Storms Kill Sixty-Five Texans

City Sets Date For Opening Sewer System Bids

HOME TOWN TALK

By Beddy

Last night one of the most experienced auditors of the southwest; a man who personally has audited books of numerous growing cities of Texas and who has recommended and instituted for them system of book keeping declared of Big Spring that "You don't know what you're enjoying."

He prefaced that statement with this: "I want to say right now that the tax rate in Big Spring is the lowest of any place in Texas. And on a sixty-per cent valuation basis, too. Abilene, Stamford, Childress, Jacksonville, Sherman, Waxahachie, and many other growing cities have higher rates, more indebtedness and higher basis for valuations."

Which may be one of the reasons why Big Spring has trebled its population within the past decade and has, we say without fear of contradiction, come nearer holding all the people who have moved here any time during that decade than has any other city in West Texas which has experienced rapid growth at any particular period of the decade.

Taxes, like death, are sure and certain; they're necessary and are just so long as kept within reasonable bounds.

Reasonable bounds means the most equitable balance between supply and demand, which, we believe, should be applied to taxation as well as to other things.

The supply is the property in the city. The demand is the sum of the needs of the municipality.

There may be times when supply surpasses demand or the other way around. Big Spring, everyone knows, has plenty of demand, and that is no fault of any person. In fact it is not a fault but a virtue; show us a town that does not need improvements, one that has all the things it needs and you'll show us one that will have "decrease" written after its 1940 census figure. Not "increase" by three hundred per cent.

Demand for improvements has been created by this growth, born of the development of natural resources. Growth of a city increases value of personal and real property of its residents. But the only way the value of the public property; the municipally owned things, the water system, the sewer system, the paved streets, the public buildings can be increased is by taxation. There is no other way.

And, too, the thing works both ways. The more improvements made by the city government the more the property of individuals is worth.

Variable economic conditions of the people, often shovled on a downward curve by outside conditions, must be taken into consideration in fixing taxes. The tax should always be kept as low as possible.

As low as possible. But the tax rate should not be kept below the people's power to pay when keeping it there would diminish value of the people's private property.

This city needs a city auditorium, city hall and fire stations. The question, first, is: Do we need these things? The next, is can we buy them?

OIL AND GAS COMMITTEE TO CONVENE THURSDAY

The oil and gas committee of the Chamber of Commerce will hold an important meeting at 2 p. m. Thursday. All members are urged to attend. They are: R. F. Schleg, chairman, Dr. G. T. Hall, Lonnie Glasscock, Jack Ellis, J. F. Wolcott, Ralph Linek.

ECONOMY TO GOVERN CONTRACT

May 27 Deadline For Filing Proposals For Job

Bids for improvements to the sewer system will be opened by the city commission May 27, it was decided Tuesday evening at a called meeting of the board.

The bids will be taken in this manner: for construction of the disposal plant, the outfall line from the city to the plant.

To Lay Pipe Now
The board of city commissioners instructed the city manager Tuesday night to buy pipe at once and lay it, on the surface, from the old sewer disposal plant eastward in order to remedy an unsanitary situation near the plant.

The matter was viewed as an emergency and it was decided it could not wait for contract to be awarded for the new, larger, permanent outfall line from the city to the new disposal plant, which will be some distance southwest of the old plant.

and for the collection system within the city in one unit, and each of the three portions of the program separately.

The commission intends letting the contract or contracts in the manner which cost may be reduced the most. The work may be let altogether, under two contracts or three. The city may, if economy dictates, put in the collection system on a day labor basis, letting the outfall line and the disposal plant under contract.

Hawley-Freeze-Nichols of Fort Worth are the consulting engineers. Plans and specifications for the \$120,000 program were submitted to the board Tuesday evening by Mr. Freeze.

PIONEER CITIZEN IS DEAD

J. B. D. Boydston Resident Of County For 49 Years

J. B. D. Boydston, 93, oldest pioneer Howard County citizen, died at his home 100 North Benton street, Tuesday afternoon at 6 o'clock after an illness of several weeks.

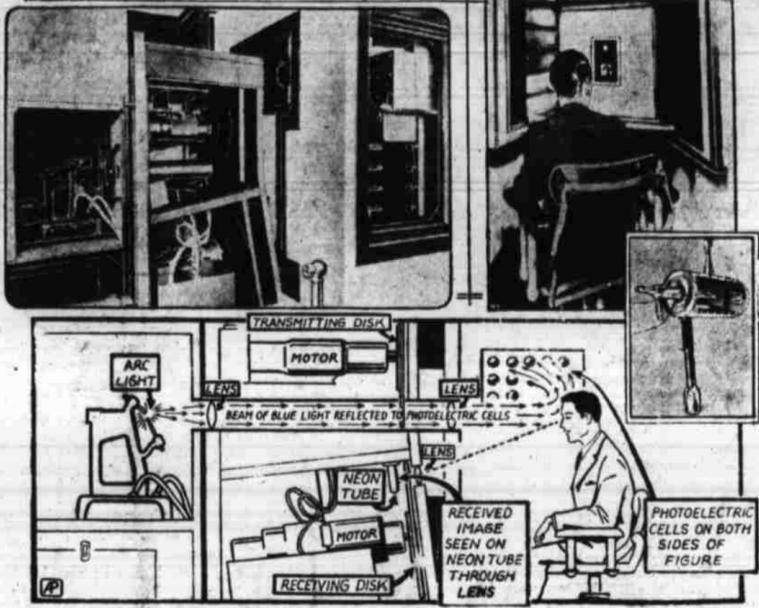

Funeral services will be held Thursday afternoon at 3 o'clock at the Chas. Eberley Funeral chapel, the Rev. D. P. Lindley, pastor of the First Christian church, conducting. Members of the Masonic lodge will have charge of the services at the grave. Burial will be in the Masonic cemetery.

He is survived by seven children, three sons and four daughters, as follows: J. N. Boydston, Fort Stockton; M. H. Boydston, Amarillo; B. P. Boydston, Big Spring; Mrs. Nannie Sherill, Big Spring; Mrs. J. N. Cook, Amarillo; Mrs. Bell Long, Big Spring; and Mrs. E. D. Gillispie, Hanley.

Fourteen grandchildren also survive. J. B. D. Boydston was one of the earliest settlers of this section. He was born June 6, 1837, in Woodford County, Ill. He was married to Miss Julia Ann Frances Williams at Bowling Green, Kentucky, Feb. 22, 1862.

