Meeting Set On Youth Program

There will be a meeting this coming Monday night, Feb. 28th, in the Memorial Building on the American Legion Summer Recreation Program coming up. This project includes the Little League and Pony League.

Odus McDonnell, chairman of arrangements, stated that all parents, coaches, and other boosters are invited to the meeting Monday which will start at 7:30 in the main room. Teams will be discussed along with arrangements that are being made for the summer. Currently, team sponsors are being lined up.

A Bean Supper to be held night of Saturday, March 5, is money-raising project being promoted and tickets are being sold for \$1 each over town. Support Your Youth is theme of this sale.

Last week the County Commissioners appropriated \$1,000 for improvements to the Little League fields in the park and roping areas.

Open House Set For Public School Week

The Schleicher County Public Schools will have an Open House this coming Tuesday night, March 1, 1977, it was stated this week by the school administrators.

From 7:00 p.m. until about 7:45 there will be an Elementary Choral Program presented in the auditorium. It will be followed by parent visitations in the classrooms over the school.

Good Neighbor H. D. Met On February 17th

The Good Neighbor Club met in the home of Ruth Baker Thursday, Feb. 17, at 2:00.

The demonstration, Slow Cookery, was given by our County Agent, Nancy Lester. We learned that our regular recipes could be adapted by using one fourth less water, as the liquid does not cook away in slow cooker. The slow cooker is a great help to the woman who works. She can put on her food the night before and it will be ready for her noon meal the next day. We got to sample a meal of meat and vegetables. It was very tasty.

Flora Riley gave the report from Council, giving us needed information on meetings that are ahead of us.

We had every club member present, and Mrs. E. E. Sparks and Mrs. W. W. Gentry were visitors. The meeting closed with the club collect read in unison. —Rep.

JUNKED CARS ARE TAGGED

Several junked cars abandoned over the town of Eldorado now have pink tags affixed on them declaring a public nuisance and ordering their removal. The tags have been put out by the City Council.

If these vehicles are not removed by the owners, they can be ordered removed by the Council in 10 days.

SALDIVAR IN HOSPITAL

Moses Saldivar, who was a resident of Eldorado back in 1951 and moved to Arizona in 1953, is now a hospital patient in Glendale, Arizona, where he is being treated for cancer.

He is a relative of Juanita Arispe who operates Anna's Inn here in Eldorado and anyone wishing to donate to the Saldivar hospital fund may leave it there.

Visiting Mrs. Thelma Childers here recently were her daughter, Mrs. Irene Sudduth and son Larry David of Carrollton. Mrs. Sudduth reported seeing the spectacular explosion of the railroad cars in North Dallas a few nights ago.

Presbyterian Notes

Junior Hi Lock-In this Friday and Saturday in Midland.

The Joy Gift offering in the whole Church amounted to \$911.493. The retired servants of the Church say, "Thank you."

SPENDS TIME IN HOSPITAL

Mrs. E. H. Topliffe spent the week end in the hospital for treatment of a virus. She went home Monday.

Post Script

The political situation in regard to local governing bodies is rapidly coming to a head, with just a few days remaining for those aspiring to become school trustee, hospital trustee, or city alderman or mayor, to get their names on the ballots.

More details are given elsewhere on this page and inside this Success issue where the legal notices for the elections are being run.

How much interest develops between now and next week remains to be seen.

But at the time of this writing things are relatively quiet.

The March 3rd issue of The Success will be our annual one saluting Girl Scout Week.

We will have write-ups, etc., carrying out the theme of saluting the Girl Scouts on their 65th anniversary. The organization was founded in 1912 in Savannah, Ga.

Dry, windy weather has prevailed over this area in recent days and the firemen have been called out to several grass fires.

It is more than a month until Easter, which comes on Sunday, April 10th, and already the fruit trees are blossoming out.

If we get another freeze between now and Easter, that would kill the fruit crop for the coming months and that very thing has happened the last few years.

We had really cold winter set in last Fall, much earlier than usual and now it remains to be seen if we have an early Spring—without a freeze.

Daughter For Wests

Mr. and Mrs. Floyd West announce the birth of a daughter, their first child, in the local Medical Center on Feb. 15th. The young lady has been named Shannon Lee and weighed 7 lbs. 8 1/2 oz.

Grandparents are Mr. and Mrs. Jimmie West and Mrs. Helen McAngus and Marvin McAngus.

Great grandmother is Mrs. Lizzie McAngus.

Notified Of Brother's Injury

Mrs. Luther Henry received word Monday that her brother, Leonard Isaacs, had been injured in a flash fire at the Alcoa aluminum plant at Rockdale on Wednesday of last week. He received a broken ankle and burns and was taken to the Rockdale hospital. He is reported to be doing well at this time.

Miss Forlano Engaged To Mr. Loomis

GINA FORLANO

Dr. and Mrs. Albert J. Forlano announce the engagement of their daughter, Gina Marie, to Mr. Raymond C. Loomis Jr., son of Mr. and Mrs. Raymond C. Loomis Sr., of The Woodlands, Texas.

The couple plan to be married in Eldorado on May 14th. The bride elect is currently a student at Sul Ross State University in Alpine, Texas.

Lions Have Program On Girl Scouting

The Eldorado Lions Club held their Wednesday noon luncheon meeting with Boss Lion Walter Wallis in charge.

For the program, Mrs. J. B. Brame presented several Girl Scouts on theme of Girl Scout Week which comes early in March.

Mrs. Sauer To Be Honored On 90th Birthday With Party Sunday For Family And Friends

MRS. OTTO (LOUISE) SAUER

Mrs. Otto Sauer, 42-year resident of the Reynolds community in Schleicher county, will be honored this Sunday afternoon with a family dinner and get-together in honor of her 90th birthday, which comes on Feb. 28th.

There will be a big dinner at her home Sunday noon to celebrate her birthday, and her many friends are asked to visit her that afternoon.

Mrs. Sauer was born Louise Dinah Baethge at Live Oak Creek near Fredericksburg, on Feb. 28, 1887. Her parents were the late Henry Baethge, Sr., and his wife Hannah. Mrs. Sauer was the eldest of the 14 children born to the couple.

Her family moved to Doss where she attended school until she was 15.

On March 27, 1907, she became the bride of Otto Sauer and the couple began housekeeping on a 300-acre farm at Doss which Mr. Sauer inherited from his grandfather.

In 1920 the family purchased a ranch in Blanco county where the family resided eight years.

In 1928 after disposing of the Blanco property, Mr. Sauer purchased a section of unimproved land southwest of Eldorado from R. A. Evans.

