UNIVERSITY LAND BOYCOTT CHARGED

HOME TOWN TALK

By Beddy

THAT THE lines are being drawn tighter and tighter and that one of the most turbulent rail wars in southwestern history may be brewing between the Texas & Pacific and the Santa Fe becomes more and more probable.

The other day an L.C.C. examiner recommended that the T&P application to extend the Abilene & Southern from Ballinger to San Angelo, paralleling the existing Santa Fe line be granted but that there first be an attempt to have the Santa Fe grant full joint trackage right to the T&P for use of its line.

THE SANTA FE'S answer was to announce that it would close the "Sweetwater gate" to through freight consigned to San Angelo and other points, which now is transferred from the T&P to the Santa Fe at Sweetwater. This will, it is declared, materially delay shipments from the east to San Angelo, necessitating the "Santa Fe all the way" routing to the Tom Green county city, which may mean most of it must go by way of Temple. Cost to shippers, it is declared, also will be increased.

The San Angelo Board of City Development backed the Texas & Pacific application.

A WARNING THAT Texas cotton will lose out in the world market unless its staple is improved was sounded the other day by W. K. Jones, Liverpool representative of the American Cotton Cooperative Association.

Jones said the Texas staple was getting worse each year, while Brazil, South Africa, Egypt and Peru were producing better cotton. He regarded the federal farm board's activities as a step toward solving the cotton farmer's problems.

Numerous counties are forming organizations to promote use of pure planting seed in an effort to produce staple as long as it is practical to attempt in view of local climatic conditions.

Howard was the first county in this section of the state to take definite action. A carlot of pure bred seed was received several months ago. From it farmers identified with the Cooperative Gln & Supply company, as well as others, will produce pure seed the coming season in quantities which it is hoped will be sufficient to enable them to use the pure seed exclusively the next season.

SIGNING THE bill increasing from \$75,000,000 to \$125,000,000 the appropriation for federal expenditures in highway construction during the next three years President Hoover expressed pleasure that the sum had been raised.

This new law appropriates funds exceeding fifty millions annually the appropriations for any other year.

THE authorization by congress of \$75,000,000 to \$125,000,000 for the fiscal years 1931, 1932 and 1933, with the resulting increase in state expenditures for roads, it is estimated, will mean an increase in the nation's road building program of approximately \$120,000,000 per year.

Howard is one of the few counties in Texas having two cardinal state highways traversing it in four directions.

Oh! For A Slice Into The Rough

Meeting Favors Selling Airport Bonds

HARMONY EFFECTED IN CONFAB

6 Per Cent Issue Is Designed To Effect Improvements

A committee of five citizens was appointed Friday night at a meeting of Big Spring Airport stockholders to sell \$30,000 worth of six per cent bonds to provide funds for enlarging and improving the flying field, to make it eligible for department of commerce A-1-A rating.

Joyce Fisher, Clyde Thomas, J. B. Pickle, M. L. Tinsley and L. L. Bugz were named members of the committee to arrange sale of bonds.

Part of the money derived from sale of bonds will be used in purchasing an additional 50 acres of property to give the air port a total area of 280 acres as required for the higher rating sought.

Approximately \$65,000 has been invested in the Big Spring Airport providing land, buildings and equipment. Government aeronautical inspectors and advisors who have visited Big Spring recently have furnished an approximate outline of Department of Commerce requirements for A-1-A rating and it is to meet these standards that stockholders voted to issue \$30,000 in bonds against the property.

The meeting Friday night started out in rather stormy fashion, but complete harmony reigned before it had closed. Individuals opposed to the plan of issuing bonds were won to the cause of securing the highest possible rating for the airport and expressed a desire not only to assist with the sale of bonds, but to invest individually in the program.

Van Swearingen Plan Attacked

WASHINGTON, April 5 (AP)—Unification of railroads into vast interlocking systems without government supervision, through the acquisition of stock by holding companies dominated by powerful transportation magnates, was described today by Joseph B. Eastman, member of the Interstate Commerce Commission.

Testifying as the first witness in the investigation of railroad holding and investment trust companies by the house interstate commerce committee, Eastman said the Van Swearingen interests of Cleveland and W. W. Atterbury, president of the Pennsylvania railroad were two of the dominating factors in the consolidation move.

The Allegheny Corporation, controlled by Van Swearingen interests and the Pennroad Corporation, a holding company directed by officers of the Pennsylvania Railroad were cited as having acquired substantial holdings in numerous railroad lines for purposes of control.

The situation was regarded as dangerous by the commission, the witness said, adding that the result might be the loss of jurisdiction by the commission over consolidations of carriers under a government plan.

While the commission has jurisdiction over outright mergers of rail lines, he explained, the transportation act of 1920, under which the commission operates, does not apply to acquisition of stock by holding companies.

Asked by committee members if the stock purchases by the Pennroad and other holding companies were contrary to the public interest, Eastman said some negotiations "may involve violations of the Clayton Act." The situation is being looked into by the commission.

The Weather

West Texas—Generally fair Sunday; Monday partly cloudy. East Texas—Fair, colder in the northeast and southwest portions Sunday; Monday, increasing cloudiness. Light to moderate shifting winds on the coast.

Texas Queen

Students at Texas Technological College are paying homage to the dazzling beauty of Mary Chauvauz, chosen queen of the freshman class to reign over their annual dance. It looks like those freshmen are real judges.

Bristow's Death Threatened Unless Troops Retreat

MEXICO CITY, April 5 (AP)—A dispatch from Tepic to Excelsior today said the situation resulting from the kidnaping of J. E. Bristow, Texas oil man, who has been held captive by bandits near Tepic for three weeks, was becoming increasingly serious.

While several hundred federal troops are gradually closing in on the small band of ten to 15 brigands holding Bristow, the bandits have declared that unless the government forces are recalled the prisoner will be executed.

GRASS FIRE STARTS NEAR UNCONQUERED OKLAHOMA WELL

Fifty Men Succeed In Extinguishing New Menace

OKLAHOMA CITY, April 5 (AP)—The grim menace of fire appeared late this afternoon in the path of the wild Mary Sudik Number 1 gusher's gently sifting spray when prairie grass caught fire two miles south of the well.

State fire patrols ordered the crew that for ten days has been working attempts to choke the well in away from their work while fire wagons that for days have been stationed throughout the Oklahoma City field, scurried to the scene of the blaze, which fortunately was whipped leeward from the gusher by a stiff north wind.

The fire quickly was extinguished by a force of fifty men recruited from the danger zone, under surveillance of the state fire marshal. The blaze broke out at the very edge of the low-lying banks of white gas that hang in the region of the well. Grim-faced patrolmen passed the word of the impending danger along the tightly guarded lines and workers at the well retreated to a safe distance northward until ordered back to work.

Had the fire burst out a short distance farther north it probably would have ignited the gas banks, ripe for combustion, and darted back toward the well like a flash of lightning. The main stream of the well is too thick for oxygen content, field engineers explained; it is the oxygenized gas banks that hold the greatest potential fire hazard.

The renewed work of taming the well made little progress today as the workmen were merely clearing away the debris and placing a new derrick floor in readiness for continued attempts to cap the gusher, which broke loose last night four

Winslow, Collins, Faw Elected

DRUG MEN IN SESSION

Penland And Merrell Review Condition Of Business

An address on business conditions throughout the country and more especially Texas delivered by J. M. Penland, president of the Southwestern Drug Corporation featured the regular bi-weekly meeting of the Howard County Druggists Association held Friday evening in the Douglass Hotel Coffee Shop.

Mr. Penland told local and visiting druggists that unless business had decreased more than 25 per cent the past few months as compared with corresponding months during 1929 there is no cause for alarm. He said business is increasing daily and that present indications point to a complete return to normalcy within the next few months.

C. E. Merrell, president of the Fort Worth division of the Southwestern Drug Corporation, attended the meeting and gave his impressions of Texas and the Southwest. Mr. Merrell has recently moved to Texas from northern Indiana where he was born and reared. He told druggists that Texas and the southwest is more prosperous and more active than any other part of the country he has had opportunity to investigate recently.

Among the 22 druggists present were visitors from Fort Worth, Coahoma, Stanton and Fort Worth. The list of visitors included Charlie Cole and J. T. Howard of Fort Worth, Joe Hall and Henry Orr of Stanton and Jess Collins of Coahoma.

A. F. L. ATTACKS PARKER WASHINGTON, April 5 (AP)—William Green, president of the American Federation of Labor, told a senate judiciary sub-committee today that all organized labor is united in opposition to confirmation of Judge John J. Parker of North Carolina as an associate justice of the supreme court.

200 Ballots Cast For Trustees Of Schools

Two hundred residents of the Big Spring Independent School district, a larger number than had been polled in a similar election here in years, Saturday elected J. S. Winslow, J. Bryan Collins and H. S. Faw to two-year terms on the board of trustees.

The vote: J. S. Winslow, 152; J. B. Collins, 139; H. S. Faw, 124; Sam Weaver, 97; Joyce Fisher, 84.

Mr. Winslow is serving his first term on the board. Messrs. Collins and Faw will take the places occupied by Messrs. Weaver and Fisher.

The heavier than usual vote was not precipitated by any special issues and no organized campaign for any of the candidates had been clearly apparent. It was an unusual election in that incumbents were defeated but neither because of any differences on policy or for any personal reasons.

The election was held under direction of Mrs. Della K. Agnell, assisted by Mrs. C. T. Tucker and Mrs. W. H. Watts.

Members of the board whose terms will not expire until next April are Dr. E. O. Ellington, Mrs. Fox Stripling, L. S. Patterson and Mrs. W. R. Purser.

COAHOMA, April 5.—Residents of the Coahoma Independent school district today chose four trustees: Leroy Echols, A. E. Thompson, J. C. Adams and Lem Davis.

HOLMES DEATH TRIAL SET STINNETT, Texas, April 5 (AP)—Charged with the assassination of District Attorney John A. Holmes at Borger, Sam Jones today faced trial on May 19. Jones was arraigned yesterday. Holmes was shot by an unidentified assailant last Sept. 14.

RAIL MEN TO CONVENE

Biennial Legislative Parley Will Be Invited To This City

Delegates representing local lodges of the nationally affiliated railway employees' organizations will attend the biennial joint convention of the legislative division of those organizations in Texas which will convene in Greenville Tuesday.

A representative of the Big Spring Chamber of Commerce also will attend to join the local lodge delegates in inviting the convention to hold its 1932 convention here.

Nixon-Pierce Rites Performed

Miss Clara Mae Pierce and Thomas Everett Nixon were married at Carlsbad, New Mexico last Saturday, March 29.

Mrs. Nixon has lived in Big Spring for the past four years. She has been employed as office nurse for Dr. Parmlay and Harris for quite some time. Mr. Nixon is a member of the Congress firm in Big Spring and is well known here although his home is in Little Rock, Ark.

Mr. and Mrs. Nixon will make their home at 402 State st.

