Interstate Route Hearing Is Set

Austin, Tex.—A series of informal meetings to discuss the possibility of extending IH 27 southward from Lubbock has been scheduled in six West Texas cities by the Texas Highway Department.

Meetings will be held during mid- and late-March at Lubbock, Lamesa, Big Spring, Snyder, Abilene and San Angelo.

The IH 27 extension is 1 of 10 routes nationwide for which Congress directed feasibility and necessity studies as part of the 1973 Federal Aid Highway Act. Two other studies will include routes that cross parts of the Texas Panhandle.

The IH 27 meetings, as part of the study, will provide citizens with the opportunity to discuss and make recommendations regarding the feasibility, necessity and possible routing of a route extending from Lubbock or vicinity southward to IH 20 and IH 10.

Mr. Phil Wilson, Engineer-Director of the Highway Department's Planning and Research Division in Austin, stressed the importance of the meetings.

This study could be most important to the future transportation network of West Texas, Wilson said. All interested persons should make every effort to attend and participate in one of these meetings.

The meeting at San Angelo will begin at 7:00 p.m. March 27th in the City Auditorium.

It's Texas FFA Week

February 17 to 24 is Future Farmers of America Week in Texas.

The Future Farmers of America is a National organization of, by, and for students studying vocational agriculture in the public schools. The FFA is an educational, non-profit, non-political youth organization of voluntary membership, designed to develop agricultural leadership, character, thrift, scholarship, cooperation, citizenship and patriotism.

One of the requirements for membership is that the students must be enrolled in a high school class of vocational agriculture. In these vocational agriculture classes, students are provided an opportunity to secure technical and scientific training in all phases of agriculture.

Texas is the largest of the 50 chartered state associations with over 10% of the National membership. Texas has 940 chapters with a membership of over 50,000. The National membership is over 450,000 and is sponsored by the United States Office of Education. The Texas Association of FFA is sponsored by the Texas Education Agency. The high schools in Texas serve as local sponsors and local vocational agriculture teachers serve as the local FFA Chapter Advisors.

The FFA provides training for those interested in production agriculture as well as those anticipating careers in off-farm agricultural occupations. The FFA, through the vocational agriculture classes, provides training for the entire agriculture industry, both on-farm and off-farm. Four out of every 10 employed persons in the United States work in some phase of the agriculture industry.

Bobby Bone is currently in his second year as vocational agriculture instructor in Eldorado High School.

Post Script

We are all familiar nowadays with shortages in all lines of business, not to say anything about oil and gasoline.

Supermarkets declare that they are having difficulty in getting paper sacks.

Your local country print shop orders a certain size of 2-ply index Bristol and the wholesale house puts it on back order for a while.

But last week we interviewed a truck driver delivering 22 tons of alfalfa hay from Loving, New Mexico, which he disposed of here in Eldorado. The hay came from an irrigated area in New Mexico.

We asked him how about the crop out there and he said it was real good. Will you be able to bring more hay to us here?

"We expect to, but we are hampered with a severe shortage of BALING WIRE!"

That was news to me. I had already learned about other shortages but I was surprised there was a shortage of baling wire.

Now it appears that I should have known if I had kept up with my reading.

This week's U. S. News & World Report included this statement on shortages—

"Also important to farmers: a scarcity of baling wire. Manufacturers figure 1974 supplies will be as small as half of normal. Hay-growers and distributors, dairy farms and feed lots are expected to be hit hard. Most automated feeding systems for livestock are designed to take feed in bales.

"Specialists blame the shortage of baling wire on price controls that have discouraged manufacturers from making this product, nudged them into lines of higher profit. CF&I, once a major producer, has stopped making the wire entirely. Meanwhile, heavy imports from Japan have slowed to a trickle. Factories there also are shifting to other products.

"Plastic twine, a substitute for wire, is hard to come by these days, too."

Last week this paper reported a ranch fire 25 miles west of Eldorado where 1,200 to 1,400 acres of grazing land had been burned over.

The cattle that grazed on those acres will have to be sold or fed.

But other ranches are short of grazing and many of them are resorting to supplementary feeding.

No doubt we can expect more New Mexico alfalfa arriving here.

—ps—

On Monday I came across James Williams as he was leaving his office downtown. Said he was in a hurry to get out to his farm—said he had a big truck out there fixing to load some 80 eyes which he had sold to a buyer who was hauling them to New Mexico.

I don't like Daylight Saving Time either.

At 7:00 o'clock in the morning it is still dark like midnight, and you don't find any daylight until after (or about) 8:00 a.m.

But I guess there is nothing we can do about it.

But it seems like tht nights are so very long! It's a nuisance!

Here we come again—

Maps based on National Weather Service from mid-February to mid-March show all of West Texas to have higher temperatures and less rain.

The school reported on Monday that 20% of the entire student body was out with the flu or virus that is now making the rounds. On Tuesday morning 17% of the entire student body were absent, but it was not believed by Supt. Guy Whitaker that they would close the school unless the flu epidemic got much worse.

New Mexico Alfalfa Arrives To Help Drouth-Stricken Schleicher County

Double-Load Of Alfalfa Hay Arrives For Sale and Unloading

A. C. Buckham of Loving, New Mexico, arrived in Eldorado last week with two trailers of baled alfalfa which promptly attracted buyers from dry county ranchers.

Mr. Buckham reported that the two trailers contained about 22 tons of hay and was being sold at from \$90 to \$100 a ton. The trip from Loving to Eldorado was about 300 miles. The hay comes from an irrigated area near Loving and that crop out there this year was good.

But he said they were having trouble gathering the crop because there was a shortage of baling wire!

