TO PREACH TO PRESBYTERIANS
Preaching this coming Sunday morning, July 10th, at the First Presbyterian Church here will be Jack Robinson of Austin Seminary.

Mr. and Mrs. Rance McDonald returned Friday from a trip to the Valley where they spent several days.

Dr. and Mrs. Harold Skaggs and family of Austin visited here last week with Mrs. Ernestine Hext, Mrs. Finnigan, and other relatives.

Mr. and Mrs. Jack Montgomery, former Eldoradoans who now live on the Texas Coast, were visiting here Friday. They were on their way to Midland.

Elizabeth Brame and her grandmother, Mrs. Fay Hilliard, have recently returned from a three weeks tour of Great Britain. Mrs. Bonnie Hilliard and Miss Amy Hilliard of Houston were also on the tour. The group flew from Houston to London, England for the Jubilee festivities. Then they continued on to Edinburgh and Glasgow, Scotland. After a visit to Cardiff, Wales, they returned to London for a final few days before their flight back to Houston.

LETTER & LEGAL rag bond paper is for sale in ream boxes at The Eldorado Success.

Homemaking At A Glance

by Nancy Lester

The Home Demonstration Club ladies are planning their County Commissioners Appreciation Luncheon on Monday, July 11, in the Memorial Building at noon. At this time the club members of the year will be recognized.

Judy Pitts and Cindy Hausenfiuck will be participating in the District Dress Revue in Abilene on Friday, July 8.

This week I have some information for you on removing perspiration stains from clothing:

Immediate attention to clothing stained by deodorant, antiperspirant or perspiration may save the garment. Otherwise, damage due to odor, yellowing, color change or fabric deterioration can ruin the clothing.

To remove a deodorant, antiperspirant or perspiration stain, sponge thoroughly with liquid detergent and warm water. Enzyme detergents or pre-soaks are particularly effective for perspiration stains and restoring whiteness. Then rinse.

If stain remains, treat with diluted chlorine or an oxygen bleach appropriate for the fabric, and follow product instructions.

If the deodorant or antiperspirant has caused a color change, it may help to sponge fresh stains with household ammonia and old stains with white household vinegar. Any oily body stains remaining can be removed by sponging with a grease solvent. Odor will not remain if the stain has been removed.

Other points to consider in controlling these stains include:

—Act promptly. Do not allow the stain to age.

—Do not apply heat in any form until the stain has been completely removed. This means, do not press or dry in the dryer. Heat permanently sets stains and they cannot be removed.

—Change deodorant or antiperspirant brands or forms for excessive perspiration problems—or see a physician.

—Never apply deodorant and/or antiperspirants directly to a garment. Let products dry or set before dressing.

—Point out and identify stains when taking garments to a dry-cleaner. Check these garments for complete stain removal before taking them home.

—Garments with permanent stains, discoloration or deterioration should be discarded or used only when appearance is not important.

Antiperspirants differ from deodorants in that they reduce perspiration by approximately one-fourth, while deodorants control odor. Many antiperspirants also have deodorant properties. Therefore, when using antiperspirants only, garments will remain dryer but may absorb more odor as long as the antiperspirant remains effective. The reverse is true when using deodorants only.

Chemical ingredients of both products will vary from brand to brand. Many contain acid salts. When in contact with a natural fiber or high percentage natural fiber blend, acid deterioration may result. Tests show that paste forms do less harm than liquids. Perspiration will also weaken natural fibers, especially silk, but not as much as acid salts from deodorants and antiperspirants.

Aaron and Steven Shewbart, sons of Mrs. Carol Shewbart, left Saturday for a month visit in Washington, D. C.

Miss Deborah-Doris Hilliard of Houston and Miss Susie Lezama of Austin were guests this past week in the home of Mr. and Mrs. Fay Hilliard.

THE STATE OF TEXAS

TO: J. H. HOMAN, his heirs, devisees, and assigns, his unknown heirs devisees and assigns of said party, and the unknown heirs of the unknown heirs of said party, and any other person claiming any interest in and to the hereinafter described property, and the legal representatives of any of the above named parties.

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 8th day of August, A.D., 1977, at or before 10 o'clock A. M. before the Honorable 51st District Court of Irion County, at the Court House in Mertzon, Texas.

Said plaintiff's petition was filed on the 20th day of June, 1977. The file number of said suit being No. 975.

The names of the parties in said suit are: MARY BURKE CARTER as Plaintiff, and J. H. HOMAN, ET AL as Defendant.

