75TH YEAR

ELDORADO—SCHLEICHER COUNTY, TEXAS (76936) Thursday, February 26, 1976

Number 9

by Lyndell Williams  
Texas Press Association

Austin, Tex.—Insurance agency spokesmen have called on the State Board of Insurance for another raise in homeowners policies averaging 5.2%.

Surprisingly, the request was smaller than the rate adjustment recommended by the board's own actuaries who figured a 6.7% hike was justified on the basis of claims.

Either increase would cost policy holders about \$30 million a year for all types of building coverage.

Rates would vary according to location and construction. Differences in recommendation were due to the fact the board calculates on the basis of two years' experience in fire losses, while the industry uses a three-year experience base.

Both the board staff and industry spokesmen recommended higher new rates become effective on July 1.

An average 8.3% increase in homeowners policy rates already had been permitted to go into effect last week. Industry representatives contended the prior rate was inadequate to cover losses and was based on old data.

New rates were proposed for fire, extended coverage and farm and ranch as well as homeowners policies.

### Oil Allowable Still 100%

Texas Railroad Commission again set the monthly oil production allowable at 100%.

March will be the 48th straight month of all-out production except for the East Texas field, held to 86%.

Speaking at the commission allowable hearing the head of the state's largest oil and gas association claimed bills before Congress may cause a crisis which can be used as an excuse for nationalizing the petroleum industry.

### Historical Society

Did you ever wish you had kept a journal or diary? Seems things happen so quickly nowadays there is never enough time to write things down for later recollection. Most of our everyday life seems so routine at the time we don't think it's worth the effort to record. Yet, years later we wonder how we made it through the hard times and why we didn't appreciate the good times more.

Well it's not too late! You don't have to wait 50 years, either, to enjoy it. A lot can happen in six months or a year that can make looking back a joy. The Historical Society will be asking you to scratch your heads and stretch your memory back to events and happenings that concern any part of our Schleicher County history.

Start getting ready for our big day June 26 and plan to take part in what, we hope, will be the highlight of your bicentennial year.

### REMEMBER WHEN?

Before the day of the computer and data processing, there was the "Election Party." It was an institution of the smaller owns and communities before the advent of radio and television, especially where there was no daily newspaper.

There would be a big blackboard on a platform in front of the drug store. Some one "good with figures" would chart the progress of county results and what state results could be obtained by telephone. No telling how much money was spent on telephone calls to see if "Ma Ferguson was gonna make it." Kids ran around playing tag, while parents anxiously awaited the returns.

This was "lection night." As the night wore on, families went home. On the blackboard, left as it was, success or disappointment remained in figures depending on who your man was.

It was a big thrill, but now it is gone forever. —J. Wilkerson.

### Mail Appeal Begins For Easter Seals

Easter Seal Appeal letters are being delivered this week according to Raymond D. Hall, of Eldorado, Schleicher County Easter Seal Representative of the Easter Seal Society for Crippled Children and Adults of Texas. The Representative serves as contact for disabled persons needing Easter Seal rehabilitation services and also serves as Treasurer of the Easter Seal Appeal in the County.

The Easter Seal Society offers physical and occupational therapy, speech and hearing programs, and special equipment loans to enable disabled persons to make the best use of their abilities to overcome handicaps.

### Miss Lux Runner-Up In Event At Texas Tech

Miss Sherri Lux, junior fashion major, was chosen as first runner-up for Tech's Best Dressed Coed, sponsored by Delta Delta Delta sorority.

Seventeen other coeds competed for the title of Best Dressed Coed for 1976 in the contest sponsored by Women in Communications, Inc., which was held in the University Center Ballroom Tuesday.

The criteria for judging the contest was to consider the overall styling of the clothing and how well it suited the girl wearing it. The judges considered the class of competition; sportswear, class wear and evening gown, and if the outfit was appropriate to the category.

Sherri was also selected by the members of her sorority, Delta Delta Delta, to represent them as their cover girl in the 1974-75 La Ventana.