The land was put into cultivation, a house was built, and the Sauer family have been prominently associated with the Reynolds community in the 48 years since.

The nearby Reynolds school was where the Sauer children attended the elementary grades, and subsequently they went to Eldorado High. The Reynolds school was one of several over Schleicher county consolidated into the Eldorado system about 30 years ago.

The Sauers were honored in 1957 when they observed their Golden Wedding. He died in 1959.

Of the 12 children born to Otto and Louise Sauer, 10 are still living: Emma Dannheim, Regina Williams, Cora DeLongue, Rosa Faught, Clemens Sauer, Edgar Sauer, William Sauer, Bertha Lux, Gertrude Perkins, and Irene Reynolds. Those deceased are Leola Cartwright and Victor Sauer.

Mrs. Sauer has 38 grandchildren, 39 great grandchildren, and one great great grandchild.

Of the 14 Baethge family members 11 are still living: Mrs. Sauer, Henry Baethge Jr., Willie Baethge, Alfred Baethge, August Baethge, Augusta Dunn, Lurana Hartman, Mary Faught, Lora Carter, Alma Dittmar, and Leona Wolfmuller. Deceased family members are Mrs. Minnie Faught, and Pete and Albert Baethge.

Her 90th birthday finds Mrs. Sauer still active for a woman of her age, still looking after her home place and working in her yard and garden.

Mrs. Sauer has been an active member of the Primitive Baptist Church and attends the monthly services here with some of her family.

New Store To Be Built On Sonora Highway

The corner lot on the Sonora highway—which in Eldorado's earlier days was location of Laird's garage and the Whiteley blacksmith shop—will have a new convenience food store built on it in the near future.

Burney E. Shelton of Mertzton, owner of the lots, filed a building permit in City Hall here last Thursday for erection of a new store building. The main building will be 50 by 60 feet and McRan of San Angelo reportedly is to be the contractor. It was stated that construction will take about 90 days which would place completion around the first of June.

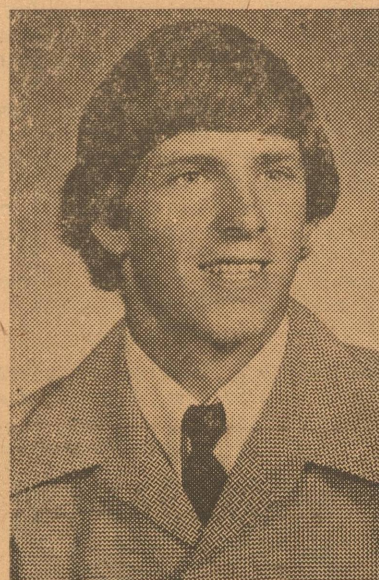

Shelton expects to lease the new store to an Ozona operator who will handle groceries, notions, and gasoline.

The location was cleared of mesquite brush and old cement foundations back around the first of the year, and there has been speculation around the business district about the future development of the corner.

Lions Club Seniors Of The Week From The 1977 Class

Band Banquet Set For Saturday Night

The Eagle Band Banquet will be held this Saturday night in the Memorial Building.

Members of the Band and their sponsors have been working all this week decorating the main auditorium room for the event.

Engagement Announced

Miss Kathy Hicks, daughter of Mrs. Erlene Hicks and Ed Hicks of San Angelo, and Billy Dean Donaldson, son of Mrs. E. G. Donaldson and the late Mr. Donaldson, are engaged to be married March 18 in the home of the prospective bridegroom's mother.

The bride elect is a 1975 graduate of San Angelo Lake View High School. The prospective bridegroom is a 1975 graduate of Eldorado High School, and attended Angelo State University. They will make their home in San Angelo after the wedding.

TENNIS GROUP TO ORGANIZE

All persons interested in an organization for tennis enthusiasts in Eldorado are invited to meet in the Lions Club room of the Memorial Building on Thursday, February 24, at 7:00 p.m.

Miss Sanders Engaged To Mr. Crawford

First Baptist Church of Eldorado will be the setting for the May 28 wedding of Miss Lynn Sanders and Steve Lynn Crawford.

Parents of the bride elect are Mr. and Mrs. Jerrold Sanders of Eldorado.

The prospective bridegroom is the son of Mr. and Mrs. Paul Johnson of Dumas.

The bride elect is a 1973 graduate of Schleicher County High School and is a senior at Texas Tech University, majoring in Home Economics Education.

The prospective bridegroom is a 1972 graduate of Tascosa High School in Amarillo and a 1976 graduate of Texas Tech University. He is employed by LaQuarta, Gavel and Kirk, Inc., in Dallas.

SCHOOL MENUS—

(All meals served with buttered rolls & milk.)

Monday, Feb. 28: Baked ham, hominy, candied carrots, cowboy cookies.

No Applicants For Mayor — Yet

In talking with City Secretary Phil Olson Monday, no applicants had yet filed for the position of Mayor of Eldorado.

The position has a certain degree of honor and leadership but does not command a salary. The Council voted several years ago to do away with the salary. Still there are responsibilities and the usual gripes. In the past months there were complaints of lack of gas pressure, and lately there have been gripes about dogs running loose.

Raymon Mobley has done a good job as Mayor during the past two terms, and he ought to be commended. The citizens of Eldorado would like to see another public-spirited leader to offer to take the job.

In addition there are three aldermen: Bill McCravey, Bobby Sykes and Bein Joiner, who need re-election or replacement. The deadline for filing is next Tuesday, March 2nd, for names to be filed with the City Secretary.

They will probably wait until the last minute — like they did the last time!

School Trustee Election

To those for School Trustee, the deadline for getting your name on the ballot is also next Tuesday, March 2.

You must file your application with Leslie Baker, secretary of the school board.

The trustee positions to be filled this year are presently held by: Lynn Meador, and Billy Williams.

There is no salary for these jobs either, and the election is wide open.

Hospital District Election

The election for Hospital District director is somewhat different from the other two local elections.

To get your name on the ballot you must file a petition signed by lot less than 10 legally qualified voters. (Read the notice on page 6.)

Three directors are to be chosen at the April 2 election. Terms of Winnie Jackson, Evelyn Wimer, and Raymond Hall expire.

The secretary is E. C. Peters.

Bean Supper Set For Summer Youth Program

A bean supper will be held Saturday, March 5th, at the Memorial Building, upstairs, from 5:30 to 7:30 p.m. The bean supper is being held to raise money for the American Legion Summer Youth Program, better known as little league and also the girls teams.

Tickets are \$1 (for all the beans you can eat) and the beans are served with cornbread, onions, jalapena peppers and iced tea.

