

Three Jews Are Hanged By British

JERUSALEM, July 29. (AP)—The British hanged three Jews today in defiance of a Jewish underground threat to retaliate with the execution of two British hostages and "bathe the Holy Land with blood."

A British military announcement said Meir Nakar, Yacoub Weiss and Absalom Habib were put to death between 4 and 5 a. m. in Acre prison.

15 Dead From Ship Blast At French Port

BREST, France, July 29. (AP)—Officials reported 15 dead and at least 422 injured in this port today from the explosion and fire that wrecked the ammonium nitrate-laden Norwegian freighter Ocean Liberty yesterday.

Four of the injured died this morning, the French ministry of marine said. Badly injured and hospitalized at nearby Landmeau were 46 others, five of whom doctors termed critical. In addition, Ponchalet hospital reported it had treated 376 for cuts and bruises inflicted by flying debris.

(Ammonium nitrate is a synthetic product relatively recently developed. It is made by the introduction of ammonium gas into nitric acid, and now is used principally as a fertilizer.)

Hundreds more were severely shaken when the nitrate went off with a shattering blast that smashed in building fronts along the sea front, set off an explosion in the city's gas system, fired a gasoline storage tank and demolished lines of communication.

Most of the dead were described as dock workers or seamen. The fatalities, however, included one unidentified woman about 30 years old.

The crew of the Ocean Liberty had been taken off before the vessel's cargo exploded, but her captain was reported fatally injured when struck by a flying piece of metal while standing on shore.

Two Die On Gallows For Kansas Slayings

LANSING, Kas., July 29. (AP)—Two former carnival workers were hanged today at the Kansas state prison at 12:01 a. m.

The two men, Cecil Tate, 22, of Jacksonville, Tex., and George Gumtow, 21, were executed for the slaying of W. W. McClellan, 60-year old grain elevator operator, and his son, Arnold, 36, at Calista, Kas., May 12, during a robbery which netted only \$4.50.

The two men were calm throughout the entire waiting period, they walked slowly up the 13 steps to the gallows after telling Warden Robert Hudspeth they had no last statements to make.

Cowper New Prexy Of Medical Group

Dr. R. B. G. Cowper, Big Spring, has been named president of the reorganized Second District Medical association.

Reorganization was accomplished at a meeting held at Sweetwater Saturday evening and presided over by Dr. A. H. Fortner, Sweetwater, district counselor. Other officers elected were Dr. C. O. Callan, Rotan, vice-president; Dr. Harry A. Briggs, Midland, secretary. Left to discretion of the executive committee was the matter of the date and place of the first meeting of the association following reorganization.

The district voted to retain its identity after Dr. G. V. Brindley, Sr., Temple, chairman of the state association unit for reorganization, outlined an option for dividing second district counties between the San Angelo and the Wichita Falls-Fort Worth districts, or to retain its own lines.

In an address, Dr. B. E. Pickett, Sr., president of the Texas Medical association, sounded an appeal for more militant public relations by the profession, declaring that more attention must be paid to the political and economic phases of medical problems.

He asserted that the profession had "lost face with the public and cited failure of the basic science law to pass the legislature as one evidence. Prestige of the profession had dropped, he continued because "daily papers have begun to editorialize the medical profession with damaging and disgraceful editorials, all of which have gone unchallenged and unanswered by the medical profession except for personal letters."

He said "comparatively small number of cultists did successfully stymie the combined efforts of our legislative and public relations

committees efforts before the legislature... that cultists have recognized limitations scientifically... have stymied our deliberations in regard to the political and economic phases. Thus today, the medical profession of Texas stands indicted in the minds of the people of this state as a selfish, monopolistic organization.

Dr. Pickett declared that "we sought not to prevent any person from engaging in the healing art of their choice, nor anyone from selecting the healer of their choice, but we did, for the welfare of the public, ask that healers of whatever nature or name have a basic education."

Those attending were feted to a barbecue by the Sweetwater BCD at the Sweetwater city park. Round-table discussions followed Dr. Pickett's address.

Taft calls for GOP stand on domestic and foreign issues. WASHINGTON, July 29. (AP)—Senator Taft of Ohio called today for a "frank discussion" by his fellow Republicans of domestic and foreign issues.

The Ohio senator, scheduled to receive his state's "favorite son" endorsement for the GOP presidential nomination at Columbus Thursday, said he plans to bear down during his western trip in September on issues likely to arise before the next session of Congress.

"I plan to talk about the issues before the country," including the Marshall Plan for economic aid for Europe," Taft told a reporter.

"Before Congress meets again (in January), I think all of these

AT TRIAL OPENING—Dr. Lloyd I. Ross, San Antonio physician, and his wife are shown in the Comal county court in New Braunfels, at the opening of his trial on charge of murder in the slaying of four members of the Willard H. York family last May 25. The case was reset for Sept. 9, on a defense plea for a delay. (AP Wirephoto.)

U.N. Nears Vote On Guard For Balkans

LAKE SUCCESS, July 29. (AP)—Soviet Russia abstained today on the first test vote in the United Nations Security Council on a United States resolution calling for a Balkans commission. The council approved the preamble by a 9 to one vote.

LAKE SUCCESS, July 29. (AP)—The United Nations Security Council agreed to begin voting late today on a United States proposal to set up a watch commission over the Balkans.

The council concluded discussion on the Balkan problem shortly before lunch, thus paving the way toward a climax of a month-long fight between the United States and Russia.

With Russia maintaining a 24-hour silence, a majority of the council members expressed approval of a U. S. proposal that the proposed commission be composed of eleven members.

Whether the Soviet Union would inject the veto on this part of the American resolution was still a matter of conjecture.

Throughout the morning session Soviet Deputy Foreign Minister Andrei A. Gromyko worked busily on a speech. Gromyko let the Yugoslav, Bulgarian and Albanian representatives carry the brunt of the discussion today. They again declared that the commission would not be constitutional and that under the charter they would not be bound to cooperate with it if established. This was the line which they have consistently emphasized since last Thursday.

U. S. Deputy Delegate Herschel V. Johnson opened the first of two council sessions today by insisting that the proposed commission should be composed of eleven members. He made it clear he would fight all attempts to set up a smaller commission.

Organization of a volunteer naval unit of the Seabees and Civil Engineer corps officers and enlisted men, who fought and constructed their way into history in World War II, is scheduled for the district courtroom here at 8 p. m. today.

Capt. Jack Hite Gilbert, CEC, USNR, of the Eighth Naval district headquarters at New Orleans, is to be here for the meeting. Capt. Gilbert, who was decorated during the war for his construction accomplishments, will explain how former enlisted personnel can hold their Seabee ratings, establish longevity of pay, and still retain a full-time civilian status in the reserve. He also will outline the seminary training and home study courses in civil engineering and associated fields which are available on a voluntary basis to all civil engineer corps reservists.

The official Navy motion picture on "Operations Crossroads," showing among other things the Seabee construction work for the atomic bomb tests at Bikini, will be shown at the organizational meeting.

All former Seabees and CEC officers and enlisted men in this area are urged to attend the meeting. Big Spring has been chosen as one of 40 cities in the Eighth Naval district for a CEC reserve unit.

Experts Expect U. S. Budget To Top 37 Billion

Total Close To Truman Estimate Made In January

WASHINGTON, July 29. (AP)—Administration budget experts said today that despite congressional cuts, federal spending this fiscal year will run fairly close to the \$37,500,000,000 estimate outlined by President Truman last January.

It may even exceed that figure when all the items are totaled up next June 30, these analysts told a reporter on the stipulation that they not be named.

They said the main reason for this is that Congress voted a number of appropriations—chiefly for foreign aid—which were not figured in when Mr. Truman drafted his budget estimates.

Chairman Taber (R-NY) of the House appropriations committee—sparkplug of the Republican economy drive—came up with his third set of figures in three days last night. And Rep. Gore (D-Tenn), self-described "watchdog" of GOP promises in the House to trim the budget by \$6,000,000,000, countered with his party's third compilation.

Taber contended in a radio speech that total savings to the treasury "as a result of the operations of the first session of the 80th Congress" amounted to \$4,403,700,000. He added that in addition the lawmakers rescinded \$2,684,000,000 in previous appropriations.

Gore's statistics, issued in the form of a statement, credited the Republicans with "total genuine reductions" of \$1,267,661,000.

Emphasizing that they have no desire to get caught in the middle of that argument, the men who keep track of such things for the administration said their rough guesses on the amount of the congressional savings run in the neighborhood of \$1,600,000,000.

Rodeo Boosters Headed East

The first Big Spring Rodeo motorcade headed east on Highway 80 at 8:30 a. m. today on the first leg of a goodwill tour through nine neighboring communities.

The second expedition is the leave at 8:30 a. m. Wednesday when six other cities and towns are to be visited.