### 'Liberty Tree' Was Dedicated Here Saturday

Group of Masons And Others Had A Hand

A special tree planting ceremony was held on the Schleicher County Courthouse Square on Saturday, February 21, 1976, at 5:30 p.m.

The program was sponsored by the Eldorado Lodge No. 890 A. F. & A. M., the Texas Forest Service, and the Texas Forestry Association. It was an official American Revolution Bicentennial project.

A highlight of the ceremony was the dedication and planting of a "Liberty Tree" by W. M. Rountree, worshipful master and Allen J. Kuykendall, senior deacon of the Eldorado lodge.

The Liberty Tree is a "Tejas" variety pecan. Pecan is the state tree of Texas, and "Tejas" (the Spanish word for Texas) is a new variety which grows well throughout the state and produces abundant shade and tasty fruit.

This Bicentennial pecan is called a Liberty Tree after the famous elm in Colonial Boston under which the first act of public resistance occurred in 1765—the hanging in effigy of a newly-appointed stamp tax officer. This tree was a symbol of resistance to British rule, and many towns planted or dedicated their own Liberty Trees.

During the ceremony it was brought out that our Liberty Tree was dedicated to the government that was established after the revolution 200 years ago.

Those invited to participate included Eldorado Chapter No. 140 Order of the Eastern Star, the Schleicher County Historical Society, and the Texas Forest Service

who furnished the Liberty Tree for which we are thankful.

### Attention All Schleicher County Men: Grow A Bicentennial Beard

March 1st opens the contest that you all will be interested in: The beard growing contest. We will have several different categories so any kind that you might want to grow will fit into a category, whether it is the longest, shortest, best mustache, goatee or whatever.

Now is your chance to grow that beard that your wife would never let you grow. You have a good excuse so start growing, and won't it be fun? We hope that everyone will enter this and take part in the Bicentennial celebration on June 26th. —Ruthie Dacy, Festival Co-chairman.

### National Search Reveals Rare Glass Bottles

Americans are discovering treasures in their homes as a result of a nationwide search by the Glass Container Manufacturers Institute (GCM), to find the six oldest and most unusual American-made glass containers.

GCM, the glass industry's trade association, is offering owners of the six winning bottles a trip to Jamestown, Va., Glasshouse, the site of America's first industry, plus Colonial Williamsburg.

Bottle owners are invited to have their containers appraised at GCM's traveling

Bicentennial exhibit, "A History of Our Country As Seen Through Glass," which is currently visiting shopping centers and state fairs throughout the country. Cities on the tour include San Francisco, St. Louis, Washington, Chicago, Springfield, Mass., Detroit, Atlanta and Columbus, Ohio.

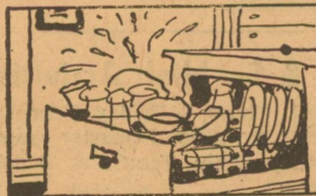

Galleries, bottle dealers or professional collectors are ineligible to participate in the search.

The exhibit's appraiser will determine the authenticity of containers brought to the exhibit.

Outstanding contenders thus far include a women's scent bottle, ca. 1820, and a rare pictorial flask, both from Indianapolis, plus an 1820-era medicine chest submitted in Los Angeles.

When the search is completed, experts will select six outstanding bottles, which will temporarily join GCM's "Americana Collection of Glass."

Persons who miss the exhibit, but believe they have a rare glass container, are invited to provide written details and photographs to the GCM News Bureau, 866 Third Avenue, Suite 2000, New York, N.Y. 10022.

#### Insect Control Vital For Gardens

Don't let insects spoil your vegetable garden this year. Following a few cultural practices and using effective control measures can help establish an almost insect-free garden.

Insects are attracted to areas of garbage and rotting plants so be sure to get rid of all trash and plant debris. Keep the area next to the garden clean and well mowed and turn under plant residue in the garden or use it as compost. If possible, destroy plants that have been infested with insects so as to prevent an insect buildup.

If you must use chemical control, select a pesticide designed for use on the particular vegetable you are growing and the insect that's causing the damage. Be sure to follow all the directions on the label.

