**Our County's Roads**

Public Affairs Expert Points To Efficient Results Obtainable Under Unit System

(This is the second in a series of special articles on the "unit" system as it applies to Howard County.)

When Howard County voters go to the polls Saturday to determine whether or not the county shall retain its "unit" system of road administration, they will be settling an item deeply involved in the principles of improved county government.

This is brought out effectively by a student of Texas government, Lynn F. Anderson, in a lengthy article called "Centralized Road Administration in Texas." Anderson is assistant director of the Institute of Public Affairs at the University of Texas, and his article has appeared in two magazines, "The County Officer," and "County Progress."

Anderson writes in part: "Most obvious of the realizable values of unit road operation, of course are possible improvements in the vast network of roads under the counties' jurisdiction. In fact, this must be a basic accomplishment if the system is to have any significant impact on county administration in its broader aspects. Under the competent direction of a professional, experienced engineer, the unit plans should inherently make for a better planned and more soundly engineered system of roads than is possible under the precinct method where commissioners are untrained and frequently inexperienced in road construction and maintenance. Continued improvement of county roads, with an emphasis upon increased paved miles, demands more than ever the services of a qualified engineer. While such services can be, as they are in a number of Texas counties, furnished by a county engineer to the commissioners on an advisory basis, optimum results can be obtained only if the engineer is given an operating responsibility as well.

**Better Use Of Equipment And Personnel**

"There is no question but that more adequate equipment and better equipment usage can be obtained in most counties under a unit plan than otherwise. Similarly, the political implications of an elected road commissioner's hiring and firing road personnel in his own precinct are such as to suggest that better personnel utilization and management would parallel improved equipment practices. This does not infer that county commissioners are universally ward-type politicians with nothing but incompetents in the employ of their road departments. It does suggest that the best possible personnel be employed in road work and that such a goal is more readily reached under a system where an engineer is given complete administrative responsibility for the road system (including personnel) and where the commissioners restrict their role to that of being a legislative and policy-making body. This has certainly been the result of other local governments over the past half century, and there is nothing so unique about county government as to preclude a similar favorable experience there."

**Must Be Framework Of Helpful Cooperation**

Mr. Anderson also points out that the engineer has his own obligation to the court and the public. . . . "The must be receptive to public demands and criticism of the road system. With both the court and the public, the engineer should work in a framework of helpful cooperation and not attempt to force plans or ideas which at the time may not be fully appreciated. He must continually recognize the fact that he is the "hired hand" of the county governing body. As such, it is requisite that he carry out court policies with dispatch, to keep the court informed of the status of road affairs, and to make such recommendations to the court as will promote more efficient management of the overall road program."

The author is saying here, simply, that the coordinating of a complex road problem -- and any county's road problem is complex -- under a single operational head, must be a matter of principle, result in better roads, more judicious use of money, equipment, material and manpower, and this result in a saving to the county.

This is what the issue is in Saturday's election.

**NO CONFLICT SEEN**

**Communist Threat 'Never Greater'**

PARIS (U-P) — A high British officer warned the West today that the Soviet Union's military threat has never been greater but said he does not believe the Russians want to start a world conflict.

Speaking to the defense ministers of the 15-nation North Atlantic Treaty Organization, Gen. Sir John Whiteley, Britain's member on NATO's three-man executive standing group in the Pentagon, said:

"The Soviet's military threat to NATO has never been greater than it is today." Then he added: "I don't believe the Soviets want war and they will probably try to avoid it if there's an adequate deterrent."

Gen. Whiteley said Russia has achieved spectacular successes with jet fighters and bombers, with nuclear weapons and with submarines.

"Their progress," he declared, "has been much more than we had foreseen a few years ago. On the ground, he said, the Red army is "greatly strengthened in quality and equipment. It is in much better shape than ever before."

The British officer said the Russians have mastered the production problems of manufacturing jet airplanes for the H-bomb age.

"They've got a much better air force than ever before," he said. He showed the defense ministers secret photographic slides of some of Russia's newest planes and gave figures on their performances.

Whiteley said the recent announcement by Russia and her satellites of reduction of their armed forces by 800,000 men means no significant lowering of their ability to launch an attack. He said this was because the quality of weapons and trained soldiers have materially improved in the U.S.S.R.

The meeting was closed, but a

**Cabbie In Coma Nearly 20 Months**

Mrs. Ann Brookhouse, 36, prays at the bedside of her husband, John, 36, in a Chicago hospital where he has been in a coma nearly 20 months. Mrs. Brookhouse, mother of three children, has visited her husband, a cab driver, daily since he was beaten into unconsciousness on Feb. 13, 1954, after being robbed of \$18.

**Dulles Details Big Four Plans**

MIAMI, Fla. (U-P) — Secretary of State Dulles said today the United States will go into this month's Big Four foreign ministers conference with two sets of plans: One to meet any Russian obstruction and the other to exploit genuine Soviet harmony moves. Dulles also said in a foreign policy address prepared for the 37th Annual Convention of the American Legion:

1. World opinion eventually will force Russia to relax its grip on East Germany and to liberate satellite peoples in Eastern Europe. 2. Soviet acceptance of President Eisenhower's plan for aerial inspection and exchange of military blueprints would provide the basis for further international disarmament controls. "We can then confidently move on to international measures to reduce and control the instruments of death," Dulles said. His address carried particular worldwide significance because of two imminent events:

1. Dulles will fly to Denver afterward to give President Eisenhower his first briefing on international affairs since his heart attack. 2. Subsequently he will go to Geneva for the Big Four foreign ministers talks starting Oct. 27.

A flurry of activity directed at two organizations accused by some Legionnaires of being "soft" toward communism preceded the convention opening. The Legion's National Executive Committee accepted without dissent a report accusing the Fund for the Republic of having "left-wing biases."

Also, members of the Americanism and Foreign Relations committees held a joint meeting — without immediate decision — on whether the Legion should take a similar approach toward UNESCO, the United Nations Educational, Scientific and Cultural Organization.

The Fund for the Republic was set up in 1952 by a 15-million-dollar grant from the Ford Foundation to protect civil liberties and

to "restore respectability to individual freedom." The fund operates independently of the foundation. UNESCO, with a membership of 74 nations, has as its stated aim the development of peace through education and understanding, and the promotion of respect for human rights.

The report attacking the fund was drawn up by the Legion's public relations director, J. C. (See DULLES, Pg. 9, Col. 3)

**Substitute For Paving Due Test**

A new method of street stabilization was being tried in the city this morning. Taking an old retired fire truck, city street engineers mounted a "distributor" on it and are using it to spread asphalt on streets that are not paved. These streets will not have a base like regular paving, but the dirt surface will be mixed with asphalt to a depth of about four inches. The road will then be shaped and rolled.

The experimental street is Goddard, between Thirteenth and Fifteenth streets. Goddard carries quite a bit of water during Fifteenth and Eleventh during a heavy rain, according to City Manager Herbert Whitney. From Eleventh to Thirteenth, the street is paved, but the other two blocks are not.

This results in a "washout" every time it rains. By spreading the asphalt on the street, engineers hope to stop the washout and save the street. Considerable money is spent each year, by the city, hauling back the dirt and gravel that washes away during a rain on unpaved streets.

If the experiment on Goddard proves to be successful, then the city will probably undertake a program to put the asphalt on other streets that are not paved.

**Hitler's Ex-Valet Confirms Death, Cremation Of German Dictator**

BERLIN (U-P) — A roaring gasoline blaze consumed the bodies of Adolf Hitler and his bride Eva Braun while about 10 men of Hitler's staff watched in the garden outside the Fuehrer's Berlin air raid shelter in 1945.

That was the story — bottled up by the Russians for 10 years — told as an eyewitness account by Heinz Linge, Hitler's valet, who returned over the weekend from a decade of captivity in the Soviet Union.

"Hitler shot himself, Eva Braun took poison," said Linge in an interview yesterday. "I carried his body out of the bunker, and then helped pour gasoline over it. We watched it burn for about five minutes."

The body of Eva, Hitler's mistress until he married her the day before the double suicide, was carried out from the underground boudoir and dumped on the grass in the Chancellery garden by Otto Guenzsch, an adjutant, while Sov-

**Ex-Lorraine Man Electrocutured As Pipe Hits Wire**

COLORADO CITY — Lester D. Crawford 33, of Jacksboro, was electrocuted Sunday afternoon 12 miles south of Lorraine, while handling irrigation pipe.

Crawford, in Lorraine for a homecoming celebration, and Bob Looney of Lorraine were lifting a three-inch irrigation pipe and struck the wires running to a water pump. Both were thrown to the ground and when Looney regained consciousness, he found that the electricity had set fire to the grass. Pulling Crawford from the path of the flames, he gave him artificial respiration and when he failed to respond, put him in his car and carried him to the Johnson Hospital in Lorraine, where he was dead on arrival.

Looney was treated for burns to his right hand and for shock and left the hospital Sunday afternoon. Crawford was a herdsman for the W. R. Johnson Polled Hereford Farms of Jacksboro, but had taught Vocational Agriculture at Lorraine from 1948 until 1953 and had worked as foreman of the Dr. Bruce Johnson Ranch at Lorraine for one year before moving to Jacksboro.

Crawford is survived by his parents, Mr. and Mrs. Charles Crawford of Willow Point, his wife, two children, Mary Jo and Charles Edward, two sisters, Mrs. Alvin Hart of Bridgeport and Mrs. Link Allen of Bakersfield, Calif., one brother, C. D. Crawford of Albuquerque, N. M.

Funeral arrangements will be announced by the Kiker and Son Funeral Home in Colorado City.

**Absentee Voting To Close Tuesday**

Closing at 5 p.m. Tuesday is the absentee voting period for the county unit road system election, to be held Saturday.

Only seven absentee had been marked shortly before noon today, County Clerk Pauline Petty reported. The votes may cast until the clerk's office closes Tuesday afternoon.

**West German Socialists Hail Defeat Of Adenauer**

BREMEN, Germany (U-P) — West German Socialists exulted today in a sharp rebuff handed Chancellor Konrad Adenauer's rearmament policy by the voters of Bremen state.

In elections for a new State Parliament, the anti-rearmament Socialists, yesterday captured a majority — 52 seats — in the 100-member legislature and rolled up their biggest popular vote ever in the state, a center of industry and shipbuilding.

With only 46 of the 92 seats in the outgoing Parliament, the Socialists had had to govern in alliance with Adenauer's Christian Democrats and the Free Democrats.

The election campaign was fought over the Bonn government's membership in the North Atlantic Alliance and its plans to build a 500,000-man armed force for Western defense. Socialist leaders charged these pro-Western policies were blocking Soviet agreement to the reunification of Germany.

