HOME TOWN TALK

By Beddy

House Members Brandish

Read the top headline in Tuesday's Herald, which was printed right here at home Tuesday afternoon, and was received by the people of Big Spring, Stanton, Coahoma and neighboring communities that same evening.

And Wednesday morning you read the same news report of an accident in the house of representatives—carried under the top headlines of both the Abilene and Fort Worth papers; the former printed it 1 a. m. Wednesday and the latter shortly after dinner time Tuesday. The latter printed Tuesday, was dated Wednesday, and it had to be hauled out here via train before you could read it.

Just a reminder that in The Herald you get "Today's News Today."

How about this band business? Has anyone a plan for organizing a band of sufficient size and quality to fittingly represent Big Spring? Its going to be needed on lots of occasions, the first being the Fiesta of Progress early in May, the next the annual convention of the West Texas Chamber of Commerce that same month, in Abilene.

If you wish to be entertained very wholesomely and also to aid movement in its infancy locally, get with a very worthy purpose, go to high school auditorium Thursday evening and see "The Whole Town's Talking," the Little Theatre's first production.

Don't forget the Fiesta of Progress.

WIDOW GIVEN ESTATE OF LATE WILLIAM H. TAFT

WASHINGTON, March 12 (AP)—The will of the late William Howard Taft, former president and chief justice of the United States, was filed today for probate, although no valuation of the estate has yet been disclosed.

The will was executed June 3, 1925, and was modified by two codicils, one on April 27, 1927, and another on June 1, 1927. Under the original will Yale University was given \$100,000, to be added to the principal of the alumni university fund and credited to the class of 1878.

Wendell W. Miscner, his secretary, was given \$5,000, and the following specific bequests were made:

Margaret McNamara \$1,000; Annie McNamara \$750; Thomas Hamilton \$750.

With these exceptions, and save for his papers and copyrights, the former president left all his remaining estate to "my dear wife, Helen H. Taft."

The widow was also named as executor, with the request that no bond be required of her and that she should not be required to make any inventory of the estate.

C. of C. Not Backing Advertising Scheme

C. T. Watson, manager of the Big Spring Chamber of Commerce, issued a statement Wednesday morning denying that he has recommended purchase of advertising in a magazine being submitted to merchants of this city.

Numerous merchants telephoned the office Wednesday asking if the chamber of Commerce had endorsed the advertising, saying that the salesman had intimated the commercial organization was behind his efforts. Mr. Watson declared that such is not true and that merchants should decide for themselves the merits or demerits of the proposition submitted.

EX-SERVICE MEN HEAR CORSICANAN

Local Members Urged To Revise Activities Of Past

Twenty-one members of the local post of the American Legion and visiting legionnaires were special guests of the Rotary club at the regular weekly meeting held Tuesday noon in the Episcopal parish house.

The program centered around the two addresses given by visiting legion officers, J. J. Brown of Austin who has charge of the legion fund for educating disabled children, and Ernest Cox of Corsicana, state commander of the American Legion.

Urges Building

Mr. Cox urged local legionnaires to build up their post and to discharge their duties to gain public confidence. The chief duty of the legion is toward its country in times of peace, he told the club and its guests, as he exhorted American citizens to realize the duty of voting on the program of Americanism.

Preparedness is the best assurance of peace, the speaker pointed out as he outlined a working program for ex-soldiers in time of peace.

In his speech, Mr. Brown gave an idea of the use of the fund which has been placed in his charge.

Dr. C. W. Deats, commander of the local post, had charge of the program and B. Reagan, club vice president, presided over the meeting in the absence of W. T. Strange, Jr., president.

Musical numbers were given at the opening of the program by a group of visitors from Fort Worth, Charles Burks, Billy Burks, E. C. Burks and H. T. Dinsmore.

Ex-Service Men

Ex-service men present were: Weldon Burke of Fort Worth, J. D. Renfro, Stanton, E. H. Murphy of San Angelo, G. W. Albrecht of Kerrville, L. J. Brown of Austin, Will Yates of Stanton, I. G. Peters of Stanton, L. M. Watson of Sweetwater, W. W. Ruhlen of Pecos, Kenneth Ambrose of Midland, G. R. Hyde of Eustis, Fla., Lester W. Dawley of Dallas, W. H. Sloan of Midland, Glenn C. Wilson of San Antonio, Leon Goodman of Midland, and the following members of the local post: Carl S. Blomshield, A. L. Wood, C. V. Deats, Richard F. Scheig, R. V. Middleton, Edmund Nosteline, Ira L. Thurman, W. F. Russell, L. W. Croft, Libburn Coffey and H. C. Timmons.

Final Dress Rehearsal of "The Whole Town's Talking" Scheduled for This Evening

Third and final dress rehearsal of "The Whole Town's Talking," which Thursday evening will be presented at high school auditorium as the Big Spring Little Theatre's initial public offering was to be held this evening.

