## TO THE SUCCESS.

Vermont Ranch, Feb. 14 1909.

Mr. U. B. Metcalf of San Angelo spoke before the committee at Austin in the intrest of Hudspeth bill appropating one hundred and five thousand dollars, for the distruction of wolves. Mr. Metcalf spoke in the interest of the small farmers and stock raiser as well as the large ones, so for as has been reported he is the only one that had time to think of the poor man, lam sure he will have the gratittude of every small farmers and stock raisers in Texas, aside from a few sore heads that have been fortunate enough to own large tracks of land and great herds of cattle. / I think this bill will be appre lated by ever inteligent man in l'exas.

However our Lord had his enmies so things have not changes

till this good day. With the Editor's promission I will try to answer the acticle in ast weeks i-sue, in reguard to mail order houses. After reading he above mentioned article, i one had been trading with one hese mail order houses, he won woulder whether or not he was an escaped convict if not how he had escaped the pententiary, do you know just what you save by trading with a mail order house I will proceed to show. I know man who wanted to buy a bill o \$25 of merchandise, he got the home merchants prices and wen back home and got his big cataogue and found that he could save just \$7:50 after freight was paid, another man purchased four articles that cost 50 cents and then be came home and lookup the matter in his mail lorder catalogue, the (dentica) same articles cost just 8 cents, now who should have this profit, your fam my or the nome merchant. Where does the home merchant go to get his goods and wares, the article refered would lead you to believe hat he manufactured every thing he sold at home, when as a fact he sends to Chicago," New York etc., for all his goods and the or ly dollar left is the one he made clear from you. Our merchants or ever on the alert to find cheaper houses to trade with, and are only too glad to change when

they think their interest and wel-

fare is best protected. . As to the

so called favors called credit, that

our home merchants extend, it

would be many times better for

us to go to the banks and morgage

our stuff and get the cash and buy

where we could get most for our

money, and then our credit mer-

chants would not bave to put on

hat extra charge to cover the

bad debts of those that never pay

then again many merchants are

pelled to shoulder this burden When we can avoid it, self prese-

not shrewd buyers as they should be, and many are hampered for ck of sufficient capital. Now do not think we should be com-
