CITY WATER RATE IS REDUCED

Grip Of Cold Wave Tightens Throughout West Texas

TWO INJURED HERE IN FALLS ON ICE

HOME TOWN TALK

By Beddy

What would you name an annual Big Spring all-city celebration if one were inaugurated?

We'd want a name distinctly appropriate for this particular city. If Big Spring should go into an annual fiesta a good selling name for it would be the first thing to decide upon.

Waco, being down there in the Brazos bottoms, calls its annual blow-out the Cotton Palace. San Antonio's is The Battle of Flowers. Fort Worth's the Fat Stock Show, and so on.

This column would be very glad to receive and publish suggestions of a name for a Big Spring celebration if one were to be launched for this year.

Telephone or write Home Town Talk, care of The Herald, giving your idea of the most appropriate name.

Why don't you get on "the city" about the gas supply? That's a question asked more than once during this terrific weather by various persons.

It so happens that the bird has flown and there's no use closing the cage now. In other words, the city government could no more remedy the present condition than it could dig a well over night and guarantee beforehand that it would be a big gas well.

So far as this month and next, the worst months of the year insofar as cold is concerned, it's just too bad. That's all.

Indications now are plenty of gas will be available in about 70 days—but winter will be over then. It's a long story and a number of apparently unavoidable things have entered into it. All is being done right now that can be done, even though we all must shiver along and like it.

Suggestion by our esteemed contemporary, Mr. Hayden, that beautification of highways leading thru the city is an important matter in a good one and add our amen to it. It's a dirty shame, an awfully dirty and unsanitary one in fact, for junk piles to be located alongside the Bankhead just outside the city limits. The Bankhead or Broadway of America, as you like, is the Main Street of America, you might say. And the principal cities located along it should make every effort to provide scenes of cleanliness for the querying eyes of the thousands from every part of the country who travel it annually.

Big Spring has been fortunate during the current cold wave as to electric light and power service. Judging from reports from other towns. Many communities have been without anything like normal power service, not to speak of telephones and telegraph. San Antonio's newspapers have been without outside wire connections since early Thursday. Abilene suffered a break of 30 minutes to an hour in electric light service here Wednesday night originated many miles east, in the Abilene country, we are informed.

Episcopal Men Not To Convene Tonight

Monthly meeting of the Good Fellowship Club of the Episcopal Church, scheduled for tonight, has been postponed a week, due to the illness of Mrs. W. H. Martin, wife of the pastor of the church.

FRACTURES SUFFERED IN ACCIDENTS

Motorists Stall On Level Ground As Ice Clings

The blanket of ice and snow that has covered Big Spring's business and residential thoroughfares for three days was directly responsible for two local accidents.

Mrs. Florence Robinson of 404 Goliad, is suffering from a serious hip fracture received Thursday evening when she slipped and fell on Nolan street, where she had gone to visit a friend. Until an X-ray photograph of the injury was taken Friday morning, attending physicians were not certain the hip had been fractured. Mrs. Robinson is in a local hospital.

Taylor Anderson, proprietor of the Anderson Music Company, was in a local hospital suffering fracture of ribs received when he slipped and fell on pavement at the corner of Third and Johnson streets.

Numerous disabled automobiles were brought to Big Spring garages Thursday evening and Friday morning, the victims of minor wrecks. No serious accidents in which automobile occupants received more than minor bruises or scratches were reported.

Several intersections in the Big Spring business district caused motorists considerable trouble Friday. Spots where traffic is heaviest where Wednesday night's snow had melted Thursday were turned into automobile skating rinks with Friday morning's severe freeze.

These familiar with driving in northern countries where snow and resultant ice is common, suggested that automobile operators will experience less difficulty starting on slippery pavement if cars are put in high gear and allowed to turn wheels over slowly. Garage men said the common tendency when wheels start slipping on ice covered pavement is to speed up the engine, which according to expert information, is the worst thing possible to do.

Ellis To Begin Distribution Here Of Cities Service Line

Sale of Cities Service gasoline and oils in all cities between Colorado on the east and Pecos on the west will be inaugurated next Monday morning, according to announcement from Jack Ellis of Big Spring who recently consummated a deal for the agency in the territory named.

Distribution to Coahoma, Colorado and Stanton will be handled from a Big Spring warehouse. Midland Cities Service sales will be accommodated from a warehouse at Odessa and a third warehouse will be established at Pecos, according to Mr. Ellis' announcement Friday.

Basement of the Crawford Hotel's new annex has been leased to Mr. Ellis who will use the space when it becomes available for storage purposes in connection with his new agency.

New pumps handling City Service gasoline and oil are being installed at the All-Weather Tire Company station between Scurry and Gregg on Third street and another retail distributing service station is now under construction on the corner of Fifth and Scurry streets.

Business of the new agency extending from Colorado to Pecos will probably be handled from Big Spring headquarters where Mr. Ellis is making his home and where he has extensive residential and business property holdings. Mr. Ellis is also owner of the All-Weather Tire Company.

AL, CAL AND COMPANY ON THE JOB

Former Governor Alfred E. Smith, left; former President Calvin Coolidge, center, and Julius Rosenwald, wealthy Chicago philanthropist, meet as a committee in New York and decide what institutions should benefit from \$6,000,000 charity fund bequeathed by the late Conrad Hubert of Jersey City, N. J., wealthy inventor of the flashlight.

Filling Stations Given Extension

Filling station operators who have pumps located on sidewalks or curbs are given an additional period of six months from March 27, 1930, to move the pumps back inside the property line, as a result of an ordinance passed by the city commission.

The pumps must be moved in compliance with section 48 of the city building code.

This action will give the filling station operators until September 27, 1930, to make the change.

All pumps installed in the future, however, must be placed behind the sidewalks.

LIONS HEAR REPORTS

Watson and Philips Talk Before Club Friday Noon

Reports of standing committees appointed last week and addresses from C. T. Watson and Shine Philips, two men prominent in civic and service club work of Big Spring featured Friday noon's meeting of the Lions Club.

M. L. Tinsley, chairman of the membership and attendance committee, sounded a progressive note when he predicted that the Lions Club membership will be increased to 60 within the next four months. He said the committee has not completed all arrangements for the membership drive, but that a way and means policy will be presented for the club's approval at the next regular meeting.

Seth Parsons, chairman of the Lion educational committee, offered a few tangible examples of what Lionism from an international viewpoint really means. Mr. Parsons told those attending Friday noon's meeting that the field for service club work is becoming broader with each passing month and that it will not be a difficult matter to select three or four definite projects on which to work the coming six months. The speaker said the Lions Club is cut out for more than an eating and singing organization and that really serious helpful work lies ahead for the organization.

Death of a Lions club that existed last year was reported.

(Continued on page Six)

Woman Arrested On Ft. Worth Charge

Winnie Mae Weems, 20, was arrested Thursday afternoon by Deputy Sheriff A. J. Merrick and D. D. Dunn on information from the Tarrant county sheriff's department of Fort Worth.

The young woman prisoner is facing a felony warrant in Fort Worth charging theft of clothing valued at more than \$50. When arrested, the woman, who only recently came to Big Spring, was found in possession of two dresses, a hat, pajamas and a hat box, said to have been taken from a Fort Worth store. Offices of Fort Worth were expected in Big Spring late Friday to return the woman.

ROBBER IS IDENTIFIED

Cold Hampers Hunt For Men Who Escaped

COLEMAN, Tex., Jan. 10 (AP)—Hampered by wintry blasts, officers today continued to search for three bandits, one believed wounded and in hiding near here, for participation in the robbery several days ago of the bank at Lohn, Texas, after a man slain by officers shortly after the robbery was identified last night as Ollice E. Woods of Borger.

Woods was identified by a brother, Lloyd D. Woods of Borger, and by a former employer, George McCamey.

Name of one of the trio sought is known to officers, it was said. Two men are in jail here in connection with the case. They were arrested after Woods ran from a shack occupied by the three and was shot down.

Munday Fire Does \$100,000 Damage

MUNDAY, Tex., Jan. 10 (AP)—Fire which broke out at 3 a. m. today in the E. E. Akers Dry Goods store caused losses totaling \$100,000.

The Akers store and the Quinn Hardware Company were destroyed, the loss amounting to \$40,000 on each. The Home Bakery and Mrs. Effie Alexander's Millinery store were damaged by water.

The burned structures were the property of Fred Broach and will be rebuilt. They were valued at \$20,000.

Munday and Goree firemen, who rushed here in answer to a call for help, fought the flames for three hours with the temperature near zero.

Dallas Oil Men Are Visitors In City

G. C. Dunn and R. M. Lowe, connected with the Marine Corporation, a Dallas concern, were in Big Spring Friday morning attending company business. The Marine Corporation is interested in oil development of Howard and Glasscock counties.

FRIDAY IS WORST DAY OF SEASON

18 Degrees At Two o'Clock; Whole State Colder

Old Man Winter, who has developed into some scrapper within the past week, went into another round of his current bout Thursday night and administering his favorite blows, punched the thermometer further toward the zero mark throughout the Big Spring country.

Coldest Day
Coming after more than three days of sub-freezing weather, the season's coldest day, Friday, coupled with shortage of fuel gas throughout the city resulted in much inconvenience and in some cases real suffering.

Offices were closed, industrial plants were seriously hampered and the entire population huddled stoves in which flames were all too small.

TWO FIRE ALARMS

A gasoline stove explosion at White House Grocery No. 2, located at Camp Coleman, and smoke from a flue that had probably become partially choked during the summer and winter months, caused two runs by the Big Spring fire department Friday morning.

Damages in both instances were slight, firemen reported. The explosion which caused the first alarm was reported at 7:50 Friday morning while the second alarm from Gooch's Grocery Store was received at 10:15 o'clock Friday morning.