Due to cooperation of many members of the Little Theatre who are not in the cast unusually complete arrangements are being made to afford the local public one of the most finished performances it has ever had an opportunity to attend.

Thursday evening's audience will be introduced to a charming young lady in the leading female role, Violet Kojatine, as Ethel Simmons, brings to the local stage police and stage technique rarely found in an amateur actress. Playing opposite her will be Ray Simmons as Chester Binney. Mr. Simmons' previous local stage appearances have developed into real hits. This, however, is the heaviest role he has assumed in Big Spring.

Another actor of proven ability who brings a strong character performance to this production is E. E. Fahrenkamp, who will appear as the father of Ethel Simmons. Playing opposite him as Mrs. Simmons will be Miss Clara Cox.

A prominent young business man, Chester Binney, has an affair with a famous motion picture star, Letty Lythe. He has deserted the commonplace activities of a paint manufacturer for the painted lips and cheeks of Hollywood. His charming young fiancée, Ethel Simmons, remains true, in spite of gossip—but danger lurks in the path of their romance. Rumor has it that the elder Simmons has been dancing in the toughest joint in town and Sadie Bloom is on his trail. Add to this a jealous, prize-fighter sweetheart, a dotting mother, a dapper young gentleman from Chicago and Paris, frivolous flappers and a hard-boiled taxi driver and there's reason for gossip.

Sues For \$574,165

Mrs. Frances Marion de Fausca-Brandon, former assistant corporation counsel of New York City, testifying in her breach of promise suit against George J. Gillespie, Sr., president of the New York City Board of Water Supply, for \$574,165, says he told her he was a holy man and forced her to pray for their souls. She alleges he not only failed to marry her but ruined her law practice.

Mrs. Ira Driver New Council Head

Mrs. Ira Driver was elected president of the Parent-Teacher association Council at the election of officers held Thursday afternoon in the high school.

Mrs. C. T. Watson was made vice president. Mrs. V. H. Flewelling, secretary, and Miss Cowan, treasurer. Delegates to the district P. T. A. meeting March 17, 18 and 19, in Ballinger were also designated, announcement pending final decision by those named.

Open Meeting of C-C Members to Be Held March 28

An open meeting for the Big Spring Chamber of Commerce membership will be held March 28, according to an announcement issued from the organization's executive office Wednesday morning.

Ollie Webb, assistant to President J. L. Lancaster of the Texas and Pacific Railway, has been invited to attend the meeting, but no reply has been received. Outstanding details of the program are still pending as the date was set only Wednesday morning.

Occupation Tax On Pipe Lines Sought

AUSTIN, March 12 (AP)—An occupation tax of one cent per barrel on all oil transported by pipe lines in Texas was proposed in a bill introduced in the house today. The bill was sponsored by Representatives Mike Hogg of Houston, Phil Sanders of Nacogdoches and T. N. Mauritz of Ganado.

"This bill will produce an annual revenue of \$3,000,000," Hogg said.

It would exempt oil transported in gathering lines throughout oil fields. There is no occupation tax on oil transported through pipe lines at present, Hogg explained.

Central P.-T. A. To Elect Delegates

The Central Ward P.-T. A. will meet in Miss Read's room in the Central Ward at 4 o'clock Thursday afternoon. Important business matters including the election of delegates to the district P. T. A. convention in Ballinger this month, will be taken up at that time.

RUNNELS & FOURTH IS LOCATION

Mrs. Nabors Property 50 By 140 Feet, To Change Hands

Announcement that the Texas Electric Service Company has purchased from Mrs. W. G. Nabors the 50 by 140 feet lot on the corner of Fourth and Runnels streets was made Wednesday by Carl Blomshield, manager of the company's business in this division.

The property is adjacent to that recently purchased by the Big Spring Amusement Company on which will be located the new \$200,000 theatre.

Confirmation

Although the Texas Electric Service Company's purchase is subject to confirmation of title to the property, the deal is considered closed. Papers for the purchase were signed Wednesday morning. The power concern has been considering various locations in Big Spring for nearly one month and it is generally believed that announcement from Mr. Robb that he had selected location for his new theatre influenced the deal that was consummated Wednesday morning between Mrs. Nabors and the power company.

Just what construction the Texas Electric Service company will make on the property has not been definitely determined. However, it is understood the company will build its own office and display room in Big Spring.

Dean Will Speak Before Council

An address by A. A. Dean upon the effects of foreign immigration upon American labor will be the chief feature of this evening's regular meeting of the Central Labor Council, in labor hall, rear of the Army store building on Main street, according to an announcement by President Tom L. Baxter.