Homemade pie will be available for 40c extra.

Tickets are now being sold and can be purchased from any member of the board, who are: Odus McDonnell, Zane Miller, Jan Miller, James Head, Ronnie Sauer, Albert Torres, Betty Romero, Betty Caviness, Bill Gunstead, Charlene Gunstead, Juanice Orr and A. G. McCormack.

Tickets will also be available at the door.

Methodist Notes

The upstairs den in the parsonage was renovated recently and was paneled. Those helping with this included Lawrence Steen, De Lux, Freddie Williams, Lawrence Newport, Bob Bland, and the pastor, the Rev. Keith Wyatt.

The Dorcas circle met Monday with Mrs. Luke Thompson.

The Young Couples class met Wednesday night in the parsonage for continued study on the service of Communion.

New trees and rose bushes have been placed on the church grounds with the efforts of Lawrence Steen, Elton McGinnes and Junior Isaacs.

A pink and blue shower will honor Mrs. Wyatt Monday night, Feb. 28th, from 7:30 to 8:30 in the Jo Ed Hill home.

Stock Show & Rodeo Are Under Way In Houston

Fifteen members of the Schleicher County 4-H Club will be competing in the 1977 Houston Livestock Show and Rodeo. A total of nine beef heifers, seven market steers, two market lambs and one market barrow will be entered by the group. Their county extension agent is Jerry D. Swirt.

The Livestock Show opened Feb. 23rd and runs through March 6, with rodeo performances every night in the Astrodome beginning Feb. 25.

The second week of the '77 Show will be devoted to competition among junior exhibitors of all major beef and dairy breeds, swine, sheep and goats, rabbits and poultry. It is the largest junior livestock show in the country.

Members of 4-H and FFA groups from all sections of Texas, along with adult exhibitors, will contend for a record total of \$510,363 in premium money to be awarded at the show. Approximately 20,000 entries are expected.

Tommy Minor and Michael Mertz will compete in the calf scramble.

Sweet Spanish Onions Available

Huge, mild flavored Sweet Spanish onions from Oregon and Idaho are in plentiful supply from September to March, ready to add their delightful flavor to a variety of dishes. These "gentle giants" are always a tasty accompaniment to meat and poultry entrees and Onion Zucchini Torte is no exception.

To prepare the torte, chopped Sweet Spanish onions and grated zucchini are sauteed in butter, then combined with cracker crumbs, beaten egg, cheese and seasonings. The mixture is baked in a pie plate until golden, then cut into wedges to serve.

Idaho-Oregon Sweet Spanish onions are easily recognized by their large, round shape and thin, golden bronze skin which crackles to the touch. Store the onions in a cool, dry place and, after cutting, keep them in a plastic bag in the refrigerator. Or, chop and freeze for use throughout the year.

Onion Zucchini Torte

- | | |
|---|--|
| 1 pound Idaho-Oregon Sweet Spanish onions | 1/4 cup grated Parmesan cheese |
| 1 1/2 pounds zucchini, grated | 1 teaspoon salt |
| 3/4 cup butter | 1/4 teaspoon pepper |
| 1/2 cup cracker crumbs | 1/2 cup Sweet Spanish onion rings, for garnish |
| 2 eggs, beaten | |
- Peel and chop onions. Saute onion and zucchini in butter. Cool slightly. Add cracker crumbs, eggs, 3 tablespoons grated Parmesan cheese, salt and pepper. Turn into buttered 9-inch pie plate. Sprinkle with remaining cheese. Bake in a 350-degree oven 40 to 45 minutes, or until set. Garnish with onion rings. Cut into wedges to serve. Makes 6 servings.

WINNING HEROES OF AMERICA

Computer Programmers

In this country alone there is estimated to be one computer for every 1,100 persons—about 200,000 computers in all. Not only are hundreds of thousands of programmers needed to operate these time-saving machines, but each year—according to the U.S. Center for Education Statistics—more than 3,000 students graduate from colleges with bachelor's degrees in computer and information sciences.

INTERESTING PROGRAM—Computer programmers work in many fields, including physics, astronomy, business and weather forecasting.

The first computer programmer (even though the term was not invented then) was probably Charles Babbage, a professor of mathematics at Cambridge University who had the idea of building an automatic computer in 1812. It was never constructed.

In fact, it wasn't until 1944 that the first general purpose automatic digital computer was built at Harvard by IBM. Today, IBM technicians have developed a small but versatile computer, called Series/1, which though designed in 19 inch units, is able to store from 250,000 to 500,000 letters or numbers, giving it many applications in many fields.

Our programmers, too, are never without interesting fields to work in. They and their computers can be seen in scientific and engineering fields, business, physics and astronomy. They even work in weather forecasting, which makes for quite a versatile program.

"A good spectator also creates."
Swiss Proverb

Sick Pay Benefit Now Virtually Eliminated

Dallas, Tex.—The tax benefit allowing an individual to exclude a certain amount of sick pay from tax each year has been virtually eliminated and replaced with a much narrower provision.

The new change in the law, retroactive to January 1, 1976, does away with the up to \$100 a week sick pay which, under certain conditions, an employee could exclude from taxation.

Now, an exclusion is only allowed for persons under age 65 who retire with a permanent disability. Such an individual can exclude from taxation up to \$5,200 a year of disability income.

The \$5,200 maximum exclusion is reduced once income reaches \$15,000 and phases out when income reaches \$20,200.

Taxpayers can find additional information in Publication 522, "Tax Information on Disability Payments" and by checking the instructions in their tax packages.

LETTER & LEGAL rag bond paper is for sale in ream boxes at The Eldorado Success.

The Purple Heart medal was originated by George Washington in 1782. Only three or four were awarded during the American Revolution.

Breakfast Your Way To A Better Day!

What did you have for breakfast this morning?

A cup of coffee? Coffee may wake you up and put a little temporary pep into you, but it's a stimulant, not a food. And your body needs food—real food, to start you off for the day.

Research shows we do better work on the job or in school when we eat a good breakfast. It's time to checkup on your breakfast habits if you or members of your family:

- Are irritable or cranky during the morning.
- Tend to suffer headaches or that "mid-morning slump."
- Seem to gain weight even when skipping breakfasts. (Studies reveal that people don't necessarily lose weight by skipping breakfast.)
- Feel that your fingers are "all thumbs." (Hungry tissues suffer poor muscle coordination, leaving us more prone to accidents!)
- Notice that your children aren't doing as well in school as you think they should be.

While planning your breakfast menu, Tupperware Home Parties suggests that you put the emphasis on quality rather than quantity by including foods from each of the Basic Four Food Groups: Meat, Vegetable-Fruit, Bread-Cereal and Milk.

