

Legislature Slaps Down State Soldier Bonus Plan Veterans Both Favor, Oppose Bill

AUSTIN, May 15. (AP)—The House today by a close vote slapped down a second attempt this week to push through the 50th legislature some sort of soldier bonus proposal.

11-Nation Palestine Probe Group Okayed As UN Meet Ends

NEW YORK, May 15. (AP)—The United Nations assembly formally created a "neutral" 11-nation Palestine inquiry commission today and then finally adjourned its 18-day extraordinary session at 12:57 p. m. (CST).

ROMNEY CASE WITNESS—Albert B. Fangmeyer (above) suspended assistant cashier in the national house sergeant-at-arms office, leaves district court in Washington after testifying at the trial of Kenneth Romney on a charge of concealing a shortage in the house "bank."

The action came after a 40-minute battle in which World War II veterans both favored and opposed submission to the electorate of a constitutional amendment calling for a \$200,000,000 bonus.

The vote was 61 to 85 against referring the proposed bonus amendment from the committee on constitutional amendments to the committee on veterans' affairs.

Proponents of the measure by Rep. Roger Q. Evans of Denison argued that while it had been given a hearing in the committee, lack of quorum lately had indicated it would get no definite action.

Kenneth Romney Found Guilty

WASHINGTON, May 15. (AP)—A federal court jury today convicted Kenneth Romney, former house sergeant at arms, on charges of concealing for two decades a shortage of \$143,863 in his accounts.

Control Tower Funds Restored

WASHINGTON, May 15. (AP)—Overruling its appropriations committee, the house today voted \$4,948,484 for continued operation of air traffic control towers in 150 cities.

The funds for the towers, were restored to an omnibus \$535,728,008 supply bill through amendments offered by Reps. Cole (R-Mo.) and Rooney (D-N.Y.), and adopted by overwhelming votes, on which individual members were not recorded.

House Approves Anti-Labor Bills

AUSTIN, May 15. (AP)—The house approved three more restrictive labor measures today, one prohibiting secondary strikes boycotts and picketing, the other two designed to bring labor more strictly under the state's civil and penal anti-trust statutes.

Quits Internal Revenue Bureau Post

WASHINGTON, May 15. (AP)—Joseph D. Numan, Jr., resigned today as Commissioner of Internal Revenue, effective June 30.

Schoeneman, long connected with the Internal Revenue Bureau, is now a special executive assistant to the president.

The nomination of Schoeneman, legal resident of Newport, R. I., was sent at noon to the Senate for confirmation.

Troops To Raid German Black Market Centers

Move Grows Out Of Efforts To Stem Food Crisis

LONDON, May 15. (AP)—Government sources said today that British occupation troops in Germany soon would swing into action in an all-out effort to crush a widespread black market held largely responsible for Germany's grave food crisis.

61 Are Indicted For Milk Fracas

NEW ORLEANS, May 15. (AP)—Sixty one men, including several AFL union officials, were indicted by the federal grand jury here today on charges of conspiracy to interfere with interstate commerce during the recent Louisiana milk strike.

Battle On Racial Segregation Set

AUSTIN, May 15. (AP)—The court battle of the Houston Negro for admission to the University of Texas, developing into a full dress attack on racial segregation, continued today with testimony by educational authorities for Herman Marier Sweet.

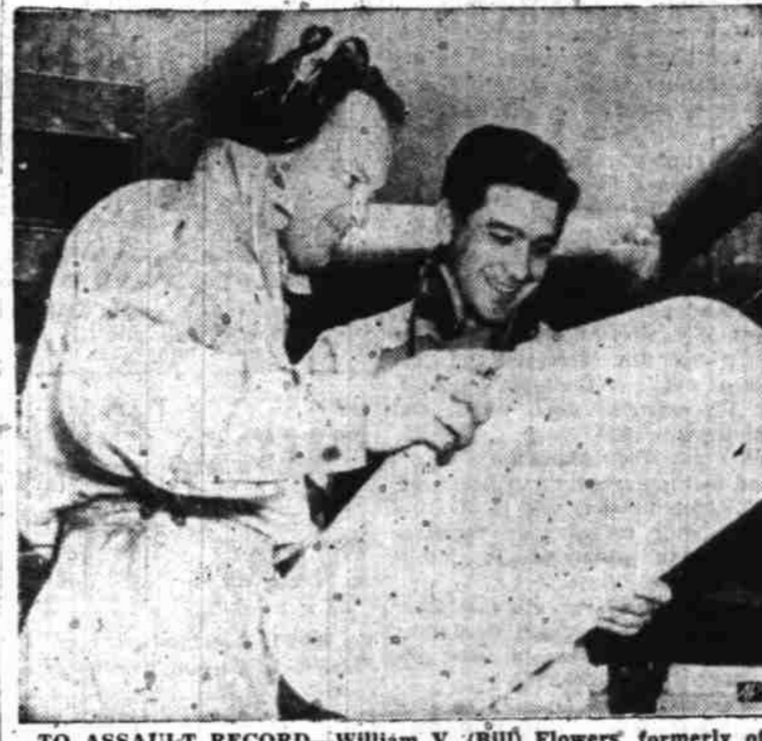

Hailstones At Clovis Weigh Half Pound

CLOVIS, N. M., May 15. (AP)—Hailstones which Police Chief Nelson Worley said weighed half a pound and measured 10 inches around fell in a late afternoon storm here yesterday.

SKUNK FORCES MAN FROM STORM CELLAR; SNAKE DELAYS RETREAT

Reports reaching Big Spring today told of an unusual side-light during Sunday evening's storm at the Homer Beale home in southern Borden county.

Lewis Okays Start Of Pay Bargaining

TO ASSAULT RECORD—William V. (Bill) Flowers, formerly of Big Spring, left, and Adolph Brocato, right, New Orleans, La., both former AAF pilots, will attempt in August to smash the round-the-world flight record established last month by Milton Reynolds, the pencil maker.

Local Flier To Try For World Record

William V. (Bill) Flowers, 32, whose speed once made him an all-district football player here, is teaming with another former AAF combat pilot, Adolph Brocato, 26, for an assault on the round-the-world speed record.

According to press releases, Flowers and Brocato will attempt in August to smash the 78 hours and 25 minutes record set last month by Milton Reynolds, the pencil maker, in his Bombshell.

They are being backed by William Zetzman, New Orleans business executive, who has financed the purchase of a 1000-horsepower P-38 photo reconnaissance plane from the War Assets Administration.

The plane is to be delivered at Altus, Okla., and Flowers and Brocato will fly it to New Orleans for the departure "sometime in August."

Use of the P-38 will entail in genuity on the part of the pilots, for to overcome the single-seat design, they will have to ride practically pick-a-back with a navigator crouched in the nose of the plane.

Following his graduation from the Big Spring high school in 1932, Flowers entered Tulane university where he starred as a halfback. During the war he flew 69 combat missions.

Brocato flew 22 missions as a bomber pilot over Germany, being taken prisoner when tossed out of his craft and parachuting to safety over Sagan, Germany.

Bill Flowers is the son of Mrs. Hattie Flowers and is a brother to Mrs. George White and Bob Flowers of Big Spring.

Parents Claim Baby Was Girl, Not Boy

NEW YORK, May 15. (AP)—Mr. and Mrs. Leonard Sosa are asking \$200,000 damage from the city because, they claim, the wife gave birth to a girl baby at a city hospital but was given a boy baby to take home eight days later.

Dr. Edward M. Meraecker, commissioner of hospitals, denied last night there had been a substitution. He said there had been a clerical error in the report sent to the bureau of records of the health department so that the couple first was issued a birth certificate for a girl baby and later, after the correction had cleared, another certificate for a boy baby.

Body Of Strangled Society Beauty Found

ATLANTA, May 15. (AP)—The body of a 31-year-old Atlanta society beauty, the wife of a French artist, was found face up in Peachtree Creek last night, and police said she apparently had been strangled to death.

Hope To Avert More Strikes In Coal Pits

Negotiations Start Tomorrow On New Contract For Miners

WASHINGTON, May 15. (AP)—John L. Lewis agreed today to bargain on a new contract with three-fourths of the soft coal industry and negotiations were set to begin tomorrow.

The mine leader's agreement, reversing a previous stand, raised the possibility of avoiding a crippling strike in coal industry when the government relinquishes control of the pits this summer.

The Southern Coal Producers association, representing about 25 per cent of the nation's bituminous production, balked at industry-wide bargaining and asked for separate negotiations.

Lewis replied that he wanted a chance to discuss the Southern's request with his policy committee before giving an answer.

Those major developments in the long-troubled coal industry were announced by Navy Capt. N. H. Collisson, federal coal mines administrator.

Lewis' agreement to negotiate with a part of the industry represented an about face on his previous insistence on industry-wide bargaining, in line with a policy adopted at the UMW convention last year.

Most of the nation's soft coal mines are under government operation, but must be restored to private ownership by July 1, Collisson called the UMW chief and the operators together several weeks ago in the hope that would avert a major strike when the private owners resume control.

Tornado Victim Dies At Stanton

STANTON, May 15. — Death came at 2:15 o'clock Tuesday afternoon in a Stanton hospital to Leonard Calvin Foreman, 69, retired Martin county merchant who was injured in the Lenorah tornado last Sunday evening.

Final services for the deceased will be conducted at 4 p.m. today at the Stanton Baptist church with Revs. John Thomas and T. R. Hawkins officiating. Burial will follow in the Evergreen cemetery.

Foreman, a resident of the Lenorah community for 23 years and a native Texan, was injured on his birthday anniversary. Mrs. Foreman preceded him in death by about two years.

Survivors include four sons, S. J. of Lenorah, Brack of O'Donnell, Dave of Jal, N.M., and Vergil of Richmond, Calif.; a daughter, Mrs. G. M. Hasley of Grand Prairie; nine grandchildren and one great grandchild as well as two half-brothers.

Active pall bearers are W. C. Greenhaw, A. C. Fleming, Grover Springer, Herman Deavenport, T. A. Bullard, Dow Willingham, Dolma Ham and Garland Williams.

The body was prepared for interment by Eberly Funeral home of Big Spring.

WARNS OF FAILURE

LONDON, May 15. (AP)—Foreign Secretary Ernest Bevin said today that if relations between the East and West are not improved at the November conference of foreign ministers, "no one can prophesy what course the world will take."

ADMITS LYNCH CONSPIRACY— Tells How Mob Shot Negro

GREENVILLE, S. C., May 15. (AP)—Roosevelt Carlos Hurd, Sr., 45, accused executioner of a negro lynch-victim admitted in a statement today that he participated in the killing but denied he fired the fatal shot gun blast which ripped open the victim's head.

The purported statement was offered in evidence by the prosecution in the trial of 31 defendants accused of murder and conspiracy to murder in connection with the slaying of negro Willie Earl last Feb. 17. Twenty eight are Greenville cab drivers.

Hurd, who acknowledged a second-grade education, said he rode with the leaders who went to Pickens, S. C., with taxi cabs and took the negro from Pickens jail. He said the lynch-victim was questioned about the fatal stabbing of a white taxi driver.

Relating how the mob stopped at the roadside, near a slaughter-pen, Hurd said one of the other defendants, Ernest Stokes told the negro he knew he had confessed to the stabbing of T. W. Brown, and demanded to know who the negro's accomplice had been.

"You know we brought you out here to kill you," Hurd quoted Stokes as saying, "and you don't want to die, with a lie on your tongue." The negro, however, insisted he did not know.

Several men then dragged the negro from the car, Hurd's statement related, "and everybody started beating him. They knocked him down on the side of the road. Somebody fired a gun two or three times. I don't know who fired the gun. I did not have a gun and I don't know whether the shots hit the negro or not. When I seen they were going to kill the negro, I just turned around, because I did not want to see it happen."

Deputy Sheriff Frank Reid told the jury that after signing the document, Hurd exclaimed "I feel better now. It's the first time I've ever been in anything like this in my life. I know what a mistake I've made."

THREE KILLED AS BUILDING FALLS IN HOLE

ELKO, Nev., May 15. (AP)—Three persons were killed and four injured early today when a two-story brick apartment-business building collapsed and crashed into an adjoining excavation in Elko's business district.

Sheriff C. L. Smith of Elko county said the dead were tentatively identified as Ralph Nielsen, Beatrice Nielsen, believed to be Nielsen's mother, and Mrs. Robert Norris.

Robert Norris, Mr. and Mrs. W. A. Sperry and their daughter, Mrs. Verzal Jones, suffered shock and bruises.

The sheriff said digging continued in the wreckage but it was believed all occupants were accounted for.

"I heard what sounded like a terrible hallstom outside," said Mrs. Sperry. "It kept getting worse. I kind of woke up and saw the walls collapsing in on me. The next sensation I had I was suffocating from dust."

Her husband said he was in a part of the building which remained upright. Awakened by his wife's screams, he leaped to her aid and fell 15 feet into the excavation.

Rain And Hail, High Winds Rip Panhandle Area

Thunderstorms peppered the Panhandle today after high winds, accompanied by rain and hail, ripped through that area last night.

Amarillo recorded winds in gusts up to 72 miles an hour and the wind was clocked at up to 70 miles per hour in Pampa.

Houses were unroofed, store windows were shattered, and trees were broken at Amarillo and the streets there ran full with rain.

Thunderstorms were also reported today in West Texas.

Rains resumed today in Amarillo.

Rainfall at Pampa for the past 24 hours totalled 1.42 inches. No damage was reported.

At Skellytown Mrs. J. R. Winkle reported two storms, one last night and another today. A residence garage was destroyed, and the Skellytown school and three or four houses were damaged.

Two inches of rain in less than four hours fell at Amarillo yesterday and estimates from Hereford set precipitation at between five and six inches.

Hail and high winds accompanied the Amarillo fall and there were reports of damage to signs, plate glass windows, trees and power lines. Suburban business districts were flooded. The wheat crop had not developed sufficiently to be hurt, agriculturists said.

GATHERING APPLICANTS

WASHINGTON, May 15. (AP)—American Legion posts began rounding up candidates for West Point and Annapolis today among young men whose fathers were killed in battle or died as the result of war injuries.

Colorado City Aldermen Set Date For Special Mayoral Election

COLORADO CITY, May 15. — Business is picking up for Colorado City aldermen, for the city fathers wrestled with many problems until 11 p.m. at their meeting here Tuesday evening.

Date for a special election to name a successor for Charles Brazil, who recently resigned as mayor, was set for June 16. C. S. Martin was named as judge and May 21 was fixed as the deadline for filing by candidates. Brazil resigned to accept appointment as city manager at Taylor.