In 1870 he moved to Texas, settling in Dallas County. Later he moved to Brown County, and on June 6, 1881, he settled in Howard County. He had been a resident of this county for 49 years. Soon after his arrival here he, with a small group, established the First Christian church, of which he remained a faithful member until his death.

TELEVISION ADVANCES TOWARD RECOGNITION

A year's progress in television has resulted in the development of this equipment for the Bell Telephone laboratories' two-way sight transmission. At the right is the television booth, with a view behind the closed neon receiving lamp (inset) played an important part.

Closing Of Goliad Street Protested

A party of six women and two men, residents of the portion of the city north of the Texas & Pacific tracks, for whom Mrs. H. E. Meador and E. C. Nance were spokesmen, appeared before the city commission Tuesday evening at its called meeting to protest closing of the Goliad street crossing when the Benton street viaduct is finished.

The contract, under which the railroad pays 50 per cent, the county 25 per cent and the city 15 per cent of the cost of the viaduct, provides that the Goliad crossing be closed. The Gregg street and

Benton street viaducts would, therefore, be the only crossings within the city limits.

"We have invested what we have in north side property, are willing to pay our part on the Gregg street viaduct and on the one to be built on Benton street. But there are several blocks between the two structures and our children who go to school on the south side, many of our women and children who work over here and many of the men and boys too will be inconvenienced if the Goliad crossing, between the two viaducts is closed. We understand there is such an agreement between you and the railroad," said Mrs. Nance.

"We don't feel like this would be a fair deal for us. We request the city to see that all the other crossings are not blocked. We'd prefer seeing Johnson or one of the streets next to it kept open or at least a foot bridge built over the tracks there," continued Mrs. Nance.

Mrs. Meador, who had been before the commission last year in connection with the same matter, recalled a petition with 120 signers which had been filed with the board at that time, requesting that Goliad not be closed. "So far we've employed no attorney. We want to settle this peaceably. We've talked to three local attorneys and one

B. C. D. Request Is Declined by Board

The board of city commissioners, having heard a request from a group representing the Chamber of Commerce board that a Board of City Development be created under a provision of the city charter, and predicting the request at this particular time upon financial condition of the local airport, Tuesday night declined under those conditions to create the board.

Some of the commissioners expressed themselves as favoring the Board of City Development. They said, however, that it was their opinion that, under the charter, if the board were created, its fifteen members would be responsible for expenditure of B. C. D. funds and that the commission could not pledge the B. C. D. if created, to spend any portion of its funds for any particular purpose.

The Chamber of Commerce group had told the commission that they wished the city to create the Board of City Development and that they desired to see the Board of City Development appropriate approximately \$1,800 annually for the next two years to pay interest on an issue of \$30,000 in 8 per cent first mortgage bonds against the airport property. Proceeds of the bonds would be used to enlarge and improve the port and pay its indebtedness, it was explained.

Commissioner Talbot said that, although he believed the airport a valuable asset and voted for the airport bond issue last fall, he did not believe the commission could, in the light of the results of the airport bond vote, pledge any city funds to financing the airport at this time. He and Mr. Inkman, who also said he voted for the airport bonds, said they felt the

Merchants Ready For Dollar Day

More than a dozen enterprising merchants of the city prepared today to care for an early rush of customers into their stores Thursday morning, when another Dollar Day will be observed.

Dollar Day in Big Spring has become extremely popular with the people because they have learned Herald advertisers of Dollar Day bargains back their advertisements with merchandise of quality claimed for it.

The past two Dollar Days have so pleased customers and merchandisers alike that more interest is being taken this time by both.

Today's Herald carries rare Dollar Day buying opportunities, presented forcefully in advertisements of the following: Acorn Store, Austin-Jones Company, Big Spring Hardware company, Davenport's Exclusive Shop, Dobson & Company, Grissom-Robertson company, J. L. Wood, Maurice Shoppe, Montgomery Ward & Company, Mozelle Dress Shoppe, The Fashion, Western Hardware company, United Dry Goods Stores, Inc.

100 INJURED, \$500,000 PROPERTY LOSS TOLL OF TORNADIC WINDS

DEATH LISTS GROW, MANY CHILDREN DIE

DALLAS, Tex., May 7 (AP)—The known death list in Texas towns struck by tornadoes yesterday: Ft. Ennis: Baby daughter of Art Wagner, Bob Flanagan. At San Antonio: J. C. Kleespies.

At Bynum: Mr. and Mrs. E. F. Isbell and son, Brandon. Mrs. Emma Hoff. Three negroes.

At Bronson: W. T. Strickland. Near Wasco: Two persons.

FROST, Tex., May 7 (AP)—The known dead in the tornado which struck here yesterday killing 24 persons and causing damage estimated at least \$500,000, included: Leroy Bagley, 9 months. E. A. Patterson, 50. J. E. Lee, 65. John Fiew, 17. R. L. Bell, 50, and his child. Mrs. League Wooley, 35, and a child, 12. W. H. Bowman, 70. Gid Bogan, 35. Tom Hagan. John Fly, 50. Mrs. W. H. Bowman, 60. Prentice Fiew, 21. Mary Currie, negro, 50, and son John, 25. Child of Jesse Satchel, negro.

The wind picked out the new "West Point of the Air" near San Antonio as a likely target, and the life of a workman was snuffed out. A score of men working on the barracks there were injured. Seven buildings were damaged. Capt. A. W. Parker, construction quartermaster at the field, said the material damage was negligible.

ATTENDANCE AT REVIVAL REMARKABLE

Following a record height last Sunday the attendance of the Methodist revival conducted by Dr. Thurston B. Price has been remarkably large, according to the evangelist who said that something like 600 women and girls were present Tuesday in the mass meeting for women when he spoke to women and girls, only upon the subject, "The Power of a Woman's Influence." He declared that it was the best service of its kind that he had held in ten years.

A special service for men was announced for Thursday night when the center of the building will be reserved for men and boys with the women delegated to the outer row of seats and to the balcony. The revivalist stated that 150 men from the refinery were expected.

The subject for last night was an emphasis of John 3:16, upon which the evangelist stated that no outline or system of homiletics could be worked out—only an emphasis of the thought expressed could be given. He stated that the love of God was without beginning or ending. The love of God was responsible for the creation. God desired something upon which to lavish His love. He stated that man could tell of the beginning of his love for his wife or the wife for the husband or for the child but that the love of God has no beginning and no ending. He stated that regardless of what man might do there was no end of God's love for the individual.