Mr. Dean is declared to have been in position to study conditions of laborers in connection with competition with foreigners and has given the subject much study. Everybody is cordially invited to attend this meeting, at 8 o'clock tonight.

Safe Way Traffic Man Visits Here

W. G. Swenson Jr., district traffic manager for the S. A. F. E. airways, stationed in Abilene, was in Big Spring Tuesday evening seeking advice on how his company can improve its service to the traveling public.

While in this city Mr. Swenson complimented directors of the Big Spring Airport Company on their splendid flying field and intimated that a favorable reputation for service and equipment at the local port is gaining throughout the southwestern country.

Tahoka Woman Being Tried For Death Of Mate

TAHOKA, Tex., March 12 (AP)—More testimony was in order today for the murder trial of Mrs. Ollie Turner, charged in the fatal shooting of her husband ten years ago at Wilson, Tex. The trial began yesterday.

Mrs. Ester Turner, divorced daughter-in-law of the defendant and only eye-witness of the shooting, was the first witness called. She said the shooting resulted from a quarrel between Turner and his wife over his wish to sell their farm.

Mrs. Turner was tried in 1928 and received a 20 year sentence, but the case was reversed and remanded by the court of criminal appeals.

Extensive Remodeling of Old Fisher Store Building Is Announced by Owners

One of the most extensive remodeling construction jobs announced in Big Spring recently will be started on the old J. & W. Fisher store building on the corner of First and Main streets about April 1.

The building is now occupied by the J. & W. Fisher store which will occupy a new building between Third and Fourth streets on Main during the latter part of this month. As soon as the space is vacated Albert M. Fisher and Mrs. Z. M. Mayer, owners of the property, will start remodeling the exterior and interior of the entire building.

Exterior of the building will be of white ornamental stone and tile according to the plans adopted by Mr. Fisher and Mrs. Mayer. Glenn C. Wilson, architect of San Antonio, has drawn the accepted plans from which the remodeling work will be conducted. Specifications for the work have not been completed, but will be available within a few days, to prospective contractors.

In making the announcement, Mr. Fisher stressed the point that the building will be modern in every detail when work is completed. W. R. Purser and Son, pioneer furniture dealers in this section, will occupy 50 feet of the remodeled building and the 25 front feet left on Main street will be available for other tenants.

Display windows will be lowered to the ground floor and deepened to permit the furniture store to present a full room plan in each window. This particular type is being adopted by large modern furniture stores throughout the larger cities, Mr. Fisher stated.

Completion of the Texas & Pacific attractive freight depot, opening of the Gregg street viaduct and reported plans for remodeling other property in the vicinity of First and Main streets have led Mr. Fisher to believe that a rejuvenation of business activity in that particular section of the city will be experienced.

The brick building to be remodeled was constructed in 1890 and was for years the home of the general mercantile business operated by Joseph Fisher and William Fisher. Prior to occupation of the corner building, Joseph Fisher, father of Albert M. Fisher, was engaged in the general mercantile business in the old stone building now housing the Big Spring Weekly News. Mr. Fisher recalls that the old stone building was constructed of material quarried in Big Spring and that lime was burned on a hilltop adjacent to the present city limits. During that pioneer period when Big Spring claimed no banking institutions, the Joseph Fisher store served ranchmen and townspeople as a money depository. The old safe that is now a part of the equipment in the J. & W. Fisher store building was recognized as the safest deposit vault in this territory during that early period.

Plans Chicago 'Liberty Loan'

War-like financial methods are planned by Melvin A. Traylor, president of the First National Bank of Chicago, to end the city's financial woes. Traylor and associates may lead a "liberty loan" for the city's benefit with banks taking their share as they did during the world war.

Standard Raises Light Crude Price

NEW YORK, March 12 (AP)—The Standard Oil Company of California has advanced the price of crude oil 25 cents a barrel for the lower gravity oil. The prices for higher gravity oils have been advanced, the 14 degree gravity oil being increased 5 cents a barrel.

Big Spring People Use Reduced Fares

Numerous Big Spring citizens are taking advantage of the excursion ticket rates offered by the Texas & Pacific Railway company during the Fat Stock show now in progress in Fort Worth.

D. W. Christian was among the local people leaving Tuesday evening for Fort Worth and Mrs. A. M. Ripps and son, James, returned from Fort Worth the same evening after visiting friends and relatives in that city. D. D. Dunn, deputy sheriff of Howard county, expects to leave late this week for the Fat Stock Show and Jess Slaughter, sheriff, returned from the annual spectacle of the cattlemen Tuesday night.

Vagabond King To Show Here Saturday

Another notable achievement was made possible Wednesday for the Ritz theatre when Manager J. Y. Robb closed arrangements for pre-view presentation Saturday night of "The Vagabond King," Paramount's latest and greatest all-color, all-singing, all-talking triumph.