Today's schedule was arranged by the American business club, while the local junior chamber of commerce will be in charge of the Tuesday activity.

Those making the trip today included Ellen McLaughlin, Rebecca Rogers, Dorothy Purser, Nancy Whitney, Billy O'Neal, Patsy Young Mr. and Mrs. James Sims, Bill Horne, Rexie Caudle, Jeff English, J. D. Jones, Paul Limer, Cecil Thixton, Neal Norred, Leonard Coker, Amber Tuttle, Marilyn Guitlar, Frances Weeg, Deputy Sheriff Tracy Kupper, Chief of Police W. D. Green, Hoyle Nix and his string band.

They were to make stops in Coahoma, Westbrook, Colorado City, Dunn, Snyder, Gail, Lamesa, Ackery and Knott.

The Tuesday schedule follows: Forsan, arrive 8:50 a. m., depart 9 a. m.; Sterling City, arrive 9:50 a. m., depart 10:10 a. m.; Garden City, arrive 11 a. m., depart 11:20 a. m.; Midland, arrive 12:10 p. m., depart 1:30 p. m.; Odessa, arrive 2 p. m., depart 2:30 p. m.; Stanton, arrive 3:30 p. m., depart 3:40 p. m.

Wrote FD, Got Ship Contract

Kaiser Testifies On Wartime Deals

WASHINGTON, July 29. (AP)—Henry J. Kaiser testified today that he sent a brief note to the late President Roosevelt and got a wartime contract to build small aircraft carriers after top Navy officials previously had rejected his offer.

The wartime industrialist told the Senate war investigating committee of this incident after saying "I can't recollect" when asked whether he went to the White House in connection with contracts he secured to build cargo-carrying airplanes.

The committee is seeking facts regarding some \$40,000,000 worth of airplane contracts awarded to Kaiser and Howard Hughes, aircraft designer and film producer.

Senator Ferguson (R-Mich) questioned Kaiser on this.

On the "baby flattops"—small aircraft carriers—Kaiser told this story:

He talked with the late Marvin McIntyre, secretary of the late President Roosevelt, about building the aircraft carriers.

McIntyre was "very available" and when the Navy rejected Kaiser's plans "by a vote of sixteen to nothing" he consulted McIntyre.

"At the time I had seen the President only once," Kaiser went on. "I went in to see Mac."

McIntyre told him, Kaiser said, that if Kaiser would "write a little letter of about four paragraphs" that McIntyre would "lay it on the Chief's desk."

Kaiser said the next day he received a call from Admiral Emory S. Land, then directing ship construction.

"Admiral Land said 'what the hell have you been doing?' Kaiser continued.

Kaiser said the letter to President Roosevelt caused top Navy officials to "reverse" themselves.

"I got an order for one hundred air carriers," he said. "All hell broke loose. They did not want aircraft carriers. They wanted destroyers. I told them I could not build destroyers. Finally they cancelled orders for fifty."

Kaiser said he did not want to call his ships "aircraft carriers" and at first "wanted to give them to the British" but finally "turned the heat of hell on us to produce more of them."

"The Navy reversed itself," he continued. "It was wonderful. Admiral King came in and said he wanted to help."

Admiral Ernest King was chief of naval operations and commander in chief of the Navy at the time.

At the outset of the hearing, Kaiser protested there has been a "smear campaign" against him.

"I have never in my entire history had such a smear campaign directed against me," the West Coast industrialist told a Senate war investigating subcommittee as it prepared to hear his story of his \$18,000,000 wartime cargo plane contract.

YOUTH HAS HIS LITTLE FLING

CHICAGO, July 29. (AP)—A high school youth who posed as "Howard Hughes, Jr." and ran up a \$166 hotel and automobile bill before his true identity was discovered, told police "I just wanted a big time."

Policeman Herbert Killacky, juvenile officer, who identified the youth as Glen Cordes, 15, said the boy's father, Gilbert Cordes, a carpenter, paid the bills for the weekend party.

Killacky said they included rental of a \$40 a day penthouse suite in a Michigan Avenue hotel; steak dinners and champagne for young Cordes and two friends; and rental of a limousine. He said the youth had told the hotel manager, Howard Hughes, millionaire, airplane builder and movie producer, would arrive at the hotel Monday night from California.

Knot-Hole Lads Will Get To See Games Gratis

A "knot hole gang" to be sponsored by the Big Spring professional baseball team will be organized at meetings scheduled for 5 p. m. today.

The organization is to be divided into three sections. Meetings scheduled for this afternoon include one at Lakeview school for Negro boys, one at Kate Morrison school for Latin-American boys and one on the east courthouse lawn for all others.

Knot hole gang membership cards are to be issued to those who join the organization this afternoon. The cards will be good for admission to the remaining home games on the Big Spring Broncs schedule, with exception of a three-game series with Midland.

Boys who join the gang will not be required to sit in special sections at the game, the Bronc management has announced. However, upon application for membership, each boy will be required to pledge good sportsmanship and good behavior at all games.

H. D. Norris, local Boy Scout field executive, is to supervise the organization.

Local Man Fined In Ration Case

SANTA FE, N. M., July 29. (AP)—The government chalked up two felony convictions and fines totaling \$2,300 as its score today in prosecution of 47 defendants on ration fraud charges involving 1,250,000 pounds of sugar.

The trials resulted from five four-month-old indictments. Fines ranging to \$5,000 against the Fort Worth, Tex., Dr. Pepper Bottling Co. were imposed by U. S. Judge Alfred P. Murrah. 23 individual corporations and 23 individuals were fined \$100 up, and two more individuals await sentence on the lesser charges.

Among those assessed fines were Harry Stalcup, Big Spring, Tex., \$500.

Truman Heads For Capital, Heavy Work

GRANDVIEW, Mo., July 29. (AP)—President Truman departed at 9:43 a. m. from Grandview airport for the capital, where a White House spokesman said a "flood" of legislation awaited his approval.

The president paid a final one-hour visit to the Truman cottage in Grandview, where funeral rites were held yesterday for his mother, Mrs. Martha Ellen Truman, 94, to say farewell to his sister, Miss Mary Jane Truman.

Then he motored to Grandview airport and took off in the presidential plane, the Sacred Cow. Accompanying him on the return visit was the ambassador of Mexico, Espinosa de los Monteros, who had come to Grandview to convey the condolences of President Aleman.

Presidential Secretary Charles G. Ross said the president will be faced with "a flood of all the bills passed in the final days of Congress—probably more than 150."

Ross said they were "main routine legislation," however.

Mrs. Martha Ellen Truman, 94, who said her son could "do anything just a little better than anyone else," was buried yesterday in Forest Hill cemetery at Kansas City, beside the unmarked grave of the president's father, John A. Truman.

Officers Fight Burglary Wave

Burglars moved into the residential area last night, as local law enforcement officers continued their hunt for subjects who have entered some 10 or 12 buildings and houses during the past week.

A screen was torn from a window at the Joe Burnam residence, 104 West 6th street Monday night and several articles were reported missing from the house. The loot there include a man's suit, a brakeman's uniform, a string of pearls, a gold necklace and an electric fan.

A prowler also was reported at the C. H. Tidwell residence, 500 Goliah, but the subject was chased off by a small dog.

Big Spring police believed they were close on the trail of the burglars this morning. Several clues have been unearthed and an intensive investigation is continuing.

Newton Is Denied Further Reprieve

AUSTIN, July 29. (AP)—Dr. W. R. Newton of Cameron has apparently lost his last-ditch appeal for further clemency in his assault to murder conviction.

By a vote of two to one, the state board of pardons and paroles yesterday refused to extend his 30-day emergency reprieve for 60 days.

Convicted of assault to murder on the late Dr. Roy Hunt of Littlefield, Dr. Newton's case was finally affirmed by the court of criminal appeals. Then Gov. Beauford H. Jester granted him a 30-day emergency reprieve July 1 on the grounds that if the doctor went immediately to the penitentiary, the lives of some of his patients would be jeopardized.

After that, Dr. Newton asked the board for a full pardon, and his plea was rejected by a two to one vote after a week of hearings.

Helicopter For Jester

AUSTIN, July 29. (AP)—Gov. Beauford H. Jester said today he will fly by helicopter to participate in air forces day Friday at San Marcos Army Air Field—his first such flight.

SERENADE ARRIVING LIONS—Dressed in their colorful western regalia, the Hardin-Simmons University Cowboy Band of Abilene strikes up a tune as they serenade a delegation of Lions arriving at Oakland, Calif., for the trip across the bay to San Francisco to the Lions International convention. Waving his hat from the railroad coach is Pete Ezell, Johnson City, district governor of 243 Lions. (AP Wirephoto.)