Dr. Price stated that the most remarkable thing about the love of God was the extent of its compassion, "God so loved." The evangelist explained that when individuals love they give the best they have. He said that God was the same in that He gave the best He had—His only begotten son.

Indicating his disdain of the cry for personal liberty the evangelist stated that even God himself possessed no personal liberty. His law "he that sinneth shall die" had gone out. He declared His love for man, and man had sinned. Justice demanded the death penalty.

request from the Chamber of Commerce group, had not been brought in the proper form and that it should have been made without connection with any particular use the group might have wished to have the Board of City Development funds used for.

USUAL QUEER THINGS LEFT BY TWISTER

By The Associated Press
Eight members of a Mexican family of nine were killed when the tornado that struck the Runge-Nordheim community swooped down suddenly on their little hut.

A negro baby was wrenched from its mother's arms at Frost by the winds, and the pickaninny had not been found by searchers. The mother held on for dear life, she told rescuers, and could not account for the prank of the wind in releasing her hold. She had hoped that her baby could be found alive, she said.

Fire drill practiced by children in the Frost school under training of their teachers probably saved them their lives. Seventy-five little boys and girls marched from their school building when the storm cloud was seen approaching. They went a short distance away, and at the command of their teachers got down flat along the plowed rows. The building was splintered by the hurricane.

The wind picked out the new "West Point of the Air" near San Antonio as a likely target, and the life of a workman was snuffed out. A score of men working on the barracks there were injured. Seven buildings were damaged. Capt. A. W. Parker, construction quartermaster at the field, said the material damage was negligible.

A negro fell dead at the instant of a loud crash of lightning at Wichita Falls.

THREE YEARS AGO

DALLAS, Tex., May 7 (AP)—Three years ago almost to a day, a tornado, similar to yesterday's twister, struck Texas, took a toll of about 200 lives, injured 1,000 and caused \$4,000,000 damage to property.

A tornado swept over Dallas the morning of May 10, 1927, roared into Garland, Dallas county, and killed 11 persons in a minute. It passed on and caused greater damage in Nevada, northeast of here.

RED CROSS IN ACTION

SAN ANTONIO, May 7 (AP)—Harry A. Richmond, assistant field director of the American Red Cross at Fort Sam Houston, was dispatched from San Antonio this morning for Runge to make a survey of the tornado-stricken area.

Richmond was sent by F. Arthur Shaw, field director of the Red Cross at the post. He will report immediately to Shaw, who will communicate with National Red Cross on what relief measures are necessary for rehabilitation of the stricken district and relief for those who were injured or are homeless.

FUNDS SOUGHT

DALLAS, Tex., May 7 (AP)—Raising of funds to carry on rehabilitation work in the storm area of Texas will be the work of the Dallas Red Cross, it was learned today.

No estimate of the amount needed will be made for the next 24 hours, it was said. Ned Campbell of St. Louis, national representative of the Red Cross, was in Dallas yesterday, and upon receiving words of the storm left immediately for Frost, one of the stricken towns.

SENT TO SCENE

LEAVENWORTH, Kans., May 7 (AP)—Albert Evans, St. Louis, assistant director in the district of the American Red Cross, today was directed by his superiors to go to Hill county, Texas, to survey the areas stricken by a tornado yesterday. He had been here conferring with local Red Cross representatives concerning relief measures being taken for storm victims in northeastern Kansas.

Abilene, 23,129. Increase of 125.1 per cent.

Widely Separated Areas Suffer Severely

By The Associated Press
Sixty-seven known dead, approximately 100 injured and property loss estimated at more than \$500,000 was the toll of a series of tornadoes in Texas yesterday.

At Frost, 25 persons were killed; at Bynum, seven; near West, two; at San Antonio, one; near Ennis, three; at Bronson, two; in Karnes and DeWitt counties, 26, near Runge and Nordheim.

Red Cross workers rushed to the stricken areas, and great efforts were taken to prevent an outbreak of tetanus.

Governor Moody dispatched troops to the Frost area.

BRONSON, Texas, May 7 (AP)—The death toll from the tornado which struck here late yesterday was raised to two today when Mrs. W. T. Strickland died today. Mrs. Strickland was killed outright when his home was struck by the wind.

DALLAS, Tex., May 7 (AP)—Tornadoes that swept various parts of Texas yesterday took a known death toll of 68, practically destroyed one town and did great property damage in other scattered sections, reports here revealed today.

The greatest death toll was reported in and near Runge, Karnes county, where only meager details of the storm had trickled in over crippled communication facilities. Twenty-nine persons were reported to have lost their lives in that area. Only five of them were identified. The other dead were said to have been members of the families of twenty-four farmers. No mention was made of the property damage.

Frost, in Navarro county, was the next hardest hit. The storm, which almost obliterated the town, took the lives of 25 residents.

Rehabilitation work at that place was started after Highway crews had cleared roads of debris and communication facilities had been restored.

Business men of Corsicana and Hillsboro and other cities met with those of the stricken town and offered any aid necessary in erecting temporary buildings for carrying on their businesses.

Red Cross workers also were on the scene treating the injured. The tornado that struck Frost also took three lives near Ennis, where some property damage also was reported.

Seven persons were killed at Bynum, Hill county, and other deaths were taken at San Antonio, where one was killed, and near West, where two were killed.

LITTLE DAMAGE HERE

Heavy gales which swept this section Tuesday and Tuesday night veered around Big Spring, causing no damage in this vicinity.

The sheet iron roof of Dinty Moore's Cafe, East Third Street, was torn away by the wind. That was the only damage reported here Tuesday.

The chief dispatcher of the Texas and Pacific Railway, stated that little damage in this section, had been reported to him. Although one of the worst sand storms in a number of years swept the county, a small rain settled the sand to some extent in the afternoon.

The shower was of short duration, however, and the precipitation was not enough to register at the Department of Agriculture farm experiment station, north of town. Total rainfall for the last two weeks is 2.55 inches, according to a report of the station.

DALLAS, Tex., May 7 (AP)—Sixty-

Arraignment Friday Expected; Charged In Jones' Death

Under grand jury indictment

charged with the murder of Ray Jones. C. C. Chambers, dirt contractor will be arraigned Friday morning, in all probability, it was announced this morning by District Judge Fritz R. Smith. The grand jury of the May term of court, in a partial report given Tuesday, indicted Chambers for the slaying of Jones, which occurred in the business district of Big Spring Saturday afternoon. Chambers surrendered after Jones was fatally shot and has been in the Howard County jail since Saturday.