A Basic Four breakfast will make you feel better, work better, live better. Why not try the following wake-up recipes and find out for yourself?

- Quick Cranberry Coffee Cake**
- 3 cups commercially prepared baking mix
 - 3/4 cups sugar
 - 1 teaspoon cinnamon
 - 2 eggs, beaten
 - 3/4 cup milk
 - 1 cup cranberries, chopped
 - 1/4 cup sugar

Add sugar and cinnamon to the mix; stir a few strokes. Mix cranberries with 1/4 cup sugar. Add to flour mixture. Mix the eggs and milk and add to dry ingredients. Stir until flour is moistened, but the mixture still looks somewhat lumpy. Pour into two 8-inch greased pans and add the topping. Bake at 400 degrees F. for 25 to 30 minutes. For variation, use one cup chopped nuts instead of or with cranberries. Makes two 8-inch cakes. To insure freshness, store or freeze leftover cake in sealed plastic Tupperware container.

Topping

- 1/2 cup brown sugar
- 2 tablespoons flour
- 1/2 teaspoon cinnamon
- 3 tablespoons butter or margarine

Mix together and sprinkle over top of Quick Cranberry Coffee Cake batter before baking.

Fried Apple Rings

Melt 1/3 tablespoon butter or margarine in skillet which has a tight-fitting cover. Use McIntosh, Wealthy, Yellow Transparent, Greening, Courtland or Jonathan apples. Do not peel. Wash, core and slice 1/4-inch thick rings into melted butter, enough to cover skillet. Sprinkle lightly with salt. Cover and cook over low heat until apples are tender and look transparent. Turn once or twice as needed. A little sugar, cinnamon sugar or dash of nutmeg may be added if desired. Do not overcook. A delicious accompaniment to any meal!

Notice Of School Trustee Election

The Board of Trustees of the Schleicher County Independent School District have approved a resolution calling for a school trustee election for Saturday, April 2, 1977.

Positions to be filled this year are presently held by Lynn Meador and Billy Williams. The term of office is for three years.

Candidates must file their applications with Mr. Leslie Baker, Secretary of the School Board of Trustees. March 2, 1977, is the filing deadline.

Mrs. Sharon Mittel will be clerk for absentee voting starting on March 13 and ending March 29 at the High School office.

Tea For One

When you're sitting down to tea alone, why not steep yourself in elegance?

Consider making an individual serving of your favorite tea in a tempting little teapot to enrich moments spent alone. The cup turned upside down becomes an unusual lid in this compact tea serving created by famous British designer Martin Hunt for Bing and Grondahl, the Danish porcelain makers.

It's something different brewing on the tea scene.

Linoleum was patented in 1863 by Frederick Walton, an English rubber manufacturer.

Over 30 Area Scouts To Attend Nat. Jamboree

Four Scout Leaders of the Concho Valley Council, Boy Scouts of America were recently appointed as troop Scoutmasters for the 1977 National Scout Jamboree by James Young, council jamboree chairman.

They are: Robert G. Humburg, Scoutmaster, San Angelo; Chris Hagelstein, Assistant Scoutmaster, Sanderson; Roy D. Armstrong, Assistant Scoutmaster, Ft. Stockton; John W. Campbell, Assistant Scoutmaster, Fort Stockton. The leaders will direct a provisional troop of 36 boys during the famed outdoor Scouting spectacular, scheduled for August 3-9 at Moraine State Park near Butler, Pa.

The contingent members, selected by the council jamboree committee primarily for their outstanding leadership qualifications, will participate in the jamboree with thousands of other Scouts and leaders from across the nation and around the world in a myriad of skill contests and special events.

"Through involvement in this event, our troop members will learn new program ideas that will benefit not only themselves, but their fellow Scouts and Scouters as well here in the Concho Valley Council," said Young. "They will share jamboree program tips with others on the troop, district, and council level upon returning home."

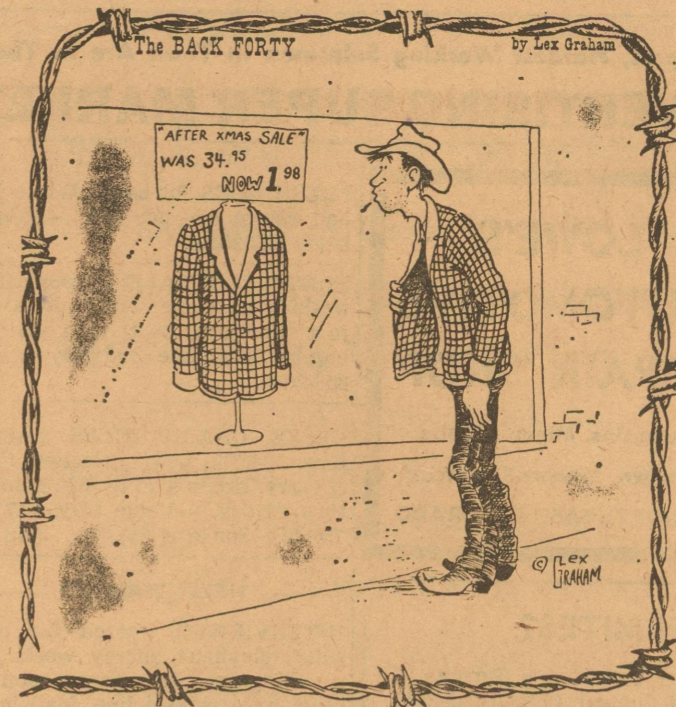

Included among the many jamboree activities will be patrol and individual competition, a merit badge midway and county fair, water sports, national exhibits, cultural centers, conservation instruction, youth forums, friendship exchanges, and wide games.

Adding sparkle to the overall program blueprint will be a number of innovations, such as an electronic fox hunt and contest in metric measurement.

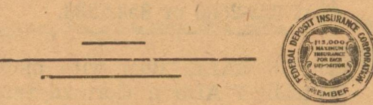

To help contingent members get the best out of their upcoming adventure, the council jamboree committee has scheduled a pre-jamboree training experience for them during July 15-17 at Camp Sol Mayer.

Currently, two more Scouts are needed to round out the Concho Valley Council jamboree contingent. Persons interested in applying for a position should contact the council service center at P. O. Box 1584, 104 Park Drive, San Angelo, Tx 76902 to request consideration. The phone number is 915/655-7107.