Hoping to end the Socialists' dominance in the state, the Christian Democrats tried to capitalize on Adenauer's Moscow agreement to establish diplomatic relations with the Soviets in exchange for release of German war prisoners.

part by another returning POW, SS Gen. Hans Baur, Hitler's personal pilot. Baur told newsmen at Camp Friedland in West Germany he was in the bunker April 30, the day of the suicides.

"I went into Hitler's apartment in the bunker to get my last orders," he said. "Hitler said goodbye to me then, remarking that he would now take his own life since the military situation had become hopeless."

Baur said he learned when he returned two hours later that the two had killed themselves, but he did not actually see the bodies. Linge and Baur may be summoned to testify before a Serebrenskoy court which is expected to rule this month whether Hitler is dead. He has never been declared legally dead.

The aides' stories were substantially the same as had been reconstructed by Western investigators years ago. But the West had

**Contract Approved**

Margaret O'Brien, one-time child star, had her new motion picture contract approved by Santa Monica, Calif. Superior Judge Orlando H. Rhodes. The actress, now 18, has been signed by David Butler Productions Inc. to do a feature film at \$2,500 a week.

**FAR ENOUGH, EH?**

**Gina Gives Views On 'Everything'**

By JAMES BACON HOLLYWOOD (U-P) — Gina Lollobrigida wrote, "For me, sex has gone far enough." Then she disproved herself by enclosing a revealing photo.

In fact, the photo proved beyond all doubt that this is the one woman who even can make jeans look sexy.

The luscious Italian star, whom I've never met, wrote me in English and gave her views on everything from falsies to Tony Curtis.

There will be some people who will contend that the letter, posted in Paris, came at the urging of her publicity man. Beware of such people, for they are cynics. Gina, of course, is shooting the

movie "Trapeze" in Paris with Burt Lancaster and Curtis. Of her costars, Gina writes: "Tony—he is young manhood. I can understand why he is the great love of those American Roberto-stocking girls."

She explained that Roberto-stocking is Italian slang for bobby soxer. Lancaster? "That man has strength. I catch my breath when I think of him."

The next paragraph concerned her husband, Milko Skofic. "Milko is more than my husband; he is my personal physician. He is my favorite reporter. He is my tennis coach, my business manager. Above all he is the guardian of my happiness."

Skofic recently disclosed that he performs another chore: "When fans send her candy, I eat it."

On falsies, the well-rounded Gina commented: "Sometimes I must feel sorry for some of the American men."

On her role in "Trapeze," where she performs on the swinging bars: "Three times I fell into the net. The last time my fear took my voice and I could not speak for one day."

Finally, on the subject of sex: "For me, sex has gone far enough. The public will think I can only love, that I cannot do the great dramatics. I am going to give them something to remember me by besides my figure. In 'Trapeze' there is plenty of myself here for the public to look at. But I've got dramatics too. A little something for everybody."

**Supreme Court Bans Petition For Boundaries**

WASHINGTON (U-P) — The Supreme Court today rejected a government request that it fix Louisiana's seaward boundary at three geographical miles from its shore.

Ownership of underwater oil reserves worth untold millions of dollars are involved in the dispute. The Justice Department had asked the tribunal to strike down Louisiana's claim that its boundary extends into the Gulf of Mexico for three leagues, or about 10 1/2 miles.

The Supreme Court's refusal of the government's request was announced in a brief order which gave no reason.

The order noted that Chief Justice Warren and Justices Clark and Harlan took no part in consideration of the case. The vote thus was 6-0.

Atty. Gen. Brownell had asked the court to settle the boundary question as soon as possible because of "serious operating problems in the development of offshore oil reserves."

Brownell's motion cited the 1953 congressional act relinquishing the miscalled "tidelands" to the states. Brownell said Congress did not fix Louisiana's seaward boundary in the act, but contemplated that the Supreme Court would determine it to be as it existed when the state entered the union. At that time it was three miles from shore, Brownell said.

Louisiana in reply asked the high court to hear arguments on Brownell's motion, then dismiss it. The state said the court had no jurisdiction over the boundary question. It cited a comment in the high court's 1950 opinion in the original Louisiana submerged lands case.

In that opinion the court said the federal government has paramount rights in mineral lands underlying the gulf and extending seaward 2 1/2 miles from low water mark. The comment was that "the matter of state boundaries has no bearing on the present problem."

The 1953 act overrode the court's 1950 decision. Louisiana protested that Brownell was trying to reopen a case already finally determined in the 1950 court term.

**First UF Unit Starts Campaign**

Advance gifts division volunteers took the field Monday afternoon as the gears of the United Fund were meshed into action for actual solicitation.

Tuesday noon the Special Gifts division will kick-off its campaign, and Thursday the Employee Gifts group will begin pushing for its objective.

Emphasis was placed Monday upon the necessity of impressing donors of the increased United Fund goal, and thus of the need for still greater generosity on the part of contributors.

Eleven agencies are participating in the UF this year. Adolph Swartz, chairman, explained included are the Red Cross (\$15,500), YMCA (\$12,175), Salvation Army (\$12,250), Boy Scouts (\$11,500), Girl Scouts (\$5,550), Service Center (\$5,400), Big Spring Milk & Ice Fund (\$2,700), Cancer (\$3,900), Heart (\$750), West Side Recreation Center (\$890), Citywide Summer Recreation Program (\$1,750).

Swartz pointed out that virtually all UF money to the agencies stayed in Big Spring and Howard County or, as in the case of the Red Cross, more actually came back than was sent out. Girl Scout and Boy Scout funds, he continued, go to maintain executives who serve units in the county and immediate area. In most cases funds are expended here in toto.

Tuesday's kickoff luncheon for the Special Gifts division is set for room No. 1 in the Scollies, and the Rev. Clyde Richards, minister for the First Christian Church, is to deliver a short inspirational talk. Dr. W. A. Hunt, chairman of the division, is to outline mechanics of the campaign and needs of increased giving to meet the greater needs of the agencies which make up the United Fund.

**Nixon Trip Delayed**

DENVER (U-P) — The White House today announced postponement of Vice President Nixon's scheduled November trip to the Near East because of President Eisenhower's illness.

Happy Democrats

Former President Harry Truman, right, and Gov. Averell Harriman of New York appear to be enjoying themselves immensely as Truman arrived in Albany, N.Y., to visit the governor and address Democratic candidates for state offices who were meeting in Albany.

PREMIER PRESSED

N. Africa Reform Program Ordered

PARIS (AP) — Premier Edgar Faure was under orders from the National Assembly today to push ahead rapidly with his Moroccan reform program. But there was no immediate indication of decisive new government action.

By a surprising 477-140 vote, the Assembly early yesterday approved Faure's plan for home rule in the violence-ridden North African protectorate. The debate before the vote made clear, however, that many of the deputies will be out for the Premier's scalp if he doesn't press on quickly with the promised reforms.

Such a withdrawal of support could come in the Assembly debate on Algeria, beginning tomorrow.

Only the initial step in the Premier's program — the retirement of Sultan Mohammed Ben Moulay Arafat — has been carried out. The Assembly's resolution called for the immediate formation of the planned regency council to take over the Sultan's powers and then of a representative Moroccan government to negotiate for more power from France.

Formation of the regency has been stalled by the refusal of the French resident general, Gen. Pierre Boyer de Latour, to appoint Si Bekkal, former pasha of Setrou, to it as the representative of Sultan Mohammed Ben Youssef. Si Bekkal is bitterly opposed by French colonists in Morocco fighting any concessions to the nation-

SCS Dams Topic For Water Meeting

GALVESTON (AP) — The Texas Board of Water Engineers had a new problem for an attempt at solution today.

Do U. S. Soil Conservation Service flood control dams dry up the lower reaches of Texas rivers?

Holding its 11th annual meeting here, the Texas Water Conservation Assn. yesterday framed for convention action a request that the state engineers and the U. S. Geological Survey find out just what effect these dams have on water supplies downstream and how they affect farms, ranches, cities and industries.

Harriman Sees 'No Obligation' To Help Adlai

NEW YORK (AP) — Gov. Averell Harriman says he has "no obligation" to support Adlai E. Stevenson for the Democratic presidential nomination next year, despite past statements in Stevenson's favor.

At the same time, he said he himself is not and has not been a candidate for the nomination. He commented, however, that he does not believe a man of his age — he will be 64 next month — is too old to be president.

Harriman talked about the presidential nomination yesterday in answer to questions on the CBS television program Face the Nation.

After saying he has no obligation to support Stevenson, he said he and the 1952 Democratic candidate "understand each other fully."

Asked if he felt "morally bound" by what you have said in the past, Harriman replied: "No, not at all morally bound. I have said I was for Adlai but I never said I was going to support him at the convention."

Harriman, who bid for the presidential nomination at the 1952 convention, added, "It is not for me to say at this time whom I would support next year."

He said he hopes to be part of the New York convention delegation and "we'll decide together whom to support."

Harriman's claim that he is still free to choose his candidate came after a weekend visit from former President Truman. Like Harriman, Truman in the past had said he favored Stevenson, but at a news conference in Albany, N.Y., declared he was neutral.

Cardinal Dies

VIENNA, Austria (AP) — Theodor Cardinal Inzinger, 79-year-old head of the Roman Catholic Church in Austria, died yesterday of a heart attack.

Molotov's Future Gets A Bit Cloudy

MOSCOW (AP) — A cloud has blown up over the future of V. M. Molotov, the veteran Soviet foreign minister, less than three weeks before the opening of the Geneva foreign ministers' conference.

The Old Bolshevik has admitted making a mistake on an obscure point in Communist ideology, and Western diplomats here today were trying to guess what is afoot.

Possibilities mentioned ranged from a shift in Soviet foreign policy to a new struggle for power in the ruling circle.

"The ideological point raised is so obscure that it seems his recantation can only be a pretext for disassociating Soviet foreign policy from a man with whom the Presidium does not agree," said one Western observer.

He added that there was no apparent reason for "such a quick solution as discrediting a man who has been foreign minister for 15 years."

In a 500-word letter printed by the magazine Communist, Molotov confessed he had made a mistake in a speech to the Supreme Soviet Feb. 8 when he referred to the Soviet Union as a country where "the foundations of socialist society already exist."

What he should have said, he explained, was that the Soviet

Union has already built a socialist society superstructure and is ready to proceed to communism.

Such an error, he said, was theoretically and politically dangerous, and a contradiction of numerous official party decisions.

The Supreme Soviet to which Molotov spoke was the one at which Georgi Malenkov resigned as premier and also confessed faults.

One Western diplomat said it was a "peculiar time" for the foreign minister to admit errors publicly, just before the Geneva meeting. This source added that he wondered if Molotov would represent the Soviet Union there.

Even if he does go, the diplomat said, he has been downgraded to "just a messenger boy."