Cosden Working Round-Clock

Crude by day, products by night—that's the busy round-the-clock schedule of loading at Cosden Petroleum's refinery here. Respite will be gained temporarily from a further increase by difficulties encountered in completing storage at Orme (Arlington) and Abilene, sites for blending plants being installed by Cosden. The Orme storage, complete except for roofs, was caved by high winds recently, delaying completion by approximately a month. The schedule now calls for shipments to Abilene the first week in September, and Orme about a week later. Both movements will be under the special trainload rate quote under the Texas & Pacific "pipeline on wheels" schedule. Currently, Cosden is loading around 30 cars of crude oil per day for Shell Petroleum corporation, for delivery to refineries at Houston and Wood River, Ill. At night switching crews handle approximately 40 cars of products. No small amount of this volume is in fuel oil to the T & P, now experiencing a peak demand from record traffic.

Unprecedented shipments of crude from Wickett, Midland and Big Spring contribute to this. Too, Cosden is meeting T & P's Diesel oil requirements with the addition of passenger and switch Diesel engines to the locomotive equipment.

Included in the products volume are about 100 cars of five trainloads per month to Sweetwater. This is from two to two and a half times as much as Cosden shipped to the Sweetwater blending plant after it went into operation in February.

4-H Boys Go To Fort Stockton

Twenty-eight Howard county 4-H club boys left Monday for Fort Stockton, where they are attending the annual club encampment for this district. The club boys were accompanied by County Agent Durward Lewis and L. J. Davidson, adult 4-H club sponsor.

The local boys expected to enter several competitive events at the camp. They are due to return home Wednesday evening.

August 1 Deadline On School Transfers

Students planning to attend classes in districts other than their own the coming school semester must effect their transfers through the county superintendent's office not later than Friday, Aug. 1.

All reports to the contrary, the transfers must be made annually. Normally, about 250 transfers annually are made within the county. Only about half that number have been completed to date.

The transfer rule also applies to high school students who anticipate attending classes at Big Spring, Coshoma, Forsan or Knott.

Musicians Wanted By Army Band

Men with previous military service who can qualify as musicians can apply for direct assignment to the Fourth Army band by volunteering at the local US Army recruiting station.

Clarinet players, trumpeters, drummers, flute players, french horn players and saxophonists are needed to fill out the unit. Those accepted would be stationed at Fort Sam Houston, Texas.

Fined Twice

Alfonso Mendez paid fines in two different courts this morning after he had been picked up by members of the state highway patrol on charged of driving while intoxicated.

Mendez was penalized \$75 and costs in county court on the DWI count and later paid \$1 and costs in justice court for operating a motor vehicle without a license.

AWAITS EXECUTION—Yacoub Weiss (above), 23-year-old laborer, is one of the three young Jews hanged by the British today for their part in the Acre, Palestine, prison break, May 4, in which 18 persons were killed. The executions have added to the state of unrest in Palestine. (AP Wirephoto.)

National Guard Camp Cancelled

AUSTIN, July 29. (AP)—Adjutant General K. L. Berry today announced cancellation of the Texas National Guard summer field training camp.

He said the attempt to hold the first postwar camp was dropped because of failure to meet the war department strength requirements. He attributed this to lack of public interest in the guard and the refusal of many employers to grant military leave to guardsmen-employees.

Berry said there were other reasons for the failure of units to meet attendance requirements: 1. Shortage of armory facilities slowed down recruiting. 2. Many veterans in the guard are going to school under the GI bill and can not leave their studies.

3. Many guardsmen can not get away from their civilian jobs. 4. The 50th Texas legislature did not grant military leave to state employees who are guardsmen.

5. Congress has not passed universal military training. 6. Most units were originally organized with the understanding that there would be no summer camp this year, and individuals have made their summer plans accordingly.

Invalid Helpless As Wife Drowns

TROY, N. Y., July 29. (AP)—Mrs. Margaret Flaherty, 40, of Troy drowned yesterday in nearby Burden Lake while her partially-paralyzed husband, Dr. Charles Flaherty, sat in a rowboat a few feet away, unable to help.

Mrs. Flaherty was swimming beside the boat when she sank in 40 feet of water, state police reported.

Knott School May Be Limited To Only 10 Teachers

Knott school faces the prospect of getting along with ten teachers this year, compared to the 13 assigned there last semester.

Latest census of scholastics showed only 246 on the Knott rolls compared to something like 367 a year ago, a loss of more than a hundred scholastics within 12 months' time.

Many of the potential students were members of migratory Latin-American families who since have moved away.

Students will occupy the new \$90,000 school building in Knott in September.

Rodeo Draws Well During Its 14 Years

It's impossible to report the attendance of the Big Spring Rodeo association for the 14 shows held here, but 150,000 in that time is a conservative cumulative figure.

That's figuring it at about 11,000 per year. At the start, this exceeded attendance considerably, but after the first year, a plant was constructed and the rodeo put on an afternoon and evening basis, usually for three days.

In later years, however, the show has clung to the evening performance schedule, and this year is operating on four evenings, climaxing with a Saturday night program.

Purple wampum, shell money of the American Indians, was more valuable than white and was made from the shell of the quahog clam, still found. White wampum was made from the shell of whelks.

Local Dealer Views The New Ford Tractors

I. N. Senter, manager of the Big Spring Tractor company, dealer for Ford tractors, has returned from Dallas, where he attended the one-day sales conference of Ford tractor dealers, at which the new Ford tractor was introduced.

The new Ford tractor features an improved hydraulic system permitting operation of tractor and implement as a single unit with automatic hydraulic control of the equipment, Senter said. Other major improvements include an automotive-type steering gear, a fourth forward speed to give a wider range of working speeds, a new drawbar height control mechanism, combination running boards and step-plates, a seat that can be tilted back, and a hinged radiator grille for easy cleaning of radiator core.

While major improvements have been made in the tractor itself, farm implements now in use with Ford tractors will operate with the new model 8N Ford tractor, Senter pointed out.

Merritt D. Hill Dearborn, Mich., general sales manager, Dearborn Motors Corporation, the national marketing organization for Ford tractors, told the dealers that production of the new tractor was going forward at the Highland Park plant of the Ford Motor Company and that approximately 50,000 units would be marketed during the latter part of 1947.

EARL STEWART INVITED HERE

Efforts are being made to have Earl Stewart, Jr., of Dallas, recognized as the leading amateur golfer in Texas, come here to take part in the Aug. 28 exhibition match with Byron Nelson at the Municipal course.

Nelson notified Pro Foy Fanning that he would be available on that day.

Stewart told Shirley Robbins, pro of the country club, that he would try to work the Labor Day Invitational tournament into his schedule and a chance to play with Nelson, one-time king of the links, is expected to prove an added lure.

Billy Maxwell, Abilene's amazing youngster, may also compose a part of the Nelson foursome, Fanning stated.

Uncle Sam Always Winner At Rodeo

While a few rodeo performers go off with a roll of crisp bills tucked in their levis, most run their hands into empty pockets, cuss their luck and figure it will be different next time.

But the sure winner on every rodeo, as well as any other amusement, is Uncle Sam. Every year he counts off a flock of hundred dollar bills as his share of the take.

Annually the federal amusement tax on the gate runs between \$2,500 and \$3,000. Uncle Sam claims 20 per cent on each ticket for the event and it gets into money.

Markets

WALL STREET
NEW YORK, July 29.—Further selling cut quotations for most stock market leaders today although scattered buyers managed to override this handicap. Offerings again were based partly on the thought that a sizable technical correction of the rise since mid-May was a likelihood even if the bull push resumed later. Another drop in the London market served to dull sentiment. Inflationary psychology still was a bolstering influence, and were numerous pleasing earnings statements.

LIVESTOCK
FORT WORTH, July 29.—Cattle 6,800; calves 2,200; slaughter cattle and calves steady; some medium and low grades yearlings and calves steady to weak.
Common to medium steers and yearlings 14.00 to 22.50; good fat cows 12.00 to 17.50; common to medium cows 8.00 to 12.00; bulls 10.50 to 16.00; good and choice fat calves 18.00 to 21.00 common to medium calves 12.00 to 17.50.
Hogs 400 active, butcher hogs steady to 25 cents higher, good ad choice 180 to 270 lb butchers mostly 27.25; few ad 27.50; lighter 25.00 to 26.00; 25.50 to 27.00; good light sows 23.00 to 24.00; heavy sows downward to 20.00; good feeder pigs 22.00 to 25.00.
Sheep 5,400; fairly active, fully steady; medium and good wethers 19.00 to 22.00; medium and good good shorn yearlings 15.00 to 17.00; medium and good shorn yearlings 15.00 to 17.00; cull and common aged sheep 5.00 to 7.50; feeder lambs 8 cents or more higher, medium and good feeder lambs 10.50 to 12.25.