This picture will have been shown in but two Texas cities before appearing here. It opened in Dallas and Houston last week at \$2 top price.

"The Vagabond King," starring Dennis King with Jeanette McDonald, will be shown the only time, Saturday midnight, at the Ritz.

SENTENCES AFFIRMED

AUSTIN, March 12 (AP)—Sentences of life imprisonment and 20 years confinement against R. J. West and Tom Hernandez, respectively, for murder of Harry B. Williams, Laredo newspaper reporter, were affirmed by the court of criminal appeals today.

REPORT OF COMMITTEE PRESENTED

35 More Rooms Must Be Provided, Club Is Told

Circulation of a petition to the trustees of the Big Spring independent school district that a bond issue totaling \$125,000 be submitted to the voters of this city was started at the business men's luncheon held Wednesday noon in the basement of the First Methodist Church following recommendation of a Chamber of Commerce committee on education.

B. Reagan, president of the West Texas National Bank and chairman of the committee that has been giving its attention to the crowded school situation in Big Spring for the past few weeks, submitted the petition as recommendation of his committee.

In presenting the petition, Mr. Reagan stated that it was not the desire of the committee to detract from the powers of the school trustees, but that the committee realized that definite action on the part of citizens was necessary before the school board can submit the proposed bond issue to voters.

A thorough study of the school problem, the drift of population and prospects for increased scholastic population has convinced those studying the condition that 35 additional class rooms are needed to properly handle the condition. Admission of all six year old children to public schools starting next September has presented the additional obligation of teaching at least 200 or 300 children in Big Spring next year that have previously been barred from the public schools.

40-Year Bonds

Bonds proposed by the petition to be submitted to the school board when sufficient signers are secured will mature in 40 years. Mr. Reagan stated that the present tax rate of \$1 is believed sufficient to provide, for interest, sinking fund and additional teachers required to man the 35 additional rooms. He said that taxable values in the Big Spring independent school district now exceed \$9,000,000 and that buildings constructed since Jan. 1, 1920 have not been included in the tax conditions.

Willard Sullivan commented on the proposed school bond issue in this way, "It has been recently demonstrated what 1200 or 1300 progressive people will do when things must be done. I consider the water, sewer and viaduct issues favored here as luxuries, but this school situation is a necessity."

Virtually every member of the luncheon club present at Wednesday noon's meeting signed the petition. It will be submitted to the school board just as soon as sufficient names are affixed.

Two Workmen Hurt By Falls

Two workmen employed on building projects in Big Spring suffered injuries from falls late Tuesday afternoon, Dallas Sewell, employed on the Texas and Pacific Railway Company's new shop construction project, fell from a scaffold at 4:30 Tuesday afternoon and suffered severe injuries to his hips. He was reported improved Thursday morning from a local hospital where he was taken in a Charles Eberley ambulance.

E. C. Scarborough, a workman on the Presbyterian church at the corner of Seventh and Runnels streets, fell from a ladder while cleaning grills and sustained painful bruises to the body.

Little Theatre Play Is Complimented

Mrs. Earl Snapp, who is stopping at the Crawford hotel this week with her husband, a specialty representative of the Radford Grocery company, and who has had considerable experience in Little Theatre organizations, attended Tuesday evening's rehearsal of the local Little Theatre's play, "The Whole Town's Talking," and contributed favorable criticism of the work of the cast. She was a special entertainer at Wednesday's luncheon of the Business Men's Club.

The Weather

West Texas: Partly cloudy, warmer in southwest portion tonight; Thursday partly cloudy, colder in north and east central portions.

East Texas: Partly cloudy except probably showers near coast tonight and Thursday; warmer tonight, colder in northwest portion Thursday, light to fresh easterly to southerly winds on the coast.

CARPENTERS' AUXILIARY INSTALLS ITS OFFICERS

The recently organized women's auxiliary to the local Carpenter's Union met in W.O.W. Hall Monday evening, when the Carpenters also convened.

Charter of the auxiliary was presented and its officers installed by the carpenters' president, L. Hall. Those installed were Mesdames L. Hall, president; Shelby Hall, vice president; L. C. Vann, recording secretary; Ida McConnell, financial secretary and treasurer; W. O. McClendon, conductor; W. T. Bondie, warden; C. O. Murphy, E. H. Wickie, Joe Boadle, trustees.

A light lunch was served following adjournment.

The next meeting of the auxiliary which is numbered 238, will be March 24.

CLASS NAMES MRS. HAYWARD NEW EXECUTIVE

The Home Maker's Class of the First Baptist church was entertained at a St. Patrick's party Tuesday in the home of Mrs. Robert T. Piner in Edwards Heights. Election of officers featured the business session.