A fire alarm turned in Wednesday evening reporting a fire at Tansitt and McGinnis' tin shop proved to be false. The person reporting a fire passed the establishment after closing hours and noticed what appeared to be a flame, but investigation revealed the reflection from a gas stove caused the hallucination.

Temperature, according to the high school science department's thermometer located on the south side of the building, was 18 degrees at 2:10 p. m.

This was lower than the reading at any time during the daylight hours of Thursday and led to prediction the thermometer would drop further late Friday and during the night than at any time since the cold wave set in.

Temperature at high school at 9 a. m. was 14 degrees and at noon the reading was 17 degrees. Prof. Frank Boyle reported. The readings at 8:30 a. m. on thermometer downtown and on the north side of the building was nine degrees.

Lacking an accurate method of checking temperatures during the night, observers Friday were of the opinion the thermometers must have dipped to five degrees or below between midnight and 8 a. m. Friday.

The telephone company reported little trouble within the city. Lines were down, however, between Big Spring and Abilene.

Bus and train schedules had been delayed only slightly by the weather.

Zero temperatures in the Panhandle and freezing or near freezing weather over the entire state were reported.

The present cold wave's death toll was brought to at least three today with the death of a three-year-old boy, son of Mr. and Mrs. Robert J. Hale of Winters, in an automobile accident attributed to slippery roads. The deaths of a negro baby whose clothing was ignited by a gas fire turned too high to combat the bitter cold in Dallas.

BOBBY JONES, JR., IN SOCIETY

Robert Tyne Jones III, whose daddy is none other than the famous Bobby Jones of Atlanta, national open golf champion, makes his bow in Georgia society with little Miss Lewis Baker at her birthday party.

AUTO CRASH PEDAGOGS KILLS CHILD TO CONVENE

Two Women, One Man Critically Hurt In Collision

LAMPASAS, Jan. 10 (AP)—A child was fatally injured and two women and one man critically hurt in a collision between an automobile and a bus on an ice covered highway, eight miles from here, last night.

Robert L. Hale, Jr., 3, of Winters died of his injuries today. The child's parents, Mr. and Mrs. Robert Hale, were taken to a Temple hospital, Mrs. Hale suffering from a broken leg and internal injuries and Hale from internal injuries.

Mrs. Julia Shanks, 60, mother of Mrs. Hale, was treated here at the home of her son, Emmett Shanks. She was lacerated and badly bruised. Her condition was said to be serious.

The bus was driven by Bo Wilson of Austin. It did not carry any passengers. The automobile and the bus were wrecked.

The Hale car caught fire, and Wilson extinguished the flames singlehanded, then walked three miles through the freezing wind and over ice to a farm house to summon help.

The bus was enroute to Austin, and the Hales were en route to Winters from San Antonio.

Dr. F. M. Hale of Ballinger, father of the critically injured man, drove here from Ballinger last night, and reported today his son's back was broken and grave fears were held that Mrs. Hale was fatally injured.

He said Mrs. Hale had taken the child, who had an affliction in an eye, to a specialist in Austin, and Hale had gone to Austin for them in Dr. Hale's car.

The bus driver, himself injured, dragged the four occupants of the wrecked car from it just before it burst into flames. Passing motorists carried them to Lampasas and Austin. Hale, brought here, was ordered taken to a Temple hospital today when his condition appeared critical.

The mother has not been told of her child's death.

BROWNWOOD, Jan. 10 (AP)—Mrs. N. E. Weatherman, 67, was burned to death in a fire which destroyed her home last night. A new stove near her bed was believed to have become overheated, causing the blaze.

MINIMUM VOLUME IS INCREASED

50 Per Cent Of Users Will Save 40 Cents Per Month

Effective at once the rate charged customers of the Big Spring city water department will be lowered so as to bring a saving of 40 cents monthly or \$4.80 per year to sixty per cent of the 2,350 customers of the department, City Manager Verner R. Smith announced Friday.

Saving
The saving will be effected by raising from 2,000 to 3,000 per month, the amount of water to which a customer is entitled to under the minimum rate. Heretofore the minimum charge has been two dollars a month, entitling the customer to as much as 2,000 gallons. Now the same minimum charge will be made but the amount which may be used without additional charge is raised to 3,000 gallons.

Under the previous rate schedule 3,000 gallons cost \$2.40. The rate has been \$2 for 2,000 gallons or less and 40 cents per thousand gallons for the next 350,000 gallons.

Supports Self Only
This change was made under a policy the city commission has adopted that calls for the water department to be only self-supporting and not to provide an income exceeding the department's expenses that would create a surplus not needed by the department and consequently used to support other city departments.

During the calendar year 1929 the total receipts of the water department from all sources, the city manager said, was \$162,597.34. Budget requirements, or cost of operation and maintenance within the department, totaled \$45,000. Funds necessary to create interest and sinking funds to handle water department indebtedness totaled \$36,600. The total expenses, therefore, were \$81,600.

Reduce Surplus
Based on the business of the year 1929 the change in the minimum rate will reduce the department's surplus to \$8,717.34 for 1930, the city manager pointed out. Total reduction in receipts that will be caused by the rate change will be \$11,280, on the basis of 1929 business.

The expected surplus of \$8,717.34 will be sufficient only to care for emergencies and depreciation within the water department during the year, making that department just self-supporting.

No water department funds will be transferred to any other city department. That which heretofore has been transferred will be given the people in the rate reduction.

Grading Bids To Be Opened Wednesday

Bids for grading work between Runnels and Benton streets on East South First street will be opened by city officials and Texas and Pacific officials next Wednesday, Jan. 15, according to an announcement made Friday morning by V. R. Smith, city manager.

All Big Spring dirt moving contractors that are interested in the work have been invited to bid on the work. Anyone with teams, tractors or other dirt moving devices is eligible to bid on the work. Mr. Smith said. Plans and specifications of the work to be contracted next Wednesday may be secured at the offices of G. F. Duval, T & P division engineer, whose office is in the old Y. M. C. A. building near the freight depot.

YET NEWS MAN VICTIM

AUSTIN, Jan. 10 (AP)—J. A. Fernandez, dean of correspondents at the state capital, died today after he had been picked up on the sidewalk, after a fall on the ice.

Increasing cloudiness tonight and Saturday; rising temperature Saturday and in west portion tonight.

The Weather

West Texas: Mostly cloudy tonight and Saturday, becoming unsettled; somewhat warmer in north portion tonight; warmer Saturday.

East Texas: Mostly cloudy, probably unsettled near the coast, tonight and Saturday; continued cold tonight except rising temperature in northwest portion; freezing to the coast, probably including the lower Rio Grande Valley Saturday morning; slowly rising temperature Saturday. Moderate northeast to east winds on the coast.

Fewer Business Failures Occur During November

DALLAS, Jan. 10. (INS)—There were fewer business failures during November, 1929; volume of buying was greater, especially in the larger centers; thirteen per cent less debts on individual accounts than the previous month; farming operations were retarded as a result of unfavorable weather conditions, and weather conditions were generally unfavorable to livestock as rains lowered the temperatures causing the cattle to lose flesh.

Briefly, this analyzes the monthly report of the Federal Reserve Bank of Dallas, in its review of business, agricultural, livestock and industrial conditions of the Eleventh district, which comprises all Texas. The bank review is quoted in part.

"A slight slowing down in business and industry during November was reflected in reports from correspondents in the Eleventh federal district. Offsetting to some extent the decreased activity in other fields was the heavy buying at department stores in larger centers in preparation for the Christmas holidays. The November sales showed a gain of one per cent over both the previous month and the corresponding month last year.

Building Permits Decline
"Distribution of merchandise at wholesale reflected a substantial decline from the previous month of the fall season, and was considerably less than in November, 1928. The valuation of building permits issued at principal cities reflected a substantial decline, being 37 per cent less than in the previous month and 39 per cent below that a year ago.

"The business mortality rate in this district reflected an improvement during November even though the trend of failures is usually upward at this season. Both the number of insolvencies and the aggregate indebtedness were smaller than in the previous month and the indebtedness of defaulting firms was less than in the same month last year.

Bank Deposits Smaller.
"Debts to individual accounts at year, posting of title appearance for per cent less than the record volume in October, but exceeded those in the corresponding month last year by 5 per cent. The daily average of combined net demand and time deposits of member banks in the Eleventh district, after showing a seasonal increase in September and October, reflected a slight decline in November. The total of these deposits for the month was \$591,591,000 as compared to \$600,250,000 in October.

Farming Retarded
"Agricultural operations during the month were retarded as a result of unfavorable weather conditions. Nevertheless, farmers are proceeding as rapidly as possible with the harvesting of remaining crops and the preparation of the soil for next year's crops. The rains have left a good subsoil season in the ground and have been beneficial to small grains. These crops are now mostly up to a good stand and making rapid growth.

Slight Change
"The Department of Agriculture in its December 1 estimate of cotton production made only slight changes in the states attached to the Eleventh District. The estimate for Texas remained the same, and that for other states was slightly lower so that the estimate for the Eleventh District on December 1 was 4,878,000 bales as compared to 4,899,000 bales a month earlier. The department estimated that acreage abandonment in Texas since July 1 was 5.5 per cent, which was the largest for any year since 1925.

"Weather conditions the past month were unfavorable to livestock in some parts of the Eleventh District as the rains and low temperatures caused livestock to lose flesh. Nevertheless, the Department of Agriculture reports that cattle are going into the winter in fair to good shape.

"While the rains were very beneficial to wheat and oats, which are providing excellent grazing in many portions of the district, there was too much in some portions of New Mexico to permit range grass to mature properly. Range feed is reported to be short in some parts of the district, but is generally sufficient in all sections except in portions of Texas and a few localities in New Mexico."