The board reappointed Dr. Harry Logsdon as city health officer and employed A. V. Lewis to fill a vacancy in the police department, occasioned by the resignation of Bill Ward. Sam Tarter was selected to succeed the late H. F. McCordie as sexton at the cemetery.

Objections to the state insurance department to center parking on Oak street (courthouse area to Second street) and in front of two theaters was discussed. City Attorney Harry Ratliff was instructed to draw ordinance limiting parking to 10 minutes in front of the postoffice. The street and alley committee was assigned a study of parking meter possibilities for the downtown section. Health and sanitary committee members were instructed to consider applications for city sanitarian.

Taken under advisement was an application by Hollis Mize to operate local buses. Colorado City has been without a transit company since disappearance of horse-cars which ran up and down Second street in the late 90s and early at the turn of the century. Expansion of the police department with possibility of installing two-way radio sets in patrol cars was also taken under study, and, along with other matters, will be heard at the June 9 session. No candidates have yet filed for the mayoralty post.

WASHINGTON, May 15. (AP)— President Truman signed today a bill authorizing creation of the post office commissioner for the Big Bend National Park in Texas.

Explaining What The Shouting Is All About

By PAUL BOLTON
Herald Austin Bureau

AUSTIN, May 15.—If you're one of the average citizens wondering what all the shouting's about between the Governor and the Legislature over the appropriations and taxes business, here's the answer: The Legislature started out in January with \$186 (million) to spend. It has spent \$73. It has \$113 left. But the legislature says the very least it can spend is \$153. The governor says the legislature must cut down that \$153 to \$113. The Legislature wants to know where to start cutting.

Bear in mind that we're talking in millions all the time, here are the amounts the Legislature proposes to spend, over the next two years:

To support the state's schools and colleges swollen by unprecedented enrollments, \$56.

To bring tax-poor rural school districts up to parity with city districts, \$36.

To support and expand the system of junior colleges, \$2.

To meet the increased and perpetual needs of the state's mentally ill, orphans, deaf, blind, and other wards, \$25.

To pay the salaries of judges and law enforcement officers, \$5.

To match money sent down from Washington to carry on vocational training programs in public schools, \$3.

And to perform all the other services of government (including collecting the taxes, a most important function) \$26.

The state employees (the \$26 item) are always the first to suffer when paring time comes; but if the state government were entirely eliminated it wouldn't make the \$40 which the legislature is supposed to find somewhere.

Then people who keep books on the state of Texas say that so far as bookkeeping is concerned, Texas is in a mess, and they wish somebody would look two years down the road before the 50th sessions ends.

This mess is largely due to the fact that the state has a big surplus, and the legislature considered it fair game to appropriate that surplus without respect to replacing it.

It's axiomatic that once a state activity has been expended, it seldom is cut back again. But in fixing expenditures for the 1947-48 and 48-49 biennium at \$45 million dollars in excess of actual income, the Legislature is establishing a strong precedent for the two years after that—when the \$45 millions will be missing.

BOMBED-OUT PALACE—Two years after the war's end, the Hungarian royal palace on the Danube at Budapest still bears these scars from bombing attacks.

Merger Of Two Air Line Offices Here Rejected

Possibility that American Airlines would withdraw its staff from Big Spring and that their duties would be taken over by Continental Air Lines has now ceased, it was announced jointly Thursday by J. W. Campbell, manager of operations for American Airlines, and by Marshall Poth, station manager for Continental Air Lines.

Local officials for the two companies said that the matter had been discussed thoroughly in line with a program throughout the airlines industry of making consolidation of personnel and ground equipment wherever possible to avoid uneconomical duplications.

Campbell and Poth also announced receiving work respectively from M. D. Miller, regional vice-president of American Airlines at Dal-

las, and From L. H. Dennis, Continental Airlines, Denver, that the result of conferences between the two companies in regard to their consolidating activities at Big Spring is that each company will continue to maintain its own personnel and equipment, as both companies anticipate increasing their service as rapidly as the prospective growth of air travel in Big Spring justifies.

Just apply liquid wax with a soft cloth to the surface of oil paintings which have become dulled with age. You'll be surprised to see how those colors brighten.

Fund Cuts Endanger New TB Hospitals

By PAUL BOLTON
Herald Austin Bureau

AUSTIN, May 15.—The current wave of cutting state appropriations has endangered the future of two proposed new tuberculosis hospitals for Texas, which had been proposed to establish with properties from army camps; and apparently has ruled out definitely the acquisition of a third camp.

The two concerning which there is now considerable doubt are the Moore army air field in the Valley; and the Fannin army camp hospital. All except the last bit of red tape has been unwound for acquiring the Moore site. Camp Fannin was frozen by War Assets Administration pending a decision by Texas. The Camp Swift properties near Bastrop, likewise, have been rejected by the state board of control.

Camp Swift had been suggested as an addition to the overall eleemosynary program, but the other two camps were considered as logical sites for tuberculosis hospitals.

Senator A. M. Aldip of Paris said that he would do everything within his power to get the necessary maintenance appropriations into the eleemosynary appropriations bill, but this seemed entirely unlikely in view of the fact that the already rock-bottom appropriations bill is being trimmed further.

The short-term economies effected by failing to acquire these areas may be questioned on the basis of the Board of control's statement to war assets regarding Texas' need for hospital facilities. Quoting from the official application made by the board:

"Moore field... is located in an area having the highest percentage of tubercular cases per capita of any in the United States. There are approximately 3,000 ambulatory cases. Most of the people infected in this area are Latin-Americans. These workers migrate during the spring, summer and early autumn months as far north as the Canadian border. They handle our grains, vegetables, fruits and other food stuffs during these months in many states."

"During the winter months, they return to Texas along the border. Here they handle foodstuffs. During the entire year they mingle with their own kin as well as thousands of other American citizens. Data supplied by public health officials shows that each such ambulatory case will, during such period, cause the infection of nine other persons. Also, that the cost of treatment per patient is from \$1,000 up."

"The proposed hospital at Moore field will have an ultimate capacity of 1,000 beds. Whether or not they are cured, they will not be able to infect one thousand times nine, or 9,000 others. Assuming that the average cost (of treatment) is not the estimated \$1,000 per case but the absurdly low figure of \$10. On that basis a benefit would accrue to the nation of \$10 times 9,000 or \$90,000 in one year. Assume that half the patients would defray their own expenses and the figure remains at \$45,000."

"Projecting the operation of this sanatorium for only ten years, then the benefits to the United States would be \$450,000. In addition to the direct savings, the United States will benefit through improved health standards, a reduction in spread of tuberculosis and an annual savings to the states affected of \$3,800,000."

"In 1945, there were 2,923 people who died of tuberculosis in Texas. Of this number, approxi-

Waco Strikers To Ponder City Offer

WACO, May 15. (AP)—Striking employees of the Waco Transit company scheduled a meeting today to decide whether they will accept an offer of the city government to act as a fact-finding board in their dispute with the company.

Company officials were to confer with Mayor Richard Bush during the day concerning the proposal.

According to the plan suggested at a meeting of the board of aldermen yesterday bus service would be restored in Waco for at least two weeks while the city government, acting as a fact-finding board, determined whether the Waco Transit Co. is financially able to pay higher salaries on a five-cent fare. Company officials must agree to inspection of their records before the city undertakes its fact-finding work.

Dotlich Named Sports Skipper

SWEETWATER, May 15.—Joe Dotlich, one-time manager of the Clovis Pioneers, has been named manager of the Sweetwater Sports of the Longhorn baseball league.

Dotlich succeeds Mack Dunlap who has been acting manager since the resignation of Roland Murphy last week.

Dotlich has been playing regularly with Clovis.

THE TELEPHONE COMPANY'S FINAL WAGE OFFER

Every employee represented by the union offered \$4 weekly increase.

Hoping to hasten termination of the strike, the company made its maximum and final wage offer to the union negotiating committee last Monday, May 12.

There is some confusion reported as to the terms of this offer.

Omitting discussion of all but the main wage item, the company's offer is to give every one of its 42,000 employees represented by the union an increase in wages of \$4 per week.

Odessa Voters Okay School Bond Issue

ODESSA, May 15. (AP)—Odessa voters approved all four propositions of a \$1,400,000 school bond issue in yesterday's city election. The propositions approved were: 1. The issue of \$800,000 in bonds for construction of a Negro school, 2. A \$200,000 bond issue for purchase of teacher housing units, 3. A \$400,000 gymnasium bond issue, 4. An authorization for the school board to increase the tax rate maximum from \$1 to \$1.50 on the \$100 valuation.

Big Spring (Texas) Herald, Thurs., May 15, 1947

Quits Business To Give Full Time To Boys Club

AMARILLO, Tex., May 15. (AP)—Cal Farley's business interfered with his absorbing work with boys, so he went out of business.

The founder of the Maverick Club, Boys Ranch and Kids, Inc., activities which have gained national attention, has sold his big general store and from now on the youngsters won't have to compete with lawn-mower sales and quick tire changes for Cal's time.

Farley arrived in the Texas Panhandle 25 years ago with a second baseman's glove and a dejected outlook on life. He discarded both and ran a hole-in-the-wall shop into a prosperous business and vagrant youth into a community pride.

"Through the Maverick Club for the underprivileged, Boys Ranch for the delinquents and Kids, Inc. for organized play, Farley led a movement that has cut the juvenile problem in this city of 50,000 to almost nothing. But he felt the job really was only half-completed. So he sold his store.

"Mrs. Farley and I have decided that while we're not wealthy, we have enough to live on," he said, "so why not give our time to the kids of this community?"

There will be over 100 softball teams for the kids this summer but, says Farley, this is "only half of the boys in the age group we're working. So the job is only half-done."

In 1922 Farley founded the Maverick Club. It has a rambling building in the heart of Amarillo where the kids can learn to play and compete and spend their eger-

gies on something good for themselves and the community.

What he saw as a professional wrestler and baseball player tugged Cal to enter work with boys. "I was constantly surrounded by kids that didn't have much of a home or they wouldn't have been hanging around the ball parks or around the armory at 11 or 12 o'clock at night," Farley said, "I decided to see what could be done to help."

But Maverick Club alone didn't solve all of the problem. The tough kids were disdainful of games. They thought guys who played were sissies. They needed something as tough as they thought they were.

Cal Farley knew just the thing—horses and cattle to break and brand, work and study that taxed stamina and thought. So he and the late Julian Bivins got together and started Boys Ranch. Bivins gave the land which included the old courthouse at Tascosa, called the "Cowboy Capitol" in the days of hard-riding fast-shooting men. It is 38 miles northwest of Amarillo.

On the first day of spring in 1938, six boys were taken to the ranch. Today there are 76. The ranch now includes 1,000 acres of range and \$100,000 worth of buildings. New buildings from the army air field at Dalhart are being moved in to give room for double the present population.

Farley is president of Boys Ranch. He did the promotion work, got financial help among businessmen and ranchers. He used the radio program that has gone on daily except Sunday at his store for 15 years to boost the ranch and the boys program. This is an unusual radio program; no script ever has been written or music arranged for the show. Most anybody that comes along may find himself a radio performer before he knows it.

Convicted Rapist Granted Reprieve

AUSTIN, May 15. (AP)—A customary constitution 30-day reprieve has been granted to Walter Crowder Young by Gov. Beauford Jester.

Young was convicted and sentenced to death on a charge of rape in Dallas county. The reprieve moves execution date from June 2 to July 2.

Young was one of three men involved in roadside attacks near Lancaster last May in which four girls and two boys were held at the point of a gun while three of the girls were raped.

CHEERFUL NOTE GIVEN BORROWER

NEW YORK, May 15. (AP)—Charles J. F. Porter borrowed \$312 yesterday from the National City Bank and along with the cash he was handed his note, marked "Paid."

The puzzled borrower then learned that his loan included the billionth dollar loaned by the bank's 21-year-old personal loan department and writing off the loan was the bank's way of celebrating.

Industry Looks at Our Town

Maybe you read how a group of industrial experts have decided that the small town is the place for industry—not big cities. Reasons they give are better housing, pleasanter living, and more opportunity for wholesome recreation.

Well, looking around our town, I'd say that was about right. Most of us own our homes, and keep them looking nice; we enjoy each other's company; and our recreations are mostly simple outdoor sports, and in the evening a mellow glass of beer with pleasant company.

Chances Appear Slim For Hike In Minimum Wage Law This Year

WASHINGTON, May 15. (AP)—Although President Truman's recommendation for a hike in the minimum wage drew bi-partisan congressional support today, chances appeared slim for any action this year.

The president urged Congress increase the present minimum wage of 40 cents an hour to 65 cents.

Senator Taft (R-Ohio) told reporters he favors hiking the wage floor but isn't ready to set any figure. However, he said, there is only a bare possibility the Senate can act on such a bill this session.

Senator Pepper (D-Fla.), author of a bill to hike the minimum to 75 cents an hour said other matters on the Senate calendar aren't so important as the wage matter while Senator Ellender (D-La.) who favors a hike to 55 cents now and 60 cents later, said there is no prospect for action at this session.

Meanwhile, House and Senate conferees assembled for their first try at compromising differences in the House and Senate labor bills. Biggest obstacle—the various restrictions in the House bill but not in the Senate version. These include a ban on most industry-wide bargaining and an authorization for employers to ask injunctions against some strikes and boycotts.

The House Appropriation Committee's economy drive collided today with a bi-partisan demand for more funds for airports.

As the House took up amendments to the committee's \$335,728,000 justice-state-commerce-judiciary supply bill, GOP leaders conceded that Rep. Rooney (D-NY) would succeed in his move to add \$4,849,000 for air traffic control towers in 150 cities.

Democrats were ready next to try and restore \$32,500,000 for federal-aid airport buildings throughout the country.

Republican lines held firmly yesterday in beating back all efforts to restore parts of a 22 per cent cut recommended for the State Department. One unsuccessful move would have added \$31,381,000 for the Department's cultural relations program.

House leaders hoped for a final vote on the bill during the day. These matters also were of congressional interest.

School aid—a high-ranking Republican said the party leadership has decided to kill a bill which

would give states \$300,000,000 yearly for aid to schools. This Republican, who desired to remain anonymous, said this move reflected party desires to hold down federal spending.

April Retail Trade Up Four Per Cent

AUSTIN, May 15. (AP)—Retail trade in Texas during April showed a four per cent increase compared with the average four per cent decrease in past years during the same period, the bureau of business research reported yesterday. April business remained 11 per cent above that of April, 1946.