Mrs. G. H. Hayward was made president, Mrs. C. E. Nesbitt, first vice president, Mrs. Ira Thurman, second vice president, Mrs. J. D. Boykin, third vice president, Mrs. A. L. Cone, secretary-treasurer, and Mrs. W. S. Wilson, reporter.

The devotional service was held by Mrs. W. S. Wilson, and the opening prayer by Mrs. C. G. Glasscock. The president, Mrs. A. L. Cone, had charge of the business session.

Mrs. Mary McDonald and Mrs. S. R. Weaver, the social committee, then took charge. Several games were played. Mrs. Edward Houser favored the class with several musical selections, and Mrs. Roy Green sang a solo very pleasingly, with accompaniment by Mrs. Houser.

Those present were Mesdames Roy Green, Mona Sauck, A. L. Cone, G. H. Hayward, H. P. Wood, C. E. Nesbitt, Ira Thurman, F. W. Harding, J. D. Boykin, L. C. Taylor, John C. Smith, Roy Pearce, R. C. Pyatt, Osburn O'Rear, J. E. Laney, C. G. Glasscock, W. F. Wilson, Robert T. Piner, Edward Houser, B. Reagan, S. R. Weaver, Fred Stevens and A. L. Wood.

Herald Patterns

A PRETTY FROCK FOR
SLENDER FIGURES

6485. This design is distinctive in its shaping. The skirt is a circular seamless model. The sleeves are cut with shoulder extension in saddle effect, and gathered to hand cuffs at the wrists. The front is trimmed with a tie bow below kerchief portions to which, the pattern is attached. A soft crush girdle completes this pleasing model. As pictured printed and plain crepe were combined. Cotton prints are also attractive for this dress.

The pattern is cut in 3 sizes: 16, 18 and 20 years. To make the dress for an 18 year size will require 4 yards of material 39 inches wide or wider. For kerchief, tie, girdle and hand cuffs of contrasting material 1-2 yard is required 39 inches wide and cut crosswise. The width of the dress at the lower edge with fulness extended is 4-3/4 yards.

Pattern mailed to any address on receipt of 15c in silver or stamps by The Herald.

Send 15c in silver or stamps for up-to-date spring and summer book of fashions.

Mrs. W. E. Carnrike who has been gravely ill in her home was reported somewhat improved Wednesday morning.

SAN ANGELO MAN TELLS OF WIFE'S RELIEF

"YES, MY WIFE HAS SUFFERED ALL HER LIFE WITH STOMACH AND DIGESTIVE TROUBLES, BUT SINCE TAKING ORGATONE SHE NOW FEELS FINE," SAID SAWYER

"Yes, my wife has suffered nearly all her life with stomach and digestive troubles and never could get any relief until she began taking Orgatone (Argotane)," was the statement made recently by A. M. Sawyer, of 20 S. Florence St., San Angelo. Mr. Sawyer is employed by the Montgomery Contractors of San Angelo and has many friends there.

"Just as soon as my wife would eat anything she would bloat up and have gas forming on the stomach that would cause her to be miserable for hours afterward," he continued. "She lost her appetite and was gradually losing weight, for she didn't eat enough to keep her up and going. Her kidneys bothered her and she was forced to get up several times each night and had a very bad case of constipation."

"Right after she had influenza she would have spells, and her limbs would swell up and she would get in a terrible condition. We had doctors with her but her case never seemed to get better and she was gradually going down hill. Orgatone (Argotane) was advertised so highly I persuaded her to try it and since that time she has been improving ever since. She has just taken one bottle and feels fine. Her kidneys are normal and she never

has to get up at night any more and her constipation is a thing of the past. The gas stopped forming on her stomach and she eats anything she wants. The swelling is leaving her and, in fact, her general condition is very much improved. Orgatone (Argotane) has helped my wife after every other thing had failed and I am glad to give this statement for her."

Genuine Argotane may be bought in Big Spring at the Cunningham & Phillips Drug Store.—adv.

Miss Winelle Kavanaugh accompanied the Tansatt party to Carlsbad, N. M., to see the covers last week-end.

EAGLE PASS—New bus company opened office at 168 Commercial Street.

DAIRY FARMERS NOT MADE IN DAY NOTED AUTHORITY SAYS

By VICTOR SCHOFFELMAYER Agricultural Editor, Dallas News

No section can expect success permanently when it confines itself to raising one cash crop. In a cotton empire, such as Texas is, it would be folly to switch from cotton to some other single activity. The idea is to develop a profitable farming system in Texas in which farmers will balance their operations. Dairy farmers cannot be made overnight. They will have to grow into the business. But there is no reason why every Texas farm now without a cow should not have one to supply milk for the family. Little by little, those farmers who have a liking for cows and who will learn the dairy business will develop into dairy farmers.

can be enriched with the manure from these animals. That will increase the yield per acre, which is necessary to make any profit from cotton. It is not the idea to raise more cotton but more cotton and better cotton on fewer acres. As the land gets better, the better varieties of cotton, upon which Texas built her past supremacy in foreign markets, can be raised again. Dairy farming will help to bring about balanced farming, which should be the goal of Texas farmers.