Holder Not To Run For Miller's Place

AUSTIN, Texas, Jan. 10. (INS)—Rep. Holder, member of the legislature from Dallas county, whose home is at Lancaster, where he is publisher of a newspaper, has decided not to make the race for lieutenant governor in the primaries next July. He stated he will be a candidate for representative in the next legislature.

Holder said he will support the candidacy of W. S. Barron of Bryan, who has announced his candidacy for lieutenant governor. Barron was speaker of the House in the Forty-first legislature, and has been presiding officer in the lower branch of the legislature.

Moody Finding Convicts Cost More Than State University Students Considers Working Them

AUSTIN, Jan. 10.—Gov. Dan Moody, finding the state is spending more money on 5,000 convicts, negro, Mexican and white, than it is in educating 10,000 students in the University of Texas, has announced that he will apply the drastic lash of action to put hundreds of idle prisoners to work "unless the legislature stops me." He will support the prison locating report, which would permit the use of convict labor in building a new industrial penitentiary near Austin and create work for future convicts; but if the legislature fails to do anything about it, he will order convicts out on the roads to build 75 or 100 miles of highway this year, without further legislative action, he said. Gov. Moody, returning from a surprise inspection of the prison system said, "It is a disgrace to Texas," and announced the actual losses of the system last year were \$1,250,000 above the total production of the entire system. The losses were caused principally by floods on penal farms. The loss represented 25 per cent of the worth of the whole system, inventoried at less than \$5,000,000. Governor Moody compared this loss with the \$1,800,000 a year used in operating the University of Texas, finding it was 70 per cent of the university education bill. The additional money spent that is earned in the system made the prisoners more costly than the state's university education bill. Gov. Moody found 1115 men housed in the Huntsville walls that can properly care for only 500, he said. Over 600 were idle. A bright spot in the disgraceful picture, he said, was the clean, adequate food being given the convicts who are lying up idle. He figured out the state lost, in addition to the income of the system last year, \$1 per day for every convict in the system, which must be provided out of taxpayers' pockets. Gov. Moody said he will offer no separate prison location plan apart from the majority locating report that favors an industrial prison in 20 miles of Austin. He will help get that on the statute books, he said. This would use all idle prisoners, in manufacturing commodities for state use only. But he will, if the legislature fails to locate a new prison, immediately call on the highway department to tell him where it wants to build 70 or 100 miles of highway. He will send the convicts to do the grading and ditch-digging work, under engineering supervision of the highway department, he said. And he will go ahead with the program without further legislative authorization until and unless the legislature steps in and stops him, he declared.

K. OF P. LODGE WILL INSTALL STAFF TUESDAY

The Frontier Lodge No. 43 of the Knights of Pythias will install officers at 7:30 o'clock Tuesday evening in the K. P. Hall.

The following members will be given official posts at that time: J. B. Dalton, chancellor commander; G. R. Halley, vice commander; O. R. Bollinger, prelate; L. F. Smith, master of work; W. B. Sullivan, keeper of records and seals; O. Dubberly, master of finance; J. A. Smith, master of the exchequer; Joe Beard, inner guard; and M. L. Burns, outer guard.

The Knights of Pythias have purchased a lot on Scary street from R. C. Sanderson on which to erect a castle hall. Among plans made toward furthering this project will be a old-fashioned box supper for Knights and their families. Proceeds will be used on the building fund.

The committee appointed to arrange a program for the occasion includes: O. R. Bollinger, L. F. Smith; and Joe Beard.

Fourth Of Texas Children Not In Schools Each Day

AUSTIN, Texas, Jan. 10 (AP).—Only 75 per cent of the children enrolled in the schools of Texas are in daily attendance, according to S. M. N. Marra, state superintendent of public instruction.

While the percentage of absences includes all causes, sickness plays a large part, and in many sections malaria is the chief cause of absences, he said.

Dr. J. C. Anderson, state health officer, members of the rural school division of the state department of education and the health department staff recently held a conference and discussed plans for reducing malaria in certain sections of Texas through the county school superintendents and the rural teachers.

According to records compiled by the state health department a number of counties in Texas have reported more than 500 cases of malaria as occurring during the first 11 months of 1929. A total of over 15,000 cases were reported for the entire state, which is only a partial record as in many counties known to have malaria no cases whatever were reported, the health department revealed.

Dr. Anderson estimated that at least 30,000 cases of malaria occur in the state every year involving actual money losses of several hundred thousand dollars.

Longhorns To Have Spring Grid Drill

AUSTIN, Jan. 10 (AP)—Spring football practice at the University of Texas will be started February 3 under the direction of Clyde Littlefield, head coach and Bill James, line coach. It will last for 21 working days, rainy days and holidays being excluded. Littlefield, who also is track coach, is spending this month with his thindads. After swinging over to the grid next month he will return to the trackmen for the remainder of the year.

At the conclusion of the 21 days of practice James will coach a football class on the field, an hour each day three days a week. In this class James will demonstrate the fundamentals of the game, with special emphasis on blocking, tackling, running interference and coming out of the line.

TORONTO.—Ninety-eight people out of every 100 are financially incompetent, as Dr. S. S. Huebner, professor of insurance and commerce at the University of Pennsylvania, figures it. Only one out of ten men at the age of 65 has enough money to assure him an income of even \$50 a month. Dr. Huebner spoke to Toronto underwrites.

Pair Held In Fort Worth Wanted For Amarillo Robbery

FORT WORTH, Jan. 10 (AP)—A man and woman arrested here Tuesday will be returned to Amarillo today by the sheriff of Potter county, who arrived this morning. A warrant for the pair in connection with the burglary of an Amarillo department store about three weeks ago arrived by mail Friday. A large number of hats, ties, pajamas and other clothing was found at a hotel by police who made the arrests. Identification marks were being removed from the articles at the time. The couple was connected with the Amarillo burglary through labels on the ties.

Trio Held For Paris Robbery

PARIS, Texas, Jan. 10 (AP)—A woman and three men arrested Monday near Haworth, Okla., after a gun fight with an officer have been indicted by the Lamar county grand jury for burglary in this city. Mr. and Mrs. S. Haney of Toledo, Ohio, and J. C. Thompson and A. C. Patterson, both of Colorado, were indicted on burglary charges while Patterson and Haney also were indicted for theft of over \$50 from a Powderly, Texas, store. The quartet also was indicted Wednesday by the Bowie county grand jury for burglary at a Redwater, Texas, store.

Oklahoma Attorney Confers On Bridge Question At Austin

AUSTIN, Jan. 10 (AP)—Assistant Attorney General W. C. Lewis of Oklahoma was here today conferring with Assistant Attorney General R. M. Tilley and G. G. Wickline, bridge engineer of the state highway department, relative to closing the contract for construction of a free bridge across Red River, connecting Denison, Texas, and Durant, Okla. The contract for the bridge was let, but a suitable bond had not been put up, Lewis stated. He and Tilley will draw up a bond and take it to Dallas to be executed.

Parrot Disease Case Reported In Maryland

WASHINGTON, Jan. 10 (AP)—Surgeon General Canning of the public health service today advised avoidance of contact with recently imported parrots until officials complete an investigation of a highly fatal disease, several cases of which are thought to have been contracted from the birds in Maryland. In response to an appeal from Governor Ritchie, two public health doctors have been sent to Baltimore and Annapolis to study the condition of three persons, critically ill with what is thought to be psittacosis, or "parrot's disease," symptoms of which are similar to those of pneumonia and typhoid fever.

Houston Explosion To Be Investigated

HOUSTON, Tex., Jan. 10 (AP)—An investigation was under way here today to determine the cause of a gas explosion which injured two persons, one seriously, and ripped open one wing of an apartment house in a fashionable residential section. Mrs. L. L. Hughes, ill in bed, was cut by glass, and Jeff Cammer, 9, was burned and bruised when a wall fell on him. The youth was seen with a lighted candle before the blast, which occurred in the apartment of H. Kingsley, who said a gas leak noticed several days ago had been ordered repaired. Radiator work, prices right. Tulsa Radiator, Fender-Body Co., 815 East 3rd.—adv.

2,000,000 CABBAGES RAYMONDSVILLE, Tex., Jan. 10 (AP)—An order for 2,000,000 cabbage plants has been placed here by a produce firm in Mobile, Ala.

Best Purgative for Colds

Relieves the congestion, reduces complications, hastens recovery.

Recipes For Spanish Dishes Entered In Contest This Week

Cold Weather Sees Tendency To Warm Dishes

Brr! The women of Big Spring seem to have been affected by the low temperatures of the last few days for they weren't very active about sending in those recipes for Spanish dishes that we requested last week.

Nevertheless, we received a number of them and we believe that the recipes published today for Spanish Meat Balls, Mexican Chili and Spanish Baked Beans will find real favor in Big Spring and Howard County households. Weather like this a few last few days makes any family relish good, warming chili and all dishes made hot with heat and condiments. So, after all, we're glad we can publish recipes for these Spanish dishes today.

Raisin Recipes

Now for next week—we want to know just how raisins are used. There are hundreds of ways, we believe, but we want some unusual days in which they are used. The contest for this week is limited to recipes sent in by the ladies. No men may send recipes. What is your way of using raisins? A raisin, according to Noah Webster, is a "dried grape of a certain type." That's all very good but very appetizing dishes can be made with their aid even if they are just dried grapes. So let's have your way of using them—if your way is published we'll send you a check for one dollar.

MEXICAN CHILI

Submitted by Mrs. S. D. Kinard, Box 1403, Big Spring

Melt two heaping tablespoons lard in sauce pan and while still hot add one pound of hamburger meat broken into small pieces. Add one chopped onion, cover and simmer for twenty minutes. Add one can of tomatoes, one can of red beans (or one pound of pinto beans that have been soaked overnight). Salt to taste. Add two teaspoons chili powder and simmer 30 minutes longer.