There will be a series of Jamboree information meetings with the Jamboree leaders held in February and March for interested Scouts and their parents in San Angelo, Fort Stockton and at Camp Fawcett. The first meeting was on Sunday, February 20, at Fawcett; then Sunday, February 27, 3:00 p.m., Pecos State Bank, Ft. Stockton; and Sunday, March 6, 3:00 p.m., Council Service Center, 104 Park Drive, San Angelo.

We can offer you a bargain in financing your new auto or truck. Don't pay higher than bank interest rates. Our rates are real bargains.

Of Eldorado

GREAT Moments in Music

A great moment in music was a great moment for America.

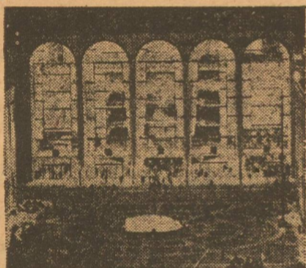

The year was 1883 and the event was the grand opening of New York's Metropolitan Opera House. Gounod's *Faust* was the production that lit up the great stage and resounded through the grand red and gold hall that came to be called the "Golden Horseshoe."

The Met has always had a star-studded history. Perhaps its most famous star was Enrico Caruso who made his debut in 1903 in Verdi's *Rigoletto*. Other world-famous Metropolitan artists include Beniamino Gigli, Ezio Pinza, Jussi Björling, Maria Callas, Cesare Siepi, Birgit Nilsson, Leontyne Price and Luciano Pavarotti.

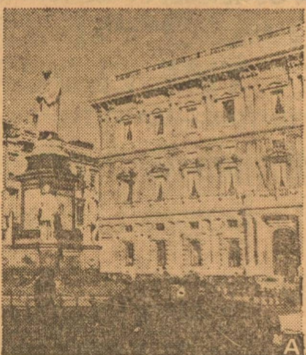

Today the Metropolitan Opera has its home in a beautiful new building at Lincoln Center, which opened in the fall of 1966 with a gala production of Samuel Barber's opera *Antony and Cleopatra*, written especially for the occasion and starring Leontyne Price and Jess Thomas. Among the Met's finest achievements in recent years is a complete production of Wagner's *Ring* directed by Herbert von Karajan, a new production of *Aida* and Rossini's *The Siege of Corinth*, staged for Beverly Sills.

Practically every time the golden curtains of the Met open for a performance it is a great moment in music. Yet now the Met needs financial help.

Fortunately, a person doesn't have to be a millionaire to be a patron of the arts. Through a special

METROPOLITAN OPERA—Though considered by many the world's finest, the Met still needs financial help.

LA SCALA IN MILAN—It's a famous rival of the Met, along with Covent Garden, the Paris and Hamburg Operas.

matching contributions program sponsored by Pioneer High Fidelity and the National Endowment for the Arts, every donation from the public to the Met will be quadrupled.

For every dollar donated, an additional three dollars will be given to the Met. Contributions can be placed in special counter displays located in all Pioneer dealer stores or can be sent directly to U.S. Pioneer Electronics Corp., Dept. M.E.T., 75 Oxford Drive, Moonachie, N.J. 07074.

UNITED PENTECOSTAL CHURCH will conduct the services this Sunday afternoon, Feb. 27th, at the Nursing Home.

Miss Hicks To Marry Mr. Donaldson In March

The engagement of Miss Kathy Hicks, daughter of Mrs. Erlene Hicks and Ed Hicks of San Angelo, and Billy Donaldson, has been announced.

The prospective bridegroom is son of Mrs. E. G. (Sandy) Donaldson of this place, and the late Mr. Donaldson. The couple plan to be married March 18th.

A Gift Coffee will honor the bride-elect on Saturday, Feb. 26, from 10:00 to 11:00 in the home of Mrs. Junior Isaacs.

Mrs. Shirley Trimble was in Dallas Friday attending market for her fabric shop.

Tea was introduced to America by the Dutch.

HOME LAUNDRY

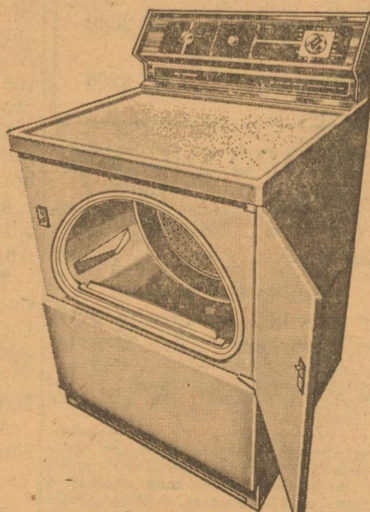

Wash and dry a full load, but never overload... it is essential for each item to move freely for proper cleaning and drying.

Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.

Too much detergent can clog machine and drains... always measure, don't guess!

Follow the manufacturer's recommendations for your type equipment.

Mixing brands of detergents can cause graying of clothes.

Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can help preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!

Highlights and Sidelights FROM THE STATE CAPITOL by Lyndell Williams Texas Press Association

Austin, Tex.—Texas homeowners may be in for an increase in their insurance rates. Insurance companies, at a hearing last week, asked for an 8% statewide average raise in homeowner policies, citing costs of construction and general inflation. Board of Insurance statisticians will present their own recommendations at a March 9 hearing. New rates would become effective with policies written or renewed in July. In the past the board usually has adopted rates lower than those sought by the industry. Lumping fire, homeowners and extended coverage together, the industry seeks a 6.6% average hike in premiums charged building owners. The board ordered two rate increases last year—4% average statewide in July, following a 6.9% hike in February. Industry recommendations would result in \$19 a year increases on one-year \$25,000 homeowners policies in some large cities.

Pipeline Bill Moves Coal slurry pipeline legislation zoomed through committees in both houses and landed on House and Senate calendars. The measures would grant coal pipeline companies power to condemn land for right of way and place them under Railroad Commission supervision. Slurry pipelines would transport finely-ground coal mixed with water. Coal is sifted out and dried at the end of the line and used as fuel for power plants. Houston Natural Gas Corporation proposes to build a \$516 million, 1,000 mile pipeline from Colorado coal fields to Angleton on the Texas coast. Texas railroads, major opponents, say the pipelines would take business from them, and the issue is an interstate one which should be passed on by congress, not state legislatures.

Allowable Set Texas Railroad Commission signaled all-out production of oil during March. That raises the allowable 2%—from 98% during February and January. It was trimmed to 99% in December—the first time since April 1972 when it had been placed at less than 100%. "This commission will not be tempted to play politics with the present energy crisis by now setting the allowable at 98% or by reducing it to a level below 85%," said Commissioner Jon Newton at the statewide oil and gas hearing last week.