Social Program Planned For Next Teachers' Meeting

Teachers of the Howard County schools will meet in a social gathering for the last monthly meeting of the present school year, it was decided at the session held by the program committee of the Howard County Teachers' association held in Miss Pauline Cantrell's office Tuesday evening.

The school year will end too early in May for a second meeting, it was learned by committee members, and plans to make the April meeting an enjoyable affair, were formulated. The program committee is made up of: J. H. Kannenberg of Coahoma, J. B. Boim, Miss Ann Martin, Miss Alice Pickle and Miss Cantrell, county superintendent.

Miss Gertrude MacIntyre left Wednesday morning for San Antonio to attend the three-day session of the Chicago Civic Grand Opera. In the program for grand opera will be presented "Lucia," "Carmen" and "Tannehauser," all well known operatic productions. Miss MacIntyre will be the guest of Mr. and Mrs. S. W. Scott while in San Antonio.

SAN JUAN — Super power radio station now under construction.

T.E.L. CLASS ENTERTAINED WITH ST. PATRICK'S PARTY

Mesdames Horace Jenkins, Mack Pardue and Lester King were hostesses to the members of the T. E. L. Sunday school class of the First Baptist in a St. Patrick's party Tuesday afternoon in the church parlors.

The meeting was opened with a song "What a Friend We Have in Jesus" with Mrs. K. S. Beckett at the piano and Mrs. E. R. Wolcott leading. Mrs. King talked on "Home-urging mothers to create a Christian atmosphere in the home for their children. Vocal solos, "Home, Sweet Home" by Mrs. R. Lay and an Irish song by Mrs. Wolcott were given. A series of prayers were

PRESBYTERIAN AUXILIARY HOLDS MITE BOX OPENING

The Women's Auxiliary of the Presbyterian church held the annual mite box opening in its regular meeting in the manse on Scurry street with Mrs. R. L. Owen, hostess. Mite boxes into which have been placed contributions to home and foreign missions are thus opened annually in a March meeting just previous to the opening of a new church year in April.

A mission program was given in connection with the opening of the boxes with the following ladies appearing on the program: Mrs. T. S. Currie, devotional; Mrs. W. C. Barnett, prayer for foreign missions; Mrs. Ida Mann, prayer for home missions; a talk on mission work by Mrs. G. D. Murphy of Midland, for five years a Presbyterian missionary in Korea; a discussion of the lives of mountain children by Mrs. S. L. Barker, and a story of the children of Brazil by Mrs. J. B. Littler.

About 20 members were present. SANDERSON—New fixtures installed in office of Texas-Louisiana Power Company.

Loans Point To Improved Business Conditions in State

DALLAS, March 12 (INS)—If money loans are an index to Texas financial and industrial conditions, it speaks volumes to say that business is on the upward trend, and has been since the market debacle in October last year.

Though this phase of the Dallas Federal Reserve Bank's report for the month is encouraging, there are several pessimistic outlooks in their review. In a meaty resume the bank's report was this: "That wholesale and retail trade was considerably irregular. That farm work was virtually paralyzed during the cold months, and as a result grains suffered and are in poor flesh generally. That cotton movements showed a decline over last year's figures. That lumber production during the past month was below normal. And that building reflected a sharp decline."

More favorable are reports of the petroleum industry, which is considered second in importance in the state. The yield for the month was greater by nearly one million barrels over the previous month despite the fact that there were fewer new wells.

Concerning loans made by the Federal Reserve bank of Dallas to member banks, there were seven million dollars less loans made on the month this year than last, indicating that individual financial limits have not fluctuated.

Federal Reserve bank loans to member banks, which stood at \$13,290,916 on December 31, 1929, rose to \$17,289,742 on January 6, and then reflected an almost steady decline during the remainder of the month, the report in finances reads.

These loans amounted to \$11,730,323 on January 31 as compared to \$19,881,403 on the same date a year ago. It should be noted that the trend of loans during the past month was in contrast to that in January, 1929, when there was a heavy demand for Federal Reserve bank funds. During the past month the borrowings of country banks materially reduced their demands.

Weather Affects Trading While some improvement, due to seasonal factors, in the distribution of merchandise in wholesale channels was noticeable during January, considerably irregularity was still in evidence. The sales of dry goods, groceries, and farm implements were larger than in the

previous month, but sales in all lines were materially less than in the same month of 1929. While the decline from a year ago was due in part to smaller demand resulting from the diminished purchasing power of the rural population, this condition was aggravated considerably by the unusually severe weather prevailing during the greater part of the month. The cold weather and bad roads in many instances prevented farmers from marketing products, which further reduced purchasing power.