SPANISH BAKED BEANS

Submitted by Mrs. W. B. Cotter, Garden City Route, Big Spring

2 cups white beans
2 cup molasses
1/2 cup sugar (scant)
1 teaspoon salt
4 teaspoons chili powder

Several slices of bacon
Soak beans overnight. Cook until tender, then drain and place in baking dish or pan. Mix other ingredients with enough water to cover the beans. Bake covered for an hour; then bake uncovered for about two hours. Add more water if necessary and keep top turned under to brown evenly.

SPANISH MEAT BALLS

("A One Dish Meal")
Submitted by Mrs. R. F. Jenkins, Box 1173, Big Spring

1 pound of ground meat (half beef, half fresh pork)
2 eggs
3 slices toasted bread (rolled into crumbs)

To the meat add black pepper.

Lamb Adopted To Balance Diet

The housewife is often puzzled as to what to serve with her various lamb dishes. Dressings, vegetables and sauces and add greatly to the flavor of any dish, and the delicate flavor of lamb is especially enhanced if care is taken in this matter.

The following list is an excellent guide for preparing a meal that will be both well balanced and attractive to the sense of taste.

Roast Leg of Lamb

Dressing: browned potatoes, creamed potatoes, baked potatoes, sweet potatoes, new peas, asparagus, string beans, tomatoes, cole slaw; caper or onion sauce, currant jelly sauce.

Stuffed Chops

Mashed potatoes, turnips in white sauce; brown sauce, Allemande sauce, Bechamel sauce, tomato sauce, onion sauce.

Left Overs Will Achieve Much

The following recipes once tried will prove that left-overs may be an achievement of which the housewife may be justly proud.

Ham Baked With Noodles

4 cups cooked broad noodles
1 cup ham, finely diced
2 cups thin white sauce
1-2 cup grated cheese

Put a layer of the noodles in a buttered baking dish, sprinkle with ham and cheese and cover with white sauce, which has been made by using 2 tablespoons of flour, 2 tablespoons of butter, salt and pepper, and 2 cups of milk. Fill the dish in this way. Sprinkle the top liberally with grated cheese and dot with butter. Bake in a hot oven for about twenty minutes.

Lamb en Casserole

3 cups cold cooked lamb
1 tablespoon fat
1 cup cooked carrot balls
1 cup cooked potato balls
8 small onions, boiled

Left-over gravy
Brown the lamb, cut in pieces, in the fat. Put in a baking dish. Add onions, potato, and carrot balls. Pour over the left-over gravy and enough water to moisten. Season with salt and pepper. Cover and bake in hot oven for about twenty-five minutes.

State Secretary To Speak Before East Fourth W.M.U.

Mrs. J. E. Leigh, corresponding secretary of the state Baptist Women's Missionary Union, will address the ladies of the East Fourth Street Baptist church in a special service at 2:30 o'clock Sunday afternoon, according to an announcement made by Rev. S. B. Hughes, pastor.

All persons interested are invited to attend, and an especial invitation is extended the ladies of the Missionary society of the church.

COLORADO—\$2,000,000 to be expended here for public improvements during 1930.

Suggestions For Valentine Party

St. Valentine's Day offers a fine reason for giving a dinner party where fun and frolic and sentiment may hold full sway. The table decorations should be in keeping with the day—hearts and darts and flowers. Lacy, old-fashioned valentines may serve as place cards. Pink or red is usually the predominant note in the color scheme and the foods which make up the party menu can be made to fit in very nicely with the color scheme as they do in the Valentine dinner menu suggested below.

Menu for St. Valentine Dinner

Celery stuffed with cream cheese mixed with currant jelly
Cream of Tomato soup

MENUS FOR THE DAY

By MRS. ALEXANDER GEORGE

Spanish Cake for Dessert

Chicken Souffle
Escalloped Celery
Bleedit Cranberry Sauce
Head Lettuce and Russian Dressing
Spanish Cake, Frosted Coffee

Chicken Souffle for 8
(Other fowl can be used)
4 tablespoons butter or chicken fat
5 tablespoons flour
2 cups milk
1 teaspoon salt
1-4 teaspoon paprika
2 tablespoons chopped parsley
2 tablespoons chopped pimientos
1-4 teaspoon celery salt
3 egg yolks
1 1/2 cups chopped, cooked chicken
3 egg whites, stiffly beaten

Melt butter and add flour. When blended, add milk and cook until thick sauce forms. Stir constantly. Add the salt, paprika, parsley, pimientos and egg yolks and beat 2 minutes. Fold in other ingredients and pour into a buttered pan. Set in a pan of hot water and bake 35 minutes in a moderately slow oven. Carefully unroll and surround with cream sauce.

Russian Dressing

1-2 cup stiff mayonnaise
1-4 cup chopped ripe olives
1-4 cup chopped pickle relish

Baked Ham

Potato balls with paprika butter
Heart-shaped cutouts
Harvard beets
Cranberry and grapefruit salad in heart molds
Ice cream with cherry sauce
Little cakes with pink frosting
Coffee—Pink Mint

Cut bread with small heart-shaped cookie cutter for the croutons and toast as usual.

For the potatoes, cook the balls cut out with a French potato cutter and when done roll them in melted butter which has been liberally colored with paprika.

Grape fruit molded with cranberry jelly, served on lettuce with mayonnaise dressing is a lovely-to-look-at and a delicious-to-eat salad.

A perfume finer than pine or bacon woodsmoke or wistaria!

THE ODORS that please you are many—roses and the redwoods, bacon sizzling over a hickory fire, an off-water breeze, or buttered batter cakes.

Yes, there are hundreds of these perfumes that enchant you when they come your way—and are never missed when they're absent!

There is only one that your nostrils hunt for, wait for, must have.

That is the aroma of hot coffee!

What a relief it is, when you're shaking off sleep and facing another day's problems, to have a whiff of that perfume come your way! You feel braced before ever the coffee is tasted.

That first sniff-sniff in the morning is all important. It's a tip on what is coming—coffee that will either make or break the day. If you're disappointed, nothing that happens all morning can set matters right.

You can bank on this; you'll never disappoint your sense of smell or your sense of taste with the delightful, bracing aroma or the delicious flavor of White Swan Coffee.

By controlling every step in preparation and distribution of White Swan, the Waples Platter Company makes sure that no finer coffee can be brought into your home for the price you are asked to pay. Supervision as exact as that in your own kitchen is enforced in each important process.

Weather—

(Continued from page One)

and of a fireman for the Santa Fe whose skull was fractured when he slipped and fell from his key cab at Coleman, also were reported.

Coast cities reported temperatures slightly above freezing with the mercury falling. San Antonio experienced freezing weather expected to continue into the Rio Grande Valley with possible injury to the truck gardening area tonight or Saturday.

While North Texas was promised some relief from intense cold, the official forecast of unsettled weather coupled with threatening skies, led some Panhandle cities to fear another layer of snow for the tenth fall already on the ground there.

Clarendon was unofficially the coldest city in Texas today with street thermometers reading 11 below zero. Lubbock held the official record with 10 below, the coldest weather in that South Plains city since January, 1918. At Borger, the mercury stopped at 8 below while Amarillo, Plainview, and Shamrock reported two or three degrees under the zero mark.

Other cities reporting the coldest weather of the season included Wichita Falls, where the reading of 6 above was the lowest since December 1924; Dallas, with 14.3 above for a new winter mark; Gainesville, with a new low of 11.5 above.

Port Arthur, Corpus Christi and Galveston all reported temperatures of 26 today, the fall being 36 for Port Arthur, which yesterday enjoyed the balmiest day of the winter as the mercury stood at 72. Two steamers in the gulf off Port Aransas near Corpus Christi, came into port because of the heavy fog overhanging the waters. A moderate north wind was blowing at Galveston.

Shamrock reported low hanging clouds with every indication of snow.

Telegraph and telephone repair crews were working all over the state to restore service broken down by ice-laden wires. Telephone lines between Dallas and Temple, Lampasas and Waco, went out today and no wires were available to re-route calls.

Bus traffic was resumed in many sections where it was stopped yesterday, but all lines were still running behind schedule.

OKLAHOMA CITY, Jan. 10 (AP)—With four deaths attributed to his reign, old man winter continued to hold forth in Oklahoma today.

Arrival of sub-zero weather last night retarded efforts of the state to dig out from under its worst blizzard in many years. All forms of transportation were affected, and many highways were made impassable by snow drifts.

Three of the dead were victims of coasting accidents. Mildard Thomas, 13, and Claud Russell, Jr., 16, were killed last night at Ada, when their sled, hooked to an automobile, skidded into the path of a car. Benjamin Russell, 12, was injured seriously in the same accident. James Akridge, 10, met his death in a similar accident at Elk City Wednesday night. Earl C. Hitt, 20, headton druggist, was killed when his automobile went over an embankment near Comanche.

Thermometer readings of nine below zero were reported this morning at Cherokee, Ponca City and other Northwestern Oklahoma points. Mangum, in southwestern Oklahoma, had a temperature of seven below.

NEW YORK, Jan. 10 (AP)—Falling temperatures today heralded a return of wintry weather to the east after several days of a record-breaking warm wave.

In New York temperature, after reaching 65 degrees and breaking all high records for Jan. 9, began a steady drop.

The decline was general. In Maine a light rain that froze as it fell later turned to sleet and then to snow as the temperature fell to 23 degrees.

CHICAGO, Jan. 10 (AP)—Again Middle America finds herself robed in the ermine of winter snows. A blizzard today had choked highways, snarled communication lines and impeded commerce.