WOODEN LEG FOR CANARY
ROCHESTER, Minn. (AP)—Rochester boasts a singing canary with a wooden leg. The bird met with an accident some time ago in which one of its legs was completely severed. Miss Foy Prenderghast, the owner, substituted a match stick.

ADORN'S AUTHORESS

WASHINGTON (AP)—Mrs. Mary Roberts Rinehart, who has for several months been in seclusion writing another novel, has appeared again in society, becoming gowned as usual.

Senate Rejects John Parker As Court Justice

WASHINGTON, May 7 (AP)—The senate today rejected John J. Parker as an associate justice of the supreme court. The vote was 41 to 39. The North Carolina judge missed confirmation after ten days of debate centering on his attitude toward organized labor and the negro. It was the first supreme court nomination to be rejected since 1894. The senate's decision left vacant the seat of the late Justice Sanford.

Country Club To Build House

Definite plans in regard to constructing a club house at the Big Spring Country Club, will be completed within 30 days, according to officials of the organization. The club house is part of an expansion and improvement program adopted by the organization some weeks ago. In all probability construction of the new club house will be started during the early part of June. At the present time work is going rapidly forward on the additional nine holes of the course. When completed the course will have 18 holes and will be one of the most attractive in West Texas.

used for the voice, and a fifth carried a 1257-cycle signal to keep the scanning disks in synchronization. The demonstration, together with the elaborate equipment, while giving an insight into what the future may hold for telephonic communication, must be considered from no standpoint other than experimental. Six persons were killed, many were injured and property damage estimated at more than \$500,000 was caused by a tornado which struck in Central and South Texas late yesterday, a partial check revealed today. The death list included the following: Twenty-five men, a woman and three children near Runge. Seven men, three women, four children and ten negroes near Frost. Two persons near Waco. A fifteen-year-old boy and a child near Ennis. Two men, two women and three negroes at Bynum. Two men at San Antonio and Bronson. At Kenedy Kenedy, ten miles from Runge, reported 12 deaths, but it was believed some, at least, of the fatalities there were accounted for in the Runge list. Striking yesterday afternoon, the tornado took the greatest toll of life at Frost, in East Central Texas and at Runge in South Central Texas. The force of the storm was felt in practically all sections of the state. Navarro, Hill, McLennan and Ellis Counties in Central Texas and Karnes in the southern part of the state bore the brunt of the storm. National guardsmen, firemen and volunteers were working early today in the debris at Frost where it was feared the death list would mount higher. Nearly every building in the town was demolished. Descending on Frost from a southerly direction, the tornado passed over a residential section, sailed over a schoolhouse and then razed practically every one of about 30 business houses. Telegraph, telephone and electric wires were torn. (Continued on page Six)

News Of Big Spring Society

F.U.N. Club Plans For Summer Months

Plans for the summer months were made by the F. U. N. Club at the regular meeting at the home of Margaret Bettle Saturday evening.

After the business session the members adjourned to the Chocolate Shop where refreshments were served to the following members: Lena Kyle, Margaret Bettle, Edna Mae Cochran, Veda Robinson, Emogene Runyan, Polly Webb, Maxine Thomas, Mary Gene Duberly, Cora Ashley, Mary Petty and Lenna Rose Black.

Federated Club Hears Mrs. J. B. Young

Mrs. J. B. Young, delegate to the district convention in Coleman recently, gave a report of the meeting to members of the club at the regular monthly session Tuesday afternoon.

This was the last meeting of the year and several decisions were reached by the group. It was decided to charge five dollars for the privilege of using the club for a bridge party as the cost to the federation always reached that in gas, lights, water and general wear and tear on the club house. It was also decided to donate the club benches now at the new wells for the new city park to be located at the old wells, according to Mrs. E. O. Ellington, president.

Last Central P. T. A. Meeting A Social One

The final meeting of the Central Ward P. T. A. will be a social one, according to Mrs. L. E. Eddy, president. The meeting will be held at the school house and will start at four o'clock in the afternoon. Installation of the new officers for the coming year will be held. Mrs. Eddy urges that all of the mothers be present at this the last meeting.

Big Spring Society In 1904

Miss Helen Gould of Philadelphia visited Big Spring in order to catch a glimpse of the ranch life in Texas. Hacks were waiting and carried the Gould party to the ranch of G. C. Caultie three miles west of town.

After the trip a reception was held for the party in the Y. M. C. A. auditorium. Among the reception and serving committees were: Mesdames J. D. Birdwell, J. B. Young, E. W. Chadwick, Jos. Fisher, E. H. Happel, W. H. Homan, F. W. Agnell and Miss Gertrude McIntyre.

B. Reagan has gone east to buy an immense line of holiday goods.

Mrs. J. W. Ward and Mrs. J. H. Rowley have been attending the Grand Chapter of the O. E. S.

J. B. Littler left Wednesday for Dallas on business. While there the Judge will take in the carnival.

It is rumored that Miss Gertie McIntyre leaves for St. Louis and the Fair Sunday morning.

Mrs. Hayes Stripling Will Have Ace High's

The regular meeting of the Ace High Bridge Club will meet with Mrs. Hayes Stripling tomorrow afternoon at her home on 2001 Young street.

R. N. A. Initiation Tomorrow Afternoon

The Blue Mountain Camp No. 727 of the Royal Neighbors of America will hold its regular meeting tomorrow afternoon at 2:30

o'clock in the I. O. O. F. hall. All members are requested to be present at this meeting as it is to be especially for initiation of new members.

Mrs. Duff Entertains Progressive Club

Using a color scheme of green and yellow in table appointments, decorations and refreshments, Mrs. Knory Duff was hostess to the members of the Progressive Bridge Club at her home on Bycamore street yesterday afternoon.

The tables were in the form of different spring flowers and at each place a "favor" was a bunch of sweet peas. The cut prizes were hand decorated trays filled with colored mints. They were won by the following: Mesdames J. Wade Johnson, L. C. Knight, Raymond Winn and W. F. Cushing.

High score for the club members went to Mrs. T. J. Higgins, for guests to Mrs. J. L. Moreland. Club members present were: Mesdames A. M. Underwood, Charles Davis, W. F. Stone, L. C. Knight, T. J. Higgins, O. T. Bell, Charles McCullar, Raymond Winn, and D. E. Crouser.

Guests were: Mesdames J. L. Moreland, W. G. Miller, H. G. Whitney, W. F. Cushing, H. S. Few, Ellen Gould and J. Wade Johnson.

Personally Speaking

Mr. and Mrs. W. W. Pendleton plan to leave this afternoon for Dallas to spend several days with relatives.