Pesticides recommended for insect control in the home garden include carbaryl, diazinon, dibrom. dicofol, dimethoate, endosulfan, malathion, methoxychlor and sulfur.

#### Beef Grade Changes Discussed

Revised beef grades became effective February 23 after almost a year of litigation which still may not be over.

We list four major changes in the beef standards as revised by the U. S. Department of Agriculture:

1. All beef carcasses that are graded must be judged for both quality and yield. Currently, they may be graded for either or both.
2. Conformation, the shape of the carcass, will be dropped as a factor in determining the grade. Right now, it is part of the quality grade.
3. Slight reductions in marbling requirements (flecks of fat within the lean) will be allowed to qualify for the U. S. Prime and Choice grade. Currently, increased marbling is required to compensate for increased maturity. Under the new system the minimum amount of marbling in Prime, Choice and Standard grades of beef will be the same up to about 30 months of age.

4. The U. S. Good grade marbling requirements basically follow the same pattern of the higher grades, in that no change in minimum marbling is required for animals up to 30 months of age. In the case of U. S. Goods, however, the marbling requirements were raised for the younger animals and lowered for the older ones. This, combined with the lowering of marbling to enter the Choice grade, results in a much more restrictive Good grade than before.

All federal grading of beef is voluntary, with the users paying a fee for the service. The USDA Agricultural Marketing Service establishes the official grade standards for beef and is responsible for their implementation.

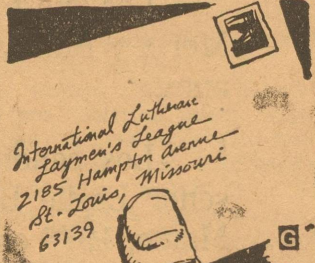

## Bible Facts

Jesus Christ described His work to His disciples this way: "It is meat and drink for Me to do the will of Him who sent Me until I have finished His work."

The Bible tells us that man's chief work is not his own work, but rather doing the work of God. "This is the work of God, that you believe on Him whom He has sent." The highest work is the furtherance of the Gospel and the service of the purposes of God.

Many people are discovering what the meaning of their life's work really is by reading a booklet entitled, "Is Life Passing You By?" To receive it, send 25¢ to International Lutheran Laymen's League, 2185 Hampton Avenue, St. Louis, Missouri 63139.

### Easy As Pie Corned Beef Hash

With the holidays over, the season for casual entertaining is here. That means Sunday brunch will be more popular than ever. And why not? It's a time when everyone, including the hostess, can relax. Anything goes in the food department—from creamy scrambled eggs to the fanciest dessert soufflé.

Of course, economy and ease of preparation are always important when planning the menu. Using canned meats, plain or dressed up, is one way to provide meaty dishes that your friends will enjoy without a lot of work for you.

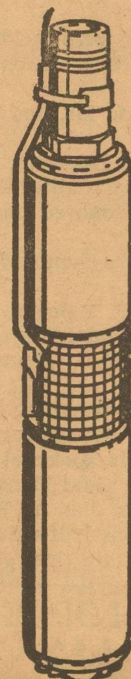

Here's an idea from Mary Hale Martin, Libby's home economist, that uses canned corned beef hash a favorite of just about everyone. Cheesy Hash Pie is a two-layered entree good for brunch or supper, and takes only minutes to prepare. Just combine a can of hash with an egg, chopped onion and green pepper, then layer it in a pie plate with shredded Colby cheese and a simple custard mixture.

While the pie bakes to a beautiful cheesy brown, toss a salad, make the coffee, sip a Bloody Mary or just enjoy the conversation, confident that you're offering your friends a dish they'll all enjoy.

MANY  
THANKS,  
PEOPLE  
OF  
ELDORADO  
AND  
Schleicher  
COUNTY

During the Christmas season of 1974, I moved here to be manager of the Foxworth-Galbraith Lbr. Co., succeeding J. H. Mace who retired after serving for many years in that capacity. The 15 months we have spent here have been enjoyable and we thank you for all courtesies extended us during that time. I will be moving soon with my wife and baby daughter to Ozona to be Fox-Gal. manager there. We hope you extend the same cordial relationships to the new local manager, Mr. David Hoover, who is moving here from Kermit.