COTTON
NEW YORK, July 29.—Cotton futures were reactionary in action, declined today. Commission houses and New Orleans selling was inspired by weakness in outside markets, favorable crop news, and reports that mills are resisting high prices for early ginned new crop cotton.

An increase in movement of the new crop in Texas brought in some hedging in the future market. Only scale down trade buying was in evidence.

Disaster Relief Program Planned

AUSTIN, July 29. (AP)—A 28-member committee to work out a state-wide plan for cutting down on the number of fires and to help work out a program for disaster relief has been called to meet here Aug. 7.

Gov. Beauford H. Jester named the committee yesterday, suggesting that a sub-committee meet with members of his staff who have been working on a disaster relief plan since the Texas City blowup.

Jester said he wanted a fire prevention and protection program reaching every section of the state, on both state and local levels, to develop from the committee's work.

Speaker Traces History Of Oil For Rotarians

Knowledge of oil dates back 3,000 years, and production, refining and distribution to 300 years B. C., R. L. "Bob" Cannon, San Angelo, dean of West Texas geologists, told a ladies day gathering at the Rotary club Tuesday.

The Chinese developed crude oil resources 300 years before the birth of Christ, learned the elements of refining and set up a rustic distribution system, said Cannon.

In the United States, however, the industry is but 88 years old, dating back to Col. Drake's discovery in Western Pennsylvania in 1859. The Pennsylvania "rock" or lime series has produced from more areas and yielded most desirable crudes of any formation, according to Cannon.

Over-lying it is the Permian series, prevalent in the Permian Basin, now only 26 years old from the point of production and yet in its infancy. There is more oil than in the Pennsylvanian, asserted Cannon, but of lower grade. Below the Pennsylvanian is the Mississippian, which contains the Ordovician pay, including the Ellenburger. The Ordovician and Pennsylvanian zones in the east Permian Basin have scarcely been touched, in the opinion of Cannon.

He was introduced by Rupert Ricker, program chairman. Correne Tucker entertained with an accordion number and Charlene Tucker with a trumpet solo. They, together with Mrs. M. A. Cook, Mrs. W. S. Morrison, and Mrs. Shine Philips, were presented with special awards.

Capt. C. V. Goyer To Head U. S. Army Recruiting Here

Capt. Clarence V. Goyer, a native of South Bend, Ind., has arrived to assume command of the Big Spring U. S. Army recruiting station. He succeeds Lt. Robert Shiveley, who is being transferred to Roswell, N. M., Army Air Field.

Goyer, sent here through the El Paso district recruiting headquarters, was formerly on duty at Davis-Monthan AAF, Tucson, Ariz. A veteran of both World Wars, Goyer served with the Quartermaster Corps in the last conflict.

He was accompanied here by his wife, a son, Robert S. Goyer, is enrolled at DePaul university, Indianapolis, Ind.

Two Make Bond On Theft Charges

Woodrow F. Wade and J. D. Jackson, held in connection with the theft of several articles from automobiles parked near west-side night spots over the weekend, have been released on \$750 bond.

Wade has been sent to Wichita Falls where he will face trial on a felony count. He was under two years' suspended sentence for a car theft conviction at the time of his latest brush with the law.

Grain Futures Break

CHICAGO, July 29. (AP)—Grain futures broke sharply on the board of trade today, wheat declining as much as 5 cents a bushel during the morning session. Corn was off around 3 cents but oats showed some resistance to general selling.

The government reduced its wheat buying price by one cent at Kansas City. This combined with favorable weather for expansion of harvesting operations, started a selling wave.

Some of the selling in oats and corn reflected a government announcement that no export allocations of these grains were made for September.

British Agree To Ruhr Parley

WASHINGTON, July 29. (AP)—The state department said today the British government has officially expressed willingness to hold the long debated Ruhr coal production conference in Washington.

It was reported the British delegation will leave next weekend to come here.

This means another delay in opening the talks which top American officials had expected to begin this week. Originally the conference was to begin last week.

Uncertainties developed about the meeting, after the British announced demands that either it should include German problems other than coal, such as food and financing, or else it should be held in Berlin.

(In London a British foreign office spokesman said earlier today his government was "still awaiting amplification" of the agenda. He denied reports from Washington that Britain would abandon plans for nationalizing the Ruhr mines.)

The United States rejected Britain's counter proposals and today's report by Michael J. McDermott, state department press officer, means that the British have formally agreed to the American proposal for coal talks in Washington.

East Fourth Street Baptist Brotherhood Will Erect Signs

Members of the East Fourth Baptist Brotherhood Monday evening voted to sponsor erection of signs at highway entrances, welcoming visitors to Big Spring and the church.

At the meeting, attended by some 30 members, the Rev. Jimmy Parks, pastor, made his first talk to the Brotherhood. His brief address was followed by projection of films by C. N. Von Roeder. Knappe, who showed two additional reels of colored movies by request.

Kaiser

(Continued From Page One)
mittee, Kaiser categorically denied:

1. That he put "the heat of hell on Washington" to build the cargo planes as Secretary of the Interior Krug declared last week.

2. That he wasn't present at any of the parties at which Hughes entertained high government officials.

3. That Elliott Roosevelt, son of the late president, had anything to do with the letting of the cargo plane contract.

"This committee is welcome to question me in detail about Hollywood glamor or blondes, but the only girls I know about are the patriotic women who left their kitchens, entered war industries and did an unforgettable job toward winning the war," Kaiser said.

"Referring to sensational rumors preceding this investigation I want to state that I do not recall ever having met Elliott Roosevelt, and I never have had any business relations with him."

Philosophy Slips Up On Details

"The Office," a trade journal devoted to the problems of office work, equipment, conditions, etc., professes concern about an educational trend which short-changes some attention to fundamentals.

"This is the growing tendency of pupils who often reach the age of 10 without learning to read or write and from there go on without the fundamental principals of grammar, spelling, punctuation of the meaning and use of basic English words," the publication observes editorially.

It goes on to explain that some supervisors attribute this deficiency to current teaching philosophy which emphasizes original thinking, self-expression and activity programs in the schools at the expense of fundamentals.

There is a point here, although we should like to observe that the fault is not with the philosophy, but with the execution of it. The Office does not grasp the philosophy and its implementation. Creative thought is the crying need of the day, but in aiming at this, education often breaks down in the details. For instance, if a program of

teaching is carried out along modern philosophy, there certainly will be no brushing over such fundamentals as reading, spelling, writing and arithmetic. On the contrary, such teaching should be more effective by wetting pupil interest in the studies.

But there is no gain saying that many teachers have tripped up on this point. They have taken the course of least resistance in many instances and have glossed over the chore of challenging pupils to master the fundamentals upon which much of their future education and livelihood will depend.

It is time, indeed, that constant appraisal be held on these points. This is in the process of being accomplished in the field of reading in local schools. It can be accomplished in other fields and in other cities throughout the land.

Quite aptly, The Office observes that "attempts to correct faults at a later date in secondary schools, or business offices is too big a task for both the high school or business school, teacher or businessman."

Handy Aid For Meeting Problems

City officials, planners and others interested in solving traffic problems for the sake of safety, convenience and most logical movement will find the report of the Texas highway department and public bureau of roads most helpful.

Because the report concerns itself with highway and semi-highway traffic into and through the city, it throws light on the major portion of our traffic problem.

While we do not know on what basis extensions were made to cover the 24-hour period, there is some danger of inaccuracy on one particular road. It is the park road. The survey was taken from 10 a. m. to 6 p. m. Heaviest part of the Park Road traf-

fic comes after that time. There is chance for margin of error on the Cosden traffic count because the east station was placed west of an important cut-off; hence a substantial portion of the movement may have been missed. Too, shift changes and constant trek of trucks to the refinery may mean a higher 24-hour volume of traffic on US 80 east than the survey reflects.

However, the report is graphic and apparently well done. Thanks of the city and various civic agencies should go to the highway department for the survey. It can be made of great help in coming to grips with problems.

Texas Today—Jack Rutledge

Maggie The Mule Lands In Jail

Maggie the mule is well known to Texas rodeo fans. They'll be grieved to learn that she ended up in jail the other day. But it really wasn't Maggie's fault.

Maggie's co-star in the act is Bill McBrayer. When Maggie didn't show up one night, he had to go on alone. Then he began looking for her, and discovered her tied up at the sheriff's office.

It turned out someone had taken Maggie and started out to paint the town red. First, they stopped at a Main street drug store, where Maggie smashed a thermos bottle valued at \$4.75.

When the drug store manager called the cops, Maggie and her rider fled. Deputy Sheriff Troy

Renfro, Berger, found them later at a bar, where Maggie's rider was soaking up a few suds to beat the heat.

He was fined for disturbing the peace, but police said they had no authority to book a mule, and Bill had no trouble recovering her.