Worry of FALSE TEETH

Slipping or Irritating? Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little PASTEREETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No stinging, sooty, nasty taste or feeling. It's alkaline (non-acid). Get PASTEREETH at any drug store. Get PASTEREETH at any drug store. Get PASTEREETH at any drug store.

Plan To Purchase Blast Furnace Blowers Stalled
WASHINGTON, May 15. (AP)—A representative of the Long Star Steel company said last night that the company's proposal to buy two blast furnace blowers from the wartime Geneva, Utah, steel plant for the Daingerfield, Texas, pig iron plant is still pending. The representative, Dr. George Anderson, said that no decision will be reached until an inspection report on the blowers has been received, and he does not think that will be for a few days. The negotiations are with the War Assets Administration. Rep. Wright Patman of Texas said that the Geneva blowers, with a capacity of 40,000 cubic feet of air per minute, coupled with a 25,000 C.F.M. blower at Chester, Pa., which also is being negotiated for, should be sufficient to meet all demands at Daingerfield. In addition to their use in the production of pig iron, the blowers would be used in the operation of a navy department wind tunnel. State Traffic Officers To Attend School AUSTIN, May 15. (AP)—Nearly 75 city and county traffic officers are expected to attend a two-week training school here beginning May 19. Assistant director Joe S. Fletcher of the department of public safety said today. Emphasis will be given to the results of new car production and the building of expressways and other engineering improvements contemplated or under construction by the state highway department and cities, Fletcher said.

Bill Dawes Guest Speaker At Last Meeting Of P-TA

Bill Dawes, YMCA secretary, was guest speaker at a meeting of the Central Ward Parent-Teacher Association held at the school Wednesday afternoon.

The gathering marked the last meeting of the spring school semester, and the program opened with an inspirational talk by Mrs. J. C. Lane who introduced the guest speaker.

Recreational facilities were discussed by Dawes, and in his discussion he reminded the audience of the 10 playgrounds, three wading pools, six theaters, lakes, gymnasium and YMCA which provides local entertainment for children.

He again stressed the point that children must be involved in the planning and carrying out of summer activities, and explained the difference in recreation and entertainment. Game books were cited as life savers when children do not have planned activities.

Parents were urged to do as little as possible in assisting with their party plans and supervising games.

In observance of "I Am An American" week, the group sang "America," and a past president's pin was presented to Mrs. L. D. Jenkins.

The unit voted to buy a mimeograph machine, and yearly reports were given by all children. Ruth Burnham invited members to attend a track meet which will be held Friday at 3:30 p.m. and Saturday morning at 9 a.m.

Room count went to Mrs. Stephens' room, and Mrs. C. C. Williamson invited members to be present at the first fall meeting of the P-TA in September.

Those attending were Mrs. E. O. Hicks, Mrs. M. E. Anderson, Mrs. Ernest Hook, Mrs. J. W. Godfrey, Mrs. C. C. Williamson, Mrs. A. A. Marchant, Mrs. Roy Tidwell, Mrs. Ray Clark, Mrs. J. C. Harmon, Mrs. D. R. Tullous, Mrs. H. C. McNabb, Mrs. Roy Brown, Mrs. H. D. Stewart, Mrs. J. T. Culpepper, Mrs. Lee Porter, Mrs. L. L. Miller, Mrs. A. L. de Graffenried, Mrs. Fred Paynter, Mrs. Lee Singletary, Mrs. E. A. Turner.

Mrs. Kirk Kowarske, Mrs. F. D. Rogers, Mrs. Luther Coleman, Mrs. T. W. Hammond, Mrs. Arthur Caywood, Mrs. L. D. Jenkins, Mrs. J. C. Lane, Mrs. L. D. McKillgott, Mrs. C. W. Norman, Ruth Burnham and Mrs. H. L. Derrick.

Students Present Coahoma Recital

COAHOMA, May 15. (Sp.)—Mrs. C. H. DeVaney, teacher of expression, and Gypsy Ted McCollum, piano instructor, presented their students in a recital at the school auditorium Monday evening.

Readings were given by Norman Spears, Mackie Lee Brooks, Arthur Dodds, Rosalie DeVaney, Debra Lindley, Clinton Wood, Newlin James, Ronny Woodson, Ronny Acuff, Dudley Arnett, Paula Jane Turner, Sharon Finley, Elvon DeVaney, Valce Cox, Deanna Hunter, Thomas Birkehead, and William Tindol.

Piano selections were played by Patsy Jo Davis Norma Jan Snyder and Charlene Williams and Miss McCollum played piano accompaniment for skits.

Leroy Echols spent the weekend in Fort Worth with his wife and daughter, Judy, who is receiving treatment in a hospital there.

Mr. and Mrs. Bruce Mayfield returned Sunday from Dallas where they spent the weekend with Mrs. Mayfield's mother, Mrs. Olive.

Mrs. Dick Copeland of Lubbock spent Sunday here with her parents, Mr. and Mrs. Frank Lovell.

Miss Gypsy Ted McCollum spent Mother's Day with her parents in Lorena.

Mr. and Mrs. Truett DeVaney visited in Odessa and Goldsmith last Sunday.

Mr. and Mrs. Paul Woodson and son, Ronny, were weekend guests of Mr. and Mrs. Houston Crocker in Monahan.

Mr. and Mrs. Boone Cramer and sons, Rodney and Bill Jo, visited with Mrs. Cramer's brother, Farar, who underwent major surgery in Temple recently.

R. L. Adams, a student at Texas Tech in Lubbock, spent Sunday here with his parents, Mr. and Mrs. Leslie Adams.

Leon Moffett of Oklahoma City, was a business visitor here recently.

Hyperions To Hold Last Meet Of Spring Season
The 1905 Hyperion club will meet Saturday afternoon at 3 o'clock with Mrs. Shine Phillips.

The meeting will be the last of the season, and each member who can not attend has been asked to send a guest in his place.

Opening Of Lamesa Radio Station Delayed
LAMESA, March 15. — Formal opening of KPET, Lamesa's new radio station, has been postponed until Saturday, officials announced today.

The opening was originally scheduled for today, but electric power interruptions caused by weekend storm damage caused the postponement.

GARLAND THOMAS FETED AT CHINA, CRYSTAL SHOWER

Mrs. Marvin Wood and Mrs. Earl Wilson entertained with a crystal and china shower in the A. F. Gilliland home Monday evening honoring Garland Thomas, bride-elect of Elton Gilliland.

Receiving guests were Mrs. Eugene Thomas, Miss Thomas' mother, Mrs. Gilliland.

Refreshments were served from a table covered with ecru lace and centered with a bouquet of roses. Party napkins bore the inscription "Garland and Elton, May 17." Individual ice squares were served with punch, and hours were from 8 to 10 o'clock.

Guests included Mrs. R. V. Foresyth, Mrs. Tom McAdams, Mrs. Donald Anderson, Mrs. A. G. Tatum, Mrs. Renken Hill, Mrs. Bill Sandridge, Mrs. Morris Sneed, Mrs. Floyd Morris, Mrs. Jean King, Mrs. C. M. Weaver, Mrs. Dewitt Gilliland, Mrs. H. V. Crocker, Mrs. Roy Coffee, Mrs. T. H. Hughes.

Mrs. A. C. Wilkerson, Mrs. Margie Richardson, Mrs. Ross Dargow, Mrs. R. T. Lytle, Mrs. Edd Stringfellow, Mrs. A. W. Page, Mrs. Tom Amerson, Mrs. Bill Younger, Mrs. D. W. Adkins, Mrs. R. L. Millway, Mrs. Leslie Cleere, Mrs. F. H. Landers, Mrs. Gene Crosshaw, Mrs. Jay Frances, Mrs. Penkett, Mrs. J. D. Allison, Judy Puglar, Mrs. Cate, Anita Cate, Mrs. Elmer Rainey and Mrs. Evans.

Leaders were divided into two groups for a cook-out and projects were one pot meals and stiek' cookery. In charge were Mrs. M. F. Ray, Mrs. C. Y. Clinkscles, Mrs. H. W. Smith and Mary Miller.

Other training included nature activities and the process of making fuel for tin can stoves.

On display was a biography from the Howard County Free Library from which leaders may borrow books.

Attending from Lamesa were Mrs. Mack Scoggins, Mrs. S. Z. Frazier and Mrs. G. H. McDonald, and present from Garden City were Mrs. A. C. Durrant, Mrs. Olan Rich, Mrs. H. A. Haynes, Mrs. F. C. Cox and Mrs. Dell Covington.

Others from here were Mrs. Dick Byrd, Mrs. Bill Earley, Mrs. Inez Brown, Mrs. G. R. French, Arah Phillips, camp director.

Friday morning the group will meet at the park from 8:30 to 11 o'clock for breakfast.

Girl Scout Leaders Meet At Park For Day Camp Training Session

A regular Girl Scout leader's club meeting was combined with a day camp training session Wednesday when leaders from Lamesa, Garden City and Big Spring met at the city park for instruction from Mary Miller, area scout advisor.

Questionnaires were distributed for 1947-48 planning, and as part of the training for scout activities, a color guard ceremony was held.

Participating were Mrs. H. J. Agee, Mrs. G. E. Peacock and Mrs. Ross Boykin. An investiture service was held for five new members who were presented with pins by Mrs. J. E. Hogan, training chairman.

Included in the group were Mrs. J. E. Bronson, Mrs. R. R. McEwen, Jr., Mrs. Rob Adams, Mrs. L. E. Phillips, Jr., and Mrs. Frank Miller.

Urges Congress To Look South For Newsprint

WASHINGTON, May 15. (AP)—E. A. Charlton of New York advised Congress today to look to the Deep South, rather than to Alaska, for new newsprint and paper supplies.

Charlton told a special House Committee headed by Rep. Clarence J. Brown (R-Ohio) that the experience of the United States Forest Service in wood plantations in the South indicates the advisability of further studies in that area.

Speaking for the Leesville-Vernon Parish chamber of commerce, Leesville, La., Charlton said: "If half the forest lands of Texas alone followed the planting practices of the United States Forest Service, enough pulpwood would be produced to service the entire 1947 needs of the entire South."

He referred to current suggestions that Alaskan forests be developed to produce paper and pulpwood and said surveys show there would be a production cost differential of "conservatively \$10 per ton in favor of the South."

Charlton continued: "Regarding the future of newsprint in the South, and particularly the immediate tonnage possibilities, permit us to state that we know where there are 1,200,000 acres untouched by pulpwood operations, west of the Mississippi and outside of our Leesville-Vernon contemplated project, which, with the surrounding landowners, could support an additional 1,000,000 tons of newsprint per year."

"It is not difficult to visualize a production of 2,000,000 tons of newsprint in the South. What is more all of this production will be low cost production paper; competitive with not the average but the best northern mills."

Big Spring representatives returned Wednesday evening from Austin where they made several contacts, one primarily in regard to potential state park development.

Although a bill has been introduced to provide two and a half millions for state park development, none of those from Big Spring believed the measure had any chance of passage this session.

First of all, the lateness of the session makes it most difficult; second, the measure is almost certain to strike parliamentary snarls; third, it likely will not get by committee; fourth, it likely would be cut back by the senate if it passed the house.

Probability, however, is that out of the movement some action will be taken at the next session to do something about the orphaned park-system.

The bill which would permit levying of a library tax out of the permanent fund in preference to the general fund, at the discretion of the county, has passed the house and is due to have no trouble in the Senate. Rep. Peppy Blount sponsored the bill in the house and Sen. Sterling J. Parish is supporting it in the senate.

Rep. Blount said he was making an attempt to have some of the reverted appropriation for enlargement of the Big Spring state hospital restored, possibly by the free conference route. J. H. Greene, J. B. Collins and Joe Pickle, who made the Austin trip, conferred briefly with Gov. Beauford Jester on this possibility. They also talked with T. B. Warden, chairman of the board of control. In addition they enlisted support of Sen. Parish and others on behalf of the \$100 per capita junior college aid bill.

Members of the senior chamber's merchant's committee had approved the proposal at a meeting earlier in the week and the Jaycees agreed to shape up detailed arrangements for the event.

Several officials of the Big Spring junior chamber of commerce continued a study of plans Wednesday for bringing a special "Balloon Parade" here next December to open the Christmas season.

Members of the senior chamber's merchant's committee had approved the proposal at a meeting earlier in the week and the Jaycees agreed to shape up detailed arrangements for the event.

Troop One Court Of Awards Is Attended By Scouts, Mothers

Members of Girl Scout Troop One participated in a court awards Wednesday when they met in regular session.

The program opened with the pledge to the flag, the GS pledge and a song "God Bless America."

Mothers, guests for the day, were welcomed by Martha Johnson and Mrs. Joe Haddon, program chairman for the council, was in charge of the court of awards.

Receiving badges were Martha Jane Clark, Mary Jane Collins, Ann Crocker, Barbara Dohlinger, Diana Lee Farquhar, Betty Hunevutt, Martha Johnson, Patricia Lloyd, Marie Love, Mitzzy McCormack, Doris Ann McDonald, Margaret McDonald, Beth McGinnis, Shirley McGinnis, Marilyn Miller, Gale Price, Kitty Roberts, Joe Ann Smith, Jean Strathorn, Sandra Swartz and Joy Williams.

Among badges awarded were housekeeper, sculpture, camp craft, hatless, color craft, foot traveler, dramatic folk dancing, out-door cooking, music appreciation, leather, drawing and painting, interior decorating, basketry first and second year star and second year badge.

Thirteen of the awards went to Joe Ann Smith and other scouts of the troop received varying numbers.

Refreshments were served by the troop received varying numbers of guests present were Mrs. Larson Lloyd, Mrs. W. C. Williams, Mrs. C. H. Farquhar, Mrs. H. V. Crocker, Mrs. E. W. Love, Mrs. M. J. Stratton, Mrs. Vernon Spith, Mrs. Martin Dehinger, Mrs. Marvin Miller, Mrs. A. Swartz, Mrs. Monroe Johnson, Mrs. Matie McDonald, Mrs. Harston, Mrs. Joe Haddon, Mary Miller and Nell Brown.

ANTIQUE DECOR—An unusual table made from the top of a Corinthian column supports the antique clay and earth molded lamp being touched up by Frances Lee, furniture designer. The lamp came from an old Roman monastery.

Ruling On Negroes In Name Asked

AUSTIN, May 15. (AP)—The attorney general has been asked to rule on a request which would delete the word "negroes" from the name of the recently established Texas State University for Negroes.

Gov. Beauford H. Jester made public yesterday a letter from the four negro members of the new board of directors asking that the name be changed to George Washington Carver State University of Texas or preferably, the Wright Cuney State University of Texas.