Crops And Livestock Suffer "Farm work in most sections of the Eleventh Federal Reserve district was at a standstill during the greater part of January. The frequent rains, snows, sleet and the unusually cold weather made it impossible for farmers to carry on field work. The heavy precipitation, however, left a good surface and subsoil season in the ground in all sections of the district and the hard frozes pulverized the soil and destroyed insects.

The progress of small grains during the past six weeks has been poor to only fair as a result

of the long period of severely cold weather. Winter oats over a large portion of the district were either killed or materially damaged. While late reports indicate that some fields, which appeared to be dead, are beginning to come out, the stands will be thin.

A sharp decline in the condition of ranges in Texas and considerable shrinkage in livestock resulted from the severe weather prevailing during January. During much of the month the ranges were covered with snow and ice and the low temperatures killed weeds, brush and range grasses.

In practically all sections, liberal feeding was necessary to prevent heavy losses. Although losses were light, except in the coast sections and a few other localities, livestock lost flesh rapidly and are in poor flesh generally.

Petroleum Yield Greater "The output of crude oil in the Eleventh Federal Reserve District was 810,200 barrels greater in January than in December. This increase occurred despite the smaller number of new producing wells completed and was indicative of sustained output of old wells. The

Miss Connie Wright Lamesa Man's Bride

Miss Connie Wright of this city became the bride of W. O. Washington of Lamesa in a wedding which took place in the parsonage of the First Baptist church of Lamesa in the presence of a few intimate friends. Reverend Cole of Lamesa performed the ceremony.

The bride is the daughter of Mr. and Mrs. J. D. Wright of Big Spring and is well known in the city. Mr. and Mrs. Washington will make their home in Lamesa.

FABENS, Clint and Yuleta recently held Farm Bureau meetings. Work to commence soon on placing asphalt topping on Uvalde-Kinney county line gap of U. S. Highway No. 90.

ALICE—Work on local airport progressing nicely. yield in January totaled 27,655,000 barrels as compared to 26,642,630 barrels in December and 21,349,900 barrels in the corresponding month last year.

Thursday, March 13th, we start a special 9-day demonstration of the new Frigidaire HYDRATOR

Desserts and salads will be served. New recipe books will be given away. Be sure to attend

HERE'S your opportunity to find out all about the marvelous new Frigidaire Hydrator. On Thursday, March 13th, we start a special 9-day demonstration—one of the most interesting ever held in our showroom. We will show the Hydrator in actual use—just as you would use it in your home. You will see how lettuce is made tender and brittle by the Hydrator's moist reviving cold. You will see how celery and radishes take on added crispness—how tomatoes are improved in texture and flavor. And that is not all you will see. The latest household cabinets in Porcelain-on-steel will be on display. The famous "Frigidaire Cold Control" will also be demonstrated. You will be shown how this device freezes ice cubes faster—how it permits you to make scores of unusual desserts that require extreme cold. Will you be our guest?

SPECIAL OFFER Until Saturday, March 22nd We are prepared to make a liberal, special offer to all who buy Frigidaire during our 9-day demonstration. Let us tell you about this offer. Let us tell you about our easy payment plan. Come in at your first opportunity. We will be open evenings until ten o'clock every day of the demonstration.

BILL SEEKS CHANGE FOR COURT AIDES

AUSTIN, March 12 (AP)—The bill proposing transfer of the power of appointing the six judges of the supreme court commission of appeals from the governor to the supreme court was up for consideration by the senate today.

In the house—the bill to amend the law passed by this legislature and authorizing purchase of land adjacent to the almshouse in San Antonio was set for discussion.

In the meantime the two conferees committees striving to compromise differences on penitentiary reform and a proposed sulphur tax were at work.

The Alamo bill would permit the land it is proposed to buy to be purchased on the deferred payment plan and sets \$850,000 as the maximum amount to be expended for the purpose. The legislature had already created a board to buy the land, but did not appropriate funds for that purpose. The pending bill does not intend to appropriate, either.

The supreme court commission of appeals bill, in addition to authorizing the court to name its helpers would permit two members of the commission to sit with a supreme court justice in passing on writs of error. Under the present arrangement the main court must pass on writs.

NEW POTASH PROCESS MAY MAKE WEST TEXAS LEADER

AUSTIN, Tex., Mar. 12 (AP)—Recent discovery of a method of refining West Texas potash ores has led to the advancement of a plan for extensive development of the potash deposits of Texas. The discovery was made by Dr. E. P. Schoch of the Bureau of Industrial Chemistry at the University of Texas.

The discovery will make possible the production of potassium sulphate at a figure far below that at which European manufacturers, now the chief source of supply, can produce it, Dr. Schoch said. In the opinion of Dr. Schoch, no other section of the world will be able to compete with West Texas in the production of potassium sulphate.