No Relief Seen From Drouth

Agriculture Commissioner John White said last Thursday that the western portion of the state is suffering from a prolonged drouth which, if no rain comes soon, may harm wheat crops and allow major dust storms.

National Weather Service spokesmen throughout West Texas said they heard of no precipitation in their respective areas. Forecasts originating in San Angelo, Midland and Del Rio gave no chance of rainfall through the past week end.

Following Bi-District Win

Girls Lose Initial Game At Regional

The Eldorado Eaglettes easily outscored the DeLeon girls in a bi-district match in Winters last Tuesday night. The final score in that game was Eldorado 53 and DeLeon 32. High point for Eldorado was Carolyn Page with 27 points. Sharon Garlitz had 14 and Kathy Page 12. The guards for the Eaglettes hoped to break the game open in the third quarter when they allowed the DeLeon girls to score only 4 points in the entire quarter with 2 points coming on a long last second shot as the quarter ended. Guards for the Eaglettes are Vonda Maness, Irene Garcia, and Terri Garlitz.

The Eldorado girls took the opening tap in the Grandview game and quickly put it in the basket for 2 points. The first quarter was nip and tuck in scoring as both teams played and scored well. Grandview led 20 to 16 at the end of the first period. By halftime the Grandview girls had opened a 15 point lead. This however occurred only after Terri Garlitz had left the game with a cut lip that eventually required three stitches. It was an unusual series of breaks that gave the Grandview girls the half-time lead.

Starting the second half the defending state champions immediately started stalling the ball. This was not a partial stall that would include taking the layups, but a full stall without any shooting. This action almost backfired for the opponents as the Eldorado girls pulled to within three points in the fourth quarter. At this point, however, the fouls that were necessary to try and obtain the ball started hurting the Eldorado girls as Grandview began making their free throws.

The final score was Grandview 59 and Eldorado 42. This score was not indicative of the type ball the Eldorado girls played. Their only problem was getting to play for 16 minutes or a half and then having the ball stalled for the other half. If Grandview would have played for a full 32 minutes head on, the outcome might have been different.

Kathy Page led the Eaglettes' scoring with 18 points while Sharon Garlitz had 14 points and Carolyn Page 10. Starting guards for the Eaglettes were Terri Garlitz, Irene Garcia, and Vonda Maness with Wally Joiner and Margaret Powell coming in and playing well.

The Eaglettes finished the season with a 23-7 mark. They scored 1887 points for an average of 65.07 points per game. This is the highest an Eldorado team has ever scored for a season. In the district games the Eldorado girls managed to average 70.72 points per game.

Get Ready For Higher Postal Rates

At midnight on March 1 you can say good-bye to the 8-cent stamp for first-class letters.

Effective March 2, the following rate increases take effect:

- First class—
- Letters go up from 8 cents to 10 cents per ounce.
- Post cards, from 6 cents to 8 cents.
- Airmail—
- Letters, up from 11 cents to 13 cents per ounce.
- Postcards, from 9 cents to 11 cents.

This will be the third major increase in postal rates in slightly more than five years. In that period, the cost of mailing an ordinary letter has doubled—from 5 cents to 10 cents per ounce.

Dust Bowl Conditions Hit Here Monday

Schleicher county residents experienced dust bowl conditions all day Monday with blowing dust and sand carried aloft on northwest winds estimated as high as 50 miles per hour.

Volunteer Fire Chief Preston Dudley of Mertonson said late Monday that a grass fire burned up some 30 sections (19,000 acres) of ranchland on the Rocking B ranch west of Mertonson between 3:00 p.m. and 8:00 p.m. Monday.

There were no fire alarms in Schleicher county.

Minor wind damage here included several T.V. antennas, a tool shed and perhaps a cotton trailer.

Clear skies returned Tuesday morning and continued drouth.

RECENT GRASS FIRES

Saturday afternoon the firemen answered a call to Charles Schrier's place on the south edge of town. A garage burned, after it caught fire from a grass fire.

Tuesday noon, the call came to fight a blaze at L. L. Watson's.

3240 Bales At Gin

The books at the Mikeska Gin on Monday afternoon revealed that a total of 3240 bales had been processed up to that time.

Mr. and Mrs. Jerry Doyle and children of Ft. Stockton visited over the week end with Jerry's mother, Bessie Doyle, and brother Jim.

Explain Facts About Indebtedness

(by Attorney General John L. Hill) Austin, Tex.—Economists tell us that the current energy crisis and a resultant slowdown in the economy are causing some persons to be temporarily out of work, or to suffer cutbacks in hours.

If they have incurred debts and obligations based on their former income, it may be difficult for them to keep up with their monthly bills during this period.

What's the best course of action in such a situation?

My assistants in the Attorney General's Consumer Protection Division say that the first thing a consumer should do is to contact all creditors as soon as possible, and explain the facts to them.

Most creditors will be sympathetic. They are having problems in the "economy crunch," too, and while they are having to work extra hard to keep working capital, they believe it is to their advantage to assist debtors over a temporarily rough period.

Sometimes, a creditor will extend a credit contract, so the debtor's monthly payments can be reduced. A professional credit manager usually can offer several suggestions to help the distressed consumer.

But if an agreement cannot be worked out, a creditor may take the route of repossession of secured goods by a special firm retained for such actions.

This is considered a last resort, and reputable lenders or creditors employ this legal method only when all other efforts to work out a repayment plan have failed.

Statements by speakers at a recent consumers' conference in Austin indicate that nationwide studies show a large majority of lenders prefer to negotiate a possible repossession case with the individuals involved, rather than take immediate action toward repossession. In such cases, they said, no advance notice is required before secured property is picked up for non-payment of bills.

