Seventy-five per cent of Texas allotted delegates to the national party conventions would be elected directly at the district level, 25% at the state conventions.

Proponents predict Senate passage of a similar bill, but some senators are reluctant. Gov. Dolph Nursing Home this week. We fin-Briscoe has given his support, ished some of our mosaic tiles this along with Bentsen.

A \$64.1 million quarterly rebate of city sales taxes was announced by Comptroller Robert Bullock-a month earlier than usual.

Attorney General Hill filed new motions to speed release of \$174 million in pollution control funds for Texas which had been impounded by the federal government.

Cash receipts from Texas agricultural products decreased more than \$495 million in 1974, according to Agriculture Commissioner John C. White. White said value of Texas cattle and calves was cut more than half between January 1975 and the previous year (\$2.5 billion.)

Twelve million in emergency funds will be mailed to 37 public junior colleges this month.

The pork market fluctuated during the past week with a tendency toward lower prices, the specialist said, noting that, seasonally, this is the time of year for pork. She reported good values on loin cuts, center-cut chops, liver and Boston butt roasts.

Chicken and turkey reflect "attractive" price levels in some markets, and eggs will be abundant at low seasonal prices in upcoming weeks, Mrs. Clyatt said.

You don't have to eat your heart out over the big bite food prices are taking out of your budget. There are many ways you can save, if you keep these

tips, suggested by the American Dairy Association, in mind.

Try foods which require little cooking, such as chicken livers or cheese, since there is little loss or shrinkage and you can save on fuel.

Less costly food items like soups, relishes and salads take the edge off appetites, so you get more servings from the more expensive main dishes.

Save bones from roast, meat or fowl and a tablespoon or two of vegetables. When you have enough, simmer them with water or vegetable juices for soups or stock to use in sauces.

sauces.

Go back to simple, tasty and inexpensive desserts such as custard, rice pudding, floating island, blanc mange, tapioca, Bavarian cream, cobblers, fruit crisps, fruit Bettys, gelatin and ice cream.

When buying new food, purchase the smallest size available. If you don't like it, you have less to lose.

How To Enjoy Historic America

Celebration of the U.S. Bicentennial in 1975/76 will open many new travel vistas for Americans who want to see their country in its historical and cultural best. And a great way to do this is to sight-see via motorcoach—in the relaxing surroundings of a comfortable, spacious bus with full-vision and an expert guide.

And there are so many "historical America" sights to see. Take America's birthplace, Philadelphia. One popular Gray Line tour, costing under \$7 shows you: Independence Hall, Shrine of the Liberty Bell where the Declaration of Independence was signed; Betsy Ross House, home of the Stars and Stripes and Elfreth's Alley, the oldest continuously occupied street in the United States, dating back to 1690. It's an inspiring tour, full of living history.

Boston has it all for sightseers, too. The city itself will be the chief focus of Bicentennial observances. Tour 1 of the "Freedom Trail" shows all the uniquely important Revolutionary landmarks, and stops at two of the most celebrated—the "Old North" Church and the USS Constitution. Costs start at \$6.50.

For additional information about any of these exciting sight-seeing tours (or those in 144 other cities), write to Travel Literature Dept.-SG, Gray Line Sight-Seeing Companies, Associated, inc., 7 West 51st Street, New York, N.Y. 19019.

RAVEL IPS AND TRICKS

MEETING PEOPLE ALONG THE WAY

You will meet them in cable cars, ferries, sightseeing buses, at your hotel. The happy fact is, meeting people is easier when you are traveling than it is at home. Here are a few friendly tips to make sure you'll meet the most congenial people on your trip.

Ask your friends if you can act as a courier for them to their friends abroad. When you can

say, "I bring you greetings and a small token from Mrs. So-and-So," you won't feel embarrassed calling on a stranger expecting a gesture of hospitality.

The key to hospitality all over the world may lie in your interests and professional connections. Writing to a club, association, or organization you're interested in before you leave home can lead to all sorts of meetings.