Held For Murder

Because he talked too much, Dr. A. J. Bass, retired Columbia, Mo., dentist is being held on a charge of slaying William B. Fearman, automobile mechanic. It is alleged the slaying was the outcome of a plot to collect \$25,000 insurance which Fearman carried payable to his estate and assigned to the dentist. The doctor was arrested after he insisted the slain man was William Folta, missing Martinsburg, Mo., man.

He said he had been constrained to conclude that the oil fraternity is dominating this state, that it has assumed the arrogant attitude it is above the laws, and it is almost boastfully asserting that it will secure the oil resources owned by the state, as well as by citizens, at its own price.

The time has arrived when these gentlemen should be disciplined, and some of them at least ought to be branded and treated as the highjackers they are, Crane wrote the governor.

He said the oil companies had refused to bid on leases where more than one-eighth royalty was reserved. The state had refused to lease until it proved the royalty was less than one-sixth royalty.

He declared the board members had arrived at a fixed opinion that "an agreement or understanding exists between the oil companies, both major and minor, to refrain from submitting bids for oil and gas in university lands where a minimum royalty of more than one-eighth is reserved."

Crane urged Governor Moody to use the power of his office "to ascertain all the facts, to see that, if we are correct in our deductions, the heaviest penalties of the law be imposed upon the offenders." He said such a combine as complained of was in violation of the anti-trust laws.

Howard County Man Bitten By Rattler

Reference to rattlesnake bite may mean anything from rotten bootleg liquor to an actual bite of a poisonous reptile sinking his venom laden fangs into human flesh, but to M. O. Cook, 23, a resident of southeastern Howard county, it meant the real thing Saturday morning.

Mr. Cook was engaged in the gentle art of poisoning prairie dogs on his property about 6 miles southeast of Big Spring Saturday morning when a rattler struck him on the right leg. He was rushed to a local hospital where he was reported doing well Saturday night. It was the first rattlesnake bite case reported in Howard county this spring.

ONE KILLED, ONE INJURED AT MARLIN

MARLIN, Texas, April 5 (AP)—W. C. McElven, 40, of Sulphur, Louisiana, is dead, and Miss Maude Munroe, 23, of Marlin is under hospital treatment, as result of collision of car in which they were riding at 9 p. m. Friday with a parked truck.

Heads Count, Not The Feet

WATEKLOO, Iowa, April 5 (AP)—It's the head that counts in figuring the census; the feet are immaterial.

A census enumerator, visiting a farm which straddles the Black Hawk and Benton county line, found that the farmer's bed was so placed that he slept in both counties.

His head slept on a pillow in Black Hawk, but his feet projected into Benton county. The enumerator, puzzled, thumbed through his rule book until he read that heads shall be counted in their usual place of abode. The farmer was listed officially as a Black Hawk county resident.

CIVILIZATION WELCOMES COMMANDER BYRD

R. S. Black, mayor of Dunedin, New Zealand, is shown in this Associated Press copyrighted telephoto extending the welcome of all of civilization to Commander Richard Byrd on his return from two years in the Antarctic. These pictures, the first to arrive in this country, were flown from the Panama canal to New York by Lee Schenck in one of the fastest airplanes in the world.

OIL GROUPS CHARGED BY DALLASITE

Seek Less Than One-Sixth Royalty, He Says

AUSTIN, April 5 (AP)—Texas oil companies, big and little, have entered a combine to boycott University of Texas lands in West Texas in an effort to force the state into accepting less than one-sixth royalty of production, Edward Crane of Dallas, member of the land leasing board, charged in a letter to Governor Moody today.

He said he had been constrained to conclude that the oil fraternity is dominating this state, that it has assumed the arrogant attitude it is above the laws, and it is almost boastfully asserting that it will secure the oil resources owned by the state, as well as by citizens, at its own price.

The time has arrived when these gentlemen should be disciplined, and some of them at least ought to be branded and treated as the highjackers they are, Crane wrote the governor.

He said the oil companies had refused to bid on leases where more than one-eighth royalty was reserved. The state had refused to lease until it proved the royalty was less than one-sixth royalty.

He declared the board members had arrived at a fixed opinion that "an agreement or understanding exists between the oil companies, both major and minor, to refrain from submitting bids for oil and gas in university lands where a minimum royalty of more than one-eighth is reserved."

Crane urged Governor Moody to use the power of his office "to ascertain all the facts, to see that, if we are correct in our deductions, the heaviest penalties of the law be imposed upon the offenders." He said such a combine as complained of was in violation of the anti-trust laws.

The Store That Quality Built

SINCLAIR, MAKING INITIAL ENTRY INTO REGION, TO SINK EASTERN HOWARD WILDCAT

Plans made by the Sinclair Oil Company to drill a rank wildcat oil well in eastern Howard county, which will be the company's first in West Texas, definite production tests on two other producers and continued activity in the Coffey-Phillips pool of northern Glasscock county were high spots in the past week's oil development that maintained the general average in this section.

Sinclair Oil Company's invasion of the Permian Basin with plans for a test in eastern Howard county was the first announcement of a well in that section for months. The well will be drilled on the Dodge estate and will be located 2,310 feet from the north and west lines of section 11, block 33, township 1 south, T. & P. Ry. Co. survey. Tools were to be moved to the location Monday and construction of a rig started immediately. The fact that Sinclair owns leases in that particular vicinity that are on the verge of expiring was advanced as the reason for starting active work.

Pure Oil Company had completed slush pits and a cellar for its No. 2 Scribner in southern Howard county. The well will be located 330 feet from the south and east lines of section 4, block 32, township 2 south, T. & P. Ry. Co. survey and will be an east offset to the company's lone producer in the section.

Continental Oil Company's No. 1 Hart Phillips, a well that was carried as a completion last week, was given an official test during the past week and rated a total potential of 2,040 barrels during 24 hours. Pay was topped in the well at 2,127 feet and drilled to a total depth of 2,316 feet. The last and largest increase in production was encountered from 2,312 to 2,314 feet. No. 1 Phillips is located 990 feet from the west line and 330 feet from the north line of section 24, block 33, township 2 south, T. & P. Ry. Co. survey.

Schermerhorn Oil Company's No. 3 Kohn, Ramsey and Abrams, a north offset to Continental's No. 1 Phillips and 990 feet from the west line and 330 feet from the south line of section 13, block 33, township 2 south, T. & P. Ry. Co. survey, rated a potential capacity of 1,777 barrels by actual test conducted by E. E. Andrews, proration umpire. Pay was topped in the well at 2,120 feet and was drilled to a total depth of 2,385 feet. Both wells gauged this week will be permitted to produce approximately 20 per cent of their potential.

California In Line
 The next well expected to be completed in the Coffey-Phillips pool in California Oil Company's No. 1 Baker, which set and cemented 6 5/8 inch casing at a total depth of 1,150 feet, which is believed to be the top of lime. No. 1 Baker is located 2,310 feet from the south line and 990 feet from the west line of section 23, township 8 south, T. & P. Ry. Co. survey. The well will force Firby, Atlantic and others to drill two offsets on the north, one on the Phillips lease and one on the Baker lease, but the lease owners have not started drilling operations, it was reported in Big Spring.

However, Kirby Oil Company and others did spud their No. 3 Phillips which is located 1,650 feet south and 2,310 feet east of the northwest corner of section 23, block 33, township 2 south, T. & P. Ry. Co. survey. The well requires an east offset by Schermerhorn Oil Company, but that interest had not started drilling operations as the week closed. Kirby's well was drilling below 650 feet Saturday.

Sun Oil Company spudded its No. 5 Phillips, which is located 1,365 feet from the south and east lines of section 14, block 33, township 2 south, T. & P. Ry. Co. survey, after a delay of two weeks erecting the rig, rigging up and extending a power line from one of the company's four producing wells on the same lease.

New Location
 Lion Oil & Refining Company dropped down in the southern half of section 22, block 33, township 2 south in the Coffey-Phillips pool and staked location for its No. B-1 Coffee, 2,310 feet from the south and west lines. The well will be a further south and western extension to the field if a producer is developed. Drilling is to start on the well immediately.

Timberlake and Snyder's No. 1 Meeks, the most southwestern drilling well in Glasscock county, was reported drilling below 2,560 feet in red rock with traces of asphaltite. The well has been making slow progress for several weeks, but was showing increased drilling speed during recent reports. No. 1 Meeks is located 2,310 feet west and 1,600 feet north of the southeast corner of section 7, block 34, township 2 south, T. & P. Ry. Co. survey.

Cotton Declares Mexican Influx Already Reduced

WASHINGTON, April 5.—Acting Secretary Cotton of the state department testified before a senate agriculture committee today that stringent enforcement of existing laws has greatly reduced Mexican immigration since the beginning of this administration.

The Harris bill to extend quota restrictions to immigrants from Central and South America countries is the pending order of business in the senate.

Cotton named the remedy for smuggling aliens from Mexico as "enforcement rather than legislation." His counsel was given in connection with the committee's hearing on a proposal by Senator McNary, republican, Oregon, to investigate labor supplies for agriculture.

Need for greater farm labor supplies, particularly for perishable produce, has been linked with fundamental immigration problems by witnesses before the committee.

A bill proposing to limit immigration from Central and South America countries by placing them under quota restrictions introduced by Senator Harris, democrat, Georgia, will be taken up Monday. Chairman McNary of the agricultural committee, who contends his measure proposing investigation of labor supply can and should be settled without consideration of immigration continued the hearings until next week. He said

views of organized labor would be sought.
 Chester Gray, Washington representative of the American Farm Bureau Federation, and Frederic Breckman, representing the National Grange, endorsed the McNary proposal today, testifying that perishable produce farmers must have cheap labor to continue their industries.

Representative Free, republican California, told the committee the farmers of the southwest must have cheap foreign labor.

Talk On Reading Scheduled Monday

Henry L. Cech, representing the National Association of Book Publishers, will be at Big Spring high school bond and will be heard in a talk on reading.

The public is invited to attend. Arrangements as to the time and place had not been completed last night. Those wishing to hear Mr. Cech are asked to call the high school Monday morning.

His talks are designed to bring together those in the community who are alive to the importance of arousing book-interest.

BUILDING PACE QUICKENS FOR WEEK TO REACH \$20,645 TOTAL

Building in Big Spring quickened its pace during the past week with permits issued from the city secretary's office totaling \$20,645 as compared with \$5,248.53 which was the total issued in permits issued the previous week.

The year's total was boosted to \$131,507.04.

The largest single permit issued during the past six days period went to Mary Byrne for construction of a \$10,000 filling station on the corner of Third and Gregg streets. Other permits issued during the week, location of the proposed work, and the approximate cost of each job, follows:

W. E. Cavnar, moving house from 605 Johnson to 500 Johnson, \$100.

O. Vaughan, frame and stucco house on the corner of Sixth and Temperance streets, \$2,000.

B. A. Reagan, garage at 409 West Eighth street, \$75.

V. W. Latson, frame building on lot 1, block 8, Washington place, \$3,000.

C. O. Smith for the King Chevrolet Company, 10 foot fence on lot 3, block 19, Johnson street, \$150.

Gilbert Edens, frame and stucco on Eighth and Johnson streets, \$3,000.