Judge Guy Rogers, former district judge at Wichita Falls and now a practicing attorney in that city, was a business visitor in Big Spring Monday evening and Tuesday. He expected to leave Tuesday afternoon for Fort Worth.

Opening Today At Ritz Theatre

President, John Ater; secretary, business agent, Granville Lea.

(Locals wishing their notices in this column are invited to bring the necessary data to The Herald office.)

Ebony Hired Gal, Arizona Mackey, Likes Her Trials

Arizona Mackey, Odessa negro, understands the word "trial" to mean "opportunity" or at least another chance, and nothing else.

She was one of twenty men and women caught in a roundup in the "flats" Tuesday and Tuesday night by city and county officers, and charged with vagrancy.

When brought before Justice of the Peace Cecil Collings this morning she plead her cause.

"You can plead guilty, or I can give you a trial, Arizona," said Collings.

"And I sure do appreciate that," Arizona, "I'll take the trial."

When informed that the "trial" would come up in perhaps two months and she would have to make a \$50 bond or reside in the county jail, the negro obtained a different slant at the meaning of the word.

Deserter Accosts City Cop; Will Soon Go To Fort Sill

A twenty-one year old youth, admitted deserter from the United States army, was in the county jail today, awaiting disposition of his case by federal authorities.

According to a telegram received today from H. F. Howie, city policeman, from Brig. Genl. Halstead Dorey, San Antonio, the youth is Private Clayton L. Williams, Motor Transport Company, second division, quartermaster train.

The youth accosted Howie on the street and asked if he wanted a deserter. He said he left San Antonio April 2.

Howie was asked to deliver the man to Fort Sill, Okla. Efforts are being made to deliver him to officials at Fort Bliss.

A \$50 reward is given by the government to officers arresting deserters.

Surprise for the kiddies!

CHILDREN love Rice Krispies at first sight! Golden bubbles of rice that pop and crackle when you pour on milk or cream. And what a flavor treat!

Enjoy Kellogg's Rice Krispies for breakfast, lunch or supper. With fruits or honey added. Use in candies. Sprinkle into soups. Made by Kellogg in Battle Creek, At grocers.

Kellogg's RICE KRISPIES

Eight-cylinder motorin at its LOWEST COST.

Eight-cylinder motorin with all its thrills is no longer expensive. De Soto has seen to that. The new De Soto (world's lowest-priced Eight) is today climbing into nation-wide popularity—because it is far and away the biggest achievement in value in eight-cylinder history. This beautiful new motor car is one of quality all the way through. There is no hint of price in its smartness, or in its richness of appointment—and it rises far above price in the delightful appeal of its performance. Take the wheel of a De Soto Straight Eight and feel the fascination of an eight-cylinder car that is easy to buy and economical to operate.

Seven Body Styles \$590 to \$675 PLYMOUTH \$590

In a debutante it's Charm

in a cigarette it's Taste

MANY FINE QUALITIES make up the "charm" that is Miss America's, but her genuine wholesomeness appeals most of all. IN A CIGARETTE, TOO, the real appeal is wholesomeness of taste. WITNESS CHESTERFIELD'S popularity, growing every day. No flash in the pan, but enduring popularity, earned by giving smokers a cigarette of better quality, richer aroma and finer fragrance, blended and cross-blended to just one end... "TASTE above everything".

We state it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price. LIGGETT & MYERS TOBACCO CO.

Closing

(Continued from Page One) other and they all agree with us," said Mrs. Meador.

The delegation was told by the commission that the petition filed last year was sent to the general offices of the railroad company and that no answer had been received in connection with the matter. The commission also told the visitors that the contract governing construction of the Benton viaduct provided that Goliad be closed, a condition upon which the railroad based its participation in the cost, its portion being 50 per cent.

"Not Safe" Mrs. Meador said she had never heard of a serious accident at the Goliad crossing and that she would much rather have her daughters cross there, with a flagman on duty, than to use Gregg street viaduct. She declared tramps, bums, negroes and Mexicans are continually congregated on the present viaduct.

The commission said the cost of a steel foot bridge over the tracks at Goliad would be prohibitive. "The closing of Goliad will help no one but the railroad. 'I'd like to see the city without a grade crossing but the two viaducts are to be, one as far east and the other as far west as possible to place them. It is very nice for the railroad to have its yards protected but it is going to cost us much

money and time," said Mrs. Meador. Mr. Nance said property of those residing between Gregg and Benton on the north side would decrease in value 50 per cent if Goliad is closed. "We've felt that where we could eliminate grade crossings we would be doing a good thing," said Mr. Inkman.

"It would be fine if the viaducts were in the right place," was the reply. Mayor Pickle, asking how much property and how many families would, in the opinion of the delegation, be affected by the closing of Goliad, was told there would be about 75 families directly affected.

At the close of the conference it was explained that the meeting of the commissioners was called and not a regular session, that nothing decisive could then be done about the matter and that the request would be carefully considered. The visitors were thanked for coming and invited to return.

DELEGATION LANDS CARTHAGE, Tunisia, May 6 (UP).—The American delegation to the Eucharistic Congress landed in this Moslem land today from the French liner Rochambeau. Tunis is crowded with pilgrims and priests of all nations of the catholic faith.

When a plant sleeps the leaves droop and lie closer together for warmth.

Widely Separated—

(Continued From Page Three) down by the wind, which was accompanied by a driving rain, accentuating the terror of the survivors.

Children Saved Sensing unusual danger when the swishing of the tornado sounded over the droning of school children at their recitations, Superintendent Harrison of the Frost public schools ordered the children to march to the basement. Hardly had the pupils reached the lower floor when the storm struck, tearing off the schoolhouse roof and scattering it all over the countryside.

Of three churches in the town one remained—the Presbyterian. The Baptist and Methodist churches were destroyed.

Employees and customers in the two Frost banks saved themselves when they ran into an open vault and closed the door. Both buildings were wrecked.

Of Frost's population of six hundred half were homeless. Streets were blocked with debris torn from wooden and brick buildings. Automobiles were tossed about like toys. One street was almost blocked with automobiles that had been in a dealers window.

To Hospitals Most of the white dead at Frost were taken to Hillsboro and Corsicana as fast as ambulances could reach them over black land roads.

One wrecked building was cleared and boxes of negroes, wrapped in sheets, were laid in rows to await burial.