One Western diplomat pointed out that Molotov has always been associated with a "hard foreign policy" toward the West, while the Soviet is now pursuing a "smiling" policy. His Feb. 8 speech was still along the hard line, but it was not on foreign policy that he admitted error.

Freed Reich PWs Reach W. Germany

CAMP FRIENDLAND, Germany (AP) — A group of 118 returning German prisoners of war who defied Communist pressure to settle in East Germany arrived at this West German repatriation camp today.

So far 310 prisoners of the Soviets released in East Germany have won their way to West Germany instead.

Another 138 were taken to West Berlin at their demand, among them Heinz Linge, Hitler's valet.

The new arrivals at Friedland and Berlin were among 610 who came in from the Soviet Union to the East German repatriation camp at Fuerstenwalde Saturday.

New Atom Test Series Planned

WASHINGTON (AP) — Planning is reported under way for a new series of atomic tests next month at the Nevada Proving Grounds.

The reports, which had no official confirmation, were that the proposed tests might involve change in some existing devices and might provide further information on radioactive fall-out.

There was speculation that additional information on either or both of those points might be a part of preparations for a new series of hydrogen tests in the Marshall Island testing grounds next year.

The new Nevada test series, it was understood, is being planned on only a small scale. At the conclusion of the spring series, observers were given to understand no further tests were planned there this year.

Effective immediately, entries will be accepted in the Big Spring Herald's Crossword Puzzle Contest ONLY FROM BONA FIDE RESIDENTS (including military personnel stationed therein, and members of their families) FROM THE FOLLOWING TEXAS COUNTIES: BORDEN, DAWSON, GLASSCOCK, HOWARD, MARTIN, and MITCHELL.

**PUZZLE NO. 36**

HERE ARE THE CLUES

CLUES ACROSS:

- An observant wife will know what sort of ..... her husband likes best.
- The threat of a ..... might make a certain type of man change his mind.
- A doctor will occasionally recommend that a person on a diet do without it.
- Perhaps remembered because of the very fine trees.
- Wild animals are kept in them.
- May well land youngsters in trouble.
- Not very busy.
- Perhaps heartily disliked by a studious sort of person.
- Black substance.
- Impatient little sound.
- You'll find a good traveling salesman will try to establish these with his customers.
- An expert at chess is likely to ..... a trap.
- Conflict on a large scale.
- Such a man must exercise careful discrimination at all times on his job.

CLUES DOWN:

- Ramblers might be described as ..... of the countryside.
- A type of snake (plural).
- River in Germany.
- ..... officials aren't likely to be particularly popular.
- Large stone.
- One of a pair used by a rider.
- It's really quite difficult to ..... a bull.
- Never overlooked in an efficient department.
- Not bright mentally.
- In a fight it's possibly a man who is ..... who might turn the other cheek to his assailant.
- Old ones may contain quite a lot that is of historic interest.
- United States of America.
- Word meaning "born."

Use this blank to order your Herald Just Make A Check Mark

MAIL TO PUZZLE EDITOR, Big Spring Herald

**COMPLETE THE BLANK — GET ENTRY TO HERALD BY 8 A.M. THURSDAY**

READ THESE RULES

- Contest open to all bona fide residents (including military families residing therein) of Borden, Dawson, Glasscock, Howard, Martin and Mitchell Counties, Texas, and only to residents of these counties. Employees of the Big Spring Herald and members of their families are not eligible.
- Entries must be made in crossword puzzle form. They can be on the blank printed here for your convenience, or on a separate sheet. However, machine duplicated puzzles will not be accepted. Pencil entries must be of your own handwriting, and must be done on one side of puzzle printed here.
- Each individual is limited to TEN (10) entries. Add members of a family may submit up to 10 entries each.
- A cash prize of \$500 will be paid for the correct solution. If more than one correct solution is received, the prize will be divided equally among the winners. If no correct solution is received, the prize will be increased by \$50 each week until there is a winner. In addition, The Herald will pay an additional award of \$50 to the winner in a regular subscription to the Big Spring Herald, either by home delivery or through the mail. Another \$25.00 will be paid to the winner whose mail entry is submitted by postcard and not by home delivery.
- IMPORTANT: There is only ONE correct solution and only a correct solution can win. There is only one correct word in the decision of the judges in the BEST word filling the definition of each clue. The decision of the judges shall be final and all contestants taking part agree to accept these decisions as a condition of entry.
- After you have completed the puzzle, clip it evenly and mail or deliver to the Big Spring Herald—or to any participating merchant who offers a bonus to winners. Mail entries MUST BE POSTMARKED BY MIDNIGHT WEDNESDAY, OCTOBER 12. Entries delivered to special mailers shall be deposited by 8 A.M. Thursday, Oct. 13. Any entries received after this deadline will be returned unopened.
- Winners and the correct solution will be announced in The Herald Friday, October 14.

### Death Takes UT Professor, Dr. W. J. Battle

ROCKY MOUNT, N.C., Oct. 10 (AP)—Dr. William James Battle, with whom the University of Texas grew up and one of its presidents, died here yesterday at the age of 84.

Dr. Battle spent 62 years with the university—from the time it was 10 years old—until last spring when he became ill.

He officially retired in 1949 but continued as emeritus professor. The funeral was to be held today at Raleigh, N.C.

He was interim president from 1914 to 1916. His official position was professor of classical languages. He was dean of the college of arts and sciences (1908-11) and dean of the faculty (1911-14).

The professor, often called the "grand old man" of the university, left his mark almost everywhere on the campus and in classrooms. He designed many buildings as chairman of the faculty building committee for 25 years; designed the seal of the university, helped elevate academic standards and founded the university cooperative to help students get more for their money in supplies and books.

As a youth, he hiked through Spain and Greece and grew to love southern European architecture. This love is reflected in the design of many campus buildings.

Dr. Battle never married. In recent years he explained this with this quip: "Each year I grew less attractive and more particular."

He came to the university in 1893 as associate professor of Greek. Before that, he had taught at Harvard and the universities of North Carolina, Chicago and Cincinnati.

His father was president and history professor at the University of North Carolina and the future president of the University of Texas began his studies of Greek when he was 12.

A devout member of the Episcopal Church, he had long served as senior warden of All Saints Chapel near the University of Texas campus.

Dr. Battle received his bachelor of arts degree from the University of North Carolina and master of arts and doctor of philosophy degrees from Harvard.

He was a member of the American Philological Assn., American Archaeological Institute, Hellenic Society (London), Texas Historical Assn., Fellow Texas Fine Arts Assn. (president 1923-29), Texas Philosophical Society (president, 1941), Texas Classical Assn. (president), Classical Assn. of the Middle West and South (president, 1929-30), managing committee of the American School of Classical Studies of Athens, Greece, Phi Beta Kappa (president, Texas Alpha), Zeta Psi, Harvard Club of Austin (president), University Club of Austin (president, and Scholia Club of Austin.

### Rocket Research Firing To Increase

WASHINGTON (AP)—In the 18 months from July 1957 through December 1958 the United States will launch more than twice as many high-altitude rockets as it has fired in the past 10 years.

About \$1,700,000 has been budgeted for this effort, in addition to the 10 million dollars or so expected to be spent during the same period on the much more ambitious, but closely related, space satellite project.

The details of the U.S. rocket research program during the 1957-58 International Geophysical Year were discussed in a speech to the American Rocket Society here last week by Dr. Homer Newell, acting superintendent of the Atmosphere and Astral Physics Division of the Naval Research Laboratory.

The laboratory has been assigned all the rocket projects, including the satellite program. Six to 10 satellites about the size of basketballs are to be rocketed to altitudes of 200 to 800 miles in an attempt to get them then to orbit for months or longer around the earth.

Newell said that during the 1957-58 period the United States will launch:

1. A dozen Aerobee rockets from White Sands, N.M., and another 33 from Fort Churchill on Hudson's Bay, just below the Arctic Circle in Canada. More than 140 Aerobees have already been fired, to altitudes as high as 123 miles.

2. A number of Nike-Deacon combination rockets, also at Fort Churchill. The 25-foot-long Nike is the Army's standard anti-aircraft missile. Its power plant is attached to the Deacon rocket to give the latter added range.

3. Four dozen or more Deacon-Skyhook balloon combinations, off Greenland and northern Canada in the Arctic, a like number from ships in the Pacific off San Diego and another four to six dozen from ships on a track south from the Equator to the antarctic. The Skyhook balloon carries the Deacon to a height of many miles, from which the rocket is launched. The combination is called the Rockoon, and more than 30 of them have been launched, to as high as 60 miles.

Hundreds of Rockoons—three-inch rockets and other small types launched from jet aircraft at high altitude, in the Chincoteague, Va., area.

### Parr Plea Of Abatement In Recovery Suit Denied

JOURDANTON, Tex. (AP)—A plea of abatement in one of the two recovery suits pending against George Parr, South Texas political boss, was denied yesterday.

The plea—to delay the hearing of the suit—was turned down by Dist. Judge R. D. Barrow. Parr's attorneys claimed a similar suit at Laredo had priority.

Barrow also set the trial for Oct. 31 in LaSalle County District Court. The suit is one of two which are almost identical except for the persons who filed them.

Both seek recovery of money from Parr that he used to buy his 55,000-acre Double Ranch in South Texas. Everyone, including Parr, admits that he got the money from Duval County to buy the ranch.

The state and the district attorney first filed suit. Then the Duval County Commissioners' Court filed a suit. Both suits seek recovery of the money for the county.

But the commissioners court claims the money was a loan. In that case, Parr would not have to pay income tax on it. The state's and district attorney's suit does not call it a loan and presumably Parr could face income tax claims against the money.

The original suit was filed at Cotulla by Texas Atty. Gen. John Ben Shepperd and Dist. Atty. Sam Burris. This suit seeks recovery of the ranch, any remainder of the \$500,000 Parr obtained, \$500,000 rental and an unspecified sum for oil royalty values.

Another suit against Parr has been filed by the state's attorneys at Alice seeking recovery of another \$172,500 allegedly taken from the Duval County Road-Bond Sinking Fund in 1947.

Nixon Leaves For Denver

Sherman Adams, the President's chief deputy; Vice President Richard Nixon; Dr. Paul Dudley White, Boston heart specialist; and Major John Eisenhower, the President's son, left to right, pose at Washington National Airport before boarding an Air Force Constellation for the flight to Denver where President Eisenhower is recovering from a heart attack.

### WILL HE RUN AGAIN?

## Ike Resigns Self To Prospect Of Long Period Of Recovery

DENVER (AP)—President Eisenhower cheerfully resigned himself today to a long period of recovery which may keep him out of the White House for the remainder of the year.