W. S. Bell, repairs to barn, 411 East First street, \$20.

E. P. Womack, repairs to building on lot 6, block 23, McDowell Heights, \$300.

John Anderson, frame building at 409 Gollad, \$2,000.

Engineer Bob Nonnally has resumed duty on the Baird switch engine.

Engineer Abbott has been holding temporary vacancy on the El Paso switch engine, in place of Engineer R. E. Moseley. The position is now a permanent vacancy.

Fireman M. E. Anderson has taken on the east end turn vacating a work train between Baird and Big Spring.

Fireman E. P. Sullivan has taken a temporary vacancy on the east end work train in place of M. E. Anderson, having vacated the Sweetwater switch engine.

Fireman E. J. Boyd has marked up after being off about sixty days, having taken a switch engine temporary vacancy.

Before many more miles are made over the track surrounding the old railroad Y.M.C.A. the fence will have to be repaired.

NEWS OF THE RAILS

To equalize mileage between the Baird and Big Spring subdivisions, to which Big Spring firemen are entitled, local firemen will be permitted to run off mileage on trains 5 and 10 between Dallas and Sweetwater. It was reported here Saturday. The total accumulation is 5152 miles at the rate of 46 miles per day from November 17 to March 15. The successful bidder will run eleven round trips and will be required to learn the road between Fort Worth and Dallas.

Due to the increased re-icing facilities at the Southern Ice & Utilities company's plant in Big Spring local railroad men are expecting the heaviest melon season in the Texas & Pacific's history.

C. Vinsant and W. H. Heard have been assigned to duty at the Big Spring round house, relieving W. C. Bray and A. F. Davis. Vinsant came from the Mineola foremanship and Heard from Monahans foremanship. Mr. Bray goes to Mineola and Mr. Davis to Monahans.

Mrs. H. F. Wills, wife of a retired Texas & Pacific passenger agent, is suffering from vertigo.

out-of-town friends.

The Dallas Chamber of Commerce's "President Special" train bearing business leaders on a good-will trip through West Texas expressed appreciation for the manner in which the train was handled over the Texas & Pacific.

Engineer Joe Crow has temporarily vacated east end freight turn to take Toyah-Monahans local.

Mr. Maxfield, former master mechanic and traveling engineer for the T & P is in town renewing old acquaintances.

Mrs. D. F. Tingle, mother of Mrs. W. D. McDonald, is quite ill.

Christian Endeavor Program Is Given

The following program for the Christian Endeavor meeting of this evening at the Methodist church has been announced: Topic, "What Is Involved In Deciding For Christ?" song, "Jesus Keep Me Near The Cross"; song, "More About Jesus"; prayer; scripture reading, Romans 10:8-15, Don Yarbrough; lesson discussion, "The Habit of Indecision", Pauline Hart; "The Decision Time of Life", Ben Allen; "A Change Of Mind", Thelma Stone; "Obstinacy and Optimism", J. See Our Cars Before You Buy

Our used car sales this week prove to us that the buying public is still interested in used cars priced right.

Our policy is for the purchaser to come in contact with a member of the firm. We have cut out the red tape and cost of commission salesman, which saving we have passed on to the customer.

We give a Goodwill Used Car Guarantee with every car we sell for \$300.00 or more. Every guaranteed car has been through our shop under personal supervision of Foreman Hanniford.

Our paper is financed with G. M. A. C., who accept a small down payment and give you a year to pay the balance.

If you want better used cars for less money you cannot afford to pass up our stock. If you cannot call at our salesroom tell us what you want and we will bring it out, for you to look at.

Following are a few of our best bargains:

- One 1928 Oakland Sedan \$513.00
- One 1928 Pontiac Sport Roadster \$385.00
- One 1928 Pontiac Sedan \$390.00

In addition to the above we have Buicks, Chevrolets, Fords, Stars, etc.

We now have back with us Miss Jack Allen, in our Ready-to-Wear department. She cordially invites her friends and customers to come in and see her.

Committee Named To Divide City For Clean-Up Drive Holds Confab

The committee headed by C. W. Cunningham which was appointed by E. F. Robbins to divide the city into suitable districts for preparation for the final week of the clean up and paint up campaign met Saturday night to complete its work.

Serving with Mr. Cunningham on the committee are Verbera Barnes, E. O. Ellington, Walter Plante and L. W. Croft.

Mr. Cunningham, the chairman, has already completed the work of dividing the city into 20 equal districts, but other members of the committee were called into conference Saturday night to assist in the work of naming a supervisor of the work for each of the 20 districts.

Preparation for the final week of the campaign is progressing satisfactorily, according to Mr. Robbins, who is chairman of the Chamber of Commerce civic committee.

Pastors in all Big Spring churches have agreed to make announcements concerning the clean up and paint up campaign and on the Sunday preceding the final week of the drive special sermons will be delivered from all pulpits in the city, according to Mr. Robbins.

W. M. Nichols For Constable

W. M. Nichols, a veteran law enforcement officer of Howard county, who is now serving under Sheriff Jess Slaughter as deputy in Fortman and other southern Howard county oil field towns, Saturday authorized The Herald to announce his candidacy for the position of constable of Precinct One, subject to approval of the Democratic primary.

Having been a resident of Howard county for 25 years, Mr. Nichols believes citizens are familiar with his record both as a private citizen and as an officer. He has served since as other sheriff of Howard county prior to the full term he is now ending under administration of Sheriff Slaughter. Most of the 25 years Mr. Nichols has resided in Howard county were spent farming in the Knott community north of Big Spring. Prior to entering Howard county, Mr. Nichols was a resident of the Sweetwater section and urged those in doubt interested in his entire record to investigate in Nolan county.

"I believe the citizens of Howard county know me well enough to omit this statement. I pledge strict enforcement of the law to the extent of my ability if elected to the office I seek. I feel sure that 100 per cent cooperation between the sheriff and constable departments can be effected, which will undoubtedly produce satisfactory results to the voters of Howard county," declared Mr. Nichols.

CHURCHES

Authors Interested In Photo Contest

Mary Roberts Hineshart, and Fannie Hunsel, famous writers and authors Aylett, president of the Photographers Association of America, judges in the Association's \$10,000 prize contest, are working on the selection of the Most Attractive Mother and the Most Attractive Child from the 100,000 entries in the contest. Bradshaw Radio, local member of the association, says that the prize winners will not be announced for some weeks, because of the time required in judging the vast number of entries received.

Tom Good Test Reaches 2540 Feet

Drilling in Phillips Petroleum Company's No. 1 Tom Good, Borden county wildcat oil test, had reached a total depth of 2,540 feet in red rock and shale.

Ten inch casing was landed at 2,020 feet to shut off three baliers of salt water encountered in the well at 1,960 feet. However, the pipe was not definitely set and operators are prepared to lower the casing if additional water is encountered soon. Water thought to have been from the same horizon in Calder Oil Company's No. 1 Hall drilled more than one year ago in section 5, block 32, township 3 north, T & P Ry. Co. survey, was encountered approximately 250 feet higher which in a measure dims chances for a high lime in Phillips' wildcat well.

No. 1 Good is located 330 feet north and east of the southwest corner of the southeast quarter of section 46, block 33, township 4 north, T & P Ry. Co. survey.

Milton Thomas Now With Local Store

Milton Thomas, formerly of Lubbock has come to Big Spring to make his home. Mr. Thomas will be connected with the local Griston-Robertson store as advertising man and as card writer and window trimmer. Before coming here Mr. Thomas was connected with the Carter-Houston Store, in Lubbock, as manager of the men's department and as window trimmer for that concern. Mrs. Thomas will join Mr. Thomas here in a short time.

Alexander Buys Walt Smith Store

Bernie Alexander, formerly of Springfield, Mo., has bought the grocery and school supply business of Walt Smith, popularly known among high school students as "Uncle Walt's." Mr. Smith will remain here, devoting all his time to the Smith Candy company, wholesaler, which he has been operating for several months, and which has grown rapidly.

A full line of groceries, lunch goods and school supplies will be carried by Mr. Alexander, who took charge of the business.

F.H.E. Wildcat Bottom Is 2430

F. H. E. Oil Company's No. 1 Cox, extreme northern Glascock county semi-wildcat oil test had drilled to a total depth of 2,410 feet in red sand and anhydrite Friday, according to last reports received in Big Spring.

No. 1 Cox is located 350 feet from the south and east lines of the southwest quarter of section 8, block 33, township 2 south, T & P Ry. Co. survey, and is approximately one mile north of Glascock Brothers' No. 1 Edwards, which topped lime around 2,155 feet.

HO! HUM! THE 30TH
VAN, Tex., April 5 (AP)—Pure Oil Company's Jarman No. 2 was brought in today for the Van oil field's twentieth producer. The daily flow was estimated from 5,000 to 7,000 barrels. The well, an offset on the north of the discovery well, was brought in from a depth of 2,800 feet.

Seriously,

will YOU

try anything once?

WE are aiming this advertisement right at that dwindling body of motorists who have never used Goodyear Tires.

We want them to *try* Goodyear Tires—to try even *one* Goodyear Tire—because we are soberly sure they are missing something.

Here is a tire that has been *extra-good* enough, year after year, to have become the standard of tire quality of the whole world!

Here is a tire that has been so favorably-priced and so *extra-valued*, that it has far outstripped in sales *any other* tire in the world!

Here is a tire that has returned user after user so great an *extra-measure* of performance that today, as for 15 years, "*more people ride on Goodyear Tires than on any other kind!*"

Doesn't the tire that has made that record *deserve* a try? Especially now, when it is priced so low? There's a Goodyear Dealer near you!

MOONEY DOWN IN INDIANA
 FORT WAYNE, Ind., April 5 (AP)—After a broken fuel pump on the light monoplane he had attempted to fly to a new transcontinental non-stop record had been repaired, A. W. Mooney, Wichita, Kas., airplane manufacturer, late today piloted his craft to the municipal airport here from the field five miles distant where his proposed coast to coast flight ended abruptly this morning. He said he would return to Wichita tomorrow.

HAWKS IN BUFFALO
 BUFFALO, N. Y., April 5 (AP)—Captain Frank M. Hawks landed in Buffalo at 4:42 o'clock this afternoon on the second of last leg of his glider flight from San Diego, Calif., to New York.

He will leave here at 8 o'clock tomorrow morning, making a brief halt at Elmira, to fuel the towing plane. He expects to arrive at New York City at 4 o'clock Sunday afternoon.

ILLINOIS TO VOTE
 CHICAGO, April 5 (AP)—Illinois voters at Tuesday's primary election will write the denouement of a bitterly contested political feud.

In the polling places the voters will confront a long list of candidates. Overshadowing every other point at stake will be the bids of Charles S. Deneen, incumbent and twice governor of Illinois, and Ruth Hanna McCormick, daughter and widow of former senators, for the republican nomination to the United States senate.

BROKER SLASHES THROAT
 BALTIMORE, Md., April 5 (AP)—Henry R. Labouisse, 62, cotton broker of New Orleans, killed himself by slashing his throat while sitting in the waiting room of a physician's office here today. He had been under treatment at the Phipps Clinic for nervous ailments.