The nature of said suit being substantially as follows, to wit: Tresspass to Try Title on the following described property, to-wit:

Lots Six (6) and Seven (7) in Block Thirteen (13), Lots Thirteen (13), Fourteen (14), Fifteen (15), and Sixteen (16) in Block Forty-seven (47); Lots Nine (9) and Ten (10) in Block Seventy-two (72); Lots Five (5), Six (6) and Seven (7) in Block Eighty-six (86); Lots One (1) and Two (2) in Block Eighty-three (83); Lots Five (5), Six (6), Seven (7), and Eight (8) in Block Ninety-eight (98); Lots Five (5), Six (6), Seven (7) and Eight (8) in Block Eighty-two (82); and being the same tracts described in the deed dated November 26, 1948, from Leta Gilchrist, Kathryn Gilchrist, E. R. Ballard, and Merjorie Ballard to W. B. Burke, recorded in Deed Records of Irion County, Texas. Plaintiff specifically claims and pleads herein under the ten (10) and twenty-five (25) years statute of limitations.

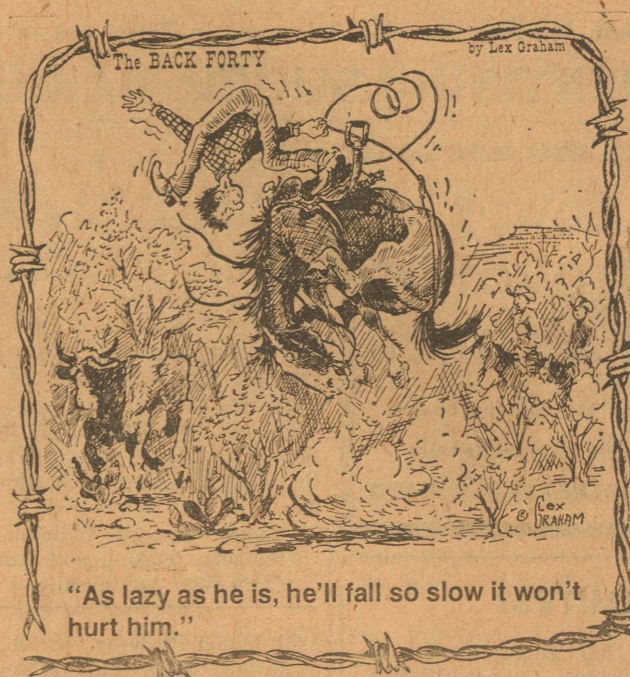

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 20th day of June A. D., 1977.

Given under my hand and seal of said Court, at office in Mertzon, Texas, this the 20th day of June A.D., 1977.

Kirby Lawdermilk, Clerk
51st District Court
Irion County, Texas.

Reddy Tips To Help You...

STRETCH

Your ENERGY Dollar\$

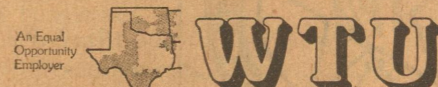

Use your Refrigerator Wisely...

- ★ Open and close the refrigerator and freezer doors only when necessary. Several items can be removed at once to reduce loss of cold air.
- ★ Freezers and refrigerators operate most efficiently when filled to the correct capacity. Foods should be placed slightly apart on refrigerator shelves for correct circulation.
- ★ Cover all liquids stored in the refrigerator (especially frost-free models). Moisture is drawn into the air from uncovered liquids making the refrigerator work harder.
- ★ Be sure your appliance is standing level so that the door seals properly. By setting a glass of water on the top, you can see if it is level.

In Those Days
Compiled From Success Files
ONE YEAR AGO
July 8, 1976—A shower was set at the Niblett home honoring Cassie Morrison, bride elect of Ricky Gibson.
Sharon Garlitz was named to the B honor roll at Tarleton State University at Stephenville.
Back from cheer leader school at Stephenville were Gynna Jay, Barbara Speck, Roxanne Harrell, Jill Yates, Susan Mertz and Theresa Logan.

FIVE YEARS AGO
July 6, 1972—Following hearings, the Interstate Commerce Commission denied Santa Fe's request to abandon their 65-mile line from San Angelo to Sonora.
Mrs. Lizzie McCalla observed her 85th birthday.
Postmaster Bernard Carr reported that Eldorado was in a new process of Area Processing for mail and that letters should no longer be addressed to City.
Jack Hext was in the hospital following a heart attack.
Mrs. Thema Childers returned from a trip to Los Alamos, N. M., where she visited the J. W. Phillips family.
Neal Fischer's engagement to Jerry Edmiston was announced.
The Sauer family reunion was held at Mertzon.

A Gospel Meeting was getting under way at West Side Church or Christ was Quentin Gage of Bethany, Okla., doing the preaching.

12 YEARS AGO
July 8, 1965—The city water well on the airport grounds was being tested.
Larry McGinnes spoke of a Lions Club meeting describing his attendance at Boys State in Austin, sponsored by The American Legion of Texas.
A daughter was born in an Odesa hospital to Mr. and Mrs. William Earl Van Dusen.
Mr. and Mrs. Owen Fry moved to Sonora.
The fund drive for the Salvation Army was going on, with Bob McWhorter as chairman.
The 40th Birthday Celebration was held at McCamey.
The Lions Club year was getting under way with Ray Boyer as president.
The local Chamber of Commerce received delivery, on some city map folders which promoted Eldorado and the surrounding area.