There have been instances in which persons have claimed they woke up to find that their car had been repossessed during the night, but most responsible firms do not find it necessary to resort to such actions.

New trends in repossession procedures seem to be emerging in many states, due to a 1972 U. S. Supreme Court ruling in the case of Fuentes versus the State of Florida.

In that case, the court indicated that certain methods of repossessions raised the question of depriving a person of property without due process of law.

If repossession is a possibility, and if there is a question about the validity of the debt, consumers should contact their county attorney or the Attorney General's Consumer Protection Division for further information.

To The Taxpayers Of Precinct 4:

In announcing my candidacy as Commissioner for Precinct 4 in Schleicher County, I wish to first state that I feel that I am fully qualified to represent you, the people of Precinct 4.

I am 30 years of age, have lived in Eldorado for 23 years and graduated from high school here. I am married to the former Kathy Meador of Eldorado and we have one son, John Forrest Meador, one year old. My continuous 23 years residence here has given me the opportunity to know most of you and to know your needs and desires insofar as what you would like to receive for the tax dollars that you pay to Schleicher County.

I believe that better maintenance of County roads is one of the foremost needs in our precinct and I will make every effort to see that this work is done fairly and impartially.

I urge each of you to use this opportunity and your best judgment in choosing your representatives in this election. Your influence and support will be greatly appreciated. If elected Commissioner of Precinct 4 I will always have the best interest of the people of the County in mind in making decisions which concern us all.

Hospital Auxiliary To Give Scholarship

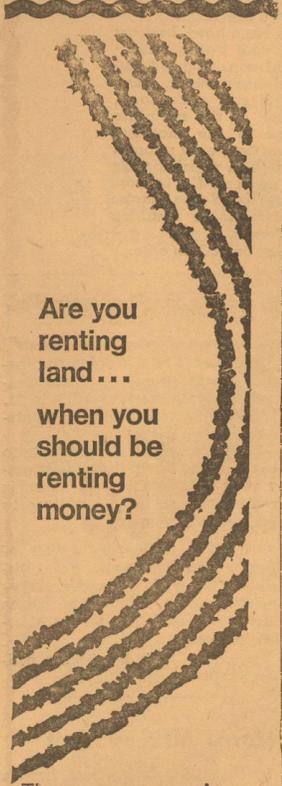

The Schleicher County Hospital Auxiliary is again giving a scholarship to an individual pursuing a medical career.

Although the spring semester has already begun, the auxiliary feels that it is by no means too late to give the scholarship due to travel and other expenses which occur throughout the semester.

Anyone interested in this scholarship should contact a member of the Scholarship Committee, consisting of Mrs. Andy Nixon, Mrs. Edwin Jackson, and Mrs. Mike Moore. They will have application forms and will be happy to answer questions one might have concerning the scholarship.

The application forms must be completed and returned to a member of the Scholarship Committee by March 15, 1974. —Rep.

Bicentennial Communities

Roy Martin, president of the U. S. Conference of Mayors, has announced the formation of a Bicentennial Communities Committee. This committee, made up of Conference members, will serve to encourage and assist communities across the nation to develop Bicentennial programs which would qualify them for status as National Bicentennial Communities.

Sponsored by the American Revolution Bicentennial Commission and formally endorsed by the Conference of Mayors, the Bicentennial Communities Program was announced at the conference's annual meeting last July.

At the beginning of the program, invitations and applications were sent to the Chief Executive Officer or governing body of 40,000 communities and Indian tribes throughout the nation, advising them of the Bicentennial Communities program and urging them to get involved. The program offers all qualifying communities of every geo-political structure and size an opportunity to obtain National Bicentennial recognition. Designation as a Bicentennial Community enables a community to use the national Bicentennial symbol in conjunction with the local commemoration of the 200th anniversary.

These are the four simple steps a community must take to receive Bicentennial Community status:

1. Organize a special Bicentennial planning and coordinating committee which is representative of all segments of the community.
2. Plan a Bicentennial program which will have at least one lasting reminder of the special effort the community undertook for the Bicentennial commemoration.
3. Obtain the approval of the

Chief Executive Officer or governing body of the community.

4. Submit the application to the AREC through the appropriate State Bicentennial agency.

To date, 54 Bicentennial Communities have been designated, and several hundred applications are currently being considered.

It is highly desirable, but not essential, that a commu-

ity's program contain elements of all three of the Bicentennial Commission's themes: Heritage '76, which honors and reflects upon the past; Festival USA, featuring celebrations and hospitality; and Horizons '76, which makes a commitment to improving the quality of life for the future.

One Bicentennial community which developed programs in all three areas is San Marcos, Texas. Their goal under the Horizons theme is called "Beauty Along the River," and includes pedestrian and pedal trails along the west bank of the San Marcos River, dedication of new city park gardens and swimming pool and dedication of a new museum of history.

Through Festival USA, San Marcos invites the nation to an eventful Bicentennial year commencing with the Republic of Texas Chili Championship

and Confederate Air Force show in October 1975. The festival will continue with sports September of 1976, with a sa- events and pageantry through lute to Mexico's severance from Spain.

Heritage '76 is highlighted by an historical pageant commemorating Henry McCulloch's 1846 camp on San Marcos River, a musical drama by Southwest Texas State University and the dedication of the landscaped site of San Marcos' first public building.

The Bicentennial Communities program seeks to enlist citizen support and involvement in the Bicentennial through:

- * Determining community priorities
- * Increasing the community's rate of progress
- * Encouraging cooperation in problem solving
- * Broadening community participation.