GRAHAM—Flash telephone system now in operation here.

CROSBYTON—Oil tank being installed in Crosbyton Service Station.

PENWELL—This new oil town now has newspaper called "Penwell News."

SIERRA BLANCA—New airport now under construction.

Powerful—yes!

because it has the biggest engine in any six of its price

The New Series Pontiac Big Six engine is the biggest in any six of Pontiac's price. That is why Pontiac can develop 60 horsepower and turn it into such high speed, fast acceleration and exceptional hill-climbing ability.

LARGE CARBURETOR. The power developed by Pontiac's large engine is due in part to a large 1 1/4-inch carburetor, equipped with an accelerating pump and an internal economizer.

OTHER FEATURES. In addition, the power plant has a positive gasoline pump, a large three-port intake manifold of improved design and a positive full pressure oiling system which assures ample lubrication at all engine speeds and results in long life.

Come in and arrange to take a New Series Pontiac Big Six for a trial ride. At the same time you can learn how much Pontiac has to offer in comfort, style and durability.

Prices are f. o. b. Pontiac, Mich., plus delivery charges. Shock Absorbers standard equipment. Bumpers and spring covers at slight extra cost. General Motors Time Payment Plan available at maximum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. Pontiac delivered prices include only authorized charges for freight and delivery and for any additional accessories by financing desired.

PERSONS who have trucks and with a little money, that want to make the money for couple weeks. Call at car east of T. & P. depot, east of Monday. J. P. Flory.

SPORTS ON PARADE

By STANLEY NORMAN

OIL TEN

Unless the stop watches in Abilene are suffering the same malady that curtailed movement of second hands on Howard county timepieces during the interscholastic league meet at Coahoma two weeks ago, other track and field athletes in this district will be forced to do some rapid stepping in the district relay carnival scheduled in Abilene.

Probably the most impressive time turned in during the Abilene city school track and field meet held Friday was Howard Green's time of 52.2 seconds for the quarter mile dash. Other high spots included Clinton Murphy's heave of the javelin 154 feet.

Fans not familiar with location of the trap shooting grounds can make the trip by driving directly through Edwards Heights and by following the main traveled road west along the base of scenic Mountain. Another approach is provided from the Bankhead highway.

UNCLE BILLY DISCH, Texas University baseball mentor, has been signed to a five year contract by the athletic moguls of the state institution. Uncle Billy threatened to desert his post this spring if Fred Walker was retained as basketball coach. Walker was retained and Uncle Billy didn't quit. Athens Hornets Repeat As National Champions

FIRST FIVE TO RETAIN CAGE TITLE

Little Giants Of Jena Georgia Fall Prey Of Red Shirts

By PAUL MICHELSON Associated Press Sports Writer CHICAGO, April 5 (AP)—The big red Hornets from Athens, Texas, won the national high school basketball championship for the second straight year tonight by turning back the challenge of the Little Giants of Jena, La., 23 to 16. It was the first time in the tournament's history that a champion retained its title.

The Little Jena team, representing a little village in central Louisiana, made a stirring rally in the final period, but the big red wave from the Lone Star State arose to the emergency and stopped them. The two rinky Tompkins brothers and "Lucy" Reynolds, were the big shots in the Athens attack and defense while Big Bob Johnson and "Sparky" Wade dazzled for the fighting losers.

Bracey Beats Leland In 100 But Loses 220

RICE FIELD, HOUSTON, Tex., April 5 (AP)—The slim legs of Claude Bracey flashed today over the hot cinders of this field just ahead of C. F. Leland's thundering feet in the 100 yard dash, the Dixie Express half falling across the tape two feet ahead of Texas Christian University's mercury.

Bracey of Rice Institute redeemed himself somewhat by the victory, which was in the relatively slow time of 9.8, but a few minutes later Leland sailed by him in the 220 yard dash with the tape but a few yards away and finished ahead by inches.

HAPPY—Osborn building repainted.

Trap Squads From Three Cities To Compete In Pigeon Slaying Sunday

Trap shooting squads representing three cities will match skill in Big Spring Sunday afternoon in the art of shattering clay pigeons. Teams will be present from Lubbock, Odessa and Big Spring. The fireworks will start at one o'clock Sunday afternoon with Henry Harbin, an experienced trap official, in charge as field captain and referee.

Ready For Visitors The Big Spring Gun Club, host at the shooting party Sunday, completed extensive preparations Saturday. A wire fence has been erected around the firing range, trap house, gun posts, benches, and the new gun rack have been painted a brilliant green to correspond with the color of the club's natural background of evergreen trees.

Three prizes, a brass, jointed gun rod, to the high singles score; a metal pencil to the high doubles shot and a meal with two boxes of shells to the longest consecutive run of dead birds, have been donated by merchants in Big Spring. The gun cleaning rod is being offered by the Big Spring Gun Club, Elmo Wasson Man's Store is donating the pencil and the Douglass Hotel Coffee Shop is offering the dinner and shells.

All prizes will go to visiting shooters as no local man is eligible to receive an award.

2000 Pigeons To Fly Approximately 2,000 clay pigeons will come to earth Sunday afternoon either shattered into small bits or intact, as they leave the trap. There will be 25 targets for each shooter as a warm up round; 50 singles and 12 pair of doubles. No expert has attempted to estimate the amount of gun powder that will be exploded, but it would no doubt furnish sufficient load for a miniature ammunition train.

The shooting will start promptly at one o'clock and will probably continue until 4:30 or 5 o'clock, according to Dr. C. W. Deane, secretary of the local trap shooting organization. Spectators are urged to attend. There will be no admission charge, it was pointed out.

DENTON TEACHERS BEAT SIMMONS TRACK TEAM

ABILENE, Texas, April 5 (AP)—Almost monopolizing the running events, the North Texas Teachers from Denton defeated Simmons University this afternoon in a dual track meet 83 1-2 to 50 1-2.

Coaches Legislate Against Cage Stall

CHICAGO, April 5 (AP)—The National Association of Basketball Coaches today drew up a set of seven proposals to halt stalling and speed up the game.

The proposals will be submitted to the national joint rules committee next spring by Coach Walter Meanwell of Wisconsin. The association's committee proposed that in case one team holds the ball in the back court without keeping it in motion that a jump ball shall be called if a member of the defense team comes within a yard of the man holding the ball in play after a lapse of only five seconds.

Property Owners Awarded Damages For Condemnation

Property owners in northern Howard county were awarded damages totaling \$4,140 against the Texas Electric Service Company, according to the decision of a commission hearing condemnation suits Thursday and Friday.

Suits were instituted by the Texas Electric Service Company to clear a right-of-way for a power line to Lamesa. Drafts drawn by J. I. Prichard, county clerk, against the power company were honored Saturday, but plaintiff and defendant have 30 days in which to file appeal from the commission's decision.

Coach Bill Stevens is considering a triangular track and field meet next Friday with Tahoka, Lamesa and Big Spring. If the event is staged it will be the final warming up exercise for Bill Stevens boys prior to the district track and field meet to be staged in Abilene April 18 and 19.

TEXAS LONGHORNS GET REVENGE ON BAYLOR

AUSTIN, Tex., April 5 (AP)—The University of Texas baseball team got revenge today for the defeat handed them yesterday by Rice Institute when they smothered the visiting nine under an avalanche of hits to win 13 to 1. Rice's only run came in the ninth inning when Dickinson knocked one of People's curves over the right field wall.

FALFURRIAS—Construction of York building progressing steadily. CROSBYTON—Ideal Laundry changed hands.

According to the report made by R. Debenport, county judge, who appointed the commission, W. W. Cardwell was awarded \$450; A. G. Haynes, \$300; J. C. Allred, \$480; R. N. Adams, \$1,500; and Mrs. Mildred M. Jones, \$750. The commission which reviewed the cases was composed of P. F. Cantrell, W. M. Fletcher, and L. M. Stallings.

Senate's Passage Of Tariff Leaves Only Everlasting Life And Perpetual Motion To Be Realized, Will Observe

A fair trade and no flavors.

By WILL ROGERS
Well all I know is just what I read in the daily prints. Well, sir, what do you think happened? You couldn't guess in a million years. The United States Senate passed the Tariff Bill. Everlasting life and perpetual motion, are the only other two things now that we have to look forward to, and after this, we can really look forward to them with more hope.

Of course Tariff has been to a Politician about what a bone is to a dog, and fixed July is to a Los Angeles Culprit. Its not only his bread and butter but its his desert, and toothpick. Any President with Political knowledge always fights shy of the Tariff coming up during his Administration. They tried their best to drag Roosevelt into it, and he just took a well worn elm Club and whopped over any friend or Foes head who suggested that his Administration get tangled up with that yellow fever. That where he got the reputation of the "Mah with the Big Stick. It was for hammering on Gays who wanted some Tariff Gravy.

Coolidge was another they tried to land. Say that little red-headed Yankee didn't cut his political teeth on a District of Columbia License Plate. He knew the tariff was James O. Ginger, and would paralyze anybody that libated on it. So when Mr. Hoover came along the old Political Boys mouth just watered. They said here is some new money in the game. Here is a fellow that learned his Politics feeding the Armenians. Now if he has fed them why can't he be induced to slip some sustenance to us, for no Armenian or even a Boar Conductor can gobble up any more Pork from a Barrell than a Politician.

Well they didn't even let Mr. Hoover get elected till they started working on him. They got ahold of him during the heat of the Campaign, and got him to promise that if elected, he would revise the Tariff. Now if he had only known it he didn't have to do this. Nobody was pressing him for Tariff action but the Politicians themselves. Of course they made him think that it meant his election. But my goodness that he was so far out in front that he couldn't have been beaten with a Tammany Hall voting machine at every booth he was in the bag the hour he was nominated. But he was foolishly made to announce, "If elected I will hold a Special Session of Congress and revise the Tariff to help the Farmer."

Now there is another thing, that extra session of Congress that just about as much misery to a President as the Tariff. Why call em in Extra session? Here he was borrowing all this trouble for no reason at all. He meant well, but oh how he must have suffered for that decision. The present Tariff Bill originated in January 28, just exactly 14 months ago. It passed the House of Representatives on the last of May, last year, or less than four months from the day it went in there. The House then kissed it goodbye and sent it to the Senate. That was last June, now its pretty near next June. That was in the special session.

Well they wore out that session with it, and finally Mr. Hoover had to let em go home to think up some new rates and come back in time for the regular session. They took up the debate right where they had left off and never missed a word. Thats nine months those Birds have argued and debated over that Bill, and there is not one man in five hundred that you meet that know

or care what in the World its all about.

The best prosperity the country had ever had was under the Bill that this one replaces. But it must be changed. Factories wasent closing. Manufacturing was paying a fine dividend. But Uncle Joe says: "My Boys are kinder kicking on some little competition that is creeping in. Its not much, but w-better nip it while its young, and they have been mighty liberal with you Lads here during your various Campaigns, so we better give em some returns on their contributions."