Two men were dead in Chicago, one walking with head bowed against the gale into the path of a train, the other, shoveling snow, being struck down by a blizzard-blinded motorist.

The prediction was that it might be a 36-hour snowstorm, at least in the Chicago territory where traffic already was going forward with difficulty. Seven thousand needy men in Chicago found it a silver snowfall, giving them work with shovels. One thousand men were turned into the soup alone, and the roar of great trucks, carrying away the snow was added to the daily din of the district.

Temperatures generally throughout the Middle West have been moderate, but starting last night there was a slight downward movement. Temperatures in Chicago ranged around 13 above zero early today. The Dakotas and Minnesota, however, had sub-zero readings, though none approaching the severe cold of the December wave.

KANSAS CITY, Jan. 10 (AP)—

Having endured three days of snow rain and sleet in one of the most widespread blizzards ever to strike the west, the Rocky Mountain and southwestern states today faced a siege of cold which spread like a blanket over a region thousands of miles square.

Thermometers which since Monday have been dropping steadily still were going down this morning. Serious losses of livestock were reported even in the southern states, and Texas orthologists reported the phenomenon of birds moving south from haunts which normally are their comfortable winter homes.

The death of a negro girl in Dallas, whose clothing became ignited as she huddled over a small stove for warmth, was charged to the mounting death toll of the storm. Six fatalities have been reported.

Much Snow
With fifteen inches of snow and sleet on the ground here, the fall ceased yesterday morning, but the mercury dropped to zero this morning. Oklahoma City, Ponca City, Enid and other Oklahoma points reported zero readings. A foot of snow blocked highways and streets of communities unequipped to meet such an emergency.

Even farther south, in normally sunny regions of Texas, the wintry blasts moved toward the Rio Grande Valley and the gulf coast. Port Arthur, after a temperature of 72 degrees yesterday, faced freezing weather today.

Stockmen of the south and central ranges feared extensive loss as range cattle wandered over ice coated wastes and the cold added its toll.

A 60-hour, 6-inch rain at Texas made roads impassable. All the trees of one Dallas park were covered yesterday by robins flying south, pecking futilely at ice-covered hackberries.

Bus and train schedules through this southwestern region were disrupted. Only one plane arrived in Kansas City today, and none departed. Kansas points were affected by the same conditions.

States of the Eastern Rocky Mountain slope, as far south as New Mexico, fought against sub-zero temperatures which have come to be regarded as almost normal. Wyoming was in the grip of an intense, clear cold; the mercury still dropped in Montana with sub-zero readings already the rule, and Idaho and Colorado lay under the same Arctic blanket.

At Leadville it was 25 below, at Helena, 13, at Havre, 16, at Denver below zero at midnight.

Communication lines resumed schedules in that region as the snow gave way to steely blue skies.

Weather bureaus forecast a continuation of the cold over the week-end with a possible resumption of snow flurries.

SAN FRANCISCO, Jan. 10 (AP)—Clear, extremely cold weather, accompanied by heavy frosts in California, found the Pacific Coast still shivering in sub-normal temperatures today.

Except in mountainous regions and in Southern California, the pervasive cold wave was expected to continue without snow or rain for the next 24 hours. Zero, and sub-freezing temperatures were predicted by the weather bureau for the northwest states and some parts of California, where yesterday rain turned to snow and disrupted highway and railroad travel.

While frost danger to Southern California citrus districts was averted by rain, the elements caused temporary discomfort elsewhere in that region. On the ridge route to Los Angeles, fifty motorists were released by snow plows after being marooned near Sandberg.

John M. Nightingale, his wife and 7-year-old son Stanley, who had been marooned in their mountain cabin in the high Sierra 45 miles east of Sonora, Calif., since last Saturday, were found safe in their shack by two woodsmen.

Mrs. Leigh Speaks To Midland Audience

Mrs. J. E. Leigh, state corresponding secretary of the Baptist Women's Missionary Union, who has been the guest of Mrs. B. Reagan, spoke in Midland Friday and was to address a Stanton audience at 11 a. m. Sunday. She will return here to speak at the East Fourth Street Baptist church at 2:30 p. m. Sunday.

Water Increases In Edwards Well

While deepening from 2,308 feet to a present total depth of 2,315 feet, Glascock Brothers' No. 1 Edwards encountered an increase in water and fluid rose to within 150 feet of the top of the hole, according to announcements received in Big Spring Friday morning.

Operators were not certain how much deeper the well will be drilled, but intimated it will be carried on down to a second expected pay around 2,400 feet where the old Luna Oil Company No. 1 Turner had a good showing of oil about three-fourths of a mile southeast. Glascock Brothers' No. 1 Edwards is three miles west of the Coffee-Phillips pool and is 330 feet from the south line and 1,580 feet from the east line of section 13, block 23, township 2 south, T. & P. Ry. Co. survey.

isted in Big Spring several years ago was attributed to lack of definite purpose and projects by Shine Phillips, a guest of the club Friday, who was formerly a member of the Lions club in the organization's first venture in Big Spring. Mr. Phillips urged that a definite program be adopted and that uncoasting work be done to complete the job decided upon.

"Big Spring should not be a city that gauges its efforts by what some city in this section has already accomplished," said C. T. Watson, manager of the Chamber of Commerce. "We want to be the leader in our field. It's a good idea to keep an eye on our competitors, but our serious efforts should be directed at doing something the other fellow has not foreseen. Two of the outstanding projects Big Spring can now well devote its attention toward are more highways and a north and south railroad." Mr. Watson told the Lions club. The speaker said most people in Big Spring have the erroneous idea that talk of a north and south railroad will make enemies of Texas & Pacific railroad officials. On the contrary, the speaker said, the more traffic that is brought to Big Spring from north or south, the more traffic the T. & P. will haul east and west.

Other visitors introduced at Friday's meeting were the Rev. S. B. Hughes, pastor of the Fourth Street Baptist church and J. V. Bush, Howard county farm agent.

Before the meeting adjourned, Frank Boyle, president of the club, told members that C. S. Holmes, the founder of Boy Scout movement in Big Spring, has been made an honorary member of the Big Spring Lions club.

Little Theatre To Begin Rehearsals

Work on the first offering of the newly organized Little Theater will start in earnest early next week, when the cast chosen will meet for rehearsals. A meeting was scheduled for Friday evening but the cold weather has made postponement necessary. Announcement of the first meeting of the cast will be made within a few days, according to E. E. Falkenham, president.

"The Whole Town's Talking" will be the first one-act play to be produced by the Little Theater group, and selection of the cast is nearing completion.

SWANTON, Vt., Jan. 10 (AP)—Part of this town and nearby farms were inundated today as waters of the Merrimac river reached a level higher than the destructive flood of 1927. Attempts were made to dynamite an ice jam at the mouth of the river to release back waters.

Arc You Successful?

From the day that a young man starts out to seek his first position to the end of his business life, his health and personal appearance have a world to do with his success. If you are not physically fit, appetite uncertain, digestion poor, and a general sense of incapacity and weakness, take DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. Twenty-Foot Roads Sought By Solon

ATHENS, Tex., Jan. 10 (AP)—Federal aid highways will be not less than twenty feet wide if Representative H. C. Moseley succeeds in getting a bill through the forthcoming special session of the legislature. Mr. Moseley announced that he would ask Governor Moody to submit highway legislation for the purpose of passing such a measure.

"The constant increasing traffic even in centers far removed from cities has proven the eighteen foot highway inadequate," he said. He pointed out that with increased revenues derived from the gasoline tax the highway commissioner should have ample funds for paving roads twenty feet wide. "Just a matter of a few years until they will have to be widened and we can save money by starting now," said Mr. Moseley.

Fern Marie Osburne Bride Of Mr. Woodson

Fern Marie Osburne of Gainesville became the bride of Melvin Woodson of Vernon in a marriage ceremony performed in the First Christian Church parsonage at 3:35 o'clock Thursday afternoon.

The couple will make their home at 202 West North Second Street. The Rev. Claude Wingo, retiring pastor of the First Christian Church, performed the ceremony and as is his custom presented the bride and groom with a bible testament.

New Use Found By Woman For Fire Department

SAN ANTONIO, Texas, Jan. 10 (INS)—This woman evidently was to benefit for some of the tax money she pays the city for upkeep of the fire forces. She had a brand new idea about getting her car started.

"Come on out here. I need a fireman quick," she panted over the telephone.

The trucks whizzed from the station, sirens sounding and wheels clanking to the address.

"Oh I didn't need so many," the woman blushed in appreciation. "One of you would have been enough. I want you to start my car for me," she explained. The firemen obliged and returned to their station.

W. Carroll Barnett expects to return Sunday from a brief business trip in Abilene. He left Thursday.

Care In Returning Indictments Urged On Jury By Court

AUSTIN, Texas, Jan. 10 (INS)—Charging its members to be vigilant in detecting violations of the law, Judge George Cahoun has empaneled a grand jury for the 53rd district court of which Guy Collett is named foreman.

Judge Cahoun told the grand jury to be certain in their own minds that a man was guilty before they returned a bill against him, pointing out the stigma which an indictment leaves. He told the twelve men to indict any person where the evidence was sufficient but warned against indictments where evidence had been secured through illegal search warrants or illegal search. He also asked the grand jury to examine filed reports of the county officers.

Ft. Concho Building Sought For Museum

SAN ANGELO, Tex., Jan. 10 (AP)—Plans for procuring the adjutant's building of Old Fort Concho here as a home for the West Texas Museum have been arranged and action on payment arrangements is expected soon by the museum board, headed by Mrs. W. W. Carson of San Angelo.

The property deed has been executed and is being held by R. W. Brown pending payment of \$2,000 in cash and \$2,000 in notes to be paid over a period of eight years.