20 YEARS AGO
July 4, 1957—Welcome 4th of July Visitors to Eldorado, headlined The Success for Alvin Luedecke Day. One article related how Luedecke Started Career As Industrial Youth Here. He was an Air Force General.
A parade was to be a part of Luedecke Day, with an old airplane from Big Lake to be included.
Entrants in the bathing beauty contest at the swimming pool were Margo Mittel, Lou Ethel Dawkins, June Williams, Linda Bess Love, Sue Henry, Frances Reynolds, Belle Sutherland, Becky McAngus, Janis Sojge, and Linda Jones.
Jim Runge and Joel Tom Meador were leaving Friday for the Boy Scout National Jamboree at Valley Forge, Pa.
George Humphrey Motors received the Ford Motor Co. four-letter Dealer Award.
A former resident, W. R. Lewis, died at Grand Prairie.
Don McCormick, C. T. Waller and Bill Lester were a nominating committee to name new officers for the American Legion post.
Miss Gerald Marie Turnbow and Joe Henry Snell married June 22.

Consumer Food News

College Station, Tex.—Fresh vegetable supplies will increase and prices on many will drop in the next few weeks, according to Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.
Her food buying summary for the week includes several budget items.

Fresh Vegetables—Most economical items include yellow, zucchini and white squash, corn, purple hull peas, okra, cucumbers and snap beans. Also, cabbage, green onions, carrots and potatoes—as well as head lettuce and mustard greens.
Fresh Fruits—Budget buys include oranges, bananas, peaches, plums, cantaloupes and watermelons. Other soft fruits—including nectarines, grapes, apricots and Bing cherries—are available in varying amounts and price ranges, so choose according to the food budget.

Pork—Pork prices are trending upward as usual this time of year, although slab bacon has economy prices. Frankfurters are good choices in spite of higher prices.

Poultry—Whole turkeys have reasonable prices, and turkey parts offer some bargains.
Egg prices are up slightly. The egg market is unsettled, being somewhat affected by high temperatures.

Beef—Check food ads for specials on rib and sirloin steaks, chuck cuts, corned beef, stew beef, ground beef and liver.

Consumer watchwords: Take advantage of lower prices on less tender beef cuts during the cook-out season—make them tender by marinating and/or long, slow cooking.

Mr. and Mrs. Tom Carroll spent last week visiting in Jourdantown, San Antonio and Muenster with relatives.

Roast the seeds of squash and pumpkin for an enjoyable nibble.

Nursing Home Notes
(Delayed Report)

We were all very saddened by the passing last Monday morning of one of our dearest residents, Ebbie Donaldson. He can truly be spoken of as a genuine Gentleman, and he was always to kind and appreciative of anything that was done for him.

We miss him sitting at his place in the Dining Room, and also working in the Hall, and we shall continue to miss him as the days go by.

We celebrated Frank Reed's birthday with a watermelon feast and everyone enjoyed it, and we wish him many returns of the day. He isn't doing as well as we would like for him to, but we hope he begins to improve and be able to sit in his wheel chair in the Hall every day, as he used to do, because we miss seeing him there. I believe all the other residents are doing as well as usual and we are glad.

There were quite a number of visitors during last week. They were as follows:

Mrs. Clarence Jessup of Sander-son, Tex., visited her mother, Myrtle Wade.
Mrs. Fred Bizet of San Angelo was a guest of her aunt, Hixie Potter.

Rev. and Mrs. Travis Williamson of Roosevelt, Texas, visited Lester Garrett and Lizzie McAngus.
Flossie Crawford's guest was Maxine Stevens.

Mr. and Mrs. J. N. Sackedis and children Lucy, Kathy, and Vangee of Mt. Holly, New Jersey, were guests of Lizzie McAngus, who is their grandmother and great-grandmother.

Michelle Christian of Norman, Okla., visited her great aunt, LaVita Brooks, while she was visiting in the home of her grandfather and grandmother, Joe Muller and Mary Christian. Her father is Joe Charles Christian, who is an Electronics Engineer for a large company in Norman, Okla.

Winners in last Wednesday's bingo game were: Leonard Baugh, 2 games; Bess Andrews, 2; LaVita Brooks, 2; Ella Casbeer, 2; Carrie Blakeway, 2; Beulah Harris, 1; Erna Rexroat, 1.
On Friday the Bingo winners were: Maggie Sluder, 2 games; Bessie Andrews, 2; LaVita Brooks, 2; Elva Daniels, 2; Beulah Harris, 1.

Some men have their first dollar. The man who is really rich is the one who still has his first friend. —LaVita Brooks, Beulah Harris, Reporters.

Film To Be Shown At First Baptist Church

SHIOKARA PASS, a new film from the producers THE HIDING PLACE, will be shown at First Baptist Church, Oak & Gillis, on Sunday, July 10. The one hour color release from World Wide Pictures will be shown once beginning at 8:00 p.m.