Down near Houston, two anglers were wondering what to do with an alligator. They were fishing when they hooked what they thought was a log. But the log began to thrash and twist.

The fishermen, C. P. Crawford and P. R. Crockett, towed the reptile a half mile to shore. It was nine and a half feet long.

But Beaumont City Dog Catch-

er Jack Nolan says a goat can be just as much trouble as an alligator.

He lassoed the goat while it was chomping up the hedges at the courthouse late one night. Then the struggle began. They bounced all along Pearl street. The goat wouldn't get into Nolan's truck, and Nolan couldn't let the thing loose.

Finally three boys sauntered up, helped him pull the goat to a parking lot where they tied him to a tree. The next day, Nolan took three men with him to finish the job.

In San Antonio, even love raided a concession, found that among the prizes offered winners of a wheel game were love birds cause trouble. Police

Affairs Of The World—DeWitt MacKenzie

Coal The Key To European Crisis

The vital part which coal production is playing in the European economic crisis, and consequently in the turbulent political situation, was well emphasized by two developments during the week-end—one in England and the other in Germany.

British Foreign Minister Bevin in an impassioned appeal to his country's workers in general, and to the coal miners in particular, warned that they must produce more or risk the fall of the Socialist government and a weakening of Britain's position in world affairs.

"My God, working men and women," he told a meeting of miners, "this is the first Labor (Socialist) government you have got. Don't let it fail, for the sake of generations to come.

Your labor government is carrying on in foreign affairs without the tools to do the job and I must be helped out."

That's strong and most unusual language to come from a cabinet minister, but it doesn't exaggerate the dangers of the situation in which the government finds itself as it struggles with England's first all-out experiment in socialism.

Be that as may, British conservatives are saying that unless production is increased the people will suffer hardships which will impel them to turn out the Socialist government and elect new leaders.

The German incident related to the Ruhr hard-coal production upon which the economic recovery of the continent depends so

heavily. The output is so far situated is critical. In an effort to remedy this, the British and American occupation authorities have devised a plan which is calculated to give the miners an incentive to produce more.

This is a bonus in food—a matter of great importance among people who have been going on short rations. Folk who are hungry think with their bellies.

Germany and Britain—in the order named—are by far the most important coal producing countries of Europe. Both England and the continent of course are in dire need of an increase in many kinds of industrial production, but virtually all manufacturing depends on the power produced by coal which must be hewn from the black caverns of the earth by human hands.

In Hollywood—Bob Thomas

Stu Erwin Plans New Comedies

HOLLYWOOD, (U.P.)—Comedy, long a movie staple but currently neglected, will be given new impetus by Stuart Erwin. With three other filmmen, he has formed ace productions, which will make six comedies.

Anne Baxter may land on suspension at 20th-Fox. She sliced "Chicken Every Sunday" (since postponed) because she didn't want to play a 40-year-old woman most of the picture. She also turned down Calamity Jane (since awarded to Jane Russell)

in the "The Paleface" at Paramount. Anne is wisely waiting for the right role to follow up her Academy award in "The Razor's Edge."

Roy Rogers may join the move toward transcribed radio shows. With his circus, rodeo and picture activities, it would be the most practical thing for him. Andy Devine will be Roy's steady sidekick in films hereafter.

Van Johnson played host to Gov. John O. Pastore of his

home state, Rhode Island, and Dr. Michael Walsh, former principal of the Newport high school which Van attended. After he finishes "Virgilus," the redhead takes off for a week of deepsea fishing, a new sport for him.

Melvin Douglas definitely will enter independent movie producing and why not? He made a success in his Broadway production of "Call Me Mister." His 12-month schedule calls for one at RKO, one for himself and one to be made in France.

Delicatessen Artists Gay Amid Salami

NEW YORK (U.P.)—Walter Phillips, a sad-eyed waiter in the Fifty-eighth Street Delicatessen, neatly aligned the mustard pot and salt and pepper shakers on the cracked marble-topped table and looked up at the paintings on the wall.

Those paintings were Phillips' first art show and even though the delicatessen did not provide as impressive an atmosphere as a dealer's gallery, Phillips was

proud of the display.

Phillips, a former actor and vaudevillean, looked at the fourteen paintings, brilliant circus clowns and skyline scenes of Manhattan, and said he felt he had achieved his artistic goal.

For two years, he explained, he had painted moody pictures. A year ago he switched to the gay clowns and soon began to feel he had struck the medium best suited for him.

"No, we have no limburger sandwiches," Phillips said gently to a customer, then returned to his favorite topic. "It came out of nowhere, almost overnight, this urge to paint gaiety."

"WANT A NICE FUR PIECE, PAL?"

Hal Boyle's Notebook

G-Gals Getting Rings

WASHINGTON, (U.P.)—Leaves from a capitol notebook: Budget trimming is reducing the number of "G-Gals"—government girl employees—in Washington.

It is estimated that only 95,000 of the 215,000 federal workers here are women.

Some of the girl victims of the economy ax have departed for the old home town tearful and depressed, but others are blessing their dismissal notices.

The reason: Many boy friends, content to court a government girl indefinitely as long as she was on the payroll, are now coming through with wedding rings.

"What are you doing with that cake?" Coolidge demanded.

"Taking it home to my mother," Coolidge hesitated, then turned to his wife and said: "Cut him a big slice, Grace."

The elevator operators at the capitol see little more of the world than a sailor in a submarine, but they have plenty of time to brood over the world's troubles.

"How's business?" a passenger pleasantly asked on these up and down philosophers. The operator looked at him moodily. "I'm not a man," he said dependently. "I'm a yo-yo."

Most important public documents and messages are now released to the press and radio several hours in advance of their actual publication.

But the Library of Congress, after retaining the secret Lincoln papers for 28 years, released them at a spot news conference, forcing reporters to scramble for telephones just as if Lincoln were still alive and had issued a dramatic announcement.

"I never thought," said one dazed newsman, "that I'd ever be phoning bulletines on the civil war."

That's Washington.

Calvin Coolidge practiced law in Northampton, Mass., after leaving the presidency. Al Singleton, a reporter at the capitol now for the Associated Press, recalls that each year a New York chef used to send a birthday cake to Coolidge.

The former president would call in Northampton friends to help eat it. On one occasion he noticed Singleton wrapping up his portion.

It Happened Back In—

FIVE YEARS AGO
Capt. and Mrs. Preston Sanders through here enroute from El Paso to Fort Hancock, N. J.; fishing permits on Moss Creek lake reduced to 25 cents per person.

TEN YEARS AGO
Repairs made on scenic mountain drive; Dr. E. O. Ellington takes first airplane ride to Glendale, Calif.; with his son-in-law, Ed. Rowe, as pilot; 10 pounds potatoes in local stores \$0.27.

FIFTEEN YEARS AGO
Vandals shooting out lights on airport landing field; Ross Hammond, son of Mr. and Mrs. B. Hammond, seriously injured in fall from horse; Mrs. Arthur Woodall home from 10-day visit in Marfa.

Solution of Yesterday's Puzzle

Washington Merry-Go-Round—Drew Pearson

Evaluating Freshmen Legislators

WASHINGTON. — The world knew what President Truman said when he walked onto the senate floor the other day and occupied his old seat, but not many people knew what happened in Leslie Biffle's office just before the president decided to take this unprecedented step.

Once before, on the day of his inauguration, Biffle, who is head of the Democratic policy committee, had talked Truman out of appearing on the Senate floor. But this time it was Biffle who dared him to do it.

Nothing sensational occurred at the luncheon which preceded the president's nostalgic return to the senate floor. After some good-natured ribbing by Illinois' lanky Scot Lucas about Truman's red-white-and-blue bow tie with handkerchief to match, which Kentucky's Barkley said was not as good as his, Biffle dared the president to step across from the private luncheon and take his former senate seat.

"You wouldn't let me do it last time," chided Truman, and almost immediately marched out onto the senate floor.

After he finished speaking and was leaving the senate, Tom Connally of Texas bounced after him. "Harry! Harry!" shouted Connally as the president walked briskly out the door and down the corridor.

A flustered doorman, taking in the situation, leaped from his seat and shouted: "Hey, Harry! Tommy Connally wants to see you!"

Truman wheeled around, the doorkeeper flushed crimson, and Senator Connally was able to pay his respects to the president.

WHO WAS WHO IN CONGRESS
Now that the smoke of congressional battle has cleared away, it's possible to look back and do a little sizing up as to who did the good jobs and who did the bad among congressional newcomers. Not for years has Congress seen such a bumper crop of freshmen, and the voters who elected them deserve to know how they rated.

So here is the Merry-Go-Round scorecard on the first-terms in the house of representatives: James T. Patterson, Connecticut Republican—A 38-year-old ex-

Marine officer, courageous, intelligent, doesn't hesitate to buck the leaders when he thinks they are wrong. A-1 record.