John P. Lee, in charge of arrangements for the Texas and Southwestern Cattle Raisers' Association convention here in March, announced that dedication of the building to the pioneer cattle raisers of West Texas will occupy a prominent part in the program.

R & R RITZ

SPORTS ON PARADE

By STANLEY NORMAN

WHAT'S THIS?

While glancing through an exchange from Houston, we glanced down Lloyd Gregory's column in the Post-Dispatch and there found a notice that Lloyd and Col. Ike Ashburn, big chamber of commerce magnate of Houston, will attend an A. & M. Club meeting in Fort Arthur in honor of Coach Tom Dennis and his Texas high school football championship Yellow Jacks.

NOW, NOW LLOYD

We have not and will not sanction some of the things Wm. Hodges of Breckenridge has said about Coach Dennis, Port Arthur citizens in general and the Yellow Jacket football team, but when the boys down the way start claiming the title without any reference to a tie game, it's taking the matter just a little too far. Port Arthur had a scrapping football team, we are willing to grant that, but surely the boys in Houston heard something about a tie game in Waco during that terrific snow storm.

WE'RE THROUGH

Some wisecracking individual will bob up and say, why bring that up again? Haven't we heard plenty about that mottled state football championship question? Well the other boys are still milling it over daily, especially Breckenridge, so we took a chance on one more effusion. Thanks for the time and consideration of reading the paragraphs.

SIX FOOTERS

Four Steer basketball squad members, all of whom seem slated for a first string berth, measure six feet or more in their abbreviated cage tops. It remains to be seen whether the boys will take advantage of their height or whether the passes will be bounced around or shot waste-high within reach of smaller opponents. Of course the ideal game would be a combination high and low passing game, but most high school players are not sufficiently accurate to mix their passing attack. Therefore, either the high type, for which the tall boys must go up in the air, must be used or the old conventional waste high pass of an average height team.

FIRST LOOK

We'll journey out to the high school gymnasium tonight and get our first look at the 1930 court machine in action. Probably the faculty-Steer game will be one of the roughest engagements played here this year. Not because there is any ill feeling existing between the pedagogues and their pupils, but it's just natural to mix on a little more personal basis with men or boys you see every day. Scrimmages between first and second squads always brings out some rough tactics that are seldom seen in actual battle.

DEEP MYSTERY

Biggs Irvin is keeping quiet about his Stanton cagers. Perhaps the tricky Tiger coach is planning a huge surprise party for the Steers. If Stanton plays basketball with the same perfection that its class B football team displayed in that district the past season, the Big Spring six footers will have all they can handle. The game will be well worth the admission simply for the keen rivalry that exists between Steers and Tigers no matter when, how or why the meeting.

ARTFUL ART

Artful Art (The Great) Shires has succeeded in clearing one set off "fixing" charges brought against him and instead of the Texan taking the court before Illinois boxing commission, Dangerous Dan Daly, the plaintiff, was suspended for life. Illinois ring officials were convinced that Daly's affidavits were not on the up and up, so they just turned the publicly seeking Cleveland youth over their knee and administered a spanking that will stay with him for life. Before Shires' case was reviewed, we expressed the opinion that the Texas boy is guilty of several offenses, but that we could not believe him implicated in the crooked dealings of which he stood accused.

GETS RESULTS

Basketball, that has been a comparatively dormant sport in Abilene is showing signs of life. Where the Eagles had 25, 30 or 40 men out trying to make the cage quintet in past years, coaches in the Abilene camp are nearly swamped with applications this season, we are told. An athletic salesman working from an Abilene house was in Big

FACULTY-STEER GAME STARTS AT 7:30

Wrestling Receives National Rating

TOURNEY TO DECIDE THE NEW KINGS

One Of Five In Each Weight Draws Bye Until Final Bout

CINCINNATI, Ohio, Jan. 10. (AP)—Wrestling, a profession which never recognized any national affiliation and frequently witnessed many muddled championship situations, was placed today by the National Boxing Association on the organized basis of all governed sports.

Stanley M. Isaacs, president of the N. B. A., which last year included the mat game in its jurisdiction, announced that effective immediately all wrestlers are subject to the benefits, championship awards, suspensions and discipline of the national organization. About 3,500 wrestlers are affected.

High Spots. High spots of the N. B. A. wrestling requirements call for defense of championships three times a year, posting of title appearance forfeits ranging up to \$5,000, public bidding by promoters for the privilege of staging championship bouts, wrestlers to accept terms of the highest bidder, national champions to be decided in recognized classes by April 20, 1930, and championship entries to be matched by public drawing.

The regulations were drawn by a committee headed by Paul Prehn, former University of Illinois wrestling coach and a past president of the N. B. A.

The N. B. A. recognized only four weights—Heavy, light-heavy, middle and welter. At present, Isaacs said, there is insufficient activity in the lighter classes to justify championships.

Five Selected. Five wrestlers were selected as worthy of an opportunity to compete for championships in each division. One man in each class was given a bye provided all five men enter the eliminations. The bye man will participate only in the final match.

Refusal of any wrestler to enter means his elimination effective in all 32 states under N. B. A. government.

Ranking heavies are Gus Sonnenberg, Providence, R. I.; Richard Shikat, Philadelphia; John Pesek, Ravenna, Nebr.; Jim London, St. Louis, and Pete Sauer (also known as Ray Steele), Tulsa, Okla. Sonnenberg was granted the bye.

Light-heavyweights recognized are Clarence Ecklund, Buffalo, Wyo.; Ted They, Portland, Ore.; Hugh Nichols, Mexia, Texas; Pinkie Gardner, Schenectady, and Joe Banaskie, Chicago. Ecklund drew the bye.

Gus Kallio, Finland, was given the middleweight bye. The other four named were Charles Fisher, Butternut, Wis.; Ralph Parquet, Spencer, Iowa; Ray Carpenter, Lancaster, Ohio, and Bobby Myers, Portland.

In the welterweight class, Jack Reynolds, Cincinnati; Billy Hallas, Canutillo, Texas; Robin Reed, Reedspoor, Ore.; Russell Vix, Los Angeles, and Charles Grip, Huntington, W. V., were named under the same conditions, Reynolds getting the bye.

Suit Has Been On San Angelo Court Docket 17 Years

SAN ANGELO, Tex., Jan. 10 (AP)—The most venerable suit on the Tom Green county docket passed another milestone and became 17 years old when the case of H. A. Wooten versus W. C. Jones was passed for settlement in district court here recently.

"I am the only original attorney in the case," said R. E. Jackson, "and it is 16 years old."

In a side-bar remark another attorney said: "Perhaps, Judge Hill (presiding) you haven't yet had time enough to consider it."

Spring this week and we asked him how the Eagles are shaping up for the indoor season. His reply was that so many candidates are out each evening that coaches have not been able to weed the squad down to a playable size and consequently the true strength this season is still a mystery. Just imagine the difference a new gymnasium makes in general interest.

BOBBY JONES MAY CAPTAIN WALKER TEAM

Golf Committee Will Soon Name Leader And Other Men

By BRIAN BELL. Associated Press Sports Writer. NEW YORK, Jan. 10 (AP)—After the meeting of the executive committee of the United States Golf Association, the big spring invasion of British golf shores will not seem so far away.

The men who say where, and how national golf competitions in the United States are to be decided planned to name a captain for the Walker Cup team, and the players who will sail for England in April to compete against Britain's best amateurs will be selected soon after the leader.

Succeeds Himself. Bobby Jones, open champion and captain of the 1928 Walker Cup team, is slated to succeed himself. Jimmy Johnston is the amateur champion, but the St. Paul star has always declared that where Bobby Jones sits is the head of the golf table. He was among the first executive committeemen to insist that the Atlanta lawyer serve another year.

Five of the eight players who repulsed the last British challenge for the Walker Cup probably will be asked to play again—Jones, Johnston, George Von Elm, Francis Olmuet and Jess Sweetser. George Olmuet appeared certain to get a place for the first time, and Dr. O. F. Willing, the Oregonian who was runner-up in the amateur championship, has earned a nomination after an absence since 1924.

If Don Moe, another great Portland golfer, can get away from his studies he may be named. Maurice McCarthy, another collegian, possibly will have to be passed by on the same ground. Eugene Homans, who tied with Jones for the medal at Pebble Beach, is another candidate, but H. Chandler Egan, amateur champion 25 years ago and a semi-finalist in the last championship, probably will stand aside for some of the dozen youngsters who can readily qualify for a place as principal or alternate.

Outmet and Sweetser have played on all five of the teams representing the United States in Walker Cup competition. Jones has been a member of four, Johnston three and Willing and Von Elm two.

McCarthy and Homans were alternates in 1928 but did not play.

PORAT AND UZCUDUN MEET

FIGHT IN NEW YORK HAS NOTHING AT STAKE, BUT FIGHTERS' HONOR

NEW YORK, Jan. 10 (AP)—With nothing at stake but flimsy reputations, Otto Von Porat, Norwegian from Chicago, and Paulino Uzcudun, Basque woodchopper, say it with gloves in Madison Square Garden tonight. The bout is for ten rounds.

Phil Scott, London fireman, has clinched the right to meet Jack Sharkey at Miami Feb. 27, so Paulino and Von Porat will have to think of something else about which to get mad. Von Porat will remember a previous meeting with the basque, who punched out a decision largely because of the Norwegian slugger's own timidity. As for Paulino he can get himself worked up over reports he is going back.

MANDELL TO MEET CUBAN

Sammy's Title Not Involved In Bout With Quintero

MIAMI BEACH, Fla., Jan. 10 (AP)—Lightweight Champion Sammy Mandell today said he was ready to repulse the left handed thrusts of Young Manuel Quintero, Cuban boxer, in the first major ring engagement of the Florida season.

Mandell meets Quintero tonight in a ten-round non-title bout at the Miami Beach Kennel club.