Jester said it was a "good suggestion" but he wanted the attorney general's opinion before recommending any change this session. "It might open up the bill establishing the University for some other changes," he said.

Town Meeting Will Debate Broadcast Issue

An issue now before Congress, "Should We Continue the Voice of America Broadcast?" will be the topic of discussion when America's Town Meeting originates from Plymouth Church of the Pilgrims in Brooklyn tonight at 7:30 p.m. via KBST.

The broadcast, first America's Town Meeting held in Brooklyn, will be a feature of the centennial celebration of the historic church of Henry Ward Beecher.

Platform speakers of the program will be, Carl Hatch (D. N. M.), member of the Senate Foreign Relations Committee; Rep. John Taber (R. NY), chairman of the House Appropriations Committee which recently eliminated the \$31,000,000 State Department request in the Truman budget to continue its cultural relations program; Frank Waldrop, executive assistant to the publisher of the Washington Times-Herald; and Ralph T. McGill, editor of the Atlanta Constitution.

McGill was a member of the three man commission, including Wilbur Forrest of the New York Herald-Tribune and Dean Carl Ackermann of Columbia University, appointed by the American Newspaper Publishers Association to make a round-the-world trip to study communications and sources of information in foreign countries. He recently returned from a follow-up trip to make further investigations.

George V. Denny, Jr., president of Town Hall and regular moderator of America's Town Meeting, will preside over the broadcast.

Two Vacancies Filled On Judicial Council

AUSTIN, May 15. (AP)—Two vacancies on the state civil judicial council were filled yesterday by Gov. Beauford H. Jester.

He named Frank S. Roberts of Breckenridge to fill the unexpired term of the late Frank Harigraevs.

Judge Ballard Coldwell of El Paso was named to fill the term of Judge Max M. Rogers, who resigned.

House Refuses To Defer Action On Carbon Black

AUSTIN, May 15. (AP)—The House refused yesterday to defer action on a Senate approved bill which would allow carbon black plants to use certain types of natural gas without extracting the gasoline content.

Representatives voted 92 to 34 against a motion to table the bill for later debate.

Rep. R. L. Templeton of Wellington, sponsor of the measure in the House, told members that carbon black plants in the Panhandle were suffering from a shortage of "sour

gas, now used in manufacturing carbon black. He also said there was a fast increasing lack of carbon black—used extensively in making automobile tires and other rubber products.

Opponents contended that the Panhandle was trying to retain what they termed a virtual monopoly of the carbon black industry in Texas.

"They admit they are running out of gas," declared Rep. Preston Mangrum of Dallas, "but they want to perpetuate a monopoly. They don't want the carbon black plants to move the oil fields in West Texas and on the coast."

By Sen. Grady Hazlewood of Amalillo, the measure would allow the use of "sweet" or "sour" gas in manufacturing carbon black if the manufacturer paid the same price for sweet gas as the market price for gas used for light and fuel purposes.

Fact-Finding Group May Survey Relief

AUSTIN, May 15. (AP)—The legislature has before it today the recommendation of Gov. Beauford H. Jester that a fact-finding group be sent to the Texas City and Panhandle tornado areas before considering relief legislation.

"I want this survey made before I recommend any emergency legislation," the governor said. "It is the only orderly way to find out what the state would do to help these areas."

Stockholders Elect New T&P Director

DALLAS, May 15. (AP)—An Abilene businessman, C. M. Caldwell, was elected as a new director of pany during them-etaoin et ett

the Texas and Pacific Railway Company during the annual stock holder meeting here yesterday.

President W. G. Vollmer, who presided at the meeting, said that Caldwell replaces George L. Burr of New York, who resigned.

Soft Water Plan Spreads Rapidly

R. L. Trapnell, owner and manager of the Culligan Soft Water Service, 503 East Sixth street, has returned from the First Annual District Convention of Culligan Soft Water Service operators held at the Worth hotel in Fort Worth.

In company with hundreds of fellow operators from nearby states, Trapnell discussed plans for expansion and improvement of his service in 1947.

Officials of the Culligan Zeolite Company of Northbrook, Ill., principal supplier to these independent operators, were at the meeting to discuss with them the field of water softening in the coming years.

Culligan Soft Water Service, which has been in Big Spring for the past two years, now has more than 700 operators serving over 250,000 homes in more than 1,300 cities and towns from New York to California. This entire growth has occurred since the founding of the first Culligan Soft Water Service in Wheaton, Ill., in 1938.

While at the convention, Trapnell witnessed the first showing of a new technicolor movie on the benefits and economies of soft water. This movie showed how hard water wastes soap, ruins complexion and makes washing difficult. It also showed how softened water, the Culligan Way makes washing easier, saves soap and makes complexion cleaner. This fine color picture should be available for local showing during the summer.

FOR YOUR SAFETY—Mattress work means more than renovating or building quality mattresses. For the element health is taken into consideration by the Big Spring Mattress Factory. Here workers give a practical demonstration by inserting mattresses into a sterilizing unit. When it comes out, it is absolutely free of any microbes which might endanger health. (Jack M. Haynes Photo).

Cosden Announces Addition Of Line Of Tires And Batteries

Announcement of the addition of a line of tires as an added service to 120 jobbers has been announced by Cosden Petroleum corporation. Large stocks of tires already are on hand. L. company's wholesale unit and another of United Tires has arrived.

Hugh K. Harris, an experienced tire man, has been placed in charge of the new operation, which also includes Reliable batteries.

"After careful investigation, we have chosen United Tires," said the Cosden announcement. "We are convinced that they are equal in quality to any that can be bought.

They are made, and fully guaranteed, by one of the largest tire manufacturers. Furthermore, we can offer you a deal on United Tires which will equal or top any tire deal in your town."

The wholesale unit in Big Spring will be the nucleus for distribution of tires to approximately 120 Cosden jobbers, many of them serving more than one community. The United Tire rights for Cosden jobbers territory is exclusive, said Carl W. Smith, sales manager.

All popular sizes for automotive equipment — trucks and passenger cars — are in stock. Smith pointed out that the move was designed as an effort on Cosden's part to offer added service to distributors of Cosden fuels and lubricants — to provide customers with more running miles on tires, as well as on gasoline and oils.

Picture frames will respond to a wax treatment. Gilt frames sparkle like new. Best of all, dust just won't settle in those curlicues with wax there first: A two-inch paint brush, is an excellent means of fitting dust from such treasures: It's also good for books, baseboard crevices, picture frames and window sills.

HAVE ANOTHER LOOK AT YOUR INSURANCE, REEDER ADVISES

The outbreak of mass tragedies throughout the country — blasts, tornadoes and fires — is causing many persons to reread their fire insurance policies, says Roy B. Reeder of the insurance company bearing his name.

His concern, like most others, sell two types of 'fire insurance' policies, one that proffers protection for nothing but blazes while the other covers everything in losses suffered from falling airplanes to water damage.

Reeder does enough business in the home to be an authority on domestic relations. His company deals in real estate and FHA loans, works with the builder once that individual makes it known he wants a dwelling.

Multiple benefits can also be obtained from the various types of automobile insurance handled by the Reeder Insurance company.

Reeder strongly recommends the public liability and property damage policy, which covers the holder, his automobile and other parties involved in a crash.

"People, whether they realize it or not, help make the automobile insurance rates. When the accidents are many, the rate goes higher. When the mishaps decrease, the rate goes down, of course."

Reeder drew attention to the fact that auto insurance rates were increased slightly May 1 due to the unprecedented toll of accidents which occurred in 1946.

Hearings Continue On Application To Operate Two Bus Lines

Hearings continued today in San Angelo on the application of R. E. Baygent, Marfa, to operate two bus lines in West Texas.

Tuesday K. H. McGibbons, D. T. Evans, J. F. Jones and T. J. Dunlap of Big Spring testified as to need of the proposed Baygent service between Big Spring and Del Rio.

Witnesses said that service was possible between the two points, but not on a direct north-south routing. Service of Kerrville and Oil Field lines, who are protesting, was said to be good but not covering the area Baygent proposes to serve.

Attorney T. W. Wheeler of Austin, representing Kerrville lines, moved, without success, that hearing be denied on Baygent's application for a line from Kermit to San Angelo but W. B. Danforth, examiner for the railroad commission, ruled against the contention

that the application had not been filed sufficiently long.

Both Wheeler and B. A. Carter, San Angelo attorney representing Oil Field lines, requested that in event the certificate to Baygent be granted for the Del Rio-Big Spring area, that the commission restrain the operator from accepting passengers at either of the terminal points and from Barnhart to Big Lake. Testifying on both proposed routes were Y. C. Gray, C. G. Parsons, C. M. Sparkman, E. P. Fulton, Fred Chaney, C. T. Mahler, Sr. of Garden City, Woodward Munn, H. B. Reese, T. C. Hayes, John Farley of Big Lake testified on the Big Spring-Del Rio proposal. Baygent's wife testified his net worth was around \$75,000.

You can remove those unsightly black marks on linoleum, or other flooring, with a cloth that has been dipped in liquid or paste wax.

28 To Graduate From Stanton High Tonight

STANTON, May 15. — Twenty-eight seniors will be graduated from the Stanton high school in formal exercises set for 8 p.m. today in the high school auditorium.

E. H. Boutler, Lubbock, deputy state superintendent, is to be the principal speaker, and other program highlights include the valedictory by Paul O'Dell and the salutatory by Jean Davis. The graduating class will sing "Perfect Day" and awards will be announced by H. G. Hamrick, superintendent, who also will present diplomas.

Processional and recessional will be played by Mrs. Hamrick and the invocation will be by Elmore Johnson and the benediction by Rev. I. E. Briggs.

Sunday the class had its baccalaureate with the Rev. T. R. Hawkins as the speaker. Doris Howell played an accordion solo. Mrs. Hamrick was accompanied and the Rev. I. E. Briggs and Rev. Elmore Johnson, ministers, assisted.

Class members are Christine Alexander, Juanita Anderson, Mary Frances Anderson, Billy Ray Avery, Monte Carr, Verna Bell Clinton, Billy Coggins, Jean Davis, Lavada Davis, Margaret Flanagan, Lurline Guerin, Leroy Gregg, Dorothy Jo Graves.

Herbert Jones, Ruby Nell Lawson, Frankie Leonard, Billy James Louder, Lorece Mims, Paul O'Dell, Sue Patton, Eva Sue Peters, Scharon Reed, Willie Joe Reid, Mavis Rice, Van Ross, Reba Stovall, Emma Lee Thomas, Pat Wilkerson.

PIERCE FAMILY RETURNS — Mr. and Mrs. J. C. Pierce and family returned this morning from a week's vacation in Brownwood, Cross Plains and Baird.

PREMIER — George Dimitrov (above) is prime minister of the Communist-controlled government of Bulgaria. He was acquitted in the German Reichstag fire trials in 1933.

Bids Of School Bond Buyers Are Rejected

Bids of four bond buyers for a projected issue by the Big Spring Independent School district were rejected at a called session of the board of trustees Wednesday evening.

The companies had submitted bids contingent upon the calling of an election and floating of bonds, estimated in the neighborhood of a million dollars. The board rejected the bids and set July 9 as the date to receive new ones, plus any others, on the same basis.

Theory behind the bids is that a favorable bond market might be embraced at this time. Lowest bid submitted averaged 2.67 on a 40-year term. The board reserves the right to reject any and all bids on July 9.

Supt. W. C. Blankenship, Dean Bennett and Pat Murphy, athletic director, were instructed to proceed with plans for engaging principals and physical education directors in elementary schools. The basic plans envision principals to serve Central and West Wards individually. College Heights and South Ward jointly, and North and East Wards jointly. In event men teachers can be obtained, they may draw the physical education assignments within the schools.

In a signed statement, Gonzales admitted he had shot Salgado after an affray the night of last April 26 near a northside nightspot belonging to Gonzales and his father.

Salgado died some three days after the shooting.

Boil carrots with the outside leaves of celery for pungent flavor.

President Asks Congress To 'Free World From Fear, Hunger'

WASHINGTON, May 15. (AP) — President Truman urged congress again today to provide \$350,000,000 for foreign relief, saying "the peace of the world can be realized only when people are free from the fear of hunger."

The new appeal, in a letter transmitting the tenth quarterly UNRRA report, came only a day after the Senate agreed to provide the full amount Mr. Truman asked.

The House, however, has voted to cut the fund for feeding the hungry in Austria, Greece, Hungary, Italy, Poland, Trieste and China to \$200,000,000. Hence the two versions will have to be compromised.

Mr. Truman also renewed his request that congress authorize this country to join the international refugee organization, to be composed of United Nations members, and give it \$75,000,000 to help care for persons driven from their homes by war.

"The United States," Mr. Truman's letter said, "has resources needed by war-devastated countries to carry them through this year into a new year in which most of them may hope that they will achieve economic recovery." He continued:

"The goal is close. The United States can help many countries reach that goal in a few more months through the supplies which the joint resolution on relief assistance will provide. I have no doubt that the American people desire that we finish what UNRRA has so well begun."

The United Nations relief and rehabilitation administration would

up its work March 31. The \$350,000,000 foreign relief fund is intended to help tide the seven foreign nations over to the point where they can feed themselves.

Cumulative world UNRRA shipments by last December 31 were approximately 19,885,870 tons valued at \$2,311,225,000, the report said.

"Of these totals," it added, "shipments from the United States were approximately 14,890,685 tons valued at approximately \$1,664,082,000, or respectively, 75 per cent and 72 per cent of the total."

"The approximate value of supplies remaining to be shipped on January 1, 1947, was a world total of \$660,000,000."

Grandmother Of Mrs. Roger Dies

Mrs. Henry Roger has received word of the death of her grandmother, Mrs. S. L. Thomas, Atlanta, Ga., who was 99 years old at the time of her death.

Mrs. Thomas was considered an authority on Georgia and Atlanta history and was a schoolgirl companion of the person on whom the character, Scarlett O'Hara, presumably was based. Margaret Mitchell, author of "Gone With the Wind," consulted Mrs. Thomas for material in the famous book.

Local Troupe Wins

Harry Dooley hit an 11th inning home run over the left field wall to enable the Big Spring Colored Sluggers to defeat the Lamesa Rangers, 10-9, in a baseball game played here Wednesday night. Dooley pitched the last five innings for the local nine.

Baccalaureate At Ackerly Sunday

ACKERLY, May 15. — Baccalaureate will be held here Sunday evening with the Rev. H. H. Hollowell, pastor of the First Methodist church at Midland, as the speaker. The Rev. Hollowell is a former pastor of the Methodist church here. Commencement has been set for May 22 when 13 members of the graduating class will receive diplomas.