Throughout the night, the Corsicana Salvation Army and women from that city served coffee and sandwiches to the rescue workers. Many of the dead in the southern part of the state were believed to be Mexican farmers. The twister struck a rich farming country midway between Nordheim and Runge and cut a path only 150 yards wide but 10 miles long. At the edge of Goliad County it lifted and passed out into the Gulf of Mexico.

The death-dealing wind apparently started at Spur and the Abilene district of West Texas, skipping to the Frost area, then landing more than 200 miles south near San Antonio. Another dip near Runge, and the tornado went out to sea.

Heavy, low hanging clouds darkened many cities in the state. A sandstorm and a snowstorm was reported in West Texas early in the afternoon. Several inches of rain fell in Central Texas, and the wind did much damage, no estimate of which could be obtained.

Communication with the southern part of the state was disrupted and today reports from Kenedy and Frost were slow coming in. Telephone and telegraph lines were being restored as quickly as possible but conditions remained under normal.

Residence windows were smashed and trees uprooted by a wind storm here last night. The damage was reported light.

Llano LLANO, Tex., May 7 (AP)—Some property damage was done by a small tornado that swept across the northeastern part of Llano County yesterday. No one was injured.

Sherman SHERMAN, Tex., May 7 (AP)—Small outbuildings in and near Sherman were wrecked, telegraph poles were blown down and general small damage resulted from a wind storm yesterday.

Burned by Lightning ARDMORE, Okla., May 7 (AP)—Mrs. L. McLennan, Ardmore, was painfully burned about the arms when lightning struck her house Tuesday afternoon. The house was badly damaged.

The lightning occurred during a heavy wind storm which uprooted trees here, and at other points in the section.

The fronts of three brick buildings at Milburn were blown off, and several residences at Tishomingo were badly damaged.

Small houses and roofs of business buildings at Wilson were damaged, and at Healdton the storm destroyed a dozen small unoccupied residences.

League Leaders Will Clash This Afternoon

We're getting up in this world. A few days ago we were classed as an ordinary writer of sports...

And the first day we have a chance to drop a few nickels in the tambourine, the game is called off on account of sand, rain, wind, wet grounds and cetera.

With Stanley Norman, departed conductor of this page, reposing on our left, we saw the Coden Oilers and the Bankers clash Monday afternoon.

This afternoon the Barbers and Richo will see to it that one or the other is removed from the 1,000 percent throne.

We notice by perusing the news sheets of the city that flowing streams make distinctive, that the San Angelo tracksters are headed for the national track meet at Chicago.

Orr, Odani, Jones, Brothers and Simpson might create quite a disturbance at the Chicago tournament.

On a blazing hot August day in 1928 at Stamford Bridge, I saw Lowe, in his second race of the afternoon, run a relay half mile in 1 minute and 31 seconds.

Of all the great American milers John Paul Jones probably was the one most comparable with Numl. Jones ended his racing career with the close of his college days at Cornell.

Cotton ginned in Alabama in 1929 totalled 1,307,372 bales.

HEBRONVILLE—High school to have new tennis court.

plays havoc with some of the boys. We would like to see a track team from this section of West Texas invading the national meet.

We had quite a discussion down here about whether the women ought to pay to see the amateur baseball games each afternoon.

The Richo-Barbers fray this afternoon should draw a fair gate, weather and a late dinner permitting.

SPORT SLANTS

ZALAN GOULD ASSOCIATED PRESS, SPORTS EDITOR

Who have been the greatest athletic performers at the five classic distances from 100 yards to one mile?

This question was debated with considerable fury during the championships incident to the Penn Relay Carnival and this department's report of the final consensus shows this line-up of super-talent:

100 yards—Arthur Duffey of Boston. 220 yards—Charles Paddock of Los Angeles.

The selection of this "Big Five" does not settle the argument; neither is it official, but the all-around weight of evidence over a testing period of time is strongly in its favor.

There have been and still are a flock of great sprinters, Borah and now Leland, Simpson, Wykor, Duffey, although his name and records were wiped from the A. A. U. record books because he professionalized himself after a record-breaking career, was the first sprinter to run an authentic 9.6 seconds for the 100.

Paddock, long a storm center, nevertheless possesses an unparalleled record for sprinting consistency. The erstwhile California Comet shared with Jackson Scholtz the distinction of racing in three Olympic meets.

Meredith takes the quarter-mile post by just about the unanimous vote of the assembled clans. His world's record of 47 2-5 seconds still stands.

The one-time University of Pennsylvania flier, now an assistant track coach at his alma mater, might also do as a nomination for the half-mile but he would prefer himself that this post go to the smooth-striding Briton, Douglas Lowe, two-time Olympic champion at 800 meters.

RICHCO MEETS BARBERS FOR LADDER MARK

Laundry And T. & P. Defer Game Set For Tuesday

The two teams remaining in the Big Spring Amateur Baseball League with a 1,000 percent rating will clash at 5:30 this afternoon, and when the battle is over one of the two aggregations will find itself a notch below the top rung.

The Barbers and Richo furnish the entertainment this afternoon. Barbers have played two games and copped twice, which Richo has played three and emerged unmarked.

As a result of the postponement of Tuesday's game between the Laundry and Texas and Pacific, the standing of the teams remained the same today. Tuesday's game was called off on account of unfavorable weather conditions after the manager of each of the teams agreed to work the game into a Sunday double-header at a later date.

Thursday Coden and the Texas and Pacific crew will meet. Coden broke into the percentage column Monday when they defeated the Bankers 5 and 0. Texas and Pacific and the Bankers are, at the present time in undisputed control of the cellar.

Teuton Heavy Makes Peace With Commish

NEW YORK, May 7, (AP)—Max Schmeling, Teuton heavyweight, finally has made his peace with the New York state athletic commission.

The solons of swat announce they are ready to grant Schmeling the license he needs to fight Jack Sharkey for the heavyweight championship in the Yankee stadium June 12 if the German will agree to three conditions:

1—That he defend his title in New York within a year if he defeats Sharkey. 2—That he meet an opponent approved by the commission. 3—That the match be staged by a promoter acceptable to the commission.

To all three of these conditions, Schmeling readily agreed during the progress of a three-hour session with the commissioners yesterday.

EXPORTERS BUFFS TIE IN FINALE

And Fray Ends As Darkness Sweeps Field

UNDATED TEXAS LEAGUE (By The Associated Press) The Beaumont Exporters and Houston Buffs battled to a 1 to 1 tie yesterday in a game called in the tenth because of darkness, but the fates of schedules today sent them their respective routes without being able to settle the difference.