SHIOKARI PASS is unique among World Wide Pictures productions. Although it has an English soundtrack, it was originally produced for showing to Japanese audiences. It was filmed entirely in Japan with a Japanese cast and crew, and depicts the delicate beauty of that country. The drama of the story unfolds against a backdrop of Japan's spring blossoms, snow-capped mountains, and whispering native music.

A true story, SHIOKARI PASS is based on the international best seller by Ayako Miura. Nearly two million readers have been touched by this story of the abiding love of a young couple at the turn of the century.

Credited with creating a deeper understanding of the Christian faith among the Japanese people, the film tells of the love of Nubuo for Fujiko, and of his willingness to be guided by his personal faith, no matter how great the cost of commitment.

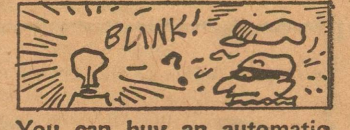

From its gentle opening to its

gripping, unexpected conclusion, SHIOKARI PASS is a profound demonstration of the power of love in one's life.

The Reverend Gene Stark, pastor of First Baptist Church, extends an invitation to each member of the community to attend this special showing and added, "SHIOKARI PASS is the kind of film that will be enjoyed and remembered by the entire family."

There will be no admission charge for the film program.

The Floyd West family and Mr. and Mrs. Jimmy West spent the week end at Lake Buchanan.

You can buy an automatic timing device so that when you are away from home the light will turn on when it gets dark. This deters burglars.

Miss Jones Bride Of William Dock Hubble

Miss Sue Jones and William Dock Hubble, Jr., were married Thursday, June 16, 1977 at 7:00 p.m. in the First United Methodist Church of Eldorado, Texas. The Rev. Keith Wyatt, pastor, officiated.

Parents of the bride are Mr. and Mrs. J. L. Jones of 1815 Coleman, San Angelo, Tex. The bridegroom is the son of Mr. and Mrs. William Dock Hubble of 603 North Divide, Eldorado, Texas.

Matron of honor was Mrs. Kenee Nixon of San Angelo. Charlie Nixon of San Angelo served as best man. Ushers were Archie Nixon of San Angelo and Dobs Lively of Eldorado. Mrs. Mary Lou Olson, organist, accompanied Bob Lester, soloist, in "We Only Just Begun." Both are from Eldorado.

The reception followed the ceremony at the Educational Building. Serving at the reception were sisters of the groom: Mrs. David Moody of El Paso, Mrs. David Whitten of Odessa and sister of the bride registering the guests: Miss Brenda Jones of San Angelo.

They will live at 2220 Lindell, San Angelo, Tex. Rehearsal dinner was given by Mr. and Mrs. William Dock Hubble in their home on Tuesday, June 14, 1977.

Highlights and Sidelights From The

STATE CAPITOL

Austin, Tex.—Gov. Dolph Briscoe returns from a European vacation this week and preparations for the special session of the Legislature are expected to speed up.

Briscoe has already indicated he will issue the formal call proclamation by Friday, July 8, with the session due to start at 10 a.m. the following Monday.

The governor's desk is probably pretty well cluttered up with letters from legislators and their constituents asking him to expand the session beyond adoption of a public school finance bill for the next two years.

Although Briscoe has indicated thus far he has given priority only to school finance, he is known to

be considering several other legislative matters which died during the regular session.

Among the bills he is being asked to consider reviving for the special session are:

1. Reduction of the state sales tax on utility bills which Briscoe says he would like considered if enough money is available and there are indications the money is there.

2. A state Money Management bill requiring the Treasury to invest more of Texas' idle funds in interest paying accounts which its author, Rep. Frank Hartung, says will earn the state about \$42 million every two years.

3. Legislation to prevent abuse

of nursing home patients.

4. A general property tax law revision on the order of one Rep. Wayne Peveto of Orange pushed in the regular session only to see it die in the Senate.

5. A constitutional amendment to let all farm, ranch and timber land be taxed according to productive rather than market value.

6. A bill allowing independent school districts state-wide to elect trustees from single member districts.

Pay Opener In County

A pay opener and a dual confirmation were completed in Schleicher county recently.

Gulf Oil Corp. completed an Ellenburger oil discovery its No. 1 University BT, 1 1/4 miles northeast of the Canyon gas opener and 1 3/8 miles northeast of the Ellenburger gas opener of the University Block 53 field of Schleicher County, 28 miles northwest of Eldorado, for a daily pumping potential of 12.4 barrels of 41 gravity oil, plus 50 barrels of water, with gas-oil ratio of 2,500-1.

Production was through perforations at 7,795-886 feet, which had been acidized with 16,000 gallons.

Drilled by Cities Service Oil Co. to 8,004 feet, where 5 1/2-inch casing was set, it is plugged back to 7,946 feet.

Location is 1,980 feet from the south and west lines of 14-53-University.