Bond For Gonzales Set At \$5,000

Bond for Louis Gonzales, charged with the murder of Bernardino Salgado, has been set at \$5,000.

New Producing Area Seen As Wildcat Shot

Prospect that a new producing area in the middle Permian had been discovered was explored today as Tobe Foster No. 1 R. S. Brennan, Sr., northwest Mitchell wildcat, ran tubing and rods to test.

Located two miles west of the north end of the Westbrook field and 350 feet from the north and 1,650 feet from the east lines of section 4-28-1n, T&P, the test was shot after plugging back to 2,800 feet. It filled with oil on cleaning out and headed some. The formation has not been identified definitely.

In northwest Coke county Sun Oil No. 2 Fred Jameson, southeast outcrop to the Jameson field, flowed 48 barrels of oil in four hours, naturally from perforations 6,306-61 in the crinoidal of the Pennsylvanian. The test may be acidized before completion. It is 1,980 feet from the south and east lines of section 315-1-A, H&R.C.

Citizens Urged To Renew Fight Against Insects

Local residents should renew their fight against flies, mosquitos and other disease-carrying insects in wake of the recent rain, Dr. F. E. Sadler, director of the Midland-Coleman counties health unit reminded today.

Following rains there is always an increased danger of communicable disease due to overflowing of cesspools, the washing of decayed animal and vegetable matter, garbage and other waste upon streets, alleys and private premises, Dr. Sadler warned.

Swatting, trapping and poisoning the flies will help, but to completely eliminate the hazard, breeding places must be destroyed, the health unit director declared.

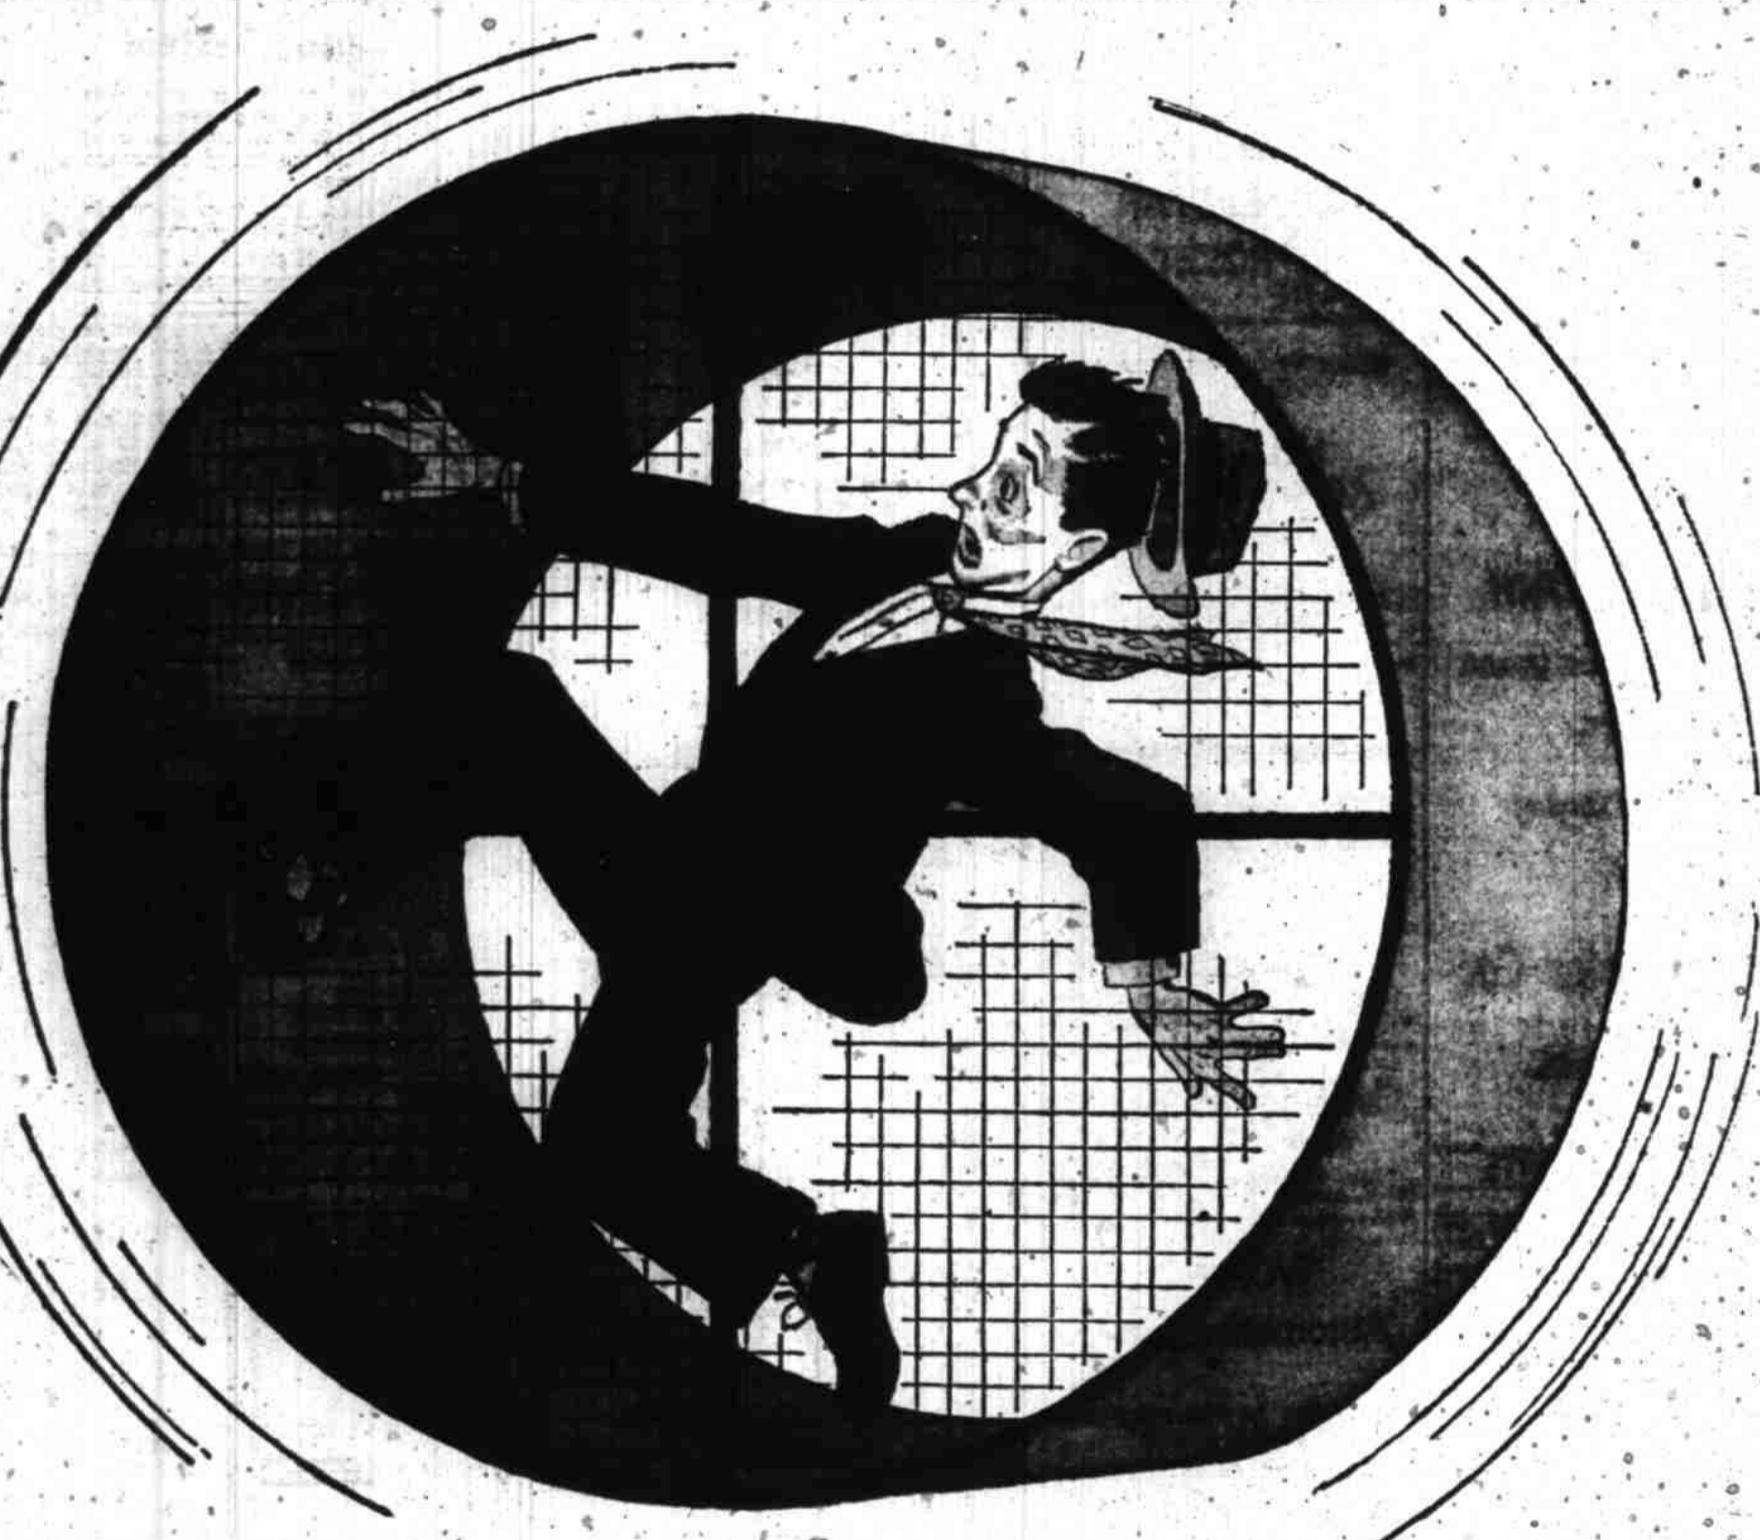

He recommended that crude oil or kerosene be poured on standing water that cannot be drained, and that premises be sprayed with DDT or other approved insecticides.

Flower Grove School Isolated By Heavy Rains

ACKERLY, May 15. — Flower Grove school children are having an unexpected holiday this week. Heavy showers over the weekend, aggravated by one of cloud-burst proportions Sunday evening, filled natural lakes and isolated the school so that buses could not reach it.

On the evening of May 23 the junior class will present a play, "Aaron Slick from Punkin Crick." Cast members are Clay Ingram, Forrest Criswell, Louis Moore, Bertie Page Hinson, Barbara Archer, Glendene Hanks and Ruth Womack.

Mr. and Mrs. Joe Wheeler and her mother, Mrs. Albert Shortes, of Clovis, N.M. have been visiting in Big Spring and the Brown community and Ronald Kiser home in Coahoma. He is the great-grandson of Mrs. Shortes.

THIS WAY OUT

Tired of being like a squirrel in a revolving cage—doing the same job day after day—just making expenses meet—never getting ahead?

You'll never get out just thinking about it. You'll have to save for it. And the easiest way to do that is on the Payroll Savings Plan.

Every \$3 saved now means \$4 a few years hence. So... squeeze out of that cage! Buy Bonds through Payroll Savings! Also available at banks and post offices.

'I'm An American Day' Planned

All communities in the county have been asked to prepare some observance for "I Am An American Day" which has been proclaimed

for Sunday by President Truman, the chamber of commerce reported this morning.

Chamber officials have mailed letters to all schools in the county, requesting that they recognize the occasion in assembly programs or by other means this week. Ministers also have been contacted and several have indicated that they will call special attention to the ob-

Try using paste or liquid wax on book covers. It will not only keep them clean longer, but also aid in preserving colors and tend to lengthen the life of the covers.

service during Sunday services. The chamber of commerce is arranging a special program to be presented over radio station KBST at 3 p. m. Sunday.

Coahoma FFA Chapter Wins 'Operation Scrap'

COAHOMA, May 15. —Members of the Coahoma FFA chapter were notified this week that they won fifth place in the state-wide "Operation Scrap" sale. The contest was conducted by

the Sheffield Steel Corp. Scrap metal was collected by the students and Paul Sweatt, vocational agriculture teacher and sold to scrap dealers in Big Spring. The FFA club sold \$40 worth of scrap, and in addition the Sheffield Corp. presented the group with a \$45 prize check.

Quadruplets are born only once in every 350,000 births.

BOMB FOUND IN TREE

JERUSALEM, May 15. (AP) —Thirty persons were detained for questioning today after an unexploded bomb, camouflaged with netting and leaves, was found in a tree fork near the military courts building in Jerusalem.

Frozen food locker plants increased from 4,600 in 1943 to 8,000 in 1946.

Locals Home For 5 Days

Bert Baez, Big Spring's versatile mite from the Land of the Congas, will go to the hill tonight when the Cats will have their home game. Baez can play any position and prefers to be in there every day. In a series at Ballinger two weeks ago, the Hoses succeeded in winning a five-day home stay at Steer park against the improved Ballinger Cats. Game time is 8:15 p.m.

Ballinger's gang will be making its first trip to Big Spring. In a series at Ballinger two weeks ago, the Hoses succeeded in winning a pair of decisions but Manager Pat Stacey said the Felines were the toughest team he had seen.

The Cats will remain over here for night games Friday and Saturday, after which Midland's Indians move in for at least two games.

If the top is on the grandstand by Sunday, the two clubs will play a double header.

PHARR NAMES MAYOR
PHARR, May 15. (A)— W. J. Mount, cabinet shop operator and city commissioner for nine years, was appointed mayor of Pharr this week by the city commission. He succeeds A. A. Kelley, who resigned after seven years in the post because of ill health.

Seven Steers Boast Batting Averages Of .300 Or Better In Latest Records

Conn Isaacs' Big Spring baseball Steers, currently in third place two games behind, front-running Abilene in District 10AAA standings, boast a bunch of hefty hitters.

Seven members of the squad are clouting the apple for averages of .300 or better, according to records compiled by the coach.