The deposits in West Texas, according to Dr. Schoch, are composed chiefly of polyhalite, a mineral made up of the sulphates of potassium, magnesium and calcium.

The West Texas beds are composed almost entirely of this mineral and are free from chlorides.

The Texas potash deposits differ from the European beds in that the latter are composed of minerals which were formed by prior deposits of Polyhalite through a process of resolution and recrystallization. These beds contain chloride in preponderant amounts. Since the chlorides are readily soluble in water, the European manufacturers have used the solution method for obtaining their product.

Polyhalite, however, is only slightly soluble and for a time this proved the one bar in its being refined on a commercial basis. The discovery of Dr. Schoch removes this obstacle and it was found through experimentation that concentrated solutions of potassium and magnesium sulphates could easily be obtained from polyhalite and the component parts of the mineral readily refined in commercial form.

The potash thus refined is in the form of potassium sulphate and is free from chlorides. Dr. Schoch pointed out that potassium sulphate is preferable to potassium chloride for the most purposes since it does not attract moisture; it is more easily stored and handled than the chloride and can be used for all crops as fertilizer.

With potassium sulphate being imported into the United States at the rate of 150,000 tons per year at a price of \$46.15 per ton, the development of the West Texas deposits will mean much to the country at large, it is said.

The deposits in Texas were discovered by Dr. J. A. Udden, director of the bureau of economic geology in the University of Texas.

Thorough Test For Oil Expected For Freestone

TEAGUE, Tex., Mar. 12 (AP)—Representatives of several of the major oil producing companies and several independent say that Freestone County is entering upon what is destined to be a thorough test of every section of its acreage for oil. Condemned Man Cheats Electric Chair

McALESTER, Okla., March 12 (AP)—Charles R. Fray of Tulsa scheduled to die in the electric chair at the penitentiary here March 28 for the murder of his wife, Luella, cheated the electric chair by hanging himself in his cell in death row today.

The body of the condemned man was found by J. C. Boyd, cell house man, and W. N. Horland, negro prisoner who serves meals to the convicts, as they were delivering morning newspapers.

Fray hanged himself sometime between 6:10 and 7:15 a. m. Shortly after six o'clock Boyd and Horland took Fray's breakfast to him. When asked by Boyd how he was feeling, Fray replied: "Not very good." That was the last time he was known to have spoken.

Magazine Editor Writes Story of Incubator Here

J. E. Stanford, Texas editor of the Southern Agriculturist, a farm magazine printed in Nashville, Tenn., which claims a circulation of 700,000, writes an interesting paragraph concerning the huge one-unit incubator operated by the Big Spring Feed and Seed Company. Mr. Stanford was in Big Spring as a judge and lecturer during the second annual poultry show held here last January.

Mr. Stanford writes: "What is believed to be the world's largest one-unit incubator is being installed by the Big Spring Feed and Seed Company in its place of business. The incubator is 10 feet wide and 12 feet long and has an egg capacity of 52,000. It is equipped with a hatcher, brooder and battery and cost more than \$7,000.

Brothers Held In Recent Attack On School Teacher

DUNCAN, Okla., March 12 (AP)—Two brothers, suspected in the attack on Miss Leon Bosley, Loco school teacher, on a road near Loco Sunday night, were arrested late yesterday at their home 14 miles northeast of Muskogee. One was 35 years old, the other, 23.

Officers said one of the suspects owned a roadster which fitted the description of the machine driven by two men who kidnaped Miss Bosley and her companion, Chad Thurman.

The young woman, shot and critically wounded, was taken in an ambulance yesterday to her home at Gainesville, Texas.

No charges had been filed against the suspects. Officers reported Thurman had identified them. Both of the men were married, and the older one has two children.

Brother Given Death Sentence, Youth Placed On Trial

BOSTON, Texas, March 12 (AP)—Bud Goodwin, 21, charged with being an accomplice in the murder of Lloyd Elliott, 23, faced trial today in the same courtroom in which his brother, Dave Goodwin, 40, last night was sentenced to death in the electric chair by a jury which convicted him of the murder. Elliott's bullet-pierced body was found March 3 in the Sulphur river.

A compromise verdict for the younger Goodwin was expected, in the event a plea of guilty was entered.

Collie Goodwin, 55, father of the Goodwin brothers, was to answer today to charges of hog theft, along with Buck Sanders, 29, who made his home with Dave Goodwin.

The father of the Goodwins admitted, while testifying in Dave Goodwin's trial yesterday, that he had killed a hog belonging to Elliott. Buck Sanders admitted on the stand he aided in dressing the hog.

Mrs. Garland A. Woodward was removed to her home Monday afternoon from a local hospital where she underwent a major operation several days ago.