Well "Uncle Joe" took it too hear so much, that he just swallowed his pride and went into the Senate himself, says, "Here I will show you Boys how to make a Bill." He found out early that Reed Smoot was born, weaned, brought up, and turned loose just with one sole purpose in view, that was to get a higher Tariff on Sugar. The day there is a Bill passed to make it unlawful and punishable by death to extract the juice from the Sugar Cane, and that Sugar cane only be manufactured from the Utah Beet, that day will Reed be made a Mormon Prophet, and buried by the side of Brigham Young.

Well Uncle Joe says to himself "I am going to do for every Article Manufactured in Pennsylvania what Reed does for Sugar." So he says, "Reed, I'll help you on sugar if you will help me on 1645 other Nick Nacks that are made up my way." Now you would think that would be an unfair trade wouldn't you? But not with Smoot. You get him his sugar, and you can bring in your articles by the millions and he will O.K. your raise on em.

Of course there was no vote trading done during all this time. Who said there was anyhow? Well, he ought to be ashamed of himself for slandering a fine bunch of men. I heard it. Seven Democrats traded themselves out of their Party Broussard of Louisiana stuck with his sugar, too. Doc Copeland of N. Y. left the policies of Jefferson to string with the Doctrine of the best Treasurer the United State had before Andy Mellon. Key Pitt man of Nevada, Lordsknows who they manufacture up his way out side of Divorces. I guess the Sugar Beets has got over the line from Utah, or else Smoot did him a favor in his early career.

Sam Bratton of New Mex, where the sheep vote, joined the Republicans to get a higher rate on Navajo Blankets made in Brooklyn Kendrick, a Cowman. Sheridan from Wyoming, joined the sheep herders. Trammell of Florida stayed in the Republican column, to offset Fletcher of Jacksonville who evidently Uncle Joe couldn't come to terms with. The final vote was 53 to 31. Fourteen months of steady Oratory to change something that was already going good. (Copyright 1930 by the McNaught Syndicate, Inc.)

Hobbs, New Mexico, Will Celebrate Rail Line Completions

Completion of the Texas & New Mexico railway company's Monahans-Lovington extension to Hobbs, New Mexico, will be celebrated April 17 with a Golden Spike Ceremony at Hobbs, President R. Davis of the T & N M. a subsidiary of the Texas & Pacific, said here last night.

The new line measured of 100 miles of oil daily as soon as yard tracks and spurs can be finished.

AGED MINISTER DIES

CHLIMER, Tex., April 5 (AP)—The Rev. J. L. Helms, 74, of James, Tex., died of heart disease while conversing with friends on a street here today. He was survived by his widow and several children.

FORMER U. S. ATTORNEY CONVICTED FOR BRIBE

NEW YORK, April 5 (AP)—Arthur Sager, former assistant attorney general of the United States and former circuit attorney of St. Louis, was convicted by a federal grand jury today of bribing a juror in recent Union lead mail fraud, case which resulted in a disagreement.

GAANDHI MAKES SALT; BREAKS OLD STATUTE

JALALPUR, India, April 5 (AP)—Mahatma Gandhi manufactured salt from sea water here this morning, thereby breaking the British law establishing a monopoly on salt manufacture.

OSAGE LEASES SOLD

PAWHUSKA, Okla., April 5 (AP)—Only \$28,500 was realized today from the government's sale of oil and gas leases on Osage Indian land, which a few years ago commanded prices as high as \$2,000,000 for one lease. The highest price paid for one lease today was \$5,200. A. R. Campbell of Pawhuska paid \$348 for a goldmining lease on seven tracts comprising 950 acres. There is no good mining in the county on a commercial scale.

"DR." JOHN VALLS?

LAREDO, Tex., April 5 (AP)—John A. Valls, district attorney, today received an invitation from J. H. Walsh, president of Springhill College, Mobile, Ala., to attend a centennial celebration of his alma mater next month and have a degree of doctor of laws conferred on him. The district attorney did not know whether he would accept the invitation.

DAIRY SHOW TO OPEN

PLAINVIEW, April 15 (AP)—Final preparations for the third annual Panhandle-Plains dairy show, opening here Monday were completed today.

Eighty-five breeders had entered 248 animals, and indications, according to Meury Hopkins, manager, pointed to an increase 20 per cent greater than last year's entries.

New Pastor Begins Work At Christian Church This Morning

D. R. Lindley, who comes here from Weatherford, where the First Christian church enjoyed thirty-five per cent increase in membership during his two years' tenure as its pastor, will preach his first sermons today as pastor of the First Christian church. Mr. Lindley, with his wife and baby, have moved into the parsonage next to the church. He is a graduate of Phillips university, Enid, Okla., with the degree of Bachelor of Arts and was awarded the degree of Bachelor of Divinity by Texas Christian university. Mr. Lindley, one of the most successful of the younger ministers of the Disciples of Christ is a native of Coleman county. He was reared in Archer county.

Along With the Clean-Up and Paint-Up Campaign

"SPRUCE UP"

THIS time of the year may be Springtime to the gardener, and coming-out time for the winter-weary golfer, but it's just Housecleaning Time for most women. And housecleaning can be a very drab and dreary task... is pretty sure to be... unless the picture of the dustcap, the mop, and the washtub can be supplanted with a more attractive view.

The only likeable thing about spring cleaning, to our notion, is the opportunity which it offers to dress up the house. Bright new colors to welcome a warmer sun; fresh, crisp fabrics to spruce up the shining gleam of recently-washed windows; gay prints to sweep out of the room the last remnant of a dead winter... these things have their rightful place in the scheme of spring refurbishing.

To the woman who is a bit downhearted at the prospect of another siege of broom, and dustpan, and vacuum cleaner, we recommend a trip to Rix's Drapery Department as a cure for those Housecleaning Blues!

horn diamond squads for a period of five seasons. Incidentally, Uncle Billy's Steers dropped their conference opener to the Rice Owls Friday by a 3 to 2 count.

STEB HITS

A few days back, some baseball fan, we can't remember which of many, asked our opinion about Les Stebbins sticking with the Fort Worth Cats this summer. We are nearly ready to answer that query this morning after reading of Steb's three bingles nicked off Herb Pennock and George Pignras, New York Yankee hurlers, during an exhibition game staged Friday. The shrill voiced Stebbins got one more hit off the Yankee slab crew than any other one team mate, which isn't such a bad record for a young West Texas League product. However, Stebbins turned in one error for the day which may or may not have influenced the score.

FINAL TOURNEY

Probably the final national high school basketball championship was decided last night in Chicago. An organization in which all colleges and universities are represented have resolved against the annual cage tournament at Chicago university and in accordance thereto Coach Alonzo Stagg has announced there will be none in future years. College and university moguls assume the attitude that Chicago's cage tournament brings unfair pressure on high school stars. In other words, Chicago entertains the brilliant high school stars so well that many are induced to attend Stagg's school when high school careers are completed.

It seems to this writer that the ruling against Chicago is probably prompted by jealousy more than any real or apparent danger. Chicago has withstood the expense and work of promoting a national basketball tournament during the past ten years, part of which period was exceptionally lean for the cage sport, and now that interest in hardwood competition is increasing, restrictive legislation has been enacted.

—SELE'S KNEE

The truth, or alleged truth, of Carey Selph's injury which is keeping him from asserting a brilliant baseball future with the Houston Buffs and St. Louis Cardinals, has come from the pen of Gayle Talbot, Jr., Associated Press sports writer. Selph completed a brilliant season with the great Buff team of 1928 which earned him a trial with the St. Louis Cards. During the following winter months Carey journeyed over to Waco to assist Coach Morley Jennings in building a Baylor football team. Selph just couldn't refrain from scrimmaging

directions which also are parts of the officially designated federal road system.

IT THEREFORE would profit much more than most other counties should it vote bonds to pay its portion of the cost of permanently paving highways 1 and 9.

Where other counties must put up half the cost of paving part of all of its highways Howard would have to pay but one-third of the cost, on both 1 and 9.

The nation will be spending \$120,000,000 annually for road roads.

WE ARE wondering whether, in 1933, when spending of that federal item of \$125,000,000 is being completed Howard county will still be piddling along in the dust or mud, quibbling over "where the road will go."

An ELIZABETH ARDEN Treatment

is based on three fundamental steps, Cleansing, Toning, Nourishing. Greta Garbo's Long Awaited Talking Picture Arrives

"ANNA CHRISTIE" ONE OF FINEST PICTURES IN CINEMA HISTORY WILL OPEN AT RITZ SUNDAY

"Anna Christie," Greta Garbo's long awaited first all-talking production, will be presented by Metro-Goldwyn-Mayer Sunday, Monday and Tuesday at the Ritz theatre. The picture which was adapted by FRANCES MARION from Eugene O'Neill's celebrated play was directed by Clarence Brown, responsible for the production of two of Miss Garbo's past successes, "Fish and the Devil" and "A Woman of Affairs." The supporting cast includes Charles Bickford, George F. Marion, Marie Dressler, James T. Mack and Lee Phelps.

Marion will play the role of the father for the third time, having had the part in the original stage presentation in which Pauline Lord played the title role, and again in the silent picture made several years ago with Blanche Sweet playing Anna.

Evelyn Brent Co-Star In Film Booked At Ritz

Always identified with dramatic, serious roles, Evelyn Brent has reached a high point in her brilliant moving picture career in her latest co-starring vehicle, "Slightly Scarlet," the feature for Friday and Saturday at the Ritz theatre. In "Slightly Scarlet," as in the smashing success, "Interference," Miss Brent plays opposite Clive Brook.

Miss Brent has been called the "queen of melodramas," and "Slightly Scarlet" is a tense, dramatic, highly adventurous, romantic melodrama. The story unfolds in hand-to-hand surroundings with one unusual twist after another. Miss Brent, famous on the screen for the beauty of her clothes, in "Slightly Scarlet," wears many new creations which admirably set off her gorgeous, dark beauty.

Born in Tampa, Florida, Miss Brent lived in Syracuse and Brooklyn, N. Y., and worked as extra at the World Film studio at Fort Lee, N. J. Then she went to England, and was brought back to the United States to play in American moving pictures. "Darkened Rooms" recently released, was her first starring picture. She was seen in "Fast Company," "Why Bring That Up," "Woman Trap" and "The Last Command."

Liberty Serial Is Presented On Screen

"Murder on the Roof," the famous story of New York night life, by Edward Doherty, which ran in the Liberty Magazine for ten weeks and was considered by that publication the greatest circulation builder since "Wings," has been brought to the screen by Columbia Pictures as a pretentious special. It is scheduled to play at the Queen theatre, on Friday and Saturday. Doherty, the author, is one of the outstanding writers of short stories dealing with the Gay White Way and the underworld of Manhattan. He spent several years of his life on Metropolitan dailies, where he rubbed shoulders with all strata of society. His characters are all drawn from life in a most realistic manner.

The film has been produced on an elaborate scale, with singing and dancing sequences. All the color, glamor and lure of the sparkling night life along Broadway, together with the adventures and thrills of racketeers has been included in the production. Members of the cast include Dorothy Revier, Raymond Hatton and Margaret Livingston.