In developing this broad national program the national commission is responding to President Nixon's challenge in his first Bicentennial message to Congress (October 8, 1969):

"America is 50 states. America is big cities, small cities and small towns. It is all the home and all the hopes of 200 million people.

"That is why we want this Bicentennial to be national. It must go directly to the people and derive its strength from the people. And we want people all over this land to sense the greatness of this moment, to participate in it, and help us all to discover what that national spirit is."

Bicentennial Communities is a wonderful opportunity to directly and personally involve every single citizen of the United States in commemorating the 200th anniversary of the nation's birth.

4-H Center Ground-Breaking Set Friday

Brownwood, Tex.—Ground will be broken for the \$1.375 million Texas 4-H Center at Lake Brownwood, following a 10:30 a.m. ceremony Friday, February 22, in downtown Brownwood.

Construction on the 4-H Center is expected to begin shortly thereafter, with the Herman Bennett Company of Brownwood slated to build the youth facility on a 78-acre site near here.

Mathews, Cumpton and Associates, architects and engineers of Bryan, designed the 4-H Center, which will have a capacity of 200 people and should be completed in about a year.

T. Louis Austin, Jr., of Dallas, chairman of the Texas 4-H Youth Development Foundation, will chair the groundbreaking program. Austin is president of Texas Utility Companies.

Lisa Swanson of Breckenridge, girl's vice chairman for the Texas 4-H Council, will give the invocation. The welcome will be extended by officials of Brownwood and Brown County.

Dr. H. O. Kunkel, Texas A&M University dean of agriculture, will make commendations to 4-H.

Viewpoints about what the 4-H Center will mean to Texas will be presented by a member of the Texas 4-H Council, an adult leader, and Dr. John E. Hutchison, director, Texas Agricultural Extension Service. Representing the Texas 4-H Council will be Ronnie Blakely, chairman, Hidalgo County youth who is a student at Texas A&M University. Giving the 4-H adult leader point of view will be Mrs. Floyd Terrell of Hale County.

The groups will then move to the exact Center site at the lake to turn the first shovel of soil. Adult leaders and others working with 4-H from throughout Texas are expected to participate in the ceremony.

The Center will feature such programs as youth summer camps, leadership training, citizenship seminars, adult leader training, county 4-H camps, and family week end retreats, announced H. T. Davison, Extension Service 4-H and youth specialist and 4-H Foundation executive director. The Center will also be available to other groups and businesses interested in conducting educational programs.

Davison said that about \$1 million has been pledged by business, industry, foundations and individuals. In each Texas county, 4-H members and leaders are presently conducting fund raising activities.

Brown County Water Improvement District No. 1 donated the Center site.

Rehabilitation Is Stepped Up In Texas

Because of the steady growth in numbers of crippled children and adults in Texas, the Easter Seal Society for Crippled Children and Adults of Texas has stepped up its rehabilitation services.

According to Raymond D. Hall, who is the Easter Seal Representative for Schleicher county, 20,570 handicapped Texans received Easter Seal treatments during 1973.

"Despite medical scientific advances," Hall explained, "the ranks of the crippled are growing. This is because of population growth, increased number of accidents and medical treatment which saves victims of crippling diseases who might not have lived in past years."

Quoting the annual report of the Easter Seal Society for Crippled Children and Adults of Texas, he said that 18 affiliated treatment centers are in operation in Texas. They include treatment and rehabilitation centers, recreation and educational programs, and many others.

"Through these programs, persons with a wide variety of handicaps receive the help they need to live normal lives," Hall said.

The largest group served includes those with major deformities of bones and joints, severe speech defects, cerebral palsy, arthritis, muscular dystrophy and multiple sclerosis and stroke. The Easter Seal Campaign, which provides funds for continuation of these services, begins March 1, and continues through April 14, Easter Sunday.

An American mythological animal is the *guyastivus* which was purported to have legs shorter on one side than on the other, so that it could graze on steep hillsides.

| 3/4 cup water | 1/4 teaspoon monosodium glutamate |
| 2 tablespoons plus 2 teaspoons soy sauce | 1 pound ground lean pork |
| 1 teaspoon dry sherry | 2 tablespoons corn oil |
| 3/4 cup Argo corn starch | 1 head celery cabbage, cut into 2-inch pieces |
| 1 teaspoon sugar | |
- Hot cooked rice

Mix together 1/4 cup water, 2 tablespoons soy sauce, sherry, 1 tablespoon corn starch, 1/2 teaspoon sugar and monosodium glutamate until smooth; stir into ground pork. Let stand 10 minutes. Shape into 12 to 16 meatballs. Roll meatballs in remaining corn starch. Heat corn oil in large, heavy skillet over medium heat; add meatballs and brown. Remove meatballs from skillet, saving drippings. Place balls in 2-quart saucepan; add remaining 1/2 cup water, remaining 2 teaspoons soy sauce and remaining 1/2 teaspoon sugar. Bring to boil; cover, reduce heat and simmer 45 minutes. Reheat drippings; add celery cabbage. Fry, stirring until wilted. Add meatballs and gravy. Cover and simmer about 10 minutes or until cabbage is tender crisp. Makes 4 servings. Serve with rice.

Chicken-Pineapple Foldovers - Delicious!

Here's a quick and tasty use for small amounts of leftover chicken. Combine the chopped chicken — or turkey if you wish — with pineapple tidbits in a tangy pineapple sauce; use it as a sumptuous filling for almond-rich pancake foldovers. (Made from a mix, of course, for quick and easy preparation.) Garnish with dollops of sour cream and sprinklings of more sliced almonds. Then eat hearty, friends!