And the prospects that he will retire at the end of his present term were heightened by expert medical opinion that it is impossible to say now whether he will be "physically able" to run for re-election in 1956.

While progress from his heart attack of Sept. 24 has been satisfactory, and his morale is high he has agreed to a decision of his doctors to keep him at Fitzsimons Army Hospital for about another month.

These things became clear as the aftermath of a Sunday news conference at Lowry Air Force Base. Dr. Paul Dudley White, noted Boston heart specialist, speaking for himself and the President's bedside doctors, said:

1. The President will not fly to his farm at Gettysburg, Pa., for at least four weeks and maybe not until the end of five more weeks.

2. Eisenhower is not "100 per cent" out of danger and it still is "too early to say" whether he will have "a complete recovery," but he has passed the period when complications normally would occur.

3. He thinks it should be "close to the first of the year" before the President goes back to the White House.

4. The President is "happy" at the hospital and will need a bit of work—such as his conference next Tuesday with Secretary of State Dulles—to keep him from "bubbling over" and to "protect his heart from the effects of his overactive brain."

5. The President, who will observe his 65th birthday next Friday, met

with Vice President Nixon yesterday for the second day in a row, and they set up a schedule for Cabinet members and other top executives to begin visiting Eisenhower.

The 42-year-old Nixon, one of the men frequently mentioned in speculation over possible GOP candidates, if Eisenhower bows out, found the Chief Executive in a gay mood when he visited him with Sherman Adams, Eisenhower's chief deputy.

The President was decked out in a loud bow tie of red and white figures on a dark green background, clipped to the collar of his gold-colored pajamas.

"The President said that he and his morning nurse had been planning that as a surprise for Mrs. Eisenhower for the last three days," Nixon told reporters.

Nixon said Mrs. Eisenhower told him later that she "practically rolled on the floor" when she saw the setup.

Nixon said the President showed a "vital interest" in national and international problems and specified "several subjects" he wanted to talk to Cabinet members about. He didn't name them.

And Nixon told a Saturday night news conference "there was no discussion of the future as far as political problems were concerned" in his private talk with the President earlier in the afternoon.

Personal friends of Eisenhower say they expect him to have the biggest voice in the selection of his successor as GOP nominee. They have insisted from the time of his seizure that he will not run again.

"The decision to keep the President at the hospital here instead of flying him to Gettysburg sooner was due to a number of factors, among them, the desire to avoid taking him to his plane on a stretcher."

"The President, I might add," Dr. White told the news conference, "accepted this program gracefully, and asked us not to rush his treatment—which we do not intend to do anyway."

"He does not wish to have to be carried onto the plane, even if by doing so he might get away from here earlier."

Dr. White said that sometimes early moving of a patient "may be a little hazardous."

"I might add that the President is used to his doctors and nurses here," the physician continued. "He is happy—some excellent countryside with very nice views all around him, and we hope he may do a little painting a bit later."

The President is sufficiently improved, his doctors say, to have his bed rolled out on the porch near his eighth-floor room to get

what White described as "a magnificent view of the Rockies."

One of the reasons for keeping the President here, White said, is that it will be "quieter" for him to be "away from more temptations to get into things too deeply" than would be the case in the East.

Maj. Gen. Howard M. Snyder, Eisenhower's personal physician, chimed in on a point to say it is "almost an absolute probability" that Eisenhower will be flown to Gettysburg when he leaves here.

There the President likely will have "a month of rehabilitation" and light "recreation" in the process of returning to a "normal life," Dr. White said.

"Many patients return to work gradually in the third month, but some patients don't get back till the fourth month or the fifth month," he said.

As for the immediate future, the doctors unanimously endorsed a stepup in the President's schedule on handling government business and seeing officials.

His conference with Dulles, in which they will go over the agenda for the foreign ministers meeting in Geneva starting Oct. 27, will be limited to 15 minutes, but the President "is going to be allowed to express his opinions."

"I think it is going to be very helpful for the President," White said. "We feel quite sure—and this is often true and usually true—that when a person worries and thinks over what he ought to be doing, it may do his nervous system, and thereby his circulation and heart, more harm than to have a little mental activity which is not going to be strenuous."

### MacFadden Sick

### How Mrs. Littlejohn's telephone helps her through busy days

Did you ever keep a record of all the telephone calls you made and received for a week?

Mrs. Littlejohn did. She is one of a group of telephone customers we asked to keep a diary of all calls made and received for one week. Like others in the group, she was genuinely

surprised at how much she depended on her telephone service . . . and how little it really cost.

Altogether, she made and received 58 local calls in the seven days, and she estimates that they covered a total of about 345 miles. Here are some typical calls Mrs. Littlejohn recorded.

This is Mrs. Felicia Littlejohn. She and her husband, Horace—who works for an electronics firm—have one child, two-year-old Susan.

**12:00** My husband's daily call, which I always look forward to. I told him all was well at home. 12 miles.

**1:00** Made dental appointment for Horace. He's too busy to call—and I'm more apt to remember date and time. 2 miles.

**1:30** Called cleaner's to see if our clothes were ready. I save trips this way—and to me that's important. 2 miles.

**3:30** Dottie, a friend, called to thank me for the housewarming. I gave her her Sunday. It turned out so well. 10 miles.

**7:30** Horace's Dad cut himself trimming the hedge. Called to tell us he's back from the doctor's and O. K. 6 miles.

Hal Boyle

You Don't Have To Enjoy Life

NEW YORK (AP)—Curbstone reflections of a Pavement Plato: Are you a life hater? When you see somebody happy, do you secretly want to see him miserable? Do you stir in everyone you meet a desire to serve you as a pallbearer?

Always walk the same way home. Avoid all change of any kind. Change and variety spice life, and you don't want yours spiced. 6. Avoid marriage at all costs. Matrimony works oddly. It gives a man more to holler about — but it also makes him live longer.

Around The Rim Nobody's Done Away With Fuel Yet

People are ready to believe anything, if they want to hear about something against which they're prejudiced. Take the automobile and gasoline business, for example. How many times have you had your ear bent by an individual who claims to have been oriented about an person who had invented a machine that would reduce consumption of fuel to practically nothing.

Inez Robb

She Puts In A Plug For Scandinavia

And so, at the end of a fine journey as I bid a really fond farewell to the Scandinavian countries, I wonder (1) why it has taken me so long to get around to visiting such a pristine, vigorous and refreshing corner of the world and (2) just how long it would take me to scrape up enough cash to return.

Hollywood Review

Groucho Got Plenty Of Salad

HOLLYWOOD (AP) — "You can't underestimate the power of television," says Groucho Marx, and he's got the potato salad to prove it. Recently Groucho happened to remark on his NBC quiz show that you can't hardly get good old-fashioned German potato salad any more.

Business Mirror

It's A Very Pleasant Autumn

NEW YORK (AP)—Merchants are enjoying a very pleasant autumn. Store sales ride high above a year ago. Chains and mail order houses report booming business in September. Shoe sales volume is up. Diamond merchants say their sales are setting a new record.

The Big Spring Herald

Published Sunday morning and weekday afternoons except Saturday by APPLIED NEWSPAPER, Inc., 900 Main St., Dallas 10, Texas. Entered as second class matter July 15, 1928 at the Post Office at Big Spring, Texas, under the act of March 3, 1879.

Mr. Breger

'No, sir, we do not have a Davy Crockett remedy for flat feet...'

More California Fruit

BERKELEY, Calif. (AP) — Production of delicious fruits — apples, apricots, cherries, grapes, freestone peaches, pears and plums — increased 21 per cent in California in the 1949-1950 period compared with 1944-1945. National production meanwhile increased less than 7 per cent.

First Brand On Hand

SALEM, Ore. (AP) — Oregon's livestock brand book lists 11,725 brands in its 1955 revision and Roy K. Nelson, supervisor, says the state's first brand, the letter D, is still on hand, after a span of 106 years.

Wild Ride

NORFOLK, Va. (AP) — The defendant said he fled from officers at high speed because he didn't have a driver's license. He said he resisted arrest because he didn't want to go to jail. He said he was disorderly at the precinct station because he was mad.

Appetite Trouble

GREENSBURG, Pa. (AP) — Police and firemen went all-out in a search for Tommy Long, 5, Robert Pierce, police officer, said the lad was found a short time after the search party was organized. Tommy — oh, he just wasn't hungry so he didn't go home for lunch and dinner.

# Soap 'n Water Clothes Can Be Had In Winter

By JOYCE CONNAWAY  
Just because summer is past does not mean that you cannot still have a soap and water wardrobe. Experts are continuing to find ways of treating winter fabrics for washability.

Evidence of the popularity of washable woollens was seen when 22 of the leading mills featured them this year. Only eight woolen mills made washable cloth last year.

Since the introduction of sweaters that contained a washable tag seven years ago, the soap and water fabric has gained in popularity and extended to many types of clothing.

This year, sports clothes, favorite of the college and career girl, are frequently made in washable woollens. Jumpers, one of fashion's most convertible styles, are at the head of the line-up of woollens that can be washed.

Not only are solids washable, but now plaids and checks can be immersed in the water without looking like the sad side of a sanforized ad.

Washable woollens have their place in children's clothing and men's sportswear as well as in women's clothes. Mothers can save lots of money and worry by having her youngster's winter wardrobe with a washable label.

Construction is as important as the fabric in garments that are meant to be washed. Dresses, for example, should be simply styled, sleeves of the dolman type, with uncluttered necklines. If there is any trimming, it should be removable.

How do you wash the new woollens? Go by the directions on the accompanying tag on the dress. Some are hand washable only, while others can take to the machine without any worry. Warm, not hot water, and mild soap are recommended for the woollens, plus a thorough rinsing.

Be sure to check the label before tossing the item in the wattery deep. Some fabrics that are

labeled washable mean extra convenience in the case that you want to spot clean them with soap and water, if you do not want to wash a whole suit or dress.

Remember, even though the tag states that the apparel is washable, take extra care in the laundering process. You will find that you will have a wardrobe that is simple to keep and fashion wise at the same time.

## Hyperions Hear Talks On Texas

The 1955 Hyperion members toured Texas via talks by Mrs. J. A. Coffey and Mrs. W. C. Blankenship when the group met for a luncheon Saturday at the Settles Hotel.

A survey of the outstanding things of Texas and places of interest in the state were presented. The theme for the year is "Eyes On Texas."

The principle products of Texas were used for the table decorations. Arrangements included cotton, maize, grain and roses. Miniature oil wells, cows and other things Texas is known for were placed about on the table.

Installation of officers was conducted by Mrs. James T. Brooks. Officers for 1956 include Mrs. Clyde Angel, president; Mrs. Norman Reed, vice president; Mrs. Dick Simpson, secretary; Mrs. Ben Johnson, treasurer; Mrs. Coffey, corresponding secretary; Mrs. Brooks, parliamentary; Mrs. K. H. McGibbon, federal counselor.

