Loan Approved For Southwest Texas Electric Co-Op, Inc.

U. S. Senator Lloyd Bentsen was advised Monday by the U. S. Department of Agriculture that a \$714,000 rural electrification loan has been awarded to Southwest Texas Electric Co-Operative, Inc., in Eldorado.

The loan, which will finance services for 297 additional consumers, 118 miles of distribution line, and system improvements, is made at a special interest rate of 2% because of low consumer density and low gross revenue per mile of line.

The Southwest Texas Electric Co-Op with Mr. J. D. Strauss of San Angelo as president and Mr. Elton A. McGinness of Eldorado as manager, serves Schleicher, Concho, Crockett, Edwards, Irion, Menard, Pecos, Reagan, Sutton, Tom Green, Upton and Val Verde counties.

Location is 660 feet from the south and 1,980 feet from the west lines of 3-54-University.

Post Script

It's less than a month now until Oct. 13th when absentee voting is supposed to start in the upcoming General Election.

County Clerk Jim Thornton reported last week that the certified ballot copy had not yet arrived from the Secretary of State in Austin. Reason cited for the unusually long delay is that some lawsuits are pending from some individuals trying to change certification of candidates and parties on the ballot.

Meanwhile, incumbent Republican President Ford continues to run things from the White House while his Democratic challenger, Jimmy Carter of Georgia, is sniping more and more at his program. And the General Election is set for Nov. 2nd, less than six weeks away.

Ford and Carter are to meet for their first face-to-face debate on television later this month.

With the Museum: A new showcase was brought in a few days ago and will be mounted in place in the Museum for display of more items of historical interest.

Dr. Weldon B. "Hoot" Gibson of California was a visitor Monday afternoon. He was spending a few days visiting here.

Mrs. Winona Isaacs is the Memorials chairman for the County Museum.

With our subscribers: Hattie Martin entered a new subscription for Mr. and Mrs. Robert Behrens at 1002 Culberson in San Angelo.

Wm. W. Jarrett Jr. recently renewed from 2102 Runyan Street, Artesia, New Mexico 88210.

Appointed new fire marshal here recently was Bill Radle.

Around the business district: Clay Meador is new manager of Kwik Thrift.

Some pool tables and pinball machines and other gaming equipment has been moved into the Kempky building which was vacated a while back by Lois Cummings' shop.

The Eldorado Eagles tied their second game of the season here last Friday with a score of 13-13 against the Iraan Braves.

The first Eagle score came when Billy Bob Harlin made a 27 yard run over right tackle. Jimmy Bosmans' PAT was good making the score 7-0. Iraan failed to get points on the board so at half-time the Eagles still led 7-0.

The Eagles scored again in the third period as Harlin broke through the line and outran the secondary for 75 yards and a TD. This time the PAT failed leaving the score 13-0.

In the fourth quarter the Iraan Braves got the ball on the Eagle 43 yard line. They marched the distance in 10 plays with Bobby Burton getting the first score for Iraan.

With 1:54 left in the game, Iraan quarterback Gonzales passed to Senior halfback Ramsey who raced 51 yards for the tying points. The PAT failed, leaving the score 13-13.

PUBLIC NOTICE

SUMMARY OF PROPOSED

**CONSTITUTIONAL AMENDMENTS
GENERAL ELECTION NOV. 2, 1976**

**NUMBER ONE
ON THE BALLOT
(S.J.R. 49)**

Repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution, S.J.R. 49 amends Section 49-c of Article III of the Texas Constitution to provide for and authorize an additional \$400 million in Texas water development bonds that may be issued on approval of two-thirds of the members of each house of the Legislature for such water development purposes as the Legislature may prescribe.

The amendment contains a specific prohibition against the use of state funds for the development of water resources from the Mississippi River and also requires that before any single water development project may be undertaken requiring the expenditure of more than \$35 million in bond proceeds, it must be approved by resolution of the Legislature.

The amendment removes the constitutional requirement that certain revenues must be used to retire water development and water quality enhancement bonds and removes the constitutional interest rate limit on such bonds.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing an increase of \$400 million in the amount of Texas Water Development Bonds that may be issued on approval of two-thirds of the legislature; amending and consolidating provisions of Sections 49-c, 49-d and 49-d-1 of Article III of the Texas Constitution; and repealing Sections 49-d and 49-d-1 of Article III of the Texas Constitution."

**'October Magic' To
Be State Fair Theme**

Dallas, Tex.—Big Tex may have a rabbit or two tucked away under his ten gallon hat in preparation for this year's State Fair of Texas.

