opportunity to continue active involvement with Scouting while maintaining and initiating friendship and experiences through the Scouting program. STATE CAPITOL

by Lyndell Williams
Texas Press Association

Austin, Tex.—Atty. Gen. John Hill, viewed as a likely gubernatorial candidate in 1978, emerged from the November 5 general election as the top statewide Democratic vote-getter.

While all the statewide incumbent Democrats won landslide victories over Republicans and minor party candidates, Gov. Dolph Briscoe ran last on the ticket.

But last was good for 62% of the total vote cast in the governor's race (nearly a million) and an apparent sweep of 21 but five counties by the governor.

Hill was followed closely by Land Commissioner Bob Armstrong in the vote-getting statistics.

While the attorney general received more than 74% of the votes over two opponents, Armstrong was less than a percentage point behind.

All but two of the statewide Democratic contenders topped well over one million votes, and most had more than 70% of their contest totals.

Treasurer Jesse James ran down the list and just ahead of Briscoe, but he still managed to finish with 64.7% in his race.

The turnout of just over 1.6 million was, percentage-wise, perhaps the worst in recent Texas history—about 31%.

While there were only 1.4 million votes in the 1966 general election and 1.5 million in 1972, there were far fewer than the present 5.4 million registered voters then.

GOP Hopeful . . .

Republicans, in spite of the drubbing they took in statewide elections, already are talking hopefully about rebuilding for the future.

GOP Chairman Jack Warren of Tyler said the state party will be zeroing in on 1976 legislative races and looking for a strong U. S. Senate candidate to challenge for Sen. Lloyd Bentsen's seat. GOP's from Texas will also want to have a say in the next big presidential effort, Warren emphasized.

There were bright spots in the darkness for the Republicans this year, Warren noted. He pointed to victories of Jon Lindsay for Harris County judge, John Whittington's upset of longtime Dallas County Judge Lew Sterrett and Nathan White's victory for the Collin County judgeship. The party had a net loss of one congressional seat (U. S. Rep. Bob Price in the Panhandle-North Texas district 13) and two state House of Representatives places in the November 5 general election.

One Primary Less

Raza Unida Party, which held its first primary this year, won't be conducting any more in the near future.

Under new election law, parties which receive 2 to 20% of the vote for governor must nominate in conventions. Raza Unida falls in this bracket, with about a 6% showing November 5.

Only Democrats and Republicans will nominate in primaries next time out, since both received more than 20% of the gubernatorial vote.

The American Party and Socialist Workers Party, if they get on the next ballot, will have to submit about 16,000 signatures on petitions. They needed 34,000 signers to qualify this year.

Speed Check Urged

Department of Public Safety Director Wilson E. Speir has urged Texas drivers "to make a greater effort to observe the 55 miles per hour speed limit."

Speir said surveys indicated more than 60% of all vehicles are exceeding the limit, including trucks. Speeding arrests are doubling this year, and DPS officers are concentrating on unsafe driving practices by commercial operators. Speir said the truckers frequently radio each other warning of law enforcement efforts.

Short Snorts . . .

Drought-hit Baylor and Borden counties have been designated disaster areas.

Larry E. Yorn resigned as first assistant Texas attorney general to return to Houston law practice.

Gov. Briscoe asked disaster area declarations for Anderson, Bell, Cook, El Paso, Hill, Hopkins, Limestone, McLennan, Parker, Palo Pinto, Sutton, Val Verde and Williamson counties due to rains, windstorms and tornadoes.

Cigarette tax revenues increased \$539,756 last month over October 1974, to \$21.95 million.

NEW VEHICLES FOR OCTOBER

During October, the following new vehicles were registered in Sheriff Orval Edmiston's office:

- C. H. Trigg, '75 Mercury station wagon;
H. M. Jones, '74 GMC pick-up;
Carrol White, '75 Olds 2-door.

Krueger Pledges Best Efforts As Congressman

Congressman-elect Bob Krueger, who will succeed retiring U. S. Rep. O. C. Fisher of the 21st Congressional District, is still jubilant after last Tuesday's election victory—and he's still working as hard as he did during his 12-month campaign.

"We have five different congressional offices to set up," the recently-elected Congressman explained. "There'll be offices in San Antonio, San Angelo, Del Rio, and New Braunfels because I want to keep in constant touch with the entire district."

Members of the U. S. House of Representatives are allowed to have three congressional offices in their home district and one office in Washington. Krueger's New Braunfels office will be operated at his own expense.

Krueger, a 39-year-old independent businessman and rancher who gave up a successful career in education to run for U. S. Congress, told a crowd of almost 1,000 well-wishers at his victory party last Tuesday, "This election is a victory for you because you are the ones who spent many hours working for a candidate you believed in."

On Monday of this week (Nov. 11), the congressional victor announced his plan to tour the 32-county 21st Congressional District "to thank the supporters and voters who bestowed this great honor upon me."

Krueger also made it clear that he wants to represent and serve those who voted for his opponent. "The campaign is over now, and the real tasks are ahead of us. Those tasks include working effectively for every constituent in the district, regardless of their occupation or political affiliation," Krueger asserted.