Hostesses for the luncheon were Mrs. J. Gordon Bristow Mrs. Jordan Grooms, and Mrs. J. R. Hatch.

Next meeting will be Oct. 19 at 3 p.m. at the home of Mrs. Anthony Hunt, 1601 Stadium.

## THIS IS GOOD EATING

### CREAMED CELERY AND OYSTERS

Ingredients:  
Two cups diced celery (1/4-inch pieces), 1/2 cup boiling water, 1 can (10 ounces) frozen condensed oyster stew, 2 tablespoons flour, 2 tablespoons cold water or cold celery cooking liquid, 3 slices buttered crisp toast, 4 to 5 slices bacon (crisply cooked).  
Method:  
Cook celery in boiling water (do not add salt) rapidly, covered, just until tender-crisp—8 to 10 minutes. Drain, reserving liquid. Heat oyster stew over low heat until defrosted; stir often and do not boil. Lift out oysters with slotted spoon; reserve. Stir together the flour and water or celery liquid to a thick smooth; stir into hot soup. Cook and stir constantly over moderately low heat until thickened and bubbly. Add drained celery and reheat; stir in reserved oysters and 1 or 2 tablespoons more celery cooking liquid if sauce is thicker than you like. Spoon celery over 4 slices toast on 4 individual plates; cut remaining 4 slices of toast in triangular halves and add to plates. Top creamed celery and oysters with crisp bacon. Serve at once. Makes 4 servings. Serve with the foods listed below.  
Creamed Celery and Oysters with:  
Crisp Bacon  
Broiled Tomatoes  
Crisp Buttered Toast  
Fruit and Cookies  
Beverage

(Clip this for future use. It may be conveniently pasted on a recipe file card.)

### Washington P-TA

Washington School P-TA will meet at 7:30 tonight at the school auditorium. A nursery will be open for the children.

### WATCH FOR THE BIG NEWS FROM THE UNITED DEPARTMENT STORE IN BIG SPRING!

## Advice From Glamour Girl

Helene Stanton, soon to be seen in Allied Artists' "Calculated Risk," passes on important exercise information.

## HOLLYWOOD BEAUTY

### Has Special Exercises To Keep The Bust Firm

By LYDIA LANE  
HOLLYWOOD — Helene Stanton studied for the operatic stage in Philadelphia but when she came to Hollywood she was persuaded to switch to popular music. A nightclub act was arranged for her in Las Vegas and this won her a featured role in Allied Artists' "Calculated Risk."

"It takes a lot of patience to get what you want out of life," Helene told me when I visited her at her studio. "Ambition often makes one restless. I was very high-strung and moody until I decided to practice the philosophy I read in Dr. Theodore Reich's book, 'Listening With The Third Ear.'"

"I've given this book to several of my friends who have problems and the interesting thing is that each of them seemed to get something different from it."

I watched Helene play a scene and when she returned I complimented her on the graceful way she handled herself.

"I had ballet lessons as a child," she informed me. "This has given me a control which people who have never danced don't have."

"I don't take lessons any more," she explained, "but I do keep my muscles toned by working out in a gym. Here are two exercises which I've found wonderful for keeping the bust firm."

"The first one I do standing — with a weight in each hand (she uses three-pound dumbbells). I begin with my arms lowered at the sides, then slowly bring both arms up to shoulder height, hold a moment, then lower them to the starting position. This must be done slowly and only every other day unless you want to reduce," she cautioned.

"The second one is done lying down. I lie on a bench no wider than my shoulders. With a weight

in each hand and arms extended (elbows stiff) I make a circle, beginning small and working into a large one. I go around slowly ten times in one direction, and ten in the other.

"This only takes a few minutes," Helene said, "but it's a good way to tone your pectoral muscles and keep your breasts from sagging."

**EXERCISE INFORMATION**  
You'll be able to plan an exercise routine when you get a copy of leaflet M-5, "Exercises of the Stars." Pick out just what you want here. All of the "how's" and "when's" are answered. Get your copy of this important leaflet by sending only 5 cents and a self-addressed, stamped envelope to Lydia Lane, care of The Big Spring Herald. Remember, it's M-5.

## Vealmoor HD Club Studies Hair Care

A demonstration on hair care was given by Mrs. Porter Hanks when the Vealmoor Home Demonstration Club met Friday in the home of Mrs. Ellis Iden. Roll call was answered with "What's New in Medicine." Mrs. Iden gave a talk on fire prevention and Mrs. Hanks presented a council report. Eight members were present. The next meeting will be in the home of Mrs. R. C. McFerran.

## Three Hair Stylists Attend Abilene Meet

Three employees of the Bon-ette Beauty Salon attended a Beauty Clinic in Abilene Sunday. They are Betty Robertson, Odeya Wells and Ida Hughes. They received instructions from Louis Schmidt, holder of the National Challenger Shield and winner of the National Gold Trophy. He is also the past president of the Detroit Hair Dresser's Association and present hair stylist director.

## Engaged

Mr. and Mrs. J. B. Hinson announce the engagement and approaching marriage of their daughter, Loretta, to James Cook, son of Mr. and Mrs. J. T. Cook of Ackery. The couple will be married on November 11.

## Announce New Way To Shrink Painful Piles

Science Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in proprietary or settlement form under the name, Preparation "P." At your druggist. Money back guaranteed.

## A Washable Woolen

This black wash plaid middie-dress, which is very Victorian, is a flattering version of the overdress with a permanently pleated skirt and a big bow tie. The ever crisp fabric is a washable combination of orlon and wool.

## County HD Council Names Committee Heads For Year

Committee chairmen for the year were named when the Howard County Home Demonstration Council met Saturday at the Commissioners' Court Room.

All nine clubs were represented and gave annual reports. Mrs. C. R. Porter of Vealmoor, gave the devotion taken from the chapter of Ruth on "Cleaning." Her main point was "Where have you gleaned today?"

County Home Demonstration agent, Elizabeth Pace, announced the schedule for October and November.

Mrs. Daisy Southerland, county chairman for Texas Home Demonstration Association, distributed some material on THDA.

A Christmas program committee of Mrs. Frank Wilson, Mrs. Ray Shortes and Mrs. L. A. Newman was appointed.

Standing committees for the year were announced by Mrs. H. S. Hansen, chairman of the council. They include Mrs. Wilson, education; Mrs. B. J. Petty, yearbook; Mrs. Shirley Fryar, civil defense; Mrs. Wesley Carol, exhibits; Mrs. Doris Blissard, recreation; Mrs. M. M. Edwards, citizenship; Mrs. O. D. Engle, personal service.

Three committee heads, finance, 4-H and health and safety, were not named.

Twenty-four were present. The next meeting will be Nov. 12 at the same place.

## Easy To Make

# Friendliness, Good Foods At Club Cafe

The Club Cafe is open 24 hours a day, except Sunday, for your "eating out" convenience. Coupled with excellently prepared meals and a friendly atmosphere, the Club Cafe is the first choice for that special occasion and "dinner out."

Elmer Giles, owner and operator of the Club Cafe, is usually on hand to see that your every wish concerning your meal is properly taken care of. "Our waitresses are especially careful to see that all orders are filled exactly as the customer requests."

The menu has a wide selection from which to choose. Breakfast is served at all hours of the day or night. Eggs prepared in any style you wish with a wide choice of meats, rounded out with plenty of hot toast and piping hot coffee are sure to make your breakfast a real treat.

A special "Merchant's Lunch" is available each day at noon. For only 75 cents, you can get your choice of six different meats and five vegetables, plus a delicious salad and a dessert. And great care is exercised by the cooks in preparing your lunch.

The Merchant's Lunch has a distinctive taste and is just like eating at home.

Carefully prepared à la carte selections are available at most hours of the day. Just about any particular dish you might like is available at the Club Cafe. All types of steaks and chops, Mexican foods and sea foods are quickly prepared.

There is no tiresome waiting for your meal at the Club Cafe either. A friendly waitress takes your order and rushes it back to the cook who has it ready in a jiffy. But this haste is not at the expense of your meal.

The cooks at the Club Cafe are able to retain all the natural flavor of your meals and get them out in a hurry too. To go with your meal, Giles offers delicious coffee, soft drinks, milk, or beer.

The Club Cafe is located across the street from the Settles Hotel at 207 E. 3rd. There is usually ample parking space in the area and the Club Cafe is open all day every day, except Sunday.

The cafe opens and closes only once each week. Giles said he closes the cafe at about 4 a.m. Sunday morning and reopens at 6 a.m. Monday.

The next time you are eating out, remember the Club Cafe.

## The New Nalley Funeral Home

Recently remodeled and enlarged, the Nalley Funeral Home, 906 Gregg, is staffed and equipped to handle any type of funeral service. Nalley personnel is trained to assume responsibility for the many details of work and problems facing bereaved families. The chapel

is equipped with organ. The establishment, owned and operated by Mr. and Mrs. Coy Nalley, also provides ambulance service, with modern ambulances and skilled drivers on instant call 24 hours a day.

## Harland Station Fixed To Ready Cars For Winter

Has your car been "winterized" for the cold months ahead?

Does it have the proper amount of anti-freeze in its radiator for the frigid nights that are to come?

If not, or if you are in doubt about the supply you might have added last year, then the place to take it is the Harland Magnolia Service Station, located at 1000 Lamesa Highway in Big Spring.

Harland's station, owned and operated by a long-time Big Spring citizen, Grady Harland, is properly equipped to run tests on how much cold a radiator can withstand and to bring its supply of anti-freeze up to normal, if such is needed.

Harland's establishment specializes in the complete servicing of vehicles, from the changing of crankcase oil to washing and lubricating.

If you are uncertain what weight and grade of oil to use in your engine, then consult an employee of the Harland concern for the answer. They have been properly oriented on such matters.

When a vehicle is taken to Harland's for cleaning, the owner can rest assured that the machine's interior is cleaned, as well as its outside.

Harland's employees take care to vacuum-clean all upholstery of the vehicle and takes pride in making it appear new.

Harland's establishment also maintains a vehicle for emergency service. If you are stranded in the area and in need of gasoline or have a flat that needs repairing, then call Harland's for immediate and efficient service.

Harland's specializes in the best Magnolia products, from premium gasolines to high-grade oils.

## Realistic Reserve Training Is Urged

WASHINGTON (AP)—The National Security Training Commission says youths taking a six-month course under the new military reserve program should be given "intensive and realistic (training) with due regard for safety."

At the same time, it called for extra care in assuring the physical and moral well-being of the youths, most of them of pre-draft age. It expressed confidence the services have ample regulations and good men to do that.