CHICKEN-PINEAPPLE FOLDOVERS

Makes 4 servings

Filling:	Pancakes:
One 13 1/2-oz. can pineapple tidbits	1 cup pancake mix
2 teaspoons lemon juice	1 cup milk
1 tablespoon cornstarch	1 egg
1/2 teaspoon salt	1 tablespoon melted or liquid shortening
1 cup chopped cooked chicken	1/4 cup sliced almonds

For filling, drain pineapple tidbits, reserving juice. Add lemon juice and enough water to make 1 cup liquid. Combine cornstarch and salt in saucepan. Gradually add pineapple liquid. Cook over medium heat, stirring constantly until thickened and clear. Add pineapple tidbits and chicken. Heat thoroughly.

For pancakes, place mix, milk, egg and shortening in bowl. Stir until batter is fairly smooth. Add almonds. Using 1/4 cup batter per pancake, pour batter onto hot, lightly greased griddle to make 8 pancakes. Turn pancakes when tops are covered with bubbles and edges look cooked. Turn only once.

To serve, place 1 heaping tablespoonful of filling on one-half of each pancake; fold over. Top with dollops of dairy sour cream and additional sliced almonds.

OLD WORLD SWEET TREAT MADE MODERN

One of the glories of European cooking is a famous apricot-filled chocolate cake of Viennese fame. Called Sachertorte, it was created in 1832 by Franz Sacher, chef to Prince Metternich. It later became a specialty of the Hotel Sacher but the recipe was not made public until 1912 when it appeared in a Viennese cookbook. In the meantime, Sachertorte was widely imitated by home cooks and the resulting variations are still prepared throughout Middle Europe and in our own Midwest by immigrants to this country.

Suggested here is a modern short-cut version of the classic Sachertorte using chocolate cake mix filled with prepared apricot preserves and topped with a creamy chocolate frosting. Making the frosting fluffier and more spreadable is Soft Blue Bonnet Margarine. Having the same old-fashioned buttery flavor of Regular Blue Bonnet, the soft variety spreads and blends with greater ease.

VIENNESE CHOCOLATE TORTE

1 package (18 1/2-ounce) chocolate cake mix

- 1-1/3 cups water
- 3 tablespoons melted Soft Blue Bonnet Margarine
- 2 eggs
- 1 jar (12-ounce) apricot preserves
- 1/2 cup Soft Blue Bonnet Margarine
- 1-3/4 cups unsifted confectioners' sugar
- 3 squares (1-ounce each) unsweetened chocolate, melted
- 2 egg whites
- Toasted Planters or Southern Belle Pecans

In a large bowl, combine cake mix, water, melted Soft Blue Bonnet Margarine and eggs; blend until moistened. Scrape bowl and beaters. Beat 2 minutes at medium speed. Turn batter into 2 well greased and floured 8-inch round cake pans. Bake

at 350°F. 30 to 35 minutes, or until done. Cool in pan or wire rack 10 minutes. Remove from pans and cool thoroughly.

Split layers in half. Spread layers with apricot preserves. In small deep mixer bowl, cream 1/2 cup Soft Blue Bonnet Margarine with 1-1/2 cups confectioners' sugar until light and fluffy. Beat in melted chocolate.

In a clean bowl, beat egg whites until frothy. Gradually add remaining 1/4 cup confectioners' sugar, beating until stiff peaks form. Add half of the egg white mixture to the chocolate mixture; beat until smooth. Then fold in remaining egg white mixture. Use to frost sides and top of cake. Garnish with Planters or Southern Belle Pecans. Makes one 8-inch cake.

Letters From Readers

To the Eagletts fans who were unable to make the trip to Denton this past week end, I want you to know that if you don't already know it, you were represented there by one of the most outstanding groups of basketball players I've ever had the pleasure to follow. The girls played the FULL game without once letting up. This team has respect for each other as well as for their fans, determination to try against unsurmountable odds, and a special pride that goes with wearing that green and white uniform.

Grandview did not play us but half a game. When they returned for the second half they went into a stall. For the Eldorado spectators this was most frustrating but our team never lost their composure.

Grandview may be as proud of their team and coach as I am of ours but I for one don't see how they could be. They have a state champion title and in my opinion, another one on the way—they don't have to play this brand of basketball. Contrary to statistics, their coach is no winner.

PAR-TEE

The Bingo party held at the Golf Club House Friday night was a great success. About 40 people attended and everyone enjoyed playing. This is to be held regularly each month so watch for the next date.

Saturday was such a beautiful day and at one time, 33 golfers were counted on the course. However, Sunday and Monday being so windy, just a few braved the wind on Sunday.

Remember the Mixed Foursome this Sunday afternoon. Come out and join in the fun.

Quoted from a Golf Digest psychiatrist, if you are overly concerned with winning your golf game, learn to make each shot for its own sake and let the ball in the hole as quickly as possible. Winning will take care of itself.

We are happy Ben Hext is back at home from his stay in an Austin hospital. Hope to see him back playing golf soon. —Rep.

LEONARD MILLER DIES

Leonard Miller died last Thursday in Hobbs, New Mexico. His wife formerly taught first grade in the Eldorado schools before they moved from here several years ago.

Services were to be held Sunday at Friend Funeral Home in Cuero with burial in Cheeside cemetery.

He was son-in-law of the late John West, and Mrs. West who now lives in Odessa.

Presbyterian Notes

The pastor, Rev. Gordon Garlington, was to attend the Texas Conference of Churches meeting in Ft. Worth, Feb. 18-20, as a representative of the Presbytery.

Let us remember to contribute to the Building Fund. It stands at present at \$9,306.68. Harold Susen is contractor for the remodeling to get under way soon.