Dallas' Steers, who went down before the Shreveport Sports 3 to 0 after a pitching duel between Dav Danforth and Verne Underhill, were chalked up today for a tilt at Houston with the Buffs.

Games scheduled yesterday for the Cats at Wichita Falls and for the Indians at Waco were postponed because of rain.

MAJOR LEAGUES

The Boston Red Sox already have gone a long way toward taking the role of "hard luck" team of the major leagues for the current season. The exact distance they have travelled is seven games out of the total of 15 they have played.

The Red Sox, with some fine pitching and often with good playing behind it, have lost these seven encounters by the margin of one run each. And there have been a few more games in which they have lost after seemingly having the victory sewed up as a result of late rallies.

The Chicago White Sox combined the two variety of trouble yesterday to nose out a 4 to 3 victory. Boston had a three run lead with Ed Morris doing a fine pitching job, then came the fifth inning, and a Chicago rally that drove Morris from the mound and produced four tallies.

In an effort to prevent such defeats, Manager Heinie Wagner engineered a player trade with the New York Yankees that sent Charlie Ruffing to New York in an even exchange for outfielder Eddie Durost.

The Yankees gave a good imitation of the Red Sox yesterday in losing a 7 to 6 decision to Cleveland. They lost a three run lead in the sixth inning, and then just kept pace with the runs a pair of homers produced for the Indians.

The Philadelphia Athletics won their sixth successive game, defeating the St. Louis Browns 4 to 1 behind the rine pitching of Rube Walberg. Washington held second place a half game behind by scoring three runs off Vic Sorrell in the first inning to beat Detroit, 5 to 4.

The abrupt end of Brooklyn's seven game winning streak was the

ONE SWEET THAT MOTHER CAN TRUST.

Dr. Pepper GOOD FOR LIFE! 5¢

AT 10-2 & 4 O'CLOCK

feature of the National League's afternoon. The Rbins could not score against Fred Blake while the Chicago Cubs did a little better against Dazzy Vance to win a 3 to 1 score.

The New York Giants went to an extreme of long distance hitting to take their second successive game from the Pittsburgh Pirates, 11 to 9. Four home runs in the first eight innings gave them a lead long enough to withstand Pittsburgh's six run rally in the eighth.

A pitching battle of veterans at Cincinnati saw Harry Siebold of the Boston Braves get the decision over Pete Donohue by a 4 to 3 count. Philadelphia and St. Louis were kept idle by rain.

Jodo Sect evangelists of Japan are distributing Buddhist sermons on phonograph records.

HOW'S your HEALTH

VARICOSE VEINS
Varicose veins are veins which
are dilated and tortuous. They
may develop in practically any part
of the body, but are most common
in the leg.

Varicose veins is a common con-
dition—disfiguring and some-
times dangerous. The danger lies
in the possible complications, such
as ulceration, clot formation and
chronic edema (swelling).

The condition is common to all
classes. Men as well as women are
affected, and those active are no
more immune than those whose oc-
cupations are sedentary.

All the causes of varicose veins
are not as yet fully known, but it is
agreed that in practically all in-
stances there is an obstruction or
interference with the normal flow
of blood in the veins.

In women, varicose veins are
sometimes caused by the pressure
due to a pregnant and hence en-
larged uterus. In men, tumors have
been known to produce the same
results. Abnormal vein structure,
heart disease and certain types of
work are known to contribute to
the production of varicose veins.

Because it is easier effectively to
treat varicose veins when they are
in the early stage, and because of
the danger of complications, they
ought not to be neglected.

Where the obstruction to the nor-
mal flow of blood in the veins is
easily to be found and just as
readily removed, varicose veins may
yield to simple medical measures,
in a fairly large number of cases,
however, it becomes necessary sur-
gically to remove or otherwise treat
the vein. Elastic stockings or
bandages will sometimes benefit
it affixed.

Murder at High Tide

SYNOPSIS: An atmosphere of "wrongness" is sensed by Allan Hunt, young antique dealer, the moment he arrives at Dan Parados' secluded estate on San Lucas Island. He notes that Parados, whose art collection Hunt is to appraise, terrifies his servants. Hunt is baffled when Parados himself, reputedly wicked man of wealth and hate, becomes mysteriously frightened upon finding a certain glass case empty. Parados, saying he won't be at dinner, sends Hunt to his room. From his window Hunt sees a girl prowling outside a room where the art is kept. Following her, he interrupts her as she cuts the canvas from the portrait of an elderly woman whom the girl resembles. Hunt is smitten by the girl's beauty. A door unexpectedly opens and the voice of a man calls.

CHAPTER 3
MADAMOISELLE EXPLAINS
A LITTLE egg-shaped man with toward us from the library door. He had an abundant blond mustache, and his sparkling china-blue eyes imparted a vivacious air to his physical attributes. Parados, I recalled, had mentioned a M. Fliques. "No harm has been done to the picture," I said hastily. "No harm was intended it," the little man said sternly. "Mademoiselle will explain, yes?"

It was clear that Mademoiselle was unequal to explain anything when. "I'm sure it's not as bad as it looks," I said.

"Monsieur is generous," the little man chuckled. "It is not possible you are that M. Morrison of whom M. Parados informed me, no?"

"I am Allan Hunt, the junior partner," I told him curtly. "Morrison is ill."

"I am astonished!" he exclaimed. "But come! Mademoiselle will explain."

"I was going to take the portrait, of course," the girl said quietly. "You might as well tell Mr. Parados."

"M. Parados—um," the little man muttered. "Monsieur has how you say?—deputed me to act for him. Mademoiselle will proceed, yes?"

"She was moving toward the library door when he ran nimbly in front of her."

"Non, non," he commanded. "You will explain to Anatole Fliques."

"And who is Anatole Fliques?" "Est-ce possible? Mademoiselle, said he, 'France has her Richelieu, her Napoleon, and her Anatole Fliques.'"

"Who was this absurd little man? And if Parados was still in his library why didn't he come out?"

"You must tell me why you declare that portrait, mademoiselle." "It happens to be mine."

"Mon Dieu—that old lady! Come, now!"

"She was my grandmother," the girl said. "What is your name? Fliques thundered."

Mademoiselle smiled devastatingly. "Caroline Brent, monsieur," she said. "California has her climate, her Hollywood, and her Caroline Brent, you know."

Caroline Brent indeed! "The grandmere is mademoiselle's but not the portrait."

"The portrait, too," Caroline said. "Eh? Fliques' exclamation was sharp. 'I do not comprehend.'"