## New Liquid Cleans And Polishes Cars

Polish your car as you clean it—with Johnston's POLISHAMPOO. Just apply rich harmless suds, then simply flush off dirt and "road film" that resist ordinary washings. Car dries quickly with no rubbing or wiping, leaving a polished surface. Use POLISHAMPOO regularly to keep car clean and polished.

## Williams Sheet Metal Works Prepared To Install Central Heating Equipment

If you've been thinking about installing that central heating unit before cold weather sets in, it's time you started looking around.

And a good place to start shopping is at Williams Sheet Metal Works, 201 Benton. The chances are, you won't have to look any further.

Williams has the heating equipment, the sheet metal shop, and the skilled personnel—everything that's needed for a first class job.

If you think you can't afford that central heating plant, you might be surprised when you check with W. C. Williams, owner and manager of the sheet metal works. Williams says that FHA home improvement loans are available for home heating installations. These spread the cost of equipment and installation over a long period of time—up to 36 months—and permit the homeowner to benefit from around-the-clock comfort while he's paying for it.

Williams can provide information concerning the FHA loans, and he will be happy to provide cost estimates and assist in arranging the loan.

Williams Sheet Metal Works is distributor in this area for the well-known Utility forced air heating equipment.

Centrally installed, the Utility furnace heats the entire house to whatever temperature the household requires. Simply set the furnace on the desired temperature, and the thermostat does the rest.

Williams can fabricate the ductwork for distributing the air. Every imaginable type of sheet metal work can be performed in the shop, and Williams workmen prepare every piece of ductwork or other equipment to fit its specific job. In other words, there's no guesswork involved, and no necessity to adapt any prefabricated item to a house it might not fit.

The Utility central heating units are available in a variety of sizes suitable for any type or size of home. And, of course, they can be connected in connection with summer air conditioning equipment to a common duct and outlet system, providing year-round comfort at a great saving to the homeowner.

Big Springers may inspect the Utility equipment at Williams showroom, 201 Benton, or secure additional information on any of the concern's services by telephoning No. 4-6781.

Williams can provide information concerning the FHA loans, and he will be happy to provide cost estimates and assist in arranging the loan.

Williams Sheet Metal Works is distributor in this area for the well-known Utility forced air heating equipment.

## Final In Regional Series Scheduled By Refiners Group

The fifth and final regional meeting for 1955 has been scheduled by the Western Petroleum Refiners Association. Paul D. Williams, WPRA secretary, has announced that the group will conduct a two-day technical-industrial relations meeting at El Dorado, Ark., Oct. 20-21.

Five papers, dealing with various phases of industrial relations, will be heard at the industrial relations session Oct. 20. Included among the subjects to be discussed are contract negotiation, executive development, and presentation, prepared by the Du Pont company, which explains the organization and operation of a cost reduction program now being utilized in many Du Pont plants. John L. Wylie, director of industrial relations, Pan-Am Southern Corporation, El Dorado, will preside.

The technical session will be conducted on Oct. 21, and will consist of a day-long "question and answer" session on refining technology and other problems associated with refining operations.

LOOKING 'EM OVER With Tommy Hart

It would be rather superfluous to say that Big Spring has its work cut out for it Friday night.

Levelland has a fine ball club, which it has proved time and time again.

Don't go judging the teams on the manner in which each fared against Palo Duro, however.

One would have to pick Level-land in such a case and I don't think the Lobos can turn the trick here.

The Lobos slaughtered Palo Duro, 45-0, after Big Spring had belted the Dons the previous week, 33-7.

There are these things to consider, though:

(1) Levelland caught Palo Duro at home, where as Big Spring invaded Amarillo to meet the Dons.

(2) Three of Palo's first stringers did not see action against the Lobos.

(3) The Steers didn't try to run Palo Duro out of the ball park after assuming a substantial lead whereas Levelland, proud of its high scoring record, kept pouring on the coals, and (4) Palo Duro was, no doubt "down" last week-end, after having had much of the fight taken out of it by the Steers.

The Steers don't look like the same ball club they did at the start of the season. They appear sure of themselves, which is a good sign. They know the task facing them but it seems not to worry them.

Judging off the spirit and the attitude they've shown in camp the past three weeks, I see no reason why they shouldn't come home a winner Friday night.

John Davenport, Big Spring's gritty tackle, suffered a broken rib in the Palo Duro game but hasn't missed a day of practice since that time.

Perhaps the biggest surprise of the District I-AAA teams the past week was Sweetwater, which man-handled Lamesa, 33-13.

Sweetwater has a fine backfield, as was expected. Its strong line play was somewhat surprising, however.

Steer scouts who looked in on the game said Lamesa didn't play nearly the game it did against Midland. That could, perhaps, be blamed on the fact that the Tornados have been hard hit by injuries, especially at the full back slot.

The Tornados aren't that bad, but the Mustangs might be that good, if you know what I mean.

The titanic struggle in I-AAA may come up on Oct. 28, when Sweetwater visits Snyder, although Levelland and Big Spring are still very much in the running.

As long as the Steers continue to play their games 'one at a time,' though, they're going to be hard for any team to handle.

Most local basketball fans knew that Harold Davis developed a sterling club at Howard County Junior last season.

Just how good was the team is reflected in the national standings gathered and printed by the Converse Yearbook recently.

The annual printed the records of 161 junior college teams in the land and HCJC ranked fourth in the nation. (Not all the jaysces in the U.S. were included, either).

Hannibal-LaGrange of Missouri was first with a 32-7 won-loss record, followed in the prop-er order, by Lon Morris of Jacksonville, Texas, with 31 wins and eight reversals; Moberly, Mo., 29-4; HCJC, 29-7; and Tyler, Texas, 29-9.

The Trinity Tigers are off like a streak on another streak — they've won three in a row.

The Tigers of the Gulf Coast Conference whipped East Texas State 35-20 last week for their 20th victory in 22 games. They were riding a 16-game winning streak when they tripped over Abilene Christian and lost the first game of the season 14-13.

Officers pieced together this story:

After the fight in front of the tavern, Strickland's companions took him to City-County Hospital, where several stitches were taken above the eye. Then he went to a downtown hotel.

Later in the day, he left and police found bloody clothing in the room. Strickland then returned with his companions and a hotel clerk told them they were wanted by police. They went to the city jail.

The 6-foot-3, 195-pound hurler pitched for Cincinnati in 1944 through 1946 and again from 1948 through 1951. He was with the Philadelphia Phillies in 1952 and the Baltimore Orioles in 1954. The past season he pitched for the San Antonio Missions, a Baltimore farm club, and had three wins in eight assignments. His best year was 1950 when he won 11 and lost 8.

Fox was a native of Colburg, Ore., and broke into organized baseball with Ogden, Utah, of the Pioneer League in 1943. He also played for Birmingham of the Southern Assn. in 1945 and 1944 and with Syracuse of the International League in 1947. He was a World War II veteran.

All three made statements to police.

Eight Teams Bidding For National Crown

By ED CORRIGAN

The show is just starting, folks, but for most of the nation's college football teams it ended almost before it began. Perhaps eight teams still were in the running for the mythical national championship today with the season only one-third completed. This is the earliest mass exodus from contention in years.

FRANK STRANAHAN HITS FIRST BIG PAY CHECK

By LOU PANOS

BALTIMORE (AP)—Frank Stranahan, who explained he became a professional golfer because it "means more" than playing as an amateur, clinched a \$3,000 check today to prove his point.

The 33-year-old strong boy from Toledo, Ohio, picked up this little convincer yesterday as the victor's booty in the \$17,500 Eastern Open over Baltimore's municipal Mt. Pleasant course.

He couldn't have chosen a more dramatic spot for his initial victory as a pro after years of successful campaigning in the amateur ranks.

It was the last tournament on the 1955 trail mapped out by the Professional Golfers' Assn. and Frank didn't clinch it until he dropped his final putt in the 72-hole event.

"That stroke gave him a 1-under-par 71 for the last round and 280 for the route, enabling him to finish one ahead of Art Wall Jr. of Pocono Manor, Pa.

"Ab, it's wonderful," said Frank. Besides winning the world amateur four times and a flock of other amateur titles, he had actually beaten the pros in four open tournaments dating back to the 1945 Durham Open.

But he remained an amateur until a year ago, and this was his first successful bid for cash that went with a crown.

"Playing as a pro means more to me because I know I'm out there every day trying to beat the best there is," he said.

"As an amateur you may play in an open tournament with the pros, but you are not really competing with them. You know you don't have to beat them, that you just have to beat the other amateurs to win.

"But when you are a pro yourself, believe me, it makes all the difference in the world. Then you know it's going to be tough because there are at least 50 really good players up against you every time you go out there."

Ed Oliver, the veteran from Lemont, Ill., finished third with a 72-282 after lying one stroke off the pace going into the last 18. Fourth money went to Fred Hawley of St. Andrews, Ill., who carded a 71-283.

Tied for fifth were Ted Kroll of Bethesda, Md., with 69-284 and Tommy Bolt, Chattanooga, Tenn., with 70-284.

McMurry Tries Home Town foe

The Texas Conference is still dodging championship games, with three more outside matches on the schedule this week.

Howard Payne, boasting the only undefeated record in the conference, meets Louisiana Tech at Brownwood, McMurry tackles Abilene Christian College at Abilene and Eastern New Mexico hosts Midwestern at Portales, N.M.

Last week the three-team loop won two and lost one. Payne crushed New Mexico A&M 34-12, McMurry came from behind to beat Midwestern 21-20 and Eastern New Mexico fell before Adams State of Colorado 21-13.

Payne, undefeated but marred by two ties, beat New Mexico A&M on the hard smashes of Dave Smith and Joe Tyler, each scoring twice on short plunges.

McMurry had to overcome a 13-0 lead to edge Midwestern. Elroy Payne, leading ground gainer in the loop, slashed seven yards for a touchdown, quarterback Bob Hayworth passed for one touchdown and sneaked for another. Robert Baker broke the camel's back with his third and winning conversion.

Frog Ace Gains Total 484 Yds.

DALLAS (AP)—Jim (the swanky) Swink, Texas Christian's man in motion, has hurried to 484 yards in one of the greatest ball-carrying exhibitions of Southwest Conference football history.

Swink rolled up 139 yards last week against Alabama to push his total far in front in the conference. He has averaged 121 yards per game and 9 yards per run.

Swink's rushing also makes him the total offense leader but his lead in that department isn't nearly so pronounced as it was last week. John Roach, Southern Methodist's hard-working quarterback who passed for 159 yards against Missouri, has moved into second place just 24 yards back of Swink.

Roach has 163 rushing and 297 passing. Henry Moore of Arkansas still is second in ball-carrying with 302 yards.

