### Fiesta del Concho **Events Announced**

San Angelo's Fiesta del Concho June 18-26 is one of the most complete packages of entertainment for every taste and type, for the young and old, according to Wes Pittman, Fiesta del Concho general chairman.

The event, which requires over 1500 people to organize, takes place over a nine day period in-cluding two weekends. Women wear fragrance for many reasons: to feel feminine, secure, sensuous, romantic, luxurious and beautiful. Fragrance is no longer put away for special occasions, it has now become a part of a woman's total image.

FOR TODAY'S WOMAN, being beautiful is being yourself.

Today's woman seems much more sophisticated in her choice of fragrance and much more willing to experiment with a variety of scents. No longer emulating some Hollywood-star ideal, she is secure enough to want to be herself. One fragrance many

women say suits an individual's personality is a blend of exotic floras entwined with rich wood notes called Candid Sheer Fragrance. It's long-lasting, with the vibrance of jasmine, tuberose and ylang-ylang, underscored by nuances of sandalwood, oak-moss and vertiver. Available through Avon representatives in 1.8 ounce spray and 2 ounce splash bottles, Candid Sheer Fragrance is considered a fragrance for today's woman.

Scotland is a small country, but deer forests cover more than 2 1/2 million acres. They are now the happy hunting ground of rich visitors from America, Japan, France and Germany. Their ambition is to bag a royal stag. Teacher's Scotch Informa-

SWEDENBORG-LIFE AND TEACHING

"I plunge my hands deep into my large Braille volumes containing Swedenborg's teachings, and withdraw them full of secrets of the spiritual world..."

Helen Keller Frequently ranked with Plato, Shakespeare, and Goethe, Emanuel Swedenborg (1688-1772), was an intellec-tual titan. He spent his life in research and ultimately this led him to a search for the seat of the soul. Beginning with the natural sciences, he achieved renown in the fields of geology, physiology, psychology, and philosophy. Following these investigations which gained him prominence, he renounced all other pursuits and dedicated his last 27 years to the study of the Scriptures-searching out

their deeper content. In SWEDENBORG, LIFE AND TEACHING, the most widely read biography of the "Northern Plato," the reader will become acquainted with the remarkable accomplishments of one of history's most unique and controversial figures-scientist, inventor, statesman, philosopher,

For over 200 years Swedenborg has exercised considerable influence on creative minds in many fields. Figures as diverse as Johnny Appleseed, Emerson, Blake, the Brownings, and Yeats were students of Swedenborg's thought. In the current reassessment of theology, Swedenborg's incisive interpretation of spiritual values has great significance.

## Mixes With Care

Gardeners often purchase a combination of fertilizer and herbicide (weed killer) because it is so easy to use and saves extra work. But such a mixture can also cause lawn and garden problems if not used

The problem with a fertilizerweed killer mix is that the user often applies the material without regarding the fact that a weed killer must be used much more carefully than fertilizer. Weed killers can be especially

damaging if misused since they will kill trees, shrubs and vines as well as weeds.