"October Magic," a 17-day festival of fun and fantasy, is moving steadily from the planning to the assembling stages at Fair Park to be ready for October 8, its opening day.

The magic formula involves an intriguing combination of attractions beginning with the bright Broadway musical hit, "Shenandoah" which opens in the Music Hall at Fair Park on October 8. A warm family-oriented show, "Shenandoah" promises strong appeal for fair time audiences.

Returning to Dallas is the popular Dancing Waters Exhibition. Located on the Esplanade leading to the Hall of State, this colorful spectacle combines flood lights and music for a spellbinding effect.

There'll be magic in the air at the Women's Building, along with the aroma of freshly baked cakes and casseroles and a variety of competitive events. In the nearby Automobile Building, the mesmerizing impact of all the new car makes and models gathered under one roof will permeate the 1977 Southwest Automobile Show. The rotunda of the Better Living Center will showcase the fabulous \$5 million Zale Diamond, the largest modern cut pear-shaped diamond in existence.

On the sports scene, the nation's top cowboys will be back in '76 to tackle a bonanza of bulls, brones and prize money in the State Fair Rodeo. Football is still king at the Cotton Bowl with a lineup that includes the Texas-Oklahoma battle, plus SMU-Houston, Texas Southern-Bishop, Prairie View-Bishop and a heavy schedule of high school games.

From October 8-24, more than three million people are expected to visit the Pan American Livestock Exposition, shop for marketplace bargains in the Embarcadero, study the newest agricultural developments at the Texas Food & Fiber Pavilion, enjoy aerial acts and musical groups on outdoor stages and join the elbow-to-elbow crowds along the fabled State Fair Midway. Parades, horse shows, circus performers, foreign exhibits, fireworks, good food and entertainment around the clock are basic components of the State Fair tradition that stretches back over 91 years.

Easter Seal 'Action Line' Is New Service In Texas

A new service for disabled Texas children and adults, called "Easter Seal Action Line," has been initiated by the Easter Seal Society for Crippled Children and Adults of Texas. Easter Seal Action Line's 24 hour, toll-free number, 112-800-492-5555, can be used by disabled persons and their families to obtain information regarding help they need.

William E. Russell, Executive Director for the Texas Easter Seal Society, reports, "Many people, especially in the rural areas, don't realize how many services are available for the handicapped today." The Easter Seal Action Line is designed to serve as a link between the handicapped and those services. With just a phone call, persons can receive that assistance in helping them to locate service they need, where it can be obtained,

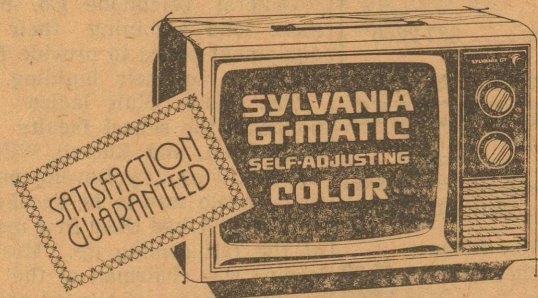

and who can provide it for them.

Among the many services available through the Texas Easter Seal Society Action Line are speech, physical, and occupation therapies, evaluations, purchase of needed orthopedic equipment, all of which require a medical doctor's authorization. The Texas Easter Seal Society pledges to make every effort to locate the needed service if that service is offered in the State of Texas. The Texas Easter Seal Society makes these services available to the handicapped of all ages.

Any handicapped person or anyone who knows a handicapped person who needs help in locating a needed service is urged to call the toll-free Easter Seal Action Line, 112-800-492-5555. Night or day, 7 days a week.

Raymond Hall, cashier at The First National Bank here in Eldorado, is local representative for the Easter Seal Society.

— STATE CAPITOL — by Lyndell Williams Texas Press Association Austin, Tex.—That proposed \$298.3 million Southwestern Bell Telephone Company rate increase isn't likely to go into effect until next year, if at all. The company, under Texas Public Utility Commission rules, had to publish notice in newspapers for four weeks that it plans the raise October 7. That's 35 days from the day it filed recommended rates with PUC. The commission is expected to vote September 20 to require Bell to defend its request in public hearings. Hearings will be held during the next three months, and the regulatory agency has 125 days after October 7 to act on the rate case. PUC attorney John Bell already has filed a protest that the rates are "excessive," and has requested that action be suspended during the 125 day period. His motions will be considered by the three commission members at the Monday (Sept. 20) hearing. Also to be considered at the pre-hearing conference next week is a request by Texas Municipal League to permit city governments to intervene in statewide rate cases over which PUC has original jurisdiction. Richard J. Hoyer, mayor of Monahan and chairman of TML's Public Utility Council, argues that all essential evidence pertinent to the rate case cannot be developed without interventions by city governments and other interested parties.