Joe Clements, Texas' lanky sophomore quarterback, is the passing leader with 452 yards on 39 completions in 62 attempts. He threw for 153 yards against Oklahoma last week. Roach is second with his 297 yards on 21 connections in 51 throws.

Gerald Nesbitt of Arkansas leads the punters with an average of 47.6 yards while Ed Dudley of Texas A&M is second with 44.8.

Ken Wineburg of Texas Christian tops the punt returners with an average of 18.5 per run and Don Christian of Arkansas the kickoff returners with an average of 27.7.

Menai Schriever of Texas, who snagged seven passes against Oklahoma, is the pass-receiving leader with 14 for 175 yards. Marshall Crawford of Rice is second with 120 yards on six.

Texas Christian leads in total offense with an average of 373 yards per game while it also is the best in defense, giving up only 143.3.

Happy Babe Plays 9 Holes Of Golf

TAMPA, Fla. (AP)—Babe Zaharias, recovering from a second attack of cancer, felt so good when the doctor told her to get some exercise, she played nine holes of golf.

The Babe, named Woman Athlete of the Half Century, played with her friend Betty Dodd and shot a 40 yesterday. Betty had a 38.

Mrs. Zaharias had put a little but it was the first time she had taken to the links after her recent operation. She rode over the nine holes in an electric cart.

Austin Likely To Obtain Beaumont TL Franchise

DALLAS (AP)—The Texas League opens its fall meeting today with the perennial question: "What'll we do about Beaumont?"

The Beaumont franchise apparently will be moved and there were strong indications that it would go to Austin, but league directors were tight-lipped.

The best information came from Howard Green, president of the Big State League, who has called his directors for a joint meeting with the Texas League club owners "because they're trying to take one of our towns."

Austin reportedly is planning a drive to raise \$100,000 in advance ticket sales, \$60,000 of being paid up immediately. Owner Allen Russell would move to Austin where he would continue to operate the franchise.

But, Green said, loss of Austin or Corpus Christi, which has announced that it will bid for the franchise, would seriously damage the Big State League. Therefore, he will ask the Texas League to help new members come into the Big State League.

Mayor Tom Miller is reported spearheading the Austin drive to get into the Texas League. He has the backing of several bankers, according to reports, and Green said "that sounds about right," when asked about it.

It wasn't considered likely that Corpus Christi would get the franchise because that city wants to buy it outright. Russell has announced that he will not sell, and he will go where the franchise goes.

Levelland Lobos To Hunt For Revenge Here Friday

Refreshed by an 'off' week, the Big Spring Steers return to the practice field this afternoon to continue drills for one of their most critical tests of the season, a Friday night engagement here with Levelland.

The Steers' whole season may be wrapped up in that night. If the locals win, they will be looked upon as serious contenders for the conference championship.

If they lose — then the best they can hope for is to act as 'spotters' in the race. Levelland will bring the league's most explosive attack to town. The Lobos were tied by Sweetwater, 14-14, in their first start but came back to maul Palo Duro of Amarillo last weekend, 45-0.

That is the same Palo Duro team which was beaten by Big Spring the previous week, 33-7. In non-conference starts, the Lobos slammed Brownfield and Littlefield, without working too hard at it. In Jess. Suddeth and Joe Kennedy, the Lobos have two of the finest running backs in West Texas.

The two get a lot of help from such lads as Tommy Derrington, Mike Vinyard, Sonny Reeves and Fred Brown, too.

The Lobos are not unlike the Big Spring outfit of 1933, in that they can score from any point on the field. Against Palo Duro last week, the Lobos turned in touchdowns runs of 58 and 55 yards.

Kennedy crossed the double stripes four times against the Dons. Derrington counted twice and Suddeth, Vinyard and Brown once each. Suddeth also kicked three extra points.

Levelland, which is coached by Johnny Hickman, also boasts a fine, aggressive forward wall.

The Lobos will be gunning for revenge here, since the Steers knocked them out of the running for the championship last year by winning a 20-0 verdict in Levelland.

The Steers, barring injury in practice, will be in top shape for this one.

The locals will work hard through Wednesday, then taper off with play rehearsals on Thursday.

Dallas Fans Will Honor Cub Star

DALLAS (AP)—Dallas baseball fans will honor home-towner Ernie Banks, Chicago Cubs star, tomorrow night.

Banks set a major league record for home runs for a shortstop this year as he banged 44.

He will be presented a plaque by the Dallas Chamber of Commerce, a hat by Mayor R. L. Thornton, and an automobile by a group of local fans.

The presentations will be made before a game between the major league all-stars and the Negro American League all-stars. Banks plays with the barnstorming major leaguers.

### Concert Member Rolls to Close

Membership campaign of the Big Spring Concert Association will close Tuesday evening.

Because the H-Y and Tri-H-Y Clubs had been promised an opportunity to sell their season tickets (memberships), they will be able to continue until Thursday evening, the date of the first performance.

The initial presentation Thursday evening will be the Fiesta Mexicana, involving nearly two score performers with costumes ranging in cost \$200.00.

### Wreck At Park Gate Causes No Injuries

No injuries occurred Sunday afternoon in a collision of automobiles near the three-way intersection at the north gate to the city park.

### MARKETS

WALL STREET—NEW YORK—The stock market ran into a few more selling bids and prices dropped sharply.

LIVESTOCK—CATTLE—Grade 5,000; calves 1,200; steady to 10 cents higher.

COTTON—NEW YORK—Non-oclon price was 15 cents to 16 cents lower than the previous close.

TEXAS—Texas No. 1 cottonseed oil was 10 cents lower than the previous close.

STERLING—Texas No. 1 cottonseed oil was 10 cents lower than the previous close.

WANT ADS GET RESULTS—A growing concern with all states is the fact that many of the best jobs are being filled by those who do not live in the state.

### Mrs. McDonald Dies At Lamesa

LAMESA — Mrs. Myrtle McDonald, long time resident of Lamesa, died Sunday in a hospital in Slaton after a long illness.

Services were to be held at the First Baptist Church in Lamesa at 4 p.m. Monday with the Rev. Troy Dale, formerly of Lamesa and now pastor of the First Baptist Church in Otona, and the Rev. Milo B. Arbuckle, officiating.

Besides her children, Mrs. McDonald leaves two sisters, Mrs. Mollie Hollendell, Whitewright, and Mrs. Rachael Ely of Hamlin; two brothers, J. R. Winn, Sherman, and Gilliam, Winn, Hamlin. She also leaves three grandchildren and three great-grandchildren.

### Future Homemakers Elect Ackerly Girl District President

LAMESA — Beverley Russell Ackerly was elected president of the Future Homemakers of America district in its meeting Saturday at Denver City.

### Dawson Boys At Kansas City Meet

LAMESA — Five Lamesa youths left Sunday to attend the national Future Farmers of America conference in Kansas City.

### Judge Will Attend Judicial Conference

District Judge and Mrs. Charlie Sullivan planned to leave today or Tuesday morning for Corpus Christi where he will attend a judicial conference.

### Courtney Baby Smothers In Bed

STANTON (SC) — Carol Jean Garrett, four-day-old daughter of Mr. and Mrs. J. L. Garrett Jr., smothered in her bed Sunday night.

### Registration Set For Tech Extension Class

Teachers who want college credit for an education course may enroll in the class at Howard County Junior College Tuesday at 6:30 p.m.

### Rites Set Today For Brown Infant

Funeral services were to be held at 4 p.m. today for Lisa Suzanne Brown, infant daughter of Mr. and Mrs. Gene Brown of Big Spring.

### Martial Law Called In Strife-Torn Town

INDIANAPOLIS (AP) — Gov. George N. Craig said today he is imposing martial law on New Castle and Henry County, scene of last week's riot at the Perfect Circle Co. foundry.

### Ex-Convict Held In Burglary Try

An ex-convict was interrupted by police Sunday morning as he was trying to pry open the rear door of the Texaco service station at 1301 E. Third. Police arrested the man and he is being held for charges of attempted burglary.

### HOSPITAL NOTES

BIG SPRING HOSPITAL—Admissions — J. B. Hicks, Fortson; Cleo Guy, 309 W. 5th; Albert Davis, Gall Rte.; Orion Carter, 421 Edwards Blvd.; Bertie Howell, Midland; Bobby Leonard, Colorado City; Maureen Chrane, 502 11th Place; George Harrison, 206 Carey.

### Dawson Farm Ajoins Lubbock Tour

LAMESA — Leroy Colgan, Dawson county farm agent, and several farm operators plan to participate in the field tour of the Lubbock (Texas A&M) Experiment Station on Thursday.

### Mrs. Joseph Foard Dies Here Sunday

Mrs. Jeane Brame Foard, 18, died in a hospital here shortly before midnight, after a brief illness.

### Completions Are Reported From Mitchell, Howard, Glasscock

Area field completions were reported this morning from the Westbrook and Iatan-East Howard fields of Mitchell County, the Howard-Glasscock field of Howard County, and the Spraberry (Clear Fork) pool in Glasscock County.

### Signals Now Set For 20-Mile Speed

The traffic signal lights downtown are set at approximately 20 miles per hour, according to Roy Ripan, city electrician.

### Two Juveniles Held In Window Breaking

Two 16-year-old boys, accused of fighting, are being held in the juvenile ward at the county jail for investigation in regard to a window breaking incident.

### Traffic Signals Out Along Eleventh Place

Traffic signals on the south side of the city were not in operation this morning because of trouble with the controller.

### Pecos River Bridge Started

Turning a shovelful of dirt and rock marking the start of construction of the new highway bridge across the Pecos River north of Del Rio is E. H. Thornton Jr., chairman of the State Highway Commission.

### Corrosion Tour To Visit Here

ODESSA — More than 200 engineers and others interested in corrosion control are expected in Odessa this week for the sixth biennial Permian Basin corrosion tour.

The tour is sponsored an alternate years by the Permian Basin section of the National Association of Corrosion Engineers.

Registration starts Tuesday at 5 p.m. and concludes from 7 a. m. to 8 a. m. Wednesday.

### Gas Tax Recovery Okayed By Judge

AUSTIN (AP)—District Judge Jack Roberts today ruled that the Tennessee Gas Transmission Co. is entitled to recover \$1,140,906 paid under the invalidated gas gathering tax law, even though the tax payments were made without formal written protest.

### Registration Set For Tech Extension Class

Teachers who want college credit for an education course may enroll in the class at Howard County Junior College Tuesday at 6:30 p.m.

### Double Damage

H. C. Stone, left, deputy sheriff and H. T. Melton, sheriff of Knox County, inspect flood damage to a road near Benjamen. Rising waters of the Brazos River damaged the road early in September and as workmen had about completed the repairs recent flood waters swept over the road resulting in even greater damage.