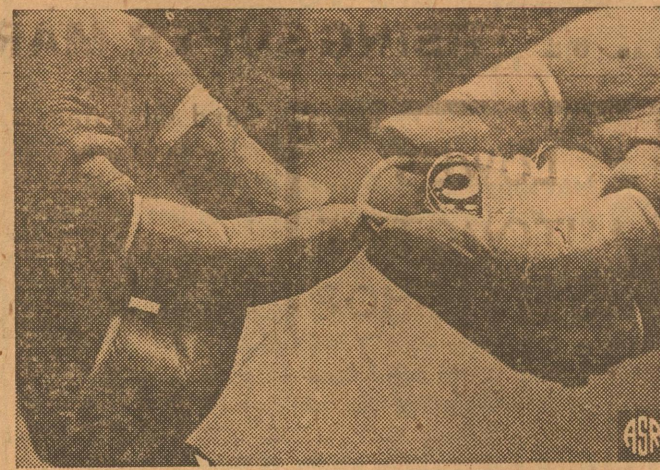

The Ellenburger gas opener, Gulf Oil Corp. No. 1-18-53-TH State, was finished March 15, 1976 for a calculated, absolute open flow of 16 million cubic feet of gas daily, with gas-liquid ratio of 36,430-1 through perforations at 7,806-816 feet. The Canyon opener, Gulf No. 1-18-53-TI State, was finished Oct. 26, 1976 for a calculated, absolute open flow of 2.6 million cubic feet of dry gas daily through perforations at 7,046-114 feet.

Mr. and Mrs. Mike Boatright and baby son visited in Pecos over the week end with his parents.

Mr. and Mrs. Danny Richardson of Lubbock spent the week end visiting here with his parents, Mr. and Mrs. K. H. Richardson.

Mr. and Mrs. Roger Tucker and two sons of Big Spring visited here recently with her parents, Mr. and Mrs. E. H. Topliffe.

Ball In A Cage Saves Lives

Since the first successful implant in 1960 by Dr. Albert Starr, more than 100,000 Starr-Edwards heart valves, such as the one being manufactured here, have been used in this type of operation.

Who could have thought, only twenty years ago, that countless lives could be saved by a metal ball in a cloth-covered cage?

Not many of us, probably! But that's really all most artificial heart valves are. They work a lot like the device on the end of a diver's snorkel.

The metal ball fits into a cage about the size of a man's thumb joint. Inside the heart, the ball is forced to the apex of the cage, allowing blood to pass through. When the ball returns to its original position, the flow of blood is stopped.

More than 100,000 Starr-Edwards heart valves have been implanted since the first mitral heart valve was successfully implanted by Dr. Albert Starr in 1960.

It was co-invented by Dr.

Starr and Lowell Edwards, an inventor who had already earned an international reputation in the field of fluid engineering.

At the time, there were quite a few people trying to build an artificial heart valve, but most of them were trying to copy nature by coming up with a valve that looked like the natural valve in the human heart.

Lowell Edwards said, let's make a valve that works and forget how it looks. And he and Dr. Albert Starr did exactly that!

Manufactured by the Edwards Laboratories division of American Hospital Supply Corporation, this life-saving ball-in-a-cage became one of the key developments in medical history.

The Ups And Downs Of Ladders

A Service Of Underwriter Laboratories

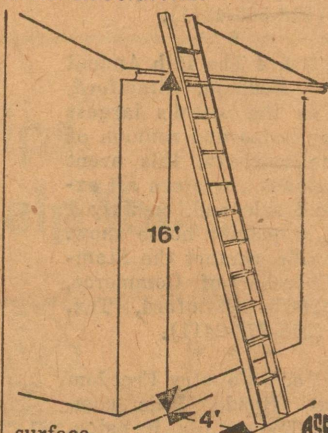

With spring and summer coming upon us, our thoughts turn to cleaning, repair and installation projects — many of which require or involve the use of a ladder. Every year 30,000 to 40,000 Americans are injured by falling from ladders. Your ladder can be a convenience and help, or a tool for a fall and disaster.

According to a safety engineer at Underwriters Laboratories (UL), use a ladder that is long enough for the purpose at hand. It has been said that a great many ladder-related accidents are the result of using too short a ladder. This results in the user standing in a position where he has limited stability — a big problem when using stepladders.

Will you be doing roof repairs, cleaning the rain gutters, repairing or installing an antenna, etc.? If so, an extension, or straight ladder, should extend at least three feet above the eave, gutter or roof line. The worker should practice the "four-in-one" rule: the base of the ladder should be placed one foot from the wall for every four feet of ladder height. In other words, a sixteen foot ladder with its top placed against a vertical wall should be positioned so that the base is four feet from the wall.

Two basic steps should be taken before you climb a ladder.

1. Make sure that the ladder is placed on firm level

surface.
2. Inspect the ladder for structural damage or deterioration.

When using a stepladder, it is essential that the spreader is locked before you begin your climb — otherwise, your ladder could fold with you on it.