Greta Garbo Has Perfect Features

Measure your facial beauty by the yard stick! Since the vogue of cross-fitting hats has focused the attention to the face the beauty specialists have drawn up a chart giving the proper measurement of the features. In this way women are able to ascertain if they are correctly proportioned and if not they will be able to choose styles that will give their features the appearance of having the right contours. Greta Garbo, Metro-Goldwyn-Mayer star, who will appear in her first talking picture, "Anna Christie" at the Ritz theatre on Sunday, Monday and Tuesday, is favored with perfectly proportioned features, the length of her forehead equaling the line of her nose and that from the bottom of her nose to her chin. The length of Miss Garbo's eyes also show the same distance as the space between the two inner corners of her eyes. For this reason the severe styles she favors are becoming to her, emphasizing her features, and revealing them in a clear-cut way. The above photograph draws attention to these features, exposing her wide, intelligent forehead, her wide-apart eyes and her well proportioned nose and chin.

The Week's R & R Theatre Program

RITZ
Sunday, Monday and Tuesday—"Anna Christie," featuring Greta Garbo in her first talking picture; Pathe sound news; comedy, "Radio Riot."
Wednesday and Thursday—"The Melody Man," starring William Collier Jr., and Alice Day; Fox sound news; comedy, "Uppercut O'Brien."
Friday and Saturday—"Slightly Scarlet," with Evelyn Brent and Clive Brook; Paramount sound news; comedy, "Scrappily Married."
QUEEN
"The Song of Love," with Belle Baker; comedy, "She Said No."
Wednesday and Thursday—"Tiger Rose," featuring Monte Blue and Lupe Velez; Paramount cartoon; comedy, "Verona's Aunt."
Friday and Saturday—"Murder on the Roof," featuring an all-star cast; King of Kong No. 2; comedy, "The Pace That Thrills."

William Collier And Alice Day At Ritz

"The Melody Man," which will be shown at the Ritz theatre Wednesday and Thursday features those charming juveniles, Mr. Collier and Miss Day, the former being credited with having appeared in more talking production than any other juvenile star.

MANY FILM LUMINARIES IN CAST OF "THE MELODY MAN"

An outstanding cast, one that boasts of many film luminaries who assembled for the characterizations in "The Melody Man," the Columbia all-talking special, adapted from the stage play of the same name, scheduled to play at the Ritz theatre Wednesday and Thursday. William Collier, Jr., who holds the distinction of having appeared in more talking productions than any other juvenile star, heads the cast of well-known players. Alice Day, who recently covered herself with glory as Richard Barthelme's wife in "Drag," is co-starred with Collier. John St. Polis, one of the greatest character delineators on the screen enacts a David Warfield type. Supporting roles. Featured in support of the above stars are Johnny Walker, Mildred Harris, Tenen Holtz and Lee Kohlmar. Johnny Walker is a well-known figure on the screen and the stage. He has appeared in a number of outstanding Columbia productions including "The Matinee Idol," "This is Paris" and "The Sweet Head." Tenen Holtz, a noted character comedian, prominently featured in "Wall of '28," "The Cardboard Lover," and "Show People," will play another character role, that of a German musician. Lee Kohlmar and Mildred Harris will play the type of roles for which they have become famous—Kohlmar in a German delineation and the blonde vamp Miss Harris as a faithless wife.

Skelly Pays Huge Price For Leases In Ector Region

What was termed the largest acreage deal transacted in the new Penn pool of Ector county was consummated Friday between the Skelly Oil Company and Luther C. Turman and J. C. Maxwell. By terms of the deal, Skelly Oil Company assumes leases on 4,457.32 acres in Ector county and Turman and Maxwell, the former owners will receive \$600,000 in cash. Skelly geologists consider 405 acres of the total within limits of "the play," but the balance of acreage purchased by Skelly is considered wildcat.

Purchase of this 405 acres will give Skelly a commanding position in the new pool. It already owned a half interest with the Amerada in to quarter sections considered as proven and owns, entirely, two other 80-acre tracts expected to be productive. Turman and Maxwell retained four or five tracts of acreage in Ector county and 200 royalty acres located north of production in the Penn pool.

Belle Baker Holds Crowds With Songs

Belle Baker, famous vaudeville headliner and star of Columbia's musical drama, "The Song of Love," is the only singer of popular songs on record who ever played New York City for 240 consecutive weeks. In addition she holds her audience for thirty to forty-five minutes at a performance. She will appear at the Queen theatre Monday and Tuesday in "A Song of Love."

Vaudeville is the type of entertainment that allows from fifteen to twenty minutes to a performer. This quarter of an hour is usually sufficient for the average vaudeville act. Top often it is superfluous. A conclusion of audience psychology is that every minute after the fifteen or twenty minute allotment wears on the audience and requires three times the energy and ability to hold their attention. Therefore, there must be more than the average talent in the make-up of a man or woman who can hold an audience thirty to forty-five minutes. This is the case with Belle Baker.

Belle Baker does not have to worry about time limit. She controls her audience and sways them from one mood to another—from tears to laughter. In addition to having a magnificent voice, she has a vivacious personality which injects in her songs making selections living and dramatic. These qualities strike a responsive chord in her listeners making them anxious for more—and more—more.

This great artiste plays a role "Song of Love" such as she plays in real life—that of a vaudeville artist. Needless to say, her characterization will be natural and of the spontaneity that has her so popular; when she plays a flesh and blood audience instead of to the eye of the camera, appearing with her in this film, Ralph Graves and David Duvall. Eric C. Stanton directed.

Spectacular Fire 'Tiger Rose' Feature

A spectacular fire is one of the features of "Tiger Rose," the Warner Bros. and Vitaphone version of the famous stage melodrama, which comes to the Queen theatre Wednesday and Thursday.

Monte Blue and Lupe Velez are co-stars in "Tiger Rose," which is taken from Willard Mack's tremendously successful stage play of the same name. George Fitzmaurice was written by Gordon Rygby. Popular and well appearing in the "Tiger Rose," Warner, Grant Fontana, Gaston Hall and the well known Tin-Tin-Tin.

Despite Occasional Dry Spells, Flowers Thrive Here

Class And Variety Important In Choosing Plans, Enthusiast Says; Methods Of Culture Are Reviewed

Despite sandstorms, a hot sun and a beating wind it is possible to grow flowers in Big Spring with as much success in a cooler climate.

E. B. Ribble, Big Spring's professional flower enthusiast, interviewed on the subject, stressed the fact that flowers should be chosen with care as to their class and variety.

Flowers like larkspur, phlox, zinnias, geraniums, sweet peas and iris among the kinds of flowers that do especially well in this climate.

Plant Holyoke

The old fashioned holyoke is also adapted to the soil and climate of Big Spring. Roses, an old favorite of Big Spring, should be chosen, says Mr. Ribble, for variety will not bloom here.

Even the hardy American luxembourg and others of this class are always successful.

It is seldom possible to grow the delicate flowers in this country as the wind and the soil make short work of them.

Use Commercial Fertilizer. A rural loan, with a little sand, according to Mr. Ribble, is the best possible medium for growing flowers. If a little commercial fertilizer is added to the loan...

NOTE: This is the first of a series of articles on Gardening in West Texas. These articles are based on actual interviews with experienced and successful gardeners in Big Spring.

Best of results will be obtained. There are many of these on the market.

It should be taken, however, in proportion of commercial fertilizer. Mr. Ribble advised that three-fourths of the fertilizer should be used.

Too much fertilizer will hurt the plants, and Mr. Ribble advised the use of manure as it often contains harmful elements.

Green Lawn All Winter. A lawn as a background for plants is always effective. If it is sodded or sown with now it will be perfect turf next fall, says Mr. Ribble. Then grass is sown with two dollars worth of American rye seed, and with loan and some commercial fertilizer around September will have a green lawn all through.

Lawn in front of Mr. Ribble's house on Scoury street, was in this manner and is unusual and luxurious.

Ribble advises that planting be put off for at least two weeks. If not, he states, the plant is bound to be caught by cold. Seed planted in weeks, however, will miss the best time to come up when the soil is warm enough to receive it.

The Fine Art Group To Meet

On April 4, 1930, the 19th meeting of the Texas Fine Art Association will be held in the room of the University of Oklahoma building at the University of Oklahoma. The speaker will be the artist, J. A. Adams, who will exhibit his work of art. The meeting is scheduled during the day session at the Elizabeth Museum.

The purpose of the association is to promote the art interest of Texas by exhibiting the work of Texas artists and by encouraging high standards, who are artistically through cooperation with the Intercollegiate League.

James W. McClendon of the board of directors is chairman. Dr. William J. Battle, Ray-veatt and Miss Fanny Adams of Austin; Mrs. Alex Adams of Dallas; Mrs. H. Bailey of Dallas; Mrs. Walter of El Paso; Mrs. Treahour of Fort Worth; Mrs. Richard Stark of Orange and Mrs. Richardson Cherry, Miss Kurliff and Will C. Hogg of Austin.

Members are Mrs. Ben H. of Austin; Mrs. H. E. Fall of Austin; Mrs. James Chillum, Jr., of Austin; Judge Joseph B. Dibrell of Austin; Mrs. H. P. Drought of Austin; Mrs. Charles of Fort Worth; Mrs. Roberts of Waco and Mrs. Fred. Burton of Galveston. Mrs. Robert and Malcolm of Austin are secretary and treasurer, respectively.

YORK—Woman has a chance for old age than that of federal census data. The study of the Memorial Fund, a foundation for the health, shows that the death rate for women past the age of 35 has been less than the male rate.

WART — Bank deposits in the city showed gain of approximately \$20,000 during 1929.

LINE — Plans discussed for going south to tap rich oil fields.

Designed For Narrow Lot

For a narrow lot this house is particularly adapted, for its design fits in well with closely spaced surroundings.

However, the house goes well either on a good-sized lot or a narrow strip. If built lengthwise the lot should be about 80 feet wide, but a 40 foot frontage will accommodate it otherwise.

Exceptional lighting arrangements are offered by this plan providing for a dining room and living room each of which has windows on three sides.

A distinct appearance is achieved with the low roof lines as well as the unique entrance design. Red brick is used for the exterior, although the builder may attain a different effect by white-washing it if he so desires.

The upstairs hallway leads to three bedrooms, two baths and an extra dressing room. These have been economically fitted into the available space, in addition to several closets.

Convenient hallways are a feature of the downstairs. The large living room leads to a side or rear porch. On the basis of average wage and material costs in various sections of the country, it is estimated this house could be built for \$8,000 or \$10,000. The exact figure naturally will be determined by choice of material in different communities, as well as labor costs.

Here's to Beauty!

Blackheads make any skin look muddy. Also, when pores are clogged with oil and dust, they form an ideal lodging place for bacteria. Although some germs seem comparatively harmless, many others are quite harmful, and will irritate a sensitive skin. These irritations may be only occasional pimples, or they may result in some serious skin disease.