The Women observed a week of Prayer and Self-Denial For Missions last week. Morning prayer meetings were held in the homes Monday through Friday. An offering was received.

Mrs. Lum Burk has been a patient in the hospital here.

Merry Makers Meet

Mrs. Mable Griffin was hostess Thursday, Feb. 14th, when she entertained the 42 club in the Memorial Building club room.

Those present were: members, Mrs. Annie Speck, Mildred Stanford, Opal Parks, Zelma Henderson;

Bessie Doyle, Maudie Bassinger, Allie Cheatham, Rose Brannan, Natalie Stockton, Viola Finnigan, and one guest, Virginia Griffin.

The hostess served cake and coffee.

Mrs. Zelma Henderson will be hostess Feb. 28. —Rep.

WHAT'S THE BIG IDEA?

Some people call it genius. Others, less respectful, would term it plain luck. But the men who come up with the really bright ideas need not have an overdose of either. For who hasn't gotten a brainstorm at one time or another? But how many possess the successful man's willingness to follow up on his "big ideas?"

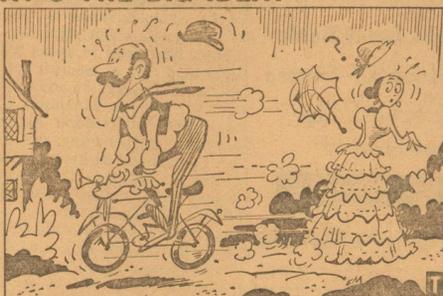

Maybe you can see yourself in one of these persons:

A fat man in Chicago by the name of Whitcomb L. Judson wanted to fasten his shoes without huffing and puffing. So, in 1893, he invented the "separable fastener"—better known as the zipper!

Huffing and puffing of another sort were responsible for an earlier idea which affected the transportation habits of millions. Kirkpatrick Macmillan rolled down hills like a breeze on his "hobby horse"—but the 50-pound wheeled vehicle had to be carried uphill on his shoulder. In 1839 the Londoner devised cranks and pedals to drive the rear wheel—and invented the bicycle!

What would you have done in James Hargreaves' place? Imagine yourself back in 1769. Though a few factories had sprung up, the machine age was far in the dim future; the housewife's spinning wheel still produced most of England's fabrics.

In one of the rare moments when Mrs. Hargreaves' spinning wheel was idle, her two sons upset it during their horse play. The new angle of the wheel on the floor gave Hargreaves his big idea: a method of spinning eight threads at a time instead of one. He followed it up, and produced the spinning jenny, which re-

volutionized England's textile industry.

Some brainstorms are lighting up a lot of people lately. That little ol' lemon which science has found more use for than any other citrus fruit, has come through again. A dash of lemon has been added to new menthol Twist cigarettes. And it tastes fresher than ordinary cigarettes and gives you a smoother cool. This is one idea that's definitely meant to be a lemon!

You might still be marveling at "tall" seven-story buildings if a housewife, surprised at her husband's early return from work one day in 1883, hadn't dropped her book on the bird cage when jumping to greet her man. Wheels began to turn in the mind of William LeBaron Jenney, architect and engineer. If a fragile bird cage could support a heavy book, why couldn't a steel frame-work support a tall building?

Obvious? At that time, architects took it for granted that a building's weight had to be sustained by its walls. Jenney amazed them by building the first steel-frame curtain-wall "skyscraper," Chicago's 12-story Home Life Insurance Building.

One of the simplest ideas of all time was also one of the most strikingly successful. The steel pen and ink-well were good enough for Grandpa, but American businessmen wanted something more efficient with which to sign their growing volume of business letters. Could a pen be made that carried its own supply of ink? Yes, but it required a medicine dropper to fill its hollow barrel, and what happened when no medicine dropper was available?

What happened, eventually, was that someone put the dropper inside the pen barrel, and made a slit in the barrel. When a coin was pressed in and then released, the sac filled with ink. But what did you do when you couldn't find a coin?

What did you do? mused an Iowa jeweler back in 1913. What he did, after some thought, was to put a lever on the barrel to do the job of the coin.

A self-filling fountain pen! Why, it was better than diamonds, thought the jeweler. And so Mr. Shaffer closed up his jewelry shop. Now what's your big idea?

Woman's Club To Meet For Program On Art

The Eldorado Women's Club will meet next Tuesday at 2:30 p.m. at the home of Mrs. Bascomb Hartgraves for a program on Art. Mrs. Ken Ogdin will assist Mrs. Hartgraves as a hostess and Mrs. Lewis Stockton will lead the program.

At the last meeting of the club, Ron Staggs from the Social Security office in San Angelo explained the changes in Social Security.

Officers to serve the club for the year 1974-75 were elected. They are: Pres., Mrs. W. A. Van Dusen; 1st vice pres., Mrs. Arch Mittl; 2nd vice pres., Mrs. Granvil Hext; sec., Mrs. Bascomb Hartgraves; and treasurer, Mrs. S. D. Harper.

Methodist Notes

We are all more than grateful to Mrs. Derrick and each member of The Parsonage and Grounds for the central air and heating unit in the parsonage. The Committee would like to express their thanks for the help each of you have given in this project. They would like for you to know that it is all paid for except for \$425. Maybe you would like to join in and help pay this before Palm Sunday.

NEWS FROM STATE CAPITOL

By—Bill Boykin
Texas Press Association

Austin, Texas.—Long before the Constitutional Convention completes its work, serious thought is being given to when revision of the basic laws should be scheduled for a statewide vote.

At the same time, a group of lawmakers (probably in the minority) is agitating to recess along about the middle of next month until after the primary election.