If you are using any type of metal ladder, remember to keep it away from overhead power lines and other electrical installations — a UL Listed metal ladder is marked cautioning against this.

Do not overextend your reach, once that you're on the ladder. Take time to move the ladder to a convenient safe location. The extra time taken now could save you pain and broken bones, lost time and income, and bills — hospital bills, that is.

Think and practice safety when using ladders, and all your ups and downs will be happy ones.

Friends:

I am writing to once again ask for your help, support and good will. Last Monday, July 4, at my New Braunfels home on the Guadalupe River, I announced my intention to seek to represent the people of Texas as your U.S. Senator. That office is one of high responsibility, and the decision to seek it was not made lightly. But I believe that position will allow me an even fuller chance for service to this area and the entire state. In my travels across Texas I have found that most people want the strength and vigor of our state to be represented by strong and effective leadership. They want more than just a vote in the U.S. Senate; they want a voice—one that can provide new direction for our state and nation.

In 1973, when I first sought to represent you and the people of the 21st District in the U.S. Congress, no one knew Bob Krueger, nor did we have the backing of any "political machine." We had something far more important. We had people. People who are willing to work for no other reason than that they were committed to open, honest government. I could never feel any closer to any area than to the one that gave me the chance to fulfill my most cherished goal—representing the people of the land that I come from. The new responsibility that I seek will not lessen this representation; it will strengthen it.

In our statewide effort we will face many obstacles. But I am convinced that with your help and the support of people like you all across this state, we can once again succeed. Thank you for your continued confidence. I shall never forget it.

Warmest personal regards,
Bob Krueger

The Krueger Senate Campaign is forming a "Committee of 21" in each county in the 21st District. The "Committee of 21" will be made up of 21 or more people who are willing to work to elect Bob Krueger to the U.S. Senate. Please help. Send to: KRUEGER OF TEXAS/P.O. BOX 911/NEW BRAUNFELS, TEXAS 78130

- I want to be a working member of the "Committee of 21."
- I want to make a contribution (make check payable to Friends of Bob Krueger).
- I want a bumper sticker.

THE ELDORADO SUCCESS

Serving Schleicher County Since 1901

JULY

The following events, selected by the Texas Tourist Development Agency, are but a few of the many excellent recreational opportunities offered by communities across the state. A more complete listing of Texas events may be obtained free of charge by writing TTD, Box 12008, Dept. C, Austin 78711.

July 1-Aug. 30 "Beyond The Sundown", Alabama-Coushatta Indian Reservation, U.S. Highway 190 between Livingston and Woodville. At 8:30 nightly, except Sundays, this historical drama of the Alabama-Coushatta tribes of East Texas will be staged in the reservation's amphitheater. Admission \$3.50-\$4, children \$1.75-\$2. For information and reservations contact "Beyond The Sundown", Route 3, Box 640T, Livingston, Tex. 77351 (713-563-4391).

July 1, 2 & 4 The 46th Annual Cowboy Reunion, Stamford. Billed as the world's largest amateur rodeo and reunion of old-time cowboys, this event also includes a western art exhibit and sale and, on July 1 and 2, a quarter horse show. For details, contact the Stamford Chamber of Commerce, Box 1206T, Stamford, Tex. 79553 (915-773-2411).

July 3 God's Country Freedom Festival, Hondo. This community, known for its sign, "This is God's country, please don't drive through it like hell," has horse racing, games and booths set for 2-6 p.m. in the city park, a fireworks display and a big dance at the Hondo Air Base that night.

July 4 "Old-fashioned Fourth", Lions' Club Park, Refugio. Events are greased-pole climbing, egg pitching, rolling pin throw, horseshoe pitching, cake walk, fireworks and the main attraction, the State Frog Jumping contest. There's barbecue at noon and free watermelon in the afternoon.

July 8, 9, 10 Spring Ho Festival, Lampasas. Activities during this three-day festival are highlighted by historical tours, arts, crafts, flea market, fiddlers contest, air show, two dances and a grand parade at 11 a.m. Saturday. For a schedule contact Spring Ho, Box 637T, Lampasas, Tex. (512-556-5301).

July 11-16 Western Week, Denison. Dances Monday and Tuesday nights, rodeo parade at 5 p.m. Wednesday, rodeo Wednesday through Saturday.

July 12-14 The 42nd Annual Deep Sea Round-Up, Port Aransas. Registration is 2-9 p.m. July 11, blessing of the fleet and boat parade are at 6:45 a.m. July 12. Fishing hours for the bay-surf division are 7 a.m.-1 p.m., 9 a.m.-3 p.m. for light and heavy-tackle divisions. Registration is \$40 (includes dinners). For a brochure write Deep Sea Round-Up, Box 501T, Port Aransas, Tex. 78373.

July 12-16 The Sixth Annual Junior Stampede and Rodeo, Denton. Contestants 19 years old and under will vie for \$18,000 worth of prizes. Performances begin at 8:30 each night at the Denton County Fairgrounds. Admission \$2, on Saturday \$2.50.