The champion is favored, although Quintero will be one of the few left handers Mandell has encountered.

Rain-Soaked Riviera Golf Course Fails To Dampen Ardor Of Players

Iowa Receives Committee Of Loop Officials

IOWA CITY, Ia., Jan. 10 (AP)—Hopeful at least for partial vindictive "house cleaning," University of Iowa officials prepared today to receive a committee of three delegates by the Western Conference to decide the eligibility of 13 Iowa athletes disqualified for participation in a loan fund maintained under the athletic administrative of Paul E. Belling.

The athletes were declared ineligible after a conference meeting last December, and the Hawkeye officials accompanied this act with a plea to the conference to send representatives to see if essential justice has been done. Iowa officials maintain the athletes were innocent participants in a fund that had full approval of the athletic administration.

The conference trio is headed by Thomas E. French of Ohio State. While the only formal action of the committee may take will be to pass on the eligibility of the athletes, their decision is expected to have considerable bearing on Iowa's chances for reinstatement.

BORGER—Four store of Ben Gurtz located here in recently remodeled building.

BEAUMONT—Gulf Paper Products Company launches \$250,000 industry here.

Welding, brazing and soldering Tulsa Radiator, Fender-Body Co., adv.

DALLAS, Jan. 10 (AP)—A waiting world will know tonight whether the Arkansas University Razorbacks really lack the power which has carried them to four successive Southwest Conference basketball titles, or have just been playing possum with their public.

The Texas Christian University Frogs, coached by Francis Schmidt, the man who is credited with putting Arkansas where it is on the basketball map, are in Fayetteville for a two-game series with the Porkers. Their bouts tonight and tomorrow night will tell fairly definitely whether Arkansas' long rule over conference cage circles is about to end.

Three other conference tilts are booked tonight and tomorrow. But the series at Fayetteville has the spotlight. It was a promising series to begin with, in view of Schmidt's long tenure at Arkansas, and it has become steadily more promising as the Razorbacks failed to show the form expected of them. Their succession of losses to teams in Kansas and Missouri has tilted new hope in the six other conference camps. There will be general rejoicing among Texas members if the Frogs win even one of the two games.

One other conference game is scheduled tonight, the Southern Methodist Mustang and Texas Aggies meeting at College Station. Tomorrow night the Ponies engage the Rice Institute Owls at Houston.

Texas University, leading the young race by virtue of a 39 to 24 triumph over Rice in the opening tilt Tuesday night, will make its second start against Baylor Saturday night at Waco. That will have given all seven teams a chance to show their strength.

Billiard Title At Stake Today

NEW YORK, Jan. 10 (AP)—Johnny Layton of St. Louis and Otto Reisel of Philadelphia meet tonight for the national three-cushion billiards championship, now in Layton's possession.

The defeat last night of Augie Kieckhefer, Chicago, by Tiff, Benton, Kansas City, automatically eliminated Kieckhefer and left Layton and Reisel to fight in the final.

Denton, who lost his first three starts in the tournament, conquered Kieckhefer, 50 to 26, in 38 innings for his fourth successive triumph. Earlier in the day Denton had beaten Gus Copulos of Detroit, 50 to 41, in 41 innings. Copulos also lost to Allan Hall, St. Louis star, 50 to 31, in 53 innings. Charles Jordan of Los Angeles recorded his first triumph when he defeated Harry Schuler of New York, 50 to 28, in 65 innings.

Only two matches remained to be played today—the Reisel-Layton championship game and an encounter between Kieckhefer and Une Hall with second place honors at stake.

Last Night's Fights

(By The Associated Press) NEW YORK—Larry Biello, New York, outpointed Jack Murphy, California, ten.

NEW HAVEN—Bat Battalino, New Haven, knocked out Phil Verde, Rochester, three.

PHILADELPHIA—Mickey Diamond, Philadelphia, outpointed Speedy Culbertson, Oklahoma, eight.

MIAMI—Eddie Speaks, Louisville, outpointed Harry Forbes, of Chicago, ten.

LAKE WORTH, Fla.—Joe Estrada, Mexico, and Ray Mitchell, Philadelphia, drew, ten.

HOT SPRINGS, Ark.—Johnny Mason, Cincinnati, knocked out Jack Matlock, Dallas, four.

GRAND RAPIDS, Mich.—Len Darcy, Grand Rapids, outpointed Murray Gillis, New York, ten.

Grid Mentors Name New Leaders

American Football Coaches Association's new leaders, elected in New York meeting, are W. A. Alexander of Georgia Tech, upper left, president; John F. (Chick) McChan of New York University, upper center, first vice president; Dr. Clarence Sporns, Minnesota, upper right, second vice president. Advisory committee named to cooperate with the Football Rules committee are Glenn L. (Pop) Warner, Stanford, lower left; Dr. Jack Sutherland, Pittsburgh, lower center; Robert (Bob) Zuppke, Illinois, lower right.

Dodger First Sacker May Be Out For Year

NEW YORK, Jan. 10 (AP)—Del Bissone, clouting first baseman of the Brooklyn Dodgers, is recovering in a hospital in Brooklyn from a mastoid operation performed there New Year's Day. It was the second operation Bissone had undergone since the close of the 1928 season. He was operated upon recently for sinus trouble which badly handicapped his bating last season. He will not be able to go south with the club next month and may not be in shape to start the season. If Bissone is out of the lineup when the race gets underway, Harvey Hendrick probably will be used at first base.

Selling Intoxicants To Minor Charged

Conservative Business Methods Will Be Salvation Of Baseball, Minor League Chief Tells Press

NOTE—This is the seventh of a series of stories written the Associated Press by leaders in sport, based on 1930 prospects.

By MIKE H. SEXTON, President National Baseball Association.

ROCK ISLAND, Ill., Jan. 10 (AP)—Balm spring weather and more conservative business methods by class B, C and D leagues are the only ingredients necessary to make 1930 a banner year for minor league baseball clubs.

All leagues and clubs have strengthened their positions by sales, trades, purchases of players and formation of new alliances, making the outlook bright.

Many indications point to greatly improved weather conditions for 1930. A return of the balmy spring weather such as prevailed prior to 1929 will do much to reawaken baseball interest and materially increase attendance. The late, cold and disagreeable spring weather of recent years has done much to lessen our patronage. When the baseball fans cannot sit in comfort to watch their favorite clubs in early spring games, they soon become impatient and seek other lines of amusement and recreation. Thus many of them are lost for the entire season.

In our class AA leagues, furnishing a grade of baseball almost equal to that of the major leagues, we are enjoying a very healthy business. Class A clubs, operating in cities of 150,000 to 400,000 population, also do very well. It is only in the smaller cities—class B, C and D leagues that serious financial difficulties are encountered. Many of these troubles could be avoided by the exercise of more conservative business methods.

A greater effort on the part of all small leagues to provide well balanced clubs in each city rather than the wild strenuous scrambles for pennants would do much to improve conditions and attendance. Just a little good judgment in the matter of economy will accomplish wonders.

Such judgment and better weather are all that is necessary to make 1930 our greatest season.

ROUND ROBIN PLAN ADOPTED FOR DEBATING

System Gives Schools Of County More Even Chance At Title

County championship in Inter-scholastic League debating will be settled this year by a round-robin schedule and not by the tournament plan heretofore used, according to Georgia Kirk Davis, director of debate for this county.

An explanation of how to conduct a round-robin in debate appeared in the November issue of the "Inter-scholastic Leaguer." Miss Davis said, and she expressed the hope that schools interested in this contest read the article carefully.

"Our committee wants to give every school in the county a chance to enter this contest," she continued, "but we are afraid some will overlook giving us the proper notification. Before we can make up a schedule, it will be necessary to have all entries before us. Schools are therefore urged to indicate at the earliest possible date whether they are to enter, and if so, whether they will have a boys' team, girls' team, or both."

"The great advantage of a round-robin plan over the tournament plan is that a defeat does not eliminate. No team need feel cast down or give up when defeated, for it is the percentage that determines entry in the county meet. The two teams in each division having the highest percentage in the round-robin will fight it out for championship at the county meet."

NEW POSTOFFICE. BAKERSFIELD, Tex., Jan. 10 (AP)—When sending mail to this new oil town it will no longer be necessary to address letters "via Gilvin." The Bakersfield postoffice soon will be in operation. J. V. Davis, formerly of Fort Stockton, has been named postmaster.

STANTON ON DOCKET FOR NEXT GAME

Heated Gymnasium to Insure Comfort For Basketball Fans

With the final pre-season practice session tucked under their belts, Big Spring's high school basketball hopefuls, awaited the starting whistle of the first game Friday night against the faculty.

As game time neared, prospects for one of the greatest cage seasons Big Spring has enjoyed for many moons became even brighter than had been anticipated. Lives of faculty members will be turned back for a night to college lays and high school days when they were on their toes for the season's opener.

Despite the fact that Steers, with their youth, speed and long practice, are favored to cap Friday night's game, the decision will not be a one-sided verdict.

Assurance that spectators at tonight's first basketball game will be comfortable in the high school gymnasium was received Friday morning when George Gentry, principal of the high school, announced the entire heating facilities of the high school building will be directed into the combination auditorium and gymnasium.

If Big Spring citizens are looking for a place to stay warm Friday night between the hours of 7:30 o'clock and 9 o'clock, it was suggested they try the gymnasium.

Following on the heels of the faculty tussle Friday night, the Steers will tackle their first school-bus opponents of the current season when Stanton, led by Coach Briggs Irvin, invades Big Spring Saturday night.