Again, my family joins me in saying "thanks for everything."

**District 4-H Food Show Held In Sweetwater**

The District Seven 4-H Food and Project Show was held in Sweetwater this past Saturday. Seven girls from Eldorado represented Schleicher county.

In the Senior division of the Food Show, Judy Pitts was awarded a blue ribbon and won first alternate to state. She made "monkey bread" which was entered in the Breads and Desserts Division. She is the daughter of Mr. and Mrs. John Pitts.

Donna Cantwell, daughter of Mr. and Mrs. Jerry Cantwell, won a red ribbon in the Snacks and Beverage division of the Senior show. She made an Italian Cream Cake.

In the junior division of the show, Cindy Hausenfluck won a blue ribbon in the Side Dish category. Cindy made a Cherry Fruit Salad. She is the daughter of Mr. and Mrs. Billy Hausenfluck. Sherri Walling, daughter of Mr. and Mrs. John Walling, won a red ribbon in the main dish division. Her entry was a chicken enchilada pie. In the Breads and Desserts division Lori Patton was awarded a red ribbon for her Quickie-Stickie Buns.

She is the daughter of Mr. and Mrs. Gail Patton.

Schleicher County had two entries in the project show. Deanna Yocham entered two pillows in the Home Environment division and was awarded a blue ribbon. She is the daughter of Mr. and Mrs. Ted Yocham.

Lou Ann Turner, daughter of Mr. and Mrs. A. T. Turner, won a blue ribbon for her entry in Family Life Education. Lou Ann made a family tree.

Parents attending the show from Eldorado were: Mrs. John Walling, Mrs. Gail Patton, Mrs. Claudene Yocham, Mrs. Jerry Cantwell, Mrs. John Pitts, Mrs. A. T. Turner, and Mr. and Mrs. Bill Hausenfluck. Mrs. Hausenfluck served as one of the judges for the Food Show.

The Food Show Program is sponsored by the Morrison Milling Co. and the Texas Agricultural Extension Service. West Texas Utilities provided the ribbons for the show.

**Japanese Building Garden Of Peace**

Fredericksburg, Texas.—On May 8 kimono-clad Japanese girls will serve tea in this little German settlement in the Texas Hill Country, where beer is the normal fare. Seven craftsmen from Japan are hard at work constructing a Garden of Peace, a gift to America from the people of Japan and funded by popular subscription throughout that country.

Although he was instrumental in bringing about their defeat in World War II the Japanese admiral Nimitz because of his kindness to them at the close of the war and his admiration for their great naval hero Admiral Heihachiro Togo. The garden is being built on the grounds of the Admiral Nimitz Center, a state museum in the Admiral's birthplace. It will be of the classic style for which the Japanese are famous. Its designer, Mr. Taketora Saita of Meiji Seisakusho, Ltd., Tokyo, is in Fredericksburg supervising its installation. A replica of Admiral Togo's study, resembling a tea house, is en route from Japan. Both native and exotic trees and shrubs will be used. An interesting sidelight according to Douglass Hubbard, center director is an invitation from the Admiral Nimitz Foundation to individuals and organizations who wish to participate by purchasing trees as living memorials.

The dedication of the garden is scheduled for May 8, 1976, Fredericksburg's Founders' Day. Among those expected to be present will be Mrs. Lyndon B. Johnson whose home is nearby, Admiral Thomas Moorer, former Chairman of the Joint Chiefs of Staff, who interested the Japanese in the project, and the Mayor of Fredericksburg.

That day the Lord made a covenant with Abraham, saying: "Unto thy seed have I given this land."

**BIBLE QUESTIONS**

Question: "Why is RELIGION so important?"

Answer: Consider first the definition itself. Webster's New Twentieth Century Dictionary, World Publishing, 1962, page 1527, states ("from religare, to bind back; re- and ligare, to bind, to bind together." 1. belief in a divine or superhuman power or powers to be obeyed and worshipped as the creator(s) of the universe . . .)