The averages:

Player	AB	R	H	Ave	2b	3b	HR	SB	RI
Harold Berry	15	8	533	.355	0	0	2	2	9
Pat Stacey	33	12	364	.347	1	0	3	1	1
Fred Doane	29	8	379	.327	1	0	2	3	13
Howard Jones	22	12	375	.311	1	1	4	4	15
Donnie Carter	32	9	1344	.307	1	2	3	1	14
Don Woods	21	5	294	.300	0	0	1	0	0

Don Woods	17	0	143	.285	0	0	0	0	1

LOOKING 'EM OVER

With TOMMY HART
Fred Acton, who is still a professional baseball player at heart despite the fact that he has hung up his spikes and gone in for gentler pursuits, says he wouldn't be surprised if Pat Stacey, the skipper of Big Spring's Steers, leads all Longhorn league hitters this year.

Others of the local sports gentry are expecting Patrick to be among the mace leaders by season's end. The Hoss foreman doesn't feel he's hit his stride yet and that, despite the fact that he's hitting better than 400.

Stacey insists he's not meeting the ball like he should, that he's fattening up on Longhorn league pitching because he hasn't looked at many curve balls yet. Once he does get his batting eye, Patrick is a difficult man to pitch to, especially in the clutch.

Acton, incidentally, would like nothing better than to climb back into a uniform and start playing outfield for Stacey and Company. He was quite a stick man in his time. Fred clouted a .386 clip for Fort Smith in the Western Association before the war and as late as 1943 played for an Oklahoma team in the National Semi-Pro Congress at Wichita, Kansas.

One of Acton's mates on the Sooner nine, incidentally, was Alie Reynolds, the Yankee star. Of Alie, Fred says he thinks he is the fastest pitcher in baseball when he's right.

Sweetwater's Sports recently added two players to their roster. One is Earle Benson, a flycatcher cut adrift by Abilene's Blue Sox last week, the other Ed Bieucik, a short stop who made a cup-of-coffee stop at Syracuse a couple of seasons ago.

Mound weaknesses still handicap the Sports. From all indications, rookie pitchers are not to be had.

Travis Green, Stanton's very competent football center, is verbally censuring the Texas Inter-scholastic league fathers these days, and with good reason.

When Tray took the Buff post, he started a rebuilding project that would take from three to four years to produce the kind of top-drawer teams Stanton High used to put out.

This 'big year' was due to be 1948 but the TIL's new eight-semester rule hit him, so hard, it practically removes his chances for a winner. Most of the lads who will make the Stanton first team next fall

Keys made at Johnnie Griffin's - adv.

Cindan Racks Up 4th Win

VERNON, May 15.— Big Spring swept a two-game series from the Vernon Dusters here Wednesday afternoon, defeating Carl Kott's gang, 2-1, in ten innings behind the stellar pitching of Jose Cindan. Cindan got his fourth win.

Cindan was touched for three bloopers, one more than the Steeds were able to collect off Charley Parlier, but kept them well scattered. Kott drove in the only Vernon tally in the first round when he singled home Grady I-bell.

Pat Stacey, Pepper Martin and Leamon Bostick accounted for the Big Spring tallies.

Major Varona and Tony Trapuzo paced the Bronx hickory assault with two blowouts each.

The victory enabled the Big Springers to increase their Longhorn league lead to 3-1-3 games over second-place Midland. The Indians lost to Odessa for the second straight night Wednesday.

In five starts against the Dusters, the Hoses have succeeded in notching four wins.

Top Of Stove Dinner For Warm Evenings

By CHARLOTTE ADAMS
Top of the Stove Dinner
Stuffed Celery
Chicken Cacciatore
Spaghetti
Tossed Green Salad
Pistachio Parfait
(Recipes Serve Four)
Chicken Cacciatore
1-4 pound fowl
3/4 cup flour
4 tablespoons olive oil
3/4 cup diced onions
1 green pepper, cut in thin strips
1-No. 2 can Italian tomatoes
1 can tomato paste
1 bay leaf
1/2 teaspoon oregano
1/2 teaspoon salt
2 cloves garlic, finely chopped

Cut fowl in small pieces. Wash under running water and dry thoroughly. Sprinkle with salt and pepper and dredge in flour. Heat oil in skillet and brown the pieces in it. Remove from pan and add onion, green pepper and garlic. Add more oil if necessary. Cook until lightly browned. Add tomatoes, tomato paste, seasonings and browned chicken pieces. Cover and simmer for two hours, or until chicken is tender. Thicken sauce, allowing two tablespoons of flour to each cup of liquid. Blend flour with cold water and add to sauce. Stir over low heat until thickened, then cook for five minutes more. Serve with spaghetti.
Use corn syrup or honey to make tender, appetizing candied sweet potatoes.

Fresh Asparagus Can Bring About Pleasant Change In Routine Menus

By CHARLOTTE ADAMS
Despite the fact that there's practically no such thing as a season for any vegetable any more, thanks to quick-freezing and canning, still there's something definitely "springy" about fresh asparagus. Many of us, including me, could eat it four or five times a week during the season.
There are lots of things which can be done with asparagus which ring pleasant changes. This vegetable calls for sauces which make

it into a perfectly adequate lunch-
can dish. Here's one of that sort.
Asparagus Luncheon Dish
2 tablespoons fat
2 tablespoons flour
1 cup milk
3/4 cup sliced olives
4 slices toast
20 stalks cooked asparagus
3/4 cup grated cheese
4 olives, sliced, for garnish
Melt fat in top of double boiler. Stir in flour. Slowly add milk, stirring constantly. Continue cook-

ing for about 15 minutes or until sauce is thick and no starchy taste remains. Stir in 1/2 cup sliced olives. Remove from heat. Arrange slices of toast in well-greased eight inch heat-resistant glass cake dish. Place five cooked asparagus stalks diagonally on each slice of toast. Pour sauce over asparagus and sprinkle with grated cheese. Bake in moderate oven (350 degrees) for about 20 minutes, or until cheese is melted. Remove from oven and garnish with four slices olives.

Asparagus and Scrambled Eggs
Place whole stalks of hot, buttered asparagus on a chop plate, radiating from the center to the rim. Fill the center with a fluffy mound of hot scrambled eggs. Sprinkle grated Parmesan cheese over the asparagus and the eggs and serve at once.

Asparagus Loaf
2 tablespoons butter or margarine
1 cup asparagus tips, cooked
4 eggs, well beaten
1 bunch of asparagus, cooked
1 cup cream
1/2 cup diced cooked chicken
1 teaspoon salt
Fresh-ground black pepper
Melt butter or margarine. Add salt, pepper and cream and bring to a boil. Add chicken, asparagus tips, and well-beaten eggs. Cook, stirring constantly, until mixture thickens. Line a well-buttered mold with cooked asparagus stalks and pour in cream mixture. Cover mold and place in a pan containing hot water about an inch deep. Poach in 350 degree oven until firm. Serve with cream sauce or Hollandaise sauce.

Asparagus Vinaigrette
1 bunch asparagus, cooked and chilled
1 tablespoon vinegar
3 tablespoons salad oil
1 hard-cooked egg, chopped
1/4 teaspoon English mustard
1/4 teaspoon salt
1/4 teaspoon ground white pepper
1/4 teaspoon chopped chives
Place chilled asparagus on individual plates. Mix all other ingredients thoroughly, adding chopped egg last. Pour resulting sauce over asparagus and serve as a first course, or in place of salad.

Vegetables Tonight

By CHARLOTTE ADAMS
Hot Mushroom Canapes
Baked Squash French Fried Carrots
Broccoli with Hollandaise
Broiled Tomatoes
Pickled Beet and Egg Salad
Chocolate Refrigerator Cake
(Recipes Serve Four)
Hot Mushroom Canapes
3/4 pound mushrooms
3 tablespoons butter or margarine
3/4 cup finely chopped onion
1/2 teaspoon salt
1/8 teaspoon freshly ground pepper
2 tablespoons flour
1 egg yolk
1 teaspoon lemon juice
4 tablespoons finely chopped watercress
Bread rounds
Heat butter or margarine in pan. Add onion and cook about ten minutes, or until onions are a golden color. Add mushrooms which have been finely chopped and simmer about five minutes. Add seasonings and flour, stirring until blended. Add slightly beaten egg yolk and cook for a few minutes. Add lemon juice. Sauté the bread rounds in butter or margarine until a golden brown. Spread the mushroom mixture on sauteed bread rounds and garnish with finely chopped watercress.

Citrus Peel Casing For Sausage Seen

WASHINGTON, May 15. (AP)—A new material made from citrus peel or apple pomace (pulp) has been developed by Agriculture Department scientist for use as casings for sausage or other food products.
The food product molded into any desired shape, is dipped in the solution for about three seconds. The coating dries in about half an hour.
The coating dissolves when the encased product is boiled. If fried or roasted, the film may be consumed with its contents, since it is tender and edible.
The Department said the new coating material may be used also for fruits and vegetables.
Serve duck with apple sauce or citrus fruits. Apricot and rice stuffing is another interesting teammate for roast duck.

Prison Camp Guard Sentenced To Die

YOKOHAMA, May 15. (AP)—Hajime Honda, former Fukuoka prison camp guard, was sentenced today to be hanged by an Eighth Army. He was found guilty of contributing to the death of Cpl. William Iverson, Seattle, and cruelty to other allied prisoners.

New Daily Texan Editor Appointed

AUSTIN, May 15. (AP)—Faye Lloyd, University of Texas senior journalism student from Gilmer, has been named editor in chief of the Daily Texan, student newspaper. She succeeds Bill Noble of Midland who resigned.

It's a good idea to turn the peanut butter jar upsidedown occasionally to allow the oil to mix throughout the product.

Penny for penny, your best food buy is

MILK!

Stop just a minute and think about the most important food in the world—milk.

Milk does more for the young, the old, and all the ages in between than any other food. In fact, it is THE most nearly perfect food.
And indispensable as it is, milk costs you the least money for the most nutrition. It's the one very best food buy. One quart of milk supplies almost one half (45%) of the daily food needs of a man of average activity.
Make milk an essential part of your family's diet—it's the food you can least do without.
Serve wonderful-tasting Borden's milk every day to everybody in the family. Remember **MILK**, your best food buy!

Milk gives the most nutrition for the least money!

Local Policemen Arrested 123 During April

Big Spring police made 123 arrests during the month of April on charges ranging from attempted murder to minor disturbance, according to the regular report submitted to city commissioners by W. D. Green, acting chief.

There was a decrease, however, in the number of drunkenness cases, and all but three of the 67 subjects arrested on such charges were tried in corporation court. Three were transferred to the county.

Police also made 12 arrests, on

HARD TO HIDE

PORTLAND, Ore., May 15. (AP)—Police believe recovering Frank Queahpana's stolen headgear will be a cinch if the thief decides to wear it.

The Indian said his feather war-bonnet disappeared along with a set of wampum belts.

charges of driving while under the influence of intoxicants, and 12 on burglary charges.

Fines collected during the month totalled \$1,097.50, while prisoners elected to lay out \$829 in fines. There were no fines pending at the end of the month.

Patrolmen issued 589 traffic tickets. Of the tickets issued to local motorists, 236 were paid, 56 were excused, 73 pending. Twenty-four out of town traffic tickets were paid, 16 excused and 173 pending.

ORGANIZING THE BABY SITTERS

TULSA, Okla., May 15. (AP)—The State Corporation Commission has issued a charter to "Baby Sitters, Inc. of Tulsa," with Mr. and Mrs. Lester G. McDaniel and Mrs. Mildred T. Burns, all of Tulsa, listed as founders.

Tulsa will be divided into eight zones and the firm will have sitters located in each area. When "Baby Sitters, Inc." receives a call a neighborhood "sitter" will be given the assignment.

The parents will pay the sitter. Mrs. McDaniel explained, and the sitter will pay the firm a small service charge for the job.

Striking Mechanics Reject Pay Offer

DALLAS, May 15. (AP)—Striking mechanics of the Southwestern Greyhound Bus Lines have unanimously rejected the company's latest offer of a wage increase. L. G. Fenn, grand lodge representative of the International Association of Mechanics (I.A.M.) said last night.

The company's latest offer to its 800 mechanics who went on strike April 4 was for a pay increase of five cents per hour for mechanics having at least five years' experience. Under the old contract they received \$1.30 per hour.

To avoid frequent painting of such surfaces as porch railings, which are subject to abuse, treat with a coat of paste wax.

Texas Is Now Home Of Cowboy Square Dance

AUSTIN, Tex., May 15. (AP)—It took the grandeur of old English and French courts, the enthusiasm and courage of our Western pioneers, a smattering of Spanish rhythm, and the old toe-down fiddle to make the Texas square dance what it is today.

Mrs. Paul E. Baker of Austin, chairman of the Texas Square Dance Festival, estimates that two out of every 10 Texans know how to cut a square.

Most of them learned the dance within recent years but the dance itself goes back years.

"The square dance can be traced back to the square figures of the quadrille danced in the old English and French courts," Mrs. Baker said.

"Back in the east they still square dance to a slower tempo and with more gliding steps."

"When the pioneers moved west

the dance came with them. Our forefathers were more energetic and believed in playing and dancing harder without so much formality," Mrs. Baker declared.

"Usually a fiddle and maybe a banjo were the only instruments. The dance began to pick up tempo and variations."

Mrs. Baker says the two-step measure in most of the Texas squares came from the influence of Spanish music across the border.

"Square dance calling is new too," she said. "There was no calling in the old English and French dances."

"Our old time fiddlers added the calling because many of the dancers couldn't recognize the step unless it was called. Besides, it livened up the party."

Today Texas is recognized as the home and center of cowboy square dancing. Almost every town of any size has a group of enthusiasts who get together once a week to dance the old steps and learn new ones.

In many towns and cities square dance groups have been organized to visit and compete in other communities. Some carry their own fiddlers and musicians with them. The men dress in boots and western clothes and the women wear the calicos and gingham of a century ago.

It was in the interests of such groups as these that the Texas Square Dance Festival was born.

The festival was organized Jan. 21, 1947, when a large group of dancers came to Austin to perform for Gov. Beauford H. Jester's inauguration.

The charter group decided to promote state-wide participation in the old Texas dances by sponsoring dances or festivals in various Texas cities. The idea was to give an opportunity for all square dance enthusiasts to gather together for fun and fellowship, to demonstrate dances as danced in different localities, and to set up periods for teaching and discussing new dances.

Then at least once a year the different sections of the state would send their best square dancers to Austin for an all-state Texas Square Dance Festival.

Present plans are for the sectional festivals to begin the latter part of May.

Scholarship Fund Raised In Memory Of Brave Priest

HOUSTON, May 15. (AP)—More than \$2,000 has been contributed to a scholarship fund in memory of the late Rev. William Francis Roach, Catholic priest killed while aiding victims of the Texas City disaster.