TS&GRA Delegates Discuss 'People' Problems At Austin Meet

In our increasingly complex society, agricultural producers are learning that the greatest problems they face are not always those posed by nature, but by people. While natural laws have remained constant and basic, laws created by man change frequently and become more and more capricious. Much of the discussion during the Texas Sheep & Goat Raisers' Tri-annual Meeting in Austin concerned itself with this problem. Texas Governor Dolph Briscoe offered an excellent example in his address at the meeting. "Having gotten into the eagle situation a bit," he remarked, "I am familiar not only with the difficulty of raising a kid and lamb crop, but also the difficulty of dealing with the Federal bureaucracy in trying to do so." Briscoe, of course, was referring to federal laws limiting control of predatory eagles, but the problem is not confined to the feathered festers. Federal involvement in land use control is one area that concerns agricultural producers, and Tax and Labor Committee chairman Joe Mertz outlined new developments in this area. Mertz said that Congressman Morris Udall, chairman of the House Interior Committee, has increased the size of the committee and restructured the subcommittees. "All the new members," said Mertz, "are environmentalists or conservationists. We will have no chance of defeating these bills in committee any more." With the Federal penchant for overkill, sheep and goat raisers, not to mention other producers, may someday face very detailed Federal control of their activities on their own land, all in the name of protecting agricultural land from urban sprawl. Federal estate tax provisions are greatly to blame for the loss of productive land in the first place. One Federal law, however, received offhand and relative approval by Mertz. While agriculture as a whole has fought inclusion under the National Labor Relations Act, Mertz pointed out that a recent California state law gives union organizers free access to private lands for the purpose of unionizing workers. "We feel," he added, "That the National Labor Relations Act would have been of more benefit to them than what they are facing on a state level," referring to West Coast producers. Mertz said he feared the spread of such laws to other states. Health and Product Development Committee Chairman Martin Wardlaw alluded to yet another governmental problem. New blue tongue and sore mouth drugs may never materialize, he explained, "Because it would cost about \$10 million to clear a new drug product." The clearance problem is based on the Federal opinion that no product is safe until proven so. Theory tells us that it is impossible to prove a negative assumption, though this must be done before a drug is approved for marketing.

For over 200 years, the citizen-soldier has been trained and ready, to keep our nation free. This tradition continues today, among the men and women who serve part-time in the Army Reserve. If you'd like a place in history, contact your nearest Army Reserve unit today. We're in the White Pages of the phone book under U.S. Government.

When you are away from home leave your radio on. A radio uses little electricity and gives the impression that your house is occupied.

Birds never choose their mates without going through a ceremony of courtship.

Little Known Facts About Gold

Gold coins have rapidly become big business in recent years, expanding far beyond collector and even big gold investor circles. Thousands of Americans have become interested in owning the precious metal.

Over half of all the gold bought by investors last year was in the form of gold coins such as the Hungarian and Austrian Crowns, the Mexican 50 Pesos and the Kruggerand. Close to 5 million Kruggerands were sold, making it the world's most popular gold coin. Gold coins are often preferred because they come in attractive, easily stored units that can be traded without being assayed.

To the growing ranks of gold coin buyers, the weight of a coin is much more important than the denomination shown on its face. Such markings as "Mexican 50 Pesos", "Austrian 100 Crown", and "Hungarian 100 Crown" no longer tell the buyer what he or she really wants to know—the gold content of the coin.

Austrian and Hungarian Crowns were part of the currency system of the old Austro-Hungarian Empire which ceased to exist in 1915. Today, Crowns dated 1915 and weighing just under one ounce are being sold by the governments of Austria and Hungary to capitalize on the market for gold coins.

Similarly, the 50 Pesos coin, which weighs just over one ounce and was originally issued in 1921 to mark the 100th anniversary of Mexico's independence, is minted by the Mexican government in quantity to meet today's free market demand for gold.

These coins, known as "restrikes" and valued for their gold content, are based on earlier coins used by their

respective countries, now treasured because they are rare.

The Kruggerand, newest and most popular of the world's gold coins, has no denomination on its face at all, but bears the inscription "1 Oz. Fine Gold".

The Kruggerand is world's most popular gold coin.

It contains one troy ounce of pure gold (total weight 33.93 grams or 1.0909 ounces, fineness: 916.6, 22 carats). The Kruggerand is regularly minted by the South African government in large quantities, is legal tender and has a floating value based on the latest market price of gold.

The Kruggerand's fine gold content of exactly one ounce is unique among gold coins and is convenient to buyers since its value closely parallels the daily gold price quoted in many newspapers.

South Africa began exporting the Kruggerand in November 1970. During the next three years, just under two million Kruggerands were sold. In 1974, sales increased to over three million coins, and in 1975, almost 5 million Kruggerands were sold.

Kruggerands bearing the date of each year of issue from 1970 through 1976 are becoming popular with coin collectors.

IRS Urges Taxpayers To Check Tax Returns

Taxpayers should double-check their tax returns before filing since errors can slow processing and delay any refund that might be due, the Internal Revenue Service said.

Some of the most common taxpayer mistakes on tax returns include mathematical errors, use of the wrong tax table or schedules, and failure to sign the return or to attach all necessary documents.

The IRS urged taxpayers to use the peel-off label that comes with the tax package on their returns in order to avoid possible social security number errors. Taxpayers can also save time and speed up processing by mailing their returns in the coded, preaddressed envelope found in their tax packages, according to the IRS.

Jim Hill Is President Of Bank At Commerce

James E. (Jim) Hill, a 43-year-old Austin bank executive, assumed the presidency of the First National Bank at Commerce on Feb. 7th.

He graduated from Eldorado High School in 1952 and his parents were Mr. and Mrs. L. M. Hill.

He has served 17 years in banking and related fields. He and his wife, Joyce, have two children. A son, Russell, is a freshman at Southwest Texas State University, and a daughter, Lacy, is a junior in high school.

SHOWER HELD MONDAY NIGHT

A pink and blue shower was held Monday night in the Presbyterian Church in Sonora for Mrs. Karen Boatwright. The shower was given by Jo Ann Jones and Nancy Schenkel. Mrs. Boatwright and her husband, Mike, make their home here in Eldorado.

Homemaking At A Glance

by Nancy Lester

Ten members of the Schleicher County 4-H Club participated in the District Seven 4-H Food & Project Show which was held in Fredericksburg this past Saturday. Project show participants were Karriom, Margaret Turner, and Deanna Yocham. Kara was awarded a blue ribbon and was also recognized as high point individual in the Home Environment Division. Margaret and Deanna were also blue ribbon winners in the Home Environment Division.