July 14-16 Water Carnival, Fort Stockton. For over 40 years this spectacular show, staged in the olympic-size Comanche Springs pool, has been a major West Texas event. For details contact the Chamber of Commerce, Box CT, Fort Stockton, Tex. 79735 (915-336-2264).

July 22-24 Outboard Fishing Tournament, Port Aransas. This is the only fishing event on the Texas Gulf Coast for boats powered exclusively by outboard motors. Fishing hours 7 a.m.-3:30 p.m. Saturday, and Sunday. Pre-registered entry fee \$12.50, regular \$15. For information contact Norma Ray, Box 541T, Port Aransas, Tex. 78373 (512-749-5343).

County Extension Agent's Column

Yellow Plant Leaves May Signal For More Care

If some of your ornamental plants start to develop yellow leaves which drop off near the base of branches, do not panic. This condition is common on oleanders, privet, viburnum and many other broadleaf evergreen plants. A normal, healthy plant will shed old leaves, but the number dropped will be small compared with those shed by a plant that has been improperly watered or fertilized. Lack of water during the hot summer months aggravates leaf shedding to a point where almost complete defoliation may occur. Lack of nitrogen fertilizer will also cause yellowing and loss of leaves. Here are suggestions for plant care and treatment when excessive yellowing occurs:

1. Make frequent, light fertilizer applications during summer months and water plants adequately after each application. Apply heavy amounts of nitrogen only in March or April. For summer applications, use something like ammonium sulfate at a rate of 1 to 1 1/2 pounds per 100 square feet.

2. Never allow a plant to show signs of severe wilting before supplying water. Water a plant whenever the young tip growth wilts or when the first few inches of soil in the water basin become dry. Although plants may wilt severely the first day or two of full sunshine after a period of prolonged cloudy weather and more than adequate rainfall, extra water should not be applied.

3. Water slowly for deep penetration, which allows the plant roots to draw water from the lower soil depths. This assures a soil moisture reserve when the top portion of the soil becomes dry.

4. The interval of watering cannot be determined accurately by the number of days, since soils vary in their ability to store water, and climatic conditions—heat, rain, winds—are also variable. Use the dryness of the topsoil as an indicator.

5. Oleanders, privet and nandinas seem to have the greatest tendency toward leaf shedding. Once leaves have shed near the base, it is difficult to force new growth until the plants are pruned.

Removing about one-third of the oldest canes at or near ground level each year will encourage new growth from the base of the plant and prevent tall, leggy growth so often observed on screening plants.

Screwworm Cases Move To New Counties

Screwworm cases are beginning to spread across new areas of Texas and Arizona, and livestock producers are reminded to double their efforts in the current battle against the costly livestock pest.

Although total numbers of cases are still low when compared to previous years, the worst part of the screwworm season is still ahead and all precautions should be taken.

Texas entered June with just 22 screwworm cases reported in 10 counties during the first five months of 1977. By June 15, nine more cases were added. Although many of these cases have been confirmed in Hidalgo county, others have moved up from South Texas into the Central Texas county of San Saba and into Brewster and Terrell counties in Big Bend and Trans-Pecos areas.

Arizona's cases had climbed to 15 by June 15. New Mexico had recorded four cases by that date, and California one to bring the nation's total to 29 by mid-June.

This compares to 1,968 by the same date last year. Producer cooperation is really needed in the next four months to hold the line on screwworm cases this year, and make the Mission '77: Stamp Out Screwworms a success.

Producers should check their animals at least twice a week, collect larvae or egg masses found in or near wounds, and send the samples to the USDA Laboratory at Mission for identification. Then treat all wounds found with an EPA-labeled effective insecticide.

Mr. and Mrs. Robert F. Frost Jr. and children Matthew and Laura of Severna Park, Maryland, are here visiting his mother, Mrs. Margaret Frost and his sister, Mrs. Carol Shewbart, and other relatives.

Mr. and Mrs. James Head returned late last week from a family reunion in Minneapolis, Minnesota. Their daughter, Sigrid, remained for a longer visit with relatives in the state of Virginia.

Possum Speck was in a San Angelo hospital last week for surgery.

Dr. J. B. Brame was in St. Johns hospital in San Angelo recently for a few days.

Oven Meal Is Energy And Time Saver

Often, due to busy schedules, easy-to-prepare meals are a must, particularly in homes with working wives who get home at 6 p.m. and want to have a full-course meal on the table by 7.

It was with these busy homemakers in mind—and the importance of saving energy—that these four recipes, to be baked in the same oven at the same temperature, were planned. The preparation takes about 30 minutes and the baking takes 30 minutes. Much of the preparation can be done the night before and be refrigerated in the Pyrex ware baking dishes. These clear heat-resistant glass baking dishes are also appropriate for serving the meal—reducing the dishes to be washed.