Stanton's cagers are inexperienced, but have been practicing about three weeks. The Tigers have not played a game this season and have been handicapped recently by the cold weather which prevented outdoor practice. Coach Irvin said his boys will give the Steers plenty of competition despite their inexperience and handicap of playing in a gymnasium. Captain Ernest Epley at guard will give the Steer sharpshooters plenty to worry about, in the opinion of Coach Irvin. Henson and Robertson at forwards, Kaderl at center and Kelley at the other guard slot will probably compose the Stanton starting lineup.

The faculty's mysterious preparation through Thursday night as the pedagogues worked behind closed doors. "Dead-eye" George Gentry and "Sharpshooter" Blankenship are rounding into midseason form while "Boss" Bill Stevens and "Straw Boss" George Brown are expected to play stellar roles for the teachers.

Fifteen Polo Teams Compete At Santone

SAN ANTONIO, Jan. 10 (AP)—Fifteen teams, with a sixteenth expected, have drawn to play in four brackets, starting the low-gallop handicap tournament, opening officially the mid-winter polo carnival next Saturday.

In the first bracket, Del Ray meets Rainbow and Concho Kids from San Angelo meet Hill Country.

The second bracket finds Fort Worth pitted against the unknown sixteenth team and Abilene against Austin.

In the third bracket the Air Corps Training Center tackles San Antonio and Cisco takes on the Second Field Artillery brigade. Wichita Falls, defending champions, meets Fredericksburg and the Third Infantry Brigade plays the First Cavalry in the fourth bracket.

Some of the games will be played Saturday (Jan. 13), some Sunday and the rest Monday.

Mrs. Matthews' Daughter Relieved Of Stomach Trouble

RANGER BROTHER SAYS ANYONE CAN SEE THE IMPROVEMENT ORGATONE HAS MADE IN THEM

The merits of a medicine are spread by testimony, and this explains the phenomenal demand and wide spread popularity of the remarkable medicine, Orgatone; those who once buy it invariably do it over and over again and tell their friends of the splendid results they have derived from its use.

Both of my daughters had been nervous and complaining with their stomachs for about two years. They seemed to have no appetite, their food would not digest and they were tired and languid all the time.

But they're looking altogether different now. I noticed in a short time after I started them on Orgatone they got full of life and energy and began to eat and enjoy their meals.

They look brighter, seem more cheerful and take an active part in amusements and social affairs with the younger set.

Genuine Orgatone may be obtained in Big Spring at the Cunningham & Phillips Drug Store.

T. U. Student Uses Magazine Article In Theme; Suspended

AUSTIN, Texas, Jan. 10 (AP)—Allegedly taking parts of a story from a popular magazine and inserting them into a college theme, was the offense which brought suspension to a student of University of Texas, whose name is being withheld by V. I. Moore, dean of the student life.

Other students have been suspended on charges of taking notes into examination rooms and quizzes, and five others have been suspended for "scholastic dishonesty," the Daily Texas, student publication announces.

Wichita Falls-Breck Road Opening To Be Commemorated

WICHITA FALLS, Tex., Jan. 10 (AP)—Wichita Falls Junior Chamber of Commerce will celebrate opening of the new highway to Breckenridge with a trade excursion to that city January 21. The boosters will leave Wichita Falls at 9:30 a. m. and make stops at Archer City, Olney, Newcastle, Graham, South Bend and Breckenridge.

QUESTION of HONOR by Ruth Cross

SYNOPSIS: Scott Glenn, young engineer, suddenly finds two disturbing elements in his life. One is Leon Morse, railroad magnate, who declares his enmity when Glenn refuses to be bribed or coerced into stopping construction of a dam which blocks Morse's right of way for a new line to the Northwest. The other is Anne Wilmot, Morse's guest at his Sierra mountain lodge and destined, according to report, to be his wife. A dance brings them together again after a chance meeting at a mountain spring and Glenn finds himself revising his harsh opinion of Anne who finds him charming. A heavy blast at the dam causes a panic which Glenn quells, only to face a

Anne was caught in the grip of a terrific lightning and thunder storm menacing crowd led by Burkhalter. Burkhalter is about to charge when Anne takes a hand. She opens the door to a room of howling babies and the men are swept aside in the rush of anxious mothers.

Chapter 11 A "HERMIT'S" HOME A half hour later, the "confidential man, Friday," was recounting to his employer the events of the evening. The two sat in Morse's study smoking.

"Pretty clever stroke, substituting the heavier charge of dynamite, eh? Of course, Bretton knew nothing about it—he would never have countenanced it. But his first assistant—what's his name? Anyway, while he was about it, he got a complete drawing of the dam."

"He says if anything should ever happen to split the bed rock there, the wall could never be rebuilt." He met Morse's questioning glance with a significant smile, and added "Burkhalter says his Mexican, Tony, can be trusted for any dare-devil stunt that will net him \$50!"

At the spring, she paused again for a drink, but leaped up quickly without so much as a glance at her own reflection in its crystal surface. How tired she had been that morning less than a week ago! Now she was tingling with energy and racing pulses. Her muscles had a new elasticity.

She accorded a single brief glance to the flat boulder which had been their table. She saw again the cool, ironic comprehension which the stranger had flashed across her hand. Her blood grew hot with resentment. He must after all pay for that look—the night of the dance she had almost thought—perhaps he wouldn't prove such a difficult case!

Curiosity, revenge, the lust of the flirt for a new scalp, the tedium of life at the Lodge—Anne had not examined her motives very closely. Perhaps there was still another which she herself did not as yet suspect. At all events—she depended thus her present rash procedure—there could be no harm in merely having a look at the hermit's hut. The higher she climbed along the needle-spongy trail, the higher leaped her mercurial spirits.

The scurrying of scared little gray squirrels, the call of a robin from a manzanita clump, the whirr of a hummingbird coming to poise above a sun-filled flower cup, the drone of wind in the pine trees, the far-off, silken whisper of innumerable mountain streams; all found echo and kinship in her own surging pulses.

She threw up her shoulders,

Under its windows lay a tiny, green-blue mountain lake, mirroring in its turquoise depths sky and mountain, cabin and barbed wire spires. To the right, a foam fringed waterfall trickled stately over a bare, towering ledge of rock. She had no doubt it was Glenn's abode.

Anne stood gazing eagerly, her face upturned. How like a strong brown nest it looked—what quiet sleep a tired man might find there after a long day's work! So far it seemed from the world in which she had spent her six and 20 years that it might have been on another planet altogether.

She was turning away regretfully, when a loud report rent the air, reverberated through the mountains, as though a cannon had gone off almost at her elbow. A white zigzag of flame tore across a darkening sky. The plummy tops of the tallest pines began to toss and sway wildly in the air.

While she looked, their straight arrow shafts bowed and twisted as in the grip of a giant's fingers.

In no time at all, the smaller trees around her were writing and mourning in a black so fierce that it all but swept her off her feet. (Copyright, Ruth Cross.)

She Weighed 89 Pounds; Gains 14

"Sargon built me up from 89 pounds to 103, an actual gain of 14 pounds. I had been almost an invalid since I had the flu. I had to put

MRS. CLARA SAUCERMAN

my large rugs in storage because I didn't have strength enough to use the vacuum cleaner. Often when I sat down I'd fall asleep from sheer exhaustion. I suffered terrible from indigestion and a pain in my back. My liver was badly out of order, too, constipation and headaches kept me miserable and my complexion was sallow.

"In all the eight years I suffered nothing reached my troubles until I got Sargon. I am now so strong and well I keep busy around the house all day without tiring. My appetite is wonderful, every trace of indigestion is gone, the Sargon Pills regulated my liver, and I'm never bothered with constipation, headaches, or any of my former troubles. I strongly urge anyone suffering as I did to start this wonderful Sargon treatment."—Mrs. Clara Saucerman, 339 N. 32nd St., Kansas City, Kans. Cunningham & Philips, Agents. —Adv.

Hoovercrats Will Be Given Plenty Of Time If Excluded

GEORGETOWN, Jan. 10.—Hoovercrat bolter candidates, if excluded from the democratic primary ballot this year, will be thrown out in plenty of time to go to court about it before the ballots close. D. W. Wilcox, democratic state executive committee chairman, told Senator Thomas B. Love of Dallas, candidate for governor, today.

Chairman Wilcox, acknowledging Love's formal application for a place on the ballot, announced the state committee will meet late this month or early in February to decide the status of bolter candidates. If the committee decides against Love and others who voted against the Smith-Robinson electors, "you will have plenty of time in which to take the matter to court and get a final decision before the names of candidates are certified," Chairman Wilcox wrote Senator Love, in a letter made public here.

"Personally, I think the committee has the authority to leave your name off the ticket, but I do not intend at this time to engage in a discussion of this question through the press or otherwise," Chairman Wilcox told the would-be primary candidate.

A recent poll of state executive committeemen disclosed a probable majority now willing to exclude the candidates from the ballot, but to admit to the primaries bolting voters willing to take the pledge anew.

Guadalupe County Adds To Treasury From Roadbed Wells

SAN MARCOS, Texas, Jan. 10 (AP)—While most counties of Texas are taking money out of the county till, Guadalupe County in the southwest region of the state, is adding money to its general fund through revenue received from oil producers on its roadbed.

One year ago Guadalupe County owned a 40 foot right of way in what now is the Darst Creek Area. Oil was discovered in the area and county officials have now leased drilling rights.

The Thurman Number 1, on what was once just another right of way of the county, is reported to be producing between 70 and 80 barrels of oil per hour, or 2,000 barrels per day.

SCOUTS SCORE PERFECT SAN ANGELO, Tex., Jan. 10 (AP)—Two troops in the Concho Valley Council, Boy Scouts of America, hold a 100 per cent record for December. B. W. Draper, scout executive of San Angelo, said they are Troop 9 of Fort Stockton and 6 of San Angelo. The percentages are based on completion of troop reports, meetings, attendance, hikes and tests.