### Teen-Age Drivers Involved In Seven Weekend Wrecks

There were eight minor accidents reported to the police Saturday and Sunday and seven of them involved teenagers.

About 1:30 p.m. Sunday, a mishap at Third and Rannels involved 19-year-old Jack Estes Felton, Webb AFB, and Willard Leo Hunt, 104 Harding. Earlier in the day at about 11 a.m., 17-year-old John Chris Robertson, 603 E. 5th, and Wilma Ruth Coffman, 1100 E. 13th, were drivers in an accident in the 1400 block of East Fourteenth.

### Registration Set For Tech Extension Class

### Expert Urges More Education In Parent Role

NEW YORK, Oct. 15 (AP)—The hero of the American nursery, Dr. Benjamin Spock, says the trouble with parents is they are not educated—to be parents, that is.

"Academic education instills in young women (and men too) that a career is more important than a family," the widely known pediatrician says. "Young people graduate with an absorbing philosophy that all good is accomplished outside the home."

"The author of the perennial best seller 'Baby and Child Care' suggested in an interview:

"Why not connect nursery schools with high schools and colleges, making students aware of their primary role in life and getting them in the mood for it by everyday contact with children? As it is now the spirit of education tends to divorce them from the idea."

Dr. Spock, a visiting professor at Western Reserve University, Cleveland, Ohio, has just started a Sunday afternoon TV program for mothers. A tall, pleasant, bespectacled man, he says the joy of life should be in doing things—not just reading about them.

"All knowledge," he contends, "gets in the way of easy doing, one reason why it is difficult for a nurse, pediatrician or psychologist to become an easy-going parent."

"A medical student friend of mine told me she could not visualize happiness in a home with a lot of children. When I reminded her that some psychologists make child development their everyday work, she said, 'Oh, but they're trying to accomplish something.'"

That is modern woman's philosophy, he says, an impact left from higher learning.

### Uncle Ray: Columbus Felt Worried Before Discovery

By RAMON COFFMAN

On Wednesday of this week people will celebrate Columbus Day. The celebration will mark the finding of the little island of San Salvador 463 years ago.

If we could go back to that time, and be on board the "Santa Maria" with the bold captain, we might discover that he was worried. Columbus kept his worries largely to himself, but told about them in a secret diary.

Q. Why was Columbus worried?  
A. He still had failed to reach land two months and a week after leaving Spain. Despite the brave words which he spoke to his men, he doubted that the voyage would meet success.

Q. How far did the "Santa Maria" sail on the tenth of October in the fateful year?  
A. Our record says that it covered the distance of 50 leagues.

Q. What is the length of a league?  
A. It differs in various countries, and has differed through the centuries. A league may be as short as two and a half miles or as long as four and a half miles.

We are fortunate in knowing the length of the league used by Columbus — three and one-sixth sea miles or three and two-thirds land miles. On the day mentioned, Columbus covered about 217 land miles, or an average of nine miles an hour.

Q. How did Columbus try to keep the crew contented?  
A. He used several methods. When he saw seaweeds, he pointed out that they looked "very fresh."

Columbus on the "Santa Maria," as pictured by an artist of a past century.

He also declared that some of the birds which flew within sight of the Spanish vessels were of types which lived mainly on land.

On the tenth of October he tried to cheer his men by telling them they would reap big profits after they reached the Indies.

PRICE: A leaflet entitled PUZZLES, TRICKS AND FUN gives ideas for parties and indoor games. For your copy send a stamped, self-addressed envelope to Uncle Ray in care of this paper.

### Nearly 3,000 See Texas Prison Rodeo

HUNTSVILLE, Tex. (AP)—Some 27,909 rodeo fans watched the annual Texas Prison Rodeo here yesterday.

Fans watched an inmate rider steal the show at the 24th annual event by taking his wild Brahman steer down the arena 300 feet and through a gate.

### Both Parties To Blame Each Other For Falling Farm Prices

By OVID A. MARTIN

WASHINGTON (AP)—The campaign for the farm vote in next year's elections shows signs of becoming a contest in which both major parties will try to pin blame on the other for declining farm prices and income.

The record would seem to show, however, that farmers could find grounds for pointing fingers at both parties.

The tenor of the upcoming campaign was foreshadowed in recent debates over summer setbacks in farm prices. Democrats accused the Eisenhower administration, setting its policies and programs were inadequate to protect farmers.

The administration came right

back with a refusal to accept responsibility. It said policies and programs inherited from the preceding Democratic administration were at fault.

For the administration, Secretary of Agriculture Benson said the Truman administration had failed to set into action policies and programs designed to help agriculture adjust from abnormal war and postwar demands for farm products to lower peacetime requirements.

As a consequence, he said, unmarketable surpluses were accumulated and they started prices on a skid.

Furthermore, Benson said, the Truman administration had failed to institute production control measures for 1953 crops and under the law, the new administration could not start such measures until 1954 crops. In addition, he said, the Republicans inherited wartime incentive price supports for major crops which had to be continued through the 1954 crop marketing year.

The Republicans consequently have taken the position that while they were in power in 1953, responsibility for farm production that year should be charged to the Democrats. Surpluses accumulated under government price support operations through the 1953 crop

year totaled about six billion dollars.

These stocks included \$1,133,000,000 in cotton, \$1,236,000,000 in corn, \$2,169,000,000 in wheat, \$199,000,000 in tobacco, \$304,000,000 in butter, \$168,000,000 in cheese, \$137,000,000 in cottonseed oil as well as lesser amounts of wool, dried milk, other grains, peanuts, flaxseed and the like.

Accordingly, the Republicans have said, it was not until 1954 that they were able to get into operation their policies and programs designed to adjust farm production to its peacetime markets and to reduce the surpluses.

Since then they have invoked rigid production controls on cotton, wheat, rice, peanuts and sugar crops and continued previously inaugurated controls on cotton.

In addition, they moved to enlarge export markets and embarked upon a broader "giveaway" program for disposal of surplus butter, cheese and dried milk for welfare use at home and abroad.

This year, the administration was able to shift to a flexible price support system which also is designed, in times of surpluses, to discourage production. Price guarantees for a broad list of products have been lowered from those of the Truman era.

Yet, despite these measures to bring about farm adjustment, surpluses have grown larger and farm output has climbed to even higher levels than prevailed under the preceding Democratic administration.

Agriculture Department reports show that the total farm output this year is expected to be the largest of record—111 per cent of the 1947-49 average. It was 108 per cent of the average last year. During the last year of the Democrats, the volume was 107 per cent of the average.

Charging production in 1952 and 1953 to the Democrats and production in 1954 and 1955 to the Republicans, output under the latter is higher for these classes of production: meat animals, dairy products, poultry and eggs, feed grains, hay and forage crops, vegetables, fruits and nuts, tobacco and oil seed crops. Only in the case of cotton and food grains has production declined under the GOP administration.

### Indian Summer Stays With Texas

By The Associated Press

Texas continued to bask in an Indian summer Monday, as skies stayed clear except for a band of clouds along the Gulf Coast.

Brownsville reported a light pre-dawn shower, the only Texas point with any rain for a couple of days. Forecasts called for more fine weather, with only a few scattered showers possible in the extreme south and along the coast.

Pre-dawn temperatures ran from 44 degrees at Junction to 73 at Galveston.

### Arms Plan Tamed East-West 'Magnet'

TOPEKA, Kan. (AP)—Harold E. Stassen says he is convinced the adoption of a dependable arms inspection disarmament plan "can well prove to be the magnet which will draw the East and West together in a genuine spirit of cooperation."

He said "heartening" results had come out of the recent United Nations subcommittee meetings on disarmament at which he represented the United States.

### Garden City's Future Ranchers Are Reorganized

GARDEN CITY — The FFA Chapter of the local high school was recently re-organized under the new name of Garden City Future Ranchers, according to Gerald Oakes, vocational agriculture teacher. New officers were elected, with Lorin McDowell III to serve as president for the coming year.

Miss Kay Mitchell has been selected as chapter sweetheart. She will enter the district sweetheart's contest to be held in Big Spring, Nov. 22. Kay is a senior in high school and the daughter of County Judge and Mrs. Dick Mitchell.

There are about 30 boys taking vocational agriculture, Oakes said, and most of them have some kind of livestock project. They have 60 lambs on feed, one calf and four capons. Thirteen lambs have been entered at the Dallas Fair this week, and the others will be kept for other shows.

Oakes and County Agent Oliver Werst work together in supervising feed projects of the FFA and 4-H Club. They are often able to get better prices on feed and equipment where it is bought in larger quantity. They recently bought about 7,000 pounds of maize which was mixed with other feed and sacked at the FFA barn.

This is Oakes' first teaching position since graduating from college. He is a native of Magnolia, Arkansas, and holds a B. S. degree from the University of Arkansas. He has also done some work on his master's degree at East Texas State College. He came to Garden City Aug. 1 to take up his present duties.

had known her slightly before, but now he felt much better acquainted. When the gang decided to head for Hamburger Haven before calling a day, he wondered if he should pay for her order, since he had been monopolizing her time.

Janie thought he might make the gesture and wondered if the other boys might think he had special rights to her company, and shy away. She wondered, too, if she would then be under obligation to treat this boy as special.

Have you ever been in such a dilemma? To win favor with everyone, Janie should always try to treat everyone as someone special. The most popular people in every group have learned the art of this.

If she didn't want the others to think of them as a pair, Janie should have gone out of her way to invite other members of the group to enter into their little conversation, while being nonetheless friendly to Hal.

Boys usually judge whose property a girl is by the girl's actions. If she seems friendly to all, but not devoted to any they usually are not frightened away.

Hal should never feel obligated to pick up the check for a girl who isn't his date, but who came stag as he did. However, if he wants to pay her check simply because he likes her and wants her to know it, it is a gentlemanly gesture and perfectly alright. He should expect no special loyalty from the girl on this account, though.

Churchill praises Anglo Civilization

NEW YORK (AP)—Sir Winston Churchill says the safety of the world depends on "the essential and fundamental unity of the English-speaking people."

Churchill said: "At all times when America and the British Commonwealth have stood together, things have gone

more or less right for us. Whenever we have drifted apart in the present century we have met with calamity, and we have had to come closer together to save ourselves from destruction."

Lost 32 Pounds With Barcentrate

"I have lost 32 pounds taking Barcentrate. I weighed 140 when I started. I now weigh 108. I also had indigestion when I commenced to take Barcentrate, but now I eat anything I want. I still take Barcentrate for its tonic effects." Signed Mrs. L. J. Oliver, 112 Alton St., Lufkin, Texas.—and Mrs. C. A. Collier, 1227 Heights Blvd., Houston, Texas states that she lost 10 pounds taking Barcentrate. Get Barcentrate at any Texas drugist.