Food Show participants were Jill Pitts, Sandra Miner, Lori Patton, Lou Ann Turner, Cynthia Schooley, Judy Pitts and Patti Hausenfluck. Blue ribbons were awarded to Sandra, Lou Ann and Judy. Jill, Lori, Cynthia and Patti were awarded red ribbons. Judy Pitts was recognized as second high individual in her division and is first alternate to state in the Breads and Desserts division.

Others from this county who attended were Mr. and Mrs. Billy Hausenfluck, Cindy and Jeffrey; Mrs. Jo Ann Turner, Mrs. Sherry Miner, Mrs. Kay Patton, Mrs. Pat Pitts, Mrs. Claudine Yocham and Mrs. L. G. Schooley.

Next Wednesday, March 2, Joyce Drake with West Texas Utilities will be in Eldorado to present a Laundry Workshop. This is planned for 10:00 a.m. at the Memorial Building. If you will bring a sample of water Joyce will be happy to test it for hardness and make recommendations. Also if you have clothing or fabrics with which you have problems bring these also. Joyce will be giving information on laundry additives and stain removal. This should be a very excellent program. I hope all of you will plan on attending.

Last Monday morning the new Home Demonstration club that has been formed met at the home of Dorothy Dacy for a program on slow cookers. Members present were Rita Lloyd, Dorothy Dacy, Ise Williams, Sheila McClure and Melanie Reynolds. Mrs. Patsy Kellogg also attended. Dorothy Dacy was chosen to represent the club on the County Home Demonstration Council.

Nutrition is a subject which is currently in the news! I thought this week you might like some information on Vitamin E.

Some people seem to think it is a regular cure-all. Supposedly it prevents old age, improves deodorant protection, helps cure heart disease, diabetes, ulcers and varicose veins and prevents sterility.

These and numerous other claims for vitamin E have been made during recent years, increasing sales and giving people false hopes that the end to their troubles is only a vitamin E tablet away.

Much remains to be known about the mysterious vitamin E. Perhaps this is one reason there is so much speculation as to its properties and functions. An understanding of vitamin E is further complicated because a variety of other nutrients are capable of performing some, but not all, functions of the vitamin, and in some, but not all, species.

Vitamin E was identified as an essential nutrient more than 50 years ago when it was found that rats deprived of the vitamin showed reproductive failure and disorders. Vitamin E is a fat-soluble vitamin, as are vitamins A, D and K.

Vitamin E is unique among all the vitamins in that it is widespread in nature and is prevalent in most of the foods we eat. Deficiencies of vitamin E are rarely seen in adults.

County Extension Agent's Column

College Station, Tex.—The battle against the screwworm has been long and hard, and now a special campaign is being planned to deal a final death blow to the tenacious livestock pest.

Called "Mission '77: Stamp Out Screwworms," the campaign is designed to create a new vigilance on the part of livestock producers in handling and treating livestock to eliminate the screwworm completely from Texas in 1977. The special effort will be launched at a conference called by Gov. Dolph Briscoe in Austin.

"Through a concerted effort by producers and an effective educational program to promote this campaign throughout the year, this goal can be reached," emphasizes Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service.

"The Extension Service is totally dedicated to this effort and will continue to support the screwworm eradication program to its utmost," he points out. "Our county agents will continue to work closely with producers to emphasize regular livestock inspections, treatment of wounds and the sending of worm samples to the Mission Lab for identification."

Pfannstiel believes the campaign against screwworms can be successful this year due to several factors:

—The cold winter will reduce the number of screwworm flies this spring.

—The new screwworm plant in Tuxtla Gutierrez, Mexico, which opened last July will double the sterile fly production capacity.

—A new strain of sterile flies has been developed which should be a significant improvement over earlier flies.

"With these factors working to our advantage, we appear to be on the threshold of stamping out screwworms in Texas," contends Pfannstiel. "If we can all join together and get the jump on the battle against screwworms this spring, then our fight should be

successful. This will be a tremendous victory for Texas agriculture."

Controlling Ear Ticks

College Station, Tex.—Texas cattlemen have an extremely important role in controlling an old nemesis—the screwworm—and a relatively but equally destructive pest—the Gulf Coast ear tick.

Together, these two pests have been a terror to livestock producers the past several years, especially in southern parts of Texas. And the problem has now spread to eastern sections and the Hill Country.

But all is not lost. There is help at hand, thanks to work during 1976 by entomologists with the U. S. Department of Agriculture, the Texas Agricultural Extension Service and the Texas and Oklahoma Agricultural Experiment Stations.

With the newfound technique for controlling the Gulf Coast ear tick and the application of sound management practices by cattlemen, a severe blow can be dealt to one of their major production problems.

Rural Land Values Continue To Rise

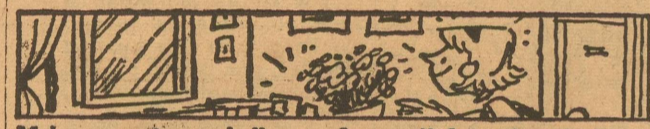

College Station, Tex.—Rural land values continue to increase over the United States although the rise hasn't been as fast in Texas as in the Midwest.

Citing U. S. Department of Agriculture figures, Dr. Wayne Hayenga points out that farm real estate values jumped 17% for the year ending Nov. 1. However, the increase in Texas was only about 7%.

The sharp increase raised the U. S. average price per acre for rural land from \$380 to \$445.

Hayenga, an economist for the Texas Agricultural Extension Service, notes that agricultural land values have been spurred mainly by strong farm income as a result of increased demand for agricultural products, especially from foreign countries. The increased demand has maintained steady prices despite large crops.

The A. G. McCormack family spent the week end in Tyler where they visited his brother.

Make an entrance hall out of a small foyer by placing a mirror over an ornamental shelf.

ON SUL ROSS DEAN'S LIST

Alpine, Tex.—Two Sul Ross State University students from Eldorado have been named to the Dean's List for the 1976 fall semester. They are: Gina Marie Forlano, daughter of Dr. Albert Forlano, and Roy Wilson Jones, son of Mrs. Jack Jones. These students are among 250 students named to the list by the University's Academic Affairs Office. In order to qualify, students must have maintained a 3.0 or better grade point average for the semester.

Soil Conservation Association To Meet

Temple, Tex.—Dr. Daniel C. Pfannstiel, director of the Texas Agricultural Extension Service of the Texas A&M University System, will be the principal speaker at the Hill Country Association of Soil and Water Conservation Districts meeting to be held February 28, in Fredericksburg, Texas.