When you're traveling, you can find 1,700 "familiar faces" around the world in the form of Holiday Inns which offer you American style food (in addition to local) and American standards of comfort and quality.

Think about making a special project out of one of your hobbies. If you collect something, anything — wooden doors, stamps, photographs of French poodles — there's usually someone at the other end of the leash in Paris or Los Angeles who shares your enthusiasm.

In Tuscany, two crossed knives on the window sill keep away hail.

Some people believe that eating a jackal's heart will cause a child to grow up a coward.

DISEASES OF HEART CANCER ACCIDENTS PNEUMONIA & BLOOD VESSELS

HEART ATTACK, STROKE and other cardiovascular diseases kill more Americans than all other causes combined. In 1974 these diseases will claim more than one million lives—53% of all deaths. During February, the Heart Fund campaign will seek funds to reduce needless death and disability by telling the public how to recognize the early warning signs of heart attack and stroke and how to reduce their risk of these killer diseases.

Arts & Crafts Fair Set In July At Kerrville

Kerrville, Tex .- A jury of highly qualified judges egan the task of selecting 200 artists and craftsmen to be invited to display and sell at the fourth annual Texas State Arts and Crafts Fair at Kerrville from hundreds of entries submitted by resident Texas artists and craftsmen from all over the

Judging began on February 24, ten days after the February 14 deadline and is to be completed by February 28, with the 200 qualified by the jury to be notified of their acceptance in March. Selections are being juried from three color slides which have been submitted by each entry.

The Texas Arts and Crafts Fair, formerly held on Memorial Day week-end during its first three years, moves to the 4th of July week-end this year to avoid conflict with the end of school terms across the state and will again be held on the lovely three shaded acreage along Quinlan Creek on

the Schreiner College campus. Dates for the fair this year are July 4-5-6, with gates opening at

The fair, which also features some of the best foods ever served at an outdoor event, in addition to arts and crafts demonstrations and fair goers, including the new traditional Texas Old Time Fiddlers Contest for a great afternoon of Texas break-down fiddling by some of the Southwest's best fiddlers.

Other events include the \$1,000 Country Western Song-Writing Contest being staged by the Kerrville Music Foundation in association with the big July 3-4-5 Kerrville C&W Jamboree starring 18 Nashville recording stars, and a' free pair of bluegrass music shows at the fair.

MAKING FAMILY LIFE MORE FUN

HOW TO HELP YOUR KIDS MAKE THEIR MARK

Are your children making the most of their abilities or not doing as well as you

know they can? Without even mentioning report cards to them, you can help them improve their marks - and more important, establish learning habits which will benefit them all

their lives. The way to do this is to establish a "climate of learning" in your home. For children achieve more in school subjects - even mathematics in a flexible, spontaneous atmosphere where their own

viewpoints count. Rewarding them for achievement also gives encouragement. But remember, reward, not bribery. Give them something unexpected - and perhaps a change of pace. A long weekend away from home can provide recreation both physical and mental. For example, without ruining the family budget, you can take the whole family to a Holiday Inn, where kids under 12 can sleep free, unless extra bedding is required, in the same room with Mom and Dad. Then you all can spend your days relaxing, seeing the sights — and the kids can learn a lot from that losing built-up tensions. The family will become closer to-

learning by following these interests.

Congressman Bob Krueger's Weekly Report From Washington

Few things seem easier in Washington than spending the taxpayer's money or pretending that the government is saving citizens money by passing regulations that will bring about low prices: Both these habits sometimes bring short-term rewards, and long-term headaches.