The very extensive elaborations following this and even including the above(s) show how man has tried to arrange a definition to suit himself.

The person who has a real desire to know of God and His Will has available proof. The one who desires rather to arrange or design for himself some semblance of a pseudo-religious affair may do so, but there can be no benefits derived from such an arrangement

except the temporary salving of conscience.

Any and every attempt to resolve the problem of division between the Creator and His Creatures must be at the direction of the one holding the power and rule, God Himself. Mankind has deluded himself into thinking he can bargain with God on his terms. Some seem to feel that God is so limited that He has to be cajoled, entreated much as some humans need to be, for His consideration or attention.

God's Will has once for all been revealed and in man's inability to save himself, he can only turn to God, or turn from Him in blatant unbelief to the idols man has raised for himself in futile frustration. He may very well cry as the faithless in Ihaiah 44.17, (To the idol he has made, "deliver me, for thou art my God." Bible Questions. Box 91, Eldorado, Texas.

# AMERICA'S HERITAGE

HIGHLIGHTS OF AMERICAN HISTORY

A Landmark Year For Civil Engineers

**ERIE CANAL AT LOCKPORT, NEW YORK**—When completed in 1825, this 360-mile canal from Albany on the Hudson River to Buffalo on Lake Erie made possible direct shipment of produce from Atlantic Ocean to Great Lakes region and fostered immigration to the Old Northwest.

There's something about George Washington most Americans don't know. More than a great soldier and statesman, he was also a civil engineer.

He surveyed, designed fortifications, brought engineering to the Revolutionary Army. He drained swamps, developed the Potomac Canal and eventually commissioned and supervised the planning of Washington, D. C.

Throughout our history other engineers have also contributed to making our country what it is today.

Routes to the West included the Erie Canal, completed in 1825, with Benjamin Wright as chief engineer. Wright has been named by the American Society of Civil Engineers (ASCE) as "the father of American civil engineering." There was also the Wheeling Suspension Bridge in Virginia, built in 1849, which was the first long-span wire-cable suspension bridge in the world. Pioneers also traveled the Union Canal connecting the Susquehanna and Schuylkill rivers and the Starucca Viaduct—both in Pennsylvania

and both early major links to the West—and the stone arch bridge of the Burlington Northern Railroad, in Minneapolis, which was a key in the development of the Northwest.

What many consider a turning point in American history was the linking of the continent by 1,766 miles of trunk line railroad in 1869. It opened the West and unified the nation.

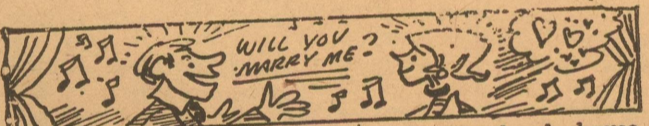

Our cities were able to grow because of the civil engineers who devised ways of bringing in clean water, and who helped build skyscrapers such as the Ingalls Building, a 16-story structure still standing in Cincinnati, the first made of reinforced concrete in the world.

All of these engineering feats have been designated National Historic Civil Engineering Landmarks by the 70,000-member ASCE over the last decade.

As America celebrates her Bicentennial anniversary, the American civil engineer will continue to play the important role in building a better world that he has for more than 200 years.

The superstition that it's unlucky to wash blankets in May survives in some parts of England.

Courtship to marriage is but as the music in the playhouse till the curtain's drawn.

# ENCOUNTER

Many a village began at the crossroads. Most towns grew up around the intersection of two important thoroughfares. And the vast cities which now fight the penetration of traffic with beltways, thruways, and by-passes were themselves spawned by the very highways they would now escape.

Our civilization is largely the product of men's encounter with men at the crossroads of geography, sociology, history and science.

Never lose sight of the vital Crossroads . . . Religion.

That is the encounter of men with God! It has constantly offered positive, constructive approaches to the problems that surround the other intersections in time and experience.

When you hear the church bells next Sunday, remember. It is good to live at the Crossroads where Christ touches all human relationships with His power and love.