John A. Blatnik, Minnesota Democrat—an ex-Major who three times parachuted behind Tito's lines during the war and operated a 5th column there against the Germans. Just as tough in congressional battle as in European battle.

Frank Karsten, Missouri Democrat—learned the congressional ropes as aide to ex-Congressman Jack Cochran of Missouri; knows more about Congress than many old-timers, is respected by both parties.

Jake Javis, New York Republican—progressive and independent gets in the leaders' hair but one of the best operators in Congress.

Robert E. Jones, Alabama Democrat—successful in the house seat of Senator John Sparkman, an ex-navy gunnery officer, and a chip off the old block.

John Davis Lodge, Connecticut Republican—scholarly, conservative, Harvard, ex movie actor, brother of Senator Cabot Lodge. Ranks high with house leaders because he votes regular, is frank to admit his political career has been aided by a beautiful Anglo-American wife who stumped with him in the 1946 campaign.

George Smathers, Florida Democrat—lanky, 33-year-old progressive; a Marine corps hero, and a real comer.

Katharine St. George, New York Republican—this lady has brains and charm and might go places if she quit following the voting cues of her predecessor and political tutor, isolationist Ham Fish.

Carl Albert, Oklahoma Democrat—a 33 year-old Rhodes scholar, who served five tough years in the army, rising from buck private to lieutenant colonel. Shows promise in Congress.

Donald Jackson, California Republican, a personable, hard-working young ex-Marine, with an intelligent interest in world affairs, though needs more grooming.

John A. Carroll, Colorado Democrat, 46-year-old former Denver

district attorney, and two-war vet, courageous, farsighted, is developing into a fine public servant. A-1 rating.

Omar Burleson, 41-year-old Texas Democrat, has earned the respect of Democratic leaders for his drive and sincerity, though not always for his voting record.

Thurston B. Morton, Kentucky Republican—hard-working, far-sighted, fair-minded is accounted a comer by party chiefs.

John Kennedy, Massachusetts Democrat and son of the former U. S. ambassador to Great Britain. Shows the same brilliance as his father, though steadier. Should have a great future.

Glenn R. Davis, Wisconsin Republican, a 32-year-old war vet with nine battle stars, has established himself as a savvy legislator.

Now, let's take a look at the other side of the ledger—the unpromising freshmen. Since more new Republicans than Democrats were elected to the house in the 1946 GOP landslide, the "deadwood" in GOP ranks is proportionately higher. However, the Democrats have at least two freshmen they have no reason to shout about: John Bell Williams of Mississippi, and J. Frank Wilson of Texas, 46-year-old former president of the Dallas Bar association.

Chief Republican aspirant to the "dud" freshman class is Charles K. Fletcher of San Diego, who has won distinction as representing the real-estate lobby much more than the 23rd district of California. Other Republicans in the dud class are: Edward Jenison, Thomas Owens and Richard Vail, all of Illinois; Caleb Boggs of Delaware; John Sanborn of Idaho; Herbert Meyer and Wint Smith of Kansas; Edward T. Miller of Maryland; Parke Banta and Albert Reeves, both of Missouri; William J. Crow, Paul Dague, Franklin Maloney, Robert McGarvey and George Sarbacher, all of Pennsylvania.

Unless these boys perk up and get wise to things, the sooner they're retired to the sidelines the better.

(Copyright, 1947, The Ball Syndicate)

The Nation Today—James Marlow

A Review Of U. S. Social Security

WASHINGTON, (U.P.)—Until 1950 the social security tax on you—you means most workers and employers—will continue to be one percent.

That's what the tax has been since the beginning of social security. Before it adjourned last weekend, Congress voted to keep the tax at that figure until 1950.

Since this is a tax taken out of the income of most families, here is an explanation of it.

In 1935 Congress passed the social security act, but the act didn't go into effect for two years. Starting in 1937, this is what has been happening:

On the pay they earned up to \$3,000, a tax of one per cent is deducted from the pay of workers "covered" by the insurance.

And the employers of such workers pay a tax of one per cent on the pay each worker earns up to \$3,000 a year.

(Note: This particular social security tax has nothing to do with any other kind of tax, such as for unemployment.)

Starting in 1940, the government began making monthly benefit payments to:

- Retired workers, men and women, who have reached 65.
- An additional monthly benefit for a retired worker's wife, if she is 65, and for his unmarried children under 18.
- If the retired worker over 65 dies, then monthly benefits go to:
 - His widow, if she's 65 or over.
 - His widow, if any age, if she has dependent children in her care.
 - Unmarried children under 18.
 - To the dependent parents of the dead worker.

In 1940, about 108,000 people received them. Now about 1,711,000 are receiving them.

About 50,000,000 people are now paying the one per cent tax; 47,500,000 are workers and 3,000,000 are employers.

The government's social security fund has taken in, through the tax, about \$9,860,000,000 since 1937. After paying out benefits, it still has about \$8,738,000,000.

To build up the fund to take care of the future heavy drain on it, Congress voted this:

To raise the tax gradually from one per cent until Jan. 1, 1950, until it reached three per cent, starting in 1949.

But each time Congress blocked the scheduled increase and finally decided to let it stay at one per cent until Jan. 1, 1948, when it would become 2 1/4 per cent.

(Congress, of course, between now and then may change its mind again.)

Oxygen Tank Offered As Hangover Cure

HOUSTON, Tex. (U.P.)—Anyone with a mean hangover and \$6 might see J. F. Hury. He's got the "perfect cure."

Hury, division manager of the Houston Oxygen Co., said his side line of aiding the over-indulgent had its birth when fliers discovered during the war that oxygen would clear the head and drive alcohol out of the bloodstream. The company prepares oxygen for medical purposes.

Hury said the handy 40 cubic-foot "pocket size" tank is ideal for week-ending. The large "economy" size which holds 122 cubic feet is recommended for those with really brutal hangovers.

"All you have to do is relax lying down, open the valve and Hury said.

Oilers Cuff Big Springers Behind Brad Trine, 12-11

Pioneers Snap Losing Streak

Lubbock's Hubbers were back on top of the West Texas-New Mexico league today and they could thank last-place Clovis.

The Hubbers beat Abilene, 13-4, last night to sweep a three-game series, but it took Clovis' 5-4 decision over Amarillo to give them the lead.

Clovis broke a 22-game losing streak by dumping the Gold Sox into second place. Two runs in the ninth inning turned the trick.

Hal Jackson's home run tied the score, then two singles and a walk won the game.

In other games, Lamesa blasted Pampa, 22-8, and Albuquerque and Berger split. Albuquerque won the opener, 12-5, but lost the nightcap, 11-8.

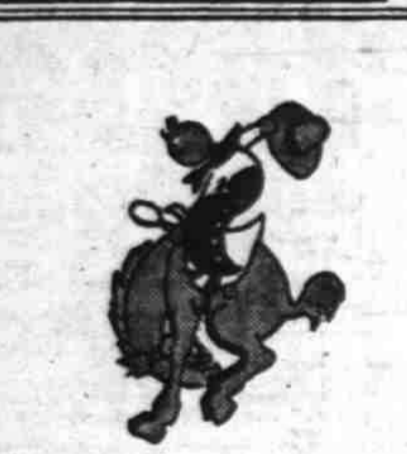

George Sturdivant, Lamesa manager, was honored by local fans last night and he showed his appreciation by driving in seven runs on four hits. Among them were two home runs.

Bill Serena hit his 38th homer of the season in Lubbock's easy victory.

'Teen agers who are hep to fun and physical fitness are making a standing date at our alleys to bowl in groups. Start now: be a tournament winner before long.

LOOKING 'EM OVER

Unless they do a complete about-face and throw a hex by remote control—on Our Town's Broncs, the Vernon Dusters are going to find themselves eliminated from first place consideration in Longhorn league standings within the next few days.

In standings Monday morning, the Dusters were an even 31 games off the Hosses' pace. They had won 29 decisions in 93 starts, not a very healthy record.

The club had 37 games remaining on its 1947 schedule as compared to 40 for the Big Springers. If the North Texans maintain designs on climbing into the Shaughnessy playoff at season's end, they have their work cut out for them. They were 10 1/2 games in arrears of Odessa's Oilers, who were 20 1/2 contests back of the Big Spring team.

Odessa is still very much in the running for a playoff slot, even though there appears little chance of overtaking either Big Spring or Midland. The Oilers were just 6 1/2 lengths behind Sweetwater and Ballinger, the teams in a third place deadlock.

Howie McFarland's team still had ten games with Big Spring, five with Midland, nine with Vernon, seven with Sweetwater and six with Ballinger.

The huge lead Big Spring and Midland piled up at the beginning of the campaign will begin to pay dividends soon. Elimination will come swift and sure for two of the clubs.