Miss May Garthar, diocesan chairman, said it was hoped the fund will total \$8,000. Interest from the fund will be given to recipients of the scholarship by the Rt. Rev. Msgr. James T. Fleming, president of St. Mary's University at La Porte.

BABIES—THAT'S DIFFERENT

CAMBRIDGE, Mass. (UP)—Two Nieman Fellows in Journalism, who came to Harvard University to study political economy and government, have turned up in a course on the development of the child. Several GI-students are in the same course for the same reason—a new baby in the home.

General Fund Receipts In April \$31,263

Big Spring's general fund receipts in April amounted to \$31,263.18, including \$3,939.96 transferred from other funds, according to the monthly report of C. R. McClenny, city secretary.

Water and sewer bills to customers during the month totalled \$16,613.96, an increase of \$3,228.49 over March. Garbage bills amounted to \$2,349.90.

A total of 48,974,300 gallons of water was metered in April, representing an increase of 12,515,000 gallons over March and a decrease of 2,088,600 under April of last year.

The interest and sinking fund maintained a balance of \$17,256.52 at the end of the month after the following disbursements: Bonds retired, \$85,000; interest paid, \$12,981.25; commission paid, \$78.15. The city's bonded indebtedness now stand at \$1,038,000.

CASE GOES UP IN FIRE, SMOKE

CHICAGO, May 15. (AP)—The case of the Ivers Art Manufacturing Co., charged with 16 violations of the city fire code, was before Judge Cecil C. Smith in License Court yesterday.

"The building was destroyed by fire," Defense Attorney Herbert G. Immenhausen told the court.

"Well, if the evidence is destroyed, we can't very well fine you," Judge Smith commented as he acquitted the company.

Pineapples Move

LAREDO, May 15. (AP)—Movement in trainload quantities of Mexican pineapples through Laredo will begin May 25, the Tropical Fruit company of Laredo announced today. The company handles pineapples from the Mexican states of Vera Cruz and Oaxaca.

National Campaign To Build Interest In Naval Reserve

A nationwide campaign to insure America's investment in peace by building a strong Naval Reserve is planned next week with the observance of Naval Reserve Week. Citizens are being asked to aid in a program to acquaint both veterans and non-veterans with the advantages offered by membership in the new organization.

The new civilian Naval Reserve, as authorized by Congress to help this country carry out her responsibilities in a world at peace, aims at conserving, improving and utilizing the Navy's wartime "know-how" which otherwise would be lost. Knowledge and training which originally cost millions of dollars can be passed along to younger recruits through the Reserve program. Reserve Armories, ships, air stations and other facilities, throughout the nation, will afford the Reservist an opportunity to learn new technical skills, or to improve those he already uses in his civilian job. Without losing any of his civilian rights, a Reservist may earn while he learns, through attending weekly drills or going on periodic cruises in ships of the regular operating fleets. Much of the latest scientific equipment will be available to him.

SIGN LANGUAGE—Camels and horses turn left, motor vehicles turn right, according to this highway direction sign at a fork in the road in Khyber Pass, historic gateway into India from the Himalayas.

Shortage Of Irrigation Water Is Relieved

RIO GRANDE CITY, May 15. (AP)—Upstream rains over the weekend have relieved the shortage of irrigation water in the Rio Grande Valley, the International Boundary and Water Commission said today.

As a result of the valley's second request for release of relief water from the Marte R. Gomez reservoir on the San Juan river in Mexico has been cancelled.

M'Caune Murder Trial Due To End Today

BEAUMONT, May 15. (AP)—State and defense attorneys were to present their final arguments today in the case of Riley B. M'Caune, Houston tire salesman, charged with the murder of Elvora Collins, Houston clerical worker, on Sept. 30, 1945. It was expected that they would be completed in time to send the case to the jury sometime during the day.

Testimony was completed at a special session last night. Most of the testimony which was presented by psychiatrists concerned M'Caune's sanity.

POLICEMAN AIDS VICTIM

BOSTON. (UP)—When Richard D. Rogers was felled by a bullet from a gun of Patrolman David Ahearn during an attempted burglary, doctors sent out a call for blood donors. The first to respond was the policeman who "fired the shot."

Grapefruits come principally from Florida and Texas.

Public Welfare To Be Considered

That there will emerge from this session of Congress some sort of legislation designed to restrict some of the present practices and policies of labor seems a certainty, in the face of the large 68-24 vote recorded by the Senate Tuesday in passage of a labor-curbing bill.

The Senate provisions are regarded as less restrictive on labor than a measure passed by the House; and the chances are that a conference compromise of the two bills ultimately will produce a measure even less restrictive. Then comes the matter of presidential veto. This loses some of its weight, however, in view of the Senate's large vote on its own measure.

It is generally conceded that the American public as a whole wants some sort of legislation to reduce those strikes that seriously impair the public welfare. Most fair-minded citizens do not want to see the rights of organized labor taken away. Within this view there can be produced legislation that basically is fair. There remains a great deal of turmoil in enactment of such law, but the public welfare should prevail in the ultimate outcome.

Reserve Force To Keep Us Strong

Next week is Naval Reserve Week, a period set aside by the Navy department for a new campaign to awaken the public consciousness to the need for a strong reserve element for our naval force.

Basically, the theme being developed by Navy leaders is the same as that promoted by the Army for a potent reserve force in the form of a National Guard; it is the same thought which prompts veterans' organizations to work for a universal military training law.

The thought behind all these efforts is: America cannot afford, for its own security, to wait again for an attack to start training its reservoir of manpower. It need not be a warlike nation, but it must be a strong nation, and one prepared to stand to its own defenses in time of threat.

ened attack—or prepared to go immediately into battle in case of actual attack.

It is a theme which every American needs to ponder. We are too prone to want to drop all military proposals once a war ends; and we dangerously are slipping into the same groove which we followed after World War I.

Programs such as Naval Reserve Week are designed to prevent this.

To be specific about the Navy: at war's end it had more than three million men. Today the regular Navy and Marine Corps total a little more than a half million men. Behind this nucleus—and indeed it is no more than a nucleus—this nation needs a strong and well trained Reserve, ready to expand at a moment's notice, should the need arise.

The Nation Today—James Marlow

Don't Bet Either Way On Labor Bill

WASHINGTON, (AP)—Will President Truman veto the labor bill? Can Congress re-pass it into law over his veto? Don't bet either way.

The House, several weeks ago, and the Senate, Tuesday passed separate bills to restrict labor unions.

But — these separate bills won't go to Mr. Truman to sign into law or veto. He'll get a single, compromise bill made up of parts of both bills.

That compromise bill will be worked out by a special joint committee of both Houses. They may take weeks to work out the compromise.

meanwhile labor unions will screen for a veto, many businessmen will protest against one. All of which means plenty of pressure.

Say Mr. Truman vetoes the compromise bill. Will Congress have enough votes to re-pass it into law, both Houses must answer that now.

Passage of any bill needs only a simple majority vote of both Houses. This doesn't mean a majority of total membership but only of those voting.

But to re-pass a vetoed bill into law, both Houses must approve with a two-thirds vote of those voting, far harder to get than a simple majority.

But both Houses were so anxious to restrict unions that they passed their separate bills overwhelmingly. They went far beyond majority votes.

Both passed their bills by better than two-thirds not only of those voting but of total membership.

Thus it might seem they could ram through a better-than-two thirds vote to re-pass a vetoed compromise bill. Not necessarily.

The House probably would do it. Any compromise bill seems sure to be milder than the very tough bill originally passed by the House.

So House members, unless some were reluctant to vote over a presidential veto, would have no reason for not giving a two-thirds vote again.

It's slightly different in the Senate. The compromise bill may turn out to be a little tougher than the original Senate bill passed by two-thirds.

So some of the Senators who voted for the milder original Senate bill might vote against a tougher, compromise bill if it's vetoed.

"JUST LEAVE IT IN THE MAILBOX, LADY"

Hal Boyle's Notebook

Mothering Students

COLUMBIA, Mo. (AP)—Mrs. E. E. Tydings has run a college rooming and boarding house for almost a quarter century and still doesn't know whether she has made or lost money.

"I never keep books so I'm not sure whether I broke even," she said. She doesn't seem to be worried about it either way.

It is an unlucky campus that doesn't have a woman like Mrs. Tydings. She has mothered a generation of University of Missouri students.

She and her dentist husband, Dr. Tydings, came here originally from Moberly, the home town of Gen. Omar Nelson Bradley. The move represented a personal sacrifice on the part of Dr. Tydings.

"He left a good practice so we could come here to educate our children," said Mrs. Tydings. There were three — Glad Tydings, Merry Tydings and Elsie Pearl. I often wanted to ask Mrs. Tydings why she called her children Glad and Merry Tydings — the campus got a big kick out of the names — but somehow I never had the courage to inquire.

The family bought a large white frame house a short distance from the campus. There was more space than they needed so Mrs. Tydings rented some of her rooms to students. She also began boarding them.

Her original idea was to take out the family income while Dr. Tydings was getting established. After that it just became a habit. More than a hundred and fifty boys have lived in her home.

"In the main they were well behaved and pleasant," she recalled. "Generally they were serious in their studies and most have done well since. There was one" — she laughed — "whose ambition was to see every picture show that came to town. I don't believe he came to much."

German Grudges Fret US Censors

MUNICH, (AP)—Germans with a grudge against a neighbor have found a new way to pay it off — through their own mails. US censorship employes stumbled across this subtle type of denunciation recently.

A German writes to a "friend" and sends the letter through the Reichspost. "It certainly was good to hear from you," the letter declares, "Haven't heard a word since we were in the SS together."

The name signed to the letter is, of course, a phonetic and so is the address. But the person to whom it is addressed is automatically in trouble because the civilian censors see that crack about the SS and turn it over to the police.

Col. Ray Burgess, provost marshal of Munich, commented that there is little to do about it except run down every clue. The very one that would be ignored, he asserted, might be legitimate.

Washington Merry-Go-Round—Drew Pearson

Armaments May Lead To War

WASHINGTON. — President Truman is sending a special message to Congress asking for authority to arm and train our good neighbors in Latin America, including our not-so-good neighbor — Argentina.

This arms program has a lot of kinks that may not at first catch the eye of the average congressman. It is a program which previous republican administrations wrestled with, and it was hoped the democrats had profited by their lessons.

Back in the 1920's, the present secretary of the navy, James Forrestal, then part of Dillon, Read, international bankers, helped loan \$20,000,000 to Bolivia which went to arm the Bolivian army. The Bolivian people and even part of the Bolivian cabinet did not know too much about this, but through a bribe the more polite word is "commission" to the minister of finance, the loan was put across. Incidentally, it has never been repaid.

Most of the money went to Vickers, Ltd., British munitions firm, though part went to pay German military instructors to train Bolivia to wage war on its neighbor, Paraguay.

That attack started in 1926. Fortunately, Frank B. Kellogg, a republican secretary of state, and Charles Evans Hughes, a republican secretary of state, happened to be engaged in a Pan-American conference at the time of the attack, and they succeeded in heading off war — temporarily. For some time thereafter, both Hughes and Kellogg did their best to undo the work of the Dillon - Read money which whetted the appetite of the Bolivian army.

In the end, Kellogg and Hughes, though able men, were unsuccessful. Full-scale war broke out and lasted so long that the democrats inherited it.

HOW TO BREED WAR

As the war continued, President Roosevelt later appointed Spruille Braden to try to patch up peace between the two countries. Braden moved to South America and spent a hectic, thankless year of his life undoing the martial influence of the Dillon - Read loan.

Today, Spruille Braden, assistant secretary of state in charge of Latin American affairs, has been doing his best to dissuade President Truman and Secretary Marshall from repeating the mistakes of the 1920's when we poured money into Latin America to buy arms.

However, the US army is against him. It is determined to start an arms program in Latin America, and Secretary of State Marshall, while naturally, is swayed by the army. Moreover, sincere and honest though he is, his own experience in Latin America is limited.

Unfortunately, the state department already has seen some of the effects of a US arms program in Latin America. Two things happen:

1. Latin American neighbors, hitherto reasonably peaceful, see another nation getting arms and immediately want an army or navy bigger than the other fellows. This leads to rivalry, bankruptcy, and war.

2. The governments in power — many of them dependent on the army — become stronger then ever, and hold power more or less forever. Reinforced by US arms, it is impossible for the opposition to vote them out. This makes for revolt and communism — just what we want to avoid.

An illustration of point 1 occurred recently between Peru and Colombia. Colombia bought some transport planes from the United States. Then Peru came in and wanted to buy some fighters. Immediately, Colombia was back wanting to buy fighters too.

MUNITIONS BEFORE HEALTH

Another inside incident recently occurred indicating the cross-fire existing between the US army and the state department. The latter was anxious to get a moderate loan for Ecuador to improve its sanitation and drinking water. Some Ecuadorian cities are cesspools of disease. But because of the economy drive, higher-ups in the state department, especially Undersecretary Will Clayton, said no.

Shortly thereafter, the US army came in with a demand that Ecuador get \$1,000,000 to buy arms. Though money couldn't be spared for Ecuadorian health, it was proposed to spare \$1,000,000 to entrench the military clique that rules the country. The final disposition of this arms requests remains to be seen.

ANOTHER MISSOURIAN

President Truman has now picked another Missourian, Admiral Roscoe Henry Hillenkoetter, to be chief of central intelligence. This is the new super-duper so-called "spy" agency set up since the war to ferret out what's going on in other countries.

Admiral Hillenkoetter not only was born in St. Louis, but commanded the battleship Missouri, which makes him a super-duper Missourian. The man Truman first picked to head central intelligence was also a Missourian, Admiral Sidney Souers of St. Louis. He was succeeded by General Hoyt Vandenberg, nephew of the Michigan senator, an A-1 flying officer but no whirlwind at super-spying.

Admiral Hillenkoetter, whether it's because he's from Missouri or for other reasons, has an excellent reputation and may be able to overcome the disastrous fact that this vital agency has been under so many different heads in so short a time.

When the admiral came up before the senate armed services committee for confirmation, he was subjected to cross-examination by New Hampshire's careful Senator Styles Bridges.

"I understand, admiral," said Bridges, "that while you were naval attaché in Paris last month, the news of your appointment as head of central intelligence was published in the Paris Press. In fact, it was published well before it was known here. The admiral admitted that this was true.

"Now, do you think we should have as head of our very secret intelligence," pursued Bridges, "a man who let the news of his appointment 'leak out'?"