The best way to prevent blackheads and enlarged pores is to keep your skin perfectly clean. To do this, at least once daily smooth cleansing cream up over your face, and then with soft cleansing tissues gently wipe off the cream.

Next, especially if your skin is inclined to be oily, wash your face with warm water and a mild soap. And last, always close your pores with a mild astringent. If you give your face this simple treatment every day, your pores will not enlarge, and blackheads and pimples will have less chance to form.

Many women are troubled with oiliness, enlarged pores or blackheads that appear only in certain parts of the face. The nose seems to be the greatest offender. This is quite natural, because oil glands on the nose are quite large and plentiful. If you are bothered with blackheads and enlarged pores, or your skin seems rather oily, I would suggest the frequent use of a mild astringent. And each time before you powder, pat

over your nose a piece of cotton saturated with the astringent. Putting layers of powder on top of each other without first cleansing and contracting your pores only increases blackheads and enlarged pores, and does not hide them.

If enlarged pores or blackheads are especially troublesome, apply pore cream after your nightly cleansing to those parts of your face that seem to need it most. Pore cream is easy and pleasant to use. Leave it on all night, and it will contract your pores gently while you sleep.

You may ask, "After I have left pore cream on all night, how shall I remove it in the morning?" I think you will find, unless you have applied a bit too much, that your skin has absorbed nearly all the pore cream. In the morning, cleanse your face with cleansing cream, or if you like, warm water and soap will wash away any surplus pore cream. If you are in a hurry, hastily sponge off your face with a freshening skin tonic.

Do not expect blackheads to go away over night. They have formed slowly, and the only safe way to get rid of them is to use preparations which will act gradually. And of course, do not fuss with your face. Unless your finger tips have been sterilized, you simply will carry more bacteria to your tiny skin pores.

Gilbert K. Chesterton, English writer, will teach two courses at Notre Dame this spring.

HAPPY—Orbarn building repainted.

ONE MILL TAX MADE ON OIL RUN TO PAY PRORATION EXPENSE

Producers in the deep prorated areas of Howard and Glasscock counties have been assessed one mill per barrel for all oil delivered through pipe lines serving the pools during the months of February and March. Revenue from the assessment will total approximately \$1,500. No assessment against January production has been made. Revenue from November and December assessments was sufficient to pay expenses of prorating the region for three months.

Notices of the assessment were mailed out late last week by E. E. Andrews, proration umpire after proration sheets and total runs for the month of March had been compiled and released.

The assessment is entirely plausible; but it is clumsily handled and the characterizations are more those of the engineer than of the writer.

The public interest which Lindbergh is focusing on the Mayan ruins makes such a story as this timely, as well as excusable. My only regret is that it was not handled by a man who was more a master of his craft.

Dorothy Parker's Verse Amusing

Dorothy Parker's little verses always amuse no matter how many times they may have been read before. Here are a few of the shorter ones.

Resume
 Razors pain you;
 Rivers are damp;
 Acids stain you;
 And drugs cause cramp.
 Guns aren't lawful;
 Nooses give;
 Gas smells awful;
 You might as well live.

De Profundis
 Oh, is it, then, Utopian
 To hope that I may meet a man
 Who'll not relate, in accents
 suave,
 The tales of girls he used to
 have?

News Item
 Men seldom make passes
 At girls who wear glasses.

Did You Know That—

Russia is the only country in the world which bans the Bible.

For cravats are in vogue in London.

Thirty or forty leaves are necessary to supply the food to make one apple.

Doctors who write prescriptions in illegible hands are liable to be fined under a new Norwegian law.

In the old Colonial days sugar was a luxury and sometimes cost more than seventy-five cents a pound.

Chara Row is letting her hair grow. It is almost down to her shoulders.

One third of Berlin's population makes purchases on the installment plan.

Women spent over \$700,000,000 on worthless stock last year according to Howard E. Reed, Pittsburgh financier.

When a woman fainted in a New York department store recently she started a panic involving 4000 women and children.

Henry Ford is now seeking to buy an old-time New Jersey drug store for his museum.

A twenty-nine-day old baby traveled by plane from California to St. Louis with its mother who wished to save it the rigors of a long train trip.

Within two hours after the birth of a daughter to Mr. and Mrs. Ralph Stewart of Auburn, Neb., the baby's voice was heard by its uncle in San Francisco, when the baby made an outcry during a telephone conversation.

Mrs. Edward Levitz of Chicago, who carried all her jewelry with her to prevent it from being stolen, had her purse containing three diamond rings and a diamond stickpin, valued at \$1500, snatched when walking through a crowd.

Deaths after April 1 will not be counted by the census takers.

An abandoned submarine was found stranded on the English coast recently.

Chinese literature of 1000 years ago mentions Silkie and Erizzle, present day breeds of fowls.

When the bailiff cried "Tom Toms" in a Chicago court recently, a large black cat sauntered up and faced the judge.

George Blatney, head of San Francisco's zoo, is bound for Abyssinia in search of mates for an Arabian baboon, and a Barbary sheep.

Six cents in stamps were received.

Color, Color, Color!

A table set the ultramodern manner

By MARGERY TAYLOR Interior Decoration Editor, McCall's Magazine. Written For The Daily Herald

Color is the silent music with which the modern hostess is adding new charm to her dinners.

Since it is the largest color mass in the scheme, the table cloth strikes the keynote—and what possibilities it opens, when it might be in soft peach, daring powder blue, luscious green, a versatile "natural," silvery gray, or rich dull gold!

A blue cloth—set with delicately flowered china, goblets of pink glass, silver candlesticks and pink rosebuds—wouldn't that be a present and an accompaniment for the noblest meal?

Do not let your zeal for color lure you into discord or confusion, however. The perfect contrast is expressed in two colors, no more. With green dishes, either peach or yellow is delightful—but both, in peach linen and yellow glassware, would blur the scheme. For very formal occasions, many color enthusiasts are still using white linen and crystal.

For luncheon a green checked tablecloth makes the perfect background for green glassware, yellow pottery with a deep scalloped edge, and a centerpiece of yellow callendula.

Do not let your zeal for color lure you into discord or confusion, however. The perfect contrast is expressed in two colors, no more. Spring Styles Demand Return Of Long Gloves

By ALICE LANGELEIER International News Service Staff Correspondent

PARIS, April 5.—The hand that rocks the cradle and all others as well must be lengthily gloved this spring, and this means even more so in the evening.

Evening gloves, like the skirts, are decidedly long, averaging 12 to 14 buttons and many of them going as far as 20 and 24. Most of them are plain and come in both suede and glace kid. White, off white and black are the principal colors, but pastel shades appear in all the collections with soft pink especially prominent. Nile-green and sky-blue are favorites. Silk embroidery and discreet beading are noticed on a few models.

Patou is showing the 24-button length, wide above the elbow and in colored suede. Frequently dark shades come with light colored gowns as black suede with opaline, pink, dark green with light, yellowish-green frock and deep rose with a printed rose and beige.

Maggi Lunfi shows the long 16-button glove in pastel shades, gathered in at the forearm about a hand incrustated horizontally.

Another designer has embroidered the tops of evening gloves with beads or sequins in colors to match the novelty jewelry which is designed on the dress. Callot uses incrustations of taffeta, georgette or lace on 18-button gloves of black suede.

Gauntlet gloves are the specialty of Suzanne Talbot, very often coming in the same fabric as the gown itself. These matching gloves are one of the most interesting notes in current fashion as applied to formal evening dress.

Mr. and Mrs. Sam Hathcock left yesterday for Dallas where they will spend three weeks visiting their daughters.

young of today, he said, and they should be taught "faithful compliance with the constitution of the United States."

That is sound advice, as far as it goes. But a greater duty rests upon the moral leaders, the teachers and the parents, than that described by Mr. Uphaw. If we understand him correctly, he would teach the younger generation to believe in prohibition because it is the law. Is it not more important to teach that generation to believe in temperance because, regardless of the law, it is the best rule of life? If the teen-age boys and girls of the present can be persuaded that liquor is something that is incompatible with their mental, physical and financial welfare, it won't matter very much what they are taught about the Volstead act and eighteenth amendment. Far more can be accomplished by instruction along that line than by trying to persuade future citizens that they must shun liquor because the law says they should.

The Daily Oklahoman, commenting upon the poll recently taken by the Harvard Crimson, which showed an overwhelming number of college and university students favor repeal or modification, declared that poll to be more significant than the nationwide one taken by the Literary Digest.

"While the forces of reform must employ every power of government which may be employed with reason in a serious effort to suppress the liquor traffic," says the Oklahoman, "they are falling into serious error if they ignore the rising generation. Unless they adhere tenaciously to the old method of trying to convince American youth that alcohol is a positive evil and should be eschewed by all people, they may lose at home and abroad everything they have sought to gain in Washington."

It may be important, as Mr. Uphaw said, to teach prohibition to the younger generation. It is many times more important to teach temperance.

GETTING IT OFF THE CHEST

Hollywood Sights

By ROBBIN COONS
 HOLLYWOOD—Flickerville is the city of contrasts.

While many an actor pawns his watch, turns in his automobile or merely pulls in his belt another notch, there are a few who are playing in two or even three pictures at the same time.

Betty Compton has done it, and so has Noah Beery. Bernice Claire, the new singing scintilla, is doing the same, in a musical comedy, in an operetta, and in a straight drama in which she sings not a note.

EFFICIENCY PLUS
 The following yarn, told as true at a recent banquet, may or may not be exaggerated, but it aptly illustrates one form of movie "efficiency."

He was playing in an orchestra, writing songs on the side, and making about \$50 a week. A movie executive called him in one day and offered him a song-writing contract, which was accepted.

"Now about salary," he said, "what do you think?"

"I don't know," was the answer, "suppose you suggest."

"How about \$250?"

The musician looked crest-fallen. Eighty a week was more than \$250 a month.

"Well," hastily and apologetically, "suppose we make it \$400 a week to start?"

The song-writer only gulped.

PIANO-HOUSING PROBLEM
 The next day someone took him in charge and asked where he'd like his office.

The composer idled while they built him a stucco bungalow. When finished, it was a beauty.

At last the song-writer set to work. Then one day he met on the lot the executive who had signed him.

"Hello!" said the chief. "Where've you been all this time?"

"Waiting for them to build this office."

"What! An office? I want you here! That'll never do! I want you near mine, so we can talk things over now and then."

The song-writer was moved again—piano and all!

Parnell Brands
Moody Tax Plan
Double Taxation

AUSTIN, April 5.—Former Sen. J. D. Parnell of Wichita Falls has asserted if Gov. Dan Moody's contention is correct that surplus funds from the oil and gas administration tax should go to general revenues, that it will lay the tax and the entire administration of the oil and gas division open to an injunction on the ground of double taxation.

He indicated he did not hope to get Gov. Moody to withhold veto of the appropriation for administering the new pipeline bill; but that he fears diversion of the surplus to general revenues will result in a court order against collection of the one-twentieth of one per cent

deau when he was diagnosed as suffering from tuberculosis. And yet he survived to live to a ripe old age and contributed so much toward making tuberculosis anything but "absolutely fatal."