Aid Is Up Texas state and local governments are becoming increasingly reliant on federal aid, Comptroller Bob Bullock reported in a recent study. Federal aid is now running about a fourth of all total revenue received by state government. The study showed more than \$2.2 billion was received by Texas units of government in 1975. The figure has been increasing about 15% a year, but the increase slowed to 3.5% and 3.4% in 1974 and 1975. Texas, which ranked fifth in total federal aid among the states, ranks 47th in per capita receipts. For every dollar dollar Texas contributes in individual federal income taxes to finance federal aid programs, it gets back 82 cents in federal aid, according to Bullock's findings.

Connally On Job Former Texas Gov. John Connally stepped in as head of the President Ford campaign in Texas after turning down national campaign assignments. Connally said he expects an aggressive effort in the state, and thinks Ford can win by pinning down Democrat nominee Jimmy Carter on the issues. A Texans for Ford organization also is forming to wage a particular appeal to independent and conservative Democratic voters. State Rep. Roy Hutchison of Dallas is expected to be Connally's right-hand man in the state campaign organization.

Texas is No. 1 in traffic deaths over holiday periods, and a two-day traffic law/safety conference is slated here September 30 at The University of Texas School of Law. Texas Water Development Board held a public forum in Houston Friday on revision of the plan for developing Texas water resources. Twenty others will follow around the state through next month.

MARKET REPORT— College Station, Tex.—Pork prices will drop in the near future, but beef prices will be higher by winter, according to predictions from Mrs. Gwendolyn Clyatt, a consumer marketing information specialist. "Consumers can look for lower pork prices in the near future—as supplies are expected to be well above that of last year. "Currently at pork counters, emphasis is placed on Boston butt roasts and quarter-loins cut into chops. Smoked features include semi-boneless hams, picnics and frankfurters," she added. Mrs. Clyatt is with the Texas Agricultural Extension Service, The Texas A&M University System. "Beef supplies are more plentiful now—and prices are lower than a year ago. However, producers have been losing money on cattle for some time, and this situation just cannot continue indefinitely. "The result likely will be less beef on the market this winter—and higher prices on that which is available," she explained. "At the present time, special prices most often appear on beef chuck roasts, chuck and round steaks, ground beef and liver." With eggs showing prices increases, consumers can get more economy with a simple price-test, the specialist advised. If there is less than a seven-cent price spread between one size and the next smaller size egg—in the same grade, the larger size is more economical. At dairy sections, milk, sour cream and a variety of cheese are in the spotlight. Also, instant non-fat milk is plentiful and helps stretch the milk expenditure, Mrs. Clyatt said. "It can be used effectively in

most recipes calling for milk. It need not be reconstituted for baking purposes. Add it in powder form to the dry ingredients—and add water for the liquid measure." At fruit counters, economy buys include bananas, grapes, nectarines, pears and prunes. Cantaloupe and watermelon of good quality have moderate prices—as the season draws nearer the end. At vegetable counters, economy buys include cabbage, carrots, potatoes, dry onions, yellow and zucchini squash. "Hard-shell squash supplies are increasing—with butternut and acorn varieties in best supply. Cus-cum, another fall vegetable, is also available and worthy of consideration," Mrs. Clyatt said. In other grocery store sections, look for specials on jellies, jams and peanut butter. Consumer Watchwords: Consumers save five to nine cents per pound when they buy whole fryer chickens and cut them up at home.

Saving For Baby Begins Early

Money gifts to a new baby can form the basis for his savings program. A planned savings account will keep parents from putting the cash gifts into piggy banks, or their own bank account with a mental note to "pay baby back" which is often forgotten.

Estimates show that it will cost approximately \$52,000 to rear a child from birth through four years of a state college.

Each different way of saving money has its own special characteristics. Standards to consider when choosing a plan are what parents want to achieve with baby's savings and when they plan for baby to use the money.

Basic savings programs that look to a child's future are government savings bonds, insurance plans, savings accounts and certificates of deposit (savings certificates).

Government savings bonds can be purchased for varying amounts, from \$18.75 to \$7,500, and have fixed redemption values before and at maturity (five years).

The two types of savings bonds are Series E and Series H. These differ in cost, rate of return and the length of time held to maturity. Purchasing E bonds regularly in the child's name (designate parent as beneficiary, no toe-owner) makes the interest taxable to the child. Since the child probably will not earn enough to incur income tax for several years, the interest escapes taxation if you report it as it accrues.