Last week provided two examples. First, Congress passed a tax refund, as the Administration requested. I voted against this bill, because our federal deficit will already be too large, and because I thought it would be inflationary without restimulating the economy Pd. Adv. effectively. Further, I did not support the bill because it removed the depletion allowance for oil drilling, at a time when we need Sealed bids, addressed to the incentives to discover new oil and

Similarly, on Thursday, the Ensaid County in the Courthouse at ergy and Power Subcommittee, on Eldorado, Texas until 10:00 A.M. which I serve reported out a bill March 24, 1975, at which time such continuing our present two-tier oil" until January 1, 1976. I was the only member from either party to vote against it. Under this sys tem "old oil" from fields drilled before January 1, 1973 sells at one price, and "new oil" discovered 2. One (1) New 1975 Model 10,000 after January 1. 1973 sells at the world price, which is twice as high. There is no logical defense for be obtained from the County Judge | selling an identical product at two of Schleicher County, Eldorado, different prices. This will not encourage domestic drilling and production, nor keep American producers from selling their "old oil" by the Court to be in the best overseas, if they can get higher interest of Schleicher County, whee prices for it there. Uncomfortable as it is, we will have to move to the world price if we are ever going to have incentives to develop enough netroleum at home for our own needs, and then, when the price of oil has found its natural market level, the determination can be made whother cool can be competitive with oil. When it is, records on the cost coast and in the far west will have a secure price for coal that will allow them to engage in heavy investment in coal mining for this country's fu-

Our government has over-regulated many things, and in doing so, has often achieved short-term gains but at the expense of long-term goals which are more desirable. Political expediency can be a very strong motive. I'm hopeful that expediency will not win out. and I believe that there are still enough people who will be openminded to the needs for developing a sensible long-term energy policy so that we can forge a program genuinely suited to our national needs.

Do It Yourself - And Save

discouraged at the prospects of buying a new home this year, plan to renovate their present homes instead.

Actually, such renovation makes good sense. It will make the home more enjoyable to the family and may help increase its resale value later when it comes time to move to a newer or larger home.

The kitchen is most often the focal point for renovation, says Jane Butel Silver, manager of General Electric's Consumers

"If you're planning to re-do the kitchen, remember that you may be able to save a substantial amount of money if you do it yourself," says Mrs. Silver. The savings may make the difference between doing the job all at one time or spreading it out. Or you may save enough to permit the addition of another appliance, such as a trash compactor.

Pre-glued wallpaper, adhesivebacked floor tile, pre-built cupboards and base cabinets-all are designed to help the home handyman. Even major appliance manufacturers are making their products easier for the home handyman to self-install.

For instance, General Electric's Potscrubber IITM dishwashers come with an installa-tion module to simplify electrical and plumbing connections. The installation module is first connected to the house elec-

A great many Americans, | trical and plumbing connections, then attached to the kitchen floor before the dishwasher is pushed into position under the counter. The module allows the handyman clear access for easy snap-on connections of the dishwasher's plumbing and wiring.

Also available from GE is a dishwasher replacement kit which can be used to replace most dishwashers with a new General Electric built-in model.

Another job made easier for the home handyman is replacing a food waste disposer. With General Electric's simplied mounting system, you simply position a mounting head in the mouth of the sink, tighten three bolts, then slip the disposer into the mounting head. Twist the unit, and it snaps into place and locks. All that remains is connecting the plumbing and electricity. General Electric has a booklet that gives simple do-it-yourself instructions for installing a dis-

Or if you wish to save money on a refrigerator with automatic icemaker, says Mrs. Silver, you can buy them separately and install the icemaker yourself. Installation directions come with every GE automatic icemaker kit.

If there is one appliance which says "modern" in almost any kitchen, it's the trash compactor. And it's a snap to install. Simply slide it into place and plug into any grounded, three-prong 110-volt outlet.

"Girl Scouting-A Promise In Action" is the theme of Girl Scout Week, celebrated this week by almost three and three-quarter million members of Girl Scouts of the U.S.A. Since the first meeting of the first Girl Scout troop, organized by Juliette Gordon Low in Savannah, Georgia, on March 12, 1912, more than 20 million girls and adults have promised to do their duty to God and country, to help other people and to obey the Girl Scout Laws of loyalty, honesty, courtesy, friendship, cheerfulness, kindness and thrift.