LEVELLAND — New owner making several improvements to Ford Tailor Shop.

JACQUELINE ON HER OWN

By RICHARD STARR

SYNOPSIS: As her latest adventure Jacqueline Grey plans a visit to a night club. Mrs. Porter Mason and Mr. Arthur Carew, whom Mrs. Porter Mason introduces, join her and they dine first at MacCagn's restaurant. From an adjoining table, Teddy Montrose notices Jacqueline and is captivated by her beauty. Jacqueline's departure depresses him. Such a worthy girl is not for him. He seeks solace in the company of three strangers who invite him into a card game in the apartment of one of them. Teddy cheats the cheaters and a fight brews. It is interrupted by the sudden appearance of a girl thru the windows from the fire escape.

CHAPTER 15
TEDDY'S TEMPER IS RUFFLED
 A dead silence followed the unconventional intrusion of the girl in the white silk evening gown. The four men stared at her petrified.

Teddy Montrose gasped hoarsely. It was the beautiful girl he had seen in the restaurant! The girl with the lights and shades in her hair, and the lure of adventure in her eyes.

She stood there with one hand at her white throat, terror and dismay leaping in her brown eyes, her scarlet lips parted in labored breathing. Jacqueline Grey was certainly getting all the adventure she wanted that night.

Her brown bob had dropped low over one side of her forehead, giving her a slightly lop-sided aspect; the narrow strap over her slim shoulder had broken away, and there was a jagged tear in the silken frock.

Four men stood astounded, immovable, looking at the startling picture she made.

Teddy was the nearest to her and a strange and subtle perfume drifted from her to him and got into his brain. It was something eastern; he did not know what.

"Oh!" he gasped at last. "The police! They are raiding the— the night club. I—I don't know how I got away. They are all around the place. Somebody turned the lights out and I climbed out of a window. Then I crawled along a ledge and jumped. Ugh! It was horrible!"

Teddy went cold, remembering that the flat was three flights up. She was trembling pitifully, and her little face was as white as the frock she wore.

"I—I hope you will forgive me for breaking into your rooms like this. But I dared not be taken by the police."

Teddy Montrose looked at his three companions. They had not moved an inch. They were still standing rigid, and their eyes were fixed on the double row of satiny pearls on the girl's neck. He noticed that particularly, but he did not attach any particular meaning to it. He had seen the pearls before.

He saw now only the girl, and knew she was above price. He knew also that the fate which guides young men when they have made monumental idiots of themselves

Teddy, the eyes of all three of them were still fixed on the girl; and Jacqueline shrank close to her new protector, clutching his arm desperately.

"Get out of my way," said Teddy in a low, ominously quiet voice.

"Not until you shell out," returned the sharper. "And this lady can pay her footing too; pay it pretty handsomely, or else she'll be handed over to the police, who ought to have her. How do we know who she is? It looks pretty shady to me. If we help her to make her get away I dare say she'll be pleased to make it worth our while."

He grinned horribly at Jacqueline.

Teddy took him by the neck and shook him until his false teeth flew out, and threw him across the room like a bundle of rags.

There came a scream from Jacqueline. One of the other men was whirling a chair over his head. But Teddy turned the blow aside with a kick—the way he used to kick the high-ones for his side on the football field.

They were big men those two, and came at him both at once, from opposite sides. But Teddy Montrose was roused. This was his day. He did not trouble to hit them. He jumped aside like a cat as they swung, and they burst themselves against each other. Teddy took them both by the neck, half shook the life out of them, knocked their heads together and heaved them on top of their fellow.

"Old stuff," he murmured. "I thought you were going to show me something new."

The table and two chairs were smashed. All the cards, together with a collection of glasses and bottles were strewn on the floor. The carpet ran with whisky and soda.

Quiet calm and unruffled Teddy held the door open with a bow. Jacqueline put her hand lightly on his arm, and looked up into his face with just the ghost of a little reckless laugh. She was fine. Teddy was proud of her. They walked out of the wrecked flat as if they were walking out of a ballroom.

A minute later they were speeding from the scene in a taxi.

MARCH OIL RUNS HITS HIGH PEAK

823,146 Barrels Of Oil Run Through Lines Marking Increase

Despite the curtailing effects of limited pipe line runs from prorated districts of Howard and Glasscock county fields, 823,146 barrels of crude oil produced in the two counties was marketed during the month of March, according to the report on runs released late last week by E. E. Andrews, proration umpire.

The figure of 823,146 barrels was more than 100,000 barrels more than the 712,915 barrels of oil run during the month of February and was a slight increase over the 815,286 barrels of oil produced and run during January of this year.

Schermerhorn Oil Company maintained its lead position among other producing companies for the month of March delivering 99,405 barrels of oil into major pipe line company lines. Continental Oil Company added one producer during the month, but could not better its position as second with 96,690 barrels. Ward Oil Company was third with 58,152 barrels; Sun Oil Company was fourth with 57,449 barrels and Shell was fifth with 45,401 barrels.

16,741,402 Is Total
March runs boosted the total production from this section during 19 1-2 months of proration supervision to 16,741,402 barrels. During the total proration period, Moody and Superior interests are still leading with 1,805,238 barrels; Schermerhorn is second with 1,651,080 barrels; Owen, Sloan and Cosden is third with 1,569,325 barrels and Magnolia Petroleum Company is fourth with 1,544,098 barrels.

All producing companies in the two counties with the number of producing wells. February pipe line deliveries and their total production for the past 19 1-2 months, follow:
Amerada Petroleum Company, 9 wells, 40,832 barrels in March, 974,030 barrels total.
American Maracaibo, 11 wells, 34,580 barrels in March, 1,158,068 barrels total.
California Company, 7 wells, 38,438 barrels in March, 366,533 barrels total.
Cosden and Company, one well, 1,709 barrels in March, 369,699 barrels total.
Cranfill and Reynolds, two wells, 5,321 barrels in March, 68,128 barrels total.

Heavy Producers
Continental Oil Company, 22 wells, 96,690 barrels in March, 1,485,031 barrels total.
Green Production company, one well, 3,100 barrels in March, 14,184 barrels total.
Howard County Oil Corporation, three wells, 20,079 barrels in March, 411,181 barrels total.
Humble Oil & Refining Company, five wells, 27,434 barrels in March, 272,887 barrels total.
Kirby Oil Company, four wells, 33,162 barrels in March, 124,562 barrels total.
Louisiana Oil & Refining Com-

pany, two wells, 2,259 barrels in March, 688,945 barrels total.
Lion Oil & Refining Company, three wells, 18,517 barrels in March, 83,744 barrels total.
Magnolia Petroleum Company, 10 wells, 37,200 barrels in March, 1,544,098 barrels total.
Merriek and Bristol, five wells, 23,022 barrels in March, 602,283 barrels total.
Moody-Superior, 18 wells, 38,815 barrels in March, 1,805,238 barrels total.
Owen-Sloan and Cosden, six wells, 36,541 barrels in March, 1,569,325 barrels total.
Plymouth Oil Company, seven wells, 37,905 barrels in March, 619,438 barrels total.
Pure Oil Company, one well, 1,779 barrels in March, 8,894 barrels total.
Schermerhorn Oil Company, 12 wells, 99,405 barrels in March, 1,651,080 barrels total.
Shell Oil Corporation, seven wells, 45,401 barrels in March, 543,986 barrels total.
Simms Oil Company, three wells, 20,995 barrels in March, 98,272 barrels total.
Simms and Green, one well, 9,867 barrels in March, 61,689 barrels total.

E. L. Smith Oil Company, two wells, 14,952 barrels in March, 61,478 barrels total.
Sprague Oil Company, two wells, 3,411 barrels in March, 242,263 barrels total.
Sun Oil Company, seven wells, 57,449 barrels in March, 1,289,799 barrels total.
Taylor-Lask Company, two wells, 4,191 barrels in March, 49,800 barrels total.
Ward Oil Company, four wells, 58,152 barrels in March, 543,983 barrels total.
Witherboon and Glasscock, two wells, 7,900 barrels in March, 168,248 barrels total.

MEETING CLUB MEETS
The Thursday Evening Sewing Club met at the home of Mrs. W. R. Purser on south Ruppels street. The members sewed and played Rook. The following were served a salad course: Mesdames Fox, Stripling, Emma Doss, Seth Pike, Sam Brown, C. E. Talbot, T. John-

son, Joe B. Neal and C. L. Williams. Mrs. E. Jones, daughter of Mrs. Purser, assisted in serving. The next meeting will be at the home of Mrs. Emma Davis.
L. B. VELLAND - Gymnasium building to be erected on school campus.

Members of the Blue Bonnet Bridge Club will be guests of Mrs. Jennie Pickle, Wednesday at her home on South Scurry.
Miniature golf courses are being established on vacant lots in Greensboro, North Carolina.

The Car you've always Wanted to own

Even the average motor car budget today buys an 'out-of-the-average motor car—the Nash "400."
Here is the kind of a car you've always hoped to own—one that will convince you and everyone who rides in it that money can buy nothing finer.

It is built differently from most cars, enriched in design by the newest and finest engineering excellence, and built in the three great Nash factories where the highest ideals of craftsmanship prevail.
30 Models Ranging in Price from \$935 to \$2385, f.o.b. factory

Famous Mt. Baldy Trophy won by Dynamic New ERSKINE

At Pomona, Calif., on Feb. 25, an Erskine stock sedan, with optional gear ratio, certified by the American Automobile Association, set a new record up Mt. Baldy, making the winding 7.1 mile climb in 10 minutes, 44 seconds. It won the Progress-Bulletin trophy for the fastest time ever made by a strictly stock car.
Feats such as the record-breaking Mt. Baldy climb are evidence of the Dynamic New Erskine's power and stamina.
You can command this champion performance at surprisingly low cost. A small down payment is all that is needed. Your present car, traded in, may make any initial cash outlay unnecessary.
Come—drive the Dynamic New Erskine! Prove the flashing response of its great engine, unleashed by a new full-power muffler, pioneered by Studebaker. Enjoy the comfort of ample legroom, headroom, in this BIG car of 114-inch wheelbase. THE STUDEBAKER CORP. OF AMERICA

The Plea Of The Unbuilt House
I AM THE UNBUILT HOUSE—build me, therefore, into a home.
Build me with loving hands, with eager heart. Build me for eternity. For as you build, so shall I stand, ever over you, ever protecting, day after day, under the sun and rain, in the long nights of cold and whirling wind.
Build me to last. For I shall be your haven and your children's haven. Build me strong—and beautiful. Let me sit back from the road, a figure of repose, reflecting character without presumption, dignity without restraint. Let me express the good taste and integrity unites in you who dwell inside.
Clothe me in color. Let nature breathe its goodness wherever it may reach. The protection of trees, the affection of vines and the warm smile of flowers—these things I need in abundance.
And let the friendly welcome of the latching trace its joyous way through the lines and colors of every room. Let me have sunshine and laughter.
Build me now, while the years are young, while we can both be happy and useful.