Lewis Scherer, Jr., president of the association, said that the meeting will begin at 6:30 p.m. at the Pioneer Pavilion in Lady Bird Johnson Park.

Dr. Pfannstiel's topic, "Texas Agriculture—A Rich Heritage, A Bright Prospect," will focus on the importance of Texas agriculture and why the industry is destined to play an even more important role in the future of the state's economy.

Seventeen soil and water conservation districts are members of the association, including Eldorado-Divide headquartered here in Eldorado.

Advanced Lifesaving Course To Start

The Red Cross will sponsor a class for persons wishing to take advanced lifesaving. The class will begin 6:30 p.m., Tuesday, March 1, 1977, at the Central High School pool in San Angelo. There is no charge for the course and the only prerequisites are being at least 15 years of age and being a good strong swimmer.

Those wishing to take part in this course should call the Red Cross office at 653-5909 from 8:30 a.m. to 4:30 p.m.

Notice Of Hospital District Election

Notice is hereby given that the annual Director election of Schleicher County Hospital District will be held on Saturday, April 2, 1977.

The present law requires that any person desiring his name to be printed on the ballot as a candidate for director shall file a petition, signed by not less than 10 legally qualified voters, with the secretary of the board of directors, asking that such name be printed on the ballot. Such petition shall be filed with such secretary at least 25 days prior to the date of election; such date this year being March 8th.

Three directors are to be chosen at the April 2 election. Terms of Winnie Jackson, Evelyn Wimer, and Raymond Hall expire. The term of office is for two years.

E. C. PETERS, SECRETARY

USE FIREPLACE FOR FUEL-SAVING COMFORT

Next time you turn down the thermostat, use your fireplace instead of an extra sweater and earmuffs to keep you comfy. A crackling fire is a lot more romantic and fun. You can also take comfort from the fact that wood is our one renewable source of heating fuel.

A woodburning fireplace can help conserve hard-to-get, expensive fuels says the Fireplace Institute, if you use it properly and have it equipped to sustain a good, long-lasting blaze.

The Institute, an association of fireplace manufacturers and distributors, offers these tips for making your fireplace more useful and enjoyable:

Select dry or "seasoned" wood. Wood with a high moisture content is one of the reasons for a smoky fire or a fire that is difficult to sustain. If you collect scrap wood, fallen branches or twigs for kindling or firewood, let it dry out for best results. Besides being difficult to burn, green wood produces wood tar and other extracts which may condense in the flue and eventually cause a chimney fire.

variety of sizes and styles. A fireplace equipment dealer can help you select one that's the right size and will give the most satisfying service.

Use sturdy non-combustible tools to tend your fire. To keep your fire burning brightly, you'll need to shift the logs or add more wood. Use a poker and tongs to avoid burns and singed clothing.

Equip your fireplace with a screen. Fireplace shops offer screens in a variety of designs from colonial to sleek modern. They're dress up a fireplace but, more important, provide safety from popping sparks or hot embers.

Use a mixture of hard and soft woods. Soft woods ignite more quickly and make a hotter fire but they also are consumed more quickly. Combine soft and hardwood logs for a longer-lasting fire.

Never use combustible fluids to light a fire. Start your fire with kindling, adding more if logs are slow to ignite. A little practice will give you the knack of starting a fire that burns steadily in your fireplace.

Use a sturdy grate that fits the fire chamber (the space in which the fire burns). The grate holds the wood off the floor of the fire chamber, allowing for air circulation. Grates are available in a few hours.

Keep the hearth clear of combustible material. The Fireplace Institute's Book of Recommended Installation Practices calls for a brick, slate or stone hearth of at least 16 inches in front and 8 inches beyond each side of a 6 square foot fireplace opening.

A nice, safe crackling fire can do more than warm your bones; it can help you forget fuel shortages and heating bills—at least for a few hours.

City Election Notice

AN ELECTION HAS BEEN CALLED FOR SATURDAY, APRIL 2, 1977 IN THE CITY OF ELDORADO FOR THE PURPOSE OF ELECTING MAYOR & THREE ALDERMEN TO SUCCEED—

- RAYMON MOBLEY — MAYOR
 - BILLY McCRAVEY — ALDERMAN

BUILDING A BETTER WORLD

"Miracle" Tunnel Designated A Landmark

THE CROZET TUNNEL—This 4,273 foot tunnel, completed in 1858, represents the culmination of civil engineering technology when based on manual drilling methods. It was the longest railroad tunnel in the United States and was designed and built by Claude Crozet.

If you built tunnels in the sand as a child, you may remember digging on one side while your friend dug on the other and you both hoped your hands would meet in the center.

Well, Virginia's Crozet Tunnel, completed in 1858, was built something like that but on a much larger scale—the tunnel is 4,273 feet long. Designed and built by Claude Crozet, a French-born civil engineer, the tunnel, located in Rockfish Gap, Virginia was considered something of a minor miracle and it has been recently designated a National Historic Civil Engineering Landmark by the American Society of Civil Engineers.

Through its linkage with the Ohio River Basin and Southern Ports, it greatly facilitated the development of ocean-borne commerce in the South.

The tunnel was built during a period of ridicule and insult for Crozet with people betting large amounts of money that the workmen

digging from east to west, almost a mile apart on a curved path, would not meet in the middle. Yet, during a period when tunnel building was no routine matter, Crozet's engineers and workmen steadily and laboriously bored ahead.

It was almost entirely a handwork job. Crozet had no high-speed rock drills nor mucking equipment essential to modern tunnel building. Dynamite was yet to be discovered (in 1866 by Alfred Nobel). Added to the problems of tunneling without the benefit of compressed air, mechanical shovels or pumps, dump cars or adequate explosives were rising costs, unsettled land damages, the financial crisis of 1855, and political pressure, as well as construction difficulties such as rock slides.

Not only did Crozet meet these difficulties with characteristic patience and ingenuity, but also with precision—for when the workers holed through 120 years ago, the two shafts met squarely.

FOR THOSE WHO FOLLOW

THE CHURCH FOR ALL...
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Imagine picking your way along a frozen wilderness trail. You're bitterly cold, but see no sign of human habitation, mile after terrifying mile.

Then, thanks to someone who's already gone this way, you come upon a crude shack. Even with shelter you could still freeze to death, but you find wood already gathered for a fire.

Later, before venturing on, you too pile high more wood for someone yet to come.

No matter who you are—or where—your life marks a trail that someone is following. Along that way is the Church—a haven from storms of the world.

Yet the building alone is not enough. It must have people to work in it and to gather fuel for the fires of faith.

Begin today to support and strengthen the Church for those yet to come.