Jack Haupt, the former Lamesa hurler who was supposed to come here about a month ago, instead signed on with Superior, Wis., and has been released by that club. Haupt balked at the salary terms proffered him here.

Ortineo Bosch, the Cuban boy who came here for a tryout but left with Bob Huntley's Vernon crew, is hitting about .333 for the Dusters. He came up with a brace of home runs against Sweetwater last Saturday night.

Andy Viamonte, the Havana athlete who was Big Spring's shortstop the first month of the Longhorn league campaign, is back in Cuba but may attend college in the United States this winter.

He's studying English in his native city, wants to speak the language fluently when he comes here to play ball again in 1948.

Leon Glenn Bredemeyer, the local boy who has been pitching for Vincent in the Colorado City JayCee softball league, went to Taylor last week to pitch for a team representing that city in an invitational tournament, gave up but one earned run but his club lost to a nine from Hutto, Tex., 6-3.

The Colorado City league, incidentally, may stage an invitational softball tournament after their championship playoff this weekend. If so, four out-of-town teams will be invited to compete.

Horace Rankin, a pick on The Daily Herald's All-District 3AA

JAMES BUTLER (above), responsible for staging the first International Gold Cup race in New York recently, is looking forward to an even bigger event in 1948. Stytle won the \$100,000 sallop and became the leading money winner of all time.

McClain Clouts Round Tripper

ODESSA, July 29. — Odessa's Oilers turned back the Big Spring Broncs, 12-11, in a wild Longhorn league baseball game here Monday night, scoring a run in the eighth round to cop the duke.

The Refiners blasted the offerings of Humbert Baez, diminutive hurler, for a total of 17 hits, including a home run by Harvel Jakes, a three-bagger by Tommy Perez and a two-bagger by Howard McFarland.

McFarland sent the winning run across the dish in the eighth with a long fly to center, Jack Frazier spiking the dish.

Jake McClain drove out a round-tripper for the Hosses with two mates aboard in the third. Gaspar Del Toro and Leamon Bostick paced the Bronc 15-hit attack off Brad Trine with three blows each.

Orlando Moreno succeeded in hitting in his 35th consecutive game, McClain in his 28th in a row.

The two teams clash here again tonight. Muscles Conniff will probably take the hill for the Oilers while either Charley Parlier or Pat Patterson will toil for Big Spring.

Midland, second-place club, was having its troubles, too. LeRoy Jones, Sweetwater lefthander, clouted the Indians as his mates clouted out a 17-2 victory. The Tribe remains 1-2 games behind the Cayuses.

Table with columns for Player, AB, R, H, O, A.

Big Spring Hardware's softball team hits the road this evening, moving to Sterling City to do battle with the American Legion team of that city in an exhibition battle booked for 9 p. m.

The Spartans are net stragglers to the Sterling diamond, having competed in the Invitational tournament there two weeks ago.

Doyle Tourney, manager of the Big Springers, announced recently he was planning to take his team to Midland's district TAAF tournament next month.

Jewelers Visit Knott Aug. 2

Skipper Freddy Acton is planning to take his Nathan's Jewelry baseball team to Knott next Sunday for a 3 o'clock contest with an independent team representing that community.

The Jewelers, returning to action last weekend, dropped a close 4-3 decision to Forsan but looked good in doing it.

Bengals Meet Colts Sunday

Victors over Monahans last Sunday, the Big Spring baseball Tigers meet Midland's Colts here next Sunday afternoon, Manager Ynez Yanez announced this morning.

In two starts against the Midland team, the Bengals have managed to win one game.

Sure Hot, Isn't It?

YES SIR!! We have plenty of hot weather ahead too. Why suffer with the heat when you can enjoy a cool comfortable home. Home is the place where you relax and forget the hard days work that you have done. WHY NOT BE COOL.

Houston Widens Edge Over Cats With 6-4 Win

By The Associated Press
Houston won't lose its Texas league lead for at least two more days.

The Buffs insured the top spot until after their current series with Fort Worth by handing the Cats a 6-4 licking last night. The victory boosted their margin to three games.

While the two top teams were staging a crucial series for the lead, Dallas slipped into third place ahead of Shreveport's slipping Sports. The Rebels downed San Antonio, 7-4, while Oklahoma City edged Shreveport, 3-2.

Tulsa crept within 14 percentage points of fourth place by taking its fifth straight game—this one a 7-6 affair over Beaumont.

Houston staged another of its late drives, coming from behind a 2-0 Fort Worth lead in the fifth inning. The Buffs tied the score in the sixth and added another in the seventh.

Joe Tepesic's home run in the seventh whittled Houston's margin. A Ladies' Night crowd of 12,230 watched Buff Stan Benjamin ruin Clarence Podbielan's no-hit game in the fifth with a clean single.

Two other Cat hurlers saw service before the tilt was over. Roman Brunswick won his tenth game of the year for Houston.

Floyd Giebell easily won his eighth game as Dallas beat San Antonio. The Rebels scored once in the first, bunched six hits for five more in the third and added the final score in the fifth.

Charlie Grant hit a home run for San Antonio in the fifth and Archie another in the seventh. The Missions picked up three runs in this frame.

Jess Newman romped home in the eighth inning on Danny Reynolds' wild thro' to hand Shreveport its eighth straight defeat.

A four-run Beaumont rally in the eighth inning wiped out an early Tulsa lead, but John Stone quelled the Exporters. Tulsa's Hal Kline received credit for the win.

Spartans Play Sterling City

Big Spring Hardware's softball team hits the road this evening, moving to Sterling City to do battle with the American Legion team of that city in an exhibition battle booked for 9 p. m.

The Spartans are net stragglers to the Sterling diamond, having competed in the Invitational tournament there two weeks ago.

Doyle Tourney, manager of the Big Springers, announced recently he was planning to take his team to Midland's district TAAF tournament next month.

Weidner, Gets BSAC Winners

Billy Weidner and Al Getz scored victories in wrestling matches at the Big Spring Athletic club last night, clearing the way for a collision next week.

Weidner had his troubles with burly Walter Stratton, a fellow Bostonian, but subdued the Easterner. Getz bounced George Bruckman about the ring rather easily.

Assault, Armed May Meet In \$100,000 Match Race

Hirsch Weighs Chi Challenge

CHICAGO, July 29. —The King Ranch handlers of Assault today weighed a challenge to face Calumet Farm's Armed in a winner-take-all match race for \$100,000 during the current Washington Park meeting.

The bid made by the Washington Park Jockey club yesterday for the long-awaited showdown between the two great thoroughbreds became a challenge affair when owner Warren Wright promptly said his Armed was ready and willing for a crack at the 1946 triple crown winner.

That put Assault on the spot, but trainer Max Hirsch of the King Ranch said he wanted to make sure his horse was in condition.

Hirsch said that upon his return he will recommend that owner Robert J. Kieberg accept the match.

The distance would be the same as the Kentucky Derby which Assault won last year on his way to coping racing's triple crown in the three-year-old realm.

Assault this year won five consecutive stakes in New York and Maryland.

Not only would King Ranch regain considerable prestige after the gold cup setback by sending Assault to victory over Armed, but Kieberg also would place his horse on top of Stytle as an all-time money-winner by grabbing the \$100,000 pot.

Vincent Wins Over Magnolia

COLORADO CITY, July 29. — Vincent of Howard county wound up its second half Colorado City JayCee softball schedule by trouncing Magnolia, 10-7, here Monday night.

Leon Glenn Bredemeyer hurled the first four innings for Vincent, giving up but one run. Leon Kirby came in to finish.

Bredemeyer helped his team's cause along with two doubles that scored three runs. He also tallied twice.

Vincent, first half champions, finished as runnerup to Cuthbert with a record of seven wins in eight starts. The Howard County team faces Cuthbert in a playoff next week.

Playoff Underway

SHREVEPORT, La., July 29. —The first of a three-game playoff series to determine the Louisiana State American Legion Junior baseball championship will get underway here tonight at the Texas league park.

The Jesuit Blue Jays of New Orleans will meet the Address Bluebirds of Shreveport.

Joe Hatten Beats Chicubs Again To Near Nation League Record

By The Associated Press
Joe Hatten, the stylish southpaw of the Brooklyn Dodgers, who has beaten Chicago six times without a setback this season, needs only three more triumphs over the Cubs to tie the record for most victories over a club in one year.

The record of nine is held by Ed Reulbach of the 1908 Cubs whose victims, strangely enough, were the Dodgers.

Hatten pitched a three-hit 4-0 shutout over his "Cousins" yesterday to extend the Dodgers' winning streak to 10 straight, not counting the protested 3-2 "victory" over the St. Louis Cardinals July 20. It is the longest winning streak of the season in the National League.