"It was a big surprise to me as to anyone," replied Hillenkoetter, obviously perturbed. "I read it in the French newspapers before I heard about it from my own navy department. Later I discovered that the French newspapers got their information from the French secret service, and the French secret service seems to find out everything."

Must be almost like Drew Pearson," cracked Senator Lister Hill of Alabama.

Sensor Bridges then said that in view of the admiral's explanation he would withdraw objection to the confirmation.

THREE OPA CHIEFS

When three former OPA chiefs get together, sparks are likely to fly. Very shortly Chester Bowles, Leon Henderson and Paul Porter will release an important report on the economic state of the nation especially prices.

The report, based on a study sponsored by Americans for democratic action will call for cooperation of all political parties in an emergency plan to prevent another depression.

The three ex-OPA chiefs will offer specific proposals dealing with prices, wages, unemployment compensation, rent control, tax and spending policies, housing, foreign loans, and agriculture. Among other things, they will recommend that a voluntary price adjustment board be set up under the commerce department to work with business leaders in a national drive to bring down prices.

The justice department would cooperate with this board under the Bowles - Henderson - Porter plan to prevent antitrust violations in price reductions for industry.

The three former OPA chiefs will also challenge Congress and President Truman to act on their proposed program within three months — if a serious post-war depression is to be averted.

Affairs Of The World—DeWitt MacKenzie

Economic Merger In Germany Set

Some alleviation of Germany's grave crisis—which is affecting all Europe—may be foreshadowed in the statement by authoritative sources in Berlin that American and British occupation officials have agreed on all major points, barring one which is unnamed, for the economic merging of the two zones.

Such a merger cannot, of course, overcome the damage done by the failure of the Big Four to frame a German peace treaty in the recent Moscow conference. Every day which passes without economic unity of the four Allied zones of the Reich adds to the danger hanging over a continent whose rehabilitation depends heavily on Germany's recovery.

The situation has become so bad that there is widespread malnutrition and in many areas actual hunger. An AP dispatch from Solingen, Germany, a couple of days ago stated that

human figures are emaciated as those of Buchenwald inmates file abed in the municipal hospital there—and in the hospitals of other Ruhr cities.

The head of the food and agricultural divisions of the American military government blamed "incompetent" German officials for the food crisis in the British and American zones, but he said that the bread outlook would improve by the end of May. However, the consensus of the experts is that there can be no sweeping general economic improvement until there is economic coordination of the Russian, French, British and American zones, and along with that the establishment of Germany government.

However, guilty Germany is far from being the only country which is in the midst of a fierce economic crisis, coupled with the inevitable food shortage, Italy, France, England and many other European nations are having a hard struggle.

But what many folk, even in Europe, don't realize is that many of their lives have their roots in the German collapse. They haven't yet grasped the basic fact that the Reich was the politico-economic heart of Continental Europe, and that the body as a whole cannot recover until the heart is restored to health.

Thus Europe is traveling a vicious circle. It can only be rescued by removing the primary cause, that is, by restoring Germany to economic health. That is up to the four great powers—America, Russia, Britain, and France—and it can be done without abandoning the Allied pledge to render the Reich impotent militarily. It must be done quickly, and if any power stands in the way of carrying this out, it will be for ulterior purposes.

Her original idea was to take out the family income while Dr. Tydings was getting established. After that it just became a habit. More than a hundred and fifty boys have lived in her home.

"In the main they were well behaved and pleasant," she recalled. "Generally they were serious in their studies and most have done well since. There was one" — she laughed — "whose ambition was to see every picture show that came to town. I don't believe he came to much."

In Hollywood—Bob Thomas

Steer Clear Of Foreign Theatres

HOLLYWOOD, (AP)—Samuel Goldwyn, one of Hollywood's most vocal spokesmen, declares that US capital should stay out of theatres in foreign lands.

The extremely independent producer said in an interview that he approves of filming American pictures in other countries, since it favors an exchange of movie making methods. But as for US ownership of foreign theatres: "I am bitterly opposed to it. They ought to get out."

US interests control many theatres in Latin America, England and elsewhere.

Orson Welles has finally finished getting "Lady From Shanghai," in which he stars with his estranged wife. Concerning his work, he says this: "It is the most amazing performance I have ever seen." Draw your own conclusions.

Robert Ryan gets an entirely different build-up at RKO. Once the clean-cut, American type, he'll be classified as a heavy, after his work in "Crossfire."

Johnny Johnston had a recurrence of an old back injury when a stage coach turned over on the "At Texas Star" location. James Craig and Lynn Bari were also in the accident, but were unhurt.

More James Mason news. Warner wants him to do "Captain Barclay Hornblower" if the English star can wind up his other commitments. Every studio seems willing to put up with the actor's eccentricities in order to

cash in on his drawing power.

Robert Taylor, still waiting to get before the camera after a year's absence, is spending his time putting around behind the lens. He has become a camera bug and the training will come handy. His long-term MGM contract means he will be getting into the production side of films.

Reginald Owen is bemoaning his fate. While other actors

have to don toupes for screen roles, he has had to shave his locks for three pictures in a row. And he has a fine head of hair.

How fancy can a Hollywood child-get? Dorothy Lamour has an electrically operated see-saw for her young son.

Black Market Puts Bite On Teeth

BERLIN, (AP)—A new set of uppers costs a German 1,000 marks today as against the former price of 100 to 150 marks (\$40 to \$60 at the \$40 per mark rate).

The reason is that materials must be obtained on the black market, mainly in the British zone, the Berlin press reported. Gypsum, for example, which used to cost 5 marks a hundredweight, now is worth 180 marks. Instruments also must be purchased by dentists on the black market.

As a result, the press said, Berlin dentists, whose numbers have been reduced by the war from 4,201 to 2,146, are turning away sick-fund subscribers under Germany's socialized medicine scheme for private patients who can afford to pay high prices.

Maude Coons, well known Omaha food editor, gives her favorite grapefruit juice recipe

GRAPEFRUIT SPONGE PUDDING
 1 cup sugar
 1/2 teaspoon butter
 1/2 cup milk
 1/2 teaspoon grated lemon peel
 1 egg
 1/2 cup flour
 1/2 cup grapefruit juice
 1 tablespoon lemon juice

Cream butter and sugar. Add flour and mix. Add egg yolks which have been beaten until light and the milk. Add grapefruit, lemon juice and rind. Lastly, fold in beaten egg whites. Pour into a greased baking dish, place in a moderate oven, 350 degrees. (This mixture makes a thin batter but when baked it has a cake-like top with a custard bottom.)

Legislators Meet For 30 Seconds

AUSTIN, Tex., May 15. (AP)—The House of Representatives last night set a session record for brevity, by-passing a choked calendar of local and uncontested measures to meet for just thirty seconds.

This came a few hours after the Senate had tried and failed to hold an afternoon session. It met at 2:30 p. m., was unable to muster a quorum, and adjourned until today at 2:40 p. m.

Speaker W. O. Reed of the House called the body to order to consider a calendar of 52 bills promptly at 8 p. m.

It had been scheduled as the final meeting of the session to dispose of a clutter of pet bills before final adjournment. A domino gamb was making a great clatter at the press table when Reed banged the gavel.

Not more than 50 of the 150 members of the House were at their desks and it was obvious a quorum was not present. It also seemed that the speaker was annoyed.

The gavel halted the domino game.

Then Rep. Paul S. Wilson arose and moved that the House stand adjourned until 10 a. m. today.

Reed put the question to a voice vote, declaring the ayes had it. He whammed the gavel again and stalked red faced from the rostrum.

The domino game resumed. The whole transaction was clocked accurately at 30 seconds. Members dribbling in for half an hour later turned away, muttering. Their favorite measures lay untouched on the calendar.

It would be pretty safe to predict that when and if the House schedules another such session during this meeting of the legislature, the members will be on time.

On the 121st day of the session, the House had debated just one bill, a Senate measure allowing the use of "sweet" and "sour" natural

gas without extraction of gasoline, for the manufacture of carbon black. The bill was passed on second reading by a vote of 78 to 52, and proponents made no effort to press for immediate final passage, which would have required a four-fifths vote.

The bill by Sen. Grady Hazlewood of Amarillo was labelled by opponents as an attempt to give carbon black manufacturers in the Texas Panhandle a monopoly.

Proponents said that carbon black plants in the Panhandle were suffering from a shortage of so-called "sour" gas, or that which was a high sulphur content. They noted that there is a growing demand for carbon black which is used in the manufacture of rubber.

Another effort to set a final adjournment date flopped yesterday in the House.

Rep. W. H. (Bill) Abington of Fort Worth offered the latest in a series of such resolutions, this one setting the date to quit as Friday, May 23.

It lost by a vote of 73 to 48.

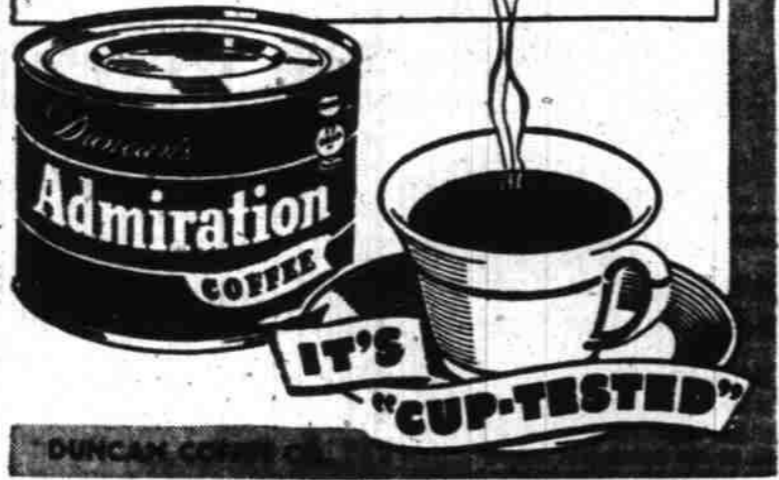

ELEGANT—Eleven curling petals paved in diamonds hang from a diamond and platinum chain necklace in this new design. Clips in feather crown repeat the flower motif.

When cooked and cooled, beets are a good salad vegetable. They offer color and flavor contrast to salad greens.

PUPPY QUARTET—Four Norwegian elk hound puppies, pets of Bobby Soimer of Chicago, pose for a group portrait in an arrangement devised by their owner.

Housing Projects For Underpaid Legislators Springing Up Fast

ately half way between Gov. Beauford H. Jester's desk and the Confederate monument a housing project for underpaid legislators is springing up on the capitol grounds.

Two pup tents—salvaged from army surplus supplies—are the new addresses for Reps. Jack Cox of Breckenridge and Don Lewis of Midlothian.

Both protest lawmakers' wages being cut from \$10 to \$5 a day at the end of the 120-day period set up by the constitution and the high cost of living in the capitol city.

Possible new recruits for the "Capitol" include:

The Midlothian representative's wife.

A group of representatives who have arranged for a large tent "this week end."

Another group who have "talked about" asking that upstairs of the House of Representatives be turned into a dormitory for unsheltered solons.

"I'm moving into a tent because my landlady is renting the house where my wife and I have been living," Lewis said. "No one is interested in renting to a legislator because they know the session is about over."

Lewis said his wife would move in with him "if he is able to find a larger tent."

"Otherwise she will have to go back home while I stay here."

Rep. L. C. Slimp Jr. of Decatur said he was one of "six or eight" representatives who had made arrangements for the large tent.

Cox, began the legislative exodus to the grassy capitol lawn Monday night.

Yesterday he enjoyed an early breakfast with Speaker of the House W. O. Reed on bacon and eggs cooked in the speaker's capitol apartment.

Today Cox promised to invite a group of his friends to his tent for "an informal luncheon."

Abilene Noses Out Lubbock

The high-scoring New Mexico-West Texas league is finding runs harder to make.

In the only two games played yesterday, Albuquerque took an 8-5 affair from Borger and Abilene nosed out Lubbock, 4-3.

Pampa and Lamesa and Amarillo and Clovis were rained out and postponed because of wet grounds.

Another umpire argument was chalked up in the Abilene-Lubbock encounter, this time Umpire Joe Meadows fining Abilene-Catcher Ken Quevreaux \$10 for allegedly tossing a bat in his direction.

The alleged toss came after Meadows had twice refused to allow Quevreaux first base after he was hit by a pitched ball. He contended the batter made no attempt to escape being hit. When Quevreaux was hit a third time, he was awarded first.

Heart Attack Takes Judge Winter-King

DALLAS, May 15. (AP)—Judge Winter King, 52, of the criminal district court died of a heart attack at his home last night.

He had been under treatment for a stomach ailment for the last three or four weeks, but his condition was not considered serious.

Judge King was born April 20, 1895, at Eastland, but his parents moved to Waco in his early boyhood. He received his law degree from the University of Texas in 1915 and almost immediately moved to Dallas to begin the practice of law.

During the last 15 years he had built a career as judge in the Dallas courts.

He is survived by his widow.

When eggs are broken for freezing or drying, about 1 to 1 1/2 pounds of white are left in the shells of every case of eggs. This substance is removed by whirling the shells in a centrifuging machine. Although not suitable for food, it has many industrial uses, including manufacture of adhesive.

Customers Show Resistance To High Prices

Choice merchandise no longer is being hidden under the counters for favored customers at Plainview, a department store head says.

"We are out of the hoarding stage," said Carl E. Marse of Cobb's Department Store. "During the war the customer would buy almost anything and seemed to brag about what he could find. Now he wants his old time quality."

A business survey of conditions at the end of the first third of 1947 reveals that in Plainview customers are showing resistance to inferior quality merchandise and high prices.

T. C. Meinecke, hardware dealer, said "customers used to take any kind of shotgun shell. Now they ask for Super-X or others of known quality."

Jack Payne, shoe salesman said "you can't sell a poorly fitting shoe with bad craftsmanship today."

And J. W. Walker, grocer, said a buyer's strike was exemplified by "the items left setting on the shelves." He said customers "just wouldn't buy it at the top price."

Supply is catching up with demand in Plainview, most merchants agreed. Meinecke said "this is bringing back a competitive situation and people are shopping around." This has resulted in lower prices on many items.

F. E. Cave, of the 5-and-10, said supply is overtaking demand and "some reductions are being made on merchandise prices by manufacturers and distributors... cutting margin of profits." He said combs which sold for \$1.25 a dozen six months ago are now listed at 54 cents.

Business is above the first four months of 1946. Farm products and livestock are bringing good prices, and much money is coming in from oil leases. Two new oil pools have been discovered.

Despite good conditions, many persons are digging into savings to finance housing, appliances, automobiles and hospitalization.