To do this, at the end of the first year, file a federal income tax return in the child's name and on the return, state that the child elects to report the interest annually. Then, list the increase in the value of the bonds as his or her income. This establishes the child's "intent" and you need no further returns as long as the interest on the bonds plus the child's other investment income is less than \$750 a year. Thus, when the child cashes the bonds, all accrued interest on the bonds will be free from federal income tax.

When the child turns two years old, if parents start buying a \$25 bond each month, they will have \$5,906 worth when he reaches 18—assuming the 6% rate remains in effect.

Insurance programs or juvenile insurance can accomplish some important long-term objectives by insuring the child early during his life. This can give a child a base on which to build his own insurance program later, or help him start his adult career with low-cost protection.

But if you want to build up an education fund, you may be wiser to save on your own, since you should be able to invest the same amount of money at a higher interest rate than that offered by life insurance companies.

If you do decide to buy insurance, consider the wide varieties of policies available, and be sure you understand all the requirements, provisions and benefits. It is wise to shop around.

Savings accounts can be opened with a small deposit, and future deposits can be made in any amount. Withdrawals can be made any time, except with certain accounts which may require from 30 to 90 days notice. Again, shop around—to find the most favorable plan for computing interest when you make either deposits or withdrawals during the interest-earning period.

Generally, look for a high percentage rate of interest, no penalties for withdrawals, interest calculated on the day of deposit to day of withdrawal plan, quarterly compounding and quarterly crediting. At 7½% interest, money doubles in slightly less than 10 years. At 5½%, it doubles in 13 years.

Certificates of deposit normally can be opened only with larger (\$500 to \$1,000) amounts of money. These accounts must remain intact for a agreed period of time to be eligible for their higher interest payment. If a \$1,000 CD is purchased now, with all interest being re-invested at a current 8% interest, in 20 years it will be worth \$4,661.

Exemption May Lower Farmland Taxes

A recent Texas Supreme Court decision could save part-time farmers and ranchers many tax dollars. The court held that farmers and ranchers may qualify for agricultural tax exemptions on farm real estate even though they earn more than half their income from other sources. Thus, the court relaxed eligibility requirements imposed in an earlier ruling.

The big impact will be in counties that have many part-time or low income farmers who could not previously qualify for the exemption.

The Texas Constitution provides that the owner of a farm or ranch may request an "agricultural use" valuation for the property if it is his "primary occupation and source of income."

This valuation is based on the productive value of the land, which is often less than the market value generally used for computing tax payments.

The state Supreme Court ruled earlier that a property owner must show that his farm or ranch income was greater than his combined income from all other sources.

But, based on opinion by Associate Justice Price Daniel, the court changed the requirement to make it easier for owners to qualify for the exemption.

Daniel wrote . . . "It is sufficient if the landowner shows that he devotes a greater amount of time to his agricultural business than to any other occupation or business and that he receives more gross income from his agricultural business . . ."

This ruling will help farm and ranch owners who get incomes from a variety of sources, such as business investments, royalty payments and other jobs, but who spend a majority of their time on the farm.

Princess Toffee Torte

This Princess Toffee Torte is a "royal" dessert to crown your springtime menus. And since no baking is involved, you'll feel like a princess who need only wave her magic wand to make this elegant dessert appear before her family or guests. It's as easy to prepare as a dish of pudding and economical, too.

- PRINCESS TOFFEE TORTE**
- | | |
|--------------------------------------------------|------------------------------------------------------------------|
| Two dozen lady fingers, cut in half | 1½ cups (9 oz.) chopped Heath English Toffee candy bars |
| 1 tbspn. unflavored gelatin | 1 tspn. vanilla |
| ½ cup cold water | 4 cups prepared dessert topping |
| 1 (3 oz.) pkg. vanilla pudding mix (not instant) | 2 to 3 cups frozen or fresh sliced peaches, sweetened (optional) |

Cut two dozen of the lady fingers into 2-inch lengths and stand them upright, top crust side toward pan and cut side down, around edge of a 9-inch spring form pan. Line bottom of pan with lady finger halves. Soften gelatin in cold water. Prepare pudding mix as directed on package label. Add gelatin to hot pudding, and stir until dissolved. Stir in 1½ cups toffee pieces and vanilla. Chill mixture until it starts to thicken.

Fold 2 cups prepared dessert topping into chilled toffee mixture. Fill center of pan with alternate layers of pudding and remaining lady finger pieces, making pudding the top layer. Chill until firm.

To serve, remove torte from pan onto serving platter. Ring top edge of torte attractively with remaining 2 cups prepared dessert topping mix, and sprinkle with other ½-cup chopped toffee candy bits. Serve with sweetened peach slices, if desired. Yield: 8 to 10 servings.