The meal features macaroni and cheese, oven peas, chicken livers and bacon, and peach meringues.

MACARONI AND CHEESE INGREDIENTS:

- 8 oz. cooked macaroni
- 1/2 lb. grated cheddar cheese
- 2 cups milk
- 1 egg
- 1/4 cup butter or margarine

Cook macaroni according to directions on package. Drain and cool. Place layer of macaroni in heat-resistant loaf dish; then add a layer of grated cheese. Repeat layers. Combine milk and egg and pour over macaroni and cheese. Dot with butter. This can be done the day before and refrigerated.

OVEN PEAS INGREDIENTS:

- 1 pkg. (10 oz.) frozen peas (or vegetables of your choice) partially thawed
- 1/2 teaspoon salt
- 1/4 cup water
- 2 tablespoons butter or margarine

Place all ingredients in one-quart heat-resistant glass casserole, covered.

CHICKEN LIVERS AND BACON INGREDIENTS:

- 1 lb. chicken livers
- 2 tablespoons prepared mustard
- 1/4 lb. bacon
- 1/2 cup cornflake crumbs

Spread mustard on each chicken liver. Cut bacon slices in half and wrap around each liver. Roll in cornflake crumbs and place in an eight-inch square Pyrex heat-resistant glass cake dish. The chicken livers can also be prepared the night before and refrigerated to save more time. Preheat oven to 425° F. Place chicken livers and macaroni and cheese on lower shelf; peas on the upper shelf. Bake for 20 minutes. While these three dishes are baking, start dessert.

PEACH MERINGUES INGREDIENTS:

- 8 canned peach halves (2 1-lb. cans)
- 2 egg whites
- 2 tablespoons cold water
- 1/4 cup sugar
- 1/4 teaspoon almond extract

Drain peaches and place cut side up in Pyrex oblong baking dish. Beat egg whites and water in small bowl until stiff. Slowly add sugar and continue beating until stiff. Add almond extract. Pile on peach halves.

When the rest of the meal has cooked for 20 minutes place the peach meringues on the upper shelf. Continue to bake all four recipes for 10 minutes. Recipes serve six, although some families may prefer to add a second package of peas and bake in a two-quart casserole.

Large eggs weigh 27 ounces per dozen, medium 24 ounces, small 21 ounces.

According to the American Rose Society, there are about 10,000 varieties of roses.

There are about 100 billion stars in our galaxy, but only 6000 of them can be seen with the naked eye.

The whale has one nostril placed in the top of the head—its blowhole.

Your Skin and the Sun

DERMATOLOGISTS SAY READ THE LABEL

If you're looking for a magic suntan product that will give you a fast, deep tan—you won't find it. No product can make your skin tan any faster than it can naturally.

In fact, people who use "fast tanning" lotions without understanding the danger of overexposure to the sun, run the risk of painful sunburn, prematurely aged skin and even skin cancer.

Be sure to read the label when choosing a product to determine the amount and kind of protection it will offer your skin. Most dermatologists recommend the use of sunscreen lotions for people who spend much time in the sun. The newest group of sun care products on the market, sunscreens protect the skin from dangerous burning while allowing slow, even tanning.

Some sunscreens are made with a 40 to 70 percent alcohol base and usually recommend application an hour before exposure to the sun. Glenn Oelassen, general manager of Herbert Laboratories, makers of Eclipse Sunscreen Lotion reports, "These are

best for people with acne or oily skin because of the drying effect of the alcohol."

"People with normal or dry skin should choose a sunscreen like Eclipse that has a lotion base and will help protect the skin from chapping in the sun, wind and water," he said. "These products are effective immediately upon application."

Products called sunblocks are also available for total protection in the sun. They prevent both tanning and burning by stopping all ultraviolet rays from reaching the skin. To provide this protection, these products usually have an opaque or greasy base, making them visible on the skin and cosmetically unappealing. It is primarily people with allergic reactions to the sun who need such absolute protection.

To learn more about the sun's effect on skin, look for a booklet called Your Skin and the Sun, available free at major drugstores. A free copy also is available by sending a stamped, self-addressed envelope to Eclipse Sun Booklet, 2525 Dupont Drive, Irvine, California 92713.

One of the earliest emotions a child experiences is fear. And from the first loud noise that awakens him until the moment of his death he knows no day without the recurrence of some foreboding danger.

From the beginning of time religion has been our tested antidote to the poison of fear. In the dark forests of antiquity, on the boiling seas of exploration, in the foxholes of modern strife, men have calmed the body's trembling with the soul's faith. We have faced the unknown, the hostile, through trust in the Known, the Faithful; we have challenged the insurmountable, confident in the power of the Almighty.

How essential, though, that each generation passes on our Faith to the next! Who dares deprive a child of the chance to conquer fear? Who would rob his son's soul of the Christian heritage martyrs died to preserve?

Bring your children to God's House every Sunday.

THE CONQUEST OF FEAR

THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