"I don't complain—understand that," Caroline's eyes sought mine and I nodded. "I don't complain that Mr. Parados got the collection. It was for sale—he bought it—it is

Coffee, Stephens To Attend Meeting Of Insurance Men

Lilburn Coffee, who has held a contract with Kansas City Life since December 15, 1922, and Fred Stephens, who has held a contract with the same company since April 27, 1925, will attend the 25th anniversary meeting of the O. Sam. Cummings Agency, Texas managers, at Dallas, Monday, May 12.

As a token of appreciation, Mr. Cummings has had a Special Service Emblem designed. One of these will be presented to each of 165 Texas men and women who have been continuously connected with Kansas City Life for five to twenty-five years.

Many of the company executives will be in Dallas upon the occasion of the Texas Agency's Silver Anniversary celebration, and President J. B. Reynolds will personally present each man with his service emblem—including Mr. F. Stephens, sometime during the afternoon.

The meeting at Dallas will be dedicated as a memorial to the late Orville Thorp who came to Texas in the interest of Kansas City Life Insurance Company in 1905. In the ensuing 23 years he was successful in building the largest life insurance agency ever built in that period of time. Following the passing of Mr. Thorp, on January 1st, 1929, O. Sam Cummings was named as successor in Texas. The fact that during the past two years Kansas City Life has written \$30,000,000.00 in the state is evidence that the same high standards which were set up by the founder of the agency are being carried forward.

The Texas agency of Kansas City Life is the largest life insurance state agency in the entire South, having over \$92,000,000.00 of business in force, distributed among over 40,000 policy holders. The Texas agency completely occupies the O. Sam Cummings Agency Building, the only home office owned and operated by any life in-

Bleeding Gums Healed
The sight of sore gums is sickening. Reliable dentists often report the successful use of Leto's Pyorrhoea Remedy on their very worst cases. If you will get a bottle and use as directed, druggists will return money if it fails. At Cunningham and Phillips—adv.

Wolf And Dog Rodeo Location Fixed
Location for the dog and wolf rodeo to be staged here Sunday, May 18, preliminary to the oil jubilee July 3, 4 and 5, has been selected just south of the Big Spring airport, according to Hackberry Slim Johnson, who is managing the program.
Mr. Johnson has arranged for 40 wolves fresh from large ranches in extreme western part of the state. None of the animals to be used in matching speed and alertness with dogs brought here from all sections of the country, have been raised in captivity. They are being trapped now by a government trapper and will be sent to Big Spring for the rodeo.
Preliminary showing of the dog and wolf derby is being staged

17 Civil Suits Are Dismissed

A total of 17 civil suits were wiped from the Howard county district court docket Monday and Tuesday through dismissal. Several suits were dismissed on motion of plaintiff counsel while others were dismissed by Fritz R. Smith, district judge, because they had been pending several terms.

Suits dismissed included the following actions:
L. C. Hicks vs. Retha Lee Gordon Hicks.
West Texas National Bank vs. R. L. Warren.
Naoma Phillips vs. G. J. Phillips.
Ruth Varney vs. J. R. Varney.
Profirio Perez vs. Pentorcha Perez.

James L. Stone vs. Bertha Stone.
Ludisa Diaz Rorgel vs. Berrorro Diaz.
R. L. Alexander vs. O. B. Hoover et al.
B. F. Hollis vs. B. F. Walker et al.
Beatrice Logan vs. James E. Logan.
J. A. Morris vs. Charlie Morse and Anna Morse.
Vera Owens vs. L. C. Owens.
W. F. Elliott vs. Lina L. Elliott.
Clayde E. Thomas vs. George Barse.
J. W. Cecil vs. Nadine Cecil.
Dorothy Carrigan vs. W. G. Carrigan.
Pearl Austin vs. C. F. Austin.
Remainder of the civil docket is being tried as rapidly as possible. Indications are that first indictments from the grand jury will probably be returned Thursday or Friday.

The grand jury impaneled Monday was considering evidence in alleged felony cases with the assistance of George Mahon, district attorney and James Little, county attorney.

Large to feel out sentiment of Big Spring sportsmen to see if they enjoy the exhibition. If results are satisfactory, it will be staged again during the oil men's jubilee.

New Connections By Planes Offered

FORT WORTH, May 7.—Airtline connections with the Dallas-Cleveland service of the American Airways, Inc., providing speedy service to Detroit and to important cities of Kansas and Colorado have been announced by Victor F. Grima, general traffic manager of the Southern Air Transport division.

Through connection with the Stout Air Services at Chicago, passengers leaving Dallas or Fort Worth in the morning, Tulsa by midmorning, or Kansas City or St. Louis at noon can be in Detroit at 4 o'clock p. m. of the same day.

At St. Louis or Kansas City, connections are available over the United States Airways to Boonville, Salina, Hays, Goodland and Denver. Arrival in Denver is scheduled for 4 o'clock p. m. (Mountain Time.)

Grima also called attention to a change in the schedule of the New Central railroad which puts the traveler over the air-rail route from Dallas to Cleveland and New York into the latter city 45 minutes earlier than formerly. Arrival in New York is now slated for 9:05 a. m. instead of 9:50.

Hay Meadow Was Ruined By Oil, Say Plaintiffs In Court

What is said to be one of the oldest hay meadows in Howard County was the center of a legal controversy this morning in the damage suit of Lillie Opal Sides et al against Cosden and Company, Inc.

The plaintiffs allege in their petition that a tract of land, fifteen acres, belonging to them, was ruined when waste oil, minerals and salt from the Cosden refinery was washed down stream and deposited in the meadow.

The land is located approximately one mile southeast of the Cosden refinery.

The plaintiffs seek damages of \$100 per acre, of \$1,500.

Workers Conference Dismissed At Noon

Due to the severity of the sandstorm the Workers Conference of the Big Spring Baptist Association meeting with the Salem church, 11 miles north of Big Spring was concluded at noon yesterday.

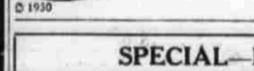

Those on the program as rendered in the forenoon were: Rev. I. D. Hull who gave the devotional, Missionary George Hamilton who spoke on "Survey of Our Mission Territory," Rev. L. B. Owen, who spoke on "The Needs of A Revival."

Don't take a chance! Combine the mufin ingredients a little at a time

What's true in mixing mufin batter is true in roasting coffee. Hills Bros. permit only a few pounds of coffee at a time to pass through the roasters by a continuous process. Every berry is roasted to perfection and a uniform flavor is produced.

Fresh from the original vacuum pack. Easily opened with the key.