Convention President Price Daniel Jr. favored a May 4 vote initially—on party ballots. With legal difficulties in sight and uncertainty over convention completion date, he indicated he could go along with a November 5 (general election) vote date on the revision product.

Daniel felt the election should be called while interest in the convention's product is hot—and still sees some points in favor of a special election before November.

Proponents of November balloting argue time is needed to develop public understanding of the revision document and to refute opposition attacks.

Lawmaker-delegates backing a recess until after the primaries feel more objective voting on revision can be assured after election campaigns are behind them.

Others contend a shorter recess is advisable so delegates can see what they have done and take the pulse of voters back home on revision proposals before a final, irrevocable vote.

Daniel insists there is still grounds for optimism about completing work of the convention by early April—with or without a recess of just one week.

Energy Bill Hit

Top Texas officials claimed provisions of a federal energy emergency bill would give the U. S. Secretary of Interior control over oil production traditionally reserved for states.

Gov. Dolph Briscoe, Lt. Gov. Bill Hobby, House Speaker Price Daniel Jr., Atty. Gen. John Hill and Railroad Commission Chairman Jim Langdon called on the U. S. Senate to recommit the bill to Conference Committee.

They complained the measure would give the secretary power to set monthly maximum efficient rates of production. Another provision would allow the official to call for production in excess of maximum efficient rates for 90 days or more.

Gambling Referendum Sought

A campaign is under way to force a statewide referendum at

May 4 primary elections on legalizing horse race gambling.

Enough signatures have been obtained to get a place on the Republican ballot, but supporters of the referendum are far short of the 110,000 signers needed for a Democratic vote.

Heads of Texas Citizens for Parimutuel Horse Racing reported they have collected 40,000 signatures on petitions.

Texans last voted on the issue in 1968 and rejected it in both primaries. Democrats turned it down 764,173 to 664,859 and Republicans nixed it 55,525 to 50,837.

Such a referendum has no binding effect on the legislature.

Economic Study Ordered

Research has been authorized to reduce harmful economic effects of closing military bases at Laredo, Mineral Wells and Weatherford.

Texas Industrial Commission will direct the research, which is financed by a \$195,050 Economic Development Administration grant. Laredo hopes to make its air base a business and commercial center. Industrial promotion and water resource analysis are planned for Mineral Wells and Weatherford.

Courts Speak . . .

Upholding a fine and jail sentence assessed a Lubbock film exhibitor, the Court of Criminal Appeals concluded Texas' new obscenity law meets U. S. Supreme Court standards.

Former State Rep. Walter Knapp of Amarillo lost his final appeal from a four-year prison sentence on charges of stealing state postage stamps.

Evanglist Lester Roloff, cited for contempt of court for keeping children in an unlicensed home for girls, was ordered by the state Supreme Court freed from jail pending March 20 hearing.

A Dallas man won reversal of a 20-year sentence for fondling a nine-year-old daughter, when the Court of Criminal Appeals found testimony in trial court insufficient.

Attorney General's Opinions

Administrative proceedings conducted by the state comptroller's hearings division are not meetings as defined by the open meetings act and should not be open to the public, Attorney General Hill held.

In other recent opinions, Hill concluded:—Fifteen per cent of the mixed drink beverage clearance fund belongs to cities and counties where the tax originated, and money should be refunded to them.

—Water code providing for replacement of directors who violate their office because of disqualification are constitutional. Penal provisions of SB 807 are also constitutional.

—A provision providing for removal of the Nueces County court of domestic relations judge for cause in the same manner as a county judge would be removed (by a district court) is valid.

—Constitutional Convention lobbyists don't have to file monthly "activity reports."

—A deputy game warden is authorized to arrest without warrant game law violators, but he has no authority to carry a pistol.

—A Justice of the Peace convicted of a felony can draw emoluments of office pending his appeal unless the convicting courts suspends him.

—Additional tax under the rollback provision of the agricultural use amendment to the constitution does not become due until the land no longer qualifies for agricultural use taxation.

Crime Goals Adopted

A new criminal justice plan for Texas seeks to reduce major crimes—burglary, robbery, drug abuse & theft—up to 20% by 1978.

The Governor's Criminal Justice Division proposed 24 programs, and has \$29.1 million in federal funds to help state and local agencies with crime curbs.

The plan reflects input from citizens, officials, criminal justice personnel and staff aides and executive committee members of the Criminal Justice Council.

Short Snorts . . .

A lawsuit filed by Frances "Sissy" Farenthold accusing Governor Briscoe of taking unlawful campaign contributions is set for trial here April 8.

The Governor's Office of Equal Employment Opportunity approved a plan of the House of Representatives to end discrimination in hiring.

Forty-five highway projects are due for bid letting February 28-27.

The construction boom is losing its vigor, according to a University of Texas Bureau of Business Research report which found building last year increased only 1% over 1972 and actually dropped off 11% in December.

Texas Ranger Senior Capt. Clint Peoples will retire March 31 and become a U. S. Marshal.

Texas teachers have organized a statewide political action arm known as Texas Educators Political Action Council (TEPAC).

Texas Aeronautics Commission received a recommendation from its director to approve Rio Airways passenger service between Tyler-Longview and Dallas.

Official Texas medallion commemorating the United States Bicentennial

Bicentennial Texas Medallion Unveiled

Arlington—Mrs. Bill Hobby, president of the Bicentennial Association of Texas, Friday unveiled the official Texas medallion and logo for the United States Bicentennial observance at a news conference at the University of Texas at Arlington.

The obverse side of the medallion features the official emblem of Texas' Bicentennial observance. The converging arrows represent the ethnic groups that have come together for 200 years and longer to form the Lone Star State.