The win enabled the Dodgers to maintain their seven game lead over the runner-up St. Louis Cardinals who staged one of their customary fast finishes to nip the Boston Braves 8-7. The Braves dropped to nine games behind the Dodgers and one percentage point behind the third place New York Giants who lost to Cincinnati, 5-0.

In the only two American league games, the New York Yankees increased their first place margin over the idle Boston Red Sox to 10 games by defeating the Detroit Tigers 5-1 and the Philadelphia Athletics won over the Chicago White Sox 5-3.

Two Cardinal catchers, Del Rice and Joe Garagiola, sparked the Red Birds' win over the Braves. Rice's three-run homer off left-hander Warren Spahn tied the score in the eighth. Garagiola's pinch hit single sent Enos Slaughter home with the decisive marker in the ninth.

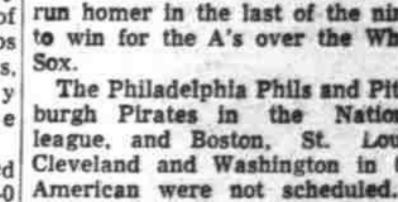

Johnny Vander Meer, beaten in his last five appearances, handed the Giants their third shutout of the year and also halted the Giants' homer hitting streak which had gone through 15 straight games, one short of the National league record.

Rookie Vic Raschi, young importation from Portland of the Pacific Coast league, held the Tigers to six hits in besting Hal Newhouser. Hank Majeski smashed a two-run homer in the last of the ninth to win for the A's over the White Sox.

The Philadelphia Phils and Pittsburgh Pirates in the National league, and Boston, St. Louis, Cleveland and Washington in the American were not scheduled.

Aug. 1 Is Deadline On Benefits From Some GI Insurance Policies

Although the time for re-instating lapsed GI insurance has been extended, Aug. 1 still is the deadline for applying for two other insurance benefits, Ray Boren, local Veterans Administration contact representative, reported today.

The first concerns veterans who may be entitled to waiver of premium payments because of total disability existing for six or more months. Waiver in such cases generally is made effective from the date the period of disability commenced, but not more than one year before VA's receipt of the insured's application for waiver. If application is made by Aug. 1, however, and entitlement to waiver is established, it may be made effective from the beginning of the disability period as far back as Aug. 1, 1941, and premiums paid while the insured was totally disabled will be refunded.

The other Aug. 1 deadline affects beneficiaries of deceased NSLI policy-holders who, prior to death

either in service or after discharge, became eligible for waiver of premiums but never applied. Such beneficiaries may claim refund of payments during the insured's total disability extending as far back as Aug. 1, 1941 if application, with evidence of right to waiver, is made by Aug. 1 this year.

Forms and assistance in applying for these benefits are available at the local VA office, room 206, Petroleum building.

Man Electrocuted

HAMILTON, July 28. (AP)—Richard Robert Rost, 42, was found dead in a homemade air conditioner Sunday. He apparently was electrocuted while repairing the machine. There were burns on the side of his face and one shoulder made by the wire grill in the conditioner which had 110 volt current.

Witness Recalls Water Torture Of U. S. Army Private By Japs

NEW YORK, July 29. (AP)—The water torture of an American Army private by Japanese prison guards was described late yesterday by a witness at the Navy court martial trial of Chief Signalman Harold E. Hirschberg, 29, accused of mistreating fellow American war prisoners in the Philippines.

One of the specifications against Hirschberg accuses him of inflicting the Japanese guards of an escape attempt of the American private, George Garrett of Waco, leading to Garrett's subsequent torture and death.

Charles Lester Pruitt, 26, chief carpenter's mate, testified that he was a prisoner in March, 1944.

"One day," he said, "I was going with a Japanese guard after nails when I saw that a Jap had Garrett out of guard house and was practicing judo on him."

"Another Jap guard who was watering the lawn with a hose

nearby came over to Garrett apparently with the intention of reviving him. But he rammed the hose down Garrett's mouth and jumped on his stomach as though he were trying to pump the water out of him again."

Later, Pruitt said, he saw Garrett being led from the guard house.

"His hands were tied to his back and they were leading him by a rope tied around his neck. He was walking stooped over, as if he were on the verge of death."

"I saw him being taken just before dark over the northern end of

Zablin Field. He could just move under his own power. Then he disappeared from sight."

Asked if he had seen Garrett's grave, Pruitt replied:

"Yes, a few days after he was taken across the field I was out with a Jap guard cutting bamboo poles when we came across a mound of earth. The Jap couldn't speak English, but he made it understood that this was Garrett's grave. x x x There was blood on the grave and I saw pieces of rag and paper around with blood on them."

Congressmen Set Themselves Up For Some World-Wide Touring

WASHINGTON, July 29. (AP)—Call the roll of Congress in the months to come and "here" will re-echo from London, Berlin, Paris, Palestine, Cairo, New Delhi, Shanghai, Pearl Harbor and Alaska.

Never before in the nation's peacetime history has there been such an international minded assembly of lawmakers, nor a group with the determination and the means to collect first hand information on "what goes" abroad.

Just a year ago, the Republican party was campaigning with the slogan that Congress would open each day's session "with a prayer and close with a probe."

More than a score of house and senate committees, and better than a majority of Congress itself will be heading overseas, to inquire into foreign policy and military affairs or be bound for various sections of this country to study domestic problems at their source.

The inquiries will cost more than \$2,000,000.

House Democratic Leader Rayburn of Texas has called many of them "junkets" and told the Republicans their economy record in that direction "isn't so hot."

Kiwanis Prexy Sets Program

Dr. Charles W. Armstrong, Salisbury, N. C., newly elected president of Kiwanis International, is expected to announce his administrative plans at a meeting of the service organizations board of trustees in Chicago on Aug. 9-10, local Kiwanis club officials have been informed.

Elected at Kiwanis International's 32nd annual convention recently, Dr. Armstrong has indicated that he will urge national preparedness, economy and efficient in government, suppression of Communist trends and equal rights and responsibilities for capital, labor and management.

It also was learned that Dr. Armstrong will appear before clubs in this area sometime during the next 12 months. He is developing an extensive speaking itinerary which is expected to take him into each of the 29 districts of Kiwanis International.

Charles Prather Is Selected For A&M Veterinary School

Charles Prather, son of Mr. and Mrs. C. E. Prather, is one of 64 students selected for the school of Veterinary Medicine, the registrar at Texas A&M college has announced.

Selections were made on the basis of the previous years scholastic work. The 64 students were selected from a list of 304 applicants. Young Prather was one of 15 from 1,700 students to receive scholastic award from John Tarleton college last year.

Two Killed When Car, Train Crash

BEAUMONT, July 29. (AP)—Two of three passengers in a sedan were killed last night when the car and a Southern Pacific passenger train were in collision at a crossing here.

Willie Reid Harris, 18, and Claude Elmer Ray, 18, both of Warren, Texas were killed instantly.

Navy Finally Captures Wild Dog—Survivor Of Atom Blast

WASHINGTON, July 29. (AP)—The Navy finally has captured the wild dog of Bikini.

The animal has been roaming the island since the atomic bomb explosion last summer.

After its capture in a ham-bone baited trap, the dog appeared to be in good condition on its diet of crabs, clams, and other food picked up on the island.

She will come back to the United States aboard the Navy's scientific survey ship, the U. S. S. Chilton, to take her place with pig 311 and a goat, two other survivors of the Bikini A-bomb blast, the Navy said today.

A navy party is conducting a six-week survey of the lingering radio activity on Bikini and in the ships that lie under the lagoon.

Senator Lauds Housing Probe

WASHINGTON, July 29. (AP)—Senator McCarthy (R-Wis.) said today he expects a Senate-House investigating committee to give the next Congress "the real lowdown" on the high cost of housing.

McCarthy, who will head the joint committee if precedent is followed, told a reporter he expects the group to hold hearings in all sections of the nation.

As author of the resolution calling for the investigation, the Wisconsin senator said he hopes it will concentrate on finding out why more prefabricated homes have not been erected, why materials costs are so high and what can be done about building codes that bar emergency construction.

"We should be able to give Congress in its next session the real lowdown on what makes the cost of housing so high that it can act intelligently to get some homes built, particularly for veterans," McCarthy added.

Crude Oil Output Rises In U. S.

TULSA, Okla., July 29. (AP)—The Oil and Gas Journal reported today crude oil production in the United States averaged 5,094,115 barrels daily during the week ended July 26, an increase of 35,685 barrels over the previous week's output.

Texas accounted for much of the week's gain with an increase of 31,200 barrels to 2,255,250.

Sharp gains were recorded also by Louisiana, which was up 7,600 barrels to 429,450; California, up 3,600 to 521,600; and Wyoming, 3,220 to 117,290. Eastern area increased 2,900 to 65,700. Mississippi gained 1,750 to 96,810 and Kansas was up 1,850.