The reverse side of the medallion is a montage, dominated by a two-headed figure of man.

One face looks to the past and the heritage of a bountiful land. A shaft of wheat, a boll of cotton, a Longhorn steer and a derrick represent Texas' richest products . . . her natural resources.

Pride in the present is reflected in a gear for booming industry and commerce, a book for education and unlimited opportunity.

Man's forward face looks through an astronaut's helmet, with the land's bright future represented by an airliner and spacecraft.

Proceeds from the sale of the Texas medallion will go toward the production of "Texana," a major stage production authorized by a concurrent resolution passed during the 63rd session of the Texas Legislature. "Texana," our state government's contribution to the Bicentennial, will symbolize the 26 ethnic and national cultures represented in Texas.

Of the planned stage production, Governor Dolph Briscoe has said: "This will be a major production depicting the history, the accomplishments and the dreams of Texas and its people. It will

be produced through the cooperative efforts of the outstanding talents we have available in our academic and professional communities."

Dr. Joe B. Frantz, a member of the American Revolution Bicentennial Commission (ARBC) of Texas, will be in charge of preparations for "Texana."

The Bicentennial Association of Texas, a non-profit private corporation, is an adjunct to the ARBC of Texas. The Association will be responsible for funding of "Texana."

A limited edition of the Texas medallion, in both fine silver and bronze, will be available this spring. Marketing will be by Century II, Ltd. of Austin under authority of the Bicentennial Association of Texas.

The medallion was designed by Jerry Tokola, Bob Stewart and Steve Parrino.

Food Marketing Is Affected By Weather

College Station, Tex.—Uncertain weather conditions along with transportation problems are hampering food marketing predictions, one observer said this week.

Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System, termed estimates this week "most difficult," but she made some anyway.

The specialist advised consumers to check beef roasts, "a few of the more desirable steaks" and ground beef.

"Beef values most often include chuck roasts and steaks, round steaks, beef liver and ground beef," she added.

Pork values include fresh and smoked picnic, quarter loins cut into chops, and Boston butt roasts. Some brands of bacon are a bit lower in price.

At poultry counters, Mrs. Clyatt forecast scattered features on fryer chickens.

"Also, check frozen food cases for turkey and turkey parts, which are featured in some markets. Turkey and chicken pies offer good choices, too."

Turning to vegetables and fruits in their "low-price and high-quality" period for the year, the specialist listed carrots, broccoli and cauliflower, oranges and grapefruit.

"Cooking greens, bulk turnips, celery and rutabagas offer good values. Head lettuce is now at attractive levels, but prices on dry onions and potatoes are a bit higher."

Prices on apples, bananas and pears are about the same.

Consumer Watchwords: Consider "quantity" meat purchasing with care.

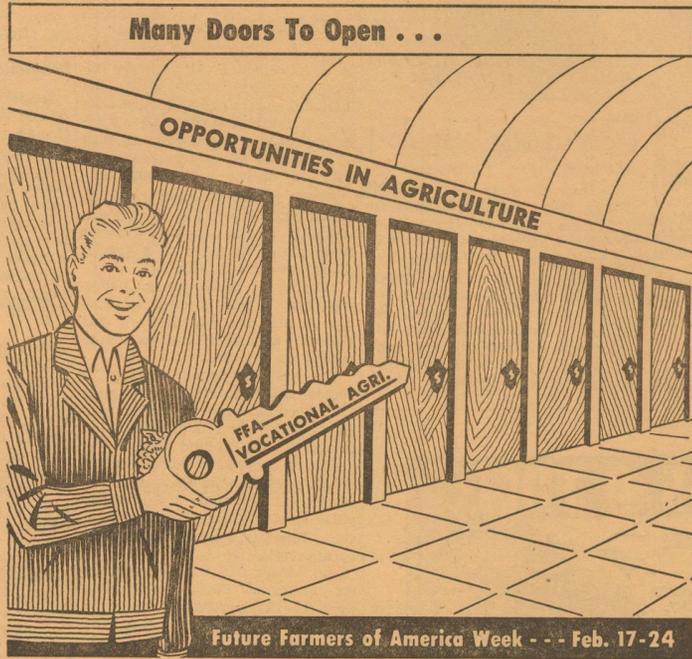

Study family preferences, storage costs, grades of meat, loss during cutting process, finance charges for meat bought on credit, and reputation of freezer food firms.

TS&GRA To Meet

Directors and members of the Texas Sheep and Goat Raisers' Association will meet in San Angelo Feb. 23 for their winter tri-annual meeting. Houston Harte Center on the Angelo State University campus is the site for the day-long meeting.

Registration will begin at 8:30 a.m., and committee meetings will start at 9:30 a.m. A "no host" meal will be served at the Center, followed by the general session beginning at 1:30 p.m.

Saluting F.F.A. WEEK IN TEXAS

The FFA strives to furnish well-trained leaders and citizens for responsible positions in agricultural work, farming, and ranching. Presently Texas high schools offer vocational agriculture classes in production agriculture, agricultural mechanics, horticulture, forestry, meat processing, agricultural resources, farm chemical, and other off-farm agricultural programs. Texas FFA Week always includes the birthday of George Washington, who was a century ahead of his time in advocating soil conservation and good farming methods.

WIND OF FAITH

Old-timers used to rely on this mill. This mill used to depend on the right wind. Despite man's most valiant efforts the wheel was frequently at a standstill. What then? Waiting, waiting, waiting! What patience they must have learned—only faith sustained them. The wind would blow again.

The patient life also requires a foundation of faith. It can come early or late, slowly or fast.

If you lack the necessary faith to fulfill your life's needs, turn to the Church. The wind will blow again.
